### Chapter 751: Wailing ghosts and howling wolves (3)

The Stingers of bees had barbs. When they left in a hurry after stinging someone, the barbs would still hang on the person's skin, which would usually bring out the internal organs of the bee. Therefore, bees would basically die after stinging someone.

On the other hand, the Stinger of the Hornet did not stab backward, so in theory, it could be "used repeatedly."

After the two bullies were stung, they frantically slapped the Hornets. However, these Hornets had grown in the spirit map space for so long, and their reactions were also very fast. How could they be hit by them?

Often, before the palm could reach him, the Hornet would have already leaped up and ruthlessly bit down on another spot.

The thug's hand hit the place where she had been stung, and she cried out in pain.

In just a few seconds, their heads and faces had been stung more than a dozen times, and they were swelling at a speed visible to the naked eye.

Especially their faces, which were severely affected by the disaster. They were swollen like pig heads, and even their own mothers couldn't recognize them.

Xia ruofei didn't release many Hornets this time. Although he hated these two bullies, he couldn't kill them.

Even if no one could find out after the incident, Xia ruofei couldn't treat human lives like grass. Wouldn't he be a homicidal maniac?

After about 20 stingers, Xia ruofei used his spiritual power to order the Hornets to fly up and still hover around the ceiling of the bathroom.

The shrill screams of the two bullies immediately attracted the attention of the waiters in the corridor. Someone immediately rushed over and heard that the sound came from the women's washroom. They quickly called a waitress in to check.

Lin Qiao had just walked to the door of the bathroom when the waiter waiting outside stopped her and said, "I'm sorry, this bathroom is temporarily unavailable. Please walk a few more steps. There's another bathroom around the corner."

"Oh ..." Lin Qiao also heard the scream from the bathroom and didn't know what happened. Of course, she was dizzy and in a hurry to go to the bathroom, so she naturally wouldn't go in. She just turned her head to take a look and continued to walk in the direction pointed by the waiter.

.....

No one noticed that behind Lin Qiao, near the ceiling of the corridor, there was a Hornet following behind her. Xia ruofei would never let Lin Qiao out of his sight, except when she was relieving herself in the bathroom.

The waitress was also shocked when she entered the room. The two men had been badly stung. After their faces swelled up, their skin became smooth and shiny like balloons that would burst with a press. Their eyes were so swollen that there was only a thin line left, and their lips were also swollen. The two of them were in so much pain that they rolled on the ground, letting out muffled cries.

After making sure that there was no one else in the bathroom, the waitress quickly called her male colleagues in.

"It's a Hornet!" A sharp – eyed person saw the Hornet circling the ceiling and shouted.

Everyone subconsciously hid outside the bathroom. Although there were not many of them, they were too big and looked very scary.

"Quick ... Quick, call security!" A person who looked like a supervisor said in a trembling voice, "also, call 120! Those two guests seem to be in serious condition!"

While everyone was busy, Xue Fei, who was in Room 607, gave Hu Lili a look. Then, the two of them got up and left the room one after another.

Everyone in the room was drunk and no one noticed that two people were missing.

With the exception of Xia ruofei, who had been watching the surveillance in front of the computer, the moment Xue Fei stood up, Xia ruofei immediately ordered the Hornets left in the room. Except for two who were left to monitor the room, the remaining ten Hornets without cameras and four other Hornets with cameras flew out deftly when the door opened.

Xue Fei and Hu Lili had originally planned to go directly to the private room upstairs. Xue Fei's eyes were full of lust, thinking that he would be able to enjoy a good time with women later.

However, as soon as they stepped out of the door, they were shocked by the movement in the bathroom on the right. They turned around and saw that there were a few waiters gathered at the door of the bathroom. In the distance, the nightclub security guards were also rushing over.

Xue Fei's first reaction was that the commotion caused by Hong Mei and her partner was too big and had attracted the attention of the nightclub staff.

"Motherf \* cker! Didn't I tell them to be careful?" Xue Fei cursed in a low voice, "can't you teach that girl a lesson when we get to the private room? F \* ck!"

He was a little worried that tonight's good thing would be ruined, so he anxiously took Hu Lili to the bathroom to see what was going on.

When they arrived at the bathroom, the waiters naturally stopped Xue Fei and Hu Lili. There were ferocious Hornets in the corner, so they couldn't let the guests in. If someone else got hurt, they would lose their jobs.

However, just because humans didn't go in, it didn't mean that the Hornet wouldn't come out.

When Xue Fei and Hu Lili walked to the door of the bathroom, Xia ruofei's spiritual power was released at the same time.

The hornet's nest that had been circling around the bathroom ceiling buzzed and flew out of the door.

The remaining 10 Hornets that followed Xue Fei out of Room 607 also received the order to attack. They flapped their wings and pounced at the two, forming a pincer attack.

When the waiters saw the Hornet suddenly fly out of the bathroom, they were so scared that they stepped back. Xue Fei and Hu Lili, who didn't know what was going on, were also stunned.

The next moment, a buzzing sound was heard as twenty Hornets swooped down toward the two of them.

It was only then that Xue Fei and Hu Lili finally reacted. Their eyes were filled with fear, and they couldn't help but scream. Then, they subconsciously covered their heads and tried to run away.

However, how could the Hornet let them go after receiving the order to attack?

Could two legs be faster than the flying speed of these Hornets? In the blink of an eye, the two hordes of Hornets caught up with their respective targets and stung their heads, faces, and hands.

The wails of ghosts and howls of wolves resounded in the night club again ...

#### **Chapter 752: hidden skill and fame (1)**

The waiters at the side were all stunned. When they came back to their senses, their first reaction was not to save the people, but to cover their heads and flee in all directions.

These Hornets were too terrifying. In just a few seconds, they had already stung people's faces until they were beyond recognition.

Moreover, they were so fierce that they attacked indiscriminately. They didn't even let go of the passer – by guests. Who knew if they would come for him after they stung the two unlucky people who were watching the show? Wouldn't he be out of his mind if he didn't run away now?

All of a sudden, the waiters in the corridor scattered like birds and beasts. The security guards who had heard the news only dared to watch from a distance and did not dare to get close.

Xia ruofei's lips curled up when he saw this scene on the surveillance screen.

Xue Fei deserved to be unlucky for having such a wicked idea on Lin Qiao!

However, Xia ruofei did not want to kill the two of them. Hence, Ma Feng and the rest attacked them together. After they stung the two of them until they looked like pig heads, they immediately flew to the bathroom under the command of Xia ruofei's spiritual power. They flew out of the bathroom's window and found a path tree to wait on.

After the Hornets flew away, the security guards and waiters who were hiding far away carefully came over and sent two more courageous waiters to the men's and women's washrooms to check. After confirming that there were no more hornets, everyone gathered around.

However, no one had any experience in dealing with a bee sting, so they could only ask about the patient's condition and wait for the 120 ambulance to arrive.

Because there were two more unlucky people, they called 120 again. If only one ambulance came, it might not be able to take four people.

The manager of the nightclub also rushed over after hearing the news. Many guests also came to watch the fun, and the corridor was in a mess.

Lin Qiao went to the bathroom further away. After solving the "emergency" problem, she quickly took out the "hangover medicine" that Xia ruofei had prepared and drank it all in one go.

The spirit Heart Flower petal solution had an extremely strong restraining effect on all negative effects, so it was naturally not a problem to sober up.

.....

The reason why Lin Qiao felt dizzy to this extent wasn't because of the alcohol. Instead, it was because of the bottle of water provided by Hu Lili.

After Lin Qiao drank the water, someone came to propose a toast to her. She casually put the water bottle on the table, and Hu Lili took the opportunity to put the sleeping drug that she had prepared in advance into the bottle.

In order to prevent Lin Qiao from falling unconscious in the private room, they didn't use too much of the drug. They only wanted to make Lin Qiao dizzy and slow down her thinking.

This kind of reaction was very similar to being drunk.

When most people realized that they had drunk a little too much, they would go to the bathroom, hide from the alcohol, or wash their faces with cold water.

Just as Lin Qiao was about to go to the bathroom, Hu Lili occupied the bathroom in advance.

Then, he dawdled inside and refused to come out. Lin Qiao had no choice but to go to the public bathroom outside.

There were already two female hooligans in the public bathroom.

According to the plan, they would have a conflict with Lin Qiao, then teach her a lesson in the bathroom and force her to drink more knockout powder. When the drug took effect, they would take her to the private room upstairs that had been booked in advance.

Then, it was Xue Fei's turn. This deranged rich kid wanted to Sully Lin Qiao. What was even more ridiculous was that he had arranged for Hu Lili to record the scene. He was even planning to use the video to blackmail Lin Qiao.

Lin Qiao just didn't want to cooperate with him to cheat during the college entrance examination, but he took revenge on her so viciously. It was obvious to what extent he would seek revenge for the smallest grievance.

After Xia ruofei analyzed the situation, he had basically guessed Xue Fei's plan. Hence, he did not hesitate to command the Hornet to teach them a lesson.

After Lin Qiao took the Chinese medicine concocted from the spirit Heart Flower petal solution, her dizziness immediately disappeared. It could be said that the effect was immediate.

She got some water from the sink and washed her face before walking out of the bathroom.

Lin Qiao wanted to go back to her room to inform her classmates and go home first. It was already past nine o'clock. She didn't want her mother and Xia ruofei to worry, so she planned to go back to the forestry Bureau dormitory and tell them that she was safe.

As soon as she came to the corridor, she saw that there was a lot of noise in front of her. Many people were gathered around the door of the bathroom in front.

Lin Qiao had to pass by the bathroom to return to the private room. She soon arrived at the scene of the incident.

"Excuse me ..." Lin Qiao said softly.

She parted the crowd and prepared to continue walking back to Room 607.

Four people were lying on the floor of the corridor, wailing in pain. Yingying and the other two bullies were also moved to the corridor by the waiters.

Xue Fei and Hu Lili's faces were swollen like pig's heads, and their voices were hoarse. However, Lin Qiao recognized their clothes.

"Xue Fei and Hu Lili?" Lin Qiao was shocked. "What happened to you?"

"Madam, do you know these two people?" The nightclub manager asked.

"I ... I'm not sure ..." Lin Qiao looked at the two of them and said, "they look like my classmates from their clothes."

The manager also looked at the two pig-headed faces and quickly said, "That should be right! Both of them were stung by hornet's bees and we've already called the emergency number. Could you please inform their families?"

"I don't know how to contact their family!" Lin Qiao said with embarrassment. "Why don't ... I go to the private room and talk to our class monitor!"

### **Chapter 753: hidden skill and fame (2)**

"Alright, alright, alright!" The manager said, "then I'll have to trouble you!"

Lin Qiao nodded slightly and then walked back to the private room with faster steps.

In the crowd, she found the class monitor who was singing with others. After Lin Qiao told him what happened, the class monitor sobered up and hurriedly led a few people out.

After confirming that the two unlucky guys who had been stung by the Hornet were really Xue Fei and Hu Lili, the party naturally couldn't continue.

However, there was no need for all 40 people in the class to stay, and the scene was quite chaotic. The class leader who was in charge of organizing the event left a few boys to help, and then asked the students who were familiar with Xue Fei and Hu Lili to inform their parents.

As for the rest of the people, they naturally went back to their own homes to find their mothers.

The class monitor was quite responsible. He didn't forget what he had said before. He even arranged for boys to send some girls whose homes were further and more remote.

Of course, he did it for the sake of safety. Xue Fei and Hu Lili's incident had already happened today. If any girl went home and encountered any safety issues, he, as the party organizer, would have to bear the blame.

However, Lin Qiao's home was in the city, so she declined the class monitor's offer to send her back. She said that her home was not far from here and she could take a taxi back.

The class monitor was busy and didn't care much. After reminding Lin Qiao to be careful, he let her go.

After Lin Qiao left, she hailed a taxi and went back to the dormitory in the forestry Bureau.

Meanwhile, Xia ruofei had already taken advantage of the chaos to recall all the Hornets back into the spirit map space.

He put his laptop into the spirit map space, and then his phone rang.

.....

"Brother Xia, Lin Qiao went out alone and took a taxi." Lei Hu replied, "I'm following behind in the car with little song."

Xia ruofei nodded and said, "yes, thank you!" Report to me after Qiao' er has safely entered the house. "

"Understood!" Lei Hu said.

He couldn't help but sigh in his heart, brother Xia's love for Lin Qiao is really unspeakable! This silly girl didn't know that brother Xia had done so much work behind the scenes, nor did she know that she had almost fallen into a dangerous situation!

Lei Hu and the other veterans were very clear about the relationship between Xia ruofei and Lin Qiao's family. Hence, Lei Hu was very touched. He was full of admiration for Xia ruofei's act of taking care of the will of martyrs and the families of his comrades and brothers.

Just as Lei Hu was about to hang up, Xia ruofei said, ""The other brothers are still waiting for orders downstairs, right? Let them all come up! I'm in Room 605. "

"Brother Xia, this is ..."

"The private rooms have already been reserved. Brothers, come up and sing a song!" Xia ruofei smiled and said, "come over after you escort Qiao' er home. I'll order some food and wine first!"

"Yes!" Lei Hu's heart warmed as he replied. Brother Xia!"

After a while, four or five veterans came to Room 605. Xia ruofei pressed the service bell and asked the waiter to bring a few boxes of beer. He also ordered some dishes that went with the beer and a large bowl of seafood noodles for each person. The Xuanji nightclub mostly sold marinade, side dishes, and snacks. There were not many staple foods to choose from.

Xia ruofei personally gave them a toast to thank them for their hard work over the past two days. Then, he invited everyone to eat their noodles first.

Ten minutes later, Lei Hu called. Lin Qiao had arrived home safely.

When Lei Hu arrived at Room 605, Xia ruofei picked up another can of beer and said, ""Brothers, it's been hard on everyone these two days! I'll give you another toast!"

The ex – soldiers agreed and raised their beer.

Xia ruofei gulped down the can of beer and said with a smile, ""Everyone, start singing! Let's drink the wine!"

Then, he said to Lei Hu, "Hu, I still have something to do, so I'll go back first. Treat the brothers to a good meal and drink. I've paid for the private room. You can play until the closing time!" Don't arrange for our brothers who will be participating in today's operation to take turns tomorrow!"

"Alright, brother Xia, take care!" Lei Hu quickly said.

Xia ruofei nodded and took out a stack of hundred – Yuan bills from his wallet. He handed it to Lei Hu and said, "If you don't have enough wine, continue to shout. In short, everyone must eat and drink well!"

"No, no, we can't drink that much ..." Lei Hu quickly declined.

Xia ruofei laughed and scolded, "nonsense!" This wine is not even enough for you to drink alone! They were all trained in the Army, who didn't know who? You can't go back until you finish spending this money!"

Lei Hu grinned as he took the money and said, "Yes! Thank you, brother Xia!"

The ex – soldiers also expressed their thanks loudly.

Xia ruofei waved to everyone and walked towards the door. After two steps, he turned back and said, ""It's fine if everyone drinks, but you're not allowed to drive under the influence of alcohol! Remember to call for a designated driver!"

For this operation, Lei Hu had rented a seven – seater van, which was why Xia ruofei had reminded him.

"Understood!" Lei Hu and the others said with a smile.

Xia ruofei remembered that this was a nightclub and couldn't help but remind her, ""By the way, it's fine for everyone to drink and sing, but you can't call her miss! That's a matter of principle!"

Lei Hu immediately smiled and said, "don't worry, brother Xia!" We're all long – tested revolutionary soldiers, and we'll never be corrupted!"

The ex – soldiers all laughed out loud.

Xia ruofei also knew that it was the happiest thing for the old soldiers to gather together to drink, brag, and sing military songs. It would be an eyesore to ask a few men to accompany them to drink and flirt, so he was not worried. He just gave them a reminder.

### **Chapter 754: hidden skill and fame (3)**

Xia ruofei waved at the Veterans and left the private room.

The four unlucky ones had been taken away by the ambulance. Xia ruofei knew that the poison was not enough to kill them, but they would definitely suffer.

As for how Deputy – Mayor Xue would fly into a rage and how Hao Jue nightclub would deal with the aftermath, it was not Xia ruofei's concern.

As long as Lin Qiao was fine, he didn't care if Haojue nightclub was unlucky or not.

Besides, it was obvious that Xue Fei had a close relationship with this nightclub. Besides, this kind of place was full of filth. Xia ruofei would not feel guilty at all if he could punish them a little.

Xia ruofei went to the parking lot downstairs, opened the door, and sat in the driver's seat.

However, he was not in a hurry to drive away. Instead, he sat in his seat, took out a cigarette, and lit it. Then, he rolled down the window and began to think while smoking.

There was no doubt that he had taught Xue Fei a lesson this time, and it could be said that he had vented his anger.

However, from Xue Fei's point of view, the failure of Today's Plan was undoubtedly an accident caused by "force majeure."

In other words, not only would he not dispel his malice toward Lin Qiao, but he might even hate Lin Qiao more because of today 's' unexpected disaster '.

It was impossible for Xia ruofei to be by Lin Qiao's side and protect her all the time. Especially after the summer break, Lin Qiao would definitely go to college, and it was likely that she would go to college in another city. By then, Xia ruofei would be even more out of reach.

He didn't doubt that with Xue Fei's vindictive personality, it was possible that he would chase Lin Qiao to the city where her University was located to take revenge on her.

Therefore, he had to find a way to completely solve this hidden danger.

.....

The most thorough method was naturally to make Xue Fei disappear from this world. However, Xia ruofei still had the law in his heart. He was not a bloodthirsty demon. Unless he had no other choice, or was severely threatened or violated his bottom line, he would not kill Xue Fei unless he had a way of seeking death. For example, Liang Haiming.

If he wanted to take Xue Fei's life, he could have sent out ten or a hundred times the number of Hornets tonight. Xue Fei would have died on the spot without any suspense.

He could only think of other ways.

A thought flashed through Xia ruofei's mind. "What if Xue Fei's father, Xue zhenbang, had some problems with himself and suddenly fell from power? What if Xue Fei was also involved in the case and faced imprisonment?

Wasn't this kind of foppish brat's greatest reliance on his father's authority? If his father was in prison, and even he himself was implicated, would he still be able to do anything?

Xia ruofei began to investigate Xue Zhengbang.

If Xue zhenbang was really just a mediocre official who indulged his son and did not break any laws, Xia ruofei naturally could not do anything to him. However, if Xue zhenbang was a parasite of the country, a corrupt official, then he deserved to be out of luck.

However, investigating a Deputy Mayor was not that simple. At least, it could not be the same as investigating Xue Fei. In this kind of investigation, Lei Hu and the others could not play much of a role.

He still had to think of a complete plan! Xia ruofei was so deep in thought that he didn't even realize that his cigarette was almost burnt to the end.

Just then, Xia ruofei's phone on the console vibrated.

He snapped out of his thoughts and snuffed out the cigarette in the car's ashtray. He then picked up his phone and glanced at it.

After seeing the caller ID, Xia ruofei's eyes revealed a strange look. The person who called was not usually contacted! What could be the matter for him to call so late at night?

Xia ruofei quickly picked up the call.

### **Chapter 755: Starry Night rescue (1)**

The caller was Niu Tao, a Lieutenant Colonel from the Military District. Back then, Xia ruofei had a conflict with the Deputy Director of the Linhai town police station because of Lin Qiao and her daughter. After asking Wolf King Guo Zhan for help, the local leaders of the southeast province were alerted. It was this Lieutenant Colonel Niu who accompanied Tian Huilan, who was also the mayor of Sanshan, and Chen Bo, the director of the Public Security Bureau of Sanshan city, to Linhai town overnight to deal with the matter.

Furthermore, Niu Tao had another identity. He was the former Squadron Leader of the lone wolf assault team. The reason why he was transferred to the provincial Military Region was because he had been seriously injured during a mission. After he recovered, his physical condition was no longer suitable for serving in the frontline troops, especially in special combat units. That was why he was transferred to the provincial Military Region.

It was because of this relationship that Xia ruofei and Niu Tao had a natural sense of intimacy. After that time, the two of them had exchanged contact information. They would contact each other occasionally, and Niu Tao had even asked Xia ruofei out for drinks twice.

However, because the two of them did not have much interaction in their work or career, they could be considered as friends of gentlemen, and they did not contact each other often.

It was already so late that day, but Niu Tao suddenly called. Xia ruofei had a bad feeling.

He quickly picked up the phone.

"Hello, brother bull!" Xia ruofei said in a calm voice.

"Blood Wolf, are you at the three mountains?"

Hearing the familiar code name and voice, Xia ruofei couldn't help but open his mouth in surprise. The person on the phone with him was not Niu Tao, but the leader of the lone wolf assault team, Wolf King Guo Zhan, whom he had not seen since he retired from the Army.

Xia ruofei subconsciously straightened his back and said, "Wolf King, I'm in San Shan city now!"

"That's great!" Guo Zhan immediately said. It's not convenient to talk about it over the phone. Go to the military general Hospital immediately, Fire Wolf will be waiting for you at the door!"

"Fire Wolf" was Niu Tao's codename in the lone wolf assault team. He was in the same batch as Guo Zhan, and the two of them had been through life and death together, just like Xia ruofei and Lin Hu.

"Understood!" Xia ruofei replied without hesitation, "I'll be there in ten minutes!"

.....

With that, Xia ruofei immediately started the car. The Knight XV roared and rushed out of the parking lot like a wild horse. It screeched to a stop at the entrance. The huge car did a beautiful drift and rushed to the road.

Although there were still a lot of cars on the street at nine o'clock, it was no longer the rush hour traffic. The Knight XV off-Road vehicle nimbly shuttled through the sparse traffic. With the dull roar of the engine, the car rushed in the direction of the military general Hospital.

Xia ruofei operated the car skillfully. It looked like he was in danger, but in reality, he was moving smoothly through the traffic. At the same time, he communicated with the spirit map space with his mind and took out two porcelain bottles. Inside were two bottles of spirit Heart Flower petal solution that he usually had. Both were the kind with higher concentration.

At the same time, he also took out a set of silver needles for acupuncture from the space and put them in his bag.

Guo Zhan had urgently called him at the military general Hospital. There was an 80% chance that there was an emergency, and it was very likely that someone had been injured, and the hospital had encountered some difficulties in treating them.

After all, his experience in the past year after his retirement was no secret to Guo Zhan. Xia ruofei had mentioned it during the last phone call. Guo Zhan must know that he had rich experience in dealing with some difficult and miscellaneous diseases.

Xia ruofei recalled that two or three months ago, when he was on the phone with Guo Zhan, he said that he might come to the three mountains to see him after a while.

Xia ruofei was sure that Guo Zhan was here for a mission in the southeast province. However, due to confidentiality, Xia ruofei, who was very familiar with the rules, did not ask for details.

Now it seemed that Guo Zhan had personally led a team to carry out a mission, and this mission seemed to have some trouble.

Xia ruofei's mind quickly analyzed so many things.

The military general Hospital was also in the Bell Tower District. Xia ruofei used the Knight XV's speed as much as possible, so it took him more than eight minutes to reach the hospital.

He immediately saw Niu Tao, who was dressed in casual clothes. He was standing under the sign of the General Hospital and looking around with a worried expression.

Xia ruofei blinked twice and honked a few times. Then, he rolled down the window and waved at Niu Tao.

Niu Tao looked over and saw that Xia ruofei was in the driver's seat. He quickly jogged over and pulled out the front passenger seat. "Little Xia, drive forward. I'll show you the way!"

"Brother bull, what's the situation?" Xia ruofei asked as he started the car again.

"I'm not too sure about the details." Niu Tao said in a heavy tone, "you know the rules. Guo Zhan definitely wouldn't tell me so much. I only know ... That their losses this time are not small ... Turn right at the intersection ahead!"

After Niu Tao pointed Xia ruofei in the right direction, he continued, ""One person was sacrificed, and one person was seriously injured. He is still being resuscitated in the specialist building. Academician Cai zhengbin, the director of the General Hospital's major surgery department, is personally acting as the chief surgeon. However, the situation is not very optimistic. Guo Zhan is also a little desperate, so he thought of calling you over ... We can only make a last resort in a desperate situation ... Sigh!"

Although Niu Tao's words were not very pleasant and he seemed to have no confidence in Xia ruofei, Xia ruofei was not unhappy at all because his attention was not on the rest of the words.

## **Chapter 756: Starry Night rescue (2)**

One person sacrificed, another person sacrificed ...

These four words were like a heavy hammer pounding on Xia ruofei's heart.

Although the lone wolf assault team was a high – ranking force, it did not have many members. This type of Special Forces assault team was made up of elite soldiers. Those who were selected were the elites of the elites. Hence, Xia ruofei was very familiar with all the comrades in the assault team. Everyone had a very good relationship with each other.

The death of one person meant that a familiar comrade would leave him forever. Xia ruofei had only retired for about a year. Even if there was a new member in the lone wolf assault team, it was

impossible for him to be sent out to carry out an important mission that even Guo Zhan had to personally take action. Hence, the possibility of the death was high.

There was a Wall of Heroes in the lone wolf assault team's history Library, on which every comrade who had died was printed. Lin Hu was the 165th and the latest one.

Now, there was another comrade who used to crawl and roll on the training ground with him, sweating like rain, but he was about to become an icy photo on the Wall of Heroes.

Xia ruofei felt as if his heart was being cut by a knife. He could not help but clench the steering wheel tightly.

"Little Xia! Little Xia!"

Niu Tao's voice brought Xia ruofei back to his senses. He said, "I'm sorry, brother bull, I was distracted ..."

"We've missed the intersection ..." Niu Tao said helplessly. "Let's go back a little!"

"Oh! Alright!"

Xia ruofei immediately put the car in reverse and drove the car back a dozen meters. Then, he turned left according to Niu Tao's instructions and continued driving.

Finally, the car stopped in front of an eight – story building with white tiles on the outside.

.....

This was the specialist building of the General Hospital, which specialized in treating leaders of the garrison system at the Deputy military level and above, as well as leaders of the provincial level and above. It was similar to the South Building of the 301 Hospital.

The wounded were definitely not qualified to stay in the specialist building, but the lone wolf assault team was an exception. Every member of the lone wolf assault team was the heart of the military region's chief. Moreover, the injured was in a critical condition, which was a matter of life and death. Therefore, the chief of the military Region personally called to coordinate, and the General Hospital naturally provided the best medical resources immediately.

Xia ruofei and Niu Tao got out of the car and ran up the stairs. Niu Tao flashed his special pass at the Sentry post and the two of them ran into the building without any obstacles.

He took the elevator to the sixth floor. As soon as he got out of the elevator and came to the corridor, Xia ruofei saw the wolf King Guo Zhan, who he had not seen for a year.

Guo Zhan was wearing a black tight – fitting short – sleeved T – Shirt and a pair of army green tactical pants. His body was stained with a lot of dust. He leaned against the wall of the corridor, and his face clearly showed a trace of fatigue.

This was something that Xia ruofei had rarely seen in his entire military career. Guo Zhan seemed to be always full of energy. Whether it was in battle or training, his sharp tiger Eyes were always full of energy, as if he never knew fatigue.

But today, Guo Zhan's eyes seemed to carry a trace of fatigue, and even a trace of confusion. It was obvious that the accident in the mission this time had dealt him a heavy blow.

"Wolf King!" Xia ruofei's voice was trembling.

After leaving the Army for more than a year, Xia ruofei had a relationship. He even had a night of fun with the Italy beauty Monica. His business was also doing well. However, the moment he saw the old Chief of the Army, Xia ruofei seemed to have returned to the military camp in a straight line and square blocks, back to the danger – filled tropical jungle, back to the unforgettable time when he took a bullet for his brothers and comrades ...

Guo Zhan raised his head abruptly. When he saw Xia ruofei, his eyes seemed to be burning with hope again.

He quickly took a few steps forward and said, "Blood Wolf!" I heard that you've successfully treated many difficult – to – treat illnesses after you retired from the Army. Are you good at detoxification?"

"Wolf King, what's the situation now?" Xia ruofei asked calmly, "which brother is injured? What's the exact situation?"

Xia ruofei knew that the situation of the injured must be very urgent, so he held back his grief and did not ask which of his comrades had died.

It was important to prioritize matters. This was the first lesson that Guo Zhan had taught Xia ruofei after he joined the lone wolf assault team. This included rescuing injured comrades on the battlefield. There was a priority, which was not simply differentiated by the severity of injuries.

"Jin Gang was the one who was injured," said Guo Zhan. "He was shot in the abdomen, which penetrated the lower lobe of the liver, the stomach, and the intestines. The bullet stopped at the lower left side of the abdomen. After the specialists from the General Hospital tried their best to save him, the bullet has been taken out ..."

Xia ruofei pursed his lips and said, "the bullet was dipped in poison?"

Just now, Guo Zhan had asked him if he was good at detoxification, so he had already guessed it.

Guo Zhan's expression dimmed and he nodded, "Yes, if it's just an external injury, it won't be life – threatening. The real problem is the poison on the bullet. The bullet stayed in the abdominal cavity for a long time, and the poison has already entered the blood. The General Hospital used an antiviral serum, but it didn't work. It should be an unknown poison, and flamy is in a very dangerous situation now!"

"Didn't the General Hospital collect any blood samples for analysis?" Xia ruofei asked.

"Of course there is!" Guo Zhan said. However, we have basically confirmed that this is an unknown poison, and it is quite difficult to detoxify it. Now, the specialists in the General Hospital are having an emergency consultation to try a new treatment, but Xiao Ling ... I'm afraid she won't be able to hold on for long!"

When Guo Zhan said this, he couldn't help but punch the wall heavily. His soldier was lying on the hospital bed, and the god of death was approaching step by step, but he was powerless. This feeling made Guo Zhan feel so much pain that he wanted to die.

A child – like face flashed across Xia ruofei’s eyes.

Jin Gang was a first – Class Sergeant, who was now called corporal. He had joined the lone wolf assault team three years later than Xia ruofei and was very popular in the team. Everyone took good care of this nineteen – year – old little brother.

“Wolf King, take me to see Xiao Ling immediately!” Xia ruofei replied, “I might have a way, but ... The hospital ...”

“You don’t have to worry about that!” Guo Zhan was indeed Xia ruofei’s old chief. The tacit understanding between the two did not weaken with the passage of time. Xia ruofei had only spoken halfway when Guo Zhan had already understood his thoughts. “Just follow me!”

With that, Guo Zhan led Xia ruofei along the corridor for more than ten meters and arrived at the door of the intensive care unit. As Jin Gang’s vital signs were very unstable and his condition was extremely dangerous, he was directly arranged to be in the ICU after the operation.

The chief of the military Region had personally called to ask about this matter, so what Xia ruofei was worried about did not happen. Guo Zhan only went over to negotiate a few words, and the hospital immediately agreed to let Guo Zhan and Xia ruofei enter the intensive care unit.

After strict disinfection, the two of them wore sterile clothes and went to the ward where Jin Gang was.

Jin Gang was lying on the hospital bed and had fallen into a coma.

The patient had been seriously injured and had just undergone a major operation. Because of the blood loss, one side of the patient’s face was somewhat pale.

However, Jin Gang was different. His face had a layer of dark gray, and even the skin on his body was the same color. It was obvious that the poison had entered his body through the blood circulation. If he did not treat it in time, Jin Gang’s life would soon be lost.

Guo Zhan turned his gaze to Xia ruofei. Since they met, Xia ruofei had been very calm. This old subordinate that he had personally selected from the field army back then seemed to have changed a little after being away for more than a year. He was so calm that he seemed to be more grounded.

There was no doctor on duty in the ICU. The experts were all in an emergency meeting to study the detoxification treatment plan. The nurse was also waiting outside. Only when Jin Gang’s vital signs showed major signs and the instrument gave a warning would the nurse call the doctor in an emergency and rush in to do emergency treatment.

This was also the most ideal environment that Xia ruofei needed. He did not want to be disturbed by others while he was treating Jin Gang.

Xia ruofei nodded slightly to Guo Zhan, then took the responsibility to sit in front of Jin Gang’s bed. He grabbed Jin Gang’s hand and began to take his pulse.

Guo Zhan looked at Xia ruofei anxiously, hoping to get some useful information from the change in Xia ruofei’s expression. However, Xia ruofei kept his eyes closed and his face was as calm as an ancient well.

After a while, Xia ruofei let go of Jin Gang’s hand and took out a leather bag from his bag.

After unfolding it on the bedside table, Guo Zhan saw that it was a whole set of acupuncture silver needles.

Xia ruofei undid Jin Gang's shirt and used two fingers to pick up a long silver needle. Then, without hesitation, he accurately inserted the silver needle into the shenfeng point on his chest ...

### **Chapter 757: Just right (1)**

Following that, Xia ruofei's movements were very fast. In the blink of an eye, he had inserted silver needles into seven or eight acupuncture points. It was quite a dazzling feeling.

Xia ruofei's pulse – checking and acupuncture were not all covered up in front of Guo Zhan. He had been self – learning Chinese medicine all this time and it was not in vain. Now, he was no longer an outsider in the theory and practice of Chinese medicine.

This acupuncture naturally could not detoxify the poison, but it could effectively slow down the blood circulation and prevent the poison from spreading further.

Of course, if he wanted to completely detoxify the poison, he would naturally need the spirit Heart Flower petal solution.

Xia ruofei did not take out the silver needles on Jin Gang's body. Instead, he stood up and took out a porcelain bottle from his bag that contained the solution of the spirit Heart Flower petals.

When Xia ruofei received Guo Zhan's call, he had already thought of the possible situation, so he had taken the flower petal solution from the spirit map space in advance.

Furthermore, it was a petal solution with a higher concentration.

Now, it seemed that this decision was very correct. In Jin Gang's situation, the poison was obviously very dangerous. Moreover, it had spread to the whole body along with the blood. It could be said that he was in danger. If the petals of the spirit Heart Flower were diluted too much, it was possible that it would not have a good effect.

Xia ruofei took a look at Jin Gang's condition and realized that he had undergone a tracheotomy after the operation. He had been put on a ventilator, so it was obviously not realistic to feed him the medicine directly.

Xia ruofei's eyes moved up and he suddenly had an idea.

After the patient was put on the ventilator, if he needed to eat, he would need to use the gastric tube and put it through the nose. Of course, the patients in ICU didn't need to eat because most of them had lost the ability to chew. Therefore, all the nutrients and electrolytes they needed were sent into the patient's body through an intravenous infusion.

Which meant an intravenous drip.

One of the bags was almost finished. Xia ruofei walked to the other side of the bed. There were some commonly used medical equipment on the small shelf, including disposable syringes.

.....

Xia ruofei picked one up and tore open its outer packaging. Then, he inserted a syringe into the small porcelain bottle and sucked in a syringe full of the spirit Heart Flower petal solution.

Then, Xia ruofei turned on the flow regulator on the infusion set and temporarily cut off the flow. Without hesitation, he picked up the syringe and inserted it into the medicine adding port, injecting the spirit Heart Flower petal solution into the infusion bag.

When Guo Zhan saw this scene, he opened his mouth, but in the end, he didn't make a sound to disturb Xia ruofei.

He had absolute trust in his comrade, so he kept quiet about Xia ruofei's obviously violation of the operating rules of the intensive care unit.

Xia ruofei sucked a few times in a row, and the originally shriveled infusion bag became full again. He kept the porcelain bottle that was half – filled with the petal solution into the bag, then turned on the regulator and started the infusion again.

This might be more effective than taking the petal solution, because the solution was directly injected into the vein, and the stomach didn't need to absorb it.

Of course, the most effective way was to inject it directly. After all, the infusion speed was slower.

However, Xia ruofei had never studied nursing, so he could not do this job well. It was even more impossible to find a nurse outside to do it. They could only turn a blind eye to it outside. If they injected the patient with an unknown drug without a doctor's notice, they would lose their jobs if they were pursued!

Moreover, Xia ruofei had just checked on Jin Gang's condition. It was stable for the time being and would not be in any danger for the next few hours.

As more and more of the spirit Heart Flower petal solution was injected into his body, his life would naturally not be in danger. This way, the recovery process would be slower and not too eye – catching.

After Xia ruofei was done, he nodded slightly to Guo Zhan and said, ""Captain, don't worry too much. This is an antidote that I specially concocted. It has a very good effect on many poisons. I just happened to have two bottles in my bag today. I made it in time."

"You've worked hard, Blood Wolf," Guo Zhan said, "regardless of whether Xiao Ling can survive this time, I'm very grateful to you!"

"Wolf King, we're all brothers. Xiao Ling was even a soldier that I've personally led. Don't you think you're treating me like an outsider by saying this?" Xia ruofei said.

Guo Zhan reached out his hand and patted Xia ruofei's shoulder heavily. He didn't say anything else.

At this moment, silence was better than words.

Xia ruofei and Guo Zhan didn't leave the ICU. They moved chairs and sat down together, paying attention to Jin Gang's situation.

The two of them had a tacit understanding. Xia ruofei did not ask Guo Zhan about the mission, nor did he ask which of his comrades had died.

In fact, the two of them were silent most of the time. Occasionally, they would talk about the past.

Time passed by. In the ward, there was only the regular beeping sound of the monitoring Instrument. Guo Zhan raised his head and glanced at Jin Gang by chance. He could not help but rub his eyes and take a closer look.

Then he said, "Blood Wolf, come and take a look. I don't know if it's my illusion, but flamy's face seems to be much better."

Of course, this was not an illusion. When the two of them had just entered the door, Jin Gang's face was dark gray, and the color of his skin was also very dull. What was more shocking was that although the wound had been treated to reduce inflammation, it was still greenish – Purple in color. It was obvious that he had been deeply poisoned.

But now, the dark gray color had faded a lot, and a trace of blood had begun to return to his face. The terrible purple – Green color around his wounds had also faded a lot.

Xia ruofei smiled and said, "Wolf King, it seems that my antidote is effective!" At the very least, Xiao Ling's vital signs are very stable, and they're showing signs of improvement."

## **Chapter 758: Just right (2)**

Guo Zhan let out a long breath and patted Xia ruofei's shoulder. "Brother! Thanks!"

Xia ruofei nodded with a smile and also patted Guo Zhan lightly. He could see that Guo Zhan's mood was more excited. This old leader, who was extremely calm, had a lot of emotional fluctuations today, which was a little different from the Guo Zhan in his impression.

Xia ruofei asked Guo Zhan to sit down and calm down. Then, he looked up at the infusion bag. There was still about one – third of the spirit Heart Flower petal solution left.

Xia ruofei nodded to himself. After using the spirit Heart Flower petal solution so many times, he was more experienced in controlling the concentration and dosage. This time, he controlled it very accurately.

If the concentration of the solution was too high and the amount used was too large, there would be a situation where not only would the poison be completely eliminated, but even the external wounds would start to heal. This would be too shocking.

It seemed that today's dosage was just about right. Due to the length of the syringe, the spirit Heart Flower petal solution in the small porcelain bottle was not completely extracted. However, Xia ruofei did a rough calculation and felt that the dosage should be about right. The poison that even the specialists in the General Hospital were unable to do anything about couldn't be completely removed in one dose, right?

There were also gunshot wounds and wounds left by surgery. They couldn't be healed without medicine, right?

So ... Xia ruofei looked at Jin Gang, who was lying on the hospital bed in a daze, and said silently in his heart, "Xiao Ling, I can only let you suffer a little.

The men of the lone wolf assault team were not afraid of death, so what was a little pain?

Xia ruofei and Guo Zhan didn't make a sound. When the bag of petal solution was finished, the nurse outside came in to change the bottle.

The nurse was still a little strange. She felt that this bottle took much longer than expected. She looked at Xia ruofei and Guo Zhan suspiciously. However, their superiors had specifically instructed that the patient's situation was special and the confidentiality level was extremely high. Therefore, Guo Zhan could act as he pleased.

Therefore, even though the nurse found it strange, she did not say anything.

As for the monitoring images of the ICU, the nurses naturally had no access to them. Xia ruofei knew that Guo Zhan would definitely coordinate for them to be deleted, so he was not worried.

.....

After the nurse changed the bottle, she checked Jin Gang's various physical indicators as usual. She could not help but let out a low cry of surprise.

In particular, Jin Gang's complexion and skin color had obviously improved. Even people without medical professional knowledge could see it.

"Nurse, is there a problem?" Guo Zhan asked.

"The patient seems to be getting better," The nurse said excitedly, "I'll report to director Cai immediately!"

After that, the nurse ran out in a hurry.

Xia ruofei and Guo Zhan looked at each other. Although their masks covered their expressions, they quickly read each other's intentions from their eyes.

"Blood Wolf, if you're afraid of trouble, why don't you leave first?" Guo Zhan said.

Guo Zhan was very clear about the significance of Xia ruofei's treatment. He knew that this old subordinate of his must have some secrets, but Guo Zhan didn't care. Who didn't have some privacy? Xia ruofei would have told himself if he could.

Moreover, in a unit with such a high level of confidentiality, Guo Zhan had long been used to keeping his mouth shut. He also had many things that he could not tell Xia ruofei, even if they were as close as brothers, such as this operation.

Xia ruofei chuckled. "Don't worry. Your security level is the best shield. However, don't take off my mask. Also, I'll have to trouble you to get rid of the surveillance footage today."

"Don't worry!" Guo Zhan nodded.

After a while, academician Cai zhengbin, the director of the surgery department of the General Hospital, entered the ICU with a group of experts. They immediately did a comprehensive examination of Jin Gang's condition.

The results were soon out. The amount of toxins in xufang's blood had been reduced by 80% compared to the examination after the operation.

In other words, only about 20% of the original poison remained in his body.

Academician Cai zhengbin said excitedly, "this is great!" You've won us precious time for follow-up treatment!"

Guo Zhan bowed to the White-haired old academician and said, "Academician Cai, I'm very grateful to you for your hard work in saving the life of an ordinary soldier. However ..... I think we have already found a way to deal with the poison, so we won't trouble you with the detoxification."

Cai zhengbin was stunned for a moment, and the experts and students behind him all looked unhappy.

What the hell is this?

However, Cai zhengbin didn't think that it was a surprise at all. He heard unusual information from Guo Zhan's words.

"Comrade, you ... You're saying that you've found an effective anti-Poison drug?" Cai zhengbin asked excitedly.

Guo Zhan nodded his head with absolute certainty.

Cai zhengbin immediately turned his eyes to Xia ruofei, who was next to Guo Zhan. However, Xia ruofei was wearing a sterile suit and a mask, so he couldn't recognize her at all.

Guo Zhan seemed to have seen through Cai zhengbin's thoughts and said with a trace of apology, "Academician Cai, I'm sorry ... This matter is highly confidential. I have no right to disclose the anti-Poison drug and treatment plan, including the identity of this comrade. Please understand."

A chief physician behind Cai zhengbin could not help but frown and said, "This is against the rules, right? The patient was treated by our hospital, and chief Cai was the chief surgeon for the operation. We also organized a consultation overnight regarding the poison resistance therapy. You used unknown drug without the hospital's permission, and you kept it a secret from us ..."

Cai zhengbin turned around and glared at the chief physician. He said, "Little Huang, mind your words!"

Most of the experts in this group of lecturers and assistant lecturers were Cai zhengbin's students. Many of them had followed Cai zhengbin from undergraduate, master's, and PhD students. Therefore, when academician Cai said this, they all quieted down.

In fact, Cai zhengbin knew very well what his students were thinking. This unknown poison was so fierce and so difficult to treat. If he could study the principle and dig deeper, it would definitely be an excellent topic. A little sorting out would be a very good result.

Now that the poison resistance treatment had nothing to do with them, how could they not be anxious?

And it was very obvious that the anti – Poison drugs that Guo Zhan and the others found were the right ones, which made the medical experts even more eager.

However, Cai zhengbin also knew that the injured person, including Guo Zhan, who sent the injured person, came from a highly confidential unit, and it was the military chief who called overnight to personally ask about it.

The military chief even called his cell phone and told him that these two people were very important, and that they had to do their best to save the lives of the wounded. At the same time, he also emphasized confidentiality and discipline. He only needed to do the treatment well and should not ask about things that should not be asked.

Academician Cai, who had been in the military for decades, naturally knew the weight of his words. So, after he scolded chief physician Huang, he immediately said to Guo Zhan, "We respect your opinion. In addition to the anti – Poison treatment, our General Hospital will also send the most elite forces in other aspects to ensure that there are no accidents during the recovery period of the injured! If you need anything, you can call me directly."

"Thank you, elder Cai!" Guo Zhan said sincerely.

Cai zhengbin smiled and nodded. Then, he left the ward with the experts from his department. The problem of the unknown toxin had been basically solved. The vital signs of the patient were very stable. There was no need for so many experts to keep an eye on him.

After the doctors left, Xia ruofei grinned and gave Guo Zhan a thumbs up.

Guo Zhan looked at Jin Gang, who was lying on the bed, and said, "Sanguine Wolf, Xiao Ling's condition is basically stable. Let's go out for a smoke?"

"Alright!"

Xia ruofei stood up, and the two of them left the ICU. After changing out of their sterile clothes, Xia ruofei didn't take off his mask and just walked out with it on.

It was definitely not allowed to smoke in the hospital, so the two of them came to the end of the corridor and went to the balcony outside. Guo Zhan took out a cigarette box, took out a cigarette, and threw it to Xia ruofei. Then, he took out a cigarette and lit it up.

Xia ruofei took a deep breath and then let out a long breath. He looked at the dark night sky without saying a word.

However, what was going to come would still come.

"Did Niu Tao tell you everything?" Guo Zhan asked calmly.

Xia ruofei's body trembled slightly. He turned back to look at Guo Zhan and nodded silently. The familiar faces of his comrades appeared in front of his eyes. Who would it be ... Who would unfortunately die in this mission?

Guo Zhan took a few puffs, and the cigarette soon burned to the end. He threw the cigarette butt on the ground and opened his mouth with trembling lips ...

## Chapter 759: Return if there's a battle summons (1)

"It's old Luo ..." Guo Zhan's voice was extremely low.

Xia ruofei's mind was blown. He was in a daze and could not believe his ears.

There were several officers with the surname Luo in the lone wolf assault team, but only one was called "old Luo."

He was Luo Zhicheng, the taxi officer of the lone wolf assault team.

This old soldier, who was affectionately called "old Luo" by the soldiers, was the most senior member of the lone wolf assault team. Even Wolf King Guo Zhan was once a soldier under his command.

Old Luo used to be the squad leader of Guo Zhan's recruits. Later, after Guo Zhan was promoted, he was promoted all the way to the position of lone wolf assault team captain because of his outstanding ability. Old Luo, on the other hand, had not been promoted because of his academic qualifications and other factors. Now, he was already a class two Sergeant Major, equivalent to a class six Sergeant before the sergeant rank reform.

The lone wolf assault team had welcomed a batch of newcomers over the years and also sent away a batch of veterans. However, old Luo had always been a member of lone wolf.

From soldier, squad leader, Acting Squadron Leader to Sergeant, he had become a living specimen of lone Wolf's commando team. He was also the one with the highest prestige in lone wolf apart from Guo Zhan. Even the officers respectfully called him "squad leader Luo."

In fact, although old Luo had always regarded himself as an ordinary soldier, Guo Zhan still respected the person who had led him to the beginning of his Army.

Over the past 20 years, old Luo had gone through countless missions, big and small. He had also risked his life countless times. He had five gunshot wounds on his body and had been awarded second – Class merits many times. It could be said that he was honored and was the true "Soldier King."

As the sergeant of lone wolf, old Luo was the one who organized and implemented the devil's training for the newcomers almost every year. Xia ruofei was no exception.

During training, old Luo was like the incarnation of the devil. All the new members were trained to the point of death. Whether it was the officers or the soldiers, they all respected and feared old Luo.

Xia ruofei still remembered what old Luo had said in the training camp, "The more cruel I am to you now, the more you will thank me in the future! Because on the battlefield, the enemy won't show you mercy!"

.....

In fact, in addition to training, old Luo was usually like a loyal elder. He had smiling lines on his face all day long and took care of everyone.

Xia ruofei would never forget how many times old Luo would come in quietly with a flashlight covered with a red cloth in the middle of the night to check on the patients and tuck everyone in.

Xia ruofei would never forget the first time he took part in a real battle. When the gunshot was heard, it was as if all the blood in his body had frozen and his mind was completely blank. It was old Luo who was by his side, constantly encouraging him until he bravely fired the first shot. During the entire mission, old Luo kept a close distance from Xia ruofei. It was this big brother who was protecting his new comrade who had just joined the team.

At the “old age” of 40 years old, old Luo could still serve in the top special combat unit, and he was in very good condition. Whether it was physical fitness, tactics, shooting, or other special combat professional assessments, many young men could not compare to him.

The team’s 20 – kilometer cross – country record was still maintained by old Luo when he was young, and no one had been able to break it.

After Xia ruofei found out that a comrade had died in this mission, many possibilities popped up in his mind. However, he never thought that the one who had died would be old Luo.

This old Sergeant who had taught him special combat skills step by step, this loyal senior who was both a teacher and a friend, his voice, smile, and the bits and pieces of the past few years suddenly surged into Xia ruofei’s heart.

His eyes turned red in an instant. It wasn’t because of the tears in his eyes. The lone wolf assault team had always been bleeding and sweating without tears. It was because of the boundless murderous intent.

Xia ruofei took a few deep breaths and asked in a hoarse voice, “Where’s the class monitor now?”

Guo Zhan slightly raised his head and looked at the night sky, as if he could see the squad leader old Luo smiling at the two people on the sky screen. He said in a low voice, “Follow me ...”

The two of them returned to the building in silence. Guo Zhan came to a window next to the stairs. A doctor on duty sat upright and immediately stood up and saluted Guo Zhan after seeing him.

“We’re going to take a look at our fallen comrades. Please contact them,” said Guo Zhan with a slight nod.

“Alright, please wait a moment!” The doctor on duty picked up the phone on the table and dialed a number. After saying a few words, he called a nurse and said to her, “take these two to the mortuary on the first underground floor. I’ve already coordinated with them!”

“Alright!”

Under the guidance of the nurse, Xia ruofei and Guo Zhan took the elevator to the basement.

As soon as they got out of the elevator, everyone felt a special cold aura. Although they were indoors, they had the illusion of a cold wind blowing on their faces. Even the nurses working in the building could not help but tremble slightly.

However, Xia ruofei and Guo Zhan did not feel any discomfort. Mountains of corpses and seas of blood had come. They were all people who were used to seeing life and death. They were not even afraid of the most vicious enemies, so why would they be afraid of corpses?

The nurse led the two of them down the cold corridor. Everyone's footsteps were particularly loud in the empty corridor. At the end of the corridor, there was a double iron door. Under the dim yellow light, they could see three red words above the iron door: "mortuary."

The nurse pressed the button in front of the iron door, and the door of the room next to the iron door opened. Two security guards on duty walked out.

#### **Chapter 760: Return if there's a battle summon (2)**

The security guards who dared to be on duty in such a place were all very bold. Xia ruofei glanced at them. The two of them seemed to have been playing cards in the house. The TV was on and there was a babbling opera.

"Doctor Lin called just now," the nurse said, "these two want to see the body that was sent here today."

One of the black – faced security guards laughed and said, "Alright, leave it to us!"

When the nurse heard this, she immediately left as if she was escaping. At least Xia ruofei and Guo Zhan were accompanying her just now. Now, she had to walk through the cold corridor alone. She wondered if her legs would be trembling in fear.

The other security guard looked at Guo Zhan and Xia ruofei, then went back to his room. The black – faced security guard pressed his fingerprint on the access control system next to the iron door and opened the mortuary door.

The light in the mortuary was very dim, and there were rows of body storage cabinets against the wall. Each cabinet had a blue number. Although the exhaust fan was slowly turning, there was still an unpleasant smell.

The black – faced security guard had been working in such an environment all year round and had long lost his fear. He led the two people to a body storage cabinet marked with number 23 and looked up at Guo Zhan.

Guo Zhan nodded slightly, and the security guard pulled the cabinet open.

There was a gust of cold air. Xia ruofei could vaguely see a person lying quietly in the body cabinet.

He took two steps forward. Although he already knew the news of old Luo's death, when he really saw the body of old Luo, he still felt as if his heart had been stabbed. He couldn't help biting his lower lip, and the muscles on his face trembled slightly.

Squad leader old Luo's face was very serene. His eyes were closed, and his face was determined.

There was already some white hair on his sideburns, and there were fine wrinkles on his forehead. His face was completely pale, and he just lay quietly in the cold body cabinet.

The body had been disinfected and treated with cosmetic surgery, so the location of the fatal wound could not be seen.

.....

Guo Zhan also stared closely at the body of the squad leader, old Luo, and gently said, "I was supposed to be the one lying here, but at the last moment, the old squad leader stood in front of me and took three bullets. One of the bullets hit his heart ..."

Guo Zhan's voice trembled. Xia ruofei finally understood why the iron – hearted Wolf King was so emotional today.

A former squad leader who had been with him since he was a recruit, a comrade – in – arms brother who had been through life and death with him for more than ten or twenty years, and an elder brother who had taken a bullet for him without hesitation had sacrificed himself in front of him. It was already very strong of Guo Zhan's mental strength that he did not have a mental breakdown.

Xia ruofei bit his lower lip and looked at the body of old Luo in silence. His expression seemed calm, but his trembling body revealed the extreme fluctuations in his heart.

After a long while, Xia ruofei nodded at the security guard. Then, he took one last look at old Luo and walked out of the mortuary.

The sound of the sliding track of the body cabinet came from behind him. He knew that squad leader old Luo would fall into the dark environment again.

Just now, Xia ruofei had a strong impulse to take out the solution of the spirit Heart Flower petals from his bag and pour it into the mouth of old Luo. He could not believe it, or rather, he could not accept the fact that old Luo had been sacrificed.

But in the end, his rationality triumphed over his impulse.

He knew very well that the dead could not be brought back to life. No matter how magical the spirit Heart Flower petal solution was, it would not be able to save a person who had already died.

After Xia ruofei left the mortuary, he walked forward step by step. Guo Zhan also followed Xia ruofei silently, not saying a word.

The two of them walked into the elevator. When the red numbers on the elevator started to change, Xia ruofei suddenly said, "Wolf King, I want to know the whole story! Who did this?"

"Blood Wolf, you know the rules. I don't need to repeat them, do I?" Guo Zhan said calmly.

The moment Xia ruofei completed his retirement procedures, he was no longer a member of the Huaxia Army. He had become a local citizen. The lone wolf assault team's missions were all extremely secret and difficult. Naturally, Xia ruofei had no right to know what had happened in between.

Xia ruofei suddenly turned around and stared at Guo Zhan with his bloodshot eyes. He said stubbornly, "Wolf King, I have no intention of violating the confidentiality rules. You just need to tell me who killed squad leader old Luo and leave the rest to me!"

A warm expression flashed across Guo Zhan's cold face, but he quickly shook his head firmly and said, "I don't have the authority to do so. I'm sorry!"

Xia ruofei's eyes were filled with unwillingness. He punched the elevator wall hard. The elevator shook, and a clear fist – shaped dent appeared on the aluminum alloy wall.

Guo Zhan sighed and said, "sanguine Wolf, you've done enough to come in time and pull Xiao Ling back from the gates of hell! You've done enough!" We, lone wolf, will take care of the rest ..."

Ding! Ding!

The elevator reached the sixth floor.

The two of them walked out of the elevator. Xia ruofei grabbed Guo Zhan and said, ""Wolf King, remember that I'm here ..."

His voice was a little loud in a moment of desperation. The two nurses leaned over and looked over. Xia ruofei swallowed the rest of his words.

He pulled Guo Zhan to the balcony where the two of them had just smoked, then lowered his voice a little and continued, ""Wolf King, do you remember the oath I made when I bid farewell to the military flag a year ago?"
