

## **Goddess 761**

### **Chapter 761: Dissatisfied? clothes!**

Several people circled An Xia several times in a row to confirm that An Xia was really not injured, and they all laughed "hehe".

"Instructor Fu is embarrassed this time, and I will definitely reflect on myself when I go back." No. 13 spoke in a low voice, but the instructors could not hear him.

He was miserable when he heard it.

One sentence was echoed by the fighters.

"It's not just Instructor Fu who is ashamed, it's the whole instructor team that is ashamed. When our assessment is over, the boss above will definitely kick them off."

Normal inertia.

Usually the two teams compete, and once one loses, there is no good life after returning.

Even if you lose the tug-of-war, you will be scolded by the monitor after returning to the team.

Instructor Fu, they are certainly no exception.

"It is estimated that the instructors themselves did not expect to lose. The result of being caught off guard, they are afraid they are dumbfounded."

After several fighters finished speaking, on the 18th, paying attention to the surroundings, he took the words, "No, go back and reflect on it, and I will definitely not pull it like I do now."

I'm afraid that the instructor will suddenly appear.

Miao Hai didn't speak, he looked at what An Xia said.

An Xia waited for the combatants to finish before she said calmly: "Come on, Fu Siling and the others will only get better in the future. If you meet again one day, think about whether you can beat them."

A big pot of cold water was poured down, and everyone's enthusiasm was completely gone.

If you meet again one day, can you beat the instructors?

The premise is that they become special fighters to be qualified to compete with the instructors again.

Without giving the fighters time to breathe, An Xia swept over the happy fighters, his sight was too deterrent, and the fighters were very nervous.

There is a sense of fear of being told by the Twelve Stars.

"Win, calm, lose, calm. Don't be happy, don't laugh. The instructors need to reflect, and you should also reflect."

"Why were you arrested so quickly? Why was Miao Hai the last one to be arrested. Have you ever thought about the gap between them?"

"Choose ten from one hundred, I would like to ask you, are you sure you are in the top ten?"

...

There was no sound.

Not sure.

I don't dare to say that the instructors are ashamed. I'm still in the mud, trying to move forward. What qualifications do I have to laugh at the instructors who have become special fighters?

Without speaking, An Xia could tell how much they were thinking through the expressions on their faces.

It's useless to say more, but she has tried her best to remind her if she can.

There is a proverb in Xia Guo: The master leads the door, and the practice depends on the individual.

Everyone gets along with each other, she can remind them at the right time, but she won't follow them like a dean who keeps preaching after them.

What kind of person you want to become is determined by yourself. The lively atmosphere that has nothing to do with them becomes particularly solemn in a flash, like a mountain pressing on the hearts of the soldiers, pressing until the chest is dull and dull, extremely uncomfortable.

Miao Hai stood up to break the solemnity.

He is the captain, and it's time to play the role of captain.

"Remember what An Xia said, lose calmly, win calmly, not arrogant or impetuous, and complete every assessment well."

This time, even if Miao Hai was in the middle of the reconciliation, the string in everyone's heart was still tense.

An Xia didn't look angry, and her words were flat, but her eyes...

Sweeping them panic and scared.

At this moment, I didn't even dare to look directly at An Xia.

Miao Hai was also flustered, he could be regarded as understanding why everyone in the previous battalion's advanced squad would obey An Xia.

At this moment, he also obeyed!

**Chapter 762: It's nice to lie down**

Glancing at An Xia, eldest brother, why don't you say another word, relax?

An Xia didn't move.

Miao Hai was a little worried.

Another wink.

An Xia glanced back at him indifferently, and opened her mouth coldly, "It's done, I just have to say a few more words, morale is low. You have seen the leader of the previous fighters, and you still can't vomit blood."

"As long as you fail the assessment for one day, you still belong to the original team. Don't shame your squad leader!"

"Give me your head up and chest tall! As a fighter, you have to have the blood of a fighter. One by one, I was said to have become a soft-footed shrimp. It was spread out that the leader of your original fighter did not teach you!"

Let An Xia speak, there must be no good things.

comfort?

Ah!

Forget it.

In her place, don't think of getting any comfort.

If it were in the imperial realm, they had such a look in front of them, she had long been thrown into the dungeon to "enjoy" the special treatment.

Miao Hai was yelled at by An Xia's voice, and when he was drunk, he was hit hard.

All of them straightened their backs and swept away the downturn just now.

An Xia has already said that she has no self-confidence.

No matter how hard they are, they will have no face to continue the assessment with An Xia.

Under the slope, Fu Siling turned and stopped walking up.

"Hey? Gone? Don't say a few words?" Qiao Ji was stunned, and quickly turned to follow.

They are here to remind these fighters not to patronize and be happy, the assessment has not stopped.

Fu Siling took a leisurely step, "Don't go."

"Ah! Why not go?"

"An Xia is here."

"An Xia just taught them a few words, but didn't say that the assessment has not stopped." Qiao Jiquan said uneasy, "What if An Xia thinks that the assessment is over?"

Fu Siling stopped, turned his head and glanced at him, and then said with a smile but a smile: "An Xia is smart, you are stupid."

!!!

Without this, it was a personal attack.

What I want to say is right.

An Xia is really smart.

She should know that there is no result in the assessment.

The assessment is still going on, and the 60 fighters still need to continue to search for the wolf pack, find the wolf king, and risk their lives to take pictures.

An Xia led the soldiers stepping on the thin moonlight towards the place where the wolves were frequent.

At one o'clock in the morning, find the wolves.

Ten people lay on the upper \*\*\*\* of a barren hill where only low, thorny shrubs grow, their eyes fixed on the wolves sitting, standing, or lying down.

"...Seventeen, eighteen...Twenty-one! So many! Surely the Wolf King must be inside!" After number 39 was counted, his eyes flashed with excitement.

Before departure, Anxia said that since the solitary group had appeared nearby, they had been following them, and finally tried to issue a wolf howling, indicating that the wolf group might not be far away.

The place where Instructor Fu and the others hide is also the place where the wolves haunt.

really!

They found it.

For a while, the soldiers looked at An Xia's eyes even more admiration.

As instructor Qiao said, they followed An Xia and lay down to win!

"With so many wolves, which one is the wolf king?" asked An Xia on the 62nd, and he was lying next to An Xia, making it easy to ask.

An Xia whispered: "Look for a high place. The wolf king is the king of the wolves and will always stand on the high place. Which wolf stands on the high place is the wolf king."

"The lone wolf we anesthetized before will not be the wolf king." On the left, Captain No. 7 whispered, "I have read a book about wolf habits before. I mentioned that the head wolf will definitely be at the forefront. , Found the prey clinging tightly."

"The lone wolf that was brought down by us is a bit like."

An Xia shook his head, "No, it doesn't have the ability to become a wolf king. However, it has the potential to become a wolf king."

## Chapter 763: Who wins and who loses?

no!

That's good.

No more questions on the 7th, I believe An Xia's answer very much.

Where is the wolf king?

Behind him came the sound of small footsteps, it was Miao Hai.

Lie down and ask softly, "Anxia, at eleven o'clock, do you look like a wolf king."

11 o'clock direction?

An Xiashun looked over, her position was not so good to see the direction of eleven o'clock clearly.

"Is there a wolf in the direction of 11 o'clock? Why didn't I see it." No. 39 was about to stretch her neck to see, but An Xia pulled it off.

"Be honest." An Xia warned him in a low voice, and said to Miao Hai: "Go, go to the position you just observed."

The two quickly retreated and came to the position where Miao Hai had been lying on their stomachs.

Here, you can clearly see the eleven o'clock direction.

There, protruding from the Gobi ground, on top of a rock obliquely flying, stood an imposing wolf.

The body is huge, bigger than the following activities!

It stood motionless, silently guarding its wolves.

"It's the wolf king." An Xia squinted his eyes, "now is the most active time for them, and it shouldn't pass. Let's take a break and sleep before talking."

"Will it be attacked by wolves?" Miao Hai was a little worried.

An Xia said: "No, there are she-wolves and wolf cubs inside. They will not attack actively. Unless we let them feel threatened, we will attack."

"Keep their voices and movements down, and don't snore."

This is, she has done it before.

Have experience, not afraid.

Miao Hai has no experience, and he feels a little unsure in his heart.

But seeing An Xia calmly, well, he followed An Xia.

"Resting? Not afraid of being bitten by a wolf...well..."

No. 95 hadn't finished speaking, he was covered by No. 75, "Speak down, keep quiet, haven't you heard An Xia say you want to keep it quiet?"

"Hmm!!" I know, let go!

No. 75 only then let go.

The other fighters had the same reaction as No. 95.

sleep?

Sleeping on the wolf's territory, behaved, they really haven't done it.

Can it be done?

"It should be possible." No. 21 nodded, "An Xia said yes!"

Then, do you want to rest?

Sleeping?

Miao Hai arranged for the combatants to put on guard, "Start with me on the 7th, and you two start in pairs, each for one hour. On the 95th and Anxia the last group."

Line up to watch from small to large according to the code names.

I have been tired for a day, and my tense energy has slackened down, almost sleeping in seconds.

Two hours later, the two changed guards in the third hour, woke up yawning, and Qingshen took over the post.

"Nothing, it's still down."

"Thanks for your hard work!"

The two sides briefly asked and exchanged each other.

The other four groups of fighters also rested.

After looking for one day and one night, if you don't rest, the next day will surely be spiritless.

When it was time to rest, he was obviously tired while holding a gun, but his brain was so messy that he couldn't fall asleep.

The two fighters on guard stood back to back, chatting in a low voice.

"Obviously, I heard the howling of wolves, but there was no running over. Did we go in the wrong direction?" The soldier facing south whispered, "I didn't find the wolves tonight. It might be a bit difficult to find the wolves after dawn."

The combatant facing north said, "I don't know if the other four groups have been found. The two groups, An Xia and Ye Youyin, are most likely to find them first."

"In the final analysis, we still don't have enough experience in survival in the Gobi Desert. Of the ten people, none of them have been to the Gobi Desert. With zero experience, I'm afraid we can't find wolves."

It's not to belittle yourself, but, it's true.

#### **Chapter 764: Choking you, do you still need to pick a day?**

The fighters facing south thought for a while and said, "Ye Youyin and their second group, I don't think they can beat Anxia and their old group. With Anxia, she will definitely win."

"It's not necessarily true. Ye Youyin is also very good, and the third captain of their team is also very strong." The fighter facing north yawned and continued: "Before setting off, I think Ye Youyin is holding An Xia. Determined."

He happened to see it and was shocked by Ye Youyin's eyes.

He usually looks at Ye Youyin who speaks gentle, delicate and educated, but the gloomy look in his eyes during the day makes him feel excited.

I didn't talk to other fighters. I was afraid that everyone would not believe it.

Don't let the fighters misunderstand themselves when they say bad things about the female fighters.

The south facing fighter smiled, "Aren't we also determined to win. As a result, it's not nothing."

If you are determined and not capable, it is in vain.

Speaking of the combatants facing north, they were speechless, opened their mouths, hesitating to say whether they saw Ye Youyin's eyes during the day, and then swallowed the words to their lips.

Just now, the soldier facing south said: "Stop talking, stand guard."

"Okay." He swallowed it as a permanent secret and never mentioned it again.

The object of the discussion between the two, An Xia was already asleep, but Ye Youyin was not asleep.

Not only did he not sleep, but he moved carefully.

They found the wolves!

"What are you doing!"

Captain No. 2 grabbed Ye Youyin who wanted to be pointed, and after a few rounds of getting along, Captain No. 2 also knew that Ye Youyin was a \*\*\*\* who likes to be pointed.

Well, good things come to the fore, bad things pretend to be dead.

Ye Youyin was pulled and pressed his mouth unhappy and said, "What else can I do, look for the wolf king!"

"Be sober! Can we find the Wolf King here?" Captain No. 2 was also very unhappy. Seeing through her essence, he was not as polite as before.

Just relying on her good deeds to pretend to be dead, the second captain is not pleased.

Just she, still want to compare with An Xia who protects the players everywhere?

shameless!

Ye Youyin, who has been targeted continuously, sinks, "Captain, have you taken the wrong medicine tonight? You have opinions about what I said and what I did!"

"You like to think about other people's problems, can you change it?" Captain No. 2 choked back, "I misunderstood An Xia before, haven't you learned your lesson?"

He actually asked An Xia in front of her?

Means, she is not as good as An Xia?

The eyes were cold, and even the voice was colder than before, "Captain, you need to calm down. I have no other meaning, just want to see if I can find the Wolf King!"

"I don't know why you mentioned An Xia suddenly, and I don't understand what you want to say. My idea is very simple. Before An Xia comes, we will find the Wolf King and complete the assessment."

"I think you don't want to lose to Anxia again! Losing once means that we are far away from becoming a special fighter!"

"I can say it all, I can do whatever you want. I just want to win, take our team and win!"

Take our team to win?

The second captain wanted to laugh, "Take our team to win? Are you?"

"Don't we lose?"

"Did you lead us to win?"

"Sorry, I said the wrong thing, it's you and the former Captain No. 3." Annoyance flashed in Ye Youyin's eyes.

That's hilarious!

If they won, wouldn't she have any credit for it?

When they offered to take a break, she stopped them and told them that they were not eligible to take a break until they found the wolves.

If she hadn't stopped them in time, they would have fallen asleep, how could they have found the wolves.

**Chapter 765: Make him happy**

When it was not a time of arguing, Ye Youyin suppressed his anger and said: "Captain, I don't know what I did to make you misunderstand. I'm sorry first."

"I want to win, and I am a little anxious. Now, please let go of your prejudice against me, find out the wolf king together, and complete this assessment."

If she can, she wants to find the wolf king alone.

Unfortunately, wolves are a collective life, and she doesn't know how many wolves are in front of her, so she dare not act rashly.

She didn't want to be killed by a wolf.

The second captain apologized when she saw her, but did not target it again.

There is something she said correctly.

If they lose this time, they will be farther away from becoming a special fighter.

To win, he definitely wants to win.

Captain No. 3 walked over cautiously and whispered: "Go, change place."

"Change the place?" Ye Youyin had an opinion again, "Why, it was hard to find, where to change?"

I knew she didn't understand it.

Captain No. 3 still patiently explained, "We are not high enough here, and the wolves are right in front. Once the wolves are alarmed, they will attack us."

"Do you want to be bitten to death?"

The previous one is far less effective than the last one.

Ye Youyin didn't want to be bitten to death!

Then change place.

An Xia was pushed awake.

It was the 21st who awakened her.

"An Xia, wake up." Before his hand touched An Xia, An Xia's wrist was suddenly caught.

The strength was so great that No. 21 almost made the sound of pain.

"It's me, No. 21." It hurts, and I have to press my throat to speak, but my voice is a little distorted.

An Xia let go, her eyes were clear, she didn't look like someone who had just woke up.

"What's the situation?" she asked, her voice slightly loose.

On the 21st, said, "There is a situation, just now I saw another group of fighters touched it."

"Huh?" An Xia got up, "Where do you see it?"

"Below, they are below." No. 21 pointed to the bottom, An Xia quickly poked his head out and glanced down.

It really is!

"They didn't dare to alarm the wolves. They are going to withdraw right now."

An Xia looked at it for a while and said, "It's not withdrawing, they are also looking for heights."

"Then they might touch our side, what should I do? Do you want to touch the Wolf King now?" No.21 was a little anxious.

They have been guarding for almost three hours and will arrive tomorrow morning, but they can't be preempted by other groups of fighters!

An Xia looked around, "They won't come, they will go north."

Point to the high point in the north, "There is also a high place, and you can also find the Wolf King."

The point is not this!

Road 21: "Now they are here too, shall we continue to wait? Let's go, I'm so worried that they will find the Wolf King ahead of time."

"It's okay to find the Wolf King. We find it before them." An Xia has no worries. The Wolf King has been found. The most important thing next is to take a photo with the Wolf King.

The content of the assessment by Fu Siling really became more powerful every time, and every time more challenging.

The more challenging it is, the more it is necessary for the combatants to display their super comprehensive strength. For this reason, it is also easier for the above to figure out the strength of the combatants in this assessment and at which level.

Actually, she can't win.

After all, she has a wealth of actual combat experience among the combatants present.

But so what.

She didn't feel any guilt.

Her own strength is improved step by step by herself, without the help of outsiders, so it is her goal to win every assessment.

It's not bad to hand in a good grade and make the man you like happy.

Of course, she is also happy.

If Xia Houyu knew that An Xia had such a thought, he was afraid that he would have a myocardial infarction.

**Chapter 766: Be modest and modest**

Miao Hai and they all woke up.

Moved to An Xia's side and looked at her one by one.

An Xia rubbed her forehead and said, "Joining the Xia Guo team, I didn't learn anything else, but I learned a good temper!"

It is impossible to explain so much if you change to the previous self!

What she said, just do it right below.

Questions can be mentioned, but the key points must be mentioned.

What she asked on the 21st was obviously not the point in her eyes.

Still suppressing the impatience in my heart, I heard Miao Hai whisper: "An Xia has its own arrangements. We listen to her and we can't be wrong."

Already I saw An Xia was a little impatient.

Hurry up and smooth the hair.

The tempered An Xia became cold, he was a little scared.

An Xia glanced at Miao Hai and chose him as the captain, which was a very correct decision.

"We have stayed here for nearly three hours. As long as we are not stupid, we can judge that we have found the Wolf King and stay here."

An Xia still explained.

The team is harmonious, she still knows.

I am the only one who respects this set. If you don't do it, something will happen.

"As for the following group, they paused for a while and then re-transferred, it is even more powerful evidence for us to find the Wolf King in advance. So, don't worry about who finds the Wolf King first, we find it first!"

"Next, it's up to whoever takes pictures with the Wolf King first."

After the explanation, No. 21 suddenly realized.

I was embarrassed to scratch the helmet, "Why am I so stupid, I didn't expect it at all."

The warriors drew a special look in their eyes.

It is suspected that No. 21 is in the connotation of everyone.

"I'll tell you one more thing." An Xia took out the loaded K-series rifle, "Here, live ammunition."

Don't look at Fu Siling's disrespectful disrespect, but from the live ammunition he prepared, it can be seen that he is actually as careful as a hair.

Miao Hai understood what An Xia wanted to say, and took the initiative to say clearly, "I understand, if you disturb the wolves, you can use live ammunition."

The captain is the captain, very good.

An Xia cast a glance of approval.

Miao Hai, who was silently praised, had the excitement of being recognized by the boss.

"Well, the captain is right." An Xia held the gun and asked, "Which one of you has a good marksmanship? Or else, take it?"

Was collectively shook his head and refused.

"No, no, mine is average."

"Ah, I'm average too."

"No, no, I have no confidence."

"An Xia, you should hold it."

"Yes, yes, you take An Xia, and we feel at ease if you hold it."

The big guys don't take guns, they are even less qualified to take them!

Speaking of marksmanship, Anxia ranked second. Who would dare to rank first?

Pistols, rifles, everything is good, and I have won instructor Fu!

An Xia really wants to hand over this K series, and he has to give the team members a chance to show it.

If resources are distributed equally, the team can cooperate better.

"No. 62, you take the gun." An Xia didn't give the fighters a chance to dodge, and directly named, "I've seen your marksmanship, it's quite good."

No. 62: "..."

Why did you order him?

Point to No. 18, "No, no, No. 95's marksmanship is better than mine."

No. 18 shook his head, "You are better than me."

They are all humble.

An Xia has a headache.

One of the biggest characteristics of the people of Xia Country: modesty and modesty

Modest and modest until sometimes she really doesn't know whether they are really modest or modest, and then nodded and accepted.

Anyway, she was never modest or modest.

Yes, yes.

No, it's not.

Analyzing the two directly, "No. 95 marksmanship is okay, but his short-range shooting is slightly weaker, and his pistol shooting is also weak. On the 18th, your long-range and short-range shooting are excellent, and the pistol shooting is not as good as No. 95."

"Once an accident happens this time, it will be a long-range shooting. The K series is most suitable for you."

### **Chapter 767: She deserves to be defended**

Having been in the top position for many years, Anxia has long known how to efficiently tap the potential of the players around him.

She is willing to give Jean a chance to let the team members prove themselves.

Like now.

She recognized No. 18's marksmanship, and naturally asked No. 18 to express herself.

And she, there are more opportunities for performance, and she doesn't need to shake hands completely, and she doesn't give them a chance to get ahead.

This is also why An Xia is convincing, and Ye Youyin is also capable, and no one recognizes her in the end.

Ye You's voice is too far apart in the pattern of the superior.

The combatants were all surprised by An Xia's surprise.

this.....

The gun was carried by An Xia, and the parts were taken back by herself. In the end, she actually gave up the results?

"An Xia, you..." Miao Hai still wanted to persuade, An Xia raised his hand indifferently to stop him.

And said: "Don't look at it with such a look, I am not a Virgin, don't think of me too well."

"Now, we are a team, and we have a team spirit assessment. I handed the gun to the 18th to stand on top of the team and consider it."

"Group combat and mutual cooperation can increase the confidence of winning."

An Xia didn't care what he said, what would happen to the soldiers.

That's what she thinks, there is no need to pretend to be noble.

It is better to speak openly from the beginning, and know each other's heart.

Miao Hai tightened the corners of his mouth.

He is not as good as An Xia.

Can't make generous concessions.

The eyes of the other fighters looking at An Xia changed again.

An Xia's position was elevated again in their hearts.

Outstanding ability, willing to help others, magnanimous, disdain for conspiracy, what you say is what you do, consistent words and deeds have a clear, noble character that can not be tarnished!

admirable.

In front of An Xia, Ye Youyin really... doesn't even deserve to carry shoes!

To be honest, An Xia didn't care what the soldiers were thinking, and didn't care what impression he left on them.

Throwing the rifle into the hand of No. 18, who was sluggish, said indifferently: "Hold it, don't be humble. This set, don't appear in the assessment at the end. Only by working hard to give play to your strengths can you get better results."

"Also, let me just say that you don't have to worry about me, just like I won't worry about you. To win, I definitely want to win, but I won't step on your shoulders to win."

"After this assessment is over, many of the next assessments will be single-person assessments. I will go all out and will not be merciful."

"Remember, the elimination system assessment is originally a competition in which who wins, and competition is cruel. This is also to hone your state of mind, see cruelty, and know how to go against the current."

After speaking in one mouthful, An Xia said it was dry.

More and more I find that I have the potential to become an excellent political director!

Awesome!

After going to the Powolf Team, she can work part-time!

No. 18 has clenched the K series, and said: "Okay! I understand!"

"What about you? Do you understand?" Ann Political Director Xia asked the other fighters.

"clear!"

Answered in unison.

Been taught a lesson!

Following An Xia, there are so many things to learn.

It is like a bright light in the dark, which can point the direction and give warmth.

The original No. 7 team members now understand why the No. 1 team members defend Anxia so much. Because, she deserves to be maintained.

No. 95 was also taught, Shen said: "I will strengthen my long-range shooting practice in the future! Never let it become my shortcoming."

Surprisingly, An Xia didn't get along with him much, but was very clear about his situation.

After speaking, he was very curious and asked, "You didn't have a team with me in the previous shooting competition, so how did you know my shortcomings?"

### **Chapter 768: Everyone has his strong and weak points**

Everyone is curious.

An Xia thought for a few seconds before saying, "Observe."

It is also related to the position in the previous life.

Habitually master the strengths and weaknesses of all employees.

In fact, the most powerful is the eliminated No. 6, his marksmanship is quite powerful, but unfortunately, his stamina is weak and he was eliminated in the second round.

In just two words, it is easy to say but difficult to do.

Miao Hai thoughtfully, trying to digest the amount of information given by An Xia.

The amount is a little big, he has to think about it.

observe?

Could An Xia observe all the personnel?

To him too?

So, choose him as the captain every time?

Do you recognize him as competent for the position?

Continue to think further down, is it possible to recognize him?

After thinking a lot for a while, Miao Hai's expression was even more serious than before.

Well, he has to be serious.

Can't live up to An Xia's trust in him!

Having said that, An Xia only felt more tired than fighting for three days and three nights.

Go to sleep again.

"It's gone, it's gone, who is on guard? Please go on, thank you."

After speaking, he yawned, hugged the Type 9 rifle, closed his eyes and fell asleep.

That calmness, the combatants present are ashamed of it.

Obviously they have joined the team more than her, why are they inferior to her in every way?

Can't figure it out.

I really can't figure it out.

I am more optimistic about things I can't figure out, like No. 39, and whispered: "It's like when we used to study, the first grader always sleeps in get out of class, and is more active than anyone else to play after class. As long as the exam, the first is safe!"

"People like this can be collectively called 'genius'."

He looked away anyway.

Don't compare with Ansha.

Can't compare!

Know what you cannot do, do less.

Be yourself, try to dig out your own potential, and work hard for your goals!

After drinking several bowls of chicken soup, which is not the soul chicken soup, the combatants are more or less affected, and there is no way to be like An Xia.

Or digestion.

An Xia slept soundly.

On the other hand, she believes in a temporary team.

Will not have dark thoughts, use suspicious eyes to guess whether they are malicious to themselves.

If so, welcome.

Can't kill him!

Miao Hai's team, because of Anxia, became the most united team among the five groups.

Ye Youyin and the others are the least united.

It turned out that the fighters held the same idea of the group and together won this assessment.

Who knows, with Ye Youyin's exquisite egoism, it's like a mouse shit, and a pot of good soup is broken.

A good ten-man squad, split into two teams internally.

Ye Youyin was very dissatisfied with the conservativeness of Captain No. 2, Liu Mei said coldly, "Wait? Do you know how many chances you missed just because of one word?"

"Wolf King is right in front of you, do you still need to wait? After taking the picture, immediately withdraw!"

At that time, she was really blind. Seeing that he was second only to Miao Hai, she thought he was a reliable captain!

Who knows, so useless!

Captain No. 2 is no longer afraid to offend Ye Youyin.

The relationship has been broken, and there is no need to fix it.

"Yes, I can only wait! I still said that, don't want to kill me, wait."

So many wolves, she wants to touch them now?

Is your brain flooded?

Think you are made of iron?

Can bear the wolf's bite force?

Ye Youyin was so angry that Captain No. 2 was so pretty and gloomy that he couldn't hold back his grace at all.

"I don't want to wait, I only know that the opportunity is right in front of my eyes, and I must seize it!"  
With a cold glance at Captain 2, she asked all the combatants, "Who wants to act now?"

"The vote has been decided. Those who want to wait will wait with Captain No. 2, but those who don't want to wait..."

After a short pause, his eyes turned to the original Captain No. 3, "Captain No. 3, you don't want to wait. Wait any longer, An Xia should be here."

It's best to be teamed up by Captain No. 3, and she will follow suit.

### **Chapter 769: Why is it so disgusting**

At the critical moment, Ye Youyin once again gave them the responsibility.

This is also how Mrs. Ye taught well.

Ye Youyin, who grew up next to the old lady, was not his parents but the old lady who admired him the most in the family.

The old lady once said to her: "I'm not sure, but I have to do things, we must not do it alone."

At that time, I still didn't understand, and asked the old lady ignorantly, "Why? You can put it aside, and wait until you are sure to finish it."

The old lady laughed.

Touching her head, she said kindly: "Stupid granddaughter, people like us don't need to do everything personally. The things that must be done are those that are of great benefit to us and are equally beneficial to others. We Not sure to complete it, what about others?"

"Are they sure to do it? They are possible, but we don't. You say, what should we do?"

"There is only one chance. If you miss it, you won't come again. Tell your grandma, what are you going to do?"

She thought for a while, and then recalled what grandma said just now. Finally, she was not sure: "You don't need to do it yourself. You mean, we can let others do it, and I just need to sit back and harvest the results?"

"do you mean this?"

It was praised by the old lady.

"Yes, you answered very correctly. I am not sure, but what must be done, then we will take a few pads and go with a few early birds."

"You can coax these people and make them think that you really can't do without them. When the thing is done, you have the most credit, because it is your proposal and others follow and do it."

"If the matter is not completed, our interests will be lost, but we don't need to take responsibility."

"You Yin, grandma wants to tell you, don't take responsibility casually, because we will never know what the consequences are."

"When the road is hard to walk, push others to overcome the obstacles and get out of the road. When we walk again, it will be much smoother, and it will save ourselves a lot of time."

Later, she did the same.

As the old lady said, she got what she wanted without taking any responsibility.

dd is risk-free, has a good reputation, gets everything done with three birds with one stone.

Tonight, she did the same.

Captain No. 3 is also worried that Anxia will win.

He is a bit more aggressive than the No. 2 captain, and now he is acting, which is definitely what he thinks.

Sure enough, Captain No. 3 was silent for a while, and said, "Vote."

The wolves are terrible, but what makes him even more afraid is that this round of assessment once again lost to An Xia.

As a fighter, you must have the ambition to be the first!

He also wants to be the first!

Captain No. 2 was not surprised by the choice of Captain No. 3, and said indifferently: "Then vote, I hope you won't regret it."

"There is no turning back when you open the bow, there is nothing to regret." Ye Youyin answered first, so as not to temporarily regret the third team captain.

Whoever waits for the vote will go, and the final result will come out, which is exactly five to five.

Captain No. 2 said: "I wish you all the best."

"I'm sorry, accept." Captain No. 3 said politely, then turned his head and asked Ye Youyin, "What's the next arrangement?"

What?

How to arrange?

What is she doing?

Ye Youyin smiled, "You are the captain, you make arrangements, and I unconditionally obey."

Captain No. 2 sneered when he heard it.

Look, here again.

Said it will always sound nice.

Do it, not going ahead.

"Whoever proposes first, who will arrange it." Captain No. 2 spoke again, speaking for the fighters who chose to go out, "No. 3, you want to go out with all your heart, presumably there must have been arrangements long ago."

## **Chapter 770: Start tearing**

No. 2 is really not a stumbling block, but just wants the fighters who are in a hurry to think again.

Don't be moved by Ye Youyin's few words.

Locking Ye Youyin's eyes, the second team leader said seriously, "Well, let us listen to it together. While we are all here, maybe we can improve your arrangement together."

Captain No. 3 seconded, "That's right, No. 3, what are your arrangements?"

No. 3 is Ye Youyin.

Singing a song and sandwiching Ye Youyin, Ye Youyin's expression gradually stiffened.

arrange?

What arrangements can she have.

Suppressing his dissatisfaction, he looked at No. 3 with a little surprise, "You are the captain, are you acting now, is it possible that there is no arrangement? I just suggested that Gu Xiu should rely on the captain."

"The captain is the boss, I obey the captain."

Speaking of arrangements, Ye Youyin did not.

Afterwards, she smiled and added, "If the captain doesn't have any arrangements, it's better to listen to the fighters' ideas? Brainstorming, maybe you will be rewarded."

All she can think of is how to use them.

Ye Youyin's shortcomings were immediately exposed if he really wanted to talk about the combat layout.

Captain No. 2 chuckled.

Cast a meaningful look at the other three fighters who wanted to act immediately, and said indifferently: "Sorry, I don't have any good arrangements, let me listen to what you guys say."

In this way, this team also stopped.

And Bo Lirong of the command center was talking with Lei Hongtao, "All five groups suspend their advancement, and the original No. 1 and No. 2 groups stop in the same area."

"The other three groups each stop in three areas. In your opinion, which group of the five groups has found the wolf pack?"

Bo Lirong had an answer long ago, but he wanted to confirm it again.

Lei Hongtao opened the satellite map, zoomed in, stayed in the area where Anxia stopped, and replied, "The original Team One led by the 13th has the greatest possibility of finding the wolf pack."

"This group first, followed by the original No. 2 group. This group first stayed for about five minutes, then turned away, and has stayed for 21 minutes."

"It can be seen that the wolves are between the original No. 1 and No. 2 groups."

"The two groups have not acted for the time being. They should wait until dawn before acting."

Zhao Zhengfei was also listening. Hearing the words, he solemnly said: "The wolves have been found, and the safety of the combatants must also be guaranteed. Don't be careless."

"Understand!" Lei Hongtao replied, "I have notified Fu Siling to go to support. With them, the safety of all combatants will be guaranteed."

Zhao Zhengfei has always admired Fu Siling, and said: "Although there is an escort, you should not be careless."

"clear!"

Lei Hongtao himself told Fu Siling the same way.

At the last critical time, no one dared to take it lightly.

Of course, after half an hour, Ye Youyin and his group moved.

At five o'clock in the morning, the sky will wake up, and the unturned night is a clear deep indigo blue, and the cold stars are shining, extremely quiet.

The cold morning breeze blowing by "huhu" pressed the bushes, and Ye Youyin's cat's waist was frozen to the stiff limbs, and he followed closely behind Captain No. 3.

Their arrangement is to stick to the bottom of the mountain, pass through the side of the sleeping wolf pack, and finally go around behind the wolf king to take a complete picture.

No. 62 and No. 75 just woke up and exchanged positions with No. 23 and No. 39. The four of them could see the situation clearly.

Horrificed.

Quickly wake An Xia.

"Did they act?" An Xia sat up when she heard the sound, her brows and eyes were cold and cold, "It's almost dead!!"

Thinking that the wolves are asleep, can they sneak over?

They belong to the same canine family, how alert are domestic dogs, don't they know?
