

Godly Choice 111

Chapter 111: Fox Xiaomeng of Noble School

On the outskirts of the capital, in a very tightly guarded valley, there is a large group of Chinese and Western buildings.

Among them, there are swimming pools, rockeries, gardens, golf courses, racetracks, rock climbing training grounds, etc. All kinds of sports that elites in the upper class are passionate about can be found here.

It's just that it's not open for entertainment, but for teaching.

This is a top middle school in the world. All the children who can come here are the children of business elites, the heirs of wealthy aristocrats, and the children of some first-class family powers in the martial arts. Every student is either rich or noble.

In a quaint and atmospheric wooden house, a group of thirteen or fourteen-year-old, well-dressed teenagers and girls are chatting after class.

"Hey? Xiaomeng, come and see~"

A lovely girl greeted Hu Xiaomeng and said with a grin: "Look at this boy, not the one you said, um, is Li Yun who cooks deliciously?"

Hu Xiaomeng leaned over and saw that the photo in the news was Li Yun on her friend's phone!

"It is suspected that Liu Xianxian's first boyfriend, Li Yun, the author of "Zhengjianghu", promises to get full marks in general subjects!"

After Hu Xiaomeng read the news, it attracted the attention of many students.

"Liu Xianxian's boyfriend?"

"Full score in all subjects? Haha, that's amazing."

"To tell you the truth, it's not bad to be able to cross the rivers and lakes, and my family loves to listen."

"Unfortunately, this author is too arrogant, right? He actually said that he wanted to get full marks in general subjects!"

Many of Hu Xiaomeng's classmates started to comment on this incident. This is one of their after-school activities. They pay attention to hot news, make comments, and see who analyzed it correctly afterwards.

"Are you getting full marks in general subjects?" Hu Xiaomeng muttered to himself, not believing that Li Yun could get full marks.

If it's the difficulty of the culture class in junior high school, I can barely say that I can get a full score, but if I get to high school, let alone an ordinary school, even this top aristocratic school, no one is willing to take a chest and say that I can get a full score.

The high school culture class is too difficult!

Especially for Chinese, it is almost impossible to get a full score.

"This cook is really funny." A handsome young man named Yuwen Huayu smiled. "Xiaomeng, don't you think?"

From the tone of his speech, he knew that he despised Li Yun extremely.

Hu Xiaomeng blinked cutely, and said softly, "That's not necessarily true. Big brother is very good. He cooks delicious dishes. I think he might get full marks~"

"Fool." Yuwen Huayu wanted to reach out and touch Hu Xiaomeng's head, but the latter avoided him with a smile.

An unhappiness flashed across Yuwen Huayu's eyes, but she smiled: "Little Meng, no matter how delicious the cooking is, he can only be a cook. What does this have to do with the full score of the cultural class? I see you, don't I was cheated by him!"

"Do not worry!"

Hu Xiaomeng patted his chest cutely, making me look like I am very powerful: "How can I be deceived by Xiaomeng so smart? Brother Huayu, don't underestimate me~"

"Really? I don't worry about Brother Huayu."

"Whee."

Hu Xiaomeng smiled, tapped a few times on the phone, and sent a message to Li Yun.

"Big brother, can you get the top score? If not, Xiao Meng will be disappointed~"

Hu Xiaomeng held his chin, and was inexplicably looking forward to seeing Li Yun do something different again.

Think about it, a teenager who is washing dishes on the side of the road, but has a superb cooking skill, and can get a perfect score in all subjects.

Wouldn't it be fun?

Hehe~.

Chapter 112: The mock test begins

On Thursday, the first mock exam for the college entrance examination began.

Li Yun stated that he wanted to win the first full score in the simulation test of Zhonghai City. With the blessing of Liu Xianxian, an international star, he insisted on sweeping the entire network like a violent wind.

Everyone is waiting to see his results, but apart from some gamblers, no one is optimistic about Liu Xianxian's gossip boyfriend!

"Li Yun, go for the exam~"

In the morning, Liu Xianxian sent a Weibo specially for Li Yun, which made the discussion about Li Yun on the Internet more and more popular.

"Damn it, this ***** is so close to Xianxian!"

"Hehehe, when the results come out on Monday, he will cry!"

"Who wouldn't blow a big talk? I can take it, and I also said that I can test 1000 points in the mock test! [狗头]"

"You said, would this guy buy through the marking teacher and change his test paper to full marks? The mock test in Zhonghai City is individually approved by each school!"

"possible!"

"Resolutely differ in will to change the high school papers privately. Li Yun's test papers must be made public!"

The discussion of netizens gradually turned to one side, and finally the topic of #开李云考卷# turned out to be a hot search!

Class 14.

"I hope that everyone will not be affected by some comments on the Internet, and try to take the exam as much as possible." The class teacher stood on the podium and emphasized, finally turning his attention to Li Yun:

"Especially Li Yun, you did a good job in general and English in the last test. Although the final questions of this mock test are more difficult, I hope you can get a score of 290+145 or more, so that you can deal with the doubts from netizens. !"

290+145, the other two subjects will get another 200 points, which adds up to nearly 650 points, reaching the score line of the top domestic universities. Although netizens will still laugh, they will not be too contemptuous!

Li Yun smiled slightly, nodded, and said nothing.

Wang Houliang has a weird face. Wouldn't Brother Li really want to get full marks? is it possible?

At 8:30 in the morning, half an hour before the test started, Li Yun walked up to the teaching building to find Fang Xue, and by the way looked at his sister.

Along the way, Li Yun was baptized by countless classmates' eyes, either admired, contemptuous, or simply curious. Nôv(el)B\\jnn

When he came to the experimental class, Li Yun was even more watched by this group of second-generation academics + rich.

"Hey, Li Yun!" Yu Xiannian, who has long occupied the top three grades in grades, asked with a look of optimism: "Are you really sure to get full marks?"

Before Li Yun had spoken, another boy said in a weird manner: "Full score? Are you joking in the first year? If he can really get full score, he won't be a bad student! Humph!"

The faces of the others were different.

On the mock test of their experimental class last time, although three of them got full marks in English, no one could get full marks in the science of science!

Unexpectedly, Li Yun, who was in a poor class, got results that none of their experimental class students could get!

This embarrassed them, who had always claimed to be the top genius in high school.

Li Yun glanced at him, disdain to talk to such a person, looked at Li Feng in the classroom, and walked aside with Fang Xue who came out, ready to chat.

"This bastard!" Zhou Xianming, who was completely ignored, clenched his fists, his eyes flashed with fierceness and determination.

"The top score? Huh, I think who will be the first full score this time!"

Quietly touching a special mobile phone sewn into the jacket, Zhou Xianming was secretly proud of him. When everyone was paying attention to Li Yun, he instead got the first full score. The sense of drama is definitely strong enough!

Fang Xue looked at him with admiration, maybe Liu Xianxian would also be attracted to him, and would come to talk to him on the initiative!

Chapter 113: Light song and man dance

At nine o'clock in the morning, the Chinese exam.

Li Yun checked his attributes, and when he saw that he possessed the knowledge of all subjects in the university, he felt more settled.

He is not a genius now, but a super all-rounder!

Not only does the knowledge of science such as mathematics, physics, chemistry and English, even if Li Yun now transfers to the liberal arts, he will get full marks!

"The exam begins, all candidates, please start answering the questions! Warm reminder: Please don't whisper during the exam..."

Li Yun calmly picked up the pen and wrote down the answers on the test papers at an unhurried speed.

But even if he didn't deliberately speed up, his broad knowledge is enough to make Li Yun answer the questions handily, and the speed is not slower at all.

Especially for the following reading comprehension questions, Li Yun has three lines at a glance. Ordinary students may have just finished the first paragraph, and he has already answered the questions with great confidence!

Soon, Li Yun came to the final composition topic.

"With the development of science and technology, various entertainments in the world have also increased. KTV, discos, game halls, Internet cafes, and even pianos, electronic organs, guitars, etc., human entertainment activities have become unprecedentedly rich.

Please write an essay with no less than 800 words on the subject of "Entertainment", regardless of style (except poetry). "

entertainment?

Li Yun turned his gel pen, thinking about how to write this composition.

With his current pen ability, he can get 55 points or more (60 full marks) for writing a random article, but if you want to get full marks, you have to work hard!

"Entertainment? Yes!"

With a tick at the corner of Li Yun's mouth, showing a confident smile, he wrote the title of the composition on the test paper stroke by stroke:

""Song and Man Dance""

"Established ritual music since Zhou, "Daya" and "Xiaoya" of "The Book of Songs", "Guofeng" of folk music..."

Li Yun wrote a brilliantly written essay on the test paper, and he glanced at it with satisfaction. The font was clear and accurate, beautiful and generous, and he should not be deducted for this.

In that case, hand in the paper.

Li Yun stood up, the sound of the table alarmed everyone in the classroom.

"What?! Li Yun is about to hand in the paper?! It's only an hour and a half!"

This city-wide mock test is much stricter than the previous mock test in school!

Not only was the invigilator replaced by a freshman or sophomore, but even the candidates were all disrupted. In this examination room, there happened to be two students from the experimental class.

They just wrote the translation of ancient Chinese, did Li Yun hand in the paper?

"how is this possible!?"

"Want to be so awesome?"

"Is this finished? Will you not know how to write, just hand in your papers?"

"That's not right, I won't write anymore, I have to finish my composition, right?"

Whispers sounded in the quiet examination room, and the two students in the experimental class looked strange.

They are almost certain that Li Yun's language will never get a high score!

Because the language is very special!

If you can write subjects such as mathematics, comprehensive science, English, etc., you can hand in papers in just over an hour.

However, 800 words must be handwritten in Chinese, translation questions and reading comprehension questions must be handwritten. How can I speed up this?

It's impossible!

After the exam, Li Yun handed in the paper an hour earlier, and it spread all over the campus in an instant.

Soon, some reporters who wanted to dig out the news about Liu Xianxian's gossip boyfriend immediately posted the news on the Internet after learning the news, which once again caused a lot of heated discussions.

Liu Xianxian, who was traveling for leisure, went to a poor mountain village in the deep mountains. After seeing the news, he couldn't recognize a smile of laughter or cry.

"Li Yun, I really don't know what you want to do~"

Can he get full marks on the test?

Although Liu Xianxian is willing to believe in Li Yun, this kind of thing seems to be a fantasy and can only be seen in legends.

Chapter 114: The evil genius palace Qingyu

Zhonghai Foreign Language Middle School, special class.

As a private aristocratic school in Zhonghai City, although most students of foreign language schools do not need to take the college entrance examination, they still use mock exams to test their academic performance.

Among them, the worst-mixed talents need to take the college entrance examination. As for the others, they have all set up top foreign universities early, and the college entrance examination is just a cutscene.

After the mock math test, everyone gathered to chat.

"Mathematics is too difficult this time, Fang Hao, how much do you estimate you can test this time?" a boy asked curiously.

Fang Hao is a gold medalist in the National Mathematical Olympiad. He was already admitted by the Department of Mathematics of Princeton University by virtue of his outstanding mathematical talents in his second year of high school. The Department of Mathematics of this university has produced many world-class mathematics. Home, there are as many as twelve living Fields Medal winners!

It can be said that being able to step into the Department of Mathematics of the University of Principe is equivalent to half-stepping into the palace of the world's top mathematicians, and the future is limitless!

In addition, Hao Hao above looks very gentle, wears a pair of gold-rimmed glasses, and wears fashion, just like a noble son, in the foreign language school is a strong competitor for the school grass!

"It's normal, about 146 points, the last step is uncertain." Fang Hao smiled modestly.

"Damn, 146 is still so good? Fang Hao is still so awesome!"

"Hey, I heard that the final mathematics question this time was made by Ge Jun himself, and the difficulty is extremely high!"

"Yes, I estimate that the average math score for this mock test is only over 110 points, and the finale is not done by humans!"

"Yeah, the finale question is too abnormal. I only used it for less than an hour before, but the final finale question just wrote a small question, cheating!"

"Tsk tsk, it is estimated that Fang Hao can score more than 8 points!"

Hearing everyone's praise for him, Fang Haoswen's handsome face showed a smug smile, but the next moment, everyone turned the topic to Li Yun again.

Fang Hao's expression was unnatural, and he smiled at them pretentingly: "You don't really think that people who submit papers in less than an hour can get full marks?"

They learned on the Internet that Li Yun not only handed in Chinese papers in an hour and a half, but also took less than an hour for maths, and he walked out of the examination room happily!

"How is it possible! Hahaha!"

"Absolutely impossible! If Li Yun from Longyang County can get full marks, I will cut off my head and kick it!"

"Fang Dashen in our specialty class can't guarantee his full score. Is it possible with a rural area like Longyang County? Hahaha!"

Everyone laughed.

At this moment, one person said, "Gong Qingyu seems to have spent an hour and a half this time."

"Uh?"

The crowd stopped their laughter and looked at a young girl sitting in the classroom who was concentrating on painting and looked very quiet and beautiful, Gong Qingyu.

If Fang Hao is a super genius, then this quiet girl is an evildoer!

Peerless genius of the evildoer level!

She transferred to the special class for two years, and she was in the bottom of all exams, but the entire foreign language school knows that Gong Qingyu is the real number one in the school!

Because she only writes the answers in the exam, she does not write the answering process, nor does she write essays and English listening. Each test takes less than ten minutes to hand in the paper, which leads to a lot of wasted scores.

The teacher asked her why she didn't write more details, and the answer was: I don't want to waste time.

It can be said that Gong Qingyu's talent has surpassed the category of genius and reached an awesome state!

Chapter 115: Go shopping together

Gong Qingyu spends all the time she saves on painting, although her talent for painting is not very good.

But this time, Gong Qingyu seemed to be very different from before.

"She also spent more than an hour on the language test, and it seems that she has written all her essays!"

"It's full? Let me go, is Gong Qingyu going to get the first place?"

"Is it because the college entrance examination is approaching?"

"Fart! Gong Qingyu's origin is very mysterious. Every day there is a luxury car to pick you up and go to school. Obviously, the family doesn't lack money.

Everyone talked a lot, and finally, a girl who had a good relationship with her walked over and asked: "Qingyu, how many points do you expect to get in math for this exam?"

"Full."

Gong Qingyu faintly said a word in a cold voice.

She did not look up and continued to draw on the white paper.

"Full? Full marks?"

Everyone in the specialty class looked at each other.

Gong Qingyu is probably going to be the first in the city this time, and no one is the opponent of this enchanting genius!

Not Fang Hao, not even Li Yun!

On Friday, amidst the uproar on the Internet, the first mock test of Zhonghai City finally ended successfully.

Li Yun had finished writing English a long time ago, and was waiting for Fang Xue and Li Feng downstairs, but at the same time he also waited for Zhou Xianming.

"Humph!"

Zhou Xianming showed a smile that was determined to win, "Li Yun, can you get a full score this time? Do you want to raise more? Whoever has a low score will voluntarily drop out, how about?"

Li Yun waited for a while and made sure that the system did not trigger the option event. He was boring and smiled lazily: "There is no benefit, why should I bet with you? Besides, if I can get full marks, can you also get full marks?"

"Hehe, of course!"

"Naughty!!"

When Zhou Xianming was triumphant, there was a loud shout from the dean of teaching behind him, and everyone around him looked over.

"Zhou Xianming!"

The dean's eyes were very gloomy, and he said coldly: "Didn't I tell you? Don't get full marks this time, you...!"

As if realizing that he had said something wrong, he shut his mouth in time.

Fang Xue looked at the dean curiously: "Don't get full marks this time? Can you get it next time?"

She remembered what Li Feng said before, Zhou Xianming is so confident, is it really asking the dean to steal the test paper?

"I didn't mean that." The teacher's expression was a little unnatural. After giving Zhou Xianming a fierce look, he hurried away and left, still holding a large briefcase in his hand. I don't know what it is.

Zhou Xianming snorted coldly, "Xiaoxue, I was hiding my strength in previous exams. Wait, I will get full marks in this exam!"

Fang Xue smiled politely, "I look forward to your performance."

Zhou Xianming looked at Li Yun provocatively, and said in a low voice: "It will make you proud for two days, and wait until Monday is your death date! Humph!"

"Really? I want to see who died."

"Humph!"

Watching him leave, Li Feng frowned slightly, "This week Xianming..."

"Leave him alone." Fang Xue hugged Li Yun's arm intimately, and said in a lively tone: "Li Yun and Li Yun, it's a rare weekend weekend, shall we go shopping?"

"Uh, okay." Li Yun glanced at Li Feng before agreeing.

Fang Xue pursed her mouth and said reluctantly, "Li Feng, do you want to come together?"

Li Yun was startled, Fang Xue took the initiative to invite Li Feng to go shopping together?

"OK."

Li Feng did not refuse, but agreed with a smile.

Since Fang Xue was pretending to be generous, she didn't have to give in, and fought with her honestly!

Li Yun swallowed, and he suddenly felt that the two women's eyes looked at each other, as if sparks could collide!

Chapter 116: Scholarship, 100,000 yuan

On Monday, Li Yun went to school as usual.

After two days of shopping, and on Friday and Saturday nights, and Li Feng alone in a close chat in the room, Li Yun felt that his nearly 2,000-point strong physique couldn't stand it!

Isn't it terrible to go shopping with girls? Is their physical strength unlimited?

"Morning, Brother Li!" Wang Houliang greeted him, seeing the exhausted look on Li Yun's face, he immediately said with an ambiguous expression: "Brother Li, don't overwork, but you are Our No. 1 in Zhicai High School, a super **** who is close to full marks!"

"Close to full marks?" Li Yun was taken aback, and the students in the teaching also looked over.

"Hey, I have exclusive news about the teacher's change of papers on the weekend!"

Wang Houliang smiled triumphantly, and a boy next to him gave him anxiously: "Quickly, how many points did Brother Li score?"

"Close to full marks? Is it 740 points or more?"

"I'm Cao, Brother Li is awesome!"

"Monkey, I can't wait to announce the answer soon!"

Everyone yelled, Wang Houliang shook his appetite, and then leisurely raised a finger and shook it left and right.

"Monkey, what do you mean?"

"Tingling bell~"n/o/vel/b//in dot c//om

Just as everyone wanted to ask questions, the radio rang out and the flag-raising ceremony began on Monday.

Everyone wanted to urge Wang Houliang, but he smiled mysteriously, saying that he would understand later!

Li Yun smiled and followed everyone to the playground.

After the flag-raising ceremony, there is a regular speech under the national flag, and a representative from each shift will take turns to give the speech.

At the end of the speech, it is the principal's remarks, but usually the principal does not show up. It is the deputy principal and the dean of teaching who emphasize the weekly notes.

But this week is exceptionally different.

The principal took vigorous steps, three steps in two steps, with a vigorous face and a spring breeze, he walked onto the stage, holding a microphone and said to everyone: "Dear students, today, I want to announce to everyone a great news!"

"Great news?"

There was a commotion among the two thousand classmates in the audience. Some people who were as well-informed as Wang Houliang guessed something and began to excitedly tell the people around them that this caused the commotion even more.

"Close to full marks?"

"how is this possible?"

"What? Are two close to full marks? Except for Brother Li, who else?"

Experimental class.

Zhou Xianming's eyes were gloomy. He was very surprised when he learned that Li Yun had also passed the test close to full marks, but the most damning thing was that the director of teaching refused to disclose the news to him, as if he was afraid of something!

"Hmph, they are all close to full marks, then let's see who is higher!" A smug flashed in Zhou Xianming's eyes.

The gunmen he sought were all students from key universities, and they wrote brilliantly literary articles, and they could definitely get full marks in Chinese essays!

Sure enough, the next sentence of Principal Wang was to say that in the mock exam last week, the grades of high school third-year candidates were gratifying, especially the emergence of two super geniuses, which made the principal extremely happy.

"Now I solemnly announce that for the top ten candidates in this grade, the school will hold a commendation meeting in the afternoon. The scholarship for the first-place student is—"

The principal paused, and when everyone was holding their breath, he shouted: "100,000 yuan!"

"One hundred thousand yuan?!"

Wang Houliang yelled exaggeratedly, and the students around him were also very shocked. They all looked at Li Yun with envy and jealousy.

It's too easy to earn 100,000 yuan for a mock exam!

Zhou Xianming sneered, 100,000 yuan could only be his!

Chapter 117: Zhou Xianming, 747 points

The voices of 2,000 classmates made the playground instantly lively. The principal didn't stop him, but showed a satisfied smile. After the classmates' comments diminished, he said:

"Next, I announce the names and scores of the top ten classmates in this mock test of Zhonghai City."

"Tenth place: Senior third experimental class, Pan Qiaojin, score: 654!"

"..."

"Fifth place: Senior three experimental class, Fang Xue, score: 687!"

Fang Xue pursed her small mouth and glanced at the side of her standing in front of her with a smile on her mouth, like Li Feng who was very proud of her.

This guy's score is higher than her again!

Fang Xue was a little discouraged, could it be that she couldn't compare to Li Feng?

Sure enough, the principal went on to read: "The third place, the experimental class of senior high school, Li Feng, score: 701!"

"All are experimental classes."

Li Yun smiled when he heard Wang Houliang's mutter.

The experimental class is a genius class of Zhicai High School. Generally speaking, the top ten of each grade come from the experimental class.

But this time, the students in Class 14 are about to break their monopoly!

Looking at the direction of Class 14, Zhou Xianming sneered at the corner of his mouth.

"Second place, experimental class..."

What? !

Before the principal could finish a sentence, Zhou Xianming's expression turned into a deep shock. The second place was the experimental class?

Could it be someone from another experimental class? Li Yun did not enter the top ten?

"...Zhou Xianming!"

When he heard his name from the principal, Zhou Xianming was completely dumbfounded.

He didn't get the first place by cheating, how could this be possible? !

Who took the first place?

Is it to teach the director to be a ghost, and don't want to give him full marks, for fear of revealing the leak of the test paper?

In an instant, Zhou Xianming wanted to kill the **** * of the dean! !

The principal said with regret: "It's a pity, it's a pity that classmate Zhou Xianming's score is infinitely close to the full mark, but there was a slight mistake in Chinese composition and mathematics, and he failed to get a full mark. So students, you must be sure when you take the exam. Be careful and be careful!"

Zhou Xianming's head buzzed. He did not check the composition at the time, and he handed in the paper after he finished writing.

The reason for not checking was because the director of teaching had to send the test papers to the gunner outside the examination room, and asked them to write the test papers before sending the answers to him. Of course, there was no time to check.

"Finally, Zhou Xianming's score is: 148 in Chinese, 149 in mathematics, full score in science and comprehensive score, full score in English, total score: 747!"

The principal's words caused another sensation among the two thousand students.

"I'm a tortoise, 747? Do you want to be so awesome?"

"Awesome my brother!"

"My mother, 747 is the second place, the score for the first place is..."

"Brother Li is awesome! Brother Li must be the first! Right?"

"The principal, hurry up and announce that Li is the first!"

Hearing the roaring sound from the 14th side, Zhou Xianming's face was darkened to the bottom of the pot. He looked at Fang Xue again and found that her eyes seemed to be able to emit light. He looked straight in the direction of Class 14. Looking proud of his boyfriend, Zhou Xianming's face became a little darker again, and he almost couldn't help running away!

"No, it's impossible!" Zhou Xianming clenched his fists and muttered angrily: "How can that little crouch be the first?!"

"The first place--" The principal Chunfeng got full marks, without a trace of regret when he said Zhou Xianming's ranking, and smiled: "Guess which class you are from?"

Chapter 118: Li Yun, 749 points

"Class 14!!!"

In the audience, nearly a thousand classmates shouted in unison.

"Yes, I won the first place in Zhicai High School in this mock test of Zhonghai City, and he is also the top student in Zhonghai City. He is from Class 14 of Senior Three-Li Yun!!!"

The principal's passionate words completely ignited the enthusiasm of the two thousand classmates. Everyone shouted Li Yun's name. The people in Class 14 were even more excited. If the occasion did not allow it, Li Yun doubted whether they wanted it. Throw him up to celebrate.

"Li Yun~~!"

Fang Xue flushed with excitement, and took a few deep breaths. The well-developed place was ups and downs, and she barely suppressed the joy in her heart.

Li Yun won the first place, surpassing Li Feng to win the first place than herself, which made Fang Xue more happy and joyful.

"impossible!!!"

Amidst the cheers, there was a discordant sound, which made the cheers of the crowd slowly stopped, and they all looked towards the direction of the experimental class.

The principal's face sank, "Zhou Xianming, I know you only took second place, and I feel uncomfortable, but I shouldn't question Li Yun's score!"

The surrounding students looked at him with pity.

If you change to any school, Zhou Xianming's score will be enough to get the first place, even a few points away from the second place.

However, Zhicai High School has Li Yun, an enchanting genius, who not only sold three million with one piece of music, but also beat Zhou Xianming, who was 747 points!

Zhou Xianming's handsome face flushed, and he stubbornly said, "I rely on... In short, I don't believe that Li Yun's score is higher than mine!"

He scored 747 points by cheating. Why is Li Yun even higher than him? !

"Huh! Stubborn!"

The principal said coldly: "Li Yun's score is 749, but!"

Looking directly at Zhou Xianming, the principal said every word: "Li Yun's real score is full marks, 750 full marks, but for certain considerations, all of our leaders unanimously decided to deduct one point for Li Yun's composition."

Li Yun was stunned.

What is this operation?

Why is he deducted a point for his composition?

But the students around were stunned again, full marks, really full marks!

Li Ge said before that he wanted to get full marks, but he did it, it was full marks!

As for why the points were deducted, according to Wang Houliang's statement, 'probably the principal didn't want Brother Li to make you too popular? '.

Zhou Xianming's expression was unpredictable, and finally he glanced at Li Yun coldly, and walked towards the school gate without saying a word.

He actually left the school in spite of the fact that he was still raising the flag!

This time it was the turn of the principal's face that turned into the bottom of the pot, and his face was dark and announcing that this flag-raising ceremony was over!

"Li Yun~"

Fang Xue couldn't wait to trot to Li Yun's side, gave him an excited hug, and said happily: "Li Yun, you are so amazing~, your sister can't beat you at all, hehe~"

Li Feng, who was following her, gave her a roll of eyes, praised her brother and praised her as much as possible. Why did she bother her?

However, Li Yun's first place made her more happy than Li Feng's first place.

Wang Houliang looked at him with envy, muttering something, "Brother Li is the winner in life. Not only does he have good grades, but also the school flowers give him a hug."

"It always feels a bit strange for Zhou Xianming to get the first place."

Li Feng frowned Liu's eyebrows, "With his ostentatious character, it shouldn't be your younger brother's constrained character."

"Who knows, let him go, anyway, I took first place."

Li Yun shrugged and didn't care about it.

Chapter 119: Strongly condemn cheating (part 1)

There are many people in Zhonghai Foreign Language Middle School who have the same questions as Li Feng.

The difference is that they not only doubt Zhou Xianming, but also Li Yun.

"It's a pity that we didn't get the first place in the mock exam this time, and it was not the first and third middle school people who got the first place."

"The person who got the first place in this mock test is Li Yun from Longyang County Zhicai Middle School!"

"His total score is 749 points, one point higher than our classmate Gong Qingyu!"

When the head teacher formally announced the news, all the students in the special class were dumbfounded.

Gong Qingyu stopped the paintbrush in his hand, and rarely raised his head to look at the teacher in charge. With big cold eyes, he seemed to be asking, is this true?

She had used all her strength in this exam, but she was still deducted two points for Chinese composition and only got 748 points.

Li Yun from Longyang County is better than her?

Gong Qingyu was curious about a boy for the first time, and some wanted to know who he was. "impossible!"

Fang Hao looked at the head teacher on the stage with piercing eyes: "I don't believe this is true. Will anyone in rural areas like Longyang County get full marks in mathematics? And according to the head teacher, not only is one person getting perfect scores, but they want The first and second places in the high school are all full marks in mathematics. This is impossible!"

All the students agreed very much.

Even Fang Hao, the Olympic mathematics gold medalist and a super genius who was admitted in advance to the Department of Mathematics of the University of Princeton, Fang Hao failed to get a full score. Why is the country school? !

"Moreover!" said a classmate bitterly: "According to what I saw in the post bar, the two people from the country school usually scored less than 700 points, and Li Yun was a poor student, only 300 points It's expected, how could he get 749 points?"

"300 points?"

Everyone smiled disdainfully, they could score 300 points in one subject!

"It must be cheating!"

"Yes! The country school in Longyang County cheated collectively!"

For a time, the sentiment in the special class class surged.

"I basically agree with you." The class teacher did not stop, but pushed his glasses, and a flash of light flashed in his eyes: "Our super genius Gong Qingyu from the foreign language middle school special class can only get 748 points. Zhicai High School Why surpass us?"

Being surpassed by a country school, he is definitely not convinced as the head teacher!

Not to mention that he was not convinced, the Foreign Language Middle School and the 100,000 candidates in Zhonghai City were not convinced!

Post it in Zhonghai No.1 Middle School.n/o/vel/b//in dot c//om

After learning that the first place in the first mock test was actually won by Li Yun from the country school, the post bar instantly burst into action.

"I'm not convinced! The No. 1 Middle School, No. 3 Middle School, and the Foreign Language Middle School are no better than a small country school?"

"[Oh]! Strongly protest against the collective fraud in the country school!"

"Can Zhicai High School be shameless? This time the math is so difficult, they actually got two full marks! Too fake!"

"If you don't understand, just ask, is the senior elder sister of our school the worst one?"

"Strongly condemn the cheating of Zhicai High School, and suggest that the principal lodge a protest with the Education Bureau!"

One hundred thousand candidates from No. 1, No. 3, No. 16 and Zhonghai City all expressed strong doubts about the results of this exam. They posted protests on Tieba, Weibo, Tribes, buckle spaces and other forums.

For a time, the entire network instantly spread the results of this mock test in Zhonghai City, as well as the suspicion of Zhonghai City candidates about Li Yun and Zhou Xianming!

Chapter 120: Strongly condemn cheating (below)

"Congratulations to Li Yun for scored 749 points [smiley face], but you are a gaffe, you didn't get full marks, hehe~"

Liu Xianxian reposted Zhicai High School's Weibo about Li Yun's winning the first prize in the mock exam, full of playful words that made her fans irritated again.

"Xianxian, don't be fooled by him!!!"[n/ô/vel/b//jn dot c//om](#)

"Yes, Li Yun is definitely cheating, otherwise it is impossible to score 749 points!"

"Strongly condemn the despicable and shameless act of cheating!"

"[Vomit] Li Yun really makes me sick. It's fine to get full marks when you speak wild words. You can't even get full marks. As long as you have 700 points or more, I won't say anything about you, but this guy cheated, it's so shameless!"

Thanks to Liu Xianxian's huge number of fans, there are nine topics about Li Yun and cheating on Weibo hot searches!

Had it not been for a traffic star official announcement, I am afraid that the hot searches would be all topics related to Li Yun!

Inside Beijing Noble Middle School.

"This cook is too shameless!"

Yuwen Huayu looked indignant and said to Hu Xiaomeng: "Xiaomeng, I am afraid you were deceived by him. This person said that he could get full marks in the test, but he really got full marks in the test!"

"Huh?" Hu Xiaomeng opened his innocent eyes, "Why can't Brother Li Yun get 749 points in the test?"

A flash of mockery flashed in Yuwen Huayu's eyes. Hu Xiaomeng in front of him was really an idiot. He could fascinate her with a little trick.

But at that time, the huge power of the Hu family can be used by him!

"749 points are impossible!" Yuwen painted feathers and explained patiently: "It is difficult to get a full score without speaking about Chinese composition. Let's say that the difficulty of the finale of Zhonghai City's mathematics test paper is very surprising, and that chef is impossible. Get full marks!"

"Huh? Is that true?"

Hu Xiaomeng blinked, but there was some doubt in his heart. Did Li Yun really do something that surprised her again?

In this way, Hu Xiaomeng's interest in Li Yun is even greater!

"Xiaomeng, come and see!" a girl said with her mobile phone, her eyes widened: "Sure enough, someone cheated in Zhicai High School!"

"What? Really?"

Hu Xiaomeng was so surprised that he had forgotten to pretend to be innocent, but no one paid attention to her now, and they all leaned in to look at her.

"Zhou Xianming's test paper is published?"

"Then it was discovered by netizens that his answer was almost the same as the standard answer!"

"Strange, why is there a standard answer right away? I remember that the standard answer is only sent after the exam!"

"After all, it's a mock exam, not too strict."

"So, Zhou Xianming, no, even Li Yun and Zhicai high school students are likely to cheat?"

"Sure enough, the cook is a cook after all, and will never be on the countertop!"

Yuwen Huayu sneered. Now it is impossible for Hu Xiaomeng to have any strange feelings towards Li Yun, right?

After Hu Xiaomeng confirmed that the news was correct, he bit her blush little lips and did not speak.

Li Yun, really cheated?

On the other side, Principal Wang was sweating profusely. He wanted to release Zhou Xianming's test paper to block the discussion of many netizens, and then released Li Yun's test paper in one fell swoop.

Unexpectedly, Zhou Xianming's test paper was compared by sharp-eyed netizens, and the answer was almost the same as the standard answer.

For example, the process of solving math and physics problems, as well as the reading comprehension of Chinese, the expression of biological problems, and so on.

Except for the replacement of some key words, Zhou Xianming's test papers and standard answers are completely translated into Chinese, and there is no change at all!
