

## **Goddess 711**

### **Chapter 711: Beware of being struck by lightning**

Special special fighters!

She turned out to be a special special fighter!

An Xia drew with the special special fighters.

What she just said, \*\*\*\* shouldn't stay in the team...

The next assessment, the next assessment, Anxia will definitely target itself! She will definitely target herself!

How to do!

How to do!

With his current strength, how could it be possible to win Yuananxia!

Ye Youyin's pale face was dripping with cold sweat.

I can't slap myself twice when I feel regretful.

Why is she so uncomfortable!

Before that, he planned to make friends with An Xia first, find out which team Mu Sishao was in, and then kill An Xia.

Obviously this is the plan, and as a result, on an impulse tonight, the plan was completely messed up.

What should she do next?

How to make up for it?

An Xia was more indifferent.

With a cold eyebrow, she quietly listened to Ye Jian's words.

Please listen carefully to the ace special combatants' remarks, how rare opportunities are!

All the fighters listened honestly, and no one was distracted.

Not far away, Xia Jinyuan, who was throwing pebbles in his hand, smiled in his black eyes and gazed at the talking figure gently. Then, he said to Mu Chenyuan: "Anxia is in the team, and Team Mu doesn't have to worry about her suffering at all."

Attacking forcefully, killing the Quartet, directly pressing the villain to the ground and hammering, such a positive and rigid temperament, disappeared.

His little fox has a much gentler temper. Although he has edges and corners, he will strike hard against a villain, but the way he strikes is completely different from An Xia.

Boil the frog in warm water, and then shoot.

As for An Xia, she used her sword on the field and didn't give the opponent a chance to prepare.

Yes, bloody.

More importantly, very smart.

It's not a rash kind of Gang, it's justified, and the combination of strength and IQ, such a strong Gang, really scares those villains.

Hey, the female fighter who tried to put on An Xia's shoes is now scared.

Mu Chenyuan replied after a while, "I will also be worried."

The voice was a little low, and below the low, there was a slight worry.

"What are you worried about?" Xia Jinyuan raised his eyebrows, and then seemed to understand something, and patted him on the shoulder with a smile, "Worried that she would be injured? It's normal to be injured. I was also worried before, but after being in the same unit, there would still be some Worry."

"This kind of worry, as long as you are in the team for a day, you will worry about it every day."

Mu Chenyuan glanced at the Snow Territory Captain, who had a lot of words, and said unhurriedly, "Besides, there are other worries."

Looking at Ye Jian, the meaning was obvious.

Xia Jinyuan laughed.

"As long as An Xia does not officially become a member of the Powolf Team, then you have to worry about it all day. You have to let the blue bird hurry up and try to let two good friends grow together in the same team, and make progress together. ."

Mu Chenyuan bends his lips, "It separates the two places, the sky beats the earth, Team Xia, beware of being struck by lightning."

He was not worried that An Xia would be persuaded by the blue bird, and went to the Snowy Brigade.

What he worried was that An Xia was too aggressive and would seriously hurt himself.

Don't be afraid of minor injuries, just be afraid of serious injuries.

She said just now that \*\*\*\* shouldn't stay in the team.

With An Xia's personality, she would definitely take a shot at Ye Youyin.

I was afraid that she would hurt herself during the shot.

Xia Jinyuan smiled brightly and took a deep look at the young Captain Powolf.

The posterity is terrible.

He said that he was worried that their Snow Territory Team would rob someone, and the expression on his face told him, "Want to rob? No way."

## **Chapter 712: Happily, publicly executed**

Mu Chenyuan was worried about other things.

"Don't worry, I believe she will take care of it. Many times, the problem we think is not a problem for them. We care about it, and we are blind."

"Look at it from another angle. When we encounter difficulties, will we survive? We will certainly survive, because we believe that we have the ability to overcome difficulties."

"Similarly, they also believe that they have the ability to solve all different problems, and they can solve them without the help of others."

How old is it to be, and to eat a few more years of oil and rice? At the point of a few words, Mu Chenyuan's worry is much empty.

indeed so.

How could An Xia embarrass herself.

With her cleverness, it is even more impossible to put herself in danger.

Ye Jian had finished speaking and walked quickly towards the two of them.

"Deputy Captain, the speech just now was very imposing, yes, you will arrange the morning training next time."

Before people approached, Xia Jinyuan was anxious to hand over power, "I have been training in the morning for many years, it's time for you as the deputy team."

The work of morning training is training.

Take out yesterday's problem, the day's problem, the day's problem the day before yesterday, and even the problem of the day before yesterday, and train them all in the team to hold their breaths, and finally dissolve the humiliation. , Train yourself until only you are still alive, and you still have a breath, the training will not stop.

In this job, Xia Jinyuan became the captain of the Snowy Brigade from the air, and has been doing it till now.

He rubbed his throat, his handsome face was sad, "Vice team, you feel sorry for me, I have chronic pharyngitis."

Mu Chenyuan glanced at him, then at Ye Jian, sorry to bother you.

He withdrew.

On Fu Siling's side, he was also training. There was no snarling, just cynicism, "Now, I say you are white-eyed wolves, you have no opinion."

"It doesn't matter if the strength is not good. At any rate, the character can be collected. I didn't expect that the character is not good. Ha, if you have no strength, you have no character. Are you really a trash recycling station for the team? What stinks? All of them go to the team?"

"I told you before that the assessment is an assessment, don't bring to me the means that can't get on the table. I mentioned it, obviously, you are not at ease."

"Ye Youyin, you don't have to apologize to An Xia many times. What do you think in your heart and why you say that? You are really smart, but I have to say a word about these smarts. It's really disgusting."

Calling the names on the spot, and speaking so brightly, Rao Ye Youyin's heart is strong enough, and his eyes turn black.

She was wrong!

She was so wrong!

"Report!" Ye Youyin raised his voice again, holding back tears.

Fu Siling gave her a chance, and would not give her another chance. He yelled, "Stand well, don't interrupt me!"

This was because she didn't even have a chance to speak, Ye Youyin only felt that the sky was about to collapse.

Even the instructor said so, let her face next to the combatants.

Especially An Xia!

She was praised by the female special fighter, but she was trained in public by Fu Siling. She must be very happy now!

"This sneak attack is indeed not included in the assessment results, but your performance, including every word you have said, I will truthfully give feedback."

"Captain No. 3, you are really a great mallet. Even if you fail to succeed, you still stand up and accuse others. I really don't know where your face is, dare to be so arrogant!"

### **Chapter 713: So shameless**

Team No. 3 was trained until the face was flushed.

He knew he was stupid.

Who is to blame.

Blame yourself for being stupid, and believe what others say, without your own judgment.

"Team No. 1 and Team No. 5, it's not bad. I know to stand up and maintain the soldiers who have helped me, but are you here as a vegetable market? Do you just stand up and howl?!"

Except for An Xia, they were all scolded.

There is a penalty after scolding.

Run five kilometers around this area.

At this time, it was just an hour after the sneak attack.

It's almost dawn after running.

An Xia did not run.

She accompanied Fu Siling to send off the two special teams that attacked them tonight.

When the soldiers of Powolf Brigade saw An Xia, they all laughed.

Hey, hey, it won't be long before they will have female fighters in the Wolverine Team.

And it's pretty awesome!

A tie with the deputy team in the snowy area, great!

The members of the Snow Brigade are also looking at Anxia.

"I thought there would be no blue bird after the blue bird, and it would be impossible in my life to meet a female fighter who was as powerful as the blue bird. I was wrong, I was a frog at the bottom of the well."

"The eighteen-year-old An Xia is so rare. She can draw a draw with the blue bird, and it is estimated that she can draw a draw with us."

"Does it still need to be estimated? That's for sure!"

"You said, King Q and Blue Bird, will they find a way to intercept people in our team?"

"There must be an idea! However, it is impossible for Lu Er District to release people, and the captain of the wolf wolf is not a fool. He will definitely guard it. Also, his relationship with An Xia is like this..."

The two thumbs were facing each other, and they hooked up vividly, "How can this relationship make our team take people away."

"Hey, how can I know if I don't try it?"

"Give it up, it won't work if you try it." A cold voice came from his side, and the snowy combatant who was in full communication froze.

Turned his head and smiled, "I'm sorry, brother, forget that you belong to the Wolves."

In front of the Powolf brothers, talking about robbing the Powolf team, it was too unkind.

But so what!

They are willing to give up their own thin layer of "kindness" and grab An Xia into the snow!

The members of the Broken Wolves team bared their teeth and smiled grimly, "If you dare to \*\*\*\* someone from us, you have to ask our fists if you agree."

"Hahaha, hahaha, there is something to say, there is something to say."

"We are a team of brothers. How ugly to use your fists. Why do you use your fists to speak? Or talk about it now? Let's prepare in advance."

Fist is just a fist, don't be afraid!

People still have to grab.

I have seen shameless people, and I have never seen shameless people like Snow Territory Brigade!

Hearing that, the members of the Powolf team eagerly said, "Don't prepare, you can do it now."

Now working, the Mu team will definitely support.

Q Wang Xia Jinyuan and the deputy team Jade Bird certainly don't support them. Such people are too uncivilized!

The blue bird stretched out his hand and straightened the neckline for An Xia, "Take the test carefully. With your strength, it is not a problem to win the first place. The female combatant who speaks yin and yang strangely, you should guard a little."

"The thing that the villain is not afraid of most is not their small actions, but they have one set in front of them and one set on the back. You, be careful of her sugar-coated cannonballs. Intuition tells me that she will pester you these days and say she is wrong every day. Yes, please forgive me."

"Don't be soft-hearted, let alone trust her. Such a person, once you believe her, you will immediately stab you when you turn around."

#### **Chapter 714: I believe you, it must belong to me**

Against villains, Ye Jian has experience.

An Xia also has experience, not less than Ye Jian.

Listening to Ye Jian's instructions, An Xia's eyes flashed jokingly, "I have a lot of experience, I haven't seen it rarely before?"

"I have met too many, and it has only been a little better in recent years." Ye Jian grinned, eyebrows crooked, "There is no way, who made it not strong enough before, there will always be some people who escape to try to black themselves."

Not strong enough, and trapped in a whirlpool, surrounded by villains, can't help but carelessly.

An Xia can understand very well.

Before she was not strong enough, the villain around her was not small.

Besides, it's the kind of villain who wants her life anytime.

"Well, I'll be careful, too." An Xia finished, glanced at Mu Chenyuan, who was standing not far away, and occasionally glanced at himself, then said to Ye Jian: "We will meet next time, let's talk about it. ."

The chin was slightly lifted in the direction of Mu Chenyuan, "If I don't go over, that person will become a master's stone."

Speaking of it, Ye Jian couldn't help pursing her lips and laughing.

"No." An Xia raised her eyebrows to correct. "He treated me well, and I have to treat him well."

Ye Jian couldn't even stay in Anxia.

He leaned to An Xia's ear and said quickly: "We, King Q, want me to come and pry the corner and pry you to the Snowy Brigade. I, I can't bear to see you separate from Captain Mu, and I can't bear to see King Q. Disappointed, I had to take Captain Mu one step to find you."

"King Q is a cheeky guy who speaks a little bit scornful. If he is a little offended when he speaks, I will say 'I'm sorry' to you in advance."

As An Xia said, he treats me well, and I have to treat him well.

The two want to be good for a long time, and they can't always give each other blindly.

You treat me well, I treat you well, that is the long-lasting good.

Mu Chenyuan lightly hugged An Xia, and soon let go. The members of the Powolf Brigade were watching, and could not hold it for too long.

"Take care of yourself and wait for me to pick you up."

After the assessment is over, Anxia will definitely be able to enter the Wolves Breaking Team, and there is no need to wait any longer.

An Xia smiled: "You have been training together for a long time, I'm afraid I won't be able to wait for you to come and pick me up."

"Not necessarily." Mu Chenyuan smiled lowly, "As long as you can join the broken wolf, I will definitely come and pick you up."

So sure?

An Xia squinted her eyes, and quickly understood something, "Okay, then I'll wait for you to come and pick me up." Then he said: "Just now, the blue bird said that their captain wanted me to join the Snowy Brigade, you said, they Will it rob people?"

"It's already starting to \*\*\*\* people, but they can't steal you from me." Mu Chenyuan was also extremely overbearing in this matter, "I won't let anyone \*\*\*\* you."

An Xia murmured with a smile, "What if you \*\*\*\* it away?"

"No." Mu Chenyuan said with certainty, his cold eyes locked An Xia, and he said very gently and slowly, "I won't give them the opportunity to take you away, you promised me, You won't go anywhere except Broken Wolf. I always believe that you must belong to Broken Wolf."

It must belong to me.

The last sentence, he added silently in his heart.

An Xia just wanted to see how he reacted. The response was pretty good, and she was very satisfied.

She likes his trust in herself.

Mentioned specifically about robbing people in the snowy area, one is to see his reaction, and the other is to see if he believes in himself as before.

Yes, he believed in every word he said.

"Then I'm waiting for you to come and pick me up." An Xia said, suddenly grabbing Mu Chenyuan by the neckline, lifting his feet, and quickly kissing his thin lips, "I look forward to the days of fighting with you."

Bro Wolf's brothers and the snow brigade brothers: "!!!"

Oh rub!

What evil did they do!

Before the training, I have to eat a bowl of dog food!

On the other side, Ye Youyin walked over. She did not see An Xia blowing kisses to Mu Chenyuan. She only saw An Xia standing in front of a tall, handsome man who didn't know what to say. At that moment, Ye Youyin's pupils were fierce. Tremble fiercely.

Mu Sishao?

Is that person Mu Sishao?

## **Chapter 715: Overweight**

Ye Youyin didn't recognize that the man standing beside An Xia was Mu Chenyuan.

Only seeing the two standing so close, it was the kind of closeness that could tell that there was a problem at a glance, Ye Youyin subconsciously thought of Mu Chenyuan.

As a woman's instinct, she told her that the man who was talking to An Xia was probably Mu Chenyuan.

The sudden black Ye Youyin clenched his fists, from speeding up to trotting, coming towards An Xia.

She must go and see it!

You must verify with your own eyes whether the man is Mu Si Shao!

Hope not, hope not!

An Xia is just a down-and-out, small-minded, little-seen citizen. With Mu Sishao's eyes, how could she look at her?

"No, no, don't panic, Ye Youyin, don't panic."

Running all the way, whispering in my mouth, looking for strength to support myself.

If you say how familiar Ye Youyin is with Mu Chenyuan, it really doesn't.

But since she was young and sensible, Mrs. Ye mentioned in her ears all day about the top wealthy families on the top of the capital, how prominent the three families of Mu, Xia, and Jing were, and how powerful and powerful they were.

She has never been in contact with the two families of Xia and Jing. Only the Fourth Young Master of Mu's family, she attended the same middle school as him, that is, since then, she knew that she would marry in the future and must marry into the Mu family. , Become Mu's daughter-in-law.

It is estimated that Mrs. Ye was reading too much in her ears, because Ye Youyin was convinced that only she could be worthy of Mu Sishao.

The other girls are not worthy of marrying into Mu's family, walking side by side with Mu Sishao.

The girl who can stand beside Mu Si Shao can only be the woman Mu Si Shao accompanies all his life.

Apart from her, there can be no second person to appear.

However, An Xia's appearance made her panic.

He didn't panic for too long. There was an old lady Ye sitting down, and after a brief panic, Ye Youyin left An Xia behind.

Because she believed that it was absolutely impossible for An Xia to accept Mu Sishao again with the methods of Old Lady Ye, let alone stand beside Mu Sishao.

But she did not expect that not only did the old lady Ye not get rid of An Xia, she also asked An Xia to participate in the preparatory special combatants trial!

Seeing An Xia by her side for the second time, Ye Youyin was even more panicked than the first time.

Now, even more panic.

She panicked to the point that her face was solemn and she needed to restrain herself as much as possible to resist not rushing forward to teach An Xia.

She ran very fast, and the sound of her footsteps had attracted the attention of countless people.

An Xia and Mu Chenyuan noticed. Xia Jinyuan, a melon-eater, even raised her eyebrows and raised her eyebrows. He sighed at Ye Jian, whose eyebrows were tightly closed. Yes. You said, should I go back and send two durians to Team Mu?"

"Or, after the training is over, I will buy two durians to give to the summer team." Ye Jian lightly looked at the man who was eating melons above his head, with a faint smile, "Two is not enough, I can give four."

No, his little fox loves his friend An Xia. As a boyfriend, he overeats melons.

He immediately said with a straight face: "An Xia and Team Mu have finally been together, how can we let outsiders break in? No, we have to stop it."

"Go! Stop it!"

The big wife is the biggest!

In order not to upset his wife, he is willing to go out and be the old scalper who bridges the match between the Cowherd and the Weaver Girl.

Ye Jian was satisfied, "Yes, the Xia team's recent consciousness has risen again."

"It's all taught well by the deputy team." Xia Jinyuan smiled, showing the elegance of a noble man in the world.

### **Chapter 716: Repeatedly hit the wall**

Xia Jinyuan really walked out and stopped Ye Youyin when he was sitting down.

When he shot, Ye Youyin's eyes immediately turned a little bit stiff, "Sorry, I'm looking for An Xia."

Where did this come from?

How come one is getting in the way!

Ye Youyin, who was anxious to confirm in the past, was already impatient.

However, she ran impatiently in front of Xia Jinyuan, undoubtedly looking for death.

"Forbidden land, return immediately." Xia Jinyuan said faintly, it was an inviolable war might, like a mountain pressing the top, making Ye Youyin's breathing stagnant.

She squeezed the corners of her mouth and hesitated to turn around.

I quickly realized that the man blocking her was not an ordinary person, raised his eyes, and said firmly: "Instructor, I really came to find An Xia, I have something to find her."

Yu Guang has been looking at it in secret.

The black light is blind, just the faint starlight, and there is no reason for it.

Can't even tell what title the other party is.

The facial features are also blurred, wearing a helmet, the edge of the helmet is pressed against the forehead, only a little can see clearly that the person blocking him has a very sharp nose.

There is no way to look directly, the coldness that bursts out of her eyes is a deterrent that she can't look directly.

After speaking, Ye Youyin immediately lowered his eyes, and there was another gust of wind and waves in his heart.

Who are these people?

Is he from the same team as the female fighter who just stood up to speak for An Xia?

Is the man who spoke to An Xia also a special fighter?

That.....

A conjecture flashed through his mind, and Ye Youyin was suddenly happy.

If the man talking to An Xia is Mu Sishao, then... is that, is it...

Ye Youyin quickly calculated in her heart.

She used to confirm at most whether that person was Mu Sishao, if it was him, it would be difficult for her to talk to him, let alone ask Mu Sishao's team.

And the most important thing before her eyes is to know where Mu Sishao is, and then she can chase after him.

Anyway, An Xia didn't leave, so you can ask this team first, and then it's not too late to go and confirm!

Lifting his eyes again, Ye Youyin pressed his liking and said in a low voice, "I'm sorry, I have a little question, I wonder if you can answer me? It's really a little question."

"You are so powerful, which special team are you from. I really want to be a powerful special fighter like you, and I really hope that I will be one of you and fight with you."

"Can you tell me which special team you are? It shouldn't be a secret."

With a small voice, even his eyes were extremely worried, and he was very cautious, like a fragile glass doll, and couldn't bear to refuse.

Xia Jinyuan can bear his heart.

The voice was colder than before, "Wait one day, you can be as powerful as her, and you may also fight with us. Female combatant, I now order you to turn back and turn right away!"

Running to Xia Jinyuan and showing off his eyes, the death was even worse.

Still want to play with him?

Oh, he has always been the only one who talks about other people's words.

Ye Youyin opened his mouth and wanted to say something more, only to see the cold and ruthless man in front of him raised his hand gently, two ghostly male fighters did not know where they came out, like black and white impermanence, exuding all over his body Standing beside her with gloomy coldness.

"Take her..."

"Report, I'll go right away!"

I really have to wait for these people to stand by themselves, and An Xia will laugh at him again!

Ye Youyin, who was extremely unwilling, was still aware of current affairs, and knew that he could not force it, and immediately chose to leave.

### **Chapter 717: It feels like someone covered it, so good**

She has worked hard for herself.

But the day failed. After encountering An Xia, the team's always magnanimous career repeatedly bumped into the wall, and not once did it go well.

She and An Xia are really mutually exclusive!

As a veteran fighter, Ye Youyin knew very well that he couldn't mess around. The team was the team and couldn't tolerate her messing around.

If she is outside, she can still mess around, but in the team, chaos has never ended well.

No matter how reconciled, Ye Youyin could only leave.

Looking back at one step three times, his eyes fell on Anxia and Mu Chenyuan again and again.

The more I look at it, the more I believe that man is Mu Chenyuan.

She had never gotten a man, and since she was sensible, she decided to marry a man in the past. At this time, Zheng and An Xia have been talking.

Never looked up at her once.

Not once.

At that moment, Ye Youyin's eyes were extremely red.

The red eyes like a poisonous snake, glowing with cold, poisonous light, kept staring at An Xia.

An Xia, An Xia!

Anxia must be removed, must be removed!

All the little \*\*\*\* who are close to Mu Sishao must be eliminated.

Except for himself, no one can think of getting Mu Sishao!

With a gloomy hatred, Ye Youyin stepped back step by step.

After returning ten meters, Ye Youyin stopped again.

She won't go over, stand here and watch it's always done!

She has to watch, and only by watching can she understand more clearly how threatening An Xia is to her.

Only in this way can we be vigilant at all times and not let ourselves be taken lightly.

Ye Youyin stood far away and watched in an almost self-abuse manner.

She wants to stand, but that's also impossible.

"Return to your team immediately!"

The cold drink sounded, as cold as a blade.

Ye Youyin almost bit her lower lip.

She didn't come close, can't she stand far away?

Why is An Xia OK?

Is it just because An Xia is better than her?

Really right.

It was because An Xia was better than her, that he could talk to the players of the Powolf and Snowy teams.

Neither Mu Chenyuan nor An Xia bothered Ye Youyin.

"If she has any small actions, you can directly shoot without any scruples." Mu Chenyuan said lightly, "The reason is valid, and there will be no accountability."

"There is my house outside, and the Ye family will keep an eye on them. The Mu family will let the Ye family experience the consequences of the ground breaking on Tai Sui's head."

The Ye family wanted to bully the girl he liked, and the first one who didn't agree was the Mu family.

An Xia was shrouded in emotion, "Is this what you said under the big tree to enjoy the cool? It feels, not bad."

She used to cover others, and the feeling of being covered by others for the first time was pretty good!

Mu Chenyuan bent his lips, "Yes, the Mu family is a big tree, you can take the cold as long as you want. But..."

After an intentional meal, he slowly smiled and said, "However, you must abide by the law and you must not know the law and break the law. Otherwise, no matter how big the tree of the Mu family is, it will be righteous and annihilated."

In the Mu's family, it doesn't matter if you make some small mistakes, but if you commit a principled error and still break the law, it is not tolerated.

Although An Xia's temperament is not impulsive, she is a cruel temperament of 'if anyone offends me, pay it back a hundred times', you have to restrain her a little bit.

As for Song Yanyan, the Zhanbu and Mu Jiazao made a clear investigation. Even the live broadcast of the entire process video at that time, both Zhanbu and Mu's watched. If An Xia was not the last to fight back, it was An Xia who was tortured to death. .

Fight back in self-defense without taking responsibility.

After reading the uncle, he once sent him a text message, "Jedi fights back, it is rare. However, after her temperament has changed a lot, she needs to be constrained. It is a good thing to join the team, but it can be frustrated. Qi, let go of what he hates in his heart."

"I also hope that Shen Yuan can guide in time, correct small mistakes, and avoid big mistakes."

### **Chapter 718: Waiting for you to join**

My uncle and my father share similar worries. They worry that An Xia is too hostile and will make big mistakes if they don't pay attention.

Being in a team can grind her hostility and refine her character, Mu Chenyuan also thinks so.

He spoke very seriously, and he knew it was not casual.

An Xia tried to roll her eyes, but she was a mature emperor. Although she was down, she still had to have style.

Hearing this, he glanced at him, and said without a good voice: "Know, know, the discipline rules in the team make me vomit! Obeying discipline and observing the law, I can dream of these four words now. "

When it comes to disciplinary rules, An Xia is again depressed.

Before joining the team, she really didn't know to recite this!

Xia Houyu never mentioned a word!

Mu Chenyuan didn't mention it either.

At that time, she took such a thick little book and told her sternly that if she had to memorize it, she had to check it, and she was so angry that she almost fell the book on the spot.

Her, the most annoying thing is the endorsement!

Even if you have a good memory, you hate it.

After memorizing, spot checks are required, which is even more annoying.

Hearing the resentment in her tone, Mu Chenyuan pursed her lips and smiled, "Every combatant has to recite, without exception. We not only had to recite, but also write silently. Following the dictation, we must write backwards. ."

"However, that was all when I was a kid."

...

An Xia cast him a look of "Your family is really scary".

So many masterpieces and good books are not memorized, and what disciplines are memorized.

"Your family doesn't know the usual casual games, so you have to memorize them."

The conscience of heaven and earth, An Xia really said casually.

I don't know!

Mu Chenyuan nodded, "Well, it will be memorized every New Year's Day, and I will memorize it even if I lose a game. Sometimes it is possible to memorize it before going to bed."

"..." An Xia was silent for a while, and said: "It's really abnormal. I regret it now, is it too late?"

"It's too late, it's already on the boat." Mu Chenyuan endured a smile, and it was not too early to see him. He and An Xia had also chatted for a while. It was time to lead her to meet with the soldiers of Powolf. .

The soldiers of Broken Wolf have already waited to see through!

There are a lot of them, there are 30 people, and there is no time to introduce them one by one. They can only introduce An Xia first.

"Come, come, hurry up, stand up, stand up."

The rest of the Broken Wolf team quickly stood up, and those who were mindful of their images hurriedly adjusted their collars, hats, and so on.

The conditions are limited, not bad. You have to wash your face with a basin of water and comb your hair.

The hair is all flat and wet at best.

On the 30th, An Xia shook hands one by one. She didn't like to endorse, but memorized the name and code. The other party said on the spot that she would remember it on the spot.

Five minutes later, Anxia shook hands.

"It will take a while for everyone to wait for me. Captain Mu can formally accept me when I finish the exam." After shaking his hand, An Xia stood in front with a smile and was generous, without stage fright. "I also hope to be able to Accept me smoothly and give me a chance to fight alongside you."

The soldiers of Broken Wolf laughed.

Informal introduction, everyone relax, don't be too nervous.

"There is definitely no problem. If you don't come, I will leave the team to protest."

"Count me in."

"Seconded."

"Seconded."

...

One sentence for you, one sentence for me, the atmosphere is very harmonious.

How could it not go well?

Team Mu brought people over to introduce it, and it is certain that An Xia will definitely come to break the Wolves team.

They are just waiting for An Xia to come.

### **Chapter 719: Draw a knife if you don't agree**

Before the parting, the soldiers of Broken Wolf smiled and said to An Xia: "Come on, An Xia, we are all waiting for you to come."

"Don't be afraid of the assessment, roll up your sleeves and set out for the first place."

"Browwolf has great mountains and rivers, and there are delicious foods, just waiting for you to come over."

"An Xia, we will always keep an eye on the Mu team and remind the Mu team to let him get you into the broken wolf faster. But we can't let others stop halfway."

The brothers of the Snow Territory Brigade had all said that they would intercept people.

An Xia stood with a smile on her brows as clear as the moonlight, "Okay, I must work hard to join Polang early."

Broken Wolf is the team she must go to.

It was also the only chance she could approach the Emperor Realm and find the murderer in the previous life.

How could she miss it.

The two teams were about to leave, and Fu Siling also blew the assembly whistle.

It's time for parting.

Mu Chenyuan fastened the belt of the helmet for An Xia, and whispered: "Go, wait for me to pick you up."

He will definitely come to pick her up.

An Xia raised her head and smiled brightly, "Okay, I'll wait for you."

There is no vigorous pursuit, not even a bouquet of flowers, just like this, it is very natural to be together.

Ye Jian stood by and whispered to Xia Jinyuan: "Xiao Xia'er promised Team Mu too soon, and it should take a little longer."

Speaking of Xia Jinyuan's heart trembling, this time, he stood with Mu Chenyuan, "It's upset, it's upset, Team Mu is so big, it's time to find a girlfriend."

"Your friend is as good as you. Team Mu didn't start early, and I don't know how many rivals will come out in the future."

When it comes to the word 'love enemy', it's a lot harder.

Ye Jian, who was guilty of heart, gave a low cough.

Okay, what kind of rivals.

Love rivals or something, oh, Xiao Xia'er, forget it, let's be together when we are together, anyway, Captain Powolf is also quite good, the two stand together and get on right!

Ye Jian didn't dare to speak for a friend.

Love rivals, there are several rivals in Team Xia.

There is no rival of Team Mu, but there will definitely be one in the future!

An Xia hugged Ye Jian again and said goodbye, "Take care, I am waiting for one day to be able to really compete with you."

"I also look forward to this day." Ye Jian patted An Xia's back lightly, "Come on, let's fight together."

There will be such a day for actual combat exercises.

The possibility of fighting side by side is a bit small.

I was looking forward to it, in case it's naive.

When it was Xia Jinyuan's turn, An Xia was much colder, and said indifferently: "Don't think about poaching me, there are blue birds in the snowy area, and the broken wolves have me. Team Xia, on the actual combat exercise field, we are like a comparison."

Yo ho!

The little girl is young, and she is not stingy.

Xia Jinyuan was happy, "Sure, I'm afraid you will be wiped out by our side to cry."

As soon as he finished speaking, a clear cold light flashed in front of him, and Xia Jinyuan quickly backed away.

!!!

Little girl, where did you learn the act of drawing a knife when you disagree?

"I'm afraid that Team Xia will regret it when it comes time, so I underestimated our side." An Xia waved the scabbard dagger, smiling and cool.

The assembly whistle blew for the second time, and An Xia was really leaving.

Withdrawing the dagger, waved to Ye Jian, An Xia strode away with the company of Mu Chenyuan.

Xia Jinyuan, Snow Territory Team, has she ever met?

Mu Chenyuan didn't send Anxia into the queue, only a few meters away and stopped.

"Don't give it away, see you next time." An Xia waved and flew a kiss. Before Mu Chenyuan could finish speaking, she went back to the team first.

Anyway, we will meet again, there is nothing to be upset about.

On love, An Xia has always been simple and neat.

## **Chapter 720: Too much lovesickness**

It was so agile that Xia Jinyuan felt a little sympathetic to Mu Chenyuan.

He whispered to Ye Jian: "I feel a little sympathetic to Team Mu now. Tsk, look at him, it's definitely the biggest piece in the Wangfushi."

"What do you mean?" Ye Jian was puzzled.

After years of getting along, sometimes she still can't keep up with the rhythm of the summer team.

"Acacia is too much, it's too big." After Xia Jinyuan finished speaking, Ye Jian secretly stepped on the tip of her toe.

I don't understand, the toe of the boots is hard, and there is no feeling of stomping.

But the look is still to be done.

Pretending to eat pain, Xia Jinyuan immediately sold out, "It hurts, and my toe is about to bleed."

"Or, try to really bleed?" Ye Jian glanced at him diagonally, how old the Xia team is, and still likes to pretend.

Xia Jinyuan was not afraid of real bleeding, her thin lips curled up, her handsome face was elegant, and she leaned over to Ye Jian's ear, raising a nasty ruffled tone, "Are you willing to have real blood?"

Well, it is reluctant.

However, she was still willing to ask him to shed some real blood personally.

Start with a little effort.

Anyway, Team Yixia's skin is thick and thick, and it doesn't take a few days for a minor injury to heal.

"I'm still willing to do it myself." Ye Jian pursed his mouth and smiled. In the cool moonlight, a small smile came from the corner of his mouth to the corner of his eyes, adding a bit of softness to Xia Jinyuan's heart.

He watched, his eyes gradually softened.

After watching his girlfriend leave, Mu Chenyuan turned his head and saw a pair of bi people not far away, and the affection radiated from his whole body.

Compared with the envy of everyone in the Snowy Brigade, Mu Chenyuan was much more calm.

It doesn't matter, as long as An Xia joins the Wolf Breaking Team, he will be so one day.

Mu Chenyuan is a man who can endure loneliness. At this moment, he doesn't feel that he needs to be sympathized. He likes An Xia, which naturally includes An Xia's chic and neatness.

The two teams assembled, and soon disappeared from the vast Gobi Desert.

Come like a ghost, and go like a ghost.

An Xia had already returned to the team, and the sky in the east had already pulled out the white fish. The night of noisy had finally passed, and 77 fighters had won a new day.

Still tense, exciting, and pleasantly surprised all the way.

For the next three consecutive days, Ye Youyin was crushed by An Xia to the point of being unable to resist. Fu Siling and the instructors looked at him coldly and did not intervene.

Because Anxia did not have any fouls.

Ye Youyin knew in her heart that she swallowed blood after being crushed time and time again, raised her head from the dust, glared at An Xia who pressed her into the sand again, and whispered and said in a low voice, "An Xia, bully me, you Very happy, isn't it."

An Xia hooked her lips, "Is this bullying? This is an assessment."

Of course I am very happy, but I don't want to tell you.

Fu Siling's assessment subjects were quite abnormal, even worse than the assessment videos An Xia had watched before.

He arranged for fighting at noon every day. The fighters who were assessed took off their desert training uniforms, wore sand-colored physical fitness suits, stepped on the sand with hot feet, and fought again and again.

On the fourth day of entering the Gobi Desert, the combatants experienced extreme assessments time and time again. Every day the sun sets, everyone is like a fluke of escaping from the dead and living an extra day.

If the combatants escaped from the tenth hell, then Ye Youyin escapes from the eighteenth \*\*\*\* every day.

After two days, the whole person had been tortured by An Xia, and as long as they saw An Xia, the heartstrings suddenly tightened, followed by the formation of physiological reflex fear.

An Xia said that it was right to be afraid.
