

God tier Farm 531

Chapter 531: Raising the prestige of our country (3)

Xia ruofei, who was leaning on the bed, jumped up and ran to the door. He opened the door and was stunned ...

Monica was standing at the door in a pink bathrobe. Her hair was wet, and she had clearly just taken a shower.

“Xia, I knew you weren’t asleep yet ...” Monica said with a smile.

Xia ruofei could feel his heart beating faster. He asked with a dry mouth, “Uh ... Monica, it’s so late. What’s the matter?”

Monica, who had just taken a shower, was still blushing. She revealed a charming smile and said, “Xia, I suddenly remembered that uncle Carter gave you a few bottles of good wine. Are you willing to share the neighbors’ gifts with me?”

Xia ruofei was stunned for a moment and then said, “Of course! Please come in!”

Xia ruofei stepped aside and Monica walked past him, bringing with her a fragrant scent.

“Please sit!” Xia ruofei said.

Then, he fumbled for two wine glasses and opened the half – lon that Carter had given him. He poured some wine into the two glasses.

The two of them sat on both sides of the small coffee table in front of the floor – to – Ceiling window and touched their glasses gently.

Xia ruofei took a sip, but Monica drank it all in one gulp. She even showed Xia ruofei the bottom of her glass like a Chinese person drinking. Xia ruofei smiled bitterly and finished his glass in one gulp.

Monica giggled and gave Xia ruofei a thumbs – up.

They continued to pour wine and chatted as they drank, continuing the topic of the day.

Most of the time, it was still Xia ruofei talking while Monica listened very carefully. Sometimes, she would be tickled by Xia ruofei’s words and even the hem of her bathrobe would pull up a lot, revealing a section of her snow – White thighs. She didn’t even notice.

Although Semillon had a very low alcohol content when it was first brewed, the contents of the bottle were completely different after 20 years of maturity. The two of them could not help but feel a little tipsy while drinking.

Xia ruofei didn’t notice that Monica, who was laughing happily, would sometimes look sad and hesitant.

Before she knew it, the three bottles of half – lon that Carter had given Xia ruofei had all been opened. She had also finished half of the third bottle.

Although Xia ruofei's alcohol tolerance was amazing, he mostly drank white wine. A 20 – year – old Semillon still had a strong aftereffect, so even his face started to blush and his head started to feel a little dizzy.

Beside Xia ruofei, Monica's cheeks were like peach blossoms, and her beautiful blue eyes became even more blurred.

After Xia ruofei and Monica finished their glasses of wine, he lowered his head to get the bottle of wine and was about to pour more. Suddenly, he smelled a fragrance. When he reacted, Monica was already sitting on his lap. Her delicate face was blushing as she looked straight at Xia ruofei.

Xia ruofei felt as if his brain had exploded and he was dizzy.

To be honest, ever since Xia ruofei had been taking the body tempering soup, he had become more energetic in the matters between men and women. His fighting power had also increased day by day. Moreover, he and Ling Qingxue were not spending a long time together. They only met every once in a while to talk about how they missed each other. Hence, Xia ruofei's desire in this area was more or less suppressed.

Moreover, he had drunk quite a lot of alcohol today. Monica's obviously provocative action was like pouring a ladle of hot oil into a raging fire, causing Xia ruofei's remaining rationality to disappear.

Monica reached out her fingers and gently hooked Xia ruofei's chin. She threw Xia ruofei a flirtatious look and leaned over to kiss him without saying anything.

The last bit of Xia ruofei's rationality was gone.

"It shouldn't be a big deal to indulge once in a while, right?" Xia ruofei thought to himself, "the Westerners should be very open – minded in this aspect ..."

With his own excuse, Xia ruofei's thoughts seemed to have cleared up. His big hands pressed onto Monica's perky butt without hesitation.

Monica's reaction seemed to be even more intense than Xia ruofei's. After the two of them stood up, she pushed Xia ruofei onto the bed and sat down impatiently.

Brother, is this considered as raising the prestige of our country?

But why did it seem like I was the one who was pushed down ...

Chapter 532: Monica's promise (1)

The night in Hunter Valley was very quiet, and Paradise Farm had long fallen into a deep sleep.

In the quiet and peaceful small villa, mang Zhan was like a raging fire.

It was a crazy night.

The two of them were so exhausted that they didn't even take a shower. They just hugged each other and fell asleep ...

In the morning, the crisp chirping of birds outside the small villa woke Xia ruofei up.

He felt an itch on his neck. He twisted it gently and found Monica beside him. She was sleeping comfortably in his arms with a satisfied smile on her face.

Xia ruofei's head ached slightly. It was a normal reaction after a hangover.

He couldn't help but reach out to rub his temples, a complicated expression on his face.

Xia ruofei finally remembered what had happened last night. Actually, he wasn't so drunk that he had blacked out. Everything that had happened last night had a lot to do with the restlessness in his heart.

He naturally wouldn't let wine take the blame for this.

After extreme pleasure, there was more or less a sense of emptiness, and at the same time, there was a sense of guilt. This kind of emotion was very complicated.

Monica was undoubtedly a very attractive woman. Last night's sex was the most perfect time in Xia ruofei's life.

However, Xia ruofei asked himself honestly. Even though he had a good impression of Monica, it was far from love. However, they had sex yesterday.

Hence, Xia ruofei naturally felt guilty.

Some were directed at Ling Qingxue, while others were directed at Monica.

Just as Xia ruofei was lost in his thoughts, Monica moved slightly and slowly opened her eyes.

Their eyes met, and Monica's beautiful face had a faint blush. She then revealed a charming smile and said lazily, "Good Morning, Xia!"

Xia ruofei said awkwardly, "Good ... Good Morning ..." He said.

Monica was still a little shy when she woke up, but it had completely disappeared now. She chuckled and said, "Xia, you didn't lie to me. I'm really impressed by your performance ..."

Xia ruofei immediately complained in his heart, "a foreign girl is a foreign girl, she's too open – minded!" This means that not only did I not raise China's prestige last night, but I was also pushed down by her ...

Seeing Xia ruofei's awkward expression, Monica couldn't help but burst out laughing.

At this moment, Xia ruofei was staring straight ahead with his mouth wide open in an 'O' shape.

Monica followed Xia ruofei's gaze and looked over. Her pretty face instantly blushed and at the same time, she looked a little disappointed.

At the end of Xia ruofei's vision, there was a red blood stain on the white bed sheet. It was like a blooming flower, beautiful and dazzling.

Xia ruofei's heart trembled.

Before he saw this blood – colored flower, he had always treated last night's experience as a beautiful encounter. A pair of empty and lonely man and woman, both of whom were quite pleasing to the eye.

The man and woman were alone in the long night, so naturally, everything that should have happened happened.

That was all.

However, the blood was like a heavy hammer that hit Xia ruofei's heart, making him a little dazed.

Things didn't seem to be the same as he had imagined!

After a long while, Xia ruofei stammered, "Monica ... This ... Last night ... Was it your ... First time?"

Monica's disappointed expression had long disappeared. She still had a faint smile on her face. She nodded as if she didn't care and said, "Yup!"

His tone was as relaxed and casual as if he had just had a glass of milk for breakfast.

Monica straightened her body and the blanket on her body slid down. However, Xia ruofei was not in the mood to admire the boundless spring scenery.

He could feel the pressure.

"Xia," said Monica, "don't you find it strange?"

Xia ruofei nodded heavily.

Monica was two or three years older than him. Among Western girls, it was rare for them to have no experience in this area. At least, in Xia ruofei's opinion, Western girls were not conservative in this aspect. It was quite common for them to fall in love in middle school and offer their first time.

Thus, this was something that he had never thought of before. Otherwise, he would not have been so impulsive.

It wasn't that he didn't want to take responsibility, but he already had Ling Qingxue.

A night's short-term relationship was still fine, but if he found another girlfriend, wouldn't it be a mess?

Monica said easily, "the reason is very simple!" I've never met a man who could move my heart before! I'm not an easy woman ..."

Xia ruofei's expression was a little strange. Monica had been so proactive last night that he thought that she was very open in this aspect. He did not expect the opposite.

"Xia, what are you thinking about?" Monica wrapped her arms around Xia ruofei's neck and asked.

Xia ruofei hesitated. "Monica, you know. I ... I already have a girlfriend."

"Uh – huh!" Monica shrugged and asked, "so?"

Xia ruofei considered his words and said, "So, I'm really sorry about what happened last night...If I had known that it was your first time ..."

Monica interrupted Xia ruofei and said, "stop! Xia, why are you apologizing? We had a great night, didn't we?"

"Of course, you're a very charming girl!" Xia ruofei said without hesitation.

Monica smiled happily and said, "Thank you for your praise! You're also the best man I've ever seen! Of course, you're the only one I've tried it with so far ..."

Xia ruofei could not help but smile bitterly.

Monica laughed and said, "Xia, I know what you're worried about!" In your hometown, if you have a girl's first time, you must be responsible for her and even marry her, right?"

Xia ruofei smiled awkwardly and said, "Uh ... Actually, not everyone is like this, but I ... The education I received is indeed like this ..."

Monica laughed and said, "okay!" Xia, don't worry, I'm not a Chinese girl and I've never planned to get married! I just want to enjoy the present happiness, it's that simple!"

To be honest, Xia ruofei did feel a sense of relief after hearing this, but at the same time, he felt a sense of loss.

However, Monica didn't give Xia ruofei any more time to think.

Exhaling, she said, "Xia, don't you think the morning is very precious?" Instead of discussing the issue of our first time, why don't we ..."

At this moment, Xia ruofei's self – Control was close to zero.

It was another fierce battle.

Monica lay on the bed like a pool of mud, panting as she said, "Xia, you're the best ..."

"Are you convinced?"

"I'm impressed ..." Monica said softly. She then rolled her eyes at Xia ruofei and said, "Xia, if I remember correctly, your flight is in the morning ..."

Xia ruofei came back to his senses and sat up immediately. He looked at his watch and sighed in relief. "Captain Johnson's flight route is scheduled to take off at 11 a.m. There's still nearly three hours left, enough time for me to get to x – n ..."

Although there was enough time, it was obvious that the two of them did not have the time to be intimate. They took a couple's bath in the bathroom. If it was not for the fact that they had to catch a plane, Xia ruofei definitely would not be able to resist and would have done Monica on the spot again. This Little Vixen was too seductive.

After washing up, changing clothes, and packing their luggage, Xia ruofei and Monica walked out of the room.

The two of them walked down the stairs side by side and saw that Liang Qichao was already waiting for them in the living room.

Liang Qichao smiled when he saw the two of them coming down. Xia ruofei was embarrassed, but Monica giggled and held Xia ruofei's arm. She greeted Liang Qichao.

Liang Qichao had already prepared a simple breakfast. Xia ruofei and Monica finished it quickly and left Paradise Farm in the Mercedes – Benz that Liang Qichao had prepared.

On the way back to xxx from Paradise Farm, they would pass by the resort hotel that Monica had booked.

The car drove for about 20 minutes before they arrived at the resort hotel.

Monica opened the door and got out of the car. Xia ruofei also got out from the other side. He walked with Monica in the direction of the hotel and said, "Monica, I'll send you off here. Let's meet again if fate allows!"

Monica nodded with a smile and said, "Xia, I think ... I'll probably miss ... Your body!"

"That's what I wanted to say!" Xia ruofei nodded.

"Goodbye!"

"Goodbye!"

Xia ruofei waved at Monica. Monica took a few steps forward and turned back. She leaned close to Xia ruofei's ear and whispered, "Xia, you've really screwed me over this time ..."

"What's wrong?" Xia ruofei asked, confused.

Monica laughed and said, "compared to you, all the men I know are weak chickens!" How can I be interested in other men in the future?"

Xia ruofei didn't know whether to laugh or cry. He didn't know if he should be proud of this. It sounded like a compliment, but why did he feel so strange?

Monica looked at Xia ruofei's dumbfounded expression and could not help but giggle.

She whispered into Xia ruofei's ear, "So ... I've decided to follow the example of you Huaxia women and temporarily keep my body pure for you, unless there's a man stronger than you who can move my heart!"

Xia ruofei didn't know whether to laugh or cry. "Monica, then you're definitely going to be alone. I'm sure!"

Monica laughed and said, "I can call you when I need you!" At most, I'll reimburse you for the plane tickets to and from Italy?"

"Then wouldn't I be a call boy?" Xia ruofei said with a depressed expression on purpose.

"Are you willing?" Monica asked with a smile.

Xia ruofei said seriously, "okay!" Although I really want to say that I'm not willing, in fact ... I can consider this!"

To be honest, Xia ruofei felt a sense of achievement when Monica said "chastity". Although he was not a traditional male chauvinist, he could not tolerate the woman who had slept with him sleeping with another man.

Of course, he did not have any status with Monica, so he had no right to ask Monica to do anything.

However, it was a different story now that Monica had taken the initiative to say it.

Monica gently kissed Xia ruofei's cheek and said, "Xia, goodbye!"

"Goodbye, Monica!" Xia ruofei said.

He watched Monica turn around elegantly and walk further and further away. He also felt a little lost.

Xia ruofei only turned around and walked back to Liang Qichao's Mercedes – Benz after Monica's figure disappeared from the hotel entrance.

Chapter 533: The treatment of the rich (1)

"RUO Fei, you're good!" Liang Qichao leaned against the Mercedes – Benz, a cigarette in his hand, and said with a smile, "I was wondering why you weren't interested in Australian girls! You have better ones!"

Xia ruofei's expression didn't change as he said, "what are you saying?" Why can't I understand a single word?"

Liang Qichao gave him the middle finger in disdain and said, "Acting! Why are you acting dumb in front of your brother! Even though I'm quite close to sister Qingxue, even though I once ..."

"What?" Xia ruofei's eyes widened.

Liang Qichao quickly replied, "yes!" The little beauty of the past, do you understand? After you got together with Qingxue, I've never had any other thoughts! Besides, I've already been sent to a place thousands of miles away, how would I dare to have any thoughts?"

"So You Think they're being banished?" Xia ruofei said with a half – Smile, "then I'll talk to Mr. Tang and ask him to transfer you back to United States?"

"Don't, don't, don't ... You're my brother, okay?" Liang Qichao quickly smiled apologetically. "I think it's pretty good on the farm. It's really pretty good ..."

The Hunter Valley had beautiful scenery and a pleasant climate. Furthermore, Liang Qichao was the leader here and had the final say. In addition, he was full of confidence in Xia ruofei's paradise vegetables and firmly believed that they could produce an eye – catching report card here. So, unless he was out of his mind, he would not be willing to transfer back to United States to compete with Liang Xiaojun!

Xia ruofei then said, "that's more like it!" Brother Liang, don't worry! At that time, our Paradise Farm will definitely amaze the world with a single brilliant feat, and your status will naturally rise with the tide!"

"That's true, that's true! I have absolute confidence in you! Now we're just waiting for the seeds in our country!" Liang Qichao said with a smile.

Then, Liang Qichao suddenly came to his senses. He shouted, "Al! That's not right ... Didn't we just talk about you? How did you end up talking about me? You're too cunning, aren't you?"

Xia ruofei held back his laughter and said, "what's the matter with me?" I don't remember! Brother Liang, have you finished your cigarette? If we don't leave now, we'll miss the flight ..."

Then, Xia ruofei opened the door to the passenger's seat and got in.

Liang Qichao stepped on the cigarette butt and threw it into the trash can by the roadside. Then, he sat in the car and fastened his seat belt as he said, "Ruofei, you're too cunning ... Is there any meaning in hiding things from my brother? Even an idiot can tell what's going on between you and Monica, okay?"

Xia ruofei pretended to be confused and said, "what could have happened to us?" Weren't they just friends? Didn't I tell you yesterday? I met him in Shen Cheng city last time!"

Anyway, Liang Qichao did not see him in bed with Monica with his own eyes. Even if it was highly suspicious, Xia ruofei would not admit it personally. He would just let Liang Qichao scratch his ears and cheeks.

Liang Qichao started the car and said, "Ruofei, don't worry! I'm not the kind of person who would betray his friends, so you don't have to worry about Qingxue ..."

Xia ruofei smiled and did not say anything. He simply leaned back in his chair and closed his eyes to rest.

Seeing that Xia ruofei didn't respond, Liang Qichao was helpless. He could only look at Xia ruofei in disdain and drive seriously.

Four days later, Xia ruofei was back at Kingford Smith Airport in Sydney.

Tang He's private plane was already waiting at the airport. The flight crew had already made preparations for departure. After Xia ruofei passed through the special security check, he waved goodbye to Liang Qichao and walked directly to the tarmac under the guidance of the flight attendant.

Tang He's private jet was also a Gulfstream G650, the same model as MA Xiong's. In fact, many world – Class rich people preferred Gulfstream business jets.

The plane's maximum cruising speed reached Mach 0.925, which was higher than the average passenger airliner. At Mach 0.85, the plane's maximum range could reach 13000 kilometers. It could fly from the East Coast of the United States to the capital of Huaxia without interruption. For the Super – rich, they pursued the best comfort, the shortest flight time, and the highest efficiency.

Therefore, the Gulfstream G650 naturally became the choice of many of them.

The Gulfstream G650 was parked quietly on the private plane's tarmac. Captain Johnson, the co – Pilot, the air Mechanic, and another flight attendant were waiting for Xia ruofei next to the plane.

"Mr. Xia, it's an honor to serve you." Johnson said as he stepped forward.

"You've worked hard." Xia ruofei smiled and asked, "how have you been in Sydney?"

"Very good!" Captain Johnson smiled and said, "the sun, the beach, and the beautiful girls here have left a deep impression on me!"

After sending Tang He back to the United States, Johansson's flight crew immediately returned to Australia. Then, they waited in Sydney to serve Xia ruofei. In between, they would stay in Sydney for two to three days and naturally, they would tour around.

The fact that Johansson was willing to give up his position as a Captain in a big airline and work for Tang He, a super – rich man, to fly in a business plane showed that the benefits Tang He offered were quite good, even hard to refuse.

In fact, Johansson's salary was far higher than that of a Captain from an ordinary airline. In addition, in such a situation where they had to wait in a different place, they would also receive a considerable amount of subsidies.

Even the expenses of staying in a five – Star hotel, sightseeing, and so on could be reimbursed.

Xia ruofei laughed and said, "Mr. Captain, do you want me to go back for a few more days?" I'll let you enjoy Australia's sun and beaches. Of course, there are also beautiful women ..."

Chapter 534: The treatment of the rich (2)

Of course, Captain Johnson knew that Xia ruofei was joking. He laughed heartily and said, "Mr. Xia, thank you for your generosity, but I'm more looking forward to the beautiful scenery of China!"

"Haha, then let's go!" Xia ruofei smiled.

"Mr. Xia, please board the plane!" Captain Johnson made an inviting gesture and said, "I hope you enjoy today's journey!"

Xia ruofei boarded the plane through the accommodation ladder.

Every Gulfstream plane would have its space layout and interior matching according to the customer's preference. Tang He's plane was slightly different from MA Xiong's private plane that Xia ruofei had taken before, but it was still as luxurious.

It had a wide, handmade single – person leather seat, expensive wool carpet, and a dazzling array of modern electronic equipment. It was absolutely an extreme enjoyment to sit in such a plane. Compared to it, the most luxurious Airbus A380 first – Class cabin was like a youth hostel to a super five – Star hotel.

Xia ruofei's net worth was far from that, but he had enjoyed the luxury of being the world's richest man in advance.

Xia ruofei was the only passenger today. After he boarded the plane, the cabin crew quickly took their positions.

The flight attendant retracted the accommodation ladder and closed the cabin door.

Captain Johnson brought the co – Pilot and the air Mechanic into the cockpit and once again performed the various checks before take – off.

After a while, the flight attendant came over and reminded Xia ruofei to fasten his seat belt.

The plane trembled slightly and began to slowly glide on the runway.

As the flight route had been applied in advance, the Gulfstream G650 was allowed to take off after waiting for a minute or two at the runway.

The Gulfstream G650 slid into the runway and turned around at the end of the runway. The nose of the plane was aimed in the take – off direction.

Then, the engine was set to take – off thrust, and the plane began to accelerate rapidly on the runway.

Xia ruofei did not feel any vibration. The plane took off gracefully. Under the afternoon sun, the body of the plane drew a beautiful arc and rose quickly towards the cruising altitude.

The entire process was quite smooth, and there were no bumps at all due to the small size of the plane.

The process of climbing was also faster than that of an ordinary passenger airliner. It didn't take long for the seat belt warning light to go off.

The flight attendant came over and served Xia ruofei a well – prepared lunch. The main course was Angus steak. The ingredients were from the high – Quality ranches in the Hunter Valley area of Australia. Of course, red wine from the Hunter Valley winery was also included.

After Xia ruofei enjoyed his lunch, the flight attendant quickly cleared the table and asked Xia ruofei if he needed to take a rest in the lounge.

There was a lounge at the back of the plane. After sacrificing some space for the seats, this lounge was equipped with a real soft bed instead of the relatively narrow sofa bed commonly seen in the plane's first – Class cabin.

Xia ruofei had rolled in the sheets countless times last night and this morning. Even with his amazing physical strength, he still felt tired. Thus, he gladly accepted the flight attendant's suggestion and got up to walk to the lounge at the end of the cabin.

Xia ruofei told the flight attendant to wake him up when the plane was about to land. He then walked into the lounge and locked the door.

This lounge could be completely locked, providing the user with a very private space.

Xia ruofei closed all the windows in the lounge and dimmed the lights. He took off his coat and lay on the bed.

Xia ruofei felt like he was in a dream.

He had actually rolled in bed with a foreign girl he had only met a few times, and it seemed like he had a taste of her. At least, in terms of sensory stimulation, Monica was more pleasing to Xia ruofei than Ling Qingxue.

Xia ruofei felt that his relationship with Monica was a little complicated. It was obvious that the two of them had long gone beyond ordinary friends. Moreover, they did not seem to be just having sex. Didn't Monica say that she wanted to "keep herself pure" for him?

Ever since he found out that he had taken Monica's first night, Xia ruofei's impression of Monica seemed to have changed.

As for how to define his relationship with Monica, Xia ruofei was also a little confused.

As his imagination ran wild, Xia ruofei's breathing gradually stabilized and he entered Dreamland ...

What did it feel like to sleep tens of thousands of feet up in the air? If Xia ruofei were to be asked this question, he would not be able to answer.

This was because he felt that it was no different from sleeping at home. He had been trained in the Army and could fall into a deep sleep very quickly no matter what environment he was in. This time was no exception.

Xia ruofei was woken up by the soft beeping sound of the communication device on the bed. He drowsily took off the communication device and heard the flight attendant politely remind him that the plane was about to leave cruising altitude and begin to descend in ten minutes.

Hence, Xia ruofei got up, put on his clothes, and returned to his seat. He fastened his seatbelt.

It was already dark outside the porthole. It was already night time.

Xia ruofei looked at the time. He had slept for about eight hours. It was already Seven o' clock in the evening in China.

The plane quickly began to descend and finally landed smoothly at the Changping International Airport in Sanshan city.

After the plane taxied to the dedicated tarmac, Xia ruofei lifted his suitcase and thanked Captain Johnson and the other crew members who had walked out of the cockpit. Then, he got off the plane and went through the special passage to complete the immigration procedures.

Chapter 535: The treatment of the rich (3)

As for the Johansson flight crew, they would stay in San Shan city for a night and fly back to United States the next morning.

Of course, shengbang Corporation had a branch company in Sanshan city. Xia ruofei did not have to worry about the arrangement of the flight crew.

When he walked out of the airport, Lei Hu had already driven the Mercedes – Benz and was waiting by the side of the road. He was waiting for Xia ruofei to inform Feng Jing of his schedule before he returned and asked her to arrange for someone to pick him up.

"Brother Xia!" Lei Hu jogged over to take Xia ruofei's luggage and said, "you've had a long journey!"

He placed the luggage in the trunk and quickly opened the back door for Xia ruofei.

The Mercedes – Benz started moving slowly. Xia ruofei leaned back in his seat and asked, "Hu, is the company doing well these few days?"

"Everything is normal!" Lei Hu said, "director Feng has hired another group of people. The farm is much more lively now!"

"That's good!" Xia ruofei said and then asked, "Oh right, I asked you to contact your comrades last time. How's it going?"

"Brother Xia, the four of us and squad leader ye, who's far away in Mount Wu Yi, have contacted all the comrades we could contact. After they heard us introduce the situation here, there were quite a few people who were interested!" Lei Hu said excitedly, "I've made a preliminary count. At least a dozen people have clearly expressed their willingness to come, and there are six or seven more who are also very interested!"

"That's great!" Xia ruofei said happily.

"Brother Xia, do you think we should hold an interview or something?" Lei Hu asked for instructions, "there seem to be a little too many people ..."

Xia ruofei smiled and said, "as long as you're a veteran from our Army, especially those from the Special Forces, I'll take you in as many as you want!" I don't think it's too much! Hu, contact your comrades when you get back and tell them to come over as soon as possible!"

Xia ruofei's farm had expanded by several times, and the winery was starting to generate a steady stream of income. In addition, Fairyland farm in Australia was about to be launched. Soon, his business would usher in a surge of development. Now, it seemed that more than 20 security personnel was a little too much, but he would soon have to worry about recruitment.

In the future, when the business was opened, these high – Quality veterans would become the backbone of the security team. They might even be sent to work abroad!

"Great!" Lei Hu said happily. Thank you, brother Xia!"

Naturally, Lei Hu was more than happy to have so many comrades gathered together. When those comrades came, they could form two standard squad systems. It would even feel like the feeling they had when they were in the Army!

After Xia ruofei chatted with Lei Hu for a while, he took out his phone and sent a WeChat message to Ling Qingxue, telling her that he had landed safely. He then sent a message to Liang Qichao.

In the end, he thought about it and sent Monica a message. The content was simple: Monica, I'm back in China."

Monica replied very quickly. It was a symbol emoji made up of many symbols, but one could still see at a glance that a small person was standing, and another small person was kneeling in front of him with his head stretched forward ...

Wasn't this position the same as this morning ... Xia ruofei couldn't help but shout in his heart, "This little demon!

Then, he hurriedly deleted the message completely and destroyed the evidence. Then, he looked up with a guilty conscience.

Fortunately, Lei Hu was still focused on driving and did not notice his boss's awkward expression in the back seat.

It was almost eight o'clock at night when they returned to the farm. Xia ruofei went straight back to the villa.

After a good night's sleep on the plane, he was very energetic. After taking a shower, he lay on the bed and chatted with Ling Qingxue on the phone for a while.

After hanging up the phone, Xia ruofei still did not feel sleepy.

He simply took out the scroll and entered the stone room in the new space. He drank a small bottle of the spirit Heart Flower petal solution and then sat on the Jade futon again, adjusting his mental power and his entire state to the best.

Then, he left the space in a flash and took out the Supreme – grade sheep – Fat white jade that Lu You had given him.

Xia ruofei had been in Australia for the past few days. Other than having sex with Monica the previous night, he had been using ordinary low – Quality white jade to practice carving the whole rune.

His proficiency had already reached a level that satisfied him, and he felt that he was in a good state today. Therefore, he decided to start the official rune drawing today.

Xia ruofei held the sheep – Fat white jade firmly in his hand. With a flip of his other hand, the carving knife that he had kept in the storage space appeared in his hand.

He took a deep breath and stared at the sheep – Fat white jade with full concentration. He released his mental power and the carving knife in his hand steadily fell ...

Chapter 536: The perfect engraving_1

Even though the sheep – Fat white jade was extremely precious and this was the first time Xia ruofei had officially engraved the core rune, he had completely forgotten about his nervousness.

Xia ruofei was highly focused.

He had practiced engraving the core rune on ordinary low – Quality white jade countless times, and every rune seemed to be deeply imprinted in his mind.

The carving knife in Xia ruofei's hand did not tremble at all. The arc, depth, and direction of the first cut were all extremely accurate. The Jade chips were rolled up by the carving knife effortlessly and divided into two sides of the rune mark.

Every single independent rune had to be completed in one stroke without any pause.

Hence, Xia ruofei turned his wrist slightly and the carving knife drew a mysterious arc and turned to the other side.

He had been releasing his mental force the entire time, following the tip of the carving knife to sense the subtle changes on the surface of the sheep – Fat white jade.

Hook, spin, pull ...

Xia ruofei completed the first rune in one go. There was no deviation and it was almost perfect.

He took a deep breath and blew away the Jade chips on the surface of the rune. He rubbed it with his hand and rested for about half a minute. Then, he picked up the carving knife again, found the relative position, and cut without hesitation.

The second one, the third one ...

More and more Jade fragments fell off the table, and more and more mysterious marks began to appear on the smooth surface of the Supreme – grade sheep – Fat white jade.

Xia ruofei's forehead started to sweat. Under such a high level of concentration, it was very exhausting.

However, his hand holding the carving knife remained steady, and his eyes were still as calm as an ancient well.

More than an hour had passed.

Xia ruofei's carving knife drew a curve and then gently lifted, leaving a perfect arc on the shallow layer.

He heaved a long sigh of relief. This was the last stroke, and also the most difficult one.

Now, the 17 independent runes had all been engraved.

With a thought, Xia ruofei took out a cloth from the spirit map space and wiped off all the Jade chips on the surface of the Supreme – grade suet white jade. Even the Jade chips inside the rune marks were removed.

He then picked up the sheep – Fat white jade and carefully examined it with a slightly nervous heart.

During the engraving process, Xia ruofei would take a short break before he completed a single rune. However, in order to not be interrupted, he usually did not rest for too long. Hence, even though the engraving process felt great, Xia ruofei was not sure what the final result would be.

From the first rune onwards, Xia ruofei was fully focused on checking every detail.

He had especially checked the areas that he had often made small mistakes in his previous practice.

Xia ruofei only smiled in relief after he finished checking the last rune.

It was close to perfection!

It could be said that Xia ruofei had done the best he had done in the past few days.

He couldn't find a single flaw, not even a tiny one, and it was almost a perfect realization of the ideal state in the booklet.

It should be said that Xia ruofei had already reached the limit of human strength. Unless he could improve himself further, he might be able to draw a more perfect rune.

Of course, Xia ruofei's good performance might be related to the quality of the Jade.

In the past, when he practiced, he used inferior Jade materials. Most of these Jade materials had many impurities, which would cause some interference to the carving of runes.

This time, it was the highest quality sheep – Fat white jade. The texture was softer and there were no impurities. This allowed Xia ruofei to complete the whole carving process in one go without any distractions.

Therefore, it was reasonable for the runes to be of the highest quality.

Xia ruofei held the suet white jade Kasaya in his hand. To be more precise, it was a qualified soul puppet core.

He followed the instructions in the booklet and slowly inserted his mental power into the rune. He immediately felt a slight attraction force, absorbing all the mental power he had sent out.

In the process of output, Xia ruofei could feel every stroke and every detail of the runes. These runes were like roads, and his spiritual power was like a car driving on the road.

The driver would naturally be able to feel the progress of the road construction the most directly.

Now, Xia ruofei felt like he was driving on the highway. His spiritual power passed through the relatively independent but interconnected runes and finally gathered in the 17th rune, which was the last rune.

The rune was like a water reservoir, continuously storing Xia ruofei's spiritual power.

Xia ruofei had a general idea of how the soul puppet worked. His spiritual power was probably the reason why the soul puppet could carry out its master's orders and work according to his instructions.

However, Xia ruofei still could not figure out where the spiritual puppet's power came from.

Spiritual power shouldn't be able to make the spiritual puppet move, right?

The things recorded in the booklet were beyond the scope of scientific explanation. In fact, the existence of the spirit map space was a huge BUG. Of course, Xia ruofei would not waste his brain cells to study these things.

He didn't continue to pour spiritual energy into it.

Because he had not unlocked the contents of the next page, he could not create a spiritual puppet for the time being. Moreover, after more than an hour of carving, his spirit was a little exhausted, so there was no need to continue overdrawing.

Chapter 537: The perfect engraving_2

Xia ruofei quickly retracted his spiritual power.

He placed the freshly – made soul puppet core into the stone room in the spirit map space. Then, he cleaned up the table and floor that were covered with Jade chips and went to take a shower again.

It was already past eleven o'clock at night when she came out again.

Xia ruofei lay down on the bed. He had used up a lot of energy just now, so he started to snore after a while.

.....

The next day, Xia ruofei went to the office early in the morning and left for a while. He was too embarrassed to continue being a hands – off manager. Besides, after going abroad, there was still a lot of work to be arranged. He definitely would not do it himself, but at least he had to arrange the tasks well!

Not long after Xia ruofei entered the office, Feng Jing knocked on the door and walked in.

“Good Morning, President Feng!” Xia ruofei said with a smile.

“Good Morning!” Feng Jing walked to Xia ruofei’s desk and said with a smile, “Chairman, it seems that you’ve gained a lot from this inspection!” I see that you’re all red ...”

Xia ruofei couldn’t help but rub his nose and thought, “The harvest this time was indeed not small. He had conquered a Western Horse! But ... Was it really that obvious?”

“CEO Feng, how’s the company these few days that I wasn’t at home?” Xia ruofei cleared his throat and asked.

“Everything is going smoothly!” Feng Jing said, “I’m here to report on the company’s operations over the past few days.”

“Okay, tell me!” Xia ruofei nodded.

Feng Jing opened the folder and reported to Xia ruofei everything that had happened in the company over the past few days.

Feng Jing’s report was very clear, including the production and sales of vegetables, the company’s income and expenditure accounts, as well as some important daily management matters, such as the progress of recruitment and so on.

Xia ruofei did not leave for long, so Feng Jing only took six to seven minutes to report the situation. Then, she closed the folder and looked at Xia ruofei. “Chairman, that’s the general situation. The company’s operations continue to be good, and I personally think highly of our future development!”

Xia ruofei laughed and said, “this means you have good taste!” Choosing our company is definitely the best decision you’ve ever made in your life!”

Feng Jing pursed her lips into a smile. Xia ruofei’s words sounded like he was trying to sell her melons. However, after thinking about it carefully, it seemed like he was right. At least Feng Jing was getting more and more confident in the company.

Xia ruofei leaned back in her chair and said, “Boss Feng, I’ve brought back some good news from my trip to Australia.”

“Oh, really? Hurry up and tell me!”

“Our company’s subsidiary, Hunter Valley’s Paradise Farm, will be experimenting with planting paradise vegetables in the near future. We plan to change our business strategy within half a year, from animal breeding to vegetable planting.” Xia ruofei said, “once the experiment is successful, there will be at least 4500 hectares of land used to grow the Paradise vegetables!”

Feng Rao was very excited. She clenched her fists and said, ""That's great! Chairman, if this plan succeeds, it will bring us a lot of cash flow!"

Feng Jing couldn't help but be excited. If Tao Yuan farm was still a small scale farm, then the scale of Australia's farm was quite large.

To make an intuitive comparison, Taoyuan farm, including the newly rented land, only had an area of about 120 mu, which was about 8 hectares. If Paradise Farm had 4500 hectares of land for growing Peach Garden vegetables, that would be equivalent to 500 to 600 Peach Garden Farms!

Moreover, that 4500 hectares was purely for planting, while Taoyuan farm included many auxiliary facilities.

Feng Jing was well aware of the extremely high selling price of the Paradise vegetables. In fact, it could be sold at an even higher price in Australia. Just imagining the scene of 4500 hectares of land being filled with paradise vegetables made Feng Jing's head spin.

After the initial excitement, Feng Rao started to worry about her gains and losses.

"Chairman, then ... Is the success rate of the experimental planting high?" she could not help but ask.

This was the key to the success of the planting plan, and it was also what Feng Jing was most concerned about.

Xia ruofei smiled and said, ""This is the task I was going to give you."

Xia ruofei took a sip of water and continued, ""The key to planting the Paradise vegetables is in the seeds. I have the complete technology on hand. As long as you use the seeds I provide, there is a high chance that you can successfully grow the Paradise vegetables in Australia!"

Feng Rao's eyes lit up and she heaved a sigh of relief. "Then there's no problem! Chairman, the mission you're talking about is ..."

Xia ruofei smiled and said, ""The hereditary traits of the Peach Orchard vegetables will completely disappear after the generation gap, so Paradise Farm needs me to provide a steady supply of seeds. I've already agreed with my partners that Paradise Farm will import seeds from our paradise company in the name of Paradise Farm. This will be a normal mechanism, and the relevant procedures will be completed by someone in Australia. What you need to do is to contact manager Liang of Paradise Farm in time to ensure the safety of the seeds and to ship them to Australia in time!"

"No problem!" Feng Rao immediately replied. I will personally follow up on this matter in the future! This is our company's top priority!"

Xia ruofei nodded. "I'll give you manager Liang's contact information later. You can contact him today. We'll send the first batch of seeds over as soon as possible!"

Chapter 538: The perfect engraving_3

"Alright!" Feng Rao jotted down notes in her notebook as she spoke and even made a heavy mark on it.

Xia ruofei continued."I'll prepare the seeds myself. You have to report to me the requirements of each type of seed at least five days in advance."

"Understood!" Feng Rao said meticulously.

Xia ruofei thought about the batch of wine from West Winery and said,""By the way, I personally bought a batch of wine from Australia this time. This batch of wine can only be imported into China under the company's name. You can also confirm this with manager Liang later. The goods will be sent to this address ..."

As Xia ruofei spoke, he wrote down the address of the warehouse he had rented in the city on a piece of paper and passed it to Feng Jing.

"Sure, Chairman," Feng Jing nodded.

After talking about Paradise Farm, Xia ruofei asked,""By the way, did manager Li bring out the design plan these few days?"

"Manager Li sent me two proposals. He wanted to come to us personally to explain the design ideas, but considering that you're not at home, I asked him to wait a little longer." Feng Jing asked,"do you need me to ask him to come over immediately?"

"Show me the proposal first!" Xia ruofei said after a moment of silence.

"Alright!" Feng Ke said.

Then, she handed another folder to Xia ruofei and said,""I printed this. If you need an electronic version, I'll send it to your email later."

"No need, I'll take a look first," Xia ruofei said.

Xia ruofei opened the folder and looked up."President Feng, please sit for a while. You can pour yourself some water!"

"Chairman, please take a look at the proposal! "Don't worry about me ..."Feng Jing said with a smile.

Xia ruofei nodded and lowered his head to look at the design plan provided by manager Li.

The two plans each had their own advantages. One of them paid more attention to land utilization and planned 20 modern film Greenhouse greenhouses with a width of ten meters and a length of up to 100 meters. The specifications of the greenhouses were exactly the same as the existing greenhouses on the farm, and each cost 150000 Yuan.

The other one looked more beautiful, and the road planning was more convenient. The number of greenhouses had been reduced by two, and there were only 18.

Of course, a small and medium – sized professional cold storage warehouse would be added to each plan, which would cost about 3.5 million Yuan.

In fact, there was a lot of newly rented land this time. No matter which plan was adopted, the production capacity of the farm would be greatly improved. There were only eight vegetable greenhouses currently operating on the farm.

Xia ruofei flipped through the pages and compared the two plans repeatedly. After a long time, he raised his head and said, "Boss Feng, I'm more inclined to Plan B. Although there are two fewer greenhouses, the road planning is more reasonable, and there is reserved spare land near the complex."

"I'm sure you'll be the one to make the decision, but I personally prefer the second plan," Feng Rao nodded.

Xia ruofei laughed and said, "great minds think alike!" Then let's decide on plan two! However, you can contact manager Li and ask him to plan another dormitory building for me. It will be built next to the mixed – use complex. "

"Chairman, the farm's accommodation isn't that tight!" Feng Rao was stunned. There were still many empty rooms! There's no need to build a new staff dormitory!"

Xia ruofei smiled and said, "our company's expansion has just begun!" There was no shortage of housing at the moment, and this was only temporary. Now, he was building an employee dormitory, which would be useful after the construction was completed! "Besides, I don't want to wait until there's a need to start work. Since the farm needs to be built, we'll build it together. I don't want to hear all kinds of noise from the construction site not long after the infrastructure is completed."

If they were to build another staff dormitory, the overall budget might reach eight or nine million Yuan. Xia ruofei's current funds were definitely not enough, but he was not worried at all.

There was a time limit for construction, and the funds weren't paid in one go. They were usually divided into stages. Besides, he was so close to Liang Weimin that if the funds couldn't keep up, it wouldn't be a big deal to delay it for a month or two.

Now, Xia ruofei's business was blooming everywhere. The farm and winery brought in a large amount of cash every day. Although they had not started to grow paradise vegetables in Australia, they still produced a lot of profits. The Angus cattle on the farm were also very popular, so there was no problem with funding.

Feng Rao thought about it and felt that Xia ruofei's words made sense, so she nodded and said, "Okay, Chairman. I'll inform manager Li to perfect the plan and then come back!"

"En!" Xia ruofei nodded and said, "President Feng, I have nothing else to do here. You can go back to your work!"

"Alright!" Feng Rao immediately stood up and left.

The task that Xia ruofei had given her made her very motivated. She could not wait to contact Liang Qichao and settle the matter of the export of seeds as soon as possible.

Xia ruofei stood up and left the office, heading back to the villa.

After the work arrangements were done, he could be a hands – off manager again.

Chapter 539: Prosperity (1)

In the following period of time, Xia ruofei resumed his lazy, slow – paced life.

Under Feng Jing's tireless management, the company was on the rise.

Two days after Xia ruofei returned to the country, manager li brought out the revised design plan. Xia ruofei did not ask manager li to go back and forth. He looked at the revised plan through email and made the decision.

The entire project cost 9.5 million Yuan, but Xia ruofei was not too worried about the money. Although there was not much cash on the books, Xia ruofei still asked pang Hao to transfer two million Yuan in advance.

This way, there was not much money left on the company's books.

Fortunately, Taoyuan vegetables could be exchanged for a large amount of cash every day, so at least he didn't have to worry about his salary.

The company's administrative team was also getting stronger and stronger. Feng Jing also successfully convinced an old classmate of hers, Wanwan, who had just resigned from a top 500 company in the world, to come to paradise Corporation to be the marketing director.

Xia ruofei had also personally interviewed the marketing director, Xiao Qiang.

Xiao Qiang was in his early 30s. He looked like a smart and capable person. He was also very humble, so Xia ruofei had a good first impression of him.

Moreover, he was personally invited by Feng Jing, so Xia ruofei agreed without much hesitation.

With that, Feng Jing's team was only lacking an Administrative Director.

Manager li brought their company's best construction team into the construction site, and Tao Yuan farm was once again in full swing.

In the past few days, Xia ruofei had been taking the body tempering and spirit nourishing soup regularly. His physical quality and spiritual power cultivation were improving every day.

Now, Xia ruofei could hold on for about ten minutes for the second set of movements from the little golden man. He felt that he would be able to break through again soon.

The nourishment soup could only be consumed once a week, so the improvement in his spiritual power was not as obvious. Xia ruofei tried to unlock the next page of the booklet again, but it was obvious that he was still far from it. The Golden stripes did not form a complete word, but Xia ruofei felt a little exhausted.

He knew that if he wanted to unlock the contents of the booklet again, it would probably take another one or two months.

However, Xia ruofei was not in a hurry. He took advantage of this time to collect as many materials as possible to make a spiritual puppet.

The company's operations were thriving, and the spirit map space was also thriving.

Xia ruofei had used his free time to cut the wild iron – Skin Dendrobium from laoyan mountain in batches. Now, there were about 10000 strains. Including the time in the outside world, they had grown for three to four years and could be picked at any time.

These days, Xia ruofei followed the method he found on the internet and cut off the stem that could be used for medicine, leaving a part of the tender stem to let it continue to grow.

Xia ruofei found an open space in the new space and covered it with a plastic sheet. He moved all the fresh iron – Skin Dendrobium strips to the new space and spread them out on the plastic sheet to let them dry naturally.

Xia ruofei did not know how to process the iron – skinned Dendrobium into iron – skinned maples. However, the spirit map space’s preservation ability was better than the world’s most powerful refrigerator, so it was fine to keep these fresh strips in the space for the time being.

The 12 branches of the big red – robed mother tree with Nine Dragons trunk in the original space had grown into 12 thick tea trees after three to four years in the outside world, nourished by the rich natural energy in the space every day.

Besides, Xia ruofei found a small plot of land at the side and cut out more than 100 tea trees with the branches he cut from the 12 tea trees.

Of course, strictly speaking, these tea trees could only be regarded as the grandchildren of the mother tree. However, due to its asexual reproduction, the tea leaves they produced should be of very good quality.

Of course, under the nourishment of the spiritual Qi in the space, it was hard not to get a Supreme – grade one.

However, Xia ruofei still strictly distinguished the 12 tea trees cut by the mother tree’s branches from these tea trees.

These 12 tea trees would definitely produce top – quality tea leaves in the future. Xia ruofei was prepared to keep these tea leaves for himself. When he needed them, he could give a small portion of them away.

As for the 100 or so third – generation Da Hong Pao tea trees, Xia ruofei was prepared to move them to a wider space when they grew up.

The flow of time in the new space was the same as the outside world. When the harvest time came, it could be harvested once a year, and it might even become another brand product of the Paradise Corporation.

Of course, ye Lingyun would definitely help with the tea – making in the future. As for the tea – picking, Xia ruofei hoped that Ling Hua could complete it.

However, picking tea leaves was a delicate task. Xia ruofei was not sure if the soul puppet was up to the task and could only wait for time to verify it.

As for the Phoebe zhennan and the wild ginseng, they were growing well in the original space.

Precious wild ginseng could be seen almost everywhere on the land where the ginseng was planted. Any one of them that was dug up was a hundred – year – old ginseng. The aureum had already formed a forest, and each plant was quite thick. After a period of time, they could be seen growing larger.

If Tang He saw this scene, his jaw would probably drop. Was this still the agonizingly slow – growing Phoebe zhennan?

In the space fish pond, the red Arowana seedlings had now grown into adults. The fish pond was already a little crowded.

Xia ruofei spent half a day using his mental energy to clear out the fish pond that was used to raise ordinary fish. He used his invisible spatial energy to lift all the grass carps and chubs out of the net.

Chapter 540: Prospered_2

Then, he moved the red Arowana to the big fish pond, so they had more space to live.

As for the ordinary fish, Xia ruofei packed most of them in a box. He put a small portion into the small fish pond where the red Arowana used to live so that he could have the ingredients whenever he wanted to eat fish.

Of course, Xia ruofei still had to spend a lot of time eating the fish in the tidying box before they died from lack of oxygen not long after they came out of the water. However, the interspace had a super preservation function, so they would not go bad even if they were placed in the tidying box.

As for the truffles, Xia ruofei had moved the oak tree to the new space to optimize the spatial order. The new space had the same time ratio as the outside world. It was not yet the truffle harvest season, so there was no truffles for the time being.

However, the oak trees were growing quite energetically. Xia ruofei was very confident about the production of truffles in the second half of the year.

In the new space, xiaohei and the other seven puppies had grown stronger. Xia ruofei decided to bring them to live in the outside world after the farm's infrastructure was completed.

Although the spiritual Qi in the spirit map was dense, there was no one else other than Xia ruofei. It was rather quiet and the dogs must be very lonely.

Besides, after living in such a peaceful environment for so many years, Xia ruofei was worried that the wild nature of the puppies would gradually disappear.

With the expansion of the farm, the safety of the farm would be more secure with Blackie, lightning, and the other six dogs.

Xia ruofei spent the past few days in such a slow pace.

He basically didn't have to manage the farm himself. When he had time, he would take care of the animals and plants in the spirit map space. He would also add some spirit Heart Flower petal solution to the reservoir regularly to ensure that the vegetables and fruit trees could be watered with the petal solution.

The relevant procedures for Paradise Farm to import vegetable seeds from the peach blossom company were quickly completed. Because it was only a small – scale experimental planting in the early stage, the first batch of various seeds required about 100 kilograms.

Xia ruofei also found time to go out and visit a few cities near the three mountains. He bought some seeds from seed companies in various places and gathered all the seeds he needed for export.

In fact, a hundred kilograms of seeds could be bought from the seed company in Sanshan city. However, Xia ruofei was considering the future. Paradise Farm's estimated planting scale was up to 4500 hectares! The amount of seeds needed every year was definitely in the tons. If he only purchased them from Sanshan city, on the one hand, the supply might not be able to keep up, and on the other hand, it would easily arouse suspicion.

Hence, besides purchasing seeds, Xia ruofei also got in touch with the managers of the seed companies. In the future, he would have many options when he needed seeds.

Moreover, he could contact her directly through the phone and transfer the money to her.

After Xia ruofei returned to the farm, he soaked the 100 kilograms of seeds in the original space and dried them.

In order to ensure the results of the experiment, Xia ruofei had specially used an extra petal of the spirit Heart Flower to make the concentration of the petal solution to soak the seed higher than the ones usually provided to the seeds of Taoyuan farm.

Of course, the production of spirit Heart Flower petals was still greater than the consumption. Xia ruofei had about 50 petals now.

He had more than enough to spare, so he didn't feel bad about wasting one more.

After all, if they were planted on an Australian farm, the vegetable seedlings would not be able to enjoy the treatment of petal solution irrigation in the future. Naturally, they had to be taken care of when soaking the seeds. Otherwise, if the quality of the vegetables grown was not as good as those in China, it would be more troublesome.

Xia ruofei had returned to the country for about half a month. The wine he had bought from West Winery had also been imported and sent to San Shan city by air.

He even made a trip to the warehouse that he had rented in the city and handed it over to the logistics company.

Xia ruofei immediately stored all the wine in the warehouse into the original space and placed the boxes neatly.

All he needed to do was wait.

With time flowing thirty times faster and the rich spirit Qi, the quality of the wine would be raised by a large margin.

.....

After resting for more than half a month, Xia ruofei received a guest at the villa in Taoyuan farm.

Xia ruofei sat on the sofa in the living room and looked up and down at the girl in front of him. She was wearing a camouflage uniform without any military rank and had short hair.

The girl was about twenty – three or twenty – four years old. Her skin was a healthy wheat color, her eyes were bright and full of spirit, and her back was straight.

Although she wasn't considered pretty and her skin was a little rough, she had a heroic temperament.

Lin Shengnan was also sizing Xia ruofei up.

She felt that this King of the Commando unit, who was very famous in the Army and even the Marines knew his name, seemed to be different from what she had imagined.

He was dressed in a Black Casual outfit with a hood. He did not look very strong, and his skin was even fairer than his own. He looked more like a young master who lived a comfortable life than a veteran who had been in the Army for seven to eight years and had been discharged from the Army for less than a year.

He didn't seem to be handsome, but this seemingly ordinary appearance seemed to have a very special temperament that made people inexplicably feel close to him. His eyes were very deep, like two bottomless pools.

Xia ruofei's face gradually bloomed into a smile. He said, "Lin Shengnan, I've read the information that Wolf King sent me. He is indeed outstanding to be able to defeat so many outstanding male soldiers in the military competition and win the championship."

"Class monitor Xia." Lin Shengnan said, "that's because no one from lone wolf is participating. Otherwise, I wouldn't have been able to win the championship ..."

Xia ruofei laughed and looked proud. "That's still very impressive. In my opinion, there are two types of Chinese soldiers. One type is the lone wolf assault team, and the other type is the other type. There's no comparison between the two."

Lin Shengnan's eyes showed a trace of dissatisfaction. However, she had to admit that although Xia ruofei's words were arrogant, at least for now, they were true.

She was fortunate enough to have carried out a mission with the lone wolf commando team, so she knew very well that no matter how hard she worked, until she was discharged from the Army, she was still a distance away from the lone wolf's selection standards.

Of course, so far, lone wolf had not produced any female team members.

The phrase that Guo Zhan often said was: War made women leave.

This wasn't gender discrimination, but rather, it was determined by physiological conditions. At the very least, there was no place for female soldiers in the Special Assault Team like lone wolf.

Xia ruofei's eyes revealed a trace of desolation. He laughed at himself and said, "We're all people who have left the Army. What's the point of saying this? By the way, Lin Shengnan, you don't have to call me

squad leader Xia anymore. I'm just a normal citizen without my military uniform. You can call me Mr. Xia, or just like Lei Hu and the others, you can call me brother Xia. "

Lin Shengnan hesitated for a moment and said, ""Yes, Mr. Xia."

Obviously, Lin Shengnan did not think that he was close to Xia ruofei and was more or less distant from her.

Xia ruofei did not mind. After all, she was a girl and the Army she served in was not of the same system as his. Naturally, she was different from Lei Hu and the others.

Xia ruofei asked, "Sheng Nan, you're so outstanding. You should have a good chance of being promoted, right?" Why did you choose to leave the Army at this time?"

Lin Shengnan's face turned gloomy. ""Mr. Xia, I chose to leave the Army because of some personal reasons. I ... Can I not say it?"

"Of course! That's your freedom. " Xia ruofei said with a smile.

Lin Shengnan bit her lower lip and asked, ""Then ... Will it affect my interview results?"

Xia ruofei laughed and said, "the champion of the Military District's martial arts competition, the champion of the Marine's combat competition, the female gun King ... Outstanding talents with so many titles. I can't even find one even if I light a lantern!" Sheng Nan, the moment the wolf King recommended you to me, you were already accepted!"
