

## God tier Farm 71

### Chapter 71 You have to take responsibility (1)

Ling Qingxue didn't say anything. She just held Xia ruofei's hand quietly.

She could feel the sorrow and helplessness in the heart of the man beside her when he was telling the heroic story.

So he had gone through so much in the Army all these years ... Ling Qingxue thought to herself. At the same time, she felt her heart ache.

The Prince Charming of the past seemed to have become different after being tempered by blood and fire in the military. He was more manly now. This feeling was especially strong when Xia ruofei used a low voice to describe his life and death experiences with his comrades.

Xia ruofei calmed himself down and wiped his face with his hand. Then, he said,"

"I'm sorry ... I just remembered something from the past. "

Ling Qingxue smiled and said gently,"

"Why are you embarrassed? I like to hear it! As long as it's related to you, I like to hear it!"

Xia ruofei smiled and said in a lonely tone,"

"It's actually nothing much. It's nothing more than training and fighting. Our daily life is very monotonous, but we all enjoy it ..."

"Then why did you leave the Army?" Ling Qingxue asked in confusion.

Xia ruofei smiled and said,"

"For some personal reasons ... Forget it, let's not talk about this! It's getting late, let's go back! I still have to prepare lunch!"

Only then did Ling Qingxue realize that the two of them had been sitting there and chatting for almost two hours.

Xia ruofei held Ling Qingxue's hand and walked down. When they reached the bottom, Xia ruofei was the first to jump down. Standing on the beach, he extended his hands to Ling Qingxue and said,"

"Come! I'll catch you ..."

They were at a height of about two meters. Ling Qingxue felt a little scared instinctively, but when she saw Xia ruofei's open arms and the warm smile on his face, she felt a sense of security. She smiled and nodded at Xia ruofei before jumping off the rock.

Xia ruofei caught Ling Qingxue accurately. However, Ling Qingxue's jump seemed to be a little too strong, and the two of them were tightly hugging each other.

Xia ruofei could clearly feel two soft mounds pressing against his chest. His two hands were firmly pressed on Ling Qingxue 's \*\*\*. Xia ruofei could not help but feel his body stiffen. He quickly moved his hands away as if they were burning.

Ling Qingxue's face turned red and she quickly let go of Xia ruofei. Then, she glanced at Xia ruofei and walked away with her head lowered.

Xia ruofei hurried to catch up with Ling Qingxue.

The two of them didn't speak until they got into the pickup truck, and the awkward atmosphere was a little ambiguous.

pouted.

21:03

"Why are you acting dumb! I'm the one who's at a disadvantage, alright?"

After they got into the car, Ling Qingxue suddenly burst out laughing. Her face was red as she pouted.

"Why are you acting dumb! I'm the one who's at a disadvantage, alright?"

"I'm ... Sorry! "I didn't do it on purpose ..." Xia ruofei stuttered as he explained.

"Who knows?" Ling Qingxue said in a low voice. She then raised her head and said, "I don't care, you have to take responsibility!"

"Ah?" Xia ruofei was shocked.

It can't be! Didn't I just accidentally touch that part? However, Xia ruofei did not dare to say this out loud. Otherwise, he would be beaten to death by Ling Qingxue.

"What wonderful things are you thinking about?" Ling Qingxue glanced at Xia ruofei affectionately and said, "I mean, you have to compensate me! Lunch must be a sumptuous meal. If I'm not satisfied ... Hmph ..."

Xia ruofei quickly said,

"Don't worry! I'll definitely use all my skills ..."

After saying this, Xia ruofei felt that it was awkward and ambiguous. He quickly added,

"And ... I've prepared a surprise for you!"

"Oh, really? Hurry up and tell me!" Ling Qingxue immediately couldn't hold back anymore and said.

Xia ruofei smiled mysteriously and said,

"Since it's a surprise, you can't tell me in advance ... You'll know when we get back!"

"Tsk ... You're keeping me in suspense again!" Ling Qingxue pouted and glared at Xia ruofei in dissatisfaction.

Xia ruofei laughed and ignored Ling Qingxue. He started the car and drove back.

After the ruckus just now, the awkward atmosphere between the two of them had disappeared. Moreover, the two of them had chatted for so long before, and they felt that the distance between their hearts had shortened a lot. Therefore, the journey back was filled with laughter and laughter.

When they returned to the holiday villa, Ling Qingxue immediately pestered Xia ruofei for a "surprise." Xia ruofei laughed and said,

"I was going to take it out after dinner, but since you're in such a hurry, then go get it now! Wait for me here!"

After he finished speaking, Xia ruofei ran upstairs.

When he returned to his bedroom, Xia ruofei locked the door. Then, he contacted the spirit map space and took out a pot of all - encompassing brocade. When he was cutting yesterday, he had specially left two pots of succulent mother plants. One pot was for Liang Qichao's white - skinned lunar boundary, and the other was for Ling Qingxue's all - encompassing brocade.

The two pots of succulent mother plants did not undergo cutting this time. After being nourished by the spirit map space and the petal solution, they had already recovered and were growing very energetically.

Wanxiang, also known as the twelve rolls of hairy men, had no stem. Its fleshy leaves were arranged in a loose Lotus seat shape, and the leaves were slanted from the base, semi - circular in shape. As for the Wanxiang brocade, it was a variant of the Wanxiang brocade, with irregular stripes on its leaves.

The rare thing about this pot of nature brocade was that it had both orange and pink mutated stripes. These two colored mutated stripes were extremely rare to begin with, and it was even rarer to have both of them on a body. Its value was no less than that of the top - grade ice lantern.

Xia ruofei used his mind to take out a watering can and watered the all - encompassing brocade with some water from the spatial pond. Then, he kept the watering can and went downstairs with the flower pot.

Downstairs, Ling Qingxue was looking forward to it. When she saw Xia ruofei coming down, she immediately ran over.

When she saw the flower pot in Xia ruofei's hand, her eyes lit up. Then, she couldn't move her eyes away and stared at the Wanxiang brocade for a long time before she said excitedly,

"Dual - colored Wanxiang brocade? And they were orange and pink! Oh my God ... Ruofei, where did you get so many high - Quality goods? The ice lantern from last time was already very rare, and this time, you're bringing out such a rare dual - colored striped all - Nature brocade ..."

Ling Qingxue had always loved succulent plants, so much so that her admirers, including Liang Qichao, Lu Ping, Liu Minghao, and the others, had also begun to study succulents. Therefore, such a top - grade all - Nature brocade was a fatal temptation to her.

Xia ruofei smiled and said,

"A present for you! How was it? Are you surprised enough?"

"For me?" Sure enough, Ling Qingxue's eyes revealed a look of pleasant surprise. "This ... Seems too expensive!" It's at least a few hundred thousand ..."

Xia ruofei said deliberately,"

"You don't want it? Then I'll take it back!"

With that, Xia ruofei pretended to turn around and go upstairs. Ling Qingxue hurriedly snatched the pot of all - encompassing brocade and held it in her arms.

"Who said I didn't want it? There was no reason to take back something that had been given away. Hmph! You little brat!"

Xia ruofei didn't know whether to laugh or cry.

"I've spent so much effort to prepare a gift for you, but in the end, it's still not good! You've actually become a petty person ..."

Ling Qingxue's eyes flashed with a hint of a smile."

"You talk too much! Hurry up and prepare your lunch! If you're not satisfied, I'm not leaving ..."

Then, she hugged the flower pot and used her shoulder to push Xia ruofei towards the kitchen.

Xia ruofei quickly said,"

"Don't push me, don't push me. I'll go now, alright?"

With that, Xia ruofei fled into the kitchen. Ling Qingxue giggled as she looked at Xia ruofei's back and muttered to herself,"

"This guy is quite thoughtful ..."

Ling Qingxue's heart was filled with sweetness. She held the flower pot in her hands and walked to the living room to sit down on the sofa. Her eyes fell on the all - Creation brocade, and her eyes revealed an indescribable joy.

## **Chapter 72: My first kiss (1)**

Xia ruofei had indeed given it his all to prepare a sumptuous lunch. The main ingredients were naturally Taoyuan vegetables from the spirit map space. There were also some meat dishes that he had bought from the supermarket when he went to Changping County yesterday. When the two of them were eating, Xia ruofei had prepared seven to eight dishes. With the unique ingredients, even though Xia ruofei's cooking skills were only passable, the dishes he made still looked, smelled, and tasted great. Especially the ingredients, they were fresh and tender, which made people hungry. Xia ruofei laid out the dishes in the dining room and called for her twice before Ling Qingxue reluctantly put down the plate of all - Creation brocade and went to the dining room to eat. However, the attraction of the peach Garden vegetables quickly diverted Ling Qingxue's attention. "Mm! It's so delicious!" Ling Qingxue spoke as she ate, not caring about her image as a lady. Xia ruofei smiled and gave Ling Qingxue some food. He said,""Eat slowly, no one here is snatching it from you!" "Yes, yes ... You should eat too!" Ling Qingxue said. Only then did Xia ruofei pick up his bowl and start eating. He had been eating these vegetables

every day, but he did not feel as strongly about it as Ling Qingxue. However, the delicious Peach Garden vegetables still greatly increased his appetite. Ling Qingxue picked up a small piece of cabbage and put it in her mouth. After chewing it carefully, she revealed a surprised expression and said, "This little cabbage seems to be a little different from the other dishes! Hmm...The taste is even more delicious and the texture is much better!" Xia ruofei was stunned for a moment, but he quickly remembered that the cabbage was planted in the spirit map space to test the effect of the petal solution. The cabbage seeds had been soaked in the diluted petal solution, so it might have undergone some kind of mutation. He also took a bite of the cabbage and put it in his mouth. Sure enough, it felt slightly different from ordinary vegetables from paradise. The crisp texture and the delicious taste that made one's teeth taste delicious were all memorable. Ling Qingxue put down her chopsticks and said, "I don't think there's any cabbage among the vegetables you supply to our company, right?" Tell me the truth, what's going on?" Xia ruofei laughed and said, "what else could it be?" This little cabbage is our latest developed species. We only brought a few samples over today! I was thinking of trying it out, but I didn't expect it to taste so good ..." Ling Qingxue's eyes lit up and she said, "another new item!" I don't care, you have to give priority to our company's supply of this little cabbage!" Xia ruofei smiled bitterly. "This is really in the research and development stage. We've only brought a few samples today." "Then when can we get the goods?" Ling Qingxue persevered and asked, "I don't need too much. Just like the other vegetables, 20 to 30 catties a day shouldn't be a problem, right?" "At least ten days!" Xia ruofei said after some thought. "Alright! Ten days it is!" Ling Qingxue said, "in ten days, our company will be the first to receive this cabbage." Xia ruofei smiled and said, "don't worry!" But let me make this clear first! The cabbages we ate today were cultivated under the careful care of the laboratory. The quality of the mass – produced products may be slightly worse than this ..." Xia ruofei wanted to gradually plant them in the outside world. When the time came, the first batch of cabbage would be from the batch that was grown in the backyard. Although they had also been soaked in the petal solution, the outside environment was not like the spirit map space. The quality of the vegetables would definitely be reduced. He was also giving Ling Qingxue a heads – up in case her expectations were too high. "It doesn't matter. I know it won't be too bad." Ling Qingxue said, "when I get back, I'll ask my father to change the contract and add the supply of cabbage." "Alright, you decide!" Xia ruofei said with a smile. He didn't even mention the price, and he was completely at ease with Ling Qingxue. Ling Qingxue was very satisfied with this lunch. After eating, the two of them went out for a walk to digest their food. The vegetables in the peach Garden were simply too delicious, and Ling Qingxue was a little full. The two of them chatted as they walked. "Ruofei, when are you going to start your vegetable base?" Ling Qingxue asked, "now that your business has started, if you don't build your vegetable base as soon as possible, it will still be a small business!" "I've been thinking about it, but I don't have any leads yet!" Xia ruofei said. "Yup! "Starting from zero is indeed a complicated thing ..." Ling Qingxue sighed. Then, she looked at the barren land in front of the villa, and her eyes suddenly lit up. "Actually, this place is pretty good! You see ... Although the land in front of and behind your villa is deserted, it's very flat. If you use large machinery for construction, it won't be difficult to build a farm. This piece of land ... Was at least twenty to thirty mu! The early stage was definitely enough! Moreover, there was the sea in front and a mountain forest behind. If they rented it together, it would not be a problem to develop fruit tree planting or marine breeding in the future! By the way, I saw an abandoned pond when I came here. It's okay to keep fish!" Hearing this, Xia ruofei's mind started to wander. He took a closer look and realized that it was true. Other than the fact that the land was overgrown with weeds and a little barren, it was the perfect place to build a vegetable base. And with the spiritual pond water and the petal solution, the barren land was not a problem at all!

Moreover, there was a road next to it, so he didn't even have to worry about transportation problems. It was simply tailor – made! If they really took over this land, it would not be as simple as a vegetable base. Xia ruofei had the spirit map space, and there were countless possibilities for his future development. Those priceless flowers, trees, the world's best food ingredients, extremely expensive medicinal herbs ... All of these needed a base as a fulcrum. This place was undoubtedly very suitable as the starting point of his career. "Qingxue, what you said makes sense!" Xia ruofei said excitedly, "I'll find out where this land belongs to and find a way to rent it!" "En!" Ling Qingxue was very happy that her idea had helped Xia ruofei. She thought for a while and said, "Oh right, when you're doing construction work, you can directly look for Liang Qichao." His family is in the real estate development business, so he has a construction team and construction machinery ready. When the time comes, ask him to find a designer to help you plan!" "Alright!" Xia ruofei said happily, "Qingxue, you're a Lucky Star! You've helped me solve a problem that has been bothering me for a long time!" Ling Qingxue smiled and said, "then you have to thank me properly!" You owe me another meal ... No! How about two meals?" "No problem!" Xia ruofei readily agreed. "Whenever you want to eat Taoyuan vegetables, just come up!" "En!" Ling Qingxue nodded happily. The two of them chatted as they walked. They walked around the villa and took a good look at the piece of land. Then, they walked back to the villa to check on Ling Qingxue. After all, she still had work to do and it was time to leave. Back at the villa, Ling Qingxue went over and carefully carried the pot of nature brocade and walked out. Xia ruofei wanted to help but couldn't. He had to carry it himself. As she walked to the door, Ling Qingxue did not see the small aluminum alloy door sill at the door because of the flower pot blocking her view. She tripped on it and couldn't help but let out a cry of surprise. Her whole body fell forward, and the pot of all – Nature brocade flew out of her hand. Xia ruofei was right beside Ling Qingxue. His reaction speed was far beyond that of ordinary people. The moment Ling Qingxue tripped over the door frame, his body had already moved as fast as lightning. A hand firmly held the bottom of the flower pot, and then gently turned a circle, using the force – unloading technique of Tai Chi to stop the forward momentum of the flower pot. The flower pot seemed to be stuck to his palm. His other hand was tightly wrapped around Ling Qingxue's slender waist. Ling Qingxue's face was still filled with fear, but she realized that she did not fall. Instead, she was being held tightly in Xia ruofei's arms. At this moment, her body was being pulled by Xia ruofei, and she was leaning back slightly. Xia ruofei was also leaning forward, and their faces were almost touching. Ling Qingxue's heart skipped a beat, and her face turned red. Under the warm winter sun, Xia ruofei's face seemed to be covered with a layer of radiance. He asked with concern, "Are you alright?" However, Xia ruofei did not realize how intimate their current position was. Ling Qingxue's heart was beating fast. She looked at Xia ruofei's face, which was so close to her, and did something very bold. She reached out and held the back of Xia ruofei's head, then pressed her tender red lips against Xia ruofei's. No matter how fast Xia ruofei's reaction was, he did not expect such a situation. He could not avoid it. He was stunned, as if he had been electrocuted. His eyes were wide open, and the two of them looked at each other at such a close distance. Xia ruofei felt two wet and soft lips pressed against his own. It was a wonderful feeling, as if an electric current had passed through his body. However, this strange feeling didn't last long. Ling Qingxue quickly let go of him. At that moment, Ling Qingxue's pretty face was as red as a ripe apple. She was like a frightened deer as she quickly walked towards the Porsche 911 that she had parked in the villa's yard. Xia ruofei was still standing there like a statue. Ling Qingxue was walking halfway when she suddenly turned back. She looked shy and did not even dare to look at Xia ruofei. She took the flower pot from Xia ruofei's hand and got into the car as if she was escaping. Before Xia ruofei could return to her senses, Ling Qingxue had already driven away in her Porsche 911. Xia ruofei touched

his fragrant lips, still in a daze from what had happened. I was actually forced to kiss by this girl? Xia ruofei felt like he was in a dream. After a while, he shouted in grief and indignation,” “Ling Qingxue! This is my first kiss ...” [PS: today is Chinese Valentine’s Day. I especially offer brother Xia’s first kiss. I wish the lovers a happy ending and that the single dog will get rid of his single soon! Steel gun went on a date!

### **Chapter 73: crazy purchase\_1**

Xia ruofei did not leave the villa for the next few days. He wasn’t in a hurry to rent the land. He planned to wait for the cabbages in the backyard to ripen and confirm that soaking the cabbages in the petal solution could greatly improve the quality of the vegetables. Of course, at the same time, it was also because he had to be busy with the sale of the succulents for the next few days. Now that he was alone, there were too many things to take care of. However, Xia ruofei had been rather carefree these few days. After “forcing a kiss” on Xia ruofei that day, Ling Qingxue seemed to be a little embarrassed. She did not even call him these few days. The person who came to pick up the food every morning had been replaced by a purchaser from Ling Ji’s food and beverage department. Other than preparing the Taoyuan vegetables for Xi Jiang Moon Club and Ling Ji restaurant every day, Xia ruofei would tend to the cabbage in the backyard, enter the spirit map space to harvest the vegetables at a fixed time, take care of the young fish in the fish pond, and the precious Red Arowana. On the second day after Ling Qingxue left, the cabbage seedlings had already reached the planting conditions. Xia ruofei had already opened up two vegetable fields in the backyard. He planted the seedlings carefully in the vegetable field and watered them with normal tap water mixed with a small amount of petal solution every day. This was also to simulate the situation of large – scale planting in the future. Although there was a spring at the bottom of the spirit pond, the water in the spirit pond could not be used up endlessly. The space was already showing a thriving scene, and the peach Garden vegetables could be harvested every day. In addition to the first six kinds of vegetables, the pumpkins, carrots, cabbages, and Chinese yam that were purchased later had also entered the harvest period. After expanding the planting, it was more than enough to supply Xi jiangyue and Ling Ji restaurant. However, as the planting area expanded, Xia ruofei felt a little strained. After all, the vegetables here grew very fast, and he was only one person. He was reaching his limit. If he expanded the scale, he would not be able to do it. Hence, Xia ruofei decided to plant his vegetables, fruits, and fruits in the outside world as much as possible. The spirit map space would be used to grow valuable crops with high economic value, such as precious Chinese medicinal herbs and wood. Xia ruofei had no intention of expanding the space fish pond. The fish inside were mainly for him and his friends to eat. At most, he would take out a small amount to sell as a premium product. If you want to make a lot of money, you still have to raise precious species, whether it’s ornamental fish or edible fish. The high – end path is the king. The ecosystem in the fish pond had started to function normally. The small fish, shrimp, and plankton were growing very quickly in the spirit pool. The fish pond was now self – sufficient and did not need Xia ruofei to feed it. In the past few days, the fry had obviously grown bigger. Grass carp grew quite fast. Usually, a 2 – year – old fish could reach a weight of one or two catties, and a 3 – year – old fish was already very big. The time flow in the space was 20 times faster than the outside world. Two or three months in the space was equivalent to three or four years in the outside world. The red Arowana was enjoying itself in the pond. Every day, Xia ruofei would drip a few drops of the petal solution into the fish. It looked even more radiant. The red color on its gills was getting thicker. Its scales were tight and dense. Each piece was huge and there were signs of a second color. Four days had passed in the outside world. Xia ruofei realized that all the succulents had

survived and had grown a lot. These seedlings were all qualified for long – distance transportation. Hence, Xia ruofei decided to put them on sale. This time, Xia ruofei was familiar with the process and took a photo of the new succulent sapling. After taking the photos, Xia ruofei carefully selected 20 pots of succulent seedlings to be used as mother plants to continue strengthening his “succulent Army”. He arranged the remaining one hundred and sixty pots of succulent seedlings in different categories, counted the number of each kind of succulent seedling, and recorded it. Then, he left the spirit map space with a thought. The next step was a series of tedious work, such as selecting the photos, uploading them, pricing, setting the inventory, and so on. It was already late at night when he was done. As they had already announced that the succulents would be put on the shelves at 8 am the next day, Xia ruofei did not rush to announce it. Instead, he washed up and went to bed. The next morning, Xia ruofei first prepared the vegetables for both stores. After they had picked up the vegetables, he went to the computer in the bedroom upstairs and prepared to put the new batch of succulent seedlings on the shelf. Xia ruofei didn’t know that at the same time, many people in the country were staring at their computers, waiting for the three – Star “Taoyuan roaty” to release a new product. .... In Chuncheng city, southern Yunnan Province, a fat middle – aged man was staring at the computer screen. At this time, his phone on the table rang. Fatty’s eyes didn’t leave the screen. He picked up the phone and pressed the answer button. “Hello ... Old Huang ... I’m not going today. I can’t leave now ...” At this time, fatty, who was habitually refreshing the web page, suddenly saw that the page had changed. He quickly said, “Let’s not talk about it. I have important things to do! I’ll contact you later!” After saying that, he didn’t even have time to press the hang up button. He directly threw the phone to the side, and then nimbly moved the mouse to start choosing. Adding the shopping cart, the combined payment, and the settlement all took less than two minutes. Seeing that his order had appeared in the back – end and was waiting to be sent out, the fat man heaved a long sigh of relief. He picked up the cup and took a big gulp of water. .... In Fengtian city of Liaodong Province, everyone had just started work. Some were leisurely reading a newspaper while sipping tea, while others quickly opened a novel website and began reading. A young man in his 20s did not even take off his bag. He sat in front of his computer and stared nervously at the Taoyuan butcher shop’s page, constantly refreshing it. When the new goods were displayed, the young man quickly looked through them, and then without hesitation, he chose a few of them and paid for them. .... Similar scenes were happening in many places across the country. Three minutes later, a post appeared on Baidu meat Tieba. The title was “Taoyuan meat stall’s new goods are on the shelves. Did you manage to grab them today?” In the post, the original poster wrote: Recently, the mysterious “Taoyuan roaty stall” had been spamming the bar. The succulent seedlings sold in this new online store were all one – in – a – million high – Quality products, and everyone expressed their envy, jealousy, and hatred for the first batch of customers who bought the succulent seedlings. Five days ago, Taoyuan roaty had announced that they would be releasing new goods at 8 am today. Many of the forum members had sent out information posts, and the OP, who still had some spare money on hand, wanted to pick a pot of succulent seedlings to improve his image. The OP entered the online shop on time, but ... He hesitated for a moment whether to buy a tortoise – Shell peony or a white – skinned lunar boundary. After comparing it repeatedly for a while, it was sold out! This was a top – grade succulent seedling that was worth hundreds or even thousands of Yuan, not some cabbage! There were clearly 20 to 30 pots in stock a minute ago, but they were all sold out in an instant! Can We Still Be Friends happily? At the end of the post, the OP used a big crying emoji to express his feelings at the moment. Not long after this post was posted, the number of replies shot up. “I didn’t get it either! I was delayed by three minutes in parking the car downstairs ... I’m crying!” “Lalalalala! A basin of top – grade

Wanxiang brocade is already in my hands. I look forward to the day I receive it ..." "Previous poster, you're pulling aggro! Those who also slipped and didn't get it express strong indignation!" "There are so many rich people in China! It's like it's free ..." "This shop is on fire!" "I didn't buy it, I didn't buy it, I didn't buy it ... I'll say the sad thing three times!" "The shop owner is too despicable! Why did he have to do hunger marketing?" "Shopkeeper, come out now. I promise I won't beat you to death ..." ..... There were too many monks and too few gruel. In the end, the majority of people didn't buy it. These people naturally left messages one after another, and those who bought it also began to share screenshots of their orders. They were having fun, and this post quickly became a hot post in the bar. Usually, when some businesses came to the meat bar to advertise, their posts would be locked by the owner. Only the post of "Taoyuan meat shop" was not locked. Instead, it was pinned to the top. Xia ruofei naturally didn't know that his Taoyuan butcher shop had already caused so much discussion in the Tenshou Tieba, a place where players gathered. He only saw that the number of orders in the back end of Taobao was rapidly increasing. This time, there were more than 160 pots of succulents of various species on sale, but they were all sold out in just two minutes. It was obvious that the buyers were waiting in front of the computer in advance and would start fighting when the time came. He earned 150000 in two minutes? Xia ruofei was dumbfounded ...

#### **Chapter 74: Deputy County Head Wu (1)**

The succulent saplings produced by Taoyuan butcher shop were far more popular than Xia ruofei had imagined. Many succulent players who had not bought them left comments in the online store, strongly requesting the store owner to replenish his stock. Xia ruofei fell into deep thought. He felt that he should change the model a little in the future. The next time he cut, he would definitely cultivate more succulent seedlings. This time, he had reserved more than 20 pots to cultivate into the mother plant. When the next batch of products was put on the shelves, they couldn't put them all out in one go. They had to be separated into batches. Otherwise, they would have to wait for ten to twenty days every time they ran out of stock, and the consumers' patience would soon be worn out. Moreover, the succulents would grow with every day they stayed in the medium. Xia ruofei could definitely sell them at a higher price. However, it was already like this. No matter how capable Xia ruofei was, it was impossible for him to produce new succulents. Hence, he could only put up another announcement to inform everyone that there would be a new round of sales in 15 days. Then, Xia ruofei downloaded the express form template from SF Express's official website and filled in the order information one by one. Then, he printed the express form that he had retrieved last time and printed the order. Xia ruofei took out a stack of printed orders, took out the spirit map scroll, and entered the space. He started to pack them according to the order information. More than 160 pots of succulents were divided into about 60 orders. Xia ruofei had to work for more than three hours in the interspace before he could finish all of them. More than 60 paper boxes were tightly sealed. Every box was stuffed with shockproof foam strips, and the succulent plants inside were also tightly wrapped in bubble bags. A printed express delivery form was directly pasted on the outside of the box. After Xia ruofei left the spirit map space, he kept the painting close to his body. Then, he went to the garage downstairs and took out all the boxes that he had packed. Then, Xia ruofei called Shunfeng express's Changping County branch and asked them to send a car over as soon as possible. At the same time, he asked them to bring some blank express forms over. Today, he had used up more than half of the 100 express forms he had collected last time. By the time the express delivery company took away the boxes, the morning had passed. Xia ruofei looked at the delivery company's small truck as it drove away. Thinking that he would be able to earn 150 to 160

thousand Yuan very soon, he was naturally in a good mood. After lunch, Xia ruofei started to consider renting the surrounding villas. He thought that Wu Liqian's relative was able to get a piece of land here probably because of Wu Liqian's relationship. That was why the other party was so forthright when he rented the house. It seemed that he had to ask Wu Liqian about this matter. After Xia ruofei made up his mind, he took out his phone and called Wu Liqian. "Hello, little Xia!" Wu Liqian answered the phone and said enthusiastically. "Sis Wu, you sound like you're on cloud nine. Are you going to be promoted soon?" Xia ruofei asked half – jokingly. Wu Liqian laughed and said, "I'm just a Secretary, how high can I be promoted?" Then, Wu Liqian lowered her voice and said, "But there might be some changes in work recently ... The boss's matter has basically been decided, and the organization has already spoken to him." Xia ruofei was stunned. He didn't expect that his joke would hit the mark. Tian Huilan's promotion to the Standing Committee of the Provincial Party Committee and the three mountain Police had always been popular. Now it seemed that this matter was already set in stone. Otherwise, no matter how good his personal relationship with the Tian family was, Wu Liqian would not have leaked such news. Xia ruofei then thought of something else. Usually, when a leader was transferred out, the Secretary wouldn't be taken away. In Tian Huilan's case, she was promoted on the spot. Logically, Wu Liqian could also follow Tian Huilan to the municipal Party Committee. However, from Wu Liqian's tone, it didn't seem to be as simple as transferring from the government to the municipal Party Committee. Xia ruofei thought for a moment and then smiled. "Sis Wu, are you going to be released? Then I must congratulate you in advance!" Wu Liqian was obviously in a good mood. She smiled and said, "Yo! Your nose is quite sharp!" "They're really being released! Congratulations!" Xia ruofei quickly said, "sis Wu, is it convenient for you to reveal where you're going?" Xia ruofei knew that the mayor's Secretary would not be too bad, especially since Tian Huilan had raised her rank on the spot. Sure enough, Wu Liqian smiled and said in a low voice, "The organization is preparing to let me take on the position of deputy head of the Chang Ping District, but it hasn't been decided yet." Xia ruofei immediately said, "then I really have to congratulate you!" Sis Wu, you'll be like a dragon entering the ocean, you can do whatever you want now!" In general, the position arrangement of the mayor's Secretary would be different according to the level of the Secretary. Wu Liqian should be at the Deputy level. At her level, there was a lot of attention paid to the position arrangement. An ordinary Deputy position in the administrative Bureau was naturally different from the Deputy position in the county below. It was already a good arrangement to be appointed as a Deputy County Head, not to mention that Wu Liqian was also an executive Deputy County Head. She was directly promoted to the Standing Committee of the county party Committee, which was naturally worthy of congratulations. Anyone with a discerning eye could tell that Wu Liqian's position was only a transition. With Tian Huilan's help in the city, it wouldn't be difficult for her to make achievements in the position of executive Deputy County Head. By then, she would naturally be adjusted to the main level and even have experience in holding a position at the grassroots. "I'm counting on your blessings!" Wu Liqian said with a smile, then asked, "Oh right, Xia, did you need something from me today?" "There's something I need to trouble you with." Xia ruofei said, "but ... If you want to take up a position in Changping County, I don't know if it'll be convenient ..." "What's the matter first?" Wu Liqian laughed. "Even if I work in Changping County, I still have connections with the municipal government ..." "Sis Wu, you've misunderstood." Xia ruofei said, "I wanted to rent the land near this holiday villa to build a vegetable base. I wanted to ask you about the situation. Now that you're coming to Chang Ping County to take up a position, and it's at this time, I'm just afraid it'll be a little inconvenient." Wu Liqian laughed and said, "so that's what it is!" Xiao Xia, you're worrying too much ... You want to invest in Changping County and support our economic development. This is a good thing!

What's so inconvenient about it?" "Sis Wu, you're getting into the situation pretty quickly!" Xia ruofei laughed and said,"as expected of the mayor's Secretary. You have a high level of insight!" "You bastard! If you dare to laugh at me again, I won't help you!" Wu Liqian said angrily. Xia ruofei quickly replied,"I don't dare!" In the future, my vegetable base will be in your Changping County, and you will be my official! I wouldn't dare to laugh at you!" "Alright, alright, let's not joke around anymore. The land you're talking about belongs to the Dongkeng village of jianggang town. " Wu Liqian smiled and said,"how about this, Xia? I'll talk to the people in charge of jianggang town and give you a call. You can contact them directly. It'll be fine!" "Alright! I'm relieved to hear that. " Xia ruofei said happily,"thank you, sis Wu!"

## **Chapter 75: Land lease (1)**

Not long after Xia ruofei hung up the phone, Wu Liqian called back and told him that she had already contacted him. She asked him to go directly to jianggang town's Deputy Mayor Wu and send him his phone number through text message. Just as Xia ruofei was about to call Deputy Mayor Wu, he received a call from Xi Jiang Yue's President Zheng. It turned out that the peach blossom company and the brand registration had been completed. Xia ruofei was overjoyed. He was preparing to rent land and start the construction of the farm! The company was registered just like that. What a timely move! This way, he could directly rent the land under the company's name. Xia ruofei immediately drove to the West River Moon Club and went to President Zheng to get the company's registration materials, business license, and other things. President Zheng's work was very meticulous. He had prepared the company's official seal, public account, and so on. Considering that Xia ruofei had yet to start a business, he had put the company's registered address in an office building under his name. In the future, when Xia ruofei had really built the company, he would just have to change the address again. Xia ruofei expressed his gratitude to President Zheng and returned the favor. He said that he could appropriately increase the supply of the Paradise vegetables from next week. He had already expanded the planting in the interspace, and it would not be a problem to increase the supply by ten to twenty percent. President Zheng was overjoyed. He said that he wanted to treat Xia ruofei to dinner and treat him well. However, Xia ruofei still remembered the matter of renting land, so he declined tactfully. After signing a new supply agreement with the West River Moon Club under the name of the Paradise Corporation, Xia ruofei left the West River Moon Club with the relevant documents of his company. Xia ruofei found his pickup truck in the parking lot, but he was not in a hurry to drive. Instead, he took out his phone and called Deputy Mayor Wu. After the call was connected, a reserved voice came from the other end." "I'm Wu Gang, who's this?" "Is it Mayor Wu?" Xia ruofei said,"I'm Xia ruofei. Director Wu from the city government asked me to call you!" Once Xia ruofei said the words "director Wu," Deputy Mayor Wu immediately became enthusiastic and said," "So it's Mr. Xia! Hello, hello! Director Wu has already told me about you. There won't be any problems!" "Mayor Wu, thank you very much," Xia ruofei said with a smile. "Where? Mr. Xia is too polite. " Wu Gang said humbly,"after director Wu's instructions, I immediately went to understand the situation. The land you mentioned is the collective land of Dongkeng village, and it has been barren for several years. You're willing to invest in a farm there to generate income for Dongkeng village and to support our town's economic development! We should thank you!" Xia ruofei couldn't help but smile. These government officials were really good at talking. The same thing could have two different results when it came to them. No matter which one it was, they could explain it clearly and logically, making people feel that it was really reasonable. The two of them made an appointment to go to the Dongkeng village committee tomorrow morning to settle the

land lease. Actually, Wu Gang could have just informed Dong Keng village and let Xia ruofei go there by himself. However, this matter was personally handled by Wu Liqian. There were no secrets in the officialdom. Wu Gang had long heard that Wu Liqian was going to be demoted to the deputy head of Changping County. When the time came, Wu Liqian would be his direct superior. So, Wu Gang did this to show that he valued her. The next day, after sending off the trucks of Xi jiangyue and Ling Ji, Xia ruofei drove to the village council of Dongkeng village, which was not far from the holiday villa. The Deputy Mayor of jianggang town, Wu Gang, had arrived long ago. Wu Gang looked to be in his early thirties. He had a slicked – back hairstyle and had a burly figure. He had the air of a leader. Beside Wu Gang stood a man in his 50s or 60s. He was wearing blue coarse clothes. His face, which had been eroded by the sea breeze, was dark and rough, and full of wrinkles. However, his eyes were very bright, revealing a sense of shrewdness and slyness. Once Xia ruofei got out of the car, he quickly walked over and said, “Mayor Wu, I’m sorry for the delay.” “It’s alright, I just arrived,” said Wu Gang with a smile. Mr. Xia, let me introduce you. This is ruan Fugui, the village director of Dongkeng village. Old ruan, this is Mr. Xia. ” Ruan Fugui quickly wiped his hands on his clothes and reached out to Xia ruofei. “Mr. Xia, nice to meet you!” Xia ruofei shook hands with ruan Fugui and smiled. “Uncle ruan, Mayor Wu should have told you why I’m here, right?” “The mayor said that you’re interested in renting the idle land in our village. This is great news!” Ruan Fugui said, “come in, please!” Let’s talk at the village committee!” The three of them walked into the village council building and ruan Fugui quickly made tea for them. Then, he sat down and said, “Mr. Xia, I’m sure there’s no problem with renting the land to you. It’s idle now.” “However, a few years ago, we approved a piece of land for a house on that piece of land. A house has already been built on it, and the land you want is all around this house ...” Speaking of this, ruan Fugui couldn’t help but look at Wu Gang again. It was very likely that Wu Gang had helped Wu Liqian’s relatives approve this piece of land. Xia ruofei smiled. “That’s not a problem. I’m living in that villa now. I’m planning to build a farm with that villa as the center.” Ruan Fugui immediately heaved a sigh of relief and said, “Then there’s no problem ...” Then, he stood up and took out a map. He pointed it out to Xia ruofei and said, “Mr. Xia, this piece of land has been marked with a red line. We were planning to build a village Farm, but the investment funds were not enough, so the project failed, but the land was also left there. Can you see if there’s any problem with the designated area?” Xia ruofei took the map and looked at it seriously. In the Special Forces, it was basic homework to recognize the map. Moreover, it was a military map that was many times more complicated than this simple map. Hence, Xia ruofei easily found the location of his villa and compared it to the range of the red line. Xia ruofei thought for a while and said, “uncle ruan, there is no problem if you go west to the seaside. As for the East ... I’m also very interested in this mountain forest. I want to rent it together with my land. I wonder if the ownership belongs to the village?” Ruan Fugui immediately said, “that mountain forest belongs to the village. It’s just a barren mountain! Some villagers wanted to develop it and plant fruit trees, but it seems that there is a problem with the soil. It is difficult for the fruit trees to survive, and even if they manage to grow, the fruits are sour and astringent, and can’t be eaten at all ... Mr. Xia, do you want to consider it again?” Xia ruofei smiled. “It’s alright. I have another use for this place.” Ruan Fugui had reminded Xia ruofei of his duty, but Xia ruofei had to insist on it. If he lost money in the future, the town leaders wouldn’t blame him. Therefore, he thought for a while and nodded. “Mr. Xia, since you insist on it, I’ll rent it to you as well!”

## **Chapter 76: Reaching an agreement (1)**

Ruan Fugui couldn't help but rub his hands. He hesitated and said, "Mr. Xia, the market price is about 3800 Yuan per mu, but you're personally introduced by Mayor Wu. So, 3500 Yuan per mu ..." When he said this, Ruan Fugui sneaked a glance at Wu Gang, who hadn't said anything the entire time. He saw Wu Gang's brows furrow without a trace, so Ruan Fugui quickly changed his words and said, "Every mu ... Three thousand three hundred, no! What do you think of 3200?" At this moment, Wu Gang's expression had returned to normal. There was even a faint smile on his face. Ruan Fugui secretly heaved a sigh of relief when he saw this. It wasn't easy for him to be a village official. If the rent was too cheap, the villagers would definitely not do it. But if the rent was too expensive, the leader would not be satisfied. Fortunately, the price of 3200 Yuan was clearly acceptable to Wu Gang, and the village could barely accept it. Xia Ruofei had seen all of this. Before he came, he had also checked the rental price of land in Changping County. In the coastal areas, this price was considered quite favorable. Hence, he nodded and said, "Sure." Ruan Fugui smiled and said, "Mr. Xia, this is the price of the land. It's much cheaper to buy a mountain forest. The soil and water in our mountain forest are average, so ... 1500 Yuan per mu a year, is that okay?" Xia Ruofei said readily, "Alright! We'll go with your price!" Ruan Fugui said happily, "As long as Mr. Xia is satisfied! This piece of land is a total of 28.3 mu, so let's take it as 28 mu! The annual rent is 89600 Yuan, and the mountain forest is about 15 mu, so the annual rent is 22500 Yuan. The total annual rent is 112100 Yuan, is that okay?" Xia Ruofei couldn't help but take another look at Ruan Fugui. This old man didn't look very good, but his brain worked very quickly. Although it was just simple math, he was indeed capable of being able to calculate it so quickly. To be able to become the village director, he definitely had some skill. "No problem!" Xia Ruofei nodded and said, "Uncle Ruan, I've even brought the company seal. Let's sign the contract!" "Alright, alright!" Ruan Fugui quickly said. Then, he called the village Accountant and asked him to come over immediately. There was a computer in the village council with the model contract of the previous rented land. He could just pull it out and modify the parameters. However, only the young accountants in the village council knew how to use a computer. At this time, Wu Gang, who had not clearly interfered with the negotiations, smiled and said, "Lao Ruan, since Mr. Xia is planning to develop a farm in Dongkeng village, should we extend the lease period?" Ruan Fugui said, "Mayor Wu, our lease is usually for three years, and in principle, it can't exceed five years. But since you've spoken, then ... What do you think about the contract lasting eight years?" Wu Gang smiled and looked at Xia Ruofei, asking for his opinion. Xia Ruofei also knew that Wu Gang was helping him. He immediately nodded and said, "Alright. Uncle Ruan, I can't take advantage of the village. If we sign an eight-year contract, the annual rent will be increased by 5% on the basis of the previous year! In addition, I hope to write a clause in the contract that our company will have the priority to lease the land under the same conditions when the contract expires." Ruan Fugui had thought that the eight-year lease would end immediately, so he felt a little heartache. When he heard Xia Ruofei suggest an increase in rent, he immediately smiled and said, "No problem, no problem!" Everyone waited for a while, and the village Accountant arrived at the village council. There was a ready-made lease contract on the computer. After some changes to the rent, terms, and conditions, it was printed out directly and signed by both parties. Then, the seals of the Peach Blossom Company and the Dongkeng Village Council were stamped, and the lease contract was considered to be in effect. After both parties kept the contract, Xia Ruofei smiled and said, "Mayor Wu, Uncle Ruan, I really have to thank you for this! How about this! Let's have lunch together and celebrate our successful cooperation!" Ruan Fugui said, "Mr. Xia, you're helping our village develop its economy. If you want to eat, we'll treat you! Why don't you and Mayor Wu have a meal at my house? My wife's cooking skills are pretty good!" Xia Ruofei laughed and said, "Uncle Ruan, I'll be taking root in our Dongkeng village from now on. I'll have

plenty of opportunities to come to your house for a meal. You can't fight with me for this meal today!" Then, Xia ruofei looked at Wu Gang and said, "Mayor Wu, I've already arranged the place. Do me a favor!" Wu Gang smiled and said, "Since Mr. Xia is so enthusiastic, then Lao ruan and I will have to trouble you!" Seeing that Wu Gang had agreed, ruan Fugui didn't refuse and agreed to Xia ruofei's suggestion. Hence, the group of them left the house. Xia ruofei drove his pickup truck and led the way. Ruan Fugui sat in Wu Gang's car and followed behind. The young village Accountant was still sitting in Xia ruofei's flying car. He had just rushed over from the beach to settle the contract. Xia ruofei could not leave him behind when he was treating them to a meal! The place for dinner was the West River Moon Club. Other than that, Xia ruofei was not familiar with any other places. Originally, Ling's restaurant would have been more suitable. However, after Ling Qingxue had forcefully "stolen" his first kiss, both of them had felt a little embarrassed. At this time, Xia ruofei could not contact Ling Qingxue. The two cars headed straight for the city one after another. When they passed by the Industrial and Commercial Bank of China, Xia ruofei stopped and went in with the village Accountant to transfer a year's rent to the Dongkeng village's account. He also gave ruan Fugui a calming pill. Xia ruofei gave President Zheng a call on the way and asked him to arrange a private room. When they arrived at the West River Moon Club, a beautiful female manager was already waiting at the entrance. She welcomed Xia ruofei and the others in very respectfully. When had ruan Fugui ever been to such a high – end place? On the way to the private room, he was like a grandmother who had entered the Grand View Garden. Even Wu Gang rarely had the chance to enter such a high – end club like Xi Jiang Yue. Hence, Xia ruofei's status in his heart had undoubtedly increased by a lot. President Zheng had arranged a very luxurious private room for Xia ruofei and everything was ready. The dishes were served as soon as they were on the table. The dishes in the club were very exquisite. President Zheng even arranged for three Taoyuan vegetables, which were hard to find. When they heard the VIP manager introduce Taoyuan vegetables, Wu Gang and the others were even more surprised. They repeatedly said that this meal was too Grand, and they were somewhat flattered. When President Zheng of the club came to propose a toast and was very polite to Xia ruofei, the importance of Xia ruofei in the hearts of Wu Gang and the others increased. Especially Wu Gang, who vaguely knew that Xia ruofei had an "antenna" in the city. He reminded himself that in the future, Xia ruofei would open a farm in his area, and there would be many opportunities to interact with him in the future. He must build a good relationship with Xia ruofei. This meal was a happy one for both the host and the guest, and the cooperation between the two sides started very happily. Xia ruofei personally sent Wu Gang and the others to the door and asked President Zheng to arrange a room for him to rest. Jian Jia had drunk a lot in the afternoon and he could not drive at the moment. Of course, when President Zheng suggested to arrange for two girls to "relax" with him, Xia ruofei firmly rejected it. He rested in the club room for the entire afternoon, and the smell of alcohol had completely dissipated. He then got up to say goodbye to President Zheng, got his car, and went straight to Taoyuan meat stall. After lunch, he contacted Liang Qichao. He was going there to fulfill his promise to bring the White – skinned lunar patch to Liang Qichao, and he needed Liang Qichao's help with the farm construction. Before they reached the entrance of Taoyuan butcher shop, Xia ruofei could see the impatient Liang Qichao standing by the roadside, looking forward to it. He couldn't help but laugh. It seemed that the White – skinned lunar boundary was very attractive to Liang Qichao!

## **Chapter 77: Phoebe zhennan (1)**

Xia ruofei drove the car to Liang Qichao's side. Before the car even came to a complete stop, Liang Qichao opened the car door and sat in eagerly. He asked, ""RUO Fei, where's the White – skinned lunar

realm?" Xia ruofei laughed and said, "in the car!" Let's talk inside!" "Good, good, good!" Liang Qichao said, then stuck his head out of the car window and shouted for the security guards to open the gate. Xia ruofei drove directly to the three – story office building in the immortal meat stall and stopped. After getting out of the car, he went to the back of the car and took out the pot of White Lunar boundary that he had taken out earlier. "Brother Liang, let's talk in your office," he said to Liang Qichao. "Let's go, let's go!" Liang Qichao said. He had been itching to get the White – skinned lunar plant. When they arrived at Liang Qichao's office, Xia ruofei placed the White – skinned lunar basin on the coffee table and said with a smile, "This is the White – skinned lunar boundary I told you about last time. Let's see if it's good enough for you." The White – skinned lunar boundary was still kept in a plastic bag by Xia ruofei. Liang Qichao couldn't wait to open the bag. When the White – skinned lunar boundary revealed its true appearance, Liang Qichao couldn't take his eyes off it. It was almost perfect, and its leaves were as beautiful as the misty rain. Liang Qichao was mesmerized by it. After a long while, he reluctantly looked away and said to Xia ruofei, "RUO Fei, this white – skinned lunar boundary is simply perfect! I won't say anything else. If you can think of your brother Liang when there's something good, I'll remember this favor! I'll take this white – skinned lunar boundary. There's no reference price for a white – skinned lunar boundary of this grade, so I'll bid 150000! I wonder if your friend is able to accept this price?" The last time, the ice lantern dew was sold for 250000 Yuan, but that was because Liu Minghao lost his mind during the auction and became a spendthrift. In fact, it was not worth that much. Liang Qichao had offered 150000 for the White – skinned lunar realm because he thought it was as valuable as the ice lantern he had gotten last time. Of course, the 'friend' that Liang Qichao mentioned did not exist. It was just an excuse. "No problem, I can make the decision!" Xia ruofei smiled. "That's great!" Liang Qichao said happily, "thank you! RUO Fei!" "I'll transfer the money to you directly," Liang Qichao said. "Alright!" Xia ruofei replied readily, "there's no rush. We can go for a walk when we have the time." "That won't do!" Liang Qichao said, "friendship is friendship, and business is business. Money and goods must be settled! Oh right ... It's still the same account from last time, right?" After getting Xia ruofei's confirmation, Liang Qichao immediately picked up the phone on his desk and gave instructions to the finance staff of the immortal meat stall. Then, he greeted Xia ruofei warmly. "Come, come, come, have some tea! I just got my hands on some high – grade Tie Guan Yin a few days ago!" The two of them came to the coffee table and sat down. Liang Qichao skillfully picked up the tea set for kungfu tea and began to make tea. Xia ruofei smiled and said, "brother Liang, there's something I need your help with!" Liang Qichao was brewing tea with his head lowered. He said without looking up, "What is it? As long as big brother can do it, I'll definitely do it for you!" "I've bought a piece of land in the suburbs and I'm preparing to build a farm." Xia ruofei said, "I heard from Qingxue that your family is in the real estate business. You're familiar with the design and construction industry, so I would like to ask you to help me with the arrangements." Upon hearing this, Liang Qichao replied without thinking, "No problem! Tomorrow, I'll arrange for the most capable manager in my dad's company to help you take a look. He was the one who helped with the planning and design of My Immortal meat stall. It's not bad, right?" "That's great!" Xia ruofei was overjoyed. "Thank you, brother Liang! By the way, I'll also have to trouble you with the construction work!" "That's even less of a problem! We have our own construction team!" Liang Qichao smiled and said, "after the planning is done, if you think the budget is acceptable, I'll let the construction team in at any time!" "Alright! I'm confident in brother Liang!" Xia ruofei said happily, "the fees and such will be based on the market price. You said it yourself. Business is business!" "Haha, sure!" Liang Qichao said. The two of them continued to talk about the succulent plants. Liang Qichao was very interested in the high – Quality seedlings of the Taoyuan meat workshop, but a young master like him

naturally couldn't spend all his time on the internet, so he didn't make it in time for the release this time. He still regretted it a lot. Xia ruofei smiled and said that he would ask his friend to save a few pots for him next time. While they were chatting, Liang Qichao's phone rang. He picked it up and said, "Hey... Yes, it's me... You found one? How big is it ... Oh, only 70 centimeters? Or new material? Those basically didn't have any core ... Not enough, not enough, far from enough! We all want at least one meter of old material, you have to work hard to look for it ... Please ... Oh, okay, thank you!" After hanging up the phone, Liang Qichao sighed and put his phone away. "Brother Liang, what's the matter?" Xia ruofei asked. "Hey! "Don't even mention it ..." Liang Qichao shook his head and said, "I've been looking for some gold Phoebe zhennan material, but this wood is so rare that it's almost extinct. It's hard to find it!" "Phoebe zhennan?" Xia ruofei's interest was piqued. "I've heard of it too. It's very expensive, right?" he asked. "Isn't that so! "Even a small bracelet costs more than 100000 Yuan. The whole piece is even more priceless ..." Liang Qichao smiled bitterly. "But this time, I only need the whole piece. You can't buy it even if you have the money!" Then, Liang Qichao started to talk about the Phoebe zhennan wood with Xia ruofei. It turned out that the one who really needed the Phoebe zhennan material was Liang Qichao's grandfather, who was also his father's uncle. The old man was an United States Chinese. He had left China for the United States when he was very young. After decades of hard work, he had earned a huge family business and had a high status in the United States. In fact, Liang Qichao's family business was quite big now, and the initial start – up capital was provided by this old man. When people got old, they would start to think about their own funeral. The old man wanted to find a piece of Phoebe zhennan material to make his own longevity material, which was also a coffin, so that he could use it when he was old and returned to his roots. Besides, the old man had no children. Only Liang Qichao's father had a few relatives, so everyone was very concerned about this matter. The whole family started to search for the gold Phoebe Wood. This was because it was very likely that this would add a lot of points to the old man's mind. The most realistic thing was that the old man might even be biased in the future distribution of the inheritance. After explaining the whole situation, Liang Qichao asked tentatively, "Ruofei, does your friend who cultivates premium quality meat have any ideas? As long as the wood meets the requirements, the price is definitely not a problem!" There was no correlation between the cultivation of meat and wood, so Liang Qichao was a little desperate. "Brother Liang, is this urgent?" Xia ruofei asked after some thought. Liang Qichao laughed and said, "it's not urgent. After all, the old man's body is still strong!" But even if it's not urgent, it's still urgent. My father is worried that his cousins will find it first ..." Xia ruofei couldn't help but smile and said, "Alright, I'll ask him later and ask him to keep an eye out for you!" "Alright, thank you, ruofei!" Liang Qichao said courteously. He didn't have much hope. At this moment, Xia ruofei suddenly had an idea.

## Chapter 78 Farm planning (1)

"Brother Liang, the 70 - centimeter - tall Phoebe zhennan that you mentioned on the phone earlier, is it the wood that has been cut down, or is it a whole tree that is still alive?" Xia ruofei asked.

Liang Qichao smiled and said, "brother, strictly speaking, a living Jinan is just nanmu wood. The golden threads in the Jinan are the crystals formed by the core of high - Quality nanmu after natural oxidation for more than a hundred years. This is what we usually call old material. We're looking for old material for the old man's longevity material, so we must have old material.

However, the Phoebe zhennan that my friend found really wasn't cut down. He found it by chance, so he called me to ask if I'm interested in it. "

Xia ruofei smiled and said, "I didn't expect this Phoebe zhennan to be so particular about it!"

"Isn't that so?" Liang Qichao said, "I've been looking for wood for the old man these days. That's why I've been learning about this."

Then he continued to introduce, "in fact, after cutting down the Phoebe zhennan wood and leaving it on the mountain for more than three years, it can be formed into a very good old Phoebe zhennan material after natural weathering and drying to remove the edge material and wood properties. Unfortunately, even this kind of old material is very difficult to find because we want a whole one - meter or more tree!"

Three years of natural weathering? Xia ruofei's expression changed. Then, he asked calmly, "Brother Liang, the growth of the Phoebe zhennan should be very slow, right?"

"That's for sure! Why else would it be so rare?" Liang Qichao said, "it will take at least 50 to 60 years for the core to start growing, and the core growth process still needs another 50 to 100 years. Only when the core reaches 95% of the entire trunk will its material be in its best state."

Then, Liang Qichao smiled and said, "So, although the aureum can easily be sold for millions or tens of millions, it's impossible to make a fortune by planting it. After all the hard work, at least the great - grandchildren can enjoy the good fortune."

Xia ruofei also laughed, but his mind began to wander. It was extremely difficult to succeed in the outside world, but with the spirit map space, it did not seem as difficult as he had imagined.

Xia ruofei thought for a while and asked, "brother Liang, do you have any way to help me find some new material on the Phoebe zhennan?" It doesn't need to be very big, it's best if it's a core that has just been cut down, I want to get one for fun. "

"That's not a big problem. You can buy it on the market. I've been looking for some old Phoebe zhennan materials recently, and I've made quite a few friends in this area. " Liang Qichao smiled and said, "how about this? I'll get someone to handle it later, and I'll get manager Li to bring it to you tomorrow. Isn't he going to help you decide how to plan that piece of land?"

"Alright! Thank you, brother Liang!" Xia ruofei said, "it doesn't have to be too big ... The size of a palm is enough. I just bought it for fun! I'll send you the money directly when the time comes. "

Liang Qichao replied readily, "this small piece of new material isn't worth much!" At most, it'll be a thousand Yuan. Just take it as a gift from me! I haven't even thanked you properly for helping me find such a good white - skinned lunar realm!"

Xia ruofei didn't insist because it really wasn't much money.

After chatting with Liang Qichao for a while at the immortal meat stall, Xia ruofei left.

He had originally wanted to look for Ling Qingxue. Since the company had already been registered, he could now sign an official agreement with lingji F & B.

However, when he thought of the sudden kiss that day, Xia ruofei still felt a little awkward. He thought about it and decided to forget about it. He planned to wait a few days.

After returning to the holiday villa, Xia ruofei entered the spirit map space to take a look.

The boundless space was filled with a thriving scene. The vegetables and fruits were full of vitality. The baby fish in the pond had already grown to the length of two fingers. The red Arowana had also grown a lot. Its scales had started to show a beautiful red color. Xia ruofei believed that it would not be long before he would be able to harvest a red and precious Red Arowana.

.....

The next morning, Xia ruofei had just finished delivering the day's vegetables to Xi jiangyue and Ling Ji when he was welcomed by manager li, who was sent by Liang Qichao to help him with the farm planning.

Manager li was in his early 30s and had a thin figure. He wore a pair of glasses and looked refined. However, his skin was a little dark, perhaps because he had been working at the construction site all year round.

As soon as they met, manager li shook Xia ruofei's hand enthusiastically. At the same time, he gave Xia ruofei the new material of Phoebe zhennan that Liang Qichao had gotten yesterday.

Xia ruofei only wanted a small piece, but Liang Qichao's piece was not only the size of a palm, but the size of a small basin.

After Xia ruofei expressed his gratitude, he moved the new Phoebe zhennan material into the villa.

In fact, after leaving manager Li's sight, he had put the Phoebe zhennan into the spirit map space.

Then, Xia ruofei showed manager li the map of the land area in the contract for a while and then brought him to the site for inspection.

As they walked, Xia ruofei shared his thoughts with manager li. "The flat land in front is designed for vegetable greenhouses, and a piece of land over there is reserved for cold storage in the future; Also, I'm planning to use the abandoned pond in front of us again, so we might need to clear the silt and renovate it. The mountains behind were prepared to plant fruit trees in the future, so they had to trim them together this time. Also, consider the roads in the park!"

Manager li nodded as he listened, and at the same time, he quickly jotted down notes in his notebook.

Xia ruofei thought for a while and said, "by the way, manager li, we need to design a unified irrigation system for the entire vegetable base. It will include greenhouses and orchards. Then, we will set the water tower on the top of the back hill." There's a river behind the mountain. We just need to use a few water pumps to transfer the water up. "

"Alright, I'll remember this!" Manager li nodded and then asked, "Mr. Xia, do you have any other requests?"

Xia ruofei pondered for a moment. "Also, we need to build a fence around the farm. Make it higher and have a security system. I'll give you a list of the relevant equipment later."

Xia ruofei was an expert in security. He thought that since he was going to do it, he should take the safety measures of the farm in one step. This was because if he continued to introduce high - Quality

vegetables, fruits, and other rare food and plants in the future, it might attract people with ulterior motives.

"Alright!" Manager Li replied, "Mr. Xia, if there's nothing else, I'll go back and do an overall plan and budget first. I'll show it to you later!"

"Alright, thank you for your hard work, manager Li!" Xia ruofei said with a smile.

After sending manager Li off, Xia ruofei immediately returned to the villa. After locking the door in his bedroom, he took out the spirit painting scroll and entered the medium.

Yesterday at the immortal meat stall, he had talked about the gold Phoebe nanmu with Liang Qichao. However, Xia ruofei realized that it would be a waste if his spirit painting was just for growing vegetables and raising fish.

It was time to plant some precious wood and medicinal herbs. Upgrading the Kasaya space required an immeasurable amount of money. The speed of making money now was beyond imagination to ordinary people, but Xia ruofei still felt that it was too slow.

In order to plant precious crops, Xia ruofei was prepared to start with the Golden Phoebe.

However, before he could plant it, he still had important things to verify. He would need to use the new material of Phoebe zhennan that Liang Qichao had given him.

## **Chapter 79: I'm still too short on money (1)**

The so – called new material was the core of the high – Quality Phoebe zhennan wood that had just been cut down. It had not been naturally oxidized for a long time to form crystals, which were the “gold threads” in the gold silk Phoebe. The piece of material that Liang Qichao gave Xia ruofei was new. Xia ruofei picked up the piece of material and recalled the information he had found on his computer last night. Then, he took out the buck Strider& 888 military dagger and made a few strokes on the wood. After that, he decisively cut it. The Phoebe zhennan's Wood was very hard. However, Xia ruofei's physical fitness had been greatly strengthened by absorbing the petals of the strange flower. Hence, he could still cut the wood into three pieces easily. The diluted petal solution from the previous seed soaking had not been poured out yet. Xia ruofei soaked the three pieces of wood in the solution. Then, he left the medium and stayed outside for an hour or two before going back in. The three pieces of wood had been soaked in the liquid for two or three days, so the remaining flower petals in the liquid should have been completely absorbed. Xia ruofei started to process the three pieces of wood. One of them was casually placed in the space. Xia ruofei dug a hole in the second piece of land and buried it with soil. For the third piece, Xia ruofei buried it in the mud at the bottom of the fish pond. Actually, Xia ruofei's goal was very simple. He wanted to test how long it would take for a new material to form a golden thread crystal in the space. The first piece of wood was already in a natural state of oxidation. As for the other two pieces, Xia ruofei had an idea when he saw that this piece of wood was relatively large. He wanted to try and see if he could form the ebony with gold silk, which was also known as the Darkwood. Normally, wood would be buried underground or submerged in the water, and only after thousands of years would it become a high – Quality ebony. Xia ruofei wanted to see how long it would take for ebony to form in the spirit map space and the quality of the ebony. After everything was done,

Xia ruofei could only wait. He believed that the results would be good. The spirit map space had given him one surprise after another. This time would be no exception. .... For the next few days, Xia ruofei did not go anywhere. He stayed in the villa. Other than preparing the vegetables for the two families, he practiced Tai Chi, took care of the cabbage in the backyard, or looked after the succulent plants and red Arowana in the interspace. In the meantime, he harvested another strange flower petal. As usual, he absorbed one of them and stored the remaining four. He had used up a few petals during this period of time for planting, and now he had a total of nine petals. This was Xia ruofei's most precious possession besides the spirit painting. He carefully placed it in a preservation box and stored it in the medium. Most of the time, Xia ruofei liked to move the rocking chair to the balcony and read documents. The information was about planting and cultivation, as well as some precious food, medicinal herbs, wood, and other information he had collected on the internet. He sorted out the information by category and printed them out. Xia ruofei had been studying and planning for the future in his free time these days. On the third day, manager li came to Xia ruofei's holiday villa with the project plan and budget. The first thing Xia ruofei looked at was the design rendering. It had to be said that manager Li's standard was very high. From the design drawing, the whole farm layout was neat and tidy. On the entire piece of land in front of the villa, there were eight vegetable greenhouses that were ten meters long and 100 meters wide. There was a large fish pond further ahead. The rows of fruit trees on the mountain behind the villa were arranged neatly. The roads, which had obviously been optimized and calculated, connected the greenhouses, fish ponds, villas, and the back mountain. Landscape trees were also designed on both sides of the roads. It could be said that this design had presented an efficient and modern farm blueprint. Xia ruofei then looked at the budget. He couldn't help but sweat a little. The design was good, but it was too costly ... As for the vegetable greenhouse, manager li provided two plans. One was a relatively simple arched Film Greenhouse, which cost about 15000 Yuan. The other type was a modern multi-story greenhouse, which could be installed with internal and external shade systems, thermal insulation systems, automatic irrigation, fertilizer systems, etc. The cost per mu was as high as 100000 Yuan. In other words, if they used the second plan, one greenhouse would cost nearly 150000 Yuan, and eight of them would cost 1.2 million Yuan. This was only the cost of the greenhouse. Including the land leveling, pond clearing, mountain renovation, road laying in the park, and so on, the total budget was about 2.2 million Yuan. Even if they used a relatively simple greenhouse construction plan, it would still cost 1.12 million Yuan. With Xia ruofei's personality, he would naturally do his best. He currently had about 600000 on hand, and the gap in funds was as high as 1.6 million. Xia ruofei suddenly felt a headache coming on. He thought for a long time before saying to manager li, "Brother Li, I'll take care of the Planning and Budget for now. I'll think about it ..." Manager li could see Xia ruofei's hesitation, but he knew that this Mr. Xia was young master Liang's friend, so he did not dare to show any neglect. "No problem, no problem," he said. "Mr. Xia, after you've considered it, or if you have any changes, please contact me at any time!" Xia ruofei smiled and said, "sure!" You've worked hard, brother li!" He politely sent manager li off, then walked back to the villa with the budget and plan books under his arm. They would definitely build it. This was something that was imperative. But, where did the money come from? Although he was not required to pay 2.2 million in one go, as the project progressed, the construction costs would have to be gradually settled. The construction of the farm would not take long, and his 600000 Yuan would not last long. The most important thing now was to get a sum of money. He needed at least one million Yuan. With 1.6 million Yuan in hand, he could basically last until the end of the construction. By then, with Xia ruofei's current earning speed, it should not be a problem for him to pay the remaining 600000 Yuan. But where was he going to get this one million? Xia

ruofei furrowed his brows and thought for a long time. In the end, he decided on the Jade. The last time he bought Jade at the spirit Jade house, Xia ruofei had come into contact with stone gambling for the first time in his life. The strong stimulation of “one knife for poor, one knife for rich, one knife for linen” was still fresh in his memory. Originally, Xia ruofei had no intention of gambling on stones. After all, no one in the world could see if there was Jade hidden under the stone. If he, Xia ruofei, kept bidding and the price rose every time he bought something, it would attract the attention of people with ulterior motives. Then, he would be in danger of exposing the spirit map. Therefore, he would rather start from a young age and slowly manage the Paradise brand. However, he was in urgent need of more than one million Yuan this time. Xia ruofei did not have any other ideas at the moment, so he could only think of a way to gamble on stones. As long as he was careful in the future and did not go or try to avoid stone gambling, it should not be too dangerous. After making up his mind, Xia ruofei no longer hesitated. He got up, took his bank card and all the cash, and drove straight to the antique Street of the flowers and birds market in San Shan city.

## **Chapter 80: The shocking spirit TuTh1**

Xia ruofei walked along the bustling antique Street. Soon, they arrived at the entrance of Lingyu house. Originally, Xia ruofei did not plan to buy raw stones from Lingyu house. After all, there were a few other shops that sold raw jadeite stones in the antique Street. However, when he saw a sign that read “new batch of dragon’s cave high – Quality raw stones” hanging in the small shop of spirit Jade house, he immediately changed his mind and decided to try his luck at spirit Jade house. After all, the possibility of high – Quality Jade in the new raw stones was higher than the raw stones that had been selected by countless customers. Xia ruofei muttered to himself and walked into Lingyu house. “Hello, Mr. Xia! Are you here to buy jade again?” A surprised voice was heard. Xia ruofei took a closer look and realized that it was the waitress who had served him before. He smiled and nodded at her. “Is boss Chen here?” Xia ruofei asked. “It’s here! Please have a cup of tea here and wait a moment, I’ll go in and call the boss!” The waiter said enthusiastically. “Alright, thank you for your trouble.” Xia ruofei said with a smile. After sitting in the reception area for a while, Xia ruofei saw boss Chen, who was wearing a dark blue tang suit, walk out with a big smile on his face. Boss Chen seemed to have a special preference for Tang suits. “Brother Xia!” Boss Chen extended his hand to Xia ruofei enthusiastically. Xia ruofei shook his hand and said, “Boss Chen, sorry to disturb you again!” “Where? I can’t even thank you enough for taking care of my business, brother Xia!” Boss Chen said heartily, “how is it? Are you here to buy jade again?” Xia ruofei smiled and nodded, “I just happened to be doing something nearby, so I came to buy some Jade.” This time, it’s still about three hundred thousand Yuan! It’ll be fine as long as the quality is similar to the last time!” “No problem! I just went to Myanmar a few days ago and bought a batch of Jade. The quality is quite good.” Boss Chen said, “I’ll get someone to prepare it immediately!” “Thank you for your trouble!” Xia ruofei said, “by the way, boss Chen, I just saw a sign at the door. Did your shop just bring in a new raw stone?” “Yeah!” Boss Chen laughed. The main purpose of this trip to Myanmar was to bring in raw stones and buy some Jade. The quality of this batch of raw stones was not bad. They were from dragon’s cave. Why? Brother Xia, are you interested in joining us for some fun?” “I know nothing about stone gambling!” Xia ruofei replied noncommittally. “What does it matter?” Boss Chen said with a smile, “no matter how knowledgeable a person is, he can’t compete with heaven – defying luck! Brother Xia, your luck last time was really amazing!” “Then ... Let’s get two pieces for fun?” Xia ruofei said, pretending to be moved. “Of course! One look and I know that brother Xia is a man of great destiny! Who knows, we might be able to get a huge increase in the price!” Boss Chen said. “Alright then! Anyway, you guys still

need some time to prepare the Jade, so you're free anyway!" Xia ruofei said, "then go and choose two pieces to play with! I hope boss Chen has good words for me!" "Hahaha! I wish brother Xia a Swift victory!" Boss Chen laughed heartily and said, "let's go, let's go together!" Boss Chen personally brought Xia ruofei to the shop next door. It was noon, so there were not many people in the store. There were only two or three people picking raw stones. They all greeted boss Chen when they saw him, and boss Chen responded with a smile. Then, he turned to Xia ruofei and said, "brother Xia, all the new raw stones are here. There's a price on each of them. You can choose whatever you want." If you choose it, I'll give you a 10% discount!" "Hahaha! There was even a discount! Then I won't be polite! "Pick a few more pieces later ..." Xia ruofei said with a smile. Then, he began to choose the raw stones. Boss Chen knew that customers usually did not want to be disturbed when they were Choosing Raw stones, so he did not go over, but walked to the side and sat down. The store was filled with rows of shelves, on which raw stones of different sizes were arranged. A price tag was placed next to each raw stone, and the price was marked according to the performance of the raw stone. It ranged from a few thousand to a few million. Xia ruofei walked through the shelves, seemingly choosing randomly. He looked at the raw stones very quickly, and after a rough glance, he moved on to the next raw stone. At first, the few customers were secretly paying attention to Xia ruofei. After all, he was personally accompanied by boss Chen. However, when they saw Xia ruofei's stance, they couldn't help but laugh in their hearts. So he was a rookie! He should be the kind of person who was stupid but had a lot of money! Otherwise, why would old Chen personally accompany him here? This was because people who played stone gambling all year round would be very careful when choosing Raw stones, especially when they encountered raw stones with good appearance. They would carefully observe every detail and look at it over and over again. If the window was open, they would have used a strong flashlight to get closer and take a closer look. People like Xia ruofei, who only knew how to do things on a cursory basis, were clearly amateurs! However, these people, including boss Chen, did not notice that Xia ruofei seemed to touch every raw stone casually when he passed by. Of course, with Xia ruofei's skills that he had trained in the Special Forces and the layers of shelves, it was easy for people not to notice the abnormality. Xia ruofei had even clearly observed the positions of the few cameras in the store. Along the way, Xia ruofei had checked more than half of the raw gemstones. Every time there was Jade in the raw stone, the spirit map scroll hidden in his pocket would react. Based on the vibration of the painting, Xia ruofei could roughly determine the value of the raw stone. So far, Xia ruofei had not made any surprising discoveries. In fact, most of the raw stones couldn't make the spirit map scroll react at all, which meant that these raw stones were just stones without any Jade. No wonder so many people went bankrupt from stone gambling! Xia ruofei mumbled in his heart that the most expensive one among the raw stones in Xuanji that had no chance of producing Jade was priced at more than a million Yuan! There were only about ten raw gemstones that could make the spirit map scroll shake, but Xia ruofei did not want any of them. Some of the paintings did not have much of a reaction, and the Jade in the raw stones was not worth much money. Of course, this was relative to Xia ruofei's needs. If it was an ordinary customer who was lucky enough to pick these raw stones, they could still make a small profit. Only a raw stone could cause a spirit painting to have a strong reaction. Xia ruofei estimated that the value of the Jade inside was at least two million. Unfortunately, the price of this huge raw stone had also reached 2.2 million. In other words, even if Xia ruofei had the money to buy it, he would only make a small profit. This was not the result Xia ruofei wanted. Xia ruofei sighed and looked at the shelf on the other side. He could only hope that he could find the raw stones he wanted there. He strode to the other side of the shelf. Just as he passed by a pile of raw stones scattered in the corner of the shop, the spirit painting scroll in his arms

suddenly vibrated! Xia ruofei was stunned. He had not touched any of the raw gemstones, but the spirit painting scroll was vibrating on its own. What was going on? There had never been a situation where the origin stone spirit map had trembled on its own before he had even touched it. He quickly observed his surroundings and found that no one was paying attention to him. Then, he turned his gaze to the most “suspicious” pile of unremarkable raw gemstones ...
