Chapter 41 - making trouble from within (1)

Xia ruofei turned off the engine and pulled up the handbrake before picking up his phone. When he saw that it was Ling Qingxue calling, he immediately picked it up.

"Qingxue!" Xia ruofei said with a smile.

"RUO Fei, where are you? I just came to your house and a woman said you've moved away." Ling Qingxue asked anxiously.

Xia ruofei laughed and asked,

"Was it a middle - aged woman who spoke very harshly?"

Xia ruofei had already guessed that the woman Ling Qingxue was talking about was the fierce landlady. Although the fierce landlady could earn two months' deposit for free, he was in such a hurry to check out the house. She must be worried that the house had been damaged or something had happened, so she would definitely come to check it out at once.

"Yup! You sound like you've eaten gunpowder ..." Ling Qingxue's tone was still a little indignant. "You're getting impatient after asking a few more questions ... Oh, you haven't said anything yet! Why did he suddenly move? Don't tell me you're trying to avoid me?"

Xia ruofei laughed and said,

"What are you thinking? Didn't you say yesterday that my living environment was too bad? I thought that what you said made sense, so I simply found another place to live. Why? You're looking for me? Why didn't you make a call first? Wouldn't it be embarrassing for you to make a wasted trip?"

"Nonsense! Didn't we agree to sign a supply contract in the next two days?" Ling Qingxue pouted and said, "I didn't think that you would go missing again. This time, you're even worse. You even moved the entire house away ..."

"I'm sorry, I'm sorry ..." Xia ruofei apologized profusely. "There's no hurry to sign the contract. It's getting late. We'll start supplying tomorrow, right?" "I'll give you an address, and you can just ask the person who picks up the goods to bring the contract over!"

Ling Qingxue thought for a moment and said,

"That's fine too ... But you're not allowed to disappear again!"

"Don't worry! I'm still counting on those vegetables to make a lot of money!" Xia ruofei laughed and said, "I'll treat you to a meal when I have time!"

"This is more like it!" Ling Qingxue chuckled.

The two of them chatted for a while more before they hung up. Xia ruofei sent the address of the holiday villa to Ling Qingxue.

Then, Xia ruofei used WeChat to share his location with Ling Qingxue. This way, he would not have to worry about Ling Qingxue's men not being able to find him tomorrow.

Xia ruofei returned to his room and opened the Taobao platform on his computer. He confirmed the delivery of each order and entered the express delivery number. After he was done, he went to the bathroom to take a shower and then put on his slippers and went downstairs to the kitchen to prepare food.

After dinner, Xia ruofei gave Liang Qichao a call to express his gratitude. He also told him that the succulent seedlings had been delivered and asked him to check and receive them in the next few days.

Liang Qichao was very happy. At the same time, he kept reminding Xia ruofei not to forget about the White - skinned lunar boundary. Xia ruofei naturally agreed.

Back in his room, Xia ruofei carefully locked the door and took out the spirit map scroll. With a thought, he entered the medium.

It had been three days since he plucked the petals. Xia ruofei entered the medium and ran straight to the nameless plant by the pond. As expected, the Tri - colored flower bloomed on the branch again. It had a natural charm that made Xia ruofei focus his eyes on the flower.

Xia ruofei was completely at ease now. It seemed that the Tri - colored flower's pattern was that once it was picked, it would recover in three days.

He squatted in front of the tricolored flower and admired it for a long time before reluctantly taking out a le - knot preservation box and a pair of tweezers. No matter how beautiful the tricolored flower was, it would not grow again if it was not plucked. This was a strategic resource to Xia ruofei, so once it grew, it had to be plucked and preserved well.

Xia ruofei carefully used a pair of tweezers to pick off all three petals and put them in a Tupperware.

In addition to the two remaining petals from the last harvest, there were already five petals in the safety box.

Xia ruofei thought for a moment and reached out to pick up a petal with a pair of tweezers. Then, he carefully extended his hand. The moment his hand touched the petal, the petal immediately burrowed into his palm. Immediately after, he felt a familiar warm current.

Xia ruofei couldn't help but moan in comfort.

After absorbing the flower petal, Xia ruofei could clearly feel that his body had been strengthened. This strengthening was all - Round, including his strength, hearing, vision, and reaction.

Xia ruofei had already made up his mind to harvest the petals every three days. He would keep two petals and absorb one for himself to strengthen his body.

He felt that in the long run, there would definitely be unexpected benefits.

There was still a lot of the "medicinal liquid" that he had mixed for Hu 'Zi's mother's treatment. Xia ruofei filled another bottle of mineral water and was prepared to send another bottle to Hu' Zi's mother in a few days.

At the same time, he took out the small stainless steel wine pot he bought a few days ago and filled it with the 'medicinal liquid'. This flat wine pot could be carried with him, and he could take it out at any time in an emergency.

.....

The next morning, Xia ruofei woke up and went into the spirit map space to harvest the ripe vegetables. After weighing them, he placed about 20 catties of each type of vegetable in a basket and brought it outside.

Xia ruofei had also sprinkled a lot of space pond water on the vegetables. To a certain extent, it could replace the preservation effect of the spirit map space.

After moving the vegetable basket to the small garage on the first floor, Xia ruofei went to make breakfast for himself.

The breakfast was also very simple. It was all ready - made bread and milk. After heating it a little, they finished the meal.

At around eight o'clock, Xia ruofei heard a honking sound from outside the villa. He stood up and looked outside. He saw a white van parked at the entrance of the courtyard.

Xia ruofei walked out. When he passed by the door, he pressed the remote control to open the courtyard door.

When they reached the villa's courtyard, Xia ruofei realized that Ling Qingxue's flashy orange Porsche 911 was right behind the small truck. He could not help but smile bitterly. This girl had still come personally.

The two cars stopped and Ling Qingxue quickly got out of the Porsche 911. The moment she saw Xia ruofei, she shouted,

"Ruofei, this place you found is really good! Facing the sea, flowers blooming in the warm spring! Not bad, you're directly buying a big villa!"

Xia ruofei greeted her with a smile and said,

"How can I afford it! I rented this!"

At this moment, a man in his late twenties got down from the front passenger seat of the small truck. When he saw Ling Qingxue and Xia ruofei chatting happily, he could not help but look at Xia ruofei warily. Then, he quickened his pace and walked towards the two.

The man was dressed in a suit and leather shoes. He wore a pair of glasses and looked decent. He walked in front of the two of them and glanced at Xia ruofei. Then, he said,

"Qingxue, is this our new supplier? Introduce me to them!"

Ling Qingxue's brows furrowed slightly as she said,

"Manager he, I've reminded you more than once. You can call me manager Ling or miss Ling, but please don't call me 'Qingxue'. Our personal relationship is not that close!"

Manager he's face turned red and white. He opened his mouth, but before he could speak, Ling Qingxue looked at Xia ruofei and smiled."

"RUO Fei, this is he Dong, the manager of our Ling Ji restaurant chain's procurement department. The procurement department is in charge of signing all the supply contracts for our food ingredients procurement."

Ling Qingxue had no intention of introducing Xia ruofei to he Dong. She said indifferently,"

"Manager he, please take out the contract!"

Xia ruofei saw Ling Qingxue's frosty expression in front of others. Even if he did not have any other thoughts about Ling Qingxue, he still felt a little proud.

As the host, he had to be polite, so Xia ruofei took the initiative to extend his hand to he Dong and said with a faint smile,"

"Manager he, nice to meet you! I'm Xia ruofei. "

He Dong ignored Xia ruofei's outstretched hand. His dark eyes swept over Xia ruofei, not hiding his hostility at all. Then, he said to Ling Qingxue in a business - like tone,"

"Manager Ling, the chairman has always emphasized the strict control of ingredients. Before coming here this time, the chairman has also specifically emphasized the issue of food safety, so before signing the contract, I still have a few questions to confirm with Mr. Xia. Please understand."

Ling Qingxue's eyes flashed with anger. However, Ling's restaurant was a large - scale chain enterprise that was even looking to go public in the future. It was not something that those small family workshops could compare to. The company had its own rules. Even if she was the Chairman's daughter, she still had to follow them.

He Dong precisely grasped this point and occupied the moral high ground first.

Ling Qingxue snorted and said,"

"Hurry up! The restaurant is still waiting for these dishes!"

He Dong revealed a fake smile and said,"

"It'll be quick. It's just a routine inquiry."

Ling Qingxue turned to look at Xia ruofei. Her eyes were apologetic and uneasy. She was afraid that Xia ruofei would be angry.

Xia ruofei smiled at her and shook his head to show that he didn't mind.

When he Dong saw the two of them making eyes at each other, an unknown fire rose in his heart. His gaze towards Xia ruofei was filled with coldness.

He put on a serious face and asked,"

"Mr. Xia, although you were recommended by manager Ling, Ling's restaurant is a famous chain in Sanshan city. We have very high safety standards for our ingredients. May I ask if you have your own vegetable planting base?"

"Not yet, but it will be built soon." Xia ruofei replied indifferently.

"That means there's no one." He Dong said coldly with a dead fish face, then continued to ask, "then do the vegetables you provided have an Inspection and Quarantine certificate issued by an authoritative organization?"

"No, I didn't," Xia ruofei shook his head. "These new vegetables are the latest research ..."

"You don't have to explain!" He Dong interrupted Xia ruofei and said, "this is clearly a 'three - no - none' product! It's impossible for Ling Ji to acquire it! I'm sorry, manager Ling, but I can't sign this contract!"

Chapter 42 Throw it out (1)

"He Dong! What are you trying to do?" Hearing this, Ling Qingxue's anger surged and she rebuked loudly, "I personally confirmed the collaboration with Xia ruofei. Who are you to deny it?"

He Dong revealed an innocent expression as he spread his hands and said,

"Manager Ling, I'm doing this for the sake of the public! He was also acting according to the company's regulations. The standards and principles of the procurement department were personally decided by the chairman, and I don't dare to violate them! Mr. Xia, you don't have a qualified vegetable plantation base, nor do you have the identification certificate from the relevant organization. I really don't dare to purchase such products ..."

Xia ruofei could feel he Dong's deep enmity towards him. Although he was not clear about the whole story, he could roughly guess it. It was probably because he Dong had some feelings for Ling Qingxue and thus treated him as a love rival!

Under such circumstances, Xia ruofei decided to just stand by and watch.

Ling Qingxue snorted and said,

"He Dong, stop talking nonsense! I've personally tested and tasted these new vegetables. Would I harm my own company?"

He Dong glanced at Xia ruofei and said in a strange tone,

"Manager Ling, you're the little princess of Ling Ji F & B. Of course, you wouldn't do anything bad to the company on purpose. However, I'm worried that you're still inexperienced and have been deceived by someone! A few thousand Yuan a day is indeed nothing to Ling Ji restaurant, but if these ingredients have safety issues, it won't be as simple as a few thousand Yuan. That will be a devastating blow to Ling Ji restaurant's brand image!"

The more he Dong spoke, the more serious his words became. He made it seem like everything he did was for the company. Ling Qingxue was so angry that she gritted her teeth and stared at he Dong.

"Manager he, it seems that you've been doing too well in the company recently, and you're not able to maintain your position! I think you don't want to work in Ling Ji F & B anymore!"

He Dong had an aggrieved expression as he said,"

"In all honesty, I have always been loyal to the company. Even if miss Ling wants to fire me because of today's incident, I will still stick to my principles. But I believe that uncle Ling ... No, Chairman Ling will understand my difficulties ..."

It was obvious that this he Dong didn't seem to be afraid and didn't take Ling Qingxue's threat seriously.

Ling Qingxue's perky chest heaved up and down in anger, and she glared at he Dong with her almond-shaped eyes, as if they were about to spew fire. This was clearly the prelude to her rage.

It was only then that Xia ruofei used his eyes to stop Ling Qingxue. Then, with a faint smile, he looked at he Dong and asked,

"Manager he, I have a question to ask."

"You say it!" He Dong's eyes flashed with pride as he looked down at Xia ruofei.

"You haven't seen the new vegetable I've been providing since you came in, have you?" Xia ruofei asked.

The corners of he Dong's mouth twitched, and he said arrogantly,"

"I don't need to look! You don't even have the most basic qualifications, so you're not qualified to be a supplier of our Ling Ji F & B!"

"He Dong! Don't be too arrogant!" Ling Qingxue chided.

He Dong shrugged and said,"

"Manager Ling, although it's not nice to hear, it's the truth! All of our vegetable ingredients come from the green planting base that the company has a share in. Pure green vegetables have always been a sign of our company's publicity. Mr. Xia's so-called new vegetable, in my opinion, has an unknown origin. As the procurement Manager, I have the right to reject this purchase!"

Before Ling Qingxue could speak, Xia ruofei waved his hand to stop her. Then, he looked at he Dong and asked,"

"So you're saying there's no way to talk about this business?"

He Dong had a mocking smile on his face as he said,"

"You think too highly of yourself! If it wasn't for Qingxue's insistence, would I have the time to listen to your nonsense? Do you know how busy I am every day?"

After he finished speaking, he Dong looked around with a proud expression and continued,"

"This house looks like something, but I think I heard you say something just now? You rented it, right?"

Then, he looked at the pickup truck that was parked at the side and sneered,"

"Mr. Xia's car is quite new, could it be that you rented it? But I don't think that's the case, you can probably afford a small pickup ..."

Seeing that he Dong was getting more and more excited, Ling Qingxue finally couldn't hold back her anger. She coldly rebuked,"

"He Dong, you're too much! Apologize to RUO Fei immediately!"

Xia ruofei waved his hand and said,"

"There's no need for an apology, but since the business deal has failed, can I trouble manager he ... To help me close the door from the outside?"

He Dong didn't react in time and subconsciously asked,"

"What do you mean by that?"

Xia ruofei said indifferently,"

"I mean ..."

When he said this, he suddenly raised his voice several times, and his voice became extremely sharp."

"I told you to F * cking get as far away as you can!"

He Dong jumped in shock and subconsciously took a step back. Then, he revealed a resentful expression and pointed at Xia ruofei with a trembling finger."

"You ... Do you know who you're talking to?"

Xia ruofei looked at he Dong with disdain and turned to the small truck driver."

"Sir, please drive the car back! I'm really sorry for making you come here in vain ..."

The driver was also an employee of Ling Ji restaurant. When he heard this, he turned his questioning gaze to Ling Qingxue. Ling Qingxue sighed inwardly. She knew that this matter would definitely not be completed today, so she nodded her head slightly.

After getting permission, the driver jumped into the driver's seat and started the car without saying a word. He then drove out of the villa yard.

Xia ruofei strode towards he Dong.

He Dong looked at the aggressive Xia ruofei and was scared. He asked in a trembling voice,"

"What do you want to do? Don't come over! Do you dare to touch me?"

Xia ruofei walked to he Dong in a few steps and grabbed his collar with one hand. Like picking up a little chick, he lifted he Dong up with one hand and threw him lightly. He Dong's entire body flew up and landed right on his butt outside the courtyard door.

Xia ruofei clapped his hands and said,"

"No problem! I don't have much to do today, so I can definitely be a good listener! Come, come, 10:13 come ... Come in, come in. You haven't seen my new home yet! Come in and take a look!"

"You're not welcome in my territory! If you don't get lost, your legs will be broken!"

He Dong groaned as he got up from the ground, and he shouted in exasperation,"

"Just you wait! Hmph! As long as I'm in Ling Ji F & B, don't even think about your vegetables coming in! You country bumpkin ..."

Xia ruofei pretended to chase after him. He Dong was so scared that he peed his pants and ran to the small truck. He pulled open the door and got in. His movements were more agile than a monkey.

Xia ruofei couldn't help but laugh and said,"

"I'll make it clear today, I'm going to let all of my vegetables enter Ling Ji F & B! However ... I'm afraid you won't be able to stay until that day!"

The small truck quickly drove away from the villa.

Ling Qingxue was still in the courtyard with an apologetic look on her face. She walked in front of Xia ruofei and said in a low voice,"

"Ruofei, I'm sorry! I didn't expect things to turn out like this!"

Xia ruofei laughed and said,"

"Student Qingxue, it seems like you still haven't established your prestige as the Ling Ji's young miss! Even a small department manager is disobeying you!"

Ling Qingxue's expression darkened, and she said in a low voice,"

"The situation here is a little complicated ... Let me slowly explain to you ..."

Xia ruofei quickly said,"

"Don't misunderstand, I'm just joking, I don't have any intention of blaming you! Besides, you don't have to explain anything to me!"

Ling Qingxue glanced at Xia ruofei with a hint of resentment in her eyes and said,"

"Then I want to complain to you. Is that okay?"

Xia ruofei chuckled and said,"

"No problem! I don't have much to do today, so I can definitely be a good listener! Come, come, come ... Come in, come in. You haven't seen my new home yet! Come in and take a look!"

When Ling Qingxue heard this, the haze in her heart seemed to dissipate. A bright smile appeared on her face as she said,"

"Alright! I'd like to try your cooking again at noon, is that okay?"

Xia ruofei said readily,"

"No problem!"

Chapter 43 Qingxue's troubles (1)

The two of them walked into the villa together. Ling Qingxue seemed to have forgotten about the unhappiness caused by he Dong earlier. She was admiring the villa as she looked around, very envious of Xia ruofei's living environment.

Xia ruofei couldn't help but find it funny and asked,"

"Can you not be so exaggerated! You're the little princess of lingji F & B, what villa can't you afford to live in? What's a small holiday villa like this?"

Ling Qingxue rolled her eyes at Xia ruofei and said,"

"What do you know? I'm envious of your freedom! Living alone in a house facing the sea, doing whatever you want, without any restrictions ..."

Ling Qingxue's tone seemed to have dropped a little.

Xia ruofei said,"

"Tell me! What was going on with this he Dong? I don't think he's as simple as a department manager in your company!"

Ling Qingxue sighed and walked straight to the sofa in the living room. She sat down and then began to tell Xia ruofei.

It turned out that he Dong's relationship with the Ling family wasn't shallow.

He Dong's father, he Xiangjun, and Ling Qingxue's father, Ling Xiaotian, were comrades in arms. This wasn't the most important thing. The most important thing was that he Xiangjun had once saved Ling Xiaotian's life, and because of that, he Xiangjun had been permanently disabled.

Back then, both of them had served in a military unit in southern Yunnan Province. He Xiangjun was Ling Xiaotian's squad leader. Due to historical reasons, a large number of mines had been left in the border area, and the two of them had belonged to a unit that specialized in mine clearance.

That year, during the minesweeper operation at the border, Ling Xiaotian had accidentally touched a mine and he Xiangjun, who was beside him, had pushed him away. Yet, his own legs had been blown apart.

Later on, he Xiangjun returned home as a disabled soldier, and Ling Xiaotian also left the Army after his service was up and returned to his hometown to start a business.

Although one of them was in the southeast province and the other was in Yubei province, Ling Xiaotian had always been concerned about he Xiangdong's life. Especially after his business had grown bigger and bigger, he had often sponsored he Xiangjun's family.

As he Xiangjun's only son, Ling Xiaotian had borne all of he Dong's expenses from elementary school until he graduated from his master's degree. Moreover, after he Dong graduated from Yubei University, Ling Xiaotian had directly absorbed him into Ling Ji F & B. After training in a basic position for a period of

time, Ling Xiaotian had entrusted him with the important task of being the manager of an important Department like the procurement department.

Ling Xiaotian had always felt that he owed he Xiangjun, so he had spared no effort in nurturing he Dong. It could be said that he thought highly of he Dong.

Ling Qingxue naturally wouldn't say anything about this. She also felt that it was only natural.

However, what truly troubled Ling Qingxue was that he Dong had launched a fierce offensive on her since the first time they had met, making Ling Qingxue unable to bear it.

But because of he Xiangjun, Ling Qingxue couldn't show he Dong too much face.

Today's situation was also because he Dong's attitude towards Xia ruofei had completely infuriated Ling Qingxue. Otherwise, she wouldn't have flipped out on the spot.

What made Ling Qingxue even more vexed was that she had mentioned to Ling Xiaotian that he Dong had wooed her, and she had also clearly expressed that she had no feelings for he Dong, hoping that Ling Xiaotian would step forward and tactfully persuade he Dong.

She didn't expect Ling Xiaotian to persuade her to interact more with he Dong.

This instantly gave Ling Qingxue an ominous premonition. She guessed that Ling Xiaotian might have the intention of matchmaking her and he Dong to repay her kindness.

Although Ling Xiaotian wouldn't interfere too much in his daughter's love life, his silent approval was like a shot in the arm for he Dong, making him even more motivated. Now that everyone in the company knew about it, Ling Qingxue was naturally very vexed.

After hearing Ling Qingxue's words, Xia ruofei could not help but feel speechless. He wanted to say a few words of comfort but did not know where to start. For a moment, the living room was silent.

After a long while, Ling Qingxue forced a smile and said,"

"Actually, it's nothing. As long as I don't agree, my dad won't force me to do something I don't want to do!"

Xia ruofei smiled and said,

"That's true. What era are we in now? there's no such thing as arranged marriage or marrying someone to repay a debt of gratitude anymore!"

Ling Qingxue nodded and said,"

"Forget it, let's not talk about these unhappy things ... Ruofei, I'm really sorry about what happened today. I didn't know that he Dong would suddenly make things difficult for you on purpose, and he even said such nasty things ..."

Xia ruofei's eyes lit up and he said,"

"This has nothing to do with you. However, this he Dong was indeed asking for a beating! After hearing what you said, I feel that he Dong's father is indeed a man! He's definitely a competent squad leader in the Army, but he's not good at educating children ..."

Ling Qingxue's eyes flashed with worry as she said,"

"RUO Fei, you must not do anything rash! I'll talk to my dad when I get back. Your new vegetables are very important to Ling Ji F & B. He'll definitely listen to my opinion and sign a supply contract with you. "

Xia ruofei smiled and shook his head."

"Qingxue, don't worry about this for now. I have my own way of dealing with it!"

"But ..." Ling Qingxue wanted to say something but stopped.

Xia ruofei chuckled and said,"

"Don't worry! I'll definitely reserve the stock I promised you, not a catty less, it'll just be a few days later!"

"That's good ..." Ling Qingxue patted her chest lightly and pretended to be relieved."I thought you were so angry that you didn't want to work with our Ling Ji restaurant anymore!"

"Why would I?" Xia ruofei smiled and said,"I still have to give face to my old classmate!"

"Should I thank you then?" Ling Qingxue pouted, then snorted and said,"he Dong, that idiot! You thought I gave you that supply contract on purpose to take care of you! You really have eyes but can't recognize gold embedded in Jade!"

Xia ruofei smiled and said,"

"Let's not talk about this killjoy! Speak! What do you want to eat for lunch? I'll personally cook later!"

Ling Qingxue immediately cheered, but before she could say anything, the phone in her bag rang.

She took out her phone and looked at Xia ruofei."

"It's my dad ..."

Xia ruofei smiled and raised his chin, indicating for her to answer the call.

Ling Qingxue picked up the phone and said,"

"Dad ... What? Dad, it's not like what he Dong said ... Aiya, dad, listen to me ... Oh ... Okay ... I know ..."

Ling Qingxue's voice became lower and lower as she spoke. In the end, she hung up the phone sullenly and said angrily,"

"He Dong is actually the villain who filed a complaint first! You went to my dad's place to stir up trouble! My dad wants me to go back to the company immediately ..."

Xia ruofei shrugged and asked,"

"Then you're prepared to ..."

Ling Qingxue snorted and said,"

"I'll go back! I was just about to tell my dad about this! If it wasn't for our relationship, Ling Ji would have missed a great opportunity to get out of this predicament! If it's really like that, then he Dong can hardly absolve himself of the blame!"

that you owe me a meal!" And it's the kind that requires you to personally cook ..."

21:22

Xia ruofei laughed.

If it could be said that Ling Qingxue had only been a little annoyed with he Dong in the past, then she now thoroughly loathed him.

Xia ruofei smiled and said,

"You can go back and talk to your father, but don't get into a conflict with him because of this. Believe me, I can handle this!"

"Alright, I understand ..." Ling Qingxue said obediently. She then added,"then you must remember that you owe me a meal!" And it's the kind that requires you to personally cook ..."

Xia ruofei laughed.

"I remember, I remember! I'll make it up to you the next time you come!"

Ling Qingxue laughed and said,"

"I'll go back first then ..."

Xia ruofei nodded.

Only then did Ling Qingxue pick up her handbag and walk out of the villa. Xia ruofei sent her out and watched her get into the Porsche 911. He smiled and waved at her, then watched the sports car drive away.

As he turned around and walked back to the villa, the image of Ling Qingxue's beautiful smile kept flashing in Xia ruofei's mind. He couldn't help but shake his head and think,"Don't tell me that I'm really having some thoughts about this girl!

In fact, after Xia ruofei recovered from his terminal illness, his mentality had quietly changed. Ling Qingxue was also a first - Class beauty. It was obvious that she had feelings for Xia ruofei. She was even more proactive in their relationship. Xia ruofei was not a Saint. He had unconsciously developed some feelings for her, but he did not notice it.

Xia ruofei got rid of these distracting thoughts and started to think about what had happened today.

He Dong's words and actions today had already angered Xia ruofei. In the military, he was known for his unwillingness to admit defeat. If he didn't fight back after he Dong deliberately made things difficult and humiliated him today, then he wouldn't be the "Blood Wolf" that made his enemies tremble in fear.

Xia ruofei's most powerful counterattack weapon was naturally the new super - Quality vegetables.

He already had a rough idea, and now that he had sat down and thought for a long time, the plan in his heart gradually took shape.

Xia ruofei's lips curled into a cold smile as he muttered to himself,"

"He Dong, I'll definitely give you an unforgettable lesson this time!"

Chapter 44 Attending the banquet (1)

Xia ruofei got up and went to the villa's garage. He put all the new vegetables he had prepared in the morning into the spirit map space and watered the succulents in the space pool.

After leaving the spirit map space, Xia ruofei saw that it was still early, so he drove back to San Shan city and went straight to the seed company.

He bought some new vegetable seeds, which were still the same as before. At the same time, he also bought some pumpkin, radish, and Chinese yam seeds.

Although Xia ruofei's cooperation with Ling's restaurant had been temporarily thwarted because of he Dong's interference, the plan to expand the planting still had to be implemented. Xia ruofei even planned to explore ways to plant vegetables in the outside world without greatly reducing the quality.

Therefore, he bought more seeds this time to avoid running to the seed company again and again. After all, the spirit map space had an amazing preservation function.

Then, Xia ruofei found a chain supermarket and bought some pork, beef, ribs, and other ingredients. He was ready to bring them back to the holiday villa to eat super vegetables. Although it was good, Xia ruofei could not stand not having meat every day.

Especially after absorbing the flower petals, his body's absorption ability seemed to have improved a lot. His appetite was much larger than before. Xia ruofei knew that it was best to eat beef and mutton every day as it would help with muscle growth.

After buying the things, Xia ruofei drove back.

When the car was about to reach the holiday villa, he received a call from Wu Liqian.

Wu Liqian had told him that professor Tian had been discharged from the hospital, and Tian Huilan wanted to treat him to dinner tonight.

Since they had already agreed to it, Xia ruofei did not reject and agreed immediately.

However, when Wu Liqian offered to send a car to pick him up, he politely declined. He said that it was not so troublesome and that he could go directly by himself.

Xia ruofei was Tian Huilan's distinguished guest. Since he insisted on not having a car pick him up, Wu Liqian could only let him be. After a few polite words, she told him that she would send him the location of the meal later.

After the call, Xia ruofei placed his phone on the dashboard and continued to drive. Not long after, his phone beeped with a text message notification, but Xia ruofei did not look at it and continued to drive seriously.

Back at the holiday villa, Xia ruofei put all the beef, mutton, and seeds into the spirit map space. With this magical space, the refrigerator in the house was basically just a decoration. At most, it could be used as a cover when there were guests.

After keeping his things, Xia ruofei turned on his phone. The text message was from Wu Liqian.

The dinner location was at a rather famous private club in San Shan city called "West River moon."

Xia ruofei took a look at the message and suddenly had a flash of inspiration. He had a brilliant idea ...

.....

At around 5 pm, Xia ruofei left the villa in his pickup.

There was a small vegetable basket in the front passenger seat of his car. There was a large amount of spinach, a few tomatoes, and a few eggplants in it.

These were the new vegetables that Xia ruofei had picked out from the spirit map space in the afternoon. He brought these vegetables to the banquet and naturally had a complete plan in his heart.

The "West River moon" club was located in the 5A scenic area in the city center, San Fang Qi Street. It was an ancient building complex, and several ancient alleys ran through it.

Cars were not allowed in the entire area. Hence, Xia ruofei found a parking lot outside the area and parked the pickup. Then, he carried his basket and walked into the area.

The club was located in the yellow Lane in the center of the scenic Area. It was transformed from an old house that occupied a large area. The overall style was antique and full of oriental charm.

The appointed time was 6 O' clock. When Xia ruofei arrived at the West River Moon Club at around 5:50, he found Wu Liqian already waiting at the door.

"Sis Wu!" Xia ruofei walked up quickly with a smile on his face.

"Little Xia is here!" Wu Liqian smiled and said, "please come in! Mayor Tian and professor Tian have already arrived!"

"How can I let the mayor wait for me? "I'm so sorry ..."Xia ruofei said.

"It's nothing. You're the guest today!" Wu Liqian said with a smile as she led the way.

"West River moon" club maintained the style of an ancient building. Everything had the original antique flavor. The lattice windows, cloisters, and exquisitely carved cornices made people feel as if they had gone through time.

Soon, the two of them arrived at the door of an elegant private room. Just as Wu Liqian was about to knock on the door, Xia ruofei stopped her and said,"

"Sis Wu, I brought some new vegetables that my friend cultivated. Can I trouble you to ask the kitchen to use these ingredients to cook a few dishes? I would like professor Tian and Mayor Tian to try it together. "

Wu Liqian was stunned for a moment, but she immediately smiled and said,"

"Of course, no problem!"

Then, she said to the waiter at the door,"

"Please invite your President Zheng over!"

"Alright!"

The waiter quickly said a few words through the walkie - talkie, and a few minutes later, a fat man in a suit rushed over with a humble smile on his face. He greeted them from afar,"

"Director Wu, do you have any orders?"

Wu Liqian told President Zheng about Xia ruofei's request, and President Zheng agreed to ask the customers to bring the ingredients for processing. It was a common thing, but usually, the other customers would bring rare and precious ingredients, while Xia ruofei only took some vegetables.

Xia ruofei passed the basket to President Zheng and smiled."

"Then I'll have to trouble you, President Zheng!"

President Zheng quickly said that he didn't deserve it. Then, he greeted them and personally brought the vegetable basket to the kitchen.

Wu Liqian walked to the door of the private room and knocked on it gently. Then, she pushed the door open and gestured for Xia ruofei to enter.

Xia ruofei smiled and nodded at Wu Liqian. Then, he walked in and Wu Liqian followed him into the private room.

The private room was not too big and the decorations looked very ordinary. However, there was a hint of low - Key luxury in the ordinary. Even Xia ruofei, who did not know much about these things, could tell that the unassuming furniture and decorations in the private room were expensive.

Tian Huilan was accompanying her father as they made tea. When they saw Xia ruofei enter, professor Tian immediately stood up personally. Naturally, Tian Huilan also stood up.

"Young man, I've finally found you!" Professor Tian laughed and said,"if I didn't have a daughter who is a Mayor, I might never have found you again!"

Xia ruofei hurried to the two of them and said,"

"Professor Tian, I really didn't do much that day. You don't have to be so polite ..."

Tian Huilan smiled and said,

"Little Xia, my father taught me since I was young that a drop of kindness should be repaid with a spring, let alone a life - saving grace."

"Yup! Now, when many people see an old man fall to the ground, they avoid him like the plague!" Professor Tian sighed,"under such circumstances, little Xia stepped forward bravely and even displayed her miraculous hands of rejuvenation. I owe her a great debt of gratitude!"

"I don't dare!" Xia ruofei quickly said, "professor Tian, you're being too serious!"

"Hahaha!" Professor Tian laughed heartily and said, "little Xia, there aren't many young people like you these days! You have to accompany me for a drink or two today!"

Then, professor Tian furrowed his brows and turned to Tian Huilan."

"By the way, why hasn't Youyou arrived yet?"

Tian Huilan quickly said,

"She just texted me that she was delayed by something at school. She's already on her way and should be here soon ..."

Professor Tian showed an unhappy expression and said,"

"I already told her to get there before six, but it's already five past six! Why doesn't this child have any sense of time?"

At this moment, a young girl's voice came from the door,"

"Grandpa, you're talking bad about me again!"

Chapter 45 Lu You (1)

Xia ruofei looked up and saw a young and beautiful girl at the door of the room.

She was wearing a pair of tight - fitting blue jeans and a loose, long Korean knitted shirt. She had a pair of white canvas shoes on her feet, a large silver bracelet on her tender arm, and a linen slanted bag on her back. She was full of youth.

Although the young lady was only in her twenties, her body was already very mature. Her figure was curvaceous, her skin was very white, and her facial features were quite exquisite. She looked like a porcelain doll.

At this time, the girl's delicate face had a hint of coquettishness. Her cherry - like lips were slightly pouted, and her big watery eyes looked at professor Tian with grievance.

Professor Tian said with a straight face,"

"Youyou, didn't your mother tell you that tonight's banquet is very important? You're late and you're still in the right?"

Youyou lowered her head slightly and glanced at professor Tian. She muttered,"

"Isn't it just five minutes late? You just love to go overboard ..."

Although her voice was soft, professor Tian heard it. He glared at Youyou and was about to reprimand her when Xia ruofei saw this and quickly said,"

"It's fine, it's fine ... Professor Tian, isn't it just a simple meal? Besides, the timing is just right ..."

Professor Tian's face brightened up a little and said,"

"Since Xiao Xia interceded for you, let's forget about this. Don't be so undisciplined next time, understand?"

Youyou stuck out her tongue and said,"

"Oh, I know ..."

When professor Tian had criticized Youyou, Tian Huilan had remained silent. Although she was the mayor, she was still a dutiful daughter. She heaved a sigh of relief when she saw the situation. Fortunately, Xia was there. Otherwise, her stubborn father would have reprimanded Youyou.

Tian Huilan said,

"Little Xia, let me introduce you. This is my daughter, Lu You, a student of the three mountains University. Youyou, this is Xia ruofei, grandpa's Savior. "

Xia ruofei took the initiative to smile and greet Lu You. Lu You sized Xia ruofei up curiously and Wu Liqian began to get busy asking the waiter to inform them to serve the dishes, prepare drinks, 16:19 wine, and other things.

then nodded at Xia ruofei indifferently.

Seeing this, professor Tian's expression turned ugly. Tian Huilan quickly said,

"Little Xia, everyone's here. Why don't we take our seats?"

"Alright!" Xia ruofei said.

Professor Tian held back his anger and personally led Xia ruofei to the Round Table.

The group arrived at the Round Table. Professor Tian and Tian Huilan pulled Xia ruofei to the main seat. Naturally, Xia ruofei could not really sit down. After several rejections, professor Tian took the main seat. Xia ruofei and Tian Huilan sat on the left and right sides of professor Tian.

Lu You naturally sat beside her mother.

Wu Liqian began to get busy asking the waiter to inform them to serve the dishes, prepare drinks, wine, and other things.

"Little Wu, sit down and eat together! These things can be done by the waiters. " Tian Huilan said.

"Yes, thank you, Mayor!" Wu Liqian's eyes flashed with a hint of joy.

This was a very private banquet, and it was basically a family dinner. The fact that Tian Huilan allowed Wu Liqian to sit at the table showed that she treated her as a trusted subordinate.

Wu Liqian sat beside Xia ruofei. She understood that her main task tonight was to serve Xia ruofei well.

Since the mayor was treating them to a meal, the "West River moon" club naturally made full preparations. Therefore, the dishes were served after they sat down for a while.

After the wine was poured, professor Tian raised his glass and said to Xia ruofei,"

"Little Xia, I'll toast you the first glass of wine alone! If it wasn't for you, my old bones would have died there that day ..."

Xia ruofei smiled and clinked glasses with professor Tian. The two of them raised their heads and drank the wine. Professor Tian laughed and said,"

"I heard from Huilan that you're a retired soldier? Drinking is indeed refreshing!"

"When an elder toasts, I can't not be happy!" Xia ruofei smiled and said,

He liked the old man's personality. Although he was a University professor, he didn't put on airs. He was down - to - Earth and had a straightforward personality. Xia ruofei, who was born in the military, liked to deal with people like this.

"By the way, professor Tian, how's your recovery going?" Xia ruofei asked again.

"I'm all well!" Professor Tian said happily,"the test results showed that he was very healthy. Some of the indicators were even better than before! Little Xia, what you gave me that day must have been a miraculous elixir! In any case, the treatment in the People's Hospital would definitely not be so effective! I understand them!"

Hearing this, Tian Huilan couldn't help but reveal an expression of not knowing whether to laugh or cry. This old man really dared to say anything!

Lu You also had a look of disapproval on her face.

To be honest, Lu You's first impression of her grandfather's Savior wasn't very good. The reason was ridiculous. She originally had an event to attend at school today, so she didn't want to come to this meal at all. However, professor Tian insisted that she had to be there. He said that this was the only way that it could be considered a family banquet and a sign of sincerity.

After she had arranged everything, she rushed to the club, but she was criticized by professor Tian for being only five minutes late.

In Lu You's opinion, all of this was because of Xia ruofei.

Moreover, Lu You's father had sacrificed himself for work when she was very young. Her mother had always been very busy with work and often could not take care of her. She lacked love and was naturally a little rebellious.

In addition, Tian Huilan was now in a high position, so Lu You's personality had become a little arrogant.

In her opinion, those who were close to her family most likely had ulterior motives, even if Xia ruofei did not know who professor Tian was when he saved him.

Xia ruofei did not know what Lu You was thinking. After hearing professor Tian's words, he only smiled and said,"

"It's not really a panacea. It's just some Chinese medicine I made according to the ancient formula, and it just so happens that this liquid has a certain effect on myocardial infarction,"

Professor Tian sighed,"

"China's Traditional Chinese Medicine is so profound! The funny thing is that some people look down on Traditional Chinese Medicine and even call them witch doctors. They're really frogs in a well!"

Fang Yang smiled and nodded, agreeing with professor Tian. Then, he thought for a moment and said,"

"By the way, professor Tian, I also made some of the same liquid as last time. You can take it back and take a small amount of it regularly. Not only can it further improve heart and lung function, but it is also very useful for the health care of the elderly!"

Xia ruofei took out a small, flat, stainless - Steel wine pot and handed it to professor Tian.

Xia ruofei had originally prepared this for himself in case of an emergency. Today, he had hit it off with professor Tian, so he simply gave it to him. He would just prepare another set for himself when the time came.

"Oh, really? Then it would be impolite of me to refuse!" Professor Tian said happily. Then, he took the small wine pot as if it was a treasure and carefully put it in his pocket.

Tian Huilan also said,

"Thank you, Xia!"

She didn't believe Xia ruofei's medicine completely and even disapproved of it a little. In her opinion, the hospital was the main reason why her father could fully recover and even get better than before. Xia ruofei's medicine had only controlled his condition during the first aid.

However, Xia ruofei had good intentions and he was her father's Savior, so Tian Huilan still expressed her gratitude very politely.

Lu You watched coldly from the side and muttered in her heart,"This is it ... Hmph! Ingratiating himself for no reason!

The young lady had a preconceived idea and was not pleased with Xia ruofei. She simply didn't say anything and only focused on eating.

However, Xia ruofei did not notice the change in Lu You's mood and continued to chat happily with professor Tian. The two of them seemed to have become friends despite their age.

And Tian Huilan could only occasionally interject with a sentence or two.

As for Wu Liqian, she spent most of her time serving Xia ruofei and pouring him wine.

After eating for a while, someone knocked on the door.

President Zheng of the club personally came in with a plate of stir - fried water spinach ...

Chapter 46 Winning the lottery (1)

Other than Xia ruofei, everyone in the room looked at the water spinach in President Zheng's hand.

The most ordinary stir - fried water spinach was emitting an alluring fragrance. Moreover, it looked really good. Every leaf was pure emerald green with a little crystal luster. It looked like a piece of Jade art against the White plate.

Even Tian Huilan couldn't help but take a few more glances, then smiled and asked,

"President Zheng, I don't think we ordered water spinach! Could it be that this is a new dish in your restaurant and you want us to try it?"

President Zheng quickly said,

"Mayor Tian, you've misunderstood. These are the ingredients brought by Mr. Xia. We were only responsible for processing them. There will be a few more dishes coming soon, and they will all be using the ingredients provided by Mr. Xia."

"Oh? Xiao Xia, why did you bring your own food?" Tian Huilan couldn't help but find it funny as she turned to ask Xia ruofei.

Xia ruofei smiled and explained,

"Professor Tian, Mayor Tian, these are the new vegetables cultivated by a friend of mine. Not only are they pure green and pollution - Free, but they also taste much better than the vegetables sold in the market. I brought them here today for everyone to try."

"The vegetables Mr. Xia brought are all of very high quality!" President Zheng said from the side, "the Executive Head Chef of this small restaurant is full of praise for these vegetables. He said that they are the best vegetables he has seen in his decades of work!"

"Oh, really? Then we'll have to have a good taste!" Professor Tian was also very interested.

President Zheng quickly put down the plate and hurried to the other dishes.

"Come, come, come, everyone, have a taste! The water spinach looks delicious!" Professor Tian said as he picked up his chopsticks.

After he finished speaking, he took the initiative to pick up some food with his chopsticks and put it in his mouth. Tian Huilan and Wu Liqian also picked up some out of curiosity. Only Lu You did not touch her chopsticks.

"Mm! It tastes really good!" Professor Tian chewed and said with a look of enjoyment, "I've lived for so many years, but this is the first time I've eaten such delicious water spinach! This taste ... It's simply indescribable. It's too delicious!"

Just now, Lu You had also been attracted by the extremely good - looking water spinach and couldn't help but take a few more glances. However, after hearing professor Tian's exaggerated comment, she couldn't help but say,

"Grandpa, are you serious? No matter how delicious it is, it's just water spinach. It's as good as you said ..."

Before Lu You could finish her sentence, Tian Huilan had already praised,

"Little Xia, this new vegetable dish is really extraordinary! The taste is too good!"

Wu Liqian nodded in agreement as she ate. It was obvious that this simple water spinach had won everyone's approval. Of course, Lu You, who was a little peeved, was not counted.

Professor Tian looked at Lu You and said,"

"Youyou, why don't you try it? Oh right, what did you just say?"

This old man was so focused on eating that he didn't hear what Lu You had just said.

However, Xia ruofei did hear it. He could not help but look at the little girl in amusement.

Lu You also felt Xia ruofei's gaze and immediately glared at him secretly. Her small mouth pouted slightly, and her angry look made Xia ruofei both amused and confused. This little girl seemed to be hostile towards him ...

"Youyou, have a taste!" Tian Huilan also said, "don't you usually like to eat vegetables? The taste of this water spinach will definitely not disappoint you!"

Seeing that her grandfather and mother were so impressed by this water spinach, Lu You's curiosity finally prevailed. She picked up her chopsticks and picked up some, mumbling as she put it into her mouth,"

"I don't believe it. Is it really as good as you say?"

However, when the water spinach was in her mouth, Lu You's expression suddenly froze. Then, her expression became colorful. She chewed in big mouthfuls. Although she didn't say anything, the expression of enjoyment on her face explained everything.

Professor Tian laughed and asked,"

"Youyou, how's the taste?"

Lu You's face turned slightly red and she said stubbornly,"

"It's just like that! It's alright ..."

However, even though she said that, she did not slow down. Before she could swallow the food in about her image. Almost half of these dishes had entered her stomach.

16:22

Xia ruofei couldn't help but worry that her stomach would be upset if she ate like this.

her mouth, she immediately reached out with her chopsticks again, as if she was afraid that others would snatch it all away.

Seeing this, professor Tian couldn't help but burst into laughter. Tian Huilan also had a funny and helpless expression.

Xia ruofei and Wu Liqian wanted to laugh, but they did not dare to. They could only hold it in.

Soon, the remaining dishes were served. There were braised eggplant, tomato scrambled egg, cold cucumber salad, and stir - fried mustard.

They were all very ordinary dishes, but the chef of the club was very good at cooking. In addition, the ingredients that Xia ruofei had provided were definitely the best, so the dishes looked, smelled, and tasted great. Even Xia ruofei himself couldn't help but eat a lot.

He had to admit that there were experts in every field. Using the same ingredients, the food made by the club's chef was indeed much better than the food he made at home.

Professor Tian and the others were eating to their heart's content. Even Tian Huilan kept picking up food, clearly conquered by the deliciousness of these dishes. Lu You ate very quickly, not caring about her image. Almost half of these dishes had entered her stomach.

Xia ruofei couldn't help but worry that her stomach would be upset if she ate like this.

After the meal, professor Tian couldn't help but joke,"

"Little Xia! We wanted to treat you to a meal to express our gratitude, but we didn't expect to benefit from you. Your new vegetables are really delicious!"

Xia ruofei smiled and said,"

"Professor Tian, if you like it, I can send some to your house from time to time."

"This ... Wouldn't that be a bad idea?" Professor Tian was very tempted, but he still asked with a hint of hesitation.

"It's nothing. I grew them myself anyway, so they're not worth much." Xia ruofei smiled."Besides, I have a car. It's very convenient."

"Then I won't be polite! Thank you, Xia!" Professor Tian said with a smile. His impression of Xia ruofei had improved.

increase, and it will be meaningless to push it to the market."

16:23

Tian Huilan smiled and nodded, saying,

Lu You watched from the side and immediately criticized in her heart,"This guy was definitely trying to build a relationship! She was deliberately trying to get close to Grandpa by eating and giving him food ...

Xia ruofei naturally didn't know what Lu You was thinking. Otherwise, he would have said in anger,"This girl was an ungrateful wretch who would turn her back on him after eating him! She was the one who had the most fun eating just now!

Meanwhile, Tian Huilan looked at Xia ruofei thoughtfully and asked,"

"Little Xia, if you put this new vegetable on the market, it should be very popular. Do you have any plans in this area?"

Lu You immediately stared at Xia ruofei, thinking that this guy was about to reveal his fox tail! He would definitely take advantage of the situation and ask for his mother's help!

What she did not expect was that Xia ruofei would only smile and say,"

"We don't have any plans to promote it on a large scale for the time being. The main reason is that this new vegetable is still in the research and development stage. We still have some problems to solve, such as the problem of large - scale planting. If we can't solve this problem, the output will not increase, and it will be meaningless to push it to the market."

Tian Huilan smiled and nodded, saying,

"Mm! Steady and steady was the correct way of thinking! If you have any difficulties in the future or need to coordinate with the government, you can come to me. "

"Alright! Then I'll thank Mayor Tian first!" Xia ruofei replied with a smile.

However, even Lu You could tell that Xia ruofei was answering out of courtesy and did not really want to ask Tian Huilan for help.

Lu You couldn't help but reveal a puzzled expression. This seemed to be a little different from the script she had imagined ...

Tian Huilan then asked about Lin Qiao's school situation. Xia ruofei told her that the school was very good and that Wu Liqian had helped to find a house nearby. Xia ruofei expressed his gratitude to her.

After everyone chatted for a while, the family dinner came to an end.

The clubhouse had an agreement with the three workshops and seven lanes to open a special passage for some important guests 'cars to pick them up directly at the clubhouse entrance. When everyone came out, Tian Huilan's driver had already parked her Audi at the entrance and was waiting.

Standing at the entrance of the club, Tian Huilan asked with a smile,"

"Xia, shall I get the driver to send you?"

"It's fine, Mayor Tian, I drove here myself," Xia ruofei said,"I'll just find a designated driver at the club later."

That night, everyone had a few drinks, so Xia ruofei could not drive.

"That's good. If you have time, come home and be a guest!" Tian Huilan extended an invitation to Xia ruofei, then turned to Wu Liqian and said,"Xiao Wu, you stay behind and help make the arrangements."

"Alright, Mayor Tian!" Wu Liqian said.

"No need, no need," Xia ruofei quickly said,"it's getting late. I'm worried about sis Wu going home alone! The club has a designated driving service, I'll just look for one. "

Xia ruofei still had something to do later! Naturally, he didn't want Wu Liqian to stay.

Tian Huilan muttered to herself before nodding,

"Alright, we'll be leaving then!"

Professor Tian also smiled at Xia ruofei and said,"

"Little Xia, remember to come up! I'm still thinking about your new vegetable dish! Hahaha ..."

"I remember! Professor Tian, don't worry!" Xia ruofei laughed.

Lu You didn't say anything at the side. In fact, she had been rather quiet the entire night. However, Xia ruofei wasn't familiar with her. He only smiled and nodded at her. Lu You didn't respond to Xia ruofei and got into the car directly.

"This child ..." Tian Huilan glared at Lu You reproachfully, then said to Xia ruofei, "little Xia, please don't mind her! We've spoiled Youyou, so she's a little arrogant ..."

"I'm fine ..." Xia ruofei smiled. "Mayor Tian, take care!"

"Alright, goodbye!"

Professor Tian's family and Wu Liqian got into the car. Xia ruofei waved goodbye to them and watched the car leave the clubhouse. Then, he turned around and walked back.

"President Zheng, come out! "Mayor Tian and the others have left ..." Xia ruofei said with a smile. He had long noticed President Zheng hiding in the shadows of the lights!

This was within Xia ruofei's expectations.

Sure enough, the chubby President Zheng walked out with a smile on his face and said,"

"Mr. Xia, thank God you didn't leave! Otherwise, I really don't know where to go to find you. "

Xia ruofei smiled and asked,"

"President Zheng, is there anything I can help you with?"

With a warm smile on his face, President Zheng said,"

"I do have something to discuss with Mr. Xia. I wonder if it's convenient for you?"

"Let's talk inside!" Xia ruofei said indifferently and walked into the club. President Zheng quickly followed him.

Xia ruofei had a confident smile on his face because everything was going according to plan.

Chapter 47 President Zheng's olive branch (1)

In a small building deep in the West River Moon Club, President Zheng was serving Xia ruofei a cup of tea that he had personally brewed. He then said,"

"Mr. Xia, this is my precious Jin Junmei. Would you like to try it?"

Xia ruofei smiled and said,"

"President Zheng, let's get straight to the point! You're probably looking for me for those vegetables, right?"

President Zheng chuckled and said,"

"Mr. Xia's eyes are like torches! I'd like to know, how's the output of the vegetables you brought tonight? Is there any possibility of us working together?"

Xia ruofei said with certainty,"

"This is a new vegetable that we've been cultivating. It hasn't entered the stage of large - scale planting yet. But ... If President Zheng wants to cooperate, it's not impossible. "

"Oh?" President Zheng asked with great interest,"I'd like to hear more!"

Xia ruofei said with confidence,"

"Although we haven't achieved mass production yet, it's not a problem to carry ten to twenty catties a day. And obviously, President Zheng's Club doesn't win by quantity. Your real customers are a very small number of high - end people. From this perspective, 10 to 20 catties a day should be enough. "

President Zheng couldn't help but look at Xia ruofei again. He didn't expect Xia ruofei to have such sharp eyes. He could see the key to the problem with one look.

In fact, he was so polite to Xia ruofei mostly because of his relationship with Tian Huilan's family. Moreover, the new vegetables that day were indeed very eye - catching, so he had invited Xia ruofei to further discuss it. Now, he valued Xia ruofei more.

"Mr. Xia's eyes are as sharp as a torch!" President Zheng laughed and said,"so, Mr. Xia is willing to supply this new vegetable to our store?"

Xia ruofei smiled and said,"

"Since I'm staying here, of course I'm willing to cooperate."

Then, he changed the topic and continued,"

"However, there are also conditions for cooperation. I'll get straight to the point. President Zheng, you can decide whether to cooperate or not after you hear it."

"Please speak!" President Zheng quickly said.

Xia ruofei nodded and said with confidence,"

"I can supply four types of vegetables a day, 20 catties of new vegetables per type. The price is negotiable. My condition is that President Zheng's West River Moon Club must use the vegetables I provide as your signature dish and do a large promotion in the shortest time possible so that all the upper - Class people in Sanshan city know about my vegetables. I think it shouldn't be difficult for your restaurant to do this with its influence."

The West River Moon Party was definitely a top - tier club in Sanshan city. All the people who went in and out were high - end consumers, especially the area where Tian Huilan had invited Xia ruofei to. It was a completely membership system. Without a membership card, one could not enter even if they were rich.

If the club strongly recommended Xia ruofei's new dish, it would naturally expand its influence in a very short time.

President Zheng thought for a moment and said with a smile,"

"Mr. Xia, are you trying to use this opportunity to promote your own brand?"

Xia ruofei smiled and said,

"This should be a win - win situation, right? My new vegetable is definitely qualified to be your restaurant's first signature dish. President Zheng, you don't deny this, right?"

President Zheng nodded and smiled."

"That's natural! I can agree to Mr. Xia's condition. Once we start working together, we'll first hold a new product promotion event and invite the club's distinguished guests to taste it for free. After the official launch, I'm prepared to leave a small portion of the ingredients for customers to make reservations, and the rest will be limited in supply in the form of an auction. Does Mr. Xia think this arrangement is okay?"

"This plan is very good! It's no wonder President Zheng's Club is so successful, especially since you can think of it in such a short time!" Xia ruofei said with a smile.

President Zheng laughed and said,"

"Mr. Xia, you flatter me! Then ... I have a presumptuous request ..."

"Please go ahead, President Zheng."

"Well ... Can you exclusively supply us with your new vegetables?" President Zheng asked.

Xia ruofei raised his eyebrows and asked curiously,"

"President Zheng, can your Club Digest so many vegetables? Our next step is to expand the scale of planting ..."

The club was meant for a small crowd and wanted to be high - end and Grand. As the saying goes, the rarer something is, the more expensive it is. Even if they bought a few hundred catties of vegetables from Xia ruofei every day, it would be meaningless.

President Zheng smiled and said,"

"We have chain stores in the southeast province, and ... In addition to high - end Dining Services, we also provide high - Quality food sales services to our members. So, if Mr. Xia is willing to cooperate with us in depth, the market prospects are very broad."

"I see ..." Xia ruofei smiled."But ... I'm afraid I can't do an exclusive supply because I've already promised another company before coming here."

President Zheng was slightly disappointed, but Xia ruofei immediately changed the topic and continued,"

"However, my other partner is in the mass food and beverage industry, which doesn't have much conflict with President Zheng's main business, so it shouldn't form a competitive relationship. If President Zheng is willing to cooperate, I can promise you first that in addition to the vegetable supply to this business partner, I can give you the agency rights of the southeast province. "

President Zheng was overjoyed when he heard this. This was simply a ray of hope! He quickly said, "That's great!"

"But I need a promise from you, President Zheng." Xia ruofei said after some thought.

"Oh? Mr. Xia, please speak. "

"President Zheng, you can sell these new vegetables according to your channels or use them in your own club." Xia ruofei said, "but ... President Zheng, you have to promise me that you can't sell these vegetables to the Ming Hao restaurant chain or its associated companies."

Ming Hao restaurant was opened by the family of the chubby Lu Wen who had mocked Xia ruofei with Liu Minghao at the immortal meat stall last time. They were also the main competitors of Ling Qingxue's Ling Ji restaurant. Naturally, Xia ruofei would not allow his family's vegetables to enter Ming Hao restaurant.

President Zheng was stunned for a moment, but he immediately nodded and said,

"No problem! We can write it down in the terms of the contract!"

Xia ruofei was relieved. He nodded and said,

"Then there's no problem! President Zheng, I hope we can work well together!"

"Hahaha! Happy cooperation!" President Zheng said as he shook hands with Xia ruofei.

Then, President Zheng asked tentatively,

"Mr. Xia, I don't think your new vegetable has a registered brand yet, right?"

"Not yet ..." Xia ruofei said.

"Then I suggest that we register our brand before we start the promotion." President Zheng immediately said, "first of all, this will easily create a brand effect. Also, it will prevent illegal businesses from copying us in the future."

Xia ruofei agreed."

"What President Zheng said makes a lot of sense! But I really don't know much about this, and I'm too busy right now, so I'm afraid I can't find the time ..."

President Zheng smiled and said,

"You don't have to do this personally. I still have some face in Sanshan city ... Uh, of course, I can't compare to Mr. Xia ... But I can still handle the matter of the registered trademark!"

Chapter 48 Full cooperation (1)

After Xia ruofei heard this, he smiled and said,"

"I'll have to trouble President Zheng then. "

"It's nothing! You're welcome, Mr. Xia, we're business partners!" President Zheng laughed heartily and then asked,"I wonder if Mr. Xia has a brand name that you're interested in?"

Xia ruofei thought for a while and said,"

"Let's call it paradise organic vegetables!"

Xia ruofei's online roaty shop was also called "Taoyuan roaty". He might as well name his new vegetables with this name so that it would be easier to form a brand matrix in the future.

President Zheng chuckled and said,"

"That's a good name! Mr. Xia's new vegetable is as good as if it's from a paradise, and the name sounds like 'leisurely seeing the southern mountain', so I can't help but be fascinated!"

Xia ruofei didn't expect this chubby businessman, President Zheng, to be so cultured. He couldn't help smiling and nodding in agreement.

President Zheng then asked,"

"Mr. Xia, do you have any specific ideas on the trademark style?"

"I haven't considered that." Xia ruofei said,"why don't I trouble President Zheng to find a designer to design one for me? It's fine as long as it can reflect the feeling of a paradise!"

"No problem!" President Zheng agreed readily.

He thought for a while and asked,"

"By the way, Mr. Xia, do you have your own registered company? If you do, this paradise trademark can be directly put under your company's name. "

"I don't have that ..." Xia ruofei smiled bitterly."I just retired from the Army and I'm still in the early stages of my business."

President Zheng looked surprised, and his tone became more enthusiastic. He said,"

"So Mr. Xia is a retired soldier! No wonder I always felt that you had the air of a soldier ... I, old Zheng, admire soldiers the most. It's a pity that my body wasn't strong enough when I was young, so I couldn't fulfill my dream of being a soldier!"

Xia ruofei smiled and said,"

"I was just an ordinary soldier in the Army. I was a retired corporal."

"That's still amazing!" President Zheng said,"Mr. Xia, I think it is necessary to register a company. How about this? Leave this to me. What do you want to name your new company? Why don't we call it paradise Corporation? I think this name is pretty good!"

Xia ruofei said,"

"President Zheng, the name of the company is fine, but ... I heard that a new company needs to be registered with capital. I ... I don't have much money now!"

President Zheng laughed and said,"

"Mr. Xia, that's all in the past. After the new company law is implemented, you can register a company with just one Yuan, and the registered capital is now under a pledge system. For example, if you want to register a company of one million Yuan, you can directly write that the registered capital is one million Yuan, and the time of investment is 30 years later. This way, after the business license is issued, your registered capital will be one million Yuan, and you can invest 30 years later!"

Xia ruofei was very surprised and said,"

"This actually works?"

"That's right ... Why else would there be so many shell companies?" President Zheng laughed and said,"even if the old company law implemented a handover system, there are still many people who take advantage of loopholes and set up companies without money!"

Then, President Zheng changed the topic and said,"

"But since Mr. Xia wants to set up a company, you don't have to put the time of investment in a few decades. In that case, future partners will really misunderstand that you're a shell company ... I'll help you pay for the registration capital and transfer it out later. All you need to do is provide your identification documents and other relevant information! By the way, how about 5 million Yuan in registered capital?"

President Zheng saw that Xia ruofei and Tian Huilan's family had such a good personal relationship, so he wasn't worried about the security of the funds. Moreover, if everything was left to him to operate, the security of the funds would definitely be guaranteed. So, it was better to sell Xia ruofei and their cooperation would be more pleasant in the future.

President Zheng was very optimistic about the future of Xia ruofei's paradise brand organic vegetables.

"This ... Won't it be too much trouble for you?" Xia ruofei asked hesitantly.

"It's no trouble, no trouble!" President Zheng smiled and said,"I'm familiar with the process. If you have acquaintances in some functional departments, it's very easy to handle!"

"Thank you, President Zheng!" Xia ruofei didn't argue and nodded.

If Xia ruofei had to do these things by himself, it would be very troublesome. If President Zheng was willing to help, Xia ruofei would be able to save a lot of trouble.

"You're welcome, haha! If you don't have a company, we can't sign the cooperation agreement!" President Zheng said candidly,"I'm just helping myself!"

The two of them then finalized some details of the cooperation and had a very good chat. In the end, President Zheng proposed to treat Xia ruofei to supper. He even said that he would not leave after supper and that he would find the best girl in the club to keep him company.

Xia ruofei was so scared that he waved his hands and refused.

When Xia ruofei was about to leave, President Zheng thought that he had drunk a lot of wine during dinner, so he arranged for a car to send him back. He also found a driver to drive Xia ruofei's pickup.

As both parties had agreed to start supplying the vegetables the next day, the club was responsible for picking up the goods at their doorstep. Today, they would take it as showing the driver the way to the holiday villa that Xia ruofei had rented. It was not easy to find, so Xia ruofei did not reject President Zheng's kind intentions. After expressing his gratitude, he got into the car and left, bringing the driver to the nearby parking lot to pick up his pickup truck.

.....

The next morning, not long after Xia ruofei took out the vegetables from the spirit map space for the "West River moon" club, the car sent by the club arrived at the holiday villa. A manager sent by President Zheng came with the car.

President Zheng had arranged for him to help Xia ruofei with the company's registration and Trademark Registering.

The manager made a list of all the information he needed from Xia ruofei, such as his identification card and bank account. Xia ruofei prepared everything on the spot.

In addition, the manager took out a letter of authorization for Xia ruofei to sign. With this letter of authorization, they could do all the trivial matters of registration on their behalf.

After dealing with these things quickly, the manager directed the driver and a worker to move the new vegetables out of the villa's garage.

There was a small scale on the small truck, and they skillfully weighed the vegetables and loaded them on the truck.

Xia ruofei had taken out the vegetables according to their weight in the spirit map space. There were four types of vegetables in total, and each of them weighed about 20 catties.

During the discussion last night, Xia ruofei had given the West River Moon Club a price of 80 yuan per 500 grams for each vegetable. This price was almost double the price he had given Ling Qingxue. There was a difference between family and friends!

Moreover, the club was a high - end business, so they didn't care about the price of the vegetables at all. When they sold them to customers, their profit would definitely be several times higher.

As the agreement had not been officially signed yet, President Zheng asked the manager to bring cash over directly. The four types of vegetables weighed more than 80 catties in total, and they were sold for about 6500 Yuan.

This was the first time that Xia ruofei had reaped any benefits since he started planting vegetables on a whim.

6500 Yuan didn't seem like a lot, but it was only a day's income! That would be close to 200000 Yuan a month.

And this was just the beginning. In the future, when the supply increased, there would be more money.

Most importantly, other than the almost negligible amount of money spent on the seeds, Xia ruofei did not have to pay any other costs. It could be said that he would make a huge profit without any capital.

Xia ruofei put the money into his pocket and watched the small truck carrying the food leave.

It was time to expand the vegetable planting area! Moreover, he had to start looking for a way to grow high - Quality vegetables in the outside world as soon as possible. Otherwise, due to the limited space, it would always be a small project.

Xia ruofei returned to the villa and went to the bedroom on the second floor. He locked the door and closed the curtains. Then, he took out the spirit map space and entered it.

Chapter 49 A flash of inspiration_1

Xia ruofei looked at the one - mu Space in front of him and started planning.

With the spiritual pond as one of the corners, a space of about 100 square meters was set aside for the mother plant, seedlings, and some of Xia ruofei's own miscellaneous items and farm tools. The Tri - colored flower was also in this area.

There were still more than 500 square meters of space left. At the moment, the vegetable plot had used up about 200 square meters. Xia ruofei planned to use the remaining space to temporarily open up a vegetable plot. This way, it would not be a problem to supply both "West River moon" club and Ling Ji restaurant at the same time.

Although the collaboration with Ling Ji F & B had been halted due to he Dong's interference, Xia ruofei was already very confident.

Xia ruofei immediately rolled up his sleeves and started to work.

After his terminal illness was cured, Xia ruofei was full of energy with the help of the petals of the exotic flower.

Hence, Xia ruofei had no problem completing the seemingly huge workload. He just needed to spend some time.

Due to the difference in the flow of time in this space, 10 hours here was only 1 hour in the outside world. Hence, Xia ruofei had plenty of time.

He first used a hoe to open up the soft soil in the space into a vegetable field, which took him a few hours.

After that, Xia ruofei sat down at the spirit pond and used a ladle to scoop up some water. He gulped it down and wiped his mouth as he prepared to process the vegetable seeds.

Previously, when Xia ruofei was planting vegetables, he would fill a large plastic container with the spiritual pond water, soak the seeds in it for a few hours, and then sow them. After waiting in the outside world for a few hours, the seeds would sprout and he would return to the medium to plant them.

This time, Xia ruofei did the same thing.

He took the tidying box that was usually used to soak the seeds and filled half the box with water in the spirit pond. Then, he took out the water Spinach Seeds and poured them into the tidying box, and began to soak them.

At this moment, an idea flashed across Xia ruofei's mind.

He was soaking the seeds in the spiritual pond water. What if he added the petal solution of the Tri - colored flower to the spiritual pond water?

After having this thought, Xia ruofei could no longer remain calm.

The solution could cure als such as Lou Gehrig's disease and kidney failure, and it could also strengthen the body of healthy people. Could it also be effective on vegetable seeds and improve the quality of the vegetables?

If it was really as he had guessed, then the problem of planting it in the outside world would be completely solved!

Xia ruofei felt that he couldn't wait any longer. He immediately found another tidying box and filled it with some spirit pond water. He began to make the solution for the flower petals. He mixed the remaining solution from last time with grape juice and huoxiang zhengqi water. He was worried that the test results were inaccurate, so he made a new solution. Anyway, the flower petals would grow back every three days. It was worth it to use a petal for this experiment.

Xia ruofei found an empty bottle, washed it, and filled it with the spiritual pond water. Then, he used a pair of tweezers to carefully pick up a petal and put it into the bottle.

The flower petal instantly merged into the spiritual pond and disappeared without a trace.

Xia ruofei closed the bottle and shook it a few times to ensure that the solution was even. Then, he unscrewed the bottle cap and poured about one - fifth of the spirit pool water into the plastic container. He then mixed it evenly with a wooden stick.

Then, Xia ruofei found some cabbage seeds and poured them into the box. Cabbage had a shorter growth cycle and could be harvested in ten to twenty days. It was the most suitable for experiments.

After doing all this, Xia ruofei left the spirit map space and went to the kitchen downstairs to make some breakfast. Then, he took a shower and rested for a while. After about two hours, he returned to his room, locked the door and windows, took out the scroll, and entered the spirit map space.

According to the time ratio, the seeds in the medium had been soaking for about a day.

Xia ruofei first scooped up the Water Spinach Seeds that had been soaked in the ordinary spiritual pond water and went to a vegetable field that he had specially opened up in the interspace for growing seedlings. He sprinkled the seeds evenly and covered them with a thin layer of soil before watering them with the spiritual pond water.

After planting the water spinach, Xia ruofei returned to the seed - soaking area and took out about half of the cabbage seeds. He then planted them in the nursery vegetable field.

He packed the remaining seeds in a small plastic bag and left the spirit map space with a watering can, a hoe, and other farming equipment.

Xia ruofei brought these things to the small backyard of the villa.

The backyard was supposed to be a lawn, but the owner of the villa had neglected the villa after the migration, so it was overgrown with weeds.

Xia ruofei took off his jacket and put on a thin autumn coat. He picked up the hoe and started to work.

He shoveled all the weeds away and turned the backyard over again. Then, he opened up two vegetable fields and a small area for seedlings.

After that, Xia ruofei took a short break before starting to sow the seeds. He planted the seeds that had been soaked in the spiritual pond water that had been infused with the petals of the exotic flowers on the seedling - growing field. Then, he took water from the tap in the backyard and watered them.

The reason why he did not use the soil and spiritual pond water was that Xia ruofei wanted to see if the quality of the seeds would increase significantly after soaking them in the exotic flower petal solution. Hence, he had to eliminate other factors.

After all the seeds were sowed, it was already close to noon.

Xia ruofei took a shower and washed off the stinky sweat on her body. She changed into a set of comfortable home clothes and casually made some lunch for herself.

After they finished eating, Xia ruofei drove the pickup truck to Changping County and bought some plastic film and long bamboo strips.

Back in the backyard of the villa, he built a simple greenhouse with bamboo sheets and plastic sheets on the seedling field.

After he was done, he could only wait. It should take ten to twenty days to see the results.

However, the vegetables produced in the origin space were enough to support him, so Xia ruofei was not in a hurry.

He remembered that the succulent seedlings had been sent out three days ago. Shunfeng express was still rather helpful, so perhaps someone had already received the goods.

Hence, Xia ruofei washed his hands at the tap and quickly went upstairs to turn on his computer. He then entered the back end of the Taobao shop.

Sure enough, he had already received more than a dozen orders. A total of 30000 Yuan had been transferred to his Alipay account.

Xia ruofei first withdrew all the money into his bank card and then impatiently opened the comments section to see the customers' comments.

Looking at the comments backstage, they were all positive, and many of them were very long. Several of them were attached with pictures, which made them more convincing.

"It's definitely worth it! This is the highest quality raw stone Flower I've found in all my years of playing with meat!"

"A good friend in the industry introduced it to me. At first, I thought the price was a little expensive, but after I received the goods, I realized that it's not expensive at all! It's too cheap!"

"Directly post the picture! So as not to be said to be entrusted! He was definitely a good seller! With this tortoise shell peony, I can throw away all the succulents I used to raise!"

.....

Then, in almost every comment, the buyers were asking when the new goods would be released, saying that they would inform them in advance so that they could be prepared to buy them.

Xia ruofei pulled out his keyboard and was about to reply to the comments, but when he saw the comments urging him to get the new product, an idea suddenly came to his mind ...

Chapter 50 - crazily fat (1)

Xia ruofei immediately took out the scroll and entered the spirit map space.

There were still four - fifths of the petal solution left in the bottle, which was placed quietly in the space. Xia ruofei picked it up and walked to the succulent plant. He carefully poured a little into each pot. After each pot was finished, there was only half of the petal solution left.

Most of the fleshy parent plants had been cut last time, so they were full of scars. After days of maintenance in the spatial space, they had almost recovered. However, if he wanted to cut them again, he would have to wait a few more days.

There were also a few more pots that Xia ruofei had selected from the succulent seedlings. They had grown a lot since they had been in the spirit map space.

After watering them with the petal solution, the succulent mother plants were clearly more energetic and full of vitality.

Xia ruofei felt that there was hope. The petal solution would definitely help the plants grow.

However, time would tell how effective it would be.

He carefully placed the rest of the petal solution away, and then left the spirit map space with a thought.

After returning to his room, Xia ruofei first replied to every comment and expressed his gratitude to everyone for their positive comments. At the same time, he told them that the new seedlings were in the cultivation process and that he believed that he would be able to meet everyone soon.

In the afternoon, Xia ruofei rested in his room. He only entered the spirit map space after dinner.

Calculating the time, two or three days should have passed in the space.

Xia ruofei first went to the place where the succulent mother plant was placed and was overjoyed!

These precious succulent plants were all in high spirits. The mother plant that had been cut once before had completely recovered, and was ready to cut at any time.

As for the succulent seedlings left in the pots, they had almost grown a huge circle. It was believed that they would grow into adult plants in a few days, and they could be used for cutting.

By a rough estimate, the growth rate of the meaty plants was at least ten times faster than before. Combined with the space's ten times time acceleration, the effect was simply terrifying.

This proved that the petal solution had an obvious effect on the growth of plants. It also gave Xia ruofei more confidence in the cabbages that had been soaked in the solution.

Xia ruofei, who was in a good mood, went to the nursery. All the seeds in the interspace had sprouted and grown to the point where they could be planted.

Especially the cabbages that had been soaked in the petal solution. They were growing much better than the hollow cabbages next to them, which further confirmed Xia ruofei's judgment.

He hummed a song as he began to fix - Plant the vegetable seedlings into the ridged vegetable field that had been cultivated in advance.

Suan ni were too precious, and the production wasn't high. At the moment, he didn't need it to grow vegetables in the interspace. As long as the ordinary spirit pool water was compatible with the He had done this job countless times during this period of time, so he was very familiar with it.

After a few hours, all the hollow vegetable seedlings and cabbage seedlings were planted.

Then, Xia ruofei took out the other seeds and started to soak them in different containers.

But this time, he didn't use the petal solution. He only used the spirit pool water. The petals of the Suan ni were too precious, and the production wasn't high. At the moment, he didn't need it to grow vegetables in the interspace. As long as the ordinary spirit pool water was compatible with the environment of the interspace, it was enough to produce high - Quality vegetables.

In the future, if he wanted to plant it on a large scale, he would definitely need a large amount of petals. In addition, the succulent mother plant and the succulent saplings would need a petal solution to grow quickly. Hence, it was best to save as much as possible.

After soaking all the seeds, Xia ruofei went to harvest the ripe vegetables and packed them separately before leaving the spirit map space.

Xia ruofei returned to his room and went online to order a large number of plastic flower pots and ordinary succulent plants. The delivery point was chosen to be a courier collection point in Changping County.

He planned to start a new round of cutting breeding after receiving the goods in a few days.

.....

The next morning, the small truck from the "West River moon" club arrived at the holiday villa on time. To Xia ruofei's surprise, President Zheng from the club also came in person today. He was in a black Mercedes - Benz.

"President Zheng, why did you come here personally?" Xia ruofei went up to him and said half - jokingly, "you're going to personally make a trip to a business that costs a few thousand Yuan. You're a Big Boss, aren't you going to die of exhaustion?"

The manager from yesterday was with them. He directed the workers to the garage to move the vegetables with ease.

The chubby President Zheng walked towards Xia ruofei with a smile and said, ""Brother Xia, I'm here to tell you good news!"

The day before yesterday, he had addressed Xia ruofei as "Mr. Xia". Today, he had addressed Xia ruofei as "brother Xia". The way he addressed Xia ruofei was more intimate and revealed President Zheng's intention to be on good terms with Xia ruofei.

Xia ruofei raised his eyebrows and asked,

"Oh? Could it be that the registration of my company has been settled?"

President Zheng immediately scratched his head awkwardly and said,

"This ... We'll have to wait for a few days. Some procedures are necessary ... Of course, if brother Xia personally talks to Mayor Tian, the business license will definitely be issued on the same day!"

Xia ruofei smiled and did not reply to President Zheng. Instead, he asked,

"Then what good news is President Zheng going to tell me?"

"Of course it's the Paradise brand vegetables that we're working on!" President Zheng said excitedly, "when we got the first batch of vegetables yesterday, we immediately organized a new dish tasting meeting in the evening. All the guest members at the tasting meeting were full of praise for our Taoyuan brand vegetables! The response was better than expected!"

Xia ruofei was very happy to hear that. He did not expect President Zheng to take action so quickly. He said,

"Oh, really? It seems like President Zheng's strategy is very effective!"

President Zheng laughed and said,

"It's because the ingredients provided by brother Xia are too good! Even the chef of our club praised it, saying that he had never processed such beautiful and delicious vegetables before!"

Then, President Zheng said,

"Brother Xia, after yesterday's warm - up, it can be said that our paradise brand vegetables have a resounding name in the upper circles of Sanshan city!"

I'm going to officially launch the Taoyuan series of vegetables as our new signature dish from today onwards. Except for a small part of these signature dishes that are reserved for some special guests, the rest will be sold through auction. Of course, we also accept reservations, but members can only make reservations after three days, and ordinary guests can only make reservations after a week at the latest! What do you think, brother Xia?"

When Xia ruofei heard this, he couldn't help but secretly give President Zheng a comment in his heart: Cunning old fox.

A small portion was naturally reserved for big shots like Tian Huilan. In case these customers who couldn't be provoked had a need, they naturally had to be able to provide it at any time.

As for the remaining parts, there was a need to pay attention to them.

It was needless to say that the gimmicks of auctions could raise one's value and increase one's influence. Even reservations were arranged in different ranks to highlight the identity of the guests. At the same time, it naturally made the identity of a member of "West River moon" more valuable.

After the name of the Paradise brand vegetable was announced, the business of "West River moon" would probably become more and more popular, especially the high - end customers, especially the rich upstarts, who would definitely rush to apply for membership.

At that time, even if President Zheng collected membership fees, it would be enough to earn back the money he spent on buying vegetables at a high price.

President Zheng chatted with Xia ruofei for a long time. He hoped that Xia ruofei would increase the supply appropriately. However, Xia ruofei did not respond to him and just pretended to be confused. President Zheng could only smile bitterly and give up.

Soon, the vegetables were loaded into the truck. It was still more than 6500 Yuan, and the manager who accompanied President Zheng paid in cash.

Before he left, President Zheng invited Xia ruofei to participate in the first auction for a new dish tonight. However, Xia ruofei rejected him tactfully after some thought.

At this time, he didn't want to join in on the fun. As long as President Zheng could push it according to his ideas, the influence of his paradise brand vegetables would continue to expand, and the plan he had previously thought of would be half successful.

Not long after President Zheng left, Xia ruofei left the villa in his pickup truck.

Xia ruofei's back was filled with some new vegetables. Ran ran had promised professor Tian to send him some vegetables the day before yesterday. Xia ruofei did not want to go back on his word.

It just so happened that he didn't have anything to do these few days, so he decided to visit professor Tian's house today.
