

God tier Farm 661

Chapter 661: Spirit map world's tea house (1)

Xia ruofei smiled and said, "what is it?" Can't you just make the decision for the general matters?"

Feng Rao glared at Xia ruofei and said, ""Are you addicted to being a hands – off shopkeeper?"

Xia ruofei smiled awkwardly and said, ""Isn't that because I have full trust in your ability? How many bosses do you think are like me in this world, letting my subordinates do whatever they want?"

"So I should be grateful, right?" Feng Jing asked with a half – Smile, "do I have to set up your memorial tablet at home and pray to you every morning and night?"

Xia ruofei suddenly felt a chill in his heart. He laughed and said, ""It's too much, too much ... There's no need for this! Our company doesn't advocate personal worship ..."

"You're still talking ..." Feng Jing pouted and glared at Xia ruofei. She stomped her foot and said.

Xia ruofei wanted to slap himself. Wasn't he rubbing it in? Just now, in the pomfrets breeding workshop, everyone seemed to understand what he had said, making him and Feng Jing very embarrassed.

Xia ruofei quickly changed the topic, "let's not talk about this ... CEO Feng, didn't you say that you had something to report?" Speak!"

Feng Jing glanced at Xia ruofei and couldn't help but burst out laughing when she saw Xia ruofei's serious expression.

When it came to serious matters, Feng Rao put away her girly attitude.

She said, "Chairman, the pharmaceutical company is just an empty shell now. The main energy is focused on the approval of new drugs. There are only a few people like Xue Jinshan. It's fine for them to work on the farm for the time being, but I think we should think about it in the long run. Some things need to be prepared early."

"Oh? What do you think we should prepare in advance?" Xia ruofei asked seriously.

"First of all, the ultimate goal of setting up a pharmaceutical company is to produce heart – nourishing soup," Feng Jing said as she walked. "In the future, it's possible to produce jade skin ointment, so we'll have to have our own pharmaceutical company sooner or later."

.....

"That's for sure. " Xia ruofei said with a smile.

"I think there are only two ways. One is to get the government to approve a piece of land and start from scratch." Feng Jing said, "the other condition is to acquire a ready – made pharmaceutical factory and transform it on the basis of that.

"That's right. " Xia ruofei nodded and said, "Mr. Feng, I'm more inclined to the second method. It will save us a lot of trouble and reduce our initial investment."

Feng Rao nodded. "Yes, I've been collecting relevant information recently. I've been focusing on the pharmaceutical factories in the southeast province, especially those within the San Shan City area, especially those small factories that haven't been doing well. I've been analyzing the possibility of acquiring them!"

Xia ruofei nodded approvingly. "What did I say? I'm at ease with you handling things! You always put work ahead of you, what do I have to worry about?"

"So, you agree?" Feng Rao blushed.

"I agree, I agree! That's the correct way of thinking." Xia ruofei said without hesitation.

Feng Rao smiled and continued, "Chairman, no matter if it's an acquisition or a new one, our company's business must be getting bigger and bigger. I think the relocation of the company's headquarters should also be put on the agenda."

"Yes." Xia ruofei nodded but didn't say anything. He signaled for Feng Rao to continue.

"First of all, the pharmaceutical factory will definitely have more than just a few employees in the future. Also, the pharmaceutical company's administrative team, the Research Institute, and the head office's administrative team can't all be concentrated on the farm, right? Moreover, the farm's land is limited, so we can't keep building staff dormitories, right?" Feng ke said.

"Yes, continue." Xia ruofei nodded.

"Also, this place is indeed a little remote. Although the environment is good, the transportation is not convenient." Feng Jing said, "besides, our company is destined to become bigger and stronger in the future. The company's headquarters represents the company's image. I've never heard of an international company's headquarters being located in a small farm in a mountain village."

Xia ruofei laughed and said, "that makes sense!" This area is still at the junction of several villages, and the land area is limited. The continued development will be affected. "

"There are many other benefits to moving the company's headquarters to the city." Feng Jing said, "first of all, it'll undoubtedly be more attractive to young people. Secondly, there's no need for us to continue building staff dormitories. We just need to provide rental subsidies. Also, with the expansion of the company's business, it'll be good for unified management in the city center and improve administrative efficiency."

Xia ruofei agreed, "yeah!" It's only a temporary measure now. Pang Hao has been complaining to me every day, and just running to the bank is tiring enough. "

"Logistics, especially finance, is indeed a lot of inconvenience at the moment." Feng Rao pursed her lips and smiled.

Xia ruofei pondered for a moment and said, "CEO Feng, I'll listen to your opinion." The farm will continue to expand to the seaside in the future, and even develop seafood breeding. The scale will definitely continue to expand, so after the company's headquarters is moved to the city, the current office building, staff dormitory, and so on can be put to good use. "

“The only problem now, Chairman,” Feng Jing nodded. “Is the company’s funds enough to support the construction of the headquarters in the city center?”

Chapter 662: Spirit map world’s tea house (2)

Feng Rao looked at Xia ruofei.

As the company’s general manager, Feng Jing naturally knew how much money the company had in its account. However, peach blossom company could not be measured with common sense. Often, when the company’s account was almost exhausted due to various projects being carried out at the same time, Xia ruofei would suddenly inject a sum of money into it.

This young Chairman always seemed to be able to find funds miraculously.

In fact, even if they didn’t rely on extra funds, the current capital chain of paradise Corporation was still very healthy.

After the expansion of the farm was completed, with the increase in production capacity, the estimated monthly profit of Taoyuan vegetables could reach about eight million Yuan.

The sales of the Drunken Eight Immortals were extremely high. By the time all the different grades of wine were on the market, Xia ruofei’s monthly profit would be about 12 million Yuan.

The Ironhide fengdou company had an income of more than 22 million a month and a half, which was about 15 million a month on average.

This didn’t include the huge profits from the pomfrets and the dividends from the Australian farms, because these couldn’t generate a lot of profits in the short term.

Regardless, just the three items above could bring 35 million in cash flow to the company, and the cost was almost negligible.

Besides, if he was really short on money, Xia ruofei could sell some wild ginseng or some jinsi Phoebe Wood. It was an easy task for Xia ruofei to raise money now.

Xia ruofei smiled and said, “boss Feng, money is not a problem. However, the relocation of the headquarters is not urgent at the moment. Once the relocation happens, it will involve a lot of people. We can’t rush it.” How about this, we’ll list the relocation of the headquarters as the company’s key work for the next two years. Our initial goal is to relocate the headquarters before the pharmaceutical factory officially goes into production. What do you think?”

“En!” Feng Rao nodded. This way, it won’t affect the company’s normal operations. I agree!”

Xia ruofei smiled and said, “then, the burden on your shoulders will be even heavier!” From today onwards, you’ll have to start thinking about the location of the company’s headquarters. ”

.....

Feng Rao shrugged and said with a smile, “I’m used to it, don’t worry!”

Xia ruofei raised his head and laughed.

He didn't return to the office building with Feng Jing. Instead, he waved goodbye to Feng Jing at the fork in the road and returned to the small villa.

.....

Spirit map world, Archean realm.

Xia ruofei's figure appeared out of thin air. Xia Qing, who was in a deep sleep, immediately sensed it and opened her eyes.

"Master!" Xia Qing replied respectfully.

Xia ruofei nodded with a smile and walked towards the spiritual heart tree.

Today was the day the spirit Heart Flower bloomed again. After Xia Qing's improvement and care during this period, Xia ruofei was looking forward to the spirit Heart Flower that bloomed this time. He didn't know if it would bring him any surprises.

Xia Qing smiled as she followed behind Xia ruofei.

On the spirit heart tree, a flower that seemed to contain the ultimate truth of heaven and earth and exuded a mysterious aura had quietly bloomed.

Xia ruofei's eyes fell on it, and he counted it silently with a hint of excitement.

1、2、3、4、5.....6!

Six petals!

After 20 days in the outside world and more than a year of transformation in the Archean realm, the spirit Heart flower's petals finally broke through the original upper limit.

In the last two upgrades of the spatial space, the number of petals of the spirit Heart Flower had not changed. Xia ruofei knew that without Xia Qing, the number of petals would have been fixed no matter how the spatial space upgraded!

"Good job!" Xia ruofei said happily, "Xia Qing, you're really something!"

"Master," Xia Qing said humbly, "I'm still far from the limit of nine petals. I still have to work hard."

Xia ruofei laughed and patted Xia Qing's shoulder. "Take it slow. There's no hurry. I can wait!"

Xia ruofei asked Xia Qing to collect the petals of the spirit Heart Flower, and then he patrolled the space.

The iron – Skin Dendrobium, wild ginseng, golden nanmu, and the precious Dahongpao parent tree – these were the crops that Xia ruofei had specifically instructed. Xia Qing had taken care of them carefully. Although there were no visible changes for the time being, Xia ruofei could feel that they seemed to be more energetic.

At this moment, Xia ruofei's gaze fell on the rows of small flower pots.

He was pleasantly surprised to find that these small flower pots were all filled with succulent plants, and they seemed to have been planted not long ago.

“Xia Qing, did you do all this?” Xia ruofei asked.

“Yes, master,” Xia Qing replied, “I saw many empty flower pots on the side, and there were cut marks on the plants. I guessed that master must have used them for cutting, so I made my own decision ...”

Xia ruofei said happily, “sure!” Xia Qing, I’ll leave the succulents to you in the future. You just need to take care of them when you’re free. ”

“Yes, master!” Xia Qing replied.

“If there are too many succulent seedlings, you can directly move to the mountain sea realm. There’s a lot of space there.” Xia ruofei said, “let me know if you don’t have enough flower pots. I’ll send more in!”

“Alright,” he said.

It had been a while since Xia ruofei’s meat store on Taobao had a new product. It was mainly because he was getting busier and busier, and the profits from the succulents were becoming less and less significant to Xia ruofei.

However, since Xia Qing was a free labor force, Xia ruofei had the idea of continuing to do this business.

Chapter 663: Spirit map world’s tea house (3)

Making money was secondary. Increasing the brand’s popularity had always been Xia ruofei’s goal. Taoyuan meat workshop could provide the best succulent seedlings and become an important chain for Taoyuan’s brand to become high – end.

Moreover, the price of the succulent seedlings in Taoyuan butcher shop was not cheap. If the quantity was large, the profit would be quite considerable.

No one would be against money.

Just as Xia ruofei was about to leave the medium, Xia Qing suddenly said, “”Master, the tea leaves are ready to be picked. Do you want me to pick them and make tea? The tea leaves from the previous round have already been wasted ...”

Xia ruofei asked in surprise, “you know how to make tea?” Have you learned how to make Da Hong Pao?”

“Master, I don’t need to learn it,” Xia Qing said with a smile. “I’ve been born with the craft of making Da Hong Pao in my mind.”

Only then did Xia ruofei realize that he had unconsciously treated Xia Qing as a living person.

After this period of interaction, Xia ruofei had already figured out that Xia Qing’s soul puppet was actually a high – Level intelligent robot. The interaction between human and machine could definitely pass off as the real thing. If she went to take the Turing test, she would definitely pass with a full score without a doubt.

The skills that Xia Qing had mastered were equivalent to the built – in program when producing Intelligent Robots. Without this program, he naturally wouldn’t have this skill.

However, as an advanced mech, Xia Qing could also learn new skills.

Xia ruofei roughly understood that Xia Qing's main ability was in the field of spiritual plants, which was equivalent to an "agricultural assistance robot". However, the "agriculture" here was quite high – end.

Xia ruofei also asked Xia Qing a few questions about the origin of the spirit map world, the situation of the previous master, and so on. Xia Qing also didn't know anything.

As for the cultivation and care of spiritual plants, and even the breeding of spiritual beasts, he was very proficient in them.

.....

"Since you have the ability, you don't have to ask me for instructions when the tea leaves ripen. Just pick the tea leaves directly!" Xia ruofei said.

"Alright! Thank you for your trust, master!" Xia Qing said happily.

"By the way, you should need some tools to make the Da Hong Pao, right?" Xia ruofei asked.

"Master, I can cut down most of the tools at the Archean realm to make them myself ..." Xia Qing said.

"Don't!" Xia ruofei quickly interrupted him and said, "I'll prepare whatever you need from the outside world and send it to you!"

What a joke. The wood here was the priceless gold Phoebe nanmu. The oak tree in the new space was also filled with the highest quality truffles. If any one of them was cut off, Xia ruofei would be heartbroken for a long time.

Xia ruofei carefully asked Xia Qing what tools she needed.

From Xia Qing's description, Xia ruofei found that the tools used were similar to the ones used by li Zhifu last time. It seemed that li Zhifu's tea – making skills had been passed down for many years.

After he was confident, Xia ruofei asked Xia Qing to pick the tea leaves and store them well. Anyway, in the spirit map world, things could be kept for a long time and there was no need to worry about going bad.

After leaving the spirit map world, Xia ruofei gave ye Lingyun a call and asked him to help buy a set of traditional tea – making tools at Mount Wuyi.

Ye Lingyun carried out Xia ruofei's orders very quickly.

He quickly found an old craftsman on Mount Wuyi and made a set of the tools and utensils that Xia ruofei needed. Then, he hired a truck to transport them to Sanshan city.

After Xia ruofei received the goods from the rented warehouse, he directly sent them into the spirit map space. Then, he bought some red bricks, charcoal and the like according to Xia Qing's request and sent them into the spirit map space as well.

The spirit map world's Red robe workshop was thus established.

However, Xia ruofei had asked Xia Qing to leave the tea – making to the mountain sea realm. After all, the Archean realm only had an area of eight mu, and there were many precious crops. Space was very tight.

Meanwhile, the mountain and sea realm was extremely spacious, and there was no need to worry about not having enough space.

Xia Qing was full of energy as she started to take care of the spiritual plants and make Da Hong Pao. Xia ruofei left the medium and returned to the outside world.

After a few more days, the ten children with autism had recovered after a few treatments.

The ten families shed tears of gratitude and ended the drug test.

As for Chengcheng, he had already fully recovered. However, Xue Biyun did not return to Hong Kong and was still helping Xia ruofei with the drug testing.

Xue bi Yun's family was originally from the three mountains. Now that Chengcheng had recovered, she didn't want to return to Hong Kong, which had hurt her so much. She was prepared to settle down in the three mountains.

Xue Biyun's family was still in a difficult situation. At the same time, because she had taken care of Chengcheng all year round, Xue Biyun had a deep understanding of autism. Hence, Xia ruofei had simply recruited her into the pharmaceutical company. At the moment, her main role was to assist in drug testing and to act as a helper for Xue Jinshan and the rest.

The second stage of the experiment had ended, and Xue Jinshan's team had also officially completed their application report for the new drug.

With the data from this experiment, many of the contents of the report were supported by arguments.

After Xia ruofei and Feng Jing looked at it and felt that there were no problems, they asked Xue Jinshan to bring the two of them to the capital city to begin the long road of approval for the new medicine.

Xia ruofei couldn't stay idle either. The approval of the new medicine was very important, so he decided to visit Tian Huilan.

She believed that with her as a provincial leader, at least the provincial Drug Administration department's first review should not have any problems.

Chapter 664: The support of Tian Huilan (1)

At the three mountains Municipal Party committee's compound.

When Xia ruofei drove to the entrance, he saw Tian Huilan's personal secretary, Xiao Mei, already waiting by the police post.

Although Tian Huilan was already a member of the provincial Committee, her main focus was still in Sanshan city. Her main job was to keep tabs on the committee. Therefore, even though she had an office in the provincial Committee, she spent most of her time working in the Sanshan Municipal Party.

Xia ruofei's Knight XV car was very eye – catching. Xiao Mei saw it at first glance and quickly walked up to him.

Xia ruofei stopped the car in front of the eye – catching yellow stop line. He rolled down the window and stuck his head out."Director Xiao, I'm sorry to trouble you to pick me up personally!"

"Mr. Xia is an important guest." Xiao Mei smiled and said,"Secretary Tian personally instructed us to be polite. I didn't dare to neglect ..."

Xiao Mei waved at the armed police at the gate, and the bar in front of the door slowly rose. Xiao Mei opened the door and sat inside.

It wasn't Xia ruofei's first time at the three mountains Municipal Party committee's compound. He parked his car in the reserved parking space in front of the main office building and entered the office building under Xiao Mei's lead.

There were many government officials walking in and out of the office. When they saw Xiao Mei, they all greeted her very politely. This was the Secretary of the provincial Party leader! Usually, the government Deputy positions at the bottom of the ranking would be polite to her when they saw her.

Naturally, Xia ruofei attracted many curious and inquiring gazes.

Everyone was naturally curious about this young man who was personally welcomed by Secretary Xiao.

Soon, the two of them arrived at Tian Huilan's office.

Xiao Mei stood at the door of the secretary's office and said to Xia ruofei,""Mr. Xia, Secretary Tian said that you can go in directly after you arrive. Also, Secretary, you don't have any other plans for the next hour, so you have plenty of time. "

.....

Xiao Mei's eyes were also filled with a strange color.

How could a high – ranking officer like Tian Huilan not have any schedule for an entire hour?

Just because Xia ruofei wanted to visit, Tian Huilan had pushed back two events and delayed the work report from the Director of Finance for an hour.

This showed how much this young man meant to Secretary Tian.

"Thank you, chief Xiao." Xia ruofei said with a smile.

Then, he took out a small, wide – mouthed porcelain bottle from his bag and handed it to Xiao Mei, saying,""By the way, director Xiao, this is a cosmetic product that I've concocted myself. You can use it directly as a Facial Mask. It's just a small token of my appreciation, please don't mind it!"

Xiao Mei's beautiful eyes were wide open, and she almost lost her composure and cried out. She quickly covered her mouth with her hand and only asked softly after a long while,""Mr. Xia, this ... This is the Jade skin cream that you gave to the Secretary last time?"

After Tian Huilan had used the jade skin cream, her entire person had undergone a complete transformation. Not only did she look at least ten years younger, but her temperament was also much better than before.

This caused quite a commotion among the government officials, especially the female officials.

As Tian Huilan's personal secretary, Xiao Mei naturally knew the inside story. It was because she used the jade skin cream that Xia ruofei had given her.

It was a woman's nature to love beauty, and Xiao Mei dreamed of getting a jade skin cream. However, she also knew that this kind of magical cosmetic, especially a handmade one, could not be bought even with money.

He didn't expect to get it today without much effort. Xia ruofei actually gave him a portion.

Xia ruofei smiled and nodded. After getting an affirmative answer from Xia ruofei, Xiao Mei was even more excited. However, after she calmed down, she quickly said, "Mr. Xia, this gift is too expensive, I can't accept it ..."

As she said this, Xiao Mei's eyes were still looking at the bottle of jade skin ointment, reluctant to part.

Xia ruofei thought it was funny. In fact, this thing was precious to others, but to him, it was just a matter of time.

"Director Xiao, you've helped me a lot all this time. I didn't even have the chance to express my gratitude." Xia ruofei smiled and said, "this is just a small token of my appreciation. Besides, I made this by hand and it's not worth much. It shouldn't be considered a bribe, right?"

"No..." Xiao Mei quickly waved her hand.

"Then isn't it settled? You should just accept it!" Xia ruofei stuffed the porcelain bottle into Xiao Mei's hands and continued, "besides, our company is researching on how to mass produce the jade skin ointment. I believe that it won't be long before you can buy it on the market. It's not something rare."

Xiao Mei clutched the porcelain bottle that contained the Jade skin cream tightly and asked in surprise, "Really?"

"Of course it's true!" Xia ruofei said, "but the effect of the mass – produced version will definitely be slightly worse than this handmade one."

"Thank you, President Xia!" Xiao Mei said happily.

Xia ruofei smiled and waved his hand, then gently knocked on the door of Tian Huilan's office.

A gentle voice came from inside, "Please enter!"

Xia ruofei pushed the door open and walked in.

Xiao Mei looked at the porcelain bottle in her hand and couldn't hide her excitement. She couldn't help but clench her fist and said in a low voice, "Yay!"

She first put the jade skin ointment in the drawer, then took it out and put it in her bag after some thought. After a few seconds, she took it out of her bag and carefully put it in her pocket. Then she smiled in embarrassment.

Chapter 665: Tian Huilan's support (2)

Then, she realized that she had not poured Xia ruofei any tea. She stuck out her tongue and hurriedly took out a blanket and tea leaves from the cabinet.

At this time, Xiao Mei had completely lost the steadiness of a staff member beside the provincial Party leader, which showed how attractive the jade skin cream was to women!

Tian Huilan's office.

When she saw Xia ruofei enter, Tian Huilan put down the documents that she was signing and stood up with a smile. "Little Xia is here! Come sit down and talk!"

"Good day, Secretary Tian!" Xia ruofei bowed and greeted her. Then, he followed Tian Huilan to the sofa in the guest area and sat down.

At this moment, Xiao Mei knocked on the door with a cup of hot tea. She had returned to her normal calm expression and said to Xia ruofei in a low voice, "President Xia, please have some tea!"

Then, she walked over to Tian Huilan's desk and took her teacup. After filling it with hot water, she brought it to the reception area and gently placed it on the coffee table before quietly leaving the office.

After Xiao Mei left, Xia ruofei took out the gifts he had prepared for Tian Huilan, including three portions of jade skin cream and two taels of top – grade Da Hong Pao.

Ever since he found out that Xia Qing could also make Da Hong Pao, Xia ruofei did not treasure the few tea leaves he had left. This time, he also generously took out two taels.

Xia ruofei believed that with Xia Qing's ability, and the tea trees that he had taken care of for so long, the Da Hong Pao he made would not be any worse than Li Zhifu's.

"Secretary Tian, this is a small gift for you." Xia ruofei said with a smile.

"You little summer!" Tian Huilan smiled and said, "I've never accepted other people's gifts, but I can't reject yours! Thank you! You're so thoughtful ..."

.....

Tian Huilan was very fond of the jade skin ointment. Whether it was for her own use or for giving it away, it was quite good. The jade skin ointment, which couldn't be bought with money, had become a hot cake in the upper – Class women's circle. Many people couldn't even get a portion of it no matter how hard they tried!

Tian Huilan very naturally kept Xia ruofei's gift under the coffee table, then revealed a kind smile and said, "Little Xia, Huixin has mentioned your matter to me before. This is a great thing that benefits the country and the people. I support you unconditionally!"

"Thank you, Secretary Tian!" Xia ruofei said happily.

Yesterday, when he had called Tian Huilan, he had roughly explained the situation. He didn't expect Tian Huilan to directly express her support.

Officials at Tian Huilan's level were usually very particular about changing the subject, and wouldn't make a dead end.

From this, it could be seen that Tian Huilan had a different opinion of Xia ruofei.

Following that, Xia ruofei reported the situation of the heart – nourishing soup, as well as the peach blossom company's establishment of the pharmaceutical company and the preliminary drug testing to Tian Huilan.

Finally, Xia ruofei said, "Secretary Tian, the person in charge of our pharmaceutical research Institute has brought the report to the capital city to apply for the approval of the new drug. According to the regulations, our Chinese medicine preparation can be directly submitted to the State Drug Administration for approval. However, under normal circumstances, the first review work will still be completed by the provincial Drug Administration, so we still need your strong support!"

Tian Huilan smiled. "Little Xia, I've already spoken to Deputy Chief he kun from the provincial Food and Drug Administration, who is in charge of the drug approval work. Within the scope of the rules, Deputy Chief he will give you the care you deserve."

"I'm really grateful!" Xia ruofei said happily.

Tian Huilan smiled and said, "comrade he kun is the director of the Sanshan Food and Drug Administration. He can be considered my old subordinate. He was just promoted to the Deputy Director of the provincial Food and Drug Administration last year. He's in charge of drug approval, so you can look for him directly."

"I understand," Xia ruofei said. "Thank you, Secretary Tian."

Tian Huilan passed a piece of paper that she had written beforehand to Xia ruofei and said, "This is bureau chief he's contact information. You should find him as soon as possible and discuss some specific things with him! By the way, old he has been working in the Food and Drug Administration for many years, and he's familiar with the people in the State Food and Drug Administration. You can ask him to help coordinate with the higher – ups, so that the progress can be accelerated and we can enter the preliminary review process as soon as possible."

"Alright!" Xia ruofei carefully kept the note.

After they finished talking, Xia ruofei was about to leave when Tian Huilan suddenly started to talk about private matters.

"Xiao Xia, have you been in contact with Youyou recently?" Tian Huilan asked in a seemingly casual manner.

Xia ruofei was stunned for a moment before he said, "the last time aunt Huixin brought Huanhuan over, I met Lu You twice." "What's wrong, Secretary Tian?"

"I feel that she has been a little depressed recently. I don't know if it's just my imagination ..." Tian Huilan frowned and said, "let's not talk about this. Xiao Xia, if you have time, contact Youyou more often."

You young people have more common topics to talk about.” This daughter of mine ... She’s always been hiding her thoughts and won’t say them out loud. Sigh ...”

“Sure, I will,” Xia ruofei nodded.

He did not know why, but the image of the perfect body he saw when he was cleaning Lu You’s vomit after he had rescued her back to the farm appeared in his mind ...

The person in front of him was not only the leader of the Provincial Party Committee, but also Lu You’s mother! Xia ruofei suddenly felt a sense of guilt. He quickly stood up and said, “Secretary Tian, I won’t bother you anymore. I’ll take my leave!”

Chapter 666: Tian Huilan’s support (3)

Tian Huilan personally stood up and sent Xia ruofei to the door of the office. Then, she said, “Xiao Xia, if you have time, come over to our house. My dad always talks about you ...”

“Alright!” Xia ruofei quickly said, “please wait!”

After leaving Tian Huilan’s office, Xia ruofei bade Xiao Mei goodbye and hurried downstairs.

After getting into the car, Xia ruofei was not in a hurry to drive away. Instead, he took out the piece of paper that Tian Huilan had given him and dialed the phone number written on it.

The phone rang for more than ten times. Just as Xia ruofei thought that the other party did not bring his phone or that it was on silent mode and was about to hang up, the other end finally picked up.

A voice with a hint of reservation was heard. “Who is it?”

“Are you director he from the Food and Drug Administration?” Xia ruofei asked politely, “I’m Xia ruofei from the peach blossom company. Secretary Tian of the municipal Party Committee asked me to call you.”

The voice on the other end of the phone suddenly became more enthusiastic. “Oh, it’s President Xia! Hello, hello! Secretary Tian has already given you specific instructions. Don’t worry, our provincial Food and Drug Administration will do our best to assist you!”

Xia ruofei was used to the officials’ change in attitude and did not feel unhappy. He smiled and said, “Bureau chief he, I wonder if you’re free now? I wanted to visit you and give you a detailed report on the approval of the new medicine.”

“Well ... President Xia, I have to attend a National Drug Administration conference in five minutes,” he kun said awkwardly. “It’s estimated to be a long conference, so ...”

“Oh! That’s fine, I’ll find time to come back next time!” Xia ruofei said with a smile.

He kun seemed to be worried that Xia ruofei would misunderstand and think that he had neglected him on purpose. After a moment of silence, he said, “President Xia, I personally think that the first thing your company needs to do for this project is to establish a project. We can only help you if the National Food and Drug Administration officially sets up a project and sends our provincial Food and Drug Administration to conduct a preliminary review of the drug!”

“Thank you for your advice, bureau chief he.” Xia ruofei smiled and said, “do you have any suggestions about the project, chief he?”

.....

He kun had already made up his mind. He immediately said, “President Xia, do you think this is okay? I’m going to Beijing to attend a seminar in the pharmaceutical industry tomorrow. Why don’t you come with me to Beijing tomorrow? I have quite a few acquaintances at the State Food and Drug Administration, so I’ll personally coordinate with them. I think we should be able to speed up the project!”

This matter had been personally assigned by Tian Huilan, and it wasn’t as simple as a simple greeting. She had called him to the office and personally instructed him to do so. How could he kun dare to neglect it?

I, the Deputy Director of the provincial Bureau, personally went to Beijing to help you coordinate the project. This should be enough sincerity, right? He kun said in his heart.

In fact, the so – called pharmaceutical seminar was just an excuse. If he kun wanted to attend, there would be people fighting to invite him to such seminar every day.

His trip to Beijing this time was purely to help Xia ruofei coordinate the project.

He had to spare no effort in carrying out Secretary Tian’s instructions!

Chapter 667: Attending the banquet (1)

Xia ruofei was stunned. He did not expect he kun to take the initiative. He quickly said, “That’s the best! Director he, thank you so much ...”

“You’re welcome, you’re welcome,” He kun laughed and said, “President Xia, please send me your ID number by text. I’ll ask my Secretary to book the plane tickets.”

Xia ruofei quickly said, “I’ll have to trouble you guys!” Director he, tell me the flight number, I’ll book the ticket myself. ”

“It’s just a small matter. President Xia, please don’t decline.” He kun said, “President Xia, it’s decided! I’m going to a meeting soon, I’ll tell you the flight number later, we’ll talk about the details on the plane!”

Xia ruofei could tell that he kun was really in a hurry to go to the meeting, so he did not decline and hung up the phone after expressing his gratitude.

After Xia ruofei sent his ID number to he kun, he drove back to the farm.

On the way, Xia ruofei received a text message from he kun about the flight information.

Xia ruofei took a look as he drove. It was a flight at 9 am the next morning. It would be noon when they arrived in the capital.

Xia ruofei also noticed that he kun had asked his Secretary to book business class.

Can Deputy department heads travel in business class? Xia ruofei laughed and shook his head. However, there was a way for Dragons and prawns. She had even taken care of his plane tickets! Naturally, there was a place to settle the expenses.

Xia ruofei sent a text to express his gratitude and then drove back to the farm.

He parked the car at the complex and went upstairs to greet Feng Jing. When Feng Jing learned that Xia ruofei was going to Beijing to coordinate the project, she was very supportive. She laughed and said that Xia ruofei had finally done something that a Chairman should do.

Xia ruofei could only smile bitterly at Feng Jing's teasing.

.....

He went straight home to pack his luggage after leaving the office building. Of course, he also gave Ling Qingxue a call to let her know.

This girl had also been busy with the Ling Ji restaurant chain recently. Ling Xiaotian was prepared to give her more responsibilities and let her hold the position of Vice President, no longer just in charge of the finances.

In addition, Xia ruofei was also very busy during this period of time, so the two of them did not have many opportunities to meet.

However, as long as they had free time, Xia ruofei would chat with Ling Qingxue on the phone. Their relationship was still as close as glue.

Ling Qingxue was very understanding and supportive of Xia ruofei's career. When she found out that Xia ruofei was going to the capital for a business trip for a few days, she did not say anything else but reminded Xia ruofei to take care of his health and safety.

The two of them cuddled on the phone for a while before hanging up reluctantly.

It was a quiet night.

The next morning, Xia ruofei went down at 7:40 sharp. Lei Hu was already waiting in the company's Mercedes – Benz at the entrance of the villa.

At 8:10 am, Xia ruofei arrived at the departure hall of Changping International Airport.

He didn't let Lei Hu help him carry his luggage, and instead dragged a very small luggage into the hall alone.

Just as Xia ruofei was about to find a place to sit down and rest, his phone rang.

"President Xia, we've arrived at the airport!" "Where are you?" he kun asked enthusiastically.

"Bureau chief he, I'm in front of the round counter at the inquiry office." Xia ruofei said as he looked around.

Soon, he saw two people walking quickly towards him. One of them was dragging two suitcases while the other was a middle – aged man in a suit and leather shoes. He had slicked – back hair and was holding a mobile phone in his hand. He waved at Xia ruofei.

Xia ruofei immediately waved his hand and walked over with his small suitcase.

“You’re President Xia, right? Aiya, he’s really young and promising!” He kun smiled like a Maitreya Buddha, his attitude extremely kind.

“Director he, Hello! I’m really sorry to trouble you this time!” Xia ruofei replied with a smile and they shook hands tightly.

The 30 – year – old man behind he kun took the initiative to help Xia ruofei with his luggage.

Xia ruofei quickly waved his hand. “No, no, it’s fine. I don’t have much luggage. I can carry it myself.” Let’s quickly change our boarding passes!”

“Haha, there’s still plenty of time ...” He kun said with a laugh.

The group walked towards the check – in counter. He kun’s Secretary asked for Xia ruofei’s identity card and quickly walked to the VIP counter. He quickly changed three boarding passes.

Under the guidance of a VIP customer service Officer, Xia ruofei and the others passed the security check through the VIP passage and entered the VIP waiting room of the airport.

Xia ruofei and he kun were chatting in the VIP lounge. He kun was also trying to find out the relationship between Xia ruofei and Tian Huilan. Xia ruofei was no longer a rookie who had just retired from the military. He had been practicing Tai Chi without leaving any traces.

In this way, Xia ruofei’s image in he kun’s heart became even more mysterious.

Soon, everyone started boarding.

He kun’s Secretary sat in Economy Class, while Xia ruofei and he kun sat next to each other in business class.

After the plane took off, Xia ruofei took out the documents and started to discuss the project with he kun.

He kun listened attentively. From time to time, he picked up the documents that Xia ruofei had prepared for him and flipped through them. After all, he was in charge of coordinating the project when he arrived in Beijing. Naturally, he had to understand the situation first.

After Xia ruofei finished, he kun had a rough idea of what was going on.

He secretly heaved a sigh of relief because this matter shouldn’t be too difficult. The approval of a Chinese medicine preparation was much easier than that of Western medicine. As for the description that it had a certain effect on autism, he kun didn’t think much of it.

Chapter 668: Attending the banquet (2)

Medicine nowadays liked to create some gimmicks, and they would not stop until they were shocking.

Strictly speaking, this was against the rules, but the department in charge turned a blind eye to it. He kun was very clear about this.

At around 11:30 in the afternoon, Xia ruofei's flight landed smoothly on the runway of the Capital International Airport.

When they left the airport, they saw the staff from the Beijing office of Sanshan city waiting by the side of the road with their cars.

Although he kun had already been transferred to the provincial Bureau, he had worked in Sanshan city for many years. Moreover, he was Tian Huilan's direct subordinate, so he liked to coordinate with the Sanshan City office in Beijing to receive him every time he came to Beijing.

Everyone took the Beijing office's car and quickly arrived at the Rongcheng hotel near the capital's East Fourth Ring Road. The hotel was located in San Shan city.

The rooms had already been arranged. Xia ruofei and he kun were in small business suites, while he kun's Secretary was in an ordinary King – sized room next to he kun's, so that he could be on call when the leader called.

When they arrived at the floor of the room, he kun said affectionately, "Brother Xia, go back to your room and wash up. We'll settle our lunch at the Chengdu hotel."

"Sure, big brother he, I'll see you later!" Xia ruofei said with a smile.

After the long conversation on the plane and he kun's deliberate approach to Xia ruofei, the two of them had become more intimate.

Xia ruofei returned to his room and took a quick shower. He changed into a clean, casual suit and went to the balcony to smoke a cigarette. Just then, the doorbell rang.

He kun's Secretary had come to invite Xia ruofei to lunch.

In the afternoon, he kun ordered a lot of Beijing specialties in a small room on the second floor of the Chengdu hotel. To Xia ruofei's surprise, they had Drunken Eight Immortals for lunch. Furthermore, it was the three months white wine that had just been launched on the market.

.....

It seemed that the Drunken Eight Immortals wine had also entered the sights of the three mountains' office in the capital, and was used as a specialty wine of the southeast province to receive guests.

He kun raised his glass and said with a smile, "Brother Xia, let's have a toast! In the afternoon, you can take a rest in the room or walk around. If you need a car, just let the front desk know. I'll show off at the seminar this afternoon, and I'll have dinner with a few acquaintances from the State Food and Drug Administration at night. We've known each other for many years, so if you make a few more toasts, this matter might be settled."

This kind of seminar was very common. As the Deputy Director of the provincial Bureau, he kun was already very respectful to attend. Therefore, he would only show his face at the opening meeting and would definitely not participate in the group discussions and exchanges after that.

After all, the main purpose of this trip to the capital was to help Xia ruofei.

“Okay, brother he, I’ll leave it to you ...” Xia ruofei said with a smile.

As he kun had a seminar to attend in the afternoon, they did not drink too much and only had a light sip.

Soon, lunch was over and Xia ruofei returned to his room upstairs.

Although he had not visited the Forbidden City or the Great Wall of China, he was not in the mood to go out for a stroll since he had not finished his business. Besides, he only had one afternoon. With the traffic conditions in the capital, he probably would not be able to go anywhere.

After Xia ruofei returned to his room, he took out his phone and called Xue Jinshan.

“President Xia, you’ve arrived in Beijing?” Xue Jinshan’s voice carried a trace of excitement.

Xia ruofei had told Xue Jinshan yesterday that he would personally go to Beijing to coordinate the project.

“Hmm, Kanayama, what’s the progress now?” Xia ruofei asked, “have you handed in the materials?”

“President Xia, it’s too hard to get into the National Ministry ...” Xue Jinshan smiled bitterly. “We’ve been here for a few days and finally submitted the application materials to the pharmaceutical and cosmetics registration Division after a lot of effort. However, we’ve been to the division several times, and they said that it hasn’t been accepted yet. We don’t know how long it will take ...”

Xue Jinshan was also feeling very depressed. He had personally witnessed the effects of the heart – nourishing soup, and it was definitely a blessing for the majority of people with autism. If it could be mass produced as soon as possible, it could be said to have a revolutionary change for the treatment of autism.

However, there was no other way. To the National Ministry, it might be a big deal in your eyes, but it was insignificant to them.

If they were to strictly follow the stipulated number of working days for each segment, it would really take a long time before they could approve the production and sell it on the market.

Xia ruofei said indifferently, “Kanayama, good things take more time!” Don’t worry ... How about this, bureau chief he of the provincial Bureau is hosting a banquet for the comrades from the State Food and Drug Administration tonight. You guys should come along! It’s also good to know a few more people and coordinate approval in the future.”

“CEO Xia, you have a way!” Xue Jinshan said excitedly, “chief Xia, it would be great if we could find someone we know in the State Food and Drug Administration!”

“I’ll give you a call after I’ve decided on the place. You two can take a taxi there together,” Xia ruofei said with a smile.

“Alright, alright!” Xue Jinshan quickly said.

After Xia ruofei hung up the phone, he thought for a while and sent he kun a text message, telling him that a few of his company's employees who were in charge of this project would be attending the dinner.

He kun, who was in the middle of a seminar, sent Xia ruofei a text message after half an hour.

He kun naturally had no objections to having more people attend. He kun even sent the location of the banquet to Xia ruofei in advance.

Xia ruofei took a look and saw that it was in an alley near the Rongcheng hotel. It was called "Royal private kitchen".

Hence, Xia ruofei casually forwarded the location and room number to Xue Jinshan.

He took a nap in the hotel room and got up at around 5:30 to pack his things. He kun's Secretary came over to remind Xia ruofei to get ready to leave.

The group took a Buick minivan from the Beijing office and made a few turns in the nearby alleys. Soon, they arrived at an antique courtyard house.

This was where the "royal family's private kitchen" was located.

The courtyard house was the kind that had a few front and back entrances. Antique lanterns were hung at the door, and the copper nails on the door were bright and shiny. One look and one could tell that it was expensive.

Xue Jinshan had already brought two Research Institute employees to the royal family's private kitchen in advance.

The two employees were a man and a woman.

The girl's name was Bai He, and she was as beautiful and refined as her name suggested, giving off a refreshing feeling.

The boy's name was Zhou Qing. Although he still had a childish look on his face, he was quite capable among the staff of the Research Institute and was quite valued by Xue Jinshan.

The two of them were both undergraduate students, so they were somewhat nervous in this kind of situation.

When Xue Jinshan saw Xia ruofei and the rest, he quickly went up to them and said, "President Xia."

"Jinshan, this is chief he kun of the provincial Drug Administration," Xia ruofei said with a smile.

Xue Jinshan and the other two quickly greeted he kun respectfully.

For Xia ruofei's sake, or more accurately, for Tian Huilan's sake, he kun's attitude was very kind. He chuckled and exchanged a few simple words with the three of them.

Then, he kun said, "brother Xia, let's go to the private room and wait!" Section Chief Qi and the others got off work at Five O' clock sharp, but the traffic in Beijing is very bad during the evening peak hour, so it'll probably take a while for them to arrive!"

"It's fine. " Xia ruofei smiled and said,"brother he, let's go in first!"

From he kun's tone, Xia ruofei could tell that he had invited a Section Chief. Although he was a cadre of the National Ministry, he knew that he kun, a Deputy department head, would not have to wait in the lobby respectfully.

The group of people arrived at an antique private room.

Xia ruofei had thought that he would only have to wait for half an hour or an hour. Since he was asking for help, it didn't matter if the other party was late.

He did not expect to wait for more than two hours.

At around 8:30 pm, after he kun made two phone calls, three people finally appeared at the door of the private room.

What made Xia ruofei frown was that the three of them seemed to be walking on air, and they reeked of alcohol ...

Chapter 669: domineering (1)

"Ah, bureau chief he, I'm really sorry ..." The leader, a man in his thirties, said with a fake smile."When we were about to leave, chief Lin stopped us and said that he had a plan ... This ... The leader summoned us, so we didn't dare to disobey!" I'm really sorry ..."

Since he had said so, he kun's displeasure was not in the best place to show it. He laughed and said,""Haha, chief Qi, it seems that director Lin thinks highly of you! Your future is limitless!"

"You're too kind ..." Chief Qi waved his hand."Director Lin is just caring for his subordinates. As his subordinates, we should know our limits!"

Why are you pretending to be a big – tailed Wolf! He kun cursed in his heart, but the smile on his face didn't fade. He said,""Come here, Section Chief Qi. Let me introduce to you, this is the chairman of the southeast province's Tao Yuan company, Xia ruofei, CEO Xia. Brother Xia, this is Section Chief Qi Min from the medicine and cosmetics registration division's Chinese medicine and ethnic Medicine Division. Both of you are young and promising talents. We should get to know each other better later!"

Xia ruofei had been watching coldly from the side for a while. Seeing he kun introduce him, he smiled and reached out his hand."Section Chief Qi, it's a pleasure to meet you!"

Qi Min looked down at Xia ruofei, snorted, and nodded slightly as a greeting. He ignored Xia ruofei's outstretched hand.

Xia ruofei could not help but frown.

The impression that Section Chief Qi gave him was really bad. He had agreed to someone's dinner party, but he had only arrived at eight or nineo' clock. Moreover, he was full of nonsense, as if he was the king and he was second. In addition, he greeted them with an arrogant look, which made him feel even more disgusted from the bottom of his heart.

Seeing this, he kun quickly gave Xia ruofei a look and then continued to introduce the other two people to Xia ruofei.

Even though the two of them were neither too friendly nor too cold, they were much better than Qi Min.

One of them was called Lu Ping, a Head of the Department. The oldest was called Guo Ziyang, and he was the Deputy researcher in the Department. His rank was half a rank higher than Qi Min, but it was obvious that Qi Min was the leader among the three of them.

This wasn't uncommon in the system. A Deputy researcher's power might not be as strong as a real department head's, and his voice wasn't as strong as the other party's. When he came out, he would naturally follow the other party's lead.

Moreover, he kun's main purpose this time was to invite Qi Min to dinner.

.....

As the heart – nourishing soup was a type of Traditional Chinese Medicine preparation, after the materials were submitted, the final decision to set up the project would be made by the pharmaceutical and cosmetic Registration Division, the Traditional Chinese Medicine Division, and the Department that Qi Min was in charge of.

He kun quickly invited everyone to take their seats. As for Xue Jinshan and the others, he kun did not even introduce them.

However, Qi Min's gaze swept over Bai He, and he couldn't help but take a few more glances. A strange light flashed in his eyes.

Xia ruofei could not help but frown when he saw this.

He kun raised his glass and said, "come, chief Qi, leaders, let's have a drink together!" It's fate that we're able to meet in the capital!"

Qi Min smiled and nodded, "director he, you're giving me face by thinking of me first when you came to the capital!" We must finish this cup of wine!"

After he finished speaking, Qi Min clinked his glass with he kun's. Then, he turned a blind eye to Xia ruofei and the others and raised his head to finish the glass of wine.

He kun saw all of this and could not help but frown. He felt that Qi Min's attitude today was a little off.

He kun had done something similar in the past. After all, the profits of Chinese medicine were considerable. In recent years, many pharmaceutical factories had been developing Chinese medicine.

The authority of the National medicine management Office of Traditional Chinese Medicine naturally rose with the tide.

Director Lin from the National Chinese medicine management Office, which was easy to get in the past, directly refused this time. It was not easy to get Qi Min. Although this small section – Level cadre's words were relatively polite, the sense of rejection was quite obvious.

Especially when he was with Xia ruofei, Qi Min's eyes were on top of his head and he did not even take Xia ruofei seriously.

He kun had hinted over the phone that Xia ruofei was different from other pharmaceutical factory bosses. It was the southeast Provincial Party Committee leader who had personally asked for help.

However, Qi Min still didn't give him any face, which was indeed a little unusual.

He kun was also a shrewd man, so he didn't show it. He put down his wine glass and laughed, "Leaders, everyone, eat more! Eh? Why hadn't the Wang Residence's medicinal cuisine arrived yet? I'll go and urge him ..."

With that, he kun gave Xia ruofei a look, indicating for him to make a few more toasts. Then, he took his phone and walked out of the room.

He kun walked for more than ten meters and stopped after turning a corner. He took out his phone and made a call.

"Secretary Li, I'm little he!" He kun said enthusiastically.

The person he was looking for was director li of the second food safety supervision division of the general Administration. This was he kun's long – time friend. Director li used to work in the southeast province's Food and Drug Administration Department all year round and was also he kun's old superior.

He kun's many connections in the headquarters were built up step by step through Secretary li.

Secretary Li's voice carried a trace of fatigue as he said, "Little he ... What's the matter?"

He kun's heart skipped a beat. He suddenly remembered a rumor that he had heard not long ago. In the food safety incident of Yuanshan pharmaceutical, the second division of the food safety supervision had violated the rules many times in the process of handling it, which had caused a very bad impact on society. As the Head of the Department, Secretary li was likely to be held accountable.

Chapter 670: Bossy and domineering (2)

"Secretary li, about Yuanshan pharmaceuticals ..." He kun asked carefully, "are you okay?"

"Little he!" Secretary Li said self – deprecatingly. How could he be fine? Where one's shoes wouldn't get wet when they walked by the river! Yesterday, the head of the general Administration already talked to me and decided to change me to an inspector. "

He kun couldn't help but slap his forehead. So, this was the root of the problem.

These people at the headquarters all knew that he kun was on the side of Secretary li. Now that Secretary li had been dealt with and changed to a non – Leadership position, even these people's attitude towards he kun had taken a 180 – degree turn.

Sometimes, the bigger the mechanism, the colder the human nature and the world would be.

"Secretary li, why is this matter so serious?" He kun didn't know how to comfort Secretary li.

Secretary Li laughed at himself and said, "Someone's using this as an excuse! This old fellow is blocking someone else's path, this is forcing me to make way for them!"

He kun heaved a long sigh.

"Oh right, Xiao He, is there something you need from me?" asked Secretary Li.

He kun did not know what to say and could only stammer, "It's fine, old leader. I just happened to be in Beijing today to attend a seminar ... How about this, I'll find time to visit you tomorrow!"

"Sometimes, it's still us old brothers who can be relied on!" Secretary Li said emotionally. Xiao He, I appreciate your kind intentions, but you don't have to come, lest it affects you badly. "

"It's coming, it's coming ..." He kun quickly said.

After hanging up the phone, he kun's mind was in a mess as he walked toward the private room.

.....

He realized that things were not looking good this time.

The connections that he had always been proud of had collapsed overnight, and this time, it was a task personally assigned by Secretary Tian. If it were the bosses of the pharmaceutical factories who had entrusted him with this task in the past, he wouldn't have been able to complete it. But this time, he could not!

After thinking about it, he could only force himself to coordinate it.

A Chinese medicine Project wasn't a big deal. He kun felt that as long as he lowered his stance, Qi Min might not completely ignore him.

Anyway, he had to get through this first. As for how he would pass it when he returned to the headquarters for review, he did not think too much about it for the time being.

With this in mind, he kun pushed open the door of the private room and walked in with a smile.

The atmosphere in the private room was a little strange.

Qi Min, Lu Ping, and Guo Ziyang were chatting among themselves, drinking and toasting each other while ignoring Xia ruofei and the other three.

Xia ruofei didn't make a toast to humiliate himself. He just frowned and sat in his seat.

The development of the matter was not quite what he had imagined.

As soon as he kun came in, he immediately said enthusiastically, "Chief Qi, on behalf of the grassroots, I propose a toast to you! Thank you for your support to the grassroots! How about this, I'll finish this glass of wine, and you can ..."

Qi Min, Lu Ping, and Guo Ziyang all had strange looks on their faces. He kun had obviously lowered his stance even more after going out for a while.

Qi Min laughed and said, "bureau chief he, you're too kind!" You're the leader, we should be the ones to respect you!"

Although he said that, Qi Min was just being polite with his mouth. He took the responsibility and clinked his glass with he kun 's. Then, he really took a small sip and did not finish it in one go.

He kun's expression froze for a moment. Then, he chuckled and finished the white wine in his glass. He even politely showed the bottom of the glass to Qi Min.

Xia ruofei, who was standing at the side, could not understand the situation. What was he kun up to? Were all the government officials in the Ministry of State affairs so impressive? A section – Level cadre was in a hurry to put on airs in front of the Deputy – Level Deputy Director of the local Food and Drug Administration?

Qi Min had already had a drink before he came, so his face was glowing with health. He picked up some food with his chopsticks and put it in his mouth. As he chewed, he said, ""Bureau chief he, the president of the pharmaceutical company you brought here today seems to be very arrogant! I've been in here for half a day, but I haven't seen him offer a toast! Do you still want to get things done?"

"President Xia, come on, let's toast to Section Chief Qi," he kun said quickly.

Hearing this, Xia ruofei helplessly picked up his glass and stood up. Lu Ping and Guo Ziyang looked at Xia ruofei with interest.

Xia ruofei did not know what was going on. He held his wine glass and walked in front of Qi Min.

Qi Min didn't say a word at first, but when Xia ruofei walked in front of him, he suddenly waved his hand and said, ""Forget it, I don't like to drink with men!"

Xia ruofei immediately frowned. Wasn't he deliberately humiliating him? If you don't want to drink, why did you suggest it? To suddenly say something like this when someone else was holding a glass of wine in front of you, this was also domineering to a certain extent.

At this time, the Chief of Staff, Lu Ping, said with a smile, ""President Xia, don't you understand what chief Qi is trying to say? Get this little beauty from your company to come over and propose a toast!"

Xia ruofei frowned, but before he could speak, he kun said, ""Xiao Bai, since chief Qi has called you, come over and have a toast!"

Xia ruofei wanted to say something but stopped. However, since he kun had already spoken, it would not be good for him to reject him. After all, he kun had already lowered his stance for his sake.

Although Xia ruofei didn't know why it was like this, he knew that something must have gone wrong.

Besides, it was normal to toast each other at the table. Xia ruofei did not need to vent his anger on he kun.

Bai He's pretty face blushed slightly. She stood up a little nervously and brought the cup to Qi Min. She said softly, ""Section Chief Qi, let me toast you. Please take care of our company's new drug project."

Qi Min casually leaned back in his chair and said, "Well said, well said. Let's see how the beauty performs ..."

Bai He hesitated for a moment. "Section Chief Qi, I can't hold my liquor well. Why don't I finish this glass of wine? you can do whatever you want."

Qi Min laughed and said, "I've never been casual when drinking with beautiful women!" But since you can't drink, then let's do something else ..."

Lu Ping's eyes lit up and he smiled. "Section Chief Qi, you're here to have a cross – cupped drink with this little beauty, right?"

Deputy researcher Guo Ziyang also clapped his hands and praised, "This is a good suggestion! Section Chief Qi is the most handsome man in our Traditional Chinese Medicine Department! It's really wonderful for a handsome man and a beautiful woman to cross cups and drink!"

Seeing this, Xia ruofei's eyes couldn't help but reveal a sharp glint. He finally couldn't take it anymore.

Bai He was an undergraduate student who had just walked out of the university campus. She had never seen such a scene before. She was at a loss, and a trace of panic appeared in her eyes.

Lu Ping was still proudly saying, "It seems that beautiful women don't know how to drink cross – cupped wine! Section Chief, why don't you let this President Xia and his staff give a demonstration to the beautiful woman?"

"I think it's fine!" Qi Min laughed as he glanced at Xia ruofei.

He kun saw that Xia ruofei's expression was getting uglier and uglier. He hurriedly shot him a look, asking him to be patient.

However, Xia ruofei was not someone who would swallow his anger. He had been holding back before, mostly because he wanted to save he kun's face.

However, Qi Min and the other two were insatiable and provoked him again and again. Xia ruofei had long lost his patience.

"Enough!" Xia ruofei shouted.

Then, he threw the glass in his hand to the ground, making a sound of glass breaking.

Xia ruofei's eyes emitted a cold glint as he stared at Qi Min. The murderous aura in his eyes made Qi Min shiver.

Qi Min suppressed the fear that came from the bottom of his heart and said sternly, "Bureau chief he, what does your friend mean by this? They can't even take a small joke and still want me to work for them?"
