Chapter 851: Pay attention, boy

Mu Chenyuan's teammate in the first time team code-named "Shi Hu", Shi Hu is not only a special fighter, but also an accompanying doctor.

"Can she persist in this situation?" asked in a low voice, suppressing worry between her eyebrows.

Dendrobium, medical student.

There is a special hobby that most base teammates fear, and he likes to study acupuncture.

He likes to experiment on his teammates.

He said that he wanted to say "Which is sore? Where is the pain", he immediately took out the silver needle that he was carrying at any time, smiled and said: "Come on, I will give you a needle to make sure that the medicine is cured!"

Sometimes it works.

Sometimes, when one needle goes down, blood comes out of another needle hole, and the scene is terrifying.

What's more frightening is...

He would get up in the middle of the night and touch his teammates, take out a row of silver needles, grin, and grin darkly, "You snore, I'll give you a shot."

Or say, "Just thought of an acupuncture point, give me an acupuncture?"

They are not sick again!

Why give him a test.

What is even more terrifying is that a teammate woke up and found a few needles in his head and soles of feet!

However, it is undeniable that this guy is very good!

From a family of doctors, generations of people have dedicated themselves to medicine.

Grandma, grandfather, and even a dean in the medical field, such a Dendrobium from a difficult background, resolutely chose a path completely different from that of his family.

Facing Mu Chenyuan's question, he was handsome and gentle, holding the gun, and slowly said: "It's too far away, I can't see her physical condition."

"But..."

Dendrobium still has a habit. When asked about his profession, he will be used to pause and consider for a while.

Over there, Cheng Ming was listening with his ears upright.

Never before, Dendrobium is guilty of breaking problems again.

Anxious, ready to rush over to ask.

She was pulled by Ying Que and said, "Brother, you are a little bit restrained. Those who know you care about An Xia, but those who don't know, think you're worrying too much."

"Team Mu is asking himself, he wants to know An Xia's situation more than any of us, you, calm down. OK?"

This kid!

Are the lessons from the last time not enough?

Leaning over again.

It's a must to care about your teammates.

The care this kid showed made them misunderstood.

Then you need to pay attention to it.

Cheng Ming reacted and bowed his head, "Okay, I see."

"Are you still wronged?" Ying Que raised his hand and knocked on his helmet. "Look at others for yourself. Qi Xingsu and An Xia are also familiar. I have met An Xia a few times. Are you so impatient?"

"It's not that you care about something wrong, but that you have to be measured. Understand?"

"Come on, look at the Xia Team and Ye Vice Team in the Snow Region. They are also lovers. Other Snow Region fighters, they also care about Ye Vice Team, and they will make some jokes, but do they care too much?"

"For the simplest example, Vice Team Wei is also below. When he surfaced, did you want to go to Dendrobium?"

...

Speaking out, Cheng Ming was at a loss.

There is nothing to say.

So, it seems something is wrong.

"Come on, don't overdo it." Ying Que finally exhorted.

Alas, young people, some things can be simpler.

But some things require more thought.

Cheng Ming retracted his footsteps and stood beside Ying Que, and then said again: "Then how should I pay attention?"

"It's very simple. When the Mu team comes forward, we just stand by the side."

The simplest and most measured distance is not complicated and will not cause misunderstanding.

Chapter 852: Surprised, An Xia is gone

Cheng Ming thoughtfully.

If you think carefully about Ying Que, there is some truth in it.

He has to be measured.

Shi Hu said slowly over there, "From the state where An Xia was out of the water just now, as well as responding to our actions, there is no problem with thinking or movement."

"It can be seen that she is more adaptable than you, Team Xia, and several other brothers."

In other words, Team Mu, Bai was worried.

Everything is fine, rest assured!

Mu Chenyuan also had his own judgment. When An Xia responded to them, his mental state was indeed good.

Entering the water is also a vigorous posture, not like being soaked in cold water at all.

On the contrary, it is as relaxing and cozy as in the swimming pool.

Suddenly what An Xia said before.

She said that she would swim for forty minutes in arms.

There seemed to be a meteor-like bright light passing by in Mu Chenyuan's cold eyes, he was even more looking forward to it!

An Xia, who says it must do it, is very likely to be able to do it!

When Xia Jinyuan and Ye Jian learned, they were startled.

"Forty minutes? She told you personally?" Xia Jinyuan asked, dark eyes surging up and down.

Mu Chenyuan nodded, "Well, the doctor accompanying my team judged that An Xia is currently in good condition. She can adapt to high-altitude armed swimming faster than you and me."

From the current point of view, An Xia has surpassed him and the Xia team.

"If she can really hold on for forty minutes..." Xia Jinyuan said, after a short pause, and then said again: "Team Mu, I really want to grab her into the snowy area."

too strong!

Strong enough to make people just want to be recruited into their own team.

Ye Jian also said: "Team Mu, I want to go all out!"

She also thought more!

Mu Chenyuan was very calm and didn't panic at all, "I think you have already done your best."

It is still talking about going all out, indicating that there is only one possibility: An Xia Wuxin joins the snowy area.

So, what is the use of two people drinking double reeds here for a long time?

What does not belong to them will never belong to them.

"It's not so close." Xia Jinyuan smiled, Qingjun's brows frowning slightly.

In his heart, he was planning something again.

Ye Jian naturally stood in line with her captain, "I used to worry about your relationship with her, but now, I'm sorry for Team Mu, I'm going to grab someone."

Snatch it first!

Whether you can grab it is another matter.

Mu Chenyuan was obviously used to this kind of robbing behavior from time to time.

Wherever An Xia goes, people will be staring at him.

It has become a routine operation.

"Then, come on." Not only did not panic, Mu Chenyuan also cheered and cheered for them.

Xia Jinyuan's heart was immediately pierced.

He has always been the only one who sits firmly on the fishing platform and casts bait to lure the fish into the bait.

Now, he has fallen from the Diaoyutai somersault, his identity has changed greatly, and now he has become a fish!

It's ok!

In order to grab An Xia, in order to let his little fox have a friend by his side, he is willing to be a fish caught!

Ten minutes passed.

Eleven combatants, headed by Wei Ji, surfaced one after another for the second time.

An Xia is still missing.

Wei Ji didn't get into the water right away this time, it was so cold that his limbs were a little uncoordinated, and he needed a few flutters.

During the thump, Wei Ji looked around.

He is looking for An Xia's figure.

However.....

The other fighters all surfaced, but An Xia was not seen.

"Have you seen An Xia?" He asked the nearest special agent.

It is the long eagle of the snow brigade.

Changing engages in reconnaissance, and armed swimming is his specialty.

He looked around and said: "I haven't seen it, and I haven't seen her surface with us for the first time."

Those engaged in reconnaissance will always pay more attention to their surroundings, regardless of whether it is people or the environment.

Chapter 853: It's over, something big happened

Longying can be sure that he has not seen Anxia.

Wei Ji's face changed slightly, and he swam to another panting special fighter.

"I haven't seen it. Didn't you surface with us just now?" It was the special combatant of Wolf Wolf, and said again: "It's strange, I didn't see An Xia surfaced before."

"Two minutes before I got into the water, I was still swimming with her, and then I disappeared."

Because it is not an exercise for armed swimming, this time it is mainly about collecting data, so you don't need to pay attention to concealment and concealment.

The three of them yelled An Xia's name together.

"An Xia! An Xia!" With his arms on the water, Wei Ji took off the large waterproof glasses and looked for An Xia's figure.

While shouting, he swam over to ask the other fighters.

Everyone's answers are the same!

Haven't seen An Xia at all!

At this second, the same thought flashed through the minds of the eleven special fighters.

problem occurs! ! !

"Let's get into the water! Quickly, get into the water!"

Wei Ji put on waterproof glasses again and plunged into the bottomless lake.

Don't have an accident, don't have an accident.

Find it quickly, find it quickly!

Eleven special fighters all dived into the water, looking for An Xia.

In order to dive deeper, unplug the oxygen hose from the mouth and stroke the limbs as deep as possible.

But!

The water pressure is too high, and there is no way to deepen it.

The light in the underwater world is scattered and dim, and there is still visible light for about three meters. If you go down again, your vision is blocked and you can't see things properly.

On the shore, Mu Chenyuan held a telescope in one hand, his sharp and handsome expression was slightly cold.

What are the few people swimming in the water looking for?

Ye Jian and Xia Jinyuan were also observing with telescopes. Seeing this, both of them frowned slightly at the same time.

Why is it chaotic all of a sudden?

What are you looking for?

Wei Ji came out of the water and gasped.

No, you have to report to the shore immediately.

"I pick you up underwater, and you will see your gestures more clearly on the shore." Changying spoke, walked around behind Wei Ji, sank, and quickly lifted Wei Ji.

At this time, it is not the time to be polite.

It was extremely urgent and could not be delayed for a second.

Wei Ji, who was holding it up, quickly made gestures. The first one represented a girl's gesture, and the second one represented a missing gesture.

"An Xia, missing, something happened?"

Ye Jian, who understood it, slowly and slowly, and said it very puzzled.

After speaking, Ye Jian's face was darkened.

How can it be!

Mu Chenyuan's expression sank.

An Xia is missing?

Something happened?

Whether it is or not, he has to confirm it.

No longer an armed swimming, Mu Chenyuan lightly filled the water and swam in the direction where Wei Ji and the others were.

Beside, Ying Que didn't have time to reach out and hold him.

His complexion changed and he simply fell into the water together.

Where can Ye Jian stand, lose the telescope, and hurriedly said to Xia Jinyuan: "I'll swim over and take a look, you pay attention to the surface of the water."

How could something happen?

Xia Xia was okay just now.

However, it is indeed possible that something goes wrong during training.

Have to go and have a look.

In view of Ye Jian's good results in swimming at an altitude of more than 4,000 meters, Xia Jinyuan did not stop it.

"Don't look too far, just look for the location they are looking for within 3 to 5 meters in diameter."

After finishing speaking quickly, Ye Jian, who was swimming in the water, hurriedly gave him an OK gesture.

Show, understand.

As for An Xia, he didn't even know that Wei Ji and the others mistakenly thought something was wrong.

She is still moving forward.

The hose used for oxygen inhalation just surfaced just a little bit, the water was rippling, and the black hose mouth was hard to be found.

What's more, her swimming distance is more than ten meters longer than Wei Ji and the others.

Wei Ji and the others really couldn't find out!

Xia Jinyuan on the shore did not stand in place to observe. He found a high point and held up a telescope to observe the water.

Chapter 854: Are you playing in the water

He looked from above, and they were looking for them in the water, working together, and striving to find An Xia as soon as possible.

Suddenly, Xia Jinyuan set his sight at a certain point on the surface of the water.

Adjusting the focal length of the telescope, and wanting to look more closely, An Xia came to the surface with a bang.

At this point, 16 minutes have passed since she first surfaced!

The moment he emerged from the water, Xia Jinyuan, who was calm on his face, let out a foul breath.

On the public channel, he informed the special fighters on the shore, "An Xia is okay, people are in the southeast."

In the channel, there were several gasps.

It can be seen that everyone is not showing up, and they are secretly worried.

Armed swimming at high altitude, sending his life into the hands of the **** of death, it's really not just casual talk.

An Xia!

Good guys!

This time, she dived for a full sixteen minutes.

Ying Que stared at the stopwatch, and then said in a low voice, "Is this still a human? Is this still a human?"

It's a robot!

Who else will break the record she set next?

Asking himself, Ying Que is very sure that he can't achieve Anxia's results.

An Xia dived back.

She was already a little away from the shore, and she was worried that she would freeze to death in the lake if she didn't dive back.

What makes her happy is that with the time to dive back, she can definitely reach the starting level of forty minutes in her previous life!

The bitterness after carrying the sheep is finally gone.

She didn't know that she was "disappeared".

After diving back five meters, he saw a familiar figure.

An Sha, who just had a slight smile on his face, fell silent for a moment.

Mu Chenyuan!

Why did he get into the water for the second time?

Do you want a small life?

She hasn't gotten anyone else, if something goes wrong, who should she go to?

The speed of diving back was even faster than before.

"Team Wei, behind, behind!"

The special battle of Broken Wolf only saw a distance of about five meters, with water ripples, like some deep lake monster attacking them.

Wei Ji quickly turned around, and then several soldiers dived into the water together.

They saw An Xia, who was like an underwater dragon, swimming over at a speed that they couldn't match.

"Wow!!"

Wei Ji surfaced and said, "It's An Xia! I found An Xia!"

Mu Chenyuan, who was swimming over, made a lot of strokes after hearing this.

The cold water surrounded him, and the limbs that had finally slowed down began to get a little unbalanced.

He wants to swim over to confirm whether An Xia is all right.

An Xia emerged from the water again, and when she saw Wei Ji and the others, she said coldly: "What are you doing? Are you splashing in the water?"

When she didn't laugh, she was a terrifying and unoffending deterrent.

At this moment, her face was so pale that she was so cold that she did not dare to look directly at her. Wei Ji's sight was only a little touched, and his heart sank with horror.

That's it!

At that time, Wei Ji had only one idea.

he!

over!

Egg!

NS!

As for why it was finished, he didn't know.

When he touched An Xia's sight, he knew that he had made a serious mistake.

How serious is it?

The next second will be the extent of An Xia's shot.

"No...no, I, I...we're looking for you." Wei Ji came back, licking his upper lip and pressing his lower lip, making it difficult to speak.

None of the other special fighters said anything.

The long eagle and the pigeon were close together, closed their mouths, and looked at An Xia cautiously.

So what, if it weren't for them, they could...wander away now?

So stressful!

I really want to swim away quickly.

God knows why Anxia puts such pressure on them?

Twelve Star Wars will stand in front of them!

An Xia looked at the other special fighters one by one, "What do you want me to do?"

"You... you didn't see, we thought you had an accident." Wei Ji spoke again, speaking more fluently than before.

Just finished speaking, Mu Chenyuan swam over.

At that moment, all the special fighters breathed a sigh of relief.

Here comes the boss who bears Anxia's anger for them!

Thank you, boss!

Big guy has worked hard!

Chapter 855: The boss is so scared

Mu Chenyuan swam over, and the moment he saw An Xia, he understood that Wei had made a big oolong.

An Xia did not disappear.

She just went into the water longer than them.

After a long time, Wei Ji, Zhu Yu, and other special wolf-breaking fighters thought that An Xia was missing.

Mu Chenyuan sighed lightly when he received the eyes of the special fighters asking for help.

Whether other men are afraid of his wife being angry, he doesn't know.

However, the Mu family man...

Even if the Mu family's man is outside, how can he call the wind and the rain, once his wife gets angry, he will be stunned.

Before, he still didn't quite understand why every time his father saw his mother angry, his father instantly became timid, and he didn't even dare to speak loudly at home.

He didn't understand at the time, closed the door, and secretly asked his father, "Mom is angry, what are you afraid of? I won't eat you again."

My father stood at the locker and was honestly folding and putting away his mother's clothes.

Hearing this, he said earnestly and earnestly: "Boy, you will understand in the future. Why are you afraid? I don't know, I can only understand it, not tell it."

He said nothing, he still didn't understand.

Now he understands.

Because he is experiencing what his father has experienced.

At this moment, he was actually very nervous, and wanted to turn around and swim back.

Can he?

can not!

If he really wanted to turn around and swim back, An Xia might rush to the Snowy Brigade immediately, so that he would never see him again.

The soldiers' help cannot be ignored.

Bite your head!

Mu Chenyuan said: "We didn't match up with them at the time of the two water discharges, and Wei Ji mistakenly thought that you had an accident. Immediately interrupt the swimming and report to the shore in time."

Explain this way, it's okay.

Training is important, but the lives of teammates are even more important.

Training can be interrupted as soon as possible.

It does not violate the regulations.

Wei Ji and other soldiers nodded one after another.

Right, right, right, because I was afraid that something might happen to you, so I immediately interrupted swimming.

The long eagle and the dove were not in a hurry to swim away.

but.....

Their blue bird, the speed of turning around is quite fast.

I clearly saw her swimming two or three meters behind the Mu team just now. At this moment, she has traveled more than ten meters!

Dock now!

Ugh!

Sad.

I miss the former blue bird so cute and loving, knowing that they lied to her, she would pretend not to find it, and cooperate.

Now it is.

She merged with Team Xia Shuangjian, and she has become more and more like Team Xia.

It's a very sad story.

But...

The two men cast their sights on the wolf-breaking special fighters, and they were comforted again.

Anyway, the previous bluebirds have lied to her.

And An Xia, who dares to lie!

No one dare to lie.

Once the aura opened, it was scary!

As for An Xia, I wanted to say, "What can I worry about, you do your own business", the words came to the lips and swallowed.

What Mu Chenyuan and Ye Jian once said to her flashed in her mind.

It probably means that they will never give up any of their teammates, let alone watch their teammates die in front of them.

Trained in the emperor domain for more than ten years, either you died or my survival rules were deeply rooted in the depths of the soul, so that she could not react in time when faced with similar situations before her.

In the training of Emperor Domain, there are no teammates, only enemies.

In the training of Team Xia Guo, there are no enemies, only teammates who share life and death and trust each other.

An Xia's face and tone of voice improved a lot when he pressed the words in his mouth and spoke again.

"Sorry, I am able to adapt quickly to high altitude armed swimming, and the diving time will be slightly longer than yours."

"The first time the water was discharged for 15 minutes, the second time the water was discharged for 16 minutes."

It's not "a little longer", but a long time!

Chapter 856: A monk can run, but a temple can't be run

Wei Ji and the others heard that, um, there was nothing to say.

An Xia is very good, and they can do everything, and they don't only know one day or two.

I knew it!

The high-altitude armed swimming is better than the two captains, don't be shocked, don't be surprised, An Xia is just like that!

If the misunderstanding is resolved, then continue.

Mu Chenyuan intends to travel back.

An Xia said indifferently: "After landing, I'll talk to you."

Mu Chenyuan: "..."

How to do? !

For the first time, I didn't want to talk to An Xia.

As a man's instinct, tell him:

This conversation is definitely not a good thing.

"Okay." Mu Chenyuan, who was calm on his face, nodded lightly, stroked his hands, and walked away.

I don't know if Team Xia has been talked with by Deputy Team Ye?

Or, ask him when I'm going to rest?

You have to ask questions.

The experience of the past people is more or less useful.

He stroked quickly, and An Xia at the back narrowed his eyes slightly.

Want to run?

You can run to the monk, but you can't run to the temple!

Here, the code-named Zhu Yu, the wolf-breaking special fighter who also had a background in reconnaissance reminded Changying:

"Close your mouth, it doesn't look good. It affects your handsomeness."

Long eagle closed his mouth and said seriously: "Thank you."

He was making a fuss.

Having gone through so many ups and downs and making such a fuss, it's so small!

The pigeon lowered his head and took a picture of the water. Fortunately, he was not shocked to open his mouth.

Mainly...

There is a blue bird in the team, and his amazing sniping and marksmanship have made him thoroughly understand a truth!

That is!

He whispered to Changying and Zhu Yu, "I understand a truth now, the female fighters are getting better, there is nothing wrong with the male fighters!"

"If one day, Ao Niao and An Xia are on a mission together, and it is said that they are going over a large base together, I will not be surprised at all."

From air defense, electronic defense, information infiltration, assassination, destruction-the two are absolutely nothing to say.

He still remembers that the blue bird, who had just entered the freshman year of the battle school, established a pseudo-establishment station and instantly overturned the opponent!

It is still a legend of the war school.

An Xia.

A few days of getting along all the way shocked everyone!

I don't know, I really thought she had at least five years of experience in special warfare operations.

The high-altitude armed swimming can beat the summer team and the Mu team. This is so awesome that they are not comparable to their mortals!

Changying nodded, expressing his approval!

Zhu Yu said: "An Xia is engaged in reconnaissance, bull! I used to be her defeat."

"Then the two of them work together, let alone a base, the three major bases, sea, land, and air, may be dry-turned." Long Ying wiped the white misty waterproof glasses, and his voice was lowered, "Here you are. One piece of advice, don't mess with An Xia in the future."

"You are not her opponent. Just her aura can scare you into birds, shivering in the hidden corner."

Sincere advice, there is no water at all. exist

I wish Yu to be taught.

He certainly won't provoke An Xia.

Didn't you dare to provoke them without seeing their Mu team?

Soon, Wei Ji and the others returned to shore, but An Xia continued to sprint her forty minutes of armed swimming.

She thought she was about forty minutes.

As a result, it ended with a score of forty-five points!

Return directly to the good results of the year.

When going ashore, Mu Chenyuan was the first to rush over and pull her up.

And said: "All the clothes you change and wash are in the tent. After you change your clothes, come out to see Vice Team Ye's swimming."

He was also worried that An Xia would not be in a hurry to change his wet clothes, he would have to watch Ye Jian go into the water.

Ye Jian didn't dare to let An Xia look like that.

No matter how strong the body is, there will be problems with freezing.

What's more, An Xia's lips were purplish at this time, and her face was so pale that there was no trace of blood.

His eyes narrowed slightly, and he said solemnly: "Hurry up and change clothes. There is high-intensity training below. Illness will affect the progress."

Chapter 857: Even the strength of the enemy, rushing in both directions

After being rushed to change clothes by the two in a row, An Xia simply stopped and didn't leave.

Lifting his eyes, the black eyes, which were frozen to a colder temperature by the water, looked at them one by one, and the corners of their mouths were slightly hooked.

"You guys, where do you see that I will be cold next to you and stay and watch?"

Did they misunderstand her?

Is curiosity strong enough to ignore your own health?

Excuse me.

Not really.

She has always taken care of herself.

Ye Jian was stunned, then pursed his lips and laughed, with a clear laugh, like a wind chime under a silver eaves, "Okay, I get it."

I'm so passionate.

Xia Xia is no ordinary girl.

She is very measured.

Mu Chenyuan also lowered his head slightly, his thin lips raised a little.

"excuse me."

After speaking, he bent his lips and left.

My girlfriend is very good at taking care of herself.

An Xia didn't let him leave and raised her voice, "Team Mu, I have something to look for you. I will see you later."

There was a stiff back, Mu Chenyuan turned his head, "Okay."

Can't escape the final settlement.

Wait, then.

Soon, An Xia got dressed and came out of the tent.

Don't look at the cold water in the lake, but the sun is big enough to put all the changed clothes on the rocks and dry them in less than two hours.

The wet clothes of other special fighters are also draped in the same way.

After returning, An Xia saw Mu Chenyuan standing next to the captain in the snowy area. The two turned their heads sideways, not knowing what to communicate.

"It's very simple, you nod whatever she says, she wants to criticize you, and you accept it humbly. In a word, don't justify, don't try to explain."

"From the experience of people who came here to tell you, justification will only make them more angry."

"For the sake of harmony between the two, as for you, it doesn't matter how much you bow your head."

"Men, it's not shameful to let your own girlfriend! On the contrary, it makes the relationship stronger."

"But I need to remind you that if she is wrong, you have to point it out, and you can't go over in a muddle."

"Progress does not mean that one person is making progress, but that two people should make progress together."

"With this way of getting along, you will always hold each other's hands and run towards the future."

One person is making progress while the other is regressing or staying in place, and there will always be only one result.

Parting ways!

At that time, Ye Jian tried to improve his abilities with the goal of catching up with Xia Jinyuan.

Just for one day, to be able to fight side by side with him, instead of becoming a burden around him.

No one can destroy the love that is evenly matched and running in both directions.

Mu Chenyuan was taught.

It can be seen from the love between the two of his parents that nothing in Team Xia's words is false.

"I understand, thank you for your advice." Mu Chenyuan sincerely thanked him.

Along the way, the Xia team has taught him a lot, making him better understand how to get along with An Xia.

Although some experiences are not suitable for him and An Xia, they are all experiences that he lacks.

He gained a lot from this joint training.

"Thank you, help each other." Xia Jinyuan patted the shoulders of the young special fighters, his handsome face smiled slowly, "I am how old you are, and I am very fond of you. As long as you are willing to ask me, how can I hide private."

After he finished speaking, he paused for a while, and there was a trace of scorn in his Xu Feng's smile, "What's more, I will help Blue Bird to dig your girlfriend into the snowy brigade."

"Make the relationship a little better. When we meet next time, for the sake of a good relationship, don't worry about us grabbing people."

Three sentences are not separated from grabbing people.

Mu Chenyuan, who passed by with a cold smile, calmly said: "You and the blue bird don't get angry."

"Why are we both angry?"

"Frustrated."

"Hahaha, hahaha..." Xia Jinyuan laughed, "I will do my best. If it doesn't work, there is no regret."

Chapter 858: Excited, the amount of information thieves

It's best to grab someone.

You don't need to get angry if you can't grab it. Why should you get angry if you have done your best?

I am not angry when others are angry, and there is no one to replace my body when I am angry.

Seeing that the two had a very happy conversation, An Xia did not immediately interrupt, standing on the shore to observe the armed swooping special fighters.

Wei Ji and Zhu Yu walked towards her, with Dendrobium beside her.

Dendrobium walked faster than the two of them.

Full of breath, he strode toward the meteor, and the first sentence was, "The lips are red and the teeth are white, the blood is ruddy, the white eyes are clear, the eyes are dark and clear, ah, very good!"

An Xia looked at Wei Ji, could this be the legendary jumper, a liar?

She can understand every word, but if you connect it, she doesn't understand it.

However, when Shi Hu said the last sentence, An Xia understood.

He said, "It's just a little vain."

!!!

Genius doctor!

Know her too!

"Is there a way to vent the fire?" An Xia asked seriously, very sincere. She really wanted to vent the fire.

The delicate Dendrobium blinked.

Oops!

I'm sorry.

As a doctor, he understands An Xia's words in seconds.

The same sincere answer, "Do you want a prescription? Or a live prescription?"

"What is the prescription? What is the active prescription?" An Xia asked humbly.

Dibian, Zhu Yu felt that Dendrobium started talking again, saying things he didn't understand.

He lifted his foot and kicked Dendrobium's calf, "Damn, talk about humans!"

"Fuck! What labor and management are talking about is human, you are not a human, so naturally you don't understand." Don't look at Dendrobium to be clear and beautiful, temperament, absolutely hot.

There was a disagreement, so he rolled up his sleeves and picked up the slab to dry the frame.

Why did his family allow him to join the team?

More or less related to his temper.

Just because of his violent temper, he is worried that he will fight with the patient or the patient's family every day in the future.

Think about that day, it was horrible!

Let's go to the team to hone and hone for a few years.

result.

Unexpectedly, the temper was not smoothed, but even more exploded.

I wish Yu a step back in silence.

Can't afford to offend, hide.

Wei Ji glanced at him.

Why bother.

No, I was scolded.

An Xia with sincere eyes is still waiting for Dendrobium to answer.

The smiling Dendrobium in seconds said gently: "The prescription is that I will prescribe Chinese medicine for you."

An Xia secretly thought: Chinese medicine is bitter, but it won't work.

Let's look at the party!

From Shi Hu's eyes, she could see that there was a play.

The magical doctor Dendrobium did not disappoint An Xia's thoughts, cleared his throat, and then waved to An Xia.

"Come on, I will tell you in a low voice."

It's not convenient to speak out loud.

An Xia's cold eyes flashed brightly, and she cooperated like this for the first time.

Really bowed his head in the past.

"The living thing is..."

Dendrobium whispered, An Xia even heard her eyes light up.

She apologized for what she said before.

It's not a jumper, and it's not a liar.

The proper genius doctor!

Genius doctor!

"What are you whispering about?" Zhu Yu frowned, a little disgusted, "I'm afraid we have listened to it, but I'm not happy to listen."

Wei Ji took the conversation and said with great interest: "I'm quite willing to listen."

He wanted to know what kind of prescription Shi Hu was talking about as a "live prescription".

He has heard of prescriptions and folk remedies, and he will listen to them in a lively way.

Intuition tells him that this "living prescription" is not simple.

An Xia has finished listening, her face is awkward, "It's quite difficult, don't cooperate."

The amount of information is a bit big!

The fire of gossip in the heart was burning, and the face of Dendrobium, who pretended to be a master of Taoism, asked inexplicably, "No cooperation? Not even once?"

I asked An Xia's sore spot!

It's not that I didn't cooperate once.

Nodded sadly, "Yes!"

puff.....

Dendrobium almost burst into laughter.

Chapter 859: Rub your hands, don't be too vigorous

I'm a god.

Co-authoring for a long time, their team Mu is actually a little chicken~~~

poor thing!

In this way, Dendrobium got a handful of reports very smoothly.

Or An Xia took the initiative to report it.

"I have a recipe, would you like to listen to it?" Dendrobium couldn't help but rubbed his hands deep in his heart.

He began to make suggestions for An Xia, "a home remedy that allows the living party to cooperate obediently."

After training, An Xia rarely showed a thirst for knowledge.

Just this time, every word of Dendrobium was like a hook, which happened to hook An Xia.

She raised her eyebrows, "please enlighten me."

"Polite and polite, easy to talk and talk." Dendrobium arched his hands, "Come, let's tell you in a low voice."

There was another whisper in a whisper.

When I saw Wei Ji, he thought about installing a bug on the two of them, and hearing what was said.

Just now the boy from Dendrobium made a hand rubbing action.

This little action often only appeared when he was extremely excited.

It can be judged that An Xia just said something that excites him.

Major events are likely to have something to do with the "live party".

Never underestimate the IQ and logical ability of a special fighter.

With a few clues, as long as they are found, a complete true story line can be strung out in a very short time.

After hearing this, An Xia called out, "Broad and profound! Learned!"

Xia Guo's Chinese medicine is too good!

There is such a powerful prescription!

In order to allow Mu Chenyuan to cooperate with her, she also asked Zai Tianshu to make medicine for herself.

I don't know if Tianshu got it?

If not, don't get it.

There is a folk remedy for Dendrobium, which can definitely make Mu Chenyuan follow.

Keeping it in my heart, An Xia thanked again, "Thank you, I will thank you after everything is done."

"It's a little thing, don't thank you, if you really want to thank..." Shi Jie rubbed his hands again, his delicate face was full of academic earnestness.

"I have a small request, I don't know I can't agree to it."

An Xia is bold, "As long as I can do it, there is absolutely no problem."

Dendrobium rubbed his hands again, "No need to do it, just talk about it."

That's even more okay.

"Please say!"

"After it's done, can you tell me the length of time? I want to make some statistics on these aspects of male special fighters."

Wei Ji saw Dendrobium rubbing his hands again.

event!

It's definitely a big deal!

Rub your hands five times in total!

The number of rubbing hands has never been seen before.

An Xia has always been magnanimous about these things, and he is also lustful. What can be hidden?

Without hesitation, he agreed, "Okay! You will show me your time data later, and I will also study it."
puff.....

Dendrobium almost knelt.

An Xia, Big Brother An, Big Brother Xia, you, your sturdy energy, as a doctor, he almost didn't keep up with the rhythm.

And there...

He only wants to collect the time data of the Mu team.

I didn't plan to collect all the teammates' data.

Even if they said, huh!

With the urine of these guys, doesn't he still understand?

Definitely go long!

Twenty minutes can be said to be an hour!

One hour can be said to be three hours!

"Okay, okay, for sure, for sure." Shi Hu agreed.

In order to collect the data of the Mu team, he bit the bullet and agreed!

Isn't it the duration data? It doesn't matter, he can collect it.

It doesn't matter if other people's data is accurate.

As long as the Mu team's data is accurate.

Anxia will definitely not report false data.

only--

Later, after the good thing was done, she told Shi Hu the length of time, and after getting the so-called data, An Xia once suspected that Mu Chenyuan's ability was inadequate!

Chapter 860: Childish

Why, everyone else is three hours?

There is still a long time?

and also.....

One day and one night?

Continuous and uninterrupted!

An Xia looked for Mu Chenyuan, what happened next, um, the sand sculptures were cheerful again.

In front of him, Anxia cited Dendrobium as a guest.

Dendrobium, excited in his heart, also volunteered to get the precious medicinal materials needed for the folk remedy for An Xia.

An Xia just missed holding his hands and thanked him deeply, "Okay, thanks for your hard work!"

"No hard work, no hard work, the benevolence of doctors, all should be, but the money is a bit expensive." Shi Hu is also worried about Anxia's economic strength.

after all--

It is not a secret that An Xia was born in the Wolves Brigade.

Folk remedies need money, it's okay!

The last thing she lacks is money!

"There is no shortage of money, even if it goes! Millions or tens of millions, everything will be made!" Such an important remedy, An Xia, who doesn't understand Xia Guo's TCM, believes that the required medicinal materials are definitely very expensive.

Because all the medicines in the Emperor Domain can only be researched with hundreds of millions of dollars, some even tens of billions or hundreds of billions.

When the finished product comes out, the price is calculated in millions or tens of millions.

The folk remedies that Shi Hu said absolutely need so much.

Money is needed, and it is indeed a little bit more.

After all, they are all precious and harmless medicinal materials.

But it takes millions or tens of millions.

Dendrobium directly took a breath and said seriously: "An Xia, you will go out to buy things in the future, and finally go to the supermarket."

"Why?" Does the supermarket buy it?

However, she never needs to go to the supermarket, and has never been to the supermarket.

Everything you eat and use is top-notch in the world, and you don't need to worry about it.

"You will be slaughtered."

It touched An Xia's blind spot on Xia Guo's writing.

I don't quite understand why someone would be slaughtered if I didn't go to the supermarket.

Sneered, "Then I will kill people first."

"..." Shi Hu felt it necessary to end the topic.

The more we talk, the more ferocious.

"It's a lie. If you don't understand the market price, if others see you don't understand, they will give you a high price. One hundred yuan will cost you one thousand yuan, and one thousand will cost you five thousand yuan."

"This is what we usually call zaiké."

An Xia understood, "No, you can't lie to me, I won't come into contact with these unscrupulous businessmen."

"It's hard for you with the folk medicine. Money is not a problem. I believe you too and won't kill me."

"That's natural! The young man is not deceived!"

"Thank you! I am waiting for your good news."

"I will definitely get it as soon as possible, and you can use the active prescription!" Shi Hu didn't mention the name, and directly replaced it with the active prescription.

Such a big matter can only be known to him first.

It's so cool to know it by yourself!

Wei Ji said to Zhu Yu: "Looking back, think of a way to pry out what he said to An Xia."

"Look at him rubbing his hands back and forth six times this time. It's definitely a big deal. You can't just let him have fun."

Zhu Yu nodded, "Okay!"

Happy alone is not as good as everyone's happiness, good and big things, share together, never want to be alone in stealth.

Over there, Mu Chenyuan and Xia Jinyuan also ended their conversation.

"An Xia is below, you take the initiative to go over, don't wait for her to come over." After the experience was passed on, Xia Jinyuan retired.

Mu Chenyuan took the initiative to walk towards An Xia.

As he approached, he asked, "What are you talking about?"

"Take the pulse." Shi Hu said, grabbing An Xia's wrist quickly, and blinking at An Xia, closing his eyes, to get An Xia's pulse.

An Xiaqiang resisted and didn't shake his hand.

Take the pulse?

What is it again?

Seeing An Xia's resistance, Mu Chenyuan said softly, "Dendrobium was born in a family of doctors and graduated from medical school, which is very good."

Very good, that is to have real ability.

Then, An Xia believed deeply in Dendrobium's home remedies.

Mu Chenyuan has personally certified, can he fake it.
