

God tier Farm 801

Chapter 801: I'm always too soft – hearted (2)

The police were in awe! It was like a continuous River ...

"You're the one who interpreted it wrongly, I didn't mean it that way!" Qin Xiao Yu said, "just tell me if it's okay or not?"

Xia ruofei shook his head. "I'm sorry, officer Qin. I've been taking care of black since he was born. We've already developed feelings for each other ..."

"I can pay a lot of money for it. Can you sell it to me?" Qin Xiao Yu said.

She really did Miss Black, and her tone had unknowingly carried a hint of coquettishness. This was something that she would not have dared to imagine normally.

Xia ruofei smiled and looked at Qin Xiaoyu, ""Do you think I lack money?"

Qin Xiao Yu's expression froze and her face was full of frustration. She knew about Xia ruofei's situation and Xia ruofei's net worth was at least tens of millions. Was she going to spend tens of millions to Buy Black?

Even if she was willing to spend so much money, she had to have it!

It was true that Qin Xiao Yu's family was illustrious, but she was only a member of the family. Her pocket money of hundreds of thousands was nothing, but it was impossible for her to come up with tens of millions or hundreds of millions of funds.

Xia ruofei saw Qin Xiao Yu's dejected look and felt a little sorry for her. He said, ""Officer Qin, it's not that I'm being stingy, but I've already developed feelings for little black. Besides, little black only recognizes me. Even if I give it to you, it won't agree, let alone listen to you!"

Qin Xiao Yu's face was filled with disbelief as she said, ""Xiao hei still knows how to refuse? Wouldn't that be a demon?"

Xia ruofei smiled and reached out to touch Blackie, who was lying on the passenger seat. He asked, ""Blackie, tell the police sister. Are you willing to go home with her?"

Blackie shook its head without hesitation.

Qin Xiao Yu was dumbfounded as she watched from outside the car, was there really such a human – like dog?

However, the truth was right in front of her eyes and she had to believe it. It was unlikely that Xia ruofei had specially trained it to make xiaohei nod his head. Qin Xiao Yu had seen with her own eyes that xiaohei had attacked Huang Chunhua, which meant that it could complete the task according to Xia ruofei's instructions.

On the way to the police station, it was also Xia ruofei's word that made Blackie jump to the back seat. He kept an eye on Huang Chunhua the whole time.

This made Qin Xiao Yu even more envious.

However, she also knew that a forced melon was not sweet. In this situation, even if Xia ruofei was willing to give up his treasure, black would not leave with her!

"I see ..." Qin Xiao Yu lowered her head and said, "then I won't bother you anymore, thank you for today!"

Xia ruofei saw Qin Xiaoyu's depressed look and suddenly felt a little bad. He thought for a while and said, "Officer Qin, I can't give you Xiao hei, but if you want a dog, I have a few here. I can give you one."

Qin Xiao Yu suddenly raised her head and asked: "You have other dogs? Are they all as smart as little black?"

Xia ruofei laughed. "It might be a little weaker than Blackie. But compared to normal dogs, it's much better."

"I want it!" Qin Xiao Yu said immediately.

Her voice was a little loud, and it immediately attracted the attention of a few policemen who were pretending to chat in the courtyard but were actually peeking at her.

Qin Xiao Yu was completely unaware and quickly said: "Quickly take me to see him!"

Xia ruofei smiled and got out of the car. "No need to go, they're all here!"

With that, Xia ruofei went to the back of the pickup truck.

In order to prevent fluffy one, fluffy two, and the rest from falling off the truck, Xia ruofei had covered the back of the truck so that no one could tell that there were many dogs inside.

It was only when Xia ruofei opened the back of the car that Qin Xiao Yu noticed fluffy one, fluffy two and the rest.

"So many dogs ..." Qin Xiao Yu's eyes widened.

Xia ruofei whistled, and Da Mao and ER Mao immediately jumped down from the back of the truck and lined up in front of Xia ruofei.

Xia ruofei laughed and said, "you can choose!" Tell me which one you like!"

Qin Xiao Yu looked at them one by one with some excitement and finally pointed to si Mao and said, "This one! This one is the one I like the most!"

Si Mao was a little female dog with pure white fur. Although her bloodline was far from the expensive pet dogs on the market, she had stayed in the spirit map space for nearly a year. Her fur was bright and she was fat and strong.

"Sure!" Xia ruofei agreed readily.

“Hairy # 4! Step forward!” Xia ruofei called out.

Si Mao immediately took two steps forward obediently. It was Qin Xiao Yu’s first time seeing such a human – like dog and she could not help but be so excited that her eyes lit up.

Xia ruofei patted si Mao’s head and said, “Si Mao, you will follow the police sister in the future! You have to listen to her and don’t be naughty, understand?”

Fluffy four barked twice and turned to look at Xia ruofei. It was not that it did not understand Xia ruofei’s words, but it was dissatisfied that Xia ruofei wanted to give it away to someone else. At the same time, it was unwilling to leave its friends.

Xia ruofei patted fluffy four and said, “You can live a good life if you follow the police! And he would have the opportunity to solve cases and catch thieves! Go! Say hello to the police sister!”

Si Mao whimpered and licked Xia ruofei’s feet gently. Then, it walked towards Qin Xiao Yu unwillingly and wagged its tail at her.

Qin Xiao Yu squatted down happily and touched si Mao’s head carefully, then raised her head and asked, “Does this mean it agreed?”

Chapter 802: I’m always too soft – hearted (3)

Xia ruofei nodded and said, “yes!” Although I was a little unwilling, I still agreed!”

“That’s great!” Qin Xiao Yu called out happily.

Xia ruofei said, “si Mao, don’t make such a sad face!” You’ll be able to see me in the future if you follow Miss Cop. When she’s free, she’ll take you to the farm to reunite with fluffy one, fluffy two, and the rest!”

After hearing this, si Mao shook the fur all over his body and no longer looked listless.

“It’s so smart!” Qin Xiao Yu said in surprise, “Xia ruofei, it’s ... Called si Mao?”

Xia ruofei nodded and said, “yes!” The names of their siblings are fluffy one to fluffy six ...”

Qin Xiao Yu couldn’t help but roll her eyes at Xia ruofei and said, “You’re such a lazy master! It’s even given such a casual name ... I have to change its name. Hmm ... Its fur is pure white. I can’t get little black, so you’ll be called little white!”

After that, Qin Xiao Yu touched si Mao and called out: “Little white! Little white ...”

Si Mao didn’t even raise its head, it was lying on the ground and ignored Qin Xiao Yu.

Xia ruofei laughed. “I already said that it’s called si Mao. How could it accept your random name?”

Qin Xiao Yu was depressed, “what a good dog!” You actually gave me such a low name ... Forget it, forget it, forty cents it is!”

Xia ruofei smiled and asked, “officer Qin, is everything alright?” Can I go now?”

Qin Xiao Yu said, "Xia ruofei, thank you!" By the way, how much is 40 cents? I'll give you money ..."

Xia ruofei waved his hand. "I'll give it to you. Just don't look for trouble with me in the future. Also ..."

Xia ruofei looked at Si Mao with some reluctance and said, "Be nice to Si Mao. Take him to the farm more often when you have the time. He has been with his siblings since he was born. He must be very lonely now that they are separated."

"I know, I will!" Qin Xiaoyu said, "don't worry, I will take good care of Si Mao!" I'll bring it to the farm whenever I'm free ..."

"En!" Xia ruofei nodded and waved his hand. Blackie, Da Mao, and ER Mao all looked at Si Mao and barked at him as if saying goodbye. Then, they jumped into the back of the pickup truck.

Xia ruofei got into the car, waved at Qin Xiao Yu and drove away from the Public Security Bureau.

Qin Xiao Yu watched the car disappear from her sight, then squatted down and looked at the lonely Si Mao and said, "Si Mao, don't be sad. I will definitely treat you very well in the future! Let's go to the farm when we have time and play with fluffy one and fluffy two!"

Si Mao barked at Qin Xiao Yu twice, as if it was a kind response to her.

Si Mao had already gained sentience, so it would naturally follow Xia ruofei's orders unconditionally. It could also feel Qin Xiao Yu's love for it from the bottom of her heart. There was nothing to be picky about with such a master.

"Si Mao, it turns out that I quite hate your master." Qin Xiao Yu said with a smile, "but he gave me a good feeling today, he doesn't seem to be as annoying as before ..."

Si Mao whimpered in dissatisfaction and Qin Xiao Yu said gloomily, "Alright, alright, I won't speak ill of your master anymore! Your master is a very good person, okay?"

Si Mao then wagged its tail at Qin Xiao Yu.

Qin Xiao Yu chuckled and said, "let's go!" Si Mao, I'll find you something good to eat first. I'll take you home after work!"

After that, Qin Xiao Yu waved at Si Mao and the smart Si Mao immediately followed.

.....

"You're always too soft – hearted, too soft – hearted ..."

On the way, Xia ruofei hummed the old song and drove the pickup truck towards the direction of the city.

Xia ruofei's heart softened when he saw Qin Xiaoyu's dejected look, so he gave Si Mao to her. He was still a little reluctant to part with her. After all, he had been raised in the spirit map space for almost a year and had developed feelings for her.

However, since he had already given it away, there was no reason for him to go back on his word. Furthermore, it did not mean that they would not be able to see each other again in the future. They would both be in Sanshan city, so there would be plenty of opportunities for them to meet in the future.

Besides, there were seven dogs on the farm, including lightning and Blackie, so it would not make a difference if they lost one dog.

Hence, Xia ruofei quickly gathered his thoughts and focused on driving.

When they returned to the farm, the sky was already dark. Xia ruofei let Blackie, Da Mao, and ER Mao spend the night in the villa's yard.

He first asked Hu 'Zi's mother and Lin Qiao to come out and let the dogs recognize the people. Then he told them to stay in the yard and not fight with lightning. He also told them not to leave the yard for a walk. He was worried that these fierce dogs would scare the workers when they wandered around the farm.

After settling the dogs, Xia ruofei entered the villa.

Lin Qiao saw that Xia ruofei had brought back so many dogs and naturally couldn't help but ask all sorts of questions. Xia ruofei answered perfunctorily, saying that he had bought them a few days ago and was raising them at a friend's house. Now that the farm had expanded, he brought them back to look after the house.

Then, Xia ruofei got rid of the little girl's pestering and quickly went upstairs to his room, using the excuse of taking a bath as an excuse. He still had a lot of things to deal with in the spirit map space!

After returning to his room, Xia ruofei carefully locked the door to prevent Lin Qiao from barging in without warning.

Then, he locked the aluminum window and drew the curtains. He then summoned the spirit map scroll from his palm and entered the space with a thought.

Chapter 803: Inspecting the territory (1)

As soon as he entered the spirit map space, Xia ruofei felt refreshed.

The spiritual Qi in the spatial zone was extremely dense. In addition, Xia Qing had opened up a vast medicinal garden in the mountain and sea realm, and the air was filled with the unique fragrance of Chinese herbs, which made one feel relaxed and happy.

Xia Qing was busy in the herb garden. When he saw Xia ruofei enter, he immediately stopped what he was doing and greeted Xia ruofei respectfully.

Xia ruofei nodded."Xia Qing, stop what you are doing. Follow me to the Archean realm. I have something for you to do."

"Yes, master!" Xia Qing said respectfully.

With a thought, Xia ruofei brought Xia Qing to the Archean realm where time was 30 times faster.

“Master, do you have any orders?” Xia Qing took the initiative to ask.

Xia ruofei pointed at the bags of seeds that he had sent into the medium this afternoon and said, “I’ll be using these seeds tomorrow. Soak them in the spirit Heart Flower petal water for a few days in the Archean realm. Then, dry them and pack them up according to their original arrangements.”

The flow of time in the Archean realm was 30 times slower than the outside world. Hence, even if he wanted to do it tomorrow morning, there were still more than ten days left. There was enough time.

“Yes, master!” Xia Qing said immediately.

Xia Qing was the spiritual puppet that was specially used to look at Gu lingtu’s space. His skills in planting and breeding were very comprehensive. A very basic job like soaking seeds was quite easy for Xia Qing. He didn’t need Xia ruofei to specifically tell him anything to take note of.

Next, Xia ruofei brought Xia Qing to the place where the iron – Skin Dendrobium was planted. As expected, this batch of iron – Skin Dendrobium could be picked again.

If it was in the past, Xia ruofei would have to work like a hardworking little bee and work through the night in this space to harvest the iron – Skin Dendrobium.

But now that Xia Qing was here, Xia ruofei was much more relaxed. He only needed to move his mouth.

“Xia Qing, it’s time to start harvesting the iron – Skin Dendrobium.” Xia ruofei said, “while you are soaking the seeds, you should stay in the Archean realm to complete this task.”

“Yes, master,” Xia Qing said without the slightest hesitation.

Xia Qing would always obey Xia ruofei’s orders.

“Then I’ll demonstrate the harvesting standards to you first.” Xia ruofei said.

“I understand, master,” Xia Qing said with a smile. The iron – Skin Dendrobium is a kind of medicinal plant, and the processed iron – Skin maple is also a very precious Chinese medicinal herb, so I know all the processing methods of the iron – Skin Dendrobium.”

Xia ruofei was slightly surprised and said, “Okay, then you pick a few fresh strips and process them for me to see.”

After he finished speaking, Xia ruofei waved his hand and a military dagger that was placed on a nearby shelf flew into his hand. Xia ruofei handed the dagger to Xia Qing.

It wasn’t that Xia ruofei didn’t believe Xia Qing, but he was also very curious about the processing method of the iron – Skin Dendrobium that Xia Qing had “built in” in his mind. Would it be different from the processing methods of the workers he had seen before?

After Xia Qing took the dagger, she immediately found a nearby iron – Skin Dendrobium and skillfully cut a few fresh strips. Then, she peeled off the leaf sheath and cut the fresh strips into short sections of five to seven centimeters.

Xia Qing said, “master, this is the preliminary treatment of the Dendrobium strip. After that, we need to dry it, stir – fry it, remove the coating, and bake it. Do you want to see it?”

Xia ruofei saw that the processing process was basically the same as the workers 'production of the iron maple bucket. He shook his head and smiled.'''No need. Xia Qing, you're only responsible for picking the fresh strips and cutting them into small pieces. I'll let the workers outside handle the follow – up process. ''

“Understood!” Xia Qing said.

Xia Qing continued, “that’s right, master, you instructed me to use cutting to grow succulent plants. During this period of time, I’ve already grown several hundred pots. As the space at the Archean realm is limited, and you said that I only need seedlings, I’ve moved them to the mountain sea realm after they’ve grown to a certain extent. Do you want to take a look?”

“Oh, really? You’re pretty efficient!” Xia ruofei said with satisfaction, “don’t worry about the meat. We’ll talk about it tomorrow!” I’ll take a look around the Archean realm first. You can go and deal with those vegetable seeds!”

“Yes, master,” Xia Qing said, “the small flower pots you left at the Archean realm previously have all been used up. Do you think ...”

Xia ruofei said without hesitation, “I’ll go online and order it later. Before the flower pots arrive, don’t do the cutting. You have to take care of the herb garden and pick the iron – Skin dendrobes. You can’t do it alone.”

Xia Qing smiled and said, “it won’t happen. Master, have you forgotten?” I don’t need to sleep or rest. ”

Xia ruofei was stunned for a moment before he smiled and said, “Hahaha! It really is!”

Xia Qing’s degree of realism was so high that Xia ruofei would always unconsciously treat him as a person of flesh and blood.

In fact, Xia Qing didn’t need to sleep to replenish her energy. The amount of work she could complete alone was very large. In addition, for some work that didn’t require too much space but was more time – consuming, he could even move it to the primal realm where time flowed 30 times faster to complete it. This way, the things he could do would be even more.

Xia Qing only needed to absorb the spiritual Qi in the space to maintain its operation.

Xia ruofei also learned from Xia Qing that the spiritual Qi in the space could be regenerated. The larger the space and the more spiritual plants and pets there were, the faster the regeneration of spiritual Qi. At the same time, the spiritual Qi could also promote the growth of crops. It could be said to be a complementary and virtuous cycle.

Chapter 804: Inspecting the territory (2)

This was also why every time the space was upgraded, the density of the spirit Qi would also increase correspondingly.

Seeing that Xia ruofei didn’t have any other instructions, Xia Qing went to deal with the seeds of the vegetables and fruits.

Xia ruofei had bought a large number of plastic packing boxes of all sizes and kept them in the space. They could be stacked together when they were not in use and did not take up much space. When they needed to store things, this kind of tidying box was very useful.

Xia Qing poured the seeds into the sorting box and carefully stuck the corresponding labels on the box. Then, she mixed the petals of the spirit Heart Flower with the spirit pool water and began to soak the seeds.

Now with Xia Qing, Xia ruofei didn't need to come in every few days. When the petals of the spirit Heart Flower grew again, Xia Qing would pick and place them in time.

Now, the production of the spirit Heart Flower petal solution was much higher than before. After Xia Qing's improvements, seven petals could be grown at a time. In addition, the usage of petals had not increased significantly during this period of time. Therefore, Xia ruofei's stock of spirit Heart Flower petals had reached more than 50 petals.

Moreover, the spirit heart tree had yet to be improved to its optimal state. In its ultimate state, the spirit heart tree could grow nine petals at a time. At that time, the production of petals would be even greater, completely able to meet the demand of the peach blossom company after its expansion.

Soon, Xia Qing soaked all the seeds in different types of plastic sorting boxes.

This time, the number of seeds was a little large. He had used up dozens of boxes. There wasn't much empty space in the Archean realm, so these boxes were almost placed beside the spatial spirit pond.

After processing these seeds, Xia Qing began to pick the iron – Skin Dendrobium.

As for Xia ruofei, he was strolling around the Archean realm and patrolling his own territory.

Because time was 30 times faster, the crops grew very quickly. Xia ruofei could feel the significant changes every time he entered.

The Phoebe zhennan trees had already formed a lush forest. The diameter of the largest one was close to the one he sold to Grandpa Tang He last time.

Even with the addition of the flow of time, these Phoebe zhennan trees definitely could not grow so thick. The main reason was that the unique environment in the space also greatly promoted their growth.

The ginseng seeds that Xia ruofei had casually scattered back then had already multiplied into an entire ginseng field.

Heart – shaped leaves of ginseng could be seen everywhere under the shade of the trees. There were also red seeds growing on the top of a large number of ginseng plants. After these seeds fell off naturally, they would grow new ginseng after going through the survival of the fittest.

It could be said that it was inexhaustible.

If not for the fact that he was worried that taking out so many high – Quality wild ginseng at once would raise suspicion and lower the market price, Xia ruofei would have been able to become a billionaire overnight if he dug out all the ginseng in the origin space.

This was not an exaggeration at all.

Of course, Xia ruofei would not do such a stupid thing. He would only take out one or two from time to time, or when he was in urgent need of money, he would dig out a few to exchange for money.

Opposite the Phoebe zhennan forest was a small tea forest.

The tea trees that were directly cut from the 12 parent trees, Da Hong Pao, were growing well. The whole tree was filled with tender green tea leaves. Xia ruofei walked over and smelled a refreshing fragrance.

The other small piece was the “third – generation Da Hong Pao” that had been cut using the branches of these 12 tea trees. They had also grown very well, only slightly smaller than the 12 “second – generation Da Hong Pao.”

Although three generations had passed, the branch cutting was an asexual reproduction. It could basically preserve all the characteristics of the previous generation. In addition, the space had such a superior growing environment. Xia ruofei believed that the tea leaves produced in this tea forest would not be much worse than the mother tree, Da Hong Pao.

He decided that after some time, when these “third generation Da Hong Pao” tea trees grew a little bigger, he would let Xia Qing pick some tea leaves to make a batch of Da Hong Pao.

Besides, Xia ruofei also planned to plant some tea trees in the mountain sea realm.

The space in the Archean realm was still too small, and it was impossible to grow them on a large scale. Xia ruofei felt that he could transplant the tea trees into the mountain sea realm after they grew to a certain extent.

The mountain and sea realm could be said to be vast and boundless. Although the tea trees planted there could only be harvested twice a year, they had the advantage of being able to be planted on a large scale, and the yield was also very impressive.

Of course, Xia ruofei would only let Xia Qing use the 12 Da Hong Pao trees ‘branches to carry out repeated cutting. He didn’t want to create a “fourth generation Da Hong Pao” again.

After visiting the Phoebe zhennan and the tea trees, Xia ruofei went to the fish pond.

There were many blood – Red Dragons raised here. They lived in the spirit map space all year round, so the quality of these blood – Red Dragons was naturally extremely high. Whether it was the tightness of their scales, the hair color, or their overall performance, they were all close to perfect quality.

Since Xia ruofei’s last visit, these blood – Red Dragons had grown a lot.

Xia ruofei thought to himself, ‘it seems like it’s time to sell a few more fish, or the fish pond will be too crowded.’

Ever since Xia ruofei had sold a few high – Quality blood – Red Dragons at Ling Xiaotian’s house, especially a pair of bright purple Dragons, Ling Xiaotian’s circle of friends had been in an uproar.

Especially Guo Qinglin, who was lucky enough to buy a brilliant purple red Dragon last time. He would post it on his WeChat moments every two days, showing off his best red Arowana.

Chapter 805: Inspecting the territory (3)

This made Li Zongheng and Xu Desheng, who had returned empty – handed last time, envious and jealous. Some other rich fish friends also expressed their envy and were eager to ask where such a high – Quality Red Arowana was bought.

They did not have Xia ruofei's contact information, so the fans went to find Ling Xiaotian.

Ling Xiaotian had been quite pleased with himself during this period of time. Many people were begging him to buy red Arowana. In the WeChat group created by his fish friends, there were all kinds of flattering voices.

Ling Xiaotian had also called Xia ruofei a few times, telling him that if he had the channels, he should hurry up and get a few more pairs of the high – Quality Red Dragons from last time. He said that there were a bunch of bosses waving their money and waiting to buy them.

Simply put, "stupid, rich, come quickly!"

However, Xia ruofei had been very busy recently, especially when the approval of the new medicine had just started. He had almost no free time, so he had to delay it time and time again.

Of course, as the saying goes, good things take a long time to come. How could such a high – Quality Blood Red Dragon be available to them immediately? Only a Supreme – grade blood – Red Dragon would appear after being summoned for thousands of times!

From a psychological point of view, this was the only way to get a higher price.

Xia ruofei made up his mind. He would make preparations in the next two days and ask Ling Xiaotian to organize a small – scale auction. Then, he would choose a few pairs of good blood – Red Dragons from the medium and Exchange them for some cash.

Xia Qing was still busy harvesting the iron – Skin Dendrobium, and Xia ruofei did not disturb him. He went directly to the mountain and sea realm and drove the all – terrain vehicle around.

The mountain sea realm occupied a vast area, but there were not many crops planted there.

At the foot of the mountain, there was an Oak Forest. Xia ruofei had previously transplanted it from the Archean realm. However, it was not yet truffle harvesting season, so there was nothing much to see.

The herb garden that Xia Qing had taken care of was in good order. However, because the flow of time here was the same as the outside world, it would take some time to harvest high – Quality herbs.

The Hornets stayed in their territory obediently. Xia ruofei watched from outside the wire fence for a while. The thumb – sized Hornets were coming in and out of the huge hive.

If one were to see such a terrifying Hornet in the outside world, it would definitely send chills down one's spine.

However, when Xia ruofei saw them, he liked them from the bottom of his heart. These Hornets were so useful. Not only were they killing weapons, but they could also be used as a surprise attack.

Xia ruofei had already used the Super – miniature camera on the Hornet twice to investigate, and both times, he received unexpected results.

Without Blackie, fluffy one, fluffy two, and the others in the space, it became even quieter. The sound of the space River also became louder.

Xia ruofei drove the all – terrain vehicle along the river and soon arrived at a small beach. The space ocean was just outside.

Xia ruofei could feel the Stingers swimming happily in the sea.

The Stingray had also grown a lot.

The ocean was the most suitable environment for Stingray to grow. They would only mate and lay eggs in the river during the breeding season.

The current ecosystem was the most suitable for pomfrets. Xia ruofei only needed to let them grow naturally and he would not have to worry about the young ones in the future. He could also directly catch mature pomfrets from the sea and enjoy this rare delicacy that was almost extinct in the outside world.

Looking at the not – so – vast ocean, Xia ruofei suddenly felt that it was a waste of natural resources to raise a few pomfrets in the ocean. It was a waste of the unique environment.

It could be said that the rich sea had brought countless gifts to humans. Many top – Quality ingredients were produced in the blue sea.

The realm had an ocean that belonged to itself, which gave it endless possibilities of development.

Xia ruofei stood by the sea and his thoughts started to wander ...

Chapter 806: Ocean Strategy (1)

Whenever he thought of the sea, Xia ruofei would naturally think of all kinds of precious ingredients.

Chinese bahaba fish, Almas caviar, Australian lobster, top – grade Veron oysters, Palamos big red shrimp, top – grade one – headed abalone, France Butania blue lobster ...

These were all gifts given to humans by nature.

Now, Xia ruofei had an ocean that belonged to him, and the natural environment was unique. If all these top – grade marine ingredients from all over the world could be collected and cultivated in this space ocean, it would be exciting just thinking about it!

Naturally, it was not easy to collect these top quality ingredients.

First of all, the production of these expensive top – grade ingredients was very small, and they only had a fixed origin. For example, the top – tier Veron oysters were produced in the mouth of the France

Veron River, where salty and fresh water were exchanged. Due to the narrow estuary of Veron, which was only about 20 kilometers long, and the government's strict supervision of the quality and hygiene of Veron oysters, the production rate was very low. There was also the Butania blue lobster, which was basically not exported. If you wanted to get the most authentic ingredients, you had to go to the local area and try your luck.

In addition, these ingredients had extremely strict requirements for their growing environment. Whether or not they could survive in the space ocean was also a problem. Of course, Xia ruofei was not too worried about this. He had already experienced the magic of the spirit map space. He believed that no matter what kind of marine creature it was, it would not be unaccustomed to the environment here.

However, the area of the space ocean was still very small. Another hundred meters and it would be the space membrane. As long as it was a creature from the outside world, including Xia ruofei himself, it would not be able to pass through the space membrane. If they were to breed species from different places in such a small area, there might be conflicts.

Hence, after some consideration, Xia ruofei felt that he had to expand the space as soon as possible. On the other hand, he could not be too greedy at this stage. He could choose one or two top – grade ingredients from the ocean and breed them in the space ocean to test the waters.

After making up his mind, Xia ruofei drove the all – terrain vehicle back to the foot of the mountain. He did not disturb Xia Qing's work and left the realm directly from the mountain sea realm.

After returning to the outside world, Xia ruofei first turned on his computer and went online to order a batch of small flower pots.

It was not Xia ruofei's first time buying flower pots from this store. He found the link to the previous orders and ordered 1000 of them in one go.

Xia ruofei changed the delivery address to the small warehouse he rented in the city.

For such a large number of orders, the merchants all went through logistics instead of express delivery. The goods of logistics companies were generally picked up by the customers. If they needed to deliver the goods to the door, they would have to charge a certain delivery fee and agree on the time to receive the goods, so it was very convenient to use a small warehouse to receive the goods.

After ordering the flower pot, Xia ruofei went online to search for information on precious seafood.

After weighing the pros and cons, Xia ruofei decided to cultivate abalones in the space ocean to test the waters.

For one, Xia ruofei was a man of the three mountains. The southeast coast was also the production area of abalones, so he had a better understanding of abalones.

Secondly, there were many people who cultivated abalones in the southeast province. There were many farms that specialized in cultivating abalone fry. Xia ruofei did not have to travel thousands of miles to the production area to buy high – Quality abalone fry there.

Abalones were one of the precious “sea treasures.” They were delicious and nutritious, and were known as the “soft gold” of the ocean. They also had the reputation of “table gold, the crown of sea treasures.”

There was a common saying among the people that “a thousand gold can not buy two – headed abalone.”

The “head” here was usually calculated by the weight of the dried abalones. “How many heads” meant how many abalones of equal size were contained in one catty. For the commonly known nine – headed abalones, nine abalones added up to one catty.

The smaller the number of abalones, the bigger the abalones were, and the more expensive they were.

According to the traditional calculation, the “one Jin” here referred to one Sima Jin, which was 604.79 grams, which was heavier than the usual 500 grams per city Jin.

In other words, the weight of the dried two – headed abalone was about 300 grams on average, which was quite rare.

Hong Kong people were particularly fond of eating abalones. If there was a two – headed abalone of excellent quality, it would definitely cause the rich to rush to buy it. Many people who bought two – headed abalones would not be willing to eat it, but would collect it instead.

A few years ago, there was a famous Hong Kong TV series, “executors ‘Tempest,’” which could be said to have set a record for the ratings. The “executors” in the series actually referred to the executors’ abalone.

Many people were familiar with some of the plots in the series, and the most eye – catching one was undoubtedly the ‘two – headed abalone’ that was passed down in the abalone King’s family, as well as the infighting between the rich and powerful families.

One could see how precious two – headed abalones were.

And if it could reach the weight of the legendary one – Head abalone, which was a dried abalone, it would be a miracle.

Two years ago, a one – headed abalone with a net weight of 620 grams appeared in yuenan province. It was sold at 2.5 million Yuan, which was almost four million Yuan per kilogram.

This was only the price of one abalone! Hence, if the breeding of abalones reached its peak, the profit could definitely reach hundreds of millions. Such a profit margin was enough to move Xia ruofei.

San Shan was not far from Hong Kong. Hence, Xia ruofei chose to breed abalone in the space ocean for the first time. He was also aiming for the Hong Kong market.

After making up his mind, Xia ruofei turned off his computer, took a shower in the bathroom, and went to sleep.

Although the matter of breeding abalones had been settled, Xia ruofei still had to wait until he was done with some other matters before he could start implementing it.

The next morning, Xia ruofei got up and washed up. He did not rush downstairs. Instead, he took out the painting and entered the medium.

From last night until now, more than ten days had passed in the spirit map space.

Xia Qing was already waiting in the mountain sea realm. The moment she saw Xia ruofei, she immediately went up and greeted him respectfully.

Xia ruofei saw that Xia Qing was taking care of the herb garden in the mountain sea realm, and he asked with a smile, ""The seeds and iron – Skin Dendrobium are done?"

"Yes, master!" Xia Qing replied respectfully, "I've already transported the seeds and the harvested iron – Skin Dendrobium to the mountain sea realm."

"Let's go and take a look!"

Xia Qing brought Xia ruofei to a corner of the herb garden.

"Master, all the vegetable seeds have been fully soaked and dried. I have packed them according to their original categories." Xia Qing pointed at the bags of seeds that were neatly stacked together.

"Mm! "You've worked hard ..." Xia ruofei nodded.

His eyes fell on the sealed bags next to the seeds, and he asked with a smile, ""Are these the iron – Skin Dendrobium?"

"Yes, master!"

Xia ruofei walked over and picked a bag randomly. He opened it and saw that it was filled with fresh strips of iron – skinned Dendrobium.

The fresh strips of the Dendrobium candida were neatly cut into small sections of five to seven centimeters, and they were tied together with plastic ropes in an orderly manner.

Xia ruofei nodded in satisfaction and asked, ""How many fresh fish strips did you get this time?"

Xia ruofei had placed a scale in the spirit map space. He had already taught Xia Qing how to use such a simple scale.

"Master, it's about 2450 pounds in total," Xia Qing immediately replied.

Xia ruofei nodded his head in satisfaction. This output was slightly higher than the previous time, but it was limited. After all, the area in the Archean realm was only so big, and the scale of planting iron – Skin Dendrobium was not large.

"Well done!" Xia ruofei patted Xia Qing's shoulder and said.

"Thank you for the compliment, master!"

Xia ruofei looked at the thriving Chinese herbs in the herb garden and said to Xia Qing, ""Xia Qing, during this period of time, you should set up a medicine garden and focus on planting the medicinal herbs in the heart – nourishing soup formula. You can make it a little bigger. I have opened a pharmaceutical factory in the outside world to specialize in the production of heart – nourishing soup, and the demand for medicinal herbs is a little high."

"Yes, master!" Xia Qing immediately responded.

Xia ruofei thought for a while and said, ""By the way, you should also plant more of the herbs in the formula of the jade skin cream. This will also be mass – produced in the future."

"Alright," he said.

"By the way, do you have the seeds of these herbs? Tell me if you need anything, so I can go to the seed company to buy it." Xia ruofei said.

Xia Qing had already memorized the formulas of the Jade skin cream and heart – nourishing soup, so he said without hesitation, ""Master, we have the seeds of the medicinal herbs required for the two formulas. There's no need to buy them separately."

"Alright, hurry up and do it these few days!" Xia ruofei said, "now that the herbs in the formula have been planted, it's best to move them together and plant them in a centralized manner so that it's easier to manage."

"Understood!" Xia Qing said. He then looked at Xia ruofei and said, "master, I have a suggestion ..."

"Oh? Tell me about it!"

Xia Qing said, "although we've opened up a medicine garden, there's still a lot of land in the mountain and sea realm that's left unused. Furthermore, every time the spatial zone is upgraded, the land in the mountain and sea realm will increase by a lot. If we don't make use of it, it'll be a waste."

Xia ruofei smiled and said, "I was just about to tell you!" When you're free, remember to transplant the tea trees from the Archean realm. In addition, continue to use the branches of the mother tree in the Archean realm to cut. When the tea trees have grown to a certain extent, transplant them over. I want to build a large Da Hong Pao tea garden in the mountain sea realm!"

"Yes, master!" Xia Qing said, "actually, I want to say ... The iron – Skin Dendrobium can also be grown on a large scale in the mountain sea realm. Although the harvesting cycle is relatively short, the yield is still very low. In the mountain and sea realm, we can plant up to a hundred mu or even a few hundred mu. Even if we harvest them once or twice a year, the total yield will still be higher than in the Archean realm. "

Xia ruofei's eyes lit up and he said, "that's a good idea!" It's just that the workload is a little heavy, and I need to continuously plant it in the Archean realm. Only when it grows bigger can I transplant it. "

The planting of the iron – Skin dendrobe normally took three to five years before it could be harvested. Of course, after it grew, it could be harvested every year. Hence, in order to save time, they had to complete the process at the primal realm, where time flowed 30 times faster.

"No problem! I can do it well!" Xia Qing said.

"Alright then! We'll do as you say!" Xia ruofei said.

"Thank you for your trust, master!" Xia Qing was overjoyed.

He was like a robot with a built – in loyalty attribute. He would not be troubled by more and more work at all. Instead, he felt happy from the bottom of his heart because he could share his master's worries.

Xia ruofei smiled and said, "thank you for your hard work." That's right, you said yesterday that those succulent seedlings were all placed at the Archean realm. Bring me there to take a look!"

"Yes, master!" Xia Qing said immediately.

Chapter 807: This online store is very ordinary (1)

On a flat open space at the foot of the mountain, hundreds of pots of succulent seedlings were placed neatly, like a line, horizontal and vertical, like soldiers lined up for inspection. Xia Qing was always so meticulous.

Xia ruofei liked this style. He was a soldier and everything in his bedroom was still arranged neatly. The blanket was a standard block of tofu and even the toothbrush in the bathroom was facing a fixed direction.

Some people thought it was an obsessive – compulsive disorder, but Xia ruofei thought it was a manifestation of a soldier's style.

Ice lantern jade dew, nature manifestation, tortoise – Shell peony, white – skinned lunar boundary, life Stone Flower ...

Xia ruofei was very familiar with the succulents. Looking at these excellent succulents, Xia ruofei couldn't help but feel a sense of familiarity.

When he first obtained the spirit map, Xia ruofei had made his first pot of gold with these succulent plants.

Especially that top – grade ice lantern jade dew, not only did it bring him 250000 HxB in income, it also gave him the capital to start his business. It was also because of this opportunity that he was able to reunite with Ling Qingxue, and the two of them gradually got together.

Xia ruofei looked around and said with satisfaction, ""You've done well, Xia Qing. For the time being, you should be busy with other things. We are in urgent need of the planting of medicinal herbs, the transplanting of iron – Skin dendrobes and tea trees, and other things. You can continue cutting the succulent plants after the flower pots I ordered arrive. "

"Yes, master!" Xia Qing replied respectfully.

After giving his orders, Xia ruofei didn't stay in the medium for long. After saying goodbye to Xia Qing, he returned to the outside world with a thought. He told her that he still had a lot of things to do today. After he was done with these things, he would start to purchase the abalone fry.

Xia ruofei went downstairs. Hu Zi's mother had already prepared breakfast. Ever since Jian Jia and her mother came to the farm, Xia ruofei rarely went to the canteen to eat. Hu Zi's mother would make a variety of dishes every day, making Xia ruofei feel the warmth of a family.

After breakfast, Xia ruofei bade farewell to Hu Zi's mother and Lin Qiao. Then, he strolled toward the general office building. Ran ran had a lot of work to do today, so he had to explain it to Feng Jing first.

When they arrived at the office building, Feng Jing and Liu Qian had just finished their breakfast in the canteen and were walking upstairs. When they saw Xia ruofei, they quickly greeted him.

Xia ruofei smiled and said, "CEO Feng, I was just about to look for you!" Let's go to my office! I have something to tell you."

"Yes, Chairman!" Feng Jing then turned to Liu Qian and said, "Xiao Liu, modify the proposal according to the points I just mentioned. Also, inform director Xiao and the others to postpone the meeting for an hour!"

"Alright, CEO Feng!" Liu Qian said, "then Chairman, President Feng, I'll go and do my work first!"

Xia ruofei smiled and nodded. After Liu Qian's figure disappeared around the corner of the corridor, Xia ruofei asked, "Boss Feng, I think I'm affecting your normal work plan?"

Feng Jing looked at Xia ruofei and couldn't help but think of the voices that made her blush yesterday. She blushed and quickly looked away.

She lowered her head and said softly, "no!" You're the most important person in the company, so of course, your matters are the most important ..."

Xia ruofei did not notice Feng Rao's unnatural expression. He laughed and did not say anything.

The two of them walked to Xia ruofei's office. Xia ruofei personally filled a disposable paper cup with warm water for Feng Jing, then said directly, "Boss Feng, there are a few things that need to be settled immediately."

"Please speak, Chairman!" Feng Rao immediately took out her notebook and prepared to take notes.

When it came to business, Feng Jing forgot about her embarrassment and regained her composure as a strong woman.

Xia ruofei said, "it's mainly about the things you mentioned yesterday. I've already settled the problem of the vegetable seeds. If everything goes well, they should be delivered to the farm today. Remember to inform old Cao to be ready to receive them."

"Understood!" Feng Jing nodded.

At the moment, paradise vegetables was still one of the main businesses of paradise Corporation. Especially since the farm had undergone another expansion, it was time to greatly increase production capacity. Feng Jing was also very concerned about this batch of vegetable seeds. When she heard that the problem of seeds had been solved, she couldn't help but heave a sigh of relief.

"There's also the matter of iron Kaede." Xia ruofei said, "I've already contacted my friend. The fresh strips of the iron – skinned Dendrobium will be ready by today. You have to gather all the workers who are making the iron – skinned Dendrobium and get ready to start work at any time."

"No problem!" Feng Rao said, "I've already considered the possibility of producing the iron – hide Kaede bucket in the next few days. I've already spoken to their respective supervisors, and the work arrangements can be adjusted at any time."

"Mm, that's good!" Xia ruofei said,"also ... Can our workers complete the production of the iron maple bucket independently?"

"It should be fine." Feng Rao said,"master Luo told me that Qin Xiaojun and the others have finished their apprenticeship and that it won't be a big problem for them to produce the movie independently."

Xia ruofei thought for a moment and said,""That being said, this is their first independent production. If there are any problems during the process, it's fine to lose some money, but it'll be troublesome if they miss the delivery deadline as stated in the contract ... I think we should contact Qian Lijun and ask him to come over as a consultant if master Luo is free. He doesn't need to do anything. He'll just be responsible for supervising from the side. Once he finds any problems with the workers 'operation, he can correct them in time."

"That's a good idea!" Feng Rao said with a smile.

Xia ruofei immediately took out his phone and gave Qian Lijun a call.

Previously, Xia ruofei had helped Qian Lijun's family a great deal. They had received back the large sum of money that they had been scammed of by the old man. His family was very grateful to Xia ruofei. Moreover, the two of them were good comrades. Therefore, Qian Lijun naturally agreed to lend him a person.

Qian Lijun said that he would get master Luo to come to the three mountains by train this morning.

Xia ruofei smiled and expressed his gratitude. He asked Qian Lijun to inform him of master Luo's train number and time before he hung up the phone.

"It's done!" Xia ruofei said,"master Luo will be coming over today! I'll send you the train number later, remember to arrange for someone to pick you up at the station. "

"Alright!" Feng ke said.

"Let the workers go out of work in the morning!" Xia ruofei said,"ask them to clean up the place first. All the equipment needs to be cleaned again. Make the necessary preparations." The earliest I can get them is this afternoon. "

"Alright, I'll inform the others now." Feng Jing said,"Chairman, please wait a moment!"

After Feng Rao finished speaking, she stood up and returned to her office. She picked up her phone and called Cao tieshu and the other related supervisors. She gave instructions on receiving the seeds and gathering the relevant personnel for the production of the Ironhide maples. After that, she returned to Xia ruofei's office.

"I've already notified them. " Feng ke said.

Xia ruofei admired Feng Jing's Swift and decisive actions. He nodded in satisfaction and said,""Boss Feng, there's one more thing I'd like to hear your opinion on."

Xia ruofei then gestured for Feng Rao to come to his side.

Feng Jing froze for a moment as she recalled the embarrassing sounds she had heard yesterday. She thought to herself, this guy was probably doing it with his girlfriend in the chair yesterday, right? Why did he call me over? Could it be that he had tasted the marrow and suddenly had evil thoughts?

With this thought, Feng Jing couldn't help but feel a little nervous. She subconsciously turned around and realized that she had already closed the office door when she entered. This made her even more nervous.

Xia ruofei didn't notice Feng Jing's awkwardness at all. Instead, he quickly opened the online store of "Taoyuan meat stall" on his computer.

After opening the blogshop, Xia ruofei raised his head and looked at Feng Jing. He asked in confusion, "President Feng, what are you doing? Come over! The thing I want to show you is on the computer!"

Feng Jing finally realized how ridiculous her wild thoughts were. She knew Xia ruofei well. He was a gentleman. Although what happened yesterday was ridiculous, he was with his girlfriend! Now that there were so many people coming and going outside in broad daylight, how could he suddenly have sexual thoughts about his company's general manager?

Feng Jing blushed at the thought and coughed to hide her embarrassment.

Xia ruofei asked with concern, "not feeling well?" Did you catch a cold?"

"Oh, it's fine, it's fine ..." Feng Jing said with her head lowered.

"Why is your face so red? Don't tell me you have a fever?" Xia ruofei asked, "if you're sick, you have to go see a doctor. You can't delay it!" No matter how important work is, it's not as important as your health."

Feng Rao wanted to dig a hole and hide in it. She said in embarrassment, "I'm really fine! Chairman, what do you want me to see?"

Feng Jing said as she walked behind Xia ruofei and looked at the computer screen.

Xia ruofei pointed at the page of the online store and smiled. "What do you think of this shop?"

Feng Rao squinted her eyes and said, "Taoyuan butcher shop? Chairman, do you want to Sue this online store for copyright infringement? I'm afraid that won't be easy. After all, this is an online store, and the name "paradise" is quite common. They haven't used our trademark yet, and their business scope is also ..."

Xia ruofei couldn't help but laugh at Feng Rao's long speech.

"I just wanted to ask what you think of this shop," he said with a smile.

Feng Jing picked up the mouse and scrolled through the page, carefully looking at the layout of the blogshop and the items it was selling.

After a while, she realized that this position seemed a little ambiguous. Xia ruofei was still sitting on the chair, but her upper body was lowered and in front of Xia ruofei. Their bodies were very close, and Xia ruofei's hot breath could reach her body.

The key was that this position was quite fanciful. Feng Jing couldn't help but imagine Ling Qingxue lying on the office table yesterday, while Xia ruofei was wantonly attacking her from behind.

Feng Rao stood up, blushing. She sneaked a glance at Xia ruofei and was relieved to see that Xia ruofei was still looking straight at her. Her eyes were clear.

So, I was wrong again ... Feng Jing felt extremely embarrassed. Ever since she accidentally overheard the conversation between the two of them yesterday, her thoughts seemed to have become a lot more "evil". Was it because she hadn't had a boyfriend in a long time?

Xia ruofei was still waiting for Feng Rao's answer. Seeing that she was silent for a long time, he couldn't help but turn around and look at her curiously.

Feng Rao came back to her senses and quickly cleared her throat. "Chairman, this shop ... To be honest, there's nothing special about it. It's obvious that it's a free template from the internet! However, the succulent plants they sold were quite unique and of high quality. However, there are many fake goods in the Taobao shop now. Although the good reviews of this shop's products are almost 100%, it's hard to say that they didn't get them through shopping ..."

Xia ruofei couldn't help but feel embarrassed. He laughed dryly and said, "Your evaluation ... Is quite pertinent!"

Feng Rao looked at Xia ruofei strangely and asked, "Chairman, this shop looks very ordinary! Why are you suddenly paying attention to this? Are you really not going to Sue them for copyright infringement?"

Xia ruofei smiled bitterly. "Of course I won't Sue you for copyright infringement. This is a 'normal' blogshop. I opened it before I started my company!"

"Ah?" Feng Rao couldn't help but exclaim as she covered her mouth with an awkward expression.

Chapter 808: The unreliable father – in – Law (1)

"Chairman, I ..." Feng Jing said, a little embarrassed.

Xia ruofei smiled nonchalantly and said, "You're telling the truth. I won't be so petty. In fact, this online store was pieced together by free templates that I randomly found on the internet. Its core value is not in its bright appearance, but the products it sells and the reputation of its customers. "

Feng Ye was stunned for a moment before blurting out, "You're saying ... These sales and ratings are all real?"

"Of course, do you think I'm the kind of person who would do anything to gain more data?" Xia ruofei asked Feng Jing with a half – Smile.

"No, no, that's not what I meant ..." Feng Jing quickly waved her hand.

Feng Rao's current appearance was indeed a little embarrassing, and her face was flushed red. The main reason was that this was simply unbelievable. As soon as Feng Jing saw the explosive sales and the screen full of positive comments, the first thought that came to her mind was that this store was unscrupulous in its way of boosting the numbers. Especially since the storefront was so simple and crude, it made the beautiful numbers even less convincing.

That was why she had blurted out that question when Xia ruofei had said that the core competitiveness of this online store was its products and reputation.

Xia ruofei smiled and said, "before I set up paradise Corporation, I mainly relied on succulent plants to earn starting capital." At that time, a friend of mine supplied the goods, and I was in charge of online sales. The quality of these succulent plant seedlings was extremely high, so although the price was ridiculously high, every time a new product was put on the shelves, it would be snatched up. "

"Yes," Feng Jing nodded. "Chairman, do you have any other plans for letting me take over this blogshop?"

Xia ruofei nodded and said, "I'm planning to reuse this online store." I've also contacted my friend, and he can still provide a stable supply of high – Quality succulent seedlings. I think that in addition to the succulents, we can also manage other products of the company, such as ..."

Feng Rao immediately continued Xia ruofei's words and said, ""For example, a top – grade iron – Skin fengdou!"

Xia ruofei smiled and nodded. ""Yes, according to the current situation, there must be a lot of surplus in addition to the annual production of iron maples that met the contract order. We can totally sell it on the online platform! Our other products, such as vegetables and fruits, can also be sold through the online store in the future. "

Xia ruofei paused and continued, ""The owner of this blogshop is me, and I've also accumulated a lot of high – end customers, so I'm considering transforming this blogshop into paradise corporation's flagship store. We'll still be walking the high – end, high – Quality route."

Feng Rao nodded and thought for a while, "As long as there's no dispute over the ownership, it's completely fine. Chairman, since we're going to do it, we have to make it more exquisite. "

"That's for sure. " Xia ruofei laughed and said, "with our current online store, no one would believe us if we told them that we're going for premium products! This is a business card of our paradise Corporation on the internet. Naturally, we have to do it well. Boss Feng, do you have any good ideas?"

Feng Jing thought for a while and said, "since we've decided to do it well, the first thing we have to do is to upgrade the celestialcat store. Also, I suggest we set up an e – commerce Department under the sales department. They will be in charge of the maintenance and operation of the E – store."

Xia ruofei nodded and said, "okay, come up with a plan first!" Aren't we going to recruit medical professionals to supplement the pharmaceutical factory and research Institute? "Coincidentally, I've also started recruiting for the e – commerce Department. In any case, it's fine to rush one sheep, but it's fine to rush two ..."

"How can you compare your own employees to sheep ..." Feng Jing chuckled.

“Let’s make an analogy!” Xia ruofei laughed drily. “President Feng, you should personally take care of this matter! See what kind of people are needed and recruit them as soon as possible ... Oh, right, hasn’t Qiao’ er been self – studying graphic design recently? When the time comes, ask her to intern at the e – commerce Department and learn how to design websites from the designers. ”

“Alright! I’ll personally come up with a plan and show it to you later. ” Feng ke said.

“The new batch of succulent plants will be here soon.” Xia ruofei said, “if there’s not enough time, we can select a few employees who have experience in this area and put them into work first. We don’t have to worry about the renovation of the store in the early stage. We mainly need to upgrade the Lynx store, qualification certification, new goods on the shelves, and dispatch the goods. ”

“Understood!” Feng ke said.

Xia ruofei wrote down the Taobao shop’s account number, password, and everything else and passed it to Feng Rao before letting her get busy.

Xia ruofei walked out of the general office building and left Taoyuan farm in his pickup truck.

Of course, Xia ruofei didn’t go to the city. He just found a less populated section of the road and took out all the seeds that Xia Qing had soaked and repackaged from the space. He placed them in the back of the pickup truck.

He rested in the car for a while and smoked a few cigarettes. After some time, he started the car again and drove back to the farm.

On the way, Xia ruofei gave Cao tieshu a call and asked him to gather the workers to get ready to unload the truck.

When the car returned to the farm, Cao tieshu and the workers were already waiting impatiently at the entrance.

Cao tieshu directed the workers to carefully unload all the seeds from the trucks and carry them into the vegetable greenhouse.

Chapter 809: The unreliable father – in – Law (2)

Then, he was not in the mood to talk too much with Xia ruofei. After saying his goodbyes, he quickly walked towards the vegetable greenhouse. The new greenhouse had been built for a few days, but there were no vegetables planted. Cao tieshu was very anxious! Now that the seeds had arrived, he couldn’t wait any longer and was ready to organize workers to start growing the seedlings.

It was a good thing that his employees were responsible. Xia ruofei smiled, restarted the car, and went home.

After returning to the small villa, Xia ruofei called Lei Hu over and asked him to bring his brothers from the security team.

As soon as Lei Hu and the others entered, their eyes lit up when they saw Blackie, fluffy one, fluffy two, and the rest in the yard.

When little black and the rest saw so many strangers, their fur was about to stand on end. They glared at Lei Hu and the rest.

“Blackie, we’re on the same side!” Xia ruofei shouted.

As soon as Xia ruofei spoke, Blackie and the rest immediately returned to their lazy state.

Only then did Xia ruofei say to Lei Hu, “Hu Zi, I’ve specially found these dogs to assist us in guarding the house.” This pure black one is called little black, and this is big hairy, second hairy, third hairy, fifth hairy, sixth hairy ...”

“Why isn’t hairy # 4 here?” Lei Hu asked, puzzled.

“Si Mao asked me to give it away!” Xia ruofei said with a smile.

The ex – soldiers immediately laughed. There was really forty cents ... This name was really native!

Xia ruofei continued, “Blackie and lightning will stay at my place. Fluffy one, fluffy two, and the rest will be assigned to your security team!” Today, you should get to know each other and cultivate a good relationship in the future. These dogs are very smart and can be a great help to you!”

“Understood!” Lei Hu said.

Xia ruofei then called Blackie, fluffy one, fluffy two, and the rest over and introduced them to Lei Hu and the rest.

When the ex – soldiers saw Xia ruofei’s serious introduction of the dogs, they could not help but find it funny. Could it be that these dogs could understand human language?

Unexpectedly, Xia ruofei said after the introduction, “Alright, say hello to your companions!”

As soon as Xia ruofei finished speaking, fluffy one, fluffy two, and the rest stood up and waved their front claws at Lei Hu and the rest.

Lei Hu and the rest were dumbfounded. Their mouths were wide open, and they could not believe their eyes.

Xia ruofei laughed and said, “what are you standing there for?” They have already acknowledged you! Go and take them away! Remember to bring them to patrol our territory today and let them know where the boundary of the farm is. In addition, it’s best to bring them to meet all the employees on the farm so that they can recognize our own people in the future!”

“Oh ... Good, good, good!” Lei Hu said.

“Da Mao, er Mao, both of you come with us!” He said hesitantly.

Fluffy one, fluffy two, and the rest of the five dogs immediately wagged their tails and followed behind Lei Hu and the others.

This was too smart! Lei Hu and the rest had really opened their eyes this time. The Veterans came back to their senses and also asked Lei Hu to be responsible for a certain dog.

With such a partner, the boring farm life would become much more interesting.

However, there were too many monks and too little gruel ... No, there were more people than dogs. As for who would be in charge of the five dogs, that was not Xia ruofei's concern. It should be Lei Hu's problem.

After fluffy one, fluffy two, and the rest left, the villa's yard was much quieter.

Blackie and lightning got along well. The two dogs were very smart and came forward to please their master, Xia ruofei.

Xia ruofei then called Cao tieshu and asked him to send someone to build another kennel next to Lightning's for Blacky.

Xia ruofei had wanted to transport the iron – Skin Dendrobium strips back, but since master Luo was free to come over and would only arrive at the three mountains in the afternoon, Xia ruofei decided to do it tomorrow.

He suddenly recalled that it was time to deliver the Drunken Eight Immortals wine. Hence, he took out his phone from the villa's courtyard and gave Ling Xiaotian a call.

The phone had just rung once, and Ling Xiaotian immediately picked up.

Before Xia ruofei could say anything, Ling Xiaotian said, "Ruofei, have you already gotten a high – Quality Blood Red Dragon?"

Xia ruofei didn't know whether to laugh or cry. Why was his future father – in – Law not concerned about the company's Affairs at all? Instead, he couldn't wait to ask about the red Arowana?

Was it really good for him to be so playful?

"Uncle Ling, there's no hurry to deal with the blood Dragon. I ..." Xia ruofei smiled bitterly.

"How can I not be anxious?" Ling Xiaotian interrupted Xia ruofei and said, "I'm so annoyed by my friends, especially old Li and old Xu, who returned empty – handed last time. They've been asking me questions every day! I'm telling you, there are a few more powerful bosses who are also very interested in it. As long as you can get some good stuff, the price will definitely be higher than last time!"

Xia ruofei said helplessly, "alright!" Uncle Ling, please tell your friends that we'll hold another small auction in your Villa three days later!"

"RUO Fei, did you really get a top quality Blood Red Dragon?" Ling Xiaotian asked in great joy.

"How could I dare to neglect something that uncle Ling personally handed over?" Xia ruofei said with a smile.

"How's the quality compared to the ones we had last time?"

"It definitely won't be worse than the last one!" Xia ruofei said with certainty.

“That’s great!” Ling Xiaotian said happily.

Xia ruofei could even hear the sound of Ling Xiaotian slapping his thigh.

After Ling Xiaotian complimented Xia ruofei, he came to his senses and asked, “By the way, ruofei, why did you call me?”

Xia ruofei couldn’t help but smile bitterly and said, “You just remembered? I thought you didn’t even want the company anymore after you got the red Arowana!”

Ling Xiaotian couldn’t help but let out a dry laugh and said, “The company has been doing well recently! It’s nothing big!”

Xia ruofei didn’t know whether to laugh or cry as he asked, “uncle Ling, I just wanted to ask when was the last time I delivered the Drunken Eight Immortals wine to the winery?” I think it should be almost a month?”

Ling Xiaotian laughed awkwardly and said, “I really can’t remember. I’ve been busy dealing with those fish friends recently! Ruofei, wait a moment, I’ll call the winery and ask ...”

With that, Ling Xiaotian hung up the phone.

Hearing the busy tone from the phone, Xia ruofei could not help but smile bitterly. This father – in – Law was so unreliable that he couldn’t even remember himself ...

Fortunately, Ling Xiaotian called back after a while.

“Uncle Ling, how is it? Have you asked clearly?”

Ling Xiaotian chuckled, “ruofei, the wine factory is about to report to me!” It’ll be exactly a month until tomorrow. How are things on your side? Can you get the wine ready tomorrow?”

Xia ruofei couldn’t help but laugh when he heard that. The two things had come together again. That was just right.

He immediately said, “no problem!” Uncle Ling, let them go to the warehouse from last time at 9 am tomorrow.” By the way, can you help me arrange a small truck? I still have something to transport back to the farm. ”

“Alright! Don’t worry! I’ll have them make the arrangements. ” Ling Xiaotian said, “ruofei, that ... Don’t forget about the Blood Red Dragon!”

Xia ruofei replied helplessly, “uncle Ling, don’t worry!” I can’t forget!”

“Hehe, alright, I’ll inform the old guys immediately and have them prepare the money!” Ling Xiaotian said, “this time, we’re going to slaughter them ruthlessly!”

After hanging up the phone, Xia ruofei smiled bitterly and shook his head. Then, he walked into the villa.

Lin Qiao was still fiddling with her laptop in the living room. Xia ruofei told her about the e – commerce Department in the company and asked her to intern and learn web design from a decent designer.

Lin Qiao was overjoyed when she heard this. She pulled Xia ruofei’s arm and thanked him with a smile.

It seemed that this girl was really interested in design. She had never been so happy when Xia ruofei gave her a house a few days ago.

The girl's body was already very mature. When she grabbed Xia ruofei's arm, her chest inevitably pressed against his. Xia ruofei suddenly felt that he couldn't take it anymore. He quickly withdrew his hand and ran upstairs as if he was escaping.

Lin Qiao looked at Xia ruofei's back as he ran away and laughed mischievously.

Xia ruofei returned to his room to continue learning about the abalone cultivation in Sanshan city.

It was only when Hu 'Zi's mother called for him to eat that he turned off his computer and went downstairs.

While they were eating, Xia ruofei realized that he had nothing else to do today, so he decided to visit the nearby abalones in the afternoon. If it was suitable, he might as well buy the abalones.

Hence, after lunch, Xia ruofei bade farewell to Hu Zi's mother and Lin Qiao before leaving the farm in his pickup truck.

Chapter 810: Net abalone seedlings (1)

Changping County had nearly one – third of Sanshan city's coastline, and most of the abalone farming companies in the province were also located there.

Xia ruofei followed the information he had found on the internet and visited several farms, but he was not satisfied with them.

Most of the abalones produced in these farms were of low quality and the quality of their meat was not very good. Moreover, the breed of abalones they cultivated was the mixed – colored abalones from the southeast coast of China, which was obviously not in line with Xia ruofei's high – Quality breed.

When it was close to dusk, Xia ruofei was ready to return to the farm after visiting the family.

To be honest, Xia ruofei didn't have much hope. After all, he had noticed that the abalone cultivation in Changping County was very extensive. They took the general route, so it was not easy to buy high – Quality abalone fry.

However, when Xia ruofei entered the farm, he could not help but raise his eyebrows and show a hint of interest.

This farm was also built near the sea, but it didn't have a floating platform on the sea surface like other farms. There were also no factories. Although the industrial cultivation took up a small area and produced high yield, the quality of the abalones produced was very poor.

At a glance, there were only a few small buoys on the nearby sea surface. There were also a few layers of isolation nets in the distance. A few small fishing boats were working on the sea surface, and it looked very peaceful.

Xia ruofei could tell at a glance that this farm was imitating the wild breeding method. He was immediately interested.

What Xia ruofei was concerned about now was the breed of abalones in this farm and whether they were selling abalones to the public.

Just as Xia ruofei was looking around with great interest, a young man walked over and asked, "Sir, is there anything I can help you with?"

"Oh! I'm here to take a look." Xia ruofei smiled and asked, "is your boss here? I'd like to buy some abalones."

The dark – skinned young man grinned and extended his hand to Xia ruofei. "Hello, nice to meet you. My name is Tian Gang, the boss of this abalone farm. What's your name, Sir?"

Xia ruofei looked at Tian Gang in surprise and said with a smile, "My surname is Xia. Mr. Tian, you look very young!"

"So it's boss Xia, nice to meet you! I wonder what kind of abalone fry you want?" Tian Gang asked with a smile.

"To be honest with you, Mr. Tian, I visited a few farms today, but I wasn't satisfied with them ..." Xia ruofei said.

Tian Gang pursed his lips and said, "boss Xia, I know a few farms nearby very well. Most of them use intensive cage cultivation. The taste of the abalones they raise is getting worse year by year. The price is also dropping. This kind of short – term success and profit – seeking practice has ruined the atmosphere of the entire industry ..."

"So, Mr. Tian's farm is different from theirs?" Xia ruofei asked with a smile.

"Of course!" Tian Gang said with some pride, "my breeding farm has always insisted on imitating wild breeding, even to the extent that it's basically in a semi – Free State. Although the breeding cycle is long and the risk is relatively high, and we are likely to lose all our money once there is a Typhoon or other bad weather, the abalones cultivated this way are of the highest quality! It's basically the same as a wild abalone in terms of taste."

Xia ruofei nodded approvingly and said, "Mr. Tian, I agree with your idea! You can't follow the crowd in everything. Only by doing things to the extreme can you become the best in your industry!"

Tian Gang immediately felt a sense of regret for not meeting him earlier. He happily said, "It seems like great minds think alike!"

Xia ruofei smiled and said, "Mr. Tian's farm is indeed different from the others. I wonder what kind of abalone you have." My requirements are quite high!"

"Boss Xia, you should have heard of the three big varieties of abalones, right?" Tian Gang said without hesitation. Although I personally don't have a good impression of the Japanese, I have to admit that the Wei nation's abalone is very good. They are recognized as the best abalone producer! The three varieties of abalones are all from the Wei nation, namely the net abalones, jibing abalones, and burlap

abalones. The dried abalones used in high – end eateries in Hong Kong are almost all from the Wei nation.”

“So, Mr. Tian, you’re bringing in one of the three most famous abalones in the world?” Xia ruofei asked with a smile.

Tian Gang proudly nodded and said, “My farm is full of net abalones and jibing abalones imported from Wei nation. If boss Xia wants to buy abalone fry ... I can also provide purebred net abalone seedlings here. The abalones I plant are specially imported from the Wei nation. They are pure – blooded and are all imitated wild breeding!”

Xia ruofei nodded in his heart.

His ideal breed of abalone was actually the net abalone. On one hand, the Hong Kong and Pacific Islanders loved this breed, so it would naturally be easier to sell in the future. On the other hand, among the three famous abalones, the number of heads of the net abalone was the least, and it was the easiest to raise two – headed abalones or even one – headed abalones.

“Mr. Tian, can I take a look at your net abalone seedlings first?” Xia ruofei asked after some thought.

“No problem!” Tian Gang smiled and said, “but we’re all imitating wild breeding in the coastal waters. If boss Xia wants to see it, you’ll have to take a fishing boat with me.”

“Alright!” Xia ruofei smiled and said, “we can also visit Mr. Tian’s farm.”

Tian Gang enthusiastically led Xia ruofei along the path of the farm to the beach. There was a small dock there. Tian Gang called Xia ruofei over and they jumped onto a small fishing boat.

Tian Gang gestured to the fisherman, who immediately turned on the engine, and the small fishing boat sailed toward the cultivation area.

The breeding area was in the shallow waters and the entire area was surrounded by nets. The small fishing boat drove in from an opening and stopped at a buoy.

The two fishermen reached out and fumbled under the buoy for a while. Then, they worked together and carefully lifted a rope.

Only then did Xia ruofei realize that there was a small reef hanging from the rope. The surface of the reef was densely covered with abalone fry. These abalones were the same as the abalones that Xia ruofei had seen before, but they were only the size of a one – Yuan coin. There were many of them.

If someone with trypophobia saw this, they would definitely have goosebumps.

“Actually, this is a simulated reef that we made with cement,” said Tian Gang with a smile. “But after being placed at the bottom of the sea for a while, the surface is covered with a layer of seaweed, so it looks no different from a Real Reef.”

Xia ruofei smiled and said, “I’ve really learned something new!” If Mr. Tian hadn’t said it, I wouldn’t have known that it was fake! It’s simply passing off the fake as the real one!”

Tian Gang said, "boss Xia, it's not easy to imitate wild breeding. I also specifically went to a large breeding farm in the Wei nation to get the information. The cost of our breeding method is extremely high. Moreover, it's also very risky to breed it directly in the offshore area, so ..."

"As long as the quality of the abalones is good, the price is negotiable!" Xia ruofei smiled.

"Boss Xia, you're so generous!" Tian Gang said happily, then pointed to the abalone fry on the simulated reef and said, "Mr. Xia, the abalones I grow here are from the Wei nation's qianye County, which can be said to be the best quality abalones. Please take a look. The bottom of this abalone fry is wide and flat, and the shell is pure dark coffee color. After opening it, you can clearly see the bead – like bottom of the pillow. It's definitely the most authentic thousand – leaf net abalone!"

Xia ruofei had always been inclined to bring in net abalones, so he had read a lot of information about the Wei nation's net abalones on the internet yesterday. He knew that Tian Gang was not lying to him, and the quality of the net abalones here was indeed quite high.

After a moment of silence, Xia ruofei said, "Mr. Tian, your abalone fry is pretty good. I wonder how much it's going to cost?"

Tian Gang thought for a moment and said, "an ordinary abalone fry is only one or two Yuan per seed. The cheaper ones are only a few cents. However, boss Xia, you also know that our net abalone seedlings are of high quality and high cost. So ..."

"Mr. Tian, you just have to give me the real price!" Xia ruofei smiled.

"Boss Xia, you're so straightforward!" Tian Gang gave him a thumbs up and said. Then I won't beat around the bush. When I sold these net abalone seedlings to the outside world, it was 3.80 yuan per grain. Since I've met boss Xia for the first time and he's so forthright, I'll just take it as 3.50 yuan per grain!"

Xia ruofei had learned the relevant information before. Tian Gang's price was indeed more expensive than the average price on the market. However, considering the quality of the abalone seedlings, Xia ruofei felt that it was still acceptable.

Of course, if it was an ordinary farmer who wanted to bring in the seedlings, he would have to consider it. However, Xia ruofei had no concerns at all. These abalone seedlings were cultivated in the space sea and there was no need to worry about any risks. Furthermore, it could be predicted that they would grow better than in the best water in the outside world. In the future, one abalone could earn back the money of all the abalone seedlings. Hence, Xia ruofei did not care about the slight difference in price.

"No problem!" Xia ruofei asked, "Mr. Tian, how many abalone seedlings of this quality do you have?"

Tian Gang's eyes couldn't help but light up when he heard that. It seemed that he was a big customer!

He quickly said, "I just sold a batch a few days ago. I estimate that there should be about 11000 more. Boss Xia, how many do you need?"

"If they're all of the same quality, I'll take them all!" Xia ruofei smiled.

"Don't worry about that, boss Xia!" Tian Gang happily replied. The quality of my abalone fry is the same, so the farmers on Heron Island are specifically looking for me to purchase them!"

“Alright, Mr. Tian, I hope to get the goods as soon as possible!” Xia ruofei said with a smile.

“I’ll get the workers to work overtime tonight. The abalone fry will be ready by noon tomorrow at the latest!” Tian Gang said without any hesitation.

Xia ruofei nodded.”Okay. I’ll come over tomorrow around 11:30.”

After the two of them returned to the shore, Xia ruofei paid the deposit of 5000 Yuan according to the rules.

After Tian Gang gave Xia ruofei a receipt, he warmly invited Xia ruofei to stay for dinner. However, Xia ruofei politely declined. After taking the receipt, she bid farewell to Tian Gang and drove away from the abalone farm.
