Chapter 741: Believe infinitely

No one really knows how deep An Xia's strength is.

Even Jiamu Shen Yuan didn't know.

Mu Chenyuan also has his own thoughts on why he should accept An Xia to join the training.

He wanted to know if An Xia could keep up with the rhythm of Hexun.

This joint training is a comprehensive joint training, like position camouflage, battle uniform camouflage, skin camouflage, position bunkers, position concealment, position building... and so on about a hundred joint training subjects.

If An Xia can keep up, then he can arrange mobile skills training.

As a special fighter, you must learn to drive all kinds of things that can run, such as cars, tanks, airplanes, ships, etc.

He was not worried that An Xia would not be able to keep up with the pace of combat skills training.

Various weapons of this country and other countries are familiar and used, and can be used most in daily training.

The most important thing is to let An Xia join this training.

Xia Houyu hesitated instead. On the satellite phone, he was silent for a while before speaking, "It's too difficult, I'm afraid she won't be able to keep up."

"You are still in the Gobi. Go further and maneuver. Once there is a problem with Anxia, it will be difficult for rescuers to arrive in time."

"Shen Yuan, I need to think carefully about your proposal. Although Anxia's current strength does reach the strength of a special special fighter,..."

There was a pause for a while, "But, after all, it's not that the overall strength has reached the level of a special fighter. It's just physical ability."

There will be a hundred types of subjects in the joint training. At present, the special fighters participating in the joint training are all special fighters who have been on the real battlefield and have survived nine deaths. They have rich combat experience and various skills.

An Xia's performance is good, and the comprehensive grid is quite good, but no matter how strong, her comprehensive strength is a certain distance from the special fighters.

Systematic training is comprehensive and comprehensive training. An Xia has never experienced it at all!

With An Xia, Mu Chenyuan and Xia Houyu had a disagreement for the first time.

Mu Chenyuan said: "You and I don't know how deep Anxia's strength is. Every time we think Anxia may not be able to do it, often Anxia can do it beautifully."

"Commander Xia Hou, I always feel that we have not fully explored An Xia's strength. And this joint training is an opportunity for us to learn how deep An Xia's strength is."

"If you disagree, after she joins Powolf, we need to draw up many training policies one by one, and then evaluate her one by one, which will only delay more time."

"I'm more willing to take this training together to find out about her in all aspects. Moreover, I believe that Anxia will keep up with our rhythm."

I don't know why, every time I see An Xia's eyes, he always convinces him infinitely, and any difficulty can't hold her up.

not to mention.....

The short reunion that night flashed in her mind. When she learned that they were training together, the sudden look and envy in her eyes made him unforgettable.

He saw in her eyes that she wanted to participate in the desire.

At that time, he decided that he must bring her in this joint training!

He will definitely take her too!

Xia Houyu still didn't let go, "I understand what you think, so let me contact An Xia and ask her personal opinion."

"Well, you can ask her first." A light smile flashed in Mu Chenyuan's eyes. "There are ten days left. You can also ask several times."

No matter how many times she asked, she must have only one answer: Yes.

What's more, in this training session, there is also the friend "Blue Bird" she has made. With the "Blue Bird", she will not refuse.

Blue Bird Ye Jian was also frightened by Mu Chenyuan's proposal.

Chapter 742: Awesome

She is the deputy team of the Snowy Brigade and joined the training temporarily. Naturally, she and the team Xia Jinyuan must know in advance.

Pursing the corners of his lips, Ye Jian said: "Team Mu, you'd better communicate with Lu Er District first. Of course, I don't believe An Xia, I'm just worried about whether she can stand it."

"Don't worry about this. She has never been afraid of hardship." Mu Chenyuan said: "Take her, I can assure you that she will not be dragged down."

Xia Jinyuan had a cold face and asked, "I want to know, has An Xia ever had systematic training? The Blue Bird did not join the Snowy Brigade, and he also had a joint training with us."

"However, she had systematic training before joining Hexun. It took a whole year for a person to walk through the jungles of Southwestern Province, go to the desert, walk through the plateau, and lie down on the extreme ice in one month. "

"Where's An Xia? Does she have one?"

"Team Mu, your guarantee is invalid. We need to know whether An Xia will succeed, whether she can, can she, and whether she can keep up with our strength."

Compared to Ye Jian's gentleness, Xia Jinyuan's words were much more straightforward.

In the face of questioning, Mu Chenyuan calmly said: "She hasn't used a year of strong training. It only took one month to reach the level of junior special fighters."

Reach the level of junior special fighters in one month?

Xia Jinyuan's eyes moved slightly.

So awesome?

Heard?

Or did you see it with your own eyes?

"How did the Mu team know that she had reached the level of a junior special fighter in one month?" Xia Jinyuan asked again.

Mu Chenyuan smiled faintly, "I will accompany you throughout."

Then there is no problem!

Sweeping away the coldness in his handsome face, Xia Jinyuan smiled at Ye Jian and said: "I agree, what about you? Are you considering it? Or refuse?"

Ye Jian glanced at him.

Team Xia, what ideas are starting to come up again.

"I want to know what An Xia thinks." Ye Jian answered cautiously.

At this moment, she really couldn't because of Xia's consent, she immediately agreed.

Team Mu, who broke the wolves, can see through the Xia team's heart at a glance.

She didn't agree, and she could play screens for the summer team.

In fact, she didn't guess what the Xia team was thinking.

You'll know when you ask.

Mu Chenyuan kept smiling, "Well, at that time, An Xia will definitely not let the two of them down."

"Well, I'm looking forward to her coming." Xia Jinyuan lifted her thin lips and smiled in her eyes, looking like an old fox with a scheming plan.

One month of hard training will reach the level of junior special fighters, not to mention it!

It's awesome!

Such an awesome female fighter was bumped into by their Snowy Brigade, tusk tusk, she had to **** someone over.

Therefore, after Mu Chenyuan left, Xia Jinyuan pulled Ye Jian away to speak, "After An Xia is over, you should spend more time with her. By the way, talk about the glorious history of our Snowy Brigade."

"What is the level of the mission performed abroad, what major events have been done at the border, and hide the top secret, pick a few things that can be said and tell Anxia."

The snowfield brigade's execution ability is basically Red A-level missions, and half a word cannot be disclosed to the outside world.

Some tasks can still be talked about.

Such as peacekeeping.

Whoever rescued during peacekeeping, these can be mentioned.

Anyway, it can be found online, but it is impossible to find out which team Gu Xiu performed.

Border missions can also be mentioned. Sweeping gangsters and poisons must be done by the Wolves Breaking Brigade.

Ye Jian knew why he suddenly nodded in agreement.

It turned out that I wanted to dig people.

She said, "But I'm still worried about An Xia."

Chapter 743: The jealous team of Mu

Xia Jinyuan raised his hand, flicked Ye Jian's forehead abruptly, and laughed, "Team Mu is not worried, what are you worried about?"

"Throwing you out for training back then, although I was worried, I never stopped."

"Neither you nor An Xia are flowers in the greenhouse. If you want to be strong, you have to work hard. Also..."

Xia Jinyuan thought of An Xia's hostility, as well as the blood that occasionally showed in her eyes, her dark dark eyes narrowed slightly, "An Xia doesn't feel like a novice."

"You have also told me before that she is not like a new combatant on missions with you, she is also quite decisive in her actions, and her judgment is very experienced. Team Mu also said that she is very savvy..."

"Able to train to the small strength of a junior special fighter in one month, Little Fox, then her savvy is stronger than you."

"You left the deepest impression on me back then. Your calmness is not in line with your actual age, and your eyes don't look like a second-year student."

"It's very silent, very sad, it's hard to guess."

"After many years, An Xia once again gave me the same impression as you back then, not acting like an 18-year-old new fighter."

"All kinds of expressions, combined with what you said, she is more like a battle-tested..."

Originally I wanted to talk about special fighters, but I felt that the description was not considerate enough.

"Her aura, little fox, do you think she looks like an eighteen-year-old new fighter?"

Ye Jian was stunned.

How did she listen, she thought of a possibility inexplicably.

Could it be Xiao Xia'er...

Rebirth too?

No way!

No way!

No way!

Is it possible?

But after Xia's analysis, it is very possible! !

Do you think you will have a calmness beyond your actual age?

Why is the sadness inconsistent with the fourteen or five-year-old in your eyes?

That's because she lived a lifetime, walked through the palace of the king of the hades, and lived again with hatred.

Where is Xiao Xia'er?

Why is she so powerful?

Is it possible to live a lifetime again?

Thinking of this possibility, Ye Jian was a little excited.

"Excited? Don't be anxious, it won't be too late to be excited when someone really enters the snowy area."

Xia Jinyuan thought his little fox was excited because he wanted to grab people.

"I'm very excited, I will try my best to blow the wind in my ears!" Ye Jian finished softly, lowering his eyes to cover the undulating emotions in the depths of his eyes.

The Broken Wolf team was also very excited.

"Really? Really? Team Mu, would you really let Miss Ann come over?" Cheng Ming was the first to speak.

This child is really slow to respond.

Ying Que rubbed his brows, forget it, he'd better straighten it out.

I can't watch this stupid kid make mistakes again and again.

"Cheng Ming, calm down." Ying Que said: "Miss An, come over, you are so excited, people who don't know think you like Miss An too."

Cheng Mingru was struck by lightning, and then his face was red, and his neck stammered: "What nonsense are you talking about, me, me, me, how could I like Miss An."

Mu Chenyuan next to him raised his eyes and looked at Cheng Ming.

The explaining Cheng Ming also happened to look at him, and immediately realized that he had said something wrong. "

"No, no, no, I like Miss Ann..."

Damn it!

The look in Team Mu's eyes is even more scary!

He said the wrong thing again.

Cheng Ming was anxious, "Team Mu, I, I, I like Miss An, it's not that you like Miss An, don't get me wrong!"

"You like Miss Ann because men like women and admire. My likes are different, I appreciate that kind of likes!"

"It's like, it's like..." Cheng Ming, who was sweating profusely, hugged his teammate sitting next to him, "It's this kind of appreciation, the appreciation of his teammates."

"Like the way I like the deputy team!"

Finally finished the explanation!

Chapter 744: She, you can't take it away

Mu Chenyuan retracted his gaze and returned the word "um".

Shocked to death, Cheng Ming gave Ying Que a fierce look.

It's all you!

Almost killed by you.

Ying Que: "!!!"

Good people shouldn't be!

Look!

Being a good person is hated by others.

It's not a bargain.

Wei Ji put his backhand on Cheng Ming's shoulder and said with a smile: "It's normal to like it. Miss An is so beautiful and so powerful. It's normal for your kid to be tempted."

"!!! Deputy team, shut up." Cheng Ming was teased again that the whole person was like riding a roller coaster. Apart from anything else, he simply threw Wei Ji down and covered his mouth with his hand.

Ooooooo, unscrupulous guys!

I want to hurt him!

The surrounding Wolf Breakers all laughed.

Someone said, "Oh, Cheng Ming, what are you afraid of. You really like Miss An, and Team Mu won't worry about it."

Ying Que sneered in his heart, "Naive, Team Mu has fallen into the vinegar jar!"

"That is, it's no use if you like it. With the Mu team, Miss An must only like our Mu team!"

"No, you stand with the Mu team, as long as your eyes are not blind, you will only choose the Mu team!"

"Brothers, don't take the Mu team when you go out on a blind date in the future, the Mu team is our strong enemy!"

"Hahaha, then we are not afraid, after all, we have Miss Ann on the Mu team."

I don't know who is not afraid of death, and suddenly he said, "Team Mu, if someone in our team also likes Miss Ann and actively pursues Miss Ann, will you be unhappy?"

This is a true hero.

Ying Que gave him a thumbs up.

However, the brothers all laughed.

Laughing and smiling, silence within one second, like tapping a dumb acupuncture point and shutting up all of them.

Because they saw the Mu team took out the guns around their waists and wiped the guns in an orderly manner.

!!!

More than unhappy!

Want to collapse directly!

What, kidding, kidding.

Deputy team, help! Save the field!

Someone hastened Cheng Ming aside, kid, don't patronize yourself, hurry up and save the brothers!

After being freed, Wei Ji adjusted the steel dust and pulled the collar again before breaking the deadlock with a smile.

"Miss Ann is a good thing to come over!"

Right right right, good thing, good thing.

The brothers nodded neatly.

I heard Wei Ji said again, "But, Team Mu, you tell the two captains of Xueyu about Miss An, I'm afraid they want to grab someone more."

The deadlock broke, but the atmosphere was still tense.

Yes!

They wanted to grab people over there!

Now that you know Miss Ann's talent is so high, don't you want to grab people even more?

Mu Chenyuan wiped the phone and said lightly: "I can't take it away."

Wei Ji smiled, "So sure?"

"Yeah." Mu Chenyuan raised his eyes and glanced at the crowd with a cold look, "She said that only the wolf will come."

She said that she would definitely do it.

Ying Que heard the words, his eyes flickered.

Believe her so?

Are you afraid of her going back?

Mu Chenyuan never thought that An Xia would regret it.

Since he took her over, he would naturally take her back to the team.

Wei Ji's smile deepened, "That's great. We'll just wait for Miss An to come over. If there is any difficulty Miss An will have in the middle, brothers must help me a lot."

Mu Chenyuan said calmly: "No, she will handle it by herself."

"is it okay?"

"Um."

In that case, let the captain arrange it.

Wei Ji said, "Yes, we will listen to your arrangements. If An Xia asks for help, then we can still take action."

You have to ask clearly.

Mu Chenyuan nodded, "Yes."

Given his understanding of her, she would not ask for help.

Maybe it was her who helped others.

Chapter 745: Heart is dripping blood

In his ears, the sound of the wind blew past, and Mu Chenyuan looked at the distance where An Xia was, and there was a gentle ribbon in his cold eyes.

The night was much deeper, and the sound of the wind was much louder than when it was just dark.

The woof blows, and the wind blows up.

Fu Siling hides in the dark, and between his fingers, there is a small part playing with.

"Lingshen, if they really want to find the wolf king, there won't be any trouble," Jiang Wenbin asked lowly, "There is no movement at this moment, I'm afraid it really entered the wolf ring."

The last part, as An Xia guessed, was not in the wolf den.

And the wolf king they want to catch is not the wolf king of the sand wolf.

It was Fu Siling, the wolf king of the Cangwolf brigade.

Fu Siling lay down on the ground, eyes like wolf eyes, staring at the surroundings, with a cold smile on his face, "Wolf King, they are naturally looking for it. But they thought that the parts belonged to the Wolf King. That's stupid! "

what!

Are you really looking for the wolf king?

Jiang Wenbin was so scared that his pupils tightened, "Lingshen, there are 28 sand wolves here! They are divided into six teams, ten people one team, it is dangerous!"

This, is it a bit big to play!

He said again: "It's not that they are stupid, it's your side that asked them to find the wolf king and take pictures. Now you take them to the site where the sand wolf enters and exits, it is normal that they really want to find the wolf king."

You are so courageous that their teammates are a little weak.

Fu Siling took a look and scared his teammates. "If they don't even know how to escape in the wild, it's normal to be eliminated."

Survival in the wild is one of the necessary skills for a special fighter.

If you don't even have this survivability, it can indeed be eliminated directly.

Jiang Wenbin thought for a while, um, Ling Shen was right.

Treat the wolves as enemies they need to ambush.

Lingshen is indeed Lingshen!

Each assessment has both pros and cons, not a single line.

Lei Hongtao, Niu Qiyue, Bo Lirong, and Zhao Zhengfei were also very satisfied.

Especially Zhao Zhengfei was already full of praise for Fu Siling.

He smiled and said: "This Fu Siling is a good player who leads soldiers to fight. With his arrangement, we can more fully understand how many catties these people are."

The first two batches of elimination are large screening, and the next elimination is fine screening.

The later, the finer the screening, the more difficult the content of the assessment will naturally become.

"Fu Siling is the wolf king of the Canglang team for three consecutive years. If he has no ability, the position of the wolf king has long been robbed."

Bo Lirong also appreciates Fu Siling, but...

With An Xia, most of his attention stayed on An Xia, and he paid much less attention to Fu Siling.

Whenever he sees An Xia's performance, he wants to kill his nephew Bo Zhiqing a little more impulsively.

Stucky stuff!

He hasn't played any tricks yet to get results, but he has mixed up good things!

Thinking of the Bo family's missing An Xia, Bo Lirong clenched his fists secretly.

Forbearance, calm, go home and settle the account!

Zhao Zhengfei smiled and said: "He makes Lao Lei love and hate him, he is a treasure when he loves, and he wants to kick people into outer space when he hates him."

"I thought An Xia wouldn't be disciplined. I missed it. I never thought that she was the most disciplined fighter in this wave."

"I just think that the problem is very tricky, and most people don't know her calculations."

Bo Lirong heard that his heart was bleeding.

It's not!

The old man in his family is already very personal, but as a result, he hasn't been put on by An Xia.

The old man thought that An Xia was forced to desperate by his family, and he would definitely hold back his family.

Who knows...

She wants to divorce more than the Bo family.

There is no Bo family in his eyes, let alone his unworthy nephew!

Chapter 746: Where the soul of the group is

Fortunately, the old man also said, "The home is getting worse and worse, and no one up and down in the house can take care of it."

"That girl An Xia was raised and abolished again. She is definitely not a good match. Marrying her home will be a big trouble. It's better to divorce."

Ugh!

The old man is conceited and thinks that he has perfect calculations and will never go wrong.

That day, the nephew came to leave the family by himself. The old man knew clearly and did not stop him, so that the mother and daughter of An Xia could see that Bo Zhiqing was not a good match, so it was better to take the initiative to withdraw.

It was the An family who proposed to quit their relatives, and the Bo family would sing and sing again, letting the world know that it was not that their Bo family was innocent, but that the Bo family agreed not to resign.

The old man thought the Bo family was a sweet pastry, but he didn't know that there was no Bo family in An Xia's eyes.

After calculating for a lifetime, An Xia finally calculated it.

With the help of the Bo family, she not only temporarily relieved her difficulties with the Song family at the time, but also brought her mother Ye Mengwei out of the An family.

From then on, the mother and daughter were free and unchained.

On the other hand, the Bo family thought it was cheaper, but he didn't expect to become the abandoned son of the Ye family in the capital.

I lost the sesame seeds and the watermelon. In the end I didn't get anything. I have to regret missing An Xia from time to time!

Not right.

The unsatisfactory nephew does not regret the miss.

The old man hasn't fully seen An Xia's goodness, nor has he regretted much.

Instead, it's yourself!

From the beginning to the end, he didn't intervene in this matter, but became the most distressed person in the family.

Bo Lining was so angry that his fists clenched again.

Adjusting his breathing, resisting the anger in his heart, and calming his emotions, Bo Lirong's gaze fell to the flickering spot that represented An Xia.

Afterwards, he said: "The road after Anxia will be very wide, and he will act decisively and will never be muddled."

"Speaking loudly, without ambiguity."

"Fighting alone, one man must be the gate, and no one can fight. Group combat, where the soul of the group is!"

"Fu Siling was a bit weaker in front of her."

"What he can think of, An Xia can think of. But what An Xia can think of, Fu Siling may not be able to think of it."

"Look here..."

Bo Lirong used the laser pointer to click the flashing positioning points on the projection screen, and said Shen: "Fu Siling is lying on his stomach here, in a very good position. But An Xia is doing the opposite."

"Everyone concentrated their firepower to find the wolves, but An Xia went to Fu Siling's side to outflank."

Hearing this, Zhao Zhengfei looked at him, "You mean, An Xia guessed that the captured wolf king was actually Fu Siling?"

"Nine to ten." Bo Lirong picked up the thermos cup on the folding table, unscrewed the lid and took a sip of warm water to moisturize her throat. "It's not surprising that she can guess."

"With a little bit of brain, you should guess that this wolf king is not the other wolf king."

Zhao Zhengfei shook his head, "Not necessarily. Fu Siling's smoke bombs were big enough, and he did enough foreplay. The soldiers didn't understand Fu Siling's path. If it was me, I would mistakenly think of the wolf king. It's the real wolf king."

"Look at these five groups. They all moved in the direction of the wolf pack. It can be seen that they plan to find the wolf pack and then the wolf king."

"It's also possible that the wolves first, then look for the wolf den, put the most difficult assessment to the end, and complete the photo with the wolf king."

A total of six groups, only An Xia group came to Fu Siling first.

Bo Lirong laughed, "Their group first went to Fu Siling. I guess there is another guess. The parts of the last gun belonged to Fu Siling."

"For the 60 combatants, only An Xia has a lot of trouble. Their team is also united, and they all agreed to find parts first."

Chapter 747: Distinguish strong and weak, know current affairs

Change to another group, I'm afraid it will not reach an agreement so quickly.

Teamwork will have team assessment, the faster the opinions are unified, the more points will be added.

An Xia and the others undoubtedly came to the front.

Stepping on the cold moonlight, Anxia and his group of fighters sneaked at the fastest speed.

An Xia's speed was very fast, and all the soldiers who followed knew that they gritted their teeth and dared not delay for a second.

It was nine o'clock in the evening, and the crescent moon hanging in the sky was still crawling, time was lost, and the temperature continued to drop.

Ahead, An Xia suddenly raised his hand and made a "stop forward" action.

"stop!"

The fighters who followed all stopped.

"Already here?"

Soldier 39 asked in a low voice.

"It is estimated." Combatant No. 21 nodded, "An Xia must have found something."

The number one team has now been eliminated to only 5 people.

Miaohai, Anxia, No. 18, No. 21, No. 39.

In addition, the newly added five people are the original No. 7 team, including the captain of the No. 7 team. They also eliminated to only 5 people.

The two groups merged very smoothly. After all, the previous No. 7 team was assisted by An Xia for the 20-kilometer trek, so there was no detour. exist

Form a team now and get along very harmoniously.

The former captain of the No. 7 team, the number code is also 7. He swept around carefully and found nothing.

He reached Miao Hai's ear and asked in a low voice, "Did you say anything?"

Isn't he the only one who didn't find anything.

"No." No. 12 Miao Hai shook his head.

No. 7 breathed a sigh of relief, and No. 12 found nothing, so he was relieved.

Asked again, "An Xia is afraid of discovering it."

"Yeah." Miao Hai answered as he continued to search around.

He also wanted to discover something.

Sweeping around again and again, except for the undulating mountains, the Gobi Desert undulating like water waves, he didn't even see a ghost shadow.

What did An Xia find?

Everyone looked at An Xia.

An Xia heard the sound of small footsteps.

Not in human footsteps.

It is the footsteps of the beast.

The smell is smelly, the steps are very light, hidden in the dark, as if waiting for them to send it to the door.

"Round first." Cat waist, An Xia made a gesture, "There are beasts."

They should have run into a lone wolf.

Fu Siling was nearby, and they had better not disturb the lone wolf, lest they were discovered by Fu Siling.

Detour immediately and do not proceed anymore.

After walking for almost a hundred meters, on the 7th did he ask An Xia, "Is it a sand wolf?"

"You look back." An Xia replied with a smile, horrified No. 7 in a cold sweat.

Turning his head, No. 7 almost jumped up.

Wolf!

The wolf follows them!

"Quickly, An Xia, go ahead, don't be behind." No. 7 thought, and quickly let An Xia go to the front.

The wolf thing, like the carnivorous beast, likes to pounce its prey from behind.

The lone wolf stared at them.

An Xia had deliberately stepped forward, so he would go ahead.

"No, Lone Wolf is easy to solve."

Yun's tone was light and windy, and he didn't put the lone wolf in his eyes.

She pressured the field behind, but the lone wolf did not dare to sneak attack.

I really want to go to the front and replace them with other fighters to come to the bottom. The lone wolf will attack 100%.

Beasts know better than human beings to distinguish strengths and weaknesses, and to recognize current affairs.

Whoever is strong, it avoids.

Who is weak, it is pressing harder every step of the way.

No. 7 is anxious, "Don't, we elders walk behind, it must be afraid. There are too many people, no matter how fierce the wolf is, it will not dare to take action."

After finishing speaking, he pulled An Xia away and chased the fighter who was a few meters ahead.

"Fortunately, I want to ask you a question, so I will go with you. If you were to go alone, it might have been a sneak attack."

He thought that the lone wolf had been following behind and did not sneak attack because of the reason that he was in the same direction.

Chapter 748: Wolves have to become dogs

An Xia glanced at him, but she was very confident.

He has caught up with the fighter in front of him. After No. 7 quickly, "Look back, you look back, the lone wolf has been behind us! Fortunately, I have been with Anxia, otherwise, it will definitely attack Anxia!"

What?

The wolf keeps following behind?

Shuashu turned his head together, and met a pair of ghostly beast eyes.

In the moonlight, the lone wolf stopped only 20 or 30 meters away from them, the wolf's tail was clamped, the forelegs and the wolf's head were low pressure, and a stance that would leap at any time.

Cold sweat dripped from behind.

"Following us all the time?" No.62 wiped his forehead with cold sweat, with a look of fear. "Fortunately, you and An Xia are walking together. The lone wolf did not dare to attack."

He is a teammate of the original No. 7 team. He is not very tall, and his upper limbs are very strong. He can push up one hundred push-ups with one arm!

An Xia nodded, "We made a detour, and it kept following."

Very smart guy, following far away, looking for opportunities for sneak attacks.

...

Quiet for a few seconds, No.18 whispered, "I didn't even notice it. I thought it was bypassed."

Didn't notice, only An Xia noticed.

Miao Hai calmly asked An Xia, "Go a little further, if you still follow, you have to find a way to get it done."

There is no need to think of a solution, An Xia has already thought of it.

Very casually said: "Just numb it."

!!!

All eyes widened.

Numb it?

How numb?

They don't have anesthesia guns!

There are anesthetics. Everyone has anesthetics in their hygiene kits to deal with accidental injuries.

"How numb?" No. 21 asked everyone's doubts in a daze.

An Xia turned her head and pointed to the next sand wolf who was motionless.

Then, the soldiers saw the sand wolf whispering, clamped its tail and took a step back.

"???"

Is this the meaning of being scared?

Wolf Du Anxia?

All of a sudden, the eyes of the soldiers looking at An Xia changed and changed.

The beast is afraid of people, and it's affirmative, but An Xia just raises his finger, and the wolf is afraid to retreat, which is rare.

Miao Hai's eyes were slightly dull.

He probably knows why the lone wolf is afraid of An Xia.

There was no sneak attack on Anxia, and it was not that there was a No. 7 counterpart.

But...

Of all the combatants, An Xia should only have blood in his hands.

Bloody, cold and murderous.

The beast is the most sensitive, it can smell the murderous aura of An Xia.

Therefore, there is fear.

I heard An Xia lightly answer again, "Hold it and numb it directly."

Combatants: "!!!"

No wonder I am afraid of An Xia.

People are also afraid of such a sturdy method.

Point, how to hold?

Can you hold it?

"If it doesn't want to get a needle, it's best to leave with knowledge." An Xia retracted her gaze, her eyes were faint, she really didn't put the wolf in her eyes.

It's just a lone wolf.

There is nothing to be afraid of.

I don't want to get a needle and leave by myself.

If you want to get a needle, even if you follow it closely, the wolf has to become a dog if it falls into her hand.

Miao Hai said vaguely, "I hope it will leave with interest."

Falling into An Xia's hands, he inexplicably wanted to sympathize with the wolf.

The fighters all hope that the lone wolf can leave with interest. They are not sympathetic to the wolf being anesthetized, but are afraid of attracting more wolves.

Unfortunately, things backfired.

I don't know where this wolf has the courage. He is obviously afraid of An Xia, and he follows closely.

An Xia stopped, "You stop, I'll take care of it and come back."

After speaking, put down the rucksack and take out the sanitary bag from the inside.

Open the sanitary bag, take out the needle tube and anesthetic, and then familiarize yourself with the needle push and take the medicine after adjustment.

The soldiers watched her "swish" a few times, and they were so familiar with it that they seemed to have done it many times.

"Don't, as long as it doesn't move, let it go."

"Let's get rid of it, always follow me and panic."

"Why, let's weave a net with a bandage, wrap it up, and anesthetize it together?"

This is an idea.

Chapter 749: Resolve by force

An Xia raised her eyes, "It is tracking us as prey, and then looking for a chance to whistle to other companions. It is not a lone wolf. It is a stray wolf that came out to hunt."

Put another way: the kid who goes out looking for food.

"Since you are shameless, then use force to solve it." An Xia paused, turning to ask the soldiers, "Here, will killing wolves be sentenced?"

Xia Guo's protection of animals has always been strict, so it's better for her to ask clearly.

Affected by Mu Chenyuan, An Xia nowadays is no longer just waking up at that time, killing when he wants to kill, and beating casually when he wants to fight.

Keep the rules, it's hard to beat Xia's law alone.

People must understand the Fa.

Working against the law, there is only one word "miserable" in the end.

When asked about Miao Hai, they were taken aback.

"To perform the task, it can be done in an emergency." Miao Hai swallowed his throat, and answered with difficulty, "but we are an intrusion, so if we can avoid it, we can avoid it."

"It's really unavoidable, you can deal with it according to the situation. It's best to don't be cruel."

An Xia finished the questioning with a "so many things" on her face, "then let me be anesthetized."

"You..." Miao Hai pointed to the anesthetic syringe in An Xia's hand, "Is it proportional? There is still a difference between an anesthetic person and an anesthetic animal."

Anxia took out the discarded small glass medicine bottle and said, "Procaine Hydrochloride, for veterinary use. Fu Siling prepared it for you early."

These little details have to be taken into consideration, just in case.

The ratio will not be a problem. These are all of Anxia's previous training content.

There is no problem with the anesthetics, but the bigger problem is still unsolved.

How to anaesthetize the lone wolf?

Let An Xia come alone?

impossible!

They can't do it.

Seeing that they did not give in, An Xia simply said: "Then observe first, and then deal with it as the situation is after you find Fu Siling."

When they were not paying attention, she shot directly, and they didn't have the time to stop it when the time came.

but.....

An Xia looked back at the solitary group who had stopped moving, and his black eyes flashed sharply.

She actually hoped that the lone group would draw the wolves over, so that they could find the wolves and the wolf king effortlessly.

Unfortunately, she was too risky, no matter how bold she was, she couldn't make fun of the lives of the soldiers.

The lone wolf must be anesthetized earlier.

It must not be allowed to attract wolves.

The combatants didn't know that An Xia had other plans in mind. Seeing An Xia agreed to observe first, everyone was relieved.

At the moment, take the time to find Fu Siling and get the final parts.

If the parts are not on him, it will not be too late to look for the wolves.

Fu Siling had waited for nearly two hours, and Jiang Wenbin next to him waited until he yawned.

Weng Sheng said with an aura: "Ling Shen, they probably won't be here anymore."

After guarding for two hours, I didn't see a half-person shadow, I'm afraid they all went to find the real wolf king.

Fu Siling eased away from the usual laziness, staring at the surroundings like a torch, "It is an estimate, not an absolute, give me a clearer mind."

He pressed Mai again, and instructed others, "Keep your eyes on it, prevent fire and theft, and prevent security."

Other combatants, they may first go to the real wolf king.

But An Xia's side, the biggest variable, she might come to find herself.

The battle drum was sounded and the battle flag was unfolded, so that it was time for the instructor to compete with the soldiers.

Fu Siling was also questioning whether he could win Anxia.

Fight!

He really wants to lose to An Xia, he admits.

An Xia is really good, a fact that everyone knows.

There is nothing to be ashamed of.

But it can't be too ugly to lose.

It is ashamed to lose too ugly.

Chapter 750: An Xia is always amazing

Fu Siling went all out, and the other instructors naturally didn't dare to take it lightly.

"An Xia, you can come quickly."

Georgie read silently.

He didn't know An Xia was very close to them.

Had it not been for the delay in dealing with the lone wolf, An Xia would have found them now.

An Xia was already lonely.

Around, Miao Hai and the others sweated with their hands, their whole bodies tensed, and they didn't even dare to blink their eyes, staring at a wolf and a person.

"Keep your eyes on it, once An Xia is in danger, let's rush together!"

Miao Hai clenched the dagger in his hand, ready to go up at any time.

No. 95 of the original No. 7 team whispered: "An Xia's speed is too fast. I was by her side just now and didn't hold her."

Twenty minutes ago, An Xia did not anaesthetize the lone wolf at the same time.

Twenty minutes later, An Xia suddenly said to him, "Be careful," but he hadn't reacted yet. She was like an arrow from the string, and she rushed out with a "咻".

Go straight to the lone wolf who is about to climb a boulder.

And his hand, just about to reach out, she has run away.

Miao Haidao: "Don't blame yourself, all of us are not as fast as her."

What's more, An Xia has been paying attention to the lone wolf, and she is ready to go up and faint the lone wolf at any time. No matter how fast they react, they can't be faster than her.

The lone wolf had already turned around, the beast's fangs puffed up, and the wolf's eyes fixed on An Xia fiercely.

An Xia also stared at it, squeezing the dagger in his hand, and approaching little by little.

Want to inform you?

Forget it.

Not too close, she is down, and the lone wolf is on the top of the rock. The position is dominant, and it must be attracted first.

"Woo...Woo..."

The lone wolf didn't get down immediately, and made a threatening low whine.

It is trying to scare An Xia away.

As Miao Hai had guessed, Lone Wolf was indeed a little afraid of An Xia, who was extremely murderous.

An Xia sneered.

The wolves that come out for food are generally very smart.

It is also the most powerful competitor of the next Wolf King.

A wolf is a wolf, no matter how smart it is, it is also a beast.

Waving the dagger in his hand, An Xia took the initiative to provoke.

"Woouoo..."

The wolf's head was lowered, and the forelimbs moved on the ground, giving it an offensive intention.

One step closer, An Xia waved his dagger again, and...

The fighters who watched saw An Xia suddenly slipped. At that moment, the fighters were so shocked that their hearts were about to burst.

But they heard An Xia yelling, "Don't come here!"

The lone wolf above the rock rushed over.

It also looked at the timing and attacked.

The guy who has the potential to become the next wolf king is naturally smart.

An Xia sneered at the moment it pounced, revealing a sneer that was a bit more ferocious than the beast.

Just waiting for you!

The fighters saw that An Xia who was about to fall quickly stabilized her figure. Everyone hadn't lifted it up in one breath. In the next second, they looked at the side of Yi An Xia's body and hugged the wolf's head tightly!

Oh grass!

Oh grass!

Oh grass!

This, this, this is also possible?

That's a wolf!

Not a dog!

"Woohoo!!"

A wolf howl broke the calm, and the voice echoed and spread to the wind.

It alarmed Fu Siling, and it also spread to the ears of several other groups of fighters.

Fu Siling's eyes tightened.

"West, go and see!"

"Yes!"

To the west is to their left, there is the howling of wolves.

It is the howling sound of being attacked.

Stationed in the Gobi Desert for many years, dancing with the sand wolves, the special fighters of the Blue Wolf brigade can more or less distinguish the different sounds made by the sand wolves at different times.

The instructor to the west immediately rushed away, looking for a sound.

An Xia said to the soldiers around: "Distract Fu Siling and the others, hurry!"
