Chapter 461: action

but.....

After An Xia finished speaking, he paused for a few seconds and then said softly: "But I guess, the possibility of Fang Yue being here is not very high. I suggest which side of the secret whistle is the most concentrated, focusing on confirming whether Fang Yue is hidden here."

Four border policemen including Lu Xinghe have always agreed.

"All the secret sentries are concentrated in the north corner, and the wooden houses marked with Fangyue spread. There are a total of four wooden houses that need to be confirmed." Lu Xinghe was the team leader of this operation, and everyone obeyed his arrangements.

While listening, An Xia secretly noticed and confirmed.

There are indeed many secret whistles in the North Point.

"Anxia, you are in charge of the wooden house next to the target wooden house. I am in charge of the target wooden house. Niu Feiyu is the lower right wooden house, He Miao and the upper right wooden house. Xie Tie continues to be vigilant."

Lu Xinghe quickly completed the arrangement, and he left the most dangerous wooden house to himself.

An Xia has a little thought about this.

He said: "Invisible near the target cabin, I am small, the target cabin is more suitable for me, or leave it to me?"

The target cabin is indeed more suitable for Anxia, but it is too dangerous.

Lu Xinghe just wanted to shake his head, An Xia said again: "We need to confirm Fang Yue's whereabouts as soon as possible. Whoever is most suitable to be responsible for that place will be arranged. The four wooden houses are all under the secret guard, which is equally dangerous, no matter where the danger is less. , Where is more dangerous."

This is true.

Xie Tiedao: "Anxia made no mistake, the target cabin is indeed more suitable for Anxia."

"Okay, you must protect yourself." Lu Xinghe no longer insisted, nodded in agreement.

He said: "Damzhai is probably just a foothold for Fangyue. We must act cautiously and never leave any traces."

"Yes!"

"Yes!"

"Yes!"

"Yes!"

Several people with solemn expressions softly responded.

Because everyone knows that they can't disturb the cottage tonight.

Once alarmed, he exposed himself and Fang Yue.

Fang Yue is too important to the border police, but her identity is also useful to both black and poison.

Before the other party fully confirmed that Fang Yue had a problem, he would definitely not dare to fall out with Fang Yue, let alone expose Fang Yue and let the border police come directly to the door.

As Lu Xinghe said, Damzhai, who had left a mark on Fangyue, was very likely to be their temporary foothold.

But everything is speculation, and they must confirm that Fang Yue is not in the village before they can leave.

If not in Damzhai, where is Fangyue?

The other country definitely hasn't passed over, because the wired people over there are also keeping an eye on it.

If Fangyue has passed, the border police brigade has received the news early.

Since there is no past, Damzhai has a distress signal left by Fang Yue. It is their first task tonight to confirm whether she is here now.

You have to break in too!

Several people on patrol had passed, and the five of them avoided the secret guard, detoured, and approached the target wooden house cautiously.

There are too many secret whistles, and they can't be solved on the spot, the only way is to avoid them carefully.

After choosing a detour, we arrived near the wooden house at 7:30 in the evening.

The wooden house is already in front of them, just waiting for them to confirm.

"There are people in the attic. There are people on the left and nine o'clock, and there are people on the upper right and one point."

Xie Tie, who climbed up the tree, scanned the surroundings like a carpet, and there were indeed many secret whistles around the wooden house.

An Xia cat tightens her waist and hides behind the bush.

She is smaller than the border policemen, and she is still good at night fighting, hiding in the dark, motionless, like a stone sculpture.

Following Lu Xinghe's order, several people quickly dispatched and approached the wooden house.

Chapter 462: Another defying skill

Xie Tie on the hidden tree glanced at An Xia subconsciously, and saw a petite figure, like a boneless cat, a dazzling, silent and silent instant passing several meters away.

I have seen An Xia's speed when I was hiking, and I knew her speed was very fast, but I really didn't know it was so fast!

As An Xia got closer and closer to the target cabin, Xie Tie held his breath.

Getting closer and closer, getting closer and closer, directly and completely close to the wooden house.

Just as Anxia was about to sneak into the wooden house, a lightning bolt suddenly struck the sky above the cottage, and for a few seconds, the cottage was as bright as daylight.

An Xia immediately went invisible behind the dry wood stacked along the wooden house, breathing restrained, and coping calmly.

Inside the wooden house, there was the sound of someone talking.

Is the local language!

An Xia couldn't understand it, but she could repeat a sentence when the person inside said it. The tone and voice were exactly the same as those of the other party, except that the voice was aura.

The distance is too close, so I can only use breath.

The people inside were talking to Sada.

"There has been no movement. The secret post in the village changed guards in three rounds. The patrols also changed guards in three rounds, keeping an eye on them 24 hours a day and night."

The sound of breath drifted into the ears of Lu Xinghe, He Miao, Xie Tie, and Niu Feiyu, all of them tightening.

An Xia, who doesn't understand the local dialect of Shanzhai, she... she is repeating it, clearly not mentioning a word.

Is she a repeater?

A chip is embedded in the brain!

It's all done!

Mother Sada, who was standing by the window of the wooden house, frowned after hearing the report from her subordinates, "Nothing unusual?"

On the phone, the subordinate's answer came, "No, it has been very quiet, and we can find out any movement in the first time."

Mother Sada was silent.

Is there really no problem with Fang Yue?

Or did Fang Yue have time to notify the border police?

impossible.

Damzhai took a break. He deliberately relaxed the guard of Fang Yue, and on the road deliberately threatened Fang Yue's life many times, and his life was threatened. Did Fang Yue not say that?

Tomorrow evening will be the last time they will stay in Xia Country. If Fang Yue has no problem, then who is the spy?

Mother Sada's eyes were gloomy, as if a storm swept across.

Although he told Sangden and Dan Tuoye that he didn't have much doubt about Fang Yue, in fact, he was more suspicious than anyone else.

If it weren't for Fang Yue's great use, regardless of whether Fang Yue had any problems, he would have solved Fang Yue with a single shot!

"Let me keep an eye on it tonight! As long as it is a stranger who enters the village, it will be solved for me!"

"yes, Sir!"

An Xia has finished retelling, and people have left the wooden house.

Lu Xinghe, He Miao, and Niu Feiyu also evacuated quickly.

Fang Yue, not in Damzhai!

Here, it really is a bait.

After the assembly is complete, return directly to two kilometers before stopping.

During the evacuation, An Xia had already passed through the nearby stockades that might be hiding in her mind.

The raincoat set up a hiding spot on the ground. Except for one person, the others hid under the raincoat. An Xia took out an electronic map and whispered: "There are several stockades that are far away. It is impossible to hide. Only A small place may be a hiding spot."

There is only one place!

And here...

Flicking a finger across the electronic map, Anxia said why it is possible to hide here: "Go here, the closest to the border of another country."

"And here is the Jindu River. The Jindu River has always been the focus of patrols by the border police of the two countries. They fled to the Jindu River and the possibility of exposure is very high."

"Since you are fleeing, you must choose a favorable escape route. Here, it is a necessary point for a favorable escape route. After this point, their only place to stay is this point."

Chapter 463: low profile

In addition, An Xia gave another reason.

It's because of his own character with the mother Sada.

"After reading the personal data of Sada, I found that he has a big characteristic, and he likes to watch him struggle in his own layout."

"I also like to return to the scene and relive my success."

"Presumably, he must be hiding the nearest place now, waiting for us to snare ourselves, waiting for us to get the bait, waiting for us to struggle to death."

"And he, appearing as a victor, appreciates our pain to the fullest. And here, not too close to Damzhai, not far away, he can escape immediately, and he can quickly return to Damzhai."

"If I were Mother Sada, this is my best place to stay."

After finishing talking, An Xia raised her eyes, looking at the faint screen light of the electronic map, she saw all the four border police staring at her for an instant, as if...

Looking at a monster.

The monster is her.

"What? Is there a problem?"

An Xia asked.

Why look at her with such a strange look?

Lu Xinghe was the first to shook his head, "No, your guess is correct. It's just..."

After swallowing his throat, Lu Xinghe asked in a very low voice, "You just retell the local dialect, do you actually know how to say it?"

However, the information shows that Anxia does not speak the local language.

An Xia smiled and shook her head, "No, I will repeat what the people inside say. Is there something wrong? The repeat is wrong?"

"Sorry, it's the first time I listened to the local language here, but I didn't find the sense of language."

Speaking of several people's expressions are even more weird, Niu Feiyu gasped faintly.

All of them understood the dialect in the mountains, and because they understood, they understood the meaning of those words repeated by An Xia at the first time, and they immediately notified An Xia to retreat.

After a few seconds, Lu Xinghe said: "You repeat a lot, we almost thought you could speak the mountain dialect of Zhaili."

"No, this is the first time I listened to Shan dialect." It turned out that they had said that the local dialect was Shan dialect, and An Xia corrected himself.

The first time you listen to Shan dialect, you can grasp the tone and repeat it verbatim. Is this still a human?

It's a robot!

Robots are not so awesome.

"The strength of the Intermediate Special Combatants is so awesome, then..." He Miao exhaled, "The strength of the Special Combatants is probably going to heaven."

This, An Xia really doesn't know.

Explained: "I have a good sense of language, and I can learn any genre relatively quickly. Although Shanhua is difficult to understand, it has an upward tone when listening to it. If you grasp the tone, you can basically repeat it."

"It's just a repetition. Tell me, I know what it means."

If you can understand, so much the better.

"Enough enough, we were all stupid for a few seconds at the time." Xie Tie said: "You have an eye-opener for us."

Walking electronic map, plus walking repeater, two awesome skills, invincible!

An Xia didn't think it was so powerful.

If you want to live in the imperial domain, the more you will get, the longer you can live.

Smiled and said nothing.

Lu Xinghe saw that An Xia was reluctant to say more, and immediately returned to the right way: "Go, go here. You can be there before ten o'clock!"

It's less than eight o'clock now, two hours is enough!

Fang Yue was already in a hurry.

Quietly, sneered, "What? Make me play, right? It means that I will leave at night during the day, and now I ran over to tell me, leave early tomorrow morning, do you have a **** truth?"

"If you **** tease my old mother again, my old mother will go back now!"

Chapter 464: Black eat black

The mother Sada stared at Fang Yue, her gloomy eyes staring at him for a moment, with a sense of coldness, as if to tear the anger on Fang Yue's face, to see clearly the true side she was hiding under her anger. .

"Why, go back in such a hurry, stinky lady, did you really do something I'm sorry for Lao Tzu?"

This time, he was talking in the mountains.

Fang Yue also understands the dialect in the mountains.

She is also from the mountain.

Hearing this, Fang Yue folded his arms and spit out fiercely, "My old lady is free to come and go, let her live a good day but follow you desperately, is my **** brain flooded?"

"Heh, don't **** use the set of coaxing the princess to coax the old lady, say something is only a love and a baby. I am! You and he, there are so many women outside, the love has been gnawed by the dog!"

"My Fang Yue wants to have a good time with you, then I'm not afraid to tell you, my **** good with you, my brother is in your hands!"

"If it weren't for my brother, I would follow you? I want money, money, cheeks, body, and my **** contacts. Why don't I have a few little white faces?"

"Following you, such a big five-and-three-thirty dog thing, I yuck! You really **** treat yourself as a dish!"

The more you scolded, the more you spoke, and in the end it all rose to personal attacks.

However, doing the opposite, made Mother Sada even more uncertain whether Fang Yue betrayed her.

Seeing this, Fang Yue slowly released her clenched hands in secret.

Just now, she was so afraid that her fingers were shaking.

I thought Mother Sada had discovered something.

Fortunately, I know something about this dog and know how to deal with it.

It hasn't been said for a long time that this level should have passed again tonight.

Mother Sada stared at him for a long time before he said viciously: "Follow Lao Tzu out, and enjoy a good day with you! The premise is to be obedient to Lao Tzu."

"Why make my old lady just listen to you? When have you ever heard of my old mother? My brother, tell me where is my brother! Are you still alive!"

The angry roar, the voice was sharp and sharp, and it was clear from the outside of the attic.

"arrive..."

Mother Xidagang spoke, and suddenly there was a "bang" shot from the mountain. The eyes of Mother Xidaa looking at Fang Yue were suddenly bloody, "Damn, bitch! It really is you!"

Fang Yue was also shocked.

Xia Guobian police came here?

So fast? !

They went to Damzhai?

Then find this way?

How can it be!

She left Damzhai in a hurry, and she didn't have time to leave a mark of withdrawal. No matter how fast Xia Guo's border police is, she can't find here so soon!

My mind turned around, and he yelled in a loud voice, "Are you **** sick? Don't go and see what's going on. I'll tell you, Mom, Sada, what's going to happen to me tonight, I'll be the **** Pull you to be buried!"

The center of the forehead was severely held back by the mother Sada with a gun.

The red-eyed mother Tada's finger squeezed the trigger, "Still playing tricks for me here! Say! Did you bring the Xia Guobian policeman over!"

"Asshole! I'm not going to die!"

Fang Yue roared back without fear, and the gunfire suddenly became dense in the small cottage.

"Boom boom boom... boom boom boom..."

"Xia Guo's border police, is this the **** border police Xia Guo here? Is this the **** style of Xia Guo border police?"

The denser the gunfire, the more indifferent Fang Yue became.

Xia Guo's border police would never shoot at a distance!

They will sneak to their side silently, unconsciously solving the goal they want to solve.

Chapter 465: Use and discard

Mu Sada obviously thought of it too.

He had exchanged fire with Xia Guo's border police many times. If he hadn't escaped quickly, Xia Guo's border police would have solved it.

"Musada! Musada!" Dan Tuoye's stern shout came downstairs. This time, it was no longer the daytime not rushing or slowing down, and the tone was warm and soft.

Hurry and busy, accompanied by horror.

Sangden also roared, "Damn! Mother Sada, you **** roll me down!"

Gunshots came from all directions, and the small cottage was completely surrounded.

"Look at her!"

Mother Sada retracted the gun and said to the two guards: "Without an order, she is not allowed to leave the attic for half a step!"

After speaking, he rushed downstairs quickly.

Sangden almost hit him in the face head-on.

Mother Sada took the gun again, with a grim face, and pointed at Sangden.

And Sangden also quickly pointed his gun at Mother Sada.

"Kakka..."

Seeing this, Mu Sada's subordinates also pointed their guns at Sangden.

"When is it all, it's still fighting inside!" Dan Tuoye lost his calmness during the day, his face was white and fat, and his color changed anxiously, "Listen to the gunshots outside! Do you wait until you get a bullet? "

The two confronted each other.

Dan Tuo was so angry that the fat on his face trembled, "Yes, you should take the time to kill one! Kill one and ask who is coming from outside! Is it Xia Guo border police."

"No!" Sangden replied. He had also exchanged fire with Xia Guo's border police. It was not their style to shoot such a long distance.

Among the three, only Dan Tuoye did not have Xia Guobian police on fire.

Hearing the words, yelled, "Who is that! Mother Sada, is it your enemy!!"

"Big Brother!!"

A man in a uniform skirt rushed over in the rain, "Big Brother! There is a guy with an unknown origin in the fifty or so, you hurry up and leave it to us here!"

There are not many of them, there are only more than 30 people, and all the others are left in Damzhai.

Three kilometers away, Anxia and the others also heard gunfire.

The sound of gunfire came, and the five people's expressions were sharp.

How can there be gunshots?

An Xia listened, her black eyes sinking coldly, "The gunfire came from the destination we were going to."

"Hurry up!"

Lu Xinghe drank low, and An Xia, who led the way, had already speeded up.

There are gunshots, that means they are correct in their guess!

The five quickened their pace and rushed away at the fastest speed.

In twenty minutes, the sound of firefighting was getting closer and closer, and in the green world, An Xia could already see the tail of the fire dragged out by the bullet in the night, like a shooting star, passing by and disappearing in the blink of an eye.

In the col, a few wooden houses are hidden, but the crossfire point is not near the wooden houses, but...

Not far away oncoming, the leaves were shaking, and someone was running towards them!

Running towards them?

what happened?

Rao An Xia has extremely rich combat experience, and I can't figure it out now.

"Mother Sada, you are **** crazy! This is the way back to Xia Country, you..."

More women's voices came from the front.

Mother Sada?

The woman is Fang Yue!

"Bang...bang...bang!"

There were a few more gunshots and someone screamed.

"Hidden!" An Xia drank, and the five quickly hid.

Sangden was already going crazy, "Damn! He even sent someone to sneak into the territory of Xia to kill us! Doesn't he need us to collect money for him?"

"Yes, he doesn't need it anymore!" Dan Tuoye said coldly. This time, he was completely devoid of harmony, and his eyes were as gloomy as his mother Sada. "Xia Guo must have put pressure on him, he I don't want to expose myself, I can only abandon us!"

Chapter 466: Strength demonstrated

The frustrated voice intermittently enters my ears, and it is not very clear in the sound of the "whipping" of leaves.

In addition, what he said was all other national dialects, An Xia listened carefully for a while and gave up.

Although she can speak many languages, she hasn't learned the language of this country, and she doesn't understand it at all.

It seems that it takes time to learn.

She didn't understand, Lu Xinghe and the others could understand, but at a certain distance, there were all kinds of noise interference, and the ears were broken, and they could only hear a few words clearly.

"Press, expose, and abandon."

Lu Xinghe interprets softly so that An Xia can participate.

The literal meaning can be understood, but the specific reason is not understood.

However, they had found Fang Yue, at least they knew that Fang Yue was still alive.

But it is not a betrayal, and it is temporarily unknown.

The five remained unmoved and did not take advantage of the chaos to join the sudden firefight.

I don't know how many people are on both sides. The five of them rashly join in, they will only put themselves in danger.

Watching the surroundings, An Xia carefully studied the words that Lu Xinghe had said before. Then, her black eyes narrowed slightly, and she thought of a possibility.

"You said, don't you want Mother Sada to go back?"

There was silence in the channel.

Afterwards, Lu Xinghe asked softly, "What do you say?"

An Xia pressed her throat and said the reason lightly and quickly, "Just now you talked about exposure, and exposure must refer to Sada, Fang Yue, Sangden, and Dan Tuoye."

"And their information jointly mentioned a person behind the scenes who is hidden behind the scenes and has a certain status and power in their country. Now several of them are being hunted by our country Xia. Since the people behind the scenes have status and power, they must have been understood."

"The Kong team also mentioned that they issued a hunting order to the other side, the purpose is to cut off the way for the mother and the others to return to the country. Keep the people in the territory of Xia and annihilate them in one fell swoop."

"With our pressure from here, the person behind the scenes with status, power, and high authority over there, will he be an enemy of our country for these people?"

"As long as a smart person thinks about it, he will not choose to be an enemy of our country. Since we don't want to be an enemy of our country, then, we can only put these chess pieces that may reveal his identity before being caught by our country. Killed in advance!"

"If you guess this way, exposure, pressure, and abandonment can be explained."

That is very explainable!

The eyes of Lu Xinghe, Xie Tie, He Miao, and Niu Feiyu were much deeper when they looked at An Xia.

Why is the little girl so young when she is so young?

Smart and capable, he can always think a few steps ahead of these men's battles, and he thinks every step of the way correctly!

How is this brain born?

The same people, the same fighters, why is the gap so big?

Several people were silent for a long time, but An Xia didn't think he was wrong, so he asked, "You guys, do you have any other guesses?"

The emperor believed in his self-confidence, and would never feel that he had guessed all wrong.

She has come to a guess from many aspects, even if it is wrong, but the general direction will definitely not go wrong, it may be that the details need to be refined.

"No, we think, Xiao An, you should be up to the point." Lu Xinghe immediately replied. At this moment, he has already admired An Xia, "It can also explain why they returned."

Directly sneak in over there to chase and kill, but we have no wind and no waves for the time being, before, there is no way to go, and after, we can still see the way of life for the time being, we can only bet on the same thing!

They are all ruthless characters who step on sharp knives to invigorate blood, and the least in their bones is gambling!

Chapter 467: I can't accept it

The dangerous elements fled back again, what An Xia thought of...

"Then let's wait, except Fang Yue, should everyone else directly rectify the Fa on the spot?"

Fa-rectification on the spot?

Huh?

These four words are very touching!

With excitement in his eyes, An Xia said again: "These people are keeping too much food in our country, and they may pollute the air in our country. Most importantly, they may make trouble here, and even hurt the innocent."

"It will also cause life threats to you. Now we only need to rectify them on the spot, and all the above risks will be eliminated! Isn't it good?"

A little eager, every word made Lu Xinghe and the others feel that the blood-eating madness came from An Xia.

People can't help but tremble.

An Xia seems to like **** battles very much.

A **** battle solved on the spot without leaving a living.

An Xia really likes **** battles that are solved on the spot. She rarely left alive the battles in her last life.

Unless the opponent is irreplaceable and vital, she must be captured alive before she will be merciful.

Like Mu Sada, Sangden, and Dan Tuoye, the crimes of making trouble on the border between the two countries and still bearing the life of Xia Guobian policeman, An Xia did not even consider capturing alive.

The Fa-rectification was grandly on the spot, presumably, the people behind the scenes over there have to thank her.

Lu Xinghe and Xie Tie quickly looked at each other. In the night vision device, there was a hazy green world, and they saw each other's faces in faint surprise.

Fighting fiercely below, bullets tore through the darkness and harvest life.

Above, our side hibernates quietly, waiting for the opportunity.

In the sound of bad radio reception, Anxia heard Lu Xinghe say: "Okay, except Fang Yue, all the other personnel ambush."

In itself, so did the orders they received.

They were just surprised that An Xia's madness that likes blood warfare, it was madness in the bone, and it made the soul tremble and fierce.

Indifferent, ruthless, without negotiation.

An Xia thought exquisitely, Lu Xinghe and the others replied after a short silence, she knew more or less what they were thinking.

But, so what!

What she said is definitely the best way.

Could it be possible that while pulling Fangyue, he also brought mother Sadar, Sangden, and Dan Tuoye back to Xia country safely?

If you really want to take it back, the follow-up will be even more troublesome!

No, since someone is also sent over there, who kills it or not?

"We save our energy, and when the fierce battle between them is over, they flee, and die to death, we can come forward and pick up the omissions."

An Xia bent the corner of her mouth and finished speaking. He glanced around, looking for the best vantage point, and concentrated on the high area to observe the enemy's situation, so that he could suppress the opponent's firepower in time.

Soon, An Xia saw a spot, a protruding rock. There were trees on the right side of the rock for shelter, and the stone body on the right was slightly higher. She happened to be hidden in the groove of the rock, and she could take action at any time.

"I'm going here..."

She pointed to the position a little bit to the right, "Here, I can observe the three directions of east, west, and south, and the north will be handed to you."

"good!"

Lu Xinghe nodded in agreement, carefully instructing, "Be careful."

"Well, you guys should be careful too." An Xia smiled, licking her waist, walking through the branches and brushing the leaves, leaving quietly without any sound.

After He Miao waited for her to leave, he whispered to Niu Feiyu next to him: "The mid-level fighters who came out of the battle of the land are really extraordinary. If you shoot, people will kneel."

He has been kneeling for several rounds anyway.

"Sometimes, I'm quite unconvinced. I always feel like I'm not inferior to the fighters who came from the team. But compared to that, it's still a little worse."

Chapter 468: Great them

After listening to Niu Feiyu, he thought about it carefully, and it was indeed the case.

But...

Speaking quietly for myself and for the frontier police, "Ordinary fighters are definitely not as powerful as ours. Some second-line fighters have no chance to pick up real guns and fight with criminals."

Those who should be admitted must be admitted, and those who should not be humble, you must put your posture in full, and you must not show off!

Speaking of He Miao's heart.

The corners of his mouth curled up, his clarified eyes smiled slightly, "Well, I think too!"

They are not bad either.

Guard the border and fight criminals to maintain stability at the border. For this stability, I don't know how many martyrs fell in the jungle.

Yes, a hundred bones are buried in the green hills.

Yes, only the clothing mound.

Some have disappeared since then.

Also, the remains are mutilated.

For protection and stability, they also gave blood and life, so how could it be worse?

In Anxia's eyes, they are also great people!

Never underestimate, only respect.

I hope they will return safely every time they perform their tasks, with no injuries, no deaths, no pains and no disasters.

Now that she has joined them and fought side by side with them, she has the responsibility to protect them, come out together, and return to the team together!

The smoke thickened in the air, and the fierce fighting had turned to covert combat.

The two sides enter the jungle, with night and trees as barriers, making it more difficult to shoot, and if they rush forward, they are likely to be killed by the opponent hiding somewhere.

Only by acting cautiously and accurately shooting can you find the target.

Fang Yue hid in the bushes, her hairy hair was very embarrassing.

Running too fast, my chest hurts so much that it seems to explode, and I don't dare to gasp, cover my mouth and nose with my arms, and adjust my breathing with small mouths.

Beside, the mother Sada's breath was hidden, and the whole person shrank in the dark, as if already invisible.

This is a very powerful guy, and jungle escape is a piece of cake for him.

Carefully observe the surroundings, until the unkind gaze of the woman next to him has been staring at him, until he can't ignore it.

Grasping his throat, he said harshly: "Damn, what do you look at! Keep my eyes on Lao Tzu! Don't **** drag Lao Tzu's hind legs."

I didn't dare to swear loudly like before, for fear of exposing myself.

Squeezing his voice and speaking, his fierceness remained unabated.

Fang Yue didn't dare to speak loudly, "You **** said to take your old mother to eat and drink spicy food, your golden master and hegemon are all the **** going to kill you, you are now a real bereaved dog!"

"Does the mourning dog have a **** face in front of the old lady? It's unknown whether it can leave alive or not!"

It doesn't matter if you really can't leave alive, as long as the mother Sada dies in front of her!

She must see her mother Sada die before she can be reconciled!

Mu Sada was angered by Fang Yue again.

Oh shit!

The stinky lady has sharp teeth and only speaks, and when he comes back, he will be angered to the point of liver pain.

"Damn, don't talk about frustration! I'm past this tonight, and you will follow Lao Tzu from now on. You are the woman Lao Tzu loves the most!"

It is impossible to guard a woman.

It can only be said that the friendship that lives together is much deeper than that of other women.

Fang Yue didn't bother.

"Bah... uh..."

After pooh, the next words were not finished yet, and his mouth was covered by the mother Sada.

"Shut up to Lao Tzu if you don't want to die!" Mother Sada's face changed because of her pouting, for fear of attracting firepower.

Sangden was under the two of them, his arm was scratched by a stray bullet, leaving a blood hole, Dan Tuoye simply handled it for him.

In the present situation, we can only help each other, and can no longer fight inwardly.

Chapter 469: collapse

Thorndon knew he couldn't fight anymore.

Otherwise, the two above had a conversation, and they would have cursed back with his temper.

Now it becomes a curse in my heart.

Grass fuck!

When is it all, the mother Sada is the **** and flirts with a stinky lady!

Fang Yue finally took away Mu Sada's hand!

Oh shit!

He was almost covered to his back!

After exhaling a long breath, Fang Yue softened her voice and lowered her posture, "Mother Sada, give me something to prepare. Where is my brother now? It's death or life. Give me a word. "

"I beg you, give me a word. Tonight, whether we can go out alive or not is not certain. I don't want to die without knowing the news of my brother."

Sangden raised his eyes and looked at Fang Yue's position.

The triangular fierce eyes narrowed, and he opened his mouth in a cool manner, very light, but Fang Yue could hear it.

He said, "Your brother, it's gone."

"Sangden!" This time, Mother Sada became murderous towards Sangden, "It's none of your business, shut up for Lao Tzu."

The less Thorndon was allowed to speak, the more he wanted to speak.

Fang Yue's stinky lady is right, it's not certain whether they can go out alive.

"Mother Sadha, I really despise you. Fang Yue has been with you for more than three years, and several times have lost his life. You even kept this kind of thing from her!"

"Fang Yue, your brother Fang Li died a long time ago, back then..."

"Thorndon, I shot you!"

Mother Sada picked up the pistol and fired directly.

The bullet hit the rock, sparks splattered, and the warhead was stuck deep in the cracks in the rock.

Sangden was also not welcome, and also pointed the gun in his hand towards Mother Sada.

"You two want to die so much, don't drag me and Fang Yue!" Dan Tuoye rushed over and pressed Sangden's arm as quickly as possible.

Grass fuck!

Everyone wants to die!

He doesn't want to die!

Fang Yue, with cold hands and feet, was completely stupefied.

She asked Sanden, "My brother, where is it buried, do you know?"

"Fang Yue!" Mother Sada growled, "You..."

"Fuck you! You **** shut up!" Fang Yue roared back with a loud voice, "Where did you bury my brother! Say! Where did you bury my brother!"

I don't care if it will be exposed anymore!

Her brother is dead, and she doesn't want to live!

Then drag the mother Sada to die together!

Above the rock, An Xia twisted her brows lightly.

"I heard Fang Yue's voice just now. She was asking where her brother was buried. But Fang Yue's information mentioned that her brother was gone."

Lu Xinghe and the others frowned.

Fang Yue's younger brother died three years ago.

Fang Yue said it herself.

Now I asked her brother where he was buried. Is it possible that Fangli did not die for three years?

Soon, the doubts were solved by Fang Yue himself.

"Mother Sada! You took my brother three years ago, and you **** said you would let my brother live! You **** said it! You **** said it!"

"You have been lying to me, you have been lying to me!"

"Damn, you calm me down! Yes, I lied to you! If you don't lie to you, would you **** listen to Laozi's arrangements?"

"Fang Li died long ago! I wanted to escape on the road, but I shot him down!"

"Why, do you still want revenge? Don't dream! Qin Wu's pervertedness, I wanted to get you over and play you to death. You killed me, and you'll be **** in Qin Wu's bed tomorrow morning!"

"Who is Qinwu?" An Xia asked Lu Xinghe.

"One of their country's high-ranking fighters! High authority, no one dared to move." Lu Xinghe answered An Xia in a deep voice. In his eyes, the dark colors were surging like dark clouds.

It really is Qin Wu!

He has always been acting as an umbrella for these people!

Chapter 470: Bear the burden

An Xia tried very hard to recall the past, and soon, she really did not hear the character "Qin Wu" before she died.

Min Lai, one of their country's senior warriors, has heard of it.

A very capable, war-skilled man, it is said that he is not clean behind his back, and has done some shameful money-making. He is a powerful person with ideas and skills.

Qin Wu, she really hasn't heard of it.

Then he asked, "Where is Min Lai? Dead?"

There was another brief silence in the channel.

Xie Tie couldn't laugh or cry, and replied softly, "I'm still alive, he and Qinwu are sitting north and south, the well water does not interfere with the river, and there is nothing wrong with each other at the moment."

It's just that there is nothing wrong with each other at the moment, and there will be nothing in the future, not necessarily.

Qin Wu is a rookie in recent years, even more ambitious than Min Lai.

Whether we can live in peace or not depends on the future,

After An Xia listened, she felt a little bit emotional.

Min Lai is still alive, and she is a person who has died once.

An Xia sighed, but Fang Yue's heart was ashamed, even more uncomfortable than death.

Because of her anger, her position was exposed again, and Mother Sada hated her and slapped her several times.

He pressed his voice and said: "You **** call again, I went back and dug Fangli's grave and took out his bones to feed the wild dogs!"

Fangyue, who had lost all thoughts, had no desire to live anymore.

That year, from the moment when mom and dad took her brother and escaped from the stockade, she told herself time and time again that she was not only living for herself, but also living with her brother.

Since you are alive, live more wonderfully.

Live wonderfully with the nostalgia of your parents for your life.

From the moment she walked in the stockade to the prosperous city, she felt like a phoenix nirvana was reborn, and she was reborn from then on.

She was gradually buried by herself, and gradually became unfamiliar until finally disappeared.

But she didn't expect that, just when she thought that the Phoenix Nirvana had been reborn, the mother Sada once again broke her hope for the future.

The younger brother was taken away so that she could work for these **** like her parents!

For the sake of her younger brother, she had to surrender to reality, but she was unwilling to be used, and even less unwilling to become a **** in the hands of Sada.

My parents have already died because of these people eating black food. Is it possible that in the future, myself and my younger brother have to follow the same path as their parents?

She promised her parents that she would take good care of her younger brother, protect her younger brother, and stop getting any dirty things that can ruin the family!

In order not to follow her parents' old way, she secretly contacted the border police, ignoring the persuasion of the border police, and insisted on becoming their informant.

One is to be able to look up in the future.

The second is that she wants to do her meager efforts to clean up all these harmful poisons.

From then on, she forced herself to become cold, shady, cruel, and bold.

Six months later, she took over the competitor that Sada had resolved and became one of the principals.

From that time on, she has become even more fierce, whether she is a person or doing things, she is more cruel and cruel than the other subordinates around Sada.

Within a year, she used her looks to solve several rivals for Sada. She won the trust of Sada and eliminated the mother of evil. It can be described as killing two birds with one stone!

Because of this, she was able to get a lot of noise in the past three years, and she won the trust and reuse of Sada.

Xia Guo's border police have been continuously providing information on poison heads between the borders of the two countries, and he has also gained the trust of Xia Guo's border police.
