

Goddess 651

Chapter 651: Very good at setting up people

Before An Xia came, Ye Youyin was the best among the four female combatants.

Now with An Xia, the most powerful person has become An Xia. Thinking about it from the perspective of Ye Youyin, she can understand.

Originally, I was the strongest, but as a result, I was squeezed in less than three days after I became strong. I can imagine my mood.

Not to mention Ye Youyin, they didn't feel uncomfortable in their hearts.

"report....."

The loud voice of the captain of the second team broke the calm, and the female fighters quickly returned to the fifth team, standing in line and waiting for instructions.

The two, three, and five teams completed the assembly. Fu Siling stuffed the package of compressed biscuits into his pocket, raised his hand, wiped his mouth casually with the back of his hand, and stood in front of the third team.

Standing lazily in front, like a lone wolf not awake, his eyes swept loosely across the third team.

Asked, "Who first sees that there is a problem with the map?"

Who saw it first?

Ye Youyin held her breath, standing at the front of the line, her eyes suddenly sharpened, staring at the figures of the three captains in front.

The captain of the No. 2 team and the No. 5 team came to face each other, and both of them realized that there was a problem with the map.

And she is the one who really sees the problem with the map!

If someone dares to say that they can see the map, she will definitely stand up and will never let them take the credit for her own work!

"Report!" The captain of the second team shouted, "Ye Youyin, the third member of our team, found a problem with the map!"

Reporting truthfully does not mean to grab the credit.

Ye Youyin is purely 'saving the belly of a gentleman with the heart of a villain'.

The captain of Team No. 5 flashed his eyes slightly. Forget it, although he and the Captain of Team No. 2 were aware of the difference, Ye Youyin did look at the map first.

Instructor Fu asked who saw the problem with the map, and the captain of the second team's answer was considered correct.

"No. 3, get out!" Fu Siling did not ask too much, and approved the answer of the captain of the second team.

Relieved Ye Youyin immediately went out, "No. 3 Ye Youyin, ask the instructor for advice."

"You can rest, and the other fighters will stand for me!" Fu Siling's attitude towards Ye Youyin is the same as that of An Xia.

I really want to say that there are some differences, it may be that Fu Siling prefers to call An Xia directly, rather than the number code.

Ye Youyin was overjoyed when he heard the words, but he didn't reveal it in front of him.

As soon as I was about to obey the arrangement, the "yes" reached the corner of my mouth and swallowed in a hurry.

Turning to: "Report to the instructor, can I return to the team?"

She also chose to stop with the fighters.

"Yes." Fu Siling nodded lightly, as if he was also not surprised by Ye Youyin's choice.

When Ye Youyin returned to the team, Yu Guang glanced at An Xia inadvertently. In the hazy moonlight, the corners of her mouth were slightly curved.

How about arriving earlier than her?

In the end, it's me who wins the impression.

Back in the team, Ye Youyin stood attentively, and the captain of the second team heard the voice, "Don't be like this next time, you still have to rest when it's time to rest."

"That won't work." Ye Youyin replied softly, "You are all standing, how could I rest alone and stand together. It's okay, I can hold on."

She almost went to rest just now!

Fortunately, I reacted in time. As a member of the second team, I naturally have to share the joys and sorrows with the combatants, help each other, encourage each other, how can I have fun alone.

She really wants to rest alone tonight, she will definitely be despised by all the combatants!

No matter how tired, she wants to rest again, in order to be able to walk to Mu Sishao's side as soon as possible, she must bear it!

Chapter 652: Although the matter is small, the impact is great

Ye Youyin's return to the team did make her a high score in the hearts of the soldiers.

Zhiwei saw that a small detail and a small demeanor were far more favorable than big moves and big strokes.

This is also Ye Youyin taught by Mrs. Ye.

Although the matter is small, the impact is great.

Standing still, Ye Youyin adjusted her breathing, and resisted her body.

Suitable to stand in the queue.

I don't know how long to stand, but everything is worth it.

Qiao Jiquan glanced at Ye Youyin and said to Jiang Wenbin: "Five combatants, except for An Xia, No. 3 Ye Youyin is pretty good. She is also strong, and she should be in the top ten for the sprint."

There were only five female combatants in the unit. Before An Xia came, Qiao Jiquan and his instructors had a high degree of attention to Ye Youyin.

Looking at Sven, he fought fiercely.

She is a rare and potential female fighter.

Jiang Wenbin is also concerned about Ye Youyin, but he doesn't have the full height of Qiao Ji. He glanced at her and said indifferently: "It's okay, but..."

His gaze fell to Fu Siling, who was sharp as a blade, "I always feel that Lingshen is not very interested in her. It seems that he doesn't quite agree with her strength."

Not only didn't agree with him, but also made him feel inexplicably, Ling Shen didn't like the illusion of No. 3 too much.

Take a closer look, there is none.

Qiao Ji smiled straightly, "For so many years, have you seen how many female combatants Lingshen recognized? Except for An Xia, let him take a high look."

"When did our base have a female soldier who could let Ling Shen take a look?" Jiang Wenbin asked, "Monk base, I haven't seen a female soldier in a few years, but there will be female reporters every year."

As a perennial combat team stationed in the Gobi Desert, it has to endure far more hardships than ordinary combat teams. Every year there are always reporters sent by the team to interview.

That's the only chance they can see women.

Enthusiasm and enthusiasm ushered in the reporters, and politely sent people away, not daring to stay one more night, for fear that the reporters in the big cities would not be able to get used to the hardships of the Gobi.

Female fighters like An Xia and Ye Youyin need to spend fifteen days in the base and see you for the first time.

Qiao Ji thought for a while and nodded, "Yes, there is no female combatant who can pass Ling Shen's eyes. So far, only An Xia and Ling Shen have said a few more words. I can't say a word."

"Behave well, Lingshen will not say anything to her." Jiang Wenbin glared at him, "Don't talk nonsense, because it was heard by others at the time, which caused unnecessary misunderstandings."

When it comes to Qiao Ji's face, his face is cold.

He patted his mouth a few times.

Yes, yes, no nonsense, nonsense will kill people!

Assessment is assessment, fairness and justice, there is no difference in Lingshen's eyes for who is strong and who is bad.

The only difference is who leaves first and who leaves late.

Fu Siling had already looked at the three returnees, and after confirming that none of them were injured, he led Qiao Jiquan and Jiang Wenbin back into the car.

When he arrived in the car, he propped his long legs, and Jun Yan said coldly, "Notify the other five teams, if you don't want to be eliminated, give me speed!"

"Yes!" Qiao Jiquan immediately contacted the other five teams and gave Fu Siling's order.

Five of the ten teams didn't find any problems with the map, they all detoured, and the proportions were too high. Their Lingshen was very upset.

According to Lingshen's previous guess, at most three teams will detour.

It turned out to be a good one, half detoured.

Qiao Jiquan and Jiang Wenbin were not guilty to look at Fu Siling's black face, for fear that they would take a second look, and they would be unlucky.

Chapter 653: Minor injuries

Ye Youyin was the happiest meeting point.

Five teams have not arrived!

Very good!

As a result, the five teams' fighters absolutely all had low scores in this assessment.

I didn't expect it, but a foot test would have caused the five teams to lose a lot. This situation is undoubtedly extremely beneficial to him.

Next, she only needs to play steadily, no more accidents, the top ten is not a problem.

The only problem is...

Yu Guang glanced sideways, looking at the figure standing in front of him on the right side, with a haze over his eyes.

There are still twelve days, how can she be ignorant and move her hands and feet unconsciously to let An Xia be eliminated?

What I want most is to get An Xia injured.

It cannot be a minor injury.

Minor injuries can't get below the line of fire!

Only with serious injuries, the whole generation has to sell for this serious injury.

Only in this way can she avoid future troubles and make it impossible for her to join the team in her life.

Ahead, An Xia felt like a piercing sight on her left side.

Tonight, it was the third time she received such a vicious sight.

Needless to say, it must be Ye Youyin.

Only she is malicious to herself.

He is a character with good acting skills, one face to face, one secret set, exquisite acting skills, double-faced people with unique skills at hand.

There are still twelve days, I hope she can take some action, so that she has a chance to clean up the Ye family, and collect a small interest for Ye Mu who is recuperating from the capital.

Ye Youyin naturally didn't know that An Xia was waiting for her to make a move. She straightened her back when she retracted her eyes, waiting for the arrival of the other five teams.

The ten teams still have five teams yet to arrive, and the five teams that have not arrived all traveled a detour for 20 kilometers. Although they were detoured, they could all walk to the assembly point.

Until now, I found that there was a problem with the map.

But it was too late.

Go back again?

How can it be!

The cold moonlight shrouded the vast Gobi Desert. Looking around, the sky is not at the end, and the soldiers walking on the Gobi Desert seem to be a group of long forgotten by the earth and wandering to another planet.

The road is too far, the night is too long, and the more I go, the more confused I become.

"Are we lost? Do you want to send a distress signal?"

In the howling wind, the warrior's tense voice came, a little scared, and he was still holding on.

They were all fighters from the south, no one had ever walked through the Gobi Desert, even the captain had never walked, a group of inexperienced people, even if they were fighters, they had awe of nature.

Fear is an inseparable part of the human body. Facing an unfamiliar environment and an unknowable way forward, instinctive fear naturally arises.

"Hold on a little longer."

"The satellite phone still has signals. I'm really lost. I believe instructor Fu will contact us."

"Yes, right, right, it's impossible to let us go more and more biased."

"Come, pull together, stop first. Going down, although there is a problem with the map route, if the assessment is abnormal, it is impossible for us to get lost with a fake map that cannot reach the assembly point."

There are 77 people, one person who loses their way can be explained to the above, the loss of a team or several teams, if an accident occurs, it will be a major assessment accident, Lu Er District will definitely be punished by the third team.

They are all veterans of more than one year, and their psychological quality is much better. Knowing the seriousness of the consequences, they have taken a detour now and are not completely worried about losing their way.

Soon, the one-way satellite phone calls of the five captains received the latest order.

They are required to all arrive at the assembly point within an hour, and if they arrive unregulated, they will all be eliminated!

Chapter 654: She is a monkey, right

The new order was issued, and the five teams were horrified.

What was fear, what was uneasy, what was asking for help, all gone!

Go, hurry up!

Stop talking, no matter how tired you are, you can't stop and rest!

"No. 74, give me your backpack!"

"You two, take number 13 away!"

"The three of you, walk with each other!"

"Brothers, hold on for another hour! We will be at the meeting point in another hour."

"Think about our dream. We have passed the first round of the assessment form and completed the three-day assessment. Now there are only twelve days left. As long as the twelve days are maintained, we will take another big step from our dream. !"

The more you get to the end, the more you have to encourage each other. Whether you can get to the end, sometimes you really need the encouragement of the fighters.

There is one hour left, indicating that they can still walk to the meeting point according to the route on the map!

Half an hour later, the five teams gathered one after another.

Everyone was very excited when they saw each other.

That's right!

They didn't guess wrong!

The map took a detour, but in the end you can reach the assembly point.

Little by little, An Xia's No. 1 team and the No. 7 team that arrived together have stood for nearly two hours.

Ye Youyin and the others stood for an hour.

Finally, the fighters of the No. 4 and No. 6 teams arrived. The two teams saw the fighters who arrived early standing neatly, sweeping the walk for several hours, and their spirits were instantly refreshed.

They are finally here! !

finally reached!

"report!"

"report!"

The captains of the two teams raised their voices, hoarse, and knew it was caused by too little water.

Fu Siling glanced at it, but said nothing.

The fighters of the fourth and sixth teams were also very winking. Seeing this, all stood up including the captain.

In the last ten minutes, the other three teams finally arrived.

Standing in line, the air is as silent as death.

Did not dare to speak, did not dare to breathe loudly, no one knew what would be waiting for them next.

In particular, the five teams that have walked forty kilometers seemed to be standing on top of a sea of swords and flames, roasting and stabbing them.

As a result, Fu Siling didn't say anything, picked up the loudspeaker, and said indifferently: "Get in the car."

boarding?

boarding?

that's all?

confirm?

It was as simple as that. The ten trucks that arrived early restarted, and they were brightly white. With a command, 77 members of the ten team rushed to the truck that belonged to the team.

The movements are not as flexible as before, and all of them seem more rigid.

Staying still in the same posture, standing for too long and then moving again will cause joint stiffness and limbs can't move freely immediately. When you get to Anxia, it's changed!

The fighters of the No. 1 and No. 5 teams were still struggling to raise their feet. An Xia sprinted out with a sprint. She was so vigorous that she didn't look like standing for two hours. With her limbs flexible, she rushed to the back of the No. 1 truck. .

A neatly turned over and easily went up with a backpack.

Miao Hai: "!!!"

She belongs to the monkey family, right?

"People are better than people, really can't compare!" Combatant No. 21 sighed, and quickly dragged his legs, staggering to catch up.

He was not the only one who staggered, but all the combatants of One, Two, Three, Five, and Seven did the same.

Only Anxia is a special case.

Ye Youyin was angry again!

Especially when I heard the fighters of their second team praise An Xia for being tough, Ye Youyin couldn't put stones in the mouths of those fighters.

Shut up!

A group of guys who have the ambitions of others and destroy their own prestige!

Chapter 655: The dog takes the mouse and is nosy

The speed slowed a few steps, and the arm was suddenly raised one by one, and it was the fighters of their second team who came to help her.

"Get in the car quickly and rest again when you get to the car."

Obviously they can rest, but in the end, they still return to the team to stand together.

Ye Youyin is a temperament not to be outdone, especially at this time, she doesn't need help from others at all.

The dog takes the mouse and is nosy!

My heart was unhappy, and my voice naturally became much colder, "Don't help me, I can go by myself."

As he said, he shook off his arm that was holding him, gritted his teeth, and limped to the second truck regardless of the consternation of the two fighters.

"I can't see it, it's kind of personality." The male fighter on the right side laughed. "It seems that if you want to help her in the future, you have to ask her if you want us to help."

The male fighter on the left also smiled: "Be careful in the future. People who are stronger usually don't like others to help him. They think that they look down on him."

It's such a small matter. Everyone knows that Ye Youyin has a strong temperament and is not easy to accept help from others.

When Ye Youyin really needed help, she didn't want to take the initiative to speak, and waited for the soldiers to take the initiative to deliver it to the door, only to find that none of them came.

She didn't care about it on the surface, but her lungs hurt again secretly.

Three minutes later, all 77 fighters boarded the car, and the car continued to the next assessment point.

Inside the Mengtu off-road vehicle, Qiao Jiquan turned his head several times to look at Fu Siling, who was sitting beside him with a sharp line on the jaw line.

"If you have a fart, let it go." Fu Siling, who was in a bad mood, put his hands on his chest and said gloomily, "Shut up when you are done."

Don't mess with him if you are in a bad mood!

Who provokes, who bites!

Georgie was waiting for these words.

"Lingshen, you... why did you let them ride in the car? It doesn't look like yours."

It's not like it!

Lingshen, who was so angry as a pufferfish, how could he talk so easily and let 77 fighters ride in a car?

Abnormal!

It's abnormal!

There must be a problem.

Fu Siling's face became darker when he heard the words.

With his temper, he would definitely let them walk to the temporary station tonight.

"There are still big moves in the early morning. Let them go." After grinding his teeth and vomiting word by word, Fu Siling moved from a sitting posture to a side sitting, facing the left window, and refused to reconcile. Georgie spoke.

If you are in a bad mood, I decline to chat with you.

Georgie knew everything.

It turned out that there were big moves in the early morning, so it's no wonder Ling Shen temporarily raised his hand and let them go.

Early in the morning...

That's fast too.

The 77 fighters ask for their blessings, and I hope you can get through it safely.

Arrived at the examination point at ten o'clock in the evening.

Check the last subject tonight.

Crawl for five kilometers, and then complete the night climbing and cable descent on the cliffs at night. The three-person team will climb with ropes, and the time will be divided by the unit.

The fighters who had finally been relieved in the car heard it without any surprise.

That said, how could instructor Fu have no follow-up arrangements.

Isn't this here?

I felt relieved when I came.

At this moment, the fighters secretly thought that if the exam is intact, they can sleep peacefully.

I don't know, a group of "fierce beasts" are already near them, all in time waiting for the "prey" to come here.

Five kilometers away, at the final cliff-climbing test point, the soldiers of the broken wolf and snowy teams heard the sound of the truck's motor.

They opened their eyes one after another, in Qing Leng Yuehui, those opened eyes were like snow leopards walking at night, one more ferocious than the other.

Chapter 656: Captain of the same style, too scary

"It can be counted."

With the tip of his tongue pressed against his upper jaw, G3 from the Snowy Brigade gave a cold smile.

Next to him are fighters from the Powolf Brigade, code-named "Long Chu", taken from a kind of fairy grass recorded in "The Story of the Unknown".

All the other members of the Wolves Breaking Team, their code names are also from various **** trees, fairy flowers, and fairy grasses in ancient myths.

The flower category has no code names yet, only with trees and grasses.

Such as Mu Shenyuan, codenamed "Fusang"

Wei Ji's codename "Jianmu"

Ying Que codenamed "Bodhi"

Cheng Ming is codenamed "Hai Meng"

Qi Xing Su is the "star"

The Wolf Warrior, code-named "Long Chu", was holding a rifle, and he smiled, "We will stun people later, don't carry them, tie them up and drag them away."

Carrying people, too tired, but also let the other party enjoy.

Boring.

Dragging away is much more fun. There are all kinds of gravel along the way, some gravel is even sharp as a knife, dragging along the way, the taste is absolutely sour and refreshing.

This proposal has been strongly supported by G3, "Brother, you can talk about my heart. Then let's make a decision. If you can drag it, you can drag it. If you can't drag it, you can drag it!"

Oh yeah, it was such a happy decision.

The two looked at each other and smiled.

Mu Chenyuan was not far away from the two of them. Hearing the words, a dark color passed by in his cold eyes.

Procrastination must be procrastinated, but it is difficult to procrastinate Anxia.

Creeping high, Mu Chenyuan closed his eyes again, waiting for An Xia's arrival.

"Five kilometers crawling, in a nutshell, we'll probably have a rest afterwards."

"It's a bit cold, I want to be active, I want to be active."

"Don't, in case we are found out, we will have a hard time."

I don't know who is chatting, the voice is a bit messy, a low-alcohol cough is heard, and he shut up immediately.

"Hush, our smiling tiger captain is cruel, thinking about how to torture us every day."

"The captain of the same style, your captain is still smiling, our captain, I haven't seen him smile for ten and a half months. I really want to laugh, the sky is devastated."

"Don't say it, don't say it, take a rest." The soldiers of the Snowy Brigade held their guns tightly and shut up completely.

The captain of the same style is too **** scary!

I really want to break the wolf brigade brothers, usurp the throne together!

In the twilight sky, cold moon and cold stars, strong wind and cold, distant mountains ups and downs, the fighters who had not rested for a whole day began their assessment again.

If you want to become a special fighter, you will face challenges again and again, both physically and psychologically, until you become a qualified special fighter!

After the five-kilometer crawl is over, whoever arrives at the next test site first will start the test first.

Following Fu Siling's command, the fighters with backpacks all slumped to the ground and began the five-kilometer crawling assessment.

An Xia's creeping was quickly obvious to all, fast and fierce, and she rushed far away from the snake-like "swish".

She didn't know what she had eaten, what was she tirelessly after the day, she recovered her strength immediately after a short rest, and entered the next round of assessment.

Ye Youyin had the thoughts of wanting to be with An Xia and gave instructions, "Hoo" and crawl forward.

She does have the strength, the action is standard, and she surpasses a few male fighters in the blink of an eye.

The male fighter who had been surpassed by her was shocked when he saw him, "So fast! One is fiercer than the other!"

As a male warrior, she has been compared by female warriors many times here, and her face is really unbelievable.

Chapter 657: Heart is higher than the sky

Ye Youyin tightened the corners of his mouth, stared at the front, and kept crawling forward.

So fast?

Do not!

Before An Xia, I can't call it fast!

"I won't lose to you, I will definitely not lose to you!" He muttered hard in his heart, relying on the strength of not admitting defeat, Ye Youyin gradually surpassed the middle and early stages.

The gravel turned sideways, his arms, hips, and outer thighs hurt all the way to the bones, and no one said anything.

Needless to say, the whole body will be blue and purple tomorrow morning.

No fighter will care.

Even if there is a sharp knife under them, they will crawl over without blinking.

Pain is nothing.

Losing is the big deal!

The dust rises. Except for the few fighters crawling in front that were not covered by the raised dust, all the other fighters were covered in dust. It was night, and the sight was disturbed. At this time, the eyes were narrowed by the dust and couldn't see clearly. The fighters who have the way rely on listening to distinguish their positions, so as not to fall out of the team.

Anxia is fast and has become the leader.

Miao Hai and other four powerful male combatants who followed, saw her fast, gritted their teeth, their eyes were flushed with dust, and did not raise their hands to wipe their eyes.

Raising your hand for one second will delay one second, at least three seconds behind An Xia!

When I care about it, I'd rather be red-eyed than delay.

Fu Siling was still sitting in the car, and the car started slowly in front of less than ten yards, just enough for him to see the soldiers who were crawling behind the car.

Naturally, I also saw An Xia.

Yes, he was not disappointed.

It was her who ran the forefront, using her strength to completely crush all the fighters.

As for Ye Youyin, Fu Siling hasn't seen it yet.

A person is crawling in the dust, and he doesn't have a perspective eye, how can he see it.

After crawling halfway through five kilometers, Ye Youyin rushed to the front. No matter how hard she tried, An Xia was still far behind.

Combatant No. 54 who was not far from her saw that she wanted to rush through An Xia, panting, and reminding her, "Be careful! Beware of broken shoulders!"

Ye Youyin wanted to rush through An Xia, it was impossible.

An Xia's speed is faster than all of them, and she is not her opponent at all.

Can't admit that An Xia is really better than them.

There are 77 people left in the team, and no one can surpass her for the time being.

I don't know if she will have any shortcomings in the following assessment.

It is unlikely that there will be shortcomings. Such a strong female fighter will definitely develop all-round, and there can be no shortcomings.

Ye Youyin didn't seem to hear the reminder from the male fighters. She would never stop if she wanted to win An Xia.

As long as she works hard enough, she will definitely have a chance to win An Xia.

She must have won An Xia!

must!

must!

There was no pause, even if the blood on his elbows was open and the wound was mixed with sand and dust, Ye Youyin gritted his teeth and continued.

She always remembered a sentence her grandma once said, "You Yin, if you want to get it, you must first give it. Without giving, it will never be possible to get what you want."

Getting Mu Sishao is destined to suffer, and she is willing!

Ye Youyin's perseverance is amazing, otherwise, as a wealthy lady, she would not be able to go to where she is today.

Unfortunately, Ye Youyin did not catch up with An Xia until the end of the five kilometers.

When she climbed about four kilometers, An Xia, covered with gray tips, had already reached the cliff under the assessment.

Fu Siling pointed to the cliff and said lightly: "Climb up, then down, the time you decide, the faster, the higher the score, the slower, the slower the score."

Chapter 658: I met, excited

After speaking, after thinking about something, Fu Siling reminded him again, "You came three days late, and your score is already much lower than that of other fighters. If you want to get ahead, keep the top three in the next assessment before you can get your score up. "

The assessment is fair, and the score is the lowest for three days in the evening.

The match against Fu Siling during the day was not scored, but the results were effective, ranking far ahead of the 13 eliminated combatants.

After several assessments tonight, if An Xia still ranks first, then her score can never rise to the middle and late stages.

Only then did An Xia know that her score was very low.

Can the score be raised by keeping the top three?

"How about staying first?" She asked lightly, the familiar arrogance, not at all offensive.

Fu Siling licked his lips, "Each item wins the second, and you can get the first."

Hearing this, An Xia nodded lightly.

Then win each item.

Above the cliff, a very bright beam of light flashed from bottom to bottom, An Xia stood under the cliff of the Gobi Desert and looked up.

Above, there are five people standing.

Lei Hongtao and Niu Qiyue stood at the forefront.

The bright light tells Anxia someone from above to respond, and also tells the soldiers of the Wolf Breaking Team and the Snowy Team that are a hundred meters away, that the combatants who have participated in the election will start the assessment.

One hundred meters, the dazzling glare of the two special fighters from the wolf and the snow field sent their guards to their spirits.

"Quickly, notify the captain!"

Just after speaking in a low voice, someone opened his eyes.

Xia Jinyuan only closed one eye and said lazily: "What's the hurry, only two or three at most, it's still early." He was talking to Ye Jian who was about to get up, "Squint again, and get more energy to catch more fish. ."

This operation is called the "fishing" operation.

The 77 little rookies who participated in the election were the little fish they wanted to catch.

Ye Jian didn't sleep anymore, she had fallen asleep deeply, and she was in good spirits at the moment, and she was not drowsy at all.

"Let me see, you rest." After speaking, she hunched over her waist, relying on luck to where Mu Chenyuan was.

Xia Jinyuan, who opened his eyes and closed his eyes to speak, turned his head. When he saw him, hey, how could he continue to lie down, his wife ran beside other men.

I know that Mu Chenyuan has someone he likes, but he does.

I don't know who believes in Wang Bagui's grandson, and what Mu Chenyuan said is a little fresh meat, he is an old bacon, and they have made it even if there is no appearance crisis!

Heh, he won't have a crisis of appearance. In the past, he just wanted to see with Jade Bird who first arrived at the last assessment point tonight.

In this round, the assessment is whether the combatants' ability to cope at night and whether they have passed the test.

Whoever comes first will climb first, and they won't take a half-second break.

When the whistle sounded, Niu Qiyue said "Start", the command was issued, An Xia rushed up, his hands in tactical gloves grasped the rope tightly and moved up in the dark.

There are five climbing ropes, but five people start the assessment at the same time, but now only An Xia is alone, and An Xia is the only one on the steep cliff.

The cliff is steep, the figure is slender, and he is clearly alone, but he has the majesty of an army.

About a hundred meters away from the cliff, on the gravel mountain that has been washed out by the years, Mu Chenyuan held the night vision goggles in both hands, staring quietly at the figure climbing on the cliff.

"Wow..."

"sand..."

The boots stepped on the cliff, the sand and rocks fell, and the flying dust fell into the eyes of Fu Siling, Jiang Wenbin, and Qiao Ji who looked up and looked up. The three of them squinted their eyes at the same time, and their vision was temporarily blurred.

Chapter 659: Give up, An Xia is his

The strong light flashing above did not turn on again, An Xia climbed on the starlight.

The steep cliff and the sinking center of gravity, An Xia grabbed the rope, and every step he climbed up was fast and steady, quickly climbing nearly ten meters.

Xia Jinyuan looked at and narrowed his eyes.

Immediately afterwards, he heard the Blue Bird whisper: "Team Mu, that's An Xia."

Certainly, the figure climbing is An Xia.

An Xia?

Jade Bird mentioned it many times and it was very powerful, even more powerful than when she was at that age.

Mu Chenyuan nodded, focusing on An Xia, "Well, it's her."

He finally saw her.

So thin and so full of combat effectiveness.

Blue Bird also stared closely, and there was a deep smile on her face like a flower, "Q King, see if she is An Xia, I am a good friend at first sight."

However, seeing each other twice seemed to have known each other for many years.

"I see, it's really amazing." Xia Jinyuan replied, rubbing Ye Yi's eyes with her slender fingers.

This kind of speed has completely reached the level of an intermediate special fighter. Does it still need to be assessed?

Go straight to the upgrade.

Evil spirit passed from the end of his eyes, and Xia Jinyuan smiled lowly: "Blue Bird, do you want to try digging people again? Move her with your friendship, maybe you can really dig people over."

He blatantly showed his desire to dig people, and he didn't shy away from Mu Chenyuan at all.

Mu Chenyuan didn't hear the same, his face was indifferent.

Digging?

He thought, can he dig it?

Jade Bird really wants to dig people, and now he sees the speed of his friends, even more.

"Okay, I will ask after the action is over." After speaking, he smiled and asked Mu Chenyuan, "Team Mu, don't mind if I dig in person."

After all the questions came, I naturally needed to answer politely.

The handsome face did not change, and he answered indifferently, "I don't mind."

An Xia is his, he will not give anyone a chance to dig away.

"Team Mu is generous, Blue Bird, be optimistic about you, come on!" Don't look at Xia Jinyuan's foolishness, it sounds like a casual comment, but those dark eyes like the sea are extremely serious.

He moved really.

Not just casually.

As Jade Bird said, the 18-year-old Anxia is indeed better than the 18-year-old Jade Bird.

For the second time in his lifetime, he encountered an amazingly talented female fighter.

They are destined to be born for the team.

An Xia had climbed about 30 meters, and she had a small pause in the middle. Below, Fu Siling suddenly stopped when she saw her suddenly stop.

Why did it stop?

Stopped An Xia turned her head, her eyes coldly sweeping towards the undulating mountains in the distance.

Someone was watching her secretly.

Not one, but several.

Their eyes are like ferocious beasts, and themselves, they are the prey they want to catch.

Is Fu Siling arranged for the fighters?

It seems that the assessment tonight is not over.

After a pause of less than five seconds, An Xia climbed again.

At the top of the mountain one hundred meters away, several people quickly shrank and hid their heads, shouting out for danger.

"So keen, I'm afraid we have already discovered us." Snow Territory Team G3 clutched his chest, feeling lingering.

What a powerful female fighter, she could even notice it a hundred meters away.

Broken Wolf's Chinchilla was standing, with the same lingering fear, "It's really powerful, no wonder it can be unique, leaving everyone far away and completing the climb alone."

More is happy.

I am very pleased that there is such a powerful female fighter in the selection of reserve special fighters in Lu Er District.

Needless to say, it is definitely An Xia.

Be low-key, low-key, the brothers of Lu Yiqu are still there, too high-key makes them very ignorant.

Xia Jinyuan, the brother of Lu Yi District, wanted to dig people even more.

Lie down tight, his black eyes were dark, and he leaned to the blue bird's ear, and said in a deep voice: "It's not like a new fighter, who is astonishingly sharp and doesn't lose to you back then."

Chapter 660: Good person

Xia Jinyuan, who had combat experience, was separated by a distance of one hundred meters, and, under the dim vision at night, he could still see the professional movements used by An Xia when climbing.

Every movement was crisp and neat, and what was even more shocking was that while maintaining a fast climb, he observed the surrounding terrain, and then quickly found the next footing point and climbed up.

The whole climbing action was like flowing water, if her center of gravity hadn't fallen, she would have thought she was walking on a flat road.

Ye Jian leaned forward again and continued to observe her friends with the night vision goggles. She was quite proud and said, "Of course Xia Xia is amazing. She is even more amazing. It depends on whether you have the opportunity to see and see."

Is there a chance to see?

Xia Jinyuan hooked her lips and followed Ye Jian to observe the figure on the cliff, as flexible as a Tibetan antelope, and said slowly, "How can there be no chance? Isn't there tonight."

"I arrange two people now, take her as the key target, try her skill, naturally you can see how good she is."

This can be!

"Count me?" Ye Jian wanted to join.

Xia Jinyuan refused, "No, you are familiar with her. With her keenness, she can immediately know who you are when she just got hands on her. You must send two unfamiliar guys."

That's true, Ye Jian asked, "Xia Xia has seen K7, Pigeon, and Changying. Or, arrange for G3 and Z7 to go there?"

Two of them

After speaking, Ye Jian thought of what she had said when she met An Xia for the first time. She said to An Xia, "The most handsome is our summer team", put down the night vision goggles, turned her head sideways, and looked at the creeping Xia team next to her.

Xia Xia has a small hobby in common with her: Yan Kong.

Team Xia's face, superior posture, is completely different from Captain Powolf's handsome.

or.....

Slowly proposed, "Team Xia, or else, you go?"

Speaking too slowly, Xia Jinyuan, who had always understood her, narrowed her black eyes.

"Not on."

Regardless of why he was asked to go, he intuitively told him that there was a problem.

Ye Jian sighed. If he understands too deeply, it is a bit bad. He wants to do something bad, but the bad thing has not been done yet, so he is aware of the convenience.

Forget it, no, no.

"Then let G3 and Z7 go."

Ye Jian stepped back and looked for G3 and Z7.

The two of them have a good understanding of each other, and if you leave it to them, the Xia team will be able to see Xia Xia's strength.

After listening to the conversation between the two of them, Mu Chenyuan didn't stop him.

The ace special team in Luyi District tried to test An Xia's strength, but he also wanted to know whether An Xia could get out of the ace special team.

Or, can we fight back.

As soon as G3 heard this, he asked him to test, and immediately nodded, "No problem, I will go! I absolutely satisfy King Q!"

After learning that Z7 was also arranged, G3 was stunned, "Do you need two people together?"

Did you make a big fuss?

It is just a female fighter who participates in the selection of reserve special fighters, and two special fighters are still needed?

All combatants of the Snow Region Brigade are special-level combatants. This shows how terrifying the team's strength is.

"Her strength is good, and the two of them will make a move together." Ye Jian was a subtle reminder, originally wanting to say one shot, if Xia Xia hits her, she will throw her face on the ground.

It is better not to say it for fear of hurting G3's self-esteem.

G3 has no objection, "That's it, I'll be with Z7. You don't have to ask him if it's a little thing, I'll agree to it for him."
