

Goddess 671

Chapter 671: dangerous

and many more!

and many more!

Ai Tingze stared at the picture on the phone and sat up straight.

He has seen such a pair of eyes!

Cold, ruthless, indifferent to the ups and downs in his eyes.

An Xia, he had only seen her have such cold eyes.

Could it be her? !

Staring at the eyebrows on the picture again, the more they look, the more they look, and the more they look, the more murderous Ai Tingze's eyes are.

It might be her!

If it is really An Xia, then...

Must be removed as soon as possible!

He didn't want to expose Ai's family because of this!

Because he sent someone to hunt down Anxia, once the national police followed this clue to investigate, Ai's family was exposed to a great risk.

But it is also very tricky to get rid of An Xia.

She is already a member of the team, and the team will definitely check if she is removed.

Ye Family didn't dare to provoke the team, and he was even more unlikely.

What should I do?

Ai Tingze, who was in a dilemma, thought for a long time, his eyes flashed with misfortune, he pulled out a set of numbers, and was quickly connected.

It's the L country man who just contacted him.

"Why didn't the outlines of the nose, mouth, and face be drawn well?" Ai Tingze asked.

The man replied, "I asked two eyewitnesses. They didn't have a deep impression of the girl's appearance. The only impression was that she looked at their eyes."

"This is the only clue that can be clearly drawn. I know it will be difficult to find someone, Ze, I believe that with your ability, you can definitely find the girl."

This time, the man said Xia Guohua with a weird accent.

It turned out that the eyewitness had no impression of An Xia, but he could drag it on for a while.

It's difficult to pretend, "With only a vague picture, you will undoubtedly find a needle in a haystack. It's best to ask the eyewitness again to see if there are any more."

Ai Tingze said: "I will find someone to repaint. After the painting is finished, you will ask the witnesses. I need accurate information."

To be cautious, once again, the witnesses had no impression of An Xia, and he could delay it for a longer period of time.

"OK, I will confirm again. If there is a new situation, I will contact you immediately. Good night, Ze, and good luck." The L country man smiled, politely waiting for Ai Tingze to end the release first.

"Good night, Anil."

Ai Tingze interrupted the call calmly as before. The phone was thrown to the side of the seat, his eyebrows were furrowed, and his mood was extremely bad.

An Xia definitely needs to be removed, but how can it be removed?

Neither the national police nor the team could doubt it. The furrowing his brows tightened. Finally, Ai Tingze was so annoyed that he cursed a **** and went to the driver, "Go to Lanxiang."

'Orchid Township', the top gentle township in the capital, is the most elegant place for upper-class men to visit.

The women inside are not only elegant and elegant in conversation, but also insightful. They have all three of their education, figure, and appearance.

Those who can go to "Lanxiang" to have fun are worthless.

Every time Ai Tingze passed by, it was when he was in the worst mood. When he came out, the gloom was wiped out, showing how powerful the girl inside was.

The driver immediately turned the car around and drove to 'Lanxiang'.

At 2 o'clock in the morning, the Ducheng Street was very quiet, and occasionally a few night-returning cars passed by, and the red taillights flashed past like meteors and disappeared in a flash.

The city has gone to sleep, and the deserted Gobi Desert is so quiet as if you are in outer space, there is no sound.

The captains of teams three and four yawned and exchanged posts with the captains of teams five and six.

"Thanks." Captain No. 4 walked off the post, patted Captain No. 6 on the shoulder, squinted his eyes and went back to sleep.

Captain No. 3 also patted Captain No. 5 on the shoulder, and left with Captain No. 6.

Quiet around, there are ghostly figures approaching.

Chapter 672: Weasel Nagging Chicken Cubs

The captains of teams 5 and 6 just stood up, and the two seemed to notice the strangeness almost at the same time. At the moment they turned their heads, they shouted sharply.

The three words "Who" are all on their lips and teeth, I just barely say it. The mouth is covered by someone, and the weasel seems to be holding down the chicken cub, and I feel it in seconds.

The situation of the captains of the No. 3 and No. 4 teams was the same as the captains of the No. 5 and No. 6 teams. He reacted, his mouth was covered, and there was no chance to resist, and his eyes were dizzy.

Is there a mistake!

There is still an assessment in the early morning!

Before fainting, the four team leaders found the same shout in their hearts.

It's too late.

The four of them who were fainted by the members of the Snowy Brigade directly picked them up and threw them aside.

The sentry that was originally a sentry post became the first batch of unlucky ones.

"Finish."

The four people who attacked made a gesture, and the cat continued to sneak in with her waist tight.

The sentry was resolved, a few figures did not know from which corner they came out, locked the target and started the "fishing" mission tonight.

Little fish, here we come.

The special fighters of the Snow Territory Brigade moved extremely fast, almost like ghosts, they were still here just now, and in the blink of an eye, people didn't know where they were.

"Four o'clock direction, six, ten meters away, five. Six o'clock direction, seven..."

As the snowy brigade's spies exposed the location of the "little fish" one by one, the wolf-breaking brigade members who were hiding in the dark held their breath and waited to go out.

Mu Chenyuan lifted up with one hand, and with a slight move, Polang sent out.

The instructors such as Fu Siling, Jiang Wenbin, and Qiao Jiquan were already awake.

They are the first to wake up here.

Because two people touched it purposely, and before they got close, the intermediate special fighter Fu Siling suddenly woke up.

The three people met, and Fu Siling saw one of the dark shadows raising his hand and making a silent movement.

He is a special fighter in Lu No. 1 and Lu No. 2 areas.

The two joined the ranks of instructors and lie together to observe.

Mu Chenyuan used Yeyi to look for An Xia's figure, and Xia Jinyuan was also looking for it.

Sweeping over, neither of them found it.

"Instructor Fu, is there a team missing?" Xia Jinyuan asked, "The most powerful female fighter seems not to be with them."

Plus the four guards who were initially stunned, the number was only 69, 8 less.

Fu Siling did not hesitate to betray An Xia, pointing to the opposite **** at 2 o'clock, "Upper, there are exactly eight, and there are a lot of them. The location is An Xia's choice."

As he said, his voice became colder, "You watched in the middle of the night, and she noticed it."

cough.....

This is a bit embarrassing to say.

The main reason is that they didn't expect An Xia to be so keen, but she noticed it after a second glance.

Xia Jinyuan said: "Sorry, it's my fault."

"You want to focus on trying her, it's a bit difficult. Her strength is close to the special level, and she is probably awakened by this moment." Fu Siling sold An Xia cleanly.

It is necessary to tell them her actual situation, lest they underestimate the enemy again.

Mu Chenyuan did not underestimate the enemy, he had seen An Xia's strength, the level of an intermediate special fighter.

It didn't take long for her to separate, and her progress was faster than before.

Xia Jinyuan informed G3 and Z7 in the public channel, "An Xia is on the reverse slope, reliable news, you are too slow, she probably has woken up."

"It is very likely to act secretly." Mu Chenyuan added in the public channel.

G3 and Z7 are looking for someone.

Upon hearing this, the two raised their heads to look at the reverse slope.

The finger flicked the pop wheat lightly, indicating that he had received it.

Chapter 673: There really is a monster moth again

Ye Jian raised his eyes and glanced in the opposite direction. The corners of his mouth were slightly raised, and the work in his hands did not stop.

The sleeping position is really well chosen, that is, a person sleeps a little lonely.

Once an accident occurs, there is no chance to even call for help.

An Xia opened her eyes really early.

As Fu Siling said, she perceives the difference and deliberately chooses a high, defensible position when she chooses a place to sleep.

Seeing this, the members of Team One followed her to the anti-slope.

It's a bit far away from other teams, but it doesn't matter. An Xia must have her idea here.

Without getting along for a day, the members of the first team have a fascinating trust in Anxia.

Captain Miao Hai believes more than other fighters!

Before going to bed, combatant No. 33 asked him, "How do you choose such a high level? Don't you worry about rolling off when you can sleep?"

"Are you afraid of falling asleep? Or are you afraid that instructor Fu will have a demon moth again in the middle of the night?" Miao Hai asked with his eyes closed, and there was no more question when asked about 33.

Need to say more?

I must be afraid that instructor Fu will have another demon moth.

Or follow An Xia obediently, in case of a demon moth, An Xia will definitely spot it right away!

With this idea in mind, the members of the No. 1 team followed An Xia to sleep on the reverse slope. Although there was some air leakage, they felt safe.

An Xia got out of the cold-proof bag, without a sound, waking up the 39th fighter closest to her.

Combatant No. 39 woke up, his mouth was about to open and was covered by An Xia.

"Shhh..." An Xia reminded softly, "There is movement."

what!

Something?

What's going on?

Depend on!

It's really a monster moth again!

No. 39 calmly asked and nodded slightly, indicating that he already knew and would never say anything.

"Go, go and wake up the others." An Xia let go and immediately went to wake up the next one.

She did not presume the alarm to remind all the combatants, mainly because she chose the rest area of the No. 1 team on this reverse slope, which is a bit far away from the other teams.

Miao Hai didn't wait for An Xia to come and call, but he woke up.

With his abundance, he got out of the cold-proof bag and heard An Xia whisper: "There is movement ahead."

The eight combatants of Team One were all awake, with clear eyes and no sleepiness.

No. 39 looked at An Xia, only worshipping.

What a monster moth!

An Xia cat tightened her waist, coldly in a low and soft voice, "Don't distract later, let's see what's going on first."

"Don't you wake them up?" No. 21 asked.

An Xia shook his head, "Let's figure out what's going on first. The movement below is very light, and the people who come are not easy. If we remind ourselves, we will also be exposed."

"Yes, don't fail to figure out what's going on, just follow along with you." No. 39 has become An Xia's diehard fan, Shen said: "There are 8 of us, 69 people below, it is impossible for all 69 to sleep with me. Like dead pigs, none of them wake up."

"I really didn't wake up at all, then..." No. 39 said as she said, shut up, and stared at An Xia again.

That's terrible!

If none of the 69 below were awakened, An Xia above was awakened instead, Mom!

An Xia, she, she... How did she perceive something strange?

Miao Hai and several other fighters also thought of it, and they all looked at An Xia.

An Xia also looked at them, and from Qishuang's wide eyes, she could see what kind of activities they were doing.

Indifferent: "Experience plus intuition, plus the vigilance at all times, even if you are in the dormitory, you can also find problems."

Chapter 674: Is it a man or a ghost

In addition to experience, other fighters agree.

I really want to ask, where did An Xia, a new fighter, learn from?

The eight people did not stay where they were, the cat tightened and slowly descended from the other side.

On the other side of the slope, special fighters from the Snow Territory and Powolf Brigade went out. In an instant, the dozen or so fighters who participated in the election were stunned in their sleep, not knowing what happened, and who was stunned by them.

Until An Xia screamed, the combatants who were still falling asleep, woke up!

All of them slept in a daze, and their eyes were dim when they were awakened, until they felt someone standing silently beside them, and the soldiers were shocked.

"Someone!"

"Someone!"

Where did these people come from!

Is it a man or a ghost?

They only found out when they were all around!

"An Xia!"

I don't know who suddenly yelled An Xia's name. It seemed that she was waking everyone up just now.

An Xia replied, "You are not their opponents. If you can't win, you run first! Two groups of two separate actions!"

All squeezed together, like a fish in a pond, one net is thrown down, and all are caught.

what!

Can't win, run first?

This this...Is this successful?

He just hesitated for a second or two, and several more fighters were put down.

An Xia in a hidden corner is quickly counting how many people have arrived.

Indifferent eyes flashed across the scene quickly, and there was blood rushing deep in the bottom of his eyes.

these people!

They are definitely the ace fighters of Xia Guo's land warfare!

She glanced to the very edge, and in the thin moonlight, she vaguely saw a familiar figure.

Hearing the sound, Mu Chenyuan's cold eyes flashed with a smile.

It was An Xia's voice.

Fu Siling and Xia Jinyuan followed the direction of the sound and swept away sharply.

Sure enough, he has already woke up!

"G3, target person, two-point direction."

The two G3 and Z7 who just touched the reverse slope: "!!!"

Cattle!

He really woke up and ran away to remind the soldiers who were still sleeping.

Unfortunately, it was a little late.

What about waking up?

The more you struggle, the more you suffer.

G3 chuckled, "Immediately contain key targets."

The waking fighters reacted a little slower, and only opened their movements. They didn't even get out of the cold-proof bag, and they were kicked down by the shadow standing next to them.

They want to run, but there is no way to run!

"Doesn't sleep sound good? Close your eyes and continue to sleep."

The sound of a smile came from above, like metal with no emotions.

Revolt?

Resistance is useless.

"Oh, you know you are struggling now? Xiaoyuer, it's useless to resist."

There was not even a chance to resist. The fists came with strong wind, and the crushed fighters had their eyes widened, one by one worse than the other.

The quicker-reacting fighters had already got out of their sleeping bags and counterattacked with the fastest speed.

Soon, how big is the gap between their strength and these ghosts.

There is no way to accept the move!

They were all ruthless moves, killer moves, fierce, fierce, fierce, and they retreated steadily, and they were unable to resist.

Ye Youyin's resistance was fierce.

Run if you can't win?

impossible!

She will never run!

He sternly yelled at the surrounding fighters who resisted, "There are no deserters on the battlefield, and it is even more terrifying to escape! Anxia, if you want to escape, you must escape by yourself!"

Don't forget to step on An Xia at this critical juncture.

An Xia sneered.

She was talking about running, not fleeing.

In Ye Youyin's mouth, it became a "flee".

Miao Hai drank coldly and went back, "It's running, running away, taking cover at night to fight back!"

Can you speak!

When she said so, it became An Xia's fault!

Chapter 675: Cleverness is mistaken by cleverness

The members of the Snowland and Broken Wolves team laughed.

There are smart people.

It's a pity that I was harmed by some clever people who were wronged by cleverness.

Some fighters did run away after listening to An Xia's words.

Unexpectedly, Ye Youyin let them back again with a stern shout.

There are no deserters on the battlefield, how can they escape?

Some fighters ran away, but they were quickly blocked.

This time, the two teams of Powolf and Xueyu trained together. Each team sent 30 people, and a total of 60 people trained together. With their skills, they were more than enough to defend against two.

In addition, a dozen or so fighters had been fascinated before, and the soldiers who were all small fishes in their eyes were captured easily.

In order to prevent Xiaoyu from escaping, Mu Chenyuan and Mu Chenyuan had arranged for the soldiers to guard outside, and whoever ran out would be killed directly.

A little fish can never get out of the net they cast.

There was a scuffle, and the participating fighters retreated steadily.

Only the 8 members of the No. 1 team are temporarily safe.

However, it won't last long.

An Xia wanted to take them to fight guerrilla warfare, to see if he could put a few of them down.

Now, I can only think about it.

Run, run but a ghostly figure.

I can't beat it even more.

"Why don't you fight it?" No. 39 clenched his fist, and it's useless to hide it. Those people are so **** good!

It's all a killer move!

Miao Hai asked An Xia in a deep voice, "Do you find their leader?"

"There is a suspicious target." An Xia moved his wrists, and the blood in his eyes was getting thicker. Since he can't escape, then fight against these ace special fighters.

"I'm going to find someone, you guys..." An Xia turned her head and glanced at them, "There is no way to run, even if it is running, in the presence of those people in front of her..."

You can't run far...

Before he finished speaking, An Xia turned around and shouted, "Left side!"

Someone rushed down on the left.

It is the two of G3 and Z7.

Xia Jinyuan asked Mu Chenyuan, "You said, how long can she hold on?"

"Getting away from G3 and Z7 is not a problem." Mu Chenyuan is very confident in An Xia, "It won't be a problem to find the Blue Bird."

This "fishing" plan ended with finding the deputy captain of the Snowy Brigade, Jade Bird.

Not only need to find, but also need to catch the blue bird.

When Fu Siling heard the words, his eyes fell on Mu Chenyuan.

who is he?

Why are you so confident in Anxia?

Xia Jinyuan raised her eyebrows, "Really? She really wants to get out of G3 and Z7. Team Mu, An Xia's level is definitely at the top level."

G3 and Z7 are all special special fighters!

Is it still necessary to be assessed to be able to get out of the enclosure of two special special fighters? Directly grant the special grade.

Fu Siling said: "Anxia level, our goal judgment here should be close to the special level."

"No." Mu Chenyuan shook his head, his thin lips curled into a shallow smile, "All you see is her surface."

Based on his knowledge of her, there would be no word "close" in her dictionary.

Definitely has reached the super level.

Such affirmation further expanded Fu Siling's doubts.

After thinking about it, he asked, "Why are you so sure? An Xia is... familiar with you?"

Not acquaintance, but acquaintance.

Acquaintance is just knowing, being acquainted is being very familiar with each other.

"I have taken her." Mu Chenyuan didn't hide it.

Fu Siling knows it!

No wonder An Xia is so tough.

It turned out that an ace special fighter took her!

Xia Jinyuan squinted his eyes, and he smiled at Ye Jian: "Blue Bird, have you heard what Team Mu said clearly? Can you turn to Anxia? It's up to you."

Chapter 676: Good guy, so you have to grab someone

Tsk tsk tsk, such a powerful female fighter, he must fight for the blue bird.

Fu Siling heard a fierce blow in his eyelids.

Want to grab people in Luyi District?

That can't be done!

"Brothers of Lu Yi District, we two Lu Er District are still in the eyes, you are so bright and robbing people, it's not appropriate." Fu Siling smiled lightly, and his brows were cold and gurgling.

At this time, Fu Siling did not know Ye Jian, who was related to him by blood, code name: Blue Bird.

Not to mention that the guy who robbed him in front of him at this moment was his brother-in-law who was nearly five years older than himself.

No way, he and Xia Jinyuan have never met at all. How can I know that the person in front of him is the brother-in-law he has never met.

Xia Jinyuan didn't know that Fu Siling and the Fu family were related.

If he knew, he would definitely not **** people face-to-face, and rob someone from behind.

Hearing that, Xia Jinyuan smiled cheeky, "Our team is short of people, and I can't help but want to recruit when we see the right ones. Team Mu doesn't mind me robbing people, instructor Fu minds like that, why, it's hard to be a wolf. Robber?"

Good guys!

All three special teams are robbing people.

Mu Chenyuan feared that the water was not turbid enough, and added indifferently, "Air battles and naval battles also want to grab people, and have had contact with Xia Hou Zhan."

...

Fu Siling looked at Mu Chenyuan, "How do they know An Xia!"

"As the Xia team said, I can't help but want to recruit when I see the right one." Mu Chenyuan was uncomfortable, he was used to someone robbing An Xia, "Now with the addition of Canglang, I want to rob her too much."

The gun depends on whether An Xia is willing to pass.

Xia Jinyuan thought of the blue bird back then.

The blue bird of the year was also so sought-after.

When it comes to naval battles, naval battles want to grab people.

When it comes to air combat, air combat wants to grab people.

When it comes to border defense, the border defense also wants to keep people!

In short, wherever the blue bird goes, the big guys are thinking about robbing people.

Fu Siling pressed the corner of his mouth, so many people grabbed it, and it seemed that Canglang would need to prepare in advance.

I heard Xia Jinyuan again: "Blue Bird, the bad news is that air combat, naval combat, and the instructor Fu Siling of the Cangwolf brigade next to him are all eyeing An Xia."

"An Xia is in exactly the same situation as you back then."

Fu Siling?

Ye Jian, who was hiding in the dark and keeping an eye on the whole situation, pursed his lips and smiled, "Team Xia, the instructor Fu Siling you said in your mouth, please call me cousin, thank you!"

Xia Jinyuan: "!!!"

What?

What did the blue bird say?

Tang? elder brother?

Xia Jinyuan, who was still cheeky just now, looked handsome.

Slowly twisted his neck and looked at Fu Siling.

This one turned out to be cousin.

Mu Chenyuan was also surprised.

Cousin.

Brother-in-law and cousin rob people?

Fu Siling was stared at by Xia Jinyuan's eyes and frowned, "Why, you still want to fight with me?"

"Brother, I was wrong."

In the face of the Fu family, Xia Jinyuan has always admitted his mistakes quickly.

You must admit your mistakes quickly!

His father-in-law still doesn't want to marry the blue bird.

Every time he went to the Fu's house, the good-tempered Yue Zhang was, alas, don't mention the sadness.

Smiling, polite, caring, Xihan asked warmly, and treated him as a prospective son-in-law quite nicely.

However, as long as marriage is mentioned, the particularly good Yue Zhang quipped a lot, smiled, and changed the subject politely.

Father Yue was so difficult to deal with, and another cousin came to stop him, and the Xia team of the Snow Region Brigade was about to cry.

Fu Siling was stunned by his shouting.

Asked Mu Chenyuan, "What did he call me just now?"

Did you hear me wrong?

Cousin?

Mu Chenyuan said: "Cousin, Blue Bird just said, ask Team Xia to greet her cousin."

Chapter 677: Turned out to be cousin

Fu Siling was dumbfounded, and then asked, "Jade Bird's real name is Ye Jian?"

Mu Chenyuan, who has a cold temper, is rarely warm-hearted at this moment, and once again helps Fu Siling, "Yes."

The blue bird is Ye Jian, and Ye Jian is his very powerful one. She is the only female combatant she has ever seen before An Xia appeared.

Now she is on the scene.

And the guy in front of me, who ran from Lu No. 1 District to Lu No. 2 District, brazenly threatened to rob someone, ha ha ha!

Fu Siling's eyes suddenly became rude.

Good guys!

It turned out to be brother-in-law!

The brother-in-law snatched someone under his nose.

Pulling the corner of his mouth, Fu Siling smiled.

Xia Jinyuan was serious and respectfully shouted "Cousin", and said: "I'm sorry, cousin, my eyes are clumsy, I didn't recognize my cousin."

This is really true. I ran into my cousin without reading the old almanac when I went out.

The cousin Fu Siling smiled and did not smile, "It turned out to be brother-in-law, disrespectful. I am blind and didn't recognize it as brother-in-law. Good brother-in-law, chat with cousin, you from Luyi District, where is your self-confidence? Want to come to Luer District to grab someone?"

After autumn settled the accounts.

Mu Chenyuan decided to withdraw. This account is still clear for his cousin and brother-in-law.

He is an outsider and it is not convenient to join.

Ye Jian's voice came from Mai, and he smiled and reminded, "Team Xia, my cousin from the distant house is very temperamental, please relax and don't offend people."

Xia Jinyuan tilted her head, covered her mouth with her hand, and sighed, "Remind it's too late. I have already offended my cousin severely just now. It needs rescue."

"Take care, Team Xia." Ye Jian smiled.

Mu Chenyuan also said: "Take care, Team Xia."

"Team Mu, the Canglang wants to keep An Xia, or do you withdraw from robbing people?" In order to make up for the mistake just now, Xia Jinyuan led Dongshui.

Mu Chenyuan's heart was calm enough to be like a mirror, and he answered calmly, "Canglang belongs to Luer District."

"Yes, they belong to the second area of Lu, presumably Team Mu will agree."

"Sorry, this matter is decided by General Xiahou." In order to prevent his cousin and brother-in-law from clinging together, Mu Chenyuan threw the immediate question to General Xiahou. Recruited to Luer District, focusing on training."

Fu Siling didn't want to **** someone at this moment.

He prefers to embarrass the brother-in-law who makes his cousin a headache.

The cousin has mentioned many times that he doesn't want to let his cousin get married too soon.

Partially, the prince of the Xia family, the prospective son-in-law, is really amazing. He met his cousin early, chased her cousin early, and has been helping her cousin. As a father, he wanted to refuse, but he couldn't refuse.

Fu Siling, whose identity was suddenly elevated, even changed his tone, "Although Canglang and Powolf are the same team in the second area of the land, the strength of the wolves team is far superior to that of the wolves. If Anxia wants to break the wolves, how can I be? It's robbing people."

"It's Team Xia, you are half-hearted, you are really blackhearted. Or, let's grab the blue bird? My cousin will come forward and have a chat with the blue bird. Maybe, maybe we can tell the blue bird to come to us for the time being. Guidance and training in the second district."

"One year or two years, it should be ok."

That regret in Xia Jinyuan's heart!

If you grab someone, just grab someone. Isn't it good to keep a low profile?

Look!

The high-profile end, as the blue bird said, fell terribly!

Looking at the smooth progress of the entire fishing operation, there are fewer and fewer small fish, he can rest assured that he can make his cousin happy!

Mu Chenyuan listened in the whole process, his attention was still by An Xia's side.

An Xia is here with G3.

Chapter 678: Shameful

Z7 was entangled by Miao Hai and the others.

Two-on-seven, and Miao Hai's skill is not bad, the special special fighters around Z7 also have some difficulties.

An Xia faced G3, but with a few tricks, G3 was shocked.

this!

New fighter?

Just kidding!

Ruthless and fast, all shots are killer moves, and they have the same **** soldiers who have come back from the battlefield with their bones on the battlefield, how do they look like new fighters!

He is clearly a veteran fighter who has experienced many battles.

No, it's a special fighter!

The lower abdomen was kicked fiercely, and G3 kicked his whole body to a few steps back, before stabilizing his figure, a black shadow came in the air with a murderous aura.

Lifting his eyes, he saw An Xia kicking, jumped onto a rock next to him, and leaped up into the air with force, kicking his legs straight towards his forehead.

This is going to kick, absolutely brain shake!

G3 quickly raised his hand and used his arm to securely block An Xia from kicking his right leg.

An acute pain in his arm swept through his body in an instant, and G3 staggered for a few more times. In such a gap, An Xia passed him and ran away!

"Brothers, I have a hard stubble! An Xia is really good!" G3 did not chase. According to the rules of the fishing plan, whoever escaped from the fish, whoever could not chase.

It must be chased by another person.

T6 responded, "So, you didn't beat An Xia and let her run away?"

"I can't see it through, save some face for my brother, thank you." G3 clutched his heart with a delicate face, "I am very weak now and need a good rest. I leave it to you."

Shame!

Shame!

What a shame!

Surely rushed up, and as a result, he was defeated.

After he returned to the team, he was ready to be severely punished by King Q.

G3 was speaking on the public channel, and the two special fighters knew about An Xia's escape from him.

Mu Chenyuan looked at An Xia with soft eyes.

He saw An Xia quickly dive in the direction hidden by the blue bird by night and shelter.

Good job, An Xia!

She already knew who she should be looking for.

Cheng Ming's voice came from Mai Li. In order to prevent An Xia from recognizing Cheng Ming, Mu Chenyuan arranged for him to block people outside.

"Team Mu, An Xia defeated the brothers in Xueyu?" He entered the communication channel of Powolf, very excited, and did not dare to speak in the public channel.

Mu Chenyuan said, "She is approaching the blue bird."

"Oh my God! An Xia has improved again!" Cheng Ming exclaimed, wouldn't it be better than him?

He is still an intermediate special fighter!

Ying Que, Wei Ji, and Qi Xingsu were all shocked.

This this this...

Have you won the special combatants?

You don't need to train anymore, you can report directly to the Wolves Team.

Wei Ji was also blocking people on the periphery, pressing his throat and said, "Team Mu, you can apply to General Xiahou! After the assessment, An Xia will report directly to Polang."

"Lu Er District wants to **** people, we can do it in advance." Ying Que also said: "The Snowy Brigade is the top ace fighter in the entire land warfare. Once they apply to the general battle, it is really possible to **** them away."

I'm most afraid of the total war coming out!

The general battle is about to come forward, it is difficult for Xia Houzhan not to nod.

Mu Chenyuan was not as nervous as they were, and An Xia personally told him that since she agreed to stay in Luer District, she would never change.

"Relax, no one can **** An Xia away." Mu Chenyuan said, and saw An Xia bypassing the two special fighters and hiding for a while.

The 30 soldiers who came from the Powolf brigade were all happy now. When Mu Chenyuan finished speaking, the same combatant who was outside said in a low voice: "Team Mu, I'm not afraid of ten thousand, just in case. If someone grabs it, that's a foolproof thing."

"That's...I saw An Xia!" Another wolf-breaking fighter popped his head, and saw a slender figure passing by about five meters from him.

Chapter 679: Jealous

Only the wolf-breaking fighters on the periphery spoke.

The fighter holding "Xiaoyuer" in his hand did not speak.

They want to say, but they cannot say!

Can't be heard by the combatants who are participating in the election.

Ye Youyin is the most fierce and fierce fighter in this group of "little fish", but her strength has not yet reached the elementary level, and she is also pushed to the ground at this moment.

"Who are you guys! Let go of me!" Jiao sternly, not afraid of being captured.

She is not afraid, she is flustered.

Got caught!

She was caught!

Where is An Xia?

Has she been caught?

With her face pressed **** the ground, Ye Youyin, whose skin and flesh were bruised, was still struggling, trying to find An Xia's figure.

"An Xia! An Xia! Where are you! Come out and help...cough cough cough..."

The big hand holding her neck tightened again, and a fierce man's voice came from the top of her head, "Be honest! Let's babble again and stun you."

A member of the Snow Brigade.

They will not pity Xiangxiyu!

There is no ambiguity when it comes to cruelty.

There are already special fighters who are tying people, and they have said that they have to tie them up, and then leave them far away so that they can find their way back to normal.

Whether or not they will get lost is not within their consideration.

Because this is one of their assessments this time.

I heard that I had taken a wrong map before, but the five teams didn't find it at all. They just walked around 20 kilometers and walked 40 kilometers to reach the assembly point.

You don't have the most basic map identification, still want to become a special fighter?

Practice hard for one year or two years!

"Let go of me! Who are you! Are you instructor? Instructor Fu! Instructor Fu!"

"Why are we tied up? What are the tests tonight? Can you tell us directly?"

"You are not instructors, you are not instructors!"

As more and more fighters were tied up, the voice of resistance grew louder.

The fighters had no way of knowing the direction at all. They didn't know what was going on, and what they needed to be assessed next.

The heart is flustered, but also very scared.

At this moment, I heard Ye Youyin yelling An Xia's name, and some fighters also started to shout loudly along with them.

"An Xia! An Xia!"

I don't know why I shouted, maybe I just want to confirm if An Xia has escaped.

"An Xia! Come out! Come out!"

"An Xia! Come out! An Xia, come out!"

"Don't shout! She must have escaped!"

"Are there any mistakes! Isn't she very good? Still a deserter?"

"An Xia! An Xia! Come out! Come out!"

The voice gradually became dissatisfied, and finally, there was anger.

An Xia did not move, these voices could not affect her judgment at all.

She needs to find the blue bird.

To be sure, the figure that I saw just now is the blue bird.

When these ghostly Xia Guo special fighters came out, they all shot, except the blue bird did not, and after passing through the melee, they never appeared again.

To rescue these captured fighters, she needs a bargaining chip.

An Xia was not angry, and the members of the first team were going crazy.

Miao Hai, who lost to the special combatants, was captured. Hearing the voices full of anger at An Xia, he spit out a mouthful of blood and slurped, "Damn! Shut up!"

"Don't **** drag An Xia!"

The other members of the first team also roared, "Who said An Xia escaped? Who said An Xia escaped? Don't make a face! An Xia reminds you that you can't fight and run first!"

"You think you are great, so you stay and don't run! You were caught, and you want to drag An Xia to death? Shameless! Shameless!"

"Run, let you cover. Ye Youyin, if your ears are sick, you heard it as a runaway. No, you must have heard clearly. You are afraid that An Xia will win us, so you deliberately said that!"

Ye Youyin, with his hands tied, used to be full of anger when he saw the soldiers An Xia, and he was still happy, but now he heard the people on the first team say that she was deliberate, and his face was suddenly pulled down.

Coldly said: "It was An Xia who told us that he could run away if he couldn't fight. Heh, isn't this an escape? She ran away, why didn't you follow her away!"

"Well, even if I misunderstood, I apologize. But this can't change the fact that she left alone!"

In the dark, Ye Jian listened to those words that were poured on An Xia like dirty water, coldly entrenched in the clear watery eyes.

This woman intends to target Xia Xia!

I don't know if Xia Xia found out?

With Xia Xia's cleverness, even if she hadn't found it before, she should have found it now.

Now she also wants to know where Xia Xia is hiding.

Just now, I deliberately swept past the melee, in order to lure Xia Xia into the hook, did Xia Xia see herself?

Mai Li heard the voice of Snow Territory V8, "Blue Bird, be careful."

Just after speaking, a cold and sharp wind came from the side.

"Blue Bird, long time no see." It was An Xia's voice. She avoided the special fighters of the Snow Region and Broken Wolf team and found the Blue Bird hiding spot.

Chapter 680: The confrontation between the two

There was a voice that was colder than the night, and Ye Jian knew that he couldn't hide it.

There was no accident to her being found by An Xia so quickly.

On the contrary, I am very happy.

Happy for Anxia's progress.

She deliberately revealed her trace before, originally to test whether An Xia would find herself.

On the battlefield, in addition to being sensitive to danger, it is also necessary to look at the overall situation at all times, find out the tactics that are beneficial to oneself, and then defeat the enemy in one fell swoop.

Tonight, this was a "catching" action aimed at individuals, 77 small fishes, all but An Xia were caught.

Now, it was the confrontation between her and An Xia.

Walking out of the dark, Ye Jian raised his eyes and smiled, "Long time no see, An Xia."

!!!

In the public channel, the members of the Snowy Brigade breathed directly after hearing the words.

Long time no see, An Xia?

This is the blue bird found?

Several soldiers from the nearby snow brigade looked at each other.

"No way, escape from under the noses of a few of us and find the Blue Bird?" The snowy brigade fighters code-named X spoke very quietly.

Y is next to him.

X and Y are partners, and their team is comparable to a small team.

Y did not speak, he was afraid that one more word would add fuel to King Q's body.

He made a look at X, and then made a hand-blade movement to his neck, X's pupils tightened, and his mouth was so tight as to have a zipper.

Oops!

King Q is now thinking about how to go back to the base to clean up them.

It was terrible, and my neck got cold.

Difficult brothers X and Y looked at each other, alas, accept your fate.

Who didn't let them find An Xia.

An Xia didn't know her appearance, which directly caused the two special fighters of the Snow Territory Brigade to be trained after returning. Looking at Ye Jian, she bends the corner of her mouth slightly, "I will be half of my wish for the time being."

Ye Jian could understand the words without beginning and ending.

Last time, she and Anxia Metropolis Hotel had a farewell. Both of them were looking forward to meeting in the joint exercise and taking the opportunity to learn from each other.

The joint exercise has not yet come, but the small confrontation has come.

"Then, let's start now?" Ye Jian finished with a smile, his eyes sharpened in vain, and he didn't prepare for An Xia.

Not with bare hands, but with fighting daggers.

X and Y glanced at them, and at the same time they silently shouted "Blue Bird Niu Cha" in their hearts, and immediately stepped aside to free up the ground for the two vigorous female fighters.

They haven't gone too far, they still have to watch.

Mu Chenyuan also walked out of the dark, and walked to a place with a wide view, quietly watching the two fighting figures with cold eyes.

"Team Mu, do you want to bet on a round?" Xia Jinyuan, who came from the back heel, said with a faint smile: "Bet on which one of them wins and who loses."

Mu Chenyuan simply replied: "Don't gamble."

He is not very gambled on these.

An Xia's close combat is good, he has seen it before.

And Jade Bird's close combat is also good visually.

No one will win big, no one will lose big, there may be a tie.

After refusing to refuse, Mu Chenyuan said calmly: "Tie."

draw?

Xia Jinyuan's thin lips raised, "Blue Bird ranked first in the individual group of the Grand Tournament."

"Next time in the full competition, An Xia will be the first in the individual group." Mu Chenyuan accepted the move lightly, and added with a very vicious tongue, "The waves behind the Yangtze River push the waves forward."

Speaking of words, Xia Jinyuan of the Snowy Brigade hasn't lost yet.

Hearing this, he chuckled softly, "Hou Lang works hard as needed, beware that he hasn't succeeded and is already powerless."

"Let's wait and see." Mu Chenyuan has always had no intention of fighting for a high and low.

The two captains dignified, the girl they love would win the battle, and they had a brief naive verbal battle.
