

God tier Farm 761

Chapter 761: Return if there's a battle summon (3)

"Of course, if there's a battle, I'll definitely return!" Guo Zhan said without hesitation.

This was the oath that every veteran would make when they left the military camp they loved. They would not fall behind when they left the Army, and their colors would not fade when they left the Army. If their motherland needed them, as long as they were summoned, they would not hesitate to put on their clothes and set foot on the battlefield without hesitation!

Xia ruofei replied without hesitation, "yes!" If there was a battle, he would return! Now, I solemnly request to the organization to recall me back to lone wolf until the completion of this mission!"

Guo Zhan was finally moved. He looked deeply at Xia ruofei and asked, "Little Xia, Are you sure? I can tell you clearly that this mission is extremely dangerous, and your life could be in danger at any time!"

Guo Zhan changed his usual way of addressing Xia ruofei. He called him "little Xia" to remind him that he was now an ordinary person and there was no need to put himself in such a dangerous situation.

Xia ruofei puffed out his chest without thinking and said, "Wolf King, I will always be the blood Wolf of the lone wolf assault team! The organization can conduct a strict review of my past year's experience, and they can also conduct a professional assessment of me. I will prove that I have the ability to participate in this mission!"

Guo Zhan fell into deep thought. After a long while, he raised his head. His eyes were very bright in the night. He patted Xia ruofei's shoulder heavily and said, "Brother! Welcome back to the team!"

Xia ruofei suddenly raised his head and looked at Guo Zhan. He asked excitedly, "You agree?"

"I can't think of a reason to refuse," Guo Zhan nodded. However, according to the rules, I have to report this kind of temporary recall to the higher – ups for approval, and also go through the relevant procedures. Of course, special circumstances should be handled in an emergency, so there should be a result soon. "

Xia ruofei nodded heavily and clenched his fists.

The death of the squad leader, old Luo, had deeply stimulated Xia ruofei. His heart was filled with the flames of revenge. If not for this, Xia ruofei would not have been so insistent on returning to the team to participate in this mission.

The only obsession in his mind right now was to avenge the death of class monitor old Luo.

That night, Xia ruofei did not go back. He stayed in the hospital for the whole night. Guo Zhan booked a room on the sixth floor, and the two of them shared a bed each.

.....

Guo Zhan used his secret phone to make many calls that night, urgently coordinating the recall of Xia ruofei.

The next morning, Niu Tao rushed to the hospital and handed a thin one – Page document to Guo Zhan.

After Guo Zhan took a glance, a smile finally appeared on his cold face. He extended his hand to Xia ruofei and said, ""Blood Wolf, I can finally say this to you with certainty. Welcome back!"

After shaking hands with Xia ruofei, Guo Zhan handed the document to him.

Xia ruofei took it and saw the words "" on it.

Paradise Corporation:

Your company's employee, Xia ruofei, was originally a corporal of a certain Department in the southeast war zone. According to the relevant provisions of the "National Defense Law" and the military notice, he is now ordered to return to the Army to carry out his mission. It is a sacred duty given by the National law to perform National Defense duties according to the law. No unit or individual is allowed to obstruct him. We hope that your company will support and cooperate.

At the end, it was signed off as "Southeast province military."

Xia ruofei also smiled. He folded the document carefully and put it in his bag.

Paradise company was his own company, so he naturally didn't need to take this document back to apply for leave.

He only needed to make a call back to the company's management to let them know. Of course, he also needed to find another reason to let his girlfriend, Ling Qingxue, Hu Zi's mother, and Lin Qiao know so that they wouldn't worry.

However, from a legal point of view, this document confirmed the fact that Xia ruofei had been recalled back to his original unit to perform a mission, making Xia ruofei's participation in this mission legally legitimate.

Xia ruofei looked at Guo Zhan and said, ""Wolf King, can you tell me now?"

"You guys continue, I'll go find out more about flamy's situation!" Niu Tao said.

He immediately left the room and closed the door from the outside.

After Niu Tao left, Guo Zhan finally opened his mouth, "Blood Wolf, this mission started two months ago ..." He said.

Chapter 762: Squad leader Xia returns to the team (1)

"We received a Mission Notice two months ago." Guo Zhan said, "it's the time I mentioned to you that I might come to the three mountains to meet you."

Xia ruofei nodded slightly. He had a deep impression of this incident.

"According to the trailer, the mission level is not very high." Guo Zhan said, "my mentality is still relatively relaxed, but after the official mission was issued two days ago, the situation changed ..."

Xia ruofei listened attentively to avoid missing out on any details. Soon, he had a general understanding of the situation.

It turned out that the main purpose of this mission was to protect the famous scientist, Mr. Liang Qiming, who had returned to the country three years ago.

Liang Qiming studied in the United States in his early years and then worked in the United States before he returned to China, he was a tenured professor at the Massachusetts Institute of Technology. He was a world – famous scientist and the most likely Chinese scientist to win the Nobel Prize in Chemistry in recent years.

Liang Qiming received a warm welcome after he returned to the country and received many honors. However, he rejected the offers from many famous universities in the country and chose his alma mater, Sanshan University, instead.

Liang Qiming naturally received the best treatment at Sanshan University. Of course, because of his achievements in the field of science, he quickly applied for a National – Level research project and won a large amount of research funding.

The mission that Guo Zhan and the others had received was related to the topic that Liang Qiming had been researching for more than two years.

Many scientific discoveries in history were accidental products.

For example, the famous “brother Wei” was an unexpected gain from Pfizer in the United States. They originally wanted to develop a drug to treat angina, but in the end, they found that the effect of the drug in the clinical trial was not very obvious. They originally decided to take back the drugs that the experimenters had not used up and research them to improve.

As a result, in the process of receiving the drugs, Pfizer discovered that the female experimental group had obediently returned the drugs. The young men were also relatively compliant, but ... The middle – aged and elderly men did not return the drugs.

Pfizer immediately conducted an in – depth investigation and discovered that while the medicine for angina expanded the blood vessels of the entire body, it could also make the blood flow easily to a specific organ, causing the organ to become light and erect.

.....

Originally, this was supposed to be a side effect of the drug and needed to be improved. However, Pfizer immediately launched a plan to use this side effect as a new research direction, and thus, a small blue pill that took the world by storm was born.

Liang Qiming’s research this time had the same results.

Their main research direction was to synthesize a type of polymer composite material. However, during the process of the experiment, they accidentally discovered a new composite material among the by – Products of the synthetic material.

Liang Qiming was more sensitive than ordinary people in science. He immediately conducted preliminary research on the material he named alpha 6.

Liang Qiming discovered that the alpha 6 material had a wide range of applications. This discovery was immediately reported to the higher – ups.

It was also at this time that the higher – ups issued a Mission Notice to the lone wolf assault team through the military. Of course, at that time, the research on the alpha 6 material was still in its preliminary stage, so the main task was to escort the relevant information to the capital.

Because of the fierce competition between various forces on the internet, there were no secrets in front of hackers. Therefore, the computers of important research institutes were physically isolated from the internet. Confidential information would never be transmitted through the internet, but the most primitive method of human escort.

However, as Liang Qiming's research on the alpha 6 material deepened, the characteristics of this new synthetic material were further explored. He discovered that the alpha 6 material could also play an important role in the military industry.

The current research results showed that the alpha 6 material could be applied to a variety of weapons and equipment, and the effect of improving the performance of the equipment was very obvious. It could even improve the performance of several military equipment by a generation, directly leading the world's equipment of the same kind.

The mission's level increased immediately.

The higher – ups quickly decided that the lone wolf assault team would send elite personnel to escort professor Liang and the relevant research materials to the capital. The applied research would continue in a secret military research Institute in the suburbs of the capital.

The Research Institute was under the protection of the military and was located deep underground. It was protected by a layer of reinforced concrete that was dozens of meters thick. It could even guarantee the safety of personnel during a nuclear strike.

The security of this place was not something a University's research Institute could compare to.

Therefore, the mission of Guo Zhan and the rest of the team was to escort Liang Qiming and his team.

This kind of escort was naturally most suitable for special combat units such as the lone wolf commando unit, because even if the Army was sent to escort, it was difficult to guarantee that it would be foolproof. The large – scale operation could easily be learned by the enemy forces. They could carry out decapitation operations under the protection of the Army, or even use some more extreme means to achieve their goals.

The lone wolf assault team's elite team would be even safer with the secret escort.

After Guo Zhan read the mission briefing, he immediately realized that the difficulty of this mission was extremely high.

This was because Liang Qiming's preliminary research was completely carried out in the Research Institute of Sanshan University. The confidentiality of such research institutes was not as strict as the military. It was hard to say if the hostile forces had already received some information.

Chapter 763: Squad leader Xia returns to the team (2)

If they had already been targeted, then it would be a situation where the enemy was in the dark while they were in the light. It was always easier to destroy than to protect, and they were in a completely passive state.

Therefore, Guo Zhan immediately organized the backbone to study the mission implementation plan and drafted a mission candidate. The most elite force of the lone wolf assault team was included, including the squad leader old Luo. There were a total of seven people, led by Guo Zhan himself.

At the same time, he also chose another seven people to form a reserve team. The two teams split up and headed to the three mountains.

In this way, when necessary, the reserve team could be used to set up a diversion and also provide support at any time.

Guo Zhan gathered the members of the two teams overnight and studied a detailed plan, including the entire escort route, mode of transportation, methods to deal with all kinds of emergencies, emergency contact codes, and so on.

It could be said that the plan had already been done to the extreme.

However, plans never changed as fast as changes. This was an irrefutable truth.

In fact, Liang Qiming's team had already been targeted by the enemy forces.

After Liang Qiming discovered the alpha 6 material, he had taken a lot of precautions. At the same time, he had sorted out and controlled the core data of the experiment. He was the only one in the entire team who had complete control of the experiment data.

However, due to the lack of strict confidentiality measures in the early stages, the news still leaked out.

After Guo Zhan led the elite team to San Shan University, he even got in touch with Liang Qiming. However, just as they arrived at Liang Qiming's laboratory at San Shan University, they were suddenly attacked.

Completely caught off guard, Guo Zhan's small team was caught off guard.

It was in this split second that squad leader old Luo pounced in front of Guo Zhan and blocked the Fatal Bullet for him.

.....

Guo Zhan and the others quickly returned fire. The other party's firepower was very strong. In the process of exchanging fire, Jin Gang was unfortunately shot.

Due to the suddenness of the incident and the fact that the other party had an absolute advantage, in addition to the fact that they were on campus, Guo Zhan and the others were a little cautious and worried that they would accidentally hurt innocent teachers and students. Therefore, although Guo Zhan's small team also killed two of the other party's people, they still allowed the group to escape successfully.

And they even took the two bodies away.

While Guo Zhan was organizing his team members to perform emergency rescue on squad leader old Luo and Jin Gang, he rushed into Liang Qiming's laboratory with two other people. However, the inside was already a mess. Liang Qiming and his laboratory staff were all gone.

This was the first time Guo Zhan had suffered such a heavy blow in his twenty years in the Army. The target he was protecting had disappeared right under his nose, and he didn't know if the experimental data had fallen into the hands of the enemy. One of his own had been sacrificed, and another had been seriously injured. It was a complete and utter failure.

Speaking of this, Guo Zhan couldn't help but punch the wall heavily. He gritted his teeth and said, "Blood Wolf! If we can't catch these people and save professor Liang and the experimental data, I really don't have the face to go back and report to the Bureau chief, and I don't have the face to explain to monitor old Luo ..."

Xia ruofei couldn't help but click his tongue after hearing this. The other party was too bold. They actually started a gun fight on the university campus.

This also reflected the importance of alpha 6. This unexpected product of the experiment had risen to a strategic position and become an important target for hostile forces.

Yesterday, Xia ruofei had been busy arranging the protection of Lin Qiao and had no idea that such a big thing had happened in Sanshan University.

Of course, after the incident, Guo Zhan must have already coordinated with the relevant military and local units, so the possibility of this news being exposed was actually not high.

After listening to Guo Zhan's story, Xia ruofei pondered for a long time before he said, "Wolf King, the most important thing now is to stop this group of people from leaving the three mountains, especially from leaving the country!"

Guo Zhan nodded and said, "yes, I've already coordinated with the relevant units to block the airport, ports, and other important roads. At the same time, the military chief has also issued orders to the garrison units in the southeast province. The officers and soldiers of the 36th Mechanized Infantry Division have entered Level 2 combat preparation state. The division's reconnaissance team and special Combat Team have also been fully deployed to search for these armed men without disturbing the order of society! I don't think they'll be able to escape so quickly!"

Xia ruofei thought for a moment and nodded. "The second thing we need to confirm is professor Liang's safety and the safety of the experimental data."

Guo Zhan had obviously already analyzed this and said without thinking, "Judging from the current situation, professor Liang's life should not be in danger for the time being. Of course, this is based on the premise that the experimental data is safe. The other party is obviously here for the experimental data. Before they get all the data, professor Liang will be fine. At most, he will suffer some physical pain."

"How can you be sure that the data is safe?" Xia ruofei asked immediately.

"Of course I can't be sure about that," said Guo Zhan, "but when I contacted professor Liang yesterday, I could feel that he was a little uneasy. Perhaps he's aware of the danger." Although it was not convenient

to say too much over the phone, professor Liang told me that he would take me to a place after the meeting. I think he probably hid the data in a secret place in advance. ”

Guo Zhan paused and said, ”our people have checked the computers in the laboratory and found that all the hard drives of the computers have been completely physically damaged. It’s almost impossible to repair them with our current technology. So, the group of attackers didn’t take them away at all because they were useless to them.”

Xia ruofei raised his eyebrows and said, ””Obviously, professor Liang deliberately destroyed the data. If it was done by the enemy, they would have either taken the hard drive or copied the data. There was no need to destroy the hard drive in such a tight time.”

”Yes, I am!” Guo Zhan said, ”based on the analysis of these situations, I think that professor Liang is safe for the time being. It is also very likely that the enemy has only kidnapped professor Liang and has not obtained the experimental data!”

”Captain, have you found anything useful about the background of these people?” Xia ruofei asked.

Guo Zhan shook his head slightly and said, ”it was an encounter yesterday. Both sides were caught off guard, but the other side was obviously more prepared. Not only did they have strong firepower, but everyone was masked. In the end, they even took the corpses with them when they retreated. We didn’t get much useful information.”

Speaking of this, Guo Zhan changed the topic and said, ”However, according to the comprehensive analysis of the information we have so far, the group of people yesterday were either from the East or the South. These two are the most likely.”

Hearing this, Xia ruofei’s eyes lit up.

To the East were the Wei nation people, and to the South were the Lu Song monkeys.

Xia ruofei did not have a good impression of these two countries.

”No matter where they come from, this time, they won’t be able to return!” Xia ruofei said coldly.

”Captain,” he continued, ”let’s analyze where they’re most likely hiding, or which direction they’re escaping from.”

”Mm! I’ll tell you first!” Guo Zhan had been thinking about this question since yesterday, so he directly said his analysis, ”the possibility of taking a plane is the lowest. After all, although their identities have not been exposed, it is basically impossible for them to leave the country without being noticed with professor Liang. In addition, we’ve also arranged for people to monitor the exits of the land road. The possibility of them escaping by car is not high, so ...”

”There are two other possibilities!” Xia ruofei continued, ”there are many mountains and forests in the southeast province. If I were them, I would probably choose to take professor Liang and escape into the mountains. It would be easier to hide in the forest. They could also use this time difference to extort a confession from professor Liang. Once professor Liang can’t hold on and confesses, they could directly get the core experimental data. By then, professor Liang would be of no use to them. They could

completely silence him and leave the country in batches. After all, we don't have detailed information on these people yet!"

"My judgment is the same," said Guo Zhan with a worried expression. I hope professor Liang can realize that if he clenches his teeth and doesn't say anything, he might still have a way out, but once he confesses, he'll be dead ... Ruofei, I'm going to coordinate the 36th Division to send two regiments of troops to conduct a net – like search of the forest around the city with Sanshan University as the center!"

"I agree!" Xia ruofei nodded and said,"but ... Wolf King, they have another possible choice. We must not ignore it!"

Chapter 764: Xiao hei's appearance (1)

Guo Zhan's experience was also very rich. He muttered to himself for a moment before loudly saying,"The beach!"

Xia ruofei nodded."Yes, one side of Sanshan city faces the sea. Although the port and pier are already under control, it's not difficult to smuggle as long as they have money. They only need to contact a small fishing boat in advance and they can escape to the high seas!"

"If a ship is arranged in advance in the International waters ..." Guo Zhan's expression could not help but become serious.

"I think they're more likely to choose this route of escape than to escape into the forest." Xia ruofei said.

"There's no time to waste!" Guo Zhan immediately stood up and said,"this loophole must be filled as soon as possible!"

Guo Zhan had too many things to do since yesterday. The death of old Luo, the squad leader, had also made him a little confused. In addition, Jin Gang's injury also affected his heart. While he was looking after Jin Gang in the General Hospital, he also had to coordinate with the major units in the military and land, so it was inevitable that he would miss something.

Xia ruofei said calmly,"Wolf King, I think we can still make it." Think about it, if you were them, would you escape on an illegal immigration ship the moment you held professor Liang hostage?"

Guo Zhan also slowly calmed down. He thought for a moment before his eyes brightened and said, "That's right! Yesterday, we immediately sealed off the airport, port, dock, and all major traffic routes. We also strengthened the patrols in the coastal waters. As long as the other party is not an idiot, they will not take the risk to break through at this time!"

Xia ruofei snapped his fingers and said,"Yes! The most likely choice for them is to find a safe place to hide for the time being. Our high – pressure situation can't last long. When the situation is less tense, they will be able to escape at ease!"

Guo Zhan nodded in agreement with Xia ruofei's point of view. He continued,"But we can't let our guard down. I'll immediately coordinate with the higher – ups to contact the coast police and ask them to increase the frequency of their patrols. At the same time, I'll inform the border police stations and the

local coastal governments to increase the intensity of their inspections and form a deterrent against illegal immigration ships!”

After that, Guo Zhan immediately took out his secret mobile phone to contact the relevant military department and arranged the work in an orderly manner.

After the phone call, Guo Zhan slightly frowned and said, “Blood Wolf, we are just surrounding them. It’s like waiting for a rabbit, but we can’t get more information to attack ...”

Xia ruofei thought for a while and said, “Wolf King, how about this?” Today, I’ll give Xiao Jin another dose of medicine. The toxins in his body will basically be completely removed, and we won’t have to stay in the General Hospital anymore. Gather the comrades from the two teams together. I want to go to the scene to take a look.”

.....

“Live?” Guo Zhan said, “Tian Feilong has already done a thorough inspection of the scene. He didn’t find any useful information.”

Tian Feilong was an intelligence expert of the lone wolf commando team. He was also the highest level of on – Site Investigation among the lone wolf commando team. If there were any clues at the scene, it was basically impossible to escape his eyes.

Xia ruofei laughed. “Captain, I’m not doubting Xiao Tian’s skills. But we don’t have any useful clues anyway. It’s not like we’ll lose anything if we go to the scene. If there’s a new discovery, won’t we make a profit?”

Guo Zhan thought for a moment and nodded, “en!” It’s fine to go and take a look.”

Hence, Guo Zhan started to contact the team members while Xia ruofei called Feng Jing, Ling Qingxue, and Hu Zi’s mother. He told them that he had something to do in the next few days and told them not to worry.

Xia ruofei even gave Lei Hu a special call to remind him that he was still worried about Xue Fei. Although this bastard must be suffering in the hospital now, it was hard to guarantee that he would not send people to harm Lin Qiao.

Hence, Xia ruofei asked Lei Hu to personally drive Lin Qiao back to the farm and ordered him to strengthen the security of the farm in his absence.

After the two of them had arranged everything, they went to the intensive care unit together.

Xia ruofei did the same thing as last night and added the spirit Heart Flower petal solution into the bag.

But this time, he appropriately reduced the dosage. After Qianqian took the medicine yesterday, the poison had been cleared by about 80%. This time, he could not take as much medicine as yesterday.

With the petal solution of the spirit Heart Flower, the toxins in Jin Gang’s body would definitely be cleared very quickly. Furthermore, the remaining components of the petal solution would also be of some help to the recovery of his external injuries.

Guo Zhan had no more worries.

He called a team member to come to the hospital to take care of Jin Gang. Before the team member arrived, he greeted the General Hospital and left the specialist building with Xia ruofei.

When they arrived downstairs, Xia ruofei said to Guo Zhan, "Captain, I have something to do. Let's meet at the north gate of Sanshan University in half an hour!"

"Alright!" Guo Zhan said, "don't bring too many people to the scene this time. I'll inform everyone to be on standby. I'll bring Tian Feilong over to wait for you."

"Alright!"

Xia ruofei drove the Knight XV off – Road vehicle and said goodbye to Guo Zhan. After leaving the General Hospital, Xia ruofei took a small detour and drove to a relatively secluded location without any cameras. With a thought, he summoned Blackie, who had been living in the Spirit map space.

Blackie left the environment of the spirit map space and suddenly arrived at a strange place. It was suddenly flustered and agitated. However, when it saw Xia ruofei beside it, it immediately quieted down. It wagged its tail at Xia ruofei and obediently lay down in the front passenger seat.

Chapter 765: Xiao hei's appearance (2)

Xia ruofei said as he drove, "Xiao hei, I need to track down a group of people later. You have to perform well! Don't let any scent escape!"

After listening to Xia ruofei's words, Blackie actually whimpered at Xia ruofei and nodded.

After living in the Spirit map space for so many years, breathing in the rich spiritual Qi and drinking the water from the spirit pool, Blackie, fluffy one, and fluffy two's intelligence had far surpassed that of a normal dog. Especially when it came to their master Xia ruofei's words, it could understand anything as long as it was not too complicated.

In terms of physical function, even professionally trained police dogs and military dogs couldn't compare to Blackie.

The dog's sense of smell was about a million times better than that of humans, especially when it came to acidic substances. Some people had experimented by diluting sulfuric acid by 1/10000000 and dogs could still smell it. Therefore, they were widely used in search and rescue, bomb disposal, tracking, and other fields.

Blackie had been "strengthened" in the spirit map space for almost a year. Xia ruofei believed that its sense of smell was much stronger than professional police dogs and military dogs.

Hence, Xia ruofei was hoping that Blackie could play a role as a surprise in this operation. That was why he specifically avoided Guo Zhan and summoned it from the spirit map space.

"Soldiers are trained for a thousand days to be used in a single moment!" Xia ruofei said as he drove, "black, don't screw up!"

Blackie barked twice, as if it was dissatisfied with Xia ruofei's lack of confidence.

Xia ruofei couldn't help but laugh. His depressed mood from the death of old Luo was relieved.

After taking a detour, Xia ruofei arrived at the north gate of Sanshan University at the appointed time.

Guo Zhan and Tian Feilong were already waiting at the entrance. The Knight XV carriage was very eye – catching. Guo Zhan waved at Xia ruofei from afar.

Xia ruofei stopped the car in front of the two of them. Tian Feilong exclaimed in surprise, "Class monitor Xia! Long time no see!"

.....

Guo Zhan had already informed Tian Feilong about Xia ruofei's temporary recall of the troops. However, when he saw Xia ruofei, Tian Feilong couldn't help but feel excited.

Tian Feilong had only joined the military one year later than Xia ruofei, and the two of them had only joined the lone wolf assault team two years apart. Moreover, they had been in the same class for a long time. Xia ruofei had been the Vice – Class monitor for a year and the class monitor for more than two years, so he was naturally very close to Tian Feilong.

"Feilong!" Xia ruofei smiled and greeted him. "Let's talk in the car!"

Xia ruofei gestured for the two to sit in the back seat. Because the Knight XV had a very high chassis and xiaohei was lying on the seat, Guo Zhan and Tian Feilong only noticed xiaohei in the front passenger seat after they got in the car.

Guo Zhan asked in surprise, "Blood Wolf, you just said you have something to do. Are you going to pick it up?" Is this a police dog?"

Guo Zhan looked at Blackie and felt that it didn't look like it. The most common breed of police dogs was the Germany Shepherd, as well as Labradors, Belgium sheepdogs, and so on. However, the dog that Xia ruofei had brought over, although its fur was smooth and it looked good, it was still a Chinese Garden dog, also known as a mutt!

Which unit would use a local dog as a police dog or a military dog?

Xia ruofei smiled. "No, no. This is my own dog. I left it with a friend in the city, so I picked it up. I'm here to see if it can help when we inspect the scene later."

Tian Feilong looked at Blackie with some suspicion and said, "Squad leader Xia, we had already sent police dogs from the special police force over yesterday, but we couldn't track down the group of people. They seemed to have been prepared and used some method to cover up their scent."

Although Tian Feilong didn't say it clearly, it was obvious that he didn't have much confidence in Blackie.

Xia ruofei didn't explain. He just smiled and said, "I was going to bring little black back anyway, so I brought it to the scene today. It'll be best if we can find some clues. If we can't, we won't lose anything, right?"

"That's true ..." Tian Feilong said with a smile.

Xia ruofei drove to the Research Institute where professor Liang Qiming had been working before he was taken hostage.

It was a small three – story building located in the northeast corner of the old campus of Sanshan University. The environment was very quiet, and no one would usually pass by this area. Now, it had been cordoned off. There were police officers standing guard thirty meters away, preventing unauthorized people from approaching.

Guo Zhan stuck his head out and gestured to the leading police officer. They immediately let them through. Xia ruofei's car drove directly to the front of the small building.

There was a sign that said "Liang Qiming's laboratory" in front of the building. There were also some other signs such as "post – doc mobile station" and "National key project". They were neatly arranged on the outer wall, and it was full of academic atmosphere.

After the three of them got out of the car, Guo Zhan said, "yesterday, it was at the entrance of the laboratory building that a gunfight suddenly broke out. Squad leader old Luo ... It was here ... That he blocked three bullets for me ..."

Xia ruofei looked around. The place had returned to its usual tranquility. However, there were bullet marks on the tree at the entrance and on the wall next to it. They seemed to be quietly recounting the intense gunfight yesterday.

"Let's go and take a look at the laboratory. " Xia ruofei said.

The three of them walked into the laboratory building. Blackie followed closely behind Xia ruofei, looking around.

Xia ruofei had bought it not long after it was born and it had been living in the Spirit map space. This was its first time returning to the outside world. It seemed to be curious about this world that was countless times larger than the spirit map space, but the air was turbid.

There were also police officers standing guard at the entrance of the small building. He brought Xia ruofei and the rest into the sterile laboratory, where Liang Qiming and his assistants usually stayed. It was also the first crime scene.

In the past, one would need to go through a strict disinfection process to enter this laboratory. However, it was meaningless now, so everyone walked in directly.

The scene still maintained its original appearance from yesterday, a mess.

All the computers had been turned on, and the hard drives had been specially taken out. They were so broken that they couldn't be any more broken. The reagents, beakers, and test tubes on the test table were all askew, and paper documents were scattered all over the ground. It was obvious that the group of people from yesterday had searched this place.

As for whether or not there were any gains, he did not know.

Xia ruofei's eyes were quickly attracted by the row of white coats hanging at the door. He walked over quickly. These white coats had name tags on the left chest area. He quickly found the one that belonged to professor Liang Qiming.

There was a stain on the lapels of his white coat. He didn't know if it was from the experiments. There were also some stains on the cuffs. Apparently, professor Liang hadn't had time to ask someone to wash it after wearing it for the past two days.

Xia ruofei's face revealed a trace of joy. He quickly pointed at the white coat and said, "Blackie, come here and smell this!"

Blackie immediately sneaked over and walked around the white coat. It sniffed hard and barked at Xia ruofei, indicating that it had remembered the smell.

Tian Feilong said, "squad leader Xia, the police dog from the special police force also tried yesterday. It sniffed the cup that professor Tian used. However, the smell disappeared not long after we went out. In the end, we returned without success."

Xia ruofei said calmly, "let Blackie try!" Its sense of smell was better than that of an ordinary police dog. Moreover, dogs are especially sensitive to acidic substances. Professor Liang is a well – known chemist, so he must have come into contact with all kinds of sulfuric acid during his experiments. The white coat might have left such a smell on it. I think it might be better than sniffing the cup!"

"That makes sense, Blood Wolf!" Guo Zhan nodded. Let little black try!"

Xiaohei had already memorized the smell on the white coat. However, this room was filled with professor Liang's scent, so Xia ruofei brought xiaohei to the back door of the small building. Yesterday, the group of people had taken professor Liang hostage and escaped from here.

"Little black, show me your trump card!" Xia ruofei said, "you must help us find professor Liang!"

As soon as Xia ruofei finished speaking, Blackie immediately jumped out without any hesitation. He seemed very confident and confident.

"That's right," Tian Feilong said excitedly, "that's the direction the group of people fled in yesterday!"

"Go! Let's hurry!" Guo Zhan also said immediately.

Chapter 766: Xiao hei's Meritorious Service (1)

Blackie ran very quickly, but Xia ruofei, Guo Zhan, and Tian Feilong were all battle – hardened Special Forces elites and could easily keep up.

Liang Qiming's laboratory was located in a corner of the campus. There were not many people passing by, so no one noticed the strange scene of three people running wildly with a dog.

However, Blackie stopped after running for about 200 meters. It sniffed in place, as if it was hesitating, not sure which direction to go.

Tian Feilong was slightly breathless. With a disappointed look on his face, he said, "The police dog sent by the Special Forces yesterday also lost its target when it reached this position. Well ... Little black is more than ten meters ahead of the police dog yesterday."

Xia ruofei said calmly, "it's possible that the group of people used some method to cover up their scent nearby. But don't worry, they can't cover it completely. The smell of the chemical reagents on professor Liang's body is very strong. Blackie is still working hard!"

"It's up to little black to see if we can find any useful clues, Blood Wolf ..." Guo Zhan nodded.

The three of them watched Blackie's movements closely. Blackie hesitated for about half a minute, then finally decided on a direction and continued to run.

But this time, he wasn't as sure as he was at the back door of the laboratory. He ran a little slower and stopped from time to time to sniff to determine the direction.

Xia ruofei and the other two followed closely behind Blackie. They stopped and walked along the way. Blackie's speed was getting slower and slower. It was obvious that its scent was fading.

During this period, they had changed directions several times. He felt that the group's route was completely irregular, and sometimes they even took a short detour.

Just like that, they walked for another 100 meters before Blackie stopped.

In front of it was a manhole cover. It sniffed around the cover for a long time, walked around it a few times, and whimpered at the cover.

Xia ruofei, Guo Zhan, and Tian Feilong looked at each other and said, "Wolf King, it seems that the group of people entered the sewer from here yesterday."

.....

"It's very likely." Tian Feilong nodded and said, "there are many surveillance cameras in the campus, including several cameras at the school gate, but none of them have captured the whereabouts of this group. I can't think of any other way for them except to escape underground!"

After saying that, Tian Feilong came to the manhole cover and squatted down. After carefully examining it for a while, he raised his head and said, "It should be right! This cover was obviously opened and put back in recently, and it doesn't match the old marks!"

Tian Feilong was also an expert in the field of vestige science. After the manhole cover was opened, even if it was carefully put back, it was impossible to be in the exact same position as before it was opened. Even if there was the slightest deviation, it would leave behind traces.

"Go! Let's go down and continue tracking!" Xia ruofei said without hesitation.

Guo Zhan stretched out his hand to stop him, saying, "Blood Wolf, let me call the other comrades over first. It's too dangerous to go down like this!"

Tian Feilong was a little puzzled and asked, "Captain, it's been nearly 20 hours. Would those people still be hiding in the sewers?" That's not possible, is it?"

"It's not impossible. We can't fight an unprepared war!" Guo Zhan said seriously. Yesterday's lesson was already profound enough. I don't want any more comrades to bleed and die!"

It seemed that the death of squad leader old Luo had a great impact on Guo Zhan. In Xia ruofei and Tian Feilong's eyes, Guo Zhan was a little too cautious.

Xia ruofei thought for a while and said, "Fei Long, the wolf King has a point." The most dangerous place is the safest. This group of people might have taken advantage of our psychological blind spots and hid in a corner of the campus for the first few days ..."

Guo Zhan heard that Xia ruofei agreed with his point of view, so he nodded and prepared to take out his secret phone to contact the other team members.

However, Xia ruofei suddenly changed the topic and continued, "Wolf King, I think we can't drag this out. It's possible that those people are still hiding in the sewers, but it's very small. We can't delay the opportunity because of a small probability. Besides, we're well prepared this time, so we won't be caught off guard like yesterday, don't you think?"

After he finished speaking, Xia ruofei looked at Guo Zhan quietly, waiting for him to make a decision.

Now that Xia ruofei had been summoned back to the Army, he still had the official document in his arms! From a legal point of view, Xia ruofei had regained his identity as a soldier. If Xia ruofei met with any mishaps in this mission, he would be considered a soldier who had sacrificed himself in the war. The military flag could be stamped at the memorial service and he would be awarded the title of revolutionary martyr without a doubt.

However, since he had restored his status as a corporal of the lone wolf assault team, he would naturally have to accept the leadership of the highest commander of the lone wolf assault team, Guo Zhan. If Guo Zhan insisted on not going down the well, Xia ruofei could not disobey the order.

Guo Zhan stared at the manhole cover, his expression changing. He was obviously weighing Xia ruofei's suggestion. Xia ruofei and Tian Feilong stood quietly at the side and did not interfere with Guo Zhan's thinking.

After a long while, Guo Zhan nodded and said, "Alright! Let's go down first! But now that we have new clues, the other comrades must hurry over as well. I'll contact them first, and then we'll go down the well!"

Chapter 767: Xiao hei's Meritorious Service (2)

"Understood!" Xia ruofei nodded heavily.

Soon, Guo Zhan contacted the other assault team members who were on standby through a secret phone and asked them to hurry to Sanshan University.

Then, the three of them prepared to open the manhole cover and enter the sewer.

Xia ruofei walked to the side of the manhole cover. Tian Feilong immediately came over and prepared to help the workers open the manhole cover. There were special tools. They hooked the holes on the manhole cover and lifted it up easily. Now that they did not have any tools, even if they were much stronger than ordinary people, it would not be easy to open the manhole without any force.

However, Xia ruofei waved his hand to indicate that there was no need.

He squatted down and used his fingers to grab a small gap on the edge of the manhole cover. He pushed it hard to the opposite side, making the gap as big as possible. Then, he put his fingers in and lifted the manhole cover with a light push.

It was easy now that he had a point to exert force on. Xia ruofei held the cover with one hand and gently lifted it up and put it aside as if he was holding a ball of cotton.

Guo Zhan looked at Xia ruofei in surprise. He thought to himself, "not only did this kid not regress after he left the Army, but he also seems to have grown a lot stronger!"

Xia ruofei patted Blackie's head and said, "Xiao hei, continue to track that smell after we go down. However, there might be enemies inside. Remember not to make any sound!"

Blackie had already gained sentience, so it immediately nodded.

Guo Zhan and Tian Feilong, who were watching from the side, couldn't help but be secretly amazed. To be able to train the dog to be as human as little black was really not an easy thing to do!

After Xia ruofei finished speaking, he reached out to hold Blacky and prepared to go into the water.

"Wait a minute, Blood Wolf!" Guo Zhan shouted. There might be danger down there, I'll take the lead!"

.....

This was also a tradition in the Chinese army. When there was danger, the commander would always take the lead.

"Wolf King," Xia ruofei said, "we'll have to rely on Blackie to track us down. It only listens to me, so I have to be at the front."

This reason was very sufficient, and Guo Zhan had no way to refute it. He pondered for a moment, then took out a pistol from his waist and handed it to Xia ruofei. "The main equipment is in the hands of the other comrades. You can use this gun!"

It was naturally the most dangerous to be at the forefront. Guo Zhan had also handed the only weapon he carried with him to Xia ruofei.

After Xia ruofei took the gun, Guo Zhan took off his coat and prepared to give Xia ruofei the bulletproof vest he was wearing.

Xia ruofei quickly waved his hand and said, "Captain, there's no need for the bulletproof vest!" You can wear it yourself!"

With that, Xia ruofei kept his gun and sat down at the entrance of the sewer. He held Blacky in one hand and grabbed the ladder at the side with the other. Then, he nimbly got into the sewer.

Xia ruofei was very confident in his current strength. Even if he was caught off guard, his extraordinary reaction speed would definitely allow him to avoid danger in time. On the other hand, Guo Zhan and the others wearing bulletproof vests was equivalent to an extra layer of protection, so he firmly refused to accept the bulletproof vests.

Guo Zhan tried to pull him back but failed. Xia ruofei had already entered the sewer. He didn't dare to delay and quickly followed Tian Feilong into the sewer.

Tian Feilong, who was at the back, didn't forget to move the cover of the well that Xia ruofei had placed aside to cover it, in case any teacher or student accidentally fell in.

There was an extremely unpleasant smell in the sewer. Xia ruofei frowned slightly and reached into his bag. In fact, he took out a dozen disposable masks from the spirit map space. He took three and put them on. Only then did the smell subside a little.

He gave the remaining masks to Guo Zhan and Tian Feilong.

"Blood Wolf, you're quite well – equipped!" Guo Zhan said, somewhat surprised.

Xia ruofei grinned and did not explain further.

As for black, he could only bear with it. Firstly, there was no mask that suited his specifications. Secondly, Xia ruofei still needed him to track his scent. How could she cover her nose?

There was also a thin layer of dirty water in the sewer, which was disgusting to step on. However, to Xia ruofei and the other two, they had been through much worse situations than this many times. This was a piece of cake.

On the other hand, little black had always lived in the picturesque spirit map space with rich spiritual energy. As soon as he entered the sewer, especially when he stepped in the sewage, he was very uncomfortable at first. After a while, he reluctantly walked forward.

Guo Zhan and Tian Feilong were both equipped with multi – functional combat watches, which could achieve a simple air monitoring function. If the air quality in the sewer was seriously life – threatening, the watch would immediately vibrate to give a warning.

The stench in the sewer was very strong, and it caused a lot of interference for Blackie to distinguish directions.

It sniffed and hesitated for a while before deciding on a direction to go.

The waterway was accessible in all directions. Without Blackie leading the way, Xia ruofei and the others would not have been able to find the route that the group of people had taken.

Blackie walked in front while the three of them followed closely behind.

The three of them subconsciously lightened their footsteps. Xia ruofei and Tian Feilong also held their loaded pistols tightly in their hands, keeping an eye on the situation in front of them.

In such a dark and narrow environment, once they encountered the enemy, the situation would be very dangerous. Even if the enemy fired randomly, they were likely to be hit by stray bullets.

Chapter 768: Xiao hei's Meritorious Service (3)

They didn't even use their flashlights. They just stuck a small fluorescent sticker on Xia ruofei's back and pushed forward one by one.

Xia ruofei's eyesight was very good, and he quickly adapted to the sewer environment, so he could easily keep up with Blackie without the need for light. This made Guo Zhan and Tian Feilong secretly amazed. They felt that Xia ruofei's abilities in all aspects seemed to have become stronger after he left the Army.

Blackie walked and stopped. When it was uncertain, it would return for a while to the fork to determine the direction again.

The three of them made many turns in the sewer and advanced for about seven to eight hundred meters.

The Special Forces were usually very sensitive to directions. Although they had turned around a few times in the dark, they could still roughly tell that they were about 500 meters Southwest of the laboratory building.

Finally, Blackie came to a stop and whimpered a few times at Xia ruofei.

Xia ruofei could see at a glance that there was a vertical passage at the spot where Blackie had stopped. There was a ladder on the inner wall. It was obviously a sewer.

"Blackie, you mean ... Those people went up from this well?" Xia ruofei asked softly.

Blackie immediately nodded.

Guo Zhan and Tian Feilong quickly caught up. Now that they had basically confirmed that the group of people were not hiding in the sewer, Tian Feilong immediately turned on his flashlight and checked the area near the exit.

Soon, Tian Feilong called out, "Captain, squad leader Xia, little Black's judgment should be correct. There are footsteps on the inner wall here. Moreover, it should have been left here recently."

Xia ruofei also went over to take a look. He nodded and said, "If I'm not wrong, it should be professor Liang who intentionally left it behind."

Guo Zhan and Tian Feilong nodded in agreement at the same time. They must be the top special Forces in their country to be able to sneak into Huaxia and kidnap Liang Qiming under Lone Wolf's nose. They couldn't have left such obvious marks on the inner wall just by climbing up the ladder.

.....

The only possibility was that professor Liang Qiming took advantage of the dark environment and pretended to miss his step when they weren't paying attention, leaving this half footprint on the inner wall.

"Let's go up!" Guo Zhan said.

Then, he took the lead and stepped onto the ladder. He didn't need Blackie to lead the way now, and he didn't know if there were unknown dangers outside, so he took the lead.

Xia ruofei didn't fight with him and waited at the bottom of the well with Tian Feilong.

After Guo Zhan climbed up, he pushed the manhole cover open with force and carefully observed it. Then, he pushed the manhole cover open and quickly climbed up.

After a while, Guo Zhan poked his head in and made a gesture to Xia ruofei and Tian Feilong, indicating that it was safe.

Xia ruofei immediately carried Blackie up the ladder, and Tian Feilong followed closely behind.

Soon, the three of them were on the ground. Xia ruofei quickly observed the surrounding environment.

The sewer was located on a quiet path by the forest, far from the teaching buildings and laboratories. There were not many people who passed by this place.

Xia ruofei patted Blackie's head and asked, "Xiao hei, can you still track that smell?"

Blackie sniffed carefully, barked at Xia ruofei, and continued to run into the woods.

There's hope! Xia ruofei's eyes brightened. He, Guo Zhan, and Tian Feilong quickly followed.

The forest was not big, so Blackie passed through it quickly. As soon as Xia ruofei and the other two came out, they saw a building in front of them.

"Canteen?" Tian Feilong couldn't help but Mutter to himself.

It turned out that after coming up from the sewer and passing through the small forest, one would arrive at the second cafeteria of the old campus of Sanshan University.

Blackie's tracking stopped at an open space on the side of the second canteen, and then it completely lost its scent. No matter how hard it tried, it couldn't find the direction.

Was the lead broken again? Xia ruofei furrowed his brows in deep thought.

Suddenly, Xia ruofei's eyes brightened and he shouted, "I know! I know how these people escaped! Hahaha! Little black, you've done a great job!"

Chapter 769: Nowhere to hide (1)

Guo Zhan and Tian Feilong also looked at the canteen with a thoughtful expression. After hearing Xia ruofei's words, Guo Zhan had a flash of inspiration and called out, "There's a lead!"

Only Tian Feilong was still frowning slightly. It was obvious that he still had no clue.

"Captain, squad leader Xia, what kind of clue is it?" he couldn't help but ask.

Guo Zhan looked at Xia ruofei with a smile and said, "Blood Wolf, you tell us!"

Xia ruofei gently stroked Blackie's smooth fur and asked with a smile, "Feilong, think about it. That group of people is a big target. They left with professor Liang and possibly other scientists. How did they avoid the surveillance?"

Tian Feilong looked at the cafeteria next to him and analyzed, "These people don't know how to be invisible, so it's impossible for them to escape the campus through the sewer. And it's probably one of those sealed cargo trucks ..."

Xia ruofei snapped his fingers and said, "Correct! This is the school canteen, so the food consumed every day must be a lot, so ..."

"A truck transporting food!" Tian Feilong's eyes immediately widened as he shouted.

Xia ruofei smiled and nodded.

At this moment, Guo Zhan's Secret phone vibrated. He picked it up and said a few words. After hanging up, he said with a smile, "Those little brats are here. Let's go and meet them first. Then we'll go to the school security Office to check the surveillance cameras!"

They had been in the sewer for a long time, and it was not far from the ground to the laboratory building. It was only 400 to 500 meters, so the three of them returned to professor Liang Qiming's laboratory building very quickly.

All the members of the two teams had arrived. In addition to the deceased squad leader Luo, Jin Gang, who was hospitalized due to serious injuries, and a member who stayed in the General Hospital to take care of the patient, there were nine other team members.

Those who were brought out by Guo Zhan to carry out such an important mission were all experienced veterans. Naturally, they were very familiar with Xia ruofei.

.....

When everyone saw each other, there was another round of excited hugs and small talk.

However, Xia ruofei and Guo Zhan were in a hurry to check the surveillance video, so they did not waste too much time. They did not even have time to wash off the stains on their bodies. They were led by a police officer to the school's security Office, carrying a strange, unpleasant smell.

Officer Li explained the situation to the security Director, and the director naturally cooperated unconditionally. He personally led everyone to the monitoring room and instructed the staff to pull up the surveillance records according to Guo Zhan's request.

Yesterday's battle had taken place at Five O' clock in the afternoon. Guo Zhan had directly asked to see the surveillance footage of the second canteen at that time.

Just as Xia ruofei had expected, the place where the smell had disappeared from was the blind spot of the second canteen's surveillance cameras. None of the cameras had captured that location.

But after a while, a white van appeared in the surveillance camera. The car had driven out from the side of the open space. If the car wanted to leave the cafeteria and drive out of the campus, it was impossible to avoid all the surveillance cameras.

"Stop!" Xia ruofei called out.

The staff immediately pressed the button, and the picture froze.

Xia ruofei pointed at the cargo van on the surveillance screen and asked, "Director Luo, do you recognize this car?"

Director Luo of the University Security Department said with a wry smile, ""There are so many cars going in and out of the campus every day, and we can't possibly recognize every one of them. However, those that can enter the campus must have a pass. This car is most likely to deliver food to the cafeteria. Should I call old Xu from the logistics department to identify it?"

"Then I'll have to trouble you!" Xia ruofei said politely.

Soon, the logistics department's director Xu, who was also in the same building, came to the monitoring room. He looked at the LOGO on the truck and immediately said, ""This is the delivery truck of the Oasis agricultural products company! The ingredients in our school's five canteens are all outsourced to the Oasis company. They come here several times a day to deliver the ingredients!"

Xia ruofei and Guo Zhan looked at each other. Then Xia ruofei said, ""Can you Zoom in on the image? Can you identify the car plate number?"

"No problem! We have a few HD cameras on the main road of the school." The staff member said, "this car will definitely have to go through the main road to leave the campus."

After that, he skillfully operated the computer and pulled up the history of another surveillance camera.

Sure enough, after a while, the van appeared on the screen. Not only was the license plate number clear, but the passengers in the van could also be seen clearly.

Xia ruofei quickly noted down the car plate number and asked officer li to coordinate the police force to go to oasis to investigate the situation of the car. He then said to the staff, ""Please send us a few screenshots of the person inside the car, thank you!"

After the staff took the picture, everyone looked at the surveillance for a while. The van started about 20 minutes after the gunfight and drove out of the campus.

Then, Xia ruofei asked the staff to look at the surveillance camera at the entrance of the cafeteria. They found out that the car had arrived at the second cafeteria a little after four o' clock. Then, it was parked on the side of the open space and left after five o' clock.

The timing matched perfectly!

After watching the surveillance footage, director Luo of the security Office took Xia ruofei and the others to the reception room next door. They sat down, had tea, and chatted while waiting for the results of the police investigation.

Chapter 770: Nowhere to hide (2)

About 20 minutes later, officer li also came to the reception room. As soon as he entered, he said, ""Yes, the truck with the license plate just now was sent for repair yesterday, and it didn't leave at all! Moreover, every car in their company is equipped with a GPS. We checked the car's driving track yesterday, and it was indeed from the company to the repair factory, not to Sanshan University at all."

"Card set!" Xia ruofei and Guo Zhan said in unison.

At this time, director Xu of the logistics department also walked into the reception room and said, ""Officer Li, I just checked the records of the second canteen. There were no ingredients in the

warehouse yesterday afternoon. The car yesterday was only parked at the side of the second canteen, not to deliver food!”

In this way, the car that appeared in the surveillance was very suspicious. It could basically be confirmed that the group of people used this van with a fake license plate to kidnap professor Liang out of the campus without anyone knowing.

Guo Zhan stood up, shook hands with director Luo and director Xu, and said,””Thank you very much for your support!”

The two division chiefs also knew that the person in front of them had a powerful background, so they quickly said a few polite words.

Guo Zhan turned around and said to officer li,”Officer li, please coordinate with the higher – ups, we need to go to the command center of the city Public Security Bureau immediately and use the Skynet system to find the track of this cargo van!”

Officer li had been temporarily assigned to the gunfight scene, so he naturally knew how serious the incident was. It was no exaggeration to say that it had risen to the level of national security.

Therefore, he replied without hesitation,””No problem! Let’s go now, I’ll ask the Leader on the way!”

.....

Half an hour later, the group arrived at the command center of the city Public Security Bureau.

Guo Zhan only brought Xia ruofei and Tian Feilong in, while the rest of the team members were on standby in the car.

The command center of the city Public Security Bureau was a large hall with an area of more than a thousand square meters. There was a huge LED screen on the front wall, which displayed the real – time surveillance images of all the hot spots in the city.

.....

Officer li had already reported the situation on the way to the command center, so when Xia ruofei and the others arrived, Deputy Director Lu of the Public Security Bureau, who was in charge of criminal investigation, personally received them.

This was also because bureau chief Chen Bo did not know that Xia ruofei was part of the military. Otherwise, he would have personally come out to receive him.

Deputy bureau chief Lu shook hands with Guo Zhan and said,””Colonel Guo, we’ve already looked at the surveillance footage near the north gate of Sanshan University at FiveO’ clock yesterday. We’ve also found the cargo van.”

The designation of the lone wolf assault team was a top secret, so the military did not announce Guo Zhan’s position, only his rank of Colonel.

“Director Lu, can you analyze the car’s driving trajectory?” Guo Zhan immediately asked.

“Our technical staff is analyzing it. It shouldn’t be a big problem.” Deputy bureau chief Lu said, “this way, please!”

As the provincial capital of a developed province in eastern China, Sanshan city’s infrastructure construction was also at the forefront of the country. The construction of Sanshan’s Skynet project had started earlier, and its software and hardware facilities were obviously ahead of some underdeveloped provinces.

Now, the Skynet system of the Sanshan Public Security Bureau could use the license plate number recognition function to add time and other algorithms to the images sent back by the massive number of cameras in the city, automatically calculating the approximate driving trajectory of a certain car.

In addition, due to the increasing number of high – definition cameras, the Face Recognition function was also constantly being improved.

The Skynet system was also playing a greater role in solving cases for public security agencies.

Everyone came to the big screen, and Deputy bureau chief Lu gestured to the technical staff who were operating the computer.

A surveillance image immediately appeared in the center of the big screen. It was captured by a security camera at the north gate of Sanshan University.

He saw the white van slowly driving out of the north gate, and then turning right on sail road.

After the car disappeared from the surveillance range, the camera immediately switched to another camera, and the cargo van quickly appeared in the range of this camera.

On the right side of the big screen was a map with a red line on it starting from the north gate of Sanshan University, which was the driving trajectory of the white van.

Of course, this was only the most likely trajectory analyzed by the Skynet system. After all, the monitoring cameras could not cover the entire area. The car would always drive into the blind spot of the monitoring, and then it might take a while before it appeared in another monitoring range. The driving trajectory during this period of time in the blind spot could only be comprehensively analyzed and simulated by factors such as time difference, speed, and the next location.

The red line, which represented the van’s trajectory, went all the way north.

“Could it be that they’re really hiding in the mountains?” Tian Feilong frowned and asked.

Xia ruofei said calmly, “the possibility is low. After the incident, our response was still very fast. Plus, there was a lot of traffic in the city at that time. The direction of the exit should have been controlled by now. The possibility of them bringing professor Liang and breaking through the barrier is very low.”

“I agree with RUO Fei’s opinion,” Guo Zhan nodded.

Sure enough, after a while, the red line stopped near Xinyuan Road, which was located in the northern part of the urban – rural junction of Sanshan city.

“The target disappeared here,” the police officer in charge of the technical department said. “He never appeared in the range of any surveillance cameras in the city again.”
