Chapter 3281 The Grand Tower (2)

After seeing the embossed on the stone door, Xia ruofei couldn't help but click his tongue.

Although the embossed were rough, they were able to vividly show the battle scenes. In a daze, Xia ruofei even felt as if he was on a battlefield. Vital Qi, true Qi, and magical weapons were flying all over the place. The bloodthirsty thought made his blood boil ...

After watching the last battle scene, Xia ruofei looked away with lingering fear.

He felt that if it wasn't for the fact that his spiritual power cultivation was relatively profound, he would be affected by the stone door and might even be possessed by the devil.

The brutal battlefield made Xia ruofei feel a sense of danger from the bottom of his heart. If this scene was real, it would be a catastrophe for the cultivation world. All the cultivators on earth were not enough to fill the gaps of their teeth.

Even though he had retracted his gaze, Xia ruofei could still feel the murderous intent that was about to burst out of his chest. He could only suppress it.

Xia ruofei was very clear that his current state had been greatly affected. It was definitely not a wise choice to try to open the tower door. If there were more powerful embossed in the tower, he would probably lose himself in an instant.

After all, Xia ruofei had not fully recovered and was starting to get anxious.

Xia ruofei thought of the embossed and frescoes that he had seen when he was walking around the huge corridor. The scenes of cultivation looked ordinary, but they faintly revealed a kind of peaceful and tranquil aura. This was also an important reason why he did not lose his mind when he saw the battle scene on the stone door.

Earlier, Xia ruofei had made a big detour before arriving at the entrance of the pagoda. Hence, there was still a small part of the embossed that he had not finished viewing.

Now that his condition had been greatly affected, the embossed on the tower were just nice to calm him down. Hence, Xia ruofei decided to look at the carvings again.

Therefore, he decided to ignore the door for the time being and continued to walk in the direction he had just come from. As he walked, he looked up and admired the embossed sculptures on the wall.

He soon arrived at the starting point, but he did not turn back. Instead, he continued to move forward along the huge corridor that surrounded the bottom of the tower until he was back in front of the tower door.

This round took about half an hour, and Xia ruofei had purposely increased his speed.

Back at the tower's entrance, Xia ruofei's mood had become very calm. The violent and bloodthirsty negative energy had disappeared without a trace.

Therefore, he decided to try to open the huge stone door and explore the tower.

Such a large stone door could not be pushed open with physical strength unless the person who built and used this tower was a giant who was tens of times taller than Xia ruofei.

Hence, Xia ruofei felt that there must be a mechanism that could open the door.

Thus, he released his spiritual power to investigate the nearby area, hoping to find the mechanism to open the door.

He carefully released his mental power to search inch by inch. At the same time, he paid special attention not to use his mental power to sense the murderous aura on the embossed the stone door, for fear of being affected again.

Actually, Xia ruofei was really anxious.

He was mainly worried about Ling Qingxue.

If anyone else, including Ling Qingxue, had experienced the same environment as him and also encountered this tower, they would probably have quickly lost themselves in front of the embossed of the stone door. They would have fallen into the violent and bloodthirsty aura and would not be able to extricate themselves. Ling Qingxue was no exception.

It was because of his experience that Xia ruofei knew how powerful the embossed on the stone door were. That was why he was even more worried.

However, he was also very clear that the more urgent the situation was, the more he couldn't lose his mind. He had to calm down, calm down, and calm down. Otherwise, not only would he not be able to help Ling Qingxue, but he might also suffer a crushing defeat here and be trapped in this Mystic realm forever.

It was not an easy task to carefully inspect such a huge stone door and find the mechanism.

Xia ruofei was busy for half an hour, but there was no progress.

Of course, before that, he also held a trace of hope and tried to push the stone door. The result was as he had expected. He had used all his strength without holding back, but the stone door did not move at all.

That was why Xia ruofei gave up and tried to find the mechanism to open the stone door.

After all, he had followed the guidance of the rising Dragon Order to come to this secret realm. It could be said that this secret realm was definitely suitable for Huaxia cultivators to explore. In that case, there should not be a situation where he could not even enter the door.

Just as Xia ruofei's patience was wearing thin, he suddenly heard a bone – chilling creaking sound. Then, he saw the stone door slowly open ...

Xia ruofei couldn't help but be stunned. He couldn't help but think of a funny joke. He couldn't push the door open with all his might, so he hired a maintenance worker, but the door opened with a light pull.

The door was clearly pulled open, but you just had to push it open. Wasn't that just asking for trouble?

Xia ruofei did push the door hard, but he did not try to pull the door open after he gave up! Moreover, he had been seriously looking for information about the mechanism in the past half an hour. He did not try anything rashly. His mental power was also used to investigate. He would not touch any place without confidence. However, he clearly did not do anything, so how did the door open by itself?

Xia ruofei was also puzzled.

However, when the door was pushed open, he still subconsciously jumped back a dozen meters.

On one hand, he was worried that there would be danger and that he would be able to deal with it more easily if he stayed further away. On the other hand, it was also because the door was open outward. If he didn't move away quickly, he would be hit by the door.

Of course, he was standing in the middle, so he didn't need to retreat too far.

Xia ruofei was on high alert as he looked at the giant stone door that was slowly opening.

Only when the door was opened could they see that the stone door was seven or eight meters thick. In other words, the door frame was also seven or eight meters thick. How was this a door frame?! It was simply a city gate ...

Seeing such a thick stone door, Xia ruofei was even more certain that he could not open it himself. Even if he were to increase his strength by ten or even a hundred times, he would not be able to push such a heavy stone door.

The 80 – meter – tall stone door slowly opened with a rumbling sound. The first thing that appeared in front of Xia ruofei was a black crack. Then, the crack continued to widen. When it was two or three meters wide, Xia ruofei's eyes suddenly narrowed and he was on high alert. He wrapped his spiritual power around the flying sword and was ready to fight at any time.

He saw a figure walking out of the tower.

While he was getting ready for battle, Xia ruofei was secretly glad. Although it looked scary, at least the person who walked out was about the same height and size as him. He was a normal human and not a 60 – 70 meter tall giant.

This person didn't wait for the stone door to fully open before he stepped out of the tower.

When he came out, Xia ruofei finally saw him clearly. The man in front of him was wearing a green Taoist robe and had the face of an Eastern Huaxia. However, he looked very young and was only fifteen or sixteen years old.

Judging from the way he was dressed, he should be a Daoist child!

In fact, the cultivation world and Daoism had a deep relationship. Many cultivators dressed up as Daoist. Even if they were not monks, many cultivators liked to wear Daoist robes. In comparison, Buddhism had much fewer monks. Of course, there were also monks who cultivated, but they were in the minority.

Hence, Xia ruofei was not too surprised to see this little Daoist.

The Daoist child quickly came to Xia ruofei and said, ""The Buddha of immeasurable longevity! Since this scholar had come here, why was he loitering outside the door? Please come in for a chat!"

Chapter 3282 The strange child Daoist (1)

Xia ruofei had never expected that the first person he would see in this secret realm would be a little Daoist boy.

Ever since he entered this secret realm, he had always been alone. Moreover, the vast grassland was completely silent, not even the sound of insects could be heard. A living person had suddenly appeared, which really caught him off guard.

Xia ruofei calmed himself down and said, ""This little Daoist priest is too polite! May I ask who left behind this tower and what mystery lies within it?"

The little Daoist boy's face was as calm as an ancient well as he said indifferently, ""Scholar, please come in!"

The little Daoist boy had a young face, but he gave Xia ruofei a feeling of lethargy.

Seeing that the other party didn't respond to his words, Xia ruofei felt helpless. He could only nod and say, ""Thank you for your trouble, little priest!"

The Daoist boy nodded and turned to walk into the tower.

Xia ruofei looked at the little Daoist's back and felt that something was off, but he could not tell what it was. He frowned slightly and thought for a moment, but still decided to follow them first.

Xia ruofei took two quick steps and caught up to the little Daoist. Then, he asked, ""Little Daoist priest, may I ask how old you are this year?"

The little Daoist slowed down and turned to look at Xia ruofei. ""Scholar, please come in!"

The tone, speed, and expression of this sentence were almost exactly the same as before. Even the short pause after the words "scholar" was almost the same.

Xia ruofei couldn't help but be stunned. He looked deeply at the little Daoist and asked, ""Little Daoist priest, is there a mission for me to enter this tower?"

After the little Daoist heard this, his face finally showed some expression. He said, ""I've heard that you're exceptionally intelligent. Our true yang temple has recently encountered a Strange Matter, and I hope that you can help us dispel our doubts and solve this difficult problem. "

"True yang temple?" Xia ruofei asked subconsciously, "little Taoist, are you saying that this tower is actually a Taoist temple?"

The little Daoist regained his calm expression and said, ""Scholar, please come in!"

It's here again ...

Xia ruofei already had a guess in his heart, but he could not be completely sure.

At this moment, the two of them had unknowingly arrived at the entrance of the tower. The huge stone door had been completely pushed open, forming a huge doorway.

When the two of them stepped into the tower, the two stone doors began to close by themselves again, but this process was very slow.

Xia ruofei followed the little Daoist, but he was walking very slowly. The little Daoist did not rush him, but also slowed down to wait for Xia ruofei.

Just as the stone door was about to close and there was only a one – meter gap left, Xia ruofei suddenly tiptoed and leaped backward, directly jumping out of the gap.

After leaving the tower and entering the circular corridor outside, Xia ruofei saw the Daoist boy's figure through the gap of the door. He did not expect Xia ruofei to suddenly run out of the tower like a rabbit. The Daoist boy did not react for a moment before the stone door was closed heavily.

Xia ruofei looked at the stone door thoughtfully. After a while, he started to walk around the circular corridor to observe the embossed on the wall.

To be honest, it was not that Xia ruofei was not anxious. It was just that he knew that he had to be more careful in times like this. He had to confirm his judgment before he could make the right choice in the following process.

In addition, although these embossed were all scenes of cultivation, and looked very ordinary, after careful observation, one would still find it very charming. Just like some girls, they might not be stunning at first glance, but they belonged to the type that was very long – lasting, and the more one looked, the more comfortable it was.

Xia ruofei patiently went against the clock and walked around the circular corridor. To be precise, it should be an octagonal corridor. He looked at all the embossed again and finally returned to the huge stone door.

Xia ruofei stared at the tightly shut stone door. He was actually a little nervous. Although his choice just now was not an impulsive one, it still carried some risks. If he could not enter the stone door again after he came out, it would not be worth it.

However, Xia ruofei's judgment was that the possibility of that was very low.

As expected, when Xia ruofei tried to use his spiritual power to check the stone door again, the stone door creaked open.

Xia ruofei finally confirmed that he didn't need to do anything with this door. The last time he tried to open the stone door, it was meaningless.

Xia ruofei stepped back and stared at the door that was slowly widening.

Sure enough, the little Daoist boy in the blue Daoist robe appeared at the door again.

The little Daoist boy walked up to Xia ruofei again.

This time, Xia ruofei observed carefully and realized that the distance between each step of the child was about 65 to 70 centimeters. It was as if he had measured it with a ruler. The distance of each step was exactly the same.

The little Daoist boy bowed to Xia ruofei as if it was his first time seeing Xia ruofei. He said directly, ""The Buddha of immeasurable longevity! Since this scholar had come here, why was he loitering outside the door? Please come in for a chat!"

Chapter 3283 The strange child Daoist (2)

This was the same as the first sentence the little Daoist said to Xia ruofei when the stone door was opened. The tone, intonation, speed, and rhythm were all the same. It was like "CTRL+C" and "CTRL+V".

Xia ruofei was almost certain that the little Daoist was not human.

This was not an insult, but a statement of an objective fact.

From the start, Xia ruofei felt that the little Daoist boy gave him a strange feeling, but he could not put his finger on it. After a few simple sentences, Xia ruofei still felt that the little Daoist boy was somewhat mechanical, or rather, rigid.

After that, Xia ruofei asked a question about the "mission". Perhaps this keyword had triggered some response mechanism of the little Daoist boy, and he had obtained information about the "true yang temple".

Although the answer was no longer the same as before, Xia ruofei was even more suspicious.

As a result, he did not hesitate to leave the tower at the last moment, taking the risk of never being able to enter again to test the waters.

The appearance of this little Daoist and the same words confirmed Xia ruofei's suspicion.

Xia ruofei wasn't trying to make things more difficult for himself. It was still very important to confirm the situation of the little Daoist. A real person and a created puppet would naturally be completely different.

Xia ruofei smiled at the little Daoist and said, ""Then I'll have to trouble little Daoist priest!"

"Scholar, please come in!" The little Daoist said indifferently, his expression still as calm as an ancient well.

As expected, it was still the same sentence.

A smile appeared on Xia ruofei's face. He followed the little Daoist and walked towards the door again.

"Little Daoist priest, do you have a girlfriend?"

"Scholar, please come in!"

"Little Daoist priest, have you eaten?"

"Scholar, please come in!"

“Little Daoist priest, how many people do you have in your family?”

“Scholar, please come in!”

“Little Daoist priest, they told me that I must be ruthless towards the previous mission. I absolutely can’t let the Lotus root break and the thread continue to pull and tug. What do you think?”

“I’ve heard that you’re exceptionally intelligent. Our true yang temple has recently encountered a Strange Matter, and I hope that you can help us dispel our doubts and solve this difficult problem. ” The little Daoist boy revealed the same expression as before and said sincerely.

As expected, the key word was “mission”. As long as they were connected, even if the meaning was completely wrong, it would trigger the little Daoist to respond accordingly.

Xia ruofei held back his laughter. He could not help but think of some weird keyword blocking mechanism ...

Of course, Xia ruofei wasn’t being mischievous. He was just trying to make a second judgment and confirmation. Now, he could finally confirm it.

This little Daoist was a man – made puppet, and its intelligence level was several streets lower than the spiritual puppet Xia Qing in the spirit map space.

Basically, this little Daoist boy was a mechanical answering machine, similar to the service robots in some scenic spots. It was triggered by keywords and then played a certain recording, that was all.

Of course, the Daoist boy’s level of realism was still quite high. At least from the outside, it was impossible to tell that he was a fake person. Even the tone of his voice was not mechanical or electronic at all. It was full of emotions.

Xia ruofei followed the Daoist boy and entered the tower again.

The stone door behind him closed slowly. This time, Xia ruofei did not run out.

Although he knew that there was no threshold set at the door of the first floor and that the little Dao child would not be angry at him for repeatedly causing trouble, he did not want to waste any more time.

Hence, Xia ruofei did not look back even after the two heavy stone doors were closed.

He followed the little Daoist boy and tried to trigger other keywords, but all he got was the same sentence, “scholar Xuanji, please come in.”

Until Xia ruofei asked, “if I help you, will there be any reward?”

Xia ruofei saw that the expression on the Daoist’s face had become more varied and knew that there was hope. The word “reward” was obviously a key word.

As expected, the little Daoist said seriously, “Our true yang temple will always express our gratitude to our friends who have helped us! If you can help us solve this problem, we’ll share an interesting secret with you ...”

“Secret? What kind of reward is this?” Xia ruofei couldn’t help but Mutter to himself.

After he finished speaking, he immediately showed a bitter smile. He still unconsciously treated the little Daoist boy as a normal human being, but for a moment, he forgot that the boy was not a real human. Moreover, he accidentally triggered the keyword “reward” again.

As expected, the little Daoist said in a serious tone, “Our true yang temple will always express our gratitude to our friends who have helped us! If you can help us solve this problem, we’ll share an interesting secret with you ...”

Xia ruofei smiled bitterly and shook his head. He didn’t know who had left behind this tower. To be able to build such a magnificent tower, it must have been an Almighty. Why would they leave behind a puppet with such crude functions as a guide? This was not even comparable to some basic artificial intelligence in the secular world. He was simply an “artificial retard”!

Xia ruofei then tried to trigger new keywords but to no avail. In the end, he had no choice but to give up. It seemed that he had to follow the little Daoist to the destination first so that he could provide more information. Then, he could try to trigger new keywords based on the information he provided.

Although this kind of puppet with simple functions was a little speechless, it had an advantage, and that was that it would not have any precautions at all. As long as a keyword was triggered, it would definitely provide the corresponding answer.

Xia ruofei followed the little Daoist through the door and walked for a while. Suddenly, the view in front of them opened up.

The first floor of the tower was finally revealed to Xia ruofei.

This floor was more than 100 meters high, equivalent to a 30 – 40 – story building on earth, and it covered more than 10 acres.

It was completely different from what Xia ruofei had imagined. There was a mini town on the first floor.

Although it was called a small town, due to the limited space, there was only one street. On both sides of the street, there were dozens of houses of different heights. The tallest of these houses was only three stories and less than ten meters tall. Most of them were low – rise bungalows.

Between the houses on both sides of the street, there were naturally some narrow alleys. This mini – town almost took up the entire space of the first floor.

At the end of this Street was a Hill that was only 20 to 30 meters high. On the top of the hill stood a small Daoist temple, and a small path led to the Daoist temple.

Xia ruofei’s spiritual power extended forward and quickly sensed that there was a board with a missing corner hanging above the door of the dilapidated Taoist temple. On it were the words “true yang temple”.

Although the plaque was broken, the three words were extraordinary. The color was a little dull and the gold powder had fallen off in many places, making the three words look very mottled. However, one could still distinguish the sharpness of the words. Even if he used his spiritual energy to examine it, Xia ruofei could still feel the aura from the three words.

It was only when they almost talked about this Taoist temple that Xia ruofei suddenly realized.

It turned out that the true yang temple that the little Daoist boy had mentioned was just a small temple on the first floor of the tower.

At first, Xia ruofei thought that the tower was called true yang temple!

The little Daoist led Xia ruofei forward without a word. Soon, the two of them stepped onto the only Street.

...

The street was paved with bluestone, giving it a simple and ancient feel.

Just as Xia ruofei stepped into the street, the door of a bungalow not far away suddenly opened. A middle – aged woman in coarse clothes came out with a basin of clothes. At the same time, there were people coming out of many houses, and there were faint footsteps coming from the deeper alleys. Xia ruofei even saw someone leading a horse and stepping onto the street. In addition, there were also some people who had set up stalls on both sides of the street. Some sold Chinese medicine, some sold general goods, and some sold breakfast.

For a time, the originally quiet and empty mini town suddenly became lively, adding a bit of human fireworks ...

Chapter 3284 Liveliness is they_

Xia ruofei had a strange look on his face. From afar, he had seen that this mini – town was dead silent without any signs of life. However, the moment he stepped on the road of the town, it was as if he had pressed the play button and the whole town suddenly came to life.

This was naturally very sudden.

Besides, Xia ruofei observed as he walked. He soon realized that the town was bustling with people and the stalls on both sides of the street were in a mess. This was what most small towns were like. However, Xia ruofei could still feel that there was an invisible order in the town.

The townspeople and street vendors, regardless of whether they were white – haired old men or yellow – haired children, seemed to have planned their every move. There was a precise order in the chaos.

As such, Xia ruofei felt that his appearance in this mini town was very sudden. It was as if he had thrown a bomb into a pool of stagnant water. The balance of the mini town seemed to have been destroyed.

Of course, this was entirely Xia ruofei's personal feeling. However, his intuition had always been very accurate.

Xia ruofei did not interact with the townspeople. He just followed the little Daoist through the street and observed quietly.

The street wasn't very long, and it didn't take long for them to cross from one end to the other, leaving the mini – town.

After observing for a while, Xia ruofei had determined that the residents of the small town were not real people. They were man – made puppets, just like the little Daoist in front of him. Not only that, but even

the horses they led, the dogs they raised at home, and even the crickets that a few children played with were not real living things.

Although it was very realistic, under Xia ruofei's spiritual power, nothing could be hidden.

Although these puppets could block out the detection of mind power and Xia ruofei could not directly check their internal structure, under the monitoring of mind power, no small action could escape Xia ruofei's eyes, including the small animals mentioned earlier.

Xia ruofei's spiritual power cultivation was already stronger than the average late – Stage golden core cultivator. Therefore, his brain development was far more developed than ordinary people. Even when he processed so much detailed information at the same time, he could still make an accurate analysis in the shortest time.

In short, the words and actions of the townspeople and the lifelike little animals were strictly bound by logic. Their seemingly casual movements were actually arranged, like a large – scale stage play that had been rehearsed countless times and could be easily performed by the actors with their eyes closed.

Xia ruofei's curiosity grew. However, he knew that it would be difficult for him to get any useful information from the little Daoist, so he held back his questions and decided to follow him to the true yang temple.

This little Daoist was equivalent to an “NPC” in the game. If he was treated as a real person and communicated with, even the best – tempered person would be furious. Xia ruofei did not want to make things difficult for himself.

After leaving the town, they set foot on a winding mountain road.

Of course, the road wasn't long, because the hill wasn't steep at all. At most, it was just a little uneven.

Even so, this was already the highest point on the first floor of the tower, and true yang temple occupied this position.

In a short while, Xia ruofei followed the little Daoist to the entrance of true yang temple.

Xia ruofei walked closer and finally saw the true appearance of true yang temple. It was indeed a dilapidated Daoist temple. The walls of the courtyard were slightly crooked as if it would collapse at any time. The door might have been painted red before, but the original color had faded away after so many years. Besides, the temple was very small. Xia ruofei scanned it with his spiritual power. Other than some places that he could not see through, he had a general idea of the temple. There were only two entrances into the temple, the front hall and the back hall. The front hall had the statue of the Three Pure Ones and was filled with incense. The back hall looked like a living area. It was a small siheyuan structure with only a few rooms.

The little Daoist boy came to the front of the temple and pushed open the two old and broken doors. He turned around and bowed to Xia ruofei. “This scholar, we've arrived, please come in!”

Xia ruofei nodded and asked casually, “Little Daoist priest, how many people cultivate in your temple?”

Initially, Xia ruofei thought that this question would be useless. Unexpectedly, the little Daoist actually answered him, "Only little Daoist and honored master are here, relying on each other. Scholar, master has been waiting for a long time, please come in quickly!"

Xia ruofei was speechless. He had initially thought that this magnificent tower was the so – called true yang temple! He didn't expect to see that true yang temple was only a very small Daoist temple on the first floor, and there were only two Daoist priests, one old and one young. He didn't know what was going on with the old one, but he was sure that the young one was a puppet.

Chapter 3285 Liveliness is they_

This difference was too great!

However, Xia ruofei did not have the time to lament. This was the only place where he could find clues. Even if there was any danger inside, he could not back out now.

Hence, Xia ruofei smiled and nodded. He followed the Daoist boy and entered the true yang temple.

After walking through the gate, there was a small and dilapidated courtyard. The courtyard was overgrown with weeds, and it was obvious that it had not been maintained for a long time.

Xia ruofei couldn't help but think, "it seems like this little Daoist is also a lazy puppet!" He didn't even bother to maintain his own courtyard ...

After passing through this dilapidated courtyard and walking up a few steps, they would reach the front hall of the Taoist temple.

Xia ruofei stopped in his tracks. He took an incense stick from the side and lit it up respectfully for the Three Pure Ones holy man.

Even though Xia ruofei was not a Taoist, it was only right for him to show some respect to the statue of the patriarch.

The little Daoist naturally did not rush him and just waited at the side.

At first, Xia ruofei had wanted to give some incense money, but he only had Chinese dollars or US dollars. He thought that these earthly currencies were useless here.

So, he looked at the dusty Merit Box and finally gave up the idea of being happy.

After they finished burning the incense, Xia ruofei followed the little Daoist from the side of the main hall to the back. After going down a few steps, they arrived at the back of the hall.

The building of the back hall was much lower than that of the front hall. In fact, it was a relatively small siheyuan. The building of the front hall was one side of the small siheyuan of the back hall. The other three sides were one – story single – story houses, with about seven or eight rooms.

As soon as Xia ruofei arrived at the rear hall, he heard footsteps. He couldn't help but be invigorated. At the same time, he raised his guard and was ready to release his flying sword to fight at any time.

Xia ruofei looked up and saw an old Daoist walking out of a room with a smile.

The old Daoist's hair and beard were all white, and he was wearing an old Daoist robe that had been washed a little white. He even had a sword on his back. Although this old Daoist looked very old, his face was very ruddy, and his skin was very smooth, with almost no wrinkles. In addition, his legs were tied with Greaves, and he walked like a tiger. One look and you could tell that he had some cultivation.

The White – haired old Taoist walked in front of Xia ruofei, bowed and said, "The Buddha of immeasurable longevity! May I know your name?"

Xia ruofei bowed slightly and said, "I'm Xia ruofei. May I know your Dharma name?"

"So it's scholar Xia, it's a pleasure to meet you!" The White – haired Daoist said with a smile, "I'm Zhen Yang. I'm cultivating here with my disciple, Qingfeng."

It turned out that the Dao child puppet also had a name. However, the name Qingfeng was too common and it was difficult to leave a deep impression on people!

Of course, the White – haired Daoist priest's name wasn't that advanced. It was unknown whether he had taken over the true yang temple and decided to call it true yang, or if it was because his original Daoist name was true yang that he named the temple true yang temple.

In any case, no matter what the situation was, it was definitely an act of laziness.

Of course, this wasn't because Daoist Zhen Yang was slacking off, nor was it because the little Daoist Qing Feng was slacking off. It was because the Almighty being who had created them was slacking off.

Yes, although it was only a short contact, Xia ruofei could basically judge that this white – haired old Taoist Zhen Yang was still a puppet, even though he was much more realistic than the Taoist child Qing Feng and had a higher level of intelligence.

When he saw Qing Feng outside the tower, Xia ruofei could not make a quick judgment. However, after interacting with Qing Feng and observing the residents of the mini town, he had gained a lot of experience in judging.

At first glance, this white – haired Zhen Yang Daoist was basically flawless. However, Xia ruofei had already gained a lot of experience. After a little test, he could confirm his judgment.

For example, when Xia ruofei was speaking, he seemed to have moved a few times. Under normal circumstances, the other party's gaze would definitely follow Xia ruofei's movements to show courtesy. In fact, the White – haired Daoist Zhen Yang had indeed done so. However, his reaction was slightly slower than a normal human's. Hence, the final effect was that Xia ruofei moved his feet while Zhen Yang continued to smile at the position where Xia ruofei had been standing before quickly adjusting himself.

The delay was only for a second, but it was enough for Xia ruofei to make a judgment.

Of course, he had also used a few other tricks to test this white – haired old Daoist Zhen Yang. The conclusion was that there was a 90% chance that this old Daoist wasn't a real human, but a puppet.

To be honest, Xia ruofei was a little disappointed to come to such a conclusion.

He really wanted to meet a real human now, because he knew that communicating with these “NPCs” would not yield any results. Unless the other party wanted to tell him the information in the first place, he would not be able to get anything out of them.

Besides, Xia ruofei was the only living person in the secret realm so far. To be honest, he was still very lonely.

Especially when Xia ruofei passed by the bustling streets of the mini town, the sense of loneliness was even stronger.

It was as if the bustling scene described in Zhu Ziqing’s essay “moonlight in the Lotus pond” belonged to them, and I had nothing.

Xia ruofei’s mood was only down for a short while. He quickly adjusted his mood and smiled.””So it’s Daoist priest Zhen Yang, this one offers his greetings! May I know why you asked little Daoist Qing Feng to bring me here?”

Even though Xia ruofei felt that Taoist Zhen Yang was much more advanced than the little Daoist Qing Feng and could at least have basic communication, he still spoke in accordance with the customs of the ancient people. He even specifically said,”what’s the matter?” he thought that this should be able to trigger the next mission, right?

The White – haired Daoist Zhen Yang smiled.”This poor Daoist indeed has a request. I’ve taken the liberty to invite you here. Please forgive me!”

“If there’s anything you need, just say it!” Xia ruofei said,”as long as it is within my power, I will do my best!”

“Thank you, thank you!” The White – haired Daoist Zhen Yang said,”scholar Xia, please follow this poor Daoist. Let’s sit down and slowly talk!”

With that, the White – haired Taoist, Zhen Yang, led Xia ruofei into the quiet room facing the front hall. Xia ruofei looked around. Although Zhen Yang looked dilapidated, this quiet room was tidied up very neatly. Although the furnishings were simple – there was nothing more than a bed, a table, and a chair. There were no unnecessary decorations, but it appeared very clean. The simple furniture was spotless. There was even a sandalwood incense burning on the table, emitting smoke.

One must always be on guard against others. Xia ruofei secretly held his breath in case the sandalwood scent was strange.

In any case, with his current cultivation level, holding his breath for an hour was no problem at all. He could hold on for such a long time just by relying on internal breathing.

After old Daoist Zhen Yang invited Xia ruofei to take a seat, he instructed,””Qingfeng, why aren’t you pouring some tea?”

“Yes! Master!” Qing Feng, the Daoist boy who was standing at the door, bowed and said.

Xia ruofei quickly said,”Taoist Zhen Yang, there’s no need to drink tea. If you have anything to say, just say it!” As long as I can help, I won’t hesitate to help!”

“Hahaha! You’re very straightforward, master Xia!” Old Daoist Zhen Yang smiled and said, “I took the liberty to invite you here because I have a few questions to ask you. To tell you the truth, these questions have troubled this poor Daoist for many years, and I haven’t been able to find an answer, so I urgently need someone to answer them.”

At this point, old Taoist Zhen Yang looked at Xia ruofei and continued, “Of course, I won’t let you help me for nothing. As long as you can answer my questions, I’ll definitely thank you!”

Xia ruofei thought to himself, “this should be the successful trigger of the mission, right?” I’d like to see how difficult this mission is.

Xia ruofei said without hesitation, “What problem has troubled you for so many years? Daoist priest, Why Don’t You Tell Me So that I can also consider it!”

Chapter 3286 Victory of mathematics_The White – haired Daoist Zhen Yang revealed a happy expression and said, “That’s great! As expected, scholar Xia was a straightforward person! There are a few questions that have been bothering me. The first question is …”

At this point, old Daoist Zhen Yang shook his head and said, “Today, there are 35 battlerabbits in the same cage. There are 94 legs below. May I ask where each of the battlerabbits is?”

Xia ruofei had a strange expression on his face. He couldn’t tell! This thick – browed and big – eyed old Daoist Zhen Yang was actually a math enthusiast! No matter how genteel his question was, it couldn’t change the fact that it was a mathematics question! Wasn’t this the original version of the chicken and rabbit problem?

If the words of Daoist Zhen Yang were to be translated into the modern Language, it would be: A chicken and a rabbit were locked in the same cage. There were 35 heads on the top and 94 legs on the bottom. How many chickens and rabbits were there?

In ancient times, this might have been a very clever mathematical problem, but in this era, a middle school student could easily solve it by solving a linear equation of two variables. How could this be called a problem?

After Daoist Zhen Yang finished speaking, he smiled and said, “Scholar Xia, you have the time it takes an incense stick to burn to answer this question.”

As soon as he finished speaking, the little Daoist boy, Qing Feng, had already brought in an incense burner that had been prepared long ago. There was a newly lit incense stick stuck in the incense burner.

Xia ruofei didn’t know whether to laugh or cry. “Daoist Zhen Yang, there’s no need to go through so much trouble, I’ve already solved this problem.”

Old Daoist Zhen Yang raised his eyebrows and said, “Scholar, you’re actually so fast? Then tell me, what’s the answer?”

“ 23 chickens and 12 rabbits, right?” Xia ruofei smiled and asked.

Of course, old Taoist Zhen Yang was not really trapped by a difficult problem. The question he asked Xia ruofei was actually a test.

Xia ruofei believed that if the other members of the exploration team, including Ling Qingxue, had entered this scenario, Taoist Zhen Yang would have used the same tone and tone to throw the question at them.

As soon as Xia ruofei gave this answer, Taoist Zhen Yang couldn't help but raise his eyebrows and said, "This is indeed the answer to this question ..."

"So, I've solved this problem?" Xia ruofei asked with a smile.

"Hold on!" Old Daoist Zhen Yang said, "I'd like to know, what kind of calculation did scholar Xia use to be able to solve it in such a short time?"

Xia ruofei thought, "a linear equation of two variables! Can't you just do a verbal calculation?"

However, Taoist Zhen Yang definitely did not know about linear equations of two variables. When Xia ruofei was thinking about how to change the solution to an easy – to – understand way to express it, he suddenly thought of an interesting solution he had seen on the internet. Although it looked a little ridiculous, it could indeed be calculated quickly.

Hence, Xia ruofei smiled and said, "my method is very simple!" Daoist priest, there are thirty – five heads, which means that there are thirty – five chickens and rabbits in total, right?"

Old Daoist Zhen Yang nodded his head and didn't say anything, because this was basically nonsense.

Xia ruofei smiled and continued, "If the chicken and the rabbit both raise two legs, then there should be 70 legs less, right? Out of the 94 legs, there were only 24 legs left. As the chicken only had two legs, after it lifted them up, the remaining 24 legs would all belong to the rabbit. Each rabbit had two legs raised, so they were all standing on two legs. The 24 legs naturally corresponded to 12 rabbits. There were a total of 35 chickens and rabbits. There were 12 rabbits, so naturally, there were 23 chickens. Isn't the answer already out?"

Old Daoist Zhen Yang was dumbfounded. He didn't think that he would get the answer so easily.

After a long while, he said with a strange expression, "Why would the chicken and rabbit obediently raise their feet? Also, the chicken is raising both its legs, what kind of position is this ..."

Xia ruofei almost burst out laughing. He held back his laughter and said, "Daoist priest, this is not important, it's just a hypothesis! The main point is that this method can get the answer the fastest, right?"

Old Daoist Zhen Yang thought for a moment and said, "scholar Xia is a genius!" This method of solving the problem is very clever, this poor Daoist is impressed!"

"In that case, I've solved this problem?" Xia ruofei asked with a smile.

"Of course!" Old Daoist Zhen Yang said, "this poor Daoist still has a question. I hope that scholar Xia will not be stingy with your advice."

"Daoist priest, please speak!"

After a moment of silence, old Daoist Zhen Yang said, "There are things that I don't know the number of. Two is left from three, three is left from five, and two is left from seven. Where is the item?"

Fine! It was another classic ancient mathematics question, and it was also from Sun Zi's computational Canon.

If this question was translated into modern words, it would be: There's a pile of items. If you count three, you'll have two left. If you count five, you'll have three left. If you count seven, you'll have two left. Please find the number of items in this pile.

Xia ruofei had a faint smile on his face. This question had a trap. The answer to this question was not unique. To be precise, it should be an equal difference column with a difference of $3 \times 5 \times 7$. If the ancient people who had not studied much mathematics faced this problem, they would have gotten the answer by testing the numbers one by one. However, it was likely that they had neglected the fact that there were many answers to this problem. If they only said one, it was likely that they would not be correct.

Chapter 3287 Victory of mathematics_

After Taoist Zhen Yang finished his question, he looked at Xia ruofei with a smile.

Xia ruofei looked relaxed. He thought for a while and said, "Daoist priest, the answer to this question is not unique. There should be at least 23 items in this pile, then 128, then 233, and so on. Each answer plus 105 would give a new answer, so there are countless answers."

Xia ruofei's answer could be expressed mathematically as $23 + 105n$, where n was a whole number greater than or equal to 1.

Xia ruofei's answer was very rigorous and flawless. Even if old Daoist Zhen Yang wanted to find any flaws, it would be impossible.

Therefore, he only pondered for a moment before nodding and saying, "Scholar, you're a genius! This problem has been solved!"

This time, old Taoist Zhen Yang didn't even have the mood to ask Xia ruofei to explain the calculation method. He immediately judged that Xia ruofei had solved the problem successfully.

Very quickly, old Daoist Zhen Yang continued, "I have one last question, and I hope that you can answer it!"

Xia ruofei secretly heaved a sigh of relief. He was afraid that these basic math questions would go on and on. Although they were not difficult for him, they were a waste of time.

Moreover, the test on the first floor of the tower was mathematics, which was really unexpected.

Fortunately, the Almighty who set up these levels was not too mischievous, and only arranged three questions in total.

Hence, Xia ruofei only had one thought in his mind, and that was to end it as soon as possible!

Hearing old Daoist Zhen Yang's words, he quickly said, "Daoist priest, please speak!"

“The last question is quite difficult, but I can only give you the time it takes for an incense stick to burn. I hope that you can continue to work hard and solve all the problems in one go!”

Xia ruofei smiled and nodded. “Please speak. I’m all ears!”

“There are twenty trees today, four in each row,” Zhen Yang replied. How do I plant it to obtain the sixteen – element tree?”

Hearing this, Xia ruofei was slightly stunned. This time, old Taoist Zhen Yang really brought out a world – Class mathematics problem! However, this sixteen – row chart was not very challenging, because as early as the 16th century, mathematicians from ancient Greece, Ancient Rome, Ancient Egypt, and other places had completed the sixteen – row chart, and it was widely used in the decorative patterns of some elegant western buildings.

However, Xia ruofei thought about it again. This secret realm had existed for at least a few thousand years. At that time, the 16 – line Atlas had not been created, so this question was very difficult. If Xia ruofei did not know the answer in advance, he would not have been able to figure out the correct drawing method in the time it takes for an incense stick to burn.

Fortunately, Xia ruofei was well – read and had seen this classic mathematical problem before.

Hence, after Xia ruofei heard the question, he was confident that he could pass this round.

“Daoist priest Zhen Yang, can I have a pen and paper?” he asked with a smile.

Old Taoist Zhen Yang thought that Xia ruofei needed to do some deduction, which was normal. Many people had used up enough paper to fill a room to solve this question, but they might not be able to solve it.

Hence, Xia ruofei could not deduce it directly in his mind. He still had to use pen and paper.

Old Daoist Zhen Yang nodded with a smile and gestured for Qing Feng to bring paper and a brush. He even specially instructed Qing Feng to grind the ink for Xia ruofei.

Xia ruofei walked to the side of the table, laid the paper flat on the table, and pressed it with a paperweight. Then, he picked up the wolf – Hair brush, dipped it in the ink, and began to draw on the paper.

A square quickly appeared on the paper. Xia ruofei marked the four corners black and then accurately marked two points on each side.

After entering the Golden core stage, Xia ruofei’s physical fitness had improved. He also had a strong spiritual power and was excellent in fine control. Therefore, he didn’t need a ruler at all. The square he drew was quite accurate, and every line was straight, as if it was printed on.

Then, Xia ruofei connected the two points on each side to the two points on the opposite side and the point on the other side, which was further away from them.

Another 24 straight lines were drawn without any error.

This way, an octagonal shape was formed inside the square.

Xia ruofei smiled and marked every top of the Octagon that was formed by the intersection of the internal lines in black.

Before Taoist Zhen Yang could react, Xia ruofei had already placed the brush against the inkstone and said with a smile, "Daoist Zhen Yang, I've already completed it!"

Old Taoist Zhen Yang thought that Xia ruofei was just making a draft and doing some calculations. He didn't expect Xia ruofei to start answering immediately and even finish it in such a short time. This was a joke!

Xia ruofei was given five minutes to think and answer each question, but he always came up with the answer without thinking. Not to mention one question, even after he finished the first part of the three questions, he only burned one head in the time it took for an incense stick to burn!

It's done?

Old Taoist Zhen Yang was in disbelief, but when he looked at the diagram that Xia ruofei had drawn, he immediately knew that Xia ruofei had solved the problem.

Even cultivators who were proficient in mathematics would be stumped by this problem. It was rare to find someone who could solve it in the time it took to burn an incense stick.

However, Xia ruofei had finished the question in less than ten seconds. He did not even hesitate to write down the answer as if he did not even need to think.

"Daoist Zhen Yang, is my answer correct?" Xia ruofei asked.

Daoist Zhen Yang came back to his senses with a wry smile. "Yes ..."

"This means that I've helped you ..." Xia ruofei said with a smile.

"Of course!" Old Daoist Zhen Yang said, "scholar Xia is indeed exceptionally intelligent. This old Daoist is in awe!"

"Where? You're overpraising me!" Xia ruofei smiled and said, "actually, the arrangement of the 16 lines isn't that difficult. I can still arrange 18 or even 20 lines!"

"What?" When old Daoist Zhen Yang heard this, his eyes widened. "Scholar Xia, are you serious?"

Xia ruofei smiled and nodded, "of course it's true!" However, the Taoist priest's question only asked me to draw out the arrangement of 16 lines, so I answered according to the requirements. "

"Yes, yes, yes! This poor Daoist didn't deny scholar Xia's answer. " Old Daoist Zhen Yang hurriedly said, "however, if you don't mind, can you also draw out the 18 – line and 20 – line diagrams that you mentioned?"

After saying that, old Daoist Zhen Yang quickly added, "This can also be counted as the answer to the last question. If the answer is even better, then our true yang temple's gift of thanks to you will be even more generous! Scholar Xia, how is it? Can you draw another one?"

This was equivalent to an additional question. If Yingying answered correctly, she would get extra points, but if she answered wrong, she wouldn't lose any points.

As someone who had gone through nine years of compulsory education, Xia ruofei was already familiar with this model, so he was not surprised.

However, when he was a student, Xia ruofei was too lazy to study the additional questions.

But today, when he heard that the more lines of atlases he drew, the more generous the gifts would be, his eyes lit up.

Obviously, that was to say, the higher the quality of the answer, the greater the final mission reward!

How could Xia ruofei reject such a free gift?

Furthermore, this might be a difficult problem for other cultivators, but for Xia ruofei, it was a free point question!

Because of this twenty trees question, in the 18th century, the mathematician Gauss had already guessed that he could arrange the eighteen lines. However, until his death, he did not take out an Official Chart. It was not until the 19th century that the United States interesting mathematician Lloyd completed Gauss 'conjecture and drew an eighteen – line chart. At the end of the 20th century, electronic computer technology flourished. With the help of computers, two experts successfully completed the twenty – line chart.

...

Xia ruofei had seen these two atlases and had memorized them.

As long as he could draw out the diagram that he had already memorized, he would be able to get more generous rewards. Why not?

Chapter 3288 Plenty of rewards (1)

"I'll try!" Xia ruofei said without hesitation.

The brush, ink, paper, and inkstone were all ready. Xia ruofei went to the table, picked up the brush, and began to draw a picture.

Xia ruofei finished the drawing in no time.

Under normal circumstances, these two diagrams would take a lot of time to deduce, and one would also need a strong mathematical talent to be able to draw them out. Especially the 20 – line diagram, which was actually drawn with the help of a computer. However, these two atlases were stored in Xia ruofei's mind. He didn't even need to think and could just draw them out.

Taoist Zhen Yang held the two pieces of paper with ink still wet and looked at them seriously for a long time. Finally, he confirmed that Xia ruofei had really come up with the arrangement of the 18 and 20 lines.

He said in a surprised tone, "scholar Xia is truly a genius. This humble Daoist is full of admiration!" I wonder if you can draw more lines?"

Xia ruofei smiled. "In theory, there is indeed a way to arrange more lines. However, it will take a lot of time to deduce. I can't do it in a short time."

Xia ruofei knew that with the computer's complicated calculations, more lines could be deduced. 20 lines was not the limit. However, he had never seen such a diagram before, so he naturally knew when to stop. He couldn't really deduce it on the spot, and he didn't have the ability to do so.

Besides, Xia ruofei had heard that arranging the lines was not limited to the two – dimensional space. It could only be done in the three – dimensional space. Even Taoist Zhen Yang might not be able to understand it if it was drawn on a piece of paper.

Hearing this, old Daoist Zhen Yang smiled and said, "It doesn't matter. Master Xia's performance has already exceeded my imagination!"

"In that case, I can get an extra reward?" Xia ruofei asked with a smile.

Old Daoist Zhen Yang nodded and said, "Naturally!"

After saying that, Daoist Zhen Yang paused for a moment before continuing with a serious expression, "Scholar Xia, thank you for solving the question that has troubled me for many years! In order to express my gratitude, I have a few gifts for you!"

Xia ruofei's spirits were lifted. The mission reward was about to be released! Of course, he would not pretend to decline politely, because he did not know if the NPC in front of him would really go along with the flow and not give the reward because of his refusal. If that was the case, he would be in deep trouble.

"Thank you!" Xia ruofei said with a bright smile, then looked at old Taoist Zhen Yang with anticipation.

With a flip of his hand, old Daoist Zhen Yang took out a long wooden box from his storage treasure and handed it to Xia ruofei.

Xia ruofei took the wooden box and opened it. It was a flying sword that was as clear as autumn water. The blade was as thin as a cicada's wing and it had an extremely sharp aura.

The flying sword was obviously a good item, but Xia ruofei was a little disappointed.

The reason was very simple. He had already tried it. Flying swords could not be used in this Mystic realm at all. No matter how good a flying sword was, if it could not be controlled, its function would be reduced by ninety percent. It could only be used as a relatively sharp weapon. It was simply a waste of God's gift to use his mental power to grab and slash.

If Xia ruofei had obtained such a flying sword on earth, he would naturally be very excited. However, in this secret realm, the most important thing was to improve his ability to survive. Besides, he already had a flying sword. If he had another flying sword, it would only be left in the spirit map space to eat dust. He would basically have no use for it.

Old Daoist Zhen Yang seemed to have seen through Xia ruofei's disappointment. He smiled and said, "Layman Xia, this sword is called 'curved frost'. Its most unique characteristic is that it can be used normally in this small world."

"Thank you, Taoist priest ..." Xia ruofei said absent – mindedly. Then, he immediately came back to his senses. His eyes widened as he exclaimed, "what? The sword can be used here?"

“Yes!” Old Daoist Zhen Yang nodded with a smile. Of course, the prerequisite was that scholar Xia had to be able to master the special sword – controlling technique of this sword. That’s right, the incantation is also in the case. Scholar Xia can take a look first!”

Xia ruofei quickly put the flying sword aside and picked up the wooden box. There was indeed a piece of yellowed paper in the box. Xia ruofei had been so focused on the flying sword that he did not notice this piece of paper.

Xia ruofei carefully picked up the piece of paper and looked at it. It really recorded the sword control technique.

This technique was clearly designed for the flying sword. Perhaps it was also to adapt to the special rules of this secret realm. Hence, it was very different from the sword control technique that Xia ruofei had previously mastered. As a result, Xia ruofei did not understand it at all when he first read it. He was completely confused.

However, Xia ruofei was not discouraged. On the contrary, he was very excited.

Although he couldn’t immediately understand this Sword Art, he could still see that if he really grasped this sword controlling technique, he really could control the flying sword of the bent frost in this secret realm.

To be more precise, as long as one mastered this sword controlling technique, in theory, they could also control other flying swords.

Of course, if the flying sword was specially made for this secret realm, it would definitely fit the rules of this space better. On the other hand, this technique might be able to control other flying swords refined on earth, but it definitely wouldn’t be able to control them as easily as controlling the qushuang flying sword.

Xia ruofei couldn’t care less about the fact that Taoist Zhen Yang was right beside him. He grabbed the paper that recorded the sword control technique and started to read it carefully. He even released his spiritual power to simulate it from time to time.

Chapter 3289 Plenty of rewards (2)

Old Daoist Zhen Yang didn’t rush him and simply stood to the side and watched with a smile.

After about half an hour, Xia ruofei’s eyes lit up. He had finally mastered the sword control technique. It could be said that he had a basic grasp of it.

Xia ruofei couldn’t wait to try it out. Thus, he first made the flying sword recognize him as its master. Then, he silently used the sword control technique he had just learned and quickly established a connection with the flying sword.

The qushuang flying sword, which had just been placed on the table, suddenly seemed to come to life. It hummed softly and began to sway as it floated in the air.

Xia ruofei tried to control the flying sword and did a few movements. He realized that the sword technique could be used. The only thing he was lacking now was proficiency. He believed that with more practice, he would be able to use the flying sword like he did on earth.

The learning ability of cultivators was very strong. Controlling a flying sword was not a particularly complicated skill. As long as one mastered this Sword Art, it was relatively easy to increase the proficiency.

Xia ruofei's face was full of excitement. Being able to use a flying sword in the secret realm would greatly increase his survivability.

Moreover, flying swords could be controlled, which meant that sword Kinesis flight was also possible.

In other words, he would be able to use sword Kinesis flight in the process of exploring the secret realm.

This was much stronger than when he could only use his feet to measure the boundless secret realm space.

Besides, being able to ride a flying sword meant that his ability to escape had increased by a large margin. This was undoubtedly a great advantage for Xia ruofei.

"Thank you for your generosity, Taoist priest!" Xia ruofei sincerely bowed to old Taoist Zhen Yang.

Even though the other party was just a puppet, the reward this time was too useful to Xia ruofei. Hence, his gratitude came from the bottom of his heart.

Old Daoist Zhen Yang waved his hand with a smile and said, "This is what you deserve."

He paused for a moment before continuing, "There's one more thank you gift, but I can't give it to you for the time being. I'll give you another gift first. This is an extra thank you gift for completing the third difficult problem!"

Although Xia ruofei was confused about the second reward, he was excited and full of anticipation when he heard that it was the reward for the additional question.

Old Daoist Zhen Yang took out another treasure from his storage spiritual treasure and handed it to Xia ruofei.

Xia ruofei took it and looked at it. He couldn't help but reveal a curious look. The shape of this treasure was really strange. It looked like a pair of glasses with two round pink crystal lenses connected in the middle. However, this "glasses" did not have legs. Instead, it was attached with an elastic band made of some animal's tendon, making it look more like a wind – proof goggles.

No matter what, this was an item with a modern aura. It didn't look like a treasure from the cultivation world.

Xia ruofei didn't know why old Taoist Zhen Yang would take out this thing, and it was even an additional reward. Generally speaking, additional rewards were relatively difficult to obtain, so the rewards should also be relatively valuable. Could it be that this thing was more precious than the flying sword of the bent frost?

Old Daoist Zhen Yang introduced with a smile, "Master Xia, this item is called the sensory mirror. It's also a precious magical treasure, but it can only be used here. It can't be taken out. I have to make this clear to master Xia first ..."

So this was a control type treasure! It could only be used in the secret realm, and it could not be taken out of the secret realm.

As such, Xia ruofei's interest in this item was even smaller. However, he still asked, "May I ask, what is the use of this perceptual mirror?"

"This treasure has many uses. Why don't you let it recognize you as its owner and wear it on your body? I'll explain them to you one by one," Daoist Zhen Yang said with a smile.

Xia ruofei nodded.

Xia ruofei was already familiar with the process of dripping blood on the perceptual mirror to recognize its master. Soon, he successfully made the perceptual mirror recognize its master. He could also feel the faint connection between him and the perceptual mirror.

Under Taoist Zhen Yang's guidance, Xia ruofei put on the perceptual mirror pendant.

Just as he expected, the thing was worn on the head, and the two lenses blocked the eyes.

Xia ruofei thought to himself, "I won't be wearing it all the time, will I?" Even if it had a very impressive function, it was too embarrassing to wear it all year round ...

Wearing these extra – large wind – proof goggles would definitely make one look very silly ...

Xia ruofei thought as he took out a mirror from the spirit map space. He wanted to see his glorious image.

He mustered up the courage to look at the mirror and almost cried out in shock. His image in the mirror had not changed at all – although the sensory mirror was worn, it seemed to be completely invisible and could not be seen at all.

"What's going on?" Xia ruofei could not help but ask.

"After the sensory mirror has recognized you as its master, it will automatically disappear when you wear it again. No one will be able to see that you're wearing this magic weapon!" Taoist Zhen Yang said with a smile.

Xia ruofei secretly heaved a sigh of relief. It would be embarrassing if he kept wearing a weird pair of goggles.

Of course, old Daoist Zhen Yang had also said that this item could only be used in the mystic realm and couldn't be taken away. It was still unknown whether he would be able to meet anyone in the mystic realm! However, it was always good to be able to hide.

Xia ruofei felt it for a while. He did not know what the rubber band of the sensory mirror was made of, but it was comfortable and did not feel uncomfortable. The other lens looked like pink crystal, but after he put it on, he saw nothing different, not to mention the color change.

This was not bad. Otherwise, it would be maddening to see a field of pink.

Of course, the most important thing was what this thing was used for. It was useless, no matter how comfortable it was.

“Taoist priest,” Xia ruofei asked directly, “what can this treasure do? please tell me.”

“The perceptual mirror, as its name suggests, is used to display the function of perception. Scholar Xia can use his mind to communicate with the treasure, and this treasure can determine the cultivation level and level of cultivators, monsters, and even objects within one’s field of vision. Some of them even have a simple introduction ...”

Xia ruofei couldn’t help but be dumbfounded. He used his mind to connect with the perceptual mirror, and as expected, he obtained a lot of information. It was quite easy to operate.

He turned his gaze to the little Daoist boy, Qing Feng, at the door, and lines of words in traditional Chinese characters suddenly appeared in his vision ...

The Daoist child Qing Feng

Beginner puppet

[Cultivation level: refined Qi Level 6]

[Weakness: the material used to make it is flawed. The hardness of the body is relatively low, especially the defense of the neck.]

.....

There was some other information below. Xia ruofei scanned through it and erased it with his mind.

This was too magical! With this function alone, Xia ruofei had the ability to cheat in the secret realm.

He couldn’t help but turn to look at old Daoist Zhen Yang, but to his disappointment, the sensory mirror only gave him a series of greetings and no useful information.

Old Taoist Zhen Yang seemed to have seen through Xia ruofei’s intention and laughed, “There’s a limit to the scope of the sensory mirror. It’s related to your cultivation level. If your cultivation level is three levels higher than yours, all information will be hidden.”

Xia ruofei suddenly realized that even though Taoist Zhen Yang was a puppet, his level was so high that he could not see any information from the sensory mirror.

Of course, even so, the use of the perceptual mirror was already very great. If he saw a situation full of question marks, it meant that the other party’s level was at least three levels higher than his. In this case, it was better to stay away.

...

Therefore, even if they could not see through the other party’s information, they could still give an early warning.

Xia ruofei was very satisfied with this additional reward.

On the other hand, old Daoist Zhen Yang chuckled and said, “Mister Xia, the sensory mirror has another function that should be very helpful to you ...”

Chapter 3290 Puppets also cheat people (1)

Hearing this, Xia ruofei immediately perked up and asked, ""Daoist priest, what other functions does the perceptual mirror have?"

Old Daoist Zhen Yang smiled and said, "actually, scholar Xia could've discovered this function by himself, but I'll tell you!" The sensory mirror had another very important function in this trial Pagoda, and that was to display the map. Through the sensory mirror, scholar Xia could find the entrance and exit of each floor. There were even some places where there might be opportunities, which were marked in the sensory mirror. Of course, the markings aren't necessarily accurate, and although some of the marked locations have great opportunities, they are also accompanied by great risks. As such, I suggest that you use them with caution!"

Xia ruofei was stunned. He didn't expect the perceptual mirror to have such an amazing function!

He hurriedly used his mind to communicate with the perceptual mirror. Sure enough, he quickly figured out how to use it. A map appeared in his field of vision in an instant. There was a small dot of light on the map that was the location of true yang temple, which was obviously his current position. Xia ruofei tried to take two steps to the side and the small dot of light immediately moved a little. It was quite sensitive and accurate.

Xia ruofei looked at the map of the first floor and realized that the area was not big. The mini town was the most important thing in the area. Even the smallest alley in the town was marked on the map.

Besides, Xia ruofei soon found the entrance to the second level, which was located at the side of true yang temple.

This function was simply too heaven – defying! Xia ruofei was very excited.

With the perceptual mirror, his movements in the tower would be much more convenient!

Right, it seemed that Taoist Zhen Yang had called this tower the trial tower. Xia ruofei thought of this and quickly asked, ""Daoist Zhen Yang, this tower was originally called the trial tower? I wonder if you can give me more information about the trial Pagoda?"

"Everything about the trial Pagoda will have to be explored by scholar Xia himself. I can't reveal it to you," Daoist Zhen Yang said with a smile.

"Alright then!" Xia ruofei said.

However, he wasn't too disappointed. After all, the perceptual mirror he obtained this time would be of great help to him.

In this way, getting the bonus questions was really worth it.

Xia ruofei didn't know if Chen Xuan and the rest would experience the same trial tower. He also didn't know if any of them could draw a 20 – line diagram. However, he knew that if he didn't go online to read all kinds of knowledge and just remembered it, it would be almost impossible to deduce it on the spot.

Hence, Xia ruofei estimated that only Ling Qingxue and Yu Xin 'er could do it, while the rest of the team could not.

This was because other than the two of them who had gone through formal higher education in the secular world, most of the others were born and grew up in the sect. Chen Xuan had learned some computer knowledge later on, but that was only for the sake of working in the Paradise Corporation. He didn't know much about other aspects of the secular world.

Xia ruofei originally wanted to find out more about the situation in the trial Pagoda and the entire secret realm. However, seeing that old Daoist Zhen Yang would not reveal anything, he did not make any more futile efforts.

"Scholar Xia, I've handed the sensory mirror to you, and it looks like you're already familiar with it," old Daoist Zhen Yang said with a smile. Next, it's time to honor the second reward that I just mentioned!"

"Oh?" Xia ruofei smiled and asked, "I wonder what the second reward is?"

"Please follow me, scholar Xia!" Old Daoist Zhen Yang said with a smile.

With that, old Taoist Zhen Yang walked out of the quiet room first. Xia ruofei quickly followed after him.

He didn't know what old Daoist Zhen Yang was up to, but up until now, old Daoist Zhen Yang had been kind to him. He had also said that it was a reward, and according to the puppet's operating rules, since it was a reward, it shouldn't be a trap.

Old Daoist Zhen Yang kept walking forward and walked out of true yang temple.

Xia ruofei was curious as to where the old Daoist was taking him. He saw that old Daoist Zhen Yang was already on the winding mountain road, so he quickly followed him and asked, "Daoist Zhen Yang, where are we going?"

"Scholar Xia, just follow me. We'll find out soon enough!" Old Daoist Zhen Yang said with a smile.

Xia ruofei shrugged his shoulders. Since the old Taoist wanted to keep him in suspense, he couldn't force him to tell him. He could only follow behind.

After Daoist Zhen Yang walked down the small mountain, he headed straight for the mini town.

Xia ruofei opened the map in the perceptual mirror out of boredom. As he walked, he looked at the dot of light that represented him moving forward. It was quite similar to the navigation function when driving, but it seemed to be more precise.

From afar, Xia ruofei could see that the mini town was still bustling with people. It was a bustling scene.

However, he knew very well that everything in the town was man – made, including the residents.

When old Taoist Zhen Yang brought Xia ruofei onto the stone path of the town, the entire town fell silent in an instant, as if the whole world had been paused.

A peddler selling candied Haws had been shouting loudly as he walked. Now, he still maintained his striding posture, his head slightly raised, his mouth wide open, and his expression quite rich, but he was completely frozen.

The shopkeeper had just passed a piece of cloth to the young girl opposite the counter, and the young girl was currently reaching out to take the cloth with an innocent smile on her face. All of this had frozen in the moment when old Daoist Zhen Yang stepped onto the stone path.
