

God tier Farm 3331

Chapter 3331 Experience (1)

Just as the primary – Level Mirage beast flew out of its hiding place and pounced on Xia ruofei, Xia ruofei immediately felt the environment around him start to change.

The water in the stream turned into a shocking pool of blood, and huge hailstones began to fall from the sky. The mountains and rivers next to it became distorted, and the originally peaceful environment was filled with sand and stones, as if the end of the world had come.

Xia ruofei was mentally prepared. He was not affected by the change in environment. He closed his eyes and followed the planned route. He took three steps to the right, then five steps back, and then four steps to the right ...

In the Mirage beast's field of vision, Xia ruofei had also disappeared mysteriously. The Mirage beast had already entered the edge of the array while Xia ruofei had hidden in the depths of the array. Under the effect of the array, it naturally lost its target.

In fact, Xia ruofei even had the time to feel the power of the Mirage beast's illusion.

Compared to the illusion of the middle – Level Mirage beast, it was obvious that it was better.

The mid – level Mirage beast could set up an illusion in an instant. It gave Xia ruofei the feeling that in the blink of an eye, his surroundings had changed.

The illusion of the primary Mirage beast still retained a lot of the characteristics of the original environment. For example, the stream still existed, and the surrounding geographical features were only changed on the basis of the original environment.

Of course, this looked very scary. If one was not mentally prepared and had never encountered a Mirage beast before, it was inevitable that one would be flustered when they suddenly fell into an illusion.

Xia ruofei had already fought with a middle – Level Mirage beast, so he was fully prepared for the illusion created by a low – Level Mirage beast. In comparison, he felt that the illusion created by a low – Level Mirage beast was not as realistic.

After the initial stage Shen beast stepped into the array, the trap array's effect was immediately activated. Not only did it lose its target, Xia ruofei, but it also fell into the fog. No matter if it was moving forward or backward, it was surrounded by white fog.

The qushuang flying sword and the blue immortal sword had also lost their target. The tips of the swords trembled slightly as they hovered in the place where the Mirage beast had been hiding.

Although the trapping effect of the trap & kill array was similar to that of an illusion array, the basic principles were very different. Therefore, after the primary Mirage beast fell into the array, it completely lost its direction and began to charge left and right in the array. It looked ferocious, but in fact, it was falling deeper and deeper.

Although Xia ruofei could no longer control the qushuang flying sword and the blue immortal sword to attack the Mirage beast, the attack attributes of the trap & kill array itself were very strong, even more powerful than the attacks of the flying sword.

Although Xia ruofei was still trapped in the illusion created by the Mirage beast, he could still use the array to attack the elementary – Level Mirage beast.

It was the same black light that had been used against star beasts.

Xia ruofei was already hiding in the safest place in the formation. After trying to find the Mirage beast's trail to no avail, he decisively made a hand seal and activated the formation to launch an indiscriminate attack without caring about the cost.

Streaks of black light appeared in every corner of the formation like a torrential rain, wreaking havoc on the entire formation.

The Mirage beast's vision was blocked in the array, and the indiscriminate attack of the black light almost covered the entire corner. Even if it found something, it was very difficult to avoid it.

Unless it was extremely lucky and happened to hide in the eye of the formation in the blind spot of the attack.

However, the probability of randomly barging in and stopping at the eye of the array was not much higher than winning the lottery.

This primary Mirage beast obviously did not have such heaven – defying luck, and its strength was indeed a little weak. In the face of the overwhelming attack of the black light, it had almost no ability to resist.

In the blink of an eye, more than a dozen black rays pierced through the body of the elementary – Level Mirage beast from all angles.

The elementary – Level Mirage beast screamed. Not only did the dozen holes on its body that were pierced by the black light start to bleed, but a large amount of blood also spurted out of its mouth, nose, ears, and other places.

Without any suspense, the elementary Mirage beast fell to the ground and stopped breathing after a moment.

The illusion in front of Xia ruofei quickly faded, and the surroundings returned to the familiar environment.

With a wave of his hand, he recalled the qushuang flying sword and the blue immortal sword. Then, he walked to the place where the primary Mirage beast died and squatted down in front of its body to observe it.

The appearance of this low – Level Mirage beast looked basically the same as that of a middle – Level Mirage beast. If one did not look carefully, they would not be able to tell the difference.

However, Xia ruofei had just studied the corpses of the intermediate – Level Mirage beasts. After comparing the two, he found a difference between the two. There was a tuft of hair with a cloud

pattern between the eyes of both Mirage beasts. The Mirage beasts were basically snow – White, so this tuft of cloud – like hair was particularly obvious. However, the hair of the low – Level Mirage beast was black, while the hair of the middle – Level Mirage beast was yellow.

Xia ruofei studied it briefly and tried to keep the Mirage beast's corpse into the space. As expected, he couldn't put it in.

Then, Xia ruofei got up and checked the surroundings again. After making sure that there were no other Mirage beasts, he recalled the trap & kill array while thinking.

Clearly, the trap and kill array was still useful against the Mirage beast, and it was very efficient.

He just didn't know if it would be as useful when he encountered a middle – Level Mirage beast. After all, the illusion of a middle – grade Mirage beast was more powerful and had a wider range. Xia ruofei was not confident that he could set up a trap & kill array and successfully lure the enemy into the illusion before he was pulled into it.

Chapter 3332 Experience (2)

In fact, the key was whether Xia ruofei could find the Mirage beast's trace earlier. As long as he could find it early enough, he was confident that he could kill the intermediate Mirage beast in the array just like he did with the primary level Mirage beast.

It seemed that he still had to pay attention to the function of the perceptual mirror!

Xia ruofei couldn't help but say in his heart, "It would be great if the perceptual mirror could be upgraded.

The perceptual mirror was undoubtedly very useful, but after reaching the third level of the Tower of Trials, the range of the mirror would be limited. The detection function would be limited to the field of vision. The map display function could display the entire small space of the first level of the Tower of Trials, but when it came to the third level of the Tower of Trials, the range was still so large. Compared to the vast third level of the Tower of Trials, a dozen acres of land was too insignificant.

This disadvantage was already very obvious on the second level of the Tower of Trials. Xia ruofei could only run around like a headless fly and could not see the entire small space.

In addition, the detection function of the perceptual mirror did not seem to be enough for the monsters on the third floor of the Tower of Trials. It could only give him a simple notification that a Mirage beast had appeared in his field of vision, but it could not lock onto the specific location, nor could it provide more information about the Mirage beast.

In this case, although the sensory mirror could still be used, it would not be of much help to Xia ruofei.

However, Xia ruofei also knew that it was already lucky to get the sensory mirror, which was similar to an external treasure. It was even more difficult to upgrade it. He could only see if there were any opportunities ahead.

However, at least for the current task of killing the Mirage beast, he could not count on it. He could only make do with it.

After Xia ruofei kept the trap and kill array, he chose a new direction. Then, he took out the qushuang flying sword and continued to fly close to the ground.

When Xia ruofei flew past a mountain stream and arrived at the top of a small waterfall, a notification finally appeared in the field of vision of the perceptual mirror. Middle – grade Mirage beast found.

It was still a simple sentence without any other useful information, including the specific location of the Mirage beast, its strength level, strengths and weaknesses, etc. There was nothing.

Xia ruofei's spirit was still lifted. This time, it was a real middle – Level Mirage beast!

It had been 40 minutes since he accepted the mission. It had been more than 20 minutes since he killed the middle – Level Mirage beast by luck. In fact, it didn't take him much time to kill the primary Mirage beasts, mainly because the distribution of these Mirage beasts was irregular and he spent a lot of time searching.

If he wanted to break the record, he would have to kill 30 Mirage beasts in four hours.

That unknown companion had killed a middle – Level Mirage beast before Xia ruofei at the beginning, but he had not done anything until now. Obviously, it was mostly luck that he had killed it for the first time.

That was why Xia ruofei did not include his companions' contributions for the time being. In that case, it would be a very difficult task to kill 30 Mirage beasts in four hours.

In addition, he also found a difference between the Mirage beasts and the star beasts. The Mirage beasts did not seem to like living in groups. They seemed to be more used to being alone, so he used the previous method to attract a large number of Mirage beasts and then kill them in one breath with the array. This method would not work.

Therefore, Xia ruofei treasured every chance to find a middle – Level Mirage beast.

He stood still and quickly extended his spiritual power forward, searching inch by inch within the field of vision of the perceptual mirror, trying to find the trace of the middle – Level Mirage beast.

Of course, his hands were not idle. He took out the materials for the array at the first moment and began to set up a trap and kill array in a relatively open space on one side of the waterfall.

Xia ruofei's spiritual power did not work. The intermediate Shen beast was obviously better at hiding than the beginner Shen beast and had a stronger spiritual power. Hence, Xia ruofei could not find any obvious spiritual fluctuations. He also looked back and forth a few times with his naked eyes but could not find the shadow of the intermediate Shen beast.

On the other hand, the setup of the array was very smooth. In a short while, the trap and kill array was set up.

This time, Xia ruofei did not dare to leave the array. The last time Qianqian encountered a middle – Level Mirage beast, she had taken a few steps out of the array and fell into an illusion. She could no longer return to the array, causing the trap and kill array that she had painstakingly set up to become a decoration.

Xia ruofei was standing in the formation and had already simulated the next step in his mind.

Then, he took out the qushuang flying sword and the blue immortal sword. He controlled the two flying swords with his Sword Art and spiritual power, and stabbed them forward.

It would only react when the Mirage beast appeared within the scope of the perceptual mirror. The scope of the perceptual mirror was slightly larger than the human eyes, but it was still in a fan shape of nearly 180 degrees. Hence, Xia ruofei decided to use the same method he used to deal with the beginner – Level Mirage beast.

However, Xia ruofei had a clear target when he was dealing with the elementary – Level Mirage beasts. Now, he could only use the method of indiscriminate attack.

Although the fan – shaped area was relatively small, the further one went, the larger the area. The qushuang flying sword and the traveling Jade immortal sword naturally couldn't cover the entire area. Thus, Xia ruofei could only try his luck. At the same time, he tried his best to make his flying sword fly in a roundabout way to greatly increase his efficiency.

The qushuang flying sword and the blue travel immortal sword let out sharp howls and stabbed toward the fan – shaped area ahead. The grass, bushes, rocks, and even water currents were unable to effectively block the flying swords. The two flying swords cut through the air like a hot knife cutting through butter, their momentum unstoppable.

Xia ruofei stood in the formation, his eyes fixed on the fan – shaped area in front of him. He accurately controlled the two flying swords at the same time, directly sweeping them from close to far.

In the loud sound of the waterfall, grass and stone fragments flew up, and some of the thinner trees also collapsed. The peaceful environment suddenly became a mess.

In the midst of the chaos, a black shadow suddenly flew out from the bushes.

Xia ruofei was focused on the fan – shaped area in front of him. Although the grass, rocks, and branches blocked his vision, he still noticed the presence of the dark shadow.

However, the middle – Level Mirage beast was taking the initiative to attack, and the flying sword was quite far away from it, so it didn't need to Dodge at all. In addition, the speed of an intermediate Mirage beast was much faster than that of a beginner Mirage beast.

Therefore, the moment Xia ruofei saw that the black shadow was a middle – Level Mirage beast, the Mirage beast's illusory formation had been completed.

Xia ruofei moved from the waterfall to a quiet training field. The weapon rack was filled with swords, Spears, halberds, axes, hooks, and forks. There were also two huge stone locks on the ground. Apparently, they were used to train the body.

Xia ruofei already had some experience in dealing with the Mirage beasts. Hence, no matter how realistic the illusion was, it would not affect him immediately.

Moreover, he had already made a plan and had fully assessed the current situation.

Xia ruofei ignored the illusion and took two steps back. Then, he took three steps to the right and took five steps back again ...

Even though Xia ruofei was in the illusion and was about to kick the stone lock, he was completely unmoved. He still strictly followed the original environment and the array as he stepped into the depths of the array.

As expected, when Xia ruofei saw through the illusion, he stepped on the stone lock, but it still passed through it. Then, he felt solid ground.

Xia ruofei simply closed his eyes and ignored everything that had happened in the illusion. He followed the route that he had rehearsed earlier and hid in an important eye of the trap and kill array in a few steps.

The intermediate – Level Shen beast did not expect Xia ruofei to be completely unaffected. Just as it was about to change to a more powerful illusion, its front hooves had unknowingly stepped into the range of the array ...

Chapter 3333 Victory (1)

The endless fog suddenly shrouded the middle – Level Mirage beast.

It turned pale with fright and subconsciously retreated. However, under the effects of the array, all directions were already in chaos, and the more it retreated, the deeper it sank.

This was how a trap array worked. Once one was trapped in it, it was impossible to get out.

At this time, Xia ruofei was still in the illusion created by the intermediate – Level Shen beast. However, the illusion could not change directions. It only affected people's minds and caused them to think that their environment had changed. The higher the level of the illusion, the more realistic the environment would be. The most powerful illusion was that even if the trapped person knew that everything was fake, they still couldn't resist it and couldn't help but sink into it.

For example, the mid – level Shen beast that Xia ruofei had killed earlier had released its strongest illusion before its death. Xia ruofei knew that this was an illusion created by the Mirage beast. However, if he stayed for a little longer, he would still die in the illusion of the heat. This was the terrifying part of the illusion.

This level of illusion had a limited effect on Xia ruofei. Although he could not see through the whims, he could still maintain his consciousness.

Xia ruofei decided to close his eyes. He was already aware of his surroundings, so it was easier for him to control the formation if he closed his eyes.

As soon as the mid – grade Shen beast fell into the trap array, Xia ruofei could sense that the array had been activated. There must be various energy fluctuations. As the controller of the array, Xia ruofei could at least know that the mid – grade Shen beast had fallen into the trap array even if he could not accurately determine its location.

Hence, Xia ruofei closed his eyes and continued to activate the array with his hand seals, directly activating the maximum attack power of the array.

Xia ruofei had just dealt with a low – Level Mirage beast and was very experienced. He did not hesitate and attacked without caring about the cost.

He also wanted to see how big the gap was between an elementary and intermediate Mirage beast. If the black light of the trap & kill array could deal with the intermediate Mirage beast, then he would have an effective method and naturally have more confidence in completing the next task.

Streaks of black light shot out from the core of the spell formation and blotted out the sky and covered the earth, almost enveloping the entire spell formation.

There were only a few positions that avoided the attack of the black light. Xia ruofei's position was one of the key positions.

In theory, the middle – Level Mirage beasts trapped in the array also had a chance to step into the array eye, but the probability was very, very small.

Of course, even if the mid – level Mirage beast saved the Galaxy in its previous life and stepped into the eye of the array with unbelievable luck, it did not know about it at all. Moreover, the attack of the black light looked fierce and fierce, and it passed through the eye of the array. If it did not know in advance that it was the blind spot of the attack of the black light, no matter how strong its mental strength was, it would not be able to help but avoid the attack. Once it left the eye of the array, it was impossible to go back.

Therefore, Xia ruofei was not worried that the limited array cores would become a sanctuary for the intermediate – Level Mirage beasts.

On the contrary, he was worried about whether the attack power of the trap and kill array was enough to kill the middle – Level Mirage beast. After all, although the physical defense of a mid – grade Mirage beast was weak, its speed was still very fast, even not weaker than that of a Star Beast.

As for the middle – Level Mirage beast, the trap and kill array was filled with white fog, so when the black light appeared in his sight, it was actually very close.

This trap & kill array's Black Light Attack was also carefully designed. When it was just released, its speed was not particularly fast. The main thing was that it was basically silent. Only after flying for a period of time, when it was basically within the vision of the trapped person, would it suddenly accelerate, making it impossible to guard against.

Seeing this, the middle – Level Mirage beast was naturally shocked. With its snow – White fur, it suddenly exerted its speed to the extreme, twisted its small body, and avoided eight black lights in the air.

However, the ninth ray of light followed. At this time, it was already exhausted. Its body was in the air and had no place to borrow strength. It could only twist its waist with all its strength to Dodge.

Even though it managed to Dodge it, the black light still grazed past its snow – White fur.

Suddenly, a cloud of green smoke rose and the White fur on the middle – Level Mirage beast began to burn ...

The middle – Level Mirage beast was so angry that its eyes almost popped out. Taking advantage of the opening when the black light attacked, it fell to the ground and kept rolling, trying to put out the fire.

Unfortunately, the flames produced by the black light were not ordinary flames. Once this flame burned, it was like maggots in one's bones. No matter if it pounced, rolled, or even hid in the water, it would still burn more and more.

It could be said that as long as it came into contact with a spark, it would be very difficult to extinguish it. The only way was to hold on until its energy was exhausted.

The flame on the Mirage beast's body was getting stronger and stronger. It let out a shrill scream. While it was rolling, the next wave of black light attacks came. This time, the Mirage beast was no longer as agile as before. Several black lights drilled into the Mirage beast directly.

Compared with star beasts, the body of a middle – Level Mirage beast was indeed very fragile. It was only a little stronger than the body of a beginner – Level Mirage beast, but there was a limit to its strength. Therefore, the black light penetrated the body of the intermediate – Level Mirage beast without any resistance, leaving a shocking wound.

Chapter 3334 Victory (2)

After a while, green smoke began to rise from the wound, and the fragrance of roasted meat wafted up.

Xia ruofei could no longer see the condition of the intermediate – Level Shen beast. As long as he opened his eyes, he would find himself still in the martial arts practice field.

However, when he opened his eyes to take a look, he realized that the illusion created by the intermediate – Level Mirage beast was not as stable as before. This feeling was similar to the illusion created by the beginner – Level Mirage beast. With Xia ruofei's strength, he could already see some unreal and unreasonable places. This was the illusion becoming unstable.

Xia ruofei was overjoyed. Although he could not see the battle, he knew that the intermediate – Level Shen beast must have been injured and could not maintain the stability of the illusion.

He formed a hand seal and continued to activate the strongest attack of the array.

This kind of indiscriminate attack was an unreasonable method, but as long as the opponent was trapped in the formation, and his side did not care about the consumption, it was really a headache to defend. There was basically no solution.

The middle – Level Mirage beast here was already an arrow at the end of its flight.

There was a constant stream of black light that entered its body that was already stained with blood.

The vitality of the middle – Level Mirage beast was also fading rapidly.

Finally, Xia ruofei's eyes lit up. He realized that the illusion of the martial arts practice field had disappeared.

Without the influence of the environment, Xia ruofei quickly found the location of the mid – grade Shen beast through the array.

Hence, Xia ruofei adjusted his attack as he flew through the array. All the black rays were no longer an indiscriminate attack that covered the entire array. Instead, they were focused on the middle – grade Shen beast.

Suddenly, the black light around the middle – Level Mirage beast became denser.

At this moment, it was already on the verge of death, so how could it withstand so many attacks? A few seconds later, the intermediate – Level Mirage beast was beaten into a sieve. After twitching a few times, it finally contributed a kill to Xia ruofei's task.

Xia ruofei looked at the mission data that had jumped up in his perceptual mirror and finally felt relieved.

At this moment, the mission completion rate was 3/30. There was still no new kill count for the unknown companion.

It had been almost an hour since Xia ruofei had received the mission, but he had only completed one – tenth of the mission. If he wanted to break the record, a quarter of the time had already passed.

Xia ruofei suddenly felt a sense of urgency. He briefly checked the body of the middle – Level Mirage beast and then quickly began to collect the materials for the array. He was ready to hurry and continue to find other Mirage beasts.

However, just as he was about to put away a small part of the materials and was ready to continue, he looked up and a line of notification suddenly appeared in the field of vision of the perceptual mirror: Middle – grade Mirage beast found.

Xia ruofei couldn't help but be slightly shocked. He didn't expect another Shen beast to appear here. If he had known, he wouldn't have removed the array so quickly.

Xia ruofei stood still and did not dare to move. He waved his hands continuously and set up the part of the formation materials that he had just collected.

Now, Xia ruofei's understanding of the trap and kill array was getting deeper and deeper. After so many times of practice, he was quite familiar with the technique.

With a bitter smile, he found that the position of the Mirage beast found by the perceptual mirror was roughly in the direction where he had just collected some of the array materials.

This meant that if Xia ruofei continued to set up the array, he might step into the attack range of the Mirage beast. If he fell into the illusion and the array was not fully set up, it would be very dangerous.

This was a bit of a scam. It seemed that the Shen beast had just moved nearby. Otherwise, when Xia ruofei collected the materials, the perceptual mirror would have discovered the traces of the Shen beast.

It was fine if they were closer as Xia ruofei could use his spiritual power to retrieve the materials and set up the formation.

However, if the distance was too far, even though it was still within the range of his spiritual power, the accuracy would inevitably be reduced if he used his spiritual power to lift the materials and set them up.

To set up an array, especially such an exquisite trap and kill array, the requirement for precision was very high. This meant that Xia ruofei had to face the direction where the Mirage beast might be hiding and walk at least a distance forward before he could set up the array.

He muttered to himself for a moment, then continued to walk forward at a steady pace. As he walked, he inadvertently threw out the materials for the array, gradually restoring the array that he had just dismantled.

At this moment, Xia ruofei was still a little nervous. However, his rationality told him that this was the safest way. Furthermore, he must not show any signs of abnormality. Otherwise, it would be difficult to restore the array.

Therefore, even though he was a little nervous, he did not show it on his face.

Xia ruofei had encountered the Mirage beast a few times and had some experience. He knew that the intelligence of the Mirage beast was much higher than that of the Star Beast. After all, the Mirage beast was good at illusions and knew how to ambush the enemy.

Therefore, Xia ruofei only paused for a moment and then walked forward as if nothing had happened. He did not want the Mirage beast to realize that he was already on alert. This way, the Mirage beast would let down its guard and most likely would not launch an illusion attack immediately.

After all, the illusion was supported by spiritual power. Naturally, the closer Xia ruofei was, the better the effect.

Xia ruofei was also taking a gamble. He was betting that the Shen beast would try to get closer.

This way, he would have a chance to restore the formation.

Xia ruofei's expression was relaxed, but his heart was tense. Unconsciously, he had walked more than ten meters forward. If his judgment was correct, he should have entered the attack range of the Mirage beast at this moment. However, it was still quiet in front of him, and the illusion had not come.

At this moment, Xia ruofei still had the most important formation material to set up. This material was at the furthest point and he had to move at least five meters forward.

Xia ruofei was under great pressure with every step he took. Once the Shen beast suddenly attacked, he would not be able to hide in the array. As long as he fell into the illusion, he would be attacked passively, just like the Shen beast that was trapped in the trap and kill array.

Besides, Xia ruofei knew the most powerful attack of the Shen beast.

Once he fell into the illusion and could not escape, and the Shen beast launched its strongest attack, creating a sea of fire illusion, Xia ruofei would have no other choice but to hide in the spirit map space.

Unless it was absolutely necessary, Xia ruofei would definitely not want to reveal the spirit map, especially since the Mirage beast was man-made. Perhaps there would be an expert who could understand what was happening here through the Mirage beast's perspective. Under such circumstances, Xia ruofei was naturally even more unwilling to reveal the spirit map.

Xia ruofei felt that his heart was about to jump out of his chest.

One meter, two meters, three meters ...

Just as Xia ruofei was about to reach the best position, he suddenly felt the space around him start to distort.

Xia ruofei knew that this was not good. He knew that the Mirage beast had launched an attack. The slight distortion of space was a sign of the illusion. The process would be very short.

As expected, Xia ruofei started to feel the stars moving in the illusion.

He gritted his teeth and threw away the materials in his hand. Then, he closed his eyes and retreated.

At the same time, Xia ruofei's spiritual power had already wrapped around the formation material. As he was not able to move far enough, he could only use his spiritual power to lift the formation material and place it in the designated position. At this moment, accuracy was secondary. Xia ruofei had to take the risk.

After setting up the deathtrap array, he would be able to take the initiative.

If the formation could not be activated due to the lack of precision in the control of his spiritual power, Xia ruofei would be in a passive position. He would have no choice but to hide in the spirit map space.

Xia ruofei retreated as fast as he could, but his spiritual power was able to keep the materials away from him and fly towards the designated location.

The last few meters were covered in a flash. Xia ruofei stopped and put the formation material down with full attention.

At this moment, Xia ruofei, who was standing beside the core node of the formation, suddenly felt that the formation patterns of the entire formation had started to connect. The energy emitted by the spiritual crystal was flying along the path formed by the formation patterns. The trap and kill array had been successfully set up!

...

Chapter 3335 Encounter (1)

At this time, the scene in front of Xia ruofei was completely different. The illusion set up by the Mirage beast had taken effect. He seemed to be on a deserted island. The salty sea breeze blew from time to time, and he could hear the faint sound of waves hitting the shore.

Xia ruofei was already mentally prepared for such a situation, so he was not moved at all.

In fact, he was already very confident when he successfully set up the trap and kill array.

At this moment, Xia ruofei was standing at the eye of the array. It could be said that he had a lot of support. Therefore, he just stood there without moving.

At the same time, Xia ruofei pretended to be flustered. He released the qushuang flying sword and the blue immortal sword to kill the Tao Wu. Of course, because the illusion had already begun to take effect, Xia ruofei could not find the location of the Mirage beast. The two flying swords could not find their target.

Xia ruofei did not expect such an aimless attack to kill the Mirage beast directly. His purpose was still to lure the enemy in.

The Shen beast was not within the range of his trap and kill array. If the other party did not take the initiative to attack, the illusion would not be able to do anything to Xia ruofei. However, Xia ruofei had no way to deal with the Shen beast.

The longer the stalemate lasted, the more disadvantageous it would be for Xia ruofei.

After all, he had the ambition to break the record and pass this trial.

Considering the high intelligence of the Mirage beast, Xia ruofei simply pretended to be in a panic after falling into the illusion. He looked around in a daze and used the qushuang flying sword and the blue immortal sword to attack.

The Mirage beast was indeed fooled.

After a short while, the middle – Level Shen beast flew out of its hiding place and rushed towards Xia ruofei.

Xia ruofei was in the illusion and naturally did not notice it. He only realized it when the Mirage beast came close to him.

However, Xia ruofei was already prepared. As soon as the Mirage beast appeared, he struck the seal that he had already prepared at the control core of the array. The trap and kill array was activated in an instant.

The middle – Level Shen beast was about to reach Xia ruofei and felt that its prey was close at hand. However, in the blink of an eye, Xia ruofei had strangely disappeared. At the same time, it also realized that it was surrounded by a thick fog.

The Mirage beast suddenly fell into the trap and kill array, and because it had rushed forward too fiercely, when the array was activated, it had already fallen very deep.

The tables had turned in an instant.

Xia ruofei did not give the Mirage beast any time to react. He checked the waves sent back by the array. After confirming that the Mirage beast was trapped, he did not hesitate to make another hand seal and directly activated the attack mode of the trap and kill array.

Xia ruofei, who had accumulated a lot of experience, would not miss this opportunity. He decisively activated the array to its maximum power.

Another wave of black light almost filled the entire area of the trap and kill array.

There was no suspense after that. The fate of the middle – Level Mirage beast could no longer be changed.

In just five minutes, the middle – Level Mirage beast was on the verge of death.

Its body was still burning with flames, and the air was filled with the fragrance of roasted meat.

He was already injured and on his last breath, so the illusion was naturally unable to be maintained.

Xia ruofei's figure appeared in front of the Mirage beast. He glanced at this very cute Mirage beast and then with a thought, the qushuang flying sword flew over at an extremely fast speed and directly cut off the head of the Mirage beast.

The mission progress in the perceptual mirror immediately jumped to 4/30.

That unknown companion of his didn't have any other achievements after killing him.

Xia ruofei couldn't help but smile bitterly. It seemed that he had to rely on himself to break the record. As long as he could kill the remaining 26 Mirage beasts within the time limit, the record would still be his.

However, this way, even if his companion only killed one Mirage beast, he would get the same reward as Xia ruofei. Xia ruofei felt that he had lost out.

Of course, if that companion was really Ling Qingxue, Xia ruofei would not be unhappy. On the contrary, he would definitely agree with her.

Xia ruofei looked at the time. There were only about three hours left. Every second and minute was precious. Hence, he quickly checked again and began to pack up the formation materials. With the previous experience, he was even more cautious now.

After keeping the materials, Xia ruofei randomly chose a direction and continued his search on the bent Frost Flying sword.

An hour passed.

Two hours passed.

Two and a half hours ...

When there was less than half an hour left, Xia ruofei had already killed 25 Mirage beasts.

In the trial space on the third floor of the trial Pagoda, the number of Mirage beasts seemed to be more than the star beasts on the second floor. So, in the past one or two hours, he had found and dealt with 25 mid – grade Mirage beasts.

If Xia ruofei was the only one to complete the task this time, theoretically, he only needed to complete half of the number of Mirage beasts, which was 15. According to the number of Mirage beasts he had killed, he could have completed the task long ago.

However, he had chosen the mode this time, so he had to accept it even if he had to pinch his nose.

And what if that companion was Ling Qingxue?

In fact, Xia ruofei had killed 25 Mirage beasts, while the companion he had not met had only killed four. So, the two of them had killed exactly 29 Mirage beasts together. They were only one intermediate level Mirage beast away from breaking the record.

Chapter 3336 Encounter (2)

And there was still nearly an hour left.

Xia ruofei finally heaved a sigh of relief. He finally had more time this time.

When Xia ruofei first received the task, he felt that it was really difficult to find a Mirage beast on the third level of the trial Pagoda. Later on, as he became more and more proficient in using the trap and kill array to deal with the Mirage beast, his luck seemed to be getting better and better, and the speed of finding the Mirage beast was getting faster and faster.

Based on the speed just now, this trial mission would be completed in 20 minutes at most.

This had greatly increased the time needed to record it, directly cutting it down by about 40 minutes.

Naturally, Xia ruofei was in a good mood. At the same time, he was already looking forward to the rewards that he would receive next.

He checked it out of habit. Just as he was about to put away the materials for the trap and kill array and continue to look for the Mirage beast in another direction, he suddenly saw a figure appear about 800 meters to his right in front of him from the corner of his eye.

Xia ruofei immediately stopped collecting the trap & kill array and looked into the distance with excitement.

Very soon, Xia ruofei could not help but sigh. Even though he was still quite far away, he was too familiar with Ling Qingxue and knew her too well. So, just by looking at the figure from afar, he could already tell that the figure was not Ling Qingxue.

As for whether it was his other companions who had been randomly teleported to this small trial space, he needed further verification.

Not only did Xia ruofei stop collecting the formation, but he also put back the only set of formation materials that he had just collected.

Then, Xia ruofei stared at the direction of the person.

The other party had obviously noticed Xia ruofei as well. He slightly changed his direction and flew straight towards them.

As the distance between them closed, Xia ruofei's hope was slowly extinguished. He could already see the other party's face clearly. It was indeed not Ling Qingxue, but elder Shen tianfang of the first heaven society.

Shen tianfang was a veteran elder of the first heaven society. He was a mid – Stage golden core cultivator and his cultivation was very close to the late – Stage golden core.

Xia ruofei couldn't help but smile bitterly. The probability of one in eight was still too small.

This time, things did not go as he wished. He even sacrificed the opportunity to upgrade the energy storage Pearl. In the end, he did not bring Ling Qingxue here. Instead, he brought Shen tianfang along!

However, no matter what, he was an elder of the first heaven society, and he was only a few steps away from completing his mission. This was all thanks to Shen tianfang's help. Although Shen tianfang's

cultivation was much higher than Xia ruofei's, his actual strength was probably not much stronger than Xia ruofei's.

If this task was used as a test, Shen tianfang would obviously fail. Out of the 29 intermediate – Level Mirage beasts that were killed, only four were killed by elder Shen. The rest were completed by Xia ruofei alone.

But no matter what, he had made a contribution, and there was a one in eight chance of meeting him. It could only be said that it was fate!

Hence, Xia ruofei did not stand still. Instead, he quickly walked up to them.

Shen tianfang walked up to Xia ruofei and asked in surprise, "Fellow Daoist Xia, I saw someone here from afar, so I came over to take a look. It's you, my brother!"

"Nice to meet you, elder Shen!" Xia ruofei smiled.

"Hello, hello!" Shen tianfang smiled and said, "Daoist Xia, how did you get here? Just a second ago, I was still painstakingly searching for the Star Beast, but suddenly, it was as if the stars had shifted, and I arrived in this new space ..."

"It's a long story." Xia ruofei said, "elder Shen, you must have encountered an illusionary formation the moment you entered, right?"

"Isn't that so?" Shen tianfang said, "I was not careful and almost fell for it! Fortunately, I have some experience in dealing with illusionary formations, so I passed through it without any danger ..."

Then, Shen tianfang said, "Fellow Daoist Xia, after I broke the illusory formation, I received a mission to kill the Mirage beast ... As soon as the illusory formation was broken, a stone tablet appeared in front of me. It was the same as the one I received on the second level of the Tower of Trials. On it was written the mission for this trial. Only then did I know that I had already reached the third level of the Tower of Trials, but I clearly didn't complete the mission on the second level ..."

Xia ruofei was a little embarrassed as he said, "Elder Shen, this has something to do with me. When I completed the second level of the Tower of Trials, I triggered a hidden reward. I can randomly send one of my companions to the same small space on the third level of the Tower of Trials. I didn't expect to disrupt the rhythm of elder Shen's completion of the mission. I'm really sorry ..."

If Shen tianfang had completed the second level's mission normally, he would have been able to get a reward. Now that he was halfway through the mission and was directly sent to the third level, the second level's mission reward was naturally gone.

Therefore, Xia ruofei should still express his apology. After all, he had only wanted to meet up with Ling Qingxue as soon as possible, but objectively speaking, he had affected Shen tianfang.

Shen tianfang waved his hand and said, "Fellow Daoist Xia's words are too serious. I've been doing the second level of the Tower of Trials for a long time. Those star beasts are not easy to deal with! I'm still far from completing my mission! Moreover, if he encountered a high – Level Star Beast, he might even lose his life. To be able to directly experience the third level of the Tower of Trials, I have to thank fellow Daoist Xia!"

"I don't dare! It's my fault that you didn't get the reward for the second level mission. It's already very good that you don't blame me." Xia ruofei said.

Shen tianfang laughed and said,"but fellow Daoist Xia is indeed very powerful!" He completed the second level of the Tower of Trials so quickly and even got a hidden reward ... Besides, the third level of the Tower of Trials should require both of us to work together, right? I've just checked the mission stone stele and found that the mission is almost completed!"

Then, Shen tianfang took out a small stone tablet from his storage treasure. The mission content of the third level of the trial Pagoda was recorded on it, and it would also update the mission progress in real – time.

Xia ruofei's perceptual mirror showed the same mission progress, 29/30.

Shen tianfang smiled bitterly and said,"I'm ashamed to say this. In this mission, more than half of it was completed by fellow Daoist Xia. The Mirage beasts that I killed were not even a fraction of what fellow Daoist Xia did! If I can break the record and complete this mission, then I'll be taking advantage of fellow Daoist Xia!"

Xia ruofei smiled and said,"elder Shen, you're too kind. We're here to explore the mystic realm together. Of course, there's no distinction between us. We can't talk about who's benefiting from who."

Shen tianfang took two steps closer and said with a smile,""Fellow Daoist Xia is truly magnanimous! In fact, fellow Daoist Xia's help was also indispensable in our lunar expedition this time! On the third level of the trial Pagoda, fellow Daoist Xia's performance was still so amazing. His future was bound to be boundless! In addition, I'm afraid that fellow Daoist Xia will be the one with the biggest stake in this exploration of the secret realm!"

Shen tianfang paused for a moment before he continued,""If the missions on the first two levels are different in terms of cultivation level, then the difficulty will be different. However, the stone tablet clearly states that the missions on the third level are set according to the cultivation level of the person who is higher, and the number will double based on that Foundation. However, fellow Daoist Xia was still able to complete it so outstandingly. I'm truly ashamed of my inferiority!"

"Elder Shen, you flatter me!" Xia ruofei said,"I'm just lucky to have some skills in dealing with the Mirage beasts. If it were star beasts, I might not be as efficient."

Shen tianfang replied,"Daoist Xia, speaking of star beasts, I did discover some secrets on the second level of the Tower of Trials!" It's a pity that I didn't have the chance to explore it further ..."

"Oh?" Xia ruofei raised his eyebrows."What secret did elder Shen find out?" If you don't mind, can you tell me a little?"

"Of course, no problem!" Shen tianfang looked around. Although there were only the two of them, he still lowered his voice and said,"I'm on the second level of the trial Pagoda ..."

As he spoke, his voice became softer and softer, and Xia ruofei could not help but pay attention. At this moment, Shen tianfang suddenly burst into action. A flying sword appeared in his hand, and he threw it at Xia ruofei, who was a few steps away.

Under the effect of his mental strength, the flying sword was extremely fast. With a sharp whistling sound, it arrived in front of Xia ruofei in the blink of an eye ...

Chapter 3337 People die for money (1)

Xia ruofei seemed to be prepared. When Shen tianfang's flying sword was in front of him, his body moved half an inch sideways and dodged the sword. At the same time, his feet seemed to be installed with Springs. His body was pulled up from the ground and he retreated five meters away.

After Shen tianfang's attack missed, he did not rush to chase after Xia ruofei. Instead, he had a playful look on his face. He smiled and said, "You're quite vigilant! It was no wonder that he could rise to fame in the cultivation world in such a short time. Xia ruofei, I'm getting more and more interested in you!"

Obviously, Shen tianfang, who was close to the advanced stage of the Golden elixir realm, had already regarded Xia ruofei as a meal. If this sneak attack was successful, it would save him a lot of trouble. However, since it did not succeed, he did not care much. Anyway, in his opinion, the difference in strength between the two of them was huge. It would just take a little more effort to get rid of Xia ruofei.

Xia ruofei looked at Shen tianfang and asked calmly, "Why?"

Shen tianfang shrugged and asked, "What do you mean why?"

"We're companions, and we've come to this secret realm together. Why did you attack me?" Xia ruofei asked indifferently.

Shen tianfang laughed exaggeratedly. He pointed at Xia ruofei and said, "I didn't expect you to ask such a naive question! From this point of view, you really are a rookie in the cultivation world! What else do you think? People die for wealth, birds die for food. It's said that you're the direct disciple of a nascent soul old monster. On earth, everyone was afraid to attack you and didn't dare to touch you easily. But what was this place now? There's only the two of us in this trial space. Even if I kill you, who would know?"

"Just this?" Xia ruofei asked in surprise.

Shen tianfang said, "Xia ruofei, don't you know?" Everyone's test in the Tower of Trials is completed in a separate small space. If you can't leave the secret realm by then, it must be that you died in there because you were not strong enough. Who would suspect me? Who in the world of cultivation doesn't know that you're rich and imposing? Any cultivation technique or recipe could be exchanged for a large number of spiritual stones! This was only the part that was exposed. What about the other parts that no one knew? I think if it wasn't for the name of the Yuanying stage old Monster Master behind you, you would have been killed by those jiedan stage Masters in minutes! However, I'm still the lucky one! You actually courted death by coming up with some hidden reward and teleporting yourself to the same small space as me! It would be inappropriate if I didn't accept this gift that was delivered to my door! So, I've decided to kindly accept it!"

Xia ruofei nodded. "Shen tianfang, you're so direct. You're much better than those hypocrites!"

"Hahaha!" Shen tianfang laughed proudly. Do you have any last wishes? As long as it doesn't expose the fact that I killed you, I can consider helping you achieve it! But in exchange, I hope you can be quick and

tell me the secret of your rapid increase in cultivation and your cultivation resources. Don't hide it, since you can't bring it underground anyway! It's better to be quick and fulfill my wish! When I break through to the late – Stage of the Aurous core stage in the future, I'll definitely burn more paper money for you!"

Xia ruofei's mouth twitched and he said,"Shen tianfang, it seems like you've got me ..."He said.

"Cut the crap. There's no point in stalling for time!" Shen tianfang's expression turned cold."It's impossible for anyone to come out and save you in this small trial space. Even your legendary master, whether he's at the nascent Soul Stage or the immortal soul Stage, or even an old monster who's about to ascend, can't do anything!" Besides, you can't leave this small space before you finish the trial mission. So, you can't escape! Just accept your fate!"

Shen tianfang then grabbed his flying sword with his spiritual power and said coldly,""Since you don't have any last words, I'll send you on your way! All the treasures you have must be in your storage treasure! After you die, this storage treasure will become ownerless. At that time, I'll help you make good use of these cultivation resources!"

As soon as he finished speaking, Shen tianfang waved his spiritual power, and the flying sword whizzed toward Xia ruofei again at a speed that was even faster than the sneak attack.

There was only a distance of five to six meters between the two of them. In the blink of an eye, the flying sword had already arrived in front of Xia ruofei's face!

With a thought, Xia ruofei summoned the flying sword. He stepped on the flying sword and activated the sword technique. Then, he turned into a shadow and disappeared.

Shen tianfang was stunned when he saw this.

Xia ruofei didn't fly too far away. He stood on the qushuang flying sword that was about a foot off the ground. He floated in the air and looked at Shen tianfang calmly.

Shen tianfang pointed at Xia ruofei and was dumbfounded. After a long while, he muttered,""Sword Kinesis flight! You can actually ride a flying sword in this small space! You ... How did you do that?"

When Xia ruofei first entered this place, he could not ride a flying sword as the rules of this world were very different from the outside world. Even now, he could only use his spiritual energy to wrap the blue travel immortal sword and attack like Shen tianfang, using the flying sword as an ordinary weapon.

Chapter 3338 People die for money (2)

It wasn't until he obtained the flying sword of the qushuang and learned the laws of sword control in this space that he regained one of the iconic abilities of golden core cultivators, Chi Xi's sword control ability.

Shen tianfang obviously did not have such an opportunity. Therefore, even though his cultivation was infinitely close to the late – Stage of the Aurous core stage, he still could not ride a flying sword here.

This was also when he saw Xia ruofei actually fly up on his sword. The reason for his shock.

Xia ruofei controlled his flying sword and hovered about ten meters away from Shen tianfang. He looked down at Shen tianfang and asked, "I have one last question! Was it your own idea to attack me so decisively, or was it your sect leader Chen's idea? Don't tell me Chen Xuan ordered you to do this?"

Shen tianfang recovered from his shock. He looked a little pale as he stared at Xia ruofei and said, "I've already tried to overestimate your ability, but I didn't expect you to give me such a big surprise ... I won't hide it from you. Just now, I've already deduced the possible reason why I came to the third level of the trial Pagoda. It wasn't until the moment I saw you that I realized that this matter was related to you. It was also at that moment that I decided to kill you. Sect leader Chen didn't order this. As for our young sect leader ... He didn't order this. Moreover, after entering the secret realm, I couldn't contact him anymore, so naturally, I didn't conspire with him!"

Xia ruofei nodded and said, "I'm relieved!" Otherwise, I'll go on a killing spree once we're out. To be honest, I'm quite close to brother Chen Xuan, and I don't want to fall out with him!"

Shen tianfang was stunned for a moment before he smiled and said, "Xia ruofei, don't tell me you think that you can escape from me just because you've mastered the technique of sword Kinesis flight in this trial space! If that's what you really think, then you're too naive! It's just a little more effort, the final result will not change!"

With that, Shen tianfang did not hold back anymore. He waved his hands in the air, and the flying sword suddenly drew an arc in the air and stabbed toward Xia ruofei again, at a faster speed than before.

At the same time, Shen tianfang stomped his feet and flew toward Xia ruofei. He struck out his palms across the air and pressed down with the force of Thunder.

Xia ruofei stepped on the qushuang flying sword and dodged nimbly. Shen tianfang's attacks missed one by one. The distance between the two was still five to six meters.

Shen tianfang said coldly, "Xia ruofei, give up!" It was meaningless for one to only know how to ride a flying sword! In this small space, you don't even dare to fly high! It would be even more difficult to shake me off. You should know that sword Kinesis flight consumes a lot of vital energy! I don't believe that your Yuan Qi is inexhaustible!"

Xia ruofei smiled. "You're right. In terms of vitality storage, it's hard to find someone who can surpass me in the cultivation world."

Shen tianfang snorted and said, "What's the point of being garrulous? I can still say that my cultivation has already broken through to the original infant stage! Was there any meaning to it? Xia ruofei, I'll tell you one last time. If you obediently hand over all your cultivation resources, especially the secret of your rapid increase in cultivation in a short time, I'll consider leaving your corpse intact! In fact, if the content you tell me is valuable, I can't rule out the possibility of sparing your life! However, if you continue to resist, then when I catch you, I'll definitely let you taste the cruelest punishment and let you slowly die in the most bitter pain ... This Chen will do as he says!"

Xia ruofei pouted and said, "Isn't this a trick to trick children?" Do you really think I'm a three-year-old child? You dare to let me leave the secret realm? Aren't you afraid that when I return, I'll find master to take revenge for me?"

Shen tianfang's mouth twitched slightly, and he looked a little embarrassed. However, his expression quickly returned to normal, and he said indifferently, "There are many times when death is an easy thing, but living is very difficult! It's already a great mercy for me to let you die without any pain!"

Shen tianfang knew that even an ant would not be able to survive. Xia ruofei would not give up so easily, especially after he had mastered the method of sword Kinesis flight.

So, after he finished speaking, he immediately used his spiritual power to control the flying sword and launched an even fiercer attack on Xia ruofei.

However, his spiritual power was not as good as the sword control technique. So, even though his cultivation was much higher than Xia ruofei's and his swordsmanship was also very exquisite, Xia ruofei could still Dodge it easily. For a moment, Shen tianfang could not do anything to Xia ruofei.

When Shen tianfang saw that Xia ruofei could ride a flying sword in the trial space, he already knew that it was impossible to end the battle quickly.

However, he was still very confident. This was mainly because sword Kinesis flight consumed a lot of vital Qi, especially when it came to high – intensity dodging and evading. With Xia ruofei's cultivation at the early golden core stage, he should not be able to hold on for long.

Shen tianfang did not know that Xia ruofei had an elemental storage Pearl. In terms of elemental energy storage, Xia ruofei was not inferior to Shen tianfang. In fact, he was far better than him.

If he really had to wait until Xia ruofei ran out of energy, Shen tianfang would probably start to doubt his life.

Of course, Xia ruofei had no intention of using the sword Kinesis flight to escape.

He retreated as he fought, slowly moving towards the direction of the trap and kill array.

Shen tianfang did not notice the formation that Xia ruofei had set up in advance. It was meant to deal with the intelligent Shen beast. Xia ruofei had even camouflaged the formation. Before the formation was activated, it was difficult for ordinary people to notice anything unusual in this area.

Furthermore, Xia ruofei did not set up this formation in front of Shen tianfang. He had not had time to collect it after killing a Shen beast.

Naturally, Shen tianfang was even more defenseless.

Xia ruofei stepped on the qushuang flying sword and used the terrain to Dodge the attacks. He had been dodging and running all this time and had not taken the initiative to attack.

This was also in line with Shen tianfang's judgment. In his opinion, the difference in strength between Xia ruofei and him was too big, and it was impossible for Xia ruofei to attack him.

It was also because of this that Shen tianfang only wanted to exhaust Xia ruofei's vital Qi as soon as possible so that he could kill him. He did not have much preparation at all.

If he was on guard, he would at most be on guard against Xia ruofei's life – and – Death struggle. After all, if the legends were true and Xia ruofei really had a master in the original infant stage, he might have left some life – saving means for Xia ruofei.

Xia ruofei retreated as he fought and soon entered the range of the trap and kill array.

Shen tianfang also chased after him without hesitation.

Xia ruofei maneuvered the qushuang flying sword nimbly and increased the speed. The distance between him and Shen tianfang was suddenly more than ten meters.

Shen tianfang was not shocked. Instead, he was happy because Xia ruofei's actions would not help him escape at all. Instead, it would consume more primordial Qi, and it would only make the final moment come faster.

Therefore, he wasn't in a hurry and just stayed far away.

Little did he know that after Xia ruofei turned a few times, he suddenly struck out a seal that he had prepared earlier. The trap and kill array was instantly activated.

Shen tianfang could still see Xia ruofei's figure, but in the next second, he was suddenly shrouded in thick fog. His visibility dropped to the point where he could barely see his fingers.

Shen tianfang was experienced in actual combat. How could he not know that he had fallen into Xia ruofei's trap?

He knew that this was bad. Then, he gritted his teeth and pushed his speed to the limit. However, he did not retreat blindly. Instead, he pounced at Xia ruofei's position according to his memory.

However, after the formation was activated, the entire area covered by the formation was in a mess. Shen tianfang thought that he was going to Xia ruofei's position, but in fact, he was in the opposite direction and had fallen into the depths of the formation.

Xia ruofei's spiritual power had been paying attention to the situation inside the array. When he saw that Shen tianfang was deeply trapped in the trap and kill array, he could not help but sigh. They had finally come to this ...

Chapter 3339 fight to the death (1)

After all, Shen tianfang was an experienced mid – Stage golden core cultivator. His cultivation was infinitely close to the late – Stage golden core. Naturally, he was not comparable to those puppets, star beasts, and Shen beasts. He immediately realized that he had fallen into a trap array.

Although Shen tianfang did not specialize in array Dao, he had done some research, and he knew that he would only sink deeper and deeper if he blindly rushed in.

Therefore, he quickly stopped and focused his attention on defense. At the same time, he used his spiritual power to check the situation of the array, hoping to use his knowledge of arrays to find a flaw in the array.

He had always treated Xia ruofei as a fish on an anvil. He thought that Xia ruofei would not be able to escape under such circumstances. However, he did not expect that the cooked duck could not only fly, but also bite him.

This bite really made him feel pain.

In fact, Xia ruofei was standing not far away from Shen tianfang. However, he was in the eye of the array, while Shen tianfang was in the trap array. Even if Xia ruofei was close, he could not see him.

Xia ruofei looked at Shen tianfang's ashen face and felt very complicated.

Of course, he knew the cruelty of the cultivation world. In fact, wasn't the secular world the same? The law of the jungle was the same everywhere. However, the secular world had established rules and laws to restrict them, while the cultivation world was more dependent on strength.

However, this was the first time Xia ruofei had seen a cultivator reveal their true nature.

He had no grudges with Shen tianfang. On the way to the moon, they had lived in the same small spaceship for so many days. Xia ruofei felt that the exploration team should have formed a good friendship, including Shen tianfang.

However, with enough benefits, Shen tianfang could forget about all these.

Naturally, Xia ruofei was not an easy person to deal with. If people showed him respect, he would show them respect. However, if someone had already started to take his life, he would not be much more merciful.

Moreover, Shen tianfang was an elder of the first heaven society. Now that the two of them had become mortal enemies, it did not matter who was right or wrong. What was important was that if Shen tianfang made it out alive, Xia ruofei would face endless trouble. Moreover, he had a good relationship with Chen Xuan. If he turned against the first heaven society, even Chen Xuan would be in a difficult position.

Therefore, the moment Shen tianfang revealed his killing intent towards Xia ruofei, the outcome was already decided.

One of the two had to stay in this trial space forever.

Xia ruofei believed from the beginning that he would not be the one who was left behind.

Now, he was standing not far from Shen tianfang. He looked at him silently for a few seconds, then said, "Elder Chen, you've said so much just now, but there's one thing that reminded me. Killing people in this small space is really undetectable. When we go out, everyone will think that I was killed because I was not strong enough and won't suspect me ..."

Shen tianfang looked around. Under the effect of the formation, Xia ruofei's voice seemed to be coming from all directions. Shen tianfang could not find Xia ruofei's location by his voice.

He shouted with a ferocious expression, "Xia ruofei, I admit that I underestimated the enemy!" I didn't expect you to have a backup plan!"

Xia ruofei shrugged and said, "I've always been a cautious person. Sometimes, I'm even too cautious." However, it turned out that being overly cautious was better than being careless! If I hadn't been careful today, I'm afraid I would have died on the spot!"

Xia ruofei's words were naturally somewhat exaggerated because he had the spirit painting scroll as his last life – saving measure.

However, in terms of strength, Shen tianfang was much stronger than Xia ruofei. Without the help of the formation, Xia ruofei would not be able to defeat Shen tianfang.

If he had to hide in the spirit map space, it meant that the situation was very serious. He would lose the initiative and Xia ruofei could not guarantee that he would be able to hide the spirit map scroll without Shen tianfang noticing.

In fact, the possibility of this was almost zero. Shen tianfang was an experienced cultivator. As long as he saw a spirit map scroll, he would definitely not treat it as a rare item like the nascent soul realm puppet on the first floor of the trial Pagoda.

With Shen tianfang's experience, he could definitely tell how precious the scroll was. He could even guess that Xia ruofei was most likely hiding in the scroll space.

In that case, Xia ruofei would be trapped in the space forever. On the other hand, Shen tianfang could study the spirit map scroll anytime and anywhere. One day, this last protective barrier would also be broken.

Therefore, the trap & kill array that Xia ruofei left behind was a stroke of genius. Now, the situation had been completely reversed.

Shen tianfang sneered, "it's too early for you to be happy!" It was just a trap array! It can make you so full of yourself? If you want to kill me, just relying on this formation is not enough! When I find a flaw and break through the formation, you'll know what despair is!"

Until now, Shen tianfang only felt that he was slightly passive, but the overall situation had not changed.

Xia ruofei smiled and said, "feel despair?" I'll give you this opportunity! You'll feel it soon ..."

At this time, Shen tianfang's body burst out and he pounced towards his right side. He deliberately made Xia ruofei talk more, in fact, he was trying to find Xia ruofei's true position. It was only when he thought that he was certain that he suddenly launched an attack and wanted to catch Xia ruofei off guard.

Chapter 3340 fight to the death (2)

Xia ruofei didn't know whether to laugh or cry as he watched Shen tianfang run to the other side. He said, ""I'm talking to you! You're being a little disrespectful if you're not concentrating!"

Shen tianfang's body froze and he stopped in a daze.

He knew that his judgment was wrong. Otherwise, how could Xia ruofei be so calm?

Shen tianfang snorted and said, "don't be so smug!" Watch how I break the formation!"

With that, Shen tianfang took out a black ball from his storage space and looked around. Then, he gritted his teeth and threw the black ball to his left.

After the black ball fell to the ground, it let out a violent explosion, followed by a series of crackling sounds, and raging flames began to spread in that direction.

Shen Tian had obtained this black ball when he was exploring the ancient ruins. He had only obtained four of them, and he had used one for an experiment. Now, he only had three.

Shen tianfang did not know the name of this black ball, but it was extremely powerful. It was much stronger than the energy – gathering bombs in the secular world. Moreover, the flames after the explosion were also different from ordinary flames. They could reach a high temperature of several thousand degrees and could even melt rocks. If they were used to break the array, they could also greatly expand the scope of the destruction. As long as the basic materials of the array were destroyed, the array would naturally collapse.

Although the black ball had landed in the air and did not cause any damage to the formation, Xia ruofei was still shocked by the explosion.

This was the biggest difference between cultivators and monsters and puppets, especially old – School cultivators like Shen tianfang. He always had some life – saving trump cards and means that were impossible to guard against.

Xia ruofei did not know how many of these black balls Shen tianfang had. If there were a lot of them, it would be a little troublesome.

As long as there were enough of them, they could even turn the entire formation into a sea of fire.

Most of the materials used to set up the formation were jade stones, wood, and other objects. It was possible that they would be destroyed in a day if they encountered such an attack.

This method of breaking the formation was a little unreasonable and without any technical skill, but the effect was very good.

Besides, Xia ruofei did not know if Shen tianfang had any other strange treasures besides this black ball. After all, he was a veteran cultivator in the intermediate stage of the Golden core realm. His accumulation could not be underestimated.

Hence, Xia ruofei decided to end the battle quickly.

With a thought, he formed a hand seal and the attack mode of the trap and kill array was immediately activated.

The black rays that had worked against star beasts and Shen beasts started to shoot at Shen tianfang from all directions.

Without the influence of the illusion, Xia ruofei did not need to launch an indiscriminate attack. He could focus all his attacks on Shen tianfang. This way, the black light seemed to be more concentrated.

Shen tianfang was worthy of being an expert in the first heaven society whose cultivation was second only to Chen Nanfeng. Although his vision was severely blocked, he still dodged the black light as soon as it appeared.

However, these rays of light were too dense. They were simply airtight, and they were shooting from all directions as if they would never stop.

Shen tianfang soon felt that his strength was not in his heart.

At this moment, he was extremely flustered because he did not expect this trap array to have a hidden killing move. This was no longer a single trap array, but a high level array that could trap and kill.

Shen tianfang did not know how Xia ruofei was able to set up such a high – Level array. It would be fine if the array flags were given by the elders of the sect, but if it was set up by him, his array skills would be shocking.

If Shen tianfang knew that Xia ruofei was not the only one who had set up the trap and kill array, he would be even more shocked if he found out that Xia ruofei had created the array after he had mastered a lot of knowledge about arrays.

Now, Shen tianfang had no time to care about anything else. He could only try his best to Dodge and think of countermeasures.

It was not a good idea to just Dodge. Shen tianfang soon found that the space for him to Dodge was getting smaller and smaller. If he did not make any changes, he could be hit by the black light at any time.

Shen tianfang had no choice but to take out a Dharma Treasure from his storage space. He hesitated for a moment before opening it. Although he was reluctant to do so, his life was more important.

This long magic treasure was like an umbrella when it was opened, and it directly opened.

The black light landed on the umbrella – shaped magic treasure and made a clattering sound. Upon closer inspection, only a few small marks were left on the magic treasure, and there was almost no damage.

This way, the pressure on Shen tianfang was greatly reduced. At least half of his body did not need to worry about defense for the time being.

Shen tianfang dodged the black light coming at him from the front and waved his flying sword to cut the light away. He seemed to be at ease.

Xia ruofei saw this and knew that the black light would not be effective for a while.

However, Xia ruofei did not reveal himself rashly. Instead, he continued to increase the power of the formation. The black rays of light became even more concentrated and almost covered the entire sky.

After Shen tianfang flicked away one of the black rays, he could not help but laugh.””Xia ruofei, what else do you have? If that’s all you have, then I’m sorry, but it’s impossible to kill me!”

Xia ruofei crossed his arms in front of his chest and stared at Shen tianfang, who was shouting in the formation. He had no intention of attacking or showing his face.

In fact, this was still Xia ruofei's cautious approach. He was also worried that Shen tianfang had other tricks up his sleeve, so he did not reveal himself rashly. In addition, he also hoped that the black light could consume Shen tianfang's vital Qi as much as possible.

To Xia ruofei, the formation would only consume a few spiritual stones to maintain this level of attack. In his spirit map space, there was already a small mountain of ordinary spiritual stones. Usually, when he cultivated, Xia ruofei would think that the energy of the spiritual stones was too low. He would usually use spiritual crystals or even origin crystals, so he did not really care about the consumption of spiritual stones.

Xia ruofei only needed to pay a few spiritual stones, but Shen tianfang had to maintain a high state of concentration. Moreover, it took a lot of energy to Dodge the black light. Hence, Xia ruofei became very patient. He was waiting like a leopard lying motionless in the grass. It might be that he had found his prey.

Xia ruofei was waiting for Shen Tian to be unable to continue releasing his vital Qi.

Shen tianfang naturally knew that he would be in a very passive position if this continued, but he had no choice now. He had to concentrate on dealing with the black rays coming from all kinds of tricky angles. He had no time to study the array and find its flaws.

His vital Qi was being consumed without him realizing it.

Shen tianfang was also complaining in his heart, but he could not think of any good ideas.

Xia ruofei looked coldly at Shen tianfang, who was starting to lose his balance. He did not hide the killing intent in his eyes.

He also took out the qushuang flying sword and the blue immortal sword.

The blue traveling immortal sword circled to the front of Shen tianfang and attacked him at Full Speed with a terrifying momentum.

To Shen tianfang, this kind of attack was easy to defend.

The flying sword he controlled with his spiritual power also floated up and intercepted the blue immortal sword.

However, the frontal attack was only a feint. The real killing move was hidden on the qushuang flying sword. The flying sword silently sneaked behind Shen tianfang and only accelerated when it was very close.

Shen Tian saw the qushuang flying sword coming from behind him and couldn't help but shout.

Because the qushuang flying sword was very stealthy and Xia ruofei deliberately controlled it, Shen tianfang did not notice it at all. When the qushuang flying sword also attacked him, it was already too late for him to Dodge ...
