

## **God tier Farm 771**

### **Chapter 771: Nowhere to hide (3)**

“Mark out the area immediately and send people to investigate!” Deputy bureau chief Lu said immediately.

“Yes!” The police officer in charge of the technical department said.

The distribution of surveillance cameras in the urban – rural junction was not as dense as the urban area, and there were some blind spots. Soon, the system marked out several areas nearby according to the last location of the van Truck.

The truck could only have been parked in one of those areas, otherwise it would have been captured by other cameras.

A large number of police officers were dispatched.

“Squad leader Xia, do you want to take little black with you and follow the police?” Tian Feilong asked.

Xia ruofei said, “I feel that even if we find the truck, the possibility of getting any more clues is low. However, we still have to go.”

After he finished speaking, Xia ruofei turned his gaze to Guo Zhan.

Guo Zhengzhi thought for a while and nodded slightly.

Soon, Xia ruofei and Tian Feilong boarded a police car with xiaohei and headed to the designated areas for investigation.

Guo Zhan was in charge of the command center of the Public Security Bureau.

With the Skynet system’s help in analysis, the scope of investigation was not large, and there was no doubt that they would find the car.

As expected, before Xia ruofei’s car arrived at the destination, another team’s message came through the walkie – talkie, saying that ran ran and the others had found the van.

.....

Hence, Xia ruofei’s team immediately changed their route and headed straight for the cargo van.

This was an abandoned mechanical processing plant in the northern suburbs of the city. The white van was parked in the overgrown yard of the factory.

This area was a blind spot for the surveillance cameras.

Once Xia ruofei got out of the car, he immediately ran to the cargo van with xiaohei. The police had already received orders to cooperate with them, so they did not stop Xia ruofei and xiaohei.

After opening the trunk, Xia ruofei patted Blackie’s head. Blackie jumped up like lightning.

It sniffed around the interior of the car. Xia ruofei asked, “Little black, is there the smell you smelled in the car?”

Little black immediately barked twice, then nodded very humanly.

Although it was confirmed that the group of people had used the car to sneak into the campus and kidnapped professor Liang, Xia ruofei was still a little excited after getting the confirmation from Blackie.

He was 100% sure now!

Xia ruofei quickly waved at Blackie, signaling for him to get off the car.

“Xiao hei, can you sniff around here and see if you can find the smell from earlier?” Xia ruofei said.

Blackie immediately sniffed around the cargo van. After a while, it shook its head at Xia ruofei in frustration.

The police were also very surprised by Black’s understanding of human nature, but their attention was more focused on finding clues.

Seeing that black didn’t find any clues, officer Wang, who was leading the team, couldn’t help but ask, “Do you need us to get a police dog?”

“Little black is much better than a police dog,” said Tian Feilong with a smile. Yesterday, the police dogs of the SWAT team didn’t find any clues, but today, black had dug out this clue! So, it’s useless even if you send the police dogs over. ”

“Then how could there be no smell left behind?” Officer Wang said in confusion, “there’s still a residual smell in the car!”

Xia ruofei and Tian Feilong looked at each other and said in unison, “They’ve changed cars!”

“Let’s go!” Xia ruofei said. Let’s return to the command center!”

Xia ruofei thought for a while and said, “officer Wang, please leave a few comrades to check this car and see if there are any clues left!” Feilong, contact Wolf King with the secret phone immediately and ask the comrades in the command center to use the Skynet system to carry out an in – depth analysis. Find out which blind spots along the way are in chronological order and see which blind spots will allow them to switch cars easily!”

“Understood!” Officer Wang and Tian Feilong said at the same time.

Xia ruofei looked at the cargo truck and said, “Let’s go! Since we’ve caught this clue, they won’t be able to escape!”

## **Chapter 772: Revealing its original form (1)**

Xia ruofei did not expect the enemy to change their vehicle so he was not too disappointed. If these people did not know such a simple anti – tracking method, they would not have been sent to Huaxia for this mission.

However, after Blackie successfully tracked down the scent left on professor Liang’s body, the search that had been completely clueless and messy had found a lead. Now that there was a continuous high – pressure inspection on the periphery, it was as difficult as ascending to the sky for that group of people to escape.

Xia ruofei and Tian Feilong sat in a police car and returned to the command center of the Public Security Bureau.

On the way, Tian Feilong reported the situation here to Guo Zhan through a secret phone. The command center also quickly began to use the Skynet system to conduct a deep analysis of the monitoring blind spots of the cargo van's entire driving trajectory.

When Xia ruofei returned to the command center, the technical staff of the Public Security Bureau were working hard.

After all, Tian Feilong couldn't have given a detailed report over the phone, so Xia ruofei told Guo Zhan about his investigation of the scene. Then, he asked, "How's the analysis coming along?"

"There's a lot of data, so I might need some time." Guo Zhan said.

The Skynet system wasn't omnipotent. After all, the van had passed through at least dozens of surveillance blind spots from the abandoned Machinery Factory in the northern suburbs of the city from Sanshan University.

Some blind spot areas only appeared in the next surveillance range in a few seconds. Taking into account the time taken by the car, it was basically impossible for the personnel to change cars in between. These could be ruled out first.

As long as the surveillance was in a blind spot for a long time, further analysis had to be done.

This involved the new vehicles that appeared in all directions of the blind spot during the same time period. They had to analyze their driving trajectories and eliminate them one by one.

It was equivalent to a tree – like structure with an extremely large base, and the amount of data needed to be analyzed at the same time was extremely large.

Of course, if it was done manually, the time spent would be even more immeasurable. It was basically an impossible task.

.....

Hence, Xia ruofei and the rest could only wait.

They waited for more than two hours. It was already past lunch time. The Public Security Bureau wanted to invite Guo Zhan and the others to the canteen for lunch, but Xia ruofei and the others were not in the mood to eat. So, they had no choice but to ask the canteen to pack some lunch boxes and send them to the command center. Everyone made do with the meal.

At around 1:30 P. M., The huge data analysis work was finally completed.

The system found more than a dozen suspicious vehicles, which matched the time and trajectory. Each of them could be the vehicle that the group of people transferred to after leaving the van.

The next step would be to do a manual check.

Deputy bureau chief Lu began to personally assign tasks. Guo Zhan thought for a moment and said, "Director Lu, considering that these people are all armed, I suggest that we ask the armed police to cooperate with us. Please pay attention to your safety!"

"Okay, I'll immediately ask the higher-ups to coordinate the armed police detachment to come over to support!" Deputy bureau chief Lu said.

Xia ruofei thought for a while and said, "Wolf King, I think we should let Xiao hei join the operation? We have to consider the possibility of this group of people breaking up. With little black around, we can keep a close eye on the car professor Liang is in!"

"Sure!" Guo Zhan said, "ruofei, are you still following the operation? I also need you for intelligence analysis!"

Guo Zhan could already feel that Xia ruofei's professional skills had not deteriorated after his retirement. In fact, it seemed that he had improved greatly. In this operation, he had shown that he was even more capable than Tian Feilong, who specialized in intelligence analysis and trace inspection.

Xia ruofei thought for a while and said, "I'll talk to black and ask him to cooperate with the police." I won't be going. "

"Can you do it?" Guo Zhan was a little uncertain.

Xia ruofei smiled and said, "don't worry!" Xiao hei is very smart!"

After that, Xia ruofei asked Deputy Director Lu to pick a police officer who had experience in raising dogs. He then whispered a few words to black, who immediately wagged its tail at the police officer and walked over very meekly.

"Deputy Director Lu, all the vehicles that can not be completely cleared of suspicion must be checked by little black. It remembers the smell of the hostages." Xia ruofei said seriously.

"No problem!" Deputy bureau chief Lu said.

The police officer left the command center with Blackie. Xia ruofei and Guo Zhan waited for news in the command center.

Soon, messages were sent back.

Most of them were useless.

Some of the cars were owned by the company and were equipped with a GPS system. They could directly access the driving data, including the speed, trajectory, and so on. When they were combined with the time period of the surveillance blind spots, they were easily eliminated.

Some of the cars, after Xiao hei's confirmation, did not have professor Liang's scent at all. Even if the group of people had split up and might have been in this car, it was not the point of the tracking.

Although the information was invalid, it was not useless. As the suspicion of the cars was cleared one by one, Xia ruofei and the rest were getting closer to the truth.

Then, another message came.

Officer Wang, who stayed in the abandoned machinery processing plant, extracted fresh fingerprints on the steering wheel of the van.

It just so happened that the fingerprint was recorded in the police's fingerprint database, because the owner of the fingerprint was a person who had been released from prison.

### **Chapter 773: Revealing its true form (2)**

The police soon found the house of the man named Liu Jun, who had just been released from prison. His wife said that Liu Jun had not returned home for two days. The day before he left home, he was very happy, saying that he had a big business deal and would come back to buy new clothes for the mother and son. However, he had not returned since.

Xia ruofei sighed and said, "needless to say, Liu Jun has most likely been killed." I'll pay more attention to nameless's corpse these two days ..."

Deputy bureau chief Lu also nodded in agreement.

The results of the portrait recognition were soon released. The driver yesterday was Liu Jun, who had just been released from prison. There was another person sitting in the front passenger seat. The police did not find anything after comparing a large amount of data.

However, the military intelligence Department had made new progress.

After they received the screenshots sent by the secret network, they quickly compared them with their internal database.

In the end, he received an unexpected surprise. The ordinary – looking middle – aged man in the co – Pilot seat was confirmed to be Kappei Yamai, a member of the Kano group, an elite spy organization under the intelligence Department of the Ministry of National Defense.

Such information naturally could not be found in the police database. The military had its own source of intelligence, and many members of the spy organization were actually registered in the database.

Guo Zhan's face turned ashen as he slammed his fist on the table and said, "It's indeed those damn Japanese! I'm going to pull out this group of bastards one by one and skin them alive!"

Guo Zhan's grandfather was a hero who had participated in the eight years of the war, and his hatred for the Wei nation had become an instinct in his blood.

This time, the old hatred had not yet been settled, but a new hatred had been added. Squad leader Luo had been sacrificed under the muzzle of the Wei nation agents, and Guo Zhan's heart had long been filled with anger.

"Well, since Kappei Yamaguchi has already been registered in the military intelligence database, he'll be targeted the moment he enters the country!" Tian Feilong frowned and said. But we didn't receive any news at all!"

Xia ruofei said indifferently, "these people are not stupid. They know that their identity might have been exposed a long time ago. So, I'm sure that they smuggled themselves in. They couldn't have left any entry records."

.....

Guo Zhan also gradually calmed down and nodded, "That's right, and they might have planned their escape route from the beginning. Now it seems that the possibility of these Japanese escaping by sea is higher!"

The police had also sent out a small team to continue the inspection and verification work of the vehicles.

After an intense investigation, the suspicions of the cars were ruled out one by one, and only two cars were left.

The two cars had one thing in common, which was that they had been parked in two different surveillance blind spots on the van's route for a long time.

After the cargo truck passed by, two cars appeared at the intersection in different directions.

Moreover, the cargo van would stay in the two blind spots for about half a minute. As long as the speed of the vehicle changed slightly, it could completely change the car.

What was more coincidental was that the two cars had disappeared. The police searched the area where the cars had disappeared, but they couldn't find any traces of the two cars. It was obvious that someone had deliberately hidden them.

If they had found a blind spot in the surveillance and parked the car in a garage or a shop, the police wouldn't have been able to find it in a short time.

Xia ruofei looked at the two red lines on the big screen and pondered.

There were also two screens next to the driving track, which were playing the surveillance images of the two cars in a loop. They were automatically pieced together by the Skynet system according to the images taken by each camera.

The two cars had different destinations and routes, but the general direction was the same. They were both driving in the direction of Changping County, which was by the sea.

"It seems like I'm not wrong. They most likely chose to escape by sea!" Guo Zhan said with a frown.

"Mm! The possibility is extremely high." Xia ruofei said with a serious expression.

"This doesn't make sense!" Guo Zhan shook his head. After the incident that day, the first thing we did was to coordinate with the relevant military departments and set up surveillance at all the exits. These two cars have left the city area ..."

Xia ruofei frowned and stared at the two cars on the screen.

One of them was a black Honda sedan, and the last place it disappeared was near Gaoqiao Town in Changping County.

The other car was a blue Buick minivan. The Skynet system had tracked it to the vicinity of Lin Gang Town and then disappeared.

This location was not far from Xia ruofei's Taoyuan farm.

Xia ruofei's eyes fell on the blue Buick minivan. In the surveillance footage, the car was passing by a flooded area.

"Pause the image on the right!" Xia ruofei suddenly called out.

The police officer in charge of technical support immediately pressed the mouse and paused the scene.

"RUO Fei, did you find anything?" Guo Zhan asked with concern.

Xia ruofei frowned and pointed at the Buick minivan on the screen. "Don't you think there's something strange about this car? It seems to be particularly heavy. Let's go back and look at the image of the road with puddles of water and compare it with the car next to it ..."

The police immediately operated the computer to rewind the surveillance footage and continue playing it.

Sure enough, compared to the other cars, this van seemed to be particularly heavy. When it passed the waterhole, it clearly fell heavily.

In front of this car, there was even a business car of the same model that passed by, but it seemed very light.

#### **Chapter 774: Original form (3)**

"Could it be because this bus is full?" asked Deputy bureau chief Lu.

Xia ruofei shook his head. "That doesn't make such a big difference."

Xia ruofei's eyesight was far better than that of ordinary people after being strengthened by the pregnancy soup and the body tempering soup many times. Hence, he was able to detect the problem with the car.

"Then what could be the reason?" Guo Zhan asked thoughtfully.

"I think there are two reasons. First, as director Lu said, the car is full, and these people are all carrying guns and ammunition, which is quite heavy. " Xia ruofei paused and continued, "secondly, this car might have been modified to be heavier than before!"

A light flashed in Guo Zhan's mind and he loudly said, "Ruofei, you're saying that ... Professor Liang might have been hidden in a modified hidden space in the car?"

"Yes, I am!" Xia ruofei said, "these people are all new faces. The police's main target is professor Liang. As long as professor Liang is hidden well, they can easily get away with it. There's a high possibility that the car's chassis has undergone major surgery, and professor Liang is hidden inside!"

"That is to say ..." Guo Zhan said with a solemn expression, "this group of Japanese people is very likely to have kidnapped professor Liang and jumped out of the encirclement we set at the intersection of the city?"

Tian Feilong asked worriedly, "Could they have already gone out to sea? If that's the case, it'll be difficult for us to catch them ..."

Xia ruofei calmly analyzed, "there's a possibility, but it's not high." First of all, we have a lot of patrols near the sea, and all the villages and towns have been notified to guard it tightly. Those illegal immigrants don't dare to commit crimes at this time, so it's better for them to find a place to hide and wait for the news to die down before leaving. "

"They could totally modify the boat and leave China with professor Liang without anyone knowing!" Tian Feilong said.

Xia ruofei laughed. "Don't forget that there are coastguards, public security border guards, and comrades from the Navy patrolling the sea. These Japanese know that they might be listed in the military and don't dare to take the risk." It happened so suddenly yesterday, and the people who set up the checkpoint were mainly the police officers. They were confident that we wouldn't be able to find too many clues in a short time, so they dared to leave the city. "

Guo Zhan, Deputy Director Lu, and the others also nodded slightly. They felt that Xia ruofei's analysis was very reasonable.

.....

Xia ruofei continued, "there's one more thing. Let's think from the Japanese's point of view. They want the experimental data, and the core data has been hidden by professor Liang in a secret place. Even if we take professor Liang away now, even if professor Liang surrenders and is willing to cooperate with them, what if professor Liang can't repeat the experiment? After all, the human brain isn't a computer. I don't think professor Liang can remember all the core data in his brain, right?"

"So, they just want to find a safe place to force out the whereabouts of the core data as much as possible, and then take the data away!" Guo Zhan nodded his head repeatedly.

"Yes, I don't think they'll leave easily before they get the core data." Xia ruofei said, "after all, it's not easy to sneak into Huaxia. It'll be difficult to come back after you leave. Once they get the data, it won't be so tense anymore, and they can easily use illegal immigration ships to escape to the high seas, and then take the ship back to the Wei nation!"

Xia ruofei's analysis was reasonable. Guo Zhan, Tian Feilong, and the others all nodded silently, thinking that this was the analysis that was closest to the truth.

Xia ruofei smiled and stood up. "Wolf King, now that the area has been reduced to a very small size, it's time for our brothers to make a move! Let's let these Japanese have a taste of our power!"

## **Chapter 775: Heading straight for the target\_1**

"In order to avoid alerting the enemy and endangering the safety of the hostages, we'll still be the main force of this operation. The police, the military, and other units will be responsible for guarding and cooperating with us on the periphery!" Guo Zhan nodded.

Then Guo Zhan said to Deputy Director Lu, "Chief Lu, we can't rule out the possibility that they have left some people in the city to gather information, so we have to maintain the high – pressure investigation

in the city. Also, don't deliberately turn the search Center to Changping County. We have to give the Japanese the illusion that we have no clue."

"Understood!" Deputy bureau chief Lu said simply, "don't worry, Colonel Guo! We, the police force, will fully cooperate with this operation! If you need anything, just contact me directly!"

"Thanks!" Guo Zhan and Deputy Director Lu shook hands.

Then, he waved at Xia ruofei and Tian Feilong and said, ""Take little black and we'll set off!"

Xiao hei had unexpectedly played a surprising role in this operation and gave Guo Zhan a surprise.

He would need Blackie's help when he went to search the nearby town of Lingang in Changping.

The three of them brought Blackie to the courtyard of the Public Security Bureau.

The other squad members were on standby in the car.

There were a total of 12 people in the two teams, including Xia ruofei. Everyone took two separate black MPVs and left the Public Security Bureau's courtyard one after the other, heading out of the city.

Xia ruofei's Knight XV off – Road vehicle was too eye – catching. It would attract a lot of attention wherever it went. It definitely could not be used for disguising and investigation, so it was simply left in the courtyard of the Public Security Bureau. He would come back to get it after the operation.

The two vehicles had the local license plates of San Shan city, but Xia ruofei could clearly sense that they had been modified. They were even equipped with bulletproof armor. One look and he could tell that they were provided by the special department for the lone wolf assault team to carry out missions.

In the car, Tian Feilong sat in the front passenger seat, while Guo Zhan and Xia ruofei sat in the two relatively spacious seats in the middle row. There were two other members in the back seat. In addition to the assault team member who was acting as the driver, there were exactly six people in the car.

.....

Tian Feilong and the two team members in the back seat were silently loading bullets with empty magazines.

Blackie lay quietly at Xia ruofei's feet. There was an aura similar to the spirit map space on Xia ruofei's body, which made Blackie very comfortable. It was willing to stay closer to Xia ruofei whenever it was free.

Guo Zhan gestured to the two assault team members in the back seat. The two of them immediately lifted an alloy box from under their seats and handed it to the front.

"Blood Wolf, pick your equipment!" Guo Zhan said. Feilong, go to the back of the car and get a bulletproof vest for Blood Wolf!"

"Yes!"

Xia ruofei said, "Captain, there's no need for the bulletproof vest. We're mainly here for disguising ourselves. It's too obvious to wear a bulletproof vest in the summer. Let's wait until the official operation!"

"Do you have any suggestions for this operation, RUO Fei?" Guo Zhan asked after some thought.

Xia ruofei said without thinking, "let's find a place to settle down in the county first!" We'll split up at night to look for clues. Don't act rashly if you find anything. We'll act together when everyone is gathered. "

Guo Zhan pondered for a moment and said, "well, according to the suspicious areas marked out by the police Skynet system, it's indeed more efficient to act separately." Sanguine Wolf, you pick your equipment! Even if you are a disguised Scout, you have to bring along a handy weapon. "

Xia ruofei nodded and opened the alloy box.

There was a dazzling array of weapons and equipment inside. There were standard military equipment and some Special Forces equipment from the foreign Army. Xia ruofei was not surprised at all. The lone wolf assault team was the most elite special Forces. Their equipment guarantee was the best and had to be able to adapt to the needs of different missions.

Xia ruofei did not think much and picked up a Type 92 9mm pistol. This was the standard equipment of the Chinese army, which was distributed to the Chiefs of regiments and above, the Special Forces, and some of the armed police.

Although it was standard equipment, and the type 92 9mm pistol was not as good as similar pistols from overseas in terms of craftsmanship and longevity, it was especially suitable for the hands of the Chinese. Xia ruofei had a special liking for this pistol.

The type 92 also had a 5.8mm pistol. Compared to this pistol, the 9mm pistol had a greater recoil and was more difficult to master. Relatively speaking, its shooting accuracy would be worse.

However, when Xia ruofei was still in lone wolf, he could use the type 92 9mm pistol to shoot and hit the 10th ring with every shot. Now that his physical strength and strength had undergone a complete transformation, it was naturally easier for him to control the gun.

In fact, this pistol was a compulsory piece of equipment for Xia ruofei when he was serving lone wolf. When Xia ruofei held it in his hand, he felt like he could control it as if it was his own arm.

Xia ruofei skillfully picked out a few fully loaded magazines for the type 92 9mm pistol from the box. Then, he smiled and closed the box. "This old partner is enough!"

Guo Zhan couldn't help but laugh, "you're quite single – minded, aren't you!"

Xia ruofei chuckled and put away the gun and the magazine.

When they arrived at Changping County, the group booked six standard rooms in a business hotel in Changping County.

As a 'special team member', Xia ruofei was in the same room as Guo Zhan.

Everyone had a simple lunch in the command center of the Public Security Bureau, so Guo Zhan ordered everyone to have a good rest in their rooms in the afternoon and recuperate. After dark, they would split up and go to several suspicious areas analyzed by the Skynet system to carry out a disguise investigation.

## **Chapter 776: Heading straight for the target\_2**

After Xia ruofei entered the room, he said to Guo Zhan, ""Wolf King, my farm is nearby. After the mission is over, let's take a look!"

"Alright!" Guo Zhan said with a smile. Some of the soldiers I've trained became police officers, some became private bodyguards for their bosses, and some even started their own security companies. But you're the first one to have such a big business! I have to go and study hard, maybe it will be useful when I change my profession in the future!"

Xia ruofei rolled his eyes and scoffed at the commander of the elite special Forces. If he dared to mention it, the military chief would kick his butt.

Before Xia ruofei retired from the Army, Guo Zhan was already a Reserve Officer for the Deputy Division Master position. In other words, he could be promoted to the Deputy Division Master position at any time.

Xia ruofei didn't respond to Guo Zhan's teasing. He just smiled and said, ""Captain, I haven't been back for two days. I want to go back to the farm in the afternoon to deal with some chores. I'll come back in the evening to meet you, okay?"

Guo Zhan looked at Xia ruofei suspiciously and said, ""You're not thinking of acting on your own, are you? I'm telling you, those shorties have a lot of light weapons in their hands. It's very dangerous, so don't play with fire!"

Xia ruofei quickly said, "Wolf King, why would I act on my own?" There wasn't even a single clue! Even if I want to fight them to the death, I have to know where they are, right? I'm really just going back to the farm!"

"Are you really just going back to the farm?"

"Really, really!"

"Alright! I'll get Xiao Ling to bring you the car keys. " Guo Zhan said, "you can drive our car back!"

Guo Zhan picked up the landline in the room after he finished speaking. He still remembered that Xia ruofei's car was left at the Public Security Bureau.

Xia ruofei quickly said, "no need, no need. My farm isn't far from here. I'll just go downstairs and call a taxi." Xiao Ling and the others might be asleep already, so don't disturb them from resting! There's a mission tonight!"

"Alright then, be careful!" Guo Zhan said.

.....

He had been on high alert for the past two days and felt a little tired. After he finished speaking, he waved his hand to signal Xia ruofei to leave. Then, he lay on the bed and prepared to sleep for a while.

Xia ruofei gave Blackie a look, and the two of them quietly left the room.

Of course, Xia ruofei did not really want to go back to the farm.

The company was operating normally and Feng Jing and the others were doing their best. It didn't matter if he left for a few days. If he went back now, he would have to come out again in the evening. Wouldn't he be torturing himself?

After Xia ruofei left the business hotel, he walked to a small hotel nearby and got a room.

After entering the room, he checked the room out of habit. After confirming that there was no equipment to secretly take photos, he immediately locked the doors and windows.

After saying a few words to Xiao hei, he took out the spirit map scroll and entered the space with a thought.

With Blackie's protection outside, Xia ruofei was not worried that someone would suddenly break in.

After he made some preparations in the medium, he immediately came out to put away the spirit map scroll and left the hotel with Blackie.

When they were on the streets, Xia ruofei called for a taxi.

He carried Blackie into the car and said, ""Master, let's go to the entrance of Xiayang village in Lin Gang Town,"

The blue Buick minivan had gone missing after passing through the last Skynet surveillance camera on National Highway 218.

The surveillance camera was not far from Xiayang village in the direction of the city. It was a police security camera. In recent years, the police had installed a lot of such security cameras on the road in the urban – rural junction, making the nodes of the Skynet system more complete.

It was about two kilometers away from the next security camera.

In other words, the blue Buick minivan could only have left the National Highway at one of the intersections within these two kilometers.

There were a total of six intersections within this two – kilometer area. Three of them had been eliminated because there were surveillance cameras installed in the village less than 300 meters ahead, which were also connected to the police Skynet system.

Hence, Xia ruofei only needed to check the remaining three intersections.

The closest surveillance camera to the disappearance of the Buick was at the intersection of Xia Yang village.

Xia ruofei decided to start his investigation from here.

Soon, the taxi arrived at the intersection. The driver asked, "It's still five li from here to the village! You really don't need me to send you in?"

Xia ruofei smiled. "It's okay. Just park here."

After the car stopped, Xia ruofei took out a hundred Yuan note and handed it to the driver. "Keep the change. You won't be able to get any work back to the county this time, so you must return empty-handed. Consider it as compensation for your loss!"

"Thank you, thank you!" The driver said happily. Take care!"

For this trip, it would only cost 30 to 40 yuan on the watch. It would not cost more than 60 Yuan to book a car. Xia ruofei gave him 100 yuan at once, so he was naturally overjoyed.

The car turned around at the intersection and returned to the county. Xia ruofei brought Blackie for a walk in the direction of Xiangyang village.

Actually, Xia ruofei had chosen to start the investigation from the intersection at Xia Yang village, not only because it was the closest intersection to the last surveillance camera.

They had analyzed it in the command center of the Public Security Bureau. There were a few places that were the most suspicious and needed to be investigated.

One of them was an abandoned brick factory near Xiayang village. From this intersection, about a kilometer in the direction of Xiayang village, there was a mechanical road that led directly to the brick factory. There were many dilapidated factories in the brick factory, so it was easy to hide a business car.

### **Chapter 777: Heading straight for the target (3)**

In addition, there were so many abandoned brick kilns, and the brick factories were usually deserted. Even if there were ten times more people hiding inside, they would not be discovered.

Hence, this brick factory was listed as one of the most suspicious areas. Xia ruofei's first investigation Target today was this abandoned brick factory.

He strolled forward with Blackie, and a few minutes later, he saw the road of farming in the distance.

It hadn't rained for the past two days, so there were no traces of car tracks.

Xia ruofei was getting closer and closer to the road that led to the Brickyard. Just then, a person appeared at the corner of the road and was walking towards the intersection.

Xia ruofei jumped in shock and subconsciously glanced at the man. The person did not seem to expect to see someone on the road as soon as he turned the corner. He was very surprised and wanted to hide. However, Xia ruofei had already looked over and he changed his mind at the last minute. He glanced at Xia ruofei coldly and continued to walk.

Xia ruofei's expression was still calm. He even looked at the man curiously a few times before crossing the intersection of the road and continuing to walk into the village.

In fact, Xia ruofei was extremely excited because he recognized the person at a glance. It was kappei Yamai, who was sitting in the front passenger seat and was captured by the surveillance camera yesterday!

It was almost certain that the Japanese were hiding in the abandoned brick factory!

Xia ruofei didn't expect to find the right place on the first try. He felt that he was quite lucky.

He was dressed in casual clothes, with a Black Dog following him. He was no different from the other young people in the village, and he walked slowly into the village.

However, Xia ruofei had only taken three or four steps when he suddenly felt an extreme sense of danger. It was an instinct formed by years of living in the Special Forces.

He did not hesitate to make a dodging action, and with a little force under his feet, his whole body moved half a meter away.

.....

Xia ruofei felt a cold glint pass by his ribs and realized that it was a dart.

He didn't have time to think much. He turned around and saw that kappei Shani was still holding a dart in his hand. The blue on it was obviously poisoned.

Seeing that Xia ruofei had actually dodged the sneak attack without warning, kappei Shani's face showed a trace of surprise. At the same time, his expression immediately became ferocious and the DART in his hand quickly shot out.

Xia ruofei was already on guard, so how could he let Shani kappei succeed?

Kappei Shani only felt a blur in front of his eyes. Xia ruofei, who was originally five or six meters away from him, suddenly appeared in front of him. Then, he received a heavy punch in the abdomen. His stomach was in turmoil, and he vomited on the spot.

An elite agent who had received strict training was actually so easily defeated by the other side in a sneak attack. If his instructor in the Wei nation knew about this, his jaw would definitely drop.

Even if Guo Zhan were to see this scene, he would definitely be dumbfounded. Xia ruofei's strength and speed had already exceeded the limits of the human body.

Xia ruofei looked coldly at kappei Shani, who had completely lost his fighting power and was now curled up on the ground like a shrimp.

There was no emotion in Xia ruofei's eyes, only cold killing intent.

With a thought, the military dagger that had been with him for many years appeared in his hand out of thin air.

Xia ruofei brandished his knife and muttered to himself, ""Old friend, you can finally do what you should do. Let's go to the battlefield and kill the enemy!"

**Chapter 778: a turtle in a jar (1)**

This buckamp& The Strider 888 was Xia ruofei's first cross – Border Battle. He had obtained it after killing an international mercenary hired by a drug trafficking organization.

After he retired, this military dagger, which had drunk the blood of countless enemies, was often used by Xia ruofei for fleshy cutting and Ironhide vessel cutting. It could be said that it was a Pearl covered in dust.

Today, it could finally do what it was supposed to do.

Xia ruofei grabbed kappei Shani's hair and lifted him up from the ground. Then, he walked a little into the road and into a Bush.

Kappei Yamaguchi, the elite of the intelligence team who had been registered in the military intelligence agencies of various countries, was like a dead dog, unable to resist at all.

After they entered the bushes, Xia ruofei smacked him onto the ground.

Kappei Yamai groaned and quickly glared at Xia ruofei. He said fiercely in broken Chinese, ""Chinese! Don't even think about getting any information from me!"

Xia ruofei sneered and said, ""You think too highly of yourself ..."

Shouhei Yamaguchi was stunned for a moment. Before he could understand what Xia ruofei meant, he suddenly felt a chill in his heart.

He slowly lowered his head and saw a military dagger deeply embedded in his chest, leaving only the handle outside.

Kappei Shani's face was full of disbelief as he looked up at Xia ruofei.

Xia ruofei then said calmly, ""I just want to kill all of you Japanese. What kind of bullsh \* t information do you have in your head? what does it have to do with me?"

With that, Xia ruofei reached out and pulled out the dagger.

.....

The wound caused by the sharp military dagger split open. When the nerves transmitted the pain to kappei Shani's brain, he could no longer speak. He could only stare at Xia ruofei.

Kappei Shani felt all his strength being sucked out of his body in an instant. He didn't even have time to scream before he fell to the ground and fell into eternal darkness.

A large pool of dark red blood formed under his body ...

This Bush was very well hidden, and he did not have to worry about the body being discovered in a short time.

Xia ruofei frowned as he looked at kappei Shani's body, puzzled.

Why did Yamai kappei kill him without hesitation?

Xia ruofei was sure that he had not given himself away. He was acting like a normal villager. Why would the Japanese be so determined to attack him?

Xia ruofei was deep in thought. Suddenly, his eyes fell on Blackie, who was lying quietly at the side. Suddenly, an idea flashed through his mind and he found the key point.

The problem was most likely with little black!

Kappei Shani was the only Japanese whose face had been captured by the surveillance camera because he had been sitting in the front passenger seat when the van left Sanshan University. He had not left the van until the end.

In other words, after the other Wei nation agents changed cars, kappei Yamai stayed behind.

It was very likely that he had stayed in the city, including killing the unlucky driver and cleaning up the mess.

Moreover, it was possible that kappei Shani had stayed near the scene to Scout for information.

Blackie had appeared frequently in the search and capture. It was hard to say that kappei Yamai had not seen Blackie, so when he saw Xia ruofei walking around with Blackie, he immediately attacked without hesitation.

Even kappei Yamai might have been hiding near the scene of the van to persuade Xia ruofei to come to the scene in person. If that was the case, perhaps kappei Yamai had already remembered Xia ruofei's appearance.

That was the only possible reason.

If kappei Shani had not discovered anything, he would not have killed an ordinary villager. This would not be conducive to their continued hiding. It did not make sense.

In fact, Xia ruofei's speculation was basically the truth.

Kappei Yamai had just rushed over from the city. When he saw the police find the van, he knew that the police had found the right direction. He was not sure how long they could hide from the police by changing cars halfway.

Therefore, kappei Yamai immediately came back to report the situation and reminded his companions to speed up the interrogation, find the core experimental data as soon as possible, and leave Huaxia.

The head of the Wei nation Special Agent team, Junyan Inoue, was also very nervous. While increasing the intensity of the interrogation, he also sent out kahei Shani to keep watch.

Kappei Yamai was preparing to find a secret location next to National Road 218 outside and keep an eye on the intersection leading to Xiayang village.

He did not expect to meet Xia ruofei face to face before he even walked out of the farming road.

Kappei Yamai and his team were very smart in hiding their scent. The police could find the truck so quickly, not even an ordinary police dog could do it.

Therefore, the Black Dog that the police had brought had left a deep impression on Kappei Yamaguchi. Of course, he also remembered Xia ruofei's appearance, who had brought Blackie along for the inspection.

Therefore, kappei Yamai had recognized him as soon as he saw him.

Under such circumstances, no matter how Xia ruofei pretended to be a villager, it would be useless.

On the other hand, kappei Yamai played along and pretended not to notice that something was wrong with Xia ruofei, who was acting as if nothing had happened. After Xia ruofei walked past the intersection, he suddenly launched a sneak attack.

Everything had been perfect.

Unfortunately, shouhei Yamaguchi had miscalculated one thing, which was that Xia ruofei's reaction ability and intuition for danger were far beyond his estimation.

Not only did Xia ruofei Dodge the DART, but he also used absolute force to subdue him in a very short time. Then, he dragged him to the bushes and killed him with a knife.

### **Chapter 779: a turtle in a jar (2)**

After Xia ruofei figured out all these, he did not dare to delay. He quickly sat cross – legged on the ground, took out his laptop from the medium, and turned it on.

At the same time, he took out a few wasps with miniature cameras that he had prepared in the space in the small hotel.

Kappei Yamaguchi's body was curled up in a pool of blood, but Xia ruofei did not feel any discomfort or fear at all. He quickly operated the laptop.

After turning on the monitoring computer client, Xia ruofei quickly turned on the switch of the Super – tiny camera on the hornet's body. Then, he used his spiritual power to control them and flew them in the direction of the abandoned brick factory.

Xia ruofei knew that he had to hurry up and make sure that he lost contact with kappei Yamai. The Japanese would be alerted soon.

After Ma Feng and the others set off, Xia ruofei found some branches and covered up yamamizumi's body. Then, he took his laptop and headed in the direction of the abandoned brick factory.

As Xia ruofei's spiritual power could only radiate for about 100 meters, and the wireless transmission module of the Super – miniature camera did not have a high power output, it had a limited range. Hence, Xia ruofei had to get as close as possible to the brick factory.

However, Xia ruofei did not take the road that led to the brick factory. Instead, he walked through the bushes that had no road. The Japanese would definitely not send only kappei Shani to keep watch. There must be hidden sentries near the brick factory. It was definitely not possible to swagger through the road.

The lone wolf assault team often carried out missions in the tropical forest. Although there were no roads in this mountain forest and the terrain was very complicated, it was not a problem for Xia ruofei. His speed was no different from walking on flat ground.

Blackie's physique was excellent. It followed Xia ruofei closely and its speed was not any slower.

Soon, Xia ruofei was approaching the brick factory. In a straight line, he was only about 50 to 60 meters away. If he went any further, he would lose the cover of the bushes and would probably expose himself.

Xia ruofei's spiritual power could cover the entire area and there was no problem with the reception of the ultra – tiny camera. Hence, Xia ruofei slowly lowered his body.

"Blackie," he said softly. "From now on, don't make any sound, understand?"

.....

Blackie was very understanding. It immediately nodded and lay down beside Xia ruofei, burying its head very low.

Seeing this, Xia ruofei couldn't help but smile. He patted Blackie's head and said, "You don't have to be so exaggerated ..."

Blackie bared its teeth at Xia ruofei gloomily. Xia ruofei laughed and opened the laptop on the ground. He used his spiritual power to command the "mini Scouts" while staring at the surveillance image on the computer.

The blue van was quickly discovered. It was hidden in a run – down room in the Brickyard, and there was even some hay on top of it.

Then, the Wei nation agents' secret sentries were also discovered one by one.

Ma Feng's target was very small, and the Wei nation agent would never have thought that the Chinese military would have such "advanced" investigation methods, so even when a Hornet flew past the hidden Sentry, he didn't notice it at all.

Xia ruofei took out a piece of A3 paper and a red and blue pencil from the space and started to draw quickly on it.

Soon, a topographic map of the area appeared on the paper. The plowing roads, water channels, Hills, forests, brick kilns, and other things were clearly shown.

Xia ruofei then marked the locations of the three hidden sentries.

Xia ruofei's drawing was very beautiful. This kind of military drawing was a necessary skill for every Scout. Although he had been discharged from the Army for more than a year, Xia ruofei still had not forgotten his specialty.

He commanded the Hornet to scout a few more rounds around the periphery. After confirming that there were no more hidden sentries, he then ordered them to carefully investigate the interior of the brick factory.

The computer displayed the surveillance footage that was sent back.

Abandoned factory, no one.

Kiln No. 1, no one.

Kiln No. 2, no one.

.....

All the suspicious points were eliminated.

Finally, when a Hornet flew into the fourth and last brick kiln, seven or eight people appeared on the screen!

I've finally found the Japanese! Xia ruofei clenched his fists in excitement.

He commanded the Hornet to circle around carefully and take as many pictures as possible of the inside of the brick kiln.

This abandoned brick kiln was sunken, and more than half of it was underground, so the interior space was very large.

Xia ruofei saw that the Japanese had brought sufficient supplies. Their food and drinks were neatly arranged in the brick kiln. Everyone was carrying a gun. Almost everyone had a portable mini submachine gun and a whole box of grenades. It was a shocking sight.

When they were scouting the perimeter, Xia ruofei had also confirmed that one of the hidden sentries was equipped with a high – Precision Sniper Rifle.

This was clearly a group of well – equipped and well – trained enemies.

In a corner of the brick kiln, a dispirited old man was tied up and sitting on the ground. A Japanese kid was interrogating him.

Xia ruofei had seen the relevant information and recognized the old man with one look. He was the National treasure – Level scientist, professor Liang Qiming!

Although Xia ruofei was furious to see professor Liang being tortured, he also heaved a sigh of relief. This meant that professor Liang Qiming did not confess and the Japanese did not get what they wanted.

Therefore, for the time being, professor Liang's life was at least safe.

### **Chapter 780: a turtle in a jar (3)**

However, time was also very tight. If they lost contact with kappei Shani, these Japanese would soon find out.

Hence, Xia ruofei quickly took out his phone and called Guo Zhan.

Guo Zhan was woken up from his sleep by his phone. He picked it up in a daze and saw that it was Xia ruofei calling. He immediately picked it up.

"What's wrong, Blood Wolf?"

“Wolf King, did you rest well?” Xia ruofei laughed and said, “wake up all the brothers! I’ve found the Japanese’s hideout. It’s time to act!”

Guo Zhan’s sleepiness was gone all of a sudden. He said, “You little brat! Didn’t you tell me you were going back to the farm? Who allowed you to go and investigate without permission? They are simply unorganized and undisciplined!”

Xia ruofei quickly said, “Wolf King, let’s gather the team!” You can criticize me however you want later! I killed one of their hidden sentries, so they should be aware of it soon. We have to take advantage of the time before they move to capture them all!”

When Guo Zhan heard this, he didn’t have the mood to criticize Xia ruofei anymore. He quickly said, “Where are you now?”

Xia ruofei said, “in area No. 1!” You guys come over quickly! I’ll be waiting for you at the entrance of the road! Remember to be fully armed!”

“Good! I’ll see you later!”

After the phone call with Guo Zhan, Xia ruofei marked the personnel, equipment, and Liang Qiming’s location on the map and continued to monitor the entire abandoned brick factory patiently.

When he felt that it was about time, Xia ruofei recalled the Hornet he had sent out to investigate.

Before that, Xia ruofei had them do a final check of the perimeter. After confirming that the three hidden sentries were still in their original positions, he put the Hornet and laptop into the spirit map space.

.....

Xia ruofei brought Blackie along their original route and returned to the intersection of the mechanical road. After waiting for less than five minutes, they saw two business cars driving over.

Xia ruofei stood up from the grass by the road and waved at them.

The MPV drove into the road and stopped.

After getting off the car, Guo Zhan threw a pile of equipment to Xia ruofei and said, “Hurry up and change your clothes!”

Jungle camouflage, Kevlar helmet, bulletproof vest, combat boots, bone conduction headphones, anti – explosive walkie – talkie, tactical gloves, Type 95 automatic rifle ...

Xia ruofei held the familiar equipment in his hands. He didn’t even have time to feel emotional. He immediately took off his outer coat and pants beside the car and quickly armed himself.

Carak carak!

Everyone tested their guns one last time and loaded the bullets. Then, under Xia ruofei’s lead, the small team moved forward in a search formation. They followed the path that Xia ruofei had taken just now and came to a position about 60 to 70 meters away from the abandoned brick factory.

Other than the three of them standing guard in different directions, everyone else formed a circle. Xia ruofei took out the map that he had drawn on the spot and said, "Comrades, this is what I've scouted out just now. The enemies are mainly distributed around the fourth brick kiln. There are three hidden posts on the periphery. There are two hidden sentries at the nine o'clock position, one hundred and fifty meters, three o'clock position, and one hundred and sixty meters ..."

Following Xia ruofei's explanation, the surprise on Guo Zhan's face became more and more obvious. Xia ruofei's information was more detailed than he had imagined. It was as if Xia ruofei had worn an invisibility cloak and walked around the entire area a few times. The enemy's numbers, distribution, and equipment were all clearly stated.

However, he didn't doubt the accuracy of this information at all. He had absolute trust in his comrades. It was the tradition of the lone wolf assault team that they could trust their comrades with their backs in a battle.

After Xia ruofei had reported all the information he had gathered to everyone, the experienced Guo Zhan quickly formed a battle plan in his mind.

He quickly began to assign tasks. Six agile members were responsible for dealing with the hidden sentries on the periphery. Since the hidden sentries could watch out for each other, everyone's actions must be absolutely synchronized. This was not difficult for the experienced lone wolf members.

The rest of the people waited at the same spot. After the three hidden sentries were all killed, they would attack from the front. The six members from earlier would surround them from three sides and directly launch a strong attack on the brick kiln.

Xia ruofei had wanted to volunteer to take care of the sniper, but considering that it was more difficult to attack directly and that he had to do his best to protect professor Liang Qiming's safety, he opened his mouth but did not say anything.

After Guo Zhan assigned the tasks, he asked, "Comrades, are you all clear on your own tasks?"

"Clear!" The team members replied in a low voice.

"Alright, let's begin!" Guo Zhan said decisively.
