Chapter 821: Each has its own ability to deceive people

An Xia is a specially recruited female fighter, Xia Hou Zhan will always keep an eye on it, for fear of the good seed that others will **** away.

Can't it be bull!

According to reliable internal sources.

In order to be able to keep An Xia, General Xia Hou also ordered their captain to lure.

Having said that, I don't know if An Xia joined them to break the wolf, whether the Mu team succeeded in seducing it.

After all, the Mu team is now in the top position.

Qi Xingsu suddenly had an urge to risk his death to ask Team Mu.

It was T6 Wu Yue from Xueyu who was talking to him. In the past few years, Wu Yue still has a delicate baby face. Look, he is not aggressive.

He squinted his eyes, leaned close to Qi Xingsu, and asked with a dumb voice, "Can you tell me if you can, how did you find An Xia?"

"What do you want to do?" Qi Xingsu looked wary.

At first glance, he knew that he was "have bad intentions".

The people in the snowy area want to poach An Xia.

All the brothers who broke the wolf, beware.

In the wee hours of the morning, while the sky was still dark, the Mu team ran in front of the brothers, deliberately instructing them one by one.

"As long as the brothers of the Snow Territory Brigade ask about An Xia, they will answer truthfully and falsely."

The deputy team Wei Ji explained to the side, "Do you know why you want to answer the truth or not?"
knowledge!

of course I know.

If you don't say anything when someone asks, you seem stingy and impolite.

The influence of picking, picking, soso, on the image of the brigade.

Have to say.

But it cannot be said to be too true or too false.

True or false is the best!

Seeing him so vigilant, Wu Yue smiled the softest and most innocent, "Why don't you want to do it, she is so powerful, I am just curious."

On the way, their Xia team deliberately walked in front of each of the Snow Territory brothers to inquire about An Xia from the Bro Wolf brothers on the road.

If he can't just ask about him and the blue bird, it will arouse the vigilance of the broken wolf brothers.

Never thought of it!

Bro Wolf brothers have been wary.

The captains of the two teams have never stopped secretly competing.

You have Zhang Liangji, and I have a wall ladder.

When you come and I meet in secret, there is no gap, but even more sympathy.

I know that the other person is a good friend.

Innocent than a smiling face, Qi Xingsu can also be ranked.

Seeing this, he pursed his mouth and smiled shyly, and said embarrassedly: "I'm sorry, I really don't know this."

"I heard from the deputy team before that it was our captain who accidentally met. Seeing that An Xia is good, he recommended it to General Xia Hou."

If it's true or false, it's not a good idea to figure out which sentence is true and which sentence is false.

Unintentionally met?

It's unlikely.

But it is possible.

Their Jade Birds also accidentally met one summer when the team caught spies.

Only after the addition of Jade Bird.

Huh?

No way.

Wouldn't they already know the blue bird secretly and plan to counter the blue bird?

Wu Yue suddenly became alert.

I didn't ask any more, panting and saying, "That's a fate, let's go, let's go on, are you tired? The more you hold the stones, the heavier and harder you can eat."

The last sentence, kind words.

Can't eat it soon?

Then what are you doing suddenly?

Of course, I ran to King Q quickly and told him about his conjecture.

If you want to dig An Xia in the snowy area, you can also dig Blue Bird by Broken Wolf!

Two-way arrows, it depends on who is capable and can dig people up.

Qi Xingsu smiled when he saw him running by.

There is no shyness on his face, only one can see the truth.

He leaned over to An Xia.

An Xia was so hot that her face was flushed, but a light of excitement burst out of those cold black eyes.

Train with real special fighters, cool!

Chapter 822: Everyone has a little secret

Adrenaline soared all the way, and the whole person's mental state reached an unprecedented level.

A hundred kilometers forcibly marching is nothing, try another 100 kilometers?

Another hundred kilometers, that would be really fatal.

At the end, people crawled away.

"Tired?" Qi Xingsu asked in a low voice. This was the first time he took the initiative to speak to An Xia.

Ugh!

The psychological shadow is too big!

At this moment, even if he took the initiative to speak, his little heart was shaking.

An Xia Zao recognized him as a special agent who was in the car and was so shocked that he did not dare to ask questions.

I didn't know how to work with each other before, and I was very upset that I was questioned like a prisoner at the time.

This can't be done now.

It needs to be friendly.

Unity and friendship!

"It's not tired, it's okay." An Xia replied, holding the heavy stones in both hands and walking in the middle of the team.

An Xia, who had been exposed to the sun for more than a dozen consecutively in the Gobi Desert, broke off her right cheek, and her sweat was irritated and itchy and painful. She didn't even raise her hand to scratch it.

She was sunburned, as did other special fighters.

At present, the sunburn on the face is relatively mild.

Like Fu Siling, they often train and fight in the Gobi Desert.

Skin peeling on the face is common. The shoulders, arms, chest, and back are all large pieces of peeling.

An Xia really sees people who are peeling on the inner thighs.

Being stimulated by sweat again, that's a cool one!

Tian Ling Gai must be so cool to fly.

In front of her, she was really not tired.

Qi Xingsu waited for her to finish, but got stuck again and didn't know what to say.

What are you talking about?

Forget it, don't talk awkwardly.

"Uh, then you go slowly, I, I... I drink."

Not thirsty, just find an excuse to leave quickly.

Help, boss!

He works hard to listen to you, get in touch with An Xia, and learn more about her.

But he really didn't know what to say.

Ying Que saw his appearance and sighed, "Bring your breath."

"You hurt me, I can't talk to An Xia." Qi Xingsu walked hard, like a blown seal, simple and cute.

"An Xia's aura is strong and she is still a woman, I, I, I... I just don't know how to talk to girls."

At the end, Qi Xingsu's head was buried lower.

Ying Que just remembered that at the time, Wei Ji asked the soldiers why he wanted to join the team.

Other brothers said that I just like the team, I just like to challenge myself.

When it was Qi Xingsu's turn, he said, "I heard that there are no girls in the team, so I came here."

Everyone was stunned.

What?

What do you mean?

Qi Xingsu scratched his head, and the more he spoke, the more embarrassed, and the more his face became redder, "I can't get along with girls, and I don't dare to talk to them. I, I... I will go into the team."

"Primary school, junior high school intensive test experimental class, there are relatively few girls in the experimental class. High school science, university and my war school..."

There is no big ambition, it is purely because he didn't dare to get along with the girl before joining the team.

This reason is also quite strange.

Ying Que wanted to pat him on the shoulder as a sign of comfort.

I just wanted to hug the stone with one hand, oh oh!

It was so heavy that he almost missed his toes.

There is no way to pick up the stone with one hand, Ying Que had to use his mouth to relieve himself, "It's hard for you, it's okay, the team is genderless, you will treat An Xia as a brother in the future, don't treat her as a woman."

"..." Listening, it seemed like a way, Qi Xingsu nodded hard, "I will try, try hard."

"Come on, I believe you can! By the way, the T6 in the snowy area just now asked you what."

"He asked me how to find An Xia, and I lied to him."

Chapter 823: Surprise and excitement

Ying Que raised his eyebrows, "Yes, I know that I lied to him. Yes, I have to lie to them. I was running on just now and they asked me."

"Hey, don't be afraid." Qi Xingsu glanced at their captain, "Team Mu has a countermeasure, so beware."

Not only beware, but also let them deliberately release the signal that they also want to pry the corner.

The road of forcibly marching is too tired, I need to find something to play around.

An Xia also wanted to find something to play with.

To Mu Chenyuan: "I'll talk to Blue Bird later, to scare Xia Jinyuan."

Unlike others who were shouting "Xia Team Xia Team", An Xia's name and surname were very natural.

She even shouted Xia Houyu's first name and last name.

"We can ask the blue bird to come to the team to guide." Mu Chenyuan had such a plan, and now he has Anxia's help.

An Xia curled her lips, "One year? Is it enough?"

One year, enough!

"Come on." Mu Chenyuan shouted for her, with a shallow smile in his cold eyes, although he was dyed with the snow that lasted for years, the pupils were a little bit soft and deep in the depths.

Ahead, Xia Jinyuan just finished listening to Wu Yue's report.

He lifted his eyebrows, and smiled like thin lips, "Let's see who can grab someone first."

"They really dare to grab it! Can't it, the blue birds are the trump cards in our team, how can it be taken."

"The team membership can't be taken away, but we can still take people over to guide us." Xia Jinyuan can also guess Powolf's plan, just as Powolf can guess his plan.

It's exciting.

The evenly matched contest made the entire joint training full of surprises.

The biggest surprise was An Xia.

He deliberately arranged the 100-kilometer march until the night of her arrival, just to know if her physical fitness and perseverance are okay.

She has been walking for ten hours, she has no discomfort, the pace is relaxed, and she is still sighing, without the slightest loss of strength.

There are still ten hours!

Moreover, walking for another three hours to leave the Gobi Desert and enter the high altitude is the biggest test.

I hope she can pass.

There are also a group of people who are also waiting.

Fu Siling carried the ice lollies he made by the cooking class towards Lei Hongtao, who was walking with his hands on the training ground.

I saw him stop in front of the obstacle of the high wall, beat the high wall lightly with his fist, and looked up. From his side, he could see that he was worried.

"Lei Lian."

Approaching, handed over the homemade popsicles, "Come, eat, go and get steamed."

It happens to be a hot day, and the sun is so big that people can be cooked.

Lei Hongtao took it, "KaKa" took two bites and chewed, with a look of disgust, "What is it? It's so sweet."

"Don't dislike it, it's made of rock sugar and milk. The cooking class specially asked me to give it to you, saying that you have no appetite for lunch." Fu Siling likes sweets, and after two bites, he said: "It's not sweet, it's normal."

"Go, go, it's not sweet, I'm afraid of worms." He said that he was disgusted, and he was still eating honestly.

In a bad mood, he needs a bit of sweets to comfort himself.

"Something to worry about? Let me tell you?" Fu Siling quickly finished one, clapped his hands, took a run-up, and climbed up the high wall. "Here, An Xia has a lot of fun, and your worry has something to do with her? "

From afar, I saw him walking around the place An Xia had walked.

Needless to say, it must have something to do with Anxia.

Lei Hongtao thought it was a good idea to conceal his own thoughts.

Unexpectedly, Fu Siling saw through.

Without a good voice, he said, "Knowing what's on my mind, why didn't your kid ever think about solving it for me?"

"Lei Lian, you are making a fuss unreasonably. You can't solve your own problems, how can I solve it?"

Fu Siling sat on the high wall and patted the side, inviting Lei Hongtao to come up and sit together.

"Come, let's take a look at the beautiful scenery of our desert."

Chapter 824: Love and hate

Although Lei Hongtao usually blows his nose at Fu Siling and stares, he looks uncomfortable with him.

In fact, Fu Siling is highly valued.

Seeing Fu Siling climbed to the top and asked him to come over, Lei Hongtao cursed, "What's so beautiful, look every day, I know exactly where the stone here should have been."

"Only you, there is no seriousness all day long, I don't bother to look at you."

Dislike it very much.

Fu Siling was used to it, bowed his head and looked at his leader who still disliked him, "Then I sit on top and you stand below. Let us sit and talk, and it will work."

"It's a fart!" Lei Hongtao cursed smoothly again.

Scolding Fu Siling was really speechless, "You are so arrogant! I can see through your heart because of An Xia, what's the embarrassment?"

"Are you talking? I'll really leave if you don't."

Speaking, jumped down.

Lei Hongtao was not arrogant anymore. He glared at the boy who threatened him, "Move your **** away."

"Okay, please." Fu Siling moved to the side of the high wall and waited for his own proud leader to come up.

No way, the boss is no longer on, he respects the old and loves the young, giving way.

Lei Hongtao climbed up the high wall and sat down together. He looked at the end of the sky from afar, and he didn't even ask him a word, "What are you doing while sitting so high? You won't be afraid of catching a cold in the cold wind."

"You can pull it down! Are you pulling up in the middle of the night and blowing the cold wind for a few days? Can I still have a good chat? Stop talking, I'm off."

Fu Siling made the pose he wanted to go down again.

"An Xia can she eat and live?" Lei Hongtao said, and when he finished talking about disgust, it was time to talk about what he was pretending to be.

Ugh!

It feels uncomfortable to feel disappointed.

Worry about it, uncomfortable!

With a popsicle stick made from shrubs in his mouth, Fu Siling said lazily, "Who knows?"

"How could you not know! You have been with her for half a month!"

At a disagreement, he blew his beard and stared again.

Fu Siling is not afraid.

From the first day he joined the Cangwolf team, Lei Lian never gave him a good face.

I wish I could slap him with a small leather whip every day.

"Correct, it's only fifteen days, just half a month. You...Oh, you want to hit me when you are so embarrassed?"

Leaning forward, avoiding the slap Lei Hongtao called over.

"Be careful, I have to arrange for someone to take care of you when I fall down! It's not a cost-effective waste of manpower and material resources."

He was dismissed by Lei Hongtao for a reason.

I always like to owe in front of Lei Hongtao, can I not be beaten or scolded?

Lei Hongtao laughed angrily by him, and pointed his nose to curse, "If you fall down, I won't fall down! Sit down for me and stop making trouble."

Lei Hongtao felt better after being troubled by Fu Siling.

At least, the eyebrows are not locked.

"I really don't know." Fu Siling also closed his smiley face and said calmly: "Since she dares to respond, I think she should be able to keep up."

With Anxia's temperament, he would probably not respond to things that were uncertain.

Although he has an adventurous spirit, he has not yet taken his own life to take risks.

There should be no problem.

Lei Hongtao said: "A very good seedling, before it comes out completely, don't let anything happen."

"Then you are wrong." Fu Siling retorted.

"Because it is a good seedling, you have to practice. Just like when you trained me hard. I almost wanted to pour water on your bed in the middle of the night to vent my anger."

Lei Hongtao wanted to hit him again, "You kid! You never die!"

"Everyone will have a mentality of revenge. This is what I call reasonable emotional venting to ensure physical and mental health." Fu Siling has always been a lot of perversions, and he is not afraid of being beaten.

Chapter 825: People are better than people, so annoying

Sometimes Lei Hongtao has nothing to do with him.

This kid likes to owe him in front of him, but he is regular in front of others and never messes up.

The children who come out of the scholarly family are not far behind.

"An Xia is different from you," he said.

Fu Siling grinned and asked, "Why is it different? I am a fighter, and she is also a fighter. Stop it, don't you say that she is a female fighter, I am a male fighter."

"This set of men and women is not suitable for us to say, and it is even more disrespectful to An Xia and the others."

...

Lei Hongtao choked and said for a while:

"She is only eighteen years old and has been in the team for less than four months. She is inexperienced and suddenly joined the strong training of special fighters. Can this be achieved?"

In the final analysis, I am still worried that An Xia is young, lacks experience, suffers losses, and has accidents.

Fu Siling disagreed, "That's what you think, but An Xia doesn't think so."

"Also, do you think Xia Houzhan will not consider it? In addition, please face up to me, the intermediate special fighter, I am defeated by An Xia."

It was mentioned again that he was defeated by An Xia, and he was so open that Lei Hongtao laughed and said:

"What, do you feel honored to be defeated by An Xia? Is it worth mentioning again and again?"

Fu Siling spit out the popsicle stick in his mouth and grinned, "I have raised my scars time and time again, not to comfort you."

"Why not only don't you appreciate it, but also blame me."

"I tell you with the pain of my blood and sweat that An Xia doesn't need you to worry about. She is young, but powerful. The experience is not bad. When she caught the Wolf King, didn't you praise her for being stable?"

"Everyone is gone, you, don't worry about it."

"My heart is broken, that's not a member of our team."

It's okay not to say this sentence. When it comes to this sentence, Lei Hongtao is fully fired, "I said you, why didn't you think about keeping Anxia?"

"You want to keep her, do I still need to worry about it here?"

!!!

So, blame him for not keeping anyone?

Fu Siling understood, dare to love, the main concern of his arrogant leader was that he didn't leave anyone behind.

"I really don't have the ability, why don't you come forward? You can still talk to Xia Hou Zhan directly."

"This is not a matter of your mind, it is a knot in your heart. It is not me who untie the knot, but the general Xia Hou."

"I support you in finding the general Xia Hou and getting An Xia into our team. Such a good seed is rare for me!"

"Really, I'm very rare. Can it be done? It depends on you, Lei Lian! Xiong rise, show your true ability, and dig An Xia into our team!"

"If you don't dig her, I will despise you."

Fu Siling said in his mouth, but he thought in his heart: This person, you can't dig no matter how good you are, and you are destined to be looked down upon by him.

But...

It's okay to ask Lei Lian to try it.

Completely let him give up!

Tired Lei Hongtao didn't want to chat with Fu Siling anymore.

Other people's subordinates share their worries and problems for the leader.

And his subordinates will only **** him off!

Annoyed him!

If he can **** someone from Xia Hou Zhanjiang, will he still sigh here?

It's not because you can't get it!

If you can't grab someone, you look down on him.

Bastard!

Obviously it was intentional!

Without further ado, Lei Hongtao started beating people.

Fu Siling jumped off the high wall and left with a big laugh.

An Xia.

I can't come back.

The girl who said he was handsome in front of him left a legend in the Canglang team and left like the wind.

The wind blew the water, and the ripples were shallow.

fine.

Over time, the shallow ripples will calm down.

Chapter 826: What girlfriend says is right

Behind him, Lei Hongtao ran, cursing and chasing him.

Brothers passing by met, laughed, and said, "Lingshen, why have you provoke Mao Lei again."

"Lei Lian, do you need our help? We can help you the turtle in the urn, so you can catch it!"

"Ling Shen, you Lei Lian fights every day, this is the legendary fight is love, is cursing love?"

"Lei Lian, some people say you are flirting with Ling Shen."

Hahaha, hahaha...

The laughter fluctuated again, and Lei Hongtao, who was chasing after him, also laughed.

These brats!

Also teased him.

He laughed and scolded, "I'm full and I'm fine? How about an assault training tonight? A training session in the middle of the night?"

No, no, no.

Thanks for three consecutive times, quickly slip away.

Fu Siling, who was running away, stopped, stood far away, and laughed at the same time.

Look, without An Xia's figure, the brothers are still suffering and happy as before.

And he...

There is still a smile on his face, and the smile in his eyes has gradually disappeared.

Lei Lian was right. He spent the most time with An Xia.

Naturally, I have the most memories of her.

Perhaps, he remembered in his day dream, those cold black eyes, when he laughed, the smile was like red plum blossoms in the snow, and only she was dazzling in the ice and snow.

"Lingshen, help me pour water and wash my hair."

Qiao Jiquan was patted on the shoulder.

The base is short of water, and the water for shampooing and bathing needs to be stuck.

A basin of water, save a little bit, can wash the hair of two people.

The laughter gradually disappeared, and the base was the same as before.

The sun also began to drift westward, Anxia and the others were about to climb over the mountains.

Naturally, the stones in his hand can no longer be held.

It has to be thrown away.

An Xia was really reluctant to lose it.

As Xia Jinyuan said, it is a pity to lose the souvenirs from the Gobi Desert.

How about tying up the rucksack?

Her thought shocked the brothers of Xueyu and Broken Wolf.

"Don't, lose it, lose it, we're all lost."

"There is a stone, this one is not rare. It is our summer team who lied to you, he is the most deceptive. Isn't there a saying, a man's mouth, a deceitful ghost!"

"An Xia, our Mu team said that we can lose, lose, lose."

Mu Chenyuan hugged Anxia's stones and asked, "Like it?"

"Nor." An Xia thought for a while, wiped his sweat, "Holding for tens of kilometers, embracing feelings."

...

"Put it in my bag." Although Mu Chenyuan felt that An Xia's words of "holding affection" were open to question, he still followed An Xia's intention and took the stones.

When An Xia heard it, how could he let him recite for herself.

"No, not deep enough to need your help, lost, lost."

Too heavy, or lost.

"Really lost?" Mu Chenyuan confirmed.

He remembered that Team Xia had said that girls sometimes made confession.

What is clearly said to be okay is actually not possible. It requires multiple confirmations.

An Xia nodded, "Lost!"

With that said, he took the stone back again and threw it aside neatly.

The stone hit the ground and a small piece fell down.

Mu Chenyuan thought for a while, picked up the fallen pieces and handed them to An Xia, "Remembrance, smaller and easier to carry."

Kill two birds with one stone!

An Xia took it with a smile, "Smart."

For the first time, he marched 100 kilometers with Xia Guo's special combatants, and kept a small memorial. After returning to the imperial domain, I can recall the memories when I take it out.

After taking it and putting it in her pocket, An Xia seemed to think of something, and seemed to ask casually, "What gifts have been given out before."

Just ask, no other meaning.

Never thought, Mu Chenyuan thought back very seriously.

Chapter 827: It's so pitiful, I haven't given any gifts.

Every question An Xia asked, especially his personal question, Mu Chenyuan believed that he should be taken seriously and seriously.

Wrong response. s

After walking for at least five minutes, he said, "Very few. Some students gave it to their birthdays in their school days, mostly boys, but not girls."

"Later on, I went to the war school, and it was also a birthday gift between the fighters. However, boys usually go out to eat, and I think about it only three times."

"I have never joined the team after graduation."

Therefore, he can count all the five polite fingers he sent out.

The Bro Wolf brothers who were walking together all laughed.

Bro Wolf's brothers laughed.

Look, look!

Their Mu team is very different now.

Know how to make girls happy.

Wei Jihao said in his spare time: "I have testified and have known each other for many years. I have not received a gift from the Mu team. I have collected a lot of empty shell warheads, and he ordered us to pick them up on the ground."

"Also testified and never received a gift from the Mu team."

"When it comes to me, it seems that I received it, and I didn't! Team Mu, tomorrow is my birthday, or, give me a gift? It's really not good, I don't think it is too bad for the money!"

"So can I, so can I, my birthday next month, I don't dislike the money given by the Mu team!"

"Go and go, Team Mu, for my birthday today, would you like to give it now?"

All asked Mu Chenyuan for gifts.

An Xia thought carefully about her birthday.

Don't say, she really forgot her birthday.

The word birthday is very strange to her.

Now An Xia, when is his birthday?

...

Soon, An Xia was horrified to find that she didn't seem to know!

Xia Houyu handled all the materials for her, and then she signed the letter and finished the work.

Later, they asked her what birthday, can she keep it secret?

I can't say one thing: Guess?

Then there is really a problem.

No, you have to change the subject quickly.

An Xia joined the ridicule, "Team Mu, then your popularity is not very good, you don't even have a gift."

"No! There is no one who gives gifts! The popularity is too wrong, come on, Team Mu, send me gifts, and I will be your good friend in the future."

"Although I am very reserved, but for the Mu team, you can let go of your reservations and become a friend of the Mu team!"

"Team Mu, you can make the honorable me be your friend. There is only one way to give gifts! Gold bars, diamonds, money are all fine!"

Gags are all masters.

Said that he was joking about Mu Chenyuan, but in fact—

All help Mu Chenyuan to say good things.

no way.

There are too many singles in the team, one can solve one!

Maybe it can cause the butterfly effect?

Inadvertently, it's all solved!

An Xia listened with a relaxed smile in her eyes.

The atmosphere of Team Xia Guo is really good.

Mu Chenyuan waited for them to finish, and said indifferently: "Isn't the gift package I gave you enough? I still need to send it again? Do you dare to pick it up?"

!!!

Team Mu, will your conscience hurt?

They say good things to you everywhere, and you have to give big gifts.

snort!

Don't say it!

Bro Wolf's brother immediately withdrew.

The world is not worth it, alas.

Let An Xia and the Mu team speak for themselves.

When they dispersed, Mu Chenyuan glanced at An Xia deeply, and pretended to ask casually, "How about you? A lot?"

"Your question is great!" When asked, An Xia smiled, her eyes shining brightly, like the scorching sun, "not even once."

Because no one dared to accept her gift.

Only others gave her gifts, and they all refused.

It's so pitiful, fifty steps laugh one hundred steps, her popularity is even worse than Mu Chenyuan!
But I don't know why, I feel a little proud of it inexplicably.

Chapter 828: Expression of love

That is, no one gave any gifts out.

Everyone is happy.

Across the Gobi, a high mountain stands quietly in the pale blue night.

They need to enter high altitude.

Lost all the excess weight on his hands.

Can only throw away the weight.

With a weight of 30 kilograms and forcibly marching 100 kilometers, for ordinary combatants, the burden can be reduced, and even the stones in the backpack can be reduced.

But for special fighters, absolutely not.

Throwing away the temporarily stuffed stones in their hands is their last bottom line.

Seeing this, An Xia felt a loss after losing it for a while.

Next time, we must not lose it early.

No, no, it's not that you can't lose it early.

It should be determined not to lose any weight, including the weight in one's hands.

Ye Jian was the last batch to throw away the stones, palms, even when wearing tactical gloves, blisters were formed in the palms.

It's okay to grind out the blisters on the palm.

The real pain is the feet.

Even the special special fighters, at this time their feet are worn to the flesh and the socks are stuck together.

Ye Jian is the same.

After dropping the weight in her hand, she said to Xia Jinyuan: "I'll go to Xia Xia and ask."

I want to know how she is.

Mu Chenyuan has already asked.

"Are the feet okay?"

Asked very softly, without disturbing the other fighters.

An Xia with a relaxed expression carried a 30 kg rucksack, adjusted his breathing and answered, "No problem, I can finish the walk."

The uninterrupted forced march here means that there is not even a minute of rest.

As long as you have strength, as long as you can walk, you must grit your teeth to finish.

Never rest.

An Xia has long been used to it.

Moreover, she is more painful.

The bullet hits her arm, and she can take it on the spot without anesthesia, and she can keep her face unchanged.

The body has undergone certain alterations, and the soul has adapted to it early, even if she reappears on Xia Guo's An Xia, she can endure it.

Mu Chenyuan's eyes dimmed, "If you have any questions, please tell me at any time."

"There will be no problem." An Xia replied confidently. She has always been confident in herself.

He said: "Mu Chenyuan, you don't have to worry about my physical condition. I can come here, which means I know it in my heart. You just need to believe that I can do it."

How could he not believe her.

It's just that if I believe she can, I still feel sorry for her.

Mu Chenyuan, who was in love for the first time, was still groping forward.

He listened to An Xia again: "During training, we don't need to ask the other party if it is okay or whether it can persist. I will believe that no matter how difficult it is, you can solve it."

"If it is really impossible, we can promote together in private. When we are on the battlefield in the future, the tacit understanding and trust will be the same as you and me."

Except for Mu Chenyuan's identity as the man she admired, he would still be a teammate who would fight alongside her.

Life can be slapped and snarled and talked about love.

Back in training and on the battlefield, there is only one identity for each other: living and dying together, trusted teammates.

An Xia can do it herself, and hopes Mu Chenyuan can do it.

Mu Chenyuan was taught.

The girl he loves is so different.

"Understood!" He replied solemnly. From now on, he will never ask her if she can persist during training.

In fact, when he forced An Xia before, he never asked.

Asking now, after all, she is still a little worried about whether she can adapt.

Human heart, sometimes it's just such a contradiction.

Before she came, he firmly believed that An Xia had no problem in front of the special fighters of the Snow Territory Brigade and could keep up with the rhythm.

Now that An Xia is here, he is worried again.

In fact, they are all expressions of love.

Chapter 829: Powerful them

Mu Chenyuan didn't ask any more questions in An Xia's mind, which he thought were unnecessary.

The two walked side by side, and in the night, their figures were slightly bent.

Arrows that seem to have been stretched, once there is a problem in the front, both arrows must be sent together.

Oxygen at high altitudes became thinner, and Anxia also began to slow down.

Going down at her current speed, she can also walk 100 kilometers in 20 hours.

As for the injury on the foot, it's nothing.

Frayed, bleeding, and sticky socks are normal.

Compared with the injury of a broken arm and a foot, this small injury is negligible!

Ye Jian followed and came to An Xia.

Seeing this, Mu Chenyuan quietly stepped aside.

Intuition tells him that he should vacate his seat when the two girls are talking and chatting.

It seemed redundant to stay.

The door of emotional intelligence opened to Mu Chenyuan, and he grew up with an astonishing speed of consciousness.

Growing up to even Xia Jinyuan is ashamed of it!

"I also want to remind you not to disturb them, you...have already stepped away."

Mu Chenyuan said: "The girl speaks, I'll listen to it, it's not appropriate."

Look, I think too much.

"I wanted to have the consciousness like you back then, and I still need to fall in love for many years? I've gotten into a regular job early."

Mu Chenyuan comforted, "You are fine now, you already have the title of fiance. And I am still working hard."

Successfully comforted Xia Jinyuan.

"Then come on! I'll beg for a wedding drink at that time." There are not many friends around Xia Jinyuan.

Although the two families of Xia and Mu with similar family backgrounds are capitals, it is precisely because of the similar family backgrounds that the two families are more conscious of taking time off.

Joining, the Xia family is in Lu No. 1 District, and the Mu family is in Lu No. 2 District. Apart from work exchanges, they have never contacted privately.

This year, the old fathers of the two families have had more personal contacts.

Mu Chenyuan curled his lips and smiled, "Definitely."

And hope it is in the near future.

Ye Jian happened to ask An Xia if it was okay, and An Xia replied in the same way, "It's okay, there is no problem. Don't worry about physical strength, I can keep up."

"What about the feet?" Ye Jian finished asking, and lifted his sore leg. "I'm already worn out."

I was afraid that An Xia would be embarrassed to say it, so I said it first.

An Xia raised her eyebrows, "Mu Chenyuan asked me just now that I was educated by me. You, I want to think about how to educate you."

"..." Ye Jian was silent, eyebrows curled, and a smile was gurgling, "I think you are fine. There is no problem in walking another hundred kilometers."

An Xia is very satisfied, "Your answer is very good."

Speaking of Ye Jian's smile deepened.

Her friend, with bright eyes like a moon, clear and disdainful to cover up, told her with a relaxed expression that she can, please don't question it.

Then don't ask.

Not asking is the greatest respect for friends.

Over the mountains and mountains, up and down the mountains, after climbing, they went all the way down. Finally, at 11 o'clock in the evening, everyone completed the 100-kilometer forcible march.

No more, no less, just 20 hours.

I can finally rest.

The rest of the special fighters, with the help of their teammates, the moment when they lowered their backpacks, An Xia gasped at countless noises.

Because the backs of the fighters have long been worn to blood and blood by their backpacks.

The base physical fitness suit stuck to the back, and the blood that oozes stuck to the training suit. The pain was like peeling for a few seconds after the rucksack was taken off and rubbed on the back.

An Xia didn't need Mu Chenyuan's help.

Put down the rucksack by himself.

Standing behind her, Mu Chenyuan stretched out his hand to help: "..."

What to do, his girlfriend has not wanted him to take care of him, and he is a little flustered.

The brothers of the Polang and Xueyu teams also saw some, and everyone swallowed.

This girl is so fierce as a tiger.

Chapter 830: Smelly air

An Xia put down his rucksack, but did not immediately deal with the back injury.

The injuries that need to be dealt with right now are the feet.

Feet are important, and I have to walk tomorrow.

Turning around to find a place to sit, only then found Mu Chenyuan standing beside him.

An Xia still asked him puzzledly, "Is something? What do I need to do?"

I didn't think about other aspects at all.

In her subconscious mind, there is nothing to help take the rucksack together and reduce the burden.

Having experienced hell-style training in the imperial domain for many years, she has long been accustomed to solving all difficulties on her own.

No one will help her.

She would not help others either.

Everyone takes care of themselves and guards against other people's black hands behind their backs.

"No, come and sit here." Mu Chenyuan smiled and pointed to a flat stone, "stay on the spot tonight, you can have a good rest."

Forcibly marching 100 kilometers in 20 hours is a huge consumption of physical energy. You need to relax your body and get a good rest.

At the same time of intensive training, we also need to try our best to ensure good health.

After all, only with a strong physique can the battle be completed better.

An Xia sat down, and Mu Chenyuan also sat down immediately.

Both of them dealt with the injuries on their feet the first time.

Turning out the sanitary bag and preparing to take off his shoes, An Xia glanced at Mu Chenyuan.

After thinking for a while, I asked not quite sure, "Need help?"

It's hard to come by!

In addition to teaching the fighters to make corrections during training, An Xia hardly ever asked anyone if she needed her help in her life.

Mu Chenyuan was opening the hygiene kit, ready to wait for the medicines he needed to use.

Hearing this, Leng Yu's handsome face smiled, "I'll treat the wound for you."

...

This is not necessary.

Just about to refuse, he glanced inadvertently from the corner of his eyes and saw that the combatants were all helping each other to deal with the wounds.

Slowly said, "Yes, yes, right."

In fact, she can.

But seeing everyone doing this, she still went to the village to follow the customs.

She was injured in the past, and only Tianshu and the seven were able to deal with her wounds.

No one else is allowed to be close.

Even where she was injured, outsiders would not know.

The temporary camp tonight is the stone house where the herdsmen graze and rest. They are all cut into pieces of stone and white cement. It is also the first time the two teams have slept in the room since they trained together.

The stone house is not big, with dozens of people squeezed together, which is very crowded.

Everyone didn't care. It would be nice to have a shelter from the wind and rain. What else to choose.

That's it...

When the training boots were taken off, the air in the stone room became a little bit unpleasant.

Rao did not challenge An Xia in the wild. At this moment, his face changed slightly when he heard it.

Without changing his face, he said indifferently: "Go outside."

Mu Chenyuan quickly understood why he went outside.

I pressed the corner of my mouth that I wanted to raise, his voice was low and soft, and he nodded:
"Okay."

They were about to go out. The rough guys in the room were especially unaware. After ripping off the
**** socks, hehe, after a bad laugh...

The smelly socks called to the face of his teammates.

"Damn it!! Looking for death!"

"Hahahaha, hahahaha, don't you get out of trouble? Are you more energetic?"

"Fuck you! It's spitting up overnight after dinner!"

"Yawn until the boss opened his mouth, he looks listless, I have to make you clear."

He was too pure and almost ascended to heaven.

Mu Chenyuan did not remind them.

These are some of the fun of the comrades in the rest, there is no need to remind them to pay attention because of Anxia's presence.
