

## **Goddess 1001**

### **Chapter 1001: Loyal to the people and loyal to the country**

The conversation with Lin Yinya broke up unhappily.

Well, Lin Yinya is not happy.

Anxia was not affected in the slightest.

Back in the bedroom, An Xia finally made the bed with the help of Tong Xiaoguan and Tang Chuye.

Asituo's Abba and Ama are also preparing to leave school for the train station.

An Xia frowned slightly.

Asituo's Abba was obviously in a bad spirit, so he hurried home all night...

Walking to the dormitory building, An Xia asked Asituo in a low voice, "They are leaving now, don't you worry? Your father looks very tired."

Is really tired.

When going down the stairs, he still needs his wife's support.

The footsteps are very vain, like stepping on cotton.

Asicuo glanced at Abba, tears flashed in his eyes, lowered his head, and whispered: "Father, he...we..."

After less than five hours of knowing it, Asicuo really couldn't tell the story about the family.

"Because of the money?" An Xia asked directly.

I couldn't ask for three words, but it was like three big mountains that suddenly pressed on Asicuo's shoulder.

In an instant, the nineteen-year-old girl's back was bent.

"No." She answered An Xia softly.

An Xia's mouth tightened.

"Are you okay? Would you mind telling it? Maybe, I can help you."

As soon as I finished talking, Asicuo's very old and shabby phone vibrated.

She was a little evasive, and quickly said to An Xia: "Excuse me, I will pick up the phone."

It was a call from Asicuo's brother.

I asked if my father had an appointment to the expert attached to Changhai First.

"Brother, Abba is going home tonight. The expert we need to find... has gone to the capital." She was talking with her back to An Xia, and her depressed cry shook her shoulders before she finished a word.

An Xia couldn't understand what she said, but instinctively told her that the Axicuo family was in great trouble.

What's the trouble?

help?

Still not helping?

An Xia was a little confused.

If it was before, she could be pretty sure that she would not be so entangled.

If it's not her thing, it will not interfere.

However, now...

She didn't know how to choose.

Who do you ask?

Ask Mu Chenyuan?

Or the blue bird? Anniversary?

Tong Xiaoguan and Tang Chu also accompanied Axicuo's parents on the left and right, and they said as they walked in front of them. They laughed and were in good spirits.

An Xia took out his mobile phone and first sent a message to Mu Chenyuan, and then forwarded it directly to her, Jade Bird, and Anniversary's trio.

It depends on who replied first.

It is the anniversary year.

Because she is not restricted to use her mobile phone.

"Xiaxia, we have to help, think about it, the uniforms we wear, think about our profession."

"Serving the people is not just talking about it, but actually taking action."

Mu Chenyuan and Qingniao did not reply to text messages.

After reading the information, An Xia asked, "There are so many things in the world, how can it be possible to help when you see something?"

"Xiao Xia Xia, her mental awareness needs to be improved!!!" A message with three exclamation points was sent in the anniversary year.

Said that she was shocked.

Immediately afterwards, the second message arrived.

"It is impossible for us to encounter everything in the world, and it is impossible for us to solve the first thing, but we must do our best to solve the difficulties for the people."

"Be loyal to the people and the country, Anxia, we need to keep it in mind at all times, and we must not forget it."

"You can ask what difficulties you have encountered, tell them, and see if you can solve them for them."

In the anniversary year of the special police family, I have always had a high level of consciousness.

After An Xia read it, she returned to her, "Okay, let me ask."

Just ask.

It is estimated that it is a matter of money.

The money thing is simple.

The most important thing is money.

### **Chapter 1002: Difficulties**

Axicuo is still talking with her brother.

Both siblings cried.

After thousands of miles to Changhai, I didn't see an expert who might be able to heal Abba.

"Brother, I will accompany Dad to the capital, I..."

Before he finished speaking, he was interrupted by the elder brother.

The trained Assi didn't dare to cry so that Abba and Ama could hear her. She bit her wrist tightly with her mouth and swallowed the cry.

About two minutes later, Axiculo ended the call with Age.

She wiped away the tears, her eyes were red, and she saw An Xia right in front of her, her eyes fixed, staring at herself for a moment.

"Sorry, I just... I was homesick."

A very bad excuse was found.

Even Chu Tang couldn't lie to him, let alone lie to An Xia.

Hearing that, An Xia looked serious and asked again, "Axiculo, you have encountered a difficulty that you can't solve at present, why didn't you say it?"

"Speak up, maybe we can work out a solution together."

As soon as Axiculo heard this, there was no way to control the tears, and the tears flowed.

She choked up and said: "Abba has a very serious illness and needs to find an authoritative expert to treat Abba, but he went to the capital and there was no way to see Abba."

After speaking, the tears flowed more ferociously.

This is his only hope, but now...

Shattered again.

Because they can no longer afford to go to the capital.

"Why not go to the capital? Is it because the cost is too high?" An Xia asked again, not giving Axiculo another chance to escape.

Axiculo closed his eyes, and there was pain on his face.

While tears were slowly staying in her eyes, she also nodded gently.

"Well, after paying my tuition, it's not enough to go to the capital."

So, she told her just now that she wanted to drop out of school.

Instead, I was scolded by my elder brother.

An Xia took out his mobile phone, "Expert name, I'll find someone."

Axiculo, who was immersed in self-blame and grief, failed to keep up with An Xia's rhythm in time.

An Xia twisted her eyebrows, "Tell me the name of the expert. I'll find someone to try."

Tianshu can be found.

Anniversary year is also fine.

Let's find Tianshu.

Estimated to be faster.

The turning point came too suddenly, and Axiculo was stunned.

I was stunned again, and asked in disbelief, "Are you looking for someone? Can you find it?"

"Stop grinding."

I'm already a little impatient.

Can't you just talk about such an important matter?

Axiculo quickly said the name of the expert, "Shu Qisi!"

Voice connection to Tianshu has been made.

"Ask if Shu Qisi is in the capital? If he is, find a way to contact him and make an appointment for a period of time."

During the voice call, An Xia finished in a few words.

She even decides how long it will take for her to get a reply, "Respond to me in ten minutes."

"Yes, miss."

Tian Shu didn't ask why. After confirming Shu Qisi's identity, he immediately began to contact someone.

Axicuo, who was standing next to him, was smashed by a huge surprise.

this...

ten minutes?

Can you reply?

If you can find a Shu expert, Abba will be saved!

Before I was relieved from the surprise, I heard An Xia say to her: "Don't worry about the money, I have it."

There is a fairy classmate, some things that are difficult for others to reach the sky, the fairy classmate can solve it easily and without fuss.

How can Axiculo make An Xia pay?

Wiping away the tears of joy, she said: "No, no, I'll think of a way, I'll think of a way."

As long as you can find Shu Qisi's expert, Qian... she and elder brother will find a way to borrow money.

If it doesn't work, she will borrow loan sharks!

### **Chapter 1003: That's nothing**

Loan usury, the last solution that Asicuo and her elder brother came up with just now.

Because there is no longer any way to find someone to borrow.

The tuition fee of nearly 10,000 yuan in Axiculo is still donated by the villagers in the village.

"If you have a way to borrow money, you won't cry." An Xia ruthlessly exposed, and continued: "You can ask me to borrow it and pay it back later."

Her father had a serious illness, and the treatment cost was 1 million yuan, and the follow-up cost would be even higher.

These are all small amounts of money, and it doesn't matter if she doesn't pay her back.

Changhai University is very large. It takes about 20 minutes to walk from the girls' dormitory to the school gate.

Before reaching the school gate, Tianshu replied.

"Miss, the expert Shu Qisi of the day after tomorrow will have free time from six to seven o'clock in the evening, and the plane needs to go abroad for a month at ten o'clock."

The voice is hands-free, Axiculo can hear it clearly!

This time, Asicuo could no longer suppress the crying, squatted on the ground and cried loudly.

Very good!

Very good!

Finally found Shu Qisi expert.

She wants to tell elder brother, elder brother must be very happy.

Also, there is, she wants to tell Abba and Grandma!

Since I have arrived at the south gate of the school, there are a lot of students coming and going. From time to time, students will look at Asicuo, who is squatting and crying.

Two girls came over and asked very gently, "Classmate, are you okay? Do you need our help?"

"No...no, thank you, thank you."

Chen Xicuo hurriedly raised his head, "I'm fine, thank you."

"Really?" the girl asked again, worried.

Asicuo got up, wiped away her tears, and nodded her head with a bright smile, "It's really not necessary. I encountered a happy thing and didn't hold back crying."

It turned out to be crying with joy.

very nice.

The girl smiled and said, "I wish you even better luck!"

"thanks, thanks!"

The kindness from unfamiliar classmates warmed Asicuo even more.

When the two girls left, Asituo gave their nation's greatest gift in Anxia, "Thank you, Anxia, thank you very, very much."

"It's important to save your dad." An Xia said calmly: "When your dad is better, thank me not too late."

"Tonight, they will stay in Changhai temporarily. Tomorrow I will arrange someone to pick them up to the airport. I will rest in the capital tomorrow night. I will go to Shu Qisi the day after tomorrow."

Everything has been arranged for Asicuo.

It should be said that she would let Tianshu arrange everything for Asicuo.

Asicuo refused many times, and An Xia became angry.

"Can you stop talking nonsense? If you really can, will you still cry? If you are really possible, you will find someone here and arrange it as soon as I am!"

"Since there is no way to accomplish an important thing for the time being, why bother?"

"Furthermore, I have said that I will lend the money, not you. You can just type the IOU."

A word, let Asituo completely dispel the idea of not bothering An Xia anymore.

Unexpectedly, her parents disagreed.

"No, it can't be like this, Axiculo, you shouldn't be!" Grandma criticized harshly, "How could you trouble your classmates!"

Abba said solemnly: "Your classmate has made an appointment with a Shu expert for Afather. It is already very good. We can't ask her to borrow money again!"

"Abba's illness is very serious, and treatment requires a very large sum of money, and we have no ability to repay it. Abba decided to give up the treatment and let us go home!"

Give up treatment?

Do not!

Can not!

Axicuo shook his head violently, and persuaded him, even dialing the phone number of Grandma to persuade Aba and Ama together.

Grandma didn't agree to give up treatment, she just didn't agree to borrow money from An Xia.

there

Tong Xiaoguan and Tang Chu also knew.

After learning that An Xia lent money to Asicuo's father for treatment, the two looked shocked, and then Qi Qi gave An Xia a thumbs up.

That's a cow!

My classmate An Xia!

#### **Chapter 1004: Out of place**

Afterwards, Tong Xiaoguan also whispered to Tang Chu, "Why do I have one of these? Didn't our fairy classmates come to study?"

Tang Chu was also stunned for a sentence without beginning and end.

"What do you mean?" She asked softly and delicately.

Tong Xiaoguan held her arms and her voice became quieter, "I came here to help the world and save people. Like me, such as Asicuo."

...

"Don't talk nonsense." Tang Chu also hurriedly stopped.

If you don't stop it, it is estimated that she will continue to speak surprisingly.

"An Xia is kind-hearted. Look at his uncle's expression. Actually, I was in the dormitory just now. I thought that uncle was not right."

The careful Tang Chu also discovered that the taciturn father of Asicuo was a little bit wrong.

For example, you cannot carry heavy luggage.

For example, it is easy to pant.

Also, I can't stand for a long time, I'm tired and tired after standing for a while.

How good can the patient's body be?

"The Shu Qisi expert was particularly difficult to make appointments. Someone in my hometown had the same illness as his uncle, and it took him many times to make an appointment with Shu Qisi."

"An Xia said that it would be possible to make an appointment. Asicuo met An Xia, a lifetime lucky."

This time, Tang Chuye said a lot more than before.

There are many feelings, and I said more without knowing it.

Tong Xiaoguan is searching for "Shu Qisi" on his mobile phone.

In the first line of personal data, there are only three authoritative experts on this disease in China, and Shu Qisi is one of them.

"I'm a good boy, what is our fairy classmate? One of the only three authoritative experts in the country, she made an appointment in ten minutes!"

"Hold your thighs tightly, and don't let go!"

In this life, she has been with Ding Anxia.

Don't know if An Xia accepts the younger brother?

She would love to be a little brother!

Don't pay!

In the early Tang Dynasty, she didn't dare to climb Anxia high. She said, "It's already very good to be a classmate."

She dare to say that many students in the class now definitely want to be An Xia's friends.

It is estimated that there are other classes.

Once the students know that Anxia will make appointments with such difficult authoritative experts in ten minutes, and there will definitely be more students who want to become Anxia's good friends.

She, don't expect too much, just be a classmate.

friend...

It's too far away from Anxia.

Her friends must be rich or noble.

How can I become An Xia's friend?

The relationship between classmates is just right.

The early Tang Dynasty was also a very down-to-earth girl who never dreamed of reaching the sky in one step.

Adhering to her bottom line and principles, even if the front is alluring, she will not peep at everything that does not belong to her.

Tong Xiaoguan was silent.

After a while, she whispered, "I am like you. At school, we and An Xia are both students of Changhai University. But when we leave the school, our identities and status are completely different."

"Hold your heart well. Don't try to get anything from An Xia. I think we can still become friends with An Xia."

"What do you think?"

Chu Tang also thought for a while, and said softly: "Friends are a further relationship, I think, I should become classmates."

She is incompatible with Anxia's world, just like her classmates.

Tong Xiaoguan was cautiously amused by Tang Chuye.

"Becoming friends means that I, you, An Xia are friends, and An Xia's friends who are not rich but expensive, we will not know each other specially."

"I am worried that when we become friends, others will say that we have bad intentions." The people in the small town are cautious, and Tang Chu has also seen how terrifying the rumors in the small town can be.

If you have a clear conscience, when it comes to others, you have another plan.

A hundred mouths can't tell!

### **Chapter 1005: How much to borrow**

Tong Xiaoguan didn't care.

He snorted and said: "Don't be afraid, we are not afraid of shadows leaning! The mouth grows on someone else, we can't control it!"

"What are you talking about? Don't you leave?"

An Xia Qing Lingling's voice suddenly sounded from behind, shocking the two of them.

All turned around.

Tong Xiaoguan said, "It's over? Did your uncles and aunts agree?"

Regarding Asicuo's request for An Xia to borrow money for treatment, the uncle, aunt, and Asicuo had great disagreements.

No parent wants to see their children go into debt for them.

In itself, the family is already in debt.

An Xia said indifferently as he walked: "I agree, now I'll make an IOU."

"This method is good, and it will work out slowly in the future." At this time, Tong Xiaoguan said lightly.

Because she still doesn't know how much money Anxia will lend to the two siblings.

Then he said: "How much to borrow?"

Hundreds of thousands are almost there.

Until Anxia reported an amount.

"! How much?" Tong Xiaoguan thought he had heard it wrong.

two millions?

Did she get it wrong?

Tang Chu also tightened his breathing.

She also wondered if she had heard it wrong.

An Xia only said it once. Seeing their unheard expression on their faces, An Xia glanced at the two of them and left.

"An Xia said just now that he borrowed two million to Asicuo? Did I get it wrong?"

Tong Xiaoguan asked Tang Chuye, who was standing still with him.

In the wind, Tang Chu also tremblingly answered, "I also heard her say two million, we should have heard it right."

this...

Can Anxia's parents agree?

Is it too scary to spend money like this?

"Would you like to persuade?" Tang Chu also grabbed Tong Xiaoguan's clothes, "if he borrows money like this, will he be...being beaten?"

After all, they are all students, and all the money they use is given by their parents.

Large borrowings must be approved by parents.

Tong Xiaoguan pondered for a while, and said, "Don't persuade you, it's uncle's life-saving money."

"Furthermore, An Xia has a strong opinion. Since he nodded and agreed to borrow money, he must have a good idea."

Can afford to buy a sports car worth more than 50 million, in the eyes of 2 million An Xia, I am afraid it is a small feather.

When I arrived at the school gate, I borrowed a pen and paper, and Asicuo wrote down the IOU carefully.

Finally, the borrower: Asicuo, A Cairen.

The family borrowed inkpad again and pressed their fingerprints.

Because A Cairen was not at the scene, he sent a video as a proof of loan.

After pressing the handprint, An Xia took the IOU, and heard a hoarse voice, Asicuo said: "An Xia, brother and I will definitely return it to you!"

An Xia didn't feel relieved at all.

I didn't read what was written in the IOU. I took it in my hand and said indifferently: "How can I give it to you? Information? Or bank card?"

Information transfer is very convenient, just transfer it directly.

The phone has entered the wallet to check the balance.

It is more than enough to transfer two million to Asicuo.

But she didn't turn it, and put the phone into Tong Xiaoguan's hand, "How to turn it? You do it."

Tong Xiaoguan took the phone and said with some uncertainty, "I can't transfer such a large amount."

While talking, Yu Guang randomly glanced at the balance in Anxia's mobile wallet, and hurriedly put the phone back into Anxia's hand with a "Oh damn" on the spot.

"Brother, the wealth is not exposed! You...you have too much balance in your wallet!"

If you read it correctly, five million?

Scared silly.

The pocket money in the wallet is estimated to be more than her family's deposit!

At the beginning of Tang Dynasty, he was also checking whether he could transfer two million yuan of information.

Well, no.

And said: "Transfer to a bank card, information transfer Axiculo cash withdrawal also requires a handling fee."

Tong Xiaoguan still needs to be operated!

### **Chapter 1006: Really rich**

An Xia, bank transfers will not work either!

"You... can't bank transfers?" This time, Tang Chu asked with a look of sorrow.

Tong Xiaoguan was speechless.

Information transfer is not possible, and bank transfer is still not!

Ten-year-olds can do it!

An Xia looked open, "No, is there a problem?"

"Uh...no problem, no problem." Tang Chu also panicked and shook his head.

That is, it's a little weird.

Tong Xiaoguan sighed and said casually, "This is not the first time you borrow money to go out."

"Yes." An Xia answered her.

...

The air was quiet again.

Later, Tong Xiaoguan worshipped: "Big Brother is Big Brother, and he's an extraordinary move!"

Borrowing money for the first time, so bold!

Early Tang also decided to remain silent.

Two million!

Her family will not save two million in a lifetime.

An Xia has already turned to Axiculo, "Give her the bank card, and she will transfer you, I won't."

There were tears in Axiculo's eyes again, "An Xia, thank you, thank you, thank you really."

Started to bend down again to thank you.

In addition to constantly thanking her, she didn't know what else she could do to express her heartfelt gratitude.

An Xia doesn't like to thank you for going to this set, "Okay, give her the bank card number."

Transferring is very simple, Tong Xiaoguan decided to teach An Xia step by step.

Fortunately, the app's login password to Anxia was known. After entering, Tong Xiaoguan began to teach Anxia.

When the balance interface entered, Tong Xiaoguan's fingers were a little uncontrollable shaking.

100 million...over 100 million current balance!

!!!!!!!

Over 100 million!!!

The highlight of her life is at this moment.

The first time I saw so much money was in her fairy classmate's mobile phone.

Take a deep breath, Tong Xiaoguan teaches Anxia the operation, "Click the small 'v' next to the balance, which means folding, enter the drop-down option, and select transfer..."

"After entering, follow the instructions above."

Step by step, An Xia will take a look.

Simple, but she has never operated it.

Two million will arrive in real time.

After the transfer, Tong Xiaoguan hurriedly returned the phone to Anxia.

It's so exciting!

A balance of over 100 million.

I really want to hate the rich!

The transfer was completed one second ago, and one second later, Asicuo's cell phone prompts that he has received a remittance of two million yuan.

And two million, even if their family sells blood and land, they can't sell it for two million.

Neighbors, relatives and friends in the village have also borrowed it.

The tearful Asicuo bent his knees and kowtowed an apology to An Xia.

An Xia was held in time and said seriously: "Go and take your parents to stay in the hotel, and fly to the capital tomorrow afternoon."

When going to the hotel, An Xia will not accompany him.

At the beginning of the Tang Dynasty, Tong Xiaoguan did not accompany him again.

Let the family of three take a long time.

Uncles and aunts couldn't even speak at this moment, especially the aunt, who kept wiping tears and holding An Xia's hand to thank them.

An Xia really couldn't understand.

After watching a family of three to the hotel outside the campus, Tong Xiaoguan solemnly reminded An Xia, "Brother, you have a lot of money, please take good care of your property!"

As soon as she finished speaking, she saw An Xia tear up a piece of paper and throw it into the trash can.

At the beginning of Tang Dynasty: "!!!"

That's an IOU!

An Xia tore up the IOU and lost it!

Tong Xiaoguan, who was serious about preaching, hadn't reacted yet.

"There are so many people in the school, even though they are all students, but there are also some scum! You don't take care of it, and if you lose it, you don't feel bad about it!"

Tang Chu did not stop coughing reminders, and finally seeing Tong Xiaoguan never reacted, she whispered:

"An Xia, you tore the IOU just now."

What?

Tong Xiaoguan's eyes widened, and he tremblingly asked, "You, you, you, you...just...just...is it just...is it...IOU?"

"I didn't plan to let her pay it back." An Xia downplayed the end of the chat.

### **Chapter 1007: Study hard, don't think about it**

I didn't plan to let her pay back--

The seven characters are like a curse, constantly spinning in the minds of Tong Xiaoguan and Tang Chuye.

two millions!

That's two million!

Not two hundred yuan!

An Xia said that she had no plans to let Asituo pay it back!

Unexpectedly, there is no plan to let Axicuo pay it back!

Brother!

You are so proud, do your family know?

Back to the bedroom, Tong Xiaoguan retrieved his voice.

"Brother, will you be beaten when you go home?" The voice was still a little floating.

Two million loaned out, I don't intend to take it back!

Brother, you are not here to study, you are here to do charity!

Upon hearing this, An Xia couldn't help but glance at Tong Xiaoguan more.

Isn't this already over?

Why are you mentioning it again?

In An Xia's eyes, the termination of a matter is termination, and there is no need to mention it again.

Recalling the old things, tired!

"Think slowly for yourself." After speaking lightly, An Xia sat at her desk, turned on the laptop, and began to browse current affairs.

This is her habit all the time.

She will pay attention to current affairs in various countries.

Especially those war-torn countries will pay more attention to it.

An Xia, who entered the webpage, exudes an indifferent breath of "nothing has to be disturbed, the disturber must die".

Even if Tong Xiaoguan still has a hundred thousand whys, he doesn't have to bother An Xia.

The phone vibrates.

An Xia, who was disturbed, pulled out and was about to shut down, but saw that the phone screen displayed the words "Mu Chenyuan".

He sent the message.

The man you like, then reluctantly forgive his interruption.

After unlocking and entering, there was already a smile in his eyes unknowingly.

"I just got the phone, sorry, I didn't reply in time."

An Xia returned to him, "It has been resolved."

After the message was sent, he quickly asked, "Have you returned to the base?"

Mu Chenyuan, who got the phone the first time, sat in the office, and the phone interface stopped in the dialog with Anxia, waiting for Anxia's information.

Seeing two consecutive text messages came, Mu Chenyuan's cold and handsome face appeared softly, "Well, I arrived at the base half an hour ago."

"How about you, how is everything?"

"It's okay, student status, just to experience it." An Xia returned with a text message.

I wanted to speak, but because Tong Xiaoguan and Tang Chu were also in the dormitory, I had to continue to reply with text.

The quick reply made Mu Chenyuan's lips curled up.

The girl he loves is also waiting for his message.

"Experience well and pay attention to safety. If you have any problems, please contact the above at any time."

An Xia raised her eyebrows, "Afraid of me misunderstanding?"

"No, I'm afraid you are brave and lonely, and you are in danger." Mu Chenyuan finished entering the text, and then he added a small "red heart" and sent it together.

After sending it out, Mu Chenyuan pursed the corners of his mouth unnaturally.

He has never posted these little icons.

An Xia wouldn't be surprised.

An Xia, who received the message, didn't feel strange, but found it funny.

"Don't worry, I will come back safely..."

Deliberately typed an ellipsis to send the message.

Immediately afterwards, two more words were found.

"Sleep you."

It means "rest assured, I will come back to sleep with you in peace!"

Mu Chenyuan is drinking water.

Originally the most serious sentence, because of the last word "sleeping you", the temperament changed drastically.

I choked and coughed.

Junyan turned red with naked eyes.

He was molested by An Xia again.

"Study hard and don't think about it."

The blushing special warfighter sent the message, got up, walked to the open window, blowing the cool breeze in the mountains.

It was at the age of vigorous and vigorous, being molested by the beloved girl, uh... the body began to agitate very honestly.

An Xia in the bedroom laughed low.

He is shy again.

### **Chapter 1008: Missing**

What's so shy.

It's just the most normal needs among adults.

There is no demand, wouldn't it be terrible.

Ready to return to the information, the bedroom door rang quickly.

While packing the bookcase, Tong Xiaoguan, who was calmly shocked, did not lift his head, and said "please come in".

An anxious counselor came in.

"Has Luo Keyi not come to the dormitory yet?"

who?

Rokey?

I do not know.

Tong Xiaoguan replied, "No, there are only five people in our dormitory now, and one person has not arrived yet."

Here, An Xia returned to Mu Chenyuan, "If you have something, please contact me later."

Even though he was reluctant to give up, Mu Chenyuan simply replied with a "good".

Chu Tang also gently put down the book in his hand and asked softly, "Luo Keyi, is this the last classmate in our dormitory?"

"Yes, it's her."

The counselor hurriedly finished speaking, then left scorchingly, walked to the door of the dormitory, and turned around abruptly.

Instructed, "The three of you try to stay in the dormitory tonight, and Luo Keyi will come over and contact me immediately."

Tong Xiaoguan and Tang Chu didn't know what was going on either, and they nodded blankly.

It's so late, they will definitely not leave the dormitory again.

An Xia got up with her mobile phone and strode out to chase her out.

In front, the counselor ran a small road.

"I just arrived in the bedroom and didn't see her. Okay, I will come right now."

"Well, okay, okay, okay, I'll take a taxi. Yes, I will find a few more teachers to go to the train station to find someone."

"I can't let the students together, I don't worry."

There was already a student who could not be reached, but he dared not let the student go to the train station anymore.

An Xia has caught up with the counselor.

He asked in a deep voice, "Is the person missing at the train station? Did you confirm to get off the train?"

"Ah..." The anxious counselor didn't respond.

After reacting, I subconsciously wanted to say "Don't make trouble." He turned his head and saw An Xia. The counselor quickly said: "Yes, she arrived at Changhaixi Station by the high-speed rail at 4 o'clock in the afternoon."

"After leaving the station, I talked with my family and told me that my mobile phone was out of power. I'm now taking a taxi to school."

"At six o'clock in the evening, the family called and found that her mobile phone was still turned off."

"I thought Rokeyi was busy reporting and forgot to charge his phone."

"And my statistics here is that Luo Keyi arrived at Changhaixi Station at 8:26 in the evening."

"Contacted Luo Keyi at 8:30 and found that his mobile phone was turned off and dialed his mother's phone. Only then did I know that her family had changed the high-speed train to 4:30 in the afternoon."

At this point, the counselor was a little angry.

All students are reminded again and again that once the tickets are changed, even if it is only delayed or half an hour in advance, they must promptly notify the school to re-register.

result!

The Luo Keyi family, ignore them all!

No one told!

"From 4:30 to 8:50, I have been out of touch for several hours. What is going to happen..."

The instructor didn't say anything after that.

Don't be good or bad, bad spirits!

The counselor's cell phone rang again, and it was Luo Mu's call.

When connected, she heard Luo's mother crying, "Teacher, please help us find Kai Yi. Her grandmother knew that Kai Yi did not come to school, so she fainted and was sent to the hospital on the spot."

"His dad and I have already called the police and are now rushing to the high-speed rail station, begging the teacher, we must help us."

People are not in Changhai, so they can only pin their hopes with the school teachers and the police temporarily.

An Xia waited for the counselor to end the call with Luo's mother before she said, "Don't take a taxi, take my car to the train station."

"No, no, you stay in the dormitory, the teachers will take care of it." The counselor refused.

An Xia is also a freshman, she dare not take risks.

"Compete against time, don't waste time on taxis." An Xia finished coldly, speeding her feet faster than the instructor.

It is also forbidden for the counselor to have a second chance to reject himself.

### **Chapter 1009: Intentionally**

Changhai City is a city with a large floating population. If one or two people are really lost, it is not easy to find them back in time.

Furthermore, with so many passengers coming and going at the high-speed rail station, the counselor categorically dare not bring Anxia.

Even if An Xia looked very reliable, she didn't dare.

An Xia said indifferently: "You are wasting another minute now."

With a big step, he has passed the counselor and walked towards the stairwell.

counselor: "..."

An Xia glanced at her coldly just now. Why did she have the illusion that she had done something wrong, panicked and nervous, and her head was about to lose her head?

It must be an illusion!

However, there was no way to say such things as sending An Xia back to the bedroom.

When I walked to the gate of the school, I was secretly grateful to see the crowds of students, parents, and counselors waiting for online ride-hailing.

Fortunately, An Xia has a car, otherwise, her appointment will take time.

High Speed Rail Station

The city police on duty has been notified and is in the surveillance room to call for the admission at that time.

Both inside and outside the station are the eyes of the sky. To adjust the time to find Luo Keyi's trace according to the time trajectory, you need the fire-eye golden eyes of the city police.

They need to accurately find out Luo Keyi's figure in the huge crowd.

The monitoring video viewing speed should not be too fast, nor too slow, too fast, it is easy to miss the watch, too slow, and time wasted.

Watching at 1.5 times speed, just right.

When An Xia and the counselor rushed to the station to monitor, the city police found Luo Keyi at Exit C.

Changhai West High-speed Railway Station has six exits, and four exits are connected to the subway. Exit C happens to be connected to the subway.

"She has stayed here. It seems that she is planning to take the subway."

Walking into the monitoring room, An Xia saw the three city policemen who were calling the video talking in a low voice.

"Cut to 27B Tianyan and take a look."

"Yes!"

The staff in charge of all high-speed rail surveillance videos immediately cut to 27B Tianyan, and on the other side, city police locked Luo Keyi's figure to see if she would walk in the direction of 27B Tianyan.

27B Sky Eye is one of the Sky Eyes into the subway station.

As long as Luo Keyi's figure appears, it can be locked immediately.

Facial recognition automatic tracking was also activated, and the city-wide tracking was carried out by technicians through the Tianyan General Control Center of the Urban Traffic Police of Changhai City.

In this way, the search speed must be faster.

The sweaty counselor was led in by the staff and asked the city police eagerly, "Comrade city police, is there any news from Luo Keyi in our school?"

"Teacher, come on, you can confirm if it is the student."

The city police magnified Luo Keyi's figure from exit C and asked the counselor to confirm.

The counselor almost jumped to the computer to make a careful identification.

But she was not sure if it was Luo Keyi.

"She is a freshman, I have only seen her own photo..."

As she said, she quickly unlocked the phone and handed the photo sent by Luo's father and mother to the city police, "This is Luo Keyi's trip to take pictures two days ago. Look, the girl in the surveillance is indeed like her."

An Xia also saw Luo Keyi's photo in the car, standing behind the counselor, looking down at the figure cut out from the computer.

The figure, height and appearance are indeed Luo Keyi.

The city police checked carefully and confirmed that it was correct.

However, Luo Keyi did not take the subway.

Instead, he walked straight out of the station square and headed toward the avenue.

The faces of the city policemen were more serious than before.

Because they saw that Luo Keyi was wearing a sun hat and taking something out of his backpack while walking.

"It's a mask."

The serious city police's voice tightened.

The difficulty of facial recognition tracking has increased again!

### **Chapter 1010: More than half of the mentality collapsed**

Facial recognition requires two steps.

One is face detection,

The second is face matching.

First, find the face from the video image, and then use the eyes, nose, mouth, eyebrows and other facial features of the face. After a series of algorithms, the corresponding person is identified from the face data.

This is the fastest tracking.

As long as Luo Keyi appeared in the eyes of the sky, the technicians could also find her accurately and locate her immediately.

Then there is body shape recognition.

This is slightly more complex than facial recognition, and the algorithm is much more complicated. At the same time, there are still certain flaws.

After such, the body shape is blocked, the difficulty of body shape recognition will increase.

Although it can also be found, it takes much more time than facial recognition.

After five years of absence and rebirth, Anxia is no stranger to facial recognition tracking.

Emperor Domain also has an identification system.

Seeing Luo Keyi putting on a mask and looking around intentionally or unconsciously, she asked the counselor in a deep voice, "Is there someone from Luo Keyi to pick her up?"

Luo Keyi, who walks in the video, is wearing a mask and a hat again, looking like she is deliberately hiding herself.

The counselor followed An Xia's question and replied, "No, her parents said that she came directly to the school without revealing that someone would come to pick her up."

The city police looked at An Xia.

Because she asked out their doubts.

The behavior of the lost girl just now seemed to be a cover-up, deliberately avoiding the crowd.

One of the older police officers Pan looked at An Xia and asked the counselor, "This is..."

She has a tender face and sunburn on her face. She doesn't look like a teacher, but a student.

It's hard to say that you are completely like a student.

The aura is not like a student.

"My classmates, there are a lot of taxi-hailing people at school, and I came by her car." The counselor worried that the city police blamed An Xia for talking and disturbed their work, and said: "A freshman, a very responsible girl."

The city police saw the counselor's nervousness and smiled, "The observation is also very subtle."

Immediately, her tone became serious again, "From the perspective of Luo Keyi's body language, she does look like someone came to pick her up."

"Moreover, she doesn't want her parents to know that someone is picking her up. Wearing a hat and a mask are all trying to cover her whereabouts."

"Teacher, please contact Luo Keyi's parents right now and ask if someone will pick her up."

Luo's mother and Luo's father were rushing to the high-speed rail station, and the two who received the call immediately denied them.

"Absolutely not! We don't have any acquaintances in Changhai. But I haven't heard the pleasant mention that someone will pick her up!"

The mobile phone is hands-free, and everyone can hear every word spoken by Luo's mother and Luo's father.

The city police asked again, "Does your daughter play games? Does she spend a lot of time online?"

"Yes, this summer vacation has a lot of time to surf the Internet. We didn't restrain her at all." Luo mother sobbed and said, "Thinking that the child just went to college, let her relax, surf the Internet, play games, we never control her again."

Father Luo was much more sensitive, and asked with a hoarse voice: "If the child loses contact, is it mostly related to surfing the Internet and playing games? Is there news of a child?"

Is it good news or bad news?

His father, who was at home as stalwart as a mountain, was more than half of his mentality collapsed at this moment.

But he can't fall down!

The daughter has not been found yet, and he will find her anyway.

The city police said: "We have found Luo Keyi in the surveillance. She did not get off the high-speed train to school as you said."

"When I walked out of the square, I put a hat and a mask on myself and showed obvious behavior to avoid the crowd."

how so!

"We really have no friends in Changhai! Ke Yi, Ke Yi never told us that she knew Chang Hai's friends." Luo mother broke down and cried.
