

God tier Farm 3201

Chapter 3201 A wonderful journey (2)

The world behind the light screen door also began to become clearer and clearer.

At this moment, everything came to an abrupt end.

Suddenly, the scene in front of Xia ruofei's eyes flashed rapidly as if he was rewinding at sixteen times the normal speed. In the blink of an eye, he returned to reality.

At this moment, the ending part of the song was played.

Xia ruofei seemed to be in a daze, as if his soul had returned to its place.

Then, he suddenly realized that he had just been listening to a song, and then he had such a fantastic experience.

The scariest thing was that Xia ruofei, who was an Aurous core stage cultivator, was so entranced by the music that he did not even notice it. He even forgot who he was and where he came from. He thought that everything that happened in space was his own experience.

Xia ruofei could still vividly remember what he had just experienced.

Although it was an illusion, Xia ruofei felt that it was not just an illusion.

His attainments in the array Dao were quite good, and he had experienced or personally arranged many illusory arrays. Even if it was an exquisite illusory array, it was difficult to achieve the effect of being in the realm and completely forgetting himself.

Furthermore, when Xia ruofei heard the ending of the song, he suddenly realized that the music he heard from the gourd – shaped pottery and the door of light in the 'illusion' seemed to be the song playing on the computer ...

While Xia ruofei was still in a daze, the music ended and the hall returned to silence.

No one made a sound.

After a long while, Xia ruofei was the first to speak. "This is the song we're looking for!"

Even though there were still a few songs that he had not heard, Xia ruofei had already stated his conclusion with certainty.

Everyone had just recovered from their shock. After hearing Xia ruofei's words, Chen Xuan couldn't help but look shocked as he said, "That's right! That's it!"

Liu Mansha nodded. "This song is indeed different from the previous 18 songs. I can feel that the previous dissonant parts have become very smooth ..." She said.

"That's true, I feel the same way as Valley master Liu ..." Mu Sheng nodded.

Xia ruofei's face revealed a strange expression. He looked at Chen Xuan, who had the same strange expression, and could not help but ask, "Did everyone see that miraculous scene just now?"

Chen Xuan, Ling Qingxue, Yu Xin 'er, and mu Jianfei all nodded in agreement.

However, Song Wei, Mu Sheng, and Liu Mansha were puzzled.

Liu Mansha saw her disciple, Yu xiner, nodding as well. She couldn't help but ask, "Xiner, what did you just see?"

"Master, you ... You didn't have that wonderful experience just now?" Yu xiner asked in surprise.

Liu Mansha frowned slightly and shook her head. "I can hear that this song is obviously much more perfect than the previous 18 songs. To be precise, I can't find any flaws. However, it was just a piece of music. I didn't have any special experiences ..."

Mu Sheng also stared at mu Jianfei and asked, "Jianfei, what did you just experience? Why don't I feel anything?"

Song Wei was also confused. She did not have any reaction after listening to the song.

"Father, let brother RUO Fei speak!" Mu Jianfei said.

He was also a little dumbfounded at this moment. He had never thought that his father, who was almost omnipotent in his heart, would actually lose to him in the matter of listening to a song ...

Xia ruofei revealed a thoughtful expression and said, "Seniors, please calm down. Let's confirm first ..." He said.

Then, Xia ruofei looked at the other people who had also heard the song.

"Brother Chen, brother Jianfei, miss Xin 'er, and Qingxue, let's confirm if the scene we all experienced was the same!" Xia ruofei said.

Chen Xuan, Ling Qingxue, and the others naturally nodded in agreement.

Xia ruofei said, "I'll go first!" After the song started, my consciousness was immersed in it. Then, it felt like a movie was playing in front of my eyes, and I felt like I was flying away from earth ..."

Chen Xuan nodded his head and continued, "I flew in the lonely space for a long time, and then I saw the moon ..."

"I flew directly to the dark side of the moon and crossed many huge craters on the way." Mu Jianfei added.

"I'm slowing down behind a crater." Yu xiner blushed and said, "then, eight lights lit up one after another ..."

"Then, a strange instrument appeared and started to play music ..." Ling Qingxue continued.

Xia ruofei was sure that they had all experienced the same thing.

He nodded and finally said, "then, as the music played, a door of light appeared. You could vaguely see that it was like a Fairyland inside, and similar music echoed from the door of light. Then, this experience ended, and everyone's consciousness returned to their bodies, right?"

Chen Xuan, Ling Qingxue, mu Jianfei, and Yu Xin 'er all nodded their heads. It was obvious that the latter part of the story was the same for everyone.

Mu Sheng and Liu Mansha were both stunned. Of course, Song Wei was also in disbelief.

In just a short time, Xia ruofei and the others had experienced such a magical scene. It was obvious that the appearance of this scene was related to the music. When it was about to end, the music was also a kind of response.

Mu Sheng and Liu Mansha knew that this experience was closely related to the secret of the token, and it contained a lot of key information, but they did not react at all.

"There's one more thing," Chen Xuan said, "has everyone noticed? Although that experience was like a dream, it's now imprinted in our minds. Every detail is clear and not a single one is missed."

Xia ruofei sensed it and nodded." "Indeed!"

This feeling was similar to the various ancient books and cultivation techniques he had received through the Jade talisman of inheritance. It was completely imprinted in his mind and could not be erased.

Xia ruofei could not help but laugh when he thought about how he had memorized the order of the eight lights. He did not need to deliberately record it because he would never forget it. After listening to the song, the experience was written into his mind.

"What's going on?" Mu Sheng couldn't help but ask, "why can't Valley master Liu, miss song, and I feel any of this? Are we in the wrong position? Do you want to change seats and listen to it again?"

Xia ruofei had already guessed it, but Mu Sheng's request was not too much, so he had no reason to refuse.

In fact, he was quite looking forward to that experience just now, and he was also wondering if he could experience it again.

And so, Mu Sheng and mu Jianfei exchanged seats. Similarly, Liu Mansha and Yu Xin 'er, Ling Qingxue and Song Wei also exchanged seats.

Then, Xia ruofei walked into the screening room again and played the song No. 19.

The melodious music reverberated in the theater.

Xia ruofei closed his eyes subconsciously, but the feeling of his consciousness leaving his body and the stars moving did not appear.

...

He opened his eyes and looked at the others, only to find that they were in the same situation as him.

Chen Xuan, Ling Qingxue, mu Jianfei, and Yu xiner had all entered the same mysterious scene as Xia ruofei. However, they did not.

So this was a one – time thing!

Mu Sheng, Liu Mansha, and Song Wei, who had not been able to enter the space and moon scenes before, did not enter the wonderful scenes after changing seats.

Everyone listened to the song until the last note was played, and the studio fell into a long silence.

Everyone was silent.

Especially Mu Sheng and Liu Mansha, they found it hard to accept. Why couldn't they play the same song as Xia ruofei, Chen Xuan, and the others?

Even their sons and disciples could do it, but they couldn't do anything at all. Where would they put their old faces?

Chapter 3202 Expanding the scope_

There was a brief silence in the recording room.

In the end, it was Liu Mansha who broke the silence. She calmly said, "Fellow Daoist Xia, I'd like to listen to the remaining versions of the song!"

"Yes," Mu Sheng nodded and said, "let's finish the rest of the song!"

Xia ruofei knew what these two golden core intermediate stage seniors were thinking. They were not willing to give up and thought that the effect of the song might vary from person to person. What if a later version of the song could also make them enter that wonderful state?

Xia ruofei knew that the possibility of this was very low. He had a feeling that the song was the only correct answer and that it would not appear again.

However, since the two of them had made this request, he could not reject them. It was just a matter of spending more time. Anyway, he had already found the song and Xia ruofei naturally would not object to listening to the last few songs.

"No problem!" He nodded.

With that, Xia ruofei walked into the screening room.

Liu Mansha and Mu Sheng didn't change seats. They were still sitting in Yu xiner and mu Jianfei's seats.

Xia ruofei operated the music arrangement software and started playing the 20th song.

The melodious music started playing in the theater again. Mu Sheng and Liu Mansha listened attentively, but to their disappointment, they did not enter that wonderful state.

At the end of the song, no one spoke.

Xia ruofei didn't say anything and played the 21st song.

After the song finished playing, Mu Sheng and Liu Mansha still didn't have any reaction.

Then it was the 22nd song, the 23rd song ...

In a short while, all 26 songs were played.

When the last note of the last song ended and the recording studio fell silent again, Mu Sheng and Liu Mansha finally gave up. They looked at each other and smiled bitterly.

Mu Sheng sighed and said, "how could this be?" Why is it that even Jian Fei is able to react to the tune, but Valley master Liu and I can't?"

Mu Jianfei's expression was strange. He felt that there was something wrong with his father's words.

"Seniors, is it because your cultivation is too high?" Chen Xuan asked after some thought. "You two are the only two intermediate golden core cultivators here today. The strongest of us left is only at the early golden core stage ..."

After Chen Xuan finished, he looked at Xia ruofei. Even though both of them were in the early golden core stage, he had to admit that Xia ruofei was much stronger than him. The person with the highest cultivation was naturally Xia ruofei.

Xia ruofei did not agree with Chen Xuan's judgment.

Although he was only in the early stage of the Aurous core stage, he was not weaker than a cultivator in the middle stage of the Aurous core stage. In terms of his psyche, he was not weaker than a cultivator in the late stage of the Aurous core stage.

If one's cultivation had reached the intermediate stage of the Golden elixir realm or even higher, he would not be able to react to the music. Xia ruofei felt that he might be like Mu Sheng and Liu Mansha.

Liu Mansha smiled bitterly and asked, "is there a restriction on cultivation?" And it's just a limit, how could there be such a thing?"

If the song didn't work when one's cultivation reached or exceeded the intermediate stage of the Golden core realm, it would be a bit of a scam.

Moreover, mu Jianfei, Yu Xin 'er, and Ling Qingxue were all Qi refining cultivators. In other words, there was only an upper limit to their cultivation level, and they didn't go offline. That was even more ridiculous.

It was as if it was tailor – made for Liu Mansha and Mu Sheng.

Xia ruofei thought for a moment and said, "This is just brother Chen's guess. We don't know what the truth is, so we can only analyze it again ... But I personally think that it may not be a limit on cultivation or even the level of music theory of the cultivators. Valley master Liu and Wei Wei's attainments in music theory are definitely higher than mine."

Ling Qingxue nodded. "I agree with RUO Fei's deduction. I know nothing about music, and Wei Wei is much better than me. However, the truth is that she has no reaction to this song. As for me, I was quickly immersed in that scene when the first note was played."

Song Wei was also feeling a little depressed. In the process of deciphering the music score, she had played the biggest role. In the final 19th song, most of the details were handled according to Song Wei's speculation, and the facts proved that her speculation was very accurate.

However, even if her analysis was accurate, it would be useless. When the music was played, she could only appreciate the beautiful tune like a bystander, but she could not immerse herself in the wonderful scene like Ling Qingxue.

“Brother Xia, I can basically confirm that tune No. 19 is the correct answer.” However, there are still a lot of questions, including the situation of senior mu and senior Liu. They are also very puzzling, so ...”

At this point, Chen Xuan paused for a moment and scanned the room before continuing, “My suggestion is to prepare for both eventualities. On one hand, we should seize the time to study some key information in that wonderful scene and strive to completely crack the secret of the token as soon as possible. On the other hand, we also need to further confirm what kind of criteria this song has for selecting its listeners. ”

Xia ruofei nodded. “I agree with brother Chen’s opinion. Regarding the first question, there are five of us who have experienced that scene. Let’s sit down and discuss it over the next two days. I think we can learn something. As for the second question, do you have any good ideas, brother Chen?”

Chapter 3203 Expanding the range (2)

Actually, Xia ruofei could more or less guess Chen Xuan’s intention. However, he would not say such things out loud. If he let Chen Xuan say it, at least he would be able to gain a favor.

“My suggestion is to expand the scope of the selection and let more cultivators listen to this song. We’ll see who can react to the song and who can’t enter the scene like senior mu and senior Liu.” We can only carry out further analysis after we obtain more data. ”

Mu Sheng said, “I think it’s possible!” However, the members must be chosen from our few powers, and they must be absolutely reliable. ”

Liu Mansha also nodded and said, “this point is very important. In addition, I would like to add that we should try to distinguish the levels. Among the participants, there should be Qi condensation and golden core cultivators. It would be best if there were intermediate golden core cultivators and above. This way, the test results will be more accurate.”

Liu Mansha turned to look at Chen Xuan after she finished speaking.

The reason was very simple. Both the surging waves sect and the soaring Flower Valley only had one intermediate stage golden core cultivator, and that was Liu Mansha and Mu Sheng. Therefore, it was impossible for them to send another intermediate stage golden core cultivator.

As for Xia ruofei, strictly speaking, he did not have his own power. Even the star Seizer sect only had one golden core cultivator, Luo Qingfeng, and he was only in the early stage of the Golden core.

Therefore, Liu Mansha could only rely on Chen Xuan and the first heaven society to add on to her opinion.

Chen Xuan’s father, the sect leader of the first heaven sect, Chen Nanfeng, was a late – Stage golden core cultivator. The first heaven sect also had two mid – Stage golden core elders. Now, only the first heaven sect could send out a high – end combat force above the middle stage of the gold core realm.

Naturally, Chen Xuan was more than happy to have all the experts of the sect listen to this song. Thus, he naturally had no objections.

Moreover, he couldn't show it, so he said with a little reservation, ""I agree. If necessary, the first heaven society is willing to send two elders of the middle gold core realm. Even my father can come to test."

Chen Xuan turned to look at Xia ruofei.

In fact, it was a little unfair to Xia ruofei to expand the scope of his knowledge. The first heaven society, the Cang lang society, and the soaring Flower Valley could all pick enough candidates, but it was not very possible for Xia ruofei.

However, the token was given by everyone. According to the current statement, Xia ruofei had 20% of the shares.

The more people there were, the more disadvantageous it would be for Xia ruofei.

Hence, not only Chen Xuan, even Mu Sheng and Liu Mansha looked at Xia ruofei.

Xia ruofei knew what everyone was worried about. He smiled and said, ""I have no opinion. As for how many people each force will send, we can discuss it together. I don't think there are many people on my side. At most, sect leader Luo will bring one more disciple, two people!"

Chen Xuan, Mu Sheng, and Liu Mansha heaved a sigh of relief.

In the end, after a discussion, each family sent out five people. Of course, Xia ruofei's side only sent two people.

Everyone had their own considerations as to why they decided on five people.

The first heaven society was going to send two mid – Stage golden core cultivators, and Chen Nanfeng would also come personally. This would use up three spots, and the remaining two spots were already the minimum allocation, because the first heaven society would definitely send an early golden core cultivator and a Qi refining cultivator.

As for the surging waves sect and soaring Flower Valley, they didn't have any more mid – Stage golden core cultivators, so they would at least send one early – Stage golden core cultivator, maybe two or three at most, and the remaining spots were naturally for Qi condensation cultivators.

In any case, since the first heaven sect had sent out five, then the surging waves sect and soaring Flower Valley naturally couldn't suffer a loss.

Xia ruofei did not have any objections. Hence, Chen Xuan and the other two immediately contacted the sect and asked them to come to the capital as soon as possible.

They had chosen Xia ruofei's courtyard house for the next stage of the test out of consideration for balance and to put Xia ruofei at ease.

Mu Sheng and Liu Mansha were the leaders of their respective sects, so they could make their own decisions. After weighing the pros and cons, they would decide on the candidates and directly inform their sects, so that the selected people could rush over as soon as possible.

Chen Xuan couldn't make the final decision. He still had to report to his father, Chen Nanfeng.

After hearing Chen Xuan's report, Chen Nanfeng did not raise any objections. Even when he personally made a trip to the capital, he agreed without any hesitation.

After deciding on the candidates, the next step was to wait for everyone to arrive.

Including the people from the star Seizer sect, there were a total of 17 people coming. Xia ruofei had also asked Wu Qiang to organize people to clean up the guest rooms in the front and middle courtyards in advance to prepare for the reception.

Fortunately, the liuhai Lane courtyard house was large enough for 17 people to live in.

Everyone's distance varied, but cultivators traveled very quickly at full speed, so everyone basically had to wait for two days at the latest.

Besides, they wouldn't just sit around and do nothing for the next two days. Xia ruofei, Chen Xuan, Ling Qingxue, Yu xiner, and mu Jianfei had already experienced the wonderful scene. Therefore, everyone mainly sat down and discussed these two days, hoping to find the key information.

Mu Sheng and Liu Mansha also joined in the discussion.

Although they had not experienced the scene before, they could obtain a lot of information from everyone's description. Moreover, they had rich cultivation experience, which would be of great help in solving the secret of the token.

Two days passed by in a flash.

Two days later, the people sent by the three sects had all arrived.

On the star Seizer sect's side, after Luo Qingfeng received Xia ruofei's notice, he immediately brought his Qi refining disciple, Wang Shan, and flew over on his flying sword.

As he had been flying with Royal Mountain, Luo Qingfeng was also exhausted.

However, he had also successfully arrived at the liuhai Lane courtyard house a day earlier.

After they arrived, Qingfeng Luo basically took on the role of half a host and took charge of the reception with King Mount.

This saved Xia ruofei a lot of trouble.

After all, these were the elites of the cultivation world. It would be inconvenient for Wu Qiang to receive them. With Luo Qingfeng's identity and status, it was quite appropriate for him to personally receive them. Even Chen Nanfeng would not feel that he was being neglected.

In fact, Chen Nanfeng had also arrived in Beijing on the first day.

However, he was the first to arrive on his flying sword. The other two mid – Aurous core stage elders and one early – Aurous core stage elder, along with a Qi condensation cultivator, fell behind.

After Chen Nanfeng arrived at the courtyard house in the capital, he had a long conversation with Xia ruofei.

This time, Xia ruofei did not feel the invisible pressure. On the contrary, he could feel the kindness from Chen Nanfeng.

Of course, Xia ruofei did not let his guard down. After all, Chen Nanfeng was one of the few people in the cultivation world who could pose a huge threat to Xia ruofei.

Just like before, Xia ruofei tried his best to let Song Wei and Ling Qingxue stay with him. This way, if anything were to happen, he would be able to bring the two of them into the spirit map space for protection.

Chen Nanfeng, Mu Sheng, and Liu Mansha were all old acquaintances, so he was not bored. He made tea and chatted with his old friends in Xia ruofei's courtyard house.

Before everyone arrived, Chen Nanfeng did not mention that he wanted to listen to the song in advance. He showed a lot of patience.

The next day, after everyone had arrived, Xia ruofei brought everyone to the underground studio.

Other than the sect leader, Chen Nanfeng, who was a late – Stage golden core cultivator, there were two mid – Stage golden core elders named Shen tianfang and han guangdi. The other early – Stage golden core elder was named Wang Fan, and the last female disciple was Xu yurou, who was in the Qi refining stage.

On the surging waves sect's side, there were two early – Stage golden core elders, mu Hua and mu Shan. Elder mu Hua had also participated in the auction previously and had met Xia ruofei once. The other three were Qi condensation disciples, two men and one woman. Their names were mu jianran, mu Jianbin, and mu Jianping. They should be the outstanding talents of the younger generation in the Canglang sect.

...

On the side of the soaring Flower Valley, there was only one early golden core elder. She was Yang Liu, who had also participated in the last auction and had a chance encounter with Xia ruofei. The remaining four were Qi refining disciples. They were Li Wan, Guo Ke, Liu Minmin, and Gao Xiaolan. They were all female disciples.

In fact, the entire flying flower Valley was made up of females, so it could be said to be a forbidden area for male cultivators.

Xia ruofei smiled and looked around. Then, he said, "Seniors, fellow Daoists, thank you for coming to the capital at the first opportunity. I will play a song next. Please listen to it carefully. Please tell me your feelings after listening to it. Thank you!"

Chapter 3204 Disappeared without a trace (1)

In order to control the scope of information, the disciples of the few sects were not aware of their mission in the capital, including Luo Qingfeng and Wang Shan of the star Seizer sect.

Of course, as the sect master of the first heaven society, Chen Nanfeng naturally knew about it.

Hence, Xia ruofei did not explain the situation clearly. He only told them to listen to a song.

Everyone had received instructions from their sect leader to follow Xia ruofei's orders after they arrived in the capital. They were to do whatever he told them to do and were not allowed to ask any questions. Hence, everyone nodded and no one asked about the purpose of this.

Xia ruofei looked at Chen Xuan, Yu Xin 'er, mu Jianfei and the others who were sitting on the outer side of the crowd. They were all like Xia ruofei, they had entered a wonderful dream after listening to the music. This time, their mission was to observe everyone's reaction when they heard the song.

Of course, Xia ruofei and the rest would ask about everyone's feelings after listening to the song. However, they could not rule out the possibility that some people would not tell the truth. Hence, it was necessary to let these people, who had personally experienced the wonderful experience, observe from the side.

Chen Xuan and the rest nodded at Xia ruofei.

Xia ruofei then walked into the screening room and started playing the song.

While the song was playing, Xia ruofei walked out of the screening room and observed the reactions of Chen Nanfeng and the others.

According to his experience, if the song was effective, it would pull people into the wonderful situation as soon as the first note was played.

Hence, after Xia ruofei looked around, he had a rough idea of who could react to the song and who could not.

Xia ruofei was mesmerized by the beautiful music while observing the cultivators who were listening to it for the first time.

As long as one entered that wondrous state once, listening to this song again would not have any effect.

He had only experienced that once.

Before he knew it, a song had finished playing.

Xia ruofei walked into the screening room, closed the music arrangement software, and then walked out of the room. The first thing he did was to cast a questioning look at Chen Nanfeng.

Chen Nanfeng revealed a bitter smile and shook his head.

Xia ruofei nodded to himself. In fact, he had already gotten the answer. It seemed that Chen Nanfeng was honest and did not lie about this matter.

Of all the people who were listening to this song for the first time, only Chen Nanfeng knew. If he wanted to pretend that he had entered that wonderful situation, he would definitely be able to tell it flawlessly.

However, Xia ruofei also paid attention to Chen Nanfeng as he played the song. He could tell that although Chen Nanfeng was listening very seriously, he had not entered the wonderful experience.

Initially, Xia ruofei was a little worried that Chen Nanfeng would force himself to say that he had a reaction to this song! If that was the case, they actually had no other choice.

In the world of cultivation, the fist was the law. Chen Nanfeng was basically unrivaled in the cultivation world on earth if the reclusive experts were not taken into account.

If the number one expert in the world of cultivation were to act shamelessly, no one would be able to do anything to him.

Fortunately, Chen Nanfeng's character was not bad, or he had other considerations, so he did not play any tricks on this matter.

Xia ruofei smiled and said, "now that everyone has heard it, we will follow our arrangements. Everyone will first report to their respective sect leaders in their respective sects. I will summarize the situation later!"

This was also arranged in advance. The various sects would first understand the situation themselves, and then everyone would analyze it together.

Even the venues of the various sects had been arranged. There were only a few relatively spacious guest rooms. Xia ruofei had even set up a sound – proof barrier for them.

So, after Xia ruofei finished, he said directly, "Sect leader Luo, Wang Shan, come with me!"

With that, Xia ruofei walked out of the studio and led Qingfeng Luo and Wang Shan to the living room of his own master suite.

After closing the door, Xia ruofei asked directly, "After listening to the song, did the two of you have any different experiences or feelings?"

Luo Qingfeng and Wang Shan were slightly stunned, and then they shook their heads at the same time.

Luo Qingfeng asked with a puzzled expression, "Great elder, this tune is quite nice. I've never heard such a melody before, but that's all!"

As Wang Shan was present, Luo Qingfeng could not address Xia ruofei as "master". It was not disrespectful to address him with the honorary title of great elder, but it would also not make him seem too flattering as the sect leader. It was obviously the most appropriate form of address.

Xia ruofei already knew the result through observation, but he still held on to a glimmer of hope. After seeing the feedback from Luo Qingfeng and Wang Shan, Xia ruofei smiled bitterly.

"It's nothing," he said. "Since you don't have any other reaction, it means that you're not fated to play this song. This matter ends here, so don't ask anymore."

Luo Qingfeng and Wang Shan nodded at the same time. Xia ruofei continued, "I'll have to trouble Royal Mountain to stay behind and help me receive these cultivators for the next two days! Sect leader Luo, if you have something to do at the sect, you can go back first."

"The entire sect has been relatively stable recently," Luo Qingfeng said with a smile. "I'm not in a hurry to go back. Why don't I stay and help?"

Chapter 3205 Disappeared without a trace (2)

Xia ruofei thought for a while and said, "that's good. I'll have to trouble sect leader Luo."

.....

The first heaven sect, the surging waves sect, and the flying flower Valley were also in their respective guest rooms, questioning the elders and disciples that had been temporarily recruited.

The three sects asked one – on – one questions while the others waited outside. However, they were not allowed to communicate with each other.

Chen Xuan, mu Jianfei, and Yu Xin 'er were also helping each other in their respective guest rooms.

The results were out very quickly.

Xia ruofei, Chen Nanfeng, Mu Sheng, and Liu Mansha went to the living room of the master's room in the middle courtyard. Xia ruofei set up a soundproof barrier and asked, ""Seniors, what's the situation? The two from our star Seizer sect have no reaction to the music ..."

"I'm ashamed to say this," Chen Nanfeng said with a bitter smile. "I'm the sect master of the Tianyi sect, but I can't sense the music. Among the five people from the first heaven society, only two of us successfully entered the situation you described. They were Shen tianfang and Xu yurou ..."

After Chen Nanfeng finished speaking, Mu Sheng and Liu Mansha both frowned slightly at the same time.

This was not good news for them.

This was because Shen tianfang, an elder of the first heaven school, was an intermediate – Stage golden core cultivator.

The fact that Shen tianfang was able to react to music meant that cultivation was not the criteria for the selection of music pieces. The two of them did not react to the music because their cultivation was too high, but because they did not meet the selection criteria in other aspects.

Or to be more precise, it should be that they did not meet the token creator's screening criteria.

Of course, what comforted Mu Sheng and Liu Mansha was that Chen Nanfeng, a late – Stage golden core cultivator, had also become their "brother in the same boat" as them.

But no matter what, the heavenly sect had three people who met the criteria, and they were at the mid – Stage, early – Stage, and Qi condensation realm respectively. It could be said that the cultivation levels were very evenly distributed.

However, Mu Sheng and Liu Mansha's sects were not in such a good situation ...

Liu Mansha smiled bitterly. "Our flying flower Valley was almost completely annihilated. It was a good thing that elder Yang Liu was able to react to the music and enter that wonderful situation."

"We are elder mu Hua and that girl mu Jianping. Both of us can respond to music," Mu Sheng said.

Xia ruofei did a mental comparison and realized that the three sect leaders had not lied about this matter. These people who met the criteria were the same as what he had observed.

The first heaven society now had three people. They were Shen tianfang, who was in the intermediate stage of the Golden core realm, Chen Xuan, who was in the early stage of the Golden core realm, and Xu yurou, who was in the Qi refining realm.

The surging waves sect also sent three people. They were mu Hua, who was in the early golden core stage, and mu Jianfei and mu Jianping, who were in the Qi refinement stage.

There were two from the flying flower Valley. They were elder Yang Liu, an early jiedan stage cultivator, and Yu Xin 'er, a Qi condensation disciple.

Xia ruofei was limited by his lack of influence. Luo Qingfeng and Wang Shan did not meet the requirements, so he should have been alone. However, Ling Qingxue had already reacted to the music and was considered a qualified candidate. Ling Qingxue was naturally on Xia ruofei's side, so there were actually two people on Xia ruofei's side. They were in the beginning stage of the Golden elixir realm and the Qi refining realm.

Calculating it, this was already not much different from the situation of the flying flower Valley.

In terms of absolute power, Xia ruofei's side was stronger. Ling Qingxue's cultivation might not be as high as Yu xiner 's, but Xia ruofei's power was far stronger than Yang Liu' s.

Xia ruofei quickly summarized the situation in his mind and said,""In that case, let's have the fellow Daoists who meet the conditions stay. Let's continue to discuss some key information in that wonderful situation! As for the other fellow Daoists who don't meet the requirements and are willing to stay in the capital, I'll have someone make arrangements for them. If they want to go back, they can start their return journey now. "

Then, Xia ruofei added,""Of course, sect leader Chen, sect leader mu, and valley master Liu will stay to take charge of the situation."

Embarrassment flashed across the faces of Chen Nanfeng and the other two.

Speaking of which, the three of them didn't meet the requirements, but they were the leaders of their respective sects, so they naturally couldn't be the same as ordinary disciples. Furthermore, there were many things that needed their approval. For example, Chen Xuan basically couldn't make any decisions and had to ask Chen Nanfeng for instructions.

Therefore, even if the three of them didn't meet the conditions, they had to stay.

"Elders and disciples who don't meet the requirements should leave the capital," Chen Nanfeng said."Let everyone go back!"

Mu Sheng and Liu Mansha both nodded in agreement.

After all, what everyone was most concerned about right now was still the cracking of the token's Secret.

Soon, the three sects had arranged everything. Those disciples who did not meet the requirements, under the guidance of the elders, hurried back thousands of miles.

Those who were chosen by the music would stay in the courtyard house in liuhai Lane.

Soon, everyone was gathered in the recording room in the basement. Xia ruofei looked around and said with a smile, "Everyone here is fated with that song. Everyone has experienced that wonderful and unforgettable scene. However, some fellow Daoists may not know the origin of this song. Let me introduce it to everyone first."

Mu Hua and the others immediately looked at Xia ruofei.

"I have to start from the five Saints token ..." Xia ruofei said.

Then, Xia ruofei told everyone about the hard work they had put in, the detours they had taken, and the results they had achieved. He did not hide anything from them. At the end, he naturally mentioned the wonderful song.

At this time, mu Hua and the others realized that the scene they had experienced while listening to the song was actually related to the legendary five sages token!

Everyone became excited. Even Shen tianfang, who was in the intermediate stage of the Aurous core stage, could not help but be slightly shocked.

At this time, Chen Nanfeng stood up and said, "Everyone has listened to fellow Daoist Xia's introduction. I hope that everyone will first watch their mouths. This matter is of great importance, so you must not leak this information. In addition ... You're all chosen by the music, so the secret of cracking the token will fall on you. I hope that everyone can work together ..."

As the number one person in the cultivation world, Chen Nanfeng was naturally very confident when he said these words.

At this moment, Mu Sheng's expression suddenly changed and he could not help but cry out.

"What happened?" Chen Nanfeng quickly asked.

Mu Sheng's face turned very ugly and he said, "My five – Saint token has disappeared! I put it in my storage ring, how did it suddenly disappear! I've really seen a ghost!"

In fact, after scanning the floating point image, everyone had already separated the five Holy badges and saved their own badges.

Mu Sheng was looking for something in the storage ring just now and accidentally found that the five Saints token was gone. He scanned every corner of the storage ring with his spiritual power but could not find the token.

As soon as Mu Sheng said this, everyone's face changed.

Very quickly, Liu Mansha also looked as if she had seen a ghost and said, "My ... My token is also gone!"

Chen Nanfeng's expression changed as he looked at Chen Xuan and asked, "Xuan 'er, where are our two tokens?"

The first heaven society was the only sect that had two five sacred medallions. Chen Nanfeng had given the medallions to Chen Xuan when he left the mountain to train. When Chen Nanfeng rushed to the capital yesterday, he didn't take the medallions back and gave them to Chen Xuan for safekeeping.

Chen Xuan's face turned pale, and even his voice was trembling. "They're gone ... Two of them are gone ... What's going on?"

At this moment, everyone remembered that there was another owner of the token, so they all turned to look at Xia ruofei.

...

Xia ruofei forced a smile. "Don't look at me ... Senior mu said that his token was missing. I immediately checked my own token. It's indeed gone."

Xia ruofei's five – Saint token was placed in the spirit map space but it had disappeared without a trace. Furthermore, Xia ruofei did not even notice it.

Xia ruofei now had absolute control over the spirit map space. It was impossible for a token to disappear in the space without him realizing it.

So, Xia ruofei was actually quite shocked.

Of course, he was shocked by such an ingenious method, not by the disappearance of the token.

Chapter 3206 Time is tight (1)

Xia ruofei had already learned from master Yuntai that one of the mysterious characteristics of the rising Dragon Token was that it would disappear mysteriously every three hundred years or so, and then reappear in every corner of the cultivation world after fifty years or so.

These three hundred years or so were not a clear time. Sometimes, the token would disappear after three hundred years, and sometimes it would be slightly longer.

Xia ruofei could judge that the token had been in the spirit map space for at least three hundred years based on the age of the previous owner, immortal mountain river. In other words, according to the rules of the past, the token could disappear at any time. Hence, when he knew about this characteristic, he had always felt a sense of urgency.

This was the main reason why Xia ruofei was willing to take the risk and reveal that he had the last token. He was also actively pushing for the secret research of the token.

Xia ruofei knew that the token would disappear mysteriously sooner or later. This day could come at any time.

However, they didn't expect that just as they had a little progress in their research on the token, it really disappeared.

Thinking of this, Xia ruofei could not help but feel a little scared.

If he didn't work hard to push the research of the token, the next time the token would appear would be 50 years later. For a young man in his 20s, 50 years was a long time.

Xia ruofei knew about this special characteristic of the rising Dragon Token, but the other cultivators, including the late – Stage golden core Chen Nanfeng, had no idea.

Therefore, everyone seemed to be in a panic.

Chen Nanfeng frowned and said, "how could this happen?" Everyone's tokens are stored in their storage space, so who would have such a heaven – defying method to steal the token without anyone knowing?"

Xia ruofei thought to himself, "luckily, after scanning the high – definition image of the floating point pattern, everyone separated the token and kept it separately. If it was still in one state and kept by one person, it would be impossible to wash away the secret of Qianqian's research on the token. Everyone secretly regarded Xia ruofei as the main person. So if it was kept by one person, it would probably be Xia ruofei."

Mu Sheng and Liu Mansha didn't have any clue either. They were the ones who had personally taken care of the token, so they lost it for no reason. If it had been stolen or snatched away, at least there would be a target. But now, there was no clue at all.

Xia ruofei thought for a while and said, "seniors, my master once told me that this token would disappear mysteriously every 300 years or so. No matter if it was placed in a storage treasure, a heavily guarded treasure vault, or even a forbidden area, the result would be the same. It would disappear into thin air as if it had never appeared here. So ... I think this might be the situation this time ..."

Chen Nanfeng's expression couldn't help but change as he quickly asked, "Fellow Daoist Xia, did your master also give you that token?"

Xia ruofei nodded and said, "that's right. Master told me this when he passed me the token." Therefore, I think that the disappearance of the token this time is not due to the theft of an expert, but rather the time for the token to automatically disappear."

Xia ruofei didn't have a master. He didn't mention much about this master on purpose to create a sense of mystery.

Chen Nanfeng had already guessed that Xia ruofei's master was the primordial soul Stage elder of the star Seizer sect. Hence, he did not have any suspicions at all. Instead, he paid great attention to this new piece of information.

In Chen Nanfeng's opinion, it was a little unreasonable for Xia ruofei to take out the token and actively study it. But now, it seemed to make sense.

"If that's the case, it's all thanks to little brother Xia this time!" Mu Sheng said.

Liu Mansha also regained her senses. She looked deeply at Xia ruofei and said, "Yup! Now that we've grasped the most crucial information about the token, even if it disappears, we can still continue to explore. Fellow Daoist Xia's contribution can't be overlooked for being able to make such important progress in such a short time!"

Chen Nanfeng also let out a sigh of relief. He smiled and said, "Indeed! Although the medallion is gone, we can still continue our research on it. If it wasn't for fellow Daoist Xia, we might not have made any progress until the medallion disappeared, and all our efforts over the past few decades would have been in vain!"

Xia ruofei replied humbly, "seniors, I dare not claim credit for it!" This was the result of everyone's hard work. By the way, my master also told me that after the token disappeared, it will appear in every corner of the cultivation world about fifty years later. In the end, everyone will still be able to collect it. "

"Oh? There's such a thing?" This was the first time Chen Nanfeng had heard of such a thing, and his interest was piqued.

"Yes." Xia ruofei nodded and said, "master also said that the new token will look the same after combining, but the floating point patterns are different each time ..."

Chen Nanfeng and the others looked at each other in shock.

First of all, for Xia ruofei's master to know such important information, there was a high probability that he had experienced the appearance and disappearance of the token several times. This mysterious master must have lived for at least six to seven hundred years, or even longer. This way, the identity of Xia ruofei's "master" seemed to be closer to that of the primordial soul Stage master that Chen Nanfeng had guessed.

Chapter 3207 Time is tight (2)

Secondly, Xia ruofei and the others had already deciphered the floating point diagrams once. If the information provided by Xia ruofei was true and the floating point diagrams were different each time, it meant that the number combinations that were deciphered would be different as well. In the end, it would mean that a new song would be produced!

Chen Nanfeng pondered for a long time before finally saying, "This means that every three hundred and fifty years or so, the token will provide a completely different song! What does this mean?"

"Sect leader Chen, I'll analyze the situation first!" Xia ruofei said after some thought.

"Alright, we're all ears!" Chen Nanfeng quickly said.

It seemed that Xia ruofei had more information than them. Chen Nanfeng and the others would naturally pay attention to Xia ruofei's analysis of the situation.

Xia ruofei said, "the most direct understanding is that different music pieces provide different information. Otherwise, it would not be so troublesome."

Everyone nodded in agreement.

Xia ruofei continued, "most of you here have experienced the experience on the moon. I personally feel that ... This song should be playing the role of a map." In other words, there might really be such a mysterious realm on the dark side of the moon. If we follow the music we heard and find the ring – shaped mountain, we might be able to enter the mysterious realm. "

Everyone revealed a thoughtful expression.

In fact, Xia ruofei's deduction was the most direct. It was also the first possibility that everyone thought of after receiving so much information.

"Fellow Daoist Xia, do you mean that we should explore the moon?" Chen Nanfeng asked after a moment of silence.

Although golden core stage cultivators could already ride their flying swords, they were still far from being able to fly in the sky and burrow into the ground. They were even more impossible to fly out of the atmosphere and enter outer space. As for the distance between the moon and earth, for golden core stage cultivators, it was even more distant.

In fact, to Chen Nanfeng and the other older cultivators, the moon was only a concept in the legends that they had heard of when they were young.

If there really was such a mystical realm on the moon, could it be the legendary Moon Palace?

Xia ruofei smiled and nodded. "The only way to verify this guess is to find that crater and try to open a secret realm."

In fact, if they could find the crater, they could basically confirm that the illusion created by the music was real and not a virtual image.

"It's not easy to go to the moon," Chen Nanfeng said with a slight frown.

"Let's not discuss this for now." Xia ruofei said, "sect leader Chen, we are now analyzing which one is the most likely. As for how to achieve it, that is the next step."

Chen Nanfeng nodded in agreement and said, "Fellow Daoist Xia, please continue."

Xia ruofei nodded and said, "back to the token." As I said just now, the change in the floating point pattern of the token means that even if we collect another five tokens in 50 years, we should get a different song. According to his experience, the message conveyed by the new song should be different. What does this mean?"

After Xia ruofei asked this question, he looked at everyone quietly and waited for them to think about it.

Everyone present was an elite in the world of cultivation, so there was no need to think hard about such a simple question. Soon, Mu Sheng's face slightly changed and he said, "Changing the floating point pattern means changing the song. This means that the entrance to the secret plane on the moon may not be completely fixed. The next time a new song appears, it should be conveying information about the new secret plane entrance! "In this way, all the seemingly unreasonable situations have a reasonable explanation!"

Xia ruofei nodded and said, "I have the same thoughts as sect leader mu. I think the disappearance of the token has already sounded the alarm for us. That is the secret realm that might exist on the moon. The location of the entrance might change very soon. When that time comes, even if we find the crater, we might not be able to get anything! And the token that we've worked so hard to obtain, and the song that we've spent so much effort to decipher, will also become worthless!"

"That's right." Chen Nanfeng nodded and said, "although I didn't see the scene you described with my own eyes, the design of the token to convey the message is so exquisite. I'm afraid that Mystic realm must be very impressive! If he could enter, he would definitely gain a lot! Fellow Daoist Xia, do you mean that ... We should set off as soon as possible to find the entrance to the secret realm?"

Xia ruofei nodded. "That's right. Since we know that the entrance might move, we have to hurry!"

Mu Sheng smiled bitterly and said, "that's true, but how can we get to the moon?" Even if it's with the help of a flying boat, I'm afraid only sect leader Chen has the ability to do so!"

Chen Nanfeng also revealed a bitter smile and said, "Brother mu, you really think too highly of me! Even a nascent soul expert would find it difficult to reach the moon safely, let alone a mere late Jindan like me. When they left the ground to a certain height, the air would become very thin, or even completely without air. In such an environment, Yuanying stage Masters could not survive for a long time. Moreover ... The moon is too far away from here ..."

Xia ruofei said, "the moon is one of Earth's satellites. It's the closest to us among all the extraterrestrial planets. However, it's only relative. The moon has always been revolving around earth. Its closest distance to us is about 363000 kilometers, which is 726000 miles. At its furthest, the distance between Earth and the Moon was 405000 kilometers, which was 810000 li ..."

For modern people, this information was basically common knowledge. Even if they did not know the exact data, the search engine was so convenient now that they could find out by simply checking the internet.

In fact, on the day Xia ruofei finished listening to the song, he had already searched for information about the moon on the internet. Hence, the data was readily available to him.

Xia ruofei's words made everyone fall silent.

Even for cultivators who could ride flying swords, a distance of 700000 to 800000 li was an extremely long distance.

The speed of a cultivator's flying sword was faster than a commercial plane, but it was far from enough to cover a distance of seven to eight hundred thousand miles.

Chen Nanfeng furrowed his brows and said, "if I fly on a sword, I can fly about four to five thousand li in two hours. Even if I don't sleep or rest, it will take me four hundred hours to cover seven to eight hundred thousand li ... That's sixteen to seventeen days ... And it's impossible for me to fly at full speed for sixteen to seventeen days in a row. The vital Qi in my body can't support such a long time of flight. Even if I take breaks in between, I can't fly this long in a month!"

"Brother Chen's flying speed is already extremely fast," Mu Sheng said with a wry smile. "If I were to fly, I wouldn't be able to fly for another half a month!"

Xia ruofei said, "actually, the long distance is just one aspect. There are bigger difficulties!" As sect leader Chen said, the higher the altitude, the thinner the air. In fact, the Earth's atmosphere is only about 2000 li thick. In other words, if you go above 2000 Li, you will be in an absolute vacuum that you can't breathe."

In fact, other than the fact that it was impossible to breathe in outer space, danger was everywhere, including cosmic rays, ultra-low temperatures, and so on. Moreover, if humans were exposed to a vacuum, their internal organs would definitely explode instantly due to the pressure difference. Even if a cultivator's body was strong, they could not survive in such an environment for a long time.

However, not being able to breathe was already a big problem. Xia ruofei naturally did not need to explain the dangers of outer space.

Chapter 3208 Flying in the sky and Embracing the Moon (1)

“It seems like it’ll be really difficult to get to the moon!” Chen Nanfeng said with a worried expression.

Picking the stars and summoning the moon was undoubtedly something that only the legendary mighty figures could do. Chen Nanfeng was a late – Stage golden core cultivator and was still a step away from the nascent Soul Stage. However, compared to those mighty figures who could fly in the sky and burrow underground, there was still a huge gap.

Chen Nanfeng thought of Xia ruofei’s “master”. If his deduction was correct, the Grandmaster of the star Seizer sect, senior Chi Yun, was already a primordial soul Stage cultivator more than 500 years ago. If he was still alive, he might have already reached the leaving aperture stage.

Chen Nanfeng could not even begin to imagine such a cultivation base. He felt that a leaving aperture stage mighty figure might be able to reach the moon.

So, Chen Nanfeng looked at Xia ruofei and asked, “Fellow Daoist Xia, do you have any way to overcome these difficulties?”

In Chen Nanfeng’s opinion, among all of them, perhaps only Xia ruofei could come up with a solution. The others, including Mu Sheng and Liu Mansha, were not even as strong as him. They could not possibly have any good solutions.

Mu Sheng and the others thought so too, so they all looked at Xia ruofei with hope.

Of course, they did not think that the young Xia ruofei had such abilities. They were just full of respect and anticipation for the “master” behind Xia ruofei.

Xia ruofei could not help but smile bitterly.

“To be honest,” he said after a moment of silence, “my master has never mentioned anything about the moon to me. I guess this is the first time the token has been cracked. My master doesn’t know that the secret of the token is related to the moon ...”

Everyone nodded their heads thoughtfully.

This was easy to understand. If someone had solved the secret of the token earlier, the Legend of the Five sages token would not have spread so far. Moreover, everyone was very clear about the process of solving the floating point pattern. If it was not for the help of a supercomputer, even the mighty people of the primordial spirit stage and the leaving aperture stage would not be able to complete it in their lifetime if they tried to eliminate all the possibilities. Hence, it was normal that Xia ruofei’s master did not know the specific information contained in the token.

Xia ruofei continued, “as for going to the moon, I’m afraid it’s impossible to ask master for help.” He’s always the one looking for me, and I can’t find him if I take the initiative. “It’s been a few days since the music pieces have been selected. If the old man wanted to help, he would have appeared a long time ago. Now that he hasn’t come to me, it means that he won’t interfere in this matter. Perhaps ... This is also a form of training for me by the old man!”

Xia ruofei's words were reasonable, and no one had any doubts.

On the contrary, everyone was even more in awe of Xia ruofei's master. In the eyes of Chen Nanfeng, the number one cultivator in the world of cultivation, this was a hell – Level mission. He was actually at ease and used it to train his disciple. This was the demeanor of an expert!

Mu Sheng sighed and said, "It seems like it's impossible to take a shortcut. We can only rely on ourselves!"

"Mm! Let's discuss if there's any other way!" Chen Nanfeng said, "even if it's dangerous, we must complete this moon trip!"

Chen Xuan, who had been silent all this while, suddenly spoke up, "Father, seniors, fellow cultivators, do you think it's possible for us to go to the moon by boat?"

"We still don't know if the flying boat can fly in outer space as fellow Daoist Xia said," Chen Nanfeng said. "In addition ... The problem of breathing is still not solved."

Cultivators could reduce the need for oxygen through internal breathing. It was generally not a problem to hold it for half an hour or an hour. However, a one – way journey would take more than ten days. It was impossible to not breathe. This was also an obstacle that could not be bypassed.

Xia ruofei had been quietly listening to everyone. When he saw Chen Nanfeng talking about breathing, he said, "Seniors, the problem of breathing can perhaps be solved with modern technology."

Chen Xuan's eyes lit up upon hearing this. "Brother Xia, are you talking about the kind of clothes that astronauts wear?"

Xia ruofei nodded. "To be precise, it's an EVA suit. Although it's a little heavy, it can be very useful."

"Astronauts are just ordinary people. After they put on the spacesuits, they can be directly exposed to space because of the protection of the spacesuits. It can pressure the interior of the spacesuits to maintain normal air pressure, and it can also provide oxygen. Some of them even have jet spray devices. In fact, it's a small aircraft."

Chen Nanfeng, Mu Sheng, and the others naturally did not understand this knowledge. They also felt that it was unbelievable that these ant – like ordinary people could solve a problem that even cultivators could not solve.

However, when they thought of the floating point pattern on the token, which was cracked by the Super computer invented by ordinary people, everyone felt relieved.

Sometimes, modern technology could really play a role that even cultivators couldn't.

Xia ruofei looked at Chen Nanfeng and the rest, then added with a smile, "In fact, these ordinary people have successfully landed on the moon in the 1960s. They relied on modern technology."

Chen Nanfeng and the others were even more shocked when they heard this. Liu Mansha couldn't help but say, "70 to 80 years ago, ordinary people already landed on the moon?"

Chapter 3209 Flying in the sky and Embracing the Moon (2)

Liu Mansha's disciple, Yu xiner, nodded and said, "Master, that's true. At that time, it was an arms race between two superpowers, so many projects were more radical and rushed. However, the Americans did successfully land on the moon in the 1960s."

Yu Xin 'er was also a young person. She had once lived in modern society and even had a postgraduate degree. Therefore, she was very clear about the historical common sense of the Cold War and the arms race between the two superpowers.

Xia ruofei chuckled and said, "there are also some doubts on the internet. They say that the Americans landing on the moon is a huge scam and a fake." However, this is not the scope of our discussion. In fact, even 70 to 80 years ago, human technology could already achieve the moon landing. So, with the help of some modern technology, we may be able to make our moon landing journey smoother. "

"Indeed, the EVA suit can provide both pressurized and oxygen. However, there's a limit to the amount of oxygen it can provide. In any case, I don't think it'll last for half a month!" Chen Xuan replied.

Xia ruofei smiled and said, "I think it's five to eight hours!" Even with the backup oxygen tank, it shouldn't exceed nine hours. Naturally, it's far from enough. "

"However ..." Xia ruofei changed the topic. "Modern spacesuits are all modular. As long as we prepare enough oxygen modules and replace them after use, theoretically, we should be able to last long enough."

"I still need to prepare a few more spacesuits as backup." Yu Xin 'er thought for a moment. "After all, it'll be very dangerous if the spacesuits malfunctioned during such a long voyage."

Xia ruofei nodded and smiled. "That's true. Whether it's oxygen or the spacesuits, we have to calculate it according to the return trip and leave enough oxygen. Otherwise, it'll be quite dangerous if we run out of oxygen on the way!"

Xia ruofei, Chen Xuan, Yu xiner, and the other young people started to discuss the oxygen supply for the journey. Chen Nanfeng and the other older generation cultivators could not even interrupt.

In the end, Xia ruofei said, "in theory, the plan we just discussed should be able to solve most of the problems." What's more important now is whether the airboat can fly in outer space and whether its performance will be affected if it can. "

"That's right." Chen Xuan nodded. "Our discussion will be meaningless if the flying boat can't be used. It's simply unrealistic to rely on sword Kinesis flight to the moon. However, I still have one question. Where are we going to get so many spacesuits and support modules? You can't find this on the market. "

Mu Sheng asked, "nephew, didn't you just say that the United States are using this to land on the moon?" "Also, didn't you just say that some people from China have entered outer space and have such spacesuits? can't we just go and get them? Let's not touch the Chinese for now. It'll be a waste not to take the American stuff!"

Xia ruofei couldn't help but be shocked. Stealing a spacesuit from NASA? If it were golden core cultivators like Mu Sheng or Chen Xuan, they would definitely be able to destroy NASA. It wouldn't be difficult for them to steal a few spacesuits.

However, Xia ruofei still shook his head and said, "I'll think of a way to get some through legal channels. If it doesn't work, we'll go and ... Get it!"

Xia ruofei felt that the word "steal" was a bit uncouth, so he copied Mu Sheng and used the word "take".

"Can fellow Daoist Xia come up with a solution?" Liu Mansha asked.

"I'll try!" Xia ruofei said, "I'll ask my friend United States to think of a way to see if there are any legal channels to solve the problem of the spacesuits."

"Alright!" Chen Nanfeng said. Then I'll leave this matter to fellow Daoist Xia! If there's any cost, our sects will bear it together!"

Xia ruofei smiled. "The spacesuits are definitely not cheap. However, money is nothing to us. It's best to use money to solve our problems!"

Chen Nanfeng and the others all nodded in agreement.

Xia ruofei continued, "putting aside the issue of whether the flying boat can be used, we still need to determine the candidates for the moon." Due to the harsh environment and limited resources, we can't have too many people. "

At this point, Xia ruofei looked at Chen Nanfeng and the others. After hesitating for a while, he said, "First of all, I think ... We should choose people who can sense the music!"

Xia ruofei's words were equivalent to excluding Chen Nanfeng, Mu Sheng, and Liu Mansha, the three masters.

The three of them were naturally not too willing, and they all slightly frowned in unison.

Xia ruofei said, "seniors, please don't misunderstand. I'm just thinking that the screening mechanism of this song is so complicated, and we haven't figured out the criteria yet. I think it's best to follow the results of the screening. If we can't sense the wonderful situation of the song and force our way in, I'm afraid there will be some unknown dangers." "You must know that the moon is seven to eight hundred thousand li away from earth. There's not even a blade of grass, no one, not even air. If we really encounter any danger, I think ... The possibility of survival is extremely low!"

Chen Nanfeng and the other two all revealed thoughtful expressions.

To be honest, with their cultivation base, they could not be said to be able to do whatever they wanted in the cultivation world, but they could not meet many evenly matched opponents. Such an expert would naturally have a kind of self – confidence that came from the heart.

However, when it came to the moon, which was 700000 to 800000 miles away, the unfamiliar and harsh environment there was terrifying. Even Chen Nanfeng and the others were convinced by Xia ruofei's words.

This song was indeed very strange. Whether it was the selected or not, no one could figure out the reason behind it. Xia ruofei and the others were also selected for no reason, while Chen Nanfeng and the other two were eliminated with confused faces.

No matter what, the screening mechanism that took so much effort to come up with couldn't be just a child's play. There must be a purpose.

If one was not selected and forced to go, they might really encounter great danger. If they were not careful, they would die.

At Chen Nanfeng and Liu Mansha's level of cultivation, they naturally cherished their lives even more. After all, they still had many days to live! Moreover, his status in the world of cultivation was so high that it was indeed not advisable to take risks.

Chen Nanfeng lowered his head and muttered to himself for a while. Finally, he resisted the temptation of the secret realm and slowly nodded. "I agree with fellow Daoist Xia's opinion. If you can't sense the music, then don't add to the trouble this time!"

Since Chen Nanfeng had already expressed his opinion, Mu Sheng and Liu Mansha naturally did not have any objections. The two of them smiled bitterly and agreed.

This also meant that these three leaders of the sects would no longer have the chance to come into contact with the mystic realm that might exist on the moon.

Chen Nanfeng said, 'even so, there are still a lot of people who can connect with music. We have to keep it simple! Shen tianfang and Chen Xuan must participate in the competition. How about this? Our sect will send two people, and each of your three sides will send one. How about it?"

There were three people from the first heaven society who could sense the music. They were Shen tianfang, who was in the mid – Aurous core stage, Chen Xuan, who was in the early Aurous core stage, and Xu yurou, who was in the Qi refining stage.

As for the surging waves sect and soaring Flower Valley, only one Jindan stage elder was able to sense the wondrous situation in the music. The rest were Qi condensation disciples.

Chen Nanfeng's plan had indeed reduced the number of people by a lot. The first heaven society's high – end combat forces could all participate, while the surging waves sect and soaring Flower Valley could also send golden core cultivators. Even Xia ruofei himself was in the early golden core stage. It could be said that it was relatively average.

The first heaven society had two tokens, so it was only natural that they had more spots.

Everyone fell into deep thought after hearing Chen Nanfeng's plan.

Chapter 3210 Everyone is happy (1)

"Father," Chen Xuan said awkwardly, "I promised brother Xia that I'd give him one of the first heaven society's spots if I were to explore the secret of the token ..."

At the auction, Chen Xuan had wanted to compete for the five Saints token. He had borrowed from Xia ruofei because he did not have enough spiritual stones. That was why he had made such a promise.

Chen Nanfeng couldn't help but be stunned. He had really forgotten about this.

At that time, Chen Xuan did not know that Xia ruofei had one token and everything was still unclear. He did not know what the secret of the five Saints token was. He only guessed that if he could crack the secret of the token, each force would have no problem getting three spots. If they got two tokens, they would have six spots. It would not be a big deal to give one to Xia ruofei.

However, the situation was different now.

Xia ruofei already had a token. Since the destination of this expedition was the moon, they had to reduce the number of people as much as possible.

According to Chen Nanfeng's plan, the first heaven society would get two spots, the surging waves sect, the flying flower Valley, and Xia ruofei would each get one spot. Then, according to Chen Xuan's promise, one spot would be given to Xia ruofei. This meant that Xia ruofei would get two spots, and the three sects would only get one spot each.

Chen Nanfeng clearly couldn't accept this.

However, words that had been spoken were like water that had been poured out. How could they be taken back?

Not to mention, a big sect like the first heaven sect had to keep their promise.

Therefore, Chen Nanfeng was suddenly in an awkward situation.

At this time, Xia ruofei smiled and said, "brother Chen, that was just a joke. How can you take it seriously?!" There's no need to mention this again. Let's arrange the personnel according to sect leader Chen's plan!"

"No!" Chen Nanfeng said. Xuan 'er has made a promise on behalf of the first heaven society. We can't go back on our words! Moreover, if it wasn't for fellow Daoist Xia's generosity, who knows which power would've gotten their hands on this command medallion! Perhaps we won't be able to come to an agreement to study the token, or the token will disappear while we're still arguing. Therefore, fellow Daoist Xia's actions back then were a great help to us!"

Xia ruofei was also dumbfounded. He didn't need that many slots! It wasn't appropriate for the first heaven society to have fewer spots than him. After all, they had given him two tokens.

At this moment, Ling Qingxue, who was beside Xia ruofei, tugged on his sleeve and whispered into his ear, "Ruofei, I also want to go ..."

Xia ruofei then realized that Ling Qingxue had also passed the music screening. Theoretically, she could also go to the moon to find the secret realm.

However, Xia ruofei frowned and said, "What a joke! They were going to the moon! Not to the back garden! It's too dangerous, you can't go!"

Ling Qingxue said, "if you can go, I can go too!" No matter how dangerous it is, I'm not afraid! You're going so far away this time, I have to stay by your side, or else I'm really scared ..."

At this point, Ling Qingxue's eyes became a little wet.

Xia ruofei's heart could not help but soften. He gently put his arm around Ling Qingxue's shoulder and said, "Qingxue, don't worry! I will definitely return safely! You can just wait for my news at home ..."

Ling Qingxue stubbornly shook her head and said, "I won't! I can also sense the situation of the music, and I also meet the screening criteria. Since you have a spot, why don't you let me go? If we're talking about danger, we'll all be in danger. Don't tell me that if you go alone, we won't be worried?"

Although the two of them spoke softly, everyone was a cultivator, so how could they not hear?

Therefore, Chen Nanfeng took a deep breath and said in a clear voice, "Fellow Daoist Xia, there's no need to say anything more. The first heaven society has given you a spot, so we must honor it. How about this ... We'll give our spots to elder Shen tianfang, and Chen Xuan ... Don't go!"

According to this distribution, only Shen tianfang from the first heaven sect would get a spot, elder mu Hua from the surging waves sect could go, and the spot for the flying flower Valley would naturally go to Yang Liu. This meant that there was one mid – Stage golden core and two early – Stage golden core.

Including Xia ruofei, who was in the beginning stage of the Golden core realm, it meant that everyone was in the Golden core realm, except for Ling Qingxue, who seemed to be in the Qi refining realm.

Xia ruofei shook his head. After a moment of silence, he said, "Sect leader Chen, seniors, and fellow Daoists, I'll also tell you a quota distribution plan! What does everyone think about this?"

Xia ruofei's new plan was naturally different from Chen Nanfeng's. According to Chen Nanfeng's plan, each sect could only send one person. Xia ruofei's plan couldn't possibly reduce the number of people they could send. Therefore, everyone naturally nodded in agreement.

Xia ruofei said, "I think it's more appropriate to go with the plan of one token for two people." In this way, the first heaven society had two tokens, which meant they had four spots. If it's distributed like this, I'll shamelessly accept the quota brother Chen has given me. In this case, the first heaven sect will have three quotas, I will have three quotas, and the surging waves sect and the soaring Flower Valley will each have two quotas. "

After hearing Xia ruofei's distribution plan, they couldn't help but feel tempted.

According to this arrangement, everyone had a lot more space to arrange their members.

Xia ruofei continued, "I'll make it clear in advance that according to this distribution plan, my three spots should be freely distributed, right?" Thus, I may not use up all three slots. Perhaps only one or two people will participate in this expedition. "
