

## God tier Farm 581

### Chapter 581: The king of fish (1)

With the roar of the engine, the Knight XV off – Road vehicle arrived at the entrance of Ling Xiaotian's jiangbin villa.

The smart access control system flickered, and the iron door slid open silently.

Xia ruofei drove straight into the villa's courtyard.

Ling Xiaotian and Ling Qingxue were walking out of the mansion. Ling Qingxue's eyes were filled with joy as she looked at Xia ruofei from time to time.

Lin Shengnan, the female bodyguard that Xia ruofei had hired for Ling Qingxue, also walked out of the villa. She was just two steps behind Ling Qingxue. Even at home, she still dressed neatly and looked around vigilantly from time to time.

Xia ruofei looked at Ling Qingxue with a smile and nodded at her. Then, he said to Ling Xiaotian, ""Uncle Ling, I'm really sorry to have disturbed you so late at night!"

Ling Xiaotian laughed and said, "we're all family, there's no need to be so polite!" RUO Fei, the rays are being kept in the warm water tank in the kitchen. I'll Take You There!"

"Thank you, uncle Ling!" Xia ruofei said.

Ling Xiaotian led the way in front while Xia ruofei walked side by side with Ling Qingxue. Naturally, he held onto Ling Qingxue's soft hands.

In front of her father and the bodyguards, Ling Qingxue appeared to be a little shy. She tried to struggle out of Xia ruofei's grip, but Xia ruofei held on tightly. She could not help but roll her eyes at Xia ruofei.

Ling Qingxue then sneaked a look to her left and right. The bodyguard Lin Shengnan was looking straight ahead, ignoring the intimate scene between the two. Ling Xiaotian was walking in front and did not seem to notice Xia ruofei's small movements. Ling Qingxue finally relaxed a little and let Xia ruofei hold her soft hand.

Soon, the group arrived at the big kitchen in the villa.

In a corner of the kitchen was a constant temperature water tank. A light blue indicator light emitted a faint light. It came with a battery that could maintain the water temperature in the tank according to the user's design.

.....

Ling Xiaotian subconsciously lightened his footsteps and said in a low voice, ""Ruofei, pomfrets are very timid. You must be very careful when you move them. Generally speaking, they will die from shock during fishing. This pair of live pomfrets are really precious!"

"I understand, uncle Ling," Xia ruofei nodded.

Through the transparent glass of the heated water tank, Xia ruofei could see two 30 – centimeter – long fish swimming slowly. Although he couldn't see clearly, he was still excited.

Ling Xiaotian pointed at the water tank and said, "this is the legendary 'King of fish'. RUO Fei, let me tell you, how delicate is this Chinese perch?" As long as someone touches its scales, it will stop moving immediately. That's why Su Dongpo once called it 'cherishing scale fish'. However, the scales of Chinese perch are the most delicious, so they are not scaled when cooking. Its scales are fine and rich in high – Quality fat and colloid protein. After cooking, they become semi – melted jelly and taste very delicious in the mouth. Not only is it good in taste, but it also has excellent calcium and beauty effects. "

As Ling Xiaotian spoke, he couldn't help but look at the two pomfrets in the water tank with some reluctance.

It had been more than ten years since he had tried Pomfret. He had tried it a few times when he was young and it still left an endless aftertaste. It was not easy for him to get two pomfrets by chance, but Xia ruofei had taken them away so suddenly. He was really reluctant to part with them.

Ling Qingxue, who was watching from the side, rebuked, ""Dad! Why are you like a greedy cat? If you keep saying that, he won't even dare to take RUO Fei ..."

"Qingxue, how could you talk to uncle Ling like that?" Xia ruofei quickly said.

Ling Xiaotian said in a self – deprecating manner, "it's okay, it's okay. Ruofei, ever since my daughter got together with you, my position in her heart has automatically dropped by one place. Girls should always be outside!"

Ling Qingxue couldn't help but blush and weakly argued, ""I didn't ..."

Ling Xiaotian laughed and said, "let's not talk about this anymore. RUO Fei, take the fish!" In the future, if you really breed the Yangtze River Pomfret, don't forget to send me a few as soon as possible!"

"Definitely, definitely!" Xia ruofei quickly said, "my friend's research has reached a certain level. I don't think you'll have to wait too long!"

Xia ruofei said this as a warning. He had the spirit map space where time flowed thirty times faster. The breeding of the rays would be very fast in the space. It would definitely be much faster than the normal cycle. With what he said today, when Xia ruofei started to breed the rays on the farm in the future, it would not arouse Ling Xiaotian's suspicion.

"That's good!" Ling Xiaotian said happily before continuing, "however, you should also be prepared for the difficult times! Pomfrets mainly live in the sea, but they migrate back to the river to lay eggs in the early summer, so it's not easy to get them to adapt to freshwater farming!"

Xia ruofei smiled and said, "we have our own ways. Don't worry!" With these two pure wild Chinese perch, our research progress will speed up a lot. Just wait for our good news!"

Xia ruofei was not too worried about the growth environment of pomfrets. He had done some research in advance and knew that pomfrets could actually survive in freshwater. At present, many artificial farms of pomfrets in the United States desalinated the salt in the environment by means of a ladder so that the pomfrets could slowly adapt to the freshwater environment.

## Chapter 582: The king of fish (2)

However, Xia ruofei felt that he did not need it at all. As long as the Stingray could not survive out of the sea, and as long as they could survive and reproduce in freshwater, the superior environment in the spirit map space would definitely allow them to live very well.

Xia ruofei gently picked up the heated water tank.

His strength was much greater than the average person's, so he could easily lift the water tank, which weighed 40 to 50 catties, and it was quite stable, almost without any shaking.

The pair of stingrays in the water tank didn't even notice anything abnormal, still swimming slowly and steadily in the water tank.

Ling Xiaotian also heaved a sigh of relief.

Xia ruofei walked to the back of the Knight XV's car and opened the trunk. He placed the heated water tank in the trunk and took out three bottles of 'drugged' Drunken Eight Immortals wine before closing the trunk.

Xia ruofei brought the wine to Ling Xiaotian and said apologetically, "Uncle Ling, these bottles of wine were originally meant for everyone to take out for the catfish banquet tomorrow. Now that I've taken away the main course, I can only leave these bottles of wine for you to drink ..."

Ling Xiaotian had been looking at the water tank in Xia ruofei's hands longingly. He only looked away after Xia ruofei had closed the car door.

However, the moment the door closed, he adjusted his mentality and laughed. "It's fine, it's fine! It's good to have wine! Besides, I believe that you'll be able to eat the Chinese perch very soon. You're the best at creating miracles, haha ..."

Ling Xiaotian said as he took Xia ruofei's glass of wine.

He thought for a while and asked, "Oh right, ruofei. I remember you said on the phone that you had something to tell me. Can you tell me now?"

Ling Qingxue couldn't help but look at Xia ruofei.

Xia ruofei did not hesitate and said with a smile, "Uncle Ling, I actually need your help. I heard from Qingxue that you really like ornamental fish, especially red Arowana. You also have a lot of connections in the circle and many fish friends with strong financial capabilities ..."

.....

"Qingxue finally spoke from an objective standpoint!" Ling Xiaotian laughed smugly.

Ling Qingxue couldn't help but roll her eyes.

"Uncle Ling, I have a few blood – Red Dragons that are of pretty good quality." Xia ruofei smiled and said, "I'm going to sell them, but this kind of high – Quality blood – Red Dragon is very expensive. Ordinary people can't afford it. So, I would like to ask you to contact your fishing friends and ask if anyone is interested in buying."

Ling Xiaotian's eyes widened in shock as he said, ""Blood Red Dragon?"

Xia ruofei nodded with certainty. "Yes, I have the channels to get high – Quality blood red Dragons. There are a total of six this time, and it's only the first batch."

"Since there's such a good fish, why don't you keep it for yourself?" Ling Xiaotian could not help but say, "ruofei, good Red Arowana are hard to come by!"

Ling Qingxue pouted and said, "dad!" Didn't you hear what RUO Fei said? He had a fixed channel, and this was only the first batch. Do you think everyone's like you, unable to take their eyes off a good quality Red Dragon?"

Ling Xiaotian laughed awkwardly and asked, ""RUO Fei, what is the approximate grade of your six Red Dragons? It's not that I don't believe you! You know that my fish friends all have very high standards. "

Xia ruofei smiled. "I don't know much about this, but I'm sure that they're not any worse than the pair I gave you last time. They should be slightly longer too. I believe that they must be the best blood red Dragons!"

"If that's the case, then I'm relieved!" Lin Xiaotian replied. "I'll contact my friends tomorrow. Ruofei, when will your Red Arowana be ready?"

"Within three days!" Xia ruofei said with certainty.

"Alright, let's set it three days later!" Ling Xiaotian said.

"Thank you, uncle Ling!" Xia ruofei smiled and said, "three days later, I'll send the red Arowana over. You can ask everyone to come to your house!"

"No problem!"

After making a deal with Ling Xiaotian, Xia ruofei bade farewell to everyone and left.

Ling Qingxue was a little reluctant, but since her father and her bodyguard were by her side today, she could not show it. She could only look at Xia ruofei with her big, watery eyes.

Xia ruofei smiled at her. When Ling Xiaotian and Lin Shengnan were not paying attention, he blinked his eyes quickly.

Ling Qingxue's pretty face blushed slightly. This was a secret signal between the two of them that they had a tacit understanding. Xia ruofei was saying that he would meet her tomorrow.

The two young men and women who were in love, apart from eating and shopping, would naturally do some sports that everyone loved to see.

Ling Xiaotian did not notice his daughter's blushing face. He continued to remind her, ""RUO Fei, drive slowly on the road. Don't make any vibrations. They're easily frightened."

"Don't worry! I will be very careful!" After Xia ruofei finished speaking, he waved at Ling Xiaotian and the other two. Then, he stepped on the accelerator and started the car, leaving Ling Xiaotian's Villa.

In fact, the moment the car started, Xia ruofei had already used his spiritual power to lock onto the heated water tank at the back of the car. With a thought, he easily stored it into the spirit map space.

As Xia ruofei's spiritual power grew, his control of space became more adept.

### **Chapter 583: The king of fish (3)**

The constant – Temperature water tank slowly landed on the soft grass next to the spatial spirit pond, and it didn't even shake.

Then, Xia ruofei used his mind to control a porcelain bottle to float above the constant – Temperature water tank. The porcelain bottle tilted slightly, and a clear stream poured from the mouth of the bottle into the feeding port of the water tank, dripping into it.

It was a bottle of highly concentrated spirit Heart Flower petal solution.

Xia ruofei had been paying attention to the situation in the spirit map space. When the petal solution dripped into the water, the two stingrays were clearly invigorated and their swimming movements became more vigorous. They quickly swam to the area where the petal solution had dripped and opened their mouths to greedily suck in the water.

Xia ruofei immediately calmed down. The water tank would not shake at all in the space. Besides, there were no other animals in the original space other than the fish in the pond. The rays would not be disturbed. Furthermore, the spirit Heart Flower petal solution was very popular with the rays. Xia ruofei was even more confident.

Not having to worry about the vibration affecting the rays, Xia ruofei sped up immediately after he drove out of the villa district and headed towards Taoyuan farm outside the city.

After returning to the farm villa, Xia ruofei went straight to his room.

He locked the door, closed the curtains, and then impatiently summoned the spirit map scroll from his palm. With a thought, he flashed into the spirit map space.

The heated water tank was placed quietly by the pool. Xia ruofei walked over quietly. Through the glass, he could see that the two Stingray seemed to be more energetic than before and they were swimming faster.

Xia ruofei didn't open the water tank immediately. Instead, he went to the small fish pond.

There were two fish ponds in the new space, one big and one small. The big fish pond had been cleared for the red Arowana to live in, and there were about seventy of them.

There were only a few ordinary edible fish in the small fish pond, which were left behind by Xia ruofei after he had cleaned the big fish pond. He had wanted to let them breed freely so that he could eat fish whenever he wanted.

However, since he had this pair of pomfrets, the ordinary food fish in the small fish pond would naturally have to make room.

.....

Xia ruofei's mind covered the top of the fish pond. Soon, the invisible force of space wrapped the grass carps and chubs up into the air and all fell into an empty plastic box next to it. The fish bounced happily, reminding people of the fishermen's bumper harvest.

Xia ruofei closed the plastic box, and with a thought, the plastic box floated far away. He did not want the struggling fish to disturb the pair of baby stingers.

Xia ruofei focused on the fish pond and checked it carefully. Not a single fish had escaped the net. All the edible fish had been caught.

However, Xia ruofei was not in a hurry to transfer the rays into the small fish pond. He had just thrown in the petal solution of the spirit Heart Flower and wanted to let them absorb as much as possible.

Hence, Xia ruofei picked up the bait that Ling Xiaotian had asked someone to prepare from the side of the thermos and threw it into the thermos. Then, he left the spirit map space in a flash.

The night passed by quickly.

Xia ruofei had woken up at six in the morning. He didn't have time to wash up and entered the spirit map space.

According to the difference in the flow of time, the rays had already lived in the spirit map space for about ten days. The composition of the spirit Heart Flower petal solution in the constant – Temperature water tank should have been completely absorbed.

As Xia ruofei had put in quite a lot of bait in advance, and the environment in the spirit map space was so unique, he was not worried about any accidents happening to the rays tonight.

As expected, when Xia ruofei arrived at the spatial spirit pond, the Ray fish were swimming happily in the constant – Temperature water tank! He looked much more energetic than he did at Ling Xiaotian's house last night, no longer sickly.

Xia ruofei checked again and confirmed that the fish pond was cleared of all the bigger fish except for plankton.

Then, Xia ruofei gently opened the lid of the warm water tank and prepared to move 'the Stingray.

The glass surrounding the heated water tank was translucent, so when he opened the lid, it was Xia ruofei's first time seeing the famous "Kings of fish" in person ...

#### **Chapter 584: President Feng can handle two people by himself\_1**

The two pomfrets were about the same size, about 30 centimeters in length. Their scales were sago – colored, their back and head were grayish – Black, and the upper side had a little bluish – Green luster. The lower side and abdomen were silver – White, and their abdominal and gluteus fins were grayish – White. The edge of their caudal fin and the base of their dorsal fin were light black.

Xia ruofei looked at the two fish and couldn't tell which was the male and which was the female.

However, since Ling Xiaotian had said that they were a pair, it should not be a mistake. After all, he had asked the experienced head chef of Ling Ji to appraise them.

Even if the two stingers could not be paired, Xia ruofei would not lose anything. They could grow a lot in the medium.

Xia ruofei's movements were very gentle. The two rays did not notice that the lid on their heads had been opened. They were still swimming leisurely in the warm water tank.

The spirit Qi in the spirit map space was extremely rich, and the two rays seemed to be enjoying themselves.

Xia ruofei carefully used the invisible spatial force to wrap the two rays and the water around them. Then, with a thought, the rays slowly rose from the heated water tank.

The Stingray had been swimming non – stop all its life, and they did not notice anything wrong at this time. They were still swimming slowly in a limited range.

A large ball of transparent water was wrapped in an invisible force and suspended in mid – Air. There were two rays swimming slowly in the water. This scene was quite strange.

Xia ruofei's control of the spatial force was already at ease. With a thought, the ball of water wrapped around the Ray fish and slowly floated to the small fish pond. Then, it slowly descended and finally entered the fish pond.

Xia ruofei slowly removed the invisible spatial force and the Ray fish immediately swam happily in the small fish pond.

With their intelligence, they were naturally unable to detect anything wrong. However, their range of activity had suddenly increased a lot, so they were very happy and swam much faster.

.....

Xia ruofei then slowly poured the remaining water in the heated water tank into the small fish pond. It was inevitable that there were still some spirit Heart Flower petals here, and Xia ruofei did not have the habit of wasting them.

The small fish pond in this space had already formed a small and stable ecosystem. There were plankton, organic matter, and so on in the pond. After the rays settled in the fish pond, Xia ruofei did not have to worry about feeding them.

He then took out a small porcelain bottle that contained the spirit Heart Flower petal solution and poured half a petal of the solution into the small fish pond. He observed the state of the pomfrets from a distance and then left the spirit map space with a peace of mind.

It was a quiet night.

The next day, after Xia ruofei woke up, he contacted President Lin of Qiantang Tongren Hall and found out that President Lin's flight would arrive at Sanshan at around three in the afternoon.

After Xia ruofei asked for the flight number, he gave Lei Hu a call and asked him to drive the company's Mercedes – Benz to pick Xia ruofei up in the afternoon. When he was going to Jiangsu and Zhejiang Province, President Lin was very warm to him. This time, he came to San Shan to discuss business with Tao Yuan company, so he naturally could not be impolite.

The company didn't have a full – time driver. When they needed a car, they would look for a few veterans in the security Department.

After the last recruitment, the security Department had a surplus of people. Besides, these veterans who had obtained a military driving license were all very skilled. Xia ruofei would be more at ease if they were the drivers.

Especially Lei Hu and the others, who had undergone special driving training in the Special Forces. Even if there were any emergencies on the road, they could calmly deal with it. They were much better than ordinary local drivers.

Xia ruofei gave it some thought and gave pang Hao a call. He asked him to get someone to prepare a guest room in the mixed – use complex in case of emergency.

The company didn't have a specialized logistics department at the moment. In addition, the chief executive hadn't arrived yet, so some service and security work was temporarily in the charge of pang Hao.

However, as the Chief Financial Officer, he was no longer a mere commander. Among the last recruitment, two of them were prepared to work for the finance department, so pang Hao only needed to give orders for general matters.

In the morning, Xia ruofei sat in his office for a while and discussed the details of the negotiation with Feng Jing. At 11 am, he left the office and drove straight to the city.

He had already called Ling Qingxue in the morning to make an appointment. The two of them had not seen each other for a long time, so they were going to have lunch together in the city.

Xia ruofei drove to the headquarters of the lingji F & B building. Not long after, he saw Ling Qingxue, who had obviously dressed up on purpose, walking out of the building with light steps.

The Knight XV SUV was very eye – catching. Ling Qingxue looked left and right and immediately found her target. Her face revealed a happy expression as she walked quickly towards Xia ruofei.

After Ling Qingxue got into the car, Xia ruofei passed Ling Qingxue a necklace that he had bought at the Qiantang. He smiled and said, "Wife, this is for you!"

The necklace was from Cartier and cost about 16000 Yuan. Although it was not very expensive, Ling Qingxue would be very happy as long as it was a gift from Xia ruofei.

Her eyes revealed a hint of surprise as she said, "Why did you suddenly give me a present?"

Xia ruofei smiled and said, "I saw it when I was shopping at Qiantang this time. I thought it would suit you, so I bought it." Wife, quickly put it on and let me see!"

Ling Qingxue nodded happily, then pouted and said, "You help me put it on!"

## **Chapter 585: President Feng can handle two people by himself (2)**

"Alright!"

Xia ruofei took the box containing the necklace, and Ling Qingxue turned her back to him. Xia ruofei took the necklace out of the box, wrapped it around Ling Qingxue's neck, and carefully put the necklace on the back of her neck.

Looking at Ling Qingxue's white and flawless neck, Xia ruofei couldn't help but feel excited.

Especially when Ling Qingxue turned around, her Jade – like skin made the thin necklace and blue crystal pendant look even more radiant. Xia ruofei could not help but stare blankly.

Ling Qingxue blushed and asked, "What are you looking at?" Is it good or not?"

Xia ruofei chuckled, "nice!" My wife will look good no matter what necklace she wears ..."

Ling Qingxue rolled her eyes at Xia ruofei and chuckled. "Silly ... Drive! I'm hungry ..."

Xia ruofei immediately started the car and drove to the restaurant he had booked.

For lunch, Xia ruofei chose a specialty restaurant. They did not ask for a private room. Instead, they chose a private room in the lobby by the glass window and ordered a spicy fish Pot, a few stir – fried vegetables, and a bowl of soup.

The two of them were obviously not in the mood to eat. They finished their lunch in about half an hour and then drove to the Shangri – La hotel that Xia ruofei had booked in advance.

As soon as they entered the door, the two of them hugged each other tightly and couldn't wait to kiss.

Xia ruofei closed the door with his foot, then carried Ling Qingxue by the waist and ran straight to the big bed in the room ...

Absence makes the heart grow fonder.

.....

They had not been together for a few days. Xia ruofei missed Ling Qingxue's long and alluring legs. The two of them rolled around in the room. Fortunately, the sound insulation of the five – Star hotel was good. Otherwise, the "neighbors" would have protested.

After a round of chaos, the hands of the clock were already pointing to two in the afternoon.

Xia ruofei carried Ling Qingxue to the bathroom for a couple's bath. Naturally, he took advantage of her by touching her all over, which made Ling Qingxue's body go soft.

If not for the fact that Ling Qingxue still had to go to work in the afternoon, Xia ruofei would definitely be in a frenzy and have sex with Ling Qingxue in the bathroom.

After the two of them checked out, Xia ruofei brought Ling Qingxue to the restaurant at Shangri – La for some desserts and drinks before driving her back to the headquarters of the Ling Ji restaurant.

At the Ling Ji F & B headquarters, Xia ruofei watched as Ling Qingxue reluctantly walked into the building. Only when her figure disappeared from his sight did Xia ruofei drive off and head straight for Peach Blossom Farm. He calculated the time and realized that President Lin's plane should have landed by now.

Although Xia ruofei was going to hand over the negotiation to Feng Jing, he still had to meet CEO Lin since he had just arrived at the three mountains.

Not long after Xia ruofei returned to the farm's office, the veteran on duty at the gate called to report to him that Lei Hu's car had entered the farm. When Xia ruofei returned, he had specifically instructed him to report immediately when he saw the company's Mercedes – Benz.

Xia ruofei stood up and beckoned Feng Jing, who was in the office next door, to go downstairs with him.

They had just arrived downstairs when the black Mercedes – Benz slid over silently and stopped in front of the complex.

Without waiting for Lei Hu to open the door, President Lin opened the door and got out of the car. He walked quickly towards Xia ruofei with a warm smile on his face.

"Big brother Lin, you've had a long journey!" Xia ruofei said with a smile.

"Brother Xia, your farm is not bad!" As soon as they met, President Lin said, "facing the sea, the environment is quiet and peaceful. It's simply the best place in the world!"

"If you like it, then stay for a few more days. I have a lot of rooms here!" Xia ruofei smiled and said, "brother Lin, let me introduce you. This is our company's general manager, Feng Jing. I've handed over the full responsibility of this cooperation to him."

"Nice to meet you, President Lin!" Feng Jing had an elegant smile on her face as she reached out her hand to President Lin.

President Lin looked at the young, beautiful, and elegant Feng Jing and couldn't help but reveal a trace of surprise in his eyes. He originally thought that Feng Jing was Xia ruofei's assistant or secretary, but he didn't expect her to be the company's general manager.

Of course, Mr. Lin's surprise was short – lived. He quickly shook hands with Feng Jing and smiled, "CEO Feng, nice to meet you!"

Xia ruofei smiled and said, "big brother Lin, let's go upstairs and talk!" I've already had the meeting room prepared!"

Hence, Xia ruofei and the rest walked into the complex.

As they entered, Xia ruofei called Lei Hu to his side and whispered to him to inform pang Hao to prepare another room. President Lin had brought a female assistant with him this time. Although Xia ruofei could see that there was something going on between the two of them, they could not possibly be arranged to share a room!

Lei Hu accepted the order and left. Xia ruofei took a few quick steps to catch up with Feng Rao and the rest.

Everyone came to the company's conference room. The marketing director, Xiao Qiang, was already waiting in the conference room with several employees of the administrative team.

Seeing Xia ruofei, Feng Jing, and CEO Lin coming in together, Xiao Qiang and the others quickly stood up.

Xia ruofei stretched out his hand and gestured for everyone to sit down.

Then, he smiled at President Lin and said, "Brother Lin, I've already given director Feng full responsibility for this cooperation. You guys have a good chat. I won't join in the fun!"

President Lin showed a surprised expression and asked, "Brother Xia, you ... You don't want to hear it?"

President Lin thought that Xia ruofei was just talking and would definitely check on such a big matter personally. He did not expect Xia ruofei to be so carefree that he did not even participate in the first contact and negotiation between the two parties.

Xia ruofei laughed and said, "there's no need for that. You guys can talk first!" I've arranged a welcome party for you in the company's cafeteria. Let's have a good chat over lunch!"

After that, Xia ruofei nodded to everyone and left the meeting room.

Feng Jing, Xiao Qiang, and the others were already used to Xia ruofei's style, so they were not surprised. President Lin and his female assistant looked at each other and sat down in their seats uncomfortably.

"President Lin, our Chairman has already informed me of the specific situation." Feng Jing got straight to the point. "This time, we're going to finalize the details of our cooperation. We'd like to hear Tongren Hall's thoughts first."

.....

While the negotiations were still going on in the meeting room, Xia ruofei called pang Hao to his office and asked him to personally arrange for a welcome banquet in the evening.

Xia ruofei had specifically instructed pang Hao to use the freshest Taoyuan vegetables for dinner. They had to go directly to the greenhouse to pick them. As for beef and mutton, they were all readily available in the canteen. He just had to ask Cao tieshu's wife to prepare a table full of the best dishes.

Then, Xia ruofei returned to the villa and took out five bottles of Drunken Eight Immortals from the medium. Although there were no spirit Heart Flower petals, Xia ruofei had bought these bottles of wine from Ding Feng winery. They had been in the medium for a long time and were of a much higher quality than the one – month Drunken Eight Immortals that were currently sold in the market.

Xia ruofei thought for a while and took out three large grass carp from the medium. He packed them in a bag and brought them to the company's cafeteria with the Drunken Eight Immortals wine.

These grass carps were caught by Xia ruofei when he was cleaning the fish pond previously. Although they had been dead for a long time, the invisible preservation effect of the interspace kept them in their freshest state, no different from the fish that had just been caught and killed.

Pang Hao was in the canteen, preparing for the welcoming banquet. Xia ruofei had handed over the fish and Drunken Eight Immortals wine to him and asked Cao tieshu's wife to use the three large grass carp as the main dish. A home – cooked meal would do. These top – grade ingredients did not require any heaven – shaking and earth – weeping culinary skills to make a taste that would make one drool.

After making the arrangements, Xia ruofei went back to his office to surf the internet. At Six o' clock, the meeting finally ended. Xia ruofei heard the noise and walked out of the office.

“Big brother Lin, how’s the discussion going?” Xia ruofei asked with a smile as he saw Mr. Lin walking towards him.

President Lin smiled bitterly and said, “Brother Xia, I finally know why you’re a boss who doesn’t have to do anything. Your President Feng ... Is really amazing!”

### **Chapter 586: Contract achieved (1)**

Xia ruofei looked at Feng Jing with a smile and said to CEO Lin, “Big brother Lin, if President Feng isn’t good, how could he be our company’s general manager at such a young age?”

Xia ruofei knew that Feng Jing must have been overbearing in the negotiation earlier, so he decided to change the subject.

In fact, this was also the reason why Xia ruofei let Feng Jing be in charge of the negotiation.

After all, he had a good relationship with President Lin. It was a little embarrassing for him to refuse to give up an inch of land on the negotiation table for the sake of profit. However, he let Feng Jing take charge of it and follow the rules. That was why he hid himself so thoroughly.

President Lin shook his head with a bitter smile. He pointed at Xia ruofei and said, “Brother Xia, you’re really cunning ...”

Xia ruofei pretended to be confused and said, “big brother Lin, did CEO Feng make things difficult for you?” Tell me, I’ll criticize her later!”

President Lin’s stomach full of words was suddenly swallowed back. He couldn’t possibly say that the General Manager was a Negotiation Expert and that he was losing at the negotiation table today, right?

Feng Rao also smiled and said, “President Lin, although there are still some small differences between us, the negotiation is still going smoothly!”

President Lin smiled bitterly and thought, “it’s going well for you guys, but I’m already retreating step by step. I’m just short of losing my power and humiliating my country.”

However, President Lin was also very clear that paradise corporation’s products were their biggest reliance. Tongren Hall was already the weaker party in this cooperation, so as long as Feng Jing’s ability wasn’t too bad, she would take the opportunity to make demands. This was also human nature.

Xia ruofei laughed and tried to smooth things over, “Big brother Lin, today’s work has come to an end. We’ll talk about the unfinished business tomorrow. It’s mealtime now. A man is made of iron and rice is made of steel. Let’s not talk about work and go to the restaurant to eat! You have to drink more today!”

President Lin was also in a good mood. He immediately smiled and said, “Alright! I’ll drink to my heart’s content if I lose on the negotiation table! I’ll make you broke with one meal!”

“I can’t ask for more!” Xia ruofei raised his head and laughed.

.....

When they arrived at the restaurant, pang Hao had already arranged for the employees to tidy up a round table. Many dishes were already semi – finished in the kitchen and were just waiting for Xia ruofei

and the others to take their seats. Therefore, once everyone was seated, the dishes were served very quickly.

A large pot of tofu stewed with grass carp, with some purple perilla added on top, was steaming hot and fragrant, which immediately increased one's appetite.

Next, there was fish head tofu soup and braised grass carp. Xia ruofei took three large grass carps and ordered them to be used as the main dish. Therefore, Cao tieshu's wife also cooked in a different way. Although they were all home – cooked, the ingredients were really good. In addition, Cao tieshu's wife's cooking skills were also very good, so the taste, color, and fragrance were all present.

The other dishes were also home – cooked dishes. In addition to meat dishes such as dried pot yellow beef and red – braised mutton, there were several vegetarian dishes, all of which were cooked with paradise vegetables as ingredients.

"Big brother Lin, have a taste of Mrs. Cao's cooking!" Xia ruofei greeted him with a smile.

President Lin had been talking for an entire afternoon and was already physically and mentally exhausted. Now that he saw this table full of delicious food, his stomach couldn't help but growl. Hearing this, he didn't stand on ceremony and picked up his chopsticks with a smile.

At this moment, the two young ladies from the finance department, who had been called over by pang Hao to act as temporary waitresses, opened the bottle of Drunken Eight Immortals 'wine. Immediately, a rich and intoxicating aroma of wine filled the entire restaurant. Even President Lin's hand, which was reaching for the pot of stewed fish, stopped in its tracks.

President Lin took a few deep breaths and said with a shocked expression, ""Brother Xia, what kind of wine is this? This is too fragrant!"

"Big brother Lin, this is some good wine that I've specially prepared for you. Try it first ..." Xia ruofei said with a smile.

Xia ruofei then gestured for the two girls to pour him some wine.

After the Drunken Eight Immortals wine was poured out of the bottle, its fragrance became even more intense. Even Feng Rao, who rarely drank, couldn't help but purse her lips.

Soon, everyone's glasses were filled with wine. Xia ruofei laughed and raised his glass, ""Brother Lin, thank you for your warm hospitality in Jiangsu and Zhejiang Province. Since you're here in Sanshan today, I have to do my best as the host. For the first glass of wine today, let's toast to the guests from Tongren Hall with our colleagues from Taoyuan company!"

"Thank you, brother Xia!"

"Cheers!"

"Cheers!"

After finishing the glass of wine, Xia ruofei did not rush to propose a toast. Instead, he invited everyone to eat.

It was the first time President Lin and his assistant had eaten Taoyuan vegetables, and they couldn't help but praise it.

Feng Rao, Xiao Qiang, pang Hao, and the others had never eaten the spatial carp before. This was their first time tasting it, and they were immediately conquered by its delicious taste. They couldn't help but take a few more bites.

For a moment, everyone only cared about eating, and no one actually toasted.

Xia ruofei couldn't help but find it funny. He suggested, "Boss Feng, brother Lin came all the way here. Shouldn't you give a toast on behalf of the company?"

Only then did Feng Rao come back to her senses. She couldn't help blushing slightly as she quickly raised her glass and said, "President Lin, welcome to the three mountains! I'll toast you this glass of wine alone and wish us a successful cooperation! In order to show my sincerity, I'll finish this glass of wine, and you can do as you please!"

Although Feng Jing didn't like to drink much, she was still a capable woman who had been working hard for many years.

After she finished speaking, she raised her head and finished the glass of wine before Mr. Lin could say anything. Then, she showed Mr. Lin the bottom of the glass.

### **Chapter 587: Contract achieved (2)**

President Lin laughed and said, "President Feng, you're checkmating me!" You're a lady and you're already toasting, so how can I be casual!"

After that, President Lin also downed the wine very quickly.

After that, the welcome banquet finally got on track. Although the dishes were delicious, under Xia ruofei's organization, everyone toasted each other while eating.

President Lin had a natural disadvantage. He only had a female assistant with him. Although those who could be brought out by him could hold their liquor as well, they were alone after all. Xia ruofei, Feng Jing, Xiao Qiang, pang Hao, and the others took turns to fight, and they quickly finished their glasses of wine.

The Drunken Eight Immortals wine had been left in the spatial dimension for a long time, so it had a very good taste. It was not bad in the mouth, but the aftertaste was also quite strong.

In addition, Xia ruofei had intentionally called Lei Hu and the rest, including Cao tieshu's wife who worked in the kitchen, out. Everyone had a glass of wine, so President Lin and his female assistant quickly finished drinking. President Lin even started to speak with his tongue sticking out.

Xia ruofei saw that they were almost done drinking, so he asked pang Hao to arrange for President Lin and the other man to rest in the guest room upstairs.

He had also specifically asked the two girls from the finance department to take care of President Lin's female assistant.

Feng Rao watched as Lei Hu and the rest escorted CEO Lin upstairs to rest. She smiled at Xia ruofei and said, "Chairman, would you like to have a seat in my office?"

Xia ruofei knew that Feng Jing wanted to report on the negotiation today. He thought about it and said, "Let's take a walk in the farm yard! I just got rid of the alcohol."

"Alright!" Feng Rao nodded in agreement.

Hence, the two of them walked out of the complex building together and strolled around the farm while talking. Pang Hao, Xiao Qiang, and the others naturally returned to their rooms to rest.

The night view of the farm was pretty good. The shadows of the trees swayed slightly under the street lights, and landscape lights were installed on the lawn. It was a peaceful and quiet scene.

.....

Xia ruofei laughed as he walked. "President Feng, I can see that President Lin is very resentful! Are your conditions too harsh?"

"Isn't that how negotiations work?" Feng Rao pursed her lips and smiled. It's asking for a sky – High price, so I'll just sit down and pay!"

"Hahaha! Tell me about the negotiation this afternoon!" Xia ruofei said with a smile.

Hence, Feng Jing started to report as she walked side by side with Xia ruofei.

It turned out that President Lin and the others were more inclined to the sales model, which was that they would buy it from the peach blossom company at a fixed price. After that, the sales would have nothing to do with the peach blossom company, and the money that could be sold would go to Tongren Hall.

Xia ruofei and Feng Jing had discussed this plan yesterday. In principle, Xia ruofei did not reject this cooperation model. Although the profit might be less, the risk would be transferred to Tongren Hall, and the payment would be recovered faster.

Therefore, Feng Jing didn't insist on their cooperation and basically agreed with Tongren Hall's opinion.

The difference between the two sides was the unit price and the annual supply of the Ironhide Kaede bucket.

President Lin hoped to buy from paradise Corporation at a price of 150000 Yuan per kilogram. He wanted as much as possible, and he also hoped to state in the contract that the annual supply would be at least 1.2 tons.

In fact, President Lin had made a plan before he came. He bought Xia ruofei's iron – hide kaedeans at 150000 Yuan per kilogram. When Xia ruofei was in Jiangsu and Zhejiang Province, he promised that he would buy no less than 900 kilograms of them a year.

The reason why he raised the supply threshold was naturally that President Lin hoped to develop its potential as much as possible. He wanted to acquire all of paradise corporation's Ironhide fengdou

products to Tongren Hall, forming an exclusive business situation, which was more beneficial to their pricing.

Feng Jing, on the other hand, offered 180000 Yuan per kilogram, and the minimum annual supply was 900 kilograms.

No matter what, Feng Jing refused to compromise on these two conditions. President Lin kept making concessions, but Feng Jing insisted.

What was even more shocking was that Feng Rao had asked her friends in Jiangsu and Zhejiang to find out more about the situation at Tongren Hall. She had obtained very accurate information that Tongren Hall was currently selling a top – grade iron – skinned maple bucket at 200000 Yuan per kilogram.

This iron – Skin maple bucket was packaged in the Tongren Hall's packaging, and it also came with the test report of the Medical Research Institute, which showed that the content of dendrobe glucose and Dendi amine was far more than the general special products.

There was no doubt that this was the iron – hide maple that Xia ruofei had sold to CEO Lin a few days ago.

This was because Xia ruofei had said that there was only one Ironhide maple that could reach this standard in the market.

Hence, Feng Jing directly set the price at 180000 Yuan, which made President Lin very uncomfortable. This price was definitely profitable for Tongren Hall, but it was far from what President Lin had expected.

If Feng Jing agreed to at least 1.2 tons a year, CEO Lin might just grit his teeth and agree. But if it was only 900 kg, at the current price, he would be able to make about 12 million a year. After deducting labor costs, transportation costs, and taxes, this amount of profit was too little.

The key point was that President Lin couldn't guarantee how many more tin kaedos the peach blossom company would have left. If the peach blossom company still had a lot of stock, the pricing power of Tongren Hall would be greatly weakened. This was what President Lin was worried about.

Xia ruofei listened carefully and laughed. "CEO Feng, no wonder CEO Lin looked like he was being trampled on after he came out. He's really unlucky to have met a negotiator like you ..."

### **Chapter 588: Contract achieved (3)**

Feng Rao blushed and rolled her eyes at Xia ruofei. "Is that how you talk about your subordinates?"

Xia ruofei couldn't help but laugh. After a while, he asked seriously, "What do you think of tomorrow's negotiations?"

"Actually, both sides are heading towards the same direction," Feng Jing analyzed calmly. "But I think the conditions I've proposed have already crossed boss Lin's bottom line. So, tomorrow's negotiations won't be easy."

Xia ruofei nodded and said, "if you really can't do it, just give way."

"I think 180000 is a very suitable price!" Feng Rao raised a different opinion. "Once Tongren Hall is resold, we can make at least 20000 Yuan per kilogram of goods ..."

Xia ruofei laughed. "Look at you. You're such a money – grubber. I didn't say I'll give in on the price!"

"Chairman, are you talking about the supply?" Feng Jing furrowed her brows. "I remember you telling me yesterday that if the supply is too large, we might not be able to keep up with the supply of raw materials. There's definitely a penalty clause in our contract, and that's too disadvantageous for us."

Xia ruofei smiled. "It's not a big problem to control the supply to one ton. Also, if Tongren Hall is still not satisfied, we can make another step back."

"How?" Feng Rao asked in confusion.

"All of our products are uniformly packaged. Even if there's a surplus after we supply it to Tongren Tang, our company can sell it to other companies or resell it to other companies. We can maintain the same pricing as Tongren Tang. Xia ruofei said.

Feng Rao's eyes lit up as she immediately understood what Xia ruofei meant. "You're saying to include the prohibition of malicious competition in the contract?"

"This is what I meant!" Xia ruofei smiled and said, "I believe that with this, CEO Lin will be able to accept the price. Of course, this is also our bottom line. It's naturally the best if we can negotiate with your conditions today. "

"Understood!" Feng Rao said confidently.

.....

At this time, the two of them had unknowingly walked to the fish pond on the farm. Feng Jing saw the fish pond and couldn't help but ask, "Chairman, I heard that the fish pond has been idle since the opening of the farm. I think it's too wasteful. Should we consider adding a breeding project?"

If it was a few days ago, this question would have given Xia ruofei a headache as well. However, today, he was no longer worried. He immediately smiled and said, "I've already found a project, but I still need some time. "

"Oh? What project?" Feng Rao couldn't help but ask.

Xia ruofei chuckled and said, "I'll keep you in suspense for now. You'll know in a few days." In any case, our Taoyuan farm only produces quality products. I can't be bothered with the average project!"

"Alright! Chairman, it's fine as long as you know what you're doing. " Feng Jing smiled. "I've been busy recently too."

It was getting late. The two of them talked about some company matters and then turned around to leave. Xia ruofei sent Feng Jing to the complex before returning to the small villa.

.....

The negotiations continued the next day.

With Xia ruofei's approval, Feng Jing was even more confident. Other than increasing the supply to one ton, she would not compromise on any other conditions.

Mr. Lin had made some concessions and raised the purchase price to 170000 Yuan per kilogram. This seemed to be his bottom line, and the negotiations were in a temporary deadlock.

At this moment, Feng Jing felt that the time was right. She released the clause that prohibited malicious competition that Xia ruofei had mentioned last night and clearly stated that this was the bottom line of paradise Corporation. If they still couldn't reach an agreement, this cooperation would regrettably be called off.

CEO Lin also realized that Feng Jing wasn't bluffing. After weighing the pros and cons for a long time, he went out to call the head of the main store for further instructions. Then, he returned to the meeting room with a bitter smile and agreed to Feng Jing's conditions.

After the general principles were agreed, some details such as the supply method, time, settlement method, and so on were easy to discuss.

In the evening, the two sides finally reached an agreement on all the issues and drafted the first draft of the contract.

After Xia ruofei finished reading and found no problem with it, he signed the contract without hesitation. CEO Lin was the representative of Tongren Hall this time, so the contract would come into effect after he signed and stamped his seal.

Xia ruofei smiled and shook Mr. Lin's hand. "Brother Lin, it's a pleasure working with you!"

"Our profits are almost squeezed dry," President Lin said with a bitter face. "How can we be happy?"

Xia ruofei laughed, "big brother Lin, don't complain about being poor!" Your Tongren Hall is not only interested in that little bit of profit!"

President Lin smiled but did not answer. Xia ruofei leaned close to President Lin's ear and whispered, "Big brother Lin, business is business, don't blame this little brother for being unkind ... Don't be depressed, how about this! I'll think of a way to get two more wild ginsengs in a while, and the quality won't be lower than the previous ones. How about it?"

"Brother Xia, really?" President Lin suddenly became energetic again.

Compared to the iron – hide fengdou, high – Quality wild ginseng was even more difficult to come by. Moreover, it had a more obvious effect on promoting the reputation of Tongren Hall.

Xia ruofei laughed. "I have some clues. Once I have any news, I will inform brother Lin immediately!"

"Alright, alright, alright. Then, brother Xia, you have to be more careful!" President Lin quickly said.

"Don't worry! I don't dare to slack off on big brother Lin's matter!" Xia ruofei laughed and said, "let's go, you guys must be tired after talking for a whole day. Let's go have a drink!" It's not easy to come to the three mountains, so don't rush back. I'll get Lei Hu to drive you around tomorrow. "

“Don ‘t, don’ t, don ‘t, I still have a lot of things to do in my shop! I’ve booked a ticket for tomorrow morning!” President Lin quickly said.

He had long been anxious to return home. Although the results were not as good as he had expected, the task was completed. He had to report to the main store as soon as he returned!

“That’s fine. I was in too much of a hurry this time. Next time, I’ll find some time to come over and have some fun!” Xia ruofei did not force her.

“Definitely, definitely!” President Lin said.

Everyone chatted as they walked towards the dining room. Naturally, there would be another fierce battle at the table tonight.

### **Chapter 589: Ling Xiaotian’s moments (1)**

The next morning, Xia ruofei arranged for the company’s car to send Mr. Lin and Mrs. Lin to the airport.

After the two parties signed the contract, Feng Jing immediately arranged for someone to follow up. She mainly focused on the packaging design of the Ironhide fengdou and didn’t need to worry about the other aspects of the cooperation.

Two days ago, Feng Rao had asked someone to come up with a preliminary plan. Considering the high price of the iron maple bucket, they decided to divide it into two packages of 500 grams and 1 kilogram. They also prepared several different gift boxes.

The company only needed to come up with a proposal requirement, and the specific design could be outsourced to other design companies.

As for the other procedures, Xia ruofei was personally in charge of the raw materials. He had already made arrangements for the processing of the Dendrobium candidatum, so Feng Jing didn’t need to ask.

Qin Xiaojun and the others had gone to Jiangsu and Zhejiang Province to study. Xia ruofei’s next batch of iron – Skin dendanry would be harvested in less than a month’s time. By then, they would be able to come back and carry out the actual operation.

Of course, master Luo or other experienced Masters would be required to guide them on the spot. He believed that after a few times of experience, Qin Xiaojun and the others would be able to process the materials on their own. After all, there was not much technical content in this process. Most of the experience was passed down through word of mouth. It would only take a little bit of time to understand. The rest was nothing more than practical experience. Once they were familiar with the process, everything would be easy.

As for the delivery, the Ironhide fengdou was priceless. Xia ruofei could not be completely at ease, whether it was through logistics or by truck. After all, the value of the Ironhide fengdou that had to be transported to Jiangsu and Zhejiang Province every month would start at 20 million.

Fortunately, although the value was high, it was only about a hundred kilograms, so Xia ruofei had already made a plan in his heart. He would let Lei Hu and the other Veterans Drive the goods to Jiangsu and Zhejiang Province in turns.

The pickup truck had a sealed rear compartment, so it was easy to fit such a small amount of metal.

When the time came, two to three people would be arranged to escort the transport together, and everyone would take turns to drive on the road. With these experienced and strong veterans, even if they encountered any unexpected situations on the road, even if they encountered car bandits or road tyrants, they should be able to deal with them calmly.

The company's operations were gradually on the right track. Other than the Chief Executive Officer, the staff was also basically assigned.

Feng Jing had been trying her best to get in touch with the issue of the chief executive. However, paradise corporation's reputation was currently unknown, and those who were truly capable weren't willing to take the risk to work at such a small company. As for those who weren't capable enough, Feng Jing wasn't willing to make do with them, so the position was temporarily left vacant.

.....

Xia ruofei's attitude was that he preferred quality over quantity and did not insist on immediately recruiting people.

He believed that it wouldn't be long before the situation reversed. By then, it would be others who wanted to enter the company.

Moreover, Feng Jing was very capable in managing the company. The company's operations wouldn't be affected too much if they didn't have an Executive Director.

They quickly came up with a few plans for the packaging design of the tin fengdou. Xia ruofei personally took Feng Rao and Xiao Qiang to review the effect drawings of the design company and finally chose a design plan with a stronger Chinese style.

This set of packaging design used a light gold base, supplemented by some Dragons and auspicious clouds as the background, making it look like a scroll. After opening it, there were two engraved wooden boxes, each of which could hold 500 grams of iron maple.

Of course, it also came with a separate 500 – gram outer packaging. The pattern and logo were the same as the 1 – kilogram package, but they were one size smaller.

In addition, the package also included several types of gift boxes. All the gift boxes were dark red in design and made of leather, with gold embossed characters and logos, looking very expensive.

Although Xia ruofei didn't like to be ostentatious or luxurious, he knew that the packaging of the tin Kaede bucket really needed a certain element of luxury. This was determined by the target customer.

Most of the people who could afford such high – Quality iron – Skin maples were nouveau riche. Most of them bought the iron – Skin maples for their own use and gave them away as gifts.

If the gift was too shabby, the nouveau riche wouldn't even consider it, no matter how good it was.

After coming up with the plan, Feng Jing immediately contacted the factory to start the production.

If it was mass – ordered, the cost of a normal packaging would be around 80 yuan, while the cost of a leather gift box would be around 300 yuan. Of course, compared to the selling price of 180000 Yuan per kilogram, the cost of the packaging was almost negligible. Just the profit Feng Jing had won from the negotiation alone had reached 30000 Yuan per kilogram.

Moreover, everyone agreed that this money was necessary to spend. It would be beneficial for the company's brand promotion.

After the deposit was paid, the factory immediately began to model and put it into production. Soon, the packaging would be transported to Taoyuan farm.

Under manager Li's personal supervision, the production site of the iron Kaede bucket was also working overtime. Soon, a row of bungalows was built. In addition to the production room and the drying field, a small warehouse was reserved mainly for storing the finished products.

Xia ruofei did not plan to pack them in Sanshan city. He had already reached an agreement with CEO Lin. When the time came, the outer packaging of the unified production would be directly transported to Qiantang through the logistics channel. This way, the tin maple that they made each time could be packed in a big bag and transported to Qiantang directly by pickup truck.

#### **Chapter 590: Ling Xiaotian's moments (2)**

After packing them – they would need at least a small truck to fit Yingying's boxes – they took up too much space.

Moreover, a whole bag of iron – hide maples was also convenient during the transaction. It could be directly weighed, so as to avoid the suspicion of a lack of weight after being packed into a box.

On the third day after Mr. Lin left, Xia ruofei left Taoyuan farm in a pickup truck. He had made an appointment with his future father – in – Law to bring the Blood Red Dragon to the jiangbin villa today.

The night before, Xia ruofei had already chosen six blood – Red Dragons from the medium and placed them in three plastic boxes. Each box was just enough to hold a pair. At the same time, he dripped a slightly diluted solution of the spirit Heart Flower petals into the boxes.

When the car arrived at the entrance of Ling Xiaotian's Villa, Xia ruofei moved the three plastic boxes from the space directly into the pickup truck.

Before he left, he had already installed the covers of the car. With the protection of the dark – colored glass, people outside could not see the three tidying boxes that had appeared out of thin air.

Xia ruofei did this to avoid the bumps on the road from scaring the blood – Red Dragon. If the blood – Red Dragon were to hit its scales, its value would be greatly reduced.

Xia ruofei honked, and the smart access control camera flashed. Then, the iron gate immediately slid open silently.

Xia ruofei drove into the courtyard and saw Ling Xiaotian walking out of the villa with five to six middle – aged men.

Xia ruofei jumped out of the car and greeted her with a smile. ""Uncle Ling,"

Ling Xiaotian chuckled and nodded, ""RUO Fei, did you bring the Red Dragon?"

Xia ruofei pointed and smiled. ""They're all in the car! There are six in total. "

At this time, a slightly balding middle – aged man showed a suspicious look and said, ""Young man, are all six of them blood – Red Dragons?"

.....

"Yes!" Xia ruofei nodded.

The balding uncle laughed and said, "since when were blood red Dragons so common?" Usually, one is a rare opportunity, but now there are six of them, hehe ..."

It was obvious that he was suspicious of Xia ruofei. Seeing this, Ling Xiaotian's face darkened and he said, ""Third brother Xie, if you don't trust me, you don't have to come. No one is forcing you to come!"

"Old Ling, I have nothing to do, so I came to see your blood red Dragons," Xie laosan said casually. Do you really think I have any hope for the so – called six Blood Dragons?"

Ling Xiaotian coldly snorted and said, "Hmph!" Believe it or not! It was RUO Fei who helped me find my pair of blood red Dragons!"

After he finished speaking, Ling Xiaotian ignored Xie laosan and turned to Xia ruofei with a warm smile. ""RUO Fei, let me introduce you to my fish friends!"

Birds of a feather flock together. Ling Xiaotian's circle of fish lovers was naturally different from those of other fish lovers. His circle was filled with rich bosses.

There were a total of five people present, and all of them were successful tycoons. One of them was a middle – aged man with an imposing appearance and wearing a string of expensive heavenly jewels. His name was li Zongheng, and he was the CEO of zongtian real estate. The middle – aged man in the Armani suit was Xu Desheng, the chairman of Huatian Jewelry Group. There was also a boorish middle – aged man named yang Dahua, who also owned a chemical group with assets of over a hundred million Yuan. The last one was a skinny old man named Guo Qinglin. He had been in the seafood business for his entire life, and the seafood company under his name also had assets of over 100 million Yuan.

Of course, in the end, Ling Xiaotian still introduced the balding third Xie with a straight face.

Third Xie's name was Xie Xun, and he was the boss of a logistics company that wasn't small.

After Xia ruofei heard Ling Xiaotian's introduction, he smiled and nodded to greet these potential wealthy customers. When he finally introduced Xie Xun, Xia ruofei almost laughed out loud. He couldn't help but think of The Heaven Sword and Dragon Saber. However, he found it hard to associate this bald and perverted uncle with the Golden – furred Lion King.

The CEO of zongtian real estate, li Zongheng, had a humble aura about him. After Ling Xiaotian's introduction, he smiled warmly and said, "Xia, let's take a look at the Arowana you brought. As long as the quality is good, the price is not a problem. "

"It'd be best if they're of a higher quality than old Ling 's. " The skinny old man Guo Qinglin laughed and said,"save him the trouble of showing off in front of us all day!"

Yang Dahua and Xu Desheng could not help but laugh.

Xie Xun pursed his lips and said,"the greater the hope, the greater the disappointment!" I'd advise you not to have any expectations ..."

When Xia ruofei saw that Xie Xun's words were not very pleasant to hear, he couldn't help but feel a trace of unhappiness in his heart. He didn't even see anything! How could he be so sarcastic?

Ling Xiaotian's eyes widened, and he could not help but want to retort. However, Li Zongheng spoke before Ling Xiaotian could,"Xiao Xia, please don't mind him. That's just how third Xie is. He's always been annoying with his words and has offended countless people over the years. If not for that, the assets of Chengtong Logistics would have multiplied by several times ..."

Yang Dahua and the others also revealed knowing smiles. It was obvious that they were more familiar with each other and knew Xie Xun's personality.

Xia ruofei smiled."You're all my elders. Why would I mind a few jokes?"

After saying that, Xia ruofei changed the topic. He looked at Xie Xun and asked,""Director Xie, you have no right to speak without investigating. You haven't even seen the Arowana I brought! It's too early to make a conclusion!"
