Chapter 471: Tricky

However

Not long ago, another mistress of Mother Sada entered the territory of Xia. In order to suppress her, she committed a series of disgusting incidents, trying to drive her into despair and desperation.

It's a pity that this person is too stupid, and every time he calculates, he is resolved by himself.

However

Not long ago, another mistress of Mother Sada entered the territory of Xia. In order to suppress her, she committed a series of disgusting incidents, trying to drive her into despair and desperation.

It's a pity that this person is too stupid, and every time he calculates, he is resolved by himself.

The mistress who couldn't calculate but was humiliated, became angry, and told a secret that made him almost collapsed at that time.

She said, "Fangyue, your brother Fangli is dead! I saw the mother Sada shot and killed him! Hee hee, one shot hit the right leg, one shot hit the shoulder, and the last one hit Back of the head."

"You, you, it's so pitiful, you have been working for your enemy. You can live to this day, and you have to thank yourself for working for your mother, Sada."

"Otherwise, you were dealt with with a shot by your mother Sada, and you were sent down to be company with your short-lived brother."

It's not an exaggeration to hear that the sky and the earth break apart.

He didn't immediately believe it, and began to inquire secretly.

Finally let her inquire some more.

Her brother Fangli is indeed gone!

She thought that the younger brother who had been alive was killed by her mother Sada as early as three years ago in order to escape to find herself!

Fang Yue, who was forcibly dragged away, at this moment, as the mistress said, she just wanted to go down to accompany her brother and her parents.

To be alive alone is too tired.

To live alone is really meaningless.

Not as follows to accompany my younger brother...

There seemed to be a call from my brother Fangli in my ears.

"Sister, sister, stay with me... stay with me... come down and stay with me..."

It turned out that some fierce eyes were gradually disappearing, and his eyes became completely hollow and apathetic.

In this way, Fang Yue, the walking dead, was dragged by the mother Sada and climbed to the upper side of the ridge.

Above, An Xia reported the situation in time, "Seeing six figures, one figure is petite, and Fang Yue should be dragged away. The man dragging Fang Yue is lean, about 172 in height, and should be a mother. Sada."

"The other four people, two of them are tall and physique suitable for Sangden and Dan Tuoye."

"There are two more..."

"boom....."

"boom....."

The sound was interrupted by gunshots, and it was the shots fired by the two people that An Xia wanted to report.

The guns in their hands are not ordinary guns.

It's a big sniper!

Take the sniper and escape, the mother Sada is really strong!

The blood in the eyes is more intense, "These two people are a bit tricky, both are snipers."

Sniper! ! !

After listening to the latest development report, the faces of the four border policemen all changed.

What is most afraid of encountering in the jungle?

The sniper is definitely number one!

Hidden in the dark, they kill one by one!

"You have to solve the two first, Xie Tie, keep up!" The hidden Lu Xinghe immediately adjusted his tactics, "An Xia, look down and find me a spot where I can ambush."

"I'm going down, you continue to stay at the control point. He Miao and Niu Yufei adjust their positions appropriately!"

Niu Yufei and He Miao pointed at Mai twice, meaning "received".

Lu Xinghe didn't want to solve it from the top. He went round to the bottom and shot, so that the fleeing mother Sada and the others would judge that the shot should be someone sent by Qinke.

"good."

An Xia guessed what his tactics were, and immediately said, "Go to the right, a little bit, and go down!"

In the night vision goggles, she saw the figures of Lu Xinghe and Xie Tie, like leopards in the jungle, descending quietly and swiftly, except for the drizzle, there was no other movement.

And below, when Sangden saw this, he wanted to pull out a gun and kill Fang Yue.

Chapter 472: Different

After hiding it again, he grinned his teeth to Dan Tuoye and said cruelly: "Damn, it's no wonder that the mother Sadana **** is reluctant to kill Fang Yue. It turns out that his mother has moved his true feelings."

Dan Tuoye crawled into panting, and after a while, he said gloomily: "You have to find a way to kill Fang Yue, otherwise, she will be mad a few more times, we two don't want to go out alive."

"Musadha wants to die by herself, don't pull us down!"

Speaking of Sangden's heartbreak, "How to kill? Mother Sadar thinks she is too tight! To escape and drag her together! Fuck!"

"We don't need to do it ourselves, I think Fangyue's **** also has a desire to die! We can do it by handing a knife." Dan Tuoye is better at attacking the mind and observing better than Sangden.

Seeing Fang Yue's desire for death, he took a long breath, taking advantage of the fact that Sada's subordinates were still fighting, Dan Tuano with cold eyes approached Fang Yue.

At this time, An Xia quietly hidden above the rock, gently pushed aside the branches of the tree on the right side that stretched above the rock, and hid her whole body perfectly in the tree, behind the rock, through the night vision device, she finally saw where Fang Yue was. s position.

At this time, Fang Yuezheng held the gun against her right forehead with her right hand.

Only saw her figure.

"What's the situation? Playing suicide?" An Xia whispered in the channel. The gun in her hand had been aimed at Fang Yue's gun.

Niu Feiyu, who was adjusting his hiding position, just swept down a few steps downhill, and was startled by An Xia's words. He asked, what? suicide? who? Fang Yue? "

"Yes! It's the only woman among the six, Fang Yue. She is holding a pistol and pointing to her right forehead." An Xia finished, but the gun in her hand aimed at the one who appeared in the night vision device. Another figure.

He is overweight and of medium build, Dan Tuoye.

She also saw that Fang Yue didn't have a gun in her hand, and Dan Tuoye had a gun in Fang Yue's past.

Dan Takino gave the gun?

A very faint voice slowly said, "The gun in her hand should have been given by Dan Tuoye. Several dogs that can bite people will not bark, and they are so cruel to their own people. The most ruthless of the poison boss!"

"We have to stop her. Fang Yue still has a great effect on us." He Miao strained his throat, and the rifle in his hand became tighter.

If there is no sniper, you can shoot at this moment!

"She'll leave it to us, you will be careful over there." Lu Xinghe looked forward and reminded An Xia, "From the information we have before, Mother Sada is the most powerful one of them, Dan Takino has the least information."

An Xia let out a "um", and the corners of her mouth tightened a little, "Someone wanted to grab the gun in Fang Yue's hand, but she avoided it. Luban, you are now approaching at half past twelve, hurry!"

Lu Xinghe and Xie Tie swept over again, speeding up their actions.

Since she needs to save people, how can she let her cut off on her own, but is there any way to let Fang Yue?

The best way is to shoot at close range, kill the sniper, and let Mother Sada continue to run with Fang Yue!

The mother Sada, who uses the big tree as her invisibility, dare not move easily now.

I'm afraid that if one is not careful, Fang Yue will be stimulated.

Oh shit!

The woman is really cruel!

You don't even want your life if you are so cruel!

Even the gun dared to hit his forehead!

If she hadn't reacted just now and stopped in time, then she would have pulled the trigger and solved herself.

Chapter 473: ruthless

Mother Sada didn't have any feelings for Fang Yue, but just used each other.

Right now, Fang Yue can't die.

If she is really dead, it will only make her side more difficult!

Xia Guo, he couldn't stay, Xia Guo couldn't tolerate him, and he didn't want to live in Xia Guo hiding.

If you can't live in Xia, you can only return to China.

That Fangyue must be kept.

He wants to bring Fang Yue to Qin Wu, let Fang Yue finish the last thing for him, and it is done. He can continue to use Qin Ke's momentum to become the biggest leader of the Northland black market!

Taking a deep breath, Mother Sada lowered her posture.

"Fang Yue, your brother is indeed gone, I admit that I lied to you. But I can't help it! Because your brother is not dead, you are the one who died!"

Fang Yue seemed to hear a big joke. She was soaked in rain. She wore a long wet head, like the souls emerging from the pond, and her whole body exuded a strong hatred.

"So, do I still want to thank you for killing my brother? Mother Sada, you killed my brother, I still want to thank you?"

"I can't afford your thanks. I'm just telling you the truth. You never thought about why you climbed to such a high position in just three years?"

"That's because of the person behind me, Qinwu! Look at me, I am like you, no father, no mother, no brothers and no brothers, and no sisters, not even relatives!"

"Look at Sangden and Dan Tuoye again. They are like me, like you. They have no relatives, only themselves!"

Fang Yue heard this, with a bleak and wretched smile on the white paper face, "You want to tell me, if anyone who works for Qinwu, must the family around him die?"

"Yes." Mother Sada nodded, "All the people who have been entrusted with the responsibility of the Wu, he is the only one in the family! You, me, Sangda, Dan Tuoye, etc., there are no newcomers."

On this point, Sangda and Dan Tuoye can testify.

However, the two did not hide with them at this time and could not verify in time.

Fang Yue didn't believe it at all.

Hateful eyes burst out, and she stared at her mother Sada, "Do you think I will believe it?"

"Damn, believe it or not, I'm just telling you the truth." Mother Sada had never bowed her head to explain to people like this before, and she habitually said it harshly. She was surprised that she had to coax Fangyue a little, and then again. Bow your head.

"I didn't lie to you. Qin Wu asked the master to approve him in the temple. If he wants to dominate the north and not fall, the people around him must be lonely."

"And you, escaped from the stockade alive, you were kept by the people of Qinwu. He admired your ruthlessness, and even killed five people to bring his brother out. Fang Yue, you are really amazing, but you are also as good as you. Killed your brother."

"And I, just the knife in Qinwu's hand, he borrowed my hand to kill your brother. You know who the real murderer is now?"

"I really didn't expect that you, such a cruel woman, would actually commit suicide for a dead person. Suicide? What the **** do you think?"

"With your temperament, shouldn't it mean killing your enemy first and then finding a place to commit suicide?"

"Fangyue Fangyue, what Lao Tzu likes most about you is the cruelty in your bones, but tonight, you really make Lao Tzu look down on!"

"If you want to commit suicide, you will succeed! Follow Lao Tzu to do another big thing, kill Qin Wu and commit suicide again! And I, if I want to be alive, and after Qingming, I will give you incense and burn paper!"

Chapter 474: An Xia

This time, Mu Sada really didn't lie to Fang Yue.

Qin Wu did find a master in the temple to criticize his life, and everyone with important tasks around him was lonely.

Mother Sada, Sangden, and Dan Tuoye are all.

Asking Fang Yue to kill Qinwu was also a plan by the mother Sada.

Only in this way can Fang Yue be pushed out as a substitute for the dead, and his side can continue to follow Qin Wu's affairs.

Fang Yue seemed to be moved.

Above the rock, An Xia, who had been staring at her surroundings, whispered: "He Miao, come up, I will go down to assist Luban."

At the bottom, the gunfire changed from dense to sporadic.

Two snipers shot, the people sent by Qinwu suffered heavy casualties, and the mother Sada had the upper hand.

If you don't take action to solve the sniper, even the five of them are in danger.

He Miao did not hesitate to sneak over and take over An Xia's position.

Below, Lu Xinghe's finger lightly touched the wheat, and he flicked twice, meaning: "No problem."

Then he played twice in a row, instructing An Xia to "be careful."

An Xia curled her lips, not yet fully opened, showing a green face, revealing a clear smile like dewdrops.

She responded to Lu Xinghe, "Don't worry, leave the sniper on the left to me and promise to complete the task. Be careful on your side."

An Xia has been paying attention to the sniper hidden on the left, and in her eyes, she can't wait to be excited about a battle.

She likes lurking in the jungle too much.

It's bold, careful, and more than who can find the other side's hiding spot first.

They approached silently, exposing their fangs like a snake, and bit the deadly point of the opponent in one bite!

He Miao had already come up, An Xia immediately gave way, and whispered to him, "I have no problem here. Keep an eye on Fang Yue."

"Okay." He Miao nodded, set a gun, and looked at where Fang Yue and Sada were hiding.

At this moment, Fang Yue can't be seen anymore, only know where she is hiding.

An Xia didn't stay anymore and quickly left the rock.

He Miao watched An Xia's body wriggle, and instantly left the rock and went down.

That energy, the blood is boiling!

At a glance, she had waited for this moment for a long time.

The little girl is so courageous.

Much bigger than him!

Back then, when he performed the task for the first time, he looked calm, but he kept emboldening himself all the way.

After returning to the team, he slowed down for three days.

As for the young An Xia, there was no fear in her at all.

What I saw was brave, fearless, and passionate.

In the scope, An Xia's figure passed by, passing like a wind and disappeared instantly.

He Miao secretly breathed lightly, escorting the teammates fighting side by side.

Except for the few gunshots sparsely shot from below, everything seemed to be reduced to nothingness in the forest.

The surroundings were quiet, and occasionally I could hear the "swooshing" of the morning wind blowing over the leaves in the mountains, and An Xia approached the sniper's position.

The distance is about 20 meters.

It's near, but she's not in a good position now.

Not suitable for shooting.

An Xia did not choose to assassinate in close proximity.

Going to assassinate a sniper up close is undoubtedly looking for death.

Snipers are more keen than anyone, and a little bit of wind can cause them to startle.

Once the sniper was alerted, all efforts fell short!

Even if An Xia had confidence in her own strength, she would not go to assassinate in close proximity.

The sniper behind the hidden tree aimed at a sneaking figure below, until the opponent raised his head slightly and observed the surroundings for a second, his finger pulled the trigger without hesitation.

Chapter 475: Close the net

There was a dull and dull "ding", and the sniper quickly stopped and changed positions.

And below, there was the sound of heavy objects crushing the bushes and rolling over the dead leaves.

The target has been hit.

An Xia watched the whole process and became very interested in the big sniper in his hand.

Grab it and play by yourself!

The cat didn't move anymore, even holding his breath.

An Xia moved slowly until the sniper hid in another position and set up the big sniper again.

The rain was a little bigger, the dripping rattles, An Xia was still moving, avoiding the leaves carefully, so as not to flick the branches and leaves and alarm the sniper.

Five minutes later, An Xia raised the gun in his hand and looked at the sniper's temple.

Pull your finger into the trigger.

At that moment, the specially-trained sniper seemed to be aware, and turned his head abruptly, and his cold, fierce gaze swept straight towards An Xia's concealed direction.

He wanted to hide, but unfortunately, it was too late.

In that second, An Xia pulled the trigger.

"boom!"

The bullet turned into a **** of death, with the despair from hell, tearing through the night and piercing the raindrops until it sank into the opponent's temple.

The blood slowly stayed along the temples, and An Xia in the night vision device saw the person's eyes staring incredibly wide, and his face and eyes showed unacceptable shock.

He should be shocked that he was only five meters away from him, but he was unaware of it as a sniper.

After closing the gun, An Xia's mouth raised slightly.

If he was discovered five meters away, wouldn't the hard work of her people be wasted?

Five meters is far away.

What she hopes is three meters.

Assassinating a sniper within three meters, not to mention the excitement, but also a sense of accomplishment!

Without stopping, An Xia quickly moved her position and reported to the four border police, "It's done."
nailed it?

So fast!

Lu Xinghe and Xie Tie both breathed.

They can act earlier than Anxia, the result!

There is still a little distance from the sniper!

I heard An Xia whisper again: "You guys get down, another sniper is coming towards me, it should have been found that something is happening."

She shot at close range and solved it with another shot. It was difficult to tell whether the gunfire came from above or below.

However, a sniper has a keen hearing and a particularly strong judgment of direction. A sniper at the level of Jade Bird can hear the sound with just one shot.

And the sniper on the side of Mother Sadah, from her close five meters away, has not found it, it can be seen that the strength is far inferior to the blue bird.

In this way, there is no need to worry about being discovered.

But you can't just care about it, you have to be cautious.

Lie down tight, An Xia didn't speak any more, the whole person was like a stone integrated with the jungle, motionless, even if she walked beside her, it would be extremely difficult to find her existence.

He Miao's voice came extremely softly, "An Xia, there are two figures in the right and four o'clock directions."

There were people at four o'clock on the right, and a sniper came from the lower side, and An Xia was equally attacked by the left and right sides.

The expressions of the four border policemen were serious instantly.

Lu Xinghe said: "An Xia, I hold the sniper here! You find a way to solve him from the rear! Niu Feiyu, guard the top, He Miao, keep an eye on the movement below and suppress the fire at any time!"

A sniper has been solved and the danger has been halved.

Moreover, the three of them are all below, and they can almost close the net!

"receive!"

"receive!"

Niu Feiyu and He Miao responded, and the two of them have entered a state of shooting at any time.

An Xia raised her hand and flicked Maikou, "OK".

She agreed to Lu Xinghe's crime plan.

It is indeed possible to close the net!

Chapter 476: 476th naive

In the forest, the voice of the night bird came out.

"Goo...goo...googo...goo."

The sound is close to the ear, no more than ten meters at most.

An Xia calmed down and continued to lie still.

What I heard was not the real night bird sound, but the sound of the sniper who had been looking for it.

He was waiting for his companion to respond.

The companion is dead. At this moment, there is still blood in the temple where the hole has been opened, and he is leaning against the tree obliquely, his eyes widening, and his pupils are gradually collapsing. There is no chance to ask for help, so he is dead.

Mother Sada heard the strange call of the sniper she raised, and her heart sank suddenly.

The two snipers he keeps are all guys who have been on the real battlefield abroad. It was he who paid a lot of money to get people over and raise them by his side to protect himself and assassinate opponents.

Never missed it, and never heard the strange signal tonight.

This is a code between two snipers, probably meaning "Is there something? Is something wrong? Are you still alive? Please answer if you are alive."

Three minutes passed, and there was no waiting for an answer!

problem occurs!

Hold!

"Damn! Go!" Mu Sada dragged Fang Yue again, preparing to withdraw.

Just about to get up, suddenly, gunfire came from the left side.

Thorndon's voice yelled, "Fuck it! They touched it!"

The person sent by Qinwu came over!

Mu Sada reacted quickly, dragging Fang Yue to change positions immediately.

But he was very cunning. Every time he changed his position, he always pushed Fang Yue to the forefront, using Fang Yue's body as a cover to block himself.

Hidden, Mother Sada pressed her throat tightly and said word by word:

"Have you heard, Fang Yue! Do you **** want to commit suicide? Do you still need to commit suicide? Go out now, and someone will kill you right away!"

"You have the ability, you **** rush out for Lao Tzu to attract firepower, you commit suicide, Lao Tzu runs for your life!"

Fang Yue wouldn't do this!

Dog things still want to live?

no way!

Mother Sada deserves to die, and Qinwu deserves to die.

Since my own skin is still a bit useful, it's okay to use it to the extreme, and it won't be in vain to suffer such a pain in the world!

Fang Yue suppressed the killing intent of wishing to kill the mother Sada immediately, and opened her lips coldly, "Okay, I promise you to do the last thing, kill Qin Wu!"

"This is the Fang Yue I know! The deal!" Mu Sada pulled at the corner of her mouth, and the calculation flashed in her eyes, for the ridicule of Fang Yue.

A woman is a woman!

No matter how ruthless it is, no matter how good at scheming, it will always be a little worse than a man.

Kill Qin Wu?

Hahaha!

Hahaha!

Is Qin Wu that easy to kill?

Innocent!

Fang Yue calmed down and lowered her head, also tugging at the corner of her mouth secretly, covering Taotian's hatred in her eyes.

Qin Wu, she wants to kill.

But whether he can kill him is unknown.

But Sada, will kill!

As long as she can get close to Qin Wu, the first person to kill is Mother Sada!

Each has its own calculations, even if I have slept a few times, I am thinking of killing each other at this moment!

The coolness of the wind and rain in the mountains slapped her face, and Fang Yue, who had been overheated for a while, completely calmed down.

The icy muzzle that was secretly against his chin slowly left, and his right hand was slowly raised, pointing towards the darkness.

The pale lips lightly opened again, "Now think about how to get out. The people of Qinwu have already focused on Sangden."

"Then let Sangden and Dan Tuoye give us two backs!" Mother Sada said lightly, with a gloomy chill on her face, "Quan should pay me back!"

Last time, he repelled Xia Guo's border police and rescued the two of them and fled.

Chapter 477: relax

In this regard, Fang Yue said it didn't matter.

After the mother Sada finished speaking, she suddenly asked, "You really can't commit suicide anymore?"

"Do you want me to kill myself now?" Fang Yue went back coldly, "You reminded me that even if my mother wants to commit suicide, I must avenge my brother first."

"Before the revenge is reported, I still can't die. Fang Li wants to escape, doesn't he just want to live? Oh, I will take Fang Li's share and continue to live and kill Qin Wu!"

"There is no way out of the worst, as long as you and I kill these people first, it won't be difficult to get out alive."

After speaking, Fang Yue shook his gun tightly and looked up at the jungle shrouded in darkness.

With the obsession with life, her originally hollow eyes added a trace of life, and she returned to the original Fangyue.

In order to survive, be cruel!

Above, He Miao lightly exclaimed his stale air.

He had already seen the moment when Mother Sada dragged Fang Yue out.

It's a pity that Musa moved too fast, and his shooting range was so long that he couldn't shoot Musa.

It was the two of them who changed their concealment points again, so that he could see Fang Yue again.

Naturally, I also saw what Fang Yue was holding in her hand, which had been secretly moving towards her own jaw.

She still wants to commit suicide!

He Miao's attention was placed on Fang Yue's body, the scope was aimed at Fang Yue's right wrist holding the pistol, and the index finger of his right hand was gently placed on the trigger.

If that is the point, he can only shoot and wound Fang Yue's right hand to save her life as much as possible.

This is not easy for He Miao who hides the tree and rocks at this time.

Because their task is to catch Fang Yue alive, not to kill them directly like they did with the mother Sada.

Fortunately, Fang Yue finally gave up and committed suicide.

"The alarm is lifted! Fang Yue has given up committing suicide. My mother! She made such an act, making me even more nervous than her."

He Miao said that he was nervous, but his tone was so relaxed as to say, "The weather is good today."

He is relaxing himself for his teammates.

While smiling, he raised his hand and stroked his forehead pretending to wipe the sweat, "I was so tossed by her, my forehead came out with cold sweat."

"Excuse me, what is the description of silky cold sweat? Silky cold sweat like spider silk? Isn't it disgusting?" Niu Feiyu asked seriously, with a soft voice blowing through his ears like the wind, and would not alarm any enemies.

An Xia didn't answer, she couldn't answer.

The sniper who could not get a response from her companion was hiding beside her. The specific location is unknown. He Miao's observation and the cooperation of Lu Xinghe and Xie Tie are needed.

The two of them did not shoot consecutively, so it was even more terrifying.

The pressure of hiding in the dark and plundering lives at any time, even if it is cruel like Sangden and Dan Tuoye, their backs are shocked with cold sweat.

He Miao, who was in charge of observing the commanding heights, spoke in his mouth, but his vision was as sharp as an owl, sweeping down one by one.

Until, found a hidden figure beside the bush.

"An Xia, four meters on the left, ten o'clock direction."

Very timely reminder.

An Xia flicks the wheat, let's look at her performance next!

"Luban, Xie Tie, your upper right, two o'clock direction. You are about ten meters away from the target that is four meters away from Anxia."

That is the invisibility point of Sangda and Dan Tuoye.

Lu Xinghe lightly gestured to Xie Tie, "You, continue to keep the point of pressure resistance, don't let the sniper have a chance to move. I, go around, and kill Sangden and Dan Tuoye."

Xie Tie nodded, "OK."

Chapter 478: An Xia's Madness

Pressing and suppressing can disrupt the sniper's judgment for a certain period of time. At the same time, it will also make the enemy jealous and dare not act rashly within a short period of time.

But the time limit is short.

Because the enemy is not a fool.

Will react quickly and launch an attack.

Once an attack is launched, Xie Tie is in danger!

Therefore, Anxia and Lu Xinghe must wipe out their respective targets in one fell swoop during this short period of time when the enemy was afraid of them and did not dare to act rashly.

Lu Xinghe's arrangement once again impressed An Xia.

Every time she cooperates with Xia Guo's fighters, she can always enjoy her in danger.

The joy of being trusted.

The joy of cooperation.

And the joy of flexible combat and rapid mobilization.

To make yourself happy is to enjoy!

Above the rock, He Miao who pays close attention to the bottom also whispered: "With me, feel relieved."

Point the muzzle down to protect teammates born and die, and kill the enemy at any time.

It is protection and destruction.

As Lu Xinghe approached the concealed position of Sangden and Dan Tuoye little by little, Xie Tie clenched his rifle, waiting for the letter from An Xia.

An Xia is still looking for the best shooting position.

With a vigilant sniper, his concealed position is an offensive and defensive point, with cover on all three sides.

The only side with no cover is that he is staring at him.

An Xia, who walked quietly, did not rush, every step she took was rehearsed in her mind, and her sight was like a blood-drinking beast, and her cold eyes were locked in cold brutality, **** and cruel.

The slender fingers keep pushing the trigger lightly, and shoot at any time once the target is found.

He Miao became the eyes of everyone, reporting the latest situation to his teammates in time, "Mu Sada and Fang Yueyuan were not moving in the hidden spot, but Sangden and Dan Tuoye moved westward, and they were approaching the sniper's position."

"Luban, you keep going. Xie Tie, shoot to suppress Sangden and Dan Tuoye!"

He and Niu Feiyu could not move for the time being. When they did, they exposed to the people sent by Qinwu that another wave of people ambushed their mother, Sada.

Now, there shouldn't be many people sent by Qinwu.

The gunshots in the small village at the foot of the mountain disappeared completely, and I don't know if it was the mother of Sada or Qinwu who won.

No matter which side wins, the problem is not big.

They are only responsible for saving Fang Yue.

An Xia has found a position where he can kill the sniper and started to climb.

It's a pine tree, she has to climb the pine tree.

Except for the trees, there is no shooting location nearby.

The moment she climbed the tree, Xie Tie shot!

The sniper's attention was immediately attracted.

An Xia held the tree in his hands and stepped on both feet, taking advantage of the distraction of the other party and speeding up the climb.

This is the time her teammates bought for her, and she can't waste a second.

At this moment, He Miao said in her throat, "An Xia is climbing a tree, the position is dangerous!"

Lu Xinghe shot.

"Bang! Bang! Bang!"

He shot continuously, the bullets hit the rocks, and the crushed rock particles splashed on Dan Tuoye's head, face, and body.

And Thorndon...

Covering the shot shoulder, the thin black face showed pain.

"Fuck it!"

The curse blurted out, and the fear began to spread.

If it weren't for their position, the bullet that hit the shoulder had penetrated his head early!

Dan Tuoye didn't have time to help Sangden this time, his back clinging to the mossy rock, sweat mixed with rain, washed down his forehead, and water droplets flowed out of his eyes, piercing his eyes red as blood.

Wiping his face, Dan Tuoye turned his head and said to Sangden who gritted his teeth: "We are being targeted!"

Chapter 479: No way to escape

Thornton was so painful that he was about to faint.

Hearing that, his eyes were wide, and he swept fiercely towards Yuye, "The eighth grandson wants to kill me, no way! This place is not possible, I have to change the place!"

"It's a detour to the east." He gritted his teeth, suppressing the pain, and said word by word, "The sun is facing the sun, and the vegetation and leaves are dense, more suitable for hiding. Here..."

The alveolar bite and creak, "Damn, shady, there is a big gap between trees, not to mention shrubs grow sparsely!"

Dan Tuoye didn't know much about these things. He was an underground casino. Everything was settled in the city. It was the first time that he was forced to escape in the mountains.

"Can you still go?" he asked.

In front of him, he could only rely on Sangden.

You can't trust Mother Saddar's stuff!

"Yes!" Sangden closed his eyes and pressed his hand tightly on the wound, "Take off my clothes and tie up my wound to stop the bleeding."

This matter, Dan Tuoye is a master.

Don't say anything, do it right away.

He Miao couldn't see the movements of the two clearly.

The shady backs of the mountains are sparse trees and low shrubs, suitable for walking, but not conducive to escape, but they give An Xia and He Miao the opportunity to observe their surroundings from the commanding heights.

Mu Sada herself did not expect that she chose to be shaded at the time to facilitate her escape.

Now, I can't escape, but I'm trapped!

Xie Tie shot again, this time, he was suppressing Mother Sada.

Want to run away?

Give up as soon as possible!

He Miao focused his attention on the position of the sniper, paying close attention to the person's movements.

The last thing a sniper lacks is patience and perseverance.

They can attack a target without eating or drinking, and remain motionless for several hours until the target person goes out.

Their training is also quite cruel.

It is common to stay still for three days and three nights. The wrists, feet, waist, and back will still bear weight. After three days, the weight-bearing parts will leave deep indentations.

These cruel trainings are just for training the perseverance of the sniper.

An Xia had climbed up the branch, adjusted her breath slightly, and aimed at the hidden position of the opponent.

Now, she needs to wait for the sniper to show up again.

Over there, Lu Xinghe turned from the side shot to the front, and fired again at the spot where Sangden was hiding.

Xie Tie only stared at Mother Sada. Whenever he raised his gun with the intention of shooting, Xie Tie shot a bullet in time and forced him back.

After two successful retreats, Xie Tie didn't have much joy. He calmly said in a low voice: "He has been blocking Fang Yue in front and can no longer shoot. He will see the clues."

Once he finds out, Fangyue will be taken hostage, and then Fangyue will be in danger!

Mother Sada is cunning, and the only two pressures that have made him suspicious.

He took a gloomy look at Fang Yue, his eyes flashed with calculations, he pushed Fang Yue out again, and asked pretendingly, "Dare you kill with me."

He is smart, and Fang Yue is not stupid.

He glanced at him, and said coldly: "Kill it out, you are in front of you, and my old lady is behind."

When she is a fool?

Pushing her to the front both times was using my old mother as a shield!

In a word, slightly dispelled the suspicion of Sada.

Was it really an accident just now?

The people sent by Qinwu shouldn't just target him.

Unless it's another group!

That's right!

Unless it's another group!

You have to ask.

There was the "cooing" of Nightbird again in the forest, and he was asking the sniper he raised whether there was any new situation.

Chapter 480: The praying mantis catches the cicada, the oriole is behind

Mu Sada is not worried about his position being exposed.

People are watching, what else can I worry about?

The sniper did not respond.

He is not afraid of being exposed.

The opponent was able to silently kill his comrades. It can be seen that he is an expert in jungle warfare. As long as he speaks out, he will immediately be locked in.

Now he can only be patient until he finds the other party!

At the bottom, the people sent by Qin Wu moved faster.

There are eight people left, directly outflank.

Until, two figures appeared in the sniper's observation range!

An Xia curled her mouth.

She saw it too.

It depends on whether the sniper will act.

As long as he moves, she also moves here.

Condescendingly, looking at the audience, He Miao also found a few silhouettes touched, "The four of them touched it, or else, they all stay still and let them kill again."

An Xia agreed first and responded with a flick of Mai with a finger "OK".

Lu Xinghe and Xie Tie also flicked Mai one after another.

Let the bullet fly for a while.

Sangden, who stopped bleeding from his shoulder, moved first. He didn't choose to be positive, but squirmed in the opposite direction little by little.

Xie Tie's position is up, Sangden is up, left and right, he can see it all here.

Only going down, his vision will be blocked.

Sangden just chose to go down, lying on his stomach, wriggling like a crawling motion, leaving Xie Tie's visual range little by little, and He Miao's observation range little by little.

After squirming about three meters, Sangden saw a black shadow right in front of him, walking towards his waist.

Oh shit!

It's almost touching his face!

Without hesitation, Sangden shot directly.

"Bang! Bang! Bang!"

After three consecutive beeps, the black shadow fell to the ground.

And Sangden, who became a target of public criticism, all gathered on his side.

Dan Tuoye also joined the melee.

Xie Tie and Lu Xinghe converged their breath, motionless, listening to the gunshots intertwined in their ears.

It was another round of gunfire intensive melee.

Fang Yue wanted to rush out, but was held by her mother Sada, warning, "Death?! Don't move!"

At this moment, Sangden and Dan Tuoye are attracting firepower, and they don't need to go out at all.

Thorndon will not do what he wants.

After killing the two, he shouted directly, "Mother Sada, you **** come out for me!"

Want him to carry all the firepower alone?

no way!

They are all hiding in this area, no matter how much Mother Sada escapes, it is impossible to escape too far!

Attract everyone, Mother Sada has to shoot if she doesn't want to shoot!

An Xia laughed.

Not afraid of opponents like pigs, but teammates like pigs.

In this way, the sniper must shoot.

Because, the two black shadows that came to him, the cat came straight to him.

I still want to continue to observe the snipers around me, staring at the figure that is getting closer and closer to me, no longer choose to hide, poking his head, Hessen's muzzle aiming...

The muffled voice sounded again, it was the gunfire after the sniper disappeared.

An Xia didn't move, waiting with interest for the opponent to snipe the second target.

The rifle in his hand was kept on hold, aiming at the spot where the sniper was outcropping.

After a while, she will tell the sniper what is "mantis catching cicada, oriole is behind".

He killed the second target, and it was his own time to die.

He Miao's gaze swept towards An Xia, and whispered to her, "Four people have been resolved, and the people of Qinwu are unknown."

The people sent by Qinwu were not vegetarians, and there was no panic in the sudden fighting, and they quickly found a hiding spot to hide themselves and counterattacked.

They even really forced the mother Sada out!
