

Goddess 621

Chapter 621: Cruel elimination

Fu Siling looked at the electronic watch with a cold expression, did not say too much, and gave the order directly, "Twenty kilometers on foot. Two hours later, I will wait for you at the end."

After speaking, he turned and left.

Seeing this, the soldiers in the line were stunned.

that's all?

Nothing else?

Is there something missing?

Should the fighters who have not boarded the car continue to hike together?

They did not get in the car, and the assessment of the teams did not affect?

Looking at Fu Siling in a daze, until Fu Siling picked up the door and prepared to get on the car, the soldiers became a little bit more uneasy and settled.

It's about to get in the car. It's probably that simple, and it won't have any impact.

Ye Youyin was disappointed!

Is there a mistake!

It didn't matter!

So what's the point of doing so many things?

She ran desperately for fear of falling behind. Isn't it all in vain?

An Xia was not disappointed, and told him instinctively that there was absolutely no end to this matter.

"Two hours, or, shall we wait for the two of them to come here?" The combatant standing on the right hand side said lowly, "Otherwise, they will not know which direction they are heading when they arrive."

Miao Hai just wanted to speak, and suddenly saw Fu Siling, who had gotten in the car, got out of the car again.

The breath of the soldiers in the line just letting go, tightened instantly.

The atmosphere is more tense than before.

Suddenly getting off the car, there must be something wrong!

There must be something!

There must be something!

There must be something!

Fu Siling stood by the car door and said casually: "I forgot to tell you that all 13 people who have not caught up will be eliminated."

!!!

One word stirred up a thousand waves.

all!

disuse!

This is, there is no chance to even give them a hand!

Isn't it too cruel?

But who dared to stand up and question the ruthlessness of the instructors.

Furthermore, eliminating 13 people is not a decision that Instructor Fu can make alone.

There are three presiding judges!

Only when the three chief judges nod their heads can they decide whether to eliminate!

In other words, for the 13 people eliminated now, the three chief judges all nodded.

It's not nervous anymore.

But there is a deep sense of crisis.

The cruel elimination assessment of ten selected from a hundred, the countdown has begun!

"The next second elimination, three days later, it is estimated that 20 people will be eliminated." Fu Siling said lightly, particularly casual, as if it was just a casual talk of "the weather is good".

He is casual, but the combatants have entered a wartime state.

The warrior off-road vehicle drove away, raising a long cloud of dust.

After the fighters listened, the heart that had been frustrated fell on the ground instead.

Look, there is something going on.

How could it be that simple without catching up with the car.

I just didn't expect it to be eliminated directly.

The stone fell to the ground in his heart, but the spirit was all tense.

The captain of each team immediately blew his whistle, said "Go", without saying much, and led his team's fighters on a 20-kilometer hike.

No one rests, and no one dares to delay.

Twenty fighters will be eliminated in three days. If you don't want to be one of those eliminated, you have to sprint harder.

Ye Youyin didn't dare to think anymore.

Eliminating 13 people certainly made her happy.

While happy, it also made her feel pressured.

She is here for the Fourth Young Master Mu, and she must not be eliminated!

The sun was scorching hot, and the bright white sunlight poured down the endless Gobi Desert. The scattered gravel and weathered rock faults tossed out the light like diamonds, which made the eyes sore.

An Xia walked and looked around, beware that Fu Siling had other arrangements.

Chapter 622: Co-training

Twenty kilometers is not a long walk, and there is no problem at all for two hours.

But if there are other arrangements midway, it will be a problem.

I am looking forward to the next assessment. With Fu Siling's strictness, it is impossible to just walk on foot.

An Xia is also a restless temper.

Therefore, I am especially looking forward to whether Fu Siling will have some unexpected assessments.

The more unexpected, the more challenging.

At the same time, the more able to assess the strength of the players.

The regular assessment is no longer satisfying Anxia.

And the other side

Mu Chenyuan received a call from Xia Houyu.

The cold handsome face was shocked for a few seconds.

The battle with Xia Hou will pass at noon, and it is told that the location of the summer training has not been determined, and it will take two to three days for the results to come.

Now, not only the location is booked, but also the location coincides with what he had previously thought.

"This summer training, Mu will decide to complete with the Ace Special Forces in Luyi District. The Ace Special Forces is extremely powerful, and it is an unidentifiable shadow force."

"They are familiar with battles in all regions such as plateaus, plains, deserts, Gobi, oceans, jungles, and snow. They are a truly all-around ace special team."

"They communicate with you, it is very likely that even the names are pseudonyms, all code names. You notify, and it is strictly forbidden to inquire about everything about the team after the training."

"The purpose of the joint training is to learn combat experience from the troop, tactical exchanges, and to enhance the strength of our team's mobile operations."

In the microphone, Commander Xia Hou's voice came slowly and solemnly, Mu Chenyuan's eyebrows were cold, and he listened carefully to each word with a solemn expression, and remembered it in his heart.

The shadow troop must be the most mysterious troop in the land warfare.

Without a name, without personal information, even if there are domestic mobile operations, they will also go abroad to perform missions in secret.

As long as it is their task, they are all Special A Grade.

Has a very high mortality rate.

It is a special fighter who really walks on the sharp knife.

After he joined the "Broken Wolf" team, he learned from his father that there was such a mysterious force.

Because I have never heard of it, once thought that the unit did not exist.

Later I learned that there is indeed such a force.

After leaving, no matter how close to the end of his life, he would never let people around him know that he was once a member of a powerful army.

He thought it was difficult for him to interact with this force.

did not expect.....

The opportunity came so suddenly.

After Xia Houyu finished speaking, he finally said in a sharp voice, "You guys should tighten up all the skins on the outside, don't shame me, don't you understand!"

Although it is a joint training, there will be confrontation. Only confrontation can better see each other's strengths and weaknesses. You can lose, but don't lose too ugly.

Losing is vulnerable and ugly, and he will get angry with a heart attack.

Mu Chenyuan was ready.

Hearing this, the cold voice said calmly: "I understand."

Always so calm, never want to hear something strange in his voice.

The more so, the more relieved Xia Houyu was, and his serious tone suddenly became more relaxed, "It's good that you understand. Fortunately, your side is a little far away from Xiaohan, and it is very likely that you will be from the side of their side. Pay attention to yourself. ."

A vague reminder, you can't meet even if you see it.

There is no need to remind Mu Chenyuan and don't know.

Not being able to meet, but being able to pass by the same place is also a kind of reunion.

At this time, the ace special team "Snowfield Brigade" in Luyi District also received the notice.

The captain of Group B, Ye Jian, code-named 'Blue Bird', put down his sniper rifle, and his clear black eyes looked at the man standing behind him, Xia Jinyuan, the captain of the Snowy Brigade.

His eyes narrowed sharply, "Summer training with the Lu Er District Special Forces Team?"

Chapter 623: The spear of the team is also the shield of the team

Xia Jinyuan, the captain of the "Snowy Brigade" in Luyi District, the spear of the team, and the shield of the team.

With elegant eyebrows, a pure and noble suit, wearing casual clothes is an elegant noble son who can talk about Fengyue in ancient times. Putting on a battle uniform, he raised his hand slightly, and he is a thin, depressing murderous spirit that can make everything creep.

At this moment, wearing a physical suit, he grabbed the blood from the special fighters, with a gentle eyebrow, and stood beside Ye Jian, "I received the notice ten minutes ago and will leave tonight."

There are often joint trainings in different theaters of the same battle.

Not only will there be joint training, but there will also be joint exercises, which is an indispensable arrangement for land warfare every year.

Ye Jian was surprised because it had been several years since the last joint training session of the Snow Region Brigade.

That time was a joint training with the naval battle amphibious storm commando, spanning a large area, from the Gobi Desert to the desert to the snowy plateau. It was also her only training with a cross-combat special warfare commando.

Since then, it has never happened again.

How did you arrange it this time?

I haven't heard of it before.

It must be very high to be able to train with their snow brigade.

"Which team?" Ye Jian curled up his mouth, Black Eyes was already excited, "How strong is there, will there be a confrontation subject? How many people are there on the other side? How many people do we plan to arrange?"

Departure tonight is not the point. In their business, they have long been accustomed to come and leave.

Seeing this, Xia Jinyuan smiled deeper in his eyes.

His girl, over the years, has matured a lot, but nothing has changed.

As long as there is a challenge, my eyes will shine, and I wish I could fight right away.

This was the case before, and it is still the case.

"The Wolf Breaking Special Team in Luer 2 District, the domestic ace special team, is quite powerful." Upon receiving the notice, Xia Jinyuan immediately understood the special team. To solve the hostages, the team has a special feature, practicing Xia Guo's traditional martial arts qigong and unarmed combat."

"The team has maintained amazing records in four subjects, and has won countless honor medals. The Marines made a documentary about their training and exercises as a teaching material."

No contact yet, just listening, Ye Jian already felt their power.

"We have to wait till night." murmured lowly, regretting that he couldn't set off right away.

I really want to start now!

Xia Jinyuan smiled and stretched out her hand and tapped lightly on the helmet she was wearing, "Get ready, we will have more opportunities to compete with the special teams from each district in the future."

Yeah?

The Snow Brigade doesn't need to be covered up like before?

Ye Jian still didn't quite believe it, "Really?"

"When did I lie to you?" Xia Jinyuan raised his eyebrows, Qing Yajun smiled softly and spoiled.

After being together for many years, his little fox became less and less afraid of her.

In the past, I would hide my careful thoughts, if I was upset or dissatisfied, I didn't want to be discovered by him.

But now, her joys and sorrows, sorrows and hurts, show her the truest side without reservation.

He likes it very much, and takes great care of this hard-won trust.

Pointing to the shade of the tree, indicating to speak there, Xia Jinyuan whispered as he walked: "The above deliberately deepens the connection between the special forces in the major regions, and develops and progresses together."

"This time the joint training with Lu Er District is to set an example for the next joint training with the major areas. Yang Zhanjiang told me that, no surprise, there will be a training in the six areas of the Marine War every year."

Chapter 624: Mysterious and great

Xia Guolu has six zones, and each zone has an ace special team.

Each ace special team has its own characteristics. Like their snow brigade in Luyi District, thrilling special training combined with widely used high-tech equipment is widely used, coupled with fuzzy information, and the tasks performed are mainly special A. In the eyes of the other five districts, the biggest feature of their special team: mystery.

He Xia's words describe: The ghosts don't know what they did.

Another example is the 'Cang Wolf Special Battle' in the six districts. The special forces where Uncle Chen was alive were active in the Gobi and the desert, guarding the borders with ghosts, cold and heat resistant, and endurance like a superman.

Or the "Swords and Leopard Special Forces" in the three districts and the "Blood Snake Special Forces" in the four districts. The system simulates the destruction of the island's airfield, oil storage depot, command center and fire depot.

On the other hand, the "Black Hawk Special Forces" in the Luwu District mainly conduct high-intensity survival training under conditions such as aerial projects, mountainous areas and cities, and are especially good at individual combat.

So far, the trump cards of the six regions have no intersection except for joint exercises.

The intersection of Snow Region and Broken Wolf this time marks a new reform in the six districts.

The fighters of the two brigade listened well, and they all began to look forward to the next joint training.

An Xia has walked ten kilometers.

"Or, take a five-minute break before leaving?" Miao Hai asked An Xia. Although he is the captain, An Xia can always give him a lot of very good suggestions, which makes him very admired.

Miao Hai listened to all questions and suggestions raised by An Xia.

You know, the little girl in front of me once took the sharp knife squad in the first camp and slammed the fighters in the second camp.

After receiving the lesson, it is natural to learn the lesson. Listening to An Xia is correct.

An Xia checked the time, four o'clock in the afternoon.

The Gobi Desert at four o'clock has become much cooler, the temperature suddenly dropped, and even the wind blowing on the face has a hint of coolness.

Five minutes is fine.

Turning his head and looking at Team One, he heard Miao Haidao: "They are indeed a little bit physically weak. They take a short break to adjust and sprint in the next round."

Under the leadership of An Xia, the No. 1 team took the lead all the way, leaving the ten team behind by a long distance.

Even if they rest for a while now, the next few teams will barely be able to catch up.

Waiting for the team behind to catch up, they set off again after taking a break, and they can still continue to lead.

The members of Team One were waiting for An Xia to nod.

They also found that as long as An Xia came to lead the team and make arrangements, the progress would go smoothly, and they would have to take a lot less detours.

"Okay, let's set off in five minutes." An Xia nodded, and the weak combatants cheered.

Great, I finally managed to get a five-minute break.

I didn't dare to take off the rucksack. I had to carry it back when the meeting departed. It was too time for me to carry it on my back, and I could use it as a backrest when I sit on the spot.

From early morning to now, the team members have not eaten anything except for a short break in the car, eat a few compressed biscuits, and drink a few sips of water.

The first thing to rest: drink water.

An Xia tore a biscuit and opened it cold and white, eating it while memorizing the map.

The map is the most original paper version of the war map.

She remembered almost in the car, but she always felt something was wrong.

After thinking for a while, An Xia picked up the map and got up after looking around.

Chapter 625: has a problem

This is a gravel desert Gobi, where severe weathering can be seen everywhere, and it is suitable for hiding and ambushing over many years of dilapidated hills and tombs.

Miao Hai looked in the direction of An Xia's fingers. There were a few weathered and broken tombs. She was worried that she would go alone, "I will accompany you."

"No, you rest." An Xia refused. She just climbed to the remnant hill to confirm whether the terrain, topography, topography, and latitude and longitude match with the map in hand.

She always felt that the map Fu Siling gave them was not very real.

But I can't see where there is a problem.

Combining with the field, you will know it at a glance.

Miao Hai also accompanied An Xia. Seeing the two of them got up, the soldiers also got up as they thought it was time.

"Let's go up and see the situation, you rest." Miao Hai stopped in time, "I will tell you when the time is up."

It is estimated that the elimination of the last round made the heartstrings of the fighters still tense, a little bit of turmoil, and immediately felt shocked, for fear that he would react too slowly and be eliminated.

Hearing this, the six of them breathed a sigh of relief and sat down to rest again.

An Xia and Miao Hai walked under the remnant hill.

"Climb to the highest point?" Miao Hai thought that An Xia was just going up to take a look, but never thought, An Xia said that he was going to climb to the highest point, "No, it's severely weathered, you will definitely have something wrong if you just climb up like this."

An Xia rolled up the map and put it in his pocket, and said lightly: "I suspect that there is a problem with the map given to us, and we need to go up and confirm it. There is no way to confirm it until the highest point."

!!!

Problem with the map?

Miao Hai's face changed drastically.

He didn't notice a problem with the map at all.

Really have a problem, then wouldn't they even go in the wrong direction?

He suddenly turned his head to look back, and there was still no other team member behind.

Miao Hai's heart suddenly sank.

I'm afraid, there is a big problem!

"Don't go, I'll go up." Miao Hai said with a cold eyebrow: "If I get injured, the team will leave it to you."

What An Xia decides, how can Miao Hai have that ability to change.

She stopped talking, moved her hands, and started crawling directly.

Miao Hai: "..."

Well, An Xia, who has personality, said that one is one, and that two is two, so they can't tolerate their beaks.

Helplessly said: "Pay attention to safety."

This time, An Xia replied, with a light "um" sound, climbing up the high places with both hands on the rock that has been drying for many years.

Let her go up, naturally there is her reason.

The foundation stone is severely weathered. With Miao Hai's weight and lack of experience, it is impossible to accurately determine which rock can be climbed immediately.

It's not just a small scratch.

Broken hands and feet are basic.

Something is really going to happen, and it will take more time.

Seeing this, the six team members who were resting didn't dare to sit around, and quickly gathered around to ask what was going on.

After listening to Miao Hai's explanation, the six were dumbfounded.

what!

Could the map be fake?

"No, the maps are all fake. They are not afraid that we will lose our way?"

"I'm definitely not afraid that we will lose our way. The helmets and backpacks are all positioned. I am worried that we will stray into the danger zone and lose contact with the command center. If something happens, we will not be able to contact in time."

"Yes, yes, I am also worried about this. The temperature in the Gobi Desert drops sharply at night, so we have such a thin layer of cold-proof quilt, and we can't contact us if something happens."

...

The six were obviously anxious.

Miao Hai waited for them to finish before he said: "What anxious? They are all veterans who have been at least two years old. How can it be better than a new soldier in Anxia who can hold his breath."

Chapter 626: Don't panic, hold on

Miao Hai was a little angry.

One or two looked like a young hairy young man, and they couldn't hold back at all.

But a small matter, everyone hugged and panicked.

Since you are so flustered, you don't even have a good mentality, what kind of preparatory special combatant trials to participate in?

Isn't it good to stay in the original team?

Miao Hai's expression was ugly, "Bring out the composure and stability of the veteran soldier, and I will have to deal with everything else. She found that there was a problem with the map. The first thing she thought of was confirmation, but what did you think of?"

"If something happens, something happens, something happens, everything is thinking about something wrong, so don't you think about how to deal with it, how to solve it? Or do you think that your ability is not good, and without a correct map, something will happen undoubtedly?"

"In that case, take out the signal flare in the backpack, and take advantage of the all-tailed and all-tailed ones, and quickly find out the signal for help in advance, and automatically quit the game to ensure safety."

The expression was so low that it was as cold and sharp as the blade wind that blew through the Gobi Desert in December. It was blown into the lining of the six combatants and lost face.

them.....

It's not that you are afraid of accidents.

Aren't you worried about going wrong and being eliminated in the end?

No one spoke any more, straightened his mouth, raised his head, and stared at the taller and taller figure for a moment.

The figure is very slender, and the shadow is stretched by the sun beginning to set, like a sharp sword cast by heaven and earth, in this deserted and dangerous Gobi, a avenue to the sky is cut out.

A few pieces of gravel rolled down, all the way down, lifting up fine dust, and the soldiers who looked up at them all raised their throats.

"An Xia, be careful!"

Some fighters reminded him lowly that he was number 21, from Tianfu, and it was the first time to enter the Gobi Desert. He was so unfamiliar, so unfamiliar that he had to tighten his whole body and walk with the fighters.

Anxia is the latest, number 100.

But everyone already knows her, so you don't need to call her number, just call her name.

Miaohai is number 12.

The other five players are 9, 18, 24, 33, and 89.

The remaining eight members of the first team were all southerners, and none of them went to the Gobi Desert after An Xia, let alone training.

Everyone's mind is the same as 21, because they are not familiar with each other, so they are extremely nervous.

Once you are nervous, you will subconsciously think bad things.

After being ruthless by Miao Hai, everyone felt a little relieved.

But still very disturbed.

There are problems with the map!

Did the other team members find out?

Their No. 1 team only found out after walking ten kilometers!

An Xia kept looking up, without bowing his head or responding.

Step on the feet tentatively, and then grab the uneven surface of the mound with both hands, climbing all the way without slowing down.

Several times in the middle, the footstone was stepped loose, if it hadn't been for the tightness of the hand, it would have fallen off early.

The climb was thrilling, and the soldiers waiting below also saw the thrill.

Finally, there is no danger to climb up.

Standing at the highest point and overlooking the low place, An Xia sneered without having to take out the map.

Sure enough, as she thought, there was a problem with the map.

She needs to see how it gets done!

Going further, the more you go, the more you go, even if you walk 20 kilometers, you won't be able to reach the meeting point that Fu Siling said.

Taking out the pen, biting open the cap with his mouth, An Xia began to revise the problematic map.

At a height of 2,000 meters in a straight line from Anxia, Jiang Wenbin took a telescope to observe the surroundings, turned on the headset, and said while watching: "Lingshen, is the map too secret? I see, I'm afraid no one will notice. has a problem."

Chapter 627: That's so awesome

Ten teams and ten maps, all of which have problems.

If you follow the map, you can walk to the meeting point, but you need to walk 20 kilometers to get there.

In other words, they have to walk forty kilometers to reach the assembly point.

The map is fake, but it won't let them get lost.

Below, Qiao Ji drank all the water and smiled, "What Lingshen wants is that they don't know, it's meaningless to know. This trick, when the Yin is home, I think it may not be able to arrange for An Xia."

As soon as he finished speaking, he heard Jiang Wenbin's surprised "Oh Wipe" from the earphone. Qiao Jiquan shuddered, and he hurriedly poked his head out of the car window, "Have you fallen?"

"Wait, wait, I saw someone...someone standing on a high place." Jiang Wenbin adjusted the binoculars so that he could see clearly.

Behind, Fu Si Ling, who was sitting with his eyes closed and rested, opened his eyes.

Someone?

who?

Is it possible to be restless in summer?

Jiang Wenbin had already seen clearly who it was.

She was so shocked that her chin was almost dislocated, "Oh, it's An Xia, she is standing on a high place alone, and she is still drawing with the pen in her hand!"

The long-range view of the special forces, the 2000-meter distance is still clear.

Swallowing, sullen her throat, "Ling Shen, maybe she found a problem with the map, right?"

This map of them was drawn by Ling Shen, the trump card reconnaissance special combatant of the Cangwolf brigade. When it was taken out, Lei Lian was fooled by it!

An Xia unexpectedly found it?

It also.....

That's terrifying.

For the first time, Jiang Wenbin felt the horror stemming from Anxia's strength.

It has to be so powerful to find out that there is a problem with the map so quickly.

Fu Siling's mouth twitched slightly.

There were some accidents, but I thought it was normal.

An Xia, who came to challenge the intermediate special fighters, did have a formidable strength that they could not even predict.

Jumped out of the car, stretched out and asked Jiang Wenbin, "Except An Xia, no one has noticed yet?"

He walked two kilometers by mistake and discovered the problem, which was the earliest time he gave the tenth team to see the problem.

After An Xia sees the problem, is there anyone else?

Jiang Wenbin looked around and shook his head, "Report, no."

Then there is no more.

The other nine teams are still walking with their heads, and they have not found the map to take them around detours.

Fu Siling looked at the sky and stretched his legs, "Little Binbin, get down and drive."

Then give them another two kilometers.

Within four kilometers, see how many teams can find the problem.

In the sky, an eagle passed by, Fu Siling put his finger to his mouth, and blew a long, sharp whistle at the flying eagle.

At that moment, the eyebrows that hadn't been closed for many years in the team's career deepened again.

The eagle spreads its wings, flying higher and higher, and no one can restrain its yearning for the blue sky.

An Xia, who had finished drawing the map, looked to the west with feeling. Just now, she vaguely seemed to hear someone blowing a whistle.

Without paying too much attention, he put away his pen and map, and landed safely in the sight of the soldiers.

As soon as she stood firmly, An Xia said: "The map is wrong, we need to go here to get there."

"Really wrong! They are also..." The 89th fighter just spit out, he was stared at by Miao Hai and swallowed the words to his mouth.

Miao Haidao: "In other words, we still need to walk 12 kilometers."

"Yes, time is enough." An Xia handed him the revised map, "Fu Siling has given us time to take a detour and find something wrong and find the right direction again."

Chapter 628: Smart

This is Fu Siling's brilliance.

Comprehensive assessment, not a single assessment.

At the 20-kilometer steep step he gave, she noticed something was wrong.

There is too much time, there is no sense of urgency at all.

Obviously there is a problem!

This left one more mind.

It's a pity, it's still nearly two kilometers around.

Next time, she needs to be more careful.

After reading the revised map, Miao Hai thought about it and said: "It's up to five kilometers wrong. Once more than five kilometers, it will be difficult to reach the meeting point within the time he stipulated."

"We walked two kilometers wrong, enough time!"

I'm afraid, it's not that simple.

An Xia shook his head, "If there is enough time, there is a problem. You don't need to sprint. You can arrive on foot. With Fu Siling's means, do you think he will let us finish the road below comfortably?"

Whenever I think about it, I know it's impossible.

Speaking of the combatants, their faces changed slightly.

However, there is no panic before.

Combatant No. 9 clenched his alveolar and said cruelly: "Don't be afraid, if you have any tricks, don't hesitate to use them. I can handle it because I can't handle it. I can't handle it because I can't do it at home!"

Listen, the words spoken are much better than before.

Bloody, refreshed for it.

Combatant No. 21 said: "The sword, the mountain and the sea of fire, too! As long as the life is still there, there is no reason to admit defeat!"

With the blood, the courage, and the fearlessness of not being afraid of the front, what else is terrible.

Miao Hai stretched out his hand and smiled loudly: "Come on, take one, work hard together! Face it together!"

He stretched out his right hand and put the back of his hand one by one, with An Xia's right hand stacked on top.

"One, two, three! Come on!"

"come on!"

"come on!"

"come on!"

The high-spirited roar pierced the cool wind, swept across the ancient Gobi, and sent forward all the time.

An Xia had a faint smile in her eyes.

At the end, she reminded all the soldiers in the team, "Fu Siling is good at trick soldiers. In the future, when you receive seemingly simple tasks, you must carefully observe, rather than think about it simply."

After the assessment of the capture of the "Wolf King" is over, the No. 1 team will also disband, and there may be a new team next, or it may be all personal assessments.

Team assessment, individual assessment, and then to comprehensive assessment, the assessment direction is probably these three directions.

An Xia's words silenced Miao Hai and the others.

Ugh.

I don't want to team up with An Xia.

With her, everyone is at ease.

"Let's go, pass this assessment first, and I'll talk about other things later." Miao Hai took the lead in speaking, and took the initiative to lift An Xia's rucksack.

An Xia declined, "No, I still have strength."

She is really not tired.

This is how far she has gone, replaced by the usual amount of training that is half a morning, so that she can be armed and steep at night without blinking.

At 4:08 pm, the No. 1 team took the lead to return to the correct walking route.

The other squads, following the map, are still circling first.

When Lei Hongtao and Niu Qiyue learned, they couldn't help shook their heads silently.

Only one team found the problem, which shows how weak the observation ability of the other nine teams is.

After a while, Niu Qiyue sighed: "Fu Siling's assessment will dig out all the weaknesses in them. Lei Lian, I'm afraid it might really be three out of a hundred by then."

Lei Hongtao said with a sullen face, "Choose three from a hundred, and the three selected are also elite. It is better than picking some who come to fish in troubled waters! I would rather choose three from a hundred."

-

Chapter 629: detour

At the same time, Bo Lirong and Zhao Zhengfei are also discussing this issue.

It really doesn't matter if you want to become one of the top three in a hundred.

This shows that the selection is very strict.

It can also play a knocking effect.

Tell me that all fighters who want to become special fighters should work harder in peacetime. Don't think that they are a little bit stronger than the fighters around you, but think that you can become a special fighter.

Special fighters, it's not as simple as they thought!

Bo Lirong said: "Fu Siling's assessment is of great reference value. After this assessment, he will compile his assessment lesson plans into teaching materials and distribute them to each team so that the people below will also see how difficult it is to prepare for the assessment of special fighters."

"Also, let the teams below know what kind of strength the fighters are required to be selected to be eligible for selection."

Zhao Zhengfei pondered a little more and nodded, "In this way, there is a bigger advantage, which is to increase the difficulty of training and improve combat capability."

"Yes, with improved personal ability, high team combat ability, strong army and national defense, can we protect the people of Xia State and guard the great rivers and mountains." Bo Lirong is a visionary five-star warrior. He did not take over the business of the Bo family and turned to war, is also his dream of playing a small child.

It is also a rare ideological faction in the Bo family, who would rather be down-to-earth, even if he stumbled, would not move his mind and take shortcuts.

Back then, if he hadn't been in the war, the old man Bo deliberately handed over the Bo family property to him.

Then there is nothing wrong with Bo Zhiqing.

Positioning the electronic screen, the green dots representing the candidates are getting farther and farther away from the target point. The target marked with the red dot is located on the electronic screen continuously radiating circular fluctuation graph. The data of each team is presented in the first time through the base station. In front of Bo Lirong and Zhao Zhengfei.

The two men with serious expressions stared at each positioning point. Occasionally, the condensed gaze swept across the changing data from time to time, and the corners of their mouths became tighter and tighter. Hehewei, a five-star warrior, pressed it to the command center and even the air was much thinner.

No one said anything, only the "click" of the technicians operating various instruments.

Ten teams of 77 fighters, only 8 fighters found the problem in advance, did not make detours, and went towards the target point.

The other Team Nine took a detour because it hadn't found the problem.

Ye Youyin's No. 2 team and No. 5 team ran into each other.

When the two teams ran into each other, they were all taken aback.

Because they were not one behind one another, but the second team on foot. Suddenly, the fifth team walked out of the broken mound on their left.

Both teams were dumbfounded.

"No, you guys..." The captain of Team No. 2 pointed to the broken mound who came out of Team No. 5, with a look of puzzlement. He even cut off his speech and reorganized the language before continuing to speak. Is the edge coming out?"

How did they come out from the left?

How did this go?

It shouldn't be. Either the No. 5 team catches up with the No. 2 team from the rear, or the No. 2 team catches up with the No. 5 team in front from the back.

How could it be possible for the second team to go forward and the fifth team to appear on the left?

This is not right!

The members of Team No. 5 have the same questions. Several people look at me and I will look at you. The captain of Team No. 5 asked back, "Did you go in the wrong direction? How come out from our right?"

They obviously also walked forward, the second team came out from the right?

Lost team two?

The captains of the two teams look at me and I look at you, suddenly, his face changed.

Without saying anything, quickly get the map out.

Chapter 630: Did you make a mistake

"Show me your map."

"Your map, let me take a look."

The two spoke at the same time, obviously thinking of going together.

There is a problem with the map.

Seeing this, the members of the two teams all looked solemn.

Captain No. 2 has not yet received Captain No. 5's map. Next to him, Ye Youyin, with a gloomy expression, took the first step and took the map into his hands.

At this moment, no one can care about Ye Youyin's sudden move. Everyone wants to know if there is a problem with the map.

Captain No. 5 took the map in Captain No. 2's hand and immediately looked down.

At first glance, Ye Youyin's face was ugly to the extreme.

The map trekking route of team 5 is fundamentally different from the route of team 2!

"We are in the calculation. This is a wrong map." Ye Youyin raised her eyes, her eyes filled with haze, "We started on the wrong path from here!"

As he was talking, the fighters of the No. 3 team appeared, and they took the same route as the No. 2 team.

They were surprised when they saw the No. 5 team members who had not found the problem.

The captain of team three was surprised, "Team five, when did you overtake us?"

Isn't it only the second team ahead of them?

What's so superb for Team Five?

Ye Youyin's face at this time was so gloomy that it could drip.

What a yin assessment!

In order to prevent them from suspecting that the map is fake, they deliberately even made several copies of the fake map. In this way, as long as the teams see other teams in front or behind, they will not suspect that the map is faulty at all.

After listening to the members of the third team, the anger was all the rough man in the team, and the anger was overwhelming, and he could swear out any kind of national curse.

"I wiped it... it's **** yawning! I still play this trick!"

"Damn! I thought walking was just trekking, who would have thought there were traps!"

"Who thought about it? Who on earth did it? Why did you do this? Is it deliberately not wanting us to reach the target point on time?"

...

It's so angry!

In order not to get rid of them, they squeeze hard and dare not take a break in the middle.

result!

result!

The path taken is all fake!

It's a **** detour.

The combatants were darkened, and the three captains also darkened.

Ye Youyin's anger almost couldn't be suppressed after hearing these rude national curses.

He took a deep breath and said, "Now, don't you stop scolding? Can you solve the problem first? The matter has been discovered, scolding will only delay our time!"

A group of men with simple minds and well-developed limbs!

Is it time to curse?

Now it's time to solve the problem!

The captain of the second team said Shen: "Ye Youyin, give me the map of the fifth team."

"Let's analyze it together." Ye Youyin didn't hand over the map, but walked among the three captains. She no longer trusted the captain!

As the captain, he didn't discover that there was a problem with the map in time, a major mistake!

It should be included in the assessment!

The matter was urgent. Everyone didn't care about these small details. The captain of the second team returned the job: "Also, you are careful and you can see the problem better."

In normal times, Ye Youyin would definitely be humble, and now she's not in the mood.

Three maps are spread together. Team No. 5 and Team No. 3 have the same map, and Team No. 2 is different.

Ye Youyin suddenly said: "You said, besides our three teams, are there any other teams who have discovered the problem?" Turning around, asked the captain again, "We were clinging to the No. 1 team before, but then the No. 1 team disappeared..."
