

God tier Farm 3221

Chapter 3221 Powerful defense (2)

“Seniors, brother Chen, let’s go!” Xia ruofei inserted the crystal into the control panel and said, “please take a seat and pay attention to your personal safety. The environment in outer space is very harsh. The three seniors have already experienced it just now, so I won’t say much.”

Chen Nanfeng, Mu Sheng, Liu Mansha, and Chen Xuan all nodded and found their seats.

Xia ruofei also sat in front of the control panel and controlled the flying boat to increase its altitude.

Because the goal this time was very clear, the Clearwater flying boat was basically rising straight up without much horizontal movement.

The speed of the flying boat was not too fast at first, but as it kept accelerating, it naturally became faster and faster. In almost the blink of an eye, the flying boat had penetrated into the clouds.

Then, the flying boat immediately flew above the clouds.

At this moment, all he could see were white clouds, like balls of cotton.

Moreover, the cotton soon reached everyone’s feet and was getting further and further away.

In fact, at this height, the oxygen content was already very low, and the temperature would become very low.

If an ordinary person was directly exposed to such an environment, it might only take a dozen seconds or at most a few dozen seconds before they would fall unconscious due to the lack of oxygen in their brain.

Any longer and they would have died from suffocation or freezing to death.

However, the black Phoenix flying ship’s protective barrier had a certain defensive effect. Xia ruofei and the others had already filled their bodies with vital Qi and changed to internal breathing. They were all well – prepared, so everyone was safe and sound.

Despite being in such a harsh environment, Chen Nanfeng’s expression was still very relaxed. He still had the energy to remind her, “Fellow Daoist Xia, you must pay close attention to the flying boat’s condition. If it’s damaged, you must stop it in time and return as soon as possible! Don’t try to be brave!”

“Thank you for your reminder, senior!” Xia ruofei nodded.

In reality, Xia ruofei’s spiritual energy had not relaxed for a single moment. He was constantly sensing the overall situation of the black Phoenix flying ship.

So far, the black Phoenix flying ship’s performance had been outstanding.

Under the low temperature, its appearance did not change at all, and its internal structure was still as stable as before.

While Xia ruofei was controlling the swift Boat through the control board, he was also very familiar with the situation of the swift Boat. If the swift Boat was damaged, he would be able to detect it at once.

Of course, the current height was far from the limit.

It was only a little higher than the cruising altitude of an ordinary commercial aircraft, but strictly speaking, it was still within the atmosphere.

Xia ruofei didn't hesitate. He controlled the flying boat and ascended quickly.

In a short while, everyone had already experienced the effect of weightlessness. Some of the things in the flying boat that were not fixed in place began to slowly float.

At this time, looking out of the porthole, they could already see the huge curved outline of the earth.

Other than being brought into a wonderful situation by the music, this was actually the first time Xia ruofei had truly looked back at earth from this angle.

He couldn't help but be attracted by the magnificent scenery in front of him. He leaned against the porthole and stared at earth.

Without any additional control, the black Phoenix flying ship was naturally rising at a fixed speed.

Chen Nanfeng's face also became more and more solemn. This was almost the highest height that the three of them had reached on the Clearwater flying boat.

Just now, Chen Nanfeng, Mu Sheng, and Liu Mansha were on the Clearwater flying boat. When they reached this altitude, the Clearwater flying boat was already damaged in many places. Chen Nanfeng had no choice but to stop ascending and choose to return.

Chen Nanfeng wanted to remind Xia ruofei to keep an eye on the black Phoenix flying ship.

However, he opened his mouth and immediately realized something. They had just realized that in this vacuum environment, the other party couldn't hear him.

Chen Nanfeng did not know the principle that sound could not be transmitted in a vacuum. However, real knowledge came from practice. He had already had practical experience, so he directly transmitted his voice to Xia ruofei.

"Fellow Daoist Xia," Chen Nanfeng reminded, "this is already the limit of my blue water flying boat's ascent. Pay close attention to the black Phoenix flying boat. Don't be careless! It would be a pity if such a good airboat was damaged!"

Xia ruofei smiled and replied to Chen Nanfeng, "Don't worry, sect leader Chen. I've been monitoring the flying boat with my spiritual power all this time! He didn't relax for even a moment. So far, the black Blaze flying ship hasn't been damaged in the slightest. It's performing quite well!"

"No damage at all?" Chen Nanfeng was a little shocked. "You have to check it carefully. In such a cold environment, it's possible that the exterior doesn't seem to have changed much, but the internal structure has been seriously damaged."

Xia ruofei smiled. "I've checked very carefully. Don't worry, senior!"

Chen Nanfeng's eyes revealed a trace of disbelief. When he saw the black Phoenix flying ship, he had expected that its defensive power was much better than the Clearwater flying ship. However, it was still unscathed after flying for so long, which was beyond his expectations.

At the end of the day, Chen Nanfeng wasn't very confident about using an airboat to travel for a dozen days straight to the moon.

But now, the black Phoenix flying ship's performance had given him a glimmer of hope.

The airboat continued to rise.

Now that they had basically reached the edge of the atmosphere, the outline of the earth was even clearer.

Of course, the environment had also become much worse.

The five people on the flying boat, including Xia ruofei, were all golden core cultivators. Chen Nanfeng was the only one at the advanced stage of the Golden core realm. Mu Sheng and Liu Mansha were both in the middle stage of the Golden core realm. Only Xia ruofei and Chen Xuan were in the early golden core stage.

In such an environment, everyone's gap was also revealed.

The three sect leaders were still fine. After all, they had profound cultivation and were far from their limits.

As for Xia ruofei and Chen Xuan, Xia ruofei was still rather relaxed while Chen Xuan was struggling.

He needed to use his vital Qi to protect his body. In such a cold environment, the consumption of vital Qi was extremely great. At the same time, he had to maintain his internal breathing and use the circulation of vital Qi to replace oxygen intake. This also had its own consumption.

With the two combined, one could tell that Chen Xuan's cultivation base was much weaker than Xia ruofei's.

Chen Nanfeng and the other two also saw this.

Seeing Chen Xuan's serious expression, Chen Nanfeng could not help but sigh. Xuan'er's title as the number one genius of the younger generation could be considered to have completely changed hands!

Chen Nanfeng transmitted his voice to Xia ruofei, 'Daoist Xia, I think this is the right height. We can plan our return now!'

Xia ruofei could tell that Chen Xuan was having a hard time, so he nodded and said, 'Alright, this place is basically the same as outer space. It's almost there for the flying boat test. However, whether he could adapt to the environment was one thing, but whether he could meet the conditions for a long voyage might still need to be tested. Of course, this test can be carried out after our spacesuits arrive. At that time, we'll let the fellow Daoists at the refinement stage participate. After all, they're also part of the exploration team, and they're the weakest. Our test will only be successful if the refinement stage cultivators can stay in the airboat for a long time without being harmed!'

Chen Nanfeng nodded and said, "I agree!" Fellow Daoist Xia, let's end it here for today! Let's go back now!"

Xia ruofei smiled and nodded. "No problem!"

With that, he made a few adjustments to the control panel, and the black Phoenix flying ship's upward momentum suddenly slowed down. Then, without even changing directions, it immediately began to descend again.

...

After the Flying Ship entered the atmosphere, everyone felt relaxed. The outer space environment was still too harsh for cultivators of their level.

They were still too far away from the legendary ability to fly through the void with their bodies!

The black Phoenix flying ship was traveling through the clouds, and just as it was about to burst out of the clouds, Chen Nanfeng said, "Fellow Daoist Xia, why don't we let the airboat stop here for a while and take a look at the situation of the airboat after this flight?"

Chapter 3222 Silicon Valley (1)

The black Phoenix flying ship had already returned to the atmosphere, so Chen Nanfeng naturally did not need to transmit his voice. He could just speak directly.

Mu Sheng and Liu Mansha also nodded in agreement.

They were also very curious about the black Phoenix flying ship's condition after the previous flight that had exceeded the limits of the blue water flying ship.

They had just seen the terrible state of the Clearwater flying boat. Just the damage to its exterior was enough to make Chen Nanfeng's heart ache.

Xia ruofei smiled and nodded. "Of course, no problem!"

After that, he operated on the console, and the flying boat soon stopped descending and hovered in the clouds.

Chen Nanfeng, Mu Sheng, and Liu Mansha all summoned their flying swords and left the flying boat.

The black Phoenix flying ship belonged to Xia ruofei, so he could use his spiritual power to sense the Flying Ship's condition. Naturally, he did not need to disembark to check.

Chen Xuan, on the other hand, had yet to fully recover. His face was still a little pale, a clear sign that he had overused his energy. Therefore, he did not leave the swift Boat. Instead, he chose to recover his energy in the cabin.

Chen Nanfeng and the other two looked around and quickly returned to the cabin.

The three of them had strange expressions on their faces.

Chen Nanfeng could not hide his shock and asked, "Fellow Daoist Xia, are you really unscathed?"

Xia ruofei smiled and nodded, "indeed!" However, the flight time this time was relatively short, so the reference value was not great. We'll need more in – depth tests to test if the Flying Ship is suitable for long – term space travel. "

"This has already exceeded our expectations!" Liu Mansha's beautiful eyes were filled with unconcealed joy. "We thought that the plan to cross space to the moon by flying boat would be impossible to carry out. I didn't expect fellow Daoist Xia to give us such a big surprise!"

Chen Nanfeng smiled bitterly and said, "I'll throw the goods away if I compare them!" Compared to this Black Phoenix flying ship, our first heaven society's Blue water flying ship is nothing!"

"Sect leader Chen, you're exaggerating," Xia ruofei said with a smile. It could only be said that each had their own strengths! I remember master telling me that this Black Phoenix flying ship is made of special materials, so its defensive capabilities are stronger than most flying ships. However, the other covers may not have such an advantage. "

At this moment, Chen Xuan, who had already recovered a little, spoke up, ""Brother Xia, your master is too humble ... I can see that our Clearwater flying boat is completely behind the black Phoenix flying boat! It's not just in terms of defense, but in terms of speed as well! We're much slower than the ship!"

"Three seniors, brother Chen, if there's nothing else, shall we return to the surface?" Xia ruofei said with a smile.

"Alright!"

"Sure, let's go back!"

Xia ruofei steered the black Phoenix flying boat and hovered steadily above the courtyard house in liuhai Lane.

The five of them jumped down from the flying boat and Xia ruofei kept the black Phoenix flying boat.

Chen Nanfeng and the others were led to the living room of the master suite, and everyone took their seats.

Xia ruofei was making tea for everyone as he said, ""Seniors, our top priority now is to prepare the protective equipment in space as soon as possible. I've already sent someone to the United States to get in touch with the spacesuits and related equipment. If everything goes well, we shouldn't have to wait too long before we can conduct more in – depth tests. I think the day we set off for the moon is not too far away!"

"That's great!" Mu Sheng said, "little brother Xia, it's all thanks to you this time! From the moment the token was cracked, you were the one who put in the most effort! If it wasn't for little brother Xia, I'm afraid we wouldn't have been able to study it before it disappeared, not even a bit of useful information. "

"Senior mu, you flatter me." Xia ruofei smiled and said, "we're all working together! I'm not doing any voluntary work. "

"That being said, little brother Xia's contribution is the greatest!" Mu Sheng said, "brother Chen, Valley master Liu, I have a suggestion ... At least we can't let little brother Xia give for free! For example, the

journey to the moon, which was hundreds of thousands of miles long, little brother Xia had allowed everyone to ride this flying boat for free, but the crystals spent on the journey, everyone should at least contribute that amount, right? And that spacesuit, I heard it's extremely expensive. Although money in the world is nothing, there's no reason for little brother Xia to pay for it alone! I think everyone should take the initiative to bear this responsibility. "

"I agree!" Chen Nanfeng nodded. Besides, the first heaven society is willing to offer 20% more. After all, we have a lot of spots!"

"My soaring Flower Valley also has no objections!" Liu Mansha said with a smile.

Xia ruofei forced a smile and said, "what are you seniors doing?" Although I can't be considered rich, I can still afford a few origin crystals! We're all working together to explore the mysterious realm, so there's no need to be so calculative, right?"

"That's a different matter! In short, I can't let you put in the effort and suffer losses!" Mu Sheng said, "it's settled then. Before we officially set off, we'll gather the crystals and give them to you. Also, we'll pay for all the spacesuits you need! Little brother Xia, it is reasonable to say that we have to pay you some more remuneration, but I don't think you will accept it. However, it is better for us to pool the resources together!"

Xia ruofei said helplessly, "if that's the case, then we'll do as the seniors say!" The reason I called all of you here today was to tell you that we still have to wait for at least two to three days for the spacesuits! If there was nothing to do these few days, everyone could visit various scenic spots in Beijing to relax. If there's anything you need to arrange, you can tell me and I'll get someone to arrange it. If the negotiations in the United States go well ... Actually, no matter if the negotiations go well or not, I should be going to the U.S. In a few days. We should be able to get there quickly on the black Phoenix flying ship!"

Chapter 3223 Silicon Valley (2)

"No problem!" Chen Nanfeng nodded. "We'll follow your arrangements for the time being!"

In fact, after two tests, Chen Nanfeng and the others knew very well that even if the black Phoenix flying ship's defense was strong enough, Xia ruofei would not abandon them and go to the moon for an exploration at this stage.

The reason was simple. With Xia ruofei's cultivation, it was impossible for him to last that many days without any protection.

In fact, even Chen Nanfeng, who had the highest cultivation, could not have lasted that long.

However, Xia ruofei had gone to the United States to make arrangements for the purchase of the spacesuit. If Xia ruofei successfully obtained the spacesuit and took the black Phoenix flying ship from the United States to the moon, Chen Nanfeng and the rest would be at a loss. Without the black Phoenix flying ship, Chen Nanfeng would not be able to catch up to Xia ruofei, even if he was the number one expert in the world of cultivation.

Even though everyone was in harmony now, this possibility could not be ruled out.

Therefore, Chen Nanfeng and the others would not let Xia ruofei go to the United States alone. It was inevitable that she would go with them.

For the next few days, the cultivators from the three sects stayed in Xia ruofei's courtyard house.

The older generation generally didn't like crowds and spent most of their time cultivating on their own.

The young people were still quite curious about the capital.

Especially for those who grew up in sects, everything in the modern city was very fresh to them.

Xia ruofei brought them to all the famous attractions in the capital and even brought them to eat some of the capital's specialties.

At the same time, on the other side of the ocean in the United States, a Gulfstream G650 private plane landed steadily at San Francisco, California International Airport.

Even after a long flight, Li Yifu was still in high spirits. His eyes were filled with excitement. After such a long time, he could finally help his senior granduncle with some matters. Even though it was only a matter of the secular world, he knew that this matter was of great importance.

Yesterday, Luo Qingfeng had brought Zheng Yongshou to Paradise Island at the fastest speed possible on his flying sword.

Of course, in order to avoid being followed, Qingfeng Luo took a detour, so the time he spent on the road was longer than expected.

After Li Yifu had handed over everything on the island, he asked Luo Qingfeng to take him directly to the nearest Island with an airport on his sword.

He had already transferred his private jet to wait here in advance.

Li Yifu took his private plane directly and refueled it on the way. After a total of more than ten hours of flight, he finally landed in San Francisco at ten in the morning local time.

A black extended Bentley was parked on the tarmac.

This was Li Yifu's car. It was a specially customized extended version. The body of the car was equipped with thick armor, and the tires and glass were all bulletproof. The safety level was very high.

This was also transferred to San Francisco through a transport plane last night.

"Chairman, you've had a long journey!" A Chinese girl in a black suit stepped forward and bowed slightly.

This was Li Yifu's personal assistant, Lin Wei. She was Li Yifu's personal assistant who would coordinate all his Affairs. However, Li Yifu wasn't in the U.S. For more than half a year, and he didn't care about the company's Affairs, so Lin Wei became very idle. She even took the initiative to ask to keep her assistant position and train in other departments.

This time, when Li Yifu returned to the United States, Lin Wei was naturally the first to be notified. She handed over all her other work in advance and became a full – time assistant again.

Li Yifu nodded slightly and asked indifferently, ""Have you contacted the elonmask side?"

Lin Wei nodded and said, "Mr. Masker has been in Silicon Valley for a while, but his schedule is very full. Our latest confirmed meeting time is 2:30 this afternoon. It's about half an hour."

Li Yifu frowned slightly and said, ""Such a short time? Can't you arrange for it to be during dinner time?"

Although Li Yifu grew up in the United States, he was still influenced by the traditional Chinese way of thinking and was more used to talking about business at the dining table.

Moreover, this matter had to be held in a relatively private place, with only him and masker having a secret discussion. Otherwise, it would definitely be impossible to succeed.

Lin Wei said, "Chairman, Mr. Masker's assistant replied that because SpaceX's manned flight plan is about to be implemented, Mr. Masker is very busy as the company's CEO and Chief Technology Officer. His schedule is particularly full." This half an hour of meeting time was squeezed out at the last minute. For this reason, Mr. Mersk even canceled a meeting ..."

Lin Wei was also worried that Li Yifu would feel that she had been neglected, so she quickly explained.

In fact, Elon Musk still gave a great degree of respect to an entrepreneur like Li Yifu, who was a veteran super – rich man. Otherwise, he would not have been able to arrange a meeting in the afternoon as soon as the plane landed.

Li Yifu's mind was filled with thoughts of helping Xia ruofei do his job well and beautifully, so he did not think about the problem of being slow. He pondered for a while and said, ""Alright! Half an hour it is! You've confirmed it with them, right? I need to speak to elonmask alone!"

"I've already confirmed this with the other party!" Lin Wei quickly said, "Mr. Masker says that there's no problem at all!"

"Alright then!" Li Yifu said, "let's go back to the hotel first!"

.....

2:30 in the afternoon.

Tesla headquarters in Silicon Valley.

Li Yifu, who had arrived ten minutes earlier, was led by a blonde female secretary into Elon Musk's office.

Elon Musk fully expressed his respect for the entrepreneur Li Yifu and got up in advance to welcome him warmly.

"Mr. Masker, I'm sorry to bother you today!" Li Yifu said with a smile.

"Please sit, Mr. Li!" With a smile on his face, Elon Musk led Li Yifu to the guest area and said, "it's my honor to meet with a business giant like you, Mr. Li! In my heart, your status is no less than that Mr. Li in Hong Kong!"

Elonmask had lowered his posture very much, and in fact, it was not too exaggerated.

Speaking of which, Elon Musk's net worth should be about the same as Li Yifu's, about 40 to 50 billion US dollars.

However, Li Yifu had many businesses under his name, and the cash flow advantage of doing business was huge.

The tech giants in Silicon Valley also had very high market values, but that was all fake. Compared to cash flow, they were much worse than industrial companies.

What's more, Elon Musk continued to burn money on SpaceX and now needed a continuous injection of funds.

He didn't know why Li Yifu took the initiative to look for him, but he felt that this might be an opportunity that could bring him a lot of money.

"Mr. Masker, you flatter me!" Li Yifu smiled and said, "our two generations have worked hard for decades, but the speed of our accumulation of wealth is far slower than the new software released by some technology companies in Silicon Valley! So, the world is now ruled by the young!"

The two of them exchanged a few pleasantries before the Secretary brought the coffee and left the office. Maelon Musk also went straight to the point. His time was precious, so he couldn't keep beating around the bush.

"Mr. Li, what business do you have with me this time?" "What's the matter?" Elon Musk asked directly.

"I've come to visit you this time to do business with Mr. Masker!" Li Yifu said with a smile.

Elon Musk raised his eyebrows and smiled. "Oh, really? You're welcome! I love doing business with an entrepreneur like Mr. Li, but ... I wonder what kind of business Mr. Li wants to do with me?"

...

"I hope to purchase a batch of Eva suits and related equipment and accessories from SpaceX in my personal name!" Li Yifu said directly.

The smile on Elon Musk's face froze, and his face revealed a look of disbelief.

He opened his mouth slightly and stared at Li Yifu for a few seconds before he asked, "Mr. Li, are you sure you're not joking with me?"

Chapter 3224 Full of worries (1)

Li Yifu shrugged his shoulders with a hint of displeasure on his face and said, "Mr. Masker, do you think I flew all the way to Silicon Valley just to make fun of you?"

"No, no, no, Mr. Li, you've misunderstood ..." Said Elon Musk, waving his hand. "It's just that the deal you proposed is a little too unexpected!"

Li Yifu smiled. "I believe that with SpaceX's technical strength, they should already have a mature spacesuit product. As for the other supporting equipment and modules, it's even more so. Why are you so surprised, Mr. Masker?"

“Of course, there’s no problem with SpaceX’s technology!” Elon Musk shook his head and said, “but Mr. Li should know the sensitivity of aerospace technology. In particular ... I’m very sorry, I don’t mean to be racist, but the reality is like this. Mr. Li, your Chinese identity may make this matter even more sensitive.”

“I can guarantee that all the spacesuits, equipment, and modules will not be transported out of the United States. No technical details will be leaked, and they will not be used in the military or terrorist attack.” Li Yifu said.

“Mr. Li, you should know that such a guarantee will not help in the transaction at all ... And I’m very curious, Mr. Li, why do you suddenly want to buy such a large number of Eva suits?” Is your group also interested in entering the aerospace field?”

“I’m sorry, but I can’t tell you what the spacesuits are for,” Li Yifu said after a moment of silence. However, our company has no intention of entering the aerospace field, nor will we become a competitor of SpaceX. This is just a purchase under my personal name. ”

Li Yifu’s words obviously could not eliminate Elon Musk’s doubts.

Li Yifu looked at Elon Musk and said, “Mr. Masker, this matter is actually not that complicated. You can see it as a normal transaction, but the amount of the transaction is a Little Big, maybe more than one billion dollars. I think...SpaceX’s continued investment in the aerospace field, especially now that it has entered the critical stage of manned space flight, should have a high demand for funds! I’m very willing to give you a hand at this time! As long as we agree on the deal, I’m willing to pay the full amount!”

Elon Musk hesitated because Li Yifu’s proposed purchase of an EVA suit could easily cost 20 to 30 million dollars, so the transaction amount would not be too low. SpaceX did need more cash flow to maintain their high expenses at this stage.

Otherwise, when Li Yifu proposed to buy a spacesuit, Elon Musk would have refused without hesitation.

It had to be said that one billion dollars of cash flow was a huge temptation for Elon Musk. Although the cost of producing these spacesuits and other equipment was very high, the profit margin was actually very large. And considering the accounting period and other factors, in fact, the one billion US dollars could be regarded as a net income in the short term.

However, after an intense mental struggle, Elon Musk still slowly shook his head and said, “I am very sorry, Mr. Li. I really want to help you, and I’m also very eager to get more funds, but this deal is too risky. I’m afraid I can’t do anything ...”

“Mr. Masker, the risk is actually controllable.” Li Yifu said, “we can sign a series of ...”

“I’m sorry!” Elon Musk’s attitude became a lot more determined. “Mr. Li, I know that lawyers have a hundred ways to let us complete the transaction without taking any legal risks. But ... The FBI doesn’t care about the law! You should know ...”

At this point, Elon Musk shrugged and did not continue.

Li Yifu also understood Elon Musk’s concerns. His understanding of the United States was even better than his own country, China. He didn’t need Elon Musk to say anything more. He was very clear that

agencies like the CIB and the FBA wouldn't talk about the law at all. As long as they were accused of "endangering national security," they could carry out any action outside of legal authorization, just like holding a sword.

The people did not fight with the officials. Even in the United States, this was an irrefutable truth.

Li Yifu sighed to himself. He knew that today's negotiation would not have any results.

Although the meeting would last for half an hour, Li Yifu did not continue to try to persuade Elon Musk. Instead, he stood up and said, "Alright! It was such a pity. If Mr. Masker changes his mind, please contact me as soon as possible. I should be in Silicon Valley these days!"

Elon Musk stood up and shook hands with Lee Yifu. He smiled and said, "Definitely!"

Elon Musk personally sent Lee Yifu to the door, and then both sides waved goodbye.

Although Elon Musk was very polite, Li Yifu could tell that it would be very difficult to change his mind.

On the way back to the hotel, Li Yifu's eyes lit up.

If normal business methods did not work, he could only resort to unconventional means.

After Li Yifu returned to the hotel, he first used the satellite phone to contact Xia ruofei. The reason why Yingluo used the satellite phone was naturally to reduce the possibility of the secret being leaked. This was the United States, and monitoring could be said to be everywhere.

Chapter 3225 Full of worries (2)

"Grand uncle – Master, I'm incompetent ..." Li Yifu said directly, "the negotiation failed. The other party has many concerns. The temptation of money alone is not enough ..."

"What are you going to do?" Xia ruofei asked after some thought.

"If the soft approach doesn't work, I can only use the hard approach!" Li Yifu said, "I'm just reporting to you. Next, I might use some methods that cultivators use. Please rest assured, martial granduncle, this disciple will definitely settle this matter as soon as possible!"

Xia ruofei said, "don't be in a hurry. Let's wait!" I'm going to the United States. Anyway, you can make plans after I get there!"

"Senior granduncle, it's all this disciple's fault for not doing my job properly. I've troubled you to travel such a long distance ..." Li Yifu said with some fear.

"Whether things are going well on your side or not, I have to come over." Xia ruofei said, "I don't have much to do these few days. I might as well come over earlier!" Foster husband, don't act rashly before I arrive in the United States, understand?"

"Yes! Martial granduncle, this disciple will be waiting for you in Silicon Valley!" Li Yifu said respectfully.

Xia ruofei told Chen Nanfeng and the others about his plan to go to United States

Chen Nanfeng and the others had no interest in going to the United States, but they did not dare to trust Xia ruofei completely and let him go to the United States alone to deal with the spacesuits. So after

some discussion, they decided to let Chen Xuan go with Xia ruofei. On the other hand, Liu Mansha had asked Yu xiner to go with them, saying that she wanted to broaden her horizons.

As for the Cang lang sect, Mu Sheng trusted Xia ruofei. He also knew that at this critical stage of their cooperation, the possibility of Xia ruofei and the others abandoning the Cang lang sect was extremely low.

Therefore, Mu Sheng simply didn't send anyone.

On Xia ruofei's side, he still brought Song Wei and Ling Qingxue.

Before he had the ability to protect himself, he did not dare to place his hopes on Song Wei and Ling Qingxue's safety. No matter how solid the foundation of their cooperation was, Xia ruofei still had to be careful of that just in case. Hence, during this period of time, he had been trying his best to keep Song Wei and Ling Qingxue by his side.

The rest of the people who did not go to the United States continued to stay in Xia ruofei's courtyard.

Xia ruofei also ordered Wu Qiang to entertain the guests.

The next day, Xia ruofei and the others boarded the black – armored flying boat that was suspended in the middle of the courtyard house and flew quickly in the direction of the United States.

It would take at least ten hours to get to San Francisco by Civil Air, even if it was a direct flight.

By contrast, the time taken by airboat would be greatly reduced. Because airboat didn't need to make detours according to the fixed routes; instead, it was basically a direct flight. Additionally, the speed of airboat was much faster than the cruising speed of civil aircraft. The difference in speed might not be obvious in short – distance travel; however, it would be obvious in long distance travel.

Xia ruofei maneuvered the black Phoenix flying ship at full speed. In just two to three hours, the black Phoenix flying ship had arrived at Silicon Valley in San Francisco.

Xia ruofei followed the address provided by Li Yifu and landed the airboat near the Hilton Hotel where he was staying. Then, he walked towards the hotel with Chen Xuan and the others.

Xia ruofei and the others had changed their looks to a certain extent.

Xia ruofei still took on Xia Tian's appearance. In fact, he had used Xia Tian's appearance when he first walked in the world of cultivation. However, his secular identity had been exposed this time, and everyone had gotten used to his original appearance.

As for the others, although they did not have the secret technique to change their appearance as they pleased like Xia ruofei, it was still easy for them to change their appearance with makeup.

After all, none of them had gone through any customs procedures, especially for people like Song Wei and Ling Qingxue who were still living in the secular world. If they didn't change their appearance, it would be troublesome if they were discovered in United States without any Customs Records.

Li Yifu was already waiting in the hotel lobby.

Li Yifu was already very familiar with Xia Tian's image. Moreover, he was very familiar with Xia ruofei's aura. Hence, when Xia ruofei and the others appeared at the entrance of the hotel, Li Yifu immediately stood up and went to greet them.

"Senior granduncle!" Li Yifu bowed slightly.

Chen Xuan and Yu Xin 'er were both shocked that this old man would address Xia ruofei as Grand – martial uncle.

Chen Xuan had met Li Yifu at the auction previously, so he still had some impression of him.

At that time, everyone had many speculations about Xia ruofei's identity. Now, they were more inclined to believe that Xia ruofei's master was the primordial soul Stage elder of the star Seizer sect, Daoist Chi Yun. With Chi Yun's seniority, it was normal for Xia ruofei to have a Grand – disciple like Li Yifu.

"Is the room ready?" Xia ruofei nodded and asked.

"Yes! I've booked three luxury suites as per your instructions." Li Yifu said.

"Alright, we'll talk about it in the room!" Xia ruofei said.

Naturally, one could not use Xia ruofei's and the others 'passports to book a room in Hilton Hotel. Li Yifu had already booked a room in advance using someone else's identity. For a local like him, it was not difficult at all.

Xia ruofei and the rest followed Li Yifu to the elevator and arrived at the 19th floor. Li Yifu took out three room cards and handed them to Xia ruofei, Chen Xuan, and Yu xiner.

Then, he opened his mouth and said, "martial granduncle, two seniors, these three suites are all on the same floor. One on the east side and two on the west side. The formalities have been completed. You can just press the room key and move in."

There was a long corridor between the East and the West. A single room was naturally quieter. This was the room that Li Yifu had left for Xia ruofei.

The young Yu xiner blushed when she was called a senior.

Most importantly, her cultivation level was not much higher than Li Yifu 's.

Therefore, Yu xiner quickly waved her hand and said, ""I'm not a senior, you can just call me xiner!"

Xia ruofei chuckled."I see that the seniority in the cultivation world is very messy. It's better for us to discuss our own matters!"

Otherwise, Li Yifu's seniority would be too low.

Xia ruofei continued,"everyone, come to my room and have a seat!" Everyone, let's discuss what to do next. "

Everyone went to the luxurious suite at the East End of the corridor and sat down in the small living room.

Li Yifu was busy making tea for everyone but was stopped by Xia ruofei. He said, "" Foster husband, don't be busy, no one is thirsty! You should tell me the situation first!"

Li Yifu then sat down on the sofa opposite Xia ruofei. He looked ashamed and said, "" Martial granduncle, this disciple is truly incompetent! You can't even handle such a small matter, and even have to trouble martial granduncle to personally take action!"

Xia ruofei smiled and said, "this is not a small matter. It's normal for Elon Musk to have some concerns. Tell me about the situation first!"

"Yes! Senior granduncle!"

Then, Li Yifu told Xia ruofei about the meeting yesterday in detail. In the end, he said, "" Senior granduncle, Elon Musk still has a lot of concerns. I'm afraid that it's impossible to facilitate this deal through normal business negotiations."

After Yu Xin 'er heard this, she asked in confusion, "" Brother Xia, if that's the case, why don't we just go to the factory to retrieve the spacesuits and leave?"

It was only relative that the cultivation world did not interfere with worldly affairs.

If an ordinary person had the most valuable treasure in the world of cultivation, cultivators would naturally try to snatch it just because he was an ordinary person.

At the same time, moon exploration was the top priority. The spacesuits had become the key equipment. Under such circumstances, it was normal to use the means of cultivators to obtain spacesuits. It would not be criticized at all.

Xia ruofei smiled and said, "miss Xin 'er, you don't know." The cost of an extra – terrestrial spacesuit is extremely high, and it's customized according to the actual body size of the astronaut, so it's basically impossible to have any in stock. The most convenient channel for us is to customize it through SpaceX. "

...

Chapter 3226 Breakthrough point (1)

"I see ..." Yu xiner was enlightened, but at the same time, she felt a little embarrassed.

"If that's the case, then that Elon Musk is the key person," Chen Xuan muttered.

"Of course!" Xia ruofei said, "he has absolute power in SpaceX! And he has the ability to help us accomplish this!"

"It seems that I have to start with this person." Chen Xuan's eyes lit up.

If a cultivator wanted to force an ordinary person to submit, he had countless methods.

Any one of them was enough to make an ordinary person suffer so much that they would rather die. Every second felt like hell. Even a Special Agent who had received professional anti – interrogation training would probably not be able to last long, let alone a super – rich man like Elon Musk.

Xia ruofei nodded and said, "this is the only way ..."

Xia ruofei had an even more foolproof method, and that was the soul seal.

Wang Boshan had already been executed, and there was still a quota for the soul seal.

Xia ruofei could have used the soul seal on Elon Musk directly and turned him into a soul slave.

An ordinary person like Elon Musk would naturally not have any room for resistance. It could be said that he would definitely fall for it.

When that time came, Elon Musk would carry out any of Xia ruofei's instructions without any hesitation. Naturally, it would not be a problem for the factory to produce all kinds of parts at full speed and finally assemble them into spacesuits.

However, Xia ruofei would not use this method so easily.

After all, he was just an ordinary person. No matter how rich he was, he could only be of limited help to Xia ruofei. It was not worth it to waste a soul seal slot because of this.

Xia ruofei wasn't a cruel person. Otherwise, he would have killed the other party after using him. This way, he wouldn't waste his soul seal. Or, he could try to strip away the soul seal. Although this might turn the soul slave into an idiot, at least he would be alive.

Under normal circumstances, Xia ruofei would not be willing to use such a method against ordinary people, including benilatti, who was still doing odd jobs on Peach Blossom Island. By right, he had lost his value long ago. To Xia ruofei, the most cost – effective way was to cut him down with one strike and empty the slot for the soul seal.

However, Xia ruofei knew that bainilatti was not evil and did not deserve to die. That was why he had kept him alive and did not even try to remove his soul seal.

Hence, Xia ruofei would not easily use the soul seal to deal with Elon Musk.

Li Yifu hesitated for a moment before saying, "Senior granduncle, in fact, Elon Musk suddenly left Silicon Valley yesterday ..."

"After you met him?" Xia ruofei asked.

"This has nothing to do with me ..." Li Yifu said with a bitter smile. "He must have some private affairs that are more urgent, so he postponed all his follow – up schedules and left Silicon Valley directly. Through some channels, this disciple is trying to understand the reason for Elon Musk's hasty departure."

Elon Musk spent most of his time in Silicon Valley. Most of his industries were in Silicon Valley, including Tesla, SpaceX, and the Super battery factory.

Furthermore, during this period of time, because of the manned flight, Elon Musk's schedule was very tight, and he had a lot of work to deal with every day.

For him to suddenly leave Silicon Valley at this time, it was obvious that he had encountered an emergency.

Xia ruofei thought for a while and said, ""Find out what he's doing as soon as possible! We can't delay this matter any longer. We have to hurry up and finish it. "

"Understood!" Li Yifu said, "I've already asked people to speed up the investigation. I believe there will be news soon!"

Li Yifu's phone rang just as he finished speaking.

He took a look at the caller ID and quickly said, ""Senior granduncle, it's the person this disciple sent to gather information ..."

"I'll pick it up here!"

"Yes!" Li Yifu replied.

He picked up the phone, and his voice returned to its usual dignity. ""Hello? Have you found out ... Don't say too much over the phone, just come to the room and talk! I'm in room 1926!"

After Li Yifu hung up the phone, he said, ""Senior granduncle, we have the latest news. I'm worried that mobile communication is not safe, so I asked him to come directly to the room to tell us!"

"Mm! It's necessary to be cautious. " Xia ruofei nodded.

Some special agencies in the United States were notorious, and all kinds of monitoring doors were frequently exposed. It was hard to say that the call was absolutely safe for a rich man like Li Yifu.

After a while, the doorbell rang.

Li Yifu got up to open the door. He looked at the people outside and said in English, ""Come in and talk!"

Xia ruofei looked up and saw a white man in his forties following Li Yifu into the room with a respectful expression.

The white man's figure was quite standard, at least not out of shape. However, his appearance was very ordinary, the kind that wouldn't be easily found in a crowd. He had unkempt golden hair and a bag under his arm. He looked like an ordinary middle – aged man who was frustrated.

The white man did not expect there to be so many people in the room. When he saw Xia ruofei and the others, he could not help but hesitate.

"Mark, these are all friends I absolutely trust," Li Yifu said indifferently. "You don't have to worry. Just tell me what you found out!"

Chapter 3227 Breakthrough point (2)

After hearing Li Yifu's words, mark nodded.

He bowed slightly to Li Yifu and said, ""Mr. Li, according to your instructions, I started the investigation immediately. According to the initial information we received, Mr. Elonmask went to Los Angeles ... He has a mansion in Los Angeles. According to reliable sources, he urgently returned to the mansion this time ..."

"This should be an unplanned arrangement," Li Yifu said lightly. "Have you found the reason why he rushed to Los Angeles?"

Mark respectfully said, "it hasn't been long, so the information I got isn't very accurate. But what I can be sure of is that his sudden departure from Silicon Valley has something to do with his newborn child. It should be that the child has some serious health problems. We are still trying to find out the specific situation, but you know, the medical information of rich families is highly confidential. It will be quite difficult to find out the exact information."

After saying that, Mark quickly handed over the briefcase and said, "The specific information is here, please take a look!"

Li Yifu took the briefcase and nodded, "Well done! Ma ke, continue to understand the specific situation. If there is any news, remember to inform me immediately!"

"Understood!" Ma ke said.

Li Yifu took out a check from his shirt pocket and handed it to Mark. He then said indifferently, "Thank you for your hard work! If you can get more useful information, the reward will definitely not disappoint you!"

Mark quickly glanced at the amount on the check, and his eyes revealed a trace of joy. He was full of energy.

He said, "don't worry!" Dear Mr. Li, our law firm is the best in the United States! I'll definitely be able to complete your Commission!"

"Mm! Then you can go!" Li Yifu said.

Mark nodded and bowed slightly to Xia ruofei and the rest. Then, he left the room without a sound.

Li Yifu and Mark conversed in English, but Xia ruofei and the rest could understand.

Xia ruofei's English was good enough for a normal conversation. Song Wei and Ling Qingxue's English was not bad either. Yu Xiner had lived in the secular world for many years and even had a postgraduate degree. She had no problem communicating in simple English.

On the other hand, Chen Xuan had never studied English before. He had only picked up some English for the sake of convenience when he was learning computer related knowledge.

Therefore, out of the few of them, Chen Xuan was the only one who had a rough idea of what was going on. The rest, including Yu Xiner, had already understood the situation.

After Mark left the room, Li Yifu immediately said to Xia ruofei respectfully, "Martial granduncle! The situation isn't very clear yet, but the information provided by Mark is definitely correct. His Detective Agency has a high reputation in the industry."

Xia ruofei replied, "yes!" If that's the case, it seems like Elon Musk really left in a hurry because of his family matters."

Xia ruofei thought of what Mark had said and suddenly had an idea. He asked, "Foster husband, do you know this son of Elon Musk?"

Li Yifu said, "I've really learned about it in the past two days. After all, it's best to know your enemy and yourself if you want to negotiate with him!" This son of Elon Musk was born a few months ago, and his girlfriend is a Canada pop singer, Grams, who is seventeen years younger than him!"

Xia ruofei said, "F * ck!" An old cow eating young grass! It seems that this Mr. Mersk is also a Playboy!"

Li Yifu laughed and said, "this guy has two ex – wives. One of them got married, got divorced, got remarried, and got divorced again. It took quite a long time. Well ... He should have more girlfriends. After all, he has a good image. Most importantly, he's rich!"

"Amazing ..." Xia ruofei said casually.

Ling Qingxue glanced at Xia ruofei and said, "You seem to be quite envious of him!"

Xia ruofei could not help but feel a chill. He turned around and saw Song Wei and Ling Qingxue staring at him with unfriendly eyes. He laughed dryly and said, "I was just saying! I look down on people who go around womanizing just because they have a bit of money! Why would I be envious of him?"

"Hehe!" Song Wei and Ling Qingxue laughed in unison.

Xia ruofei was a little embarrassed and quickly changed the topic. "Foster husband, this Elon Musk must be around 40 to 50 years old, right?"

"I think I'm 48 years old this year!" Li Yifu said.

"That's barely considered having a child at an old age!" Xia ruofei said, "he must be very concerned about this son of his!"

Li Yifu thought for a while and said, "it's definitely true that he has a child at an old age, but this isn't his first child." He and his first wife had five children ..."

"Ah?" Xia ruofei couldn't help but exclaim, "this guy can give birth so well?"

"Test – Tube baby!" Li Yifu smiled and said, "to be exact, he and his first wife had a total of six children, but the first child died not long after birth due to sudden death syndrome. After that, he seemed to believe that science could bring him healthy children, so he wanted a pair of twins through test – Tube baby technology. Later on, he might have thought that this method was quite good, so he wanted triplets! So, out of the five children, she actually had two!"

Li Yifu had obviously done his homework, and was very familiar with the situation of Elon Musk.

Xia ruofei nodded thoughtfully and said, "This guy has so many children. Now that his newborn son has health problems, he still left a lot of work and rushed back. It seems like he cares a lot about his child ..."

Li Yifu nodded and said, "at least from the information in the public report, Elon Musk should be considered a good father!" He worked more than 100 hours a week, but even if he was overwrought, he still insisted on staying at home every weekend to play with his child. He also took time to take his child

on a trip. I remember that when he visited China a few years ago, he even brought the child with him. In order to take care of the child more conveniently, even his ex – wife accompanied him to China. ”

Li Yifu paused again and continued, ” ”In addition, he often posts on his social media about the gifts his child gave him and so on. He also takes his child to his company. What’s more, he felt that the schools in the United States were far from reaching his standards, so he set up a school for five children ...”

Hearing this, Xia ruofei couldn’t help but click his tongue and said, ” ”As expected, the rich can do whatever they want! However, from the public disclosure of this information, he did care about his child. Of course, we can’t rule out the possibility that it’s a character setting ...”

“I don’t think so!” Li Yifu smiled and shook his head. With masker’s wealth and status, he didn’t need to set up any character! Moreover, he had always been a forthright person, so he would not deliberately create an image of a good father for the public when it came to the issue of children. Martial granduncle, this disciple feels that this should be a more genuine expression. ”

Xia ruofei nodded and said, ” ”If that’s the case, we might be able to find a breakthrough from his child!”

Li Yifu was shocked. He hesitated for a moment, but he still couldn’t help but say carefully, ” ”Martial granduncle, this ... I’m afraid it’s not very appropriate! As the saying goes, the wife and children should not be implicated. His children were innocent! Besides, he didn’t do anything wrong. He just didn’t want to trade with us because of various concerns. ”

Xia ruofei didn’t know whether to laugh or cry, ” adopted husband, what kind of person do you think I am?” Do I look like that kind of brutal person?”

Li Yifu quickly stood up and said in fear, ” ”Martial granduncle, this disciple deserves to die! This disciple is so slow – witted, I shouldn’t have guessed martial granduncle’s thoughts so carelessly, please forgive me, martial granduncle!”

Xia ruofei smiled bitterly. ”I’m just joking. It’s my fault for not making it clear. That’s why there’s a misunderstanding.” Sit down first, then we’ll talk!”

“Yes!” Li Yifu sat down uneasily.

Xia ruofei said, ”I mean, doesn’t his newborn child have serious health problems?” Maybe we can help him. In exchange, he’ll help us out a little. Isn’t that logical?”

Chapter 3228 A dangerous disease (1)

Li Yifu finally understood Xia ruofei’s real intention.

He felt even more ashamed because the first thing that came to his mind was that Xia ruofei wanted to use the child of Elon Musk to threaten the other party. From the looks of it, it seemed that he had a dark heart!

Chen Xuan and the rest did not participate in the discussion. After hearing Xia ruofei’s words, Chen Xuan could not help but say, ” ”Brother Xia, wouldn’t this be too troublesome? After all, we don’t know what’s going on with the child!”

Yu Xin 'er also agreed. She said, ""I think sect leader Chen is right. And if even a super – rich man like masker can't cure his child, I'm afraid we'll also ..."

Xia ruofei, Song Wei, and Ling Qingxue looked at each other and smiled.

Then, Xia ruofei said, "brother Chen, miss Xin 'er, I have some confidence in my medical skills!" No matter what the problem is with this new son of Elon Musk, I should be able to cure him. If even a super – rich man like him was helpless, wasn't that great? It meant that this health problem was very serious, and money couldn't solve it! If we can help him solve this problem, then this favor will be even more important!"

Ling Qingxue also chimed in, "that makes sense!" Being rich wasn't omnipotent! Gang leader Qiao was so rich, he would still die if he had to die. The more serious the condition of masker's child, the better!"

At this point, Ling Qingxue also felt that her words were a little inappropriate, so she quickly explained, ""I ... What I mean is, the child's condition is already like this. If even masker's money can't save his child's life, then if Fei were to save him, this favor would be even more precious, right?"

Xia ruofei chuckled, "that's what I meant." Brother Chen, miss Xin 'er, if we use the methods of cultivators, we can indeed force masker to produce spacesuits for us. However, using such a method to deal with ordinary people would not reveal his face, right? Besides, something like this has happened to his family, and we're still forcing him. It's a little too unreasonable. "

Cultivators were also human beings, and they could not avoid having seven emotions and six desires. This was especially so for female cultivators like Yu xiner. She had grown up in the secular world and received the traditional education of the secular world. She had only entered the flying flower Valley to cultivate after she had grown up, so she resonated with Xia ruofei's words.

She nodded in agreement and said, ""If his child is really dangerous, it's not appropriate for us to deal with him now ..."

Chen Xuan laughed bitterly. "I'm not insistent on using force to deal with this man. It's just that I didn't know how good brother Xia's medical skills were. Since you're so confident, it's better to use a gentler method. I have no objections."

Xia ruofei nodded and said, "yes!" I think soft tactics are always better than high – handed tactics. If Musk is willing to cooperate with us, we can be more at ease. After all, we're the ones using the spacesuits. If something were to happen to the production process, we'll be the ones at a disadvantage. "

"I agree!" Chen Xuan nodded. Then let's follow brother Xia's method and try it out!"

Xia ruofei smiled and said, "adopted husband, hurry up and get someone to find out what's the situation with masker's son."

In fact, no matter what kind of illness masker's son had, Xia ruofei was confident that he could use his Traditional Chinese Medicine methods and the petals of the spirit Heart Flower to treat him. However, before you go to his door to help him, you have to find a way to understand what illness he had, right? If you don't know anything and say that you can cure your child's illness, you'll be treated as a quack and beaten out!

“Yes!” Li Yifu nodded. Martial granduncle, I’ll go to a few more detective agencies and try to get the exact information as soon as possible!”

“En!” Xia ruofei nodded and said, “it seems like we haven’t even warmed up to our seats yet. We’ll have to move to Los Angeles again!”

“Grand uncle – Master, I’ll go arrange the plane ...” Li Yifu said hurriedly.

“No need,” Xia ruofei waved his hand. “We’ll take the airboat there directly!”

“Yes! “Grand uncle – Master, I’ll make some arrangements first ...” Li Yifu said.

“I’m not in a hurry ...” Xia ruofei nodded.

Xia ruofei looked at the time and said, “It takes time to gather information. It’s already evening, so why don’t we stay here for the night and set off tomorrow morning? Everyone, take a good rest in your rooms! Just take it as recuperating! Of course, it’s fine if you want to go out. After all, we don’t come to the US territory often ...”

“Then we’ll head back to our room first!” Chen Xuan said with a smile as he stood up. Old man, I’ll have to trouble you with the matters here!”

Chen Xuan was speaking to Li Yifu. After all, Li Yifu was an old man. It wasn’t appropriate for Chen Xuan to address an old man with white hair and a white beard by his name. However, Li Yifu’s cultivation level and seniority were both very low. Chen Xuan could not possibly address him as ‘senior’. Hence, he could only use a more neutral term, elder Xuanji.

Li Yifu quickly said, “young sect leader Chen, you’re too kind. It’s my duty to serve Grand – martial uncle. I don’t dare to say that it’s hard!” Please go back to your rooms to rest. I have already arranged a banquet, so please be sure to come!”

Chapter 3229 A dangerous disease (2)

Xia ruofei smiled and said, “of course!” When we arrived in the United States, my adopted husband was the host, and we were all rich people! Brother Chen, miss Xin ‘er, go back to your rooms and rest for a while. I’ll call you when it’s time to eat!”

“Then I’ll accept your invitation!” Yu Xin ‘er said with a smile.

Chen Xuan and Yu xiner returned to their respective rooms. Li Yifu also stood up and bade them farewell. He went to make arrangements for his upcoming trip to Los Los Angeles and contact more private detectives to find out more about masker’s family.

In the evening, Li Yifu hosted a banquet for Xia ruofei and his group.

Because the things they had to do in the U.S. Had not been settled yet, everyone naturally did not have the mood to drink. After dinner, they went back to their rooms to rest.

The next morning, Li Yifu took everyone to the hotel’s buffet restaurant for breakfast, and then everyone was ready to go directly to Los Angeles.

Naturally, Li Yifu did not have to personally check out. After breakfast, they went straight to a relatively quiet place. After Xia ruofei released the black Phoenix flying boat, everyone quickly jumped onto the flying boat.

Xia ruofei asked as he controlled the flying boat to increase its altitude, "" Foster husband, did you manage to find out any concrete information?"

"No one has replied to me yet," Li Yifu said with a guilty expression.

Xia ruofei smiled. "It's okay. We don't have much time. Let's go to Los Angeles first!"

From San Francisco to Los Angeles, an ordinary civil aircraft would take about an hour and a half, but the black Phoenix flying boat was even faster. It only took them about twenty minutes to arrive in Los Angeles.

Xia ruofei followed Li Yifu's instructions and found a relatively secluded place near the famous Beverly Hills Hotel in Los Angeles to land the airboat slowly.

Xia ruofei quickly kept the black Phoenix flying ship after everyone had jumped off.

The Beverly Hills Hotel was not far ahead, and Li Yifu had already booked a room there in advance.

Li Yifu's people had already made arrangements in advance, and the rooms were also booked under other people's names, so they didn't need to check in at all when they arrived at the hotel. They directly got the room card from Li Yifu's company staff and went straight to the room.

This was the most famous Five – Star hotel in Los Angeles and had a long history.

Although the hotel was old, the facilities were still very advanced. In recent years, it had been upgraded many times and maintained a rather high standard.

Xia ruofei and the rest first went to one of the luxury suites. Then, Li Yifu started to make phone calls to understand the situation.

Xia ruofei took out a tea set and the Taoyuan Da Hong Pao from the spirit map space. He sat around with everyone, making tea and chatting. It was impossible to find good tea leaves in the hotels in America. There would not be any kungfu tea sets either unless he specifically asked the hotel for it.

Even the tea was made with the spirit pool water that Xia ruofei had taken out from the spirit map space.

The spirit pond water was stored in a five – liter water bottle.

Many people paid particular attention to the quality of the tea they made. Hence, it was not strange for Xia ruofei to store some tea – making water in his storage artifact. No one paid much attention to it, but they were full of praise for the taste of the peach blossom Da Hong Pao.

After a while, Li Yifu walked over and said, "" Master granduncle, we've basically done a thorough check. Masker's child was diagnosed with Strigoi yesterday. This type of tumor has a higher degree of malignant, and the prognosis is not very ideal."

“Strigoi Carnivus?” Xia ruofei said as he took out his phone to search for information. “Is this illness very troublesome? Even someone as rich as masker can’t cure it?”

Chen Xuan and Yu xiner couldn’t help but exchange a look. Yesterday, Xia ruofei had confidently said that there was no problem with his medical skills. Why did it seem like he had never heard of this illness before? why did he have to look it up on the spot? Did he really use Baidu to see patients? Was this guy reliable or not?

Xia ruofei raised his head and saw Chen Xuan and Yu Xin ‘er’s strange looks.

He immediately guessed what the two were thinking and couldn’t help but smile. “”Brother Chen, miss Xin ‘er, my medical skills are mainly in the field of Chinese medicine. This thing called’ sarcoma ‘is what Western medicine calls it. I have to check what’s going on first ...”

In fact, although Xia ruofei’s medical skills had reached a very high level, he still used a simple and brutal method to treat some malignant or difficult diseases. He directly applied the petals of the spirit Heart Flower and it was a tried and tested method.

However, this was not something that outsiders could know.

Chen Xuan and Yu Xin ‘er nodded their heads doubtfully.

No matter how good Xia ruofei’s medical skills were, there was no harm in trying. If this method did not work, they had other means to force masker to give in.

Xia ruofei quickly checked on the condition of the sarcoma and found out that it was a malignant tumor that appeared mainly in childhood. According to Western treatment methods, it was usually removed by surgery, combined with radiotherapy and chemotherapy.

Xia ruofei quickly browsed through the relevant information and said, “”This disease is quite serious, but it seems that the recovery rate is not bad! Masker is so rich, the child shouldn’t lose his life, but he will definitely suffer a lot. ”

Li Yifu said, “”martial granduncle, according to the situation we’ve grasped, this child’s Strigoi is one of the more malignant types. It grows on his arm. When he was just born, he thought it was a red birthmark. I didn’t expect it to be such a serious illness.” It was said that the disease had affected the kidney and some other important organs. Also, under normal circumstances, his survival rate for this type of Strigoi is less than one – third, so it’s still quite dangerous for him. ”

Xia ruofei nodded and said, “understood!” In other words, he should be able to keep his life for the time being, but the probability of a relapse is very high. ”

“Yes, I am!” Li Yifu nodded and said.

“Foster husband, contact masker!” Xia ruofei said, “we must make him agree to meet us!”

“Yes! Senior granduncle!” Li Yifu replied.

Los Angeles, Bellaire.

In a somewhat retro Spain – style mansion, Elon Musk was discussing with his private doctor and a few Children’s Oncology specialists.

Beside him, his girlfriend, glams, looked Haggard, and he himself was frowning.

He said somewhat impatiently, “so, the only plan now is surgery?” But little X is still so young, can he handle this kind of surgery?”

Elon Musk named his newborn son Little X. It was a very unique name. It was said that it was not only because his company was called SpaceX. Of course, this was also part of the reason, but it seemed to have more meanings.

The personal doctor of Elon Musk, Mannu, exchanged a look with several experts, then nodded cautiously and said, “Mr. Masker, in order to prevent the condition from worsening, we suggest that you have surgery as soon as possible. Of course, because the patient is too young, some risks are inevitable during the surgery. However, we can make sufficient preoperative preparations through scientific means to reduce the risk of the surgery as much as possible. ”

“Dr. Mannu, can you tell me what the success rate of the operation is?”

Manu immediately hesitated. He muttered to himself for a while before saying, “The success rate of the surgery itself should be more than 80%. What we need to pay attention to is the postoperative infection problem, as well as the problems of the immune system brought about by the subsequent radiotherapy and chemotherapy. Of course, the most important thing is the probability of recurrence ... From a macro perspective, these are the standards to measure the success or failure of the surgery when put together.”

“Then, according to this standard, what are the chances of the surgery being successful?” asked Elon Musk.

“About thirty percent.” “If postoperative infection can be avoided and comprehensive treatments such as radiotherapy and chemotherapy are successfully completed, the survival rate should increase to 40 to 50 percent ...” Manu said.

Chapter 3230 A ray of light (1)

When elonmask’s girlfriend, gramus, heard the doctor’s judgment, she couldn’t help but sob.

On the other hand, elonmask frowned slightly and said, “In other words, if the surgery and follow – up comprehensive treatment are carried out, the survival rate will not exceed 50%?”

“You can understand it that way.” Mannu said, “in fact, the survival rate indicators include the five – year survival rate, the ten – year survival rate, and so on. However, if little X’s illness reappears, I’m afraid ...”

After saying that, Mannu shrugged his shoulders and did not say anything else, but everyone already understood what he meant.

Elonmask’s face darkened as he fell into a dilemma.

After a long while, he raised his head and said, “Thank you, Dr. Mannu and the other experts, thank you. I think I still have to think about the treatment plan ...”

“Of course! This is very important. ” Mannu nodded and said,”I don’t mean to rush you, but I still have to remind you that you need to make a decision as soon as possible. The longer you delay, the worse it will be for your condition.”

“I know!” Elon Musk rubbed his hair and said,”you can stay here for now! I’ve already arranged a room for you. I need to discuss it with my girlfriend!”

“Alright!” Mannu stood up and said,”Mr. Masker, please inform me as soon as you make any decision! I’ll be at your command!”

Elon Musk nodded and asked the Butler to bring a few medical experts to the guest room to rest.

“What do we do now, Elrond?” Gramus was a little out of his wits.

Elonmask patted grams on the shoulder and said,””My dear, don’t worry too much. We can provide little X with the best medical facilities and the best pediatricians and onomogists in the world to diagnose him. He will definitely be fine. ”

“Dr. Mannu must have considered these factors,” Grims sobbed.”But his estimated survival rate is still so low, which means this disease is really difficult to cure ...”

How could Elon Musk not know about this? he just wanted to comfort his girlfriend, but in fact, he felt that he needed comfort very much.

“What do we do now, Elrond?” gramus asked. Do you need surgery?”

If the surgery failed, needless to say, they would not even be able to get off the operating table. Even if it was successful, there would be a series of problems that would follow, and any one of them could cost the child’s life. Even if they managed to overcome all those difficulties, the probability of a relapse would be extremely high.

In other words, it was very likely that he had suffered a lot of pain that even adults could not bear, and in the end, it was still difficult to keep his life.

If he did not undergo surgery and only went through conservative treatment, it might not be as painful, but it was obvious that his life was already on the line.

The so – called conservative treatment was, in fact, in many cases, just a form of deathbed care. It did not have any real treatment effect.

Elonmask sighed and said,””I’m indeed very conflicted. Little X is still so young. He shouldn’t have to suffer all this ...”

In fact, the moment elonmask heard that his child had a malignant tumor, he subconsciously thought of his first child.

At that time, the child was only ten weeks old. Like all fathers, he wanted to let the child take a short nap and then put the child on his shoulder.

However, when he went to see the child again, he realized that the child was no longer breathing.

Of course, the doctor's final conclusion was that the child had died of sudden infant death, not because he had held the child in the wrong position, causing the child to suffocate.

However, Elon Musk still felt great pain. He stayed in the hospital for three days and never talked about the death of his child again.

In fact, the sudden death of the child had been a huge blow to him.

As a result, all five of his children were conceived through test – Tube babies. In the depths of his heart, he believed that only science could ensure the absolute health of children.

Only this time, his girlfriend's pregnancy was an accident. But since she already had a child, she had to keep it.

When the child was born, Elon Musk was a little nervous. Fortunately, the examination at the time showed that the child was very healthy, and he heaved a sigh of relief.

But the good times didn't last long, and the nightmare still came.

This child, whom he had named "little X", had not been able to escape his fate in the end. He had actually contracted such a serious illness and his life was in danger, as if he had been cursed.

The psychological shadow that was hidden in the depths of Elon Musk's heart suddenly shrouded him again.

"Elrond! Elrond!" His girlfriend's voice woke him up from his painful memories.

"Ah?" Elon Musk was a little confused. "I'm sorry, my dear. I was a little distracted ... What did you say?"

"Elrond, your phone is ringing ..." Said Grims.

It was only then that Elon Musk realized that not only was his phone ringing, but it was also vibrating, but he really didn't notice it.

"Oh! Thank you!"

Elon Musk took out his phone and looked at the caller ID. He could not help but frown slightly.

The call was from Li Yifu.

According to normal procedures, if Li Yifu wanted to contact Elon Musk, he would have to ask his assistant or secretary to make an appointment with his Secretary.

However, the two of them were about the same in terms of family background. They were both very rich. The last time they met, the two of them had exchanged business cards out of courtesy, so Li Yifu had called directly through the private phone number of Elon Musk.
