Chapter 3411: Finishing everything in one battle.i

Before the goldthread nether snake could react, the shrill sound of something breaking through the air could be heard.

Hundreds of spatial wind blades suddenly appeared in this small space, so dense that they almost filled the entire space.

The goldthread nether snake's mind trembled as it looked at the spatial wind blades. It was stunned for a moment because it didn't know how to dodge them.

In the blink of an eye, several spatial wind blades had struck the snake's body, causing its scales to fly and its skin to split open.

The golden thread nether snake let out a violent hiss. Its huge body writhed wildly, and it charged toward the dimensional membrane without any regard for anything else.

It had already realized that it was at the end of the road. The spatial cracks that had appeared silently had already made it very difficult to cope with. The appearance of the spatial wind blades had made the situation worse. At this moment, it could not care so much. There was only one thought in its mind, and that was to leave this place at all costs. Even if it was badly injured, it was better than being cut into pieces by the spatial wind blades.

After the goldthread nether snake let down its guard, the damage it received was naturally even greater.

In just a few breaths of time, dozens of spatial wind blades hit its body. In addition, it was very unlucky to hit its head directly into a dark spatial crack. The spatial crack had torn a terrible hole in the snake's belly, and even its internal organs were exposed.

The golden thread nether snake was no longer as imposing as it was when it was chasing after Xia ruofei. Its body was covered in wounds of various sizes and was dripping with blood. It looked extremely miserable.

The goldthread nether snake's eyes were filled with despair as it struggled to break free from the spatial cage. It was still trapped in another spatial cage. The density of the wind blades and spatial cracks in this spatial cage was much higher than the previous one.

The goldthread nether snake dodged with all its might, but the spatial wind blades still hit it.

The black spatial rifts that appeared randomly were even more difficult to guard against. Every time it hit a spatial Rift, or the spatial Rift appeared directly beside it, it would receive heavy damage.

No matter how strong the goldthread nether snake's recovery ability was, it would not be able to recover from such a continuous and concentrated attack.

It felt that its body was getting heavier and heavier. Because of its injuries and blood loss, its ability to move continued to decline, and even its consciousness began to blur.

The goldthread nether snake let out an unwilling roar.

It was indeed very unwilling to give up. At first, when Xia ruofei and Ling Qingxue appeared in front of it, they were just two weak little fellows who had delivered themselves to its door. However, the situation took a sharp turn. It did not even manage to touch Xia ruofei's hair, let alone a direct confrontation. It was directly trapped in this terrifying Space Array. Then, in a very short time, it was injured one after another. Now, it was almost in complete despair.

The nine turn space splitting formation's attack continued for more than ten minutes. The goldthread nether snake's extremely tough body was finally at its limits.

Its huge body was curled up into a coil, and its triangular head was trying its best to raise up, but it drooped down again and again under the continuous attack of the spatial wind blades.

In the end, a pitch – Black spatial crack silently appeared on the snake's head.

The snake's consciousness was starting to blur. How could it Dodge? The spatial crack tore the snake's head apart, revealing the bones beneath its skin.

The location of the tear was exactly seven inches away from the three golden threads.

This was the snake's weakest and most fatal spot.

The goldthread nether snake's body trembled, and its head rose. Then, life began to drain from its emotionless eyes, and its head dropped.

The goldthread nether snake's massive body twitched a few times, and then it became completely silent.

Outside the nine turn space – splitting formation, Xia ruofei was naturally paying close attention to goldthread nether snake's condition. He immediately realized that the fatal attack had been completed.

However, Xia ruofei did not dare to let his guard down. He was worried that the goldthread nether snake might have faked its death!

So he continued to control the formation, using the spatial wind blades to attack the goldthread nether snake. The random spatial cracks would occasionally appear on the snake's body, and naturally, they would quickly leave wounds of various sizes on it.

Even after receiving such an injury, the goldthread nether snake's body remained motionless.

Only then did Xia ruofei relax a little. He knew that if the goldthread nether snake had faked its death, it would not have been able to stay still under that attack. Even if it was a conditioned reflex, it would have moved.

The fact that the goldthread nether snake wasn't moving at all could only mean one thing – it was completely dead.

Xia ruofei heaved a long sigh of relief. He made a hand seal and stopped the attack of the array.

However, he did not immediately go over to remove the array. Instead, he stood quietly outside the array, feeling as if he was in a dream.

A venomous golden thread nether snake at the peak of the late golden core stage had been killed by him just like that? Xia ruofei felt a strong sense of surrealism..

Chapter 3412: Finishing everything in one stroke (2)

In terms of strength, the goldthread nether snake was much more powerful than Shen tianfang. It was even stronger than Chen Xuan's father, Chen Nanfeng. In addition, it was highly poisonous. If they were to fight head – on, Xia ruofei would not be its opponent.

However, with the help of the formation, Xia ruofei had killed the golden thread nether snake, which was at the peak of the late golden core stage, without even coming into direct contact with it. This sounded like a fantasy.

After a long while, Xia ruofei asked, "senior Yuntai, I... Successfully killed the goldthread nether snake?"

The tone of layman Yuntai was also very complicated, "Of course! Although I was unable to see what was happening inside the formation due to the formation's shielding, since there was no more movement, it was likely that he had already been killed. Based on my understanding of the goldthread nether snake, it won't give up as long as it's still breathing!"

Xia ruofei nodded. "That's true. It doesn't have any chance of survival. I just can't believe it. Haha..."

Layman Yuntai couldn't see the situation inside the formation, but Xia ruofei could see it clearly.

Scholar Yuntai sighed and said, "this old man also can't believe that a golden thread nether snake was killed by an early gold core cultivator like you!" And it was so easy..."

"Senior Yuntai, it's all thanks to your guidance!" Xia ruofei smiled and said, "I can't think of a way to deal with it with a Space Array on my own!"

With that, Xia ruofei waved his hand to remove the formation and carefully kept the materials.

He now had a lot of materials for the array, all ready – made. He could take them out at any time when he needed them, and he could set them up with a wave of his hand.

Xia ruofei also felt that if the formation was used well, it could really be very effective.

However, formation path was profound and vast. If he wanted to achieve results in formation path, he still needed to continue exploring.

As soon as the nine turn space splitting formation was removed, the goldthread nether snake's massive body was revealed. Its body was covered in countless wounds of various sizes, and it was a horrendous sight.

After the death of the goldthread nether snake, its body naturally could not recover on its own, so the wounds remained.

Xia ruofei recalled that Ling Qingxue was still in the small space of the mountain and sea realm. Now that he had confirmed that the goldthread nether snake had been killed, he quickly moved Ling Qingxue out of the space.

Ling Qingxue had been in a small space within the mountain and sea realm the entire time. She had been surrounded by chaotic mist, and she could only move in a small area of a few meters.

From the golden thread nether snake's sudden appearance to Xia ruofei's killing, not much time had passed.

In the beginning, although Xia ruofei had studied arrays and created array talismans, he had only completed them within the time array of the Archean realm. The time in the outside world had been calculated in seconds.

When the goldthread nether snake was trapped in the nine turn space – splitting formation, Xia ruofei used the formation to attack and kill the snake in about ten minutes.

Thus, the total time that Ling Qingxue had been trapped in the small space of the mountain and sea realm was only 16 or 17 minutes.

However, for Ling Qingxue, these 16 to 17 minutes were a great torment.

Because the situation had been so urgent and everything had disappeared, she was very concerned about Xia ruofei's safety.

Moreover, the surrounding environment was so unfamiliar, and there was no way to get out. It was like being locked up in a cage. Ling Qingxue's heart was naturally quite nervous.

So, when Ling Qingxue returned to the outside world, she was already burning with anxiety.

Ling Qingxue was still wearing her bulky spacesuit. When she returned to the mountaintop outside, the first thing she saw was the huge goldthread nether snake. It was so close that she could even see the wounds and exposed flesh on the snake's body.

Ling Qingxue screamed in fear.

Xia ruofei quickly called out, "Qingxue!" Don't be afraid! Don't be afraid! The goldthread nether snake is already dead!"

Ling Qingxue heard Xia ruofei's voice and quickly turned her head. She saw that Xia ruofei was standing there, unscathed, with a relaxed smile on his face. Her hanging heart immediately relaxed.

Ling Qingxue sobbed and said, "Ruofei, I was so worried, you know? I... I... I was suddenly trapped in a small space that was only a few meters wide. I couldn't escape no matter how hard I tried. It was like an endless loop ..."

Xia ruofei patted Ling Qingxue's back gently and said, "I'm fine! He was fine! Look at me, I'm perfectly fine, aren't I? I killed that goldthread nether snake!"

"I knew it! RUO Fei is the best!" Ling Qingxue nodded and said.

Xia ruofei smiled and said, "I released a life – saving treasure just now. I used a small space to protect you. I just didn't have time to explain it. I'm sorry for scaring you."

"It's good that you're fine!" Ling Qingxue said, then said in surprise, "RUO Fei, you released that small space? I feel that it's very sturdy! My full – Power attack wasn't able to hurt him at all..."

“That’s for sure!” Xia ruofei smiled and said, “if it’s not sturdy, how can it protect the people inside?”

Then, Xia ruofei said, “let’s go!” We don’t have much time left for our mission, so let’s complete the mission first!”

“En!”

Xia ruofei and Ling Qingxue held hands as they walked towards the goldthread nether snake. Xia ruofei could feel that Ling Qingxue’s palms were slightly sweaty. She was still a little nervous.

Xia ruofei gently patted Ling Qingxue’s back and smiled. “Qingxue, don’t be afraid. This evil creature is already dead!”

“I know! It’s just that this snake is really too big, I can’t help but feel a chill in my heart just by looking at it!” Ling Qingxue said.

When the goldthread nether snake was alive, it could be said to have an extraordinary bearing and an astonishing momentum. Even after its death, its eyes were still wide open, giving off an extremely strong sense of oppression.

Xia ruofei held Ling Qingxue’s hand and walked over. When his hand gently touched the corpse of the goldthread nether snake, a line of words immediately appeared on the mission bar in the field of vision of the perceptual mirror: Congratulations! He had successfully passed the sixth level of the Tower of Trials!

Xia ruofei secretly heaved a sigh of relief. Although he had judged by common sense that the mission only required him to kill one goldthread nether snake, he could not guarantee that he would be able to complete the mission if he could kill one. It was only at this moment that he could confirm that he only needed to kill one goldthread nether snake for this round.

In the stone chamber in the mountain sea realm, the mysterious ore was placed on the stone table.

The spiritual body of scholar Yuntai was living in such a mysterious ore. He happened to see Xia ruofei, so he went up to touch the corpse of the goldthread nether snake and turned to leave.

Scholar Yuntai couldn’t help but remind him, “Fellow Daoist Xia, this golden thread nether snake is very rare. Its scales can be ground into very thin lancets, and the poison in its teeth is the best in the world. The number of people in the cultivation world who can cure this poison can be counted on one hand. And its meat...”

Xia ruofei couldn’t help but smile bitterly. He used his spiritual power to interrupt scholar Yuntai’s words, “Senior Yuntai, you might not know this, but no matter how good this golden thread nether snake is, we can’t take it away.”

Xia ruofei had tried it just now, but it was the same as before. The corpse of the goldthread nether snake could not be put into the spirit map space.

Ling Qingxue had also secretly tried to store the corpse of the goldthread nether snake in her storage ring, but the ring she used to store inanimate objects was also unable to store the corpse.

“Can’t take it away? What do you mean by that?” Layman Yuntai was confused.

Xia ruofei explained the rules of the trial Pagoda to him again.

Of course, Xia ruofei and layman Yuntai communicated through spiritual power, so Ling Qingxue, who was beside Xia ruofei, didn't notice at all.

At the end, Xia ruofei said, ""Senior Yuntai, this thing looks envious, but in fact, it's impossible to take it away, so we don't have to waste time. Unless this golden thread nether snake has an inner core or something like that, the kind that can greatly increase one's cultivation after eating it..""

Chapter 3414: The Vermillion Jade Fruit (2)

Of course, scholar Yuntai knew that if an Aurous core stage cultivator put up a Yuan Qi barrier, they could go deep into the poisonous mist.

However, this was definitely a very dangerous act. Once a small crack appeared on the protective shield, the poisonous mist would enter the protective shield. The cultivator only needed to take a breath, and his body would rot from the inside out. It would be a very miserable death.

Even if the protective shield did not crack, if they were to explore in the poisonous fog, and their mental strength was also greatly limited, they would basically die if they were to get lost in the fog. This was because a Yuan Qi protective shield naturally required Yuan Qi, and a cultivator's yuan Qi couldn't be unlimited. It would be used up eventually. This was especially true for cultivators in the Aurous core stage, who were of a lower cultivation level. The total amount of vital Qi they had was relatively low to begin with. Once it was exhausted, they would be in a situation where they would die without a doubt.

What master Yuntai didn't know was that Xia ruofei's vital Qi protective shield was much tougher than that of ordinary golden core stage cultivators. Under normal circumstances, it would not be broken. Not to mention, if he really returned to the cloud area, Xia ruofei would put on his EVA suit. Even if the vital Qi protective shield was broken, he could still use the EVA suit to buy some time. Sometimes, in just a few seconds, he could change the outcome.

As for the amount of vital Qi, with Xia ruofei's current cultivation, it was impossible for him to fill up the bottomless pit. However, with the elemental storage Pearl, Xia ruofei's vital Qi was many times more than that of an ordinary golden core stage cultivator. Naturally, he could maintain the vital Qi protective shield for a relatively long time.

Therefore, in the eyes of layman Yuntai, it was very dangerous to go down with the help of the yuan Qi protection.

However, he felt that Xia ruofei was confident because he was highly skilled and bold, so he did not say anything more.

Ling Qingxue saw Xia ruofei suddenly stop in his tracks and stand there in a daze, not making a sound for a long time. After waiting for a while, she could not help but ask curiously, ""RUO Fei, what's wrong?""

Xia ruofei then hurriedly informed scholar Yuntai, and then smiled at Ling Qingxue. ""I suddenly thought of something.""

"What is it?"

“We’ve dealt with the goldthread nether snake, but we haven’t collected the loot yet!” Xia ruofei said with a smile.

“Did you receive the latest notification?” Ling Qingxue’s eyes brightened. “The reward for completing the sixth level of the trial Pagoda?”

“I haven’t seen the mission reward yet, but it doesn’t affect us from collecting the loot!” Xia ruofei said.

When Xia ruofei mentioned the spoils of war for the second time, Ling Qingxue finally reacted. She asked in confusion, “It’s not a mission reward? What kind of spoils are they?”

Xia ruofei laughed and said, “you’ve seen it too!” Let me give you a hint... Below, in the misty area ...”

“You mean the two fruits?” Ling Qingxue suddenly understood.

“You’re right!” Xia ruofei smiled and said, “let’s go! Let’s go down again and collect the spoils! We’ve already killed the goldthread nether snake, so there shouldn’t be any danger this time!”

Ling Qingxue hesitated for a moment before saying, “RUO Fei, we can’t bring anything out of this trial space...”

“I didn’t say I was going to bring it out!” Xia ruofei said as he took out his spacesuit and started to put it on. “Why don’t we just eat it? Have you forgotten about the yellow jade essence?”

“Directly eat it?” Ling Qingxue exclaimed, “we don’t even know if the fruit is edible! And ... That fragrance is really too strong, and it can even lure people to go there without caring about their own safety. I feel... That fruit is a little strange! We’d better be careful!”

Xia ruofei laughed and said, “don’t worry!” That was a genuine spiritual fruit, and eating it would only bring benefits and no harm! If you don’t take what the heavens give you, you’ll get your retribution!”

Ling Qingxue had always had blind trust in Xia ruofei. Seeing that Xia ruofei was so certain, she naturally dispelled her doubts. She smiled and said, “Since you’re so sure, let’s go down!”

“Let’s go!”

After Xia ruofei finished speaking, he took Ling Qingxue’s hand and walked to the side of the rope. Then, the two of them stepped onto the qushuang flying sword hand in hand.

In the majestic hall of the mysterious space enshrouded in purple mist, the elder in the green Daoist robe had seen the entire process of Xia ruofei killing the goldthread nether snake through the mirror in front of him. He had even seen the situation in the nine – turn space splitting formation clearly.

When Xia ruofei and the goldthread nether snake met face to face, it could be said that he was in a precarious situation at the beginning.

However, Xia ruofei made use of the difference in the flow of time between the spirit map space and the outside world. With the addition of the time array flags, he had won a lot of time. He used this time to successfully prepare the nine turn space splitting formation and turned the situation around. He killed the goldthread nether snake easily.

The green – robed elder saw all of this.

When the huge body of the goldthread nether snake fell to the ground, the green – robed elder couldn't help but stroke his beard and praise,""Sharp eyes! Meticulous as a hair! To forcefully turn the situation around in a near – hopeless situation, and to have such high attainments in the array Dao and spatial aspects, this little doll was really not bad! To be able to do it so perfectly at the Aurous core stage, it seems that brother mountain and river's spirit map world was not entrusted to the wrong person..."

The green – robed elder didn't notice Xia ruofei's conversation with master Yuntai.

After all, the two of them were communicating through spiritual power, and the level of the spirit map scroll was extremely high. Even if the elder in the green Daoist robe used the mirror, he couldn't see the situation inside the space. Not to mention that layman Yuntai was living in the mysterious ore space in the state of a spirit, so it was even more impossible for the elder to detect it.

When Xia ruofei pulled Ling Qingxue along to collect the "spoils of war," the green – robed elder could not help but smile bitterly. He muttered to himself,""It seems that I can't keep the two Vermillion Jade fruits ... This little kid's eyes are really sharp! You even know about the Vermilion Jade Fruit? could it be recorded in the ancient records left behind by brother mountain and river?"

Xia ruofei naturally didn't know that his every move was being watched by the green – robed elder.

He and Ling Qingxue rode on the flying sword and went down.

The last time she went down, Xia ruofei had to climb the rope for safety reasons. Now that the golden thread nether snake had been killed, the greatest danger on the cliff had been eliminated. Hence, Xia ruofei decided to fly down on his sword.

Of course, he was still going down along the rope. His purpose was to prevent any unexpected situations from happening. When the time came, he could still use the rope to borrow strength.

Very quickly, Xia ruofei and Ling Qingxue reached the end of the rope. Below them was the rising clouds. If they had not experienced it and seen it with their own eyes, Xia ruofei and Ling Qingxue would not have believed it. This seemingly ordinary cloud was actually highly toxic and corrosive.

Without another word, Xia ruofei activated his Yuan Qi barrier and communicated with Ling Qingxue with his eyes. Then, the two of them rode their flying swords and entered the misty area.

The poisonous fog was pushed away by the yuan Qi barrier. Not even a single wisp of the poisonous fog could reach within three meters of Xia ruofei and Ling Qingxue.

Xia ruofei immediately controlled his flying sword and flew down the same path that he had taken earlier.

Since they had chosen to fly on their flying swords this time, and they were more familiar with the route than before, the two of them descended much faster than before. In a short while, Xia ruofei and Ling Qingxue arrived not far from the Vermillion Jade Fruit tree.

In fact, after descending for a while, they could smell the unique fragrance of the Vermilion Jade Fruit again. However, Xia ruofei already knew that it was the unique fragrance of the Vermilion Jade Fruit, so he was not nervous and did not hold his breath.

Xia ruofei stood on the bent Frost Flying sword and looked at the Vermilion Jade Fruit tree in front of him.. He laughed and said,""Qingxue! Our spoils look really delicious!"

Chapter 3415: Both of them broke through_I

Ling Qingxue was initially a little nervous, especially after the Vermilion Jade Fruit ripened. Naturally, it had a strong attraction to cultivators. She had been suppressing her anxiety the whole time. However, if Xia ruofei had not held her back, she might have still walked towards the two Vermilion Jade fruits.

After hearing Xia ruofei's words, Ling Qingxue couldn't help but burst out laughing.""Why are you only thinking about eating! No matter how I look at it, these two fruits are a little strange. Can we really eat them?"

"Of course!" Xia ruofei said.

At this time, within the spirit map space, layman Yuntai couldn't help but click his tongue and say,""It really is the Vermilion Jade Fruit! Fellow Daoist Xia, your luck is really..."

Hearing this, Xia ruofei quickly said,"senior Yuntai, since you've confirmed it, I'll go and pick it!" Is there anything I need to pay attention to?"

"When picking the Vermilion Jade Fruit, you need to use a dry wooden sword. It's best to use a dry pine wood sword. Otherwise, it'll be difficult to peel them off the branches ..." Said scholar Yuntai with a smile.

Xia ruofei said in surprise,"that fruit looks like it'll fall off with just a touch!" How could it not be removed? Besides, the flying sword can cut gold and Jade, but it can't be that it can't even cut the branches of the fruit tree, right?"

Scholar Yuntai laughed and said,""If fellow Daoist Xia doesn't believe me, you can try!"

Xia ruofei thought for a while, and his curiosity won. He nodded and asked,""Senior Yuntai, will I cause any harm to the Vermilion Jade Fruit if I try?"

"I won't! Fellow Daoist Xia, you can try it yourself!" Scholar Yuntai said with a smile.

Hearing this, Xia ruofei was greatly relieved. He took out the blue immortal sword and used his spiritual energy to control the sword to cut the branch that connected the two Vermilion Jade fruits.

The branch looked very thin, and the two heavy fruits had already bent it. Under normal circumstances, even an ordinary fruit knife could be easily cut through, let alone a flying sword that could cut through iron as if it were mud.

However, when the blue travel immortal sword touched the branch, it bounced up.

Xia ruofei took a look and realized that there were no traces left on the branch.

He did not believe it, so he increased his strength and even injected a trace of primordial Qi into the blue immortal sword. But it was still to no avail. The blue immortal sword was soon swept away, and the branch also shook gently, but there was still no trace left on the branch.

Xia ruofei took two steps forward, grabbed the branch, and bent it.

He directly poured his Yuan Qi into his hand. The force was so great that it could even break a steel pipe, but the Vermilion Jade Fruit branch didn't even move.

Ling Qingxuc also saw this scene and couldn't help but click her tongue in wonder. "This branch is so firm ... Ruofei, don't tell me you didn't use any strength!"

"I've used all my strength!" Xia ruofei smiled bitterly. "I didn't expect that a golden core cultivator couldn't even break a tree branch!"

Scholar Yuntai laughed and said, "actually, it's not impossible to break the branch of the Vermilion Jade Fruit. If you were a nascent Soul Stage cultivator, or even an immortal soul Stage cultivator, you could still pick the fruit with brute force!" However, you're just an early jiedan stage kid, you definitely can't do it!"

Xia ruofei could not help but feel a sense of defeat.

Ling Qingxuc didn't know whether to laugh or cry. "Then what should we do? We can't even pick this fruit! It seems that collecting the spoils of war isn't that easy! We can't just eat the fruit directly!"

Ling Qingxuc did not know that Xia ruofei had a small world Dharma Treasure and that there was a senior expert in it.

However, layman Yuntai was still able to sense everything in the outside world. This was also because Xia ruofei had let go of the seal. Otherwise, no matter how high layman Yuntai's cultivation was, he would not be able to sense the situation outside.

After listening to Ling Qingxuc's words, layman Yuntai couldn't help but burst out laughing. "Fellow Daoist Xia, your Dao companion is very interesting!"

"Senior Yuntai," Xia ruofei asked with a bitter smile, "can this Vermilion Jade Fruit tree really only be cut down with a wooden sword?"

"Indeed!" Yuntai layman said, "at first, no one knew about it, so even if they were lucky enough to find the Vermilion Jade Fruit tree, only cultivators above the nascent Soul Stage could pick it. Later, perhaps by chance, someone found out that wooden swords could easily cut off branches, especially pine wood swords, which were the most effective. Thus, it was passed down! This old master only saw it when I was reading the ancient records of my sect, I have never personally tested it."

Xia ruofei said, "alright!" It's a good thing I have senior's guidance, otherwise I would really be 'disappointed'! It's really like having a treasure in the house!"

"Hahaha! Fellow Daoist Xia, try using the wooden sword! It'd be best if it's a pine wood sword!" Scholar Yuntai said with a smile.

"Alright!"

After Xia ruofei finished speaking, he looked at Ling Qingxue and smiled. "Don't worry, I have an idea!"

With that, Xia ruofei immediately connected to the spirit map space and started searching.

There were no pine trees planted in Xia ruofei's spirit map space, so it was not easy to find a pine wood sword. However, he soon discovered that he had bought a pine wood sofa and placed it in the mountain sea realm.

Xia ruofei's face lit up with joy. This was a ready – made pine wood! And it was absolutely dry!

Hence, Xia ruofei contacted Xia Qing with his divine sense and asked Xia Qing to pick a random sofa from this set, tear off the legs of the sofa, and then cut it into the shape of a sword..

Chapter 3416: Both of them broke through_2

Xia Qing naturally carried out Xia ruofei's order to the letter and quickly prepared a sharpened pine wood sword.

Xia ruofei took out the newly – made pine wood sword and held it in his hand.

Ling Qingxue looked and saw that Xia ruofei had actually taken out a wooden sword. As Xia ruofei was in a hurry, he had specifically instructed Xia Qing not to pay too much attention to its appearance. Hence, the workmanship of this pine wood sword was indeed a little rough, but it was barely shaped into the shape of a sword.

Ling Qingxue couldn't help but be dumbfounded. She was stunned for a moment before she asked,"RUO Fei, you're not thinking of using this sword to pick the fruit, are you?"

"That's right!" Xia ruofei said with certainty.

"Is there a mistake? Even such a sharp flying sword can't handle it, and you're counting on a wooden sword?" Ling Qingxue asked, her eyes wide.

Xia ruofei laughed and said,"don't underestimate this wooden sword. It's been blessed by a Senior Master." It's absolutely invincible!"

Ling Qingxue didn't know whether to laugh or cry,"come on! It was obvious that it was just made, and it was very rough! You're not kidding me, right?" Xia ruofei said,"why would I tease you at a time like this?" Just wait and see! Open your eyes wide! Don't ever blink!"

With that, Xia ruofei waved his wooden sword to cut the branch of the Vermilion Jade Fruit and used his spiritual power to tell scholar Yuntai,"Senior Yuntai, as you can see, I've boasted to my cultivation partner. Please don't remember it wrong, or I'll really lose face!"

Scholar Yuntai laughed and said,"don't worry!" Don't worry! I have a good memory, so the most suitable sword is definitely pine wood!"

As the two of them spoke, Xia ruofei's pine wood sword had already made contact with the Vermilion Jade Fruit.

Not only Ling Qingxue, but even Xia ruofei's eyes were wide open as he looked forward.

A miraculous scene happened. When the ordinary – looking pine wood sword touched the indestructible branch, it cut the branch off as if it was tofu.

Xia ruofei was stunned for a moment. He only came back to his senses after the two Vermilion Jade fruits fell for a short while. He quickly used his spiritual power to lift them up and prevent them from falling off the cliff.

If he were to pick it up but not hold it and fall into the depths of the cliff, that would be the biggest joke!

Ling Qingxue was flabbergasted. After a long while, her eyes widened and she said, ""This ... This ... It's actually effective!"

Xia ruofei had already regained his senses. He carefully used his spiritual power to lift the two Vermilion Jade fruits and laughed. "Qingxue, this is called" everything has its weakness "!"

Ling Qingxue looked at Xia ruofei suspiciously and asked, ""You weren't acting before, were you? This is too amazing!"

Xia ruofei did not know whether to laugh or cry, "am I that bored?" Besides, the blue immortal sword really touched the branch just now. Even if I didn't use any force, with the sharpness of the blue immortal sword, an ordinary branch would have been broken!"

"That's true..." Ling Qingxue said.

After the Vermilion Jade Fruit left the fruit tree, Xia ruofei and Ling Qingxue quickly realized that the poisonous fog outside the vital Qi barrier was actually dissipating at a rapid speed.

To be more precise, they did not dissipate, but all gathered at the Vermillion Jade Fruit tree and were directly absorbed by the fruit tree.

The cut on the fruit tree that had just been made by the pine wood sword also healed very quickly, and a new branch grew out, as if the poisonous fog was the best nourishment.

Xia ruofei and Ling Qingxue looked at the scene in front of them curiously until all the clouds had been absorbed by the Vermillion Jade Fruit tree. At this time, the branch where the Vermilion Jade Fruit was on had completely recovered, and two small buds had grown on it.

It was obvious that as long as there was enough time, two more Vermilion Jade fruits would grow on it.

Out of caution, Xia ruofei did not remove the yuan Qi protective shield. However, he could not help but look down curiously.

After the poisonous fog dissipated, the bottom was naturally visible. However, with his eyesight, he still couldn't see how deep it was. It was as if the cliff had been cut down by a knife and an axe, and it continued to extend downward. Below it was a black abyss.

Xia ruofei felt a sense of oppression just by looking at it. The abyss was like a giant beast with its mouth wide open. It made one's heart palpitate.

"Qingxue, we've got the loot. Let's go up!" He said directly.

Ling Qingxue had also looked down, and when she saw the black abyss, she felt even more scared. She quickly said, ""Good, good, good! It's quite scary down there..."

Xia ruofei didn't touch the Vermilion Jade Fruit with his hands. He used his spiritual power to wrap them up. Then, he urged the flying sword under his feet and flew up at the fastest speed. In the blink of an eye, he arrived at the top of the mountain.

Xia ruofei then removed the yuan Qi protection and lowered his flying sword.

After the two of them jumped off the flying sword, they took off their spacesuits and prepared to split the loot. Yingying had tried it earlier on as well. As expected, the Vermilion Jade Fruit could not be stored in the spirit map space, so they could only eat them directly.

Xia ruofei asked, "senior Yuntai, how do I use this Vermilion Jade Fruit?" Should I take it directly?"

"In this case, I can only consume it directly." Scholar Yuntai said, "I've heard that some alchemy Masters can use the Vermillion Jade Fruit as the main ingredient to refine spiritual pills. The effects of the spiritual pills they obtain are much better than directly consuming the Vermillion Jade Fruit. However, only alchemy Masters at the leaving aperture stage and above can do this ..."

Hearing this, Xia ruofei dispelled his other thoughts. The leaving aperture period was very far away for him. Besides, he did not have much research on alchemy and only knew how to make some spiritual herbs. He did not even know what spiritual pills looked like.

Compared to his array Dao level, his alchemy Dao could not even be considered to be at the beginner level.

This Vermillion Jade Fruit couldn't be taken out of the trial Pagoda, so there was no other choice but to eat it directly.

Hence, Xia ruofei asked, "then ... Senior Yuntai, may I ask if Qi refinement cultivators can also consume the Vermillion Jade Fruit?"

"The Vermillion Jade Fruit is most suitable for golden core cultivators," said scholar Yuntai. For Qi condensation cultivators, the Vermillion Jade fruit's medicinal properties were a bit too strong. However, I can see that your Dao companion's mental energy cultivation seems to be very high. She should be able to withstand the energy of half a Vermillion Jade Fruit. Any more than that and it won't be good! In addition, you can only take one Vermillion Jade Fruit at most. If you take too many, there is still a risk of your body exploding."

Xia ruofei couldn't help but be stunned. Then he said, "Wouldn't that be wasting half a Vermillion Jade Fruit?"

Scholar Yuntai said, "that can't be helped. After all, you can't take the Vermillion Jade Fruit out... But this is already a very rare opportunity. You can't bite off more than you can chew. You should give up what should be given up."

"I understand! Thank you for your guidance, senior Yuntai!" Xia ruofei said.

He believed in the words of scholar Yuntai without a doubt, so he naturally didn't dare to let Ling Qingxue eat the whole fruit.

He thought for a moment, then used the pine wood sword to split one of the Vermillion Jade fruits into two. He then handed the other half of the fruit to Ling Qingxue and said, "Qingxue, your cultivation is not high enough, so you can only take half a fruit at most. Anything more than that will be dangerous

"You should keep it for yourself!" Ling Qingxue said, "it's more important for you to improve your cultivation."

Xia ruofei smiled and said, "I can only eat one at most. Otherwise, I'll be in danger." Qingxue, I've already arranged everything, you can take it directly! Then, he would cultivate here. I don't know how long we can stay on the sixth floor of the Tower of Trials."

"Alright then!" Ling Qingxue said.

Then, without hesitation, she stuffed the half a Vermillion Jade Fruit into her mouth.

Seeing this, Xia ruofei also stuffed the whole Vermillion Jade Fruit into his mouth.

After the Vermillion Jade Fruit entered his stomach, Xia ruofei felt a warm current flowing through his body. It was as if he was bathing in a hot spring.

Immediately after, Xia ruofei felt the vital Qi in his dantian start to stir. The circulation of his technique became faster and faster as he continuously absorbed the essence of the Vermilion Jade Fruit.

Soon, Xia ruofei felt that the momentum this time was very strong.. It was a direct breakthrough in cultivation!

Chapter 3417: The appearance of a super – grade golden core (1)

Ling Qingxue, who was beside Xia ruofei, did the same. After she consumed the Vermilion Jade Fruit, she could not help but enter a state of cultivation. She sat cross – legged on the ground and continuously circulated her cultivation technique to absorb the essence of the Vermilion Jade Fruit. After a while, there was a mist above her head.

Xia ruofei's momentum was like a hot knife cutting through butter. Thick vital Qi surged through his meridians and began to rush towards the bottleneck of the early golden core stage.

Xia ruofei felt that his condition was surprisingly good. Cultivators were very sensitive to their own condition, especially when they were close to a breakthrough. Most people would be able to sense it.

The rich energy of the Vermilion Jade Fruit was like a rocket booster. It laid a solid foundation for Xia ruofei's breakthrough.

Xia ruofei soon entered a state of selflessness. There was not a single stray thought in his mind, including the desire to break through. It had been expelled from his mind. The only thought now was to cultivate.

Xia ruofei quickly realized that the energy contained in the Vermilion Jade Fruit was not only majestic but also easy to absorb. Basically, after every circulation, his vital Qi would grow a little. This change was very obvious. He did not even need to deliberately observe and could easily notice it.

Very quickly, Xia ruofei felt the bottleneck of the beginner stage of the Golden elixir realm begin to loosen. There was still a lot of energy in the Vermilion Jade Fruit that had not been absorbed.

It was stable! Two words appeared in Xia ruofei's mind.

Sure enough, after a while, Xia ruofei seemed to hear a cracking sound. The vital Qi broke through the bottleneck of the early golden elixir realm.

At that moment, the yuan Qi Whirlpool in Xia ruofei's dantian had reached its maximum speed. The purple – Gold yuan Qi Pearl in the center of the whirlpool was like a black hole, opening its mouth wide to swallow the yuan Qi.

The moment the early – Stage golden core bottleneck was broken through, the entire Yuan Qi vortex seemed to stagnate for a short while. Immediately after, a large amount of Yuan Qi surged into the yuan Qi vortex and directly entered the purple – Gold yuan Qi Pearl that was like a black hole in the center of the vortex.

After the purple – Gold yuan Qi Pearl absorbed the yuan Qi, it began to grow at a speed visible to the naked eye.

The yuan Qi vortex had already stopped spinning, and the yuan Qi in the vortex was constantly being absorbed by the purple – Gold yuan Qi Pearl.

Just like that, the essence Qi vortex became smaller and smaller, while the essence Qi condensed Pearl became bigger and bigger.

To be more precise, this was no longer an essence energy Pearl, but a true golden core.

The most obvious sign of breaking through from the early stage to the middle stage of the Golden core realm was the disappearance of the yuan Qi vortex. All the yuan Qi in the body would flow into the center of the original Yuan Qi vortex and finally form the Golden core.

As Xia ruofei was cultivating the great Dao Arts, a purple – Gold vital energy Pearl appeared in the center of the originally empty vital energy Whirlpool.

At that time, the mountain river spiritual map, the previous owner of the spiritual map, spiritual master Shan He, had told Xia ruofei that only by practicing the great way formula could the Pearl form in the dantian. Xia ruofei's purple – Gold pearl was even rarer. According to the standard of the ninth – grade golden core, Xia ruofei's golden core had already surpassed this standard and could be called a Supreme – grade golden core.

At this time, the Super – grade golden core was gradually taking shape.

The vital Qi in Xia ruofei's body gushed into the purple – Gold vital Qi Pearl crazily while the remaining energy of the Vermilion Jade Fruit was also being absorbed rapidly.

The purple – Gold Origin Energy Pearl kept growing like a balloon.

In the end, a purple – Gold golden elixir appeared in Xia ruofei's dantian. It was spinning in the center of his dantian.

The yuan Qi vortex from before had disappeared without a trace.

Xia ruofei was still sitting cross – legged with his eyes closed. The “great Dao technique” was still circulating rapidly because the energy of the Vermilion Jade Fruit had not been completely absorbed.

The purple – Gold golden core in his dantian didn’t look particularly solid. Although it had formed a golden core, there was still some fog – like Yuan Qi around it, which made it look a little weak.

But this was already a genuine mid – Stage golden core.

It was not an exaggeration to say that Xia ruofei’s golden core was much more solid than the Golden core of an ordinary intermediate golden core cultivator.

The middle stage of the Golden core was originally the initial stage of the formation of the Golden core. As for the early stage of the Golden core, strictly speaking, it could not be considered the Golden core stage, because there was no golden core in the dantian of the cultivators at this stage, but only a Yuan Qi vortex.

However, the bottleneck to form the yuan Qi vortex was far greater than the bottleneck to transform the yuan Qi vortex into a golden core. After the formation of the yuan Qi vortex, the cultivation base of the cultivator would be greatly improved, so this stage was also classified as the Golden core stage.

When one reached the middle stage of the Aurous core stage, they would have truly formed the Aurous core. However, this was only the initial stage. The Golden core in the dantian of a cultivator was already very empty.

Once the Golden core was completely condensed, it meant that the cultivator had entered the late stage of the Golden core.

From the middle stage of the Aurous core stage to the late stage, it was actually a process of continuous compression and tempering of the Aurous core.

Xia ruofei absorbed the energy of the Vermilion Jade Fruit in a daze. The purplish – Gold golden elixir was becoming more and more solid.

However, this process was very slow. Even with the Vermilion Jade Fruit, it was only a little faster. In fact, if Xia ruofei didn’t feel the change in his cultivation, he wouldn’t be able to notice the Golden core.

Unknowingly, Xia ruofei had finished absorbing all the energy from the Vermilion Jade Fruit..

Chapter 3418: The appearance of a super – grade golden core (2)

At this moment, he realized that the Golden core in his dantian had become much more solid than when he had just broken through. If one were to quantify it, it would be about one percent.

This was already a heaven – defying performance. Without the Vermilion Jade Fruit, it was impossible to achieve such a speed.

What did it mean to increase one percent after one cultivation? As long as he maintained the same speed, he would be able to break through from the middle stage of the Aurous core stage to the late stage in a hundred days!

Xia ruofei usually cultivated by himself. Whether it was through the use of the Taixu xuanqing formation or other auxiliary means, it was basically impossible for him to break through to the advanced stage of the Aurous core stage within a hundred days without a great opportunity.

The first thing Xia ruofei did when he opened his eyes was to turn to look at Ling Qingxue.

Almost at the same time that Xia ruofei looked over, the true Qi in Ling Qingxue's body trembled. Then, Xia ruofei realized that Ling Qingxue had already broken through to refined Qi Level 5!

Ling Qingxue obviously hadn't reached her limit yet. Even half a Vermillion Jade Fruit contained a huge amount of energy for a Qi refining cultivator.

Ling Qingxue was still cultivating with her eyes closed. The true Qi in her meridians was surging like thunder, and her cultivation level was rising steadily.

Seeing this, Xia ruofei was overjoyed.

From the looks of it, Ling Qingxue was very likely to break through two levels and reach the sixth level of the Qi refining realm.

The energy from the Vermillion Jade Fruit should be enough, but it all depended on whether Ling Qingxue could grasp the opportunity.

Ling Qingxue was still cultivating without any distractions. After Xia ruofei watched her for a while, he suddenly had an idea.

When he absorbed the Vermillion Jade Fruit just now, he didn't feel like he was going to be full. According to Yuntai scholar, an Aurous core stage cultivator could only take one Vermillion Jade Fruit. If he took more, his body would explode and he would die.

However, Xia ruofei clearly felt that it would not be a problem for him to eat the remaining half of the Vermillion Jade Fruit.

Of course, Xia ruofei did not have any evidence. It was all based on his intuition.

The half Vermillion Jade Fruit was still floating in the air. Xia ruofei had split a portion of his spiritual power to hold it up.

When Xia ruofei's gaze fell on the Vermillion Jade Fruit, his desire to eat it grew even stronger.

Finally, after weighing the pros and cons for a long time, Xia ruofei controlled his spiritual power and took the Vermillion Jade Fruit.

Layman Yuntai had also been paying attention to Xia ruofei's situation. He had personally witnessed the entire process of Xia ruofei breaking through to the intermediate stage of the Golden elixir realm. He should be the only witness. There were only Xia ruofei and Ling Qingxue here. Ling Qingxue was still in her cultivation state and had no idea about Xia ruofei's situation.

When Xia ruofei took the half Vermillion Jade Fruit and was about to eat it, scholar Yuntai immediately noticed it.

He quickly shouted, "fellow Daoist Xia!" Fellow Daoist Xia! Quickly stop!"

Xia ruofei stopped and used his spiritual power to communicate with master Yuntai. "Senior Yuntai, what's wrong?"

"What's wrong? Didn't I tell you that golden core cultivators can only take one Vermillion Jade Fruit at most?" Asked layman Yuntai.

"Indeed, but this junior feels that there is still more power to spare." Xia ruofei said, "I can't take this half of the Vermillion Jade Fruit with me. It's a waste to leave it here..."

"How can we have the spare energy?" asked scholar Yuntai. Didn't you feel like you were about to explode just now?"

"I didn't!" Xia ruofei said.

"You don't feel anything at all?" Scholar Yuntai continued to ask, "it's the kind ... The meridians are about to burst, but the energy of the Vermilion Jade Fruit is still pouring in..."

"I really don't feel anything..." Xia ruofei said innocently and then asked, "senior Yuntai, in my condition ... Can I try to eat another half?"

Scholar Yuntai hesitated for a long time before saying, "This ... The information I read in the sect's ancient records states that Aurous core stage cultivators can only take one pill at most. For some Aurous core stage cultivators with weaker foundations, even taking one pill will be dangerous. Fellow Daoist Xia, you've already taken one, so I suggest that you don't take any more risks..."

In the hidden space that was enshrouded in purple mist, the green – robed elder who was observing Xia ruofei's every move through the mirror in front of him could not help but curse, "You're short – sighted! A frog at the bottom of a well! This little kid had cultivated brother mountain river 's' great Dao Arts '. Furthermore, he was extremely talented and had even formed a Supreme – grade purplish – Gold golden core. What was the big deal with eating half an additional Vermilion Jade Fruit? I don't think he'll be in any trouble even if he eats both of them!"

Layman Yuntai was in his spiritual form and could only communicate with Xia ruofei by using his spiritual power. However, the green – robed elder in the hidden space was enshrouded in purple Qi and could easily hear the conversation between Xia ruofei and layman Yuntai. His methods were truly unpredictable.

However, the green – robed elder could only complain. He couldn't and couldn't warn Xia ruofei.

After Xia ruofei heard what scholar Yuntai said, he fell into deep thought. After a long while, he raised his head and said firmly, "Senior Yuntai, I still want to try it first. If it's possible to take more Vermilion Jade fruits, it'll be very helpful in improving cultivation!"

Scholar Yuntai was silent for a while and sighed, "Fellow Daoist Xia's talent is unparalleled. Even if you cultivate step by step, your achievements will be limitless. In fact, there is no need to take risks for half a

Vermilion Jade Fruit... Forget it. Since you have made up your mind, I will not persuade you any further. However, I still hope that you will be more cautious. Why don't you cut a small piece and try it out?"

"Thank you for your concern, senior Yuntai." Xia ruofei smiled and said, "I know what to do. It should be fine."

With that, Xia ruofei no longer hesitated and directly put the remaining half of the Vermilion Jade Fruit into his mouth.

As soon as the half Vermilion Jade Fruit entered Xia ruofei's mouth, it immediately turned into liquid and he swallowed it.

Xia ruofei immediately felt the surging energy flowing into his meridians.

The 'great Dao technique' began to operate on its own and began to absorb the pure energy in the Vermilion Jade Fruit.

Xia ruofei could feel that his meridians were under great pressure. It was obvious that after he had consumed the Vermilion Jade Fruit, he was close to saturation and was more or less "overloaded" now.

However, at the same time, Xia ruofei was relieved because the feeling of satiety was still within his control. Moreover, the great Dao Sutra's absorption rate was extremely high. As soon as he took the Vermilion Jade Fruit, a large amount of energy was absorbed into Xia ruofei's dantian along with the circulation of the great Dao Sutra, filling the purple – Gold golden elixir that had just formed.

This was like a pressure cooker. With a solid and stable exhaust valve, the internal pressure would naturally decrease.

Xia ruofei sat cross – legged in peace and continued to activate his cultivation technique to absorb the massive energy in the Vermilion Jade Fruit.

As time passed, the purplish – Gold golden elixir in Xia ruofei's dantian became more and more solid. Compared to the first Vermilion Jade Fruit, the degree of focus had increased by at least one percent.

Moreover, the energy within the Vermilion Jade Fruit had not been exhausted.

In the end, Xia ruofei had successfully raised his cultivation by about two percent.

This way, three percent of the progress had already been completed!

After Xia ruofei had absorbed the last bit of energy in the Vermilion Jade Fruit, he unwillingly kept the technique and stood up.

It was only then that he realized that Ling Qingxue had already finished her cultivation and was looking at him with a face full of joy.

"Qingxue, how's the harvest?" Xia ruofei asked with a smile.

"Can you guess?" Ling Qingxue asked with a smile.

"Refined Qi Level 6!" Xia ruofei said with certainty, "I don't think you've reached refined Qi Level 7, right?"

Ling Qingxue's cherry – like mouth opened slightly, then she said, ""How boring! You must have checked my cultivation ..."

"I really don't have any!" Xia ruofei laughed and said, "don't forget that I've just finished cultivating too. I've spent more time than you! However, I also absorb the Vermillion Jade Fruit, so I'm well aware of the energy contained in it.. I know how effective this energy is for Qi condensation cultivators!"

Chapter 3419: Do as you please (1)

Ling Qingxue finally believed Xia ruofei's words. She pouted and said, ""How boring! I wanted to give you a surprise! I didn't expect you to guess it yourself!" Xia ruofei laughed and said, "why do you still look so unwilling?" You've directly broken through two realms this time! Go out and ask around, which of those Qi layer cultivators can have your speed? Not to mention breaking through to refined Qi Level 6, even if they broke through from refined Qi Level 1 to refined Qi Level 3, they would wake up laughing in their dreams!"

Ling Qingxue laughed in embarrassment and said, ""I'm very happy! It's just that... This Vermillion Jade Fruit is so precious, but I can't take it out of the trial Pagoda. Otherwise, I could have given half of it to Wei Wei!"

Ling Qingxue was still thinking about Song Wei. Both of their cultivation levels were supposed to be at the same level, but Song Wei did not pass the selection of the rising Dragon Order this time. Only Ling Qingxue and Xia ruofei came to this Mystic realm on the moon. After she met up with Xia ruofei in the Tower of Trials, she continued to have opportunities and absorbed a large amount of Topaz essence, allowing her spiritual power to break through to the intermediate stage of the spirit gathering realm. It was equivalent to the spiritual power cultivation of an intermediate stage golden core cultivator. Now that he had consumed half a Vermillion Jade Fruit, his true Qi cultivation had broken through two realms, reaching refined Qi Level 6. The gap between him and Song Wei had widened.

Ling Qingxue was also a little worried that Song Wei would feel uncomfortable when the time came. Therefore, she would always think of Song Wei whenever there was a good thing. However, the things in the trial Pagoda, including the yellow jade essence and the Vermillion Jade Fruit, could not be taken out. They could only be used on the spot. Even if he wanted to leave some for Song Wei, he could not.

Therefore, the more benefits she received, the more worried Ling Qingxue became.

Xia ruofei laughed and said, "Weiwei is a reasonable person. She won't be suspicious because of this!" When we go back, we'll give her more cultivation resources and help her improve her cultivation as soon as possible!" "Mm! Let's help her together!" Ling Qingxue said.

Since there was no way to bring these precious cultivation resources out, it could only be this way.

Then, Ling Qingxue asked, "so, we've already completed the sixth level of the trial Pagoda, right?" Has the passageway to the seventh floor been opened? Also, there should be a reward for completing the mission! The reward for this level's mission, could it be those two Vermillion Jade fruits?"

Xia ruofei laughed, "who knows!" He had yet to see any notifications! The powerful person who designed the Tower of Trials never played by the rules, how could we have guessed it! In any case, we'll follow the instructions of the mission. As long as senior is happy, it's fine!"

In the hidden space enshrouded in purple mist, the green – robed elder could not help but stroke his beard and laugh when he heard Xia ruofei's words.

At this moment, Xia ruofei saw a new message on the mission bar in his perceptual mirror.

The content was very simple. The sixth level of the Tower of Trials was completed and the passageway to the seventh level of the Tower of Trials was opened. Xia ruofei was prompted to follow the map to the passageway. In addition, the mission reward for this level would also be issued at the passageway.

Xia ruofei couldn't help but Mutter to himself, ""That senior can't possibly hear me, right?"

The green – robed elder was drinking water in the hidden space that was enshrouded in purple clouds. He was watching Xia ruofei's every move. When he heard Xia ruofei's words, he almost spat out the water in his mouth.

Xia ruofei would never have thought that his joke was actually completely right.

"What's the matter?" Ling Qingxue asked curiously.

"As soon as I said that, the mission prompt bar updated its information." Xia ruofei said, "this is too timely!"

Ling Qingxue pursed her lips and laughed. "Don't think too much. You're just a little golden core cultivator. In the eyes of the true seniors, you're insignificant, okay?" How could they eavesdrop on you?"

In the hidden space enshrouded in purple mist, the green – robed elder laughed, ""This girl is right! How could I possibly eavesdrop? This old man is openly monitoring the operation of the trial Pagoda and the completion of the trial cultivator's mission! Hmm...This little girl is not bad, very good!"

Xia ruofei said, "I won't undervalue myself!" Although my cultivation is low, I'm very talented! For a genius like me, of course the senior Almighty will value me very much. I'm a potential stock!"

Ling Qingxue made a vomiting gesture and said with a smile, ""This is the first time I've seen someone who can boast to such a disgusting extent..."

"You stinky girl, you've grown up!" Xia ruofei said, "it's indeed different when your spiritual power has broken through to the intermediate stage of the spirit gathering realm. You even dare to cancel your own husband without any restraint!"

Ling Qingxue blushed and said, ""Glib tongue again!"

Then, she quickly changed the topic. ""Oh right, I'll stop joking. What exactly is the mission hint?"

Xia ruofei pouted and said, "it's still the same. The entrance to the seventh floor has been opened. We can follow the map to find the entrance to the seventh floor." In addition, the reward for this level's

mission could also be received at the entrance of the passage leading to the seventh level. This time, there's nothing new at all!"

Ling Qingxue chuckled and said, "what new ideas do you want?" Could it be like last time, that you'll only be happy after you've broken through all the obstacles to get the reward?"

Chapter 3420: Doing as he pleased (2)

"Pei Pci Pei! Don't jinx it!" Xia ruofei quickly said, "I don't want to cause any more trouble. I can't wait for an elevator to take us to the highest floor of the Tower of Trials and get the biggest opportunity!"

Ling Qingxue also laughed hysterically.

In the hidden space enshrouded in purple mist, the green – robed elder couldn't help but jokingly curse, "This little guy is really lazy! It seemed that he had to give him a good beating! But... What is this elevator?"

Naturally, Xia ruofei did not know that the green – robed elder who had been watching him was now interested in the elevator. He said to Ling Qingxue, "Let's go, Qingxue! Let's hope we can get the reward smoothly, then we'll go to the seventh floor for a stroll!"

"En!" Ling Qingxue nodded.

The two of them stepped onto the qushuang flying sword and flew towards the light spot indicated on the map in Xia ruofei's perception mirror.

According to the map, the location of this passage was at the bottom of the mountain. It was much lower than the place where the Vermillion Jade Fruit tree had been found.

Hence, after Xia ruofei and Ling Qingxue flew out of the cliff, they went straight down.

Based on past experience, there would not be any more danger after the mission was completed. However, Xia ruofei did not dare to let his guard down. In the Tower of Trials, any moment of relaxation could be fatal.

Therefore, he had been releasing his spiritual power to maintain a high level of vigilance. The speed of his descent was not particularly fast. In short, he was advancing step by step.

The cliff was so deep that they couldn't see the bottom. Looking down was a dark abyss, which was still very creepy. Fortunately, the passage marked on the map did not go all the way down. It was about seven or eight hundred meters away from the top of the mountain.

Xia ruofei and Ling Qingxue flew down on their flying swords. Although they were not very fast, the distance was not very long. Hence, they arrived at the point indicated on the map in a short while.

The two of them discovered that there was a platform of about 40 to 50 square meters on the mountain wall.

It was obvious that this platform was man – made. The ground was very flat, as if a sharp sword had directly cut off a piece of the cliff.

"It should be here!" Xia ruofei said.

He controlled the qushuang flying sword to land on the platform. The two of them jumped off the flying sword and looked around. This place was like the top of the mountain, a whole piece of rock. Not a single blade of grass grew on it. Everything could be seen at a glance.

On the side of the platform near the mountain wall, there was a door formed by a light curtain.

Xia ruofei and Ling Qingxue were already very familiar with this kind of portal. This was obviously the entrance to the seventh level of the trial Pagoda.

Next to the light curtain Door, there was a stone platform with a brown wooden box on it.

Other than that, the entire platform was empty.

Xia ruofei said hesitantly, "it's that simple?" Are there no more tests?"

Ling Qingxue burst out laughing and said, "What other tests do you want? Can't it be simpler?"

"Of course I hope it'll be as simple as possible!" Xia ruofei said, "but I'm a little uncertain. This doesn't seem like the senior's style!"

"How can we guess senior's thoughts? Let's hurry and see what kind of reward we can get after completing this level's mission!" Ling Qingxue said.

"Alright then!" Xia ruofei said, "Qingxue, wait for me here! I'm worried that there might be a trap up ahead..."

"Mm! You should be careful too!" Ling Qingxue said.

Xia ruofei nodded and walked towards the stone platform cautiously.

He had already used his spiritual power to investigate the area, and there was nothing unusual in the vicinity. However, the ordinary – looking brown wooden box could isolate his spiritual power, so he had no idea what was inside.

However, it had been proven many times that the spiritual power was not absolutely reliable, especially in the trial Pagoda. Anything was possible. Basically, the senior who designed the mission in the trial Pagoda could achieve whatever effect he wanted. As a young cultivator in the Golden core stage, Xia ruofei could only accept it.

Xia ruofei was well aware of this, so he did not dare to let his guard down.

He carefully walked to the front of the stone platform, but nothing happened.

Xia ruofei mumbled, "could it be that there's something wrong with this wooden box?" With the protection of the formation, he couldn't get it at all? Or maybe after you open it, a nascent soul monster will jump out?"

In the hidden space enshrouded in purple mist, the green – robed elder saw this scene and muttered to himself happily, "This little kid seems to be scared out of his wits. This is a snake's shadow!"

However, he felt that this was quite interesting. He had always assigned tasks and even gave out rewards as he pleased. Sometimes, he could make changes at the last minute with just a thought. It was too simple.

Xia ruofei tried to reach for the brown wooden box.

Contrary to his expectations, he did not encounter any obstacles at all and easily grabbed the wooden box in his hand.

"It seems like the problem lies with the wooden box itself..." Xia ruofei mumbled to himself.

He weighed the wooden box and found that it was not very heavy. He could hear the sound of objects colliding with each other when he shook it slightly. He did not know what was inside.

Ling Qingxue saw that Xia ruofei had managed to get the brown wooden box so easily and finally felt relieved. She walked towards Xia ruofei.

"Don't come over yet." Xia ruofei waved his hand to stop Ling Qingxue. "Maybe there's something strange about this wooden box!" I'll open it here, come over if you don't have any problems!"

Although Ling Qingxue felt that Xia ruofei was being a little too cautious, she still nodded obediently and said, "Alright! Then be careful!"

Xia ruofei nodded without turning his head. His eyes were fixed on the wooden box in his hand.

He took a few steps back, putting some distance between him and the light screen and the stone platform. Then, he placed the wooden box on the ground, took a deep breath, and directly opened the lid of the wooden box.

At this moment, Xia ruofei had already filled his entire body with vital Qi. The qushuang flying sword and the blue immortal sword were circling around him, ready to attack at any time.

However, nothing happened. The wooden box was easily opened by him. No terrifying demonic beast jumped out from inside, nor did it launch a fatal attack. It was completely calm.

Xia ruofei was a little surprised, but he still looked into the wooden box.

After taking a look, Xia ruofei was stunned. There were two dark red fruits in the wooden box. Xia ruofei was very familiar with these fruits because he had just eaten one and a half of them.

That's right, the things inside the wooden box were two Vermilion Jade fruits.

"How is it?" Ling Qingxue asked.

Xia ruofei smiled bitterly and said, "come and see for yourself!" There shouldn't be any danger."

Ling Qingxue walked over quickly and looked at the screen. She couldn't help but call out, "Vermillion Jade Fruit? The reward for the sixth level is the Vermillion Jade Fruit?"

"Can you scam me any more?" Xia ruofei did not know whether to laugh or cry.

He and Ling Qingxue had both consumed the Vermilion Jade Fruit, and they had basically reached their limits.

Even Xia ruofei himself did not think about eating half a Vermilion Jade Fruit. When he had consumed the remaining half, he felt that he had reached his limit and could not eat another one.

The Vermilion Jade Fruit was also very magical.
