

Chapter 61: Super reversal (1)

He Dong revealed a fake smile and said, "Qingxue, I understand that you want to help your classmate. I'm also very willing to do something for your classmate without affecting the overall situation. "However, food safety is our company's Red line. Especially since there was a suspected food poisoning incident some time ago, we can't be muddleheaded on this red line ..." He Dong nagged on and on, not directly answering Ling Qingxue's question. However, Ling Qingxue didn't get impatient, which was a rare sight. Instead, she revealed a meaningful smile and quietly watched he Dong's performance with an expression as if she was watching a good show. When Ling Xiaotian and the other company executives heard he Dong's "nonsense," they nodded their heads repeatedly. Ling Xiaotian, in particular, approved of he Dong even more in his heart, thinking that he knew the big picture. After beating around the bush for a long time, he Dong finally returned to Ling Qingxue's question. He continued, "Qingxue, I know you might not be happy, but the truth is that the Tao Yuan brand organic vegetables are worthy of being called super high – Quality ingredients. They are also the key to turning the lingji F & And your classmate is just a vegetable seller trying to get close to our company and earn a little money by reselling vegetables. The two are not on the same level at all, there's no way to compare!" After he finished speaking, he Dong looked at Ling Qingxue with a wide smile, a smug expression on his face. Ling Qingxue's mocking expression became even more obvious. She said indifferently, "It seems that manager he is very impressed with this paradise brand vegetable!" "I'm not just talking without thinking!" He Dong laughed. "Although the Taoyuan brand vegetables have only appeared in everyone's eyes for two days, the appraisal and auction held by the West River Moon Club are so Grand that everyone who has attended the appraisal can't stop praising Taoyuan vegetables. These people are all famous people in Sanshan city. It can't be that they were hired by them, right?" Ling Xiaotian also furrowed his brows and said, "Qingxue, what are you trying to say? We're discussing serious matters now, so don't throw a tantrum!" Ling Qingxue stood up and looked around at the company's top executives. Finally, her gaze stopped on he Dong and she said sarcastically, "Manager he, you've just said so many good things about paradise vegetables. I'll thank you on behalf of ruofei!" When Ling Qingxue said this, he Dong couldn't help but be stunned for a moment. He then asked, "You ... What do you mean by this?" Ling Qingxue chuckled and turned to Ling Xiaotian. "Dad, I just received a call. The Paradise vegetables that manager he was praising about were cultivated by my classmate, Xia ruofei. It's also the vegetable that I strongly recommended to you a few days ago. The Paradise company that is currently being registered is also solely owned by Xia ruofei." Ling Qingxue's words were like a stone that caused a thousand ripples. The conference room immediately buzzed with discussion. As for he Dong, he sat on the chair in a daze as if he had been petrified. The expression on his face was extremely interesting. Ling Xiaotian revealed a shocked expression and asked, "Qingxue, is the information confirmed?" "RUO Fei told me personally, how could I be wrong?" Ling Qingxue said. He Dong had only just recovered from his shock. Hearing Ling Qingxue's words was like grasping at a life – saving straw, and he immediately said loudly, "He's definitely lying! He got in touch with Qingxue before because he wanted to use Qingxue to cheat our company's money. He must have come up with another trick after I saw through him. It just so happens that Taoyuan vegetables' reputation has been in the limelight for the past two days, so he continued to use Taoyuan vegetables' name to cheat people! It must be like this!" Ling Qingxue looked at he Dong coldly, not bothering to explain anything to him. She only said to Ling Xiaotian, who had an uncertain look in his eyes, "Father, RUO Fei said that you can call President

Zheng of the West River Moon Club to confirm this matter. As long as you mention his name, President Zheng will naturally tell you the truth. By the way, you should have President Zheng's phone number, right?" Ling Xiaotian nodded his head slightly and took out his phone doubtfully. At this time, he Dong suddenly said, "Chairman, you can't make this call! The source of Taoyuan vegetables must be the core secret of the West River Moon Club. If he rashly called President Zheng to ask about this matter, not only would he not get any information, but he would also offend him. The cooperation in the future would definitely be impossible! This Xia ruofei has evil intentions. He's trying to make Ling Ji restaurant and Xijiang Moon Club become enemies!" Ling Qingxue finally couldn't help but change her expression and coldly said, "Enough! He Dong, if it wasn't for you deliberately making things difficult for us, Ling Ji F & B would be the one cooperating with paradise Corporation right now, and the one in the limelight in the entire Sanshan food industry would also be Ling Ji F & B! It's because of your stupidity and selfishness that RUO Fei had no choice but to choose the West River Moon Club as his business partner. Our company has not been able to get out of this predicament, all because of you! You're still stopping my father from investigating this matter. What are your intentions? At this time, he still accused RUO Fei of being evil! I think you're the one who's feeling guilty!" "I didn't ..." He Dong explained with a pale face. Ling Xiaotian looked at he Dong with a complicated expression, then started to look for a phone number on his phone. He quickly found President Zheng's number and dialed it. Ling Xiaotian took his phone and stood up to walk out of the conference room. Before he even walked out of the conference room, everyone heard Ling Xiaotian say enthusiastically, "President Zheng? I'm Ling Xiaotian from Ling Ji F & B ... I have something to ask you ..." Then, the thick door of the conference room was closed, blocking Ling Xiaotian's voice. No one could hear what Ling Xiaotian and President Zheng were talking about on the phone outside the conference room. These high – ranking officials all looked at he Dong with complicated gazes. There was pity, gloating, and also indifference ... Meanwhile, Ling Qingxue sat quietly in her seat, looking at he Dong's pale face and dejected appearance. Her heart was filled with joy. After watching this despicable person act so arrogantly for so many days, Ling Qingxue felt as disgusted as if she had eaten a fly every time she saw him. Today, she had finally vented her anger! If it was anyone else who dared to talk back to Ling Qingxue like this, they would have been kicked out of the company a long time ago. He Dong only dared to be so impudent because his father had saved Ling Xiaotian's life. It was also because of this that Ling Qingxue especially hated him. Very quickly, the meeting room's door opened once more. Ling Xiaotian walked back with a somewhat unsightly expression. Everyone's eyes were focused on him, but no one dared to ask. Ling Qingxue was the only one who smiled confidently and asked, "Dad, how's the questioning?" Ling Xiaotian's expression became a little awkward, not knowing how to answer Ling Qingxue. After a long while, Ling Xiaotian furrowed his brows and looked at he Dong, asking in a deep voice, "Little he, what's wrong with you? We're all trying to curry favor with such a high – Quality supplier like Xia ruofei, why are you still pushing him away? Also, Qingxue said that you deliberately made things difficult for her and forcibly ruined the cooperation that had already been drafted. Is that true? It was all good now! Old Zheng from West River moon had gotten a great deal! What do you want to do? Ah?" He Dong's face instantly paled when he heard this, and the last bit of hope in his heart also vanished. He slumped into his chair, completely not knowing how to deal with this kind of situation ...

Chapter 62: bearing Bramble and asking for forgiveness (1)

The company's executives had obviously also gotten the answer, and they couldn't help but speak at the same time.

"Chairman Ling, is the boss of paradise Corporation really Qingxue? Can we make contact with him directly?"

"Chairman, since Qingxue has already agreed to work with him, even though it has been temporarily stopped due to he Dong's personal reasons, now that the misunderstanding has been cleared up, we can still continue working together!"

"Yes, Chairman Ling! If we can establish a long - term supply relationship with the Paradise Corporation, our company will definitely be able to take down the Ming Hao restaurant in one fell swoop!"

"Chairman Ling ..."

"Alright! Be quiet!" Ling Xiaotian furrowed his brows and said loudly, "why are you all so noisy? Do you think this is a wet market?"

The moment Ling Xiaotian was enraged, the company's higher - ups and managers immediately fell silent and shut their mouths. For a moment, the meeting room became very quiet.

Meanwhile, Ling Xiaotian tried his best to adjust his expression and make it gentler. He then looked at Ling Qingxue and squeezed out a smile, saying,

"Qingxue, I was deceived by others and blamed you wrongly. Please don't take it to heart ..."

Ling Qingxue pursed her lips and said after a moment of silence,"

"Dad, I know what you want to say ... But I've told you before that the production of ruofei's new vegetable product is still very low. He chose to cooperate with us because of me. Now he has signed a supply agreement with the West River Moon Club ..."

"I know that ... But aren't you his classmate? Can you discuss with him, even if it's just a small portion, it'll be good enough for us to use it in an emergency!"

Ling Qingxue revealed a meaningful look and said,"

"But ... Ruofei's vegetables still can't provide the test report from the authorities. At the moment, he doesn't have his own planting base ..."

Ling Xiaotian laughed bitterly,"

"Qingxue, don't say such things in a fit of anger. I know you're still angry with father. However, this cooperation is very important to our company. I hope you can look at the big picture and help the company tide over this crisis first ..."

Ling Qingxue let out a soft sigh and said,"

"Actually, ruofei already said on the phone that although the supply of vegetables is tight, I can still squeeze out some if I need it. But ... You have to talk to him personally!"

Ling Xiaotian hurriedly said,"

"I should! It should be! Qingxue, let's not waste any time, let's go over now!"

It was unprecedented for the boss of a restaurant chain to rush to see a young man for dozens of catties of vegetables every day.

This showed that the difficulties that Ling Ji F & B was currently facing weren't small. Furthermore, the appearance of paradise vegetables was so stunning, which was also an important reason why Ling Xiaotian placed so much importance on it.

Ling Qingxue said calmly,"

"Father, ruofei has another condition! When we go to negotiate, we must bring this manager he!"

After she finished speaking, Ling Qingxue glanced at he Dong in disgust.

He Dong also seemed to have somewhat recovered from the shock, and he asked warily,"

"What does he want to do? I ... I don't want to see him!"

Ling Xiaotian frowned. He had always had a good impression of his old comrade's son. He was good - looking and had good work coordination skills. In order to repay his old comrade's kindness, he had been nurturing him on purpose. He even had the intention to matchmake his daughter with him.

It was just that today's matter had let Ling Xiaotian see another side of he Dong.

This side of him was so unbearable that Ling Xiaotian could not help but sigh.

"Xiao He, this matter was caused by you. It's reasonable for them to ask you to go to their house and apologize!" Ling Xiaotian said in a low voice,"this matter is settled. We will leave in ten minutes! Old Hong, go get the car ready!"

Old Hong, the head of the group's office, quickly agreed and arranged for a car to go.

Ten minutes later, Ling Xiaotian and Ling Qingxue walked out of the building and got into a black Mercedes - Benz. He Dong, who had lost his soul, also got into the car with a tearful face.

The car started and headed straight for Xia ruofei's holiday villa in Changping.

.....

When he received a call from Ling Qingxue, who was still on the way, Xia ruofei was preparing dinner downstairs.

So he stopped what he was doing and tidied up the living room a little.

When the sky was about to turn dark, the black Mercedes - Benz of Ling Ji restaurant arrived at the holiday villa.

This was Xia ruofei's first time meeting Ling Xiaotian.

Because of what had happened last time, he did not have a good first impression of this tall, middle - aged man. However, Ling Xiaotian was Ling Qingxue's father, so Xia ruofei still gave him some face.

He walked up to Ling Qingxue and exchanged a smile with her. Then, he greeted Ling Xiaotian with a smile,"

"Uncle Ling, how are you?"

As for he Dong, who was timidly following behind Ling Xiaotian, Xia ruofei completely ignored him.

Ling Xiaotian laughed heartily and said,"

"Hello! Little Xia, I've heard Qingxue mention you before, but I've never had the chance to meet you! I'm sorry for believing what I heard about the cooperation last time!"

Ling Xiaotian did not hide anything from the start and chose to be direct. This made Xia ruofei have a good impression of him.

Xia ruofei smiled."

"Uncle Ling, Qingxue, let's talk inside!"

After he finished speaking, he made an inviting gesture and led the group into the villa. In the living room on the first floor, everyone took their seats according to their status. He Dong was the last to sit in the living room, not knowing whether to stand or sit, his face alternating between red and white.

When Ling Xiaotian saw he Dong's cowardice, he couldn't help but furrow his brows. He said in a Ling Xiaotian hurriedly said,"

deep voice,"

"Xiao He, quickly apologize to RUO Fei."

"I ..." He Dong opened his mouth and looked at Xia ruofei again with a trace of resentment in his eyes.

Just as he was about to speak with difficulty, Xia ruofei waved his hand and said to Ling Xiaotian,"

"Uncle Ling, there's no need to apologize. I don't need it ..."

"Then ..." Ling Xiaotian looked at Xia ruofei in confusion.

Since he didn't want he Dong to apologize, why did Xia ruofei specifically ask he Dong to come here to see him?

Xia ruofei smiled and said,

"Uncle Ling, I already know why you're here. Actually, I didn't intend to push the Taoyuan vegetables to the market so soon. It was Qingxue who strongly encouraged me after she tried these vegetables once ..."

"What do you mean by encouraging ... That's encouragement, okay ..." Ling Qingxue pouted and rolled her eyes at Xia ruofei.

"Qingxue, don't interrupt little Xia!" Ling Xiaotian said.

Xia ruofei looked at Ling Qingxue in amusement and continued,"

"In short, it's because of the clear snow that the peach Garden vegetables appeared in advance. I even discussed the details of the contract with Qingxue ..."

Ling Xiaotian hurriedly said,"

"Little Xia, we were wrong in this matter ..."

Xia ruofei smiled and said,"

"Uncle Ling, that's not what I meant. I'm actually quite an easy person to talk to. When I was discussing the collaboration with Xi jiangyue, I intentionally left some leeway because I was the first to agree to Qingxue ..."

"Xiao Xia, I'm really grateful to you!" Ling Xiaotian said with great joy.

"Uncle Ling, I'm not done yet!" Xia ruofei smiled faintly and said,"this time, it's all because of he Dong's personal revenge. We're all adults, and we need to be responsible for what we've done!"

Xia ruofei glanced at he Dong coldly and said,"

"So, the only condition for us to restart our cooperation is for Ling Ji restaurant to fire he Dong!"

Chapter 63: Bottom line of principles (1)

The dejected he Dong exploded when he heard this. He shouted at Xia ruofei in exasperation," "What? You wish! Who Do You Think You Are? What right do you have to fire me?" He then turned to Ling Xiaotian and said," "Uncle Ling, you must not listen to him! Even though his paradise vegetables is praised so highly, it's just a rumor. We've never seen it in real life. Moreover, he just admitted that there's no authoritative test report or planting base!" Ling Qingxue looked at he Dong in disgust and said sarcastically," "During the company meeting just now, I think you were the one who praised Taoyuan vegetables to the heavens, right? We didn't say anything!" "I ..." He Dong was instantly at a loss for words. He could only hope that Ling Xiaotian would be considerate of their past relationship. He knew that if it was anyone else, Ling Xiaotian would definitely agree to Xia ruofei's conditions without hesitation. However, he Dong was the son of Ling Xiaotian's old comrade. Moreover, he was the son of his former class monitor, who had saved his life. That was a different story. As expected, Ling Xiaotian said to Xia ruofei with a troubled expression," "Xiao Xia, I know that he Dong is in the wrong regarding this matter. I've already severely criticized him in the meeting just now. I can ask him to apologize to you sincerely. Firing him ... Isn't that a little too serious?" Xia ruofei revealed a faint smile and said," "Uncle Ling, an apology doesn't always work. At least this time, I hope to see the sincerity of Ling Ji restaurant." Xia ruofei paused for a moment before he continued," "And ... I don't think firing him is a serious matter. The incident this time has already made it clear that he doesn't care about your company's interests at all. He's acting recklessly for his own selfish reasons and has set up obstacles for this cooperation. I don't think any company will be able to accept such a person. " Ling Xiaotian smiled bitterly and said," "Little Xia, he Dong was just being silly ... Can you be the bigger person and forgive him this once? Or can you change to another condition?" Ling Qingxue saw that her father was pleading with Xia ruofei and could not help but frown." "Dad, ruofei is right. The company has its own rules. Based on what he Dong did, he should have been fired long ago!" He Dong also became anxious when he heard that and called out," "Ling Qingxue, what do you mean by this? When did I break the company's rules? In that situation, he didn't have a test report and didn't have his own vegetable base. I asked a few questions and even hit him. How could I agree to sign this contract?" Ling Qingxue pouted and said," "Don't say those Grand words. You know what you're thinking!" "Qingxue, can you just stop

talking ..." Ling Xiaotian said helplessly. At first, he had wanted to match Ling Qingxue with he Dong, but now he saw that he Dong seemed like a piece of mud that couldn't be supported on a wall. Moreover, Ling Qingxue and he were like fire and water. Ling Xiaotian's little thoughts had long faded. However, he Dong was the only son of the former class monitor, so he definitely wouldn't kick him out of the class. Thus, he muttered to himself for a while before saying, "Xiao Xia, can you just do this for uncle Ling's sake? He Dong, he ..." "Uncle Ling, Qingxue has told me about the relationship between he Dong and your family." Xia ruofei said calmly, "but I'll still say the same thing. We're all adults. We should be prepared to bear the consequences of our actions." Xia ruofei glanced at he Dong and ignored his venomous gaze. He then said to Ling Xiaotian, "Besides, we're already giving uncle Ling face by sitting down and talking today. If I didn't give him face, my partner would not be Xi Jiang Yue club but Ming Hao restaurant! At that time, I had enough reason to do so, and I believe that the Ming Hao restaurant would be very willing to cooperate with me!" Ling Xiaotian's expression changed slightly. He knew very well what it would mean for Ling Ji restaurant if Xia ruofei and Ming Hao restaurant were to work together. Xia ruofei stood up and said, "Uncle Ling, please wait a moment. I have something to show you ..." Xia ruofei then walked up the stairs. Ling Qingxue looked at Xia ruofei's back, her eyes filled with tenderness. After this reunion after so many years, she realized that the image of Xia ruofei in her heart had not faded at all. On the contrary, her girlish feelings seemed to have been elevated again. It was no longer a hazy love. In comparison, in Ling Qingxue's mind, the ugly he Dong was not even worth a piece of *** when compared to Xia ruofei. Xia ruofei quickly returned with a document and handed it to Ling Xiaotian. "Uncle Ling, you can open it and take a look." Ling Xiaotian asked in confusion, "What is this?" Xia ruofei smiled and said, "I signed a cooperation agreement with West River Moon Club, but because my company is still registered, this is only a draft agreement. It will take some time for the official contract to be signed." "This ... I don't think it's appropriate?" Ling Xiaotian said hesitantly. "It's fine." Xia ruofei said with a smile. Then, he opened the document and took out the agreement. He flipped through two pages and passed it to Ling Xiaotian. He pointed at one of the terms and said, "I asked President Zheng of West River moon to add this. Do you still think I didn't give you face?" Ling Xiaotian's eyes narrowed, because he saw an exclusion clause on it, which was that the Taoyuan vegetables, which was the agent of the West River Moon Club, could not have any form of cooperation with the Minghao restaurant and its associated companies. Looking at this clause, Ling Xiaotian couldn't help but be slightly moved. That's right! The other party was definitely full of sincerity. He had already done it to this extent, yet he still dared to say that he was not giving him face? Although Ling Xiaotian knew that this was mostly for Ling Qingxue, Ling Qingxue represented Ling Ji F & B! Ling Xiaotian said with emotion, "Little Xia, I didn't expect you to be so broad – minded! On behalf of Ling Ji F & B, I thank you ..." Ling Qingxue, who was standing at the side, also saw this clause. She knew that Xia ruofei had added this clause for her sake. She could not help but feel sweet in her heart. Xia ruofei smiled but did not say anything. Ling Xiaotian knew what Xia ruofei meant. He sighed and said, "Xiao Xia, let me go back and consider this matter ..." Ling Xiaotian obviously knew that Xia ruofei would not give in, so he did not plead for he Dong. However, he couldn't make up his mind, so he could only put the negotiations on hold. Xia ruofei smiled and nodded. "Sure, as long as you agree to my only condition, all the cooperation can start immediately, and it will be according to the plan that I have discussed with Qingxue before!" He Dong saw that Xia ruofei refused to give in and wanted to kick him out of Ling Ji restaurant. The resentment in his heart grew. He glared at Xia ruofei with red eyes as if he wanted to eat him up. However, Xia ruofei ignored him and took a sip of the tea. Ling Xiaotian sighed to himself and stood up, "Little Xia, we'll go back first then ..." "Alright, I'll send you guys off!" Xia ruofei said with a

warm smile. Ling Qingxue wanted to stay for dinner, but she couldn't bring herself to say it. Since Ling Xiaotian was here, Xia ruofei naturally could not brazenly invite Ling Qingxue for dinner. So, everyone left the house with their own thoughts and came to the villa's courtyard. Before Ling Xiaotian got into the car, Xia ruofei said meaningfully, "Uncle Ling, I personally think ... You can report this matter to your former squad leader. I believe that a veteran who is willing to sacrifice his own life for his comrades must have his own principles and bottom line in his heart!" He Dong's heart trembled when he heard Xia ruofei's words. His face was ashen. He knew his father too well ... Ling Xiaotian also nodded his head thoughtfully and said, "I understand. Thank you, little Xia!" Ling Qingxue turned back to look at Xia ruofei reluctantly before she got into the Mercedes – Benz. Xia ruofei waved at the car and watched them leave.

Chapter 64: Spatial fish pond (1)

The next day, Xia ruofei woke up early and had a simple breakfast. After waiting for the people from the West River Moon Club to transport the Taoyuan brand vegetables, he returned to his bedroom, took out the spirit map scroll, and entered the medium. After two evolutions, the spirit map space had expanded by four times and was much more spacious. Xia ruofei could now use the space to do more things. He first checked the nameless plant. After picking five petals yesterday, there were still no new ones today. It seemed that the growth cycle of the petals had not shortened. However, today was only the second day. It turned out that new ones would grow every three days, so he would have to continue observing tomorrow and the day after. Then, Xia ruofei looked at the succulent mother plant. Due to the acceleration of time, the overall environment had become much better after the evolution of the realm. The succulent mother plants were growing well, especially the ones he had bought online. They had completely recovered and were even larger than before. They could be cut again at any time. The succulent plant that Xia ruofei had chosen to be the mother plant had basically grown to the size of an adult plant. It would not have any problems with cutting. Xia ruofei took out the flower petal solution that he had concocted last time and watered each of the succulent mother plants. Then, he went to the vegetable field. In the innermost circle of the space, which was the space where Xia ruofei had first obtained the spirit map scroll, there was a neat row of vegetable fields. Further out was a large ring – shaped empty space. This was the space that had been expanded after two evolutions. "Looks like I'll have to plant more things. Otherwise, it'll be a waste of land." Xia ruofei muttered to himself. Xia ruofei paid special attention to the cabbage that had been soaked in the petal solution. He realized that their growth was much better than other vegetables. They could be harvested in just two days. From the outside, they looked more lively than the ordinary vegetables in the space and looked very attractive. Xia ruofei decided to just pick the ripe cabbages. However, Xia ruofei did not use the petal solution again. The production of the flower petals was limited and the planting cycle in the interspace was so short. If he used it every time, it would consume a lot of energy. The petal solution was mainly used for large – scale planting in the outside world, so that the quality of the vegetables planted in the outside world would not be lower than that of ordinary vegetables in the space. After finishing the vegetable field, Xia ruofei finally came to the small pond. This was a new item that had appeared after the second evolution. Although it was called a small pond, it was actually twice as big as the spirit pool that Xia ruofei had when he first obtained the spirit map space. However, there seemed to be a spring at the bottom of the spirit pool. Every time Xia ruofei entered the spatial spirit pool, the water would be replenished after a certain period of time. Hence, the water level in the spiritual pool would remain the same. The water in the pond was obviously drawn from the spirit pool, which meant that the water in

the pond did not have any regenerative function. Xia ruofei walked around the two – meter wide pond and made a decision.”Expand the area of the pond. He had been thinking about raising some fish and shrimp in the space the day before, but the pond was a little small. If he were to use it to raise fish, the capacity wouldn’t be large. Besides, Xia ruofei also wanted to test the regeneration speed of the spirit pool water after it was drawn into the pond. He went back to the spirit pond, took a hoe and a shovel, and went to the pond. In this space, Xia ruofei had to rely on himself for everything and he was already used to it. Moreover, he was now absorbing a petal every three days. His physical fitness had been greatly enhanced, and doing some physical work was nothing difficult. Xia ruofei started to get busy. He didn’t expand the pond immediately. Instead, he started to dig from the ground beside the pond. He first used a hoe to dig and then used a shovel to shovel the soil to the side. The soil in the interspace was relatively soft, so it was quite easy for Xia ruofei to sit on it. After a few hours of hard work, Xia ruofei had dug a round pit with a diameter of five meters and a depth of two meters beside the pond. The pit was only a dozen centimeters away from the pond and the ground was slightly lower than the pond. Xia ruofei wiped the sweat from his forehead and walked over to dig a hole in the pond. The water in the pond immediately flowed into the hole. At the same time, the water in the spatial spirit pond at a higher altitude started to flow towards them. After waiting for an hour, the pit that Xia ruofei had dug was filled with the spiritual pond water. However, it was only about half a meter deep. It was connected to the naturally formed pond and looked like a huge peanut lying on the ground. The water level of the spatial spirit pond had dropped by more than a meter. If it wasn’t for the fact that its water level was lower than the exit, the water would have continued to flow into the pond. However, Xia ruofei also saw that the water in the spatial spirit pond was slowly recovering. It seemed like there was a spring at the bottom of the pond. As the water level in the spirit pool recovered, the water level of the spirit pool and the pond would eventually be equal. Xia ruofei was planning to open up a fish pond in the realm. Of course, he didn’t need to do it on a large scale in the early stage. After he excavated the pond, it should be enough. Of course, Xia ruofei did not stay in the origin space and wait for the pond to store water. He immediately left the spirit map space. After returning to his bedroom, Xia ruofei first turned on his computer to check the Taobao platform. He realized that the customers had all received the goods that he had sent out last time. The reviews of the products were all positive, and many people asked when the new products would be available. Xia ruofei opened his order for the flower pot and checked the delivery. He realized that the package had already arrived in Sanshan city and should be received by tomorrow at the latest. Now that the space had evolved twice, the flow of time was twenty times faster than the outside world. With the help of the petal solution, the cutting would be ready for sale in three or four days. So he hung a notice in the shop’s eye – catching position, telling everyone that the new goods would be on the shelf on time at eight o’ clock in the morning five days later, and everyone was Welcome to buy at that time. After withdrawing all the money that the customers had received from Taobao into Alipay, Xia ruofei got up and went downstairs to the villa’s backyard to check on the progress of the cabbage seedlings. After gently removing the plastic sheet covering the nursery, Xia ruofei was pleasantly surprised to find that 90% of the seeds had already sprouted. This speed was several times faster than the data he had obtained from the research. At this rate, the seedlings could be planted in three to five days. This discovery gave Xia ruofei more confidence in the petal solution. He carefully covered the plastic sheet again, then took out his phone to look at the time. He found that it was only nine o’ clock in the morning. Although he had been busy in the space for a few hours, only a short time had passed in the outside world when time was 20 times faster. Xia ruofei thought for a while and decided to drive to Changping County. First, he was going to buy a batch of fish to raise in the space

fish pond. Second, now that the space had expanded so much, he also wanted to go to the market to see if he could plant something with higher economic value. Xia ruofei took his wallet, walked out of the villa, and drove straight to Changping County.

Chapter 65: Red Arowana (1)

After parking his car near the seafood market in the county, Xia ruofei strolled into the bustling market alone. However, he was not in a hurry to buy it. Instead, he strolled around the market first. When he saw buyers and sellers chatting, he would go over and listen to them to understand the situation. After walking around for a while, Xia ruofei had a general understanding of the aquatic products market. Not only did they sell all kinds of ornamental fish and edible fish, but they also sold all kinds of young fish. There was a wide variety of species. Xia ruofei knew that he had come to the right place. He should be able to buy what he needed here. Xia ruofei found a shop that looked quite big and walked in. On both sides of the store were rows of large glass water tanks with all kinds of ornamental fish. A chubby man came up to them and asked enthusiastically, "Boss, are you here to buy fish?" Xia ruofei looked around the shop and said, "You sell ornamental fish? Looks like we're in the wrong place, I'm here to buy some fish ..." Then, Xia ruofei turned around and prepared to walk out of the store. The fat boss quickly stopped him and said, "Boss, don't be in such a hurry to leave! We also sell fish fry here, and they're all very high quality ones that were bred in an environment that imitates the wild! What kind of fish do you need? How much do you want?" Xia ruofei said, "Just grass carp, carp, and chubs, mainly grass carp. I don't need too much if I don't overdo it ..." When Xia ruofei was shopping at the seafood market, he used his mobile phone to do some research. He found out that these three were the most common edible fish and could be mixed. The space fish pond had just been opened, so it was the most suitable to raise these common fish. "Yes, yes, yes! We have these fish in stock!" "How much do you need?" the fat boss asked. Xia ruofei made a rough estimate based on the information he found and said, "There are about 500 grass fry, and 100 of each of the other two types!" Generally speaking, a fish pond could store about 8000 to 12000 fish per mu. The fish pond in the interspace was only twenty to thirty square meters, so five to six hundred fish should be suitable. However, the space was different from the outside world. Perhaps the breeding density could be higher. If that was the case, he could just add some more in. The fat boss smiled and said, "That's not a lot indeed ... According to the rules, we need at least 5000 fish to be considered as wholesale. But since it's fate that we met, I can give you the wholesale price, how about 1.50 yuan per fish? Our fish are all bred in an environment that imitates the wild environment!" This price was similar to the one Xia ruofei had just found out. Hence, he nodded and said, "Alright! Let's take a look at the baby fish first!" "Alright!" The fat boss led Xia ruofei to the inside of the shop and pointed to a row of large fish tanks. "These were just transported from the seedling base today. A few hundred fish isn't much, we can just take them from the store." Xia ruofei took a look. These fish were generally two to three centimeters long. They were arranged neatly and had the same color. The fish looked clean and shiny. He nodded. The fat boss wasn't lying. The quality of the fish fry should be good. Xia ruofei reached out and stirred the fish in the fish tank. The fish swam away quickly after being disturbed, and their reaction was very fast. Xia ruofei had an idea and said, "Boss, the fish fry are pretty good. I have a large plastic bucket in my car. Please wait a moment, I'll drive the car over!" "Alright, alright!" The fat boss responded. Xia ruofei returned to the parking lot and drove the pickup truck back to the fish fry shop. He took out a few large plastic buckets from the truck and brought them into the shop. The fat boss had already found a worker to wait there. Xia ruofei started to fish for the baby fish as soon as he entered. 500 to 600 fish was not a lot, and they were all caught in no time.

Xia ruofei paid the total of 900 Yuan in cash. Recently, the West River Moon Club had been paying him 6000 to 7000 Yuan a day, so Xia ruofei had plenty of cash. The fat boss enthusiastically helped Xia ruofei move the plastic bucket to the pickup truck. Just as Xia ruofei was about to get into the car and leave, the shop assistant rushed out and said to the fat boss, "Boss, that Red Dragon seems to be in a worse condition. I'm afraid it can't survive ..." The fat boss's face couldn't help but tremble a few times. He showed a pained expression and said, "Motherf*cker! I've suffered a huge loss this time ..." Xia ruofei asked curiously, "Boss, what happened?" The fat boss said dejectedly, "Hey! Don't mention it ... I bought a Red Arowana a few days ago. I wanted to raise it for a while and sell it for a good price, but I didn't expect it to get sick in just five or six days. Now ... I don't think it will survive today! I have to hurry over and see if there's any other way ..." Xia ruofei's heart skipped a beat. He was not in a hurry to leave and followed the boss back into the shop. The red Arowana was kept in a separate fish tank and was about 25 centimeters long. It could no longer maintain its balance and floated in the fish tank on its last breath. The red surface of its body was slightly black and had no luster. The shop assistant said anxiously, "Boss, it hasn't eaten for two days. Salt and penicillin have no effect. What should we do?" The fat boss was in a bad mood and said, "How would I know what to do? I'm not a God, how can I possibly save it?" Then, the fat boss waved his hand and said, "Forget it, just admit that you're unlucky! Let's just treat it as that 8000 Yuan went down the drain!" Xia ruofei looked at the dying Red Arowana and suddenly said, "Boss, how about ... You sell this Red Arowana to me?" The fat boss was stunned for a moment and said, "This fish is dying, it's useless even if you buy it ... I'm doing legitimate business, I can't do things that cheat people!" Xia ruofei smiled and said, "He's not dead yet, is he? I can't have it even if I die. To tell you the truth, boss, I heard that Red Arowana tastes good either steamed or fried. I've wanted to get one for a long time to try, but the price is too expensive. Now that your fish is dying, why don't you sell it to me at a lower price? you can reduce your loss ..." The fat boss was speechless. Red Arowana was a high – end ornamental fish with auspicious meanings, especially favored by businessmen. In Hong Kong and Macau, a good Red Arowana could be sold for millions or even millions, and this man wanted to buy it and kill it to eat? However, the fat boss couldn't care less. At least Xia ruofei was right. If he didn't sell it, the red Arowana might die today. It would be worthless then. If he sold it to Xia ruofei, he could at least make up for the loss. As for what Xia ruofei bought it for, it had nothing to do with him. After careful consideration, the fat boss nodded and said, "Little brother, I can sell it to you, but you've seen the situation of this fish. You can't go back on your word after buying it!" Xia ruofei smiled and said, "Of course! Boss, give me a price! Don't set it too high, I can't afford it if it's too high." The fat boss pondered for a moment and tentatively said, "How about two thousand? Little brother, I bought this fish for 8000 Yuan." Xia ruofei thought for a moment and was too lazy to bargain. The main thing was that the red Arowana was about to die, and bargaining would waste time. He nodded and said, "Deal!" Xia ruofei took out two thousand Yuan and handed it to the fat boss. The fat boss also let out a long sigh of relief. Although he lost 6000 Yuan, he finally sent this God of plague away, and it wasn't like he lost everything. He made up his mind to never enter the Arowana again. He was scared of her just once. The fat boss gave Xia ruofei a small plastic water tank and carefully transferred the red Arowana into the tank. Xia ruofei walked out of the store with the water tank and placed it on the mat of the front passenger seat of the pickup truck. Then, he said goodbye to the fat boss, got into the car, and left in a hurry. The fish could not hold on for much longer. Xia ruofei drove very fast. After leaving the county, he found a place where there was no one and parked the car. Then, he used his mind to enter the spirit map space and took out a mineral water bottle. The bag contained the flower petal solution that he had prepared. He had originally planned to send it to Hu Zi's mother, but he had been

busy for the past two days and had not had the time to go over. Now, it came in handy. Xia ruofei unscrewed the bottle cap and poured two spoons of the petal solution into the plastic water tank. Then, he stared at the red Arowana in the water tank, feeling a little nervous ...

Chapter 66: Resurrection (1)

The reason why Xia ruofei was so nervous was because Red Arowana was extremely valuable. It was one of the best ornamental fish. If he could save this fish, he would definitely make a lot of money. Of course, Xia ruofei knew the value of the red Arowana thanks to a comrade from the recruit company. That comrade from Jiangsu and Zhejiang Province was a true – Blue rich second generation. His father raised a Red Arowana and it was said that he spent more than a million to buy it. This fellow bragged to his comrades all day long and told them a lot about the red Arowana, so Xia ruofei had a deep impression of it. However, Xia ruofei was recruited into the lone wolf assault team not long after he was dismissed. He did not have much contact with this comrade of his. He heard that he retired from the Army and went home to help his father do business after two years of service. I wonder how this interesting guy is doing now? When Xia ruofei saw the red Arowana, he could not help but think of his comrade. However, this thought only flashed through his mind as most of his attention was focused on the dying Red Arowana. Under Xia ruofei's nervous gaze, the red Arowana, which had been motionless for a long time, opened its mouth slightly and then swayed its tail gently. There's hope! Xia ruofei revealed a look of joy. Sure enough, after a while, the red Arowana seemed to have recovered a lot. Its tail swayed even more, and then it twisted its body, regaining its balance and no longer showing the state of "turning white." Xia ruofei was overjoyed. The petal solution was indeed effective! However, Xia ruofei felt that the red Arowana was still recovering a little slowly, so he unscrewed the cap and dripped another drop of the petal solution into it. The red Arowana was like a cat that smelled the fishy smell. It swam to the spot where the petal solution was dripped in and lifted its head out of the water with its mouth wide open. Xia ruofei couldn't help but laugh. This little guy was quite smart. He didn't hesitate any longer and dripped a few drops of the petal solution down. The difference was that this time, he directly dropped the petal solution into the red Arowana's mouth. The red Arowana swallowed the petal solution in big mouthfuls, and its spirit recovered quickly. The scales on its body gradually became lustrous. Xia ruofei stopped after dripping more than ten drops of petal solution. He tightened the bottle cap and could tell that the red Arowana had fully recovered. The red Arowana couldn't wait for the petal solution, so it swam around in the plastic water tank unhappily. Its tail was so powerful that it even splashed water. If the fat boss saw this, he would be shocked. Was this still the red Arowana that was so sick that it could die at any time? Xia ruofei was not in a hurry to go home. Instead, he moved the plastic water tank with the red Arowana into the spirit map space. Then, he opened the door and got out of the car. He climbed into the back of the car and saw that there was no one around. He also put the plastic bucket with the 600 fish fry into the spirit map space. Then, Xia ruofei got into the driver's seat, picked up his phone, and did some simple research. He had always had an idea to simulate a natural ecosystem in the space fish pond. He didn't need to use any artificial feed when breeding fish, including this Red Arowana. He was going to use this method to breed it. Xia ruofei searched for relevant information. The idea was indeed feasible. However, most people did it in places like reservoirs and small lakes. Very few people did it in small fish ponds. Xia ruofei was still very confident. After all, he had the spirit map space and the petal solution. After looking for information, Xia ruofei knew that he had to build a complete ecosystem in the space fish pond. There had to be seaweed, plankton, small fish and shrimp, and so on, so that they could form a complete ecosystem. What should he do? Xia ruofei furrowed his brows as he

pondered. Suddenly, he remembered that there was an abandoned pond on the way to the holiday villa, and an idea came to him. However, before he used his idea, Xia ruofei had to verify something. So he put down his phone and started the car, driving towards the holiday villa. After he got home, Xia ruofei jogged upstairs and locked the door and windows. Then, he entered the spirit map space. He didn't check the plastic water tank with the red Arowana and the buckets of fish. Instead, he picked up his Hoe and Shovel and went to the big fish pond he had dug up. The water level in the spirit pond had already recovered, and the pond's water level had risen to around 1.5 meters, which was the same as the water level in the spirit pond, so the spring water didn't come out anymore. Xia ruofei estimated the distance with his eyes, then picked up the hoe and started to work. Two hours later, a straight ditch appeared beside the pond. The ditch extended all the way to the invisible membrane at the end of the space. Xia ruofei dug a hole in the pond with his hoe. The water in the fish pond started to flow out through the hole and into the ditch. Xia ruofei picked up a fish from the plastic bucket and threw it into the ditch. The fish immediately followed the flow of water. Xia ruofei followed the water flow and soon reached the end of the small space. Xia ruofei stared at the ditch nervously. The water passed through the space membrane without any resistance and flowed into unknown space outside. As for the young fish, it was as if it was blocked by an invisible wall, struggling against the light green membrane! "Yay!" Xia ruofei called out happily. His guess had confirmed that the Suan NI's pool of water was a product of the space itself. The light green membrane did not obstruct it at all, and since the fry and him were both outsiders, they were blocked by the space membrane. Xia ruofei guessed that the area outside the membrane was still within the spirit map's space, but he would have to wait for the space to evolve again before he could see it. Therefore, the pool water should still be in the spirit map space, and it might even have seeped into the ground and gathered at the spring eye. In this way, Xia ruofei could change the water in the pond at any time. Although the water in the spatial pond had a strong purifying ability and was extremely clear without a trace of impurities, Xia ruofei was worried that the fish would not be able to survive and grow for a long time if the water was still. But now that the water could flow away, Xia ruofei could change the water regularly. He scooped up the fry, then jogged back and threw the fry into the bucket. Then, he used a shovel to shovel the soil to block the gap in the fish pond. Then, Xia ruofei started to get busy again. He moved the soil that he had just dug out between the pond and the fish pond. He increased the height of the 'mini' stream and finally made a small dam at the junction of the stream and the fish pond. Xia ruofei blocked the dam and the water level of the "mini" stream started to rise. The spiritual pond and the fish pond were completely separated. Xia ruofei had gone through so much trouble just to ensure that the spirit pool water was clean. Still, although the purifying ability of the spiritual pond water was very strong, Xia ruofei did not want the water that he usually drank to be mixed with the small fish, shrimp, and plankton that would go upstream in the fish pond in the future. With this simple dam, the spirit pond and the fish pond were isolated from each other and would only be connected when the water was changed. When the water was changed, the water flowed outward, and under the impulse, it was basically impossible for the creatures in the fish pond to enter the spirit pool. After finishing all this, Xia ruofei could finally implement his plan to create a space fish pond. He left the spirit map space, hid the spirit map scroll, and quickly went downstairs. He drove the pickup truck straight to the abandoned pond.

Chapter 67: Ecosystem (1)

Soon, Xia ruofei drove to an abandoned pond about a kilometer away from the villa. Out of his habit as a Special Forces member, Xia ruofei observed the pond the moment he got out of the car. He realized that

the pond was indeed abandoned. There were weeds growing around the pond, and there was a simple shed not far away with a big hole in its roof. It was on the verge of collapse. It was obvious that no one had lived there for a long time. Then, Xia ruofei looked around to make sure that there was no one around. He then slowly walked to the pond and squatted down. Xia ruofei put his hand into the pond and tried to contact the spirit map space with his mind. Then, he tried to give instructions. In an instant, Xia ruofei felt the water in the pond, the mud at the bottom of the pond, and a large piece of seaweed disappear into thin air. The next moment, they appeared in the spirit map space and fell into the spatial fish pond according to his instructions. Of course, due to the size of the pond, losing one piece would not cause the water level to drop significantly. Xia ruofei was overjoyed. This method was indeed effective! It was so much more convenient after the space had evolved! Xia ruofei had a plan in mind. He immediately did the same thing and continuously took the water, mud, and algae from the abandoned pond into the spatial pond. It contained a large amount of plankton, small fish, shrimp, aquatic plants, and so on. It would definitely form a complete ecosystem in the space spirit pool. After a few dozen times, Xia ruofei could feel that the bottom of the fish pond was covered with a thick layer of mud. He knew that it was about time. So he stood up and quickly returned to the car, driving back to the holiday villa. As soon as he got home, Xia ruofei rushed to his bedroom, took out the spirit map, and entered the medium. Xia ruofei immediately appeared beside the spatial fish pond. Now that his connection with the spirit map space was getting closer, he could control himself to appear at a certain location in the space. The space fish pond was now very different from how clear it had been before. After the mud and algae were absorbed, the fish pond became very muddy. However, Xia ruofei knew that this was only temporary. The purifying ability of the spiritual pool was so strong that it should be clear again soon. The small fish and shrimp in the abandoned pond seemed to have realized that the environment had changed. They were very excited about the spiritual pond and swam around in the space fish pond. Xia ruofei's consciousness had a connection with the spirit map space, so he could even feel the little loaches in the mud wriggling around and a small turtle hiding in a cluster of algae. The pond in the interspace was full of life. Xia ruofei was relieved. He believed that a stable ecosystem would be formed soon. Then, his fish would be living in a wild environment. Moreover, it was several levels higher than the wild environment. After all, this was the interior of the spirit map space, and the quality of air and water was many times higher than the outside world. However, Xia ruofei felt that the number of fish and prawns in the pond was still too small. After all, the pond was abandoned and Xia ruofei had only randomly taken the mud from the pond and brought them into the medium. However, this problem was easy to solve. He could go to the market again, buy some small fish and river shrimp, and throw them into the space fish pond. The biggest purpose of this trip was the plankton in the mud and water, as well as the algae in the pond. Xia ruofei walked around in satisfaction and came to the plastic bucket that contained the fish. He took the mineral water bottle that contained the petal solution and poured a little into each plastic bucket. The fry in the plastic bucket immediately started to writhe. It was obvious that the petal solution was very attractive to them. After Xia ruofei poured the solution in, he did not care about the fish fry anymore. He let them absorb the petal solution in the plastic bucket. He went straight to the plastic water tank. The red Arowana had fully recovered and was swimming happily in the plastic water tank. The scales of the red Arowana were very large, and each one was very neat and bright. The gills had begun to show spreading hair color. The range was not very large, but the orange – Red color was very rich and pure. Xia ruofei was very happy. The red Arowana was still in its infancy and would go through several stages of hair color in the future. In the end, the whole fish would be red. The darker and darker the red, the more valuable it would be. This Red Arowana should have the

hair color of a first stage Arowana. The color was already so rich, which meant that it was of a good species. With the various nutrients in the space and the time flow that was 20 times faster, Xia ruofei would be able to harvest a valuable Red Arowana very soon. He thought about it and decided not to keep the red Arowana in the water tank. The conditions in the space were unique, and it would be more beneficial for the red Arowana to grow in a simulated wild environment. However, he couldn't keep it in a big fish pond either. Red Arowana were fed with small fish and shrimp. If it was left in a big fish pond, the baby fish wouldn't survive. Xia ruofei thought for a while and decided to dig a small pond next to the big fish pond to raise the red Arowana. Xia ruofei picked up the Hoe and Shovel and started to work. More than an hour later, Xia ruofei, who was sweating profusely, looked at the two – meter wide pit he had dug with satisfaction. Other than the pit, Xia ruofei had dug two more water diversion tanks. One was used to draw water from the big fish pond, and the other was used to drain water. Xia ruofei dug out some mud and algae from the big fish pond, then filled the small fish pond with water. After resting for a while, Xia ruofei released the fish for more than an hour. They should have absorbed all the petal solution by now. He carried the plastic bucket to the big fish pond and used a water ladle to scoop out the fish and carefully poured them into the fish pond. It was not until all 600 fish had been placed in the big fish pond that Xia ruofei let out a long sigh of relief. The matter of the space fish pond was finally settled! Then, Xia ruofei carefully placed the red Arowana into the small fish pond and poured some petal solution into both fish ponds. He then left the spirit map space with a peace of mind. Back in his bedroom, Xia ruofei kept the painting close to his body and looked at the time – it was still early for lunch – the twenty times time flow in the spirit map space was so practical! Hence, Xia ruofei decided to drive to the seafood market in Changping County. There were many stalls selling small fish and prawns at the entrance. As many people would buy them to feed their fish and cats, Xia ruofei bought two plastic buckets of fish and prawns and placed them in the driver's seat. On the way back to the villa, Xia ruofei put the two buckets of small fish and shrimp into the spirit map space and placed them in the two fish ponds. In this way, the ecosystem of the two fish ponds was basically completed. Soon, it would be self – sufficient and he would not have to worry too much. At most, he would pour some petal solution into the young fishes and red Arowana to absorb from time to time. It was already noon by the time they arrived at the villa. Xia ruofei's phone rang just as he was about to make lunch. He took it out and looked at the caller ID. It was Ling Qingxue. Xia ruofei smiled and answered the call ...

Chapter 68: Cutting again (1)

“RUO Fei! My dad has fired he Dong!” The moment the call connected, Ling Qingxue said excitedly, “I won't have to see that annoying face again! Hehe ...” Xia ruofei laughed and said, “Oh, really? Uncle Ling made a decision so quickly? I thought he would hesitate for a few days!” After the brief interaction yesterday, Xia ruofei could tell that Ling Xiaotian was a very loyal person. He Dong was the son of the old class monitor who had saved his life. It would be very difficult for Ling Xiaotian to expel he Dong. Ling Qingxue said, “How can I not hesitate? My dad probably didn't sleep last night. His eyes were bloodshot when he woke up in the morning. “He was also restless this morning. He went into the study room to give uncle he a call, and when he came out, he made the decision to fire he Dong ...” “So it's like this! It seems that the old squad leader didn't lose his soldier's character!” Xia ruofei nodded and said. Ling Qingxue hesitated for a moment before saying, “But ... Ruofei, my dad is calling some of his close friends! He probably wants to arrange a job for he Dong ... You ... Won't be angry, right?” Xia ruofei laughed and said, “Why should I be angry? I only asked Ling's F & B to fire he Dong. As for uncle Ling finding a job for he Dong, that's his own decision. Why should I be angry? To be honest, if he didn't do

this, he wouldn't be called Ling Xiaotian!" Ling Qingxue stuck out her tongue and asked, "You're making it sound like you know my dad very well ..." Xia ruofei laughed. "There are some people who don't need to be in contact too much. Sometimes, you can tell what kind of person they are with just a few words." "Yo! He even appreciated my dad's talent!" Ling Qingxue chuckled. "That's right!" Xia ruofei said casually, then continued, "Speaking of which, the main reason I asked to fire he Dong was because you were so annoyed by his pestering. So, I might as well use this opportunity to drive this fly away! As for which company he goes to work at, what does it have to do with me?" To be honest, Xia ruofei didn't care about he Dong at all. To Xia ruofei, he Dong was no different from a fly. When Ling Qingxue heard this, she immediately said happily, "So you care about me that much!" "Uh ..." Xia ruofei patted his forehead and quickly changed the topic. "Well ... Qingxue, let's talk about the cooperation!" Ling Qingxue pouted and snorted. She was unhappy with Xia ruofei's behavior of retreating after a single touch. However, she still said unwillingly, "Your request has been met. My dad said that he will personally go over to you in the afternoon to sign the contract. Are you satisfied?" Xia ruofei chuckled. "Tell him not to come yet! My own company will be registered soon, and I'll sign it directly under the company's name. Otherwise, I'll have to change the contract again. Isn't it better to get everything done in one go?" "But our company is in urgent need of your Taoyuan vegetables!" Ling Qingxue pouted and said, "I can't even wait a day!" Xia ruofei laughed. "We won't delay the supply of vegetables. Tell uncle Ling that you can send someone to bring the vegetables tomorrow! We'll follow the quantity and price we agreed on last time!" "This is more like it!" Ling Qingxue chuckled. "Then I'll bring a car over to transport the vegetables tomorrow morning!" "Ah? You're coming too?" Xia ruofei asked subconsciously. "Hmph! Why? I don't welcome you?" Ling Qingxue snorted and asked. "That's not it ..." Xia ruofei said hurriedly. "But you're a big manager and you're so busy. You don't have to do such a small thing like pulling the vegetables, do you?" "I'm coming!" Ling Qingxue said, "you still owe me a meal! Prepare well tomorrow! I'll have lunch at your place!" Xia ruofei groaned in his heart. It seemed that this girl was prepared to stay here the whole morning tomorrow! He had so many things to do every day, where would he find the time to accompany her? However, since Ling Qingxue had asked for it and he did owe her a meal, Xia ruofei could not reject her and could only agree with a bitter smile. After hanging up the phone, Xia ruofei called President Zheng of the West River Moon Club and informed him about the cooperation between him and Ling Ji. This was what the two of them had agreed on back then. Moreover, the target customers of Ling Ji restaurant and the West River Moon Club were completely different. Moreover, the supply volume was not high, so there was no need to worry about the loss of high – end customers. People with money and status ate in a different way. Even if the ingredients were also Taoyuan vegetables, the club members generally wouldn't lower their status and spend in such a public restaurant. Therefore, President Zheng was not unhappy. Instead, he teased Xia ruofei over the phone and said that he would arrange a one – stop service for Xia ruofei the next time he went to Xi jiangyue. President Zheng was in a good mood after hearing the popularity that Taoyuan vegetables had brought to the West River Moon Club. Xia ruofei made lunch for himself. When he was done with the dishes and was about to go to the backyard to look at the cabbage seedlings, he received a call from the courier. It turned out that the small flower pots, succulent plants, and other things he had ordered had arrived. Xia ruofei was a little surprised. He had thought that he would only receive it tomorrow. Since he had received it today, it would be for the best. After all, Ling Qingxue was coming tomorrow morning, and she probably wouldn't be able to do much. Hence, Xia ruofei drove non – stop to the express delivery point in Changping County to pick up the goods. The huge box almost filled the entire car. After driving back to the villa, Xia ruofei made sure that there was no one around

and put the big box into the spirit map space. Then, he quickly went upstairs to lock the door and windows, took out the spirit map scroll, and entered the space with a thought. In the boundless space, Xia ruofei opened the box and took out a few hundred plastic flower pots and a few large fiber bags filled with succulent plants. Different species of succulent plants had different requirements for their materials. Xia ruofei bought a large bag of each type of succulent plant that he currently had. Then, Xia ruofei began the second cutting process on the succulents. With the experience from the first time, Xia ruofei was even more familiar with the route this time. It was still the buck & Strider 888& military dagger. The only difference was that Xia ruofei was terminally ill the last time. Now, not only had he recovered, but he was also much stronger than when he was at his peak. Naturally, his work efficiency had also increased. More than five hours later, more than a dozen pots of succulent mother plants were scarred and looked miserable, while more than 180 pots of small succulents were next to them. Xia ruofei took out the flower petal solution that he had concocted and sprinkled some on each wound on the mother plant. Then, he diluted the flower petal solution again and mixed it with the spirit pond water in the watering can. He watered every pot of succulents. Xia ruofei dusted his hands in satisfaction. He picked up the bottle of spiritual pond water and gulped down a few mouthfuls of water. Suddenly, he felt refreshed and all his fatigue disappeared. Next, he just had to wait a few days and these little succulents would be put on the shelves for sale. That would be another income of more than 100000 Yuan!

Chapter 69: Accompany me to see the sea (1)

The next day, Xia ruofei woke up very early and entered the spirit map space. He prepared all the vegetables that were to be provided for the Xi Jiang Moon Club and Ling Ji restaurant. He also made a mark on the vegetable basket and sprinkled some spirit pond water on each basket to maintain its freshness. He then went to the garage on the first floor and took out all the vegetable baskets. After doing all this, Xia ruofei went to the kitchen to heat up a glass of milk and a few pieces of bread for breakfast. Not long after breakfast, Xia ruofei heard the sound of an engine from outside. He walked out of the villa and saw that the small truck from the West River Moon Club had arrived first. The purchaser was already familiar with the place. He greeted Xia ruofei and the two of them led the two workers into the garage. The vegetables for Xi jiangyue and Ling Ji were distributed separately. Xia ruofei asked the workers to carry all the vegetables out of the clubhouse, weighed the weights, and paid. Soon, the small truck from Xi jiangyue clubhouse carried Taoyuan vegetables out of the villa. Xia ruofei had an extra six to seven thousand Yuan in cash. The club and Ling's restaurant would bring in more than 10000 Yuan of income every day, which was about 300000 Yuan a month. Including the succulent plants, Xia ruofei could deliver a batch of goods every half a month, which was about 400000 Yuan a month. In total, Xia ruofei's monthly income was at least 700000. This money – making speed was terrifying, but it seemed that he spent money even faster. Xia ruofei estimated that even if he spent a month's income on Jade, it might not be enough for the spirit map space to level up again. After all, the last evolution had consumed nearly 500000 Yuan of Jade. Xia ruofei strolled around the courtyard for a while before the second batch of guests arrived. A white truck and an orange Porsche 911 drove into the courtyard one after another. "RUO Fei!" Ling Qingxue called out happily after she got out of the car. She quickly walked towards Xia ruofei. Xia ruofei's eyes suddenly lit up. Ling Qingxue was wearing a short leather jacket with a plaid shirt, tight – fitting jeans, and beige wool boots. Her figure was curvaceous, and her long legs, which made countless men's imagination run wild, were tight. She was full of youthful energy. This was very different from how she usually dressed, which made Xia ruofei lose his focus. Ling Qingxue's

heart was filled with sweetness, and at the same time, her face flushed red.” “What are you looking at? Are there flowers on my face?” Xia ruofei quickly looked away, embarrassed. He laughed awkwardly and did not know how to answer. Ling Qingxue chuckled and glanced at Xia ruofei flirtatiously. She said softly, “Dumbo ...” At this moment, a woman in a black business suit got down from the small truck. She walked over with the driver and a worker. When she saw that Xia ruofei was very humble, she bowed slightly and greeted, “Good day, Mr. Xia!” “Ruofei, this is manager Xu from our procurement department!” Ling Qingxue introduced, “she used to be the deputy manager of the procurement department.” It was obvious that this was he Dong’s successor. For the procurement Manager to personally visit him for the first time to pick up vegetables, to a certain extent, it also reflected the importance that Ling Xiaotian attached to Xia ruofei. Xia ruofei smiled gently and said, “Hello, manager Xu! The vegetables are all prepared, they’re in the garage, you can get the workers to move them!” “Okay, okay. Thank you, Mr. Xia!” Manager Xu said quickly. It was obvious that Ling Xiaotian had given him instructions before he came, so manager Xu knew that Xia ruofei’s paradise vegetables was of great importance to the company. Hence, his attitude was also very respectful, forming a sharp contrast with he Dong’s domineering attitude the other day. Soon, manager Xu brought the driver and workers to move the six baskets of vegetables to the villa’s courtyard. Manager Xu’s expression was full of excitement as she said to Ling Qingxue, “Qingxue, this paradise vegetables really lives up to its reputation! I’ve been in the procurement business for so many years, but this is the first time I’ve seen such high – Quality and good – looking vegetables! I believe that these famous paradise vegetables will definitely restore our flagship store’s business to its original state, or even better than before!” Ling Qingxue smiled and said, “Big sister Xu, I’ve already told my dad that ruofei’s vegetables are the best medicine for our company to get out of trouble! But that stubborn old man didn’t believe me, or else why would he go through so much trouble?” Ling Qingxue should have a good relationship with manager Xu, so she didn’t hold back when she spoke. However, as a subordinate, manager Xu also felt a little embarrassed when she heard Ling Qingxue say that about the chairman. She pursed her lips and smiled, not daring to respond. Soon, the vegetables were weighed by the pounds. Then, the price was calculated according to the price of 50 yuan for spinach and eggplant and 30 yuan for the other four vegetables. The total was more than 4500 Yuan. This price was almost half of the price given to the moon Club in Xijiang. Furthermore, they provided two more kinds of vegetables. Xia ruofei was definitely very generous. Manager Xu had also brought cash over and paid the money on the spot. Then, she instructed the workers to load the vegetables into the truck and politely bid Xia ruofei farewell. She left the holiday villa with the small truck. After manager Xu and the others left, only Xia ruofei and Ling Qingxue were left in the villa. Ling Qingxue smiled at Xia ruofei and said, “Alright! Now that we’re done with work, there’s only the two of us left. What do you plan to do with me?” Ling Qingxue even blinked at Xia ruofei cutely. Looking at Ling Qingxue, who had obviously dressed up, Xia ruofei couldn’t help but feel a little tempted. A long – legged beauty like MA Yinlong was standing in front of him, looking at him with her beautiful eyes full of love. She didn’t hide her love for him at all. As long as it was a normal man, he wouldn’t be able to help but feel moved. However, Xia ruofei asked himself honestly. Even though he had a good impression of Ling Qingxue, it was far from the level of liking her. Moreover, Ling Qingxue had been hiding her feelings since middle school. At that time, Xia ruofei had no impression of Ling Qingxue at all. If he were to go with the flow now, Xia ruofei would feel that he was lying to his feelings. Thus, he touched his nose awkwardly and said, “Why don’t you ... Walk around or go into the house to watch TV while I ... Prepare lunch?” Ling Qingxue chuckled and said, “It’s only eight o’ clock now. Why are you preparing lunch so early in the morning? Do you want to stay in the kitchen for the

whole morning?" Xia ruofei laughed in embarrassment. Without waiting for Xia ruofei to reply, Ling Qingxue continued, "I want to see the sea! You'll come with me!" "Ah? "Uh ... Okay ..." Xia ruofei said. "Drive your car!" Ling Qingxue said happily. Then, she graciously hooked her arm around Xia ruofei's and stuck her body close to him. Even though he was wearing a lot of clothes in the winter, Xia ruofei could still clearly feel the softness and elasticity of his arms. His body could not help but stiffen for a moment before he walked unnaturally towards the pickup truck ...

Chapter 70: Pouring out his heart (1)

Xia ruofei's rented villa was about three kilometers away from the beach. It would only take a few minutes to drive there. The two of them did not speak after they got into the car, and the atmosphere was a little awkward. Xia ruofei said, "Uh ... Let's listen to some songs!" "Alright!" Ling Qingxue said with a faint smile. Xia ruofei turned on the radio and a song started to play. You love it when I take you to see the sea Don't worry, relying on is love. Your happiness is the boat, I am the sea I will send you to the future The radio was playing Lu Yi's "take you to see the sea." Xia ruofei couldn't help but be dumbfounded. Wasn't this too appropriate? The two of them drove to watch the sea. Coincidentally, this song was playing on the radio, and the lyrics were so explicit. Ling Qingxue's face also turned red. Then, she couldn't help but burst out laughing. She turned to look at Xia ruofei with a red face. Xia ruofei said awkwardly, "I ... I'll change the channel!" "I don't want to! This song is quite good! "I like it ..." Ling Qingxue said with a smile. "Alright then ..." Xia ruofei smiled bitterly. Under Lu Yi's singing, neither of them spoke. Ling Qingxue's face had a hint of shyness and seemed to have a hint of sweetness. Xia ruofei, on the other hand, sat upright and still, focusing on driving. The atmosphere in the car was really ambiguous. Fortunately, the journey was not far. A few minutes later, the pickup truck stopped by the side of the road. The beach was just in front of them, so they could only walk there. The two of them got out of the car, and Ling Qingxue ran towards the beach like a child, her leather boots kicking up clouds of sand. Xia ruofei couldn't help but smile when he saw this scene and quickly chased after him. Very quickly, the two of them arrived at the beach. Ling Qingxue was extremely excited. If it wasn't winter, she might have already rushed into the water. The ocean breeze blew against Ling Qingxue's face, causing her hair to flutter. Under the warm winter sun, her delicate face looked even more beautiful. The two of them walked along the coastline, and the sound of waves rang in their ears. In front of them was the boundless blue sea, which made them feel relaxed and happy. The two of them chatted as they walked. They talked about their past in junior high school. They were in the same grade but were in different classes, so they naturally had a lot of interactions and some common friends. For example, when Xia ruofei mentioned the literary performance in the first three periods, Ling Qingxue was very excited and said that she had a solo dance. She even asked Xia ruofei if he remembered the girl who had danced "Swan Lake". Although Xia ruofei's impression of him was vague, he was not stupid enough to tell the truth. Naturally, he nodded repeatedly. Ling Qingxue, on the other hand, was very familiar with some of Xia ruofei's basketball games in middle school, as if the scenes of that time were still vivid in her mind. They talked as they walked, and the distance between the two seemed to have closed a lot. After walking for about half an hour, Xia ruofei saw that Ling Qingxue was a little tired, so he said, "Qingxue, there's a rock over there. Let's go and sit down! I'm taking a break." Ling Qingxue replied, "Alright!" The rock was a little steep. Xia ruofei took the lead and jumped up easily after a few steps. His strong figure made Ling Qingxue's eyes a little blurred. Xia ruofei turned around and extended her hand towards Ling Qingxue. She smiled and said, "What are you thinking? Quickly come up!" Ling Qingxue came back to her senses and smiled sweetly as she reached out to grab Xia ruofei's big hand. Xia ruofei

felt that Ling Qingxue's hands were very soft and smooth. He could not help but feel a little excited. After calming himself down, he gently pulled and pulled Ling Qingxue up. Then, Xia ruofei held Ling Qingxue's hand and climbed up with her. The two of them sat down at the highest point of the reef. Xia ruofei and Ling Qingxue faced the vast sea. Below them was a cliff that was more than ten meters high. The cliff was grotesque and craggy. The waves hit the rocks, making loud sounds and splashing water. Even on the rocks that were more than ten meters high, one could feel the dense water vapor. In such an environment, one's mood would suddenly become cheerful. The two of them sat there for a long time without speaking. After a long time, Ling Qingxue said softly, "Ruofei, we talked about so much about the school just now. Now, tell me about your Army! I want to hear ..." "The Army ..." Xia ruofei's eyes were filled with reminiscence. After a long while, he said softly, "then let me tell you the story of a comrade! His name is Lin Hu, and he was born in a small fishing village not far from here. He and I were soldiers of the same year, and we were brought to the Army on the same train ..." Many things about the lone wolf commando team were confidential, but the fight with international drug dealers in China was not so sensitive. Central TV even sent reporters to interview the team and broadcast a documentary, but it was only after the military security Department removed the secret. That was why Xia ruofei was describing the battle that had left a deep impression on him. The warm winter sun was a little dazzling. Xia ruofei looked at the sea in front of him and told the tragic story in a very low voice. In a trance, he felt as if he had returned to the wet jungle where poisonous snakes and insects were everywhere ... The crisp sound of gunfire broke the silence of the jungle. The lone wolf Special Forces and the international drug trafficking gang were engaged in close combat, and bullets flew past them ... "Blood Wolf! Be careful of the sniper!" Xia ruofei had just heard his comrade – in – arms, Hu Zi's roar when he was pushed away by a strong force. He rolled a few times involuntarily and hid behind a rock. Xia ruofei snapped back to reality and turned around. He saw that Hu Zi, who had pushed him away earlier, was lying on the ground. The large caliber sniper bullet had pierced through his thigh and blood was gushing out like a fountain. "Hu Zi!" Xia ruofei shouted in grief and anger, and was about to rush forward to bandage Hu Zi. "Don't come over! The enemy's sniper is watching us!" Hu Zi shouted. At the same time, a pair of big hands held Xia ruofei tightly in place. It was the commander Guo Zhan who was commanding the battle at the side. "Wolf King!" Xia ruofei's eyes were bloodshot as he shouted, "the Wolf's artery is injured. It'll die if it's not treated in time!" As a Special Forces elite, Xia ruofei naturally knew that this was the most commonly used method of snipers, "surround the point and hit the reinforcements." They kept the wounded alive and waited for their comrades to rush up and treat them. Then, they would use the sniper rifle to "take down" them one by one. However, the person lying on the ground was his best brother and comrade. Xia ruofei had lost his usual calmness. Without waiting for Guo Zhan to speak, Hu Zi, who had already lost a little too much blood, said weakly, "Bloody Wolf ... Ruofei ... Don't come over ... Don't come over ... You coming over ... Is meaningless ... Except to die ... Listen to me ... Don't come over!" Xia ruofei clutched the grass on the ground tightly, his eyes bloodshot. Hu Zi was bleeding non – stop, and the sound was getting weaker and weaker. Finally, the enemy sniper lost his patience and another sniper bullet hit Hu Zi's chest. He groaned and blood flowed from the corner of his mouth. "RUO ... Ruofei ... Help me ... Take care of my mother ... And my ... Sister ..." Hu Zi used the last of his strength and turned to look at Xia ruofei as he spoke with difficulty. A man's tears would not fall easily, but they had not reached a sad point. At this moment, Xia ruofei's tears were rolling down his cheeks. He said in a hoarse voice, "Hu Zi! In the future ... Your mother is my mother!" When Hu Zi heard this, a gratified smile appeared at the corners of his lips, and he slowly closed his eyes. "Hu Zi ..." Xia ruofei wailed. The sea breeze blew and Xia ruofei felt a chill on his face. As he

spoke, two lines of tears had unknowingly flowed down his face. Ling Qingxue was already leaning on him, her soft hands holding his big hands tightly, as if she wanted to give him strength ...
