Chapter 3471: Full pot (1)

With this golden soft armor, Xia ruofei could really be said to be very confident in his journey in the world of cultivation. Even if he were to meet an expert like Chen Nanfeng, he would be able to ensure his safety.

Xia ruofei was really surprised that the reward for completing the Tower of Trials would be so generous.

Xia ruofei could not believe that it could even block part of the attack of an immortal soul Stage cultivator. Was it really not a waste to give such a high – Level Dharma Treasure to a golden core intermediate stage cultivator like him?

The senior expert who designed the Tower of Trials mission really didn't play by the rules! Even the reward setting was so unique. However, Xia ruofei liked it very much that it was not a routine this time.

It was a good thing that Ling Qingxue had been eliminated early on, so Xia ruofei kept these thoughts to himself. Without anyone around him, he naturally did not say it out loud. Otherwise, perfected mountain river would be very depressed. It was clearly a big gift for his disciple, but in the end, he owed it to Taoist Qing Xuan.

Xia ruofei did not know the inside story and thought that this was the reward for completing the Tower of Trials mission. Naturally, he did not hold back and immediately acknowledged the treasure as its owner. Then, he took off his shirt and put on the Golden soft armor. Although he had already reached the top of the tower of Trials, by right, the entire mission should have been completed and there should not be any new tests. But wasn't that normal? When did this powerful senior who designed the Tower of Trials ever act according to common sense?

Therefore, he didn't want to waste a second with this kind of life – saving magic treasure. He immediately equipped himself with it.

After putting on his shirt, Xia ruofei turned his attention to the small Jade bottle.

This time, he had the experience. He didn't try to figure it out by himself, but directly used his mental power to investigate.

Sure enough, as soon as his spiritual power touched the bottle, a message was transmitted.

Xia ruofei's eyes brightened and the joy on his face could not be concealed. This small Jade bottle actually contained the legendary nascent formation pill!

He had obtained three Jade talismans of inheritance in the spirit map space, among which there were some famous and precious elixirs recorded in ancient books, including this nascent condensation pill, so he was very clear about the magical effects of the nascent condensation pill. He also knew that for golden core stage cultivators, having a nascent condensation pill was equivalent to having a ticket to the nascent Soul Stage, and the probability of breaking through to the nascent Soul Stage would increase a lot.

Although Xia ruofei was only in the intermediate stage of the Golden core realm, he had more and more cultivation resources now. His cultivation speed in the later stage would not be slow. If nothing unexpected happened, he would soon face the problem of breaking through to the nascent soul realm.

He didn't want to be like Chen Nanfeng, stuck at the peak of the Golden core stage for many years and unable to break through the bottleneck.

However, a top – notch cultivation technique like the great Dao Arts was indeed much better than an ordinary cultivation technique. His golden core was also a Supreme – grade golden core that was different from ordinary cultivators. The only problem was that the bottleneck he faced would be particularly stubborn. Once he broke through, he would naturally be much stronger than cultivators of the same level. The problem was that it would be particularly difficult to break through.

Small realms were easy to break through, but it was much more difficult than ordinary cultivators to cross the threshold from the Golden core stage to the original infant stage.

Sometimes, Xia ruofei couldn't help but worry about whether he would face a similar problem as Chen Nanfeng. This bottle of nascent condensation pills was like a pillow sent to him when he was sleepy, like charcoal in the snow!

It could be said that with this bottle of nascent formation pills, Xia ruofei's breakthrough to the original infant stage was a matter of course.

This was because it wasn't just one pill, but an entire bottle.

If he couldn't form a nascent soul after taking a bottle of nascent soul pills, Xia ruofei might as well give up on cultivation.

Of course, it would be even better if he could break through to the original infant stage without using the nascent formation pill. After all, Xia ruofei's family and friends were all cultivating, including Ling Qingxue, Song Wei, Li Yifu, Song Qiming, and the others. They were all about to break through. Even if Xia ruofei could not use the nascent formation pill, it would be great to keep it for them.

Xia ruofei carefully kept the nascent formation pill.

In the end, his gaze naturally fell on the purple crystal.

There were many more of these purple crystals in the storage ring, and they were piled up into a small mountain in the storage ring.

The purple Crystal's energy was very pure and was more than one grade higher than origin crystals. However, Xia ruofei did not know what this purple crystal was and whether it could be directly absorbed for cultivation.

Other than that, he did not know how to use the purple crystal. If it could be absorbed, what was the absorption and transformation efficiency? all of these were unknown.

Hence, Xia ruofei was eager to know what kind of treasure it was.

Xia ruofei carefully kept the nascent formation pill.

In the end, his gaze naturally fell on the purple crystal.

There were many more of these purple crystals in the storage ring, and they were piled up into a small mountain in the storage ring..

Chapter 3473: Retreat after success (1)

Xia ruofei kept the purple Yuan crystal in his storage ring as well. Then, he placed the storage ring in the stone chamber in the mountain sea realm in the spirit map space.

At this moment, in the center of the room on the ninth floor of the trial Pagoda, a door made of light appeared.

Xia ruofei could guess that he had completed all the missions in the Tower of Trials and received all the rewards. He should be able to leave through this door of light. Perhaps he could leave the Tower of Trials directly.

He was still worried about Ling Qingxue's injuries, so he naturally didn't want to stay here any longer.

Just as Xia ruofei was about to leave, he suddenly had an idea. He looked at the antique – looking desk.

In addition to the three storage rings on the desk, there were also brushes, ink, paper, and inkstones. Although these things didn't have any energy fluctuations, they shouldn't be magic treasures. However, they were obviously old and the materials were quite exquisite.

Since he was just passing by, he couldn't miss it. Xia ruofei walked over again and tried to take the Four Treasures of the Study.

He didn't expect that after trying, these things would actually be successfully stored into the spirit map space, and the table was suddenly empty.

This set of tables and chairs looked pretty good! Even if it wasn't a Dharma Treasure, it wasn't something that the ordinary tables and chairs of the secular world could compare to.

Then, Xia ruofei's gaze shifted to the four bookshelves ...

A few seconds later, the entire room was emptied by Xia ruofei. The four walls were empty, and even the bookshelves had been moved into the spirit map space.

In the hidden space that was enshrouded in purple clouds, Daoist priest Qing Xuan was dumbfounded.

After a long while, he looked at immortal mountain river with wide eyes and said, "Your... Your disciple is really... Is he a Suan ni? Why did he want everything? He didn't even let go of the empty bookshelves ..."

Immortal mountain river was already overjoyed. He laughed and said, "Daoist Qing Xuan, it's just a few bookshelves and a set of tables and chairs! It's not a magic treasure! Even so many precious purple essence crystals have been given out, and you still care about this little thing? Don't be so stingy!"

"Is this a matter of being stingy?" Daoist Qing Xuan asked. This kid's table manners were too unsightly! It's like a bandit crossing the border!"

Qing Xuan felt that he and Xia ruofei were fated to be enemies. When they were on the seventh level of the trial Pagoda, Xia ruofei's little Dao companion had the blood of fairy Lingbo and took away the heavenly cloud Palace, leaving the entire seventh level of the trial Pagoda with only a bare square. On the ninth level of the Tower of Trials, Xia ruofei did not even let go of the empty bookshelves after receiving his reward. Now, the ninth level of the Tower of Trials had been swept clean.

Daoist priest Qing Xuan said unhappily, "this kid's eyes are quite sharp!" Although those bookshelves, tables, and chairs aren't magic treasures, they're all made of precious calming wood. I've really suffered a great loss this time ..." "Mind – calming wood?" Daoist master mountain river was also stunned for a moment, "Daoist brother Qing Xuan is really rich! You actually used the mind – calming wood to build an entire bookshelf?"

Mind – calming wood was also a very precious spiritual plant in the world of cultivation. Because of its extremely slow growth, the production of this wood was very small, especially large pieces of mind – calming wood were very rare. As the name implied, the soul – stabilizing wood could calm the mind and was very beneficial to the spirit body. It could also promote the growth of spiritual power, so although it was not a magic weapon, it was still very precious.

Ordinary cultivators would be too excited to sleep if they could get some leftovers. They would often grind the mind – calming wood into powder and then light it in an incense burner. It was similar to the use of sandalwood. When one lit a little mind – calming incense during cultivation, one could enter a state of complete oblivion faster, and it was also very beneficial to one’s mental power.

Even for a powerful cultivator like the immortal mountain river, he would at most have some small things like small wood carvings, which could help him concentrate and calm down. It was very rare to see Daoist priest Qing Xuan use the mind – calming wood to build such a large bookshelf, table, and chair.

Daoist Qing Xuan said, “I explored a secret realm more than a thousand years ago and found three larger mind – calming wood. At that time, I built a few bookshelves and a set of tables and chairs. I originally kept them for my own use. Later, I was rotated to guard the trial Pagoda, so I simply put them on the ninth floor of the trial Pagoda. Occasionally, I would go there to cultivate ...”

Immortal mountain river tried to hold back his laughter and said, “this kid is a bit outrageous!” How dare you take Daoist Qing Xuan’s mind – calming wood bookshelf? This is outrageous!”

In fact, Daoist Qing Xuan did not expect that someone would actually be able to make it to the ninth level of the trial Pagoda. After all, this had never happened before, so he did not prepare anything in advance. The ninth level of the trial Pagoda was originally used as his study room. The bookshelves, tables, and chairs had not been cleaned, so they could not be stored in the storage space like in some of the previous rounds.

Qing Xuan Taoist priest was also careless. He didn’t expect Xia ruofei to be so impolite and take everything that could be stored on the ninth floor of the trial Pagoda.

He wanted to cry but had no tears ...

Immortal mountain river then laughed, “”But Daoist Qing Xuan, you can’t blame RUO Fei for this. After all, this child didn’t know that these things were yours! He didn’t know anything about the entire trial Pagoda. Since he had made it to the 9th level, he naturally thought that everything inside was his reward! This kid is too honest and doesn’t know how to be polite ... But he must be afraid. After all, Daoist Qing Xuan, you know the current situation of the cultivation world in China”

Chapter 3474: Retreat after success (2)

“You can continue to dote on your disciple!” Taoist master Qing Xuan said unhappily.

“Daoist Qing Xuan, don’t be angry... When we meet this kid in the future, I’ll ask him to return him to you!” Perfected Shan He laughed.

“Since he took it, I’ll just give it to him. I’m not going to argue with a junior over a few mind – calming wood bookshelves ...” Taoist master Qing Xuan said. “Daoist Qing Xuan is magnanimous!” Immortal mountain river said with a smile, “then let him find more good things to show his respect to you in the future!”

Daoist priest Qing Xuan said unhappily, "I don't dare to hope for that, as long as this kid doesn't harm my baby anymore ... I say... It's time for him to leave!" There's nothing left on the ninth floor, what's he still doing here?"

For the first time, Qing Xuan Taoist priest was so eager for the trial – taker to leave as soon as possible, afraid that Xia ruofei would play some tricks again. On the ninth floor of the trial Pagoda.

After Xia ruofei kept everything, he looked around and confirmed that the wooden floor, which looked just as good, was really unmovable. He then nodded in satisfaction and walked towards the door.

Xia ruofei did not hesitate and walked through the door.

The familiar pulling force came. Xia ruofei once again filled his body with vital Qi and released his spiritual power. He was always on guard. After all, it was just his guess. In fact, he did not know where the light door led to.

After a brief moment of dizziness, Xia ruofei felt that he was standing on solid ground again.

Before he could observe his surroundings, he heard a familiar voice exclaiming in surprise, "XIA Ruofei! You're out!"

Xia ruofei kept the purple Yuan crystal in his storage ring as well. Then, he placed the storage ring in the stone chamber in the mountain sea realm in the spirit map space.

At this moment, in the center of the room on the ninth floor of the trial Pagoda, a door made of light appeared.

Chapter 3475: Setting foot on the return journey (1)

When Xia ruofei heard the voice, his heart skipped a beat. He already had some guesses.

Naturally, Shen tianfang would not be able to return. Now that the light screen had opened and everyone was required to leave within a time limit, it meant that mu Hua's situation was not good either. He was probably in the trial Pagoda like Shen tianfang.

As expected, the loud voice said emotionlessly,""The last cultivator in the trial Pagoda has left. If he doesn't appear now, then he will never appear again ... That's all I have to say. Don't waste any time here and leave quickly!"

After that, the voice fell silent, leaving only the light curtain Door standing quietly not far away.

All the cultivators fell into a dead silence.

Chen Xuan, Xu yurou, and mu Jianfei were completely stunned, as if they had been struck by lightning.

"How... How..." Chen Xuan mumbled."Elder Shen's cultivation is only second to my father's. We've all left the trial Pagoda safely. How could he?"

Shen tianfang had the highest cultivation level among the cultivators who were exploring the mystic Luna realm this time. He had reached the intermediate stage of the Golden core realm, and his status in

the first heaven sect was second only to Chen Nanfeng. It could be said that he was the cultivator who had the highest hope of breaking through to the advanced stage of the Golden core realm after Chen Nanfeng.

Such an important elder figure had actually died in the trial Pagoda without a sound?

Chen Xuan found it hard to accept this fact.

In reality, even though Chen Xuan had been eliminated early on, he had his own opportunities in the trial Pagoda. It could be said that he had gained quite a bit from this trial. When he returned to earth, he would most likely be able to use this gain to raise his cultivation by a huge margin.

Therefore, even though he said that he was envious of Ling Qingxue and the others, in reality, he didn't think that he had failed this trial. He was even confident that the cultivators who had passed a few more levels than him might not have gained as much as he did.

However, upon hearing the news of Shen tianfang's death, Chen Xuan's good mood was instantly obliterated. For a moment, he was at a loss.

Mu Jianfei was also shocked and sad.

Elder mu Hua's position in the vast waves sect was undoubted, and he was also very important. Now that he had fallen in this Mystic realm hundreds of thousands of miles away from earth, it was undoubtedly a very heavy blow to the vast waves sect.

The other cultivators felt the same way. They were all eliminated from the trial Pagoda one after another. While they were waiting, they were actually envious of Xia ruofei, Shen tianfang, and mu Hua. Since they had not come out for such a long time, it meant that they had passed more rounds. Logically speaking, they should have gotten more opportunities.

However, he did not expect that Shen tianfang and mu Hua had not come out. It was not because they had passed many levels, but because they had died in the trial Pagoda.

Both of them were Aurous core stage cultivators, and Shen tianfang was in the intermediate stage.

At first, everyone thought that although the trial Pagoda was difficult, at least safety was not a big problem. Now that they heard this news, they suddenly felt a little scared.

Especially Yang Liu of the flying flower Valley, he felt a burst of goosebumps in his heart.

The Qi layer cultivators all came out unscathed, and out of the five golden core cultivators that went in, three came out. As a golden core elder, it seemed that she was quite lucky to be able to leave the trial Pagoda safely.

Xia ruofei's eyes narrowed. He was not as scared as Willow.

Xia ruofei judged that the trial Pagoda was still screening for something, so it was not too dangerous. However, there were definitely risks in the trial missions, including the process of him breaking through the levels. If his luck was bad, there was also the possibility of death.

In fact, the only one with such bad luck was mu Hua. Shen tianfang was courting his own death by having bad intentions towards Xia ruofei. Xia ruofei had directly killed him without any psychological burden.

In this way, the death rate was actually very low.

Moreover, mu Hua's luck must have been bad to a certain extent. Otherwise, even if he was seriously injured, he would at least be able to keep his life.

No one spoke for a while, quietly digesting this shocking news.

Xia ruofei thought for a while and said, "Since things have come to this, brother Chen, brother Jianfei, please restrain your grief. We should leave this place!"

The loud voice had also said that the light curtain Door would only last for fifteen minutes. After that, the light curtain Door would disappear, and they would be trapped here forever.

Therefore, he should leave this place as soon as possible. There was no need to stay until the last moment. If there was an accident, the consequences would be serious.

"Elder Shen and my father are very close, how am I supposed to explain this to my father?" Chen Xuan asked with a sorrowful expression. Brother RUO Fei, could you have made a mistake? Actually, elder Shen is only trapped in a certain level... We can't just leave him behind!"

"Brother Chen, calm down!" Xia ruofei said. Elder Shen won't be coming back. You have to accept this reality!"

Xia ruofei had killed Shen tianfang with his own hands. He had been reduced to ashes without a trace. How could he have come back?

Xia ruofei could understand Chen Xuan's grief and his inability to accept reality, but he did not feel guilty at all. After all, it was Shen tianfang who wanted to kill Xia ruofei and take his treasure. He took the initiative to attack Xia ruofei..

Chapter 3476: On the return journey (2)

The murderer would always be killed. Since Shen tianfang could not control his greed and attacked Xia ruofei, he had to bear the worst consequences. Xia ruofei was right to kill him.

Chen Xuan's eyes turned red as he mumbled, "It can't be elder Shen... His cultivation is so high, and he has accumulated a lot of experience. He has so many life – saving means ..."

"Brother Chen, you just went through the trial Pagoda, so you should know that sometimes, it's useless to have many life – saving methods. If you're unlucky, you'll still die no matter how high your cultivation is." Xia ruofei said, "the Tower of Trials is designed for cultivators of different cultivation levels. The difficulty of the missions will definitely be different. Therefore, everyone's chances of survival in the Tower of Trials are almost the same."

Then, Xia ruofei looked at mu Jianfei and continued, ""Including elder mu Hua's situation, I'm afraid it's the same. I can only say that... Their luck is too bad! Brother Chen, brother Jianfei, we can't delay any longer. We must leave this place as soon as possible!"

Everyone looked at mu Jianfei and Chen Xuan. If elder mu Hua of the surging waves sect couldn't return, then mu Jianfei was the only one left. On the first heaven society's side, Xu yurou, who was in the Qi refining stage, was already at a loss. As the young master, Chen Xuan naturally had the authority to make decisions.

Yang Liu also said, "nephew Chen, nephew mu, fellow Daoist Xia is right. Although no one wants to believe this is true, I'm very regretful... I hope the two of you can restrain your grief and accept your changes. Adjust your mentality as soon as possible. We must leave this Mystic realm immediately!" We don't have much time left!"

Chen Xuan let out a long sigh before turning to look at the towering trial Pagoda. Finally, he steeled his heart and said, ""Alright! Let's go ..."

"Let's go!" Mu Jianfei sighed.

With that, Chen Xuan strode over to the door.

"Brother Chen, wait!" Xia ruofei quickly stopped him.

Chen Xuan stopped in his tracks and looked at Xia ruofei in confusion.

"Brother Chen, don't forget that it's a vacuum outside the secret realm ..." Xia ruofei forced a smile.

Only then did Chen Xuan come to a sudden realization. In his state of shock, he didn't think too much about it and walked straight towards the door. One had to know that he was on the surface of the moon!

As an Aurous core stage cultivator, Chen Xuan's life would not be in any danger for a short period of time. However, if everyone followed him out, Xu yurou, Yu xiner, and the other Qi refinement stage cultivators would be in deep trouble.

"I'm sorry, everyone!" Chen Xuan said apologetically. 'Tve suddenly heard of elder Shen's death and I'm a little flustered ..."

"I'm fine!" Xia ruofei smiled.

"Please put on your spacesuits and check each other's airtight seal and oxygen storage," he said. "If you don't have enough oxygen, please replace the oxygen supply module before you leave!"

"Alright!"

"Thank you for your reminder, fellow Daoist Xia!"

Everyone took out their spacesuits and quickly put them on. They also helped each other check.

Xia ruofei checked Ling Qingxue's spacesuit carefully, then patted her on the shoulder and gave her a thumbs up, indicating that everything was in place.

After everyone finished checking, they walked towards the light screen door one by one.

Willow volunteered to stay at the back to cover for everyone. In fact, Xia ruofei had the highest cultivation level now. However, no one could tell his cultivation level and Xia ruofei would not reveal it himself.

Xia ruofei and Ling Qingxue followed behind Chen Xuan. The two of them held hands as they walked through the door.

After a slight pull, Xia ruofei suddenly felt his body become lighter. He looked at his surroundings and realized that he was on the moon's surface. The moon's gravity was only one – sixth of earth's. Even though he was wearing a heavy EVA suit, he was still as light as a swallow on the moon's surface.

Xia ruofei immediately looked to his side and saw Ling Qingxue standing there too. They were holding hands and they were not separated. He let out a sigh of relief.

If everyone was separated on the moon's surface, the situation would become very complicated and dangerous. Although everyone had enough oxygen supply modules and their lives would not be in danger under normal circumstances, if there was an accident, the room for maneuver would be much smaller in such a vacuum environment.

Fortunately, nothing unexpected happened. Not only was Ling Qingxue by his side, but Chen Xuan and Xu yurou, who had come out earlier, were also nearby.

Xia ruofei waved at Chen Xuan and Ling Qingxue, then stood aside with Ling Qingxue, waiting for the other three to come out.

In fact, Xia ruofei had already realized that the place they were teleported to was not the place where they had entered the secret realm.

Perhaps the entrance to the mystic realm changed at any time, or it was possible that the entrance and exit were not together.

However, Xia ruofei was not worried. He had already passed all the levels and received the biggest reward. He did not need to enter the secret realm again.

As for returning to Earth, the blue Earth was hanging in the pure black sky and was so eye – catching. Looking at earth from the moon, it was three to four times bigger than the one seen on earth. Furthermore, there was no atmosphere blocking it, and they could directly see the huge earth in the deep Universe. It was very oppressive. Xia ruofei and the others just had to fly in the direction of earth. No matter what, they could not get lost.

Xia ruofei and the others just had to fly in the direction of earth. No matter what, they could not get lost..

Chapter 3477: Secret spaceship conversed

After the spaceship was connected to the black Phoenix flying ship, Xia ruofei used his spiritual power to explore the interior of the spaceship. He turned on the power switch and started to check the power supply. He then unfolded the solar panels and so on.

These routine operations were not difficult. As a cultivator, Xia ruofei's memory was much better than that of ordinary astronauts. Hence, even though he did not practice much, he was still very familiar with the procedures.

In a short while, the spaceship mass entered a normal working state.

Xia ruofei then gestured to the others and used his spiritual power to open the cabin door from the inside. He entered the spaceship assembly.

Because the space inside the spaceship was relatively small, the cabin used for entry and exit was even smaller, so everyone entered in batches.

The first batch was Xia ruofei and Ling Qingxue. After they entered the spaceship, they closed the hatch and repressurized this section. When the pressure in this section was balanced with the other sections, they opened the connected hatch and entered the living quarters.

Then, he closed the hatch, relieved the pressure, and opened the entrance and exit to allow the next batch of cultivators to enter the spaceship.

Xia ruofei and Ling Qingxue went straight to the return cabin of the spaceship. It was the narrowest and also the control center of the entire spaceship. During the flight, everyone took turns to be on duty there.

In fact, there were many inconveniences to live in a spaceship for a long time. After all, the space was small and the men and women lived together.

Therefore, if astronauts worked in space for a long time, they had to go through long – term special training.

The oxygen supply module that they had brought along this time was actually enough for everyone to wear their spacesuits and return to Earth on the black Phoenix flying ship.

However, everyone still chose this relatively troublesome method.

The reason was simple. After all, wearing a heavy EVA suit made it inconvenient for one to move around. Ordinary people had to face problems such as eating and going to the toilet. Even cultivators couldn't completely avoid them. Wearing an EVA suit was even more inconvenient.

Although there were enough oxygen supply modules, there was a limited number of them. There was no need to wear an EVA suit in the spacecraft assembly. The interior of the spacecraft was an oxygen – filled environment, and the spacecraft had specialized equipment to produce oxygen. This way, a lot of the oxygen supply modules could be saved.

No one could guarantee that there would be no accidents during the long voyage. Therefore, if they encountered any accidents along the way, the extra oxygen supply module could be used to save their lives.

Besides, living in a spaceship was just a little cramped. For cultivators, having a place to meditate was enough. In other aspects, it was much more convenient than wearing an EVA suit.

Hence, everyone, including Xia ruofei, chose to take the spaceship. The black Phoenix flying ship was only used as a guide during the journey. The Flying Ship was very close to the combined body of the Flying Ship. Xia ruofei could easily control the Flying Ship with his spiritual power.

A moment later, Chen Xuan and the others had also entered the Flying Ship.

Xia ruofei was in the return cabin. He saw that the cabin doors were all closed. There were no problems with the seal. The air pressure in each cabin had also returned to a balance.

Thus, he confirmed with everyone on the comms channel and used his spiritual force to communicate with the black Phoenix flying ship, continuing to fly towards earth.

The flying boat started slowly, and the cables that were floating in space were pulled taut.

Everyone felt the Flying Ship tremble slightly before it began to accelerate.

The black Phoenix flying ship also consumed the energy of origin crystals to fly through space. It could not be accelerated by gravity, so the time they spent on the journey was even longer than the return time of the mortal world's moon landing.

However, everyone had already experienced it before they came, so after entering the spaceship, they found a place to stabilize their bodies and began to close their eyes to cultivate. When they cultivated on earth, they would just maintain a cross – legged posture. However, in the zero – Gravity environment in space, once the cultivators entered a state of selflessness, their bodies might float everywhere, so they had to be fixed in place first.

Of course, not everyone started cultivating the moment they entered.

For example, Chen Xuan and Xu yurou of the first heaven school and mu Jianfei of the surging waves school were not in the mood to cultivate.

Yang Liu brought Yu xiner to a corner and quickly entered a state of cultivation. Their gains in the trial Pagoda weren't small either. They all received cultivation techniques and some cultivation resources.

It could be said that the rewards and opportunities obtained in the trial Pagoda were enough to make the big sects fight for them. Therefore, the gains were relative.

Without Xia ruofei as a reference, it could be said that everyone had gained a lot.

Chen Xuan sat alone in the corner, lost in thought. Xu yurou stood timidly by his side, not daring to speak to him.

Mu Jianfei was in a similar state. He had obtained a very good cultivation technique in the trial Pagoda, as well as hundreds of precious origin crystals. He even thought that he had gained the most in the trial Pagoda, so he was full of pride.

Because he had these origin crystals and this cultivation method, his Jindan path would be very smooth. In the foreseeable future, he should be able to smoothly break through to the Jindan stage.

However, elder mu Hua never came back. He had died in the trial Pagoda, which made mu Jianfei feel like he had been hit in the head. He was still in a daze..

Chapter 3478: Secret spaceship converse.2

Mu Hua wasn't the only golden core stage elder in the surging waves sect, but mu Hua was the youngest and the most talented one. He was the one Mu Sheng had high hopes for.

The most important thing was that mu Hua and Mu Sheng were from the same family. According to seniority, mu Hua should be mu Jianfei's uncle, so this relationship was naturally closer than the average elder.

Mu Jianfei had been pampered since he was a child, and mu Hua loved and took care of this little nephew of his very much. Mu Jianfei and mu Hua had a very deep relationship.

When mu Hua's grievous news came, mu Jianfei felt that the sect had suffered a great loss, but he also fell into great grief, unable to extricate himself.

Xia ruofei could understand how they felt, including the first heaven society. Even though Shen tianfang deserved to die, he was Shen tianfang and Chen Xuan was Chen Xuan. As long as the first heaven society did not find out, Xia ruofei would definitely keep it to himself. He did not even mention Ling Qingxue.

However, Ling Qingxue knew that he could summon his companions to his side, so he didn't know if she had any guesses.

But no matter what, Ling Qingxue was definitely on his side.

Considering the actual situation of Chen Xuan and the rest, Xia ruofei and Ling Qingxue took the initiative to take on the duty for the first day, while Yang Liu and Yu Xin 'er would take on the second day. From the third day onwards, the first heaven society and the Cang lang society would be assigned to take on the duty.

Even though the black Phoenix flying ship was the main driving force, the ship itself was still equipped with a lot of sophisticated equipment, including equipment that could provide oxygen at any time. The seal of the cabin was also very important. Once there was an explosion and the pressure was lost, it could be fatal to a refinement stage cultivator. Everything that Xia ruofei had experienced in the illusion could really happen in reality.

Therefore, during the return trip, everyone took turns to be on duty to ensure that there was someone in the return cabin monitoring the status of the entire spaceship.

However, without Shen tianfang and muhua, everyone's living space was a little bigger, but they had to take more shifts.

After everyone had settled down, Xia ruofei and Ling Qingxue sat in the small return cabin of the spaceship. Ling Qingxue adjusted the frequency on her spacesuit and smiled. "Ruofei, we're finally on the return journey! This experience was really too exciting!"

The communication system of the spacesuit was actually a normal radio system. The spacesuit provided by masker could listen to two frequencies at the same time, and only one frequency could be transmitted.

In other words, if someone were to speak on two frequencies, they could be heard in the headset of the spacesuit, but if he were to speak on one frequency, he would have to manually adjust it.

Xia ruofei and the others would listen to the same frequency, which was equivalent to the public frequency of the exploration team. Just now, Ling Qingxue had adjusted the frequency to another preset frequency. Only she and Xia ruofei were on this frequency, so the privacy of the call was guaranteed.

It was similar to a wide – range public channel and a small – range channel. In fact, Chen Xuan and the others were the same. Cultivators from the same sect would also set up a private channel for communication.

Xia ruofei was about to change out of his EVA suit. After all, the return cabin was narrow and it would make him look clumsy in it.

In fact, even during rocket take – off and return capsule landing, astronauts didn't wear spacesuits.

However, Xia ruofei saw that Ling Qingxue was using the walkie – talkie system to talk to him. To ensure privacy, he also adjusted the transmission frequency of his spacesuit to a private frequency.

The sound was transmitted through the air. The air pressure in the spaceship was the same as on earth, so it was full of air. Therefore, even though the sound insulation of the cabin door was very good, it was still possible for cultivators to hear it if they really wanted to eavesdrop.

If they were speaking through the thick EVA suit and the airtight hatch between the return cabin and the living cabin, it would be impossible for anyone to eavesdrop.

Ling Qingxue had probably considered this point as well, which was why she was in no hurry to take off her EVA suit. She was still not very familiar with telepathy, and if she didn't do it well, it would become a live broadcast.

"Qingxue, do you have something to say that you're trying to avoid me?" Xia ruofei smiled.

Ling Qingxue giggled and said, "so smart!" RUO Fei, 1 just want to tell you that although 1 was eliminated at the heavenly stairs, 1 still survived and received a very generous reward! Can you guess what the prize is?"

Xia ruofei shrugged and said, "how can 1 guess?" But seeing how happy you are, the prize must not be simple, right?"

Ling Qingxue chuckled and said, "why don't you guess?" You've come into contact with it in the trial Pagoda!"

Xia ruofei thought for a while and said, "I've come into contact with it in the trial Pagoda?" That was none other than ... The Vermillion Jade Fruit? Origin crystals? Yellow jade Spirit?"

"Correct!" Ling Qingxue said happily, "RUO Fei, Did you know? When I was teleported out of the trial Pagoda, I found a storage ring in my hand. There were 800 yellow jade essence in it! And the prizes are directly stored in the storage ring. This ring must be worth a lot!"

"Look at you, you've never seen the world!" Xia ruofei teased.

"Don't make fun of me!" Ling Qingxue pouted and said, "I just haven't seen the world! The yellow jade essence was a good thing! Isn't your spiritual power still one step away? These yellow jade spirits should be of some help! But... I'm still wondering if I can leave the yellow jade essence to Wei Wei! With the Vermilion Jade Fruit and the yellow jade essence, her cultivation can at least be raised to my level! You need it too, and Wei Wei needs it too. How are we going to split it? If you each take half, the effect won't be enough ..."

Xia ruofei was touched when he saw Ling Qingxue's troubled look. She was struggling to decide whether to use the Topaz essence on Xia ruofei's blade or to help Song Wei improve her spiritual power as soon as possible. She had never thought of keeping it for herself.

He reached out his slightly bloated arm, which was covered by the spacesuit, and gently touched Ling Qingxue's helmet. He smiled and said, "Silly girl! There's no need to be so conflicted! If you want, you can give it to Wei Wei, or you can keep it for yourself. Wei Wei won't say anything! I don't need it. My spiritual power has already broken through to the spiritualization boundary, so even if I continue to use the Topaz essence, it won't improve much."

"But you're also ..." Ling Qingxue didn't react at first, but her eyes suddenly widened and she cried out, "ah? Really? RUO Fei, you ..."

At this point, Ling Qingxue realized that her voice had been a little too loud. She quickly lowered her voice and asked, "RUO Fei, you've really broken through to the spiritualization boundary? Didn't they say that it was very difficult to break through to the next realm? Why so sudden?"

Xia ruofei smiled and said, "how could I lie to you about this?" He had really broken through, and it was on the Obsidian rooftop! Your husband is amazing, right?"

When Xia ruofei said that he had broken through on the stairway, Ling Qingxue had already believed him.

Because she had experienced the Obsidian stairs before, even though it was only the stairs for Qi refining cultivators, the principle was the same. She had personally felt the spiritual pressure and resisted it with all her strength, so she was very clear how terrible that pressure was. She also knew that if she could withstand the pressure, she would definitely improve.

It was because her own spiritual power had also been improved after going through the Obsidian stairway. However, because she did not persist for too long under that extreme pressure, and her spiritual power was not at a bottleneck, the extent of the improvement was not big.

Ling Qingxue's eyes reddened as she thought about this. She asked, "RUO Fei, you must have suffered a lot on the stairway.... It took you such a long time to come out, which means you must have been suffering on the stairway for a few hours!"

Chapter 3479: Taking inventory of gains t

Ling Qingxue did not know how Xia ruofei had managed to clear the stage, but she was not in a hurry to ask.

On one hand, ever since Xia ruofei left the trial Pagoda, Chen Xuan and the others had been around. She was not good at using her spiritual energy to communicate with Xia ruofei, so it was not convenient for her to ask him directly.

On the other hand, Ling Qingxue had always had blind confidence in Xia ruofei. Even though she had personally experienced the difficulty of the Obsidian stairway, she did not think that Xia ruofei would not be able to make it.

In her eyes, Xia ruofei would definitely reach the top. She was even more confident than Xia ruofei himself.

However, when she heard that Xia ruofei had a breakthrough in his spiritual power on the Obsidian stairway, Ling Qingxue's heart ached.

Xia ruofei chuckled and said, "only through suffering can one rise above others!" The Obsidian stairway is indeed not easy to pass, but I have also benefited a lot in the process of passing the stairway. The breakthrough of spiritual power is only one aspect, there are many other benefits!"

Although Xia ruofei said it casually, he still shuddered when he recalled the experience of tempering his body on the Obsidian stairway. The pain of his bones breaking was indescribable.

Moreover, he was in the later stage of the stairway to heaven, so he basically had to repeat the tempering process. Many parts of his bones were broken, repaired, and then broken again. No matter how powerful his mental power was, he would never want to experience such pain again.

However, as he said, one can only be above others by going through hardships. If he didn't go through the process of body tempering, he definitely wouldn't be able to pass the heavenly stairs. Moreover, it was absolutely impossible for his body to reach the strength it had now.

After Xia ruofei finished, he lowered his voice and said, "After reaching the top of the heaven ladder, the trial Pagoda's 9th floor really doesn't have any tests, it's completely a floor to give out rewards. After completing all the Tower of Trials quests, the rewards are beyond imagination!"

"Really!" Ling Qingxue quickly asked, "what are the rewards?"

Xia ruofei told Ling Qingxue about the reward he had received on the ninth floor of the trial Pagoda in a low voice.

Ling Qingxue couldn't help but open her mouth wide. After a while, she said, "This purple origin crystal is actually so powerful...RUO Fei, then your cultivation speed in the future will definitely be extremely

fast! And that nascent formation pill, it means that you won't have any obstacles in breaking through to the original infant stage! That's great..."

Xia ruofei smiled and said, "you guys have to work hard too!" Hurry up and break through to the Golden core stage. I definitely won't be able to use up all those purple origin crystals. At that time, all of you will be able to use them!"

Xia ruofei had obtained information about the purple essence crystal from the inheritance book. One of the information was that the purple essence crystal could only be absorbed by cultivators at the Golden core stage and above. Qi refining stage cultivators could not use it.

Hence, even if Xia ruofei wanted to leave the purple origin crystals to Ling Qingxue, Song Wei, and the others, he had no way of doing so for the time being.

It was only after they had broken through to the Golden core stage.

The reward this time was unusually generous. Xia ruofei roughly estimated that even if he kept using the purple Yuan crystals in the storage ring until he broke through to the nascent Soul Stage, he would not be able to use them all.

By then, Xia ruofei would be able to unlock his second storage ring.

If his guess was correct, the second storage ring would probably contain the cultivation resources he needed to reach the nascent Soul Stage.

Hence, Xia ruofei would definitely not skimp on the purple origin crystals during cultivation just to leave some for Ling Qingxue and the rest.

He was very clear that only by continuously breaking through and improving his cultivation would he be of the greatest help to Ling Qingxue and the others.

And he had a feeling that the reward for this Tower of Trials mission was to help him raise his cultivation as quickly as possible.

Even though there was no other explanation for the reward, Xia ruofei still felt a sense of urgency.

Although he didn't know the reason, he would definitely increase his cultivation speed. He definitely wouldn't delay his cultivation progress in order to save purple origin crystals.

Ling Qingxue nodded. 'Tve gained a lot from the trial Pagoda this time. I'll work hard on my cultivation when I get back. Otherwise, I'll be left behind by you!"

Xia ruofei smiled and said, "actually, those legacy books are very precious. It can be said that they are all – encompassing and I don't need to spend any time to study them. I can master so many things directly. It will be very helpful for my future cultivation!"

Ling Qingxue nodded and said, ""I knew you would succeed! RUO Fei, this is called "hard work pays off"!"

"Qingxue, you didn't tell anyone that we were teleported to the same place, did you?" Xia ruofei asked, chuckling.

Ling Qingxue rolled her eyes at Xia ruofei and said, "I'm not stupid! One must always be wary of others, so how could he tell them this so casually? I was actually worried that you wouldn't spill the beans! However, I can't remind you! It's a good thing you're smart..."

Xia ruofei smiled bitterly and said, "that's good ... Just keep this matter to yourself and don't tell anyone!" Otherwise, the first heaven sect and the vast waves sect might suspect that I had something to do with Shen tianfang and mu Hua's deaths!"

Ling Qingxue nodded and said, "don't worry!" This kind of thing can't be said carelessly in the first place, and now that the first heaven sect and the surging waves sect have both lost a golden core elder, it's even more so!"

Ling Qingxue couldn't help but look at Xia ruofei and asked, "Ruofei, have you really met Shen tianfang and muhua? With your strength at that time, it would be fine if you met mu Hua, but if you had met Shen tianfang, it would have been difficult for you to deal with him"

Chapter 3480: Taking inventory of the gains (2)

Xia ruofei couldn't help but break out in a cold sweat. He said calmly, "How is that possible? Besides, even if I was teleported to the same place as them, I wouldn't go so far as to kill them! Don't let your thoughts run wild!"

As Xia ruofei spoke, he thought to himself, "Shen tianfang is the one who's crazy. I was just defending myself..."

Ling Qingxue laughed and said, "I'm just joking!" The two elders must have been unlucky and died in the trial Pagoda. We've passed the eighth floor, and there are indeed a few checkpoints that are life – threatening, especially elder Chen. He's an intermediate golden core cultivator, so the checkpoints he's facing should be more difficult. It's not impossible for him to die."

"Mm! Let's not discuss this matter anymore, let's not discuss it in the future." Xia ruofei said, "although we're not afraid of the first heaven sect and the surging waves sect, we don't have to look for trouble, do we?"

"I understand! Don't worry, just go!" Ling Qingxue said with a smile.

Ling Qingxue did not know how Xia ruofei had managed to clear the stage, but she was not in a hurry to ask.

On one hand, ever since Xia ruofei left the trial Pagoda, Chen Xuan and the others had been around. She was not good at using her spiritual energy to communicate with Xia ruofei, so it was not convenient for her to ask him directly.

And that nascent formation pill, it means that you won't have any obstacles in breaking through to the original infant stage! That's great..."

Xia ruofei smiled and said, "you guys have to work hard too!" Hurry up and break through to the Golden core stage. I definitely won't be able to use up all those purple origin crystals. At that time, all of you will be able to use them!"

Xia ruofei had obtained information about the purple essence crystal from the inheritance book. One of the information was that the purple essence crystal could only be absorbed by cultivators at the Golden core stage and above. Qi refining stage cultivators could not use it.

Hence, even if Xia ruofei wanted to leave the purple origin crystals to Ling Qingxue, Song Wei, and the others, he had no way of doing so for the time being.

It was only after they had broken through to the Golden core stage.

The reward this time was unusually generous. Xia ruofei roughly estimated that even if he kept using the purple Yuan crystals in the storage ring until he broke through to the nascent Soul Stage, he would not be able to use them all.

By then, Xia ruofei would be able to unlock his second storage ring.

If his guess was correct, the second storage ring would probably contain the cultivation resources he needed to reach the nascent Soul Stage.

Hence, Xia ruofei would definitely not skimp on the purple origin crystals during cultivation just to leave some for Ling Qingxue and the rest.

He was very clear that only by continuously breaking through and improving his cultivation would he be of the greatest help to Ling Qingxue and the others.

And he had a feeling that the reward for this Tower of Trials mission was to help him raise his cultivation as quickly as possible.

Even though there was no other explanation for the reward, Xia ruofei still felt a sense of urgency.

Although he didn't know the reason, he would definitely increase his cultivation speed. He definitely wouldn't delay his cultivation progress in order to save purple origin crystals.

Ling Qingxue nodded. 'Tve gained a lot from the trial Pagoda this time. I'll work hard on my cultivation when I get back. Otherwise, I'll be left behind by you!'

Xia ruofei smiled and said, "actually, those legacy books are very precious. It can be said that they are all – encompassing and I don't need to spend any time to study them. I can master so many things directly. It will be very helpful for my future cultivation!"

Ling Qingxue nodded and said, "I knew you would succeed! RUO Fei, this is called "hard work pays off"!"

"Qingxue, you didn't tell anyone that we were teleported to the same place, did you?" Xia ruofei asked, chuckling.

Ling Qingxue rolled her eyes at Xia ruofei and said, "I'm not stupid! One must always be wary of others, so how could he tell them this so casually? I was actually worried that you wouldn't spill the beans! However, I can't remind you! It's a good thing you're smart..."

Xia ruofei smiled bitterly and said, "that's good ... Just keep this matter to yourself and don't tell anyone!" Otherwise, the first heaven sect and the vast waves sect might suspect that I had something to do with Shen tianfang and mu Hua's deaths!"

Ling Qingxue nodded and said, "don't worry!" This kind of thing can't be said carelessly in the first place, and now that the first heaven sect and the surging waves sect have both lost a golden core elder, it's even more so!"

Ling Qingxue couldn't help but look at Xia ruofei and asked, "Ruofei, have you really met Shen tianfang and muhua? With your strength at that time, it would be fine if you met mu Hua, but if you had met Shen tianfang, it would have been difficult for you to deal with him ..."

Xia ruofei couldn't help but break out in a cold sweat. He said calmly, "How is that possible? Besides, even if I was teleported to the same place as them, I wouldn't go so far as to kill them! Don't let your thoughts run wild!"

As Xia ruofei spoke, he thought to himself, "Shen tianfang is the one who's crazy. I was just defending myself..."

Ling Qingxue laughed and said, "I'm just joking!" The two elders must have been unlucky and died in the trial Pagoda. We've passed the eighth floor, and there are indeed a few checkpoints that are life – threatening, especially elder Chen. He's an intermediate golden core cultivator, so the checkpoints he's facing should be more difficult. It's not impossible for him to die."

"Mm! Let's not discuss this matter anymore, let's not discuss it in the future." Xia ruofei said, "although we're not afraid of the first heaven sect and the surging waves sect, we don't have to look for trouble, do we?"

"I understand! Don't worry, just go!" Ling Qingxue said with a smile. Ling Qingxue laughed and said, "I'm just joking!" The two elders must have been unlucky and died in the trial Pagoda.
