Chapter 321: So bad luck (8 more)

It takes time to make it happen, and Zou Jun and the others are not quite close yet.

An Xia's eyes flashed sharply.

If it were her, it would shoot everyone's forehead directly at this time!

Personnel from other countries sneaked into the territory of Xia, and armed with guns, they could completely kill everyone.

Is it necessary to keep it?

An Xia, who has never been merciless in his shots, still prefers to be simple.

The gang who was also delaying time did not answer.

Pretend to continue to not understand.

As long as he doesn't speak, his companions will definitely notice the strangeness.

Xia Guo's fighters have never taken any shots casually.

He bet that the Xia Guo fighter behind him would also not take any shots casually.

An Xia, who was impatient, was too lazy to procrastinate.

If you don't know how to cherish, let him get his wish.

An Xia, with dark eyes and cold eyes, raised her mouth slightly, her breath was cold, like floating out of hell, "Then you, go to death."

Yin Luo didn't give any reaction to Li's help, and the sharp blade slashed across it severely.

The aorta is severed.

The blood spewed out.

Hu Bang's eyes widened.

how so!

Based on his understanding of Xia Guo's team, their fighters would never be able to kill anyone casually before they figured out the facts.

An Xia's mouth was still covered by the gang with blood on his neck, and his whole body convulsed. His life was deadly, his eyes widened, and finally there was horror in his eyes.

The feet made movement, and all the five people who had touched the gun raised their voices.

"Yao Bang! Yao Bang!"

Everyone yelled, and flew towards An Xia.

Fortunately, they ran over and gave Zou Jun the opportunity to jump out directly.

"Someone! Someone! Hubang! Hubang!"

Yelled, and tried to take up arms to resist.

Zou Jun and the others would not give these opportunities to shoot.

On the other side, Li Wei aimed at one of them.

No matter how the opponent moves, the quasi-center is always on that person's forehead, as long as the opponent moves, he will shoot immediately.

An Xia also rushed out.

As for the guy who fell on the ground, it was not cool yet.

Just let him listen to his companions calling his name while waiting for death.

The lord of the imperial domain has always been cruel to the enemy and never relents.

The gang who was not cool could hear the roars of his companions. He opened his mouth without making a sound. He pierced a bleeding hole and spurted blood from his throat.

The arteries are cut, and the throat is also cut, and there is only a sound like a leak, and there is no possibility of air intake.

On the edge of the mountain stream, the fighting was fierce.

"Xia Guo's fighters! They are Xia Guo fighters!"

After the neighbors who could not use weapons shouted, someone immediately used Xia Guo's unified language and said stiffly: "We are hunting! Hunting! You can't do this!"

Yes, they just came to hunt, and these Xia State fighters couldn't kill them.

Zou Jun and the others didn't really want to kill people.

It has to be kept.

Upon hearing this, An Xia started even more ruthlessly.

"Machine gun hunting? So rich, do you still need poaching?" A fist hit the opponent's nose, screaming to the sky, and frightened countless birds nearby.

Ma Xiaoquan and the others heard the sound of a fight.

"It's An Xia's voice! Hurry, hurry!" The squad leader of the second camp yelled, regardless of the sprint.

Ma Xiaoquan was the fastest.

He was afraid that if he went late, the people in the first camp would suffer.

When he arrived, the fight was over.

Five people from neighboring countries were all pressed into the water and grass by the brothers in the first camp, unable to move.

Especially the one who was held by An Xia, the worst!

The nose was crooked, the corners of the mouth and eyes were swollen and bleeding, and his face was painful.

...

This guy is the most unlucky.

His face hurts so badly, so maybe his ribs are also broken.

Chapter 322: Hit it

The soldiers in the second camp have not forgotten that their brother was kicked by An Xia and kicked out a sad story of a broken rib.

A bone fracture can be kicked with one kick, so badly, it is probably broken.

"Tie people up first!"

The squad leader waved his hand and led the soldiers in the second camp to tie up their feet and hands.

People from neighboring countries can speak Chinese and beg for mercy loudly, "Don't tie us, don't tie us! We are hunting, hunting!"

"What are you doing! I'm not from Xia Country! You better be polite to us!"

"Let go of me! Let go of me! You robbers, bandits! Hubang! Hubang! Come out! Come out!"

...

The five struggled and became chaotic, and refused to cooperate.

Zou Jun drank coldly, "Be honest!"

"You are not qualified to tie me! Let go of me! Let go of me."

Very arrogant, I don't know if he is relying on it, so presumptuous that he didn't even look at the Xia Guo fighters at all.

"I warn you, if you don't let me go, my country will definitely not make you feel better! If you hear it, I count three times. If you don't let me go, I will make you regret it! Regret!"

Arrogant and arrogant, in his words, he feels aloof.

Falling to An Xia's ears was the noise she hated the most.

Bluffing, pretending to be bluffing.

It's easy to clean up such people.

Pick up the weapons they brought.

The action is familiar. Remove the magazine, take a look at it, and reinstall it again.

Two of the two members of the second camp saw this, and their eyes flashed with surprise.

Just like they turned in weapons, they habitually removed their magazines for inspection at the first time.

An Xia, who reloaded the magazine, carried the weapon, and looked cold and sharply across the most arrogant neighbors, and walked over.

"Xiao An..."

A member of the camp gave a low voice.

At this time, An Xia was so frightening.

The whole figure is like a walking meat cutter, wherever he goes, he will bleed everywhere.

An Xia turned a deaf ear.

When he walked to the arrogant man, the weapon held in his hand was indifferently flicked, and his black mouth pressed against the person's chest-the position of the heart.

"Ah! What are you...what...what are you doing."

Arrogant encounters a hard character, his momentum seems to be cut off in an instant, and his speech is frightened.

Zou Jun and the others were relieved.

With their meager understanding of An Xia, An Xia really wanted to kill this person, and there was nothing to scare him.

Come up with a shot, just get rid of the matter.

It won't give anyone a chance to react at all.

The soldiers in the second camp didn't know.

Seeing this, I was shocked.

However, everyone has strong eyesight. Seeing that all the soldiers in the camp did not move, they secretly retracted their legs and silently paid attention.

The stiff-mouthed guy has scared his knees soft.

Especially seeing An Xia squeezing the trigger with her fingers, her voice was sharp and high, the blunt Xia Guo lingua franca plus their own native language, yelling, "I am not from Xia Guo, you guys..."

It's really noisy!

An Xia slammed a spear, with strength in his arms, and the **** of the gun slammed into the opponent's abdomen.

One shot is not enough, five consecutive hits!

Continuous screams of "Ahhhh" penetrated the woods.

The arrogant neighbouring man has been so painful that his back is arched into shrimps.

It hurts too much!

Extremely painful.

It seemed that the whole belly was cut open with a katana, and the pain was so cold that the sweat was rushing.

When Xia Guo's soldiers saw this, they pretended not to see it.

Owed!

To anger An Xia, deserve it!

An Xia was a little angry, but not because of the other party's arrogance.

She is a member of the Qixia country and is too disciplined and law-abiding!

Too rigid!

Also too restrained!

People from neighboring countries who are restrained to the point of fart even dare to be arrogant and presumptuous!

Since they didn't come forward to teach this person, then she came forward!

Chapter 323: Clean up the offal

What can I do if I hit it!

Appropriate force is more deterrent!

An Xia, who had finished beating people, said coldly: "Now, know what I want to do. Beat you!"

Like ice skates scouring in the river below the extremely snowy mountains, cold and sharp.

The screaming neighbouring man was so painful that he could hardly breathe.

The next second, the stomach was hit again.

"what!!!"

The scream is louder than before!

I don't know, I thought I had a broken arm and a foot.

It hurts too much.

He never knew how painful his stomach was after being hit by a weapon!

"How? I'm still satisfied with the answer I gave you?" An Xia lifted the man's chin with that black muzzle, "Are you satisfied? Do I still need to continue?"

The man was so painful that he was about to lose his breath.

He closed his eyes tightly, and was unable to answer An Xia.

Look, it's easy to clean up the little choppy.

Withdrawing the weapon in his hand, the cold-faced An Xia turned to the combatants in the first and second camps: "What nonsense is there with them, don't cooperate, fight until you cooperate!"

"Arrogant? Do you still be arrogant if you beat it a few times? If you beat it a lot, it will be arrogant. No matter how arrogant you are, you will only be obedient."

"What about beating to death, carrying weapons and sneaking into our country illegally, is he still arrogant? Give him a bit of cruelty, and naturally I will be afraid of knowing it!"

"Will the disabled, drag them away, kill them and bury them on the spot, do you still have to bear it? I will report back and write more beautifully, and I have to give you a certificate on it!"

Disabled?

Killed?

When did Xia Guo's fighters become so fierce!

In addition, the four obedient and subdued four people who had been subdued early saw this, and they hit a few sharp spirits in a row, bowed their heads tightly, and dared not say anything.

They are more afraid of being beaten and more afraid of death!

But, why hasn't the **** appeared yet?

Did he get rid of them and run away alone?

still...

Hiding in the dark, waiting for the opportunity to win them?

Can he beat five of them alone?

Bowing his head, he wandered around with his left light, looking for the figure of Hu Gangjiu.

The gang has been completely cold.

Zou Jun leaned to the ear of the squad leader of the second camp and whispered, "Old Ji, I'll take care of something, you take these people away."

"What to do?" Ji Nai, the squad leader of the second camp, looked around, thinking that there was something missing.

Zou Jun simply took Jina aside.

Before he walked behind the tree, a strong blood puffed his nose.

Kina's face changed slightly.

As he approached, his face changed drastically.

"this..."

A person fell behind the tree, Kina quickly squatted down, and stretched out his hand to check whether the other's carotid artery was still alive.

Reach it halfway and retract it.

He saw the cut throat and carotid artery.

It's so cold early.

"This person resisted with a gun and was resolved by me." Zou Jun explained that he did not say that An Xia did it.

Not deliberately grabbing power.

But out of protection for Anxia.

They know it themselves. The brothers in the second camp only need to know that these people have entered the territory of Xia with weapons illegally.

The model of the deputy squad in the first camp was checking the captured game.

Beside, the four honest and submissive people straightened their backs.

How to do?

Will the contents... be found?

"What are these?" The deputy squad model asked the four people at the beginning, "Answer honestly!"

"Wild...game...we...our neighbor hunters, steal...poach."

The template drank coldly at the beginning, "I mean, what is this?"

"Lin...Lin...Lin musk deer."

The template's eyes were like arrows at first, and it shot straight at the man who answered him, "Lin musk deer, the first-class protected animal in Xia State. According to the first paragraph of Article 341 of my country's Criminal Law..."

Chapter 324: Limited patience

Although the template was not the National Forest Police of Xia Country at the beginning, if illegal hunters are on the patrol, they can also catch solo hunters.

These men from neighboring countries illegally sneaked into the territory of Xia to hunt illegally. As Xia's fighters, the model initially had the right to arrest them.

Before arrest, they will be informed of why they were arrested according to the normal process.

"...Illegal hunting and killing of rare and endangered wild animals under national key protection shall be sentenced to fixed-term imprisonment of not more than 5 years or criminal detention!"

"I will officially inform you now..."

Anxia has never liked these time-consuming processes.

Without patience, she coldly swept five neighboring men, bent over, and used a dagger to pick up the forest musk meat wrapped in the remaining leaves.

The sights passed one by one, and their gazes flooded.

He picked up one of the packs of Lin Musk and walked in front of four men from neighboring countries.

I don't know that An Xia scared them just now.

Seeing her coming, two of them bowed their heads, not daring to look at An Xia.

"You, come out."

An Xia said coldly to the man standing on the left: "Come here."

.....

The man named had more calf shaking.

He he he... he doesn't know anything.

"past!"

The fighters of a camp guarding him gave him a hard push, pushing them aside.

As soon as he left here, the three remaining tense.

Especially that arrogant neighboring country man suddenly shouted in their language, "We have to go home, you must be careful!"

It's okay not to shout.

With a roar, all the fighters felt something was wrong.

The template yelled at the beginning, "What is your purpose! Say!"

Say?

If you ask, will they say it?

That's strange.

The dagger pierced the forest musk meat, and asked faintly: "I have a bad temper and have limited patience. What am I asking, what are you answering, understand?"

Drew out the dagger and pierced it again.

seem.....

It's not Lin Musk that pierced through.

Rather, the heart.

The man from the neighboring country who was scared had legs as soft as boiled noodles. He didn't even have the strength to stand, and he slid down.

The soldiers in the first camp mentioned him and shouted, "Stand well! What to ask, what to answer!"

"Who gave you the weapon?" An Xia asked.

Did not directly ask them what purpose they have.

When the man heard it, his frightened expression became obvious, and he immediately replied, "It is him who organized us, and he gave us a few."

"Where can I give it to you?"

"It's from us." The man who answered quickly said a place name, the location of a neighboring country.

In a small place, Anxia only knows the capital of the country and a few famous cities.

Open the electronic map to check the name of the place and the distance from this place to the territory of Xia Country, a total of 240 kilometers.

Black eyes flashed coldly, raised his eyes, and continued to ask lightly, "Is anyone on the scene."

"No! Not at the scene."

"Who is Lin Musk going to give to?"

"give him."

"How to give it? Wrap it with leaves?"

"Yes, yes, wrap it with leaves."

"Ready to go back?"

"Yes, yes, go back."

The more the man answered, the smoother and smoother his expression became.

Answered that I believe in myself, just come to poach.

Scared him to death.

I thought I found something.

It turned out to be just asking about these.

His eyes flickered slightly, and the man waited for An Xia to ask again.

An Xia laughed, her smile was cold and bloody, "You, don't cooperate."

After speaking, he waved the dagger in his hand and slashed the opponent's arm fiercely.

Soon, none of the members of the camp had a reaction. The man's arm was bloody, and for a short while, his sleeves were wet.

The man himself did not react for the first time, until the pain in his arm swept through, and his mouth screamed the same scream as the arrogant man before.

Chapter 325: Invisible danger

An Xia's face remained unchanged with a scream.

ask for it.

A stroke is not enough, it will take a few more. exist

"I reminded you that I have a bad temper."

An Xia said casually, and the **** dagger was wiped on the man's neckline.

"I'll ask you again, how do you give it?"

"It's really going... now..."

The blade slashed his neck, and the pain of cutting his skin was shocked to the point that all the pores all over his body were erected.

"How do you give it?"

"It's really going...ah..."

It was another knife. This time, the wound was much deeper.

The man can feel the blood flowing down the neck slowly.

An Xia curled her lips, her sneer was cruel, "Did I not express it clearly?"

The pain was so scared that the scared man nodded frantically.

He really walked over and made no mistake.

"Then I, let me ask in another way." An Xia retracted the dagger, played with her fingers, and asked indifferently, "How do you plan to give this meat to Xia Guo to meet your people?"

"This time, is it clear? Can you answer it well?"

The bright cold dagger once again pierced Lin Musk's flesh, and the thin, sharp mirror tip of the dagger touched the man's chest coldly.

Under the tip of the dagger, his body trembled.

An Xia didn't change his smile, and Qinghan said incomparably cruel words, "You said, after this thing is stuck with you, will you die?"

of course!

The man's whole body was shaking like fallen leaves in the autumn breeze, and his face was pale.

She found it, she must have found it.

Two minutes later, An Xia came back with a calm face.

And ran into two squad leaders, Zou Jun and Fan Nai, who were dealing with certain things.

"There is something in the Lin Musk meat!"

!!!

thing?

Poisonous goods?

The two monitors quickly caught up with An Xia.

Soon, four pieces of forest musk meat with foreign bodies were found.

Four test tubes the size of a child's little finger, which contain...

Something like lean meat, soaked in a special potion.

There was no way to see exactly what it was in the night vision goggles. Fan Nye picked up one of the test tubes and prepared to remove the test tube sealing ring.

Anxia stopped immediately, "Don't move!" and screamed, "Correspondent! Correspondent!"

"arrive!"

The communications fighters from the second camp rushed over.

"Contact the first camp or the second camp, immediately!"

"Yes!"

Frightened by the solemnity on An Xia's face, the correspondent didn't dare to delay for a second, and contacted immediately.

After a few seconds, Bai Yonglong was successfully connected.

"Okay, understand! You guys will return immediately! The test tube must be kept! Never break or leak!"

"Well, it's best to notify relevant professionals to be there to respond." An Xia added, "It's best to understand these things as soon as possible."

With the advancement of the times and advanced technology, modern warfare is not only a face-to-face battlefield, but also some completely invisible dangers.

For example, something in a test tube in your hand.

It is also a kind of modern war.

There is no gunpowder.

But it is more terrifying than gunpowder.

At twelve o'clock in the morning, a helicopter spun overhead.

"300 meters, 200 meters, 100 meters...30 meters, start putting down the ladder!"

Inside the helicopter, as the pilot reported the number, Mu Chenyuan lowered the ladder.

Below, An Xia clenched the ladder with both hands and boarded the helicopter.

She is the only one to board the plane, and the other fighters need to continue on foot to complete border patrols.

Inside the plane, Mu Chenyuan stretched out his hand and firmly grasped An Xia's hand.

The familiar touch made An Xia, who had been bowing her head, look up.

"Why are you here?" She asked, and proceeded firmly into the cabin.

Mu Chenyuan said: "Fly to the capital directly."

Direct flight to the capital?

"Is there enough fuel?" Anxia looked at his own helicopter, civilian helicopters, didn't have enough fuel to fly.

Chapter 326: To her liking

Mu Chenyuan also wanted to see if she was injured for the first time.

"Is there enough oil?" When asked, he couldn't laugh or cry.

"Enough, there will be an intermediate turn."

After An Xia asked, she actually felt that she had asked a very silly question.

Worry about.

The helicopters were all brought over, and someone would naturally arrange for the fuel to be enough.

Sit down, fasten your seat belt, and carefully took out two pieces of forest musk meat from the left and right pockets of your clothes.

In order to prevent the test tube from rupturing, An Xia put the test tube back into the meat again as a precaution.

Mu Chenyuan picked up the medical storage box he had prepared earlier and opened it, and the two carefully stored the test tube together.

When closing the box, An Xia asked again, "Why are you here?"

Also fly directly to the capital.

The training of the pioneer squad of the first battalion is left alone?

Xiahou Zhanjiang wants to see you. "Actually, Mu Chenyuan himself didn't expect to accompany An Xia back to the capital city. After all, he was still an instructor in the advanced class.

Speaking of Xia Houyu, An Xia's face paled a lot.

"See me? What do you see me doing? Waiting to be beaten by me?" Liang Liang said, chilling.

It can be seen that I have been thinking about it all the time.

It was the second time I heard her say that she was going to fight Xia Houyu, her thin lips were slightly bent, and she asked unhurriedly, "How do you want to fight?"

Huh?

Listening to him, there is still a way.

An Xia turned sideways, turned to his side, and said with interest, "Do you have a way?"

"There are several kinds of fights, and on what occasions." Mu Chenyuan smiled, secretly, his eyes had already taken An Xia's close attention, "You are now a rookie, run over to fight a seven-star warrior, no Too suitable."

Fortunately, there was no injury.

An Xia also looked at Mu Chenyuan.

She was wondering what he meant.

As he said, it was really inappropriate to run over to play a seven-star warrior.

But he asked her again how he wanted to fight.

This is not a clear reminder to himself, he can arrange it.

The point is: in what kind of occasions to fight with integrity.

But after a few seconds of pondering, An Xia knew how to fight.

"It's wrong to hit someone. I never hit someone for no reason."

Before he finished speaking, the smile on Mu Chenyuan's thin lips deepened a little.

She smiled in her cold eyes and stared at him, gentle enough to be like the first rising sun in a cold winter, deep in the cold, warmth is hidden.

"I've always wanted to learn from General Xiahou, and I don't know if General Xiahou can realize my wish."

Mu Chenyuan smiled, pretending to consider it seriously.

Afterwards, he nodded solemnly, "I shouldn't refuse."

"At that time, when I met the generals, I asked." An Xia propped his chin with a small expression of "I'm really just learning from each other", like a kid begging for sweets, so clear and undefended.

Mu Chenyuan said: "There is a fighting room in the Luer District Building."

It's the first time to help Zhou to do the torture job, but it doesn't show up.

An Xia asked, "Can I use it at any time?"

"Yes." Mu Chenyuan nodded, "At any time."

An Xia was more satisfied.

Boy, what a nice person!

You Jun went on the road again.

It's too deep for her.

Hey, she almost forgot what she thought of him in the three days of the game.

Now...

How to do it?

She missed him again.

But this guy didn't want to be her bed partner.

It's really annoying.

You have to think of a way.

She remembered that the Emperor Domain Medical Research Center had a colorless and odorless liquid potion. This potion had only one function: aphrodisiac.

or.....

Chapter 327: Have been picked up

The emperor's mind began to liven up again.

The potion had no side effects except for its "aphrodisiac" effect.

It is said that as long as a needle is injected, the aphrodisiac force is so great that you have to find someone to relieve it.

or.....

She try?

Ugh.

The Lord of the Emperor Territory, who only wanted to find a bed partner in the spring, fell to the point where he needed medicine.

pitful.

Mu Chenyuan was stared at her back by the particularly obvious calculation in her eyes.

The sword-like cold and sharp face flashed unnaturally, don't start.

What is she thinking again?

Turning her satisfied handsome face away, An Xia became more determined to get the potion.

"Have you brought your phone? Can you borrow it for me?"

You have to find Tianshu and the others to get medicine.

Just borrowing a cell phone, Mu Chenyuan took out the cell phone and handed it over.

"Return your account and I will log in to my account."

Pass the phone so quickly, don't you worry that she read the information he shouldn't read?

Log out of the account and hand over the phone again.

In the faintly lighted cabin, the hands without combat gloves had slender fingers, distinct joints, white and clean, glowing with a cool cold light, and they seemed to have no temperature.

It just doesn't look like the temperature.

actual.....

The moment she pulled her into the cabin, her palms were warm and full of strength, and she was very relieved by giving her hands to him.

An Xia's eyes flickered slightly, and An Xia stretched out her hand.

Fingers, touched his fingertips inadvertently, the two of them looked at each other, An Xia raised an eyebrow, "Why, it can't be touched? Then you just shook my hand. Did I say that I can't hold it?"

"..." Mu Chenyuan was silent.

He didn't say that he couldn't touch it.

At that moment, he just felt that An Xia seemed to have touched his hand on purpose.

I thought I would think too much, so I looked at him.

He hadn't said a word, but she had finished speaking.

Without concealing it, she told him openly that she touched herself deliberately.

Some have been picked up.

"No." Mu Chenyuan smiled, suppressed the moment of palpitations, calmly said: "It is inevitable that there will be contact during training, I will get used to it."

She seduce him, he said he would get used to it?

Rao is as smart as an emperor, and he doesn't know what to say.

Didn't you tell her personally, didn't you hate her?

Not annoying, but pleasing to the eye, why can't it develop further.

Confusing!

Which link is the problem?

Nothing.

She had to ask Tianshu how many of them would do it!

See if they know what went wrong.

After logging in to an account that I haven't logged in for a long time, my phone vibrates continuously, and ten short messages appear.

In addition to the four of Tianshu, there is also an anniversary year.

Click in to see the information of the anniversary year.

"Xiao Anxia, where have you been? I went to the special education center to look for you, and they said you followed the team members. God, you won't join the team too!"

"You must have joined the team. Demon King Li wants you to join their naval team. After you are on the team, you must take good care of yourself and perform well. Let's aim for the first place!"

Two days later, the anniversary text message came again.

"Xiao Anxia, I'm back to the capital, remember to find me when you come to the capital. Oh, look forward to gathering again next time."

The latest text message was the day before yesterday.

"Xiao Anxia, I'm going to meet the friend who I told you last time, she is very sniper."

Two hours later, three red "exclamation" text messages were sent in the anniversary year.

Chapter 328: Girlfriend, I need to figure it out slowly

An Xia had already raised the corners of her mouth, with a slight smile in her eyes.

Xiaoyan Yanran, even if the lights in the cabin are weak, it can't conceal the stunning beauty, on the contrary, it adds a layer of hazy and graceful beauty.

Mu Chenyuan's fingers curled slightly as he looked darkly.

It's rare to see her smiling in comfort, faded away from the indifference, like the blooming flower on the branch, making people want to pick it.

Heart palpitations came again, Mu Chenyuan slowly closed his eyes, curled up fingers into fists.

Don't rush.

Don't rush.

Her interest in herself at the moment is limited: she looks good, she looks pleasing to the eye, suitable for... suitable for being a bed partner.

But the identity he needs is not a bed partner that can be changed at any time.

She has the heart, and he also has the heart. The only difference is that he wants different things in his heart.

Slowly loosening his fist, Mu Chenyuan hugged the medical storage box, Yu Guang again cautiously looked at An Xia.

Love doesn't know where it comes from, but loves deeply.

When I was a child, I often listened to the story of grandfather and grandmother. When young people joined hands, they grew old when they met each other.

Seeing the parents again, they are equally affectionate.

Before the sixth grade of elementary school, as long as his father came home, he only wanted to live the two-person world. He did everything possible to get him out of the house and threw him to the guard, shut the door, and lived with his mother in an undisturbed two-person world.

The other elders in the family are also affectionate and affectionate. Even if there is a small fight, whether right or wrong, the man first bows his head and admits his mistake.

At that time, I couldn't understand why the aunts and aunts were so unreasonable to make trouble, but the uncles and uncles knew that they were at fault and took the fault to themselves.

Later, one day in the sixth grade, he came to the uncle's house when he was forced out of the house. He saw the uncle bowing his head and confessed to his aunt, but he was puzzled and asked why.

The uncle touched his head and said with a smile: "Auntie is the lover of the uncle's life, so why not tell who is right and who is wrong. Whether it is wrong or right, uncle bowing his head is to respect your auntie, and it has nothing to do with dignity. It has nothing to do with right or wrong."

"Little Shen Yuan, in the future, you will also meet a lover who makes you confess your mistakes and join hands for a lifetime. At that time, you will naturally know how the husband and wife get along. The focus is on the man's retreat and coaxing his wife."

"My wife is happy, the whole family is happy, the whole family is happy, harmonious and happy. It will be like grandfather and grandma, who will love it for a lifetime."

"Of course, the premise is that you need to find the right lover, you can tolerate her, and she can tolerate you. One day, the big things are unambiguous, and the small things are clear."

"Men in the Mu family all love your wife. When you grow up, you have to learn from your grandfather. Uncle, your uncle, and your dad, we all learn from your grandfather, and you are no exception."

At that time, he heard that he was ignorant, as if he understood something, and he didn't seem to understand anything.

The only thing he understands is that he has to find the right lover.

If you are not the right lover, you must keep your distance!

Now, he thought, he found the right lover.

It's so rare, and it takes time to make it happen.

An Xia, who carefully read the text messages, did not realize that Mu Chenyuan had been peeping at herself secretly.

The anniversary text messages are very interesting. Through the text, they seem to be standing in front of her, talking excitedly.

"My God, you and Xiao Jian'er actually know each other! My God! My God! My God! She said that you met, and she said you are super awesome! My God, you guys know each other! This is too fate. "

Chapter 329: My lord, I'm angry again

An Xia also thinks that she and Jade Bird are destined.

Well, it should be said that all three of them have fate.

Fortunately, I was bombed by a cannonball to rebirth Xia Guo, otherwise, where can I meet them?

Seeing the joy in the anniversary text message, An Xia's smile deepened again.

"I also said that I must introduce you to Xiao Jianer if I have the opportunity. I never expected that you met! I'm so happy! I look forward to one day when the three of us can meet. It's a pity, it's so difficult."

It's really difficult.

The occupation the three are engaged in has already seen the difficulty of getting together.

An Xia replied with a text message, "Sorry, I joined the team some time ago and didn't tell you."

"If I have a chance, I will meet in the capital."

Besides, An Xia didn't say much.

Did not tell the anniversary year, she flew directly to the capital tonight.

Although she had just joined Xia Guo's team, she was once a fighter in the Imperial Realm, and she would not violate the rules and regulations that she should abide by.

After returning to the anniversary year, An Xia read Tianshu's text messages.

The first two are Tianshu reporting that Ye's family in the capital went to the hospital to disturb Ye's mother.

In this matter, Mu Chenyuan had already told her that Xia Houyu had come forward and arranged for Ye Mu to be transferred to the team hospital.

Seeing the latest record, An Xia's eyes narrowed indifferently, covered in frost and bitterly cold.

"Emperor, today the Ye family found the hospital again. Fortunately, the hospital has a very strict confidentiality policy and did not disclose any information about Ms. Ye."

"But Ms. Ye's transfer was a secret arrangement. How did the Ye family know that Ms. Ye was transferred to the team hospital? Tianxuan has been investigating secretly, and the latest news will be reported to you immediately."

It's about Ye Mu. Earlier, An Xia specifically ordered Tianshu and the four of them to report to her in time for everything related to Ye Mu, no matter how big or small.

Ye's family only appeared in the hospital during the day, Tianshu and the others did not dare to conceal it, and reported immediately.

Lifting his eyes, he looked at Mu Chenyuan with a chill.

Before speaking, Mu Chenyuan asked in a deep voice, "What's the matter?"

"The Ye Family has found the War Department Hospital." An Xia said coldly, "The transfer was arranged by Xia Houyu, Ye Family, why did you know? Who told the Ye Family?"

Cold eyes, "Mobile phone, I'll make arrangements."

"No need!" An Xia refused, her face was so cold as to be frosted, she looked at him and said, "I don't believe you."

The icy expression, no trace of temperature, and no information in his eyes.

The heart suddenly fell, Mu Chenyuan whispered: "An Xia, give it to me, I will arrange for you."

An Xia took a cold look and directly contacted Tianshu by voice.

Tianshu is guarding in the hospital.

Since the four of them arrived in the capital city, they have been protecting Ye Mengwei without causing her to be stimulated any more.

After the voice was connected, An Xia heard Ye Mu's voice.

"Xia Xia, Xia Xia, is that you? Xia Xia?" Surprised and trembling with excitement, "Xia Xia, how are you now? Xia Xia? Xia Xia?"

An Xia didn't react to anything to say.

An Xia sighed softly when there was a low cry over there.

It is her responsibility to take care of Ye mother, but she is still not used to the identity of "daughter".

At first hearing Ye Mu's voice, the familiar and unfamiliar feeling made her speechless for a while.

Weeping is very light, it is restraining.

"I'm fine, don't worry." Slowed his voice, for fear of disturbing Ye Mu, "Everything is fine, you will be well in the hospital to recover your body, and wait for me to come and pick you up."

Chapter 330: Past

On the other side of the phone, Ye Mengwei cried so much that she couldn't make a sound.

She didn't dare to let her daughter hear her, she covered her mouth tightly with her hand, looked up, and forced herself to shed tears back.

Can't cry.

She can't cry.

Don't worry about your daughter.

"That's good, that's good, Xia Xia, you have to take good care of yourself. Mom will take good care of yourself, don't worry about your mother." Tears forced back, Ye Mengwei only had a little hoarse voice, "Mom is sick...I will cooperate with the treatment, the doctor said, as long as I cooperate, it will be cured."

For her daughter, she will definitely cooperate with the treatment.

At the beginning of the illness, the frightened dream did not cooperate with treatment at all, and it was only temporarily quiet with tranquilizers.

After moving to the capital city, Tianshu's meticulous care and doctor's treatment made her condition improve day by day.

I thought that if I stayed away from Xuancheng and came to the capital, the past will be broken.

Never thought that a Ye family appeared.

If it were not for the improvement of Ye Mengwei's condition, she really wanted to arrange Tianshu and the four of them to take Ye Mu away.

Listening to Ye Mu's gentle voice, the chill on An Xia's face gradually faded.

"Xiaxia, thanks to your friends for taking care of your mother during this period of illness. If it weren't for them, today..." Ye Mu paused and continued: "Mom, that stepmother is here again. Mom thinks, otherwise, leave the hospital. Well, find a remote and quiet small mountain village, lest the Ye Family find it again and worry you."

listen.....

It seems that she had visited the Ye family in An Xia before.

An Xia moved in her heart and asked, "You have been hiding far enough, but they still don't want to let you go."

"Xia Xia!" Ye Mu straightened her voice suddenly, "Xia Xia, be good, listen to your mother, don't offend the Ye family for her mother."

Well, it is certain that An Xia not only knew Ye Jian, but also the poor relationship between Ye Family and Ye Mu.

How good is the relationship between stepmother and stepdaughter?

Ye Mengwei can survive the current old lady Ye, she is already very powerful.

"Poisonous pus is soaked in, so you can't keep it forever. When you squeeze it out, drain the pus, and let the blood come out, you can live better." Since the former An Xia knew about it, she didn't need to hide anything.

There was determination in the cold voice, "Blindly evading will only make the Ye Family gain an inch."

Ye Mu was shocked.

"Xia Xia, the Ye family is not the power of you or me to shake, the tree has big roots, and the power of your own can shake its roots! You are still young, and you don't know the depth, and sometimes you can escape and you can save your life!"

She hasn't tried it.

After trying it, it was a complete failure!

Back then, her father only believed in the stepmother who gave the Ye family three sons and one daughter. No matter what she did, her father would maliciously speculate on her.

She even warned her not to anger her brother and sister because of her elders.

What does she have to provoke her half-brothers and sisters?

What siblings does she have?

The father married three wives. Except for her mother who gave birth to her, all of them had brothers and sisters, helping each other, only to anger her in everything.

Had it not been for her cleverness, she would have been killed by her stepmother and her half-brothers.

Ye Mengwei, who had suffered a lot, knew that the Ye family was great, how could An Xia take risks.

"Xiaxia, you are old now and have your own ideas. Mom will respect your ideas and every decision you make. However, except for the Ye family."

"The Ye Family, the most powerful family in the capital, has countless enemies, and even more people who want to destroy the Ye Family. But Xia Xia, look, how many years have passed, has the Ye Family fallen?"
