

## God tier Farm 721

### Chapter 721: High – end atmosphere, high – end grade (3)

Lin Qiao said, "of course!" Brother ruofei was really domineering. He said something like 'Paradise's products are definitely of the highest quality', and these lychees were going to be sold for 100 yuan per kilogram! Cherries are going to be sold for 300 yuan per kilogram!"

Hu 'Zi's mother was shocked and quickly said, ""So expensive! Then let's not waste the good stuff, we should sell them!"

Xia ruofei looked at Lin Qiao with blame and said, "Auntie, don't listen to Lin Qiao's nonsense. It's one thing how much they sell for, but these fruits are our family's property. Besides, the total output of the two fruits was more than 100000 catties! It's fine to eat as much as you want!"

"Auntie," Xia ruofei said, "you should eat more cherries. It's easy to get heaty if you eat too many lychees!"

Under Xia ruofei's persuasion, Hu Zi's mother ate a few more cherries. Then, she said that she would not eat anymore and started to serve rice for everyone.

After lunch, Lin Qiao went back to her room to study the pile of Apple Electronics. Hu Zi's mother also went back to her room to rest. Xia ruofei went back to his bedroom and took out his phone to contact the sales market for fruits.

The first person he contacted was Ma Zhiming, who was far away in Hong Kong.

After the call was connected, Ma Zhiming said with great enthusiasm, "Nice to meet you, Xia Sheng!"

"Mr. MA, how are you?" Xia ruofei said with a smile.

The two of them exchanged some pleasantries before Xia ruofei cut to the chase. ""Mr. MA, it's like this. Our farm's harvest this year is good, mainly lychees and cherries. The quality is quite high. I would like to ask if Hengfeng group is interested?"

"Of course there is!" Ma Zhiming quickly said, "xiasheng, Hengfeng group will buy all the production you have!"

Ma Zhiming didn't hesitate to cooperate with Xia ruofei at all. On one hand, he had a high degree of trust in the products of Tao Yuan company. The Hengfeng group was now the biggest partner of Tao Yuan vegetables. The quality of Tao Yuan vegetables had long conquered the MA family. How could the fruits produced by a company that could make vegetables close to art be bad?

On the other hand, Ma Zhiming wanted to repay Xia ruofei's kindness. Not only did Xia ruofei save MA Xiong's life, but he also successfully cured his precious daughter, Huanhuan's autism. Ma Zhiming was always grateful to Xia ruofei.

.....

Xia ruofei chuckled. "I'm afraid I can't take care of everything. We have quite a few business partners now. We have to leave some for the others!"

Of course, Xia ruofei was doing this out of consideration for the brand strategy. Only by entering a large super – Commercial company could he spread the reputation of paradise Corporation more widely. After all, Hengfeng group was a high – end company and had a narrow audience. Hence, Xia ruofei had to leave some fruits for the major super – Commercial channels no matter what.

“That works too! In any case, leave as much as you can for us!” Ma Zhiming said with a smile, “xiasheng, we’ve been friends for a long time. The cooperation with Taoyuan vegetables has always been very pleasant.”

“No problem!” Xia ruofei smiled and said, “Mr. MA, if you’re free in the next two days, I suggest you come to our farm for an inspection. Besides, Huanhuan should be on summer break, right? Bring her along! I already promised her that I’d bring her to pick the fruits when they ripen! If I miss the picking season, she’ll definitely blame me for breaking my promise!”

Ma Zhiming muttered to himself for a while and then said, “No problem. I’ll take a look at my recent work schedule and try to find time to bring Huanhuan back to the mainland tomorrow or the day after.”

“Alright then!” Xia ruofei said, “then let’s talk in detail when we meet!”

After hanging up, Xia ruofei called the sales manager of the winery, Li Jing, and told him about the situation. He asked him to contact the people in charge of the various super – Commercial channels. It would be best if he could form a small inspection team and get the people in charge of the fruit counters through the Super – Commercial channels to come to the farm for an inspection.

Li Jing knew that Xia ruofei was the major shareholder of the winery and was also the future son – in – Law of Ling Xiaotian. He naturally agreed to Xia ruofei’s instructions and promised to carry them out immediately.

In fact, Li Jing was very popular as a Sales Manager now. It was all the Super – Commercial channels who begged him to give them more quotas, so it was easy for him to coordinate Xia ruofei’s work.

In the end, Xia ruofei called President Zheng from the Moon Club in the West River and his future father – in – Law, Ling Xiaotian.

The two of them were very interested in the fruits of Tao Yuan farm. The vegetables of Tao Yuan had already brought them a lot of surprises, so they were full of confidence in the fruits of Tao Yuan. They would naturally not refuse a business that would only make them a sure profit.

Just like that, Xia ruofei settled the sales problem of the fruits with a few phone calls.

In the afternoon, Xia ruofei took a nap and got up at three o’ clock. He entered the spirit map space to take a look at Xia Qing’s progress in opening the herb garden.

With the help of a divine tool like an agricultural excavator, and the unique environment in the spirit map space, Xia Qing’s work efficiency was greatly improved.

In order to save time, Xia Qing had placed the work of growing the seedlings at the Archean realm where time flowed thirty times faster. Now, the dozens of herb gardens had been planted with Chinese medicine. He believed that it wouldn’t be long before the spirit map space could produce large amounts of high – Quality Chinese medicine.

When it was past four o' clock, Xia ruofei washed up and went downstairs.

When they reached the stairs, Xia ruofei saw Lin Qiao walking out of the room with a brand new Apple laptop.

Lin Qiao raised her head and saw Xia ruofei. She quickly said, "Brother ruofei! The college entrance exam's answer is out!"

### **Chapter 722: The power of the Super – stimulant (1)**

Hearing this, Xia ruofei quickly walked down the stairs and asked anxiously, "Have you already estimated the score?"

"I haven't! I came out to tell you as soon as I saw the answers on the website ..." Lin Qiao said.

"Then what are we waiting for? Quick, quick, quick, calculate how many points you can get!" Xia ruofei said impatiently.

Xia ruofei had always been concerned about Lin Qiao's college entrance examination.

Before Lin Qiao transferred to another school, she was also a student who ranked above average in the county No. 1 middle school. It was not a big problem for her to pass the second – tier University.

After being transferred to the provincial top school, Sanshan No. 8 high school, Lin Qiao studied very hard in the liberal arts class. In addition, the software and hardware conditions in the class were very good, so her grades improved significantly.

In the last mock exam, Lin Qiao had already passed the Tier 1 exam by 20 to 30 points.

Xia ruofei had even prepared an enhanced version of heart – nourishing soup for Lin Qiao for the college entrance examination. Xia ruofei was also looking forward to her final results.

The two of them went to the living room and sat down on the sofa. Lin Qiao crossed her legs and placed the laptop on her lap. She began to estimate the scores based on the answers published on the internet.

Nowadays, the college entrance examination scores were announced first before filling in the application form. Therefore, the management of the examination hall was not particularly strict when it came to the phenomenon of the examinees recording their answers and bringing them out. Many people would record the objective questions' answers on an eraser or a transparent pencil case and bring them out of the examination hall.

Lin Qiao was no exception. After she came back, she had already copied her answers on a piece of paper.

Now, he only needed to look at the answers published on the internet and he could quickly estimate his approximate score.

First, it was Chinese. Lin Qiao quickly matched the answers and then estimated the average score for the essay. The final score was 123.

.....

Xia ruofei's spirits were lifted. This was a good start. He had read online yesterday that the college entrance examination this year was more difficult than last year, especially the comprehensive test of language and liberal arts.

Even in previous years, getting more than 120 out of 150 points was already a very good result.

"What a good start!" Xia ruofei said happily, "Qiao' er, let's take a look at math!"

"En!" Lin Qiao's pretty face was red due to nervousness and excitement.

There were no subjective questions in mathematics, so it was faster to estimate the score and the results were more accurate.

Soon, Lin Qiao finished matching the answers. She could get about 130 points in mathematics.

Another high score!

Xia ruofei couldn't help but be excited and urged Lin Qiao to continue with the answers for the other two subjects.

A few minutes later, Lin Qiao's scores for the four subjects of the college entrance examination were estimated.

In addition to 123 points for Chinese and 130 points for mathematics, she was actually able to get about 140 points for English, which she was best at. Excluding the elements of the composition, the objective question was basically close to full marks.

His comprehensive liberal arts score was also quite good, estimated to be around 210 points.

Adding up the four subjects, the total score reached 603 points!

And this was under the conservative estimation of the Chinese and English essay scores. The actual score might be even higher!

"That's great!" Xia ruofei happily slapped his thigh and said, "Qiao' er, you've definitely exceeded your usual level!"

Lin Qiao was so excited that her face turned red. She said, "I felt pretty good after the exam, but I didn't expect it to be this good! According to the results of the mock exam, I can only get around 550 points at most. Brother ruofei, it must be the work of your super – stimulant!"

After yesterday's college entrance examination, the examinees generally said that this year's difficulty was much higher than last year's. Some experts estimated that this year's college entrance examination cut – off point might be lower than last year's by a few dozen points.

Last year, she scored 547 points in the first – tier University for the liberal arts. If she could get more than 550 points this year, she would be at least 30 to 40 points above the first – tier University's cut – off point. If she could get more than 600 points, she would definitely be able to surpass the cut – off point for many famous universities.

Lin Qiao knew very well what this result meant. Everyone in her classmates' WeChat group was wailing and complaining about how difficult the college entrance examination was this year.

The only reason she knew that the answers to the college entrance examination had been announced was because someone in the group had posted their estimated score.

This student's grades were usually the same as Lin Qiao's, but this time, he only got around 560 points.

This meant that she had definitely exceeded her level this time!

Xia ruofei couldn't help but think, "If the effect of his company's heart – nourishing soup was discovered, would it be out of stock before the college entrance examination from now on?"

Of course, Xia ruofei also knew that it was almost impossible for this to happen.

This was because Xia ruofei provided Lin Qiao with a heart – nourishing soup that was hand – made and even added the petal solution of the spirit Heart Flower without considering the cost.

On the other hand, the heart – nourishing soup that was sold in the end was mass produced and diluted to a certain extent. The effect of the soup was definitely not as obvious as Lin Qiao's "super – stimulant."

"Qiao'er, you have to quickly tell Auntie this good news!" Xia ruofei said excitedly, "where is she?"

"My mom always takes a nap in the afternoon." Lin Qiao said, "but he's about to wake up. We have to prepare dinner."

As the two of them were talking, Hu Zi's mother had already pushed the door open and walked out.

"What are you guys talking about that made you so happy?" Hu Zi's mother smiled and asked, "I can hear your laughter from the room."

Xia ruofei stood up and said happily, "Auntie, this is great news! The college entrance exam's answers have already been announced. We've just calculated the scores, and Qiao'er's performance exceeded her usual standards. Her total score is over 600 points!"

### **Chapter 723: The power of the Super – stimulant (2)**

Hu Zi's mother's eyes widened, and she revealed an excited expression. Her voice trembled as she asked, "Really?"

"How can it be fake?" Lin Qiao said proudly, "brother ruofei estimated the score with me! If the essay's score is higher, it might exceed 610, or even 620!"

Her daughter was taking the college entrance examination this year, so Hu Zi's mother knew a lot about the situation of the college entrance examination, so she naturally knew what this score meant.

After hearing Lin Qiao's words, she said excitedly, "That's great! Qiao'er, it must be the blessing of your father and brother in heaven ..."

As she spoke, Hu Zi's mother's eyes were already filled with tears.

Although Lin Qiao wanted to say that it was all thanks to Xia ruofei's super – stimulating agent, she couldn't be so untimely. She looked at Xia ruofei and smiled, letting Hu Zi's mother vent her emotions.

After Hu Zi's mother had calmed down a little, Xia ruofei smiled and said, "Aunty, you don't have to worry anymore! I heard that this year's college entrance examination is much more difficult than the previous years, and the cut – off point might be lower than last year's by a few dozen points. Although it's a little difficult for Qiao' er to get into Tsinghua or Peking University with her results, she should be able to easily choose from most of the famous universities!"

Hu 'Zi's mother nodded heavily and said, "Don't worry, don't worry ..."

"Auntie! Make a few more dishes tonight!" Xia ruofei smiled and said, "I happen to have a few bottles of good white wine. Let's have some tonight and celebrate with Qiao' er!"

Xia ruofei was reminded of the bottle of Semillon wine he had bought in Australia. This wine was very unique. The taste of the newly brewed wine was not very good, but as it aged, the taste of Semillon would get better and better. This wine was very famous and was called "Hunter Valley's commanding ray".

After this batch of Semillon was transported back to the country, Xia ruofei had been storing it in the spirit map space. According to the outside world's time, it had been more than ten years.

The spirit map space had an environment rich in spiritual energy. Xia ruofei was also looking forward to the amazing taste of this batch of Semillon wine.

Hu 'er's mother laughed and said, "good, good, good!" I'll go prepare dinner now!"

.....

Hu Zi's mother went to the kitchen happily while Lin Qiao was still chatting with her classmates in the WeChat group.

She listened to Xia ruofei's suggestion and didn't disclose her estimated score. The score was too eye – catching. Under the circumstances where everyone's performance was average, it was easy to attract hatred.

Xia ruofei saw that there was nothing for him to do at home, so he took lightning out and strolled around the farm.

The farm expansion project had entered the final stage. Xia ruofei took a tour of the construction site, and when it was almost time for dinner, she returned to the small villa with lightning.

Hu Zi's mother had already prepared a sumptuous dinner.

Yesterday, after the two of them had moved into Taoyuan farm, Xia ruofei had taken out a lot of vegetables and fruits from his interspace. There were also big carps, chubs, and so on. They were all in the refrigerator, so there was a lot of food.

With such good ingredients, Hu Zi's mother's cooking skills were fully displayed. The table of dishes looked, smelled, and tasted great.

Xia ruofei went upstairs and took out two bottles of Semillon from the medium. Then, he came back down.

The three of them sat around happily. Xia ruofei opened a bottle of Semillon with a bottle opener and poured some wine for Hu Zi's mother and Lin Qiao. Then, he poured himself a glass.

Xia ruofei raised his cup and said, "Auntie, Qiao'er, to celebrate Qiao'er's outstanding performance in the college entrance examination, let's have a drink together!" I also wish that Qiao'er can be admitted to an ideal University!"

"Good, good, good!" Hu'er's mother laughed happily.

"Cheers!" Lin Qiao also said happily.

Everyone clinked their glasses and took a big gulp of white wine.

Xia ruofei realized that the aroma of this Semillon wine was very strong and the taste was clear. It was quite comfortable in the mouth.

After savoring it carefully, he could feel the fragrance of lemon sauce, toast, vanilla, honey, and other rich layers. It could be said that the texture was smooth and mellow, with a long aftertaste.

Xia ruofei's eyes lit up. When he visited West Winery in Australia, he had tasted a 15-year-old Semillon and a newly brewed wine. At that time, he felt that the contrast was quite strong.

This time, the Semillon that he had stored in his storage space gave Xia ruofei a huge surprise. He felt that the Semillon that day was much better than the 15-year-old wine he had tasted in Australia, be it in terms of taste or fragrance.

Not only did the spirit map space give them the taste of Semillon time, but it also allowed them to bathe in an environment rich with Reiki all year round, causing the wine in the bottle to undergo a pleasant change.

"Ruofei, this wine is quite good!" Hu Zi's mother said, "it's a little like the fruit wine we made in the past. It's not choking at all."

Lin Qiao also said, "brother ruofei, this wine smells so special!" It's really good!"

Xia ruofei chuckled and said, "drink more if you like it. The alcohol content isn't high." By the way, I still have a lot of this wine. In the future, auntie can drink one or two glasses a day. Drinking an appropriate amount of wine is good for soothing the muscles and promoting blood circulation, and it also improves beauty!"

Hu Zi's mother smiled and nodded. "Alright! It's fine to drink a little less."

"Brother ruofei, I want to drink too!" Lin Qiao said with a smile.

Xia ruofei looked at Lin Qiao with affection and said, "Okay, okay, okay, I'll put a box with you first, and you can drink a little every day! But don't drink too much! Don't blame me if you become a little drunk cat ..."

"Don't look down on me, I can hold my liquor!" Lin Qiao said.

"Nonsense!" Hu Zi's mother laughed and scolded, "why would a girl drink?"

“You’re right, Auntie. ” Xia ruofei also said seriously, “Qiao’ er, it’s okay to drink a little at home. It’s best not to drink outside.” Girls need to have self – Protection awareness. ”

Once Xia ruofei became serious, Lin Qiao didn’t dare to joke anymore. She nodded obediently and said, “”Brother ruofei, I know. I won’t drink when I go out.”

Xia ruofei nodded in satisfaction and said, “”That’s right! Come, come, come, let’s eat something! Have a good taste of auntie’s cooking!”

“Eat more!” Hu Zi’s mother chuckled and said, “this fish head is not bad. Ruofei, try it!”

Hu Zi’s mother gave Xia ruofei and Lin Qiao a lot of food, and the three of them had a great meal.

.....

The next day, Li Jing, the sales manager of Dingfeng winery, rented a coaster car and brought some regional managers, store managers, and fruit area managers to Taoyuan farm to inspect the fruits.

Li Jing didn’t dare to ignore the instructions of the major shareholder of the winery and the group’s “son – in – Law.” He had made many calls yesterday and contacted all the business partners he could contact. He quickly organized an inspection team like today ‘s.

Xia ruofei personally brought the executives of the Super – Commercial channel to visit the orchard.

The appearance of the peach and lychee made everyone secretly nod in approval. After personally tasting them, everyone was full of praise.

If such top – grade fruits were placed on the shelves, it would definitely improve the quality of his supermarket!

Therefore, after tasting the Taoyuan fruit, these people in charge of the Super – merchants took the initiative to cooperate with Taoyuan farm to sell the premium organic fruits.

The southeast Region Manager of Walmart was the most anxious. He said directly, “”President Xia, we’ll buy all the fruits your company produces this year! You can set the price! And I can promise on behalf of the General Manager of the Huaxia region that all the Walmart supermarkets in Huaxia will provide you with the best sales, including the thirteen Sam’s Club stores in the country!”

#### **Chapter 724: Enthusiastic and enthusiastic (1)**

Walmart’s offer was very attractive. Although President Chen was the General Manager of the southeast Region, he was also very influential in the entire Huaxia region, so he directly promised to give Walmart the best sales position for Paradise Fruit in the country.

In particular, the Sam’s Club was a warehouse – style shopping club under Walmart that specialized in serving its members. It had a large number of high – Quality member customers, and the spending power of these members was higher than that of ordinary customers.

If Paradise Fruit could enter 13 Sam’s member stores in the country, the benefits of the promotion of the Paradise brand would be obvious.

As soon as President Chen spoke, the representatives of some other super – Commercial channels also couldn't hold back. Whether it was the representatives of Hualian, Yonghui, Carrefour, or Xinhua, they all spoke one after another and promised to give a series of preferential conditions to Taoyuan fruit in order to fight for a little more quota.

Feng Jing, who had come with Xia ruofei, was also dumbfounded when she saw the situation.

Although she had no doubts about Xia ruofei's ability to expand sales, these sales representatives were fighting to cooperate with paradise Corporation as soon as they came up. Feng Jing did not dare to imagine such a situation.

Of course, this was partly due to the high quality of the peach blossom fruit. On the other hand, it was also due to the popularity of the Drunken Eight Immortals wine. Everyone wanted to express their goodwill to Ding Feng winery through this method.

The executives of these super – Commercial channels were very well – informed. They knew very well that Taoyuan company was actually a shareholder of Ding Feng winery, and they held a lot of shares. Moreover, Taoyuan fruit itself had such high quality, so they naturally fought to cooperate.

Xia ruofei felt that the situation was getting out of control, so he quickly stood up and said, "Everyone, everyone! Please be patient!"

After Xia ruofei stood up, the people in charge of the Super – Commercial channels gradually quieted down.

Xia ruofei then continued, "everyone, you've all inspected our Orchard today and tasted our Tao Yuan premium organic fruits. As for the quota, we're not sure yet. We're all old friends and I have other business partners who are interested in working with us. It's not good to favor one over the other, right?"

The people in charge of the Super – Commercial channels all nodded. Walmart's President Chen said, "President Xia, as for the specifics of the cooperation, you can come up with a Constitution! We'll do our best to cooperate!"

"That's right, President Xia, just say the word!" The southeast District Manager of the Yonghui supermarket chain also said.

.....

Xia ruofei smiled and said, "what do you think?" After everyone goes back, as long as you have the intention to cooperate, you can contact manager li of Ding Feng winery. Of course, we also hope that everyone can clearly state the preferential conditions that you can provide to Tao Yuan company when the two sides cooperate. We'll work out a quota as soon as possible according to everyone's needs and try to satisfy everyone, okay?"

These people in charge of the Super – Commercial channels also knew that it was unrealistic to ask the Paradise company to promise them a quota of how many kilograms today. They must consider the preferential conditions offered by the various channels.

When the quality of a product reached a certain level, the balance between the distributors and the product provider would be reversed.

Therefore, even though they knew that Xia ruofei was just waiting for the right price, they could only accept it.

Who asked him to have two high – Quality products, the Drunken Eight Immortals wine and the Tao Yuan premium organic fruits in his hands?

What's more, Taoyuan vegetables' reputation was gradually growing. These super – Commercial channel heads were all thinking of introducing Taoyuan vegetables, this killer weapon, into their respective supermarket stores!

As if he had heard the thoughts of the people in charge, Xia ruofei smiled and said, ""As you can see when you entered the door, our farm is undergoing expansion and transformation. We have built 18 vegetable greenhouses and professional cold storages. After the expansion is completed, our production capacity will reach three to four times the current production capacity, so I believe that in the near future, we should have great opportunities for cooperation in the sales of Taoyuan vegetables.""

The eyes of the people in charge of the Super – Commercial channels lit up when they heard this. The dissatisfaction that a few of them had disappeared and they started to chat with Xia ruofei enthusiastically.

Xia ruofei also communicated with them with ease.

Xia ruofei welcomed the representatives of the Super – Commercial channels warmly. After visiting the orchard, he brought them to visit the construction site and some of the vegetable greenhouses. Other than the pomfrets cultivation workshop, which was not suitable for so many people, he brought them to visit most of the farm.

In the afternoon, Xia ruofei invited them to a meal at the staff canteen.

The ingredients were naturally the Taoyuan vegetables from the greenhouse and the space carp, chubs, and so on that Xia ruofei had contributed.

Xia ruofei even took out a few bottles of Drunken Eight Immortals wine and Semillon white wine. Everyone enjoyed the meal and was full of praise for the Taoyuan vegetables and the two wines provided today.

After tasting it personally, the representatives of these super – Commercial channels were even more eager to become the agent of Peach Garden vegetables. They all enthusiastically chatted with Xia ruofei.

There were also people who were very interested in the Semillon wine and offered to sell it to Xia ruofei.

However, there were only 30 boxes of Semillon, and Xia ruofei kept them for himself or for his friends and elders.

## **Chapter 725: Enthusiastic and enthusiastic (2)**

Although Xia ruofei could buy a large amount of them from Australia through Liang Qichao and store them in the realm for three to four months before selling them, it was more troublesome to import them from overseas. Besides, Xia ruofei did not care about the profit.

With the spirit map space, there were many ways to make money, so there was really no need to do so.

Hence, Xia ruofei directly rejected the other party's request for cooperation.

After a satisfying meal, Li Jing left the farm with the team.

After personally sending off the Toyota Coaster at the entrance of the mixed – use complex, Feng Jing looked at Xia ruofei deeply and asked, ""Chairman, these super – Commercial channels are all rushing to cooperate with us. Do you have any plans for the quota of fruit?"

Xia ruofei smiled and said, "let's see how it goes!" I've already asked old Cao to bring a few experienced workers to the orchard to make a relatively accurate estimate and see how much we can produce. "

"En!" Feng Jing nodded and said, "Chairman, after seeing today's situation, I finally understand why you were so confident about sales yesterday!"

Xia ruofei chuckled and said, "this is nothing. There will be more business partners coming over for inspection in the next two days. I have already contacted Hong Kong's Hengfeng group. Their fruit boutique store is a global chain. If we enter Hengfeng's fruit boutique store, the effect will be more obvious for our paradise Corporation to expand our brand influence among the high – end crowd."

Feng Rao's mouth was wide open in shock. "Hengfeng group? The Hengfeng group in Hong Kong?"

"Is there a second Hengfeng group in Hong Kong?" Xia ruofei asked with a relaxed smile.

Feng Rao gasped and said, ""Chairman, you usually don't show off. I didn't expect you to have such a wide network. You can even contact a giant company like Hengfeng."

Xia ruofei smiled and said humbly, ""By chance, I have some connections with Hengfeng's Chairman MA and Mr. Xiao Ma. They would usually give me some face on normal matters."

Feng Rao looked at Xia ruofei with admiration.

.....

Xia ruofei continued, ""In fact, I have a good personal relationship with Mr. Tang of the United States shengbang group. I cooperated with him on that farm in Australia. However, our fruit production is limited and it's not the right time to break into the International market yet. So after some consideration, I still chose Hong Kong's Hengfeng group. "

Feng Jing had some understanding of the situation in Australia's farms. However, Sheng bang was also one of the top 500 companies in the world. She thought of Xia ruofei's young age. Although the company was not very big, the friends he had were all top entrepreneurs in the world. She could not help but feel a little excited.

The current paradise Corporation was still very small compared to those giant companies, but it was already showing signs of soaring to the sky.

Thinking of the peach Garden vegetables, Peach Garden fruits, wild Chinese perch, Drunken Eight Immortals wine, top – grade iron – skinned maple, and the heart – nourishing soup with amazing medicinal effects, Feng Jing felt as if she could see the rising sun.

The next day, Ma Zhiming and his wife brought Huan Huan to the three mountains.

Because Tao Yuan farm and the airport were both in Changping County, Ma Zhiming's family didn't even go to professor Tian's house in the city. They came directly from the airport to Tao Yuan farm.

Although it had not been long since they last parted, Huanhuan was still very happy to see Xia ruofei, especially when Xia ruofei still remembered his promise to bring her to pick fruits. He had informed her as soon as the fruits ripened, which made her even happier.

As soon as they reached Xia ruofei's small villa, Huanhuan threw herself into Xia ruofei's arms. After a moment of intimacy, she happily played with lightning.

Looking at their daughter who was extremely happy, Ma Zhiming and Tian Huixin also revealed a gratified smile.

The people in Hong Kong and Taiwan were generally religious. Ma Zhiming even felt that Xia ruofei was like a noble in his life.

Although the sales profit of Taoyuan vegetables was not worth mentioning to a giant like Hengfeng group, Xia ruofei had saved MA Xiong and cured Huanhuan. This favor was greater than the sky!

Xia ruofei smiled and greeted them, "Mr. MA, aunt Tian!" You've had a long journey!"

Ma Zhiming spoke in Mandarin with a heavy accent, "Xia Sheng, Hong Kong is quite close to the three mountains. Our schedule is quite tight this time, and we came here by private jet, so it won't be hard!"

"Then, shall we go to the orchard directly?" Xia ruofei asked with a smile.

Ma Zhiming was also very interested in the fruit of paradise, so he naturally agreed to it.

Hence, Xia ruofei beckoned, "Huanhuan, let's go!" I'm going to pick lychees and cherries!"

"En!" Huan Huan turned around and said, "brother RUO Fei, let's bring lightning along!"

"No problem!" Xia ruofei said readily.

After he finished speaking, Xia ruofei whistled at lightning and carried Huanhuan in his arms. Lightning followed closely behind him.

They didn't drive and walked straight to the orchard.

On the way, Ma Zhiming sighed, "Xia Sheng, your farm is getting bigger and bigger!" The situation is good!"

Tian Huixin smiled and said, "Zhiming, ruofei's pharmaceutical factory is about to go into production!" They're the ones that produce the medicine for autism. "

"This is a good thing!" Ma Zhiming immediately said after hearing that, "it's a great thing that will benefit the whole world! Xia Sheng has a Bodhisattva's heart!"

Xia ruofei smiled humbly and said, “Mr. MA, you’re flattering me. Our new drug is going through the approval process. The first review in the province is generally not a big problem, but the clinical trial still needs time. The National Drug Administration will still conduct a review, so it’s estimated that it won’t be able to be launched in a short time. However, we should be able to officially launch this medicine for autism early next year.”

“Xiasheng, you must inform me when the time comes.” Ma Zhiming said. I can also help you to coordinate in Hong Kong and try to enter the Hong Kong market directly.”

Different countries and regions had their own drug entry mechanism, especially in Europe and the United States, where the standards were very strict. Basically, it was difficult for Chinese medicine to meet their standards.

Hong Kong also had its own access mechanism. If Ma Zhiming could mediate, it would be a good thing for the heart – nourishing soup to enter the Hong Kong market directly.

Of course, even if it was only sold in the Huaxia mainland, it was not a big problem.

With the magical effects of the heart – nourishing soup, this medicine would definitely become famous in a short time. By then, families with autism would come to China to buy the heart – nourishing soup.

This was similar to India’s generic drugs. Many cancer patients could not afford the original drug, so they went to buy Indian generic drugs that had similar effects but were many times cheaper. It was the same logic.

“Then I’ll thank you in advance, Mr. MA.” Xia ruofei said with a smile.

The group chatted as they walked, and they soon arrived at the orchard.

After receiving Xia ruofei’s notice, Cao tieshu was already waiting in the orchard with a ladder, scissors, a bamboo basket, and other tools.

Seeing the fruit trees that covered the mountain, Huanhuan couldn’t help but cheer and run up the mountain.

Xia ruofei quickly followed.

Cao tieshu set up a ladder under a relatively large lychee tree. Huanhuan clamored to climb up the tree to pick lychees. Xia ruofei quickly stepped on the ladder and carefully protected Huanhuan.

He even pulled the lychees that Huanhuan could not reach over and asked her to cut them with scissors.

Tian Huixin caught them under the tree and put them into the basket.

After collecting about half a basket, under Tian Huixin’s urging, Huanhuan reluctantly got down the ladder under Xia ruofei’s protection.

Next, she couldn’t wait to taste the “fruits of her labor”. Hence, Xia ruofei called Tian Huixin and Ma Zhiming over to try it as well. At the same time, he plucked a lychee, peeled off the skin, and put it into Huanhuan’s mouth.

## **Chapter 726: Allocated (1)**

Ma Zhiming and Tian Huixin also leisurely picked up a lychee, peeled it, and put it into their mouths.

In fact, the cooperation with the Paradise Corporation to sell this batch of fruits had already been decided before Ma Zhiming's family set off. No matter what the quality of this batch of fruits was, Ma Zhiming would definitely not hesitate to do Xia ruofei a small favor.

Therefore, the two of them didn't look like they were on an inspection, but more like they were on an outing or having a farmhouse. Their expressions were also very leisurely.

However, when the lychees entered their mouths, their eyes lit up.

As members of Hong Kong's wealthy families, what kind of high – end fruit had Ma Zhiming and Tian Huixin not eaten? However, the Taoyuan organic lychee still gave them a breathtaking feeling.

Especially the natural sweet taste, it made the two of them feel like they couldn't stop.

Little Huanhuan, who was beside him, shouted happily, "It's so delicious! Brother ruofei, I want more!"

Xia ruofei smiled lovingly. He peeled another lychee and fed it to Huanhuan.

While eating, Huan Huan said vaguely, "Mom, dad, ruofei Gege's lychees are much more delicious than ours!"

Ma Zhiming and Tian Huixin couldn't help but reveal a strange expression. It was indeed a little embarrassing that a world – Class tycoon couldn't enjoy this kind of fruit.

However, a child's words carried no harm, and what Huanhuan said was true.

Xia ruofei smiled and said, "Huanhuan, eat more if it's delicious. Brother ruofei has enough fruits here! But you'd better leave some space in your stomach, there are still very delicious cherries over there!"

"En!" Huan Huan nodded heavily.

After tasting the lychees, they walked to the cherry Garden.

When they saw the purple – Red cherries, which were almost the size of ping – pong balls and were crystal clear, Ma Zhiming and Tian Huixin couldn't help but take a deep breath.

The air was filled with the faint fragrance of natural fruits, which made people feel relaxed and happy.

The appearance of these cherries was too good. They were simply comparable to the peach Garden vegetables, like a piece of art.

Very quickly, Huanhuan, under Xia ruofei's protection, impatiently went up the tree to pick a lot of cherries.

After Ma Zhiming's family tasted the cherries, they were all conquered by the deliciousness without exception.

Huan Huan kept stuffing the juice into her mouth. Her pink cheeks were stained with the purple – red fruit juice, but she did not notice it.

Ma Zhiming and Tian Huixin looked at each other. They had come with the intention of returning a small favor to Xia ruofei.

However, after some inspection, Ma Zhiming found that the organic fruits of Paradise Corporation were fully qualified to enter the premium fruit stores under Hengfeng group. It was not an exaggeration to say that even in the high – end fruit sales chain of Hengfeng group, there was no fruit that could compare to paradise lychees and paradise cherries.

Ma Zhiming's attitude had completely changed. He said with a trace of enthusiasm, "Xia Sheng, the quality of Taoyuan fruit is beyond my expectations. This kind of high – end or even top – grade fruit is exactly the same as the positioning of our premium fruit store under Hengfeng. I hope to be fully in charge of the sales of all the fruits for your company this year. The pricing can be decided by you! I can also decide to waive the channel fees, you only need to pay the necessary logistics and labor costs!"

Ma Zhiming was now completely conquered by Taoyuan fruit. Even if he didn't earn a single cent, he was still willing to act as an agent for such top – grade fruits.

This was a very good promotion for Hengfeng's high – end fruit brand. The invisible profit was far higher than the profit of the channel fee.

Xia ruofei smiled and said, "Mr. MA, I'm afraid there's no way to be a full agent. Our paradise Corporation is currently focused on the domestic market. Although your fruit chain store also has branches in the country, its position is too high – end and too niche. From the perspective of our brand promotion, I definitely need to allocate a portion of the quota to other mass – Market super – Commercial channels."

Xia ruofei had an unusual relationship with Ma Zhiming's family, so he didn't beat around the bush. Instead, he spoke his mind directly.

Ma Zhiming revealed a trace of regret, but he quickly said, "I understand. Xia Sheng, then please give us as much as you can if the conditions allow!"

"That's for sure!" Xia ruofei smiled and said, "we're old friends. I'll definitely do what I can. Mr. MA, I'll try my best to give your company about half of the quota! I really can't do anything about the other half."

"Thank you!" Ma Zhiming was overjoyed when he heard that. Thank you!"

Xia ruofei continued, "by the way, our farm has been expanding recently. It's about to be checked and accepted. By then, our production capacity can be increased by about three times. We should be able to increase the quota of paradise vegetables for you."

"That's really good news!" Ma Zhiming said happily. At the moment, Peach Garden vegetables are in short supply in all the major hotel chains and high – end clubs around the world!"

In fact, Ma Zhiming had wanted to ask Xia ruofei to supply more Taoyuan vegetables for a long time. However, he knew the scale of Taoyuan farm. In order not to put Xia ruofei in a difficult position, he had never mentioned this.

Now that Xia ruofei had taken the initiative to mention it, Ma Zhiming was naturally overjoyed.

Ma Zhiming's company was very busy, and Huanhuan had to participate in some talent learning during the summer vacation. Therefore, their family had to return to Hong Kong tomorrow. It was also because of this that they had to use a private jet this time.

## **Chapter 727: All allocated (2)**

Therefore, after the inspection of the orchard, Ma Zhiming and the others proposed to leave. After all, he had to visit his old father – in – Law, professor Tian, since he was going back to the mainland. Otherwise, it would be unreasonable.

Xia ruofei had wanted to keep Ma Zhiming and his family for dinner, but seeing that they were really short on time, he decided not to stay at the Gulfstream. He brought the unsatisfied Huanhuan to pick more lychees and cherries and asked her to bring them back to eat. At the same time, he also brought some for professor Tian and Tian Huilan.

Ma Zhiming's family came and went in a hurry, but the cooperation was finally settled.

Ma Zhiming and Xia ruofei did not need to personally handle the specific matters such as the supply and quota. They could just let Feng Jing and the Hengfeng group's office in the southeast province connect.

Feng Jing, who had accompanied Xia ruofei on the inspection, was full of admiration for her young boss when she saw that the Prince of Hong Kong's Hengfeng group was so polite to Xia ruofei.

That afternoon, the sales manager of Ding Feng winery, Li Jing, personally came to Tao Yuan farm to report to Xia ruofei with the preferential conditions offered by the major cooperating super – Commercial channels.

Hence, Xia ruofei gathered the middle – rank and above staff in the administrative team for a meeting to discuss the quota.

Cao tieshu had already brought a few experienced farmers to visit the entire Orchard. Their estimated yield was similar to Feng Rao's estimation the day before yesterday.

The lychees were about 5000 kilograms, and the cherry production reached 55000 kilograms.

Of course, the specific output would only be known after all the crops were harvested and weighed, but it would not be too different from the estimated output.

The Hengfeng group was taking the high – end route, so they had a higher compatibility with the Paradise brand. In addition, Xia ruofei had promised Ma Zhiming that he would favor the quota, so Xia ruofei directly decided to give Hengfeng Group A quota of 50000 catties of lychees and 20000 catties of cherries.

As for the other cooperative super – Commercial channels, the preferential conditions offered were mostly the same. Most of them promised to give the most eye – catching and best sales booth, and also give a discount on the channel fees.

After everyone's discussion and Xia ruofei's weighing of the pros and cons, they finally decided to give Walmart, which owned Sam's Club, and Yong Hui, which was deeply involved in local farming, a certain amount of preferential treatment. They would give these two channels 10000 catties of lychee and 5000 catties of cherries respectively.

.....

The other channels, as well as Xijiang Moon Club and lingji restaurant, split the remaining 40000 pounds of lychees and 15000 pounds of cherries.

After this year's fruit quota was set, Feng Jing's administrative team immediately got into action. They contacted the Hengfeng group's Southeast Province Office and many cooperating super – Commercial channels to confirm the details of the delivery.

As for the price of the two fruits, Feng Jing did not object to Xia ruofei's decision after studying the market. Hence, the price remained at 100 yuan per kilogram of lychees and 300 yuan per kilogram of cherries.

All of the business partners took this price for granted, and no one raised any objections.

This meant that this batch of fruits would bring Xia ruofei an income of about 12 million Yuan.

Although this was not much compared to selling the high – grade Drunken Eight Immortals wine or Iron Skin maple, and it was only once a year, Xia ruofei was still very happy.

This was because it was of great significance to improve the brand awareness of paradise and enrich the product line of paradise Corporation.

Xia ruofei's goal was to make paradise a world – Class brand. If it was just to make money, there was no need to do low – profit and energy – consuming vegetables and fruits. He could just focus on high – end Ironhide Kaede, Chinese perch, truffle, and so on.

After the meeting to study the fruit quota was over, Feng Jing called Xia ruofei to her office.

As soon as Xia ruofei entered the office, he saw Lin Qiao in the office. She was looking at something on her Apple laptop.

“Qiao’ er!” Xia ruofei smiled and said, “you’re really here for an internship!”

“Of course!” Lin Qiao raised her chin and said, “do you think I’m joking?”

Feng Jing walked over with a smile. “Chairman,” she said, “I invited you here because we’ve finished the design for the exterior packaging. Please take a look.”

“Oh? You’re quite efficient this time!” Xia ruofei said with a smile.

“That’s a must!” Feng Rao laughed and said, “it’s your fault for assigning tasks so quickly every time. It’s all thanks to little sister Lin Qiao’s help this time. ”

Xia ruofei widened his eyes and pointed at Lin Qiao. “Qiao’ er? What could she do to help? It’s already good enough that I didn’t cause you any trouble, right?”

“Brother ruofei, you’re looking down on me again! Hmph!” Lin qiaojiao said angrily.

Feng Rao smiled and said, “Chairman, little sister Lin Qiao has really helped me a lot this time!” Let’s take a look at the design first!”

Feng Jing gestured to Lin Qiao. Lin Qiao pouted and turned the laptop screen to Xia ruofei. "There! Let's see!"

Xia ruofei looked at Lin Qiao's computer screen. It was the rendering of the box.

He took a look and couldn't help but show a surprised look. The packaging design really made his eyes light up.

The design of the outer packaging was very simple. The base color was a simple and elegant beige color, and the main area was printed with large photos of lychees or cherries.

### **Chapter 728: All allocated (3)**

Xia ruofei could tell at a glance that the source material of the picture was the lychees and cherries produced by Taoyuan farm. However, after some post – editing, the lighting and visual effects were very good. In addition, some water droplets were added in the post – editing, giving it a more layered and three – dimensional feel, making people's hearts beat faster.

The contrast between the red fruit and the beige – White background was very strong, giving off a fresh and tender feeling.

Next to the picture of the fruit was the green font "Taoyuan organic lychee/Taoyuan organic cherry". Next to it was a row of small green words "pure natural good taste".

The size, style, and position of these words had obviously been carefully selected. They were arranged in a picturesque disorder and looked very designed.

Between the picture of the fruit and the text, there was a green color block running through the entire side. The big LOGO of paradise Corporation was printed on this color block, and it was very eye – catching.

The front and back sides were exactly the same design, and the two sides introduced the Tao Yuan brand in green font, the quality of Tao Yuan fruit, nutritional ingredients, and so on. In addition, there was also a green QR code, which was the official WeChat and official Weibo of the Tao Yuan company.

After Feng Jing's administrative team was formed, these channels were quickly opened and there were also specialized employees in charge of maintaining them.

Feng Jing was still very particular about the use of new media.

At the top of the box, there was a plastic handle.

The entire design looked very high – end, but it wasn't heavy or luxurious. Instead, it gave people a fresh, natural, and simple feeling.

Xia ruofei couldn't help but exclaim, "beautiful!" Boss Feng, this design company's standards have improved! It seems like we can have a long – term cooperation with them!"

Feng Rao laughed and said, "What do you mean" improved "?" Their first draft is still the same as before, with a lot of emphasis on color tones. One look and I can tell that it's the feeling of a nouveau riche!"

"Is that so?" Xia ruofei was a little surprised. "The effect is still quite good after the modification!"

“That’s why I said that sister Lin Qiao’s contribution can’t go unnoticed!” Feng Jing said, “she was the one who came up with the basic idea for this version of the design. She even personally followed the other party’s designer and slowly implemented all her ideas into the design draft.”

“Swish!” Xia ruofei couldn’t help but exclaim, “Qiao’ er, I didn’t expect you to have a talent for design! This really makes me look at you in a new light!”

Lin Qiao made a funny face at Xia ruofei and said, “You still dare to look down on me!”

Xia ruofei laughed and said, “yes, yes, yes, it’s all my fault!” Designer Lin, you’ve done a great job this time. I’ll get President Feng to give you a big red packet to commend your contribution to the company, okay?”

“Really?”

“How can it be fake? I’ll honor it today!” Xia ruofei smiled and said seriously, “Qiao’ er, I think you’re really talented in design. Why don’t you take advantage of this summer vacation to learn graphic design software like Photoshop, Illustrator, and redesign? There’s no pressure in having more skills!”

“That’s right, that’s right,” Feng Jing chimed in. “It just so happens that your laptop is pretty good. It should be enough for you to practice drawing.”

“Alright!” Lin Qiao said, “but this self – study should not be easy, right? Sister Feng Rao, please teach me!”

“Sure!” Feng Rao replied readily. I’ve had some contact with it when I was in college, but I’m not very proficient in it. If you have any questions, you can come to me at any time!”

Xia ruofei couldn’t help but clear his throat when he saw the two of them chatting happily.

Feng Jing and Lin Qiao looked at each other with smiles in their eyes.

Feng Rao stifled her laughter and pretended to be serious. “Chairman, what do you think of this design?”

“No problem! I’ll use it!” Xia ruofei said, “inform the other party to start production immediately! Old Cao’s side has already started to organize workers to collect the fruits today, so the progress of the packaging must keep up!”

“Alright!” Feng ke said.

“Oh right, I’ll give pang Hao a heads up later. Go to the finance department and collect ... 2000 Yuan!” Xia ruofei looked at Lin Qiao and said with a smile, “it’s considered Qiao’ er’s design fee. We can’t let the ‘non – staff employee’ who has contributed to the company be disappointed!”

“Alright!” Feng Rao asked straightforwardly.

Lin Qiao said with embarrassment, “Brother ruofei, you’re really giving me a bonus? No need! I can’t ask for money for your help.”

“Why can’t I?” Xia ruofei said seriously, “it’s normal to exchange labor for remuneration.”

"But that's too much ..." He said.

"Many? I don't think it's much at all!" Xia ruofei asked, "what's the most valuable thing now? Creativity! Thoughts! Inspiration! I don't think the design fee of 2000 Yuan is too much for this work. "

Feng Jing nodded her head in agreement. As a Senior Manager, she knew that Xia ruofei's words made sense.

"So this matter is settled." Xia ruofei didn't allow Lin Qiao to decline. "Sign and collect the money today!"

Seeing Xia ruofei's firm attitude, Lin Qiao could only nod and say, "Thank you, brother ruofei ..."

Xia ruofei smiled and said, "Oh right, Qiao' er, give me your ID card."

"What are you doing with my ID card?" Lin Qiao asked with confusion.

However, she still took out her wallet obediently, took out her ID card, and handed it to Xia ruofei.

"You don't have to worry about that!" Xia ruofei laughed and said, "I wouldn't use your ID card to do anything illegal, would I?"

"That's hard to say!" Feng Jing teased, "sister Lin Qiao, I think you should be more careful!"

"Brother ruofei won 't!" Lin Qiao said seriously.

Xia ruofei squinted at Feng Rao and said, "Did you see? My sister knows me best!"

Feng Rao couldn't help but burst out laughing.

Xia ruofei waved the ID card in his hand and said, "Alright, you guys can continue with your work! I'm leaving!"

With that, Xia ruofei turned around and left Feng Jing's office.

He went straight downstairs, went home, and drove the Knight XV. He left the farm with Lin Qiao's ID card and went straight to San Shan city.

## **Chapter 729: Young, rich, and good – looking (1)**

Sanshan city, Bell Tower District.

Grand View Real Estate sales department.

It was a high – end real estate project under the jianda group in the southeast province.

Bell Tower District was the traditional city center of Sanshan city. It could be said that every inch of land was worth its weight in gold. Within a 500 – meter radius of the Grand View Real Estate, all the basic living facilities were basically included, including tertiary Grade A hospitals, large supermarkets, schools, sports fields, subway stations, urban complexes, and so on.

The most important thing was that the children of the owners of the Grand View Real Estate were also divided into provincial key primary schools, the first Central Primary School in the Gong Gong Bell Tower District.

As a result, even though the building's starting price of 25000 Yuan was far higher than the average price in San Shan city, sales were still booming, and it was sold out quickly.

Now, the Grand View Real Estate had basically completed the completion acceptance and was about to be handed over.

The sales office was basically on guard. Although there were still customers coming in occasionally, there were no more houses left.

But today, the atmosphere in the sales office was a little tense.

After the manager received a phone call, he immediately gathered the employees to do a sudden cleaning. Then, he gathered everyone together and emphasized on work discipline. He severely criticized the employees who didn't dress up to the requirements and asked them to rectify it immediately.

The reason was simple. The head office just called to say that the head office's Chairman, Liang Weimin, was coming over for an inspection. He had already set off and was on his way.

Sharpening one's spear in the face of a battle was not fast, but it was also light.

After the sudden reorganization of the sales department, it looked bright and clean, and the employees were all in high spirits. No matter if they had something to do, they all looked busy.

.....

Soon, a black Mercedes – Benz limousine drove to the entrance of the sales department.

The sales manager, who had been waiting there for a long time, quickly stepped forward to open the car door.

"Hello, CEO Liang!" The manager bowed slightly.

Liang Weimin stepped out of the car and nodded slightly. The manager respectfully led the way and let Liang Weimin into the sales office.

The staff had already formed two rows, and as soon as Liang Weimin entered, everyone started clapping.

A faint smile appeared on Liang Weimin's face. He gestured with his hands and said, "Everyone, get busy! I'm here today to take a look around."

The sales manager showed Liang Weimin around. Liang Weimin had a faint smile on his face and looked around as he walked, but he didn't say anything.

The manager became more and more nervous. He didn't know what the big boss was up to today, but at the same time, he was afraid that the chairman would catch him.

After Liang Weimin looked around, he said indifferently, "Little song, it's not bad here. Everyone has worked hard."

Manager Song heaved a sigh of relief and quickly said, "President Liang, thank you for your affirmation and encouragement!"

Liang Weimin nodded, then walked straight to the sofa in the rest area and sat down.

Manager Song was stunned. Why didn't they leave after the inspection? Why is CEO Liang so free today?

However, he naturally did not dare to ask too much. He quickly gestured for a good-looking female employee to prepare tea and desserts.

Liang Weimin leaned back on the sofa and said indifferently, "Xiao Song, go and prepare the keys for 1801 and 1802 of Building 1, as well as 1601 and 1608 of Building 3. I have a friend who will be coming over to look at the houses later."

Only then did Manager Song understand why Liang Weimin had come today. As he heaved a long sigh of relief, he quickly agreed and personally went to prepare the keys according to Liang Weimin's request.

The Grand View Real Estate had already been completed and was in the process of inspection. The next step would be to hand over the house.

In fact, at the beginning of last year, all the houses had been bought up.

Of course, this was for ordinary buyers. In fact, real estate companies would build some "internal houses" in their hands, and these houses that were reserved, whether it was the layout, real estate, orientation, or so on, were relatively good.

These "internal rooms" were naturally reserved for the company's senior management.

Of course, property prices had always been on the rise. There was no cost pressure for real estate companies to build a few apartments, and even if they held them in their hands, they would appreciate in value.

Therefore, this was also a common practice in the industry. When the so-called opening sale was done, no house would really sell all the houses.

After Manager Song went to get the keys, the employees all knew the purpose of Liang Weimin's visit.

The employees who were further away from Liang Weimin couldn't help but whisper among themselves. They were very curious about this customer who was about to arrive.

Normally, Liang Weimin only needed to make a phone call and get the house keys ready. He could also give the other party any discounts or instructions over the phone.

There was only one reason why Liang Weimin came over personally. Yingying was a very important customer.

Just as everyone was speculating and Manager Song was carefully waiting on them, a domineering Black Knight XV off-Road vehicle drove to the entrance of the sales department.

When Liang Weimin saw the car through the floor-to-ceiling glass window, he immediately stood up and personally went out to welcome it.

The sales ladies immediately knew that the customer that CEO Liang was waiting for had arrived. Everyone looked outside curiously.

The Knight XV had a domineering appearance, and it was obviously a super luxury car, which made everyone even more interested.

The car door opened, and a young man in his twenties stepped out with a faint smile on his face.

The young man was dressed in casual clothes and had very refreshing short hair. His facial features did not look particularly handsome at first glance, but when combined together, he gave people a very comfortable feeling.

Especially when this young man stood there, he seemed to have a natural affinity, making people couldn't help but look at him a few more times.

### **Chapter 730: Young, rich, and good – looking (2)**

The eyes of the sales ladies couldn't help but light up. Young, rich, and good – looking, he was definitely the standard rich husband!

Although they knew that the probability of getting close to the young man was extremely low, this did not stop them from secretly sizing him up with fiery eyes.

Liang Weimin had a warm smile on his face. He quickly walked forward and greeted, "RUO Fei!"

The young man driving the Knight XV was Xia ruofei.

Xia ruofei had promised Lin Qiao that he would give her a surprise gift if she did well in the college entrance examination.

Although Xia ruofei had given Lin Qiao a lot of Apple Electronics a few days ago, these things were worth tens of thousands of Yuan. Xia ruofei was not surprised.

Moreover, Hu Zi's mother and Lin Qiao were still renting a house. At that time, Xia ruofei had made up his mind to give them a house after Lin Qiao's college entrance examination.

It was a temporary house, and it would be best if it was an existing house. Xia ruofei didn't have much time to look at the real estate, so he gave Liang Weimin a call after he left.

Liang Weimin's jianda group was in the real estate industry, and he had a few properties for sale in San Shan. He was the most suitable person to look for.

And Liang Weimin was very concerned about Xia ruofei's situation.

Xia ruofei had helped him a great deal when he was purchasing the Phoebe zhennan wood.

When Liang Qichao went to the states, Xia ruofei had suggested that he work at an Australian farm.

The facts proved that this suggestion was very far – sighted.

.....

Liang Qichao's competitor, Liang Xiaojun, worked at the shengbang group in the United States. Although he was also considered to be an average person, he did not stand out in many ways.

On the other hand, Liang Qichao's farm in Australia was doing very well.

In particular, the experimental planting of paradise vegetable seeds in Australia was very successful. Although it was an experimental planting, the vegetables produced had already won a lot of fame in the Hunter Valley area.

One could imagine that after the large – scale planting, Australia's Paradise Farm would definitely rise to fame, and Liang Qichao's status would naturally rise as well.

Hence, Liang Weimin now owed two Xia ruofei's a big favor.

How could he not take Xia ruofei's matter seriously?

Therefore, Liang Weimin immediately went through the properties he was selling in his mind and finally chose the one with the best location and the highest quality, Grand View. He also told Xia ruofei the address and asked him to drive there directly.

Then, Liang Weimin put down the work at hand and personally rushed to the sales office to wait. It could be said that he had given Xia ruofei enough face.

Xia ruofei smiled and said, "uncle Liang, why did you come personally?" That's too much trouble for you!"

"No trouble at all! No trouble at all! I just happen to be free today. " Liang Weimin laughed and said, "ruofei! We have a few good houses in this building. I'll take you to see them!"

"Alright! Then I'll have to trouble uncle Liang!" Xia ruofei said with a smile.

Liang Weimin gestured to the sales manager. The manager quickly took the keys he had prepared and accompanied Liang Weimin and Xia ruofei to the electric car that had been prepared earlier. They headed to Building 3, which was closer to the sales department.

Liang Weimin sat in the car and personally introduced them to Xia ruofei. "Ruofei, we still have four good houses left. Building No. 1 and Building No. 3 are the Kings of the whole building. Their locations are quite good. You can say that it's quiet in the midst of a busy area, and the view is very wide!"

"If uncle Liang recommends it to me, it must be the best." Xia ruofei said with a smile.

Soon, the electric car arrived at Building No. 3.

Although the construction had been completed, the inspection and acceptance work had not been completed yet. There were still a few workers in the building doing some cleaning work, so everyone took a safety helmet at the entrance and put it on. Then, they walked in one after another.

The two houses in Building 3 were both on the 16th floor, and they were located at the two ends of the building, so the lighting was very good.

Both houses were duplexes with an area of about 180 square meters. The layout was very good. Xia ruofei couldn't help but feel a little tempted.

“Uncle Liang, do you still have any flat – Floor apartments?” he asked.

Xia ruofei mainly considered that as Hu Zi’s mother grew older, it would be inconvenient for her to go up and down if she lived in a duplex. Moreover, the area of this apartment was a little too big. It was indeed a waste for just the two of them to live in it.

Besides, with Hu Zi’s mother’s personality, she would definitely not be willing to hire a part – time worker. It was very hard for her to clean such a big house by herself.

When Liang Weimin heard this, he chuckled and said, “You don’t like duplex structures? Then let’s go to Building 1 to take a look! There are still two flat – Level ones left over there. ”

“Let’s go and take a look!” Xia ruofei said.

So, the group went downstairs and walked directly to Building 1, which was diagonally opposite building 3.

As they took the elevator up, Liang Weimin introduced, “”Ruofei, the two houses I have here are symmetrical and have an area of about 120 square meters. Isn’t that too small?”

Xia ruofei laughed and said, “I won ‘t!” It’s quite suitable!”

Soon, the high – speed elevator reached the 18th floor. The sales manager used the key to open the door to Room 1801 and bowed slightly to invite Xia ruofei and Liang Weimin in.

Xia ruofei strode in and looked around. He suddenly felt that this apartment was much more suitable than the two duplexes he had just bought.

Although there were no walls in the room, he could still tell that it had four rooms, two halls, two bathrooms, and two balconies.
