Chapter 861: Sympathize with Mu Chenyuan for three seconds

The profound Dendrobium put down An Xia's right hand and opened his eyes.

His expression was dignified and unpredictable, and he said, "Left hand."

To get the pulse, you need to get the left and right hands together.

An Xia Yiyan raised his left hand.

After a while, Shi Hu let go of her right hand and smiled, "The foundation is worn out, but it's not bad."

Except for a bit of fire, there is no problem.

Two words: health!

Wei Ji specially brought Dendrobium over to see An Xia. Seeing that it was okay, he said: "I will take a package of Chinese patent medicine to fight colds later."

"Yes." Shi Hu said, "I'm going to soak in."

"I will prepare a cup for you." Zhu Yu said.

The preparation of the cup is false, the questioning is true.

Wei Ji said, "I'll see if there is any boiling water."

There is no boiling water at high altitudes, so I have to burn it temporarily.

Use the collected dried yak excrement to boil water.

The three walked away, and Mu Chenyuan listened to Xia Jinyuan's proposal and asked An Xia, "What do you want to tell me?"

"The second launch is not suitable for your first-time high-altitude swimming. Once an accident occurs, you will sink into the lake directly." An Xia's face became cold, and his voice was bitterly criticized.

"Even if you are worried about me and afraid that something will happen to me, you need to guarantee your own life."

"Furthermore, I clearly told you in advance that I want to challenge. Why did you listen to Wei Ji's feedback and go into the water to find me desperately?"

Through this passage, it can be seen that An Xia is not a love brain.

He was not so affectionate that he could give his life for Mu Chenyuan.

Similarly, she does not need Mu Chenyuan to give his life for her.

"I don't want another time."

The cold voice fell to the ground, and it didn't match the script.

Girl, who doesn't want his boyfriend to hurt himself more.

Mu Chenyuan was silent.

As sensible as An Xia, it seems that some do not need it?

"Sorry, I was worried at the time. Knowing that you want to challenge, I am still afraid that something will happen to you." Mu Chenyuan explained lowly.

It still has to be explained.

An Xia said not long ago that she would not misunderstand him again and would listen to his explanation.

An Xia closed the corner of her mouth, "I don't need to worry about the cost of life."

It was too heavy, too heavy for her to accept.

Then he said, "I hope you are alive even more."

If something happens, it is good that he is still alive.

Such an excellent man should not sacrifice his life for these things.

Mu Chenyuan did not obey An Xia this time. He said seriously: "I will do my best to protect your safety and guard your life."

"An Xia, this is not heavy, but because you are with me—"

He pointed to the position of his heart: "It's very important, it's so important that it exceeds my life."

"..." An Xia suddenly didn't know what to say.

Life is so important, how could I rather give my life for others?

Yes!

They said that for the safety of their teammates, all of them can give their lives.

Xia Guo's fighters, really--

How come all of them are a tendon?

After a while, An Xia sighed, "Maybe I am too selfish, I can't do it for others, and give my life."

She can do her best to save. Once she finds that she can't save her, the consequence of her hard work is that she will also catch her life.

Then, she will retreat.

Mu Chenyuan laughed, under the sun, the sharp handsome face was gentle like a spring breeze.

"No, you just need to protect yourself and take care of yourself."

An Xia quickly replied: "I also hope that you can protect yourself and take care of yourself."

"Mu Chenyuan, shall we make an agreement?"

Chapter 862: Agreed, never changed

What is agreed?

He hadn't said it yet, Mu Chenyuan had already guessed it, and he said, "Okay."

An Xia solemnly and solemnly said word by word: "We promised that if one day we are in danger, we will only die together if we fight hard. We promised that as long as one of them can successfully retreat, we will never attack or fight hard."

"This is our agreement, I hope you can accept it."

"Okay, I accept." Mu Chenyuan still nodded.

In my heart, he said softly: "I'm sorry, I can't do it."

"If you are in danger, I will do my best to save you, and I will definitely save you."

"We will all live well, live for a long time, stay together forever, never leave."

An Xia didn't know what he had said in his heart, and the black eyes fixedly looked at him, "Come, high-five! The promised, never change."

"good."

He still nodded and followed her, not to make her angry.

After the two high-five, An Xia's expression became clear.

"I'm done, let's go, I will give you my data, I hope it will be useful."

After Xia Jinyuan read An Xia's data, he sighed, "It's so useful, we will know which value can be reached in the future."

"Don't try to catch up with my data. Personal physiques are different. Strong training can cause heart problems." An Xia said Shen: "Training should be arranged according to personal circumstances."

Xia Jinyuan nodded, "This is natural, reasonable arrangement, and reasonable training. First adapt, then high requirements and high standards."

These arrangements don't need An Xia to worry about.

Hearing Xia Jinyuan again: "It seems that we will need to train in high-altitude lakes in the future."

Mu Chenyuan asked An Xia, "Are there any suggestions for training?"

That's too much!

An Xia said: "There are a few points, you can remember them."

Don't hide your clumsiness, just say them one by one.

It was so useful that Xia Jinyuan was so absorbed in hearing that he didn't pay attention to Ye Jian at any time.

When An Xia finished speaking, his eyes changed again.

These needle-ground training made him somewhat familiar.

Once in a mysterious place, he had seen such a highly targeted, harsh to abnormal training policy.

"An Xia, have you ever been abroad?" Xia Jinyuan asked suddenly.

An Xia laughed, "I want to go abroad, but unfortunately, his leadership doesn't allow it."

It is a temptation, and the answer is natural.

The former Anxia lived in the imperial domain, and it was common to go abroad.

The current Anxia, before joining the team, has not even been out of the city.

Mu Chenyuan didn't understand why Xia Jinyuan had this question, and said indifferently: "An Xia really has not been abroad. I don't know why the Xia team has this question."

Do you want to talk about it?

Xia Jinyuan hesitated for a few seconds, then smiled, "It's nothing, thinking about the future international competition, I can take An Xia out."

"Win steady."

An Xia also smiled and said, "Then, it depends on whether the above is willing to let me play."

Yes!

She even forgot about it!

International competitions, once every two years, once every three years, once every five years, more to go!

She wants to return to the Imperial Realm, so she can go abroad through the Grand Tournament!

An Xia instantly had another way to go abroad.

She will work hard to participate in the competition.

Ask immediately, "What are the conditions for participating in the Grand Tournament?"

"Based on your conditions, the possibility of selection is very high." Mu Chenyuan said: "There will be a big competition next year. If you want to go, you need to strengthen your familiarity with and driving of special vehicles."

!!!

This, she will!

The sky, the sea, the land, she will be too much!

Chapter 863: Perfect without flaws

Although she will, she can't directly say that she will.

An Xia said: "After going to Powolf Base, start immediately, all day long!"

In order to be able to return to the imperial domain as soon as possible, we must set up a diligent person!

In fact, she doesn't need to stand up, she is very hardworking, hard-working and hardworking.

Perfect!

An Xia has always been very confident of herself.

No shortcomings, perfect!

Mu Chenyuan said: "It will be very tired."

"Am I afraid of getting tired? To go abroad to win glory, what does it count to be tired!" An Xia gave a special official answer.

When I heard it, it was a little fake.

Mu Chenyuan smiled, "Too tired and exhausted, it is difficult to win glory for the country."

"Don't be afraid! Be dedicated to the country, not afraid of hardship, not afraid of tiredness!"

An Xia is eloquent.

There is no way to persuade Mu Chenyuan.

However, she is willing to put in more effort to learn, how could Mu Chenyuan stop it.

One skill is close to one's body, for them special combatants walking on the tip of a knife, one skill is far from being close to one's body.

It takes a lot of skills.

Smiled and agreed, "Okay. If there is no way to keep going, think about what you said today."

Don't you look down upon her?

Ah!

Learn it then, it will scare you to death!

It is agreed that after going to the base, training will be carried out in all aspects.

the other side

Wei Ji blocked Dendrobium.

"Come on, brother, talk about what you and An Xia talked about."

Dendrobium squinted his eyes and said, "If you don't talk, as a doctor, you have the responsibility to keep secrets for your patients."

"You are wrong. As teammates, we are all responsible for sharing the burden for them. Come on, what is the living formula?" Wei Ji took Dendrobium's shoulder with one hand and turned his head, and said to Zhu Yu, "You water and soak Chinese patent medicine. , I will talk to Dendrobium."

I wish Yu Ying, "Sure, leave it to me."

It's trivial to make a fire and water.

Shi Hu didn't want to talk to the deputy team.

A flexibly dodged and flashed to the side.

"You are busy with your own work, don't disturb me."

Want to know what "live party" is?

Forget it.

I won't say even if I'm killed.

Before getting the Mu team's time data, Tiandi, Tiandi, He knows, An Xia knows.

There can never be anyone else knowing.

The reason why a secret is a secret is probably because the fewer people who know it, the secret.

Everyone knows that it is not a secret, but a matter of word of mouth.

Dendrobium likes to keep the secret alone first, and then slowly confides it when he has digested the secret.

And without understanding Wei Ji, it was not so easy to pass.

After thinking about it, he squinted his eyes and slowly said like a living god: "Don't tell me, so let me guess, you see if I can guess right."

Shi Hu sneered, "No, I'm busy with you."

Depend on!

I want to know from his expression that he is not playing as a deputy.

Who doesn't know that the deputy team plays psychological tactics, one after the other.

No one on the team can play him.

"Live remedies, remedies, money... You and An Xia are discussing targeting someone, right. If it's someone, who is it?"

Shi Hu's face was expressionless, "A bunch of nonsense."

Wei Ji ignored it, looked at Shi Hu with a smile, and continued to speak for himself, "And there are not many people in the team who know An Xia, Cheng Ming..."

Speaking of this, Wei Ji paused intentionally and carefully observed Shi Hu's expression.

As a special fighter, Wei Ji didn't see a trace of his facial expression management.

Suddenly, Shi Hu grinned at him, an ugly smile, which made Wei Ji see nothing.

Wei Ji was not in a hurry, and said: "The other is Team Mu."

Dendrobium continued to laugh.

Guess, let you guess, even if you guess the person, you can't guess what An Xia and I are going to do!

"On Cheng Ming's side, An Xia can't bother to whisper to you. He hasn't been important enough to play the Mu team. So, you have something to do with the active and private 100% Mu team."

"What does that matter?"

Shi Hu grinned and asked, "Yes, what would that matter?"

Chapter 864: In case, both of them are in a match

Obviously Wei Ji asked about Dendrobium, the result?

Shi Hu asked Wei Ji in turn.

When asked, Wei Ji wanted to punch Dendrobium with a fist on the smiling face of Dendrobium.

Tease him?

In the end, Wei Ji still didn't ask what the "live prescription" was, what did he and An Xia say.

The tight-mouthed Dendrobium didn't say it was killed.

Resolutely be the only person who has the first-hand news.

He didn't say, Wei Ji couldn't help it.

Don't worry, I can't ask today, I will ask again in the future.

I don't believe it, I can't ask!

Over there, An Xia drank the Zhongcheng Pao from Zhu Yu, unaware that Dendrobium had carried everything for her.

Without even realizing it, she dug a pit for Mu Chenyuan.

Xia Jinyuan said to Ye Jian, who was swimming in the third wave of armed forces: "In the future, we will only be responsible for imparting experience, and they will handle everything else by themselves."

Next to him, Chang Ying said with lingering fear: "An Xia is really not so scary! I was in the water just now, and I was so scared by her aura that I just wanted to escape."

The six members of the Snow Region all felt how terrifying Anxia's aura was in the water.

"Her face sank. I only had one feeling at the time. The Twelve Star Wars General was about to shoot me. It was so scary!!"

The pigeon didn't speak, it felt embarrassing.

Was scared by a new fighter, and said it?

He wants face too!

Xia Jinyuan hadn't seen it, Ye Jian had seen it before.

Upon hearing this, she smiled and said: "When you see An Xia in the future, see if you dare to laugh at her as a little girl!"

Privately, the Snowy Brigade laughed and teased An Xia for being a little girl. If they cried after being trained together, they had to think about how to get to the little girl.

Long eagle patted his chest and said, "Don't dare, don't dare anymore."

What kind of girl!

Obviously the boss!

With a young, tender face, she concealed her bossy essence.

It's not that the snowy players judge people by their appearance.

In fact, I don't know An Xia well.

Once understood, he immediately knew that An Xia was a big man who couldn't afford to provoke.

The pigeon said slowly: "Fortunately, the Mu team arrived in time to bear the anger of the boss for us."

Speaking of this, after he smiled gently, his eyes fell to Ye Jian with a smile.

Ye Jian smiled back, not hurried, nor guilty.

The pigeon said: "Vice team, the speed of your swimming back just now was a bit fast. I don't know, is there any comfort in your body now?"

"Thank you for your concern, everything is fine." Ye Jian answered calmly without changing his smile.

The pigeon took a deep breath, and then looked at Xia Jinyuan, "Team Xia, you broke our deputy Ye team!"

Distressed!

What a lovely and kind-hearted Ye Vice Team, now they have become as black-bellied as King Q!

It is inhumane!

Xia Jinyuan smiled, very modest, "Teached, the teacher teaches well, and the students have high savvy."

Listen to this!

brazen!

Is he still gong?

Seeing the two teams look at each other and smile again, the pigeon is tired, and said to Changying: "I want to go slow, go slow."

After taking two steps, Changying suddenly asked, "Did you go back for a blind date last time? Next time you go on vacation, take me on a blind date."

"The two of us go together individually. The girl who is going on a blind date must have a blind date on both sides, so we can't be dissatisfied with both of us!"

Pigeons have always been confident about their own conditions.

Unexpectedly, the teasing of An Xia suddenly came from behind him, "What if, the two of them are in each other? What do you do?"

"Serve together?"

!!!

The big guy is the big guy.

Every word spoken is a depth charge.

Besides, the speed is so fast.

Soaring to their forehead congestion.

Xia Jinyuan has always been a big deal, "Well, it is indeed a problem. What if you are all in the same situation?"

The pigeon was not led away, the long eagle was led away.

Originally, he wanted to nod and agree, but when An Xia said so, Changying closed his mouth and swallowed the words that rushed to his lips.

The line of sight is looking at the pigeon.

Changying is also very confident in himself.

However, his brother pigeon is a little better.

He looks handsome and has a gentle temper. It is difficult to be a scholar, and he is well-mannered by the scholarly years.

Just this one person followed him on a blind date...

"Forget it, if it really puts us together, it's really miserable."

I am very confident that the girls who have been on a blind date have fallen in love with the pigeon, and they will definitely have fallen in love with him too!

The pigeon heard the blue veins in the corner of the mouth and forehead twitching a few times.

"You really are! Was your mind flooded just now?"

After speaking, the pigeon is gone.

Can't stay any longer.

An Xia went out, couldn't stand it, and slipped away.

Long eagle also slipped.

Chapter 865: Talking about love and trouble

An Xia came out and defeated Changying and Pigeon in a few words. Ye Jian was admired and gave a thumbs up.

Great!

An Xia's face was calm and calm, nothing more than a trivial matter.

Said: "Small means to fight poison with poison."

Someone is ruthless, you are more ruthless than her, someone is yin, you are more yin than him.

Naturally, such people will have to walk around when they see you in the future.

Because they know you can't afford that kind of thing either.

Like the long eagle and the dove, like the special fighters of the Wolves team, they are all guys who are born to worship the strong.

As for her, she might train with Xueyu in the future.

Then, how to quickly establish the trust between cooperation and trust her to be okay?

There is only one way!

powerful!

Let them see her strength.

This "strong" is not only strong in strength, but also strong in language and decision-making.

It is a comprehensive "strong".

As long as they know that she is strong in all aspects, they will be able to establish a trusting relationship in the shortest time.

Of course, to establish this trust relationship, first of all, she must be a member of Xia Guo.

It is consistent with their beliefs, goals, and three views.

If not, no matter how strong she is, it is impossible to establish a trusting relationship with them.

Ye Jian laughed. At this time, she hadn't fully understood the true meaning behind An Xia's move.

I only felt that An Xia was quite smart, and suddenly found a way to quickly make the soldiers not dare to look down upon her.

He smiled and said: "You will join Powolf in the future, as long as you bully them."

Beside, Xia Jinyuanxia team listened, eyebrows raised, "Brothers in the snowy area, I shouldn't bully you."

The wife wants to be spoiled, but the brothers also have to take care.

and!

Don't let An Xia misunderstand that the brothers of their Snow Territory Brigade will bully the newcomers.

Ye Jian laughed lightly, and asked in a long voice.

"Really? Then I would like to ask Team Xia, when I went to the snowy area for the first time, how did you and them treat me? I forgot?"

...

"Sorry, I have something to do with Team Mu, you guys talk." Xia Jinyuan also slipped away.

Back then, well, he had a lot of dark history.

It was the first time for Jade Bird to snow, and he was surrounded by the enthusiasm of his brothers as soon as he got off the plane.

Really surrounded, lined up to fight the blue bird.

That scene is amazing!

Once let the brothers see how powerful the blue bird is.

This is nothing.

mainly--

Surrounding the bluebird wheel to fight is his arrangement.

Later, Jade Bird found out, and she did not rush to return it.

Instead, he waited for her to be promoted to the position of deputy team. One time he returned from a mission and learned that he had only a small bruise, she, the brothers who arranged to stay in the team, lined up with the excuse that they had not seen each other for a long time and needed the captain's guidance. The team fights with him.

It took about half a month before he realized that this was the revenge of the blue bird to avenge the fight.

How bearable!

Since then, he has been a man with his tail clamped for a long time, fearing that the blue bird will turn over the old accounts.

Now it's turned over again, can't afford to provoke, can't afford to provoke.

Slipped away, slipped away.

As soon as he left, Ye Jian asked An Xia, "How did you talk to Team Mu?"

"It's ok, tell him not to make a fuss in the future." An Xia said calmly: "He also agreed, but I don't think he can do it particularly well."

Ye Jian smiled so that her eyebrows were crooked, "It must be impossible to do it."

"You are his sweetheart, how can he allow you to have an accident under his nose?"

An Xia frowned and thought for a while, and finally, impatiently said: "I want to sleep with a man, why is it so troublesome!"

so troublesome!

Here and there for a while, it made her vain.

Rao is that Ye Jian already has Xia Jinyuan, and her face turned red after hearing An Xia's words suddenly.

"It's not troublesome, just... can't be rushed."

An Xia coldly said, "I'm worried, I'm in a hurry. It's so troublesome to sleep, and I'm tired."

Hearing her complaints, Ye Jian knew that An Xia hadn't really fallen in love with Mu Chenyuan wholeheartedly.

Can't say that either.

It should be said that An Xia has not put Mu Chenyuan first.

She was too sensible, and the Mu team wanted to get her heart, and suffered a bit.

Chapter 866: It's not good to stick to the rules

At about one noon that day, the two teams ended the data collection that took their lives to complete.

But all the special fighters who have been in the water, their bodies are frozen, and their teeth are so cold that they rattle. The first sentence on the shore is to ask, "How is it? The value keeps up with the brothers in front?"

He didn't even think of changing his clothes immediately.

Several special fighters estimated that they were a little bit fierce when they went into the water, and they were deeply bloodied by stone knives in the lake. They were too cold, and they were lost even if they felt pain, or the other brothers' eyes were sharp, and they knew that they were injured.

They used their lives to gather numbers, and at the cost of their lives, they guarded Xia's territory and everything in order to strengthen the country and the army.

The people can live and work in peace and contentment when the nation is strong and the army is strong.

On that day, the two teams compiled dozens of different data. In the evening, five reports were sent to the top teams in Lu I and Lu II.

Because of their development, they have a safer training policy for the coming team to enter the high-altitude armed swimming.

The data and reports are even used as research templates by the battle team, which are classified and must not be passed on.

The next co-training, being too sensible and quiet, and the next days, especially regular.

She does not blindly follow the joint training, she will put forward her own ideas and suggestions in the process of the joint training.

The first suggestion, every idea, was adopted one by one.

In Anxia's words, "A good fighter must learn to improve in addition to immersing himself in training."

"Improve with the times and stand shoulder to shoulder with the world, so that we can make progress every year instead of being eliminated."

"Even if you are old and not fit to go to the front line desperately, the experience and ideas you leave behind can still help latecomers."

All the words and thoughts left a deep impression on the youngest special fighters from the special fighters in Broken Wolf and Snow Territory.

She also dared to propose changes to traditional equipment.

An improved report on the "rope" was submitted, which once again attracted the attention of the top teams in Lu I and Lu II.

After Mu Changye and Xia Xinhui pulled up the report, they had a video meeting overnight, with the participation of senior veterans.

For example, Niu Qiyue.

He looked at the plan, looked up, and asked, "Two leaders, can I know who is responsible for this report?"

The writing is extremely detailed and quite bold. This is questioning the team's most traditional combat arrogance.

But what she wrote is extremely reasonable.

Mu Changye said: "You know and have seen her."

"I have seen it recently? Or have I seen it before." Niu Qiyue asked with a smile.

He had seen too many people, there was no way to guess who it was at the first time.

The people you see are all capable.

"I have seen it recently." Mu Changye still didn't tell who it was right away, letting Niu Qiyue continue to guess.

With a time frame, it's easier to guess.

Niu Qiyue already had a few names in his mind, and then asked, "Women or men?"

"Female combatant." Mu Changye said with a smile, and saw Niu Qiyue's eyes light up.

He thought of someone.

A very young, very powerful, and very thoughtful female fighter.

But it is not particularly certain.

The main reason is that this report is written without loopholes, and the words are more domineering, and you can feel domineering coming from the text when you hold it in your hand.

For example, the sentence "If you stick to the rules for a long time, you will definitely be eliminated. If you don't want to be a sinner, you'd better learn to change."

This is so domineering that makes people feel a little frightened.

But the little girl herself is domineering.

Then he said the name of a person, "An Xia. She is the most thoughtful and powerful young female fighter I have seen recently."

Chapter 867: She scared everyone

Niu Qiyue guessed it!

"Yes, that's her!" Mu Changye finished speaking, his eyes deepened with a smile.

She is still the daughter-in-law of their Mu family.

The silence of his son Mu Chenyuan became the most important event in his life, and he had to go home to thank An Xia.

Thank her for not detesting his son!

Xia Xinhui could see Mu Changye's happiness across the screen.

He is not envious or jealous.

Because, his daughter-in-law Ye Jian, that is also great!

It was confirmed that it was An Xia, and Niu Qiyue sighed with emotion, "Young people are great, and they have great ideas."

"Then you see if you can improve it?" Xia Xin will ask.

Niu Qiyue said: "Judging from the test data on her side, it can be improved. However, we still need to experiment many times by ourselves."

Mu Changye said Shen: "She has already tested it five times. According to her plan, you have completed at least 30 tests after the improvement."

He believes in An Xia's ability, but this is more than just believing.

Have to use data to speak.

"Yes, no problem, the result will be given in a week." Niu Qiyue nodded and agreed, and there was even time.

This makes Amoi a little surprised.

This one, that is notoriously bull-tempered, stubborn and responsible.

It was the first time he saw him agree so happily.

He asked, "You don't have any doubts?"

Niu Qiyue smiled and said, "Anxia's report is not just piled up in words, it is an unfounded paper report."

"There are data support and experiments, and they have not failed once after five tests. There is no need to question them, just measurement."

This is a very high evaluation of Anxia.

Mu Changye was very happy when his family was praised, "I still have a vision!"

Mu Chenyuan was praised, and he would be humble, saying a few words that couldn't be praised.

On Anxia's side, Mu Changye himself praised it.

"You dare not take your praise. It's not that I have vision, but An Xia has real skills. You will be shocked when you see her next time."

Niu Qiyue didn't know the relationship between Anxia and the Mu family, and naturally thought that the 12-star warrior Mu Changye had never seen Anxia.

Amoi will laugh, without telling the truth, just say, "Okay, let's wait for your experimental data."

It can also be seen that Amoi also believes in Anxia.

The reason is simple. He received a report from his son Xia Jinyuan, which focused on this matter.

For the first time in so many years, he saw Xia Jinyuan, besides Kua's daughter-in-law Ye Jian, the second female combatant.

Fortunately, An Xia is the daughter-in-law of Mu's family, and Mu Chenyuan, the son of Mu Changye, has also been by An Xia's side.

Otherwise, they are all worried that his unreliable, owed son is parting and falling in love.

Over the years, even if Xia Jinyuan had countless battles, in the eyes of Xia Xinhui, he was still the **** who dared to burn the yard when he was a child, instigated his companions to make mistakes, and fished himself in troubled waters.

Soon, Niu Qiyue was anxious for rope improvement experiments.

Since there was no news for four days, the brothers of Polang asked An Xia, "Is it not passed, do you want to send a report again?"

It stands to reason that if the pass fails, there will be a message within three days.

There is no news for the fourth day now, and it is too uncomfortable to wait.

An Xia is very calm, not anxious at all.

"If you don't pass it, that's their business. Passing means that the people above have a bit of a brain. If you don't pass it..."

"Cough cough cough!"

"Cough cough cough!"

"Cough cough cough!"

For a time, countless people seemed to have the wind chill, all coughing one after another.

Based on their past experience, An Xia will definitely say something that makes their hearts tremble.

Can't say it! !

Chapter 868: Learn, don't be too honest

An Xia glanced at them coldly and shut up.

Wei Ji came out to make a round and said carefully in a negotiating tone, "An Xia, if it doesn't pass, it doesn't matter, we use it ourselves as well."

"There must be the above thoughts on the above. Let's use it first. After using it for a long time, we will report to the above. It will definitely pass."

An Xia sneered, "I'm not rare."

It doesn't affect her anyway.

"Rare, rare, we are rare."

"Yes, yes, we are super rare, you see our strong rope is heavy and thick, sometimes, it is indeed a burden."

"No, it's old and heavy! But you can't lose it. Now it's getting smaller and lighter. I use it very smoothly."

The rope is a necessary auxiliary combat arrogance in the team. It is inseparable from towing and crossing, climbing cliffs, laying traps, landing behind enemy lines, and taking the rope to save lives.

In addition to Anxia's proposal to change the details, the combatants were a little surprised.

He laughed, "It can't be changed. After the change, the grip is not enough, and the rope is quickly strangled."

The thick ropes nowadays have been tested and improved hundreds of times to get the best thickness. They have always been used in this way, and they are also used smoothly.

Suddenly, it is changed, but it is still fine. Everyone naturally thinks that it is not possible.

Too thin, the rope is tight, it is not easy to grasp or trample, no need to use force.

An Xia said, "Is there a standard for this stuff? It's just that you are used to it."

"I haven't seen the experimental data that can't do anything after the changes, have you seen it? It's better to talk about it."

Don't say it!

I haven't seen it!

That's incredible!

An Xia added: "During the march, we carry too much weight, which will only affect the speed. Without affecting the use of the rope, we can improve it so that it is easy to carry and lose weight. It will kill two birds with one stone."

"One more thing, I always believe that traditions must be observed, but we need to innovate more."

"The only one who keeps innovating and changing oneself can make you stronger every year."

"This is also the main reason why some fighters are strong in the first year, strong in the second year, and the second year is still as strong as the previous year and the second year, and the same strong in the fourth year is no longer useful."

"Learn to change and let yourself adapt to new ways. I think we can be strong for a long time."

When Mu Chenyuan and Xia Jinyuan heard this, they did not object.

Ye Jian was also thoughtful.

It is true.

Otherwise, try.

With the support of the three of them, Anxia was anxious to improve.

The thick hemp rope was first divided into two, each 2 cm. After the experiment, it was completely unaffected.

As a result, she began to thin again, from 2 centimeters to 0.2 centimeters each time, down to 1.2 centimeters.

Experiment again and there is no problem.

Finally, after five experiments with all the combatants, An Xia wrote a report and handed it to Mu Chenyuan.

When Mu Chenyuan saw it, it was great!

Domineering and very persuasive, there is no need to polish at all, just submit it directly.

After four days, there should be a reply.

In the report, Anxia also emphasized that it is recommended to use ropes of various materials for testing, and the response time is normal.

But what Mu Chenyuan didn't expect was that it took ten days to get a reply.

It turned out that Niu Qiyue listened to Anxia's suggestions and experimented with ropes of various materials, and finally found a more suitable rope.

He, on Anxia's direct hemp rope improvement, he has made further improvements.

After receiving the reply, An Xia said calmly to Mu Chenyuan: "You also learn something."

"Definitely." Mu Chenyuan nodded in response.

He needs too much deep stuff.

He said: "I usually have any shortcomings, you must point out at any time."

Not enough?

An Xia squinted and thought about it seriously.

Afterwards, there was a slight change in his expression.

Chapter 869: Are you inadequate

When Mu Chenyuan saw An Xia's slight subtle change, he directly "cocked" in his heart.

There is some ominous premonition.

An Xia stared at him, and then said: "So far, it looks like it's okay."

It turned out that he was thinking too much, and Mu Chenyuan secretly breathed a sigh of relief.

But I haven't completely relaxed yet, but seeing An Xia said again:

"I really want to say something inadequate... I want to ask, are you inadequate?"

???

What's the meaning?

The ominous hunch strikes again.

It's as menacing as a tornado.

Intuition told her that what she asked was definitely not the ordinary one.

Is asking him if he is not fit enough!

Then, I saw An Xia's gaze slowly descending from his face.

Mu Chenyuan: "!!!"

He understands now!

Gritting his teeth, "No!"

He is full!

It's enough!

Can meet all her needs.

However, I don't want to dedicate it for the time being.

An Xia doesn't believe it.

Ignoring his gnashing of his teeth, he continued without urgency and fear of death: "If you are not in good health, don't hide it. You are still young, and you should be treated early."

Mainly, she didn't want to wrong herself either.

Men are good-looking, but they can't just be good-looking.

Mu Chenyuan wanted to carry An Xia to a certain corner so that she could see where she was.

It's really inconvenient in the wilderness.

Mu Chenyuan pressed his voice, with a man's fierceness, suddenly leaned close to An Xia.

Close, the hot breath woven around An Xia like a net, "Thank you for your concern, I am fine, and I will definitely satisfy you."

"Don't think about it, let alone question whether a man's body is inadequate, the consequences will be serious."

An Xia was on the verge of death repeatedly, jumping back and forth.

Because she found that when she saw Mu Chenyuan as proof that she was full, those cold eyes burst out like beasts, which was really masculine!

As a woman, she also likes it unconventionally.

Although she has always believed that the sense of security is given to herself, not from others...

But at this moment, she really has him by her side, no matter what happens, she absolutely believes in him, and she will definitely protect herself from any harm.

With him by his side, I feel full of security!

The amorous eyes had fallen, and he looked obliquely, his red lips raised slightly, "But I haven't seen it, isn't it normal to question?"

"Or, there is actually such a small problem, which has been treated all the time, and it is not convenient for me to verify it at the moment?"

...

Mu Chenyuan, who has always been calm and self-sufficient, and whose emotions are rarely disturbed by words, his heart is surging and blood is constantly rushing towards his forehead.

She must be deliberate.

It's definitely intentional.

calm.

Calm.

Can't be led by her.

Once she has fallen into her trap, I am afraid that I will make a mistake tonight.

Take a deep breath, take another deep breath, and soon, he will suppress the emotional fluctuations.

Return to the mirror-like peace again.

He smiled, with thin lips slightly, sharp and handsome like a **** standing in the clouds, with a dusty temperament and unparalleled beauty.

"Don't worry, you will be satisfied that day."

Seeing the beast-like wildness in his eyes gradually disappeared, An Xia knew that the man in front of him had restrained himself.

Gee!

A strong and self-controlling man, this is not cute at all.

Can't hook him to play.

Finally, he ticked it, he, after only a short period of fluctuations, has returned to the same level as before.

Try again.

The thief-hearted emperor said: "The moonlit night is good tonight, the environment is also good, the beautiful day is beautiful, you really don't want to do anything else?"

"I don't mind. Anyway, I'm used to sleeping in the wild."

Chapter 870: Get off, get off quickly

An Xia really doesn't mind.

Love and affection are hotbeds everywhere!

However, the timing is not right.

I knew it in my heart, but still couldn't help but say it to make Mu Chenyuan amused.

Cute is also a very fun thing.

Especially teasing Mu Shenyuan.

Ugh.

Her poor tastes were all used on Mu Chenyuan.

How could Mu Chenyuan know that An Xia was teasing her.

His little girlfriend really made him helpless when she was naughty.

Seeing her interested, his eyes gurgling with a smile and a good mood, he was very happy to follow her.

Raising her hand, her slender fingers squeezed her delicate nose lightly, and her eyes were full of spoiling.

"No, I mind. Put your careful thoughts away, although you will try again."

"I am very serious and responsible to tell that my body is full and there is no problem at all."

"The days are still long, I will prove it to you in the future."

An Xia rubbed the nose that was pinched by him.

What's wrong, rub the top of her head for a while, pinch her nose for a while.

"I hope you will prove to me day and night to make up for the debt you owe me now, thank you."

He was still driving steadily at the speed of the kindergarten, and his little girl friend sprinted directly into a racing car.

"Okay, definitely!"

Day and night, it proves——

It's not impossible.

I hope she can bear it then.

A man, he has always been fascinated by his self-confidence in his abilities as a man.

Mu Chenyuan, the young chicken who has not yet opened up wasteland, is also so confident.

An Xia didn't understand, she simply felt that she was hot, and she had to open up wasteland well by Mu Chenyuan.

Both novices think there is no problem.

The topic of whether the body is inadequate is over, the two will not continue, and the time for them to relax ends.

Can't be too presumptuous.

Discipline must be observed, and the line must not be crossed.

The two talked about other things instead.

An Xia asked curiously, "Today Gordon, I saw that you and Powolf's teammates communicated in animal language. Tell me about it. I'm so deep."

She knew that Xia Guo's special fighters were in contact with each other in the dense forest, and they would communicate in bird language to convey information.

But I really didn't know that Powolf Brigade would even use animal language.

The voice of "Baa" came out, she happened to be beside Mu Chenyuan, watching him communicate with his brothers, she was shocked for several seconds.

Tough!

Learn sheep call, learn exactly the same!

What she asked was exactly what Mu Chenyuan was looking for tonight, "We have five kinds of animal language."

"There are beasts that can transmit information at high altitudes, and there are beasts that can transmit information in the desert, dense forests, and plains."

"Except for bird language at most, rat language is second."

"All are to imitate the sounds of small animals and deliver information that only we can understand."

Mu Chenyuan spoke quite in detail.

What kind of tone, the length and shortness of the tone-what it means, all explain in detail.

An Xia listened very seriously.

In the moonlight, the two walking side by side walked around the silent mountains, like a couple of gods and goddesses.

A few meters behind them, Wei Ji who had been looking for something saw this and stopped.

And pulled Ying Que, "We'll talk about it when the captain comes back, don't worry."

It's not a big deal, it doesn't matter if you say it later.

"Then we stand here and watch what to do? Go." Ying Que didn't want to stay longer for a second.

Staying for a second, his emptiness and loneliness deepened.

envy!

Too envious!

Wei Ji didn't want to leave yet.

With a small smile, "What's the hurry, listen to how our captain taught An Xia."

They all heard that Mu Chenyuan was teaching An Xia's animal language for information.

Ascending today, he and Ying Que also discovered that An Xia didn't know anything about it.

After that, the Mu team kept Anxia with him until the end of the ascending ground competition with the Snowy Brigade.
