

## God tier Farm 461

### Chapter 461: You get what you pay for (2)

The finance department was a very important and sensitive Department in the company. It was normal for the boss to appoint someone he trusted as the director, so Feng Jing wasn't unhappy about it.

Xia ruofei smiled and said, "yes, I agree with all your other suggestions. However, if we don't assign a Deputy General Manager, then we'll hire an assistant general manager!" You can't do some of the administrative work by yourself, can you?"

Feng Rao's heart warmed slightly as she smiled. "Okay, thank you, Chairman."

Xia ruofei thought for a while and said, "CEO Feng, you're in charge of the recruitment. I only have one suggestion. We don't pursue prestigious schools or academic qualifications. Our company is willing to give a stage to young people with ability and let them grow with the company!"

"I agree!" Feng Jing agreed. "The Chairman's idea is the same as mine!"

Xia ruofei smiled. "Also...Even though we're going to move to the city and the office building, for now, the company will definitely be located on the farm. Due to the geographical location, some of the lower – Level positions may not be attractive. You have to take this into consideration."

"I understand. That's why my opinion is the same. We shouldn't pursue talents with high academic qualifications from famous schools!" Feng Rao said with a smile.

Xia ruofei said, "what the company can do now is to provide apartments. Those who work in our company don't have to travel back and forth. They can also save on rent. This should be attractive to young people."

There were thirty to forty apartment buildings in the company, most of which were single apartments with one bedroom and one living room.

According to Feng Jing's recruitment plan, even if all the new employees stayed on the farm, they would still be able to settle down.

"That's great!" Feng Jing was also a little excited. She said, "Chairman, as for the specific salary and benefits ..."

Xia ruofei waved his hand and said, "you'll be fully in charge of this." How about this, regarding the recruitment, you can just take out a proposal and let me have a look at it. "

"Alright!"

Xia ruofei thought for a while and added, "by the way, boss Feng. We need to set up an independent Department for our company's security. I don't plan to outsource the security work to a security company."

"How about transferring it to the future Chief Executive Officer?" Feng Rao asked.

Xia ruofei shook his head. "This work is relatively independent. It's directly managed by the General Manager and the chairman." In addition, I'll personally be in charge of the security Department and the recruitment of employees. "

Xia ruofei had already reserved the position of head of the security Department for ye Lingyun. In the future, the company's security guards would all be comrades – in – arms who had retired from the Army. Xia ruofei would definitely have to be independent in this job.

Otherwise, would he add an Executive Director above ye Lingyun's head?

Feng Rao didn't think much about it and nodded. "Alright," he said.

Nowadays, many companies didn't have full – time security departments. They all outsourced this work. The company's security guards were actually sent by the security company, and some even took turns.

Feng Jing did not object to Xia ruofei's decision to raise a team of security guards. This job was not the core of the company's operations. If Xia ruofei wanted to be independent and work outside of the administrative work, it would not have much of an impact.

After they were done with the recruitment, Feng Jing flipped to another page and said, "Chairman, I think the second thing that's also urgent is brand promotion."

Xia ruofei nodded slightly, signaling for Feng Rao to continue.

Feng Jing said, "I looked through some of the company's transaction records today and also searched for paradise vegetables on the internet. I found out that paradise vegetables' brand influence has not reached the level it should be. It's still quite famous within Sanshan city through word of mouth. However, once it's out of Sanshan city, its influence has plummeted." Although Hengfeng group's five – Star hotels had already launched paradise vegetables, this was not a public environment after all, and the influence was very limited. I think our product can be said to be a phenomenon. If we operate properly, it shouldn't be as well – known as it is now. "

Xia ruofei was a little embarrassed as he said, "This is my responsibility. To be honest, I'm not familiar with brand operations, and I don't have any specialized plans. I'm just going to let nature take its course ... Director Feng, if you have any good ideas, please tell me!"

Feng Rao smiled at Xia ruofei and said, "Chairman, your advantage lies in your skills. You can leave the brand marketing to the professionals."

Feng Jing cleared her throat and said, "Brand promotion will be the first important task after the company's team is formed. There were many kinds of promotion plans, but the core was to hype up the game. "We can use some local media programs like 'food gang' to promote it. Of course, the San Shan local area is not the focus right now, but such work still needs to be done." In addition, there are many well – known food official accounts and food Weibo's influence that radiate to the whole country. There are also some food forums and food websites, which are the key areas of our work. Also, we need to expand the production as soon as possible. With the quality of Taoyuan vegetables, once we can distribute them all over the country, we won't need to use too many marketing tactics and our brand's popularity will soon go up. "

**Chapter 462: You get what you pay for (3)**

Xia ruofei nodded. "I've already planned to expand the farm. It's not a big problem for the local government."

"Qianqian is already the official in Changping," Feng Jing said with a smile. "With her help, there won't be any problems."

Xia ruofei was stunned for a moment before he realized that Feng Jing was referring to Wu Liqian.

He smiled awkwardly and said, "Actually, the surrounding land all belongs to Dongkeng village. I have a good relationship with the village, and they also hope that these barren lands can be exchanged for real money. So, even without sis Wu's help, it's not a big problem to contract more land. It's mutually beneficial!"

"Chairman," Feng Rao said seriously, "I'll talk to the relevant parties about renting the land as soon as possible. Then, we'll start expanding the farm. I wonder if the funds ..."

"It's not a big problem." Xia ruofei immediately said, "after the final payment for the building is paid, the company will still have at least a few million Yuan on its account. Moreover, the vegetable greenhouse can bring in a net profit of at least a few hundred thousand Yuan a month. This money is more than enough to expand production!"

"Then there's no problem!" Feng Rao said happily.

Following that, Feng Rao reported some other things to Xia ruofei. The two meals that Lei Hu had ordered were almost cold, but Feng Rao was still very serious in reporting.

Of course, Xia ruofei felt that the advice she gave on the company's management was very professional. He could see that she had put in a lot of effort into the report.

In the end, it was Xia ruofei's repeated reminders that made Feng Jing stop in embarrassment. The two of them finished their dinner in Xia ruofei's office.

After the meal, Feng Jing continued to talk about her thoughts on the company's management. They only finished their discussion at around nine in the evening.

Through this conversation, Xia ruofei had a better understanding of Feng Jing's professionalism. So far, Xia ruofei was very satisfied with Feng Jing.

The two of them stood up and left the office. Xia ruofei personally sent her to the door.

"Boss Feng, after work tomorrow morning, I will gather all the employees in the company and let you meet them." Xia ruofei said.

Since the General Manager had just taken office, she naturally had to hold an all – staff meeting. She had to at least let everyone know that Feng Jing would be the second – in – command in paradise Corporation after Xia ruofei. Only then would she be able to give orders!

Feng Jing nodded in agreement with a smile.

Then, Xia ruofei said, "that's all for tonight. CEO Feng, you must be tired from the long journey and working non – stop since you arrived. You must be tired. Go back to your room and rest early!" We can talk about it tomorrow. "

Feng Jing shook her head. "I still have to come up with the recruitment proposal. I don't usually go to bed this early. My room is just upstairs anyway. I'll go back and rest if I'm tired." Chairman, you can go back first! I'll give you the plan tomorrow morning!"

Feng Jing returned to her office without waiting for Xia ruofei's advice.

Xia ruofei looked helplessly at Feng Jing's back as she disappeared out the door. He felt that this strong woman was really too scary.

He then thought about how Ling Qingxue was going to inherit the Ling's restaurant in the future, and he couldn't help but say in his heart, "Please don't let Qingxue become like this in the future. I can't stand it!

However, Xia ruofei was still very happy that his company's employees were as dedicated as a scarryman ... No, a scarrywoman.

You really get what you pay for! 200,000 a year with 1% of the bonus was not an injustice!

#### **Chapter 463: Spiritual Vulture (1)**

Feng Rao's Swift and decisive actions left a deep impression on Xia ruofei.

The next day at work, Xia ruofei asked Lei Hu to inform all the employees, including the workers at the vegetable greenhouse and even the two employees in the cafeteria, to gather in the meeting room on the second floor.

There were only about 20 employees in the company at the moment, so the meeting room wouldn't seem crowded even if all of them were in it.

Xia ruofei announced that Feng Jing had officially joined paradise Corporation as the General Manager. He requested everyone to support Feng Jing's work and obey her orders.

Following that, Feng Jing gave a brief introduction.

Feng Jing didn't say much. She just wanted to say that from now on, she would be on the same side as her employees and that she was willing to work hard together to build a strong company. She also hoped that her employees would support her in her work.

After Feng Jing's speech, the conference room erupted into a round of applause.

To Cao tieshu and the others, it was nothing to have another leader in the company. They were all working anyway, and the boss of the company was Xia ruofei. The benefits and treatment had not changed, so everyone was naturally at ease.

After Paradise corporation's first staff meeting, Feng Jing pulled Xia ruofei, who was about to go downstairs with the employees, and handed over the recruitment proposal she had written last night.

Xia ruofei could not help but smile bitterly. However, he could not dampen his subordinate's enthusiasm. He could only smile in satisfaction and return to his office with the report.

Feng Jing's plan was very detailed.

The recruitment included two directors, the administrative Director and the marketing director. The requirements were relatively high, requiring a master's degree in a relevant field and at least three years of experience in the relevant industry. Feng Jing offered an annual salary of 150000 Yuan.

In addition, they were recruiting five employees for administration and marketing, two for finance, and one general assistant. In total, they were recruiting ten people this time.

An ordinary employee's monthly salary was 5000 Yuan, while a general manager's assistant's monthly salary was 7000 Yuan. The requirements for academic qualifications and work experience were naturally more relaxed than that of a director's position. Only a bachelor's degree or above was required, and there were no rigid requirements for working experience. Of course, those with relevant experience would naturally be recruited first.

Feng Jing also explained that even though the pay of ordinary employees was similar to that of farm workers, this was a common practice in many large companies. Frontline workers had more work to do, and many of them were paid more than office workers.

Moreover, there was a lot of room for the development of an administrative team. Feng Jing had even designed a set of performance evaluations that could measure each employee's performance and give them a corresponding performance bonus every month. Of course, if the employee's performance was poor, they wouldn't even get the bonus and might even be fired.

However, overall, if the company's performance got better, the salary of the first batch of administrative team members would definitely rise. In addition, the expansion of the company in the future would further refine the division of labor. For example, the administrative department would gradually build a Human Resources Department, a training department, a customer service department, and so on. If this batch of employees did a good job, they were likely to become the managers of small departments in the future.

In addition, although Taoyuan farm was located in a remote area, it provided free employee apartments, which was naturally very attractive to young people.

Xia ruofei looked at the long list of pages. He couldn't imagine that Feng Jing had spent one night to come up with this.

Xia ruofei was more and more convinced of the General Manager's ability.

Feng Jing had also placed a form at the top of the recruitment plan, with the Chairman's opinion written in the column.

In Feng Jing's words, if the company wanted to be standardized and systemized, she had to start now. She had to report this plan to Xia ruofei and get his official approval before she could start working.

Feng Rao was putting herself in the right position, so Xia ruofei naturally wouldn't find it troublesome. Yingying only had to sign the papers, so how troublesome could it be?

Xia ruofei took out a pen from his pen holder and wrote "agreed" with a wave of the big pen. Then, he signed his name.

After signing the proposal, Xia ruofei did not immediately hand it over to Feng Jing. Instead, he picked up the phone on the table and called Wu Liqian.

Over the phone, Xia ruofei sincerely expressed his gratitude to Wu Liqian. Up until now, Xia ruofei was very satisfied with Feng Jing's work. Naturally, he had to express his gratitude to Wu Liqian for being the one who had recommended him.

Then, Xia ruofei mentioned that he was going to rent more land to expand his farm.

Wu Liqian agreed without hesitation. She told Xia ruofei that she would inform jianggang town immediately and ask Xia ruofei to go to the village council to get ruan Fugui to approve the land.

Xia ruofei naturally said a lot of words of thanks before hanging up the phone.

After making the call, Xia ruofei made a call to Feng Jing's office and said, "President Feng, I've finished reading your proposal. Come and get it!"

"Alright, I'll be right there!" Feng Rao immediately said.

Xia ruofei thought for a while and took out another Jade skin cream from the spirit map space. Then, he opened the drawer of his desk and put it in.

Very quickly, there was a knock on the door. Xia ruofei said loudly, "Please enter!"

#### **Chapter 464: Spiritual Vulture (2)**

"Chairman." Feng Jing went straight to Xia ruofei's desk.

"Sit down!" Xia ruofei smiled and handed the report to Feng Jing. "I've read this recruitment proposal. It's very detailed and reasonable. We'll do as you say and recruit as many people as possible!"

"Alright," he said. Feng Jing took the proposal and said calmly.

For this proposal, she had almost stayed up all night. Now, she still had two dark circles under her eyes. Even makeup couldn't completely cover them! Therefore, she was very confident in this proposal. Xia ruofei's direct agreement did not surprise her.

Xia ruofei smiled and said, "start the recruitment as soon as possible. In the next two days, I'll be going to Dong Keng village to discuss the land rental. You'll come with me. In the future, you'll be in charge of contacting the local governments."

"Yes, Chairman." Feng Rao replied.

"There are only a few people available right now. If you need anyone for your recruitment, feel free to use them. Whether it's Lei Hu and the other three or pang Hao, they'll all be under your command." Xia ruofei said, "if you need any money, you can get an advance from pang Hao."

In Feng Jing's recruitment plan, she planned to participate in a few job fairs. She had also posted on some recruitment websites that no matter if it was online or offline, they would all have to pay. She had already listed out the rough budget. She just had to take Xia ruofei's signed plan and go to the finance department to pay in advance.

“Understood.” Feng Jing said, “don’t worry, Chairman! I’ll definitely complete the recruitment as soon as possible with the best quality.”

Xia ruofei smiled and nodded.

Feng Jing stood up. “Chairman, if there’s nothing else, I’ll head over first. I’m planning to post the information on a few mainstream recruitment websites this morning.”

“Oh, wait a moment,” Xia ruofei said.

Xia ruofei pulled open his drawer and took out the Jade skin cream. He passed it to Feng Jing and said, “CEO Feng, this is for you. It’s a self – made cosmetic made from pure Chinese medicine. You can use it as a face mask.”

Feng Rao was slightly stunned. She quickly glanced at Xia ruofei and took the jade skin ointment. She said softly, “Thank you, Chairman. I’ll go first.”

Xia ruofei smiled and nodded. “Go! I’ll have to trouble you these few days!”

After Feng Jing left, Xia ruofei stood up as well. He stuffed his phone and cigarettes into his bag and left the office humming a song. He returned to the villa.

After Feng Jing took office, Xia ruofei’s pressure was greatly reduced. He was finally in a state of being a boss who did nothing.

There were still two to three hours before lunch, and Xia ruofei did not have to cook by himself. He could just eat at the staff cafeteria when it was time, so he prepared to go to the spirit map space to make the soup of the pregnant spirit. He counted the days and found that he could take the soup today. Xia ruofei was looking forward to further condensing his mental power after this and if he could unlock another page of the booklet.

Xia ruofei was filled with curiosity and anticipation towards the spiritual puppet described in the booklet.

With this anticipation, Xia ruofei hurried back to the villa.

Now that Pang Hao had moved to the complex to work, the small villa was Xia ruofei’s exclusive territory. Once he locked the door, no one would disturb him unless something big happened at the farm.

Xia ruofei returned to his room and habitually locked all the doors and windows. He pulled the curtains shut and then took out the spirit map scroll from his palm. With a thought, he entered the medium.

In the original space, Xia ruofei skillfully picked out the herbs needed to make the spirit nourishment soup from the medicine rack and started to brew.

Now, Xia ruofei was already very familiar with the process. After several times of refining, he had memorized every process by heart. Soon, a bowl of steaming soup was ready.

Xia ruofei held the bowl of medicinal soup. With a thought, he appeared in the cave in the new space. As his spiritual power grew stronger, Xia ruofei's control of the spirit map space became purer and more skilled. Now, he could appear anywhere in the space with a thought.

The deviation would not exceed ten centimeters.

For example, this time, Xia ruofei had appeared on the stone bed in the stone room.

He directly sat cross – legged on the Jade futon, then raised his head and gulped down the entire bowl of spirit nurturing soup.

Xia ruofei discovered that the Jade futon not only had a great effect on recovering mental strength, but it also increased the efficiency of absorbing the soup.

A familiar warm current started to build up in his lower abdomen. Xia ruofei immediately held his breath and concentrated on absorbing the medicinal properties of the pregnancy soup.

It was as if he was soaking in a hot spring. He did not feel the pain of being pricked by needles and cut by knives like when he was drinking the body tempering soup. Unknowingly, the medicinal properties of the entire bowl of soup had been completely absorbed by Xia ruofei.

Xia ruofei closed his eyes and felt it. He realized that his spiritual power had become purer. Naturally, his connection with the space had become closer.

Xia ruofei opened his eyes. With a thought, the booklet on the stone platform flew towards him and landed in his hand.

In the spirit map space, Xia ruofei was becoming more and more like a creator.

### **Chapter 465: Spiritual Vulture (3)**

Xia ruofei flipped to the third page.

Focusing his mind, he began to input his mental force into the page. The Golden stripes on the page slowly began to move, assemble, and disappose.....And finally formed a golden text.

This was Xia ruofei's third attempt to unlock the third page. The first time, he felt that he was just one step away. However, after taking the soup a few days ago, he tried for the second time and still failed. It was clear that the difficulty of unlocking the third page was getting higher and higher.

But this time, Xia ruofei was full of confidence. He had a feeling that he would have no problem deciphering the contents of the third page.

Although he already knew that he would only be able to read the contents of the 'soul puppet' after he had unlocked the fourth page, he was still looking forward to the contents of the third page.

This time, Xia ruofei was not disappointed. The Golden words on the third page flashed one by one until the last word appeared on the page. The Golden words had completely stabilized. He did not even feel that his spiritual power was unable to continue.

Xia ruofei heaved a long sigh of relief. As he read the contents of the third page, he sat on the Jade futon and started to recover his spiritual power.

He didn't even try to unlock the fourth page because he knew very well that if he wanted to unlock the contents of the fourth page, he would have to consume the spirit nourishment soup at least three to four times, or the spirit map space would level up again to allow his mental power to suddenly increase by a large amount. Otherwise, in his current state, it would be a waste of time trying.

In comparison, Xia ruofei was more concerned about the third page.

The contents of the jadeshi ointment took up the entire second page, and the third page started off with the contents of the "spiritual puppet."

This was also the first time Xia ruofei had read the third page carefully. Although he had read a part of it when he tried to unlock it with his spiritual power, it was not complete. Besides, he had to concentrate all his energy on releasing his spiritual power and could not be distracted by reading the words that had already appeared.

The information about the "soul puppet" was not complete, but Xia ruofei was still shocked when he read it. Of course, he was more surprised.

According to the book's description, this "soul puppet" was somewhat similar to the puppets in wuxia novels, but there was a big difference. It could execute simple orders from its master and make independent judgments in certain situations.

As the content was incomplete, Xia ruofei could not fully understand the soul puppet. However, it seemed to rely on a core with many complicated symbols to work. This core was obviously the most important part of the soul puppet, equivalent to the human brain.

After it was completed, Xia ruofei needed to store mental strength in the core. It was this mental strength that made the soul puppet not an ordinary puppet but a certain level of self – consciousness. Hence, it would completely listen to the master who injected the mental strength.

Xia ruofei's first thought was, "I can finally free myself from all the tedious and repetitive work in the interspace!"

The spirit map space was Xia ruofei's ultimate secret. He definitely could not tell anyone, but there were many cumbersome tasks in the space that could only be completed by him alone.

If he had the soul puppet, Xia ruofei would be much more relaxed.

As the contents of the fourth page had not been unlocked, Xia ruofei had no way of making this magical puppet.

However, the third page listed a lot of materials and the manufacturing methods of some parts. Xia ruofei could start preparing now!

#### **Chapter 466: The Furious Liang Haiming (1)**

Fang Luo had not been doing well recently.

On that night half a month ago, he had encountered an unexpected disaster. At least in his eyes, it was an unexpected disaster.

Because he had only taken a fancy to a girl, and then used some means that he had used countless times in the past. Just as he was about to succeed, a god of death barged into his bar.

Then, it was like a nightmare. His arms and legs were broken, and finally, he was crippled by the demon with a single strike.

With such a serious injury, his life was hanging by a thread. He was lucky that he was sent to the hospital in time. At least his life was saved, but some things could never be reattached once they were cut off.

Moreover, the killer god was extremely ruthless. He had many comminuted fractures in many places. Even if he recovered later, he would be like this for the rest of his life. He would basically be unable to leave the wheelchair.

But this was not the worst case scenario.

For the first few days, he was still lying in the hospital as a victim and receiving treatment. He had a few underlings by his side who took care of him meticulously. These underlings had followed him for many years and fought alongside him on the streets. Although he had become a cripple and was no longer the mighty master Luo, these underlings were still loyal.

However, the situation quickly took a turn for the worse.

Two days later, two stern – looking Criminal Police officers arrived at the ward. From that moment on, Fang Luo was under strict supervision. Although he could still receive treatment, his personal freedom was completely restricted. He had to eat, drink, and defecate under the police's watch.

Then, a few of his underlings who came to visit him were arrested by the police.

Fang Luo felt like he was going crazy.

No matter how stupid he was, he knew that things were serious. He had tried to beat around the bush a lot, but the police officer who was watching him in the ward did not reveal any information. He only coldly warned him to stay put.

Fang Luo could not help but smile bitterly to himself. It was impossible for him to be dishonest in this situation! His hands and feet were all broken. How could he run away from the two police officers?

Fang Luo knew that he must have provoked someone he should not have, but he would never have thought that the person he should not have provoked was the high – Quality prey he had accidentally found that night.

Police officer Qin Xiao Yu was very busy recently.

It had been two to three months since he came to Sanshan city. As a middle – Level leader of the criminal Police detachment, he had finally waited for the opportunity to launch a large – scale operation to crack down on the underworld and evil within the city.

Qin Xiao Yu had led the police of the first Brigade of criminal investigation to fight for days and had already destroyed many underworld gangs. Recently, the occupancy rate of the temporary detention room of the first Brigade and several guard houses in the city had also risen sharply.

Although her body was very tired, Qin Xiao Yu was still full of energy, as if she had endless energy all over her body. Whenever there was a task, she was always the first to jump up and rush out with her people.

Other than Fang Luo who was depressed, there was another person who was also in a bad mood recently.

His name was Liang Haiming, and he was from the Liang family in Beijing.

Liang Haiming was only 23 years old and had just graduated from University.

Unlike the elite children of the Liang family, Liang Haiming had no interest in politics. Of course, he had no interest in business either.

To put it bluntly, Liang Haiming was a rich man's son through and through.

As a qualified nouveau riche, his expenses were actually quite high.

Those luxury cars and mansions would not fall from the sky, and keeping a small star was not just based on looks, one had to pay real money.

The allowance that the Liang family's children received every month was not even enough for Liang Haiming to hold a party with his bad friends.

However, as a rich man, Liang Haiming naturally had his own ways of making money.

He had opened a shell company, worked on all kinds of paperwork, and helped people run all kinds of projects. Although his income might have been sky – High compared to ordinary people, for him, who was used to being extravagant, this money could only barely maintain a luxurious life.

Sometimes, when one looked at a luxury sports car that had just hit the market, one had to consider the thickness of one's own money.

Naturally, Liang Haiming did not want to continue this small fight.

Therefore, he set his sights on the southeast coast.

Overseas trade had been very profitable in recent years. Of course, this referred to those "overseas trade" that did not have to pay expensive tariffs.

With the Golden name of the Liang family, Liang Haiming quickly got to know a group of people and started to do business.

Sanshan city faced the sea and had a unique geographical environment and many ports and docks. Naturally, it became the city that Liang Haiming focused on managing.

Other than the people in the government, Liang Haiming also needed some underground forces to serve him. Fang Luo was one of the agents that Liang Haiming supported.

A few days ago, Liang Haiming had assigned a mission to Fang Luo, but the next day, news of Fang Luo's serious injury and hospitalization came out.

Soon, Liang Haiming received more information. Fang Luo was under strict control by the police, and the few bars and nightclubs under Fang Luo's name had all been closed down.

Some of Fang Luo's men who had been recruited under his support had either been captured or had escaped. The other forces that he had spent a lot of effort to cultivate had also suffered a heavy blow.

This made Liang Haiming a little flustered and exasperated.

His identity was special, so he could naturally get some information that ordinary people couldn't.

When Liang Haiming found out that Fang Luo's misfortune was because he was blind and had bad intentions toward Lu You, he was so angry that he smashed a precious tea set into pieces.

### **Chapter 467: The Furious Liang Haiming (2)**

The answer was self-evident. Fang Luo's foolishness was the cause of the unexpected disaster that had befallen the city Fox society rats in Sanshan city.

Many people had seen what happened that night, and naturally, Liang Haiming had seen it.

Liang Haiming didn't dare to provoke Tian Huilan. However, the direct trigger of this incident was Xia ruofei, and Liang Haiming bore a deep hatred for her.

At the Kempinski Hotel in the city center.

Liang Haiming often had to travel between Beijing and Sanshan for business reasons, so he had booked a luxury suite here for a long time.

Liang Haiming was sitting on the soft leather sofa with a gloomy expression. A thin middle-aged man in his forties was standing opposite him, somewhat reserved.

"Young master Liang, I've found out that last year, Secretary Tian's father fainted on the street. Xia ruofei happened to be at the scene and gave his father some first aid." The middle-aged man said, "maybe that's why Xia ruofei and Secretary Tian's family know each other."

"So, he doesn't have a close relationship with the Tian family?" Liang Haiming asked with a gloomy face.

"According to our information, Xia ruofei didn't have any interactions with the Tian family other than that time." The middle-aged man said cautiously.

"I just want to know how his relationship with the Tian family is!" Liang Haiming frowned and scolded in a low voice.

The middle-aged man's body trembled slightly as he said, "According to our judgment, they shouldn't be too close. After all, his identity and background are not in the same world as the Tian family ..."

Xia ruofei's treatment of elder song was a top secret. With the middle-aged man's means, he naturally could not find out.

What Liang Haiming didn't know was that his cousin Liang Haitao had been severely reprimanded by his family because of Xia ruofei. He had even been sent directly from the Huaxia military hospital to the border Army as a basic military doctor.

Because of Liang Haitao's matter, the song family had tried to negotiate with the Liang family in a serious manner. However, in order to protect Xia ruofei, the song family naturally did not mention Xia ruofei. When Liang Haitao was in the medical team, he didn't even have the patience to listen to manager Lu's introduction. He only knew that the young Chinese medicine doctor's surname was Xia, but he didn't know Xia ruofei's full name.

Furthermore, this matter was a great humiliation to Liang Haitao, so he naturally wouldn't mention it for no reason.

For various reasons, Liang Haiming didn't know that Xia ruofei had many grudges with the Liang family, and he didn't know that Xia ruofei was so close to elder song and the entire song family.

"Oh? Have you found out his identity and background?" Liang Haiming asked indifferently.

"Yes, young master Liang." The middle – aged man quickly said, "this Xia ruofei is a local of the three mountains. His family background is very ordinary. Among his relatives, there is not even a county level cadre or above. He himself just retired from the Army last year and now he has a farm, selling vegetables and other agricultural products."

When Liang Haiming heard the word "Army," he couldn't help but raise his eyebrows and ask, "What rank was he in the Army when he retired? Company level or Battalion level?"

The middle – aged man's expression was somewhat strange as he said in a low voice, "Young Liang, he's not a cadre, he's just an ordinary soldier. When he retired, he was probably a Sergeant. There's very little information about his service in the Army. The only thing we can confirm is that his service as a Sergeant hasn't reached the end of his term. It's considered an early retirement. I guess he made a mistake in the Army."

Liang Haiming was completely relieved now. He smiled and said, "So he was only a soldier for a few days! And they were sent back because they made a mistake! I know ..."

Then, Liang Haiming's expression turned cold and he ordered, "Pass down the order. Ask them to keep an eye on Xia ruofei. Once he comes out, ask Zhao he to take action personally. Tell Zhao he to make him look exactly like Fang Luo. I'll hold him responsible if he doesn't break a single bone!"

Fang Luo was just Liang Haiming's dog. He did not do this just to avenge his dog.

Liang Haiming was holding a grudge because Xia ruofei had ruined his big plan.

Liang Haiming had always been a vengeful person. Xia ruofei's actions had caused him a lot of losses, so he naturally had to vent his anger. Otherwise, he wouldn't be able to get over it!

A trace of fear flashed through the middle – aged man's eyes, and he quickly replied, "Yes, young master Liang, I'll get it done immediately ..."

.....

Taoyuan farm.

Feng Jing brought Qin Xiaojun and pang Hao to the city to attend a job fair.

Xia ruofei drove the pickup truck out of the farm and headed towards San Shan city.

Yesterday, he had a preliminary understanding of the spiritual puppet's situation in the booklet, and his heart had long been itching for it.

Most of the materials to make a soul puppet could be bought. Some of them had to be refined and combined with different minerals. However, these minerals were relatively common. Xia ruofei spent half a day on the internet and found most of the required materials.

The e – commerce network was very developed now. After he placed the order, he just had to wait for the logistics to deliver the goods to his door.

However, the core of the spiritual puppet required a piece of Supreme – grade white jade.

The soul puppet core had a very high requirement for the quality of the Jade. It had to be a high – Quality sheep – Fat white jade without the slightest impurity to be able to bear the mind power. This kind of high – Quality Jade was generally hard to come by.

By right, Xia ruofei could have bought it from the MA family's Hengfeng jewelry. However, he did not want to trouble them with everything. He thought of going to the Jade Market in the city to try his luck. It would be best if he could buy it directly.

### **Chapter 468: The Furious Liang Haiming (3)**

Xia ruofei felt that something was wrong as soon as he got on the highway.

Through the rearview mirror, Xia ruofei saw an unremarkable black car appear a few hundred meters behind his car.

This was the third time the black car had appeared behind his car since he left the farm and went to the highway.

Although the car did not tail them, it was obvious to Xia ruofei, who was a tracking expert.

He was being followed! Xia ruofei frowned.

After he retired, Xia ruofei had offended many people. He did not know who the person who had followed him was and what his purpose was.

Xia ruofei remained silent, and the speed of the car gradually decreased.

The driver of the black car obviously had some experience in following people. He didn't slow down immediately.

The distance between the two cars began to slowly close.

Xia ruofei glanced at the rearview mirror. As the car had slowed down, many cars had passed by Xia ruofei's car on both sides. The black car was already behind Xia ruofei's car. There were no other cars in between the two.

At this moment, an exit that could quickly circle around the city appeared in front of them.

If Xia ruofei were to return to the city, he would have to go through at least four more exits before he could leave the swirling highway.

He drove the pickup truck as usual. However, just as they were about to pass the exit, Xia ruofei turned the steering wheel and hit the brakes.

The car grazed the exit guardrail and forcefully turned into the side road.

The defenseless black car drove straight past them.

A burly man in sunglasses in the black car slammed on the brakes and stopped the car on the emergency lane. Then, he began to reverse the car on the highway, ignoring the danger.

However, as the car behind him honked crazily and reversed into the side road, Xia ruofei's pickup truck had already turned a few small roads and disappeared from his sight.

The big man in sunglasses was livid. While driving aimlessly, he took out his mobile phone and made a phone call. He said dejectedly, "Brother he, I lost him ..."

.....

Xia ruofei's expression was serious as he drove the pickup truck through a small road. After making a few turns, he went through another road and chose to stay away from the winding highway. He continued to drive towards the city from the old road.

Xia ruofei first took out his phone and called Qin Xiaojun, asking him to be on high alert and protect Feng Rao and pang Hao. Then, he called Lei Hu, who was guarding the farm, and asked him to take note of the farm's security and to keep an eye out for suspicious people around the farm.

Xia ruofei trusted the retired soldiers of the Special Forces. As long as they were alert, no matter who the other party was, it would be difficult for them to gain any advantage.

He thought about it and continued to drive in the direction of the Jade Market. No matter who was following him or dealing with him, he would still respond to the changes by staying the same. He believed that the other party would not stop this time and would definitely come to his door again.

In fact, this was the case.

After Xia ruofei returned to the city, he soon realized that he was being followed.

This time, the other party seemed to be even more unscrupulous. He only used one car and followed Xia ruofei. When Xia ruofei turned left, he turned left. When Xia ruofei turned right, he turned right.

Xia ruofei couldn't help but raise his eyebrows and sneer.

If the Tiger doesn't show its might, they'll really think that I'm Hello Kitty!

Xia ruofei began to deliberately drive the car that was following them to a secluded area. There were many shanty areas in the south of the city. When he had just retired from the Army and sold his house to treat Hu Zi's mother's illness, he had rented this area and was very familiar with the terrain.

Xia ruofei drove around the city and stopped near a quiet alley.

He pushed the car door open, pretended not to notice, and strode into the alley.

#### **Chapter 469: clash of eight characters (1)**

After Xia ruofei entered the alley, heavy footsteps could be heard behind him. It was obvious that the other party had no intention of hiding their whereabouts.

A faint smile appeared on Xia ruofei's face. He stopped in his tracks and turned around slowly.

He saw a 1.9 – meter tall bald man standing still at the entrance of the alley.

Due to the light, Xia ruofei could not see the expression on the bald man's face. However, the familiar murderous aura made Xia ruofei squint his eyes.

This person must have killed someone before.

But ... So what? I can't even count the number of lives I've ended!

Xia ruofei thought of the body tempering soup he had been drinking and the amazing body – forging movements. The smile on his face grew wider.

The bald man, Zhao he, was also observing his opponent. Unlike Xia ruofei, he found that the young man standing in front of him was very ordinary.

Apart from being pleasing to the eye, his opponent was just an ordinary young man. He had no aura from head to toe, and he didn't feel the slightest bit of danger.

What's the use of being good – looking? It's the same even after being beaten into a pig head! Zhao he's face slowly revealed a sinister smile.

He stepped forward without a word and then sped up towards Xia ruofei.

Xia ruofei remained standing at the same spot. Facing Zhao he, who was bursting with murderous intent, his expression was extremely calm.

It was only when Zhao he had already rushed up that Xia ruofei exerted force in his legs and shot out like lightning. His target was Zhao he.

Zhao he was shocked by Xia ruofei's speed.

By the time Zhao he reacted, Xia ruofei was already right in front of him. There was no time to think about how Xia ruofei could have such a strange speed. Zhao he gritted his teeth and clenched his bowl – sized fist, smashing it towards Xia ruofei's head.

However, he only felt a blur in front of his eyes. Xia ruofei, who was clearly in front of him a moment ago, suddenly disappeared without a trace.

Zhao he felt all the hair on his body stand up, and a sense of extreme danger arose in his heart. He almost subconsciously twisted his body and forcibly stabilized his center of gravity.

At this moment, Zhao he felt a strong wind coming at him. Before he could react, he felt a strong force on his waist. Then, his heavy body, which weighed more than 180 pounds, was directly sent flying. He hit the wall of the courtyard in the alley with a dull sound.

This speed, this strength ... Was he still human? Zhao he grunted and thought with an ashen face.

At this moment, he had even forgotten about the excruciating pain in his body. In fact, Xia ruofei's kick had already dealt him a heavy blow, especially when he had hit the wall. He had broken at least five bones.

Xia ruofei had never shown any mercy to his enemies.

He did not hesitate to step on Zhao he. With two cracking sounds, Zhao he's legs were broken by Xia ruofei.

Zhao he trembled in pain. He gritted his teeth so hard that his lower lip bled, but he did not scream.

Xia ruofei frowned slightly. This guy was obviously a tough guy. It would take a lot of effort to get the mastermind out of him.

However, it was only a small effort. Xia ruofei had received professional interrogation training and had endless ways to deal with prisoners.

There was a limit to a person's endurance. This was determined by their physiological characteristics. The difference was that people with strong willpower could last a little longer, while people who had received professional anti – interrogation training could last a little longer.

Ever since Xia ruofei joined the Army, he had carried out many missions and there had never been a mouth that he could not pry open.

Zhao he was panting heavily. His eyes were like a wild beast's as he glared at Xia ruofei.

A cold smile appeared on Xia ruofei's face. He squatted down in front of Zhao he and asked indifferently, "Tell me! Who asked you to come?"

Zhao he clenched his teeth and glared at Xia ruofei fiercely without saying a word.

Xia ruofei had already expected this and was not surprised at all. It would be strange if Zhao he confessed immediately!

Many painful interrogation methods flashed through Xia ruofei's mind. He had to choose the most effective and painful one from these methods and use it on Zhao he.

Xia ruofei made his choice quickly.

He gently clenched his fist, and his knuckles cracked. Then, he slowly reached out and grabbed Zhao he's collar ...

"Stop!" "Let go of that man!" A cold voice shouted. "Put your hands on your head and turn around!"

Xia ruofei was stunned. Why did this voice sound so familiar?

When Xia ruofei turned around, a bitter smile appeared on his face. It was the big – breasted police beauty, Qin Xiao Yu, who had taken him to the police station last time.

Officer Qin and four other Criminal Police officers were watching Xia ruofei vigilantly. In view of the tragic scene, Zhao he's legs were bent at a strange angle. It was obvious that the officers were ruthless. They took out their guns and pointed the black muzzles at Xia ruofei.

Qin Xiao Yu already felt that the back of the figure was familiar and when Xia ruofei turned around, she couldn't help but frown. "Why is it you again!"

"Officer Qin, I should be the one asking you that ..." Xia ruofei smiled bitterly. "Are our eight characters at odds with each other?" Why do I bump into you everywhere?"

## **Chapter 470: clash of eight characters (2)**

Qin Xiao Yu snorted and looked at Xia ruofei, "You have nothing to say now that you've hit someone on the street! You'll be sentenced to many years in prison for injuring someone so badly ..."

After that, Qin Xiaoyu instructed the police officer beside her, "Handcuff him and take him away!"

These days, Qin Xiao Yu had been leading the team to carry out the task of eliminating the underworld and evil. She was a little proud that Xia ruofei had bumped into her today.

She had always been unhappy with Xia ruofei. She felt that Xia ruofei was too brutal in the previous incident. Although the other party was a bunch of scumbags, it was a little too cruel to cripple a few of them in one move.

However, Tian Huilan had personally come out to protect Xia ruofei. Furthermore, Xia ruofei had also made a move to save Lu You. Qin Xiao Yu had no way to disobey the order and could only pinch her nose and let Xia ruofei go.

However, it was different today. Xia ruofei had committed a crime on the street and was caught red – handed by the police.

Qin Xiao Yu thought to herself, 'under the high pressure of fighting the underworld and getting rid of evil, aunt Tian can't possibly help him when he is caught red – handed by the police!' Hmph! Let's see how you're going to be smug this time.

At this moment, the sense of justice in officer Qin's heart was bursting, as if the noble feeling of maintaining social peace was quietly growing ...

Xia ruofei did not wait for the police to take a step and said, "Officer Qin, don't you think you've come to a conclusion too early?"

The corner of Qin Xiao Yu's mouth curled up slightly and she said lightly, "You've seriously injured someone. We've seen your illegal behavior with our own eyes. Do you have anything to say?"

Qin Xiao Yu thought to herself, let's see what else you have to say? It was useless to say anything! Weren't you so smug last time? Beg me ...

At the thought of this, Qin Xiao Yu felt her cheeks heat up again. What the hell was this! Do you think I'll let him go if he begs me?

This was impossible! I'm the embodiment of justice, police officer Qin, who is both beautiful and intelligent! Qin Xiao Yu quickly affirmed her thoughts.

Xia ruofei didn't know what Qin Xiao Yu was thinking. He only said calmly, ""Officer Qin, as a law – abiding citizen, I'm sorry for the police's reckless judgment ..."

At this point, Xia ruofei revealed a wronged expression and said, ""I'm clearly fighting against the most vicious of criminals, but you're not giving me a chance to explain yourself by saying that you want to arrest me. Can I take it that you're biased against me?"

Xia ruofei did not even explain that Zhao he had followed him and attacked him. There were no surveillance cameras in this remote alley. He could not explain himself even if he had a mouth.

However, to be seen by Qin Xiao Yu in such a place, Xia ruofei could not help but complain in his heart, he really had a bad luck with this beautiful policewoman!

Of course, Xia ruofei was not lying. Zhao he's murderous aura was so obvious that Xia ruofei did not believe that this guy did not have a case. It was not a lie to say that he had fought with the criminals.

Qin Xiao Yu was both angry and amused, saying: ""Fighting with criminals? You sure have a glib tongue ... I only saw you cruelly break his legs when he lost the ability to resist ..."

Before Qin Xiaoyu could finish her sentence, Xia ruofei suddenly raised his hand without looking back. A cold light flashed, and Zhao he, who was behind him, suddenly screamed.

Qin Xiao Yu was shocked, she took a closer look and found that Zhao he's palm had been pierced by a sharp military dagger, blood was oozing out quickly ...

Qin Xiao Yu's expression changed and she rebuked sternly: ""Xia ruofei! What are you doing? He was too lawless! Da Jun, Qiang, hurry up and handcuff him!"

Xia ruofei pouted and said, ""Officer Qin, you'd better take a look at what the poor victim was about to take out before you carry out the law!"

Zhao he's face was ashen. He had lost all hope ...

Qin Xiao Yu looked at Xia ruofei suspiciously and gestured to the police officer beside her to go forward and check.

The two Criminal Police officers walked forward carefully. They realized that Zhao he's hand that was pierced by the dagger must have reached into his clothes. However, when he was halfway through, Xia ruofei threw the dagger at him as if he had eyes on the back of his head.

One of the police officers stood guard with a gun in his hand, while the other reached his hand into Zhao he's clothes. His face changed and he shouted, ""Captain Qin, it's a gun!"

Qin Xiao Yu's expression changed when she saw the criminal Police officer taking out a standard military pistol from Zhao he's arms. The two police officers behind her also became nervous, they took out their guns and surrounded Zhao he who had lost his ability to resist.

A bitter smile appeared on Zhao he's face as he stared at Xia ruofei with hatred.

In fact, Xia ruofei's guess was right. Zhao he was indeed a wanted criminal who had taken several lives. So when Qin Xiaoyu appeared with the police, Zhao he was already disheartened and had long harbored the mentality of a life and death struggle.

After all, even if he was a victim, he still had to take a statement and have his identity verified. Moreover, he had a gun with him. He had been too arrogant just now and thought that Xia ruofei was just an ordinary person. He did not expect that he had made a mistake and was beaten up by Xia ruofei like a dead dog. He would never have the chance to use this gun again.

After the police appeared, Zhao he's gun would not be able to be hidden. Once his identity was verified, it would be enough to shoot him a few times. So, he had no intention to live anymore. He wanted to take out his gun secretly while Xia ruofei was talking to Qin Xiaoyu. As long as he could kill Xia ruofei, he would be satisfied.

He really hated Xia ruofei. If he could really kill or cripple Xia ruofei, he would have completed young master Liang's orders. Even if he was caught and shot dead, at least young master Liang would take care of his family.

Zhao he had no feelings for his parents and brothers, whom he had not contacted for more than ten years. However, he had an illegitimate child with a prostitute a few years ago, and it became his only connection in the world.

All of this prompted him to take the risk and pull out his gun to attack Xia ruofei in front of four or five policemen. Even if he was shot dead by the police the next moment, he would accept it.

However, he did not expect Xia ruofei to react so quickly. It was as if he had eyes on the back of his head. His speed had once again exceeded his understanding of human limits. When the shiny military dagger pierced through his palm, he was stunned for a moment before he let out a scream ...

Zhao he did not resist and allowed the police to twist his hands behind his back and handcuff him.

Qin Xiao Yu also stood in a daze for a long time. She looked at Xia ruofei with a complicated expression and then ordered, "Da Jun, immediately verify this person's identity!"

"Yes, Captain Qin!" The Army replied with some excitement.

The city was in full swing with the operation to crack down on the underworld and evil. Many small Rascals and ruffians had been arrested, but there were not many major gun – related cases. This was an unexpected harvest, and the police were very excited.

Da Jun quickly took a picture of Zhao he and sent it back to the Bureau. At the same time, he took out his portable fingerprint collection device and prepared to collect Zhao he's fingerprints. If Zhao he had a criminal record, the fingerprints would be found immediately. Even if he did not have a criminal record, there were not many A – Class wanted criminals. It would not be too much work to compare them with photos.

The results should be out soon.

Qin Xiao Yu also asked the police to call the ambulance. Even if Zhao he was a murderer, he was still seriously injured and had the right to receive treatment.

Xia ruofei looked at the excited and busy Qin Xiao Yu and said with a faint smile, ""Officer Qin, can I leave now?"

Qin Xiaoyu was stunned for a moment. She rolled her eyes a few times and then looked at the shocking military dagger in Zhao he's palm. She suddenly smiled.

"Xia ruofei, you can leave now. However, we might need to record your statement later. I hope you can cooperate." Qin Xiao Yu said, then pointed to the military dagger and said, "since you've helped us, I won't pursue the matter of you privately possessing a controlled knife, but we'll be confiscating this dagger, you can understand ..."

Xia ruofei's expression changed, and he smiled bitterly.
