

Goddess 751

Chapter 751: too crazy

This wolf howl alarmed Fu Siling 100%.

Miao Hai had to distract them, she pushed the anesthetic into the wolf's body, and then retreated.

"Leave me alone!" His expression was colder than before.

At the same time, it is more awe-inspiring, and subconsciously obeys the supreme war power.

An Xia at this time is the former emperor!

The emperor's order, dare not fail!

Miao Hai bit his tiger's teeth and said, "Listen to An Xia! Disperse the instructors' sights first, Bao Xia! I stay here with No.7, you disperse!"

As long as An Xia is not discovered by Instructor Fu and the others, everything is easy to say!

"Yes!"

"Yes!"

Several low sounds like iron **** hit the ground, steady and imposing responses, and in a flash, the seven figures scattered.

Miao Hai and Captain No. 7 are worried about leaving.

An Xia is still holding a lone wolf, and if something goes wrong, they can help in time.

Leave them all, leaving An Xia alone to fight the wolves alone, how can you rest assured.

The two had held their rifles in their hands, aimed at the lone wolf, and were ready to shoot at any time.

Shooting at close range, empty shells also have a certain lethality, which can help to some extent.

It really doesn't work, they go together!

In short, we must do our best to protect Xia Ping An.

An Xia didn't fight for too long.

Her fighting style has always been to aim at opportunities, make quick decisions without delay.

The battlefield is turbulent, and the longer the time, the greater the changes in the battle.

It is the best policy to end the battle within a controllable time.

The lone wolf struggled, and the second wolf howl pulled away again, the crescent moon was cold, the night was like cold water, the wolf howling, and the person who heard it was full of cold.

An Xia with fierce eyes hugged the wolf's head tightly, and the tip of the needle pierced into the wolf's neck fiercely.

Push the needle into the medicine, drink it in one go!

Miao Hai and No. 7 were so nervous that they breathed tightly, and layers of cold sweat appeared on their backs.

"Is it, it's done?" No.7 asked with a strained throat, his voice hoarse as if he had eaten a mouthful of ashes, dry and astringent.

Just now, he saw An Xia making a motion of raising his hand for a needle. Has he already injected the anesthetic into the body of the lone wolf?

Miao Hai, who looked intently, slowly said, "It should be okay."

The slender pointed needle pierced in, and the lone wolf became more frantic.

"Catch up!" Miao Hai rushed out and ran towards the man and wolf who was running away to pursue him.

Captain No. 7 hurriedly followed.

too crazy!

He was the first time someone held a wolf's head directly and gave a wild wolf anesthetic!

Both legs ran wildly, hands up, No. 7 clenched his teeth and ran after him.

Running wildly with the wolf, the speed was a little slower, and in the blink of an eye, the lone wolf disappeared from the eyes of the two of them.

The hearts of the two people suddenly sank, and their hearts became flustered.

"Grass!" No.7 cursed fiercely, and looked around the hazy surroundings.

The sight of 5.0 became blind at night!

I don't know where I went!

"Woo...Woo..."

A low cry came from the front left side, and the two of them looked at each other and ran with their legs pulled out.

In a low-lying place, they saw An Xia sitting on the back of the wolf, using his body to suppress the lone wolf who fell to the ground.

The anaesthesia took effect, and the lone wolf who fled quickly staggered, insisting on fleeing for more than ten meters, and finally fell to the ground.

Falling on the ground can still struggle, and the beast's mouth makes a low whimper for help.

The size of the sand wolf is small at a distance. After approaching, it is known that the size is not small, and An Xia is even more petite in front of it.

Two of them pressed the lone wolf's hind limbs, and the other held the wolf's head, and the three of them worked together to suppress the lone wolf that was struggling to death.

Gradually, the two of them didn't feel the lone wolf struggling, and An Xia's steady voice came from their ears, "You can relax."

The drug is effective, and no matter how strong the lone wolf is, it can't stand the anesthetic.

Miao Hai, who was holding the wolf's head, did not dare to let go. He was still holding it tightly, sweating profusely. Before his nose, there was the stench from the wolf, which was a little nauseous.

Chapter 752: Find it by your own ability

Miao Hai poured his whole body strength into his arms, how much strength he exerted.

"Press again, press again." He whispered, his voice trembling slightly.

The first time to subdue the wild wolf, the actual combat exercises were not as tense as tonight.

"No need to press anymore, I'm already dizzy." An Xia clapped her hands and got up, "If you delay, Fu Siling and the others should come."

Yes, yes, there are instructors Fu and them.

Miao Hai and Captain No. 7 also relaxed slowly.

The strength of both arms suddenly dissipated, and the muscles were stretched like rocks, without any elasticity.

"Come, lift it up and hide it, you lift it, I will cover the surrounding traces." An Xia told the two of them, "Hurry up and move faster."

No. 7 shook his stiff arms, and hurriedly lifted the wolf aside with Miao Hai and hid it.

An Xia concealed all traces as quickly as possible.

On the other side, two fighters were held down by the instructor.

"That's right, I touched it, but unfortunately, it's still a little too close." Qiao Ji held down the number 39 and sneered, "Say, where are the others? Where?"

The other combatant being held down was No. 75. After struggling to no avail, his eyes closed, pretending to be a heroic sacrifice.

Hold down his instructor: "..."

Patting his face, teasing, "I haven't used torture yet, you died so quickly? Don't think about surviving anymore?"

Never consider coming alive!

75 closed her eyes and refused to communicate.

As long as he doesn't survive, don't want to ask something out of his mouth.

The dead cannot speak!

No. 39 did not speak, nor could he say to death!

"Hey, the bones are quite hard, it's OK, don't tell me." Qiao Ji chuckled, and the glare from his eyes was as cruel as a sand wolf.

Canglang, the "wolves" stationed in the Gobi Desert, have a fierce wolf nature in their bones, guarding the great mountains and rivers of Xia Guo, and not giving the ghosts and sprites a chance to behave.

He unscrewed the back collar of Combatant No. 39 and dragged him away, while he was dragging and speaking coldly.

"The consequences of being caught this time are very serious. Maybe there are two of you names on the elimination roster. Alas, what a pity, once eliminated, your dream of becoming a special fighter will be broken into pieces."

"My Buddha is compassionate, or else, let's give you a chance. You should listen first, and then see if you want to speak."

No. 39 continued to pretend to be dead.

Want to lure him to the bait?

no way!

No. 75 had sacrificed heroically early anyway. In order to pretend to be a bit like, he was so agile that he couldn't even breathe lightly.

With a background in reconnaissance, holding your breath and holding your breath is not a problem.

The instructor who dragged him away and kindly persuaded him, "Since ancient times, stiff words have not ended well. Why bother? It's better to cooperate with us to avoid sin."

I don't know if the stubbornness has a good ending, I only know that since ancient times, the traitor has no good ending!

Qiao Ji is like a sea succubus, offering very heart-warming conditions, "As long as you tell me where An Xia is hiding, we will let you go immediately and politely."

"You can rest assured that being caught this time will never affect the assessment. You can continue to fight for your dreams."

Ah!

Lie a three-year-old kid.

No. 39 and No. 75 decided to play dead.

Don't say, don't say, just don't say!

Annoy them!

If you want to find An Xia, look for it by your own ability!

Both of them showed dreadful smiles on their faces at the same time.

The instructors couldn't find An Xia, An Xia was determined to win!

Qiao Jiquan didn't have much time to persuade him to surrender. In the end, he tied the two upside down and hung them on the rock like a bat hanging upside down.

The cold night wind was like a strong knife, and it was aching and painful to the faces of the two hanging upside down.

The blood flowed back straight to the forehead, breathing hard, as if the blood vessel would burst and die in the next second, that taste...

Chapter 753: Powerful enough to make people feel inferior

fine!

They can bear it!

An Xia has already dealt with an instructor.

"Shhh, don't struggle."

He twisted the hands of an instructor with his backhand, picked up the stone in his hand, and no matter how sharp the corners and corners were, put the stone directly into the instructor's mouth.

The instructor who put a stone in his mouth was bleeding.

It's too ruthless to collect on-site materials!

"Fu Siling is waiting for me to pass right now. The instructor should take a good rest and let him give you a meal." After An Xia finished speaking, he made a false motion of twisting his neck.

Said that the instructor had been killed.

Whistleblowing is impossible.

The instructor tried very hard to spit out the stone, gasping and said to An Xia: "Please treat all instructors equally, thank you."

Can't let him be stoned by Anxia alone.

The mouthful of stone stains are stuffed between teeth.

Anxiawaner, "Definitely, I have always been fair."

"Thanks." The instructor fell to the ground, his eyes aside, and he waved his hand, "Go, don't talk to me, I want to be alone."

Don't want to talk, talking is too tired.

Tired.

Depend on!

I don't know how An Xia found her hiding spot, appeared next to him with the shadow, and solved him for up to fifteen seconds before and after!

It's close to the level of a special special fighter, it's really scary!

They were like cabbages in the field in front of her, obediently harvested by her.

There is no chance to even ask for help.

An Xia who had left was deeply sorry for the instructor for three seconds.

pitiful.

After the end, wait to be eaten by Fu Siling.

Maoyao left to join Miaohai and No.7.

On the 7th, when An Xia came back, she clasped her fists in her hands to express her admiration.

"An Xia is as easy as killing a chicken. When we go up there, the instructor is also easy to kill the chicken. It is our two chickens." Miao Hai made up for it, so that No. 7 was careless, and met An Xia to solve the instructor easily, thinking that he was himself. It's also possible.

An Xia smiled and said, "After you pass the assessment, after one year or two, it will not be a problem."

Right now, they must be unable to do the instructor.

Seven fighters were scattered, and I don't know how many are left.

With Fu Siling's method, I'm afraid it's almost finished.

It is estimated that there are only three of them.

There are a total of six instructors, and now one is resolved, and there are five more. An Xia is wondering how to defeat one by one.

It seems unlikely.

Therefore, I still went to Fu Siling directly.

Fu Siling naturally knew that one of his teammates had been resolved.

There was no response from the contact, and the person must have been touched.

An Xia was the only teammate who could touch him silently.

"An Xia may come over from the northwest side. Keep your eyes on it." Fu Siling lay still, and he was waiting here.

Waiting for An Xia to touch it.

And before touching it, there are four more levels.

Only after defeating four instructors can she touch her.

An Xia is shrinking the location where Fu Siling may hide, holding a small shrub, and drawing on the sand.

"I just climbed to a high point and looked around. From here to here is easy to defend and difficult to attack. If I were Fu Siling, I would hide here..."

"We are here. It stands to reason that it is impossible for them to take action against the assessment fighters. Now the action can more confirm our guesses."

"Fu Siling has what we need, find him, our task is half done."

The wolf pack, the wolf den, and the wolf king must continue to look for them.

Miao Hai stared at An Xia's topographic map drawn in the sand, with shock in his eyes, "You just went up for a while, and you can see the surroundings clearly? Did you remember them all?"

He knew that An Xia Ji map was very fast, and he had heard of it when he was in the old team.

Now that I saw it with my own eyes, I was still shocked.

Chapter 754: dilemma

This is too fast!

Take a look and remember everything.

"It's very simple, divide the terrain you see into a fan-shaped area, draw a grid in your mind, use a central point as the main coordinate, establish four sub-coordinates for east, south, west, and north, and then divide the mountains and rivers you see Put them in the grid one by one and you can remember them quickly."

It's simple to say, but it's not easy to do it.

Extraordinary memory is the first condition.

Miao Hai sighed: "I can't remember, you are a talent, few people can do it."

"It's okay if you can't, there is an electronic map." An Xia said disapprovingly, she didn't know that remembering these was a strong point.

One of the small training sessions, after a long time, it will naturally happen.

On the 7th, Anxia Versailles arrived, "It's very relevant, it can be very useful at a critical time. Just like now, when you look at it, you have already touched the location of Instructor Fu's hiding place."

"but....."

After stopping the meeting, No. 7 frowned and said: "There are 6 instructors in total, now I will solve one, and there are 5 more. If you want to find Instructor Fu, you have to solve these instructors first, which is a bit difficult."

There was guilt on his face, "The main reason is that we have no way to help you, go out and take a head, and you will be pinched to death by the instructor."

It's easier than squeezing the ants.

An Xia was so teased by No. 7's words that she raised her eyebrows, "Don't belittle yourself. Next, I still need your help."

"I'll walk around from here, just here..." I clicked a little bit above the sand painting, "Go up here, I can touch them behind."

"What about you, help me interfere in this area, pay attention, it is interference. Hit the mole, know it, let me run around, the more chaotic the better, just stick to it for 20 minutes."

This, they have no problem!

Come on, roll up your sleeves and work.

On the other side, Ye Youyin has been looking for An Xia for a long time.

Still not found.

"Is An Xia not here?" Captain No. 3 frowned, "I wonder if she is going to instructor Fu."

"Looking for instructor Fu?" The fellow fighters were puzzled, "What do you want to do with instructor Fu? We are looking for the wolf king. Is it possible that instructor Fu is the wolf king?"

I said casually, the surroundings were silent.

Ye Youyin suddenly raised his eyes and stared at the combatant, "You said, Instructor Fu is the Wolf King?"

The warrior was caught in her heart by her eyes.

Said: "It's not impossible. This is the Grey Wolf Special Forces Team. The name of the team has the word "wolf". It is also possible to call the most powerful Special Forces "Wolf King"."

Originally, he said casually. At this moment, the soldiers themselves said that their expressions were solemn.

Captain No. 2 and Captain No. 3 looked at each other, seeing the solemnity in each other's eyes.

It is indeed possible!

But not necessarily.

Ye Youyin's face was gloomy for an instant, "That's right, instructor Fu may indeed be the Wolf King. An Xia hasn't shown up for a long time, I'm afraid she thinks so too."

damn it!

It is impossible for them to turn around and find Fu Siling!

The cold gaze swept towards the two captains No. 2 and No. 3 who hadn't spoken for a long time, complaining deep in their eyes.

No. 3 and No. 2 are combined into a team, and the action tonight is decided and led by the two of them.

However, as the captain, they didn't play a role. They always made mistakes in decision-making, which caused her to waste her efforts!

Still want to be a special fighter?

Forget it!

Hurry up and roll back to the original team, study for a few more years and then come to the assessment!

"If this is the case, then it is too late for us to find instructor Fu now."

"Yes, it's been almost two hours. With An Xia's skills, I'm afraid that instructor Fu has already been found."

"I don't think it is necessary. Instructor Fu has been stationed in the Gobi Desert for many years. Here he is much more familiar than An Xia. How could An Xia be easily found?"

This is true.

No matter how instructor Fu is also an intermediate special fighter, he cannot easily lose to An Xia.

Chapter 755: Cooperate

Ye Youyin looked at the two captains again.

"What do you think? Go ahead? Or go back to Instructor Fu?" she asked.

Entering the link that affects the assessment results, Ye Youyin will not go ahead on her own, but will leave the problem to the two captains, in order to avoid problems, and the combatants will count the responsibility on her.

I completely forgot, just now she was still complaining in her heart that the two captains made a mistake in decision-making.

Captain No. 2 pondered a little and said, "An Xia has one more task than us."

One more task?

The few fighters hadn't thought that Ye Youyin's eyes suddenly lit up.

right!

An Xia indeed has one more task than them!

She also had a rifle that hadn't been assembled.

"You mean, the reason An Xia went to Instructor Fu was to judge that there was the last part in Instructor Fu." Ye Youyin said slowly, his face and tone no longer as cold as before.

Captain No. 2 nodded, "Well, so, we don't need to panic. After Anxia gets the parts, he will definitely come back to find the Wolf King."

"We found the Wolf King and took a group photo before she came back. In this round of assessment, An Xia lost."

Captain No. 3 answered, "Yes, our biggest opponent in this round of assessment is An Xia and his team. Now An Xia may go to Fu Siling to complete the extra tasks. The remaining four teams are not to be afraid of."

They are very strong in this group, as long as they cooperate well, they can definitely win.

Ye Youyin smiled, "The two captains analyzed well, then, shall we continue to look for the wolves?"

The sound is clear and sweet, and the wind chimes show a good mood.

With the possibility of winning An Xia, Ye Youyin was naturally happy.

Then keep looking, and find the Wolf King before An Xia returns.

That is to say, their group pays attention to Anxia's whereabouts, and the other four groups bury their heads in looking for the wolf king, and they all work hard to win.

Wolves are not so easy to find.

Obviously heard the wolf howl, chasing after but there is no wolf.

Twenty minutes passed in a flash.

Miao Hai also persisted for twenty minutes and was almost "dead".

Number 7 has been arrested.

He worked hard for 15 minutes, and was finally blocked by two instructors, kicked to death, and held it down to drag it away for a minute.

The end was the same as the previous fighters, all **** and fell to the ground.

Eight people hung upside down, and the brothers and sisters gathered, and a handful of bitter tears.

"You are here too."

"Here." No. 7 nodded, faintly replied, and asked again, "How long have you been here?"

Number 75 sighed, "It's been half an hour."

The first batch hung upside down, and at this moment, the brains began to lack oxygen.

I don't know how long it can last.

"There are also No. 13 and No. 100, it depends on the two of them." Combatant No. 18 was worried.

"They are going to die. We all failed in this round of assessment."

Just after speaking, there were footsteps and dragging sounds.

When the 8 people heard it, their hearts shook fiercely.

who?

Who was caught?

Miao Hai was arrested.

The resistance was too strong and was beaten.

Bleeding to the corners of the mouth.

He was the most powerful fighter after An Xia, and it took a while for two fighters to besiege him.

"Don't move!" Qiao Ji coldly drank, "Move again, try what it's like to fall to death."

It's a hard bone.

It's all like this and still resistance.

It is indeed the most likely candidate to become a reserve special fighter.

Miao Hai resisted mainly to drag the two instructors who arrested him.

At this point, he did his best.

When he hangs upside down, the combatants see that it is not An Xia, so everyone is relieved.

"Damn, I was scared to death, I thought it was An Xia!"

"Calm down, calm down, don't panic, we can win!"

"It depends on An Xia!"

Miao Hai called out his anger, "I believe Anxia, we will definitely win."

At this time, An Xia had already touched where Fu Siling was hiding.

Chapter 756: Always unexpected

Fu Siling didn't expect to touch it so quickly.

Lei Hongtao, Niu Qiyue, Bo Lirong, and Zhao Zhengfei who were watching the game were also a little surprised.

"Cut out her movement trajectory separately for me." Bo Lirong said to the technician: "Four-dimensional cut drawing."

The four-dimensional three-dimensional cut map allows you to see Anxia's entire line of action more directly, and you can analyze how she avoids the monitoring of the instructors at the first time.

Zhao Zhengfei said: "What I am more curious about is how did she confirm that Fu Siling is hidden in this area? Bo Li, look at this..."

The laser pointer circled the screen. Following Zhao Zhengfei's playground, there was a satellite image on the screen. Mountain love stood tall, and the rising brown and yellow mountains stood one after another, like a giant dragon, guarding this barren land.

"This is also a good hiding spot. Why does An Xia think that Fu Siling is not hiding here, but here?"

Zhao Zhengfei was puzzled when he gestured past two hiding spots less than three kilometers apart.

It's incredible.

How did An Xia identify Fu Siling's hiding spot?

Zhao Zhengfei's question is also Bo Lirong's question.

After receiving the four-dimensional cut map from the technician, Bo Lirong said: "Come on, analyze and analyze together. Among them, there must be details that we have overlooked, but Anxia has grasped."

"The details must be why Anxia believes that Fu Siling's hiding spot will be here."

Combining the action trajectory with the entire map, I believe they can find the answer.

The two men faced the case and began to analyze the four-dimensional Chetu. In the tent of the command center, in addition to the keyboard tapping, occasionally the two big men whispered.

Lei Hongtao and Niu Qiyue are also analyzing.

However, their conditions were limited and they were unable to cut out Anxia's trajectory in time, but both of them were experienced masters in combat, and began to analyze directly on the sand table.

"An Xia is addressing an instructor at this position. What's going on here..." Lei Hongtao put down a stone, and his face was very serious. The surrounding terrain and landforms are memorized."

Niu Qiyue thought for a while, shook his head and said, "It's impossible, she didn't stay here for even a minute."

All fighters are located and tracked in real time. Wherever they go and how long they stay here, the background terminal can provide timely feedback and calculate the time.

It is impossible for Anxia to remember such a large terrain and landform in less than a minute.

Lei Hongtao turned around and took out An Xia's previous grade book, "Come, take a look at this assessment, and you will know if she can do it."

Turning to the assessment results of the last wrong map, it clearly records the time of Anxia's hiking, as well as the time of each rest and pause.

Using a red pen to circle a certain point in time, Lei Hongtao said: "After climbing to this high point, she stayed for only 37 seconds and four, then immediately came down, and immediately returned to the same route after she got down to correct the wrong route."

"In this way, it can be concluded that Anxia can remember the topography and landforms very easily. Whether it is an electronic map or the site topography and landforms, she can quickly remember it."

Lei Hongtao studied An Xia's assessment results over the past few days after he got it. Sometimes Niu Qiyue fell asleep, and he walked outside by himself, flashing a flashlight to examine it carefully.

So, I just want to know more about An Xia, and see if I can keep An Xia.

Ugh.

Want to stay, but Xia Hou Zhan will not let go.

Niu Qiyue listened and watched, and was so surprised that it was a long time before he said: "This kid, how does his brain grow? Have you tested her memory and IQ?"

Chapter 757: Sneak attack, failed

...

Not really!

Lei Hongtao said: "After the assessment is over, you can test."

"I will test after the assessment is over?" Niu Qiyue shook his head and smiled: "I'm afraid, there is no such opportunity."

Lei Hongtao was puzzled, "How do you say?"

"You all want to keep people. How can Xiahou fighters rest assured? After the assessment is over, come over and pick them up right away." Niu Qiyue closed the grade book and returned to the sand table. As the center, analyze and consider where Fu Siling might be hiding, and then..."

Pointing to the location where the instructor was dragged away, "Exclude the hiding spot far away, and finally learn about Fu Siling's hiding spot. This girl is smart!"

Analyzing all the way down, Niu Qiyue was even more surprised.

Smart, really smart!

Basically, he predicted Fu Siling's prediction in advance!

"There is one more question. How did she avoid the whistle arranged by Fu Siling and sneak to him?" Niu Qiyue finished speaking, and saw Lei Hongtao's look contemplative.

Lei Hongtao discovered that An Xia was very good at sly warfare.

In other words, do not fight conventional warfare.

Like to take a risky move, unexpectedly, making the opponent unprepared to win.

But this time Fu Siling guarded An Xia, and Fu Siling also liked to take risks, and his fighting style was the same as An Xia.

Through this round of fighting, Lei Hongtao has made new discoveries.

"Lao Niu, do you feel that An Xia is very different from the new fighters?"

Niu Qiyue laughed, "Does this still need to be felt? It's different at first."

"No, what I said is not the same, not the kind of difference you think. But, how do you say it." Lei Hongtao thought for a while, weighing in and said: "It's more like a coach who has experienced many battles."

"Yes, that's the coach! In any battle situation, she can find a counterattack plan for the first time. With the goal of annihilating all enemies, she will fight to the end."

The more I look at it, the more it looks like, the more I analyze it, the more I feel it.

It's unreasonable!

How old is she.

Niu Qiyue said the same, "How old is she, how could she have experienced many battles? In my opinion, I'm afraid it still has something to do with talent."

If there is no way to explain it normally, it is considered a talent.

Lei Hongtao can only think so.

Otherwise, no reasonable explanation can be found.

Sighed: "I can now better understand why Xia Hou Zhanjiang must keep Anxia, a talented person who is not in the world, and he must keep it firmly when he meets it."

"So, you, don't want to keep An Xia. It's not yours, you can't keep it anymore. Let's see how much An Xia and Fu Siling need to end before they can fight."

Niu Qiyue looked very open.

Because he knew in his heart that no matter how good Anxia was, he was not a member of his team.

It's better to calm down and see how An Xia passed the assessment one after another.

He brought her results back to the team, analyzed and studied together with the fighters.

An Xia didn't know that she was being analyzed inside and out again. At this time, she had already confronted Fu Siling.

The two stood in the dark, and did not immediately fight each other.

Fu Siling stared at a certain point, her eyes sharp as a sword out of its sheath.

There, hidden a powerful opponent: An Xia.

"An Xia." He raised his voice, "Since I touched it, why didn't I show up."

An Xia who was hiding behind the rock replied slowly, "There is an instructor next to you. I'm thinking about how I can beat you."

There is Jiang Wenbin beside Fu Siling.

Hearing this, he retracted the feet he was about to step out, turned his head, and gave Fu Siling a gesture, "Sneak attack, failure."

Planning to go around and attack An Xia from behind, the idea is very good, but unfortunately, An Xia has already noticed.

Fu Siling said: "One-to-one solution."

"Yes." An Xia responded, "The winner will be determined within five minutes."

Chapter 758: Fight to the end

Win or lose in five minutes?

Jiang Wenbin whispered, "Is there enough time?"

It's hard to touch it, but don't worry about it in vain.

"Almost, a quick fight." An Xia finished speaking and asked Fu Siling again, "Fighting head-on?"

Fu Siling took the initiative to come out, "Fight head-on. Jiang Wenbin, time."

"Yes!" Jiang Wenbin walked from the dark to the moonlight, took out the stopwatch, and prepared to time the clock.

An Xia came out and moved her wrist a little.

I have already warmed up just now, just start the fight.

When he said to fight, he played, and when the dagger was revealed, An Xia took the lead in attacking.

She has always liked to offense, and the timing is just right, so there is no need to hesitate.

"Cow! Fight as you say!"

Jiang Wenbin hurriedly pressed the stopwatch, "The timing starts, Lingshen, An Xia, come on!"

In the moonlight, he saw the dagger in An Xia's hand struck the cold light and directly pierced Fu Siling's chest.

"!!!" Jiang Wenbin stared in surprise.

This this this...

Playing so big?

"Let's take a moment, An Xia, take a moment." I didn't dare to remind loudly, but reminded with a small voice.

An Xia who showed the dagger was very scary!

Not to mention the aura like a rainbow, there was even more blood rushing toward her face, and as soon as she raised the dagger, it seemed as if there were thousands of troops behind her with the sword.

He was so powerful that he defeated their Lingshen.

Fu Siling was also surprised for a moment. Soon, he suppressed the waves in his heart and faced An Xia.

"Hey!"

Two daggers knocked out, bursting out a little spark.

His eyes met, and he could see the cruelty of the fight to the death in the opponent's eyes.

An Xia used a dagger to firmly suppress Fu Siling, lifted her slender legs, and kicked Fu Siling directly into her abdomen.

In close combat, An Xia hasn't lost yet.

Fu Siling has seen how powerful An Xia's fighting skills are.

She was able to make a tie with Ye Jian who was a special-level special fighter, and now it is easier to face herself.

Leaning sideways, trying to kick back An Xia's right leg. Before he got out of his leg, An Xia had already swept over her body quickly, quickly avoiding and circling to Fu Siling's side.

"careful!"

Jiang Wenbin's face changed drastically.

He saw An Xia walking around behind him, piercing Fu Siling's back with a dagger in his hand.

Fortunately, Fu Siling reacted fast enough and rolled forward, avoiding danger.

"Sizzle..."

There was a faint sound of slashing clothes. No matter how fast Fu Siling reacted, An Xia still made a small cut on the back of his training uniform.

Fortunately, no skin or flesh was injured.

Jiang Wenbin was shocked in a cold sweat watching the game.

Where did An Xia learn about fighting skills?

The moves are all death moves, fierce enough to make the scalp numb.

After playing such a big game, she has a very indifferent expression, just like doing this work too many times, she has long been numb.

Fu Siling's eyes were darker than before.

It is really difficult for him to win An Xia.

An Xia's offense was extremely fierce, one move after another, without giving him half a breath.

Attacking again, An Xia kicked Fu Siling's chest.

"Boom!"

A heavy blow, heavy as a drum.

Jiang Wenbin saw that their Lingshen was kicked a few meters away by An Xia and fell to the ground.

"..." Jiang Wenbin couldn't help touching his chest with a hard swallowing throat.

Lingshen must be in pain.

He feels very painful.

"The first time." An icy voice overflowed from An Xia's mouth.

Neither of them understood what it meant.

Fu Siling got up.

Rubbing and kicking to the painful chest, shrugging his shoulders, moving his vigor, the unruly handsome face is already clouded.

I haven't been kicked for a long time. I'm afraid I will be kicked many times tonight.

"Come again."

Bloody aroused, Fu Siling's eyes were already filled with blood.

When encountering a fighter who is stronger than oneself, it is impossible to accept defeat, only to fight to the end.

Chapter 759: Winning is beautiful

An Xia likes to fight like this, and appreciates Fu Siling's vigorous fighting.

Staying still, beckoned and provoke him, "Come here by yourself."

Jiang Wenbin almost knelt.

Brother!

Gangster!

you are awesome!

Lingshen, don't be mad at her.

Fu Siling was not angry, but smiled.

He really is!

It has always been only for me to provoke others. Tonight, it's very good. I am back with all the retribution.

Provocation from the assessment fighter An Xia!

Whoever is great has the final say.

This time, Fu Siling took the initiative to attack.

The two battled again, and Jiang Wenbin was dazzled when he saw it.

Soon he discovered that An Xia's tricks were even more ruthless than before, and he squeezed a lot of sweat for their Lingshen.

"Lingshen, come on."

I didn't even dare to say the sound of cheering.

He was afraid of being caught by An Xia's eyes.

At this time, An Xia had terrifying expressions in her eyes.

Cold and indifferent, seeing everything as nothing, life is in her eyes, just like the flowers and plants on the side of the road.

An Xia actually converged a lot.

She never thought that she would really kill Fu Siling.

Avoiding Fu Siling's stabbing dagger, his hands suddenly grabbed his wrist, using his arm as the fulcrum, and directly came into the air to spin.

"Hey..."

Fu Siling, whose wrist was in severe pain, let go, and the dagger fell to the ground, sparking sparks.

"the second time."

An Xia let go, standing in front of him and speaking coldly again.

Jiang Wenbin stared blankly, he hadn't been relieved from An Xia's actions just now.

Where did gravity go?

Why is it not there on An Xia?

Fu Siling rubbed his nearly broken wrist, pressing his thin lips a little.

An Xia was merciful to his men just now.

Otherwise, his wrist would have been broken long ago.

"The last time." An Xia said again, "There is one minute left."

Fu Siling understood what she meant.

He tightened his lips, and then said: "No, I lost."

Jiang Wenbin blinked, pressed the stopwatch, and rushed over quickly.

He wanted to see Fu Siling's wrist injury.

"It's not broken." Fu Siling didn't let him check, and took out something from the pocket of the training uniform with his left hand, which was almost broken, and put An Xia aside, "An Xia, you won."

An Xia reached out to take the parts and raised her eyebrows, "The judgment is correct, thanks to Instructor Fu for carrying the parts."

It takes 150 minutes to find the parts.

good.

Previously it was expected to be three hours.

"What about my teammates? Do they continue to follow me? Or are they failing this round of assessment?"

Fu Siling turned on the wheat and ordered, "Release people."

Several instructors heard his voice and froze for a second.

Qiao Jiquan asked in a deep voice, "Ling Shen, are you and An Xia over?"

"She won." Fu Siling told indifferently.

There is nothing to hide, let alone embarrassment.

An Xia is better than him, and the members of the team know it in their hearts.

Although I knew it, there was still no way to fully accept it for a while.

Miao Hai and other nine combatants all pulled up, and the poor No. 39 and No. 75 hung upside down to faint.

"Why let us go?" No. 62 asked.

He asked on his stomach.

There is no way, the whole body becomes numb when hanging upside down, but standing up immediately is not good for your body, so it is only when you lie down slowly.

No. 95 said: "Or, An Xia has caught it too, or An Xia has won. I like to hear An Xia has won."

Lie on his back, turning his head to Qiao Jiquan, "Instructor Qiao, did An Xia win?"

"Yes, you lie down and win again." Qiao Jiquan replied, his expression was not so good.

He was a little worried about Fu Siling.

I don't know how he is feeling.

"really?"

No. 62 and No. 95 asked in unison.

Will be slowed down, the two people of 39 and 75, who were sober minded little by little, did not hear clearly in front, and answered the conversation halfway, "What is true or false? What are you talking about."

Chapter 760: Terrifying power disparity

On the 95th, he answered them immediately, "Instructor Qiao told us that An Xia won!"

"What? Won? Really?"

"Won? Really won?"

They hadn't completely slowed down, and when they heard such great news, the two of No. 39 and No. 75 who were talking at the same time were so excited that their brains rushed into blood again.

"It's more real than real gold." Qiao Jiquan and another instructor connected several soldiers in succession, and finally the 21st and Miao Hai followed.

They were the last to catch upside down, so they were the last to come up.

Miao Hai hasn't stood firm yet and can't wait to ask, "Did Anxia win? Did we win?"

"Congratulations, you won." Qiao Ji left after speaking, there is nothing wrong with him here.

Quickly assemble to find Fu Siling.

Meet again with An Xia head on.

Qiao Ji paused, stopped, and asked in a low voice, "You won? How about Lingshen? Isn't it okay?"

Haven't been injured by An Xia!

An Xia fought against the special female combatant, and he also watched the whole process.

That ruthless, spectator was panicked.

An Xia said: "It's still a success."

It's okay...

Wouldn't it really hurt Ling Shen?

Qiao Ji didn't want to ask any more, hurriedly gave An Xabi a thumbs up, and ran away.

When I ran over, I saw Fu Silingzheng talking with Jiang Wenbin.

"Lingshen! Are you okay!"

Before the people arrived, Qiao Ji asked with all his voice.

Fu Siling glanced at him, "What can I do here?"

It's still the same as before, dragging, cool!

Georgi was relieved.

He wanted to ask something, so he saw Jiang Wenbin winking at him, meaning: Ask less!

Shut up quickly.

Just as the other brothers rushed over, Qiao Jiquan decided to leave the question to the brothers.

They will definitely ask.

Sure enough, the first sentence that came up was, "Ling Shen, are you okay."

Or, "Lost? Lost so fast?"

"Cough cough cough!" Jiang Wenbin coughed.

Low EQ!

Too low EQ!

How can you ask like that.

Although Ling Shen looked expressionless, he didn't care at all, but in his heart?

Whether the heart is the same as the surface, I don't care.

Fu Siling frowned, "What do you cough? To lose is to lose. Can a few coughs cover up the facts?"

Losing is magnanimous.

"Assemble." Coldly ordered, the five instructors gathered immediately.

After taking a rest, standing, and after the password, Fu Siling said calmly: "I just lost to An Xia. It took 3 minutes to lose to An Xia twice in a row."

!!!

Lose twice in a row in three minutes!

They fought Lingshen, but they never won!

"Anxia's fighting strength has reached the level of a special special fighter, and I, the intermediate level, defeated her in 3 minutes. Think about it for yourself. Can you hold on for a few minutes with your skills?"

He looked at the instructor who was dragged away by Anxia first.

"Report, less than a minute!" The instructor replied, "A sneak attack from the rear, I have nothing to fight against."

The chilly dagger pressed against his neck, and he was shocked to realize that someone was approaching at such a distance.

Fu Siling said: "Less than one minute, I, exactly three minutes. Beginner, Intermediate, and Special. Beyond the three levels, the difference in strength is like an abyss."

"After this assessment is over, all combatants will strengthen their training!"

"Yes!"

"Yes!"

"Yes!"

...

Five steel-like voices penetrated the night, strong and powerful, and even the wind avoided them and blew in another direction.

An Xia had gathered with the soldiers.

Surrounded by them, look carefully for injuries.

"No injury, don't check it." An Xia had a headache.

What is there to check?

Injured is an injury, and no injury is no injury. Is it possible to still talk about panic?
