### Chapter 3461: Target: 1

Qing Xuan Taoist priest and immortal mountain river could not help but whisper at the same time, "" Alright!"

The two of them subconsciously lowered their voices as if they would disturb Xia ruofei if they were too loud.

In fact, Xia ruofei's ability to stand firm on the 478th step had tied with the best record in history. The results of the early stage nascent soul cultivators of Xuanji were naturally not counted. It was specially arranged to test the difficulty of the Obsidian stairway. This was a stairway specially used by Aurous core cultivators to break through.

Back then, it was on the four hundred and seventy – eighth step that Xuan Jizi was unable to endure and was thrown out.

If Xia ruofei could stand firm on this step and take a step forward, even if he was eliminated just at the edge of the 479th step, he would have created a new record.

Reverend Shan He was very pleased. In his long cultivation life, he had taken in many disciples, some of whom had similar cultivation to him, but Xia ruofei was the most special. Reverend Shan He did not meet Xia ruofei in person, but he took Xia ruofei in with a thought that he left in the spirit map space.

Of course, more importantly, Xia ruofei was the only one among his disciples who had cultivated the great Dao Arts.

The "great way of Dao" was the life's work of spiritual master Shan He. As for Xia ruofei, spiritual master Shan He naturally looked at him differently.

He thought highly of Xia ruofei's talent and tenacity. He also felt that Xia ruofei would be able to achieve good results on the stairway.

But even so, immortal mountain river didn't dare to think that Xia ruofei could break the record. After all, Xia ruofei was only in the intermediate stage of the Golden core realm. He would be at a great disadvantage in the heavenly stairs.

The reason why immortal Shanhe predicted that Xia ruofei would reach the four hundred and eightieth step during the duel was to show off in front of Taoist master Qing Xuan.

He just didn't expect Xia ruofei to be so hardworking. The road was extremely difficult, but he was courageous and courageous, catching up with the record set by the peerless genius Xuan Jizi.

"Brother mountain river, I really envy you!" Qing Xuan said sincerely, "how did you meet such a good disciple?"

Immortal mountain river laughed and said, ""I also left my precious mountain and river spiritual map in the cultivation world of the divine land. That's how I'm fated to be here today!"

8th level of the trial Pagoda.

Xia ruofei did not know the significance of the 478th step. He did not know that he was standing at the starting point of history, so he did not feel anything.

He only knew that every inch of his skin felt like it was being torn apart, and every bone in his body was creaking. He could be crushed into pieces at any moment.

That was the truth. If Xia ruofei's vital Qi had been exhausted and he could not maintain his defensive state, the huge pressure would have instantly crushed all the bones in his body. Even if he would be thrown out and eliminated, it would be difficult to avoid being seriously injured.

Fortunately, the spiritual pressure was not too bad. In front of Xia ruofei, whose spiritual power had reached the spiritualization realm, the Obsidian stairway's spiritual pressure could no longer pose a substantial threat to him. Now, Xia ruofei's biggest enemy should be the squeezing force of 500 to 600 GS.

If it was on earth, such a strong compression force would be enough to flatten the hardest material.

As a cultivator in the intermediate stage of the Golden core realm, Xia ruofei's physical strength was stronger than many cultivators in the advanced stage of the Golden core realm. In addition, his cultivation technique was definitely one of the best in the cultivation world. His spiritual power had also reached the spiritualisation realm. It could be said that in terms of overall strength, Xia ruofei was much stronger than many cultivators in the advanced stage of the Golden core realm. Even when he was clearing the trial, his results were much better than countless cultivators in the advanced stage of the Golden core realm who had passed the stairway since ancient times.

Xia ruofei panted heavily as he circulated his martial art at full speed.

He even took out a spirit Heart Flower petal from the spirit map space and directly absorbed it in his palm to treat the many injuries on his body that had broken bones.

Ten minutes later, Xia ruofei was fully recovered. He took a deep breath and stepped onto the four hundred and seventy – ninth step.

In the hidden space enshrouded in purple mist, immortal mountain river and Daoist priest Qing Xuan heaved a long sigh of relief.

Xia ruofei's step meant that a new record had been set.

Now, the two of them were no longer concerned about Xia ruofei's results. Even if Xia ruofei was eliminated now, he was still the keeper of the historical record.

The outcome of the bet between Qing Xuan Taoist priest and immortal mountain river had already been decided. Once Xia ruofei passed the four hundred and sixty – fifth step, no matter what his final result was, he would definitely be closer to the result that immortal mountain river had guessed.

Therefore, Qing Xuan Taoist priest did not have the mentality of winning or losing. At the same time, he did not have the previous trace of expectation. Now, he and immortal mountain river were holding an admiring attitude, watching the process of Xia ruofei climbing each step.

On the four hundred and seventy – ninth step, Xia ruofei still stood firmly.

After another round of adjustments, he took another step forward.

This time, it was the four hundred and eightieth step. This was the result that Daoist master mountain river had guessed.

Therefore, when Xia ruofei stepped onto the four hundred and eightieth step, immortal mountain river was also beaming with joy. The outcome of the bet was naturally important, and it was something worth being happy about since his prediction was so accurate..

Chapter 3462: Target: Reach the top (2)

Xia ruofei didn't know that his every move was being watched by two powerful cultivators. Even if he did, he couldn't care about anything else now because he had to concentrate all his energy to fight against the terrifying pressure. He couldn't afford to have any distracting thoughts.

At four hundred and eighty, Xia ruofei was still standing steadily.

Xia ruofei's every step seemed to be difficult and shaky as if he would be eliminated at any time.

Xia ruofei's every step was creating history, but he didn't know it.

Now, he had to stay at each level for at least ten minutes before he could barely adjust. However, perfected Shan He and Qing Xuan Taoist priest were not impatient at all. Instead, they were secretly cheering for Xia ruofei.

After all, he was the strongest cultivator in the Golden core stage in history. As long as such a genius did not die halfway, he would definitely grow up to be a pillar of support for a region. Especially in the unstable world of cultivation, the value of such a talent could be imagined.

Unknowingly, Xia ruofei had already reached Level 499.

This was far beyond the expectations of the immortal mountain river and the Taoist priest Qing Xuan.

Even when immortal mountain river guessed that Xia ruofei could reach level 480, he had exaggerated. He did not want to be weak in front of Taoist Qing Xuan.

They did not expect Xia ruofei to be so resilient and directly rush towards the level 500 stage.

Of course, Reverend Shan He noticed that Xia ruofei had used the petals of the spirit Heart Flower several times to heal his injuries. The space of the spirit map was given to Xia ruofei by Reverend Shan He. The precious spirit heart tree was also a big gift from Reverend Shan He to Xia ruofei. Of course, he knew the wonderful use of the petals of the spirit Heart Flower.

It was also because of this that Daoist master mountain river admired this disciple of his even more.

It was obvious that Xia ruofei's bone armor could no longer withstand the pressure and was cracking. Otherwise, why would Xia ruofei keep using the petals of the spirit Heart Flower?

His bones were broken in many places, and he was constantly under great pressure. One could imagine the pain.

However, Xia ruofei's face was filled with determination and decisiveness. He rarely showed any signs of pain. He would only clench his teeth, close his lips, and move forward step by step.

In fact, even immortal Shanhe did not expect that Xia ruofei would find that his body was getting stronger under such a terrifying pressure.

Especially the broken bones, after being repaired by the spirit Heart Flower petals, the strength of the bones was clearly a bit stronger than before.

This was also one of the main reasons why Xia ruofei had been able to persevere until now.

Of course, ordinary people could not bear this kind of pain. Even if they knew that the stairway to heaven was very good for tempering the body, they could not do it to Xia ruofei's extent.

Xia ruofei took a few deep breaths and stood still on the 499th step.

The next step was the five hundredth step.

According to his experience, this step would be a huge pit, and the increase in pressure in all aspects would suddenly increase.

Under the current circumstances, a single mishap could result in a complete loss.

Xia ruofei stood firmly on the 499th step. His eyes were filled with determination. As he circulated the "great Dao technique" to control his vital Qi, he consciously released a trace of vital Qi to protect himself. He deliberately guided more of the squeezing force to temper his body.

Xia ruofei's action was undoubtedly very bold.

Under the pressure of this stairway, it was very difficult for an ordinary person to maintain a clear mind and calm thinking. Furthermore, they would definitely use all their strength to protect their body with their Yuan Qi. Who would dare to take the initiative to lower the strength of their Yuan Qi protection?

Furthermore, even if he went all out, the pressure on his body was already very painful. If the pain increased, he might not be able to bear it and be eliminated.

What was even more terrifying was that if one was not careful, the consequences would be extremely painful. If one was lucky, they might be injured and then directly thrown out, but if they were unlucky, they might be instantly turned into a meat pie.

Hence, Xia ruofei was taking a risk.

He didn't want to take too much risk, but he was very clear about his own situation. If he only relied on his current ability, there was a high probability that he would be directly sent flying when he reached the 500th floor, and then he would be stopped at the 500th floor.

There were only 18 steps left before he reached the top. Standing at Xia ruofei's position, he could almost touch the light curtain Door. If he was eliminated at this position, he would definitely not be willing to accept it.

In order to increase his strength, Xia ruofei was willing to endure any amount of pain. He was even willing to consume more petals of the spirit Heart Flower.

Xia ruofei relaxed his Yuan Qi protection by a little, and the pressure on his body instantly increased.

He had already tried his best to pay attention to the degree, but the sudden increase in pressure still made his expression change. Then, he heard a series of cracking sounds. Many of his bones had cracked or even broken. The huge pain suddenly hit him, making his face as pale as paper, and large beads of sweat fell from his forehead.

Xia ruofei groaned and felt a sweet taste in his throat. A stream of blood uncontrollably rushed up and slowly flowed down from the corner of his mouth.

In the hidden space enshrouded in purple mist, Daoist priest Qing Xuan was also shocked by this scene.

He suddenly vomited blood out of nowhere. This was indeed quite shocking.

“Brother mountain river, what’s wrong with this child?” Daoist priest Qing Xuan could not help but feel anxious. ‘He doesn’t look too good ... If he’s so seriously injured, he should have been teleported away quickly. But why hasn’t there been any movement until now? Could it be that there’s a problem with the stairway?’

With a complicated expression, immortal mountain river waved his hand and said, “”Daoist Qing Xuan, ruofei is fine, and the heaven ladder is fine. You don’t have to worry...”

Daoist Qing Xuan raised his eyebrows and said, “”I’ve controlled the trial Pagoda for hundreds of years. I know more than you ...”

“But I understand my disciple.” Immortal mountain river said calmly, “he looks a little scary, but in fact, he doesn’t seem to have reached his limit.”

Speaking of this, immortal mountain river asked again, “”Daoist Qing Xuan, can this heaven ladder also temper the body?”

Daoist Qing Xuan was stunned for a moment before he said, “The force of the pressure can indeed temper the body, but the process will be very painful and extremely difficult to control...”

“That’s right!” Immortal mountain river said, “this disciple of mine must have discovered this situation, so he consciously used the force of compression to temper his physical body. I guess he doesn’t have much confidence in the next five hundredth step, so he’s using this method to temper his body and improve his strength.”

Daoist Qing Xuan was dumbfounded and said, “This ... This ... How can this be done? If you let go of your Yuan Qi protection, you might end up with broken bones!”

“His spine has been broken many times, but he was healed by the elixir I gave him,” immortal Shanhe said calmly.

Taoist master Qing Xuan was not too surprised by the immediate effect of the elixir on external injuries. What he was really surprised about was that Xia ruofei was breaking his bones and then rejoining them

again and again. No matter how good the elixir was, it could not alleviate the intense pain during the process!

After a long while, Daoist Qing Xuan muttered, ""Brother mountain river, I'm impressed. Are all your disciples like this? He's even so cruel to himself, he's simply a madman!"

"We are indeed a little crazy, but RUO Fei is definitely the craziest among the crazies!" Immortal mountain river grinned.

"I think he ... Really has a chance of standing firm on the 500th level!" Daoist Qing Xuan said with a complicated expression.

Immortal mountain river looked at Xia ruofei in the bronze mirror and

said, ""Daoist Qing Xuan, he's already at this position. Do you still think that his goal is to reach the five – hundredth floor? I can see that he was aiming to reach the top from the start. No matter how difficult it was, he never wavered from this thought...."

Chapter 3463: Top of the mountain (1)

Daoist Qing Xuan's body trembled. He turned to look at Xia ruofei in the bronze mirror. Xia ruofei's eyes were bloodshot. His bones were broken and he was trembling from the pain. If it was any other person, they would have fainted from the pain. However, Xia ruofei kept his mind clear and even guided the huge pressure to train his body.

Even in the eyes of an Almighty cultivator like Daoist Qing Xuan, such a crazy move was unbelievable.

He saw the crazy aura that Xia ruofei was exuding and knew that immortal Shanhe was right. This kid was really aiming for the top and would do anything to achieve his goal.

A person who was so cruel to himself was truly terrifying.

Even Daoist Qing Xuan could not help but feel a chill in his heart. He said with a bitter smile, ""Brother mountain river, I've learned a lot... This kid is only in the mid – Arous core stage, but he's so scary..."

Immortal Shanhe also looked at Xia ruofei in the bronze mirror and said, ""The ones who are terrified should be our enemies. This child is in the same camp as us. The crazier he is, the happier we should be!"

"That's reasonable!" Daoist priest Qing Xuan said, "I'm looking forward to his performance more and more ... I'm very glad that I gave him an energy storage Pearl as a reward during the previous round. Otherwise, no matter how crazy he is, he won't have enough Yuan Qi to use."

Immortal mountain river pursed his lips and said, "even if my disciple doesn't have the elemental storage Pearl, it's still fine!" Furthermore, he obtained this elemental storage bead with his own abilities!"

"I'm just saying. I don't mean to ask for a reward!" Taoist master Qing Xuan said in a bad mood.

"Everyone knows that Daoist brother Qing Xuan is impartial and incorruptible. How could you possibly play favorites?" immortal Shan He laughed. Right?"

Daoist Qing Xuan rolled his eyes and turned his head away, not bothering to pay any more attention to immortal mountain river.

This old man was a little arrogant now. Wasn't it just that the disciple's performance was a little better? He's already starting to attack the sky, the earth, and the air?

Alright! Having such a disciple was really something to be envious of.

On the eighth level of the Tower of Trials, the Obsidian stairway.

Xia ruofei stood firmly on the four hundred and ninety – ninth step. He slowly released his Yuan Qi protection and gradually increased the pressure on his body.

This required his control to be extremely precise. If he released too little, he would not be able to achieve the effect of tempering his body. If he let go too much at once, his body would not be able to withstand the huge power and would likely suffer fatal injuries. The worse outcome would be that he would be thrown out involuntarily and stop at Level 499.

And all of this required him to endure the immense pain of his bone armor shattering while achieving precise control, which was obviously even more difficult.

People with weak willpower would not be able to maintain their consciousness under such pain, let alone control it precisely.

Fortunately, Xia ruofei's will had always been strong. In addition, after his spiritual power had broken through to the spiritualization realm, his precision in controlling it had also improved.

Even so, what Xia ruofei was doing now was like dancing on the tip of a knife.

He was completely focused and did not dare to be distracted. He continued to draw in the squeezing force and tempered his body over and over again.

Xia ruofei couldn't even remember how many petals he had used.

Fortunately, he hadn't used the flower petals much recently, so he had a lot of them in stock. Under such circumstances, only the petals of the spirit Heart Flower had an immediate effect. Other methods would not be able to quickly recover the bone armor. Hence, even though Xia ruofei's heart ached, he still used the petals decisively.

Now was not the time to save flower petals.

As time passed by, even Daoist Qing Xuan and immortal mountain river could not stand it anymore. Even through the copper mirror, they could feel the immense pain that Xia ruofei was going through.

Sometimes, when the pressure was slightly too much, the result would be very terrifying. The bones would be broken directly, and even the arms would be twisted irregularly many times.

If this kind of pain was endured in an instant, it would still be within the range of tolerance.

However, Xia ruofei was constantly enduring it and it had almost been an hour.

In other words, a person's bones would be repeatedly broken and connected within an hour, and then immediately broken again. If it was someone else, they would probably die from the pain.

However, Xia ruofei was still standing firmly on the steps. However, because he was biting his teeth so hard, his lips had been bitten open countless times. Every time he used the petals of the spirit Heart Flower, the injury on his lips would also be healed. However, the blood on his chin remained. In addition, his muscles were twisted from the pain, making him look even more terrifying.

Xia ruofei had suffered so much pain, but he had to pay for it.

In this one hour, he slowly reduced the strength of the yuan Qi protection on the surface of his body, and his body also slowly adapted to the increasing pressure.

Right now, the strength of his Origin Energy protection was only half of what it was before, but his body was still able to withstand the increased pressure. In the cycle of breaking, healing, breaking, and healing, his body's strength was growing at a rate that could be seen with the naked eye..

Chapter 3464: Rushing to the top (2)

If Xia ruofei were to recover his strongest Yuan Qi defense, the pressure on his body would not be able to hurt him.

Xia ruofei assessed the situation seriously. He still had about one – third of the vital Qi left in the energy storage Pearl. He could predict that the next 19 steps would consume a lot of vital Qi. Hence, he had to save enough vital Qi. He could not train his body on this level indefinitely.

In addition, the strength of his physical body had improved a lot, and he should be able to rush to the five hundredth step. Even if the pressure was too great and he couldn't stand firm after going up, he felt that he should still have a great chance to persist for a period of time. When he reached the five hundredth step, he could continue to temper his body. Moreover, when the pressure becomes greater, the tempering effect should be better.

After weighing the pros and cons, Xia ruofei felt that it was time to try for the 500th step.

After Xia ruofei made up his mind, he immediately restored his energy shield to its maximum. At the same time, he absorbed a spirit Heart Flower petal and used it. The small and hidden injuries that he had sustained during the process of tempering his body were also recovering at an extremely fast speed.

After the yuan Qi protection was strengthened, Xia ruofei felt much more relaxed.

It was like a person who had a heavy sandbag tied to his leg after running for a while and suddenly removed it.

After the pressure on his body was reduced, not only did Xia ruofei not feel the pain, but he could even move his neck and limbs. It was much easier.

Qing Xuan Taoist priest and Shan He Zhenren saw Xia ruofei's posture and knew that he was definitely going to try to go up another level. The two of them suddenly revealed a serious expression and stared at the image displayed by the copper mirror.

They were very clear that the 500th step was undoubtedly the most important threshold in the entire Obsidian stairway.

This was the last step before reaching the top. If he could reach the 500th step, the pressure from the remaining 18 steps would decrease. Xia ruofei had a chance of reaching the top.

The key was to see if Xia ruofei could withstand the sudden increase in pressure on the 500th step.

Success or failure depended on this one move.

Xia ruofei took a deep breath. At this time, his physical condition was at its peak. Naturally, he did not need to hesitate and bought it immediately.

A huge pressure descended.

Xia ruofei, who was already mentally prepared, did not care about anything else. He lifted his right foot and stepped on the 500th step. Then, he spread his feet at an angle and stood firmly on this step.

The increase in pressure on the five hundredth step was indeed quite large.

In terms of spiritual pressure, Xia ruofei actually felt the pressure that he had not felt for a long time. Even though his spiritual power had already reached the spiritualization realm, he still could not completely offset the spiritual pressure. The difficulty of the Obsidian stairway was evident.

The invisible force that stirred the vital Qi also grew stronger. Xia ruofei had to use all his might in the “great Dao Sutra” to barely control the agitation of the vital Qi. He slowly brought it into his Qi circulation and finally, it slowly returned to his dantian.

At the same time, he also needed to transfer a large amount of vital Qi to every corner of his body.

Even though his Yuan Qi defense was at its strongest, the force of the pressure still pressed down on his body.

Even though Xia ruofei had tempered his body like crazy on the previous floor and his physical strength had improved greatly, his bone armor still cracked uncontrollably under the pressure. Some of his bone armor even broke apart.

As he was only in the intermediate stage of the Golden elixir realm, Xia ruofei’s biggest problem on the 500th step was that his vital Qi protection was not strong enough. This caused more pressure to directly affect his body.

Xia ruofei took out the petals of the spirit Heart Flower from the spirit map space and absorbed them while trying his best to resist the pressure.

One minute, two minutes, three minutes ...

Xia ruofei endured for more than 20 minutes and used up eight petals of the spirit Heart Flower before his body could adapt to the strong pressure and no longer broke his bones.

Obviously, Xia ruofei’s physical strength had increased by a lot in just 20 minutes.

It seemed that the body tempering method was really effective! Xia ruofei was overjoyed.

He decided to stay on the five hundredth step, boldly and carefully guiding the squeezing force to temper his body.

In any case, he could only ensure that his bones would not be fractured under the pressure of the pressure while his vital Qi protection was at its strongest.

This was obviously not enough. After all, the strength of the pressure would increase with each level.

With Xia ruofei's current condition, the sound of bones cracking was inevitable when he reached the five hundred and first step.

Rather than going up another level without any confidence, it was better to be more stable and directly temper himself on this step, so that he would have more confidence.

Hence, Xia ruofei began to gently release a trace of vital Qi protection. Instantly, the pressure on his body became much greater. His body, which had already adapted to this strength, could not bear the burden again. As he grimaced in pain, the bones in his body began to creak.

Just like that, Xia ruofei continued to train his body and at the same time, he paid attention to the elemental energy storage Pearl's condition.

After another ten minutes, Xia ruofei activated his Yuan Qi defense to the maximum and stepped onto the 501st step.

The next step was basically to repeat the previous process. Xia ruofei's speed was very slow but his steps were very steady. Just like that, he went up step by step and was getting closer and closer to the light screen door at the top of the Obsidian stairway.

Level 502, level 503, level 504...

Xia ruofei only stayed on the 510th step for a little longer. After all, the increase in pressure at every 10th step was greater than that of ordinary steps, but it was not particularly obvious.

After resting for a few minutes on the 510th step, Xia ruofei continued to climb.

Just like that, Xia ruofei endured great pain as he made his way to the five hundred and seventeenth step.

At this moment, Xia ruofei had really run out of energy. There was very little energy left in the Suan NI's energy storage Pearl. His spiritual power, which had just broken through, was once again close to exhaustion as he continued to resist the pressure.

At this moment, Xia ruofei finally felt how close he was to the door of light. It was so close that he could even touch it if he stretched out his hand.

This was the last step. As long as he stepped on this last step, he would successfully pass the test of this extremely terrifying Obsidian stairway.

However, Xia ruofei did not take the last step immediately because he did not know if the pressure would increase at the last step. If he was not prepared, he would be thrown out and eliminated immediately. That would be a joke.

Hence, even though there wasn't much vital Qi left, Xia ruofei continued to train his body on the five hundred and seventeen steps.

At the same time, he took out the origin crystal and held it in his hand. He quickly circulated the "great Dao Arts" technique to stabilize his vital Qi while absorbing the pure energy in the origin crystal. This way, he could more or less recover some vital Qi.

In that hidden space enshrouded in purple mist.

Taoist master Qing Xuan and immortal mountain river had already clenched their fists, their eyes full of anticipation.

When they saw Xia ruofei stop at the five hundred and seventeenth step, the two of them could not help but look at each other.

Qing Xuan Daoist priest could not help but whisper, "You should go! Why are you hesitating at this time?"

Chapter 3465: Super genius (1)

Immortal mountain river was so excited that he couldn't sit still. He paced back and forth in front of the copper mirror and said anxiously, "This kid, why is he hesitating at this critical moment? Hurry up and go!"

This was directly reaching the top! It was much more exciting than breaking a record!

Normally, breaking a record was something to be happy about. After all, this record had been maintained for one to two hundred years. In the long years before this, the record had been even lower. If Xia ruofei could break the record, it already proved his amazing talent. He definitely could not escape the title of super genius.

However, this depended on what they were compared to.

If Xia ruofei was eliminated at around four hundred and eighty steps, it would be fine.

However, he was now on the five hundred and seventeenth step. He was only one step away from setting a record that would never be surpassed in the future.

It was definitely unprecedented, and there was even a high probability that it would never happen again.

The difficulty of the Obsidian stairway was too great. Even if an early Yuanying stage cultivator tried to climb the Golden core stage cultivator's Obsidian stairway, he could not guarantee that he would be able to reach the top. Therefore, in the long years to come, it was likely that no one would be able to reach the top.

Even if there was such a genius, he would at most share this record with Xia ruofei. He would not be able to surpass Xia ruofei's Obsidian stairway. The time was not counted. It did not matter how long it took. It just depended on how many steps one could last.

In fact, those who took a longer time would naturally have to withstand more pressure. To be able to reach the top after being in an environment with super pressure for a long time meant that their strength was even more amazing!

But now, Xia ruofei was clearly just one step away from the final stage, but he suddenly stood still on the 517th step. This was really bad for the two powerful cultivators who were watching him.

They looked on helplessly as Xia ruofei stood on the 517th step and started to train his body. They couldn't help but look at each other.

The two of them realized a problem at the same time.

Qing Xuan smiled bitterly and said, "Brother mountain river, we've all overlooked a problem..."

Immortal mountain river also smiled bitterly and said, "Yup! We were preconceived ... This child doesn't know the situation of the last step, so he must be well – prepared before he dares to step up. He definitely doesn't want to fail at the last moment!"

Taoist master Qing Xuan patted his forehead and said, not knowing whether to laugh or cry, "In the past, no one has ever been able to reach this stage. Even the few early Yuanying stage cultivators who tested the Obsidian stairway were not able to reach the second last step, so I didn't consider this situation..."

Immortal Shanhe looked worried and said, "I don't know how long he can last ... The pressure on this step is already extremely great, and I guess he doesn't have much Yuan Qi left. The reason why he's stuck on this step now is because he's not confident, and he wants to temper his body to make it stronger."

Daoist Qing Xuan pursed his lips and said, "That can't be helped ... This is fair to every challenger, no one knows about the situation of the Obsidian stairway in advance. If it were you and me going through a similar obstacle, we'd definitely try to be as safe as possible before the situation is clear!"

"I'm just afraid that he's too safe and will lose the big picture because of the small..." Immortal mountain river said with a frown.

Qing Xuan laughed and said, "Brother mountain river, you're being a little too concerned. I've watched this child go through the trials one by one. Not only is he astonishingly talented, but he's also very resilient. He's also very bold. If he really can't keep up with the vitality supply, even if he's not fully prepared, he'll definitely try his best to climb up! It wouldn't be a joke to be eliminated in the second last level!"

"I hope so ..." The worry on immortal mountain river's face didn't decrease much.

On the eighth level of the Tower of Trials, the Obsidian stairway.

Xia ruofei stood on the 517th step and carefully controlled the strength of his Yuan Qi protection. He gradually increased the pressure on his body and continued to use the seemingly cruel method to temper his body.

There wasn't much vital Qi left in the elemental storage Pearl. Fortunately, he was constantly absorbing vital Qi crystals while he was operating the "great Dao chant" technique. He could more or less replenish some vital Qi, so he could still hold on for the time being.

Besides, ever since his spiritual power had broken through to the spiritualization realm, Xia ruofei's fine control had improved greatly. Hence, he could accurately control the strength of his vital Qi protection, which increased the efficiency of his body tempering.

Now, every second he stayed in this environment meant an additional second of consumption. The more precise his control was, the better the tempering effect of his body would be.

Moreover, he could also very accurately estimate how long he could last. It was necessary to make as many preparations as possible, but the premise was that he couldn't be eliminated on this level, and he had to reserve a certain amount of Yuan Qi for use on the next level. Otherwise, it would be meaningless to temper his body now.

Hence, even though Xia ruofei still looked very miserable, with his bones constantly being crushed or even broken, he was actually very calm and knew what was going on.

However, the bloody chin, the irregular distortion of his bones, and the involuntary trembling of his muscles due to the pain all made him look a little terrifying..

Chapter 3466: Super genius (2)

The teetering look made Daoist Qing Xuan and immortal mountain river's hearts clench.

However, they couldn't help and couldn't remind Xia ruofei not to waste time on this floor and to just rush up.

The two of them were extremely nervous and excited. Their expressions were also colorful. They did not look like two Almighty cultivators with extremely high cultivation.

As time went by, the amount of Yuan Qi Xia ruofei could mobilize was decreasing.

Even though Xia ruofei was absorbing the pure energy from the crystals at full speed, the consumption was still much greater than the absorption. Hence, the total amount of vital Qi was decreasing very quickly.

Finally, the last bit of vital Qi in the elemental storage Pearl was absorbed by Xia ruofei. There was less than 10% of vital Qi left in his body.

Xia ruofei sighed to himself. Although he still felt that he was not confident, his Yuan Qi reserves did not allow him to continue wasting time on this level.

Hence, Xia ruofei stopped controlling it and activated his vital Qi defense to the maximum. He immediately felt his body relax, but his vital Qi was being consumed at a faster rate.

Xia ruofei didn't dare to waste any time. He took out a spirit Heart Flower petal from the spirit map space and quickly absorbed it into his palm to absorb the medicinal properties.

Some of the injuries on his body began to heal at an extremely fast speed.

Xia ruofei had been paying close attention to the consumption of his vital Qi. After another minute or so, Xia ruofei knew that he could not wait any longer. He had to save some of his vital Qi on the last step.

Otherwise, once he stepped on it, he would not have any strength to resist and would be thrown out of the competition.

Therefore, even though he had only recovered half of his injuries, he still took the final step with determination.

In the hidden space enshrouded in purple mist, immortal mountain river and Taoist Qing Xuan heaved a long sigh of relief when they saw that Xia ruofei had finally moved. They felt their bodies relax.

“This kid is finally willing to take this step!” Immortal mountain river said with relief.

Daoist Qing Xuan laughed and said, “I knew it!” This child knew what he was doing! If he was an idiot, how could he have made it to this level!”

Immortal mountain river was showing off again. He slightly raised his chin and said, “That’s right! The disciples of Daoist master mountain river are naturally smart!”

Daoist priest Qing Xuan couldn’t help but curl his lips, but he had nothing to refute. Seeing that other people’s disciples were about to set a dazzling record, what was the point of bragging? If this was his disciple, he would definitely boast even more!

On the Obsidian stairway, Xia ruofei did not hold back at all. He immediately covered his entire body with vital Qi. Naturally, he adjusted the strength of his protection to the maximum and stepped onto the last step.

With a loud “Dong”, Xia ruofei’s left foot landed heavily on the steps. The huge vibration even made his ankle hurt.

Xia ruofei couldn’t help but be stunned. There wasn’t even a trace of pressure on the last step!

This was also the reason why he had taken such a heavy step.

On the previous steps, Xia ruofei felt as if he was living in a thick liquid due to the immense pressure and pressure. Every step he took was met with great resistance.

This was a bit like someone who missed a step and thought that there would be another step next, but it turned out to be flat ground. Then, he must have stomped on it heavily.

Xia ruofei’s situation was similar.

He had taken this step according to his estimation of the pressure. He didn’t expect that the pressure didn’t exist at all. This step was naturally quite heavy, even making his ankle feel pain.

Of course, this was also because the injury to his ankle had not fully recovered. During the process of Huanhuan’s challenge, his ankle had suffered the greatest pressure, so the injury was naturally unavoidable. Just now, he did not have time to wait for the medicinal properties of the spirit Heart Flower petals to be completely absorbed and directly ascended the last step, so it was normal for him to be injured again. Fortunately, there was still a lot of medicinal properties in the petals of the spirit Heart Flower. Once they were all absorbed, his injuries would naturally heal.

Xia ruofei did not expect the Obsidian Stairway to Heaven to be so unpredictable. He had thought that the pressure on the last step would suddenly increase to a point where he could not bear it, including being eliminated on this step. He had been mentally prepared and had done his best to prepare for it. He did not expect that there was no pressure at all on the highest step.

So he was stunned at first, but when he came back to his senses, the first thing he did was to quickly lift his right foot up to see that his right foot was still on the next step, so he was actually still bearing the pressure of going up a step.

When both of Xia ruofei's legs were on the top of the stairs, he suddenly felt more relaxed than ever.

There was no longer any pressure, and the air was no longer so thick that it seemed to have solidified. The strange force that was constantly stirring the vital Qi had also disappeared without a trace. Only the remaining medicinal properties of the spirit Heart Flower petals continued to heal his injuries, and a cool force flowed through his entire body...

In the hidden space enshrouded in purple mist, Daoist Qing Xuan and immortal mountain river clenched their fists at the same time, and they could no longer hide the joy on their faces.

"Good boy! You're really good!" Immortal mountain river said as he looked at Xia ruofei in the bronze mirror.

"To be honest, I really envy you!" Daoist priest Qing Xuan said with a complicated expression, "why do you think your luck is so good? I can't believe I'm able to find such a super genius after leaving a good karma in the cultivation world of the divine land!"

"What do you mean by picked it up?" immortal mountain river glared. RUO Fei and I are destined to be master and disciple. As a cultivator, don't you know about karma? Forget it, I'm happy today! I can't be bothered to argue with you

Daoist Qing Xuan smiled bitterly and said, "this kind of karma ... I also want it!" Brother mountain river, please teach me!"

Immortal Shanhe was certainly thick – skinned enough, so his expression didn't change at all. He just started to change the topic and pointed at Xia ruofei in the bronze mirror. He laughed and said, "Daoist Qing Xuan, look at this kid, he's stunned ..."

Daoist Qing Xuan looked at Xia ruofei in the image of the magic treasure and couldn't help but smile. "This child has been full of wisdom all the way here. It's my first time seeing such a stunned expression!"

"This means that the design of the Obsidian Stairway to Heaven was very successful!" Qing Xuan continued.

Immortal mountain river looked at Qing Xuan and for the first time, he didn't attack him.

Now that immortal Shanhe's state of mind was so good, he was amazed at his disciple's amazing performance. Such a result was enough for him to brag about for a year, while Daoist priest qingxuan was guarding the pass bitterly. What else was there to brag about other than the design of the pass?

That's right, he had also lost the treasure, the cloud heaven Palace. If it wasn't for the fact that there were guests, he would have cried himself to sleep in the toilet...

On the eighth level of the Tower of Trials, at the top of the Obsidian stairway.

Xia ruofei was indeed a little shocked. He had made too many difficult preparations. The more prepared he was, the more shocked he was at the moment of reaching the top.

He couldn't help but show a bitter smile on his face. It seemed that the Almighty who designed the Obsidian stairway really didn't play his cards according to common sense!

However, Xia ruofei did not realize that the difficulty of the Obsidian stairway had long exceeded the capabilities of a golden core cultivator. Even if there was no pressure on the last step, no one would be able to reach this position. Hence, this design was meaningless before today.

Xia ruofei stood at the top of the Obsidian stairway and continued to absorb the remaining medicinal properties of the spirit Heart Flower petals as he slowly turned around to look.

The long heavenly stairs went all the way down. The place he had started from was already very far away, and the stone tablet with the words "Jindan" engraved on it was almost invisible.

After all the difficulties, he had finally reached the top!

Xia ruofei let out a long breath, his heart filled with emotions ....

Chapter 3467: The big clearance gift bag (1)

It wasn't an overstatement to say that although the missions on the 8th level didn't look complicated, and were even a little simple and crude, the difficulty was really super high. It was much harder than all the missions on the previous

7 levels combined.

Xia ruofei had many tricks up his sleeve and a solid foundation. He only managed to reach the top after going through many dangerous situations. It was hard to imagine what would happen to other cultivators when they reached this stage.

Xia ruofei finally understood why Ling Qingxue had only managed to go up a hundred steps before she was eliminated.

It wasn't that Ling Qingxue was too weak, it was just that the difficulty of the levels was too high!

Xia ruofei rested for a while, mainly to fully absorb the medicinal properties of the spirit Heart Flower petals and to let his injuries recover.

Speaking of which, Xia ruofei had gained a lot from this round.

Not counting the possible rewards that he could get after entering the trial Pagoda's ninth floor, just on this Obsidian stairway, his mental strength had broken through the bottleneck due to the pressure and

entered the spiritualization realm. This saved him at least a few years, and at most, it could even save him a dozen years or a few decades.

On the other hand, after reaching the 400th step, Xia ruofei used the force of the pressure to temper his body. Although he had no choice, objectively speaking, it had greatly improved his physical strength.

Although he was not a pure body cultivator, the strength of his physical body was not inferior at all.

It wasn't an exaggeration to say that if Xia ruofei were to fight against a normal Qi refining cultivator, even if he stood there and let them attack him, they wouldn't be able to do him any harm.

Xia ruofei was satisfied with the breakthrough of his spiritual power and physical strength.

The more effort, the greater the return. This rule was vividly reflected on the Obsidian stairway.

After Xia ruofei had absorbed the last bit of the spirit Heart Flower petal's medicinal properties, he used his spiritual power to check on his body's condition. He realized that his injuries had almost recovered. Only a few of his most serious injuries had not fully recovered. However, they would no longer affect his normal movements and combat. Under such circumstances, it would be a waste to continue using the spirit Heart Flower petals. Hence, Xia ruofei did not bother with them.

Even if he didn't care about it, it would recover very quickly.

Besides, Xia ruofei had been absorbing crystals during the break, so he had recovered some of his energy.

He nodded to himself and finally turned his eyes to the light curtain Door, feeling a little excited.

Behind that door was the top floor of the trial tower, which was the final destination of this trial.

According to the instructions on the stone tablet, Xia ruofei had actually completed the entire trial mission as there were no other tests on the top floor.

Xia ruofei steadied his mind and walked towards the door of light.

Soon, he arrived in front of the light curtain Door. He paused for a moment, and without much hesitation, he walked in.

A familiar pulling force came over. Xia ruofei felt the stars in front of him shift, but he quickly stabilized himself and felt that his feet were on the ground again.

Although the stone tablet at the bottom of the Obsidian stairway had stated that there was no test on the ninth level of the Tower of Trials, Xia ruofei was not stupid enough to believe it all. After all, it had been proven that the powerful cultivator who designed this mission did not play by the rules.

Therefore, Xia ruofei still filled his body with vital Qi and kept his spiritual power out. He passed through the light screen door in a highly alert state.

Especially when he felt his feet on the ground, his muscles tensed up even more. He released his spiritual force at once and looked left and right, ready to take the test of the 9th level at any time.

However, this time, the senior who designed the Tower of Trials 'mission did not play any tricks. The entire ninth floor of the Tower of Trials was silent. Nothing strange appeared out of nowhere and attacked Xia ruofei before he could steady himself.

Xia ruofei didn't dare to let his guard down. He observed his surroundings while keeping his guard up.

He realized that he was in an attic, which was about 40 to 50 square meters in size. There were bookshelves all around him, extending from the ground to the ceiling. All kinds of books were densely packed on them.

In front of one of the bookshelves, there was an antique table and chair. On the table, there were all kinds of brush, ink, paper, and inkstone. There were six or seven writing brushes of different sizes hanging on the brush rack.

This was the trial Pagoda's ninth level?

Xia ruofei couldn't help but ask. This place looked more like a study room, but it was surrounded by bookshelves on all four sides. There were no doors or windows, which was a little strange.

Xia ruofei's eyes were naturally attracted by the four bookshelves. He could not help but walk closer to the bookshelves, wanting to take a book out and see what was recorded in these books that were kept in the ninth level of the trial Pagoda.

However, the moment his finger touched the book, something happened.

The book directly turned into a stream of light and rushed into his forehead with lightning speed, directly entering his sea of consciousness.

Xia ruofei had been on high alert all this while. However, the speed of the light beam was too fast. Even though he had quick reflexes, he could not avoid it. He could only watch as the light beam entered his sea of consciousness..

Chapter 3468: The big clearance gift bag (2)

Xia ruofei was shocked and instinctively backed away.

At this time, he immediately felt that after the stream of light entered his sea of consciousness, it was directly transformed into a large amount of information and filled his mind.

Xia ruofei was no stranger to this process. It was similar to the time when he absorbed the three Jade talismans from the heaven, earth, and human.

This was just the beginning. When Xia ruofei touched a book, it was as if a valve had been opened. Suddenly, all the secretaries in the room turned into streams of light and shot in Xia ruofei's direction as if they had eyes.

In an instant, the entire ninth level of the trial Pagoda was covered in this light. The bright light filled the sky and Xia ruofei could not help but close his eyes.

It wasn't that he didn't want to avoid them. On one hand, he had already realized that these books contained inheritance information and wouldn't harm him. On the other hand, and more importantly, there were too many streams of light. The room was so small that it could be said that there was no way to avoid them.

Under such circumstances, Xia ruofei decided not to Dodge. He stood where he was, ready to withstand the impact of the huge information flow.

Rays of light pierced into Xia ruofei's forehead. It looked as if his head had been pierced by thousands of swords.

In fact, Xia ruofei was not feeling good either. In a short period of time, a huge amount of information had been flooding into his mind. Any normal person would feel uncomfortable. Furthermore, there was a huge amount of information in the four walls of books. Fortunately, Xia ruofei's spiritual power had already reached the spiritualization realm and his sea of consciousness had also stabilized. It was naturally different from when he had absorbed the Jade talisman of inheritance.

Hence, even though Xia ruofei felt like his head was about to burst, it was just an unbearable headache. There was no danger.

The process did not take long. It only took two to three minutes. When the last ray of light entered Xia ruofei's forehead, everything returned to normal.

At this moment, the bookshelves on all four sides were empty.

The stream of light disappeared, but Xia ruofei was still absorbing the information. He was still standing at the same spot, frowning and closing his eyes. He was suffering from the discomfort of a huge amount of information being stuffed into his mind.

After another six to seven minutes, Xia ruofei finally heaved a long sigh of relief. He reached out to wipe the sweat off his forehead and looked around at the empty bookshelves.

He couldn't help but reveal a trace of lingering fear. If the number of books on the shelf increased by another 20 to 30%, he was afraid that he would not be able to bear it.

In fact, Xia ruofei was overthinking. Although no cultivator had ever made it to the 9th level of the trial Pagoda, these books were actually rewards that had been prepared long ago. No matter if it was a Qi refining stage cultivator, golden core stage cultivator or nascent Soul Stage cultivator, if they really wanted to pass the stairway to heaven, they would all end up in the same place and end up in this study room.

In other words, even Qi refining cultivators could withstand these inheritances. It was just that the light formed by the books would not be so violent and would be slower.

In fact, since Xia ruofei had been transported from the top of the heaven ladder for golden core cultivators, the light streams of the books were basically transported at the maximum speed that golden core cultivators could bear.

It was only because of Xia ruofei that he had the strength to do so. If it was another Aurous core stage cultivator, he would have been in a much more difficult position.

In the hidden space enshrouded in purple clouds, the image on the bronze mirror in front of Taoist Qing Xuan and immortal Shan He had changed to the ninth floor of the trial Pagoda. The two of them were also paying attention to Xia ruofei's situation.

When they saw that Xia ruofei had finished absorbing the information of the inheritance so quickly, they were all surprised.

The two experienced powerful cultivators quickly understood the reason. Daoist Qing Xuan could not help but show a trace of shock. After a long while, he said, ""Brother mountain river, I'm really impressed ... Your disciple's mental power has already broken through to the spiritualization realm! It was no wonder that on the heavenly stairs, he seemed to be able to deal with the spiritual pressure with ease! And when I was absorbing the book of inheritance just now, it was so fast..."

Immortal mountain river also looked surprised and said, ""Daoist Qing Xuan, this is a pleasant surprise!"

The two of them had both been in the Golden core stage and the original infant stage. They knew very well how difficult it was to cross the gap between the spirit gathering stage and the spirit transformation stage.

Back then, the two of them had been stuck in the spirit gathering stage for many years, and they had only broken through in one go because of a certain opportunity.

There were even some cultivators who had already reached the early stage of the nascent soul realm, but their spiritual power was still in the late stage of the spirit gathering realm. This was not uncommon.

On the other hand, Xia ruofei's vital Qi cultivation had just broken through to the intermediate stage of the Golden elixir realm, but his spiritual power had already reached the spiritualization realm. This was even more commendable.

At the same time, this also showed that Xia ruofei had great potential in cultivation.

No wonder Qing Xuan Daoist priest did not hide his envy after he understood the key points.

Immortal Shanhe continued, ""I think this disciple of mine broke through on the heaven ladder. Daoist qingxuan should still remember that on the four hundred and fiftieth step, he already showed signs of difficulty and was about to be eliminated. But later on, he became more courageous as the battle progressed, and each step was very stable!"

Qing Xuan nodded and said, ""That's it! It must be that his spiritual power has already reached the threshold of a breakthrough. Under the immense spiritual power Pressure, he used his unyielding heart to forcefully break through that solid barrier and raise his spiritual power to spiritualisation boundary!"

Daoist Qing Xuan was even more impressed. He sighed, ""In such a difficult situation, this child didn't give up and even went against the trend to break through. This kind of unyielding tenacity is truly valuable! Brother mountain river, you've really taken in a good disciple!"

Although Qing Xuan Taoist priest had said this more than once, immortal mountain river could not help but smile after hearing it. He said, ""This child's cultivation is still very low, and we don't know how he will develop in the future! I don't deserve such a high evaluation from Daoist Qing Xuan!"

Qing Xuan glanced at immortal mountain river and said, ""It's a bit hypocritical of you to say that! I'm not blind!"

Hearing this, immortal mountain river couldn't help but burst into laughter. ""In the future, if this child, Fei, has any achievements, it will be thanks to Daoist Qing Xuan's efforts!"

On the ninth floor of the trial Pagoda, Xia ruofei stood quietly in the middle of the study room. He was surrounded by empty bookshelves.

Although all the information had been transferred, he still had not come back to his senses.

There was too much information to process.

It could be said that the information contained in all the books on these four bookshelves was several times more than the information he had obtained from the three Jade talismans combined.

Xia ruofei took a quick look and realized that the inheritance information was all – encompassing. There were all kinds of cultivation techniques, ancient books, cultivation anecdotes, array techniques, medical techniques, alchemy techniques, smithing techniques ... It really had everything. Xia ruofei even found a few ancient books about spiritual plants, which taught people how to identify, plant, and maintain spiritual herbs.

Just like the information from the Jade talisman of inheritance, the information that Xia ruofei had obtained on the ninth level of the trial Pagoda had entered his mind directly. It also included the experiences of many predecessors. It was like being enlightened and directly transmitted into his mind.

Xia ruofei also realized that some of the contents were the same as the ones he had obtained from the Jade talisman of inheritance. In other words, some of the books and techniques that immortal mountain river had collected back then were also recorded in the ninth floor of the trial Pagoda.

Of course, in comparison, the contents of the inheritance here were more comprehensive, and the amount of information was also much larger.

Xia ruofei couldn't help but laugh and mumble to himself, ""This reward is quite special! First, pack up thousands or even tens of thousands of precious books? Is this a big gift bag for clearing the game?"

Xia ruofei mumbled to himself as he continued to check the new information in his mind. Suddenly, his expression changed slightly and he looked surprised

Chapter 3469: The real big gift bag i

This time, the amount of information that poured into Xia ruofei's mind was too much. After a while, Xia ruofei realized that although some of the content had entered his mind, he could not read it. He did not know what the content was, as if it was isolated by something.

It was like having a lot of compressed packages stored in a computer. Some of them could be directly unzipped to check the contents, while the others had to be password – protected.

Xia ruofei used his fastest speed to go through the massive amount of inheritance information he had obtained and found that about one – third of the content was encrypted.

He had tried all sorts of methods, but none of them had any effect.

This made Xia ruofei frown. However, on second thought, he realized that this was the inheritance information. Even if it was encrypted, he would just be unable to read it. It should not have any negative impact on him. Since he could not find the reason and solution at the moment, he might as well not think about it.

Other than the most conspicuous four large bookshelves, the only other thing left in the room was the desk.

Now that all the books on the shelves had turned into streams of light and entered Xia ruofei's sea of consciousness, the shelves were all empty. Hence, Xia ruofei naturally shifted his attention to the study table.

He strode over and looked up. His gaze froze as he walked closer to the desk. There were three ancient – looking storage rings placed side by side on the desk. Under the storage rings was a piece of rice paper with words written on it.

Xia ruofei quickly took out the paper and read it carefully.

There wasn't much written on the paper. After Xia ruofei finished reading, his brows relaxed.

This was because his doubts had been answered here.

It turned out that the books on the four bookshelves were indeed one of the rewards for reaching the top. This method of directly transforming knowledge into a stream of light and entering a cultivator's sea of consciousness could only be used by cultivators at the leaving aperture stage and above. Furthermore, it was extremely difficult to create. With such a huge amount of inheritance information, the cost and effort consumed were incalculable.

In fact, it was also because no cultivator had been able to reach the 9th floor of the trial tower for thousands of years, so this was the first time these legacy books were used. If someone could enter the 9th floor every three to five days, it would be impossible for them to have the time to create such a huge number of legacy books.

Hence, only cultivators who entered the ninth floor for the first time could enjoy such treatment. In the future, even if there were latecomers, they would only be able to obtain other conventional rewards.

These ancient books, cultivation methods, and secret skills were all carefully selected. It could be said that they were a collection of the essence of knowledge in the entire cultivation world, and their value was also difficult to estimate.

Of course, Xia ruofei did not know how difficult it was to create these inheritance books. The paper only mentioned that the first cultivator to enter the ninth level of the trial Pagoda would be able to obtain the inheritance book.

This information alone was enough to surprise Xia ruofei. This secret realm had existed for countless years. Could it be that no one had been able to make it to this level in the long years? Xia ruofei felt that it was unbelievable.

Even though he had never undervalued himself and was very confident in himself, he was never arrogant to the point of thinking that he was the most talented Aurous core stage cultivator in history.

But in fact, after a long time, this ninth floor of the trial Pagoda had only welcomed its first guest today.

In addition, the paper also mentioned that the information in the inheritance book was all – encompassing, some of which were suitable for Qi condensation and golden core cultivators, while others were suitable for nascent soul and even primordial spirit cultivators. Before the cultivator's cultivation reached the corresponding level, the information would be temporarily sealed, and once the cultivator broke through, the seal would naturally be released.

This perfectly explained why Xia ruofei could not access some of the information in his mind.

If the person who had entered today had been a Qi refining cultivator, then there would have been even more blocked content. Even if a nascent Soul Stage cultivator entered, a small portion of information that was only suitable for primordial soul Stage cultivators would be blocked.

Other than some explanations on the legacy book, the paper also mentioned that the three storage rings on the table were also rewards for cultivators who successfully reached the top.

When Xia ruofei saw this, he couldn't help but raise his eyebrows. So this was the real big gift bag for clearing the game!

According to the instructions, there were three storage rings. Aurous core stage cultivators could open the first, nascent Soul Stage cultivators could open the second, and nascent Soul Stage cultivators could open the third.

Naturally, Xia ruofei did not hold back. He grabbed the three rings in his hand and used his spiritual power to test them one by one.

Sure enough, although the three storage rings were ownerless, two of them were sealed by a powerful force. Even though Xia ruofei's spiritual power had reached the spiritualization realm, he still could not detect anything.

Xia ruofei didn't even need to try to know that the two rings couldn't recognize their owners for the time being.

As a result, he simply threw the storage ring into the spirit map space. Although the misty spirit map space in the stone chamber in the mountain sea realm was technically a small space, this small space was actually infinitely close to the outside world. Storage magic treasures could also be stored inside, which was something that ordinary storage magic treasures could not compare to..

Chapter 3470: The real big gift bag\_2

Next, Xia ruofei's attention was naturally on the only storage ring that he could check.

Xia ruofei first familiarly recognized the storage ring as its owner, then he used a trace of his spiritual power to check the rewards inside.

The storage ring's internal space was extremely large, almost the size of a football field. It was also over a hundred meters tall. It could be said that the value of the storage ring itself was already very high.

However, Xia ruofei's standards were much higher now. He could also vaguely feel that the storage ring was precious only because of the deterioration of the cultivation environment on earth and the end of the inheritance. The rarer something was, the more precious it was. In the era before the disappearance of high – Level cultivators, including the ancient cultivation world thousands of years ago, storage rings were not rare, especially to the Almighty cultivators.

Hence, when Xia ruofei saw the huge space in the storage ring, he was not particularly surprised or surprised. He was more concerned about what was inside.

After all, no one had been able to reach the top for such a long time. This trial Pagoda mission could be said to be of hell difficulty. Now that he had successfully cleared it, the rewards should be very generous.

Xia ruofei's spiritual force entered the storage ring and found a pile of purple crystals. There were so many of them that they almost formed a small mountain.

This purple crystal looked a bit like origin crystals, but its energy was much purer. The difference between them was even greater than the difference between origin crystals and spirit crystals.

If this kind of purple crystal was compared to origin crystals, then a real origin crystal was more or less equivalent to an ordinary spirit stone. The difference in the purity of the energy was just that big.

Xia ruofei checked and couldn't help but be speechless.

With such a high energy purity and such a large amount, the reward could not be said to not be generous.

Xia ruofei really wanted to try and see if these purple crystals could be directly absorbed for cultivation. However, other than the purple crystals that were piled up like a small mountain, there were two other items placed beside the small mountain of purple crystals. They looked a little out of place.

One of them looked like a piece of clothing, and the other was an exquisite Jade bottle.

With a thought, Xia ruofei took out the two items and a purple crystal.

He first put the purple crystal and the Jade bottle to the side, then reached out to pick up the clothes.

It was a top, and it was not in the style of an ancient robe. It looked more like modern thermal underwear.

He didn't know what material the clothes were made of, but it was very soft and light to the touch. There was a slight warmth in his hand. In addition, there seemed to be very fine golden threads buried in the clothes. From a distance, the clothes had a faint golden light.

Xia ruofei casually touched it and realized that it was very elastic. When it was unfolded, it could be squeezed into a small ball, almost the size of a baby's fist.

Xia ruofei opened the clothes curiously and looked at it again. He did not know what kind of treasure it was, but it must be a very precious treasure since it could be placed in the storage ring.

He thought for a moment and tried to use his spiritual power to investigate.

Unexpectedly, as soon as Xia ruofei's spiritual power touched the surface of the clothes, a stream of information immediately flowed into his mind ...

In the hidden space enshrouded in purple mist, Taoist master Qing Xuan was smiling at immortal mountain river, ""Brother mountain river, you even took out the Golden armor to give to this kid! You're really willing to part with it!"

In fact, the robe in Xia ruofei's hand, which was the gilded soft armor Kasaya and the other small Jade bottle, were put in by Daoist Qing Xuan at the last minute. There was only a small mountain of purple crystals in the storage ring. Inside the small Jade bottle was the nascent formation pill, which Daoist priest Qing Xuan had lost to immortal mountain river in a bet.

Although the immortal mountain river's guess was not accurate, he guessed that it was 480 steps, and Xia ruofei actually persevered to the end and finished 518 steps. However, compared to Daoist priest Qing Xuan's answer, the immortal mountain river's answer was obviously closer, so he still won.

This nascent formation pill was specially requested by perfected mountain river for Xia ruofei. Therefore, Daoist Qing Xuan naturally put it into the reward storage ring.

Just as Qing Xuan took out the nascent formation pill, immortal mountain river suddenly took out the Golden armor and asked Qing Xuan to put it in his storage ring.

In fact, Qing Xuan Taoist had already tried to persuade him when immortal Shan He took out the Golden armor. Now that he saw Xia ruofei take out the Golden armor from his ring, he could not help but sigh.

This was because the gilded soft armor was a very precious magic weapon. It had a very high level of defense and could even block part of the attacks of primordial soul realm cultivators. Even attacks from cultivators of higher levels would find it difficult to destroy this soft armor. Therefore, it was still a magic weapon used by immortal mountain river.

Immortal mountain river was usually in a dangerous place, so this gilded soft armor could be said to be a very important magic weapon. It could really save his life at a critical moment.

Now that he took it out and gave it to Xia ruofei without any hesitation, Qing Xuan Taoist priest, who was his old friend for many years, could not help but try to persuade him. After all, Qing Xuan Taoist priest was also worried that without this soft armor, immortal Shanhe's safety would be less guaranteed when he was transferred back.

However, Daoist priest qingxuan could not persuade him otherwise. He reluctantly helped to put the Golden armor into the storage ring.

Immortal mountain river laughed and said, "the gilded soft armor is of little value to me. When I encounter opponents at the primordial soul Stage or lower, I don't need the protection of the soft armor

at all. If I encounter opponents at the same cultivation level as me or even higher than me, the protection of the soft armor is very limited. It's better than nothing. There's actually no difference whether I have it or not." But if you give it to me, this disciple, I can save his life at a critical moment!"

After saying that, immortal mountain river looked at Qing Xuan and said seriously,""Daoist Qing Xuan, you and I have seen RUO Fei's performance. He is very important to our world of cultivation. He may become the one who will decide everyone's fate in the end! We have the responsibility to do our best to ensure that his growth process is safe and smooth. If there are any accidents during this process, the cultivation world will really be doomed ..."
