

God tier Farm 3341

Chapter 3341 Dead end (1)

Shen tianfang's reaction was already considered extremely fast. Moreover, an experienced cultivator like him usually had an extraordinary sense of danger.

However, the situation at that time was too complicated. He had to Dodge the omnipresent black light and was distracted by the sudden attack of the blue travel immortal sword. So when he realized the danger was coming, it was already too late.

Shen tianfang roared and dodged with all his might, almost twisting his body into a fried dough twist. At the same time, he tore off a jade pendant from his chest and crushed it without hesitation.

Instantly, a light screen rose up and enveloped him inside.

It was obvious that the jade pendant was a one – time use defensive magical treasure.

The next moment, the qushuang flying sword stabbed the light curtain.

Due to the obstruction of the light curtain, the speed of the flying sword was slightly slower. However, Xia ruofei had also used all his strength in this attack. The light curtain couldn't completely block the flying sword and only slowed it down a little.

Soon, the qushuang flying sword broke through the light curtain and stabbed toward Shen tianfang.

It was because of this short delay that Shen tianfang's body was twisted at an angle. The attack of the qushuang flying sword was slightly off. It did not directly pierce through Shen tianfang's heart, but through his shoulder.

Shen tianfang cried out in pain and covered the wound on his shoulder as he retreated.

Although there was a hole in the light curtain, the other parts were still in effect, which gave Shen tianfang a chance to catch his breath. The dense light curtain blocked most of the black light.

He turned his head and stared at Xia ruofei, shouting, "I didn't expect that ... You're already so strong! Even an intermediate Aurous core cultivator was only at this level! Xia ruofei, I've really miscalculated this time. I've underestimated you ... So you've been pretending to be a pig to eat a Tiger!"

Shen tianfang finally felt Xia ruofei's true strength from the attack of the qushuang flying sword.

If Xia ruofei was just an ordinary early – Stage golden core cultivator, Shen tianfang's one – time protection Dharma Treasure would be able to block it.

Although the attack of the flying sword was related to the grade of the flying sword, the strength of the cultivator controlling the flying sword was more important. Without enough strength, no matter how good the flying sword was, it would be useless.

Just like Shen tianfang, he could not control the flying sword in the trial space. He could only control the flying sword with his spiritual energy, just like how Xia ruofei controlled the blue travel celestial sword. Naturally, the power of the flying sword would be greatly reduced.

A child holding a treasured knife that could cut iron like mud might be able to hurt an adult who did not know martial arts. However, when facing a martial arts master with his bare hands, he would definitely not even be able to touch the corner of the other party's clothes. Moreover, it was very likely that he would hurt himself.

Therefore, from the simple stab of the qushuang flying sword, Shen tianfang could clearly feel that Xia ruofei's strength had far exceeded that of an early golden core cultivator. If it was an ordinary intermediate stage golden core cultivator, he would not be able to gain an advantage over Xia ruofei.

Xia ruofei did not say a word. He controlled the qushuang flying sword and continued to attack Shen tianfang. At the same time, he did not forget to maintain the black light of the trap and kill array.

Even though the black light could not break through the protective light shield in a short time, Xia ruofei knew that this kind of one – time protective magical equipment had a time limit. Once the effective time was over, the protective shield would disappear without him having to do anything.

Moreover, the more attacks it endured, the greater the consumption of the protective shield, and naturally the shorter the time it could be maintained.

Therefore, he didn't stop the attack of the black light.

The attack of the qushuang flying sword used the noble Sword technique, and the angle of the attack was extremely strange. It was like a Antelope hanging its horn, leaving no trace. Even though Shen tianfang was experienced and knowledgeable, he was still struggling to deal with it.

Shen Tianxin knew very well that he would die if this continued, so he could not help but feel very anxious.

He had used up most of his trump cards, but he had completely lost the initiative since he was trapped in the formation.

The flying sword pierced through the protective light curtain again. Shen tianfang controlled his flying sword in time and swept it away. At the same time, he jumped to the side and shouted, "Xia ruofei! How about we each take a step back? If you stop now, you will gain the friendship of the first heaven society! And I will never attack you again. I can swear on my inner demon! If I go against my oath, I'll die from Qi deviation! Now, we are only missing a Mirage beast for our mission. It's not worth it to waste time here! As long as we kill another Mirage beast as soon as possible, we can break the record and complete the task. At that time, both of us will get rich rewards. Why do you have to fight me to the death?"

Xia ruofei sneered. "Shen tianfang, I wanted to cooperate from the beginning. It was you who suddenly tried to kill me. Otherwise, we would have completed the mission together and received the reward to go to the fourth level!" Now that things have gone south and the defeat is certain, you want to cooperate? What were you doing earlier?"

Shen tianfang saw that the attacks of the qushuang flying sword and the black light were getting fiercer and fiercer. He couldn't help but shout, "Xia ruofei, I was blinded by greed. I can apologize to you!"

"If an apology is useful, why do we need the police?" Xia ruofei said a cliché line and then waved his hand. The qushuang flying sword pierced through the light curtain from an unimaginable angle.

Chapter 3342 Dead end (2)

This time, Shen tianfang's reaction was not fast enough. He managed to avoid getting hit in his vital parts, but his arm was pierced through and blood flowed out.

Shen tianfang groaned in pain and shouted, ""Xia ruofei, do you really want to fight to the death?"

"Is there any room for negotiation between us?" Xia ruofei sneered and asked.

"Don't think that you've got me!" Shen tianfang said hatefully, "I've been cultivating for more than 200 years, and I still have some trump cards. Even if you can kill me, this precious array will be destroyed! At that time, it will be a lose – lose situation. "

Shen tianfang had always thought that the trap and kill array was given to him by Xia ruofei's master. It would be a great loss if such a precious array was destroyed.

What he didn't know was that Xia ruofei had designed this formation himself. If Xia ruofei wanted to and had enough time, he could make a whole new set without any cost.

Xia ruofei laughed and said, "since first elder Shen still has a trump card, then quickly use it!" Otherwise, you won't have the chance to do so later!"

With that, Xia ruofei controlled the qushuang flying sword to draw an arc again and stabbed towards Shen tianfang's head.

A few large holes had already been pierced through the light barrier by the flying swords, and its defensive power had been greatly reduced. Many of the black beams were able to drill through the holes.

However, Shen tianfang had a feeling that the black light would be very terrifying, so he would rather be stabbed by the qushuang flying sword than give the black light any chance.

Of course, the protective barrier was already on the verge of collapse, and he did not have much Yuan Qi left.

It could be said that he had no chance of turning the tables now that things had developed to this point.

Shen tianfang was both shocked and furious. He shouted as he tried to block the attack, ""Xia ruofei, don't think that you can kill me here without anyone knowing! If I die, there will be an indelible mark on your body. Any disciple of the first heaven society will be able to sense it! This is a secret skill of the first heaven society. If you kill me, you'll be hunted down by the entire heavenly sect when you get out!"

Hearing this, Xia ruofei couldn't help but be slightly stunned, and his attack was instantly stopped.

Seeing this, Shen tianfang quickly said, "Xia ruofei, there's no need for us to fight to the death!" What good would it do for you to kill me? Now that everyone was in this trial space, the most important thing was to complete the trial mission and obtain the great opportunity! I can swear to my inner demons that today's matter will end here and I will never harm you in the future. Also, I, Shen tianfang, will never reveal this to a third person!"

Shen tianfang knew that he was in a critical situation, so he did not dare to act like a senior anymore. His tone was a little humble.

However, after Xia ruofei heard this, he felt that this person should not be kept alive.

People who could yield and stretch were often the most terrifying.

Shen tianfang was one of those people who would throw away his dignity for the sake of survival. How trustworthy was his oath? Swearing on the inner demons was indeed very restrictive, but it was not completely impossible to avoid. It was difficult for others to notice that some words were used in the oath. Even if there were no loopholes in the oath, Shen tianfang would still have other ways to deal with Xia ruofei in the future.

Thinking of this, Xia ruofei's killing intent became even stronger. He no longer cared about what Shen tianfang said. He controlled the qushuang flying sword and launched an even fiercer attack on Shen tianfang.

Shen tianfang thought that he had finally convinced Xia ruofei, but he did not expect the attack to stop for only a few seconds before it came back to him again.

Shen tianfang was shocked and angry. "Xia ruofei!" He shouted. "Are you really going to do this?" "I'm not trying to scare you, but you can't hide it from the first heaven society if you kill me! Are you really prepared to fight against the entire heavenly sect by yourself? And that martial nephew of mine, Chen Xuan, you two are good friends! When that time comes, he'll definitely break off relations with you!"

Xia ruofei didn't move at all. The qushuang flying sword became faster and faster, and more and more black rays of light gathered.

Finally, the protective light screen formed by the one – time use Dharma Treasure released by Shen Tian finally shattered under the accumulation of attacks.

Shen tianfang's eyes were about to pop out of their sockets. The black rays of light were no longer blocked. They formed a dense attack array around him, blocking all his escape routes.

Puchi! Puchi! Puchi!

A series of muffled sounds rang out. At the same time, Shen tianfang's body was pierced by many black rays. Some of the rays went directly through his head, chest, and other vital parts. Blood spurted out of the wounds like a fountain.

Shen tianfang's body suddenly stiffened, and a look of disbelief appeared on his face. He still could not accept the reality that as the cultivator with the highest cultivation level and the longest cultivation time in the expedition team, he was so easily killed by a junior in the early golden core stage.

Shen tianfang could feel that his life force was dissipating rapidly. His eyes were filled with hatred as he said, "Xia ... Xia ... Ruofei ... You're in ... In big trouble! The first heaven society ... Will fight you to the death!"

Blood gushed out of Shen tianfang's mouth as he spoke, making him look even more terrifying.

After saying that, Shen tianfang's eyes lost their light, and his body fell to the ground, stirring up a cloud of dust.

Just as Shen tianfang's life was about to end, a ray of five – colored light suddenly appeared above his head. The ray of light circled around Shen tianfang's body and then shuttled through the formation.

The trap formation was still in operation, but it seemed to have no effect on the five – colored light.

The five – colored light flew around the array without restraint, as if it was looking for something.

At this moment, in the mountain and sea realm of the spirit map space, Xia ruofei, who was using his spiritual power to observe the outside world, could not help but Mutter to himself, "Shen tianfang was not bluffing just now ... Fortunately, I thought of such a wonderful method ..."

After Shen tianfang's threat, Xia ruofei was already thinking of a solution. Although Shen tianfang might be bluffing, Xia ruofei could not risk his life.

After all, once they lost the bet, it would mean that they would fight to the death with the heavenly sect and never have a peaceful day.

Hence, Xia ruofei had thought of the safest solution in the shortest amount of time. He quickly hid in the spirit map space.

Although Xia ruofei did not know how Shen tianfang's curse – like threat would come true, and he did not know if hiding in the spirit map space would work, this was the best solution he could find at the moment. After all, he and Shen tianfang would not rest until one of them was dead.

Hence, when Xia ruofei made his last attack, he entered the spirit map space with a thought.

The spirit painting had been prepared long ago and Xia ruofei had hidden it in the grass at the eye of the formation.

After entering the spirit map space, Xia ruofei immediately released his spiritual power to check the situation outside.

Sure enough, the moment Shen Tianqi and Qi Jue died, a five – colored light appeared.

Xia ruofei believed that if he was still in the outside world, the five – colored light would definitely find him and leave an inextinguishable mark on him.

In the future, when he returned to the cultivation world on earth, this mark would be like a light bulb in the dark. Anyone from the first heaven society would be able to see that he was the one who killed Shen tianfang.

At the thought of this, Xia ruofei could not help but feel a lingering fear.

Of course, he could hide in the Peach Blossom Island until he was strong enough to fight against the first heavenly sect, but that wasn't his style. Besides, he had too many connections in the mortal world, and he couldn't guarantee that the first heavenly sect wouldn't be angry and attack his friends and family in the mortal world.

After all, apart from Shen tianfang, there were two other people from the first heaven society in the team, including Chen Xuan. It was impossible for him to quietly Return to Paradise Island.

In other words, as long as he was marked, the news that Xia ruofei had killed Shen tianfang would be spread, unless he killed Chen Xuan and Xu yurou as well. Xia ruofei and Chen Xuan got along well, and he had no enmity with Xu yurou. How could he kill them?

Chapter 3343 A turn of events (1)

That was the situation that Xia ruofei was in. Shen tianfang had to die, and he could not reveal that he was the one who killed Shen tianfang.

Besides, Xia ruofei did not have much time to think about it. The trap & kill array would not be able to trap a master in the intermediate stage of the Golden elixir realm, who was infinitely close to the advanced stage of the Golden elixir realm, for long. If Xia ruofei let his guard down, the other party would probably break out of the array.

Therefore, in a short time, Xia ruofei could only think of using the spirit map space to avoid the mark that Shen tianfang mentioned.

After so many ups and downs, Xia ruofei still trusted the spirit map space.

As it turned out, the spirit map space did not disappoint him.

The five – colored ray of light formed after Shen tianfang's death was unimpeded in the trap and kill array. However, after wandering around for a long time, it could not find Xia ruofei, who was hiding in the spirit map space.

Xia ruofei's heart, which had been in his throat since the appearance of the five – colored light, finally settled down.

However, what made Xia ruofei a little depressed was that the five – colored light could not find its target and just kept wandering around the area. Xia ruofei could only hide in the spirit map space and watch the time pass.

The mission on the third level of the trial Pagoda was only one Shen beast away from completion. There was still an hour before he would break the record, so there was plenty of time. However, due to Shen tianfang's sudden attack, Xia ruofei had used more than half an hour from the beginning when he escaped, to the time when he trapped Shen tianfang with the formation, and finally, when he successfully killed him.

Time was already tight, but now that the five – colored light was wandering around like a vicious dog, Xia ruofei could only watch as time flew by.

Even if he couldn't break the record, he couldn't risk being branded and leave the spirit map space at this time.

Hence, even though Xia ruofei was extremely anxious, he could only stay in the spirit map space and pay close attention to the situation outside. He would not dare to leave before the five – colored light disappeared.

As time went by, Xia ruofei became more and more anxious.

The five – colored light was fading, but it took time for the energy to dissipate. What Xia ruofei lacked the most was time.

He waited anxiously, watching as the five – colored light faded bit by bit, and time was wasted.

Finally, when there was less than ten minutes left to the record – breaking time shown in the perceptual mirror's field of view, the five – colored radiance finally disappeared completely.

Out of caution, Xia ruofei waited for about half a minute even though he was running out of time. When his spiritual power could no longer sense any energy left, he let out a long sigh of relief and quickly left the spirit map space.

At this time, there were only nine minutes left before the recording time.

Xia ruofei carefully stepped onto the ground outside. He was relieved when he did not find anything unusual.

It seemed that the branding energy that Shen tianfang released when he died had really disappeared.

Xia ruofei could not help but smile bitterly when he saw that the countdown had become more than 8 minutes and 50 seconds in his perception.

In the beginning, he had plenty of time, but now, it had become an almost impossible task. In fact, it was just a matter of a thought from Shen tianfang.

If Shen tianfang did not have any evil intentions, they would have completed the mission smoothly and each of them would have been rewarded for breaking the record. They would have started exploring the small space on the fourth level of the Tower of Trials by now.

But now, Xia ruofei put away the trap and kill array and went to look for the Mirage beast. Even if he was lucky and found a mid – grade Mirage beast in a short time, he still needed to set up an array to lure the Mirage beast into the array and then waste time to attack the Mirage beast with the black light to kill it bit by bit. It was impossible to complete so much work in less than nine minutes.

Hence, Xia ruofei did not have much hope.

However, life was full of ups and downs. When you felt that there was no chance at all, there would often be a turn of events.

Xia ruofei initially thought that even if he was lucky, he would need to spend a few minutes to find the Mirage beast.

As it turned out, he had still underestimated his luck.

Just as Xia ruofei decided to put away the trap & kill array and was ready to make a last resort, he suddenly felt a vibration in the trap & kill array. He could not help but release his spiritual power to check it out. At the same time, he habitually looked around and also checked the field of vision of the perceptual mirror.

Just as he had turned half a circle, a line of words suddenly appeared in the field of vision of the perceptual mirror: Middle – grade Mirage beast found.

Immediately after, Xia ruofei felt the stars shift and the surrounding environment began to change drastically.

Xia ruofei was dumbfounded. He didn't even care that he had fallen into an illusion.

It was very obvious that Huanhuan had a middle – Level Shen beast. When Xia ruofei had already given up on breaking the record, it walked into the trap and kill array.

There's such an operation? Xia ruofei also felt that the development of the situation was beyond his expectations.

The power of the illusion this time was obviously much stronger than the ones created by the middle – Level Mirage beasts he had encountered before. Xia ruofei found himself on a beach. The sea a few meters away seemed to be boiling. Soon, a huge wave that was more than 100 meters tall came crashing down on the beach, and there were more waves after another.

Chapter 3344 A turn of events (2)

The Mirage beast had actually created an illusion of a super tsunami.

Obviously, this Mirage beast had fallen into the trap and kill array without warning, and in its panic, it had suddenly burst out with much more powerful energy than usual. Although the illusion it had released was not as terrifying as the one created by the dying Mirage beast at the cost of its own energy, the momentum was still very frightening.

Fortunately, Xia ruofei had already killed more than 20 intermediate – Level Mirage beasts on the third floor of the trial Pagoda. He had gained a lot of experience in dealing with illusions.

Hence, after a brief moment of shock and disbelief, Xia ruofei quickly regained his senses.

First, he skillfully formed a few hand seals and immediately activated the trap and kill array's strongest indiscriminate attack. At the same time, he tightly guarded his spiritual altar and closed his eyes, completely ignoring the huge wave that was dozens of stories high that was pressing down on him. He directly retreated to an important formation eye according to the route he remembered in two steps to ensure that he would not be accidentally injured by the black light released by the array.

Immediately after, Xia ruofei sat down cross – legged at the eye of the array. As he circulated the great Dao technique, he closed his eyes and controlled the array to continue attacking. He completely ignored the huge sound of the waves.

This was the limitation of an illusion. Once the trapped person was not brought into the situation, the power would be greatly reduced.

Xia ruofei was well aware of this, so he did not open his eyes at all. Without the important sense of sight, the other aspects of hearing, touch, and smell were also less affected. In addition, the great Dao technique was indeed very magical. When he used the technique, he unconsciously entered a mysterious state, which could shield him from the negative effects of the outside world to a large extent.

As he did not know the exact location of the Mirage beast, Xia ruofei could only focus on the direction of the vibration of the formation and the general location of the Mirage beast that he had found through the perceptual mirror. He concentrated the black light and launched a more intense attack in that direction. As for the other directions, he could not be sure if the Mirage beast had changed its position, so he could not ignore them completely. However, the attack was not as strong as the attack in the key direction.

In fact, the trap and kill array had been damaged in the battle with Shen tianfang, so its power had been reduced.

Since the Mirage beast's exact location was not clear, Xia ruofei could only attack indiscriminately, which dispersed his attack power.

As a result, such an attack was weaker than the previous 20 or so times when he killed the intermediate Mirage beast.

Xia ruofei could not find out the condition of the Mirage beast. He did not know if the Mirage beast had been hurt by the continuous attacks.

Of course, he was not completely clueless. The previous 25 sea serpent monsters had given Xia ruofei a lot of experience, so even though he was blind in the illusion, he still had a way to make a rough judgment.

Xia ruofei's judgment was based on the illusion created by the Mirage beast.

As soon as the trap & kill array was activated, Xia ruofei felt a slight vibration in the tsunami illusion.

As the attacks continued, the tsunami illusion trembled more violently. After another two minutes, Xia ruofei could clearly feel that the details of the illusion had started to become distorted. Even with his eyes open, he could feel the difference between the illusion and the real world. This meant that the illusion's confounding ability had greatly decreased.

This made Xia ruofei slightly happy. His experience told him that this situation was most likely because the Mirage beast had been injured and could no longer maintain the perfect operation of the illusion.

Xia ruofei was also very clear that the Mirage beast's body was much weaker than the Star Beast that he had dealt with before. In addition to the characteristics of the trap and kill array's Black light, it also determined that even if the Mirage beast was only scratched a little, the subsequent burning flames would definitely cause continuous damage to it.

Therefore, Xia ruofei was very confident in killing the Mirage beast.

The only thing that was restricting him was time.

The mission bar in the perceptual mirror's field of view showed that if he wanted to break the record, he had about four minutes left. If he could not deal with the Mirage beast that came to him in four minutes, then although he could still complete the mission, he would have no chance of breaking the record.

Xia ruofei had no other choice but to continue to maintain the array's maximum attack. At the same time, he kept repeating in his heart, hoping that the Shen beast would die soon.

Fortunately, as the illusion became more and more unstable, Xia ruofei did not need to spare any energy to resist the influence of the illusion.

Even though it was still a terrifying tsunami in front of him, it was already very distorted. Even if Xia ruofei could only watch the waves come crashing down, he would not be affected at all.

Therefore, he could focus on controlling the array.

At the same time, he also tried to use his spiritual power to search. If he could find a more accurate position, then all the attacks could be concentrated, and the efficiency would naturally increase a lot.

In the trap and kill array, the black light howled and wreaked havoc in the entire array space. The black light was especially dense at the places where the Shen beast might appear.

Just a dozen meters away from Xia ruofei, a blood – covered Mirage beast with many burning flames was dodging the black attacks. Its white fur was almost completely blackened by the smoke and it looked very miserable.

Its eyes were bloodshot, and it let out a shrill roar.

However, the black light didn't seem to have any signs of stopping, and it continued to attack it.

Every once in a while, a wound would appear on its body, and the wound would quickly burst into flames.

The Shen beast's injuries were getting worse.

At this moment, Xia ruofei, who was in the eye of the formation and constantly searching with his spiritual power, suddenly felt a mass of chaotic spiritual fluctuations.

At the same time, he also felt the illusion shake.

Xia ruofei's spirit was suddenly lifted. He knew that the Shen beast must have suffered another heavy blow, which was why its spiritual fluctuations were suddenly in disorder. He could detect it immediately.

With the Mirage beast's exact location, Xia ruofei did not hesitate to form hand seals to control the attack of the trap and kill array.

All of a sudden, all the black light concentrated on the spot where the Shen beast's mental energy fluctuated chaotically.

The density of the attacks had increased by more than five times.

How could the Mirage beast, which was already badly injured, resist such an overwhelming attack? not to mention, such a violent change in rhythm caught it off guard.

Therefore, almost at the same second, three black rays of light penetrated the Mirage beast's body at the same time.

The middle – Level Mirage beast let out a shrill cry and fell to the ground.

At the same time, Xia ruofei also felt the illusion around him begin to break apart.

He was overjoyed and immediately used his mental power to investigate. At the same time, he controlled more black rays to attack the Mirage beast.

It was like an endless heavenly punishment falling from the sky. The Mirage beast, which was already on its last breath, had no strength to Dodge. Its eyes were filled with despair as it watched the black light grow bigger and bigger in its vision ...

Puff, puff, puff ...

The sound of the black light piercing through the Mirage beast's body was endless. In an instant, the Mirage beast turned into a hornet's nest, and its life force was exhausted in just two to three seconds.

At this moment, Xia ruofei saw the mission countdown in his perceptual mirror stop.

The time showed that there was 1 minute and 36 seconds left, and it just froze there.

Immediately after, a line of text appeared in the field of vision of the perceptual mirror: Congratulations, you have successfully completed the trial tower's third level mission, killing 30 intermediate – Level Mirage beasts.

Chapter 3345 Harvest (1)

Xia ruofei couldn't help but let out a long sigh of relief when he saw the message. He then realized that his back was drenched in sweat.

He had been on high alert for the entire hour, and he had not relaxed for a moment.

In the beginning, he only dealt with one Mirage beast, which was the 25th intermediate level Mirage beast he had killed since he entered the third floor of the Tower of Trials. It was not a big deal to him, as he was already familiar with it.

However, after killing this intermediate – Level Shen beast, Xia ruofei had not even had the time to put away the trap and kill array. Fortunately, he had not put away the trap and kill array before he had already met Shen tianfang.

What happened next was Xia ruofei's most nervous moment. From the start, he had to run with all his might, then he used the trap and kill array to turn the situation around, and finally, he killed Shen tianfang. Then, he immediately entered the spirit map space to avoid the five – colored light. The entire process could be said to be extremely tense.

Especially when he was waiting for the five – colored light to dissipate in the spirit map space, Xia ruofei could only watch helplessly as there was only one Shen beast left in the task that he had not killed. The time to break the record was getting shorter and shorter while he could only hide in the space and do nothing. That feeling was really tormenting.

When the five – colored light finally dissipated, he only had less than nine minutes left to break the record.

Xia ruofei had almost given up on trying to break the record, but in the end, there was a glimmer of hope and a middle – Level Shen beast jumped into the trap and kill array.

In the end, Xia ruofei used the trap and kill array and successfully killed the Shen beast when there was not much time left to break the record. In the end, he achieved his established goal without any danger.

Xia ruofei, who had relaxed all of a sudden, felt as if he had lost all his strength.

He took out a chair from the spirit map space, sat down on it, and slowly closed his eyes.

In fact, Xia ruofei did not use up much of his energy during the whole process. However, he had been very tense. Now that he was completely relaxed, he felt weak all over.

After a long while, Xia ruofei let out a long breath and stood up. He kept the chair into the spirit map space.

He didn't hurry to put away the trap and kill array. What happened to Jian Jia just now had left a shadow in his heart. Only by leaving the trap and kill array here would he feel a little safer.

Xia ruofei shuttled through the array skillfully. The trap and kill array did not affect him at all. He soon arrived beside Shen tianfang's body.

Shen tianfang's entire body was dark, and his face still maintained the look of unwillingness and ferocity from before his death. His eyes were wide open, staring at the sky angrily, but they had long lost their light. Part of his body had been carbonized by the flames. He had been tall when he was alive, and his body was twisted in an irregular way.

Xia ruofei looked at Shen tianfang's dead body and sighed.

He did not want to kill Shen tianfang, but Shen tianfang had the intention to kill him. There was no way to turn things around.

It was either Shen Tian or him who died.

The cruelty of the world of cultivation was once again displayed in front of Xia ruofei.

Xia ruofei's feelings were very complicated. At least, he was not happy at all. Looking at Shen tianfang's body, he felt a faint sorrow in his heart.

However, Xia ruofei was not a pedantic person. It was not the first time he had killed someone. He was moved but he did not feel any fear or discomfort.

After a moment of silence, Xia ruofei walked to Shen tianfang's body and started searching.

Shen tianfang's face was ferocious, and his body was as black as charcoal. His eyes were also distorted. An ordinary person would feel fear at the sight of such a corpse, but Xia ruofei did not feel any fear.

He had seen more than one corpse that was much more terrifying than this.

In order to not miss any details, Xia ruofei bent down completely, his face almost touching Shen tianfang's ferocious face. His heart was not moved at all.

Soon, Xia ruofei found a belt on Shen tianfang's body.

In fact, most of Shen tianfang's clothes and personal belongings had been burned. The only things that were intact were his close – fitting clothes and belt.

Xia ruofei knew that the undergarments must be a treasure.

However, he had no interest in Shen tianfang's clothes. Besides, the grade of this magic treasure must not be high. Although the burning flames did not hurt it much, the black light could easily penetrate it. This magic treasure was already badly damaged and had no value at all.

As for the belt, Xia ruofei was sure that it was Shen tianfang's storage treasure.

He held the belt in his hand and used his mental energy to scan it.

As expected, he immediately sensed that there was a rather large space inside.

Since Shen tianfang was dead, the storage belt had no owner.

Xia ruofei easily recognized the belt as his owner.

Then, he used his mind power to check the storage space and the situation inside was presented to Xia ruofei.

The storage belt had quite a lot of space. It was almost as big as the storage rings that Xia ruofei had given to Ling Qingxue and Song Wei.

Shen tianfang was the number two master of the first heaven society, a cultivator who could break through to the late – Stage of the Golden core realm at any time. Such a storage belt suited his status.

Chapter 3346 Harvest (2)

However, the items in Shen Tian's storage belt were not satisfactory.

There were 10000 spiritual stones, 100 spiritual crystals, and only 9 origin crystals in the storage belt.

Compared to Xia ruofei's wealth, this amount of wealth was pitifully little. He activated the trap and kill array with all his might and killed a total of 26 Shen beasts. He even used the trap and kill array to kill Shen tianfang. Most of the time, he activated the attack power of the trap and kill array to the maximum. On the third level of the trial Pagoda, the array alone consumed dozens of spiritual crystals.

If it was Shen tianfang, his net worth would be reduced by half.

Under normal circumstances, cultivators were used to carrying all their belongings with them. At least, the most important and precious treasures would definitely be carried with them. This was because storage Dharma Treasures were very convenient. No matter where it was hidden, it was definitely not as safe as carrying it with them. Of course, if one died, like what Shen tianfang had done, then all their belongings would naturally belong to someone else. But he was already dead, who would care about what happened after he died? Cultivators were definitely mentally prepared to die an unnatural death.

Although the spiritual crystals and spiritual stones were not much, it was better than nothing. Xia ruofei naturally accepted them with a smile. He directly transferred all the spiritual crystals and spiritual stones into the spirit map space and put them together with the wealth he had accumulated.

About 10,000 spiritual stones were placed in the small mountain of spiritual stones in Xia ruofei's medium space. The spiritual stone Mountain didn't seem to have changed much and still looked as big as before.

From this, it could be seen how insignificant this small amount of spiritual stones was compared to Xia ruofei's total wealth.

In Shen tianfang's storage belt, besides spiritual crystals and spiritual stones, there were also a few cultivation techniques. They should be some of the more powerful cultivation techniques of the first heaven society. However, Xia ruofei had a large number of cultivation classics in the Jade talisman of inheritance, many of which had been lost in the modern cultivation world, so he was not interested in the first heaven society's cultivation techniques.

After he took it out, he casually flipped through it and found that these cultivation techniques could only be considered ordinary. He simply put his hands together, and a flame appeared between his palms. These cultivation techniques were directly burned clean.

However, after burning the technique, Xia ruofei couldn't help but raise his eyebrows.

Because he felt that there was something in his palm.

He put away the flame and spread out his palm to take a look. He found that several cultivation methods had been completely turned to ashes, but there was something like a golden foil left in the center of his palm.

This piece of golden foil was very, very thin, and looked very fragile.

However, the fire had no effect on it. Xia ruofei tried to tear it apart with a little more force but realized that it could not be torn at all.

Xia ruofei increased his strength, but the Golden foil did not move at all. There was no sign of it being torn.

Xia ruofei couldn't help but become very interested in it.

He held the gold foil in front of his eyes and looked at it carefully. The thickness of this thin gold foil was only one – tenth of a millimeter thick. He did not know what material it was made of. With Xia ruofei's strength, if it was made of ordinary metal, it would have been torn apart easily.

In addition, there were some faint patterns on the Golden foil. Xia ruofei looked at it briefly and did not understand the meaning behind it, but he felt that it was quite mysterious.

Xia ruofei knew that this piece of golden foil was not simple.

He even felt that even Shen tianfang himself did not know that such a treasure was hidden in one of the cultivation techniques. Otherwise, Shen tianfang would have taken it out and studied it day and night, instead of letting it be sandwiched between the pages of the cultivation technique.

However, Xia ruofei couldn't focus on the secrets of the Golden foil now. After all, he still needed to get to the fourth floor of the trial Pagoda as soon as possible, especially to find a way to meet up with Ling Qingxue.

Therefore, after Xia ruofei's simple study was fruitless, he solemnly kept the gold foil in the stone chamber in the mountain and sea realm of the spirit map space. He would keep all the more important

things in the stone chamber. Other than him, the owner of the spirit map space, no one else, not even Xia Qing, could enter.

After Shen Tian had dealt with the cultivation technique and spirit stones, the only things left in his storage belt were some miscellaneous items.

Some of Shen Tian's clothes and daily necessities were simply checked by Xia ruofei before he burned them.

After cleaning up, there weren't many things left in the storage belt.

One of them was a black ball, which piqued Xia ruofei's interest.

This was because Shen tianfang had taken out a black ball like this when he was trapped. After he threw it out, it exploded violently and began to burn violently, producing a terrifying temperature of several thousand degrees. It had caused considerable damage to the confinement killing array.

When Shen tianfang was trapped, this black ball should have been one of his trump cards. Unfortunately, Shen tianfang had used up two black balls in the formation, and there was only one left in the storage belt.

This was probably the last of Shen tianfang's stock.

Xia ruofei muttered to himself, "this is good stuff!" Unfortunately, there's only one left. I don't know what this thing is called ..."

If one were to suddenly throw out such a black ball during an intense battle, even an intermediate golden core cultivator would be caught off guard and would definitely suffer a great loss.

After all, the black ball's explosion had a very large damage range.

Xia ruofei kept the black ball and checked the rest of the items.

There were not many good things left. They were all ordinary Dharma Treasures with a lot of patterns. They should have been accumulated by Shen tianfang over the years.

In fact, such an ordinary Dharma Treasure was no longer useful to Shen tianfang. He must have put it in his storage Dharma Treasure casually, and sometimes he would give it to his disciples.

Naturally, Xia ruofei was not interested in these things. He was here to destroy the corpse. The people of the first heaven society might know that these things were placed by Shen Tian, so he could not keep them.

Xia Ruofei used the qushuang flying sword to cut all the items into pieces. After destroying the array, he set fire to it and burned it clean. Only some of the more special materials were indestructible. Xia ruofei kept all of them in the spirit map space. He was going to find a place with no one around, such as the depths of the ocean, and then throw them away.

In fact, he also knew that the chances of other people entering this trial space were very low. The chances were even lower if it was someone from the first heaven society. However, he had always been

very cautious and didn't want to leave behind any flaws. Therefore, he was very careful when dealing with it.

Xia ruofei then destroyed the storage belt.

He had a deep understanding of space arrays, so it didn't take him much effort to destroy the connection between the storage belt and the small space. The next step was to use the qushuang flying sword to completely destroy and burn the belt.

In the end, Xia ruofei also felt that it was a little tiring to deal with it this way, so he simply activated the attack function of the trap and kill array. Black rays suddenly fell from the sky and directly hit Shen tianfang's body. Soon, the raging flames started burning again.

Under Xia ruofei's careful control, the fire burned thoroughly this time.

In a short while, Shen tianfang's body was burned to ashes. Xia ruofei waved his hand and the ashes were blown away by the wind. Shen tianfang had completely disappeared from the world.

After Xia ruofei had cleaned up the traces, he used his spiritual power to check the surroundings before he carefully kept the trap and kill array.

In the past few battles, the trap & kill array had been damaged quite a bit. Xia ruofei had to find time to replace a few of the array materials. Otherwise, the power of the array would be reduced by a lot. During the mission in the two levels of the trial space, Xia ruofei found that the trap & kill array was very useful. He guessed that it might be useful in the next mission.

After that, Xia ruofei turned his attention to the perceptual mirror.

The entrance to the Tower of Trials "fourth floor had indeed been opened, forming an arrow in the field of vision of the perceptual mirror.

At this moment, new content began to appear in the mission prompt. Xia ruofei's spirit was lifted and he looked at it with hope.

Chapter 3347 Choosing_1 again

As Xia ruofei had expected, the notification from the perceptual mirror was the reward for completing the third level of the Tower of Trials.

When he saw this line of text, Xia ruofei could not help but be stunned.

Because it said, "congratulations on breaking the record for the third level of the Tower of Trials, you will receive an additional reward." The reward for breaking the record was to choose one out of two. The first reward was to upgrade the quality of the Suan ni energy storage bead by one grade and five hundred origin crystals. The second reward, Yingying, can randomly teleport a companion to the same trial space on the fourth floor of the Tower of Trials. In addition, you will not be separated in the subsequent trial missions, unless one or two of you die.

Xia ruofei didn't know whether to laugh or cry. The expert who designed this mission was really persistent!

The rewards for breaking the record on the third floor and the second floor were almost the same.

Of course, there was a difference. Compared to the reward for breaking the record on the second level of the trial Pagoda, if Xia ruofei had chosen the first reward, he would have received an additional 500 crystals. If Xia ruofei chose the second reward, it would also ensure that his companion, who was sent to the same space, would not be separated from him in the subsequent trial missions. In other words, if they successfully completed the mission and entered the fifth level of the Tower of Trials, they would still be in the same small space.

Xia ruofei couldn't help but fall into deep thought.

Obviously, the condition of upgrading the elemental storage Pearl by one level was very attractive. Xia ruofei was already very tempted during the last trial mission. This time, he had even increased the price by 500 spiritual crystals. Naturally, it was even more attractive.

As for the reward of being teleported to the same trial space as his companion, it was also increased.

From this description, it could be seen that even if Xia ruofei was randomly teleported to the same place as Ling Qingxue, they would still be separated after they reached the fourth level of the trial Pagoda.

As for the reward this time, if he got the chance to be with Ling Qingxue, then the two of them would be able to be together for the rest of the trials.

Without a doubt, this was a great temptation for Xia ruofei.

However, it was still the same problem. The probability of him being sent to the same training space as Ling Qingxue was not high.

Even though Shen tianfang was dead, the probability did not increase much. It only increased from one – eighth to one – seventh.

If Xia ruofei chose this reward, it would mean that he would have to bet on the one in seven chance of sending anyone other than Ling Qingxue to the same trial space as him. It would be meaningless to him and might even bring some trouble, just like Shen tianfang this time.

Should he choose the reward that he could see, or should he try his luck again?

Xia ruofei didn't dwell on this question for too long. He quickly made his decision and continued to bet on the second reward.

Xia ruofei was never a person who believed in heresy. Furthermore, his worry and concern for Ling Qingxue grew as time passed. After the completion of the previous trial mission, Xia ruofei had already chosen the second reward. Now, it was only an increase of 500 origin crystals. Even though this amount of origin crystals was very attractive to Xia ruofei, it was still not enough to make him change his mind.

Not to mention that the second reward had also been increased. Not only did it increase the probability slightly, but more importantly, if he really won the bet, he and Ling Qingxue would not have to be separated in this secret realm.

This point alone had already tipped the scales in Xia ruofei's heart. Hence, he only needed to think for a few seconds before he made up his mind.

He no longer considered the problem of choice, and his gaze fell on the regular mission completion reward.

Xia ruofei's reward for completing the third level of the Tower of Trials was a set of illusionary array diagrams.

Obviously, the third level of the trial Pagoda was related to the illusionary realm. Once one entered the trial space, one would be directly sent to the trial of the illusionary realm. In this space, the Mirage beasts that Xia ruofei had to kill were also good at illusionary realm attacks.

The reward for completing the mission was naturally a set of illusory formation diagrams.

Of course, this was only an array diagram, not an array flag that could be used directly.

Without a certain level of array Dao, one might not even be able to understand the array diagram, let alone set up an illusion. Even if they could barely understand the array diagram, some people might not be able to set up an illusion due to various reasons, such as insufficient materials or insufficient carving techniques.

No matter what, Xia ruofei was satisfied with the mission reward.

He was quite confident in his array Dao level. Moreover, he had a large amount of array materials stored in the space, so the problem of insufficient materials should not exist.

Besides, this mission only had one reward. There was no choice between the two. Xia ruofei would not give up on this reward.

All the rewards were not given directly. Xia ruofei was getting more and more familiar with the missions in the Tower of Trials.

Hence, Xia ruofei was not in a hurry. He took out the spirit map scroll and found a secret place to hide it. Then, he entered the spirit map space.

He was within the range of the time array flag at the Archean realm. He was meditating and cultivating while recovering his state.

Chapter 3348 Choosing_2 again

After adjusting his state, Xia ruofei came out of the spirit map space and followed the arrow in the perceptual mirror's field of vision. He began to move towards the entrance to the fourth level of the trial tower.

As they moved forward, Xia ruofei was also very alert.

However, perhaps it was because the mission had been completed, the Mirage beasts had retreated. Anyway, Xia ruofei did not encounter any danger along the way.

He only heaved a sigh of relief when he saw a green stone gate in the middle of a wasteland.

The green stone door was right in front of the arrow in the vision of the perceptual mirror. Xia ruofei knew that this should be the passage to the fourth level of the trial Pagoda.

This was the most similar door that Xia ruofei had seen.

He took a deep breath and walked to the front of the bluestone door. The door was already shrouded in a white fog, and he could only vaguely see the outline of the bluestone door frame.

When he got closer, he saw a bronze gate.

On the surface of the bronze door, there was a concave position, and on top of it was a thin book.

Xia ruofei walked over and picked it up. It was the misty illusory formation that was mentioned in the vision of the perceptual mirror.

Xia ruofei picked up the formation map and studied it briefly. He realized that they had studied it very thoroughly. The method of setting up the illusion was also very advanced. The principles were also explained in simple terms. Therefore, even though he had never come into contact with a pure illusion formation and had only skimmed through it quickly, he still felt that he had gained a lot.

Xia ruofei thought for a while and felt that he should prepare the materials for the illusory formation. After all, he didn't know what kind of difficulties he would encounter when he entered the fourth level of the Tower of Trials. It would definitely be helpful for him to master an illusion array.

Hence, even though Xia ruofei knew that he could enter the small space on the fourth level of the Tower of Trials after crossing the bronze door, he still decided to stay on the third level. He would only go to the fourth level after he had prepared the materials according to the diagram and successfully set up the illusion array.

After Xia ruofei summoned the spirit map, he first found a secret place to hide the scroll. He even put on some camouflage outside before entering the spirit map space.

He directly arrived at the Archean realm and entered the effective range of the time array flags.

With the difference in time flow of a thousand times, Xia ruofei did not have to worry.

He sat in the effective range of the time array flag and started to study this illusion array diagram.

Xia ruofei spent a day and a night to understand the basic principles of the formation.

The diagram explained in detail what materials were needed for this thousand illusion formation, how to deal with them, how to set them up, and so on.

If one's mental energy was strong enough, even if some powerful cultivators did not know much about arrays, they could still process the materials accordingly. Xia ruofei could do the same.

However, to be able to understand the basic principles of the array in such a short time was not just knowing how it was, but basically knowing why it was so.

In this way, when processing the materials of the formation and setting up the formation, it would be more targeted, and the success rate would naturally increase a lot.

This was what it meant to sharpen a knife without delaying the work of cutting wood.

As expected, Xia ruofei's one day and one night was not wasted. He started to process the materials needed for the formation. Although they were common materials that he often processed, the formation patterns were brand new.

And he still maintained a very high success rate, spending about a day or so to prepare the materials for the array, and the materials wasted because of the mistake, the total consumption was less than 10%.

If an array master were to see such a success rate, their jaws would definitely drop. Basically, even a mature array master would find it difficult to achieve such a success rate after making it many times and being extremely familiar with it.

After Xia ruofei had prepared the materials, he took a short break and adjusted his state of mind. Then, he left the spirit map space and brought the materials back to the small space on the third level of the Tower of Trials.

He followed the instructions of the formation diagram and started to set up the thousand illusionary formation.

The complexity of this formation was slightly lower than that of the deathtrap array. However, Xia ruofei had set up deathtrap arrays many times and was already very familiar with it. This thousand illusionary array was still at the theoretical level, so it was inevitable that he was a little rusty in setting it up.

However, because he had a deep understanding of the principles of the array, he was able to successfully set it up despite the time he spent.

Xia ruofei thought for a while and had an idea.

At that moment, the free laborers who were working in the herb gardens and fields of the mountain and sea realm in the spirit map space suddenly realized that one of their companions had disappeared into thin air. They immediately cried out in fear.

Xia Qing appeared in front of them and said indifferently, "Everyone, don't make a fuss. Bason was just called by his master to complete other tasks. You guys continue to work!"

When Xia ruofei took Bason out of the spirit map space, he also informed Xia Qing, so Xia Qing came out in time to stop everyone's restlessness.

Bason, nicknamed wizard, was the head of the shadow team and had a high status in the assassin organization.

However, after such a long period of "reform through labor", he had long been honest and resigned to his fate. He just wanted to perform well in exchange for more points so that he could live a little better.

Today, he was burying his head in the field when he suddenly felt a strong force coming at him. His entire body was bound by an invisible force, and he could not even move a finger.

Immediately after, he felt the world spin around him, and he couldn't help but scream in fear.

The next moment, he realized that he was in a very strange environment. Then, he saw Xia ruofei standing not far away and his scream stopped.

Ong trembled and shouted in broken Chinese, ""M – Master ... I've always been honest and serious. I wonder what I ..."

Xia ruofei frowned and interrupted Ong, ""I transferred you to the outside world today because I have a mission for you. As long as you complete it well, I will ask Xia Qing to give you an additional 100 points!"

Ong's eyes lit up. Normally, he could only earn a few points in a day, but a mission issued by his master actually gave him a hundred points as a reward. This was a great deal!

In fact, Xia ruofei didn't know much about the details of the points system set by Xia Qing. The 100 points reward was just a casual remark. Anyway, the points were precious to free labor, but they were not worth mentioning in Xia ruofei's eyes. They were nothing more than some cheap supplies, whether it was cigarettes, white wine, or snacks. Even if it was to buy a car full of cars, it was not a big deal for Xia ruofei and he could buy them at anytime.

Bason said in broken Chinese, ""Master, please give me your orders! This little one will definitely do my best to complete it!"

Xia ruofei nodded and pointed at the area of the illusion. ""Go to that position!"

Bason was stunned for a moment before he nodded and said, "Yes! Master!"

Ong had no idea what Xia ruofei was up to, but the 100 points were like a shot in the arm. He was full of enthusiasm and would do whatever Xia ruofei said.

How many cigarettes and beer could one get with 100 points? Just thinking about it made him happy!

After hearing Xia ruofei's instructions, Ong strode to the spot Xia ruofei had pointed out and looked at Xia ruofei enthusiastically. ""Master, do you have any other orders?"

"Just stand there and don't move!" Xia ruofei said indifferently.

"Alright ..." Bason was confused as he nodded.

Xia ruofei made a hand seal and raised his hand to hit the core of the formation. Suddenly, the thousand illusion formation was activated.

Chapter 3349 Thousand illusionary array (1)

Bason stood in the array in a daze. The moment the thousand illusion array was activated, Bason suddenly felt his vision turn black. The clear sky turned into a pitch black environment.

Bason screamed in fear.

It was really pitch black. Ong put his hand in front of his eyes, but he couldn't see a single trace.

Ong thought he was blind and shouted in fear, ""Master, please spare me! Master, please spare me! I don't want to be blind ..."

As soon as he finished speaking, the environment in front of him immediately changed again.

Bason found himself standing under the bright sun. There was green grass under his feet. He could even smell the fragrance of the grass. Everything was peaceful and warm.

A few seconds later, Bason's vision blurred and the environment changed again. This time, it was a World of Ice and snow. He was only wearing a thin shirt. He shivered from the cold and his teeth chattered.

In a short while, ice had appeared on his eyebrows, and his whole body trembled and curled into a ball. If this went on any longer, he would probably freeze to death here.

Fortunately, the ice and snow environment only lasted for a while. Soon, he was surprised to find that the boundless ice field had turned into a tropical jungle. There was even a hot spring in the jungle, gurgling water and steaming hot air.

The tropical forest environment was maintained for more than ten seconds, and then a new environment appeared ...

Ong was completely dumbfounded. How could the surrounding environment change so much? It was like a movie.

Besides, how could a movie be so real? It was like he was in this world. Those so – called 3D and 4D movies simply couldn't be compared to it.

Ong didn't know what had happened, but he knew it had something to do with Xia ruofei. No matter how much pain and panic he felt, he only dared to scream and not curse.

To an ordinary person, this was indeed an unbearable torture.

After more than a dozen scenes, just as Bason was about to have a mental breakdown, everything finally came to an end.

Bassoon's vision blurred, and he was back in his original environment. Xia ruofei was standing not far away from him with an indifferent expression. The bright sun shone on him, making him feel exceptionally warm.

Although he was just standing in the same place, almost motionless, it was as if he had just run a ten – kilometer cross – country run with a heavy load. His whole body was soaked in sweat, as if he had been fished out of the water.

Xia ruofei beckoned to Ong. Ong felt like he had been granted Amnesty. He jogged to Xia ruofei and said weakly, "Master, do you have any orders?"

Xia ruofei said indifferently, "you've basically completed your task. There's only one more task left. I want you to tell me what you've just experienced in detail. You're not allowed to miss out on any details!"

A trace of fear flashed in Bason's eyes. Everything that he had just experienced was like a nightmare. He could not help but tremble when he recalled it.

However, since it was Xia ruofei's request, he did not dare to disobey. He quickly nodded and said, "Yes! Master! This subordinate just ..."

Bason suppressed his fear and described the scene to Xia ruofei in detail.

“Master, that’s the general situation,” Bason said. “If there’s anything else you want to know, just ask!”

Xia ruofei nodded and said, “not bad!” Bason, you can go back. Of course, if you want to stay here, you can. After all, you have helped me a lot just now, so I can set you free. If you go back, I’ll ask Xia Qing to give you an extra hundred points.”

A hint of struggle flashed in Bason’s eyes. He had been locked up in the spirit map space to do hard labor every day. That kind of life had lasted for two years. It was impossible for him to not want freedom.

However, he had been a top – tier assassin before. Although Xia ruofei’s tone was calm, he could hear a trace of killing intent.

Therefore, Ong only hesitated for a moment before saying, “”Master, I’m willing to go back and serve you for the rest of my life! This is your subordinate’s honor!”

Xia ruofei’s eyes flashed with satisfaction. He nodded and said, “”Alright, since you’ve chosen to go back, I’ll send you back. Don’t worry, the 100 points I promised you, Xia Qing will immediately honor it.”

If Bason had chosen to be free, Xia ruofei would not have killed him. He would have kept his promise and let Bason stay.

However, Bason’s fate would be even worse if he did that.

This was because this place was essentially the same as the spirit map space. They were both small spaces. Even if Bason stayed here, he would not be able to return to the mortal world.

Moreover, this was the small trial space, where there were Mirage beasts of all levels. Bason was an ordinary person. He would definitely die if he encountered a Mirage beast.

Even if he was lucky enough not to encounter the Mirage beast, he would soon starve to death in such a small space.

If he returned to the spirit map space, although he would lose his freedom and still have to work every day, at least his life would not be threatened. Even if the days were difficult, he would at least be able to survive.

Xia ruofei also wanted to test Ong.

Fortunately, Bason was tactful. He did not know that he had saved his life.

After hearing Xia ruofei’s words, Ong quickly said, “”Thank you, master! Thank you, master!”

Chapter 3350 Thousand illusionary array (2)

Bassoon was overwhelmed with emotions. A hundred points were precious in the eyes of the free labor in the spirit map space. However, when he thought about the terrifying scene he had just experienced, he felt that a hundred points didn’t seem like much.

If he had known beforehand, Bason wouldn’t have gone through such a terrifying experience just for 100 points.

Of course, he had no other choice.

Therefore, he was still very happy to be able to earn 100 points.

With so many points, he would be able to live a carefree life for a long time.

Even when he didn't want to work, he could use his points to exchange for a day or two off.

It was just that it was very expensive to exchange points for rest time. Generally speaking, they were not willing to work so extravagantly. Although it was tiring, they would get used to it. Points could be exchanged for many good things, so how could they be used casually?

With a wave of his hand, Xia ruofei sent basong into the mountain and sea realm of the spirit map space. At the same time, he transmitted a message to Xia Qing, who was in the space, to give basong an additional 100 points.

The free laborers used their points to exchange for the most things, such as cigarettes, alcohol, and snacks. To Xia ruofei, these things were naturally worthless. He could buy a lot of them with a few tens of thousands of Yuan and store them in the space for everyone to exchange for.

After sending Bason into the medium, Xia ruofei finally looked satisfied.

The test of the thousand illusionary formation had clearly been very successful.

Of course, Xia ruofei did not try out all the functions of the illusory formation.

After all, Bason was just an ordinary person. Many of the powerful effects of the illusion array were hard to resist even for cultivators.

For example, even cultivators would be affected by scenes like lava or volcanoes. They might even fall into an illusion and never be able to escape.

Once a person encountered a natural disaster like a volcano eruption and died in the illusionary realm, he would actually die. His spirit body would be destroyed, and his physical body would naturally not be able to survive.

If such a scene was used on Bason, he would definitely die.

Xia ruofei only wanted to test the array, not bassoon's life. Hence, he didn't even try the scenes that were obviously beyond his tolerance.

However, since there was no problem with those simple scenes, there would basically be no problem with the complicated and powerful scenes. If there were any loopholes in the array, they would be exposed after trying a dozen scenarios.

Hence, Xia ruofei could finally confirm that his thousand illusion formation was a success.

Xia ruofei kept the materials for the formation one by one. The next thing was to prepare to enter the fourth level of the trial Pagoda.

Xia ruofei kept the materials and diagram of the thousand illusion array into the spirit map space and then looked at the huge bronze door.

Only the huge door frame was left behind. There were exquisite embossed on the door frame. Xia ruofei took a closer look and realized that there were all kinds of giant beasts on the carvings. He did not recognize any of them. However, he soon realized that star beasts and sea serpent beasts were among them.

Xia ruofei couldn't help but feel curious. He silently memorized the appearance of the other giant beasts that he didn't know.

In the middle of the door was that familiar light screen.

Five – colored rays of light swirled in the light curtain, looking very beautiful.

Similarly, even if he stared at the light screen without blinking, he still couldn't see any useful information. It was the same for his mind power, which couldn't penetrate the light screen at all.

Xia ruofei was just trying and did not have any high hopes.

He looked at the five – colored light screen between the bronze door frame, took a deep breath, and then stepped through the door ...

After the familiar dizziness, Xia ruofei, who was already on guard, stepped into a strange land.

He had never believed in gods or Buddha, but the moment he stepped through the door, he had been praying in his heart that he could randomly put Ling Qingxue in the same small space as him.

This time, Xia ruofei's desire was even stronger because the mission reward had clearly stated that the companions who were randomly assigned to the same place would also be with him in the subsequent trial missions on the other levels.

If Ling Qingxue had been randomly chosen, then the two of them would never have been separated again.

Xia ruofei was on full alert. As soon as he entered the fourth level of the trial Pagoda, he immediately released his spiritual power to investigate. He looked around, trying to figure out the surrounding environment as soon as possible.

This was a boundless wasteland.

There was almost no grass on the ground, only a few plants similar to camel's thorn grew in the gravel. Their numbers were very small, and they could not cover the entire ground at all. They were scattered here and there like fresh cow leather, adding a sense of desolation to the wilderness.

The gravel on the ground had some white particles. It seemed that this was saline – alkali land, so there were no other plants growing except for the plants similar to camel's thorn.

Of course, Xia ruofei was also very clear that this was not the real outside world, but a small space similar to the spirit map space. Therefore, this desolate environment was deliberately set up by the Almighty who created this trial Pagoda.

As for the purpose of the Almighty, Xia ruofei had no idea.
