

## God tier Farm 3431

### Chapter 3431: Getting through the danger (1)

What scared Xia ruofei the most was that after he entered the Archean realm, he immediately checked the situation outside and realized that the high – Level Mirage beast was already trapped in the trap and kill array.

If he had not activated the trap and kill array while he was retreating, the high – Level Mirage beast would have killed him several times in the one or two minutes he was trapped in the illusion.

This time, it could be said that Xia ruofei had made a turn at the gates of hell. In fact, he had one foot in the gates of hell.

Even so, Xia ruofei was still in danger.

After the high – Level Mirage beast was trapped in the trap and kill array, it also started to charge left and right madly, trying to break the array and continue to pursue Xia ruofei.

Xia ruofei had only activated the trap & kill array in a hurry and did not attack the high – Level Mirage beasts. Hence, the trap & kill array was in a passive position.

Fortunately, the high – Level Mirage beasts were best at illusionary attacks, and the array was a dead object, so it would not be affected by the illusion. In terms of physical attacks, the high – Level Mirage beast was much weaker than the high – Level Star Beast, so it had not caused serious damage to the trap and kill array yet.

Xia ruofei immediately controlled the array in the spirit map space and activated the attack mode of the trap & kill array. He did not care about the consumption of energy and turned the attack mode to its strongest.

Then, he waved his hand and took a petal of the spirit Heart Flower and swallowed it.

His internal injuries immediately began to heal at an extremely fast speed.

There was a 30 – fold difference in the flow of time between the spirit map space and the outside world. Hence, Xia ruofei's time was relatively more abundant.

Xia ruofei rested for a while in the yuanchu realm and his injuries were almost fully recovered.

He observed the situation outside. The high – Level Mirage beast was still trapped in the array. At this time, it could no longer launch continuous attacks on the array because the dense black rays had made it look a little awkward.

After all, the Mirage beast's movement speed was not that fast, and the attacks of the array were always saturated, so there was very little space to Dodge. Therefore, this high – Level Mirage beast was not having an easy time now.

Xia ruofei did not dare to leave the spirit map space.

Because the illusion of a high – Level Mirage beast was really terrible. Once he was in the outside world, even if it was within the range of the array, he could not guarantee that he would not fall into the illusion again. If that were the case, he might not be as lucky as he was this time.

Fortunately, Xia ruofei could also control the array in the spirit map space.

Furthermore, time flowed 30 times faster at the Archean realm than the outside world. He could react even faster. If there were any unexpected situations, he would be able to react in time.

After Xia ruofei's injuries recovered, he focused on the situation outside. He kept controlling the array to attack the high – Level Mirage beast with precision.

In fact, when this high – Level Mirage beast's illusion failed to kill Xia ruofei in one blow and it tried to attack but was stopped by the trap and kill array, it meant that it had no chance.

Especially since it was trapped in the trap and kill array, it meant that it would be difficult for it to escape.

As long as the trapped person was unable to forcefully break the formation, it was only a matter of time before they were killed.

In fact, the Mirage beast's physical defense was not as good as the Star Beast's, and its speed was also much worse. Under such intensive attacks, it could last even less time than the high – Level Star Beast.

When the first black light landed on its body, it meant that there was no turning back.

The blazing fire started to burn on the wound. The high – Level Mirage beast let out a shrill cry and its body was frozen.

After this short pause, the black rays of light attacked one after another. For a time, the high – Level Mirage beast was hit five or six times by the black rays.

In a short while, it had already turned into a ball of fire and was rolling on the ground, no longer able to attack the formation.

Xia ruofei stayed in the spirit map space until the high – Level Shen beast stopped breathing. He waited for a while and used his spiritual power to observe the burnt high – Level Shen beast. After confirming that it was indeed dead, he left the spirit map space and returned to the outside world.

Outside, it was another Jiangnan garden with pavilions and waterside pavilions. The high – Level Mirage beast's body had shrunk by a size because of the fire, and it was curled up on a Stone Road.

Xia ruofei looked at the corpse of the high – Level Mirage beast with lingering fear.

It was too dangerous just now. He was on the line between life and death.

Xia ruofei had also witnessed the power of the powerful illusion. He recalled the scene just now and realized that he had fallen into it unconsciously. When he felt himself in the spaceship, he really felt that he was on his way to the moon. He could not remember everything that had happened in the mystic realm's Tower of Trials. He did not even know that he had broken through to the intermediate golden elixir realm.

One could imagine that no matter how high one's cultivation was, if there was such an illusion that could make one instantly sink into it, and even die without knowing why, wasn't it very terrifying?

What's more, there was a sea serpent beast outside. Even if Xia ruofei was not killed in the illusion, the sea serpent beast could still attack him. Xia ruofei, who was immersed in the illusion, was not prepared at all. Even if the sea serpent beast's attack was not as powerful as the Star Beast, it could still kill Xia ruofei easily..

## Chapter 3432: Getting through the danger (2)

Fortunately, Xia ruofei had activated the trap & kill array at the last moment. When the high – Level Shen beast chased after him, it was trapped by the array and could not attack Xia ruofei directly. This gave Xia ruofei a chance to survive.

Xia ruofei recalled the whole process and was indeed terrified.

He stood on the spot and rested for a while.

Ling Qingxue had no idea what was going on in the outside world while she was in the spirit map space. As time passed, she became more and more worried. She couldn't help but ask,"RUO Fei, can you hear me? How's the situation on your side?"

Naturally, Xia ruofei could hear Ling Qingxue's voice in the spirit map space. He also came back to his senses and immediately moved Ling Qingxue to the outside world.

The moment Ling Qingxue came out, she immediately looked at Xia ruofei. Seeing that Xia ruofei was unscathed, she heaved a sigh of relief.

In reality, Xia ruofei had already suffered quite a bit of injury in the illusion. However, they were all internal injuries and could not be seen from the outside. Furthermore, after absorbing an entire petal of the spirit Heart Flower, his injuries had almost recovered. Naturally, Ling Qingxue could not tell.

Ling Qingxue asked,"ruofei, what took you so long?" Are you in trouble?"

Xia ruofei smiled bitterly and pouted at the high level Shen beast's corpse on the ground.""There! It's this guy, I almost fell into his trap! Good thing I reacted in time!"

Ling Qingxue looked at the burnt corpse and couldn't tell what it was. She couldn't help but ask,"What's this? Is it very powerful?"

"Shen beast!" Xia ruofei said,"and it's a high – Level Mirage beast! The realism of that illusion is simply..."

When Xia ruofei thought about the illusion he had just experienced and the scene of Ling Qingxue dying from the sudden explosion of the spaceship, he could not help but shiver even though he knew that it was fake.

Ling Qingxue couldn't help but take a deep breath and said,"High – Level Mirage beast! That would be too dangerous! It's a good thing you're stronger, otherwise..."

Xia ruofei said, "it's all thanks to the trap and kill array!" Otherwise, even if I didn't die in the illusion, I would've died without any resistance under its attack!"

At this point, Xia ruofei couldn't help but sigh and say, "I'm still not strong enough! Just now, I fell into an illusion without realizing it, and I didn't even have a chance to resist!"

Ling Qingxue held Xia ruofei's hand and said, "You're already very powerful! Cultivation was a gradual process, and there would always be someone stronger! Compared to the other Aurous core stage cultivators, you're already much stronger! RUO Fei, don't think too much. In my heart, you're always the best!"

Xia ruofei had just experienced a moment of life and death, and his mind had not been able to calm down. After being comforted by Ling Qingxue's gentle words, his mood calmed down quite a bit.

He smiled and patted Ling Qingxue's hand. "Mm! Don't worry! I only sighed a little! In any case, my fighting spirit is always exuberant. Even if I encounter an opponent much stronger than me, they may be able to kill me, but they definitely can't wear down my fighting spirit!"

"Pei Pei Pei! You're not allowed to say such inauspicious words!" Ling Qingxue said hurriedly.

Xia ruofei laughed and said, "good, good, good!" Let's not talk about this! Let's continue exploring! I think there's a Palace area behind it. I'd like to see what other monsters will jump out of this floor's quest!"

After the encounter with the Mirage beast, Xia ruofei had a sense of danger. This was his intuition for danger. Xia ruofei had always been more sensitive in this aspect.

After the high – Level Mirage beast was killed, the warning sign disappeared.

This meant that they were safe for the time being. This was also why Xia ruofei could move Ling Qingxue out of the spirit map space without worry.

Ling Qingxue nodded and said, "alright!" RUO Fei, do you want me to hide in your protective magical treasure? This way, you won't have any worries!"

Xia ruofei laughed and said, "it's okay. If there's any danger, I'll still be able to use my defensive magical equipment." It's very boring for you to stay inside the protective barrier alone, and you can't see or hear anything. It's not a good feeling, and you'll always be worried about my safety. It's better to explore the heavenly cloud Palace with me outside!"

Xia ruofei knew very well that the small space in the mountain and sea realm was completely isolated from the outside world. Looking out from all directions, there was only a white fog, and it was absolutely quiet. He could even hear his own heartbeat clearly. In addition, the space was so small that it was really uncomfortable to stay in it.

In Xia ruofei's old army, there was a kind of confinement room. It was the same principle.

Every side of the room was wrapped with very good sound – absorbing materials, and there was only a small air vent that could let in a little light. There was no light in the room, and it was dark most of the time.

When people were locked inside, they would feel that time had slowed down a lot.

A few hours might be bearable, but if it was a day or two, or even more, it would simply drive people crazy.

Therefore, some soldiers who made mistakes would rather run ten 10 – kilometer armed cross – country runs than be locked up for two days.

Although the mountain and sea realm in the spirit map space was not as exaggerated as the confinement unit, it was at least bigger and had more light. However, it did have the same effect as the confinement unit. Xia ruofei naturally could not bear to let Ling Qingxue endure that kind of environment for a long time.

If it wasn't for the fact that he couldn't reveal the existence of the spirit map space, he could have let Ling Qingxue stay in the mountain and sea realm. The spiritual Qi there was dense, and there was green grass, beaches, and the sea. If one didn't pay attention, it would be no different from a top resort on earth. If it was in such an environment, he could let Ling Qingxue stay there for a long time without worry.

But now, he could not.

Ling Qingxue held Xia ruofei's arm and smiled. "Alright then! I'll be by your side! To be honest, it's safe inside the protective magic treasure, but it's really uncomfortable to stay inside for a long time!"

"Go! Let's continue forward and take a look!" Xia ruofei said with a smile.

The two of them passed through the winding path and the entire garden before they arrived at the door of the third Hall.

The door of the hall was open, but there was a shadow wall blocking it, so he couldn't see what was going on inside.

Moreover, the hall seemed to be shielded from spiritual power. Xia ruofei tried to use his spiritual power to investigate but could not find anything.

Xia ruofei and Ling Qingxue looked at each other, then said to Ling Qingxue, "Follow me closely! You must be careful! I think there's something strange about this Hall!"

"En!" Ling Qingxue also nodded nervously.

In fact, there must be something strange about this Palace. After all, they had to complete their mission after entering the cloud Palace. It was impossible for them to walk through it so calmly without any obstacles.

Hence, Xia ruofei was already mentally prepared.

He let go of Ling Qingxue's hand and took out the flying sword of the qushuang and the traveling Jade immortal sword. Then, he carefully led Ling Qingxue into the palace.

Behind the door was a wall that blocked out the situation inside the hall. Xia ruofei and Ling Qingxue turned to the right, trying to go around the wall.

As soon as the two of them turned around the image wall – they retreated backward at the same time. Behind the image wall was actually a row of star Fern thorns.

At such a close distance, they had naturally entered the attack range of star Fern thorn. So, as soon as the two figures appeared, star Fern thorn immediately launched a thorn attack.

Fortunately, Xia ruofei and Ling Qingxue's reaction speed was quite fast, and there was a shadow wall at the side. Hence, the wave of star Fern sting did not pose much of a threat to them.

"The star Fern thorn has also appeared. Is the trial Pagoda's seventh floor a gathering of monsters?" Ling Qingxue couldn't help but smile bitterly..

Chapter 3433: The difficulties (1)

Xia ruofei laughed and said,"it's just a gathering of monsters." It seems that the seventh level of the trial Pagoda is a test of overall strength!"

Then, Xia ruofei couldn't help but say,""It's not easy to deal with this thing in the main hall!"

The most effective way to deal with the star Fern thorn was to use a fire array.

However, this star Fern thorn had a certain attack range. Once one entered its attack range, it would launch its attack. Xia ruofei had been in the open wasteland previously, so he could avoid the star Fern thorn's attack range from far away. He set up an array around them and then burned them with fire to his heart's content.

However, the space in the hall was limited and it was almost filled with star Fern thorns. There was simply not enough space to set up an array.

Moreover, the entrance to the hall was on this side. If he went around the shadow wall, he would be attacked by the star Fern thorn. There was no way to enter the hall to set up an array. Even if there was space, he couldn't pass through.

"Yup!" Ling Qingxue also noticed the problem.

She had followed Xia ruofei through the star Fern thorn and was very familiar with the star Fern thorn.

Xia ruofei thought for a moment and said,""If we really can't do it, we'll try to force our way in!"

"Ah?" Ling Qingxue cried out in surprise,"there are so many star Fern thorns. If we force our way in, I'm afraid ..."

Xia ruofei smiled bitterly and said,"we can't just sit back and do nothing! Let's try and see if we can make it through! At this stage of the quest, there are no hints. I don't know how much progress we have made. If we are stuck here, we might not be able to pass the quest!"

"Then ..." Ling Qingxue couldn't help but hesitate.

“How about this! Qingxue, you go into the protective magical treasure first. I’m afraid that once I’m surrounded by the star Fern thorns, it’ll be difficult for me to take care of you. If there are any other dangers, we’ll be in trouble!” Xia ruofei said.

In fact, the position of the image wall was basically the blind spot of the star Fern thorn. Ling Qingxue was relatively safe here. However, Xia ruofei could not guarantee that other monsters would not come out from here.

Once he was surrounded by the star Fern thorns, and Ling Qingxue was in danger, he might not be able to take care of her.

Besides, Xia ruofei had also considered that he might need to use the spirit map scroll or even hide in it. Naturally, it was best not to let Ling Qingxue see this scene.

Thus, letting Ling Qingxue enter the “protective array” she thought was the best choice.

Ling Qingxue said worriedly, “ruofei, you have to be careful!” I... Why don’t we just forget about it!”

Even though she had only caught a glimpse of them just now, Ling Qingxue had still seen them clearly. The entire Hall was filled with star Fern thorns, and she felt her scalp go numb.

Therefore, when she heard that Xia ruofei was going to force his way in, she was very worried.

Xia ruofei smiled and said, “don’t worry too much. I’ll definitely ensure my own safety first. When I’m safe, I’ll think of a way to deal with these star Fern thorns!” You can rest in the protective magical equipment for a while, or you can just take a nap. By the time you wake up, I’m sure that I’ll have already taken care of it!”

Ling Qingxue pouted and said, “how can I sleep?!” You bastard!”

Xia ruofei laughed. “Then listen to some music and read some books. Don’t think too much about it. I’ll let you know as soon as possible no matter if it’s going well or not. I don’t want you to worry!”

“That’s right, you must be careful!” Ling Qingxue said.

Xia ruofei nodded his head repeatedly. Seeing that Ling Qingxue had finally agreed, he sent her into the small space set up by the mountain and sea realm in the spirit map space.

Then, Xia ruofei’s eyes lit up and he muttered to himself, “I’d like to see how powerful this star Fern thorn is. Even if I can’t use an array, I don’t believe I can’t break through this level!”

With that, Xia ruofei took out the qushuang flying sword and the blue immortal sword. At the same time, he set up a vital Qi barrier and concentrated his energy.

He took a deep breath and walked to the left side of the wall. The star Fern thorns on the right had already attacked. Xia ruofei felt that they were still in a state of alert, so he decided to switch to the other side.

However, it was not too far off. Xia ruofei had just poked his head out when the star Fern nearest to him immediately shot out a dense array of thorns towards Xia ruofei.

Xia ruofei’s vital Qi Shield was the first to bear the brunt.

The yuan Qi Shield was able to defend against the poisonous mist, but it was naturally useless against the sharp thorns. It was pierced almost as soon as it came into contact with the thorns, and it was riddled with holes.

However, it did slow down the speed of the spikes a little.

Under Xia ruofei's high concentration, the speed of the thorns seemed to have slowed down. In fact, his brain was working at a high speed, constantly analyzing the trajectory of the thorns.

His figure flickered a few times and deftly avoided the attack of the thorns. At this time, the qushuang flying sword and the blue immortal sword had already shot out like lightning and ruthlessly hacked at the vines of the star Fern thorn.

Xia ruofei's all – out attack had still caused quite a bit of damage to the star Fern thorn. The branch of the star Fern thorn was split open, and milky white liquid flowed out.

Xia ruofei knew that the star Fern thorn had a strong recovery ability, so he had to continue attacking..

#### Chapter 3434: The difficulties (2)

However, there was more than one star Fern thorn here. There were at least ten to twenty star Fern thorns beside and behind it, all of which could attack Xia ruofei.

In the blink of an eye, these star Fern thorns also shot sharp thorns at Xia ruofei.

Xia ruofei looked at the overwhelming number of thorns and could not help but feel a little scared. He knew very well that even if he was faster, it would be difficult to block such a concentrated attack.

Hence, Xia ruofei decisively took a few steps back and hid behind the wall.

Naturally, the attacks of those thorns all missed.

However, Xia ruofei's first attempt still ended in failure.

This screen wall was a good barrier, but it was fair to both sides. Xia ruofei's spiritual power couldn't penetrate the screen wall at all. Even the tunnel at the side seemed to have blocked his spiritual power. This caused Xia ruofei to be unable to hide behind the screen wall and control his flying sword to attack the star Fern thorn.

Xia ruofei calmed himself down and decided to make a comeback.

He once again gathered his spirit and left the range of the image wall in one step. He continued to attack the star Fern thorn on the left.

Xia ruofei took a quick glance and saw that the wound on the star Fern's thorny branch had already begun to heal.

The star Fern thorn's recovery ability was too shocking. Although Xia ruofei's strength had greatly improved and he could use continuous attacks to cause continuous damage to the star Fern thorn, the

problem was that the star Fern thorn was too densely distributed. He had no way of continuously attacking under such an overwhelming attack.

This time, it was the same. Xia ruofei only had time to control the qushuang flying sword and the traveling Jade immortal sword to slash at the star Fern thorn once and expand the wound that was almost healing. However, the surrounding star Fern thorns immediately attacked him in groups. He was immediately defeated and retreated behind the image wall.

Xia ruofei frowned. This could not go on! The efficiency was too low!

There were at least a few hundred to a thousand star Fern thorns in this Hall. If it was so difficult to deal with one star Fern thorn, how long would it take to clean up so many star Fern thorns?

He still had to think of other ways!

Xia ruofei recalled the method he had used to deal with the goldthread nether snake on the previous level of the trial Pagoda and it gave him a hint of inspiration.

However, whether or not he could put it into action would depend on the specific situation.

Hence, Xia ruofei regrouped again. This time, he peeked out from the right side of the wall.

As expected, the star Fern thorn's attack quickly arrived.

However, this time, Xia ruofei only tried his best to Dodge and did not attack the star Fern thorn.

His main goal was to observe the distribution of star Fern thorns in the hall.

As Xia ruofei did not take the initiative to attack, there were fewer star Fern thorns that attacked Xia ruofei at the same time, which allowed him to hold on for a while longer.

The last few thorns were too dense, and he had no choice but to retreat.

With just a glance, Xia ruofei had already seen the general distribution of the star Fern thorns in the hall.

He tried a few more times, stretching out his body from the left or right, but he only dodged each time and did not take the initiative to attack.

After doing this for four to five times, he had basically figured out the distribution of the star Fern thorns in the entire Hall, forming a direct map in his mind.

After that, Xia ruofei did not make any more pointless attempts. He leaned against the image wall and first informed Ling Qingxue that he was safe in the spirit map space. Then, he closed his eyes and began to analyze the situation that he had detected.

After about five minutes, Xia ruofei opened his eyes.

He took a deep breath and simulated the route that he had just planned in his mind. Then, he nodded silently.

Xia ruofei summoned the spirit map scroll from his palm and held it tightly in his hand.

Then, he took a step forward.

The few star Fern thorns closest to him immediately shot thorns at him without hesitation.

This time, Xia ruofei did not care about the rapidly approaching thorns. He did not even try to dodge them. Instead, he threw the spirit map scroll in his hand. At the same time, with a thought, he entered the spirit map's space and entered the primal realm.

As soon as he entered the medium, Xia ruofei immediately started to observe the situation outside.

From the perspective of the spirit map space, the scene outside looked like a spinning vortex. In fact, it was the spirit map scroll that was spinning non – stop in the air after Xia ruofei had thrown it out.

As time was flowing at thirty times the normal speed, the rotation of the spirit map was in slow motion in Xia ruofei's eyes.

Xia ruofei saw that the painting would not fall to the ground for a while, so he took out all the materials related to the fire array and changed the worn parts.

After he had prepared the fire array, he checked the situation outside and found that the image had stabilized.

The spirit map scroll lay quietly in an open space among the star Fern thorn bushes.

Xia ruofei was very satisfied with his precise throw. The strength and angle were just right. The spirit painting landed precisely in the gap that he had planned in advance.

Since the spirit painting scroll was a dead object without a trace of life, it did not launch any attacks even though it was surrounded by star Fern thorns, the closest one less than 50 centimeters.

Just like that, Xia ruofei arrived at the center of the star Fern thorn bush in a cheating way.

He then used his mental power to observe the distribution of the star Fern thorns around him, matching them with the distribution map in his mind one by one. Then, he silently deduced it, and after confirming that there were no problems, he sent the materials for the fire array out of the spirit map space one by one. He used his mental power to lift them up and place them in the positions he had chosen in advance.

These star Fern thorns were planted rather densely, and the space in the middle was not big. Hence, it was not easy for Xia ruofei to find a place in the dense cluster of star Fern thorns where all the materials for the entire array could be placed.

Fortunately, he still managed to find these locations.

Xia ruofei set up the wide – range fire array.

As for the location of the spirit map, it was naturally the eye of the array. This was the only way to ensure that the flame array would not burn him when it was activated.

Due to the terrain's limitations, Xia ruofei's formation could only cover an area of about ten meters.

However, there were already hundreds of star Fern thorns in this ten – meter radius. If Xia ruofei had to cut them one by one, who knew how long it would take him to do it?

Xia ruofei checked and after confirming that there were no problems, he gave out a crystal and let it land on the control core of the formation.

Then, he unhesitatingly formed a seal and activated the fire array.

Immediately, raging flames began to burn within the range of the array.

This flame was of the same origin as the flame formed by the black light of the confinement killing array. Compared to the ordinary flames in the secular world, its destructive power was much greater.

After all, the star Fern thorn was also a plant, and fire was undoubtedly its natural enemy, let alone the kind of flame formed by the black sharp light.

Thus, these star Fern thorns were quickly ignited, emitting crackling sounds.

The location of the spirit painting just so happened to be the eye of the formation. Not only did the flames completely avoid it, but there was also a protective shield around it, isolating the high temperature from the outside.

After all, the painting looked like it was made of paper, so Xia ruofei had been feeling apprehensive. If he were to burn the painting, it would be a huge loss. Wouldn't that be a huge joke?

He wasn't worried about whether the star Fern spikes within the array's range could be burned out. On the contrary, he had been paying attention to the safety of the spirit map scroll.

Fortunately, he had designed it well, and the spirit painting itself was not so easily destroyed, so there had been no abnormalities.

The burning lasted for a few minutes, and the star Fern thorns were all turned to dust. With the spirit map scroll as the center, a space about ten meters in radius was cleared.

The entire Hall was about 100 meters long and wide. Hence, Xia ruofei had only destroyed less than one – tenth of the star Fern thorns. It would take a lot of effort to completely destroy all the star Fern thorns in the hall..

Chapter 3435: Out of expectations (1)

Of course, once Xia ruofei found a way, it was only a matter of time before he removed the star Fern thorn.

He released his spiritual power in the spirit map space and continued to investigate the distribution of the star Fern thorns. After finding the best position, he left the space in a flash.

Before the star Fern thorn's attack arrived, he had already grabbed the spirit map scroll and accurately threw it at the position he had chosen. Then, with a thought, he entered the space again.

The overwhelming thorn attacks of the star Fern naturally all hit empty air.

Then, Xia ruofei repeated the previous process. He set up the fire array bit by bit and then activated the array.

The rest was simple. He only needed to watch the burning flames outside in the spirit map space and wait quietly for the area to be cleared.

Xia ruofei even felt that time passed too slowly in the Archcan realm and decided to move to the mountain and sea realm. This way, time would be synchronized with the outside world.

In addition, he could chat with Ling Qingxue while watching the show, so that she wouldn't worry.

As more and more areas were cleared out, there were not many star Fern thorns left in the hall.

In the end, Xia ruofei used it twelve times to clean up the entire patch of star Fern thorn.

There were still some fish that had escaped the net, but they were all in the corners. The large – scale fire array was unable to cover them.

Hence, Xia ruofei decided to leave the spirit map space. The main hall was very spacious and he stood in the middle, away from the attack range of the star Fern thorns.

Then, he moved Ling Qingxue out of the spirit map space.

Ling Qingxue had been chatting with Xia ruofei, but she did not know how the battle was going. When she came out and saw the empty Hall and the burn marks on the ground, she could not help but be surprised.

"RUO Fei, you still found a chance to use the formation?" Ling Qingxue asked.

She could not imagine how Xia ruofei had managed to set up the formation. Just now, the hall was filled with star Fern thorns. Even though she had only caught a glimpse of it, she had still managed to get a general idea of the situation. She was very clear that there was no space to set up an array in that situation.

Not to mention, as long as they came out from behind the image wall, they would be attacked by the star Fern thorns, and there was no time at all.

That was why Ling Qingxue was very curious.

Xia ruofei smiled and said, "there are always more solutions than difficulties!" They're just some immobile plants. How is it possible for them to block my way?"

"There's still a fish that escaped the net!" Ling Qingxue giggled as she pointed at the few star Fern thorns in the corner.

Xia ruofei said nonchalantly, "I purposely stayed behind!" There's no point in just using fire, I'm going to cut it alive!"

Xia ruofei wasn't bragging. If he wanted to end the battle quickly, he could just use a small fire array and burn them all.

Although the corners of the hall were rather narrow, it was still enough to set up a small fire array.

"Then I'll just support you from the side!" Ling Qingxue said with a smile.

"Just you wait!" Xia ruofei said.

Then, he directly controlled the qushuang flying sword and the blue immortal sword to stab at the star Fern closest to him.

Now that the hall was very spacious, he could completely hide outside the attack range of the star Fern thorn and use his flying sword to deal with them.

Speaking of which, he was basically not in any danger.

It was just that when he encountered the star Fern thorn previously, his attack power was not enough to pose a threat to the star Fern thorn. However, it was completely different now.

The qushuang flying sword and the traveling Jade immortal sword could leave obvious wounds on the branches of the star Fern thorn. Most importantly, the star Fern thorn's recovery speed could no longer keep up with the destruction speed of the two flying swords. As a result, the wounds naturally grew larger and larger.

Xia ruofei spent more than ten minutes, relying on the long – range attack of his flying sword, to cut a star Fern thorn into pieces.

After getting rid of the star Fern thorn, Xia ruofei had once again tested his strength and lost interest.

For the remaining few star Fern thorns, he immediately set up a few small – scale flame arrays and began to burn them at the same time. It didn't take long for all the star Fern thorns in the hall to be swept away.

Xia ruofei kept the materials and smiled. ""Done! Continue forward! Let's see if there's anything more to the cloud heaven Palace."

Ling Qingxue looked at Xia ruofei with admiration and said, ""Ruofei, you're really amazing! I think with your endless means, there aren't many cultivators on earth who can be stronger than you!"

Xia ruofei waved his hand and said, "I probably can't beat the old man of the Chen family, Chen Nanfeng, now. In addition, the world of cultivation is so big, there must be many hidden masters. Maybe there is a master hidden in some corner!"

Ling Qingxue couldn't help but laugh, "how can there be so many experts?" Didn't you say that Earth's cultivation environment is very bad? Even extremely talented cultivators find it hard to improve their cultivation." "Isn't it? Therefore, there's nothing to be proud of, even if you're the king of the cultivation world on earth!" Xia ruofei said, "from a cultivation point of view, it's a poor and remote place!"

When Xia ruofei said this, he couldn't help but lose interest. He said, "Let's go! Qingxue, Earth's cultivation environment is just like that. We can't change anything. However, it was clear that there were great opportunities in the trial Pagoda. We've already gained a lot of benefits along the way. Such an opportunity is hard to come by, so we have to strive to get as many benefits as we can, so that we can have more resources to support our cultivation in the future.."

Chapter 3436: Out of expectations (2)

“That’s reasonable!” Ling Qingxue smiled and said, “however, my cultivation level is low. I’ll be counting on you!”

Xia ruofei pretended to be generous and waved his hand. “No problem! With me here, you can just wait for your cultivation to advance by leaps and bounds!”

Ling Qingxue laughed so hard that she was bent over.

The two of them passed through the hall and continued walking.

The heavenly cloud Palace was indeed a test of comprehensive strength. Following that, Xia ruofei and Ling Qingxue encountered wave after wave of enemies.

Basically, all the tests that he had encountered in the previous levels of the Tower of Trials appeared here.

Sometimes, they would even come out in a group. For example, Xia ruofei had encountered a Mirage beast hidden in the star Fern thorn bush. He was concentrating on setting up the array and almost fell into an illusion.

Besides, when Xia ruofei was fighting the Mirage beast, he had just fallen into an illusion. It was not too dangerous. As long as it was not a high – Level Mirage beast, he would be able to wake up quickly even if he fell into an illusion. However, this time, as soon as he fell into the illusion, there were extremely fast star beasts that immediately attacked Xia ruofei.

He didn’t want to kill Xia ruofei with the illusion, but hoped that the Star Beast would appear when Xia ruofei was in a daze and end the battle quickly.

Fortunately, after Xia ruofei’s spiritual power was greatly improved, the illusion’s effect on him was much smaller. He woke up in time before the astral beast’s attack landed on him and avoided the fatal attack by a hair’s breadth.

There were more than ten waves of tests like this, and Xia ruofei had a hard time dealing with each one.

However, Xia ruofei’s actual combat experience had improved greatly after he had experienced various attack combinations. He combined flying swords, formations, and the use of the spirit map space very flexibly. He was able to turn danger into safety every time. No matter how the patterns changed, he became more and more familiar with these techniques and the more he fought, the more he was able to adapt to them.

Finally, after eliminating the last group of star beasts, Mirage beasts, and golden core stage puppets, Xia ruofei and Ling Qingxue arrived at the back garden of the palace.

This back garden was much larger than the garden between the two halls that they had passed before. There were also much more spiritual plants and the scenery was more beautiful. Everything seemed to be one with nature, very close to the way of nature.

Xia ruofei and Ling Qingxue strolled around the back garden. The air they breathed in was rich with spiritual energy, making them feel relaxed and happy.

At this moment, Xia ruofei did not have any warning signs. He felt that there should be no more danger, so he was much more relaxed than before.

In fact, as soon as he stepped into the back garden, Xia ruofei felt comfortable all over, as if he was living in the Spirit map space.

Ling Qingxue couldn't help but take a deep breath and said, "RUO Fei, how nice it would be if we could live here forever! I don't think even the environment of Paradise Island is as good as this place!"

The Peach Blossom Island was now considered a Holy Land for cultivation. It was just that it had not been exposed to the world of cultivation. Otherwise, even Chen Nanfeng of the first heaven society would be jealous. Although his cultivation base was almost the number one in the world, there were still so many disciples under him! The cultivation environment of the first heaven society was far inferior to that of the Paradise Island. Of course, the peach source Island couldn't accommodate a sect as big as the first heavenly sect. However, the spiritual Qi concentration in the back garden of the heavenly cloud Palace was much higher than that of the Paradise Island. In addition, the environment here was more beautiful. It was the most basic thing to change the scenery with a step. This kind of garden that was close to the way of nature could not be found on earth, let alone an Island full of man-made traces like the Paradise Island.

It should be known that peach source Island was just a backup plan set up by the Liu family in case of a major crisis in the future. The scenery on the island could only be said to be unsatisfactory, but there were reinforced concrete buildings everywhere.

Xia ruofei smiled and said, "then take in a few more breaths of the air here. It's free anyway!" As for the peach source Island ... Didn't we get a set of allheaven formation flags this time? I'll go back and make some arrangements. It'll be of great use to improving the cultivation environment. As for the natural environment, that's the only way. It's definitely incomparable to this place." "However, the Peach Blossom Island is our home!" Ling Qingxue smiled sweetly and said, "no matter how good this place is, it's still someone else's. Nothing is better than home!"

"I like to hear that!" Xia ruofei said, "from now on, we'll settle down on Peach Blossom Island. We'll watch sunrise and sunset together, listen to the ebb and flow of the tide together, enjoy the sea breeze together, and work hard on cultivation together..."

Ling Qingxue nodded and said, "Mm! They only envied mandarin ducks, not Immortals! I think this sentence is very incisive!"

"Hahaha! I also feel the same way!" Xia ruofei said, "Qingxue, let's go! Let's take a look at this garden, or we won't have the chance in the future. I'm sure that the Imperial garden in the palace is simply a small vegetable garden compared to this!"

Ling Qingxue looked at the beautiful scenery in front of her and did not think that Xia ruofei was exaggerating. She held Xia ruofei's hand and said, "It's a pity that Vivi didn't have the chance to see such beautiful scenery..."

Xia ruofei didn't know whether to laugh or cry. "There's no other way. We can't bring this back garden! Why don't we take some videos for her to enjoy?" "Don't! Don't! Wouldn't that be more exciting for

her?” Ling Qingxue quickly said, “she was already in a bad mood when she couldn’t come with us this time II

“I’m just joking...” Xia ruofei quickly replied.

The two of them walked together in the back garden, smelling the unique fragrance of the surrounding spiritual flowers and grass. They strolled along the winding path between the pavilions and water pavilions. Unconsciously, their bodies and minds relaxed.

Xia ruofei and Ling Qingxue made two rounds and came to a Pavilion.

The design of this octagonal pavilion was simple and unsophisticated, and the eight pillars were engraved with complicated and exquisite patterns. Most importantly, there was an octagonal pillar in the middle of the pavilion, and at the top of this Octagon pillar was a barrier that emitted a faint light. Through the barrier, a crystal – like sign could be faintly seen standing quietly in the center of the barrier.

Xia ruofei and Ling Qingxue’s attention was naturally attracted.

“It’s so beautiful!” Ling Qingxue couldn’t help but exclaim, “RUO Fei, can you tell what that thing is?”

Xia ruofei shook his head. “I don’t know. But it must be something good. Let’s go in and take a look!”

“En!”

Xia ruofei and Ling Qingxue stepped up the steps and walked towards the pavilion.

Xia ruofei also stopped playing and focused on being on guard. After all, the crystal card protected by the barrier was not an ordinary object, so he did not know if there would be any danger in the pavilion. Generally speaking, there would be secret mechanisms in such an important place.

However, to Xia ruofei’s surprise, the two of them entered the pavilion easily.

From the steps up to the front of the Octagon Prism Stone platform, he didn’t encounter any obstacles, nor did he suddenly shoot arrows or anything like that. In short, it was calm and peaceful.

This was completely out of Xia ruofei’s expectations.

However, this was not a big deal. After all, the crystal card was still under the protection of the barrier.

Xia ruofei was not unfamiliar with this kind of barrier. When he was in the stone room in the mountain sea realm in the spirit map space, he had continuously benefited from the barrier. The Jade talisman of inheritance was protected inside the barrier.

That was why he knew very well that while these barriers looked the same, they were very different in terms of their toughness. Some of them could be broken by Qi refining stage cultivators, while some could not even be broken by golden core stage cultivators. He guessed that barriers that even nascent Soul Stage cultivators could not break existed, but Xia ruofei had not encountered one yet.

He looked at the translucent barrier in front of him and the crystal card inside the barrier, which was obviously something good, and muttered in his heart, “How strong was the barrier? It couldn’t be the kind that even nascent soul cultivators couldn’t do anything to?”

## Chapter 3437: A slap in the face (1)

Ling Qingxuc looked at the barrier and asked, ""RUO Fei, What's this? Could it be the reward for completing the mission?"

Xia ruofei shook his head. "I don't think so. My perceptual mirror didn't show any prompt about the completion of the mission. Besides, don't we have to evaluate the completion rate before giving out the reward?" It definitely won't be that fast!"

"Then, we..." Ling Qingxuc was a little undecided.

Xia ruofei laughed and said, "this is definitely not an ordinary item. Since it's here, we can't be polite, can we?" It's one thing to be able to get it, but you should at least try!"

In the hidden space enshrouded in purple mist, the green – robed elder laughed, ""Little kid, if you can get this thing, this old man will give it to you!"

The green – robed elder looked confident that Xia ruofei would not be able to get the crystal card.

Xia ruofei didn't know that his every move was being watched by the green – robed elder. In fact, the green – robed elder could only observe the situation on Xia ruofei and Ling Qingxue's side. This was because all the other cultivators who entered the trial Pagoda had been eliminated without exception. The one who made it the furthest had only reached the fifth level of the trial Pagoda.

Xia ruofei said to Ling Qingxuc, "generally speaking, there's no way to open this kind of barrier. You can only rely on your own strength to break it. Let me try first!"

Ling Qingxuc smiled and nodded, "of course!" If even you can't break it, then I'll probably be wasting my time trying!"

"That's hard to say, but I'll try first!" Xia ruofei said with a smile.

Thus, Ling Qingxuc stepped aside while Xia ruofei took two steps forward and stood in front of the barrier.

Xia ruofei had broken through a few similar barriers in the stone room in the mountain sea realm in the spirit map space, so he was quite experienced.

He didn't attack the barrier directly because he knew that the stronger the attack, the stronger the rebound. If he rashly attacked the barrier, he might be hurt by the rebound unless he was confident that he could break it in one strike.

According to past experience, this kind of light barrier was very tough. Unless there was an absolute crushing force, the possibility of breaking it with brute force was extremely low.

Even with Xia ruofei's current cultivation, he was not confident that he could break the first light screen in the stone room.

So, just like before, he carefully pressed his hands on the light screen of the barrier.

Sure enough, although the membrane wall of the ward was faintly discernible, it was very tough. Xia ruofei pressed it down lightly and only made it sink a little.

Xia ruofei tried to feel the toughness of the barrier and then increased his strength.

His vital Qi continued to flow through his meridians and into his palms.

As Xia ruofei's pressure changed, the hole in the barrier membrane became bigger.

However, Xia ruofei soon felt that this Ward's membrane was tougher than any he had encountered before. It was not just a little stronger.

Based on the current state of the membrane, he would probably need to increase his strength by ten times before the membrane could not withstand the pressure and break open.

Xia ruofei had used at least 80% of his strength.

Besides, even if Xia ruofei could use 10 times his strength, his body was not strong enough. He was afraid that his hand would be crushed before the Ward's membrane was destroyed.

This conclusion made Xia ruofei a little depressed.

The crystal card protected by the barrier was obviously not an ordinary item. Such a good thing was right in front of him, but he could not get it at all. This feeling was much worse than when it had never appeared.

Giving up so easily had never been Xia ruofei's style.

Even though he had a feeling that he might not be able to break this barrier, he would not admit defeat until he reached his limit.

Hence, Xia ruofei continued to increase his strength.

At this moment, his palm was already under tremendous pressure. He could feel his finger bones creaking as if they would crack at any moment.

Very quickly, Xia ruofei had already used all his strength and continued to release his Yuan Qi to maintain the maximum pressure.

He felt that his finger bones were beginning to be unable to withstand such a long period of extreme pressure, but he still gritted his teeth and persevered.

Ling Qingxue saw the pained expression on Xia ruofei's face and knew that he was under great pressure. She could not help but feel worried.

She couldn't help but want Xia ruofei to give up because her heart ached when she saw Xia ruofei in so much pain.

However, Xia ruofei's determined look made Ling Qingxue unable to give up. She could only look at Xia ruofei with concern, her eyes misty. She was also cheering for him in her heart.

Xia ruofei's vital Qi was still abundant, but this level of strength was obviously not enough. The enchantment's membrane did not change too much, and it should still be quite far from its limit. If he could not increase the strength, it would not have broken so easily.

Xia ruofei felt the pain in his palm and sighed. He knew that he had no way of breaking the wizardry barrier.

The huge difference in power was enough to make people despair.

When Xia ruofei heard the sound of his metacarpal bone cracking, he decisively chose to give up..

Chapter 3438: A slap in the face (2)

He had persisted to this extent and still had not caused any damage to the barrier membrane. There was no point in continuing.

Moreover, cracks had already appeared on his metacarpal bone. Even if he wanted to forcefully hold on, he would not be able to hold on for long.

Hence, Xia ruofei sighed and began to gradually reduce his strength. He was very experienced and knew that he could not withdraw all his strength at once, or he would be seriously injured by the backlash.

As he retracted his power bit by bit, the barrier membrane also returned to its original position bit by bit. This way, there wouldn't be too much backlash.

After a while, Xia ruofei finally retracted all his energy.

At this moment, his palm was still in excruciating pain. In just a short while, the bones on both sides of his palm had already cracked.

Of course, this kind of external injury was nothing. Xia ruofei took out half a spirit Heart Flower petal from the spirit map space and fused it with his palm. Soon, the crack in his palm began to heal at a speed visible to the naked eye. "Ruofei, are you alright?" Ling Qingxue asked, concerned.

She had seen Xia ruofei's pained expression just now.

Xia ruofei shook his head with a bitter smile and said, "'It's nothing. It's just a minor injury. It'll recover very soon. However... We probably won't be able to get this crystal card. I've tried it just now, and the difference in power is too great..."

"If you can't get it, then don't!" Ling Qingxue said, "it's good that he's fine! There were many good things in the cultivation world! We can't possibly take all the benefits!"

"That's true, but seeing this crystal card right in front of my eyes, but I just can't get it, this kind of feeling is still very uncomfortable!" Xia ruofei said with a bitter smile.

"This means that you've suffered too few setbacks!" Ling Qingxue said with a smile.

"You're a rich second generation and a young lady. How can you say that I've suffered less setbacks?" Xia ruofei couldn't help but laugh. 'Tve suffered a lot since I was young, okay? After you joined the Army, especially the Special Forces, those days ... Tsk tsk, I bet you wouldn't even be able to live a day!"

Ling Qingxue burst out laughing and said, ""I'm not saying that you haven't suffered any setbacks in the past. I'm saying that after you started cultivating, everything has been smooth and the resources you've obtained are much more than those of the cultivators on earth, right? So, I'm giving you a lesson today to let you know that not everything will go your way on the path of cultivation. II

"Now that you've mentioned it, it docs seem like it!" Xia ruofei scratched his head and said with a smile, "it seems that I'm more comfortable with things related to cultivation!"

"Isn't that so?" Ling Qingxue said.

"What wife said makes sense!" Xia ruofei had thought it through and said freely, "since I can't get it, it means that I'm not fated to have it. At least, I'm not fated to have it yet. I'll leave it here!"

"En!" Ling Qingxue nodded.

Then, she asked hesitantly, ""Ruofei, do you think... I should try?"

Xia ruofei was stunned for a moment and said, "there are no shortcuts to break this kind of barrier. You can only rely on absolute strength." Qingxue, your cultivation level is still relatively low. I'm afraid ..."

"Then I won't try!" Ling Qingxue smiled and said, "let's not waste time!"

Xia ruofei thought for a while and said, "there's no harm in trying!" Anyway, we should have already completed this level's mission and are just waiting for the evaluation results to come out. This kind of protective barrier is very typical. Even if you can't break it, it's good for you to feel it! This is a rare experience!" "Then... I'll try?" Ling Qingxue was also a little curious, so she immediately asked.

"Go!" Xia ruofei said, "but remember, you must not use too much force to hit the barrier. Otherwise, the force of the impact will definitely hurt you! You can only do what I did just now, gently press on it, and then slowly increase the strength."

"Mm! I saw what you did just now, don't worry!" Ling Qingxue was eager to try.

"Don't add too much strength at once. Also, if you feel that your palm can't withstand the pressure anymore, you must give up decisively. It's meaningless to blindly persist. You'll only hurt yourself." Xia ruofei warned.

"Okay, I'm very afraid of pain. I definitely won't stupidly persist!" Ling Qingxue said with a smile.

"There's one more important thing. Even if you want to pull it out, you can't do it all at once. Otherwise, the barrier membrane will bounce back with a lot of force. Even if you're lucky and don't suffer any serious injuries, your wrist will definitely be fractured. So, you must pull it out bit by bit. Don't be too hasty." Xia ruofei instructed.

Ling Qingxue nodded seriously and said, ""Alright, I've remembered everything. Is there anything else I should take note of?"

Xia ruofei thought for a while and said, "it's nothing much. Anyway, you're just feeling it. Just pay attention to your safety!"

"Alright!" Ling Qingxue said, "then I'll go and try!"

"Go!" Xia ruofei said.

He had also followed Ling Qingxue to the side of the barrier. This way, if Ling Qingxue were to be injured due to any mishandling, he would be able to treat her in time.

Ling Qingxue looked at Xia ruofei.

Xia ruofei nodded and gave her an encouraging smile.

Ling Qingxue was excited and nervous at the same time. She slowly reached out her hand and placed her palm on the barrier like Xia ruofei.

Xia ruofei had been smiling at Ling Qingxue the whole time. He was no longer worried about his personal gains and losses. To him, Ling Qingxue just wanted to experience this kind of barrier. Hence, he was in a very relaxed mood.

When Ling Qingxue's palm touched the barrier's membrane, the membrane caved in slightly.

The barrier's membrane was elastic to begin with. Even if he did not use much force, it would sink down with a light press. This had nothing to do with one's cultivation level.

Xia ruofei smiled at Ling Qingxue and said, "Try to add a little strength, but be careful not to add too much at once. You have to be wary of the force of the rebound!"

Ling Qingxue nodded and began to press down gently.

Xia ruofei chuckled as he observed Ling Qingxue's expression. However, his smile soon froze and his expression became very dull. His mouth slowly opened until it became an "O" shape, but he did not feel anything.

Because Xia ruofei clearly saw that Ling Qingxue had only pressed down lightly, and her hand had directly penetrated the membrane wall of the barrier. Xia ruofei suddenly felt like he was in a dream.

The most ridiculous thing was that Ling Qingxue didn't actually destroy the barrier. Although her hand had pierced through the membrane of the barrier, the barrier still existed and didn't break apart. It was as if her hand was also a part of the barrier.

Xia ruofei could not believe his eyes.

There's actually such an operation?

Xia ruofei had just patiently reminded Ling Qingxue to pay attention to this and that. He was clearly an experienced driver.

What he did not expect was that Ling Qingxue would turn around and use such an unexpected move to slap Xia ruofei's face.

Xia ruofei's instructions on how to take note of when using force and experience in holding back... Seemed to be of no use to Ling Qingxue. She was like a newborn calf, not following the usual routine at all, but the effect was surprisingly good.

In fact, Ling Qingxue was also shocked.

She followed Xia ruofei's instructions. At first, she only pressed lightly on the Ward's membrane and did not dare to use any force. After she stabilized herself, she started to exert force. At first, she used very little force. However, the magical thing was that the Ward's membrane did not seem to have any effect on her. With just a little force, her hands went through it.

Didn't they say that the barrier's membrane was very tough and had a very strong anti – shock force? How did this happen? Ling Qingxue was also confused.

She stammered, "RUO ... RUO Fei... How could this ... This happen?" I... What.... What should I do now?"

Chapter 3439: You're still the ruthless one (1)

Xia ruofei was also dumbfounded. He said weakly, "I've never encountered such a situation before! Why don't you ... Try and see if you can pull your hand out? It can't be stuck, right?"

"Oh!" Ling Qingxue said adorably.

Then, she really slowly pulled her hand out.

"Stop, stop, stop, stop!" Xia ruofei quickly called out. You're really pulling it out! I was just joking! What if I can't reach in later? Really... You've already reached your hand into the barrier, and you still need to ask me what to do? Of course we're going to get that crystal card!"

Ling Qingxue could not help but glare at Xia ruofei and said, "You're still joking with me at a time like this!"

Xia ruofei chuckled, "you scared me." Try to ease the atmosphere... Qingxue, slowly reach in and try to take the crystal card off. You must be slow! If there's anything wrong, immediately retreat!"

Xia ruofei felt that the current situation was a little strange. He did not know if Ling Qingxue would be in danger if she went to get the crystal card. Everything had gone so smoothly that it did not seem real.

However, it was impossible for him to give up under such circumstances. Xia ruofei did not have the ability to break the barrier. Otherwise, he would not have let Ling Qingxue take the risk.

Of course, looking at the situation, it didn't seem like there was any danger.

Xia ruofei thought to himself, "could it be that... This crystal card is not only protected by this barrier?" Otherwise, this would be too easy!

While Xia ruofei was still lost in his thoughts, Ling Qingxue had already reached her hand in and gently grabbed the crystal card.

Then, Ling Qingxue turned to look at Xia ruofei and pulled her hand back from the crystal card.

Xia ruofei's eyes widened as he watched Ling Qingxue take out the crystal card just like that. It was as simple as eating and drinking.

"This ..." Xia ruofei felt like his brain was about to crash.

"This ..." In the secret space enshrouded in purple mist, the green – robed elder was dumbfounded. He could not believe his eyes.

Could it be that there was a problem with the barrier? It can't be! Just now, that little child had exerted a Herculean effort, but he still couldn't make a single crack appear on the barrier! This girl was only at the Qi layer, how did she do it?

All of this was clearly beyond the green – robed elder's expectations. Of course, this was not what he had planned in advance.

Previously, Xia ruofei had overcome all the obstacles and passed through one level after another. Although he had performed amazingly, it was basically within his ability. At most, he had performed beyond his usual limits or perhaps he was more talented than the average cultivator. In addition, his reaction time was faster and he could find the appropriate way to deal with it every time. Therefore, the green – robed elder only praised him secretly and did not lose his composure as he did now.

"How is this possible? Even if this girl had the cultivation of the original infant stage, it would be impossible for her to get the control core of the heavenly cloud Palace so easily!" The green – robed elder muttered to himself.

This crystal plate was actually the control core of the entire heavenly cloud Palace. As the main part of the trial Pagoda's seventh level, the importance of the heavenly cloud Palace could be imagined. For countless years, not only were there Qi refining stage and golden core stage cultivators who came to the trial Pagoda to take the test, but there were also nascent Soul Stage cultivators who entered. Among the cultivators who made it to the seventh level of the trial Pagoda, there was no lack of nascent Soul Stage cultivators.

But so far, no one, including those original infant stage cultivators, had been able to take away the core control of the heavenly cloud Palace.

The wizardry barrier was extremely strong. Even a nascent soul advanced stage cultivator could not break it.

Only immortal soul Stage cultivators had a chance.

However, immortal soul Stage cultivators were no longer within the scope of the trial Pagoda's test.

Therefore, the core control of the heavenly cloud Palace was very safe. It was usually placed in this Pavilion without any other cover or protection.

The original design was to let the cultivators who had broken through the many obstacles in the cloud Palace understand that there was always someone better.

To put it bluntly, it was deliberately placed there, so that these geniuses who had passed through many obstacles could see it but not touch it. It would dampen their spirit and prevent them from being arrogant and conceited.

But today, this arrangement had an accident with a Qi layer cultivator.

The barrier did not seem to have any effect on Ling Qingxue. She did not even need to break the barrier to be able to take out the control core of the heavenly cloud Palace.

The green – robed old man couldn't help but be dumbfounded by this unexpected event.

He was stunned for a long time before he muttered to himself, ""There must be a problem with the barrier. But it didn't matter. The control core couldn't be stored in a storage treasure anyway. When they went to the 8th floor of the trial Pagoda, the control core would naturally be kept. By the way, she can't possibly make the cloud heaven Palace recognize her as their master, right?"

At this point, the green – robed old man couldn't help but laugh and muttered to himself, ""What am I thinking? For so many years, even I have not been able to make the cloud Palace recognize me as its master. Until now, I can only reluctantly use part of the cloud Palace's functions. She is just a little girl in the lianqi stage, how can she do it?"

As soon as the green – robed elder finished speaking, on the seventh level of the Tower of Trials, in the pavilion in the back garden of the heavenly cloud Palace, Ling Qingxue said to Xia ruofei with uncertainty, ""Ruoffei...This....This crystal plate seems to contact me on its own initiative!"

Chapter 3440: You're still the ruthless one (2)

In the hidden space enshrouded in purple mist, the green – robed old man almost choked to death. What the hell was with taking the initiative to establish a connection? It couldn't have really recognized him as its master, right? What was going on?

On the seventh floor of the trial Pagoda.

Xia ruofei was also in a state of shock. Ever since Ling Qingxue had easily lifted her hand into the barrier, he felt that his brain was not enough.

After hearing Ling Qingxue's words, Xia ruofei could not help but scratch his head. He asked, ""Take the initiative to establish contact? What do you mean?"

Ling Qingxue herself was confused. She said, ""It's to take the initiative to establish contact! This crystal card was the core control of the heavenly cloud Palace. Through it, one could control the entire heavenly cloud Palace. This information was given to me by the crystal card! Also ... I... I think..."

"What do you mean?" Xia ruofei couldn't help but feel anxious."Hurry up and tell me! Please don't let there be any side effects!"

Ling Qingxue quickly replied,"no!" No! RUO Fei means ... I seem to be able to control this cloud Palace, and even ... To the extent that I can keep the entire cloud Palace! I don't know why..."

Xia ruofei was dumbfounded. After a while, he muttered, ""This ... Establishing a connection ... So this is master recognition!"

"Master?" Ling Qingxue was still in a daze.

"You're saying that the crystal plate is the core control of the heavenly cloud Palace. It then established a connection with you on its own, so that you can control the heavenly cloud Palace and even keep it?" Xia ruofei asked.

"Yeah!"

"Isn't this a master recognition? It means that you are now the master of the cloud Palace!" Xia ruofei said. Then, he couldn't help but slap his head and said, "that's not right! There's still someone who took the initiative to recognize a master? And didn't they usually drip blood on it to recognize a master? You didn't do anything just now!"

If Xia ruofei could not understand, Ling Qingxue would naturally be clueless. She was in a daze throughout the entire process.

Hence, after hearing Xia ruofei's words, Ling Qingxue could not help but feel worried. She asked, "'RUO Fei, this ... There shouldn't be any problems, right?"

Xia ruofei and Ling Qingxue could not figure it out no matter how much they thought about it. However, in the hidden space enshrouded in purple mist, the elder in the green Daoist robe heard their conversation and suddenly came to a realization.

He seemed to have understood the reason.

The green – robed elder couldn't help but cry out, "'Could it be that this girl has fairy Lingbo's bloodline? She was the descendant of fairy Lingbo? This ... This was too unbelievable! However, this was the only explanation. Otherwise, why would the heavenly cloud Palace take the initiative to recognize him as its master? Fairy Lingbo actually had descendants, and they even had her bloodline aura... Wait! Could she be the reincarnation of fairy Lingbo? No, no, the time doesn't match ..."

The green – robed old man's emotions were in turmoil, and he had lost his usual calm demeanor as he muttered to himself.

On the seventh level of the Tower of Trials, Xia ruofei and Ling Qingxue did not know what was going on and could not give a reason.

Xia ruofei thought for a while and said with uncertainty, "'There shouldn't be any problems! This was a good thing! Qingxue, are you sure you can control the entire cloud Palace?"

Ling Qingxue nodded and said, "I'm sure!" Now, as long as I want to, I can clearly know the situation in any corner of the cloud Palace. I tried to control it just now and there was no problem! Do you want me to try again?"

"How do we try?" Xia ruofei was confused.

"You'll know soon enough!" Ling Qingxue smiled.

Just when Xia ruofei was still confused, he heard footsteps approaching. He quickly turned his head and saw two late – Stage golden elixir realm puppets charging towards him with killing intent.

Xia ruofei hurriedly pulled Ling Qingxue behind him to protect her. At the same time, he took out the qushuang flying sword and the blue immortal sword.

Ling Qingxue giggled and said, "ruofei, don't be nervous. I'm the one who transferred them over!" They won't hurt you!"

"Look at their murderous auras. Do they look like they won't hurt me?" Xia ruofei said.

Ling Qingxue pursed her lips and smiled, "that's because the order I gave them just now was to kill you!" But I've already changed it, look!"

Xia ruofei looked over doubtfully and saw that the two puppets no longer had the murderous look on their faces.

And when they came close, they just stood at the steps of the gazebo with their hands down, more obedient than a cat.

Xia ruofei looked at the two puppets in shock, then looked at Ling Qingxue and said, ""This is amazing! Qingxue! There were so many puppets and monsters in the heavenly cloud Palace! You'll have so many more fighters, I won't be your match in the future!"

Xia ruofei had just gone through many rounds in the cloud Palace. He knew the strength of those monsters and he had to take risks to pass many rounds.

Ling Qingxue proudly raised her chin and said, ""Now you're afraid! Let's see if you still dare to bully me in the future!"

Xia ruofei pretended to be afraid and raised his hands. ""I don't dare! I don't dare! Fairy, please spare me!"

Ling Qingxue laughed so hard that she couldn't even straighten her back.

After a while, Ling Qingxue asked again, ""By the way, ruofei, I think I can take away the entire cloud heaven Palace! Are we going to accept it?"

Xia ruofei replied without hesitation, "of course!" Such a good magic weapon, if he didn't take it, was he going to keep it for the new year? Didn't you always say how good it would be if we could live in this Palace? If you take it away now, Won't You Be able to live in it whenever you want in the future?"

In the hidden space enshrouded in purple mist, the green – robed elder also came back to his senses. He shouted, ""No! I can't accept it! If you take it away, what about my seventh level of the Tower of Trials?"

The heavenly cloud Palace was the main building of the seventh level of the Tower of Trials. All the tests were completed in the heavenly cloud Palace.

If the heavenly cloud Palace was taken away, then wouldn't the seventh level of the Tower of Trials only exist in name?

Wouldn't it be a joke if the nine – Level Tower of Trials was suddenly missing one level?

However, Ling Qingxue and Xia ruofei, who were in the heavenly cloud Palace, could not hear what the green – robed elder had said.

And even if she did, Ling Qingxue would not listen to the green – robed elder's words. She would only listen to Xia ruofei.

Besides, why can't I take a talisman that I got with my own ability?

Alright! In fact, Ling Qingxue's success in obtaining the numinous Sky Hall was largely due to luck.

But luck was also a part of strength, wasn't it?

Hence, after Ling Qingxue heard Xia ruofei's words, she immediately nodded and said, "Good! Then let's take the cloud heaven Palace away!"

Ling Qingxue then smiled and said, "RUO Fei, since we are going to keep the heavenly cloud Palace, we have to go out first."

"That's for sure! Right, how do I get out? Should we return the way we came?" Xia ruofei asked, "is there a back door in the cloud Palace? It's quite far from the front entrance!"

Ling Qingxue smiled and said, "there's no need to go through so much trouble. Just watch me!" Just don't resist."

"Oh!" Xia ruofei said.

Why did these words sound so familiar? He was the one who had said that to Ling Qingxue before.

Who would have thought that it was Ling Qingxue's turn to say this to Xia ruofei?

After Ling Qingxue had finished speaking, Xia ruofei felt a pulling force. It was not a strong force but he did not resist. The scene in front of him suddenly changed and he found himself in the huge square in front of the cloud Palace.

This was the place where he and Ling Qingxue had entered the heavenly cloud Palace.

"Awesome!" Xia ruofei could not help but give Ling Qingxue a thumbs up.

Ling Qingxue pursed her lips and smiled, then said, "Then I'll take over the cloud heaven Palace!"

"That's a must! What's there to hesitate about?" Xia ruofei said.

"En!" Ling Qingxue nodded her head.

Then, without seeing what Ling Qingxue did, the entire heavenly cloud Palace shook slightly and then disappeared into thin air.

The entire seventh level of the Tower of Trials was left with an empty square.

Xia ruofei looked at the empty seventh level of the Tower of Trials and couldn't help but laugh.. "Qingxue, you're the most ruthless one!"
