Chapter 681: Miracle doctor Xia conquered a new field (1)

Xia ruofei's eyes inadvertently swept across the cobblestone layer in the fish tank. A black cobblestone among them quickly caught Xia ruofei's attention.

This cobblestone was about the size of an adult's fist. It looked very similar to the world stone that Xia ruofei had obtained previously.

There was also one more obvious point. Other cobblestones were usually smooth due to the constant erosion of water, but this one was a little pothole – filled, which stood out a little in the water.

However, general Zhao was a general who did not care about trifles, so he probably would not care about this.

After confirming that the world stone he was looking for was in the fish tank, Xia ruofei was no longer in a hurry.

Zhao Cheng had already found the best pre – Mingxi Lake Longjing tea leaves.

"Doctor Xia, how about some green tea? Green tea is healthy!" Zhao Cheng grinned and asked.

"I'm not picky about these things, the guest does as the host wishes." Xia ruofei said with a smile.

"Alright then! Then green tea!"

Jin Feng quickly took the green tea and started to brew it for everyone.

The young Colonel was obviously not an expert at making tea. Although he knew the process of making Kung Fu Tea, his movements were somewhat clumsy.

Later, Song Rui couldn't stand it anymore. He stood up and said, "Colonel Louis, I'll do it!"

Jin Feng's dark face blushed slightly and he gave up his seat.

.....

Song Rui had been living in the Southeast province for a few months and had learned the technique of making kungfu tea. His movements were obviously more skillful than Jin Feng's.

Zhao Cheng's tea was indeed good, and the room was filled with the fragrance of tea.

Everyone sipped their tea and chatted. After a while, an orderly ran over and saluted. He said loudly, "Chief of staff! The room has been prepared!"

"Good! Then let's go!" Zhao Cheng put down his teacup and stood up. "Dr. Xia, would you like to have some more tea or do you want to go for a checkup directly?"

Xia ruofei laughed and stood up. "I didn't come here to drink tea! Let's go!"

The odd – Job soldier led the way, and the group soon arrived in front of a room.

Xia ruofei stopped and turned around.””General Zhao and I will go in. The rest of the people will wait outside!”

Jin Feng frowned slightly and said,””Doctor Xia, I’m the chief’s personal guard. I have to be present!”

Xia ruofei spread out his hands and said,”I can’t think of a reasonable reason why you must be present.” In the heavily guarded military administrative area, there are soldiers with loaded guns both inside and outside the villa. All the high points within a few kilometers are your own people, right? What danger could general Zhao be in? Are you suspecting me?”

“Of course not!” Jin Feng quickly said,”it’s just that this is a Security Rule ...”

“Xiao Ling, that’s enough!” Zhao Cheng waved his hand and said,”wait at the door ...”

“But ...”

“But, my ass!” Zhao Cheng said,”do you have to be there when I’m doing something with my wife? Bullshit!”

With that, Zhao Cheng pushed the door open and walked in.

To put it bluntly, it was because Xia ruofei was an outsider that the personal guard could not let the chief out of his sight. However, he could not say such things.

Xia ruofei’s expression was a little strange. Zhao Cheng’s analogy made him feel a little weird.

However, he still quickly followed after her and closed the door behind him.

The room wasn’t very big, but the decorations were very elegant, and there was a faint smell of incense in the air.

A single treatment bed was placed against the wall.

Xia ruofei took a closer look. There was a full set of Traditional Chinese Medicine tools on the table, including needles of various sizes for acupuncture.

“Doctor Xia, do the conditions here meet your requirements?” Zhao Cheng asked.

Xia ruofei smiled and nodded.””Yes, I can. General Zhao, please take a seat! I’ll take your pulse first ...”

Xia ruofei had read about the pulse of diabetes patients in medical books. Although he had a medical qualification certificate that elder song had specially arranged for him, he did not have the opportunity to practice. Hence, he had very few opportunities to practice. Xia ruofei was also very curious and could try to feel it from Zhao Cheng. He could combine theory and practice.

Hence, when Xia ruofei took her pulse, he spent more time.

He compared Zhao Cheng’s pulse to what he had learned from the medical books. When he found a match, his brows naturally relaxed and he nodded. When he found a difference, he would frown and even shake his head at times, thinking that it was unbelievable.

In fact, it was just a process of learning and verifying.

But in Zhao Cheng's eyes, these subtle changes in expressions and movements were like signals.

Zhao Cheng had just been diagnosed with diabetes and was in a state of anxiety. Hence, when Xia ruofei was checking his pulse, he paid close attention to Xia ruofei's expression.

Xia ruofei was frowning, smiling, and shaking his head. Zhao Cheng's heart was in a mess. It was like a roller coaster, and he was very nervous.

It was only when Xia ruofei let go of his hand that Zhao Cheng asked, "Doctor Xia, is my illness very complicated and difficult to treat?"

Xia ruofei gave Zhao Cheng a strange look and said, "I don't think so! General Zhao, why are you suddenly asking this?"

"I ... I see you shaking your head and frowning. People who don't know you might think that you have an incurable disease!" Zhao Cheng said. This guy! It's too scary ..."

Chapter 682: Miracle doctor Xia conquered a new field (2)

Xia ruofei was stunned for a moment, then he laughed.

He stood up and said, "Alright, general Zhao, the inspection is complete!"

"This is it?" Zhao Cheng could not believe it. "Aren't you going to take a look at my huge stack of reports?"

"It's a report from Western medicine. I don't understand it either." Xia ruofei laughed and said, "let's go! I'll go and prepare the prescription now. By the way, do you have the common Chinese medicine here?"

"There are!" Zhao Cheng said, "I've set up a Chinese medicine room on the first floor. You can go and get whatever you need!"

"That's much more convenient!"

The two of them walked out of the door together. Jin Feng and Song Rui both came up to them.

"How is it?" Song Rui asked.

"No problem," he said. Xia ruofei said calmly, "I'll start taking the medicine today."

"By the way, general Zhao." Xia ruofei suddenly turned around and asked, "does your rule say that anyone with diabetes must be transferred from the front line of combat, or does it have to be serious to a certain extent? Do you have a specific standard?"

Zhao Cheng laughed bitterly. "There are no specific standards for this. However, generally speaking, if it can be controlled by taking the medicine, then it's not a big problem. However, for someone like me who even has an insulin pump installed, I will definitely have to be adjusted."

"I understand." Xia ruofei nodded and said, "in other words, my top priority is to reduce the severity of your diabetes. As long as you don't need to use an insulin pump, then at least the higher-ups won't have any reason to transfer you away, right?"

"Yes, yes!" Zhao Cheng said agitatedly, "doctor Xia, do you really have a solution? Then ... How long do you need?"

.....

Xia ruofei smiled. "If you want to be cured, it will take a little longer. However, it'll only be separation from the insulin pump. It'll take a week at most!"

"That's great!" Zhao Cheng clapped his hands and said excitedly, "Jin Feng, immediately bring Dr. Xia to the pharmacy downstairs to get the medicine!" If doctor Xia has any requests, you must fully cooperate!"

Jin Feng also revealed an excited expression. He tried his best to stick out his chest and said, ""Yes!"

Then, he made an inviting gesture to Xia ruofei. ""Doctor Xia, please!"

Xia ruofei said to Zhao Cheng, "general Zhao, you should have an empty room here, right?" For the convenience of treatment, I'll be staying at your place for the next week. "

Xia ruofei was still thinking about that realm stone! Before he got his hands on the world stone, Xia ruofei did not dare to leave the villa. He had to prevent the world stone from leaving the sensing range of the spirit map.

It was better to be safe than sorry.

If something had really happened to the world stone in the past few days, such as Zhao Cheng losing it on a whim or a guest suddenly leaving ...

Although the possibility of such an accident was extremely low, Xia ruofei would not allow it to happen.

"Yes, yes, yes! There are plenty of rooms!" Zhao Cheng laughed heartily. "I've already prepared it for Dr. Xia. You can stay as long as you want!"

Xia ruofei nodded and said to Song Rui, ""Song Rui, you don't have to keep an eye on this side. Go and do what you have to do. When you're done, you can go back to the three mountains! I'll go back by myself after the treatment here is over. "

"Alright!" Song Rui nodded and said, "then I'll leave uncle Zhao in your care!"

"Don't worry!" Xia ruofei said, "when we go back, tell elder Song not to worry. I will definitely be able to cure general Zhao's illness!"

"No problem! Go and prepare the medicine first! The earlier he's cured, the earlier uncle Zhao can be at ease. " Song Rui said.

"En!"

Jin Feng brought Song Rui to the first floor.

He opened a large room and immediately smelled a familiar scent of Chinese medicine. A row of large cabinets almost took up an entire wall. There were small drawers on the cabinet, and each drawer had the name of the medicine written on it.

It was the Traditional Chinese Medicine cabinet.

Xia ruofei suspected that Zhao Cheng had really moved the Chinese medicine room from a military hospital here.

However, he didn't care much. It was fine as long as he had the Chinese medicine he needed.

"The Yimu grass ... Is here! Where was the red peony? What the hell ... That high! Where's the ladder? Atractylodes, arrowroot, haha, they're all here! Let me see, there's also prepared land, wood, Chinese yam ..."

Xia ruofei mumbled to himself as he searched for the herbs he needed.

When he came across some herbs that were hard to buy or often used, Xia ruofei did not stand on ceremony and kept them in the spirit map space.

Xia Qing, who was in the space, naturally sorted them out on the medicine rack.

Not only was the variety of Chinese medicine here more complete, but the quality was also obviously higher than those bought from other Chinese medicine shops. Xia ruofei was even more certain that these were from the military hospital.

There was a full set of medicine – decocting tools in the room.

Xia ruofei quickly made a medicinal soup with the selected herbs. It was a prescription for improving blood circulation and lowering blood sugar. It was also beneficial for ordinary diabetes patients.

Of course, after Xia ruofei added some ingredients, the soup was different.

A bowl of blood – promoting and blood – lowering soup had become a "miracle medicine" that could cure diabetes.

Xia ruofei pretended to be tired and opened the door.

Jin Feng immediately came up to him.

Xia ruofei turned around and pointed at the bowl of medicinal soup on the table. "Find someone to bring it to general Zhao to drink. Colonel Louis, where's my room? I'm a little tired and need to rest."

Chapter 683: Miracle doctor Xia conquered a new field (3)

Jin Feng hurriedly called for a capable soldier and told him to carefully bring the bowl of medicine to Zhao Cheng. Jin Feng then personally led Xia ruofei back to her room.

The bedroom that Zhao Cheng had prepared for Xia ruofei was on the third floor. It was a very spacious room with a huge balcony. There was also a separate bathroom in the room and even a large bathtub.

"Doctor Xia, is this room okay?" Jin Feng asked, "if you're not satisfied, I'll adjust it for you."

"No need, no need!" Xia ruofei quickly waved his hand and said, "this is good enough. This one!"

"Alright, doctor Xia, you've worked hard. I'll call you when it's time to eat!" Jin Feng said, then saluted and left.

After Jin Feng left, Xia ruofei gave he kun a call to ask about the situation. He kun told him that Zeng Kewen had summoned him in the afternoon.

Xia ruofei told he kun that he had moved out of the Rongcheng hotel and had other matters to attend to with song Rui. He asked he kun to return to the capital after he was done with his business and not to worry about him.

Hearing that Xia ruofei had already moved out of the hotel, he kun felt that it was a little sudden. However, his mind was focused on meeting him with Zeng Kewen, so he only said a few polite words. He then made an appointment with Xia ruofei to have a good gathering after returning to San Shan.

After the call with he kun, Xia ruofei called Feng Jing and Ling Qingxue to inform them that the project for heart – nourishing soup was going smoothly. However, he had other matters to attend to in Beijing and would be delayed for about a week.

After he was done, Xia ruofei took off his coat and leaned on the bed, closing his eyes to rest. After a while, there was a knock on the door. Xia ruofei shouted, ""Please enter!"

It was Colonel Jin Feng who came in. He saluted Xia ruofei and said, ""Doctor Xia, the chief asked me to invite you to dinner!"

"Thanks for your hard work, Colonel Louis!" Xia ruofei smiled and said, "let's go!"

When the two of them arrived at the dining room, a sumptuous luncheon had already been prepared. The military style was very obvious. It was all big and rough bowls, and the number of dishes far exceeded that of the restaurants outside.

.....

Zhao Cheng stood up and took two steps forward, saying, "Doctor Xia, come and eat!"

At noon, there were only Xia ruofei and song Rui as guests. In addition to the host, Zhao Cheng, and Jin Feng, who was accompanying him, there were only four people in total. There were at least 18 to 19 dishes on this big round table, and the amount of each dish was shockingly large.

Zhao Cheng warmly invited Xia ruofei to sit on his right. Song Rui was naturally on his left.

Then, he unscrewed a bottle of precious twenty – year – old Chen Maotai and served Xia ruofei and song Rui the wine. He poured himself a glass and put the bottle on the table. "Doctor Xia, Xiao Rui, I'd like to give you the first toast! I, old Zhao, was already in despair. It was you who gave me New Hope! Regardless of whether this will work out or not, old Zhao is grateful to the two of you from the bottom of his heart! Come, let's drink first!"

After that, Zhao Cheng raised his head and toasted.

Xia ruofei and song Rui naturally did not say anything and drank with him.

After finishing his glass of wine, song Rui couldn't help but frown and say, ""Ruofei, after drinking your Drunken Eight Immortals recently, I can't even taste the alcohol in Maotai anymore ..."

When Zhao Cheng heard this, he couldn't help but reveal a look of disbelief. He said, "What? Xiao Rui, this is a twenty – year – old Maotai. I took it out especially for the guests today! What kind of wine is that? Compared to this, my twenty years of Chen Maotai has no smell of alcohol?"

Chapter 684: Effective after one course of treatment (1)

Song Rui smiled and said, "uncle Zhao, I really didn't mean to trample on your old Maotai!" RUO Fei had created a wine some time ago called the Drunken Eight Immortals. The fragrance and taste ... How should he put it? It made people unable to forget it after drinking it once! This wine is already quite famous in the South, but it probably hasn't spread to the North of the Yellow River yet!"

Xia ruofei chuckled. "I saw it yesterday at the Beijing office of the three mountains. It must have been sent directly from the southeast province."

"Oh, really? Then I'll have to find time to go to the Rong city hotel and get two bottles of wine to drink!" Song Rui said in surprise.

The conversation between Xia ruofei and song Rui made Zhao Cheng even more interested in drunken eight immortal. He couldn't help but ask, ""Doctor Xia, this Drunken Eight Immortals wine ... Hehe ... Can you get me two bottles and let me try it?"

Xia ruofei smiled and said, "general Zhao, I didn't bring Drunken Eight Immortals with me to the capital." Just wait for me to return to the three mountains! I'll get the winery to send you a few bottles. Our production capacity hasn't come up yet, so please don't think it's too little!"

"I won 't, I won' T. I'm just trying the taste!" "It's a deal then!" Zhao Cheng said happily.

"It's a deal!" Xia ruofei said with a smile.

"Why don't I get someone to get a few bottles from the Rong city hotel and send them over now?" Song Rui said with some eagerness.

Xia ruofei couldn't help but roll his eyes. "Come on! Are you that addicted to alcohol? Didn't you hear me say that there was also the Drunken Eight Immortals in the capital? I didn't see you unable to survive! Alright, alright, don't torment yourself anymore. Let's drink! This Maotai is not bad!"

Xia ruofei took the initiative to raise his glass and toast Zhao Cheng.

After lunch, Xia ruofei said, ""General Zhao, you've just taken the medicine. You can skip the medicine for this afternoon. You can take the second one after dinner."

"Doctor Xia, you have the final say in the treatment. I will definitely obey and cooperate!" Zhao Cheng quickly said.

Xia ruofei nodded and said, "okay, then let's take a break in the afternoon if you have nothing to do!" When it's about time, I'll go to the pharmacy to brew the medicine. "

.....

"No problem!"

“Ruofei, I’ll leave uncle Zhao to you. I won’t stay here to accompany you,” song Rui said as he walked over.

“Go and do your work! I’m here, so you don’t have to worry!” Xia ruofei said.

“Yes, I’ll be done with my business in Beijing in a day or two. I’ll return to Sanshan city then. See you at Sanshan!” Song Rui patted Xia ruofei’s shoulder and said.

“As long as you don’t keep thinking about my cigarettes, my wine, and the vegetables, fruits, and flowers on my farm, Tao Yuan farm still welcomes you.” Xia ruofei said with a smile.

Song Rui rolled his eyes and said, “I’ve never seen such a petty person like you!” You’ve been telling me to smoke a few packs of your cigarettes for so long ...”

Xia ruofei raised his head and laughed, not feeling ashamed at all.

After sending song Rui off, Xia ruofei bade Zhao Cheng goodbye and went back to his room to rest.

Although it was not convenient for Xia ruofei to take out the spirit scroll in Zhao city, as the master of the spirit map world, Xia ruofei could still communicate with the spiritual puppet Xia Qing in the space even if he was in the outside world.

Xia Qing already knew that her master had found a clue to a world stone in the outside world, so she was very happy for Xia ruofei.

Xia ruofei specifically asked Xia Qing if she would be affected when absorbing world stones in the spirit map world and if she needed to make any special preparations.

Xia Qing expressed that it didn’t affect her at all and that as long as Xia ruofei obtained the world stone, he could send it in at any time.

Xia ruofei was relieved when he heard this and did not continue to talk about this matter. Instead, he let Xia Qing wait patiently while he withdrew his mind from the spirit map space.

At around five in the evening, Xia ruofei got up and went to the pharmacy on the first floor. He skillfully found the herbs he needed and began to boil the medicine for Zhao Cheng’s evening drink.

As Xia ruofei lived here and there were many Chinese medicinal herbs here, Xia ruofei only made one portion each time and drank it on the spot.

Although it was a little more troublesome, the quality of the medicinal soup was better.

After preparing the Chinese medicine, Xia ruofei asked someone to feed it to Zhao Cheng. Actually, the main ingredient in the medicine was still the petals of the spirit Heart Flower, so it did not matter if he took it before or after the meal.

Soon, it was time for dinner. Zhao Cheng ate with Xia ruofei personally, with Colonel Jin Feng accompanying them.

After dinner, Xia ruofei went back to his room.

For the next few days, Xia ruofei had been living a secluded life.

Every morning, he would brew some medicine and practice martial arts in the spacious Chinese medicine room. After brewing the medicine, he would give it to Zhao Cheng and everyone would have breakfast together.

It was the same at noon and at night. Xia ruofei would always come to the first floor one or two hours earlier to prepare the Chinese medicine. Zhao Cheng would rest for a while after drinking the medicine and then eat.

Other than boiling medicine, Xia ruofei spent most of his time in his room, reading books, surfing the internet, and sometimes talking on the phone with Ling Qingxue.

If Song Rui were to live such a life, he would probably be suffocated in a few days. However, Xia ruofei did not feel any discomfort.

.....

In the blink of an eye, six days had passed.

Although Zhao Cheng and Xia ruofei talked and laughed every day, he was actually under a lot of pressure.

Just a few days after he was diagnosed, a leader from the headquarters had already spoken to him, intending to adjust his position. To put it bluntly, he wanted to weaken his authority and transfer him from a frontline commander position to some insignificant and idle positions.

Chapter 685: The effects of one course of treatment (2)

Although Zhao Cheng had made it clear that he could still continue to perform his duties as the Chief of Staff of the military Region, and he had quickly taken leave with the excuse of recuperating, the news of his departure was still spreading like wildfire.

In the past few days, there had even been rumors that a general of a military group was going to take over Zhao Cheng's position in the capital. The rumors were very real and did not seem like they were made up.

Zhao Cheng was anxious, but he could not rush Xia ruofei. He knew that Chinese medicine would take a long time to take effect. It would be useless even if he rushed Xia ruofei. He could only hold on.

In the evening, after Zhao Cheng had finished taking the Chinese medicine that Xia ruofei had just brewed, Xia ruofei appeared in front of Zhao Cheng.

"General Zhao, the first course of treatment is over," Xia ruofei said with a smile.

"It's over?" Zhao Cheng was stunned.

He still couldn't believe it. Based on his impression of Chinese medicine, it had only been six days and he had only drunk a dozen Chinese medicines. He had diabetes! It was not an ordinary cold or fever!

"General Zhao, you can go to the hospital for another check – up tomorrow morning." Xia ruofei smiled and nodded. I think the symptoms of diabetes should have been greatly improved. At least, you don't need to use an insulin pump for the time being!"

Hearing this, Zhao Cheng was overjoyed. He asked excitedly, ""Doctor Xia, is this true?"

This was too important to him! If he could get rid of the insulin pump, he believed that no one would be able to force him to quit his job. After all, he was still a powerful leader in the region, and he had the behemoth song family behind him!

It was fine if he wanted to be transferred to an idle position. He would first let those commanders and Deputy commanders of other military regions who had been suffering from diabetes for several years be an example!

If Xia ruofei had not said that the last dose of Chinese medicine would take a night to absorb, Zhao Cheng would have rushed to the military general Hospital for a checkup.

He managed to hold it in for the entire night. The next morning, without even having breakfast, he drove straight to the military general Hospital with Jin Feng.

.....

Xia ruofei, who was full of confidence, did not follow them. He went back to his room and made himself a cup of tea. Then, he sat on the deck chair on the balcony and slowly enjoyed his tea.

Zhao Cheng's test results came out very quickly. The group of experts and professors were shocked. It had only been a week, so how could the results be so different?

The last time he was checked, he had severe diabetes and had to be injected with Insulin for Life. Today's test results still showed that his blood sugar was too high, but the degree was much less serious. He only needed to take medicine to control it.

There was a huge difference between the two.

Could it be that there was something wrong with the hospital's testing equipment? The doctors, experts, and professors didn't dare to tell Zhao Cheng the results so easily. They secretly informed the laboratory to use the same sample for another test. This time, they had to be careful and not let any problems occur.

The results of the second test came out very quickly. It was almost exactly the same as the first time!

The office was almost in an uproar. Everyone expressed their disbelief because this had completely subverted the medical theoretical system that they had formed over the years.

Zhao Cheng didn't care how shocked these people were! He only wanted the results.

Seeing that there was no result after a long time, Zhao Cheng couldn't help but shout, ""Little Gao! Get the hell out here ... Why can't we get any results after such a long examination? The efficiency of your hospital is getting lower and lower!"

Director Gao of the General Hospital quickly ran over with the examination report and said, ""Congratulations, chief! Your diabetes has been treated very well, and all the indicators are closer to normal levels than the last examination ..."

"I only want to know one thing!" Zhao Cheng interrupted director Gao."Do I still need to use an insulin pump?"

"No need! No need!" Director Gao had also heard the rumors that Zhao Cheng was going to be adjusted, so he quickly said,"chief, we just need to control it with drugs and at the same time, maintain good and healthy living habits! It won't affect your work!"

"Put this in the report!" Zhao Cheng said.

This obviously unruly request made director Gao hesitate for a moment. But when Zhao Cheng glared at him, director Gao immediately agreed without any hesitation.

With this report, Zhao Cheng rushed to Building 81 and found the head of the headquarters who had spoken to him on behalf of the organization a few days ago. He placed the report on the head's desk and sat down without a word.

The head of the headquarters was a little confused. He reached out to take the report and glanced at it. He couldn't help but laugh. He pointed at Zhao Cheng and scolded,"Zhao dapao, Zhao dapao! Are you bored? After holding it in for a few days, you came up with such a report to fool people?"

Zhao Cheng immediately stood up and asked,""No... What do you mean, chief?"

"Who doesn't know that you're overbearing, chief of staff Zhao? The General Hospital of the military Region is under the leadership of your Beijing Military Region, so you can't just open this report as you please."

Zhao Cheng exploded,"bureau chief, how can you not trust me?" Don't you understand what kind of person I, Zhao dapao, am after so many years? Even if I were to be fired on the spot, do you think I would do such a trivial thing?"

The head of the headquarters pondered for a moment and said,""This doesn't seem like Zhao Cheng's style ..."

"It wasn't originally!" Zhao Cheng said,"chief, I went through a week of traditional Chinese medicine treatment. All the indicators have been reduced, so I had to do another examination."

"Traditional Chinese medicine treatment? Diabetes treatment?" The head of the headquarters felt like he was listening to a fantasy story.

"Chief, I didn't believe it at the beginning either." Zhao Cheng chuckled and said,"but the truth is right in front of us. This doctor's medical skills are truly amazing! He said that he would help me get rid of the insulin pump within a week, and he did it in six days! He also said that as long as you insist on receiving treatment, it's completely possible for you to be cured!"

"Which highly respected doctor is it?" The head of the headquarters couldn't help but ask.

Zhao Cheng chuckled in embarrassment."Chief, I'm sorry! He was also introduced by an elder. He's an expert, and I promised him that I'd keep his identity a secret."

The head of the headquarters laughed heartily and said,""Alright then! Then I won't ask anymore ..."

"Chief, since there's nothing wrong with my body, then about my work ..." Zhao Cheng asked with a hint of anticipation.

"Continue with your work!" The head of the headquarters said, "but don't hide your illness and avoid treatment like you did in the past. Otherwise, your body will have a big problem sooner or later!"

"Alright! Thank you, chief!" Zhao Cheng was overjoyed. He stood up, saluted, and said, "Sir, I'll go back first. I'll rest for another day or two at most, and then I'll be back to work!"

The news was spreading like wildfire outside, saying that commander Yang of a certain Army Group was going to take over his position as the Chief of Staff. Zhao Cheng couldn't wait to return to his position.

I'll let those who intentionally or unintentionally spread this news see that I, old Zhao, am still in this position! Not only that, but he would also become more and more comfortable in the future! Unless I get promoted or give up my position, no one can take my position away from me!

The head of the headquarters smiled and nodded. He knew his favorite general well and knew what Zhao Cheng was thinking.

After Zhao Cheng left the 81 building, he asked Jin Feng to drive him back to the high – ranking villa area in the military area.

Along the way, Zhao Cheng swept away all the bad luck he had in the past few days and appeared to be in high spirits.

He was already thinking about how to thank Xia ruofei so that he could show his sincerity.

Zhao Cheng did not know that Xia ruofei had already chosen the 'thank you gift' he wanted and was waiting for Zhao Cheng to return!

Chapter 686: Obtaining the world stone (1)

Once Zhao Cheng got home, he rushed upstairs to look for Xia ruofei.

He grabbed Xia ruofei's hand and shook it agitatedly as he said, "Doctor Xia, I'm really grateful to you this time!"

"General Zhao, are the results out?" Xia ruofei asked with a smile.

"He's out! It's out!" Zhao Cheng said, "his condition has improved greatly. There's no need to inject insulin at the moment. He'll be fine as long as he takes medicine to control it!"

"There's hope for a complete recovery after a few more treatments," Xia ruofei said indifferently.

"Yes, yes, yes. I believe you, Dr. Xia!" Zhao Cheng said happily, "I really have to thank you this time! Doctor Xia, tell me! What do you want? As long as it's not too precious, I have a way to get it for you."

Xia ruofei smiled and shook his head. "General Zhao, I'm only here to treat you because someone asked me to. I've never thought of asking for anything in return."

"I know that, but you've done me such a big favor. It'd be outrageous if I didn't show any gratitude!" Zhao Cheng said, "I know that you're not short of money, Dr. Xia. Otherwise, I would have given you the money directly!"

"General Zhao, let's not talk about this for now," Xia ruofei said with a smile.

Xia ruofei then picked up his simple luggage and said, "Your treatment here has come to an end, but I still have a lot of things to deal with at my company! That's why I should be leaving."

"You're leaving already?" Zhao Cheng was a little surprised. "Doctor Xia, I ... I'm only halfway through my treatment!"

Xia ruofei smiled and said, "I have a lot of things to do in my own company. I can't stay with you for a long time. So, the follow-up treatment may be more troublesome. You need to send someone to my place to get the medicine regularly." Or you can take a short break and live in Sanshan for treatment. You can return to work when you've fully recovered."

Zhao Cheng shook his head. "That won't do, that won't do. I've been on leave for quite a few days. If I don't go back now, those bastards at the headquarters are going to turn the world upside down!"

.....

In truth, Zhao Cheng was more concerned about the negative effects of his long disappearance. This would have a huge impact on the future development of a young and powerful general.

Therefore, it was definitely impossible to take a vacation and go to labor.

He could only use Xia ruofei's method and send people to San Shan city to collect the medicine regularly.

This kind of brewed medicinal soup could only be preserved for three days at most, which meant that Zhao Cheng had to send people to the three mountains every three days, which was indeed quite troublesome.

However, for a Deputy region chief, this was not a problem.

Xia ruofei laughed and said, "then send someone to collect the medicine regularly!" It will take about two to three months to completely cure the diabetes."

"No problem!" Zhao Cheng said, "I'll send people to collect them regularly! But I'll have to trouble you with the brewing of the medicine ..."

Xia ruofei smiled and said, "it's nothing. A doctor has the heart of a parent!" Besides, I'll help you to the end. Since I've promised elder song, I'll naturally do my best. General Zhao, when your men arrive at the three mountains, just give me a call."

"Alright, alright."

Xia ruofei smiled and nodded at Jin Feng. He slung his backpack over his shoulder and went downstairs.

"Doctor Xia, I haven't thanked you properly yet!" Zhao Cheng quickly caught up to him.

Xia ruofei stopped in his tracks and looked into Zhao Cheng's eyes. "General Zhao, how do you want to thank me?"

"It's too common to give money! Dr. Xia, is there anything you want? As long as you can think of it, I'll do everything I can to get it for you!" Zhao Cheng said.

"The things in this villa will work too?" Xia ruofei asked with a smile.

"That's great! I'm in and out of my room, you can take whatever you like!" "Even if you're interested in my precious guns, I'll give them to you without hesitation. I'll even help you get all the documents!" Zhao Cheng said in a low voice.

Xia ruofei laughed and said, "general Zhao is indeed very particular in handling matters!" I've already thought of what I want!"

"Oh? What do I have here that can catch your eye, doctor Xia?" Zhao Cheng asked curiously.

Xia ruofei said as he went downstairs, "General Zhao, no matter what I like, I can just take it away, right?"

"Yes, yes, yes! Please don't stand on ceremony with me!"

"Then after I take it, we're even! You don't have to keep thanking me!" Xia ruofei said with a smile.

"A gift is just a way to express my gratitude. You've done me such a big favor. Nothing can replace my gratitude!" Zhao Cheng said.

Xia ruofei shook his head helplessly. By then, they had already reached the first floor.

"General Zhao, I'll take it then!" Xia ruofei said.

"Take it directly! You're welcome!" Zhao Cheng made a gesture of invitation.

Jin Feng was also very curious. He had thought that Xia ruofei would decline, and Zhao Cheng would prepare a gift for Xia ruofei according to his idea. Xia ruofei would then reluctantly accept it.

This should be the correct script, right?

He did not expect Xia ruofei to be someone who did not play by the rules. He really did pick a gift from Zhao Cheng's house.

What would he take out?

Chapter 687: Obtaining the world stone (2)

The mahogany furniture? It was too big and inconvenient to move!

The treasured calligraphy of the great general Zheng that was hung on the wall? It's possible ... General Zheng was an uncouth man, one of the ten old generals with outstanding achievements in the country. He didn't leave many ink paintings in the world, and this one in Zhao Cheng's collection was also very precious.

If neither of them was the case, could it be that he had really taken a fancy to the guns in general Zhao's collection?

Jin Feng had been guessing in his heart.

Zhao Cheng was naturally thinking of similar problems.

Under their gazes, Xia ruofei walked to the fish tank without hesitation. He reached in and grabbed the realm stone as if no one was around.

Xia ruofei reached out and pulled out a few tissues from the coffee table beside the sofa. He wiped the water off his arms and the world stone, then picked up the stone and showed it to Zhao Cheng and Jin Feng.

Xia ruofei grinned. "Alright, I'm done with the gift selection. General Zhao, you don't have to worry anymore, right?"

Jin Feng's face was filled with shock, and Zhao Cheng was dumbfounded.

"Dr ... Dr. Xia, is this the gift you chose?" "This is too ..." Zhao Cheng said.

Xia ruofei kept the world stone in his bag and smiled. "Didn't you say I could choose? I want it! Will general Zhao go back on his word?"

"No, no..." Zhao Cheng said hurriedly. His lips moved a few times before he said, "doctor Xia, you're a good doctor Who doesn't care about fame and fortune! I, old Zhao, will remember this favor! I won't say any more words of thanks, but if you need my help in the future, just let me know, I won't say anything!"

Jin Feng's gaze towards Xia ruofei was filled with admiration and gratitude.

.....

It was obvious that both of them thought that Xia ruofei had purposely chosen this worthless cobblestone. His motive was naturally to reject Zhao Cheng's gift and at the same time, not to make things difficult for Zhao Cheng.

Such a 'noble character and unquestionable integrity' made the two of them really respect and grateful.

Xia ruofei knew what the two of them were thinking, but it was not easy to explain, so he could only let them misunderstand.

No matter what was said, being able to obtain this precious world stone while treating Zhao Cheng was a pleasant surprise.

This trip was not in vain!

After obtaining the world stone that he wanted the most, Xia ruofei was eager to return home. He said, "General Zhao, I'll take my leave then! Please send a car to send me to the airport!"

"Don't worry, doctor Xia," Zhao Cheng quickly said. Sit down and have a rest. "

"Is there anything else, general Zhao?" Xia ruofei asked, puzzled.

Zhao Cheng smiled and did not answer Xia ruofei's question. Instead, he turned to Jin Feng and said, "Little Jun! Call the military air force immediately and ask them if they have any transportation plans or training plans to San Shan city in the southeast province today. I have an important guest to board the plane!"

"Yes!" Jin Feng immediately stood at attention and replied.

After saying that, Jin Feng immediately walked to the corner of the living room, picked up the military line, and made a call.

He understood what Zhao Cheng meant. This phone call wasn't just a simple inquiry. The military air force didn't care if the original plan was to have a transport plane to Sanshan city, but after Jin Feng made this phone call, there would definitely be one.

Adjusting the training plan at the last minute and letting the pilots fly in unfamiliar airspace and routes was also a part of the actual combat training!

Sure enough, a few minutes later, Jin Feng walked over with a majestic gait. He saluted Zhao Cheng and said, "Chief of staff! A transport plane from the military's Air Force took off from Nanyuan Airport an hour later and flew to the Yixu military airport in Sanshan city, Southeast province! I've already made the arrangements. Doctor Xia, you can take this plane back to the three mountains!"

"Good! There's almost enough time. Xiao Ling, arrange for a car immediately. You have to personally bring the car and send Dr Xia to the plane!" Zhao Cheng said.

"Yes!" Jin Feng stood at attention and said.

Zhao Cheng turned to Xia ruofei and smiled. "Doctor Xia, do you think my arrangement is okay? Even though military transport planes are not as comfortable as civilian planes, they have a shorter flight time and this is a rather special experience."

Xia ruofei smiled and said, "it's good!" General Zhao, I haven't been on a military plane for more than a year. It's quite good to experience it again. Thank you!"

"Hahaha! Then let's not waste any more time. Time is a little tight, so you can set off now!" Zhao Cheng said happily.

Jin Feng had already prepared the car. Zhao Cheng personally sent Xia ruofei to the door and watched the mengshi command car drive away with mixed feelings. After a while, he turned around and returned to the house.

Jin Feng was leading the car in front. He was still silent, but he was obviously different from when he had arrived. The Colonel was full of admiration and gratitude for Xia ruofei.

The car sped all the way and arrived at Nanyuan Airport in more than 40 minutes.

Because of the flight training, the security level of the airport had also been raised a lot. They could already see hidden sentries scattered all over the place even from a distance away from the airport.

However, this mengshi command vehicle with a military license plate was unimpeded all the way. It quickly entered the military airport and came directly to the runway.

An army green transport plane was parked on the runway and the engine had been activated. Several soldiers in Air Force woodland camouflage stood near the plane. When they saw the car coming, several soldiers quickly came up to greet it.

Both parties saluted and exchanged pleasantries.

Only then did Xia ruofei know that among these people, there was the chief political commissar of the station and the Chief of Staff of the flying unit.

Chapter 688: Obtaining the world stone (3)

The captain of this airplane was Zhang shiguang, the deputy head of the flight crew.

It showed how much importance the military air force attached to this flight.

Of course, Xia ruofei was clear that this was all because of Zhao Cheng.

The leaders of the military region's Air Force were very polite to Jin Feng. Of course, they were even more polite to Xia ruofei, the only passenger. Wanwan was an important guest that chief of staff Zhao had personally arranged!

After some small talk, Xia ruofei also expressed his gratitude. Then, he boarded the plane with Jin Feng.

The military transport plane naturally did not have the comfortable configuration of a civil flight. The cabin was neatly stacked with army green boxes, which were tightly secured with net pockets. A row of simple seats were placed in the middle of the boxes.

Xia ruofei could tell at a glance that the boxes were filled with weapons and ammunition. It seemed like they were really on a transportation mission.

If an ordinary person knew that they were sitting in a pile of explosives and grenades, they would probably be scared out of their wits. However, Xia ruofei was quite used to it. His expression did not change at all. In fact, he even seemed to be enjoying it.

In fact, when Xia ruofei was in the Army, he was already used to this kind of "human and goods mixed together". It was also common for Xia ruofei to sleep on the bed with an ammunition box.

Those who knew the industry would know that there was nothing to be afraid of.

Jin Feng was also observing Xia ruofei's expression. When he saw Xia ruofei's relaxed expression, Jin Feng could not help but admire Xia ruofei's courage.

Very quickly, everyone who was not participating in the flight, including Jin Feng, waved goodbye to Xia ruofei and got off the plane one by one.

A young pilot in a blue flight suit looked at Xia ruofei curiously. He closed the cabin door and reminded Xia ruofei to fasten his seat belt.

.....

The Air Force was in charge of all of China's airspace, including the Civil Aviation airspace, which was under the control of the air Force air traffic control department. Therefore, this transport aircraft

naturally did not have any queue to take off or flow control. As soon as the door was closed, the plane began to taxi.

The tower immediately gave the permission to take off. The transport plane began to accelerate and slide. Then, it quickly lifted its head and left the ground at a large angle, beginning to rush into the sky.

Civil Aviation aircraft would not have such a large movement and such a high rise rate. Pilots who dared to do so would definitely be drowned in complaints.

Xia ruofei sat in the cabin, looking left and right with a hint of nostalgia in his eyes. From time to time, he would lean to the porthole to look at the scenery outside. He did not feel afraid at all because of the rough flight movements.

It was the same familiar recipe and smell. Xia ruofei had experienced this style of flying countless times. What was there to be afraid of?

From Beijing to Sanshan, there was no interference on the military transport aircraft's route. They were flying in a prohibited area for civil aircraft, and they were basically in a straight line all the way. There was no need to fly around one route point after another. In addition, the military aircraft pilots did not need to consider soft operation, maintaining economic speed and saving fuel at all. Therefore, a two and a half hour flight on civil aircraft was completed in one and a half hours.

At around 11:30, the transport plane landed heavily on the runway of the Yi order military airport.

If this was done by the standard of a civil aircraft, it would definitely be considered a heavy landing. If it was done by the co – Pilot, he would probably be scolded by the captain when he commented.

However, for the sturdy military transport aircraft, this was the correct posture for them to land.

As soon as the plane stopped, the door of the cockpit opened.

Zhang shiguang, who was wearing a blue flight suit, walked out with his helmet. When he saw Xia ruofei, he laughed and asked, "Hahaha! This flight has successfully arrived at the terminal station. Doctor Xia, how do you feel?"

Chapter 689: The ocean in the space (1)

Xia ruofei's expression did not change. He unbuckled his seat belt and stood up steadily. He laughed and said, "Vice – Captain Zhang, your flying skills are excellent! The most important thing is that it can fly fast!"

"Yes!" Zhang shiguang laughed and said. The key was to fly fast! I just can't stand those Civil Aviation pilots, they're so sissy when they fly the plane! If a war were to break out, it would be too late to rely on those people to transport strategic materials!"

Xia ruofei laughed and said, "deputy commander Zhang, you're too extreme!" It was just a different division of labor! The passengers would not be happy if they were to fly a plane like you!"

Zhang shiguang chuckled and said, "doctor Xia, please!" The car to pick you up is already waiting on the tarmac!"

“There’s a car to pick me up?” Xia ruofei said in surprise.

“It was arranged by Colonel Louis.” Zhang shiguang said with a smile.

“He’s really thoughtful.” Xia ruofei smiled and said, “let’s go!”

Xia ruofei picked up his backpack and stepped out of the cabin.

When he came down from the simple ramp, he saw a camouflage cheetah off – Road vehicle parked next to the plane. A major of the Air Force was standing next to the car and waiting.

“Hello, doctor Xia! I’ve been ordered to send you off in a car!” The Air Force Major saluted Xia ruofei and said.

“Thank you for your hard work!” Xia ruofei said with a smile.

Xia ruofei thanked Zhang shiguang and the rest of the crew. Then, he got into the cheetah SUV and left the military airport.

Along the way, the Air Force Major was also silent. After asking for the location of Tao Yuan farm, he said a few words to the driver, then sat upright in the front passenger seat, looking straight ahead.

.....

Xia ruofei wouldn’t try to get close to people for no reason. He knew that Jin Feng had coordinated with the local Garrison to send him a car. Xia ruofei naturally wouldn’t reject such a kind offer.

Moreover, he could not wait to return to the farm and absorb the world stone in his backpack!

Xia ruofei was also worried that the spirit map scroll would produce some kind of strange phenomenon when it absorbed the world stone, so he had been holding back from absorbing it directly. He wanted to return to the farm first.

The leopard car drove out of the military airport and went straight to the expressway around the city. Then, the speed of the car gradually increased. After about half an hour, Xia ruofei could see the gate of the farm from afar.

Xia ruofei did not let the car drive straight to the farm. After all, it was a military vehicle. Xia ruofei did not want to be too ostentatious. He asked the driver to stop when they were about a hundred or two hundred meters away from the farm.

Xia ruofei expressed his gratitude to the Air Force Major and the driver of the military vehicle. Then, he took his bag and walked back to the farm.

“Brother Xia!” An old soldier on duty at the entrance was very surprised to see Xia ruofei.

Xia ruofei smiled and nodded. “Da gang, are you on duty today?”

“That’s right!” Da gang grinned. Brother Xia! You’ve been out for quite a long time this time!”

“Is everything fine on the farm?” Xia ruofei threw a cigarette to da gang and asked casually.

“I’m fine! Everything is normal!” Da gang said with a smile after receiving the cigarette.

"Alright! You stand guard first!" Xia ruofei said, "I'm going home!"

"Brother Xia, I'll drive you in with my scooter?" Da gang quickly said.

"No need, no need. I'll take a look around ..." Xia ruofei waved his hand and refused.

Xia ruofei walked into the farm. When he passed by the greenhouse, he did not go in to take a look. Instead, he went straight back to his small villa.

After playing with lightning for a while, Xia ruofei grabbed his bag and quickly returned to his room upstairs.

After locking the doors and windows and drawing the curtains, Xia ruofei casually summoned the spirit map scroll from his palm. With a thought, he entered the spirit map world.

Xia Qing was standing straight beside the spatial pond, her eyes closed.

However, when Xia ruofei appeared in the space, Xia Qing immediately opened her eyes and came to life.

In fact, Xia Qing was in a state of deep sleep just now when she was not working. Xia Qing was in a deep sleep most of the time, so that she could save energy.

"Master!" Xia Qing called out respectfully.

"I obtained a world stone today!" Xia ruofei said.

"That's great!" Xia Qing said happily, "master, I can sense that the spirit map world is very close to its next breakthrough. With this world stone, it will definitely be able to break through!"

Xia ruofei nodded and said, "I'll send the world stone in a while and let the spirit map world absorb it." Xia Qing, are you sure that you won't be affected during the process of absorbing and breaking through in the spirit map world? Do you need me to make any preparations for you?"

Xia Qing had helped Xia ruofei a lot, so Xia ruofei was very cautious, afraid that Xia Qing would be hurt.

"It won't have any impact!" Xia Qing said with a smile. Master, those dogs in the mountain sea realm should have been in there for quite a long time, right? When the spirit map world broke through before, didn't nothing happen to them?"

Xia ruofei thought about it and felt that Xia Qing's words made sense.

Xia ruofei's understanding of the spirit map world was not as deep as Xia Qing's, so since Xia Qing was so sure, he was relieved.

"Alright, I'll go out and get the world stones!" Xia ruofei said.

"Master, hurry up! I can't wait!" Xia Qing said excitedly.

Chapter 690: The ocean in the space (2)

Xia ruofei saw Xia Qing's eager expression and felt a little strange, but he didn't say anything. With a thought, his figure disappeared from the spirit map space.

After returning to the outside world, Xia ruofei carefully took out the fist – sized, pitch – Black realm stone from his bag.

When the world stone was taken out, Xia ruofei could clearly feel the spirit map scroll exuding a sense of anticipation and even hunger. The entire scroll seemed to be trembling.

Xia ruofei smiled. With a wave of his hand, the spirit map scroll immediately floated up and flew into Xia ruofei's hand.

With a thought, the world stone in Xia ruofei's other hand disappeared into thin air. He had already sent the world stone into the spirit map space.

The spirit map scroll trembled slightly. Xia ruofei knew that the inside of the spirit map space was undergoing a drastic change.

Xia ruofei could only wait patiently outside.

After an unknown period of time, Xia Qing's voice rang out in Xia ruofei's mind, ""Master, I've finished absorbing it!"

Xia Qing's voice was filled with uncontrollable excitement.

Xia ruofei couldn't wait any longer. He immediately disappeared from the room.

As soon as he entered the spirit map space, Xia ruofei felt refreshed.

Although the environment in the spirit map space was obviously many times better than the outside world, Xia ruofei, who often entered and exited the space, had already gotten used to the difference.

This time, Xia ruofei felt so refreshed. It was obviously because the realm had been upgraded.

.....

"Master!" Xia Qing welcomed him with a smile.

"How is it? did you make a breakthrough in the spirit map world?" Xia ruofei asked.

"I've broken through! And it went very smoothly!" Xia Qing replied, "I broke through after absorbing a small portion of the world stone. After that, I continued to absorb for a long time before I completely absorbed the entire world stone."

"Oh? Has there been any change in the spirit map world?" Xia ruofei could not help but ask.

"Hehe, master will see for himself later." Xia Qing said, "master, please come over here first!"

As she spoke, Xia Qing led Xia ruofei to the spiritual heart tree.

Xia ruofei focused his eyes and saw a complete spirit Heart Flower in full bloom.

This wasn't strange. In the past, every time the space was upgraded, the spirit Heart Flower would bloom again no matter how much harvest was left.

However, Xia ruofei soon realized that there were seven petals on the spirit Heart Flower!

“Another flower?” Xia ruofei cried out in surprise.

Xia Qing smiled and said, “master, I’ve used the energy produced when I broke through in the spirit map world to set up a small array, which has also benefited the spirit heart tree a lot.” The quality has increased by another level!”

“That’s great!” Xia ruofei shouted excitedly, “Xia Qing, well done!”

This wasn’t as simple as just one petal. This was a permanent increase in the spirit heart tree’s quality. In the future, every spirit Heart Flower that bloomed would have seven petals.

One more piece at a time, and after a long time, it would add up to a very impressive number.

Furthermore, the spirit Heart Flower petals had a wide range of uses. Whether it was for planting, breeding, or if Xia ruofei wanted to become ‘miracle doctor Xia’, he could not do without these magical petals.

It could be said that the petals of the spirit Heart Flower were definitely strategic resources to Xia ruofei, and he could never have too many of them.

“Thank you for the compliment, master!” Xia Qing said with a face full of joy, “I will continue to work hard and strive to make the spirit heart tree break through to its best state as soon as possible. When that time comes, it will have nine petals every time it blooms!”

Xia ruofei patted Xia Qing’s shoulder and said, “Mm! Then I’ll leave it to you!”

Xia ruofei continued to walk around the Archean realm. The size of the space was as he had expected. There were no changes.

However, the spiritual Qi in the air had obviously increased. After walking around the Phoebe zhennan forest, Xia ruofei felt that it was drizzling. When he came out, he realized that his clothes were a little wet.

This meant that the spiritual energy had already started to liquefy ...

Xia ruofei couldn’t help but feel a little speechless. If this space continued to upgrade in the future, would there be another spiritual Qi rain? Then how heaven – defying would the environment inside be?!

Phoebe zhennan, iron – Skin Dendi, wild ginseng, tea trees, and other plants were all growing well. After the space was upgraded, these crops seemed to have become more energetic.

The Pomfret that was kept as a breeding fish and the top – grade Red Dragon that was raised in another fish pond were also full of energy. Each of them was full of vitality.

After Xia ruofei strolled around casually, he brought Xia Qing to a new space, which was the mountain and sea realm that Xia Qing had mentioned.

The moment he entered the mountain sea realm, xiaohei, Da Mao, and ER Mao immediately pounced on him affectionately and wagged their tails at Xia ruofei.

Xia ruofei laughed and touched Blackie’s head. “Let’s go! Come and patrol with me!”

With that, Xia ruofei led Xia Qing, followed by the dogs, and quickly walked to the all – terrain vehicle.

Xia Qing often came to the mountain and sea realm to make Da Hong Pao tea leaves, so she had seen this all – terrain vehicle before. However, she naturally knew nothing about this kind of technological product. She only had a faint feeling that this steel monster seemed to be quite terrifying.

Xia ruofei jumped into the driver’s seat and gestured for Xia Qing to sit in the front seat.

Xia Qing followed Xia ruofei’s example and fastened her seatbelt.

Xiao hei and the other two familiarly laid down behind him.

Xia ruofei laughed and started the car. He stepped on the accelerator and the all – terrain vehicle immediately sped away.

Xia Qing was startled, and she subconsciously grasped the handle beside her.

As the car sped up, Xia ruofei laughed and asked, “How is it? Xia Qing, is it exciting?”

In the whistling sound of the wind, Xia Qing tightly held the armrest and asked loudly, “Master, this ... This carriage doesn’t have any horses, how can it run? And he can run so fast ... It’s ... It’s amazing!”

Xia ruofei couldn’t help but burst out laughing. Xia Qing had always been very profound in Xia ruofei’s eyes. She knew more about the spirit map world than he did. She also knew how to cultivate spirit plants, set up arrays, make tea leaves ... And many other skills that Xia ruofei might not have discovered.

However, in front of the all – terrain vehicle, Xia Qing showed her fear.

This was the crushing power of an era!

Although he knew that it was a bit of a bad taste, Xia ruofei still enjoyed it. He drove the all – terrain vehicle in uneven places. The car jumped up and then fell down heavily. Xia Qing couldn’t help but hold the handle even tighter.

The car soon arrived at the beach.

The salty smell of seawater assailed his nostrils. Xia ruofei could see a curved line of water from afar. As he looked further ahead, he saw the blue sea ...

The waves churned. Although the space membrane was more than a hundred meters away, the sea still gave Xia ruofei a feeling of vastness and unfathomable depth.

The car had already stopped. Xia ruofei mumbled, “There’s really an ocean ...”

At this time, Xia Qing, who had slowly recovered, said, “Of course, this is the mountain and sea realm. If there are only mountains and no sea, how can it be considered the mountain and sea realm?”

“If the spirit map world continues to level up, how big will the mountain and sea realm be?” Xia ruofei asked.

Now, even the ocean had appeared. Could it be that the ultimate state of this space ... Would be a planet?

"I don't know either, master," Xia Qing shook her head and said. There are many things about the spirit map world that master has to figure out on his own. "

"I see," Xia ruofei nodded.

He started the car again and drove along the coastline. Soon, Xia ruofei heard the sound of running water.

A large river blocked his path.

This River had appeared together with the mountain sea realm, and it had circled around the mountain. However, it had not extended to the spatial membrane at the time. It had become wider and longer with each upgrade of the space.

This time, it was directly connected to the sea. The river surged towards the sea and blocked Xia ruofei's way.

A River could not stop Xia ruofei. If he wanted to cross the river, he could do so with a single thought. However, Xia ruofei did not do so.

He sat in the car and looked at the river in a daze. After a while, he couldn't help but call out, ""F * ck! The Ray fish I raised in this River! Now they're all in the sea ..."
