Chapter 841: As a mascot?

Mu Chenyuan looked at An Xia.

An Xia pointed to herself, her expression very subtle.

Let her go?

Is he not afraid that he will scare the herdsmen?

Can you refuse?

Mu Chenyuan smiled.

Well, I can't refuse.

Ye Jian has already pulled An Xia, "Go, let's go over and ask about the situation."

It was two herdsmen, in their thirties, and the plateau red on their faces made them look much older than their actual age.

"My fellow, sorry to disturb us." After Ye Jian gave a local gift, he communicated with the herdsmen in the local language.

An Xia couldn't understand it at all.

She can only speak the Mandarin of Xia Guo, and she can't speak or understand anything beside her.

The two herdsmen were still a little flustered, but when they saw that Ye Jian could speak the local language fluently, they relaxed a lot.

Very kindly asked, "Are you a local?"

"No, I am from the capital." Ye Jian replied with a smile, the generous and generous Ye Jian, "I like your language very much, and I learned it specially."

It was praised by the herdsmen.

Their language is difficult to learn.

Unexpectedly, the girls from faraway capitals learned to speak so fluently, they thought they were locals.

A herder pointed to An Xia, An Xia's smiling face that was completely incomprehensible.

Why refer to her?

Did you ask her something?

Sorry, I don't understand at all.

So, let her come over, who doesn't understand, is she acting as a mascot?

Ye Jian took An Xia's shoulder and explained, "She is not, she is my teammate, we are training here."

After speaking, he said a long string.

Although An Xia could not understand what was said, judging by her tone of voice, she should be explaining and apologizing.

Soon, the two herdsmen said one sentence, I said one sentence, and also said a long string.

Moreover, the speed of speaking was fast and anxious, and the expression on his face was also very anxious.

Ye Jian's face gradually became solemn, "Did it fall on a nearby cliff? How far is it from here."

"Not far, not far, it's nearby. We have been guarding for three days, and we just came over there."

"Can you help us? We have no choice."

Ye Jian nodded, "Okay, I will report to my captain now and bring a few fighters."

"Thank you, thank you, thank you so much."

The expressions of the two herdsmen were even more excited than before, and they were joyously excited.

The ewe they fell on the cliff were saved.

The ewe is very important to them. Losing an ewe is a huge loss for the family.

On the way back, Ye Jian told Anxia what had happened, "The ewe fell under the cliff and needs our help. I will now take a few soldiers over to see the situation."

An Xia almost thought that she had heard it wrong.

What did you say?

The herder's sheep fell off the cliff and asked Jade Bird for help, but Jade Bird agreed?

this.....

This also works?

"You promise, if they refuse by any means." An Xia, who couldn't understand, was a little worried, and the other fighters would not take action.

Go to save the sheep?

What magic task?

Impossible to agree.

Then, An Xia said solemnly: "If they don't want to, I'll accompany you."

It was Ye Jian's turn to laugh.

"They will definitely agree. The people have difficulties to ask us for help. We have an obligation to help the people and solve their difficulties."

An Xia: "..."

She knew that Xia Guo's fighters had a very good relationship with the common people.

Is it possible to also include saving the sheep?

Sorry, she can't understand it yet.

It takes some time to understand thoroughly.

Ye Jian told the herdsmen's difficulties, and An Xia saw Xia Jinyuan and Mu Chenyuan, and they quickly called from the team.

Chapter 842: They don't understand

Throughout the whole journey, An Xia was only unimaginable.

Is it so magical?

The people's affairs are in front of the training!

An Xia simply came and offered to invite Ying, "Report, I will go too."

"Good." Mu Chenyuan nodded in agreement.

It's been good to help in the past. Cooperate more with the brothers in the team to speed up the establishment of mutual understanding and understanding.

An Xia didn't quite understand again.

She thought she already understood Xia Guo's team, but found out that she still didn't understand it.

How could they even come forward with these things?

Incredible!

Soon, six special fighters came to the cliff with the two herdsmen.

"It's there, can you see it? It's there, a ewe and three lambs."

The herdsman stood on the edge of the mountain cliff, pointing to the bottom, "We can only go here, and then go down, dare not."

They can only move a dozen meters below, and then down, maybe even they can't get up.

"Can you go down? If not, don't agree because we ask for help."

The herdsmen have a very good impression of the combatants.

Some herders have always heard before that their cattle and sheep have been lost, and as long as the soldiers are rescued, they will be able to get them back.

Even if only the skeleton and fur are eaten by the snow leopards in the mountains, they can get them back.

But it can't let the fighters willing to help them take risks.

An Xia glanced, and she was able to get down, but it was a bit difficult to get the sheep up together.

"People can go down, and sheep can come up when tied to their bodies." Ye Jian and An Xia's mind coincided with each other, and she said to the herdsmen: "It may take a little longer."

"Can you go down?"

"Is there really no problem?"

The two herdsmen questioned at the same time.

It can be seen that they don't want the fighters to have an accident.

Ye Jian smiled, "Yes."

"If it's impossible, don't force it down. The rocks here are very dangerous, they look strong, and they are likely to be broken when stepped on."

Still not at ease.

"Forget it, forget it, we don't want sheep, we can't let you show up."

After much deliberation, it doesn't matter if the sheep has an accident, but people can't.

Don't want sheep at all.

Ye Jian said: "Don't worry, we will come up in time if we find that it is not possible."

Repeatedly promised that they could, and the two herdsmen left the edge of the cliff.

Ye Jian separated the soldiers from Snow Territory and Broken Wolf, "We two go down, and you pull the rope tight on it."

She pointed to herself and another soldier who broke the wolf.

An Xia said, "I will go down with you. We are light in weight and low in gravity, and they can immediately hold it in some circumstances."

"Anxia, you stay on it and I will go." The soldiers of Polang disagreed.

Can't let An Xia have an accident, he is the most suitable to go down.

Ye Jian looked at An Xia, saw An Xia's eyes calmly and calmly, and smiled: "Okay, let's go down together."

"Vice Ye..."

Powolf's team still wanted to oppose, and was interrupted by Ye Jian, "An Xia will join you soon, and every action she takes is an opportunity for you to understand."

"Be with me, don't worry."

Unable to change Ye Jian's decision, she could only agree to and tell An Xia, "When you go down, you must step firmly and firmly. Don't move lightly. You must be stable before you can take the next step."

"We will tighten the rope on it, and as soon as there is a situation, you call us immediately."

An Xia nodded, "I understand."

So solemnly, she really couldn't let them down.

Soon, An Xia and Ye Jian buckled the rope. They turned their backs to the cliff, smiled at each other, and kicked off at the same time.

I saw...

Two people of similar stature descend at the same speed.

Very fast, it seems that there is no need to stop and survey.

Chapter 843: Take a moment, don't be too ferocious

Above, the special fighter of Broken Wolf saw cold sweat on his back.

"Why so fast, it's too fast, slow, slow. Too fast, too fast."

"Too fast, too fast, not so fast, step on it! Step on it! Step on it!"

Yes, it's all white.

Almost like an eagle bowing down, swooping straight down from above the sky.

Look at the v8 and T6 of the snow brigade next to them, the two are particularly calm.

Calm enough to see the two brothers of Polang being so frightened, they can still enjoy themselves.

"Don't be nervous, it's okay! With our deputy team, your team's team treasure will definitely not happen." V8 happily said, "Come on, let's chat with fellow villagers."

"Ask how many cows and sheep there are in my hometown! I tell you that the herdsmen are all big families!"

"After our training, we met a herder. He told us that his family has a thousand yaks, two thousand sheep, and horses..."

"We heard it at the time, and there were undulating, golden mountains in front of us."

Proper big family!

T6 also smiled and said, "Maybe, these two herdsmen's homes are also the same."

Then asked Polang's brother, "Do you speak the local language?"

The two special fighters of Powolf only had An Xia in their eyes, and they had no intention of chatting at all.

Hearing the words, replied, "Stop chatting and keep an eye on it. You relax because we understand your vice team, we dare not."

"Before, she had cooperated with several other teammates of ours. We and An Xia only officially met this time. I can't rest assured."

v8 disapproved and said: "It's okay, you'll understand after getting along for a long time."

Look down, yo ho!

Good guy, still at the same speed as the blue bird!

Not lagging behind at all.

After watching for a while, he thoughtfully said: "An Xia is capable of this, don't you really worry about it, I feel that her strength is absolutely superb."

They all know how good the deputy bluebird is.

It can be said that in so many years, they have never encountered a female warrior whose strength is equal to or inferior to the blue bird.

And An Xia is the first one.

She was the first time they saw a female fighter with the same strength as the blue bird.

And, still so young.

You know, the eighteen-year-old Blue Bird is really not as good as the eighteen-year-old An Xia.

The two wolf-breaking special fighters whose expressions had been tense showed a faint smile.

"Well, the Mu team also said that Anxia's strength is close to the special level. We also believe in Anxia, that is, we are somewhat worried."

No matter how much they believed, they still knew very little about An Xia and couldn't be completely relieved.

At this time, the two of you were also shocked.

An Xia's speed has never lost to Ye Deputy Team.

Sometimes, they also found that An Xia settled faster than Ye Deputy Team!

Despite this, their bodies were still tight, and they couldn't relax before An Xia came up.

Next, Anxia started to slow down.

He whispered to Ye Jian: "Be careful, here is the wind vent, and the rocks are severely weathered."

The colors of the rocks look the same, but you can see the difference if you look closely.

The color of severely weathered rocks is rather dim, while the strong rocks are slightly darker in brown and blue. This is the most obvious and can be discerned by the naked eye.

Ye Jian also slowed down, smiling at An Xia, who was at the same speed as her, "Happy cooperation."

"Happy cooperation." An Xia smiled back.

The rope needs to be loosened in the time of descent to 50 meters.

The rope is only this long. Next, you need two people to cooperate and go down together.

"BAA Baa baa....."

I don't know if the lamb knew that someone had come to rescue them, and found a rapid "baa" sound.

Chapter 844: Correct her wrong idea

Above, Bro Wolf's brother didn't even dare to blink his eyes.

Raised down, "An Xia, we and Team Mu are waiting for you to return! Be careful! Do you understand?"

Below

An Xia rubbed her temples helplessly, and asked Ye Jian, "Are you all worried about your teammates? I'm afraid they won't return?"

"We hope that how many people will go out, how many people will come back, and return to the team in peace and security." Ye Jian said: "I believe that no one does not want their teammates to go away forever."

Some don't quite understand why An Xia asked such a question.

Give her a weird sense of subtlety.

Just like Anxia was in the previous team, their teammates didn't want their teammates to come back alive.

Weird passing by, Ye Jian instantly pressed down.

how can that be possible.

An Xia's new recruit training period, and a brief cooperation with her, at first glance, she knew that the relationship between her and the soldiers was very good.

That was the conflict with Ye Youyin during the selection of preparatory special fighters.

Ye Jian also knew about it.

But seeing An Xia came over and never mentioned it, she seemed to have forgotten, so she never asked.

"An Xia." Before shouting, she held An Xia's hand.

An Xia looked up, "What?"

"Ye Youyin is a special case. I have come into contact with so many combatants, and so far I have only met two of them." Ye Jian said in a low voice, the purest sincerity in the clear black eyes.

"The other fighters all hope that their teammates who go out to perform tasks can return safely."

Why did you mention Ye Youyin?

She hadn't put this person in her eyes at all.

It is even less likely to affect yourself because of her.

Indifferent: "If you don't mention it, I have forgotten such a person."

forgotten?

Then why does she say such a weird thing.

Ye Jian didn't quite understand.

An Xia already understood why she mentioned Ye Youyin.

Probably because of the sentence I said earlier.

I have to say that Jade Bird's grievances are keen.

"It has nothing to do with Ye Youyin. I think of something about myself." An Xia explained, "Even my family hopes that I will never go back, and the teammates who have not been together for a few days, how deep the feelings can be."

Ye Jian's expression was serious when he heard the words, "Xia Xia, you think you are biased."

"Sometimes, the family is really not as good as the teammates of dead acquaintances." Ye Jian also thought of his own experience.

Both she and Xia Xia have experienced the pain of being betrayed and chased by the guy.

It can only be said that those who want them to die are not family members.

An Xiating agreed with what Ye Jian said.

That's right.

Family members who are related by blood, want to kill you everywhere.

On the contrary, teammates who are not related by blood but have dead acquaintances will consider you everywhere, and only wish you peace and health.

The same is true for the four of them, Tianshu who stayed in the capital.

Then, An Xia raised his voice and responded to the wolf-breaking special fighter who shouted above, "Understand, you are waiting for me to come up!"

After she shouted, she said to Ye Jian again: "I will go down to carry the sheep, you are here to pull me."

Directly decide who will stay and who will go.

Ye Jian still wants to go down by herself!

"Don't fight with me, I need to establish a trusting relationship with the special fighters who break the wolf as soon as possible. First, let them see that I can do everything."

An Xia didn't want to waste time, and said quickly: "Solve the matter of the herdsmen early, and go back to the team to watch them swim in arms."

This is the point!

Ye Jian did not refuse any more, buckled the rope around her waist, and buckled the other rope around An Xia's waist, exhorting, "Be careful!"

"wait for me."

After An Xia finished speaking, he wrapped the lamb's rucksack on one shoulder, and tightened the rope buckled on Ye Jian with one hand.

Chapter 845: Everything is possible

In the communication channel of Po Wolves, Mu Chenyuan already knew that An Xia was in danger.

As he was finishing the equipment, he was calm and said, "I believe she can."

Very simple answer, calm.

Afterwards, Cheng Ming said: "Wang Ye and Liu Zhiyi, don't worry, Miss An is okay. She is sure to do anything. She will not be impulsive if she is not sure."

In the team, Cheng Ming knew Anxia a little bit better than the other fighters.

After all, apart from Mu Chenyuan in the team, he had been with An Xia the longest.

It was only a few days after Wang Ye and Liu Zhiyi met Anxia that they did not understand each other. It was correct that they were uncertain about whether Anxia could successfully complete the task.

Seeing that the captain was so indifferent, teammate Cheng Ming didn't worry, he was more or less at ease.

The two herdsmen nearby were praying, asking God to bless the young soldiers who rescued the ewes and lambs for them.

They crawled to the ground and read the scriptures.

The king also tightened the rope, and the wind on the plateau was blowing coldly, while the fine and dense cold sweat oozes out of his forehead.

"Old Liu, take it tight." He pulled the rope tightly with both hands, so hard that it stretched fiercely to his finger bones.

Liu Zhiyi also didn't dare to relax, biting his cheeks, and whispered: "There should be no problem. I just saw her and Ye Vice team speed are equivalent."

"Vice-Team Ye is a special special fighter, and Anxia is still comparable to her, so let's not scare ourselves."

An Xia, who descended to the cliff, was extremely calm, without any timidity. On the contrary, the two of them were on it, scared that cold sweat came out one by one.

Scaring yourself, the most scary!

At this moment, Liu Zhiyi is much calmer than before.

Because he saw An Xia walking alone among the dangerous gray-brown mountains, taking every step very calmly.

Had it not been for her to occasionally need to pause for a few steps, and then make small jumps and climbs, she would have thought she was as simple as walking on the ground.

After a few more glances, Liu Zhiyi whispered: "You said, will there be another Golden Wolf in our team in the future?"

So far, only the Mu team in their team is the Golden Wolf medal.

This is also the height that all Bro Wolf brothers want to climb.

He thought too!

But the difficulty is not generally big.

Liu Zhiyi is a high-achieving student in engineering physics. After graduation, he chose to join the team without hesitation. It took him a year and a half to become a wolf-breaking special fighter.

Wang is also a graduate from a prestigious school, majoring in electronic communications, and is a well-qualified student.

Hearing that, Wang also spoke in a low voice, and there were brothers from the Snow Territory Brigade next to him.

"Why is it so easy to get the Golden Wolf medal. Master hundreds of weapons and equipment in sea, land, air, and police, and be familiar with more than 30 special combat skills."

"Such as skydiving, blasting, diving, climbing, skiing, car and boat driving, grappling and fighting, position judgment, map recognition, you have to know it!"

"Reconnaissance, capture of prisoners, capture of prisoners, photographs, video and other intelligence materials must also be known. Armed pursuit, den battle, and survival in the wild are all proficient."

"Also! Various weapons of other countries must also be used proficiently. Dude, if you want to get the Golden Wolf medal, you have to know all the above and you have to be proficient."

You have to be proficient in so much, it's really not that ordinary people can master them all.

Therefore, there is only Mu Chenyuan in the broken wolf brigade currently with the golden wolf head armband.

Wang also finished talking one by one, Liu Zhiyi thought for a while, well, he thought too much.

But not necessarily.

"It's not easy, but An Xia is young now, only eighteen years old. Six years younger than us! As long as she is willing to endure hardship, it is not impossible to get it."

Wang Ye watched the figure walking lightly on the cliff like an axe. After a while, he nodded, "It is indeed possible. She is still young, and everything is possible."

Chapter 846: Positive youth, good time

Eighteen years old and full of youth, with An Xia's strength at this time, as long as she is willing to fight in the future, there is really nothing she can't do.

Wang also said: "I chose to join the team back then. I really didn't think about becoming a special fighter, but I wanted to realize a dream. The squad leader of the old team digs out my potential, and the squad leader is fortunate enough to train me every day. Join the broken wolf."

"Joined the team at the age of nineteen, and became a member of the Wolves Brigade at the age of twenty-one. It is easier to do a big thing while you are young and suffer more."

"Like me, the biggest thing I can do is not to take the college entrance examination, but to become a special fighter."

Wang is also a high school student. He skipped grades in elementary, middle and high schools. He was only 19 years old after graduating from college.

Teachers, classmates, relatives and friends thought he would continue to study, so he signed up to join the team if he had ideas.

After the school learned about it, it also deliberately did ideological work for him, fearing that he was passionate and enthusiastic, and chose to join the team.

Fortunately, the parents at home support.

Especially Wang Ye's grandfather, a veteran soldier, was the first to stand up and support after learning of his grandson's ideas.

Liu Zhiyi is also a master of learning, but he is also powerful without a king.

He read the first year of high school, and then took the college entrance examination, and was successfully admitted to a prestigious school in one fell swoop.

But he became a special fighter as smoothly as a king.

Many friends and relatives come to persuade you when you choose to join the team.

What do you say, you are a scholar, and your physical fitness is not good. Don't give up your bright future because of it.

In addition, even if they go to the team, they will definitely regret it.

too bitter!

People like them who only know how to read must not be able to bear it.

His parents also advised him to think twice.

In the end, I couldn't help myself, and promised him to join the team to exercise.

I also thought that anyway, it was only two years, and it would be okay to come back and continue studying after two years.

Unexpectedly, Liu Zhiyi, who is a good student, will continue to be good after becoming a fighter.

Finally joined the Broken Wolf team and became a special fighter.

At this moment, looking at the eighteen-year-old An Xia, the two young special fighters were reminiscing and talking to ease their tension.

Next, An Xia's speed is much slower than just now.

The further down, the harder it is.

Liu Zhiyi swallowed his throat, squeezed his sweat for An Xia, and said: "I thought I was pretty awkward, until I ran into Team Mu behind and killed him. Now there is An Xia again, kill him again!"

"No, before I joined Powolf, I thought I was really good and coaxed. After Powolf came..." Wang Ye said, suddenly his face changed and he didn't speak.

When he saw An Xia, the place where his right foot was stepping suddenly collapsed in a small area.

"Boom...boom...boom..."

The falling rock rolled down, echoing all the way.

It was terrifying, and Xin mentioned her throat at that moment.

The four people above were so shocked that their faces sank.

Calm as V8, T6 are shocked.

Ye Jian was also shocked.

On the contrary, An Xia herself was very calm.

Tighten the rope with one hand and grasp the rock groove with the other to stabilize the shaking body.

Ye Jian didn't speak until An Xia stabilized, "There are three meters left, be careful."

"Yeah." An Xia replied, "Wait for me to come up."

The voice was steady, not at all like having just experienced a small accident of falling off a cliff and dying at any time.

Hearing her voice, Ye Jian calmed down.

She opened her mouth because she wanted to hear An Xia's answer and used her voice to judge whether she was flustered.

Once panic occurs, it is necessary to prevent the rescue.

Change to her and go down.

Her good friend Xia Xia has a good psychological quality!

Don't panic, calm and calm, he is a master who does big things on his own!

Wang Ye and Liu Zhiyi also heard the calmness in An Xia's voice, and each breathed a sigh of relief in secret.

Chapter 847: The emperor is finally stubborn

Hearing the sound of falling rocks, the two herdsmen hurried to the edge of the cliff and looked down.

They regret it now!

"Come up, let her come up, we don't want sheep. Really, we don't want sheep!"

"It's too dangerous, it's too dangerous, you can't let her go down, let her come up."

I regret asking for help.

They were tentatively asking at the time, and they really didn't expect to agree.

T6 comforted the herders, "We have protective measures to prevent her from having trouble."

"My fellow, we will definitely rescue the ewe and the lamb together, please trust us." V8 also added relief and has promised the herders not to give up due to difficulties and dangers.

The herdsmen believe in them and they will be rescued.

While talking, T6 saw An Xia smoothly come to the ewe and hugged the ewe.

With a relaxed expression, he smiled at the worried herder: "Look, she has already held the ewe!"

Both he and V8 understand the local language and can communicate smoothly with local herdsmen.

After the two people finished speaking, seeing the two brothers of Polangu tense all over, V8 smiled and said: "It's done, wait for the person to come up."

"Just wait for her to come up." Wang Ye looked at An Xia in his eyes, and responded with his throat, "It is more difficult to carry the ewe and the lamb on back together than going down."

The ewes and the lambs cooperate well, but they are struggling, and they are likely to drag An Xia down.

This is what Wang Ye and Liu Zhiyi worry most.

V8 said: "I see, the problem is not big."

In such a short time, An Xia had carried the three lambs on his back.

Without carrying the ewe, An Xia planned to take the ewe up together.

The three lambs are tied to their backs in a triangle shape, which is quite cooperative!

Except for the moment An Xia hugged her, she didn't make a sound again after being frightened with "Baa" twice.

The ewes were also very cooperative. They kept yelling "Bao" around An Xia's feet, and there was no sign of running around.

Just now, he and T6 were worried that the ewe would not cooperate and jump around the lamb.

Never thought that the ewe and the lamb are so spiritual.

Knowing that An Xia is here to save herself.

An Xia, who carried the lamb on her back, sighed for herself in her heart.

She really did not expect that one day she would risk saving a sheep!

"Don't move, if you move, your lambs will also move, they will fall to death when they move, don't want them to have an accident, be honest." With the lambs tied, An Xia muttered to the ewe who was walking around her.

Tying and carrying sheep is not only an individual work, but also a technical work!

I just didn't tie the lamb to my head!

The last stubbornness of the emperor!

Never let the sheep ride on your head!

In case she pulls the sheep's stool or pee, she can't vomit blood!

Then tie another rucksack strap to the neck of the ewe, and An Xia started to walk up!

Above, Ye Jian was ready to welcome An Xia.

V8 smiled at the herders and said, "Well, they have already come up. You can shout to the ewe to make it more cooperative."

When raising cows, sheep, horses and the like, the host's family will yell at their throats. One is to let them listen to the voice of the host, and the other is to let them find their way home.

The herdsmen yelled, and the prolonged voice echoed, and the ewe below really responded with a "baa".

An Xia driving the sheep: "..."

I don't want to talk anymore.

Feel it, she is also a sheep!

bitter!

Ever thought that he would have such a day.

When we go to the meeting, she will tell Bluebird and the four special fighters above that she must forget this matter and don't mention it again!

Let this small task full of "goat flavor" sleep in memory forever.

Chapter 848: Sewage, taste!

A handful of bitter and tearful emperors, carrying the lamb, drove the ewe on the road.

The ewe struggling to walk upwards, the four small legs jumped up continuously with each kick. Sometimes An Xia would pull it in time to prevent it from slipping down.

After almost twenty minutes, An Xia finally reunited with Ye Jian.

The ewe was handed over to Ye Jian.

An Xia, who was sweaty all over, said blankly: "Don't tell me the master, hurry up."

Slowly, she will almost become a sheep.

The smell from the sheep is really--too! difficult! smell! NS!

Ye Jian took the ewe, raised his hand, and wiped off the sweat from his forehead for An Xia, "Thank you."

"It's not hard work, it's..." An Xia continued to be expressionless and didn't say anything.

Forget it, nothing to say.

She asked for it herself.

Turn: "Go, go up."

She wants to swim in the lake quickly!

Go to the smell of the body.

Mu Chenyuan was already in the water at this time.

Xia Jinyuan also got into the water with him.

The lake water was clear and cold, and the moment it went down, the cold was deep into the bones.

No matter how good the two of them were, they were so cold that they were shocked.

They plan to swim for 30 minutes.

In the tenth minute, a set of data will be delivered, how much heartbeat, how much body surface temperature has dropped, etc. The data will be fed back as soon as possible.

After An Xia put the lamb down from her back, before the herdsmen came, she said to Ye Jian: "You talk, I'll swim."

At this moment, she has never waited to go swimming.

Don't try to stop her!

The herders also wanted to thank An Xia, only seeing An Xia running away from the back.

Wang Ye and Liu Zhiyi: "..."

Why did you run away?

Also, how to run so fast!

High altitude is not suitable for running!

"Is she worried that she won't be able to take her arms to swim?" T6 looked at An Xia who was running away in an instant, and muttered: "So active, it would seem that we are very useless."

Ye Jian knew why An Xia ran away, but didn't say anything.

She didn't have time to talk to T6, and thanked the herdsmen for inviting them to be guests at home, and smiled: "...I'm sorry, we can't leave the team."

I also explained to the two herders that it is temporarily not possible to watch here. The herders immediately accepted, and after another deep thanks, they hugged the lamb and drove the ewe away.

They finally believed that no matter how difficult their difficulties were, as long as they asked the soldiers for help, they would definitely help them solve them.

In the direction of the lake, the two herdsmen entered a big local gift, and then left.

T6 hurriedly said: "Hurry, let's go back soon, maybe it's really possible that we won't be in our turn!"

V8 laughed, "Impossible, everyone can have their turn."

"Not necessarily! Q King and Team Mu are in the water. If the situation is not right, three rounds of testing will be arranged at most. All of them cannot swim smoothly, so they will definitely be cancelled."

Pushing the limit to life is not to end life. The situation is wrong. No matter how you want to complete an armed swimming at a height of 5,500 meters, it will be cancelled.

Wang Ye and Liu Zhiyi took a quick look, don't say anything, and leave quickly.

They don't want it to be over before it has started.

As soon as T6 saw them walking so fast, the danger consciousness was multiplied!

Urge V8, "Stop talking nonsense, hurry up!"

It was urged that Ye Jian also quickened his pace.

She also wants to challenge again, such an opportunity, can not be missed.

An Xia is already preparing!

Next to him is Mu Chenyuan, who has been up for ten minutes, carefully telling An Xia, "After the next meeting, you will feel that the water pressure is very high. Don't move immediately. Give yourself a few seconds to adjust and then swim."

Chapter 849: Into the water dragon

An Xia listened to him.

Don't want to speak.

She smells like sheep when you speak.

In fact, I really wanted to ask if Mu Chenyuan could smell the smell of sheep on her body, so calm and not disgusted at all.

Is it cold enough to get stuffy nose?

Looking at his thin lips, An Xia tightened her brow slightly.

The lip color is slightly purplish, and the complexion is not so good.

Raising his hand, holding his hand to organize the equipment for himself, An Xia said Shen: "I will organize it myself, you walk around."

The hands are also very ice, caused by the cold underwater for too long.

Asked again, "How long have you been in the water?"

It was said that it was 30 minutes before. Could it be that he was overtime?

Mu Chenyuan raised his eyes and saw the concern in her eyes.

With a smile flashing in his eyes, he replied, "Thirty-five minutes."

Thirty-five minutes, that's not bad.

An Xia said indifferently, "It's good to be able to last for thirty-five minutes for the first time."

She went into the water for the first time, twenty minutes.

After a lapse of one year, it will be launched again for 30 minutes.

After continuous training, the third time in the water, forty minutes.

Number one.

In the future, it was never less than forty minutes.

That year, she was fourteen years old.

Mu Chenyuan said: "Your time can be relaxed, ten minutes is fine."

"Less." An Xia said: "The goal is thirty-five minutes, and forty minutes is the goal."

Fight for forty minutes?

Mu Chenyuan didn't have much, his cold eyes stared at her deeply, "Okay, look forward to it."

She doesn't seem to be joking.

That is really a decision.

"After entering the water, bite the mouth tightly, keep breathing smooth, move forward at a constant speed, and discharge water every ten minutes, remember your heartbeat when you enter the water, observe your body temperature, and come up immediately if you feel unwell."

For these, An Xia does not actually need his advice.

They were the first time, and she was countless times.

Seeing Mu Chenyuan being so cautious, she remained silent, and occasionally nodded in cooperation to express her understanding.

He asked him again, "must be water after every ten minutes? Can't it be longer?"

"Yes." Mu Chenyuan said: "The longer the time, the more we can collect the maximum data, which is conducive to subsequent targeted training."

This kind of targeted training, An Xia knew, and talked with him again later.

After finishing the equipment, Mu Chenyuan added one last sentence, "It will last for 30 minutes. If you can persist, you can continue. While ensuring your safety, look forward to your breakthrough."

An Xia raised her eyebrows and smiled, confident.

Forty minutes was not her breakthrough, but her return.

There are eleven special fighters on the swim with her.

Six people in the snow.

Po Lang added her and Wei Ji to six people.

A total of ten people, the second group of armed swimmers.

Walking to the lake, Wei Ji looked at An Xia standing beside him, and asked with a smile, "Are you sure you can succeed in the challenge?"

He still didn't know that Anxia's conservative time was forty minutes.

"Only success, no failure." An Xia stared at the calm water, with a scorching light in her eyes.

If it succeeds, it means that her strength to return to her previous life is close again.

Wei Ji liked An Xia's fearlessness.

It's not the fearlessness of the brainlessness, but the fearlessness that exudes self-confidence that can make others believe that she can rush forward and overcome everything.

"Good! Challenge success together!"

He stretched out his hand to give An Xia a high-five.

An Xia simply high-five with him, and with a smile, she said in her heart: Looking forward to returning to her previous strength!

With a whistle, Ansha plunged into the water.

The icy water instantly drowned, and the cold was deep into the bones.

An Xia bit her mouth tightly and began to swim.

On the shore, Xia Jinyuan narrowed his eyes slightly.

Twelve people, Anxia is the first to start!

The other eleven are still in a completely short transition.

He asked Mu Chenyuan, "Have An Xia tried it before?"

Chapter 850: challenge? No, it's a comeback

Such a question, probably because of An Xia's whole set of diving underwater, it is completely unfamiliar.

I am so familiar with it that I have experienced countless high-altitude armed swimming crossings.

"No." Mu Chenyuan replied.

Junyan tightened a little as An Xia started to enter the water, her cold eyes staring at the expanding water waves, her eyes darkening.

An Xia did not come out to relieve the discomfort of launching.

In other words, after An Xia went down, it was the first to start swimming, and it was also the first to adapt without water.

As for him and Team Xia, both of them had a brief adaptation after they got into the water.

Knowing that An Xia had never had it before, Xia Jinyuan's eyes flashed with surprise.

Afterwards, he said with a serious expression: "The first time she was launched into the water, she was more suitable than us."

"Yeah." With a cold expression, Mu Chenyuan, who looked calm, was in the dark, already clenching his hands.

An Xia hasn't had any water yet!

The other eleven fighters all had water.

Is she okay now?

Xia Jinyuan, who has always been calm, also secretly tightened his slender fingers at this moment.

Five minutes later, Anxia still had no water!

If it hadn't been for the small hose with the suction nozzle that kept breathing smooth, the small piece of hose had been exposed to the surface of the water, and if she had been swimming forward, she would have to worry about whether something happened to her.

The other fighters also held their breath, staring at the water and daring not to look away.

"There is no water." Ying Que looked down at the time, seven minutes.

Cheng Ming didn't dare to breathe in the air. He stared attentively and didn't hear what Ying Que said in his ear.

Not to pay attention to how long the time has passed.

Ye Jian had already returned to the team and glanced over the two teams, but did not see An Xia.

Immediately looked at the rippled lake.

An Xia is already in the water!

T6 walked to Xia Jinyuan's side and immediately asked, "What? Can I get into the water?"

What question is being asked?

"An Xia will go with you. She has been in the water for six minutes before her." Xia Jinyuan said indifferently, "You said, can you enter the water?"

What?

An Xia is in the water?

So fast!

T6 said: "I knew that I had run with me, then I will next batch." Then he said: "The sheep has been handed over to the herdsman, and the people were persuaded to leave by Ye Jian."

Xia Jinyuan didn't ask carefully about the process of winning and saving the ewe. This little thing should be done by helping the herders.

Rescuing the sheep has become a thing of the past, and in front of him, he must carefully observe An Xia, who has not been out of the water once.

And said to T6: "I just went into the water with Team Mu just now. After I got into the water, there was a short adaptation process before starting to swim, but An Xia didn't. From the time I got into the water, I haven't surfaced even once."

Ye Jian who came over just heard this sentence, and then heard Xia Jinyuan's data on their launching one by one, Ye Jian's eyes were bright.

She also likes to challenge high levels of difficulty!

Ten minutes later, other fighters surfaced one after another, recording data for the first time.

But An Xia still did not surface.

Mu Chenyuan's thin lips were slightly compressed.

The expectation in the eyes deepened.

Worried and waited.

The other fighters sank to the surface again.

Fifteen minutes later, An Xia finally surfaced for the first time.

After the clock, Anxia surfaced for the first time.

The moment all the combatants saw her surfaced, they were relieved.

It's out, it's out!

Coming out is also short-lived!

An Xia asked for an "OK" gesture toward the shore and dived into the water again.

The fighters standing on the shore hadn't reacted yet, and her figure disappeared into the water again.

The special fighters in Broken Wolf and Snow Territory all trembled when they saw their pupils.

According to the data of the summer team and the Mu team, the longest time for the two to dive is 13 minutes to get out of the water!

And Anxia broke the record of two captains for the first time!
