

## Godly Choice 1231

Chapter 1231: Brothers

Li Yun shrugged innocently, "As the captain, shouldn't you take the lead? Don't complain, he is running away. Since the captain's hands are dirty, just go up and tie him up."

Everyone laughed again, Shangguan Ming gave Li Yun a roll of eyes, rushed up again cursingly, and captured the savage who wanted to escape, and swiftly tied him to a tree.

"Ding, the host made a choice, caught the savage, rewarded justice value +50, green gift bag\*1, experience value +100,000, extra reward: intermediate recovery pill\*1, wisdom +200."

Li Yun smiled, and forehead reward? good.

"How to deal with this savage?" Gu Jian glanced at everyone, "Should we tie him here and let General Xia send someone to take him out?"

For the savage, everyone was very curious as soon as possible, but they were not too surprised.

Generally speaking, the so-called savages are not sub-races, but because of various reasons they hide in the mountains and forests and do not communicate with modern society so they become savages.

Wars, family reasons, psychological reasons, or simple madness can all become savages.

Everyone can also see that although the savages in front of them are all black, they are basically the same as normal humans in terms of limbs and facial features. They are not cavemen, Shennongjia savages, and so on.

Shangguan Ming nodded and said: "Okay, just do it, Gu Jian, please inform us, we will continue to set off, time is not waiting."

"and many more!"

Li Yun stopped him, and looked back and forth at the savage: "I'm afraid it's not as simple as a savage."

"Huh? What do you mean?"

Shangguan Ming now doesn't dare to question Li Yun's words.

This guy perceives something coming from a hundred meters away, and can determine with certainty that the other person is a human. Although he doesn't know how he did it, Li Yun's magic has already given him a deep psychological shadow.

—This guy is very strong, what he says is not aimless, he only speaks for a purpose!

"That's what it means." Li Yun took out the medium recovery pill that the system had just rewarded, and when the savage yelled, he flicked the pill into his mouth.

If it's just a savage, the system will not prompt that killing him will have a justice value, hasn't the savage killed someone?

Everyone frowned, not as simple as a savage, so where did he come from?

There are very few villages around here, and most people don't go into the forest so deep. Could it be that...

"He is one of the hostages?!"

Shangguanming's teammate under the pseudonym Zhang San shined, but Li Si gave him a roll of eyes: "How is it possible, only three days have passed since the hostage was taken, and this savage has obviously lived in the mountains and forests for a month, it's impossible. Hostage."

"That's right... Is it a robber who divides the spoils unevenly?"

Everyone was suddenly excited, this savage is not slow, it is really possible that he is a robber!

"Li Yun, you have a way to cure...I'm Cao!"

Shangguan Ming was depressed again.

When he first asked, Li Yun's medium recovery pill had already started to work, the savage's roar stopped, his eyes became confused, and then he turned into panic.

After all, as soon as he woke up, he saw 12 heavily armed soldiers standing in front of him, and he didn't faint because of his greatly enhanced psychological endurance.

"Everyone, brothers."

Chapter 1232: Wang Da

The unknown savage gave a pleasing smile, which caused a few holes in his dark face, and the mud fell into his mouth, making the savage startled.

"Why is it so smelly?"

"I'm Cao!"

"vomit!"

After regaining his senses, the savage himself couldn't stand the stench on his body, and he vomited again and again, only to vomit a lot of strange things.

The fur, carrion, bones, stones, wild fruits, etc. of small animals.

I don't know how much weird "food" he ate when he went crazy in the mountains and forests.

"It's all right, don't throw up!"

Li Yun drank quickly to stop him, and then he would vomit again.

The savage vomited pale, his memory only reached the moment he escaped, and then he couldn't remember. Judging from his current situation, he had been around the mountains for a long time before he was caught by these people.

"I ask, you answer, understand?"

Tolerating the discomfort, Li Yun began to ask: "What is your name?"

The savage froze for a moment, then hesitated, "Zhang, Zhang Xiaohua."

boom.

Li Yun kicked it unceremoniously, causing the savage to scream in pain, with a twisted expression on his dark face.

"You know?" Li Yun's tone was flat: "I can save you from your madness, and I'm sure that you can't survive, even if you die, I can use magic to pull your ghost from the underworld. Come out, understand?"

"Spells!?"

The savage's voice trembled, his eyes looked at him in disbelief, and a smile appeared at the corner of Li Yun's mouth: "It seems that you have seen spells and know practitioners, right?"

Shangguanming and the others had weird faces. They were taken aback by Li Yun's words. Is there really a \*\*\*\* in this world? When people die, will their souls be taken away by the legendary cow head horse face?

"Let's talk." Li Yun did not answer their doubts, and asked: "What is your name?"

"Wang Da." The savage answered honestly. Li Yun raised his eyebrows and was about to fight. Wang Dalian hurriedly shouted: "Brother don't fight. My name is Wang Da. I live in Zhoujing Village, Nanhe City, Zhenguan Province. , Absolutely not lying!"

Li Yun gave Shangguan Ming a look and motioned him to call someone to check the details of Wang Da.

"I believe you can see it too." Li Yun continued: "Our official people came to solve the hostage kidnapping, and they happened to meet you in the forest. It's fate, right?"

"Yes, brother, you are right!" Wang Da continued to please smile.

Li Yun flexed his fingers again, and a burst of true energy shot out, interrupting the rope on Wang Da's body, and Wang Da knelt down instinctively, just about to make the movement of all four feet on the ground, and suddenly he came back to his senses.

"I'm Cao!"

Wang Da restrained his body's instincts, his face was frightened and angry. He has been running around in the mountains and forests in the past few months, and his body has initially formed the instinct to walk on all fours.

Everyone was very surprised. Li Yun could use an unknown pill to directly cure a wild man who had been crazy for several months. This magical method was breathtaking.

Li Yun smiled and said, "It seems that Wang Da, you have lived here for a while, and your strength is not low. You know the existence of Zhenqi, and you know the magic. Let's talk about who you are. ?"

Wang Da sat on the ground in general, and Li Yun reminded him: "If you can honestly confess, the authorities can characterize you as surrendering yourself and committing meritorious service. As long as you are not a murderous gangster, the judge will tell you about it. , The big crime is reduced to the small, the small crime is reduced, understand?"

Chapter 1233: Those people are monsters

"Understand, I see, brother!"

With the big stick and the radish, Wang Da's psychological defense was completely melted away, and he said dejectedly: "I'm a poacher. I used to sell some game with a group of brothers in the Hengtian Mountains."

"It's that simple?"

"Really, big brother, I don't lie to you. Although I poached, I have never killed anyone!" Wang Xiaoxin took a peek at the group of people and couldn't help swallowing.

From his eyes, how could he not see that this group of people are all powerful men who have experienced many battles, and the murderous aura on their bodies attracts them but still makes him tremble.

"Speaking as if he were a good person."

Li Yun smiled, and Wang Da's body shook again. On the contrary, he was most afraid of the youngest in the group.

He kicked it out between talking and laughing, and there was no interrogation process at all, which made Wang Da suspect that he was a murderous demon at all!

Shangguan Ming has a weird face. Is he the captain or Li Yun?

However, this guy is really under twenty years old? How often does the method follow one set, and it doesn't look strange at all.

Li Yun ignored their weird gazes, and continued to ask: "What's the matter with oratorics, and what happened to you? Why did it become like this."

"This....."

Recalling that incident, Wang Da's pupils shrank, and his lips trembled: "Big brother, can you not tell me? Really, I really urge you guys, don't save those hostages and let them fend for themselves. Good, those people are not people at all, they are monsters!"

Everyone's face changed slightly, and it turned out to be the same as the rumored six magic gates, with monsters such as spells, gu worms, and zombies!

This action requires caution. Shangguanming had worked in dangerous areas abroad and solved many hostage-taking cases, but this time is definitely different from all previous kidnapping and kidnapping cases!

"Do you think we are ordinary people?" Li Yun asked him with a smile.

Wang Da was stunned for a long time before he smiled bitterly: "Big brother can heal my brain and relieve the things that monsters impose on me. It seems that big brother is also superb and might be able to deal with those people."

"So hurry up and say it, young mother-in-law!" Shangguan Ming cursed and shouted, "Where are the hostages?"

Li Yun gave him a look, and Shangguan Ming was like Shangguan Lingxian, his brains were not very good.

"What hostage?" Wang Da was puzzled.

"Do you still dare...I'm Cao!"

Only then did Shangguan Ming react. Wang Da has been living madly in the mountains and forests for a few months, apparently unaware of the hostages four days ago.

"I really don't know what hostages are!"

Wang Da argued: "Three months ago, no, no, I don't know a few months ago, anyway, before the Spring Festival, our brothers were trying to do more before the Spring Festival, grab a few game meats and sell them back. After a good year, I ran into those monsters!"

"Eat game? Be careful to get sick."

Li Yun said lightly, wild animals have many infectious diseases. Animals are okay, but it doesn't mean that people are okay.

Besides, the ancestors worked hard for tens of thousands of years to domesticate poultry such as pigs, dogs, cattle, sheep, chickens, ducks, etc., but later generations would not eat them. Isn't this a pit ancestor?

"Yes, brother, you are right. I will never eat or catch game in the future!"

Wang Da was cheeky and flattered. After Li Yun asked, he told the terrible scene that happened later.

Chapter 1234: The tragic experience of Wang Da

"Those weird people are expressionless, all of them are strong and physically strong, I guess they are at least congenital, there are more than twenty!"

"As soon as we met, those weird people caught our brothers and forced us to work for them, grass!"

Wang Da cursed and said: "They are congenital masters, but they do what ordinary workers do. They tear down trees, clean up the ground, and get piles of cement and stones from the forest to organize a long runway."

Everyone glanced at each other, without thinking, this runway must be used to land the hijacked plane.

Only innate masters can build a runway in an area with high mountains and dense forests. If it is replaced by an ordinary engineering team, it can't be completed without three or five years of repair.

More than twenty innates can be regarded as a first-class school in the outside world, but under the demon's command, they can be easily assembled.

Li Yun frowned slightly and asked, "Your job is also to repair the runway?"

"No." Wang Da shook his head, with a strange expression on his face: "It was hunting and cooking for those people. They didn't communicate with each other. Even though they still ate, I still think they are not humans, they are puppets manipulated by others!"

"puppet?"

"Correct!"

Wang Da's tone trembled: "After the runway was repaired, an old man with a thin body came. He was very satisfied and said to us: "You are doing a good job. You can stay by my ancestor and be a servant of the service. This is Your honor!', then, then..."

"What happens next?"

"Then the old man took a look at my brother, and a red light appeared in his eyes. As soon as my brother's body became stiff, his whole body became stupid, and the corners of his mouth flowed out of saliva, just like a fool in my village! "

When Wang Da thinks back now, he still feels the creeps.

Watching the former brother be turned into a puppet is even more frightening than being killed!

"People have three souls and seven souls. It's not surprising that people use their divine consciousness to disturb the sea of knowledge and become a lunatic."

Li Yun explained the mystery, regardless of whether they understood it or not, and continued to ask: "Then how did you escape?"

Wang Da smiled bitterly, "God opened my eyes. At that time, I was trembling with fear. I couldn't walk at all, and I didn't even have a chance to escape."

"It turned out to be my turn. When I was so scared that I was peeing on my pants, the shriveled old man suddenly stopped, cursed that the stinky watch was too intrusive or something, and then sat down."

"After I slowed down, the more I thought about it, the more I felt that I could not stay longer. Even if I was killed, it was better than becoming a fool!"

"At that time, I ran without care, but somehow, none of the innate masters came to chase me. Only the old man sneered. The voice was very clear. I just felt a pain in my mind and rushed in randomly. In the dense forest, then I don't know anything."

After finishing speaking, Wang Dachong and Li Yun nodded and bowed in gratitude again. The eldest brother yelled and said that eldest brother you are my living parents.

"okay."

Li Yun called him impatiently: "You can escape a catastrophe and fortune telling your fortune. It may be the reason why your natural mental power is relatively strong. The original mental shock will directly abolish you, and you will not even be able to walk. Animals and vegetatives."

Hearing that, Wang Da wiped the cold sweat from his forehead. He was able to become a madman and lived in the mountains for a few months. He happened to meet Li Yun and cured his madness. It was a blessing and good fortune!

#### Chapter 1235: Spiritual Power Charm (Part 1)

But Li Yun's next sentence changed Wang Da's face greatly: "What, big brother, you want me to lead the way to find those monsters?! No, no, no, I won't go, nor will I go to kill me!"

The mental shadow that the thin old man gave him was too great, and Wang Da was unwilling to go back and face him after he killed him!

"Don't you dare to go!?" Feng Xuemei, the only female player in the team, flashed her fist. Wang Da shook her body with fright, but she still bit her scalp and said she couldn't say it, and she won't go to death!

"Wang Da, do you think you still have a choice?"

Li Yun ignored him, took out a few men's clothing from the inventory and threw it over, and said in a tone of voice: "Put on the clothes and walk with us. I have roughly determined the location of the group. You only need to recognize the location. , Do not need to be close.

As long as you complete this task, if there are no other crimes, I believe the judge will help you out, understand? "

It was another means of guilt and meritorious service, but Wang Da couldn't refuse at all. This eldest brother acted too domineering!

"...Well, I'll take you there, big brother, I believe you will keep your promise, I will take you to the neighborhood, and you will let me go."

Perhaps seeing the magic of Li Yun taking out the clothes out of thin air, Wang Da reluctantly agreed, but he was worried while holding the clothes: "But a few big brothers, how do I wear this..."

Everyone laughed, Wang Da is now dirty and unreasonably dirty, and the clothes he put on turned into a beggar's attire within a few strokes.

"Just wear it like this, what do you want to do?"

Li Yun glanced at him, and looked forward: "When you encounter a puddle, you will wash it again. Now there is no time. Let's set off right away!"

Wang Da had to admit his fate, pinched his nose and put on his clothes. He didn't know when his original clothes were damaged. Fortunately, he was a warrior in the body tempering realm, and he could barely survive in the mountains and forests.

"Ding, the host makes the right choice, rewards justice value +1000, a random martial arts skill upgrade: Qianjun leg technique is upgraded to master level, and random purple items are obtained: spiritual power charms (a stack of 12 sheets.

"Spiritual power spell: After chanting the spell, stick it on the weapon to temporarily increase the attack power and cause damage to ghosts."

When Li Yun raised his eyebrows, Wang Da was treated with the correct choice reward. This is really a surprise!

Moreover, a stack of spiritual power spells is exactly 12, which seems to be specially rewarded by the system, and each person has exactly one!

But Li Yun doesn't need this thing, and can give an extra one to Shangguan Ming.

"Everyone, I will give you a good thing."

Li Yun smiled at Shangguan Ming and the others, distributed the charm to everyone, and told them the function of this thing.

"Improve weapon attack power temporarily?" Shang Guanming's face was full of surprise and curiosity. He carefully looked at the spiritual power charm in his hand. This is a special piece of paper with some strange lines painted on it. I don't know what it is. The origin, looks very strange.

"Can you stick it on a sniper rifle?" Sharpshooter Wei Chao asked, and everyone looked over.

If this thing can enhance the power of bullets, it would be too strong! If you can kill Xiantian with one more shot...

"You can try, it just happened to have one more."

Li Yun also didn't know the exact effect. Logically speaking, the spells portrayed by practitioners such as Fanqingsheng could not strengthen bullets, but the rewards of the system were inaccurate and could only be proved through experiments.

Chapter 1236: Spiritual Power Talisman (Part 2)

"Okay, Wei Chao, come and try the effect of this thing."

Shangguan Ming very much agrees that it is not a good thing to temporarily increase the weapon's strength. If you don't understand the weapon's performance and shoot it out, the result is too powerful, and the hostages are shocked to death, that is too wrong!

"There is a big rock over there, Wei Chao, hit it there." Feng Xuemei pointed to a huge boulder full of moss and vines in the distance, surrounded by five people.

"Okay!"

Under the gaze of everyone, Wei Chao took out the guy he was eating-a heavy sniper rifle, with a total length of 1200 mm, enough to shoot through a wall within a kilometer. Any acquired warrior would fall to the ground with a single shot. As for the saying that ordinary people don't have a second shot at all, it's not an exaggeration to shoot directly into the head, but a fact.

With strong physical stamina and skilled shooting skills, Wei Chao didn't set up a sniper rifle at all, so he picked up the sniper rifle and stuck the spiritual spell on it.

Simultaneously read the spell: "Knock the five magic soldiers, Kaifeng spiritual power, slay demons and demons, kill!"

Everyone was surprised to see that the spiritual power spell exuded a faint brilliance, which was attached to the sniper rifle by Wei Chao. There was no superglue, but it just didn't fall off.

"This thing...!!!"

Wei Chao swallowed. He could feel the extraordinary charm of the spell. He trembled slightly with excitement. After taking a deep breath, he raised his gun to aim.

"boom!"

The sniper rifle sounded, not much different from the usual gunshots. It was just a little bit harsh in the mountains and forests. After the bullet was shot, it went silent, making Wei Chao and the others surprised.

It stands to reason that when a sniper rifle hits a boulder, it should make a very loud sound. After all, the bullet penetrates into the stone, which is like an explosion.

Everyone was unclear, so Qian Shuxi ran over to take a look, and suddenly gasped.

"Oh my god! I broke it!!!"

"What to break through?"

"Break through the stone?"

"No, it's impossible, isn't it? I, Cao, really broke through!"

Everyone gathered around to take a look, and they were all shocked.

The bullet directly pierced the boulder held by the five people. Looking into the bullet hole, you could see the light on the other end. The bullet had already flown to an unknown distance.

Shangguanming's eyes widened, "This attack power... the mid-innate people who are in the middle of the innate level will die directly. The attack power of this spell is too strong, right?!"

Wang Da was so frightened that his legs were weak. Fortunately, he hadn't thought of running away before. If he was hit by this thing... it's hard to imagine!

Wei Chao held his beloved sniper rifle in a stunned position, holding a large-scale killer capable of killing innate masters in his hand, saying that it is not shocking to be fake.

Everyone's gazes at Li Yun became fierce. If there were more spells, the group of them could directly harden the bandits without support at all!

Li Yun was a little puzzled. The power of the spiritual spell + heavy sniper rifle is stronger than his Silvin pistol. Fortunately, the Silvin pistol is an automatic replenishment of bullets, which can shoot 16 times in a row and has an attack power against ghosts and zombies. Stronger.

"It's a pity that I forgot how long the test spell lasted." Shangguan Ming was quite regretful. The rune paper pasted on the gun was dimmed and obviously no longer effective.

"I remember it was about 10 seconds."

Wei Chao loved this spiritual spell and said with a smile: "But even if only one shot can be fired, the effect of this thing is amazing. As expected, Mr. Li Yun can make such a powerful spell!"

He slapped Li Yun's flattery, but everyone nodded in agreement. Even Shangguan Ming gave him a thumbs up, making Li Yun a little embarrassed.

"Ahem, it's almost done, let's continue on our way."

Chapter 1237: Find a shoe

The team continued to move forward, and without knowing it, Li Yun had become the backbone, as if he would be able to succeed in this operation.

"Wang Da, are you here?"

"Uh, not yet."

"Wang Da, do you feel familiar with the neighborhood?"

"can not recognize."

"Where is that mountain?"

"No impression, it seems that it is not there... There are two high mountains in that place, and the runway is at the foot of the mountain."

Along the way, everyone kept asking Wang Da whether the nearby terrain was the place where they built the airstrip. Wang Da was confused. The more he was asked, the stranger he felt to the original place.

—He found a puddle on the road and washed his face. Now his expression is very dumb.

The female team member Feng Xuemei was angry and raised her fist and shouted: "I think you deliberately didn't want to take us there for fear of being caught again, right?!"

"Big brothers, no, big sisters, it's not right... Big brothers and sisters!" Wang Da almost cried, "I really can't remember, just like Big Brother Li said, I was hit by something in my head. Now, plus two months have passed, how can I remember it!"

He already knew the estimated time. Before and after the Spring Festival, he was caught by the monsters, repaired the runway for three months, and then ran away, running around in the forest for two months until now.

Everyone was speechless. They thought that with the guidance of the jade pendant and Wang Da's recognition of the way, they could quickly find the culprit's hiding place, but it was still so difficult.

The Hengtian Mountains are too big!

To find a place inside is like looking for a needle in a haystack.

What's worse is that Li Yun's jade pendant will have to wait a while before it can be used.

"Um?"

Suddenly Li Yun noticed something. He stepped aside and kicked away the leaves piled up on the ground.

"What...shoes!" Shangguanming's eyes lit up, seeing traces of human activity in Liao's uninhabited forest, it was as pleasant as seeing his father.

"My Cao!" Wang Daguai shouted, "Aren't these my shoes?"

"what!?"

Everyone was even more surprised. A team member picked up the shoe and took it in his hand, and shouted to Wang Da, "Are you sure these are your shoes? You wore them three months ago?!"

"Correct!"

Wang Da nodded firmly: "AdidasGTX, it cost me more than one thousand yuan, it's expensive, hehe."

"Your money is obtained from illegal crimes. What to show off!" Li Yun wanted to pat his head, but considering that this guy's hair hadn't been washed for two months, he didn't dare to start.

Li Yun didn't fight, but Wang Da shrank his head and said with a flattering smile: "Brother Li has taught me that if I don't buy Adidas in the future, I just buy a pair of ordinary shoes!"

"From the analysis of traces, there is no dirt inside the shoes. It should be Wang Da that you removed the shoes soon after you escaped." A player who is very proficient in this area analyzed the shoes and said: "This also means , The airstrip is nearby!"

If Wang Da mad wears it for a long time and runs for a long time, the shoes will likely be dirty inside and outside. As for the first three months of waking state, it is impossible to get dirty inside and it is uncomfortable to wear.

Wang Dalian nodded hurriedly, patted his chest and said that there was absolutely no dirt in his shoes during the first three months of his abduction. He had washed it!

"Take out the map and compare it." Li Yun looked at Gu Jian.

"Yes!"

Gu Jian immediately took out a notebook, obtained the satellite map, and began to analyze.

Before relying on the jade pendant, they had already drawn a line on the map, combining the current situation and Wang Da's words...

"High probability, it is here!"

Chapter 1238: Stealth

The Yixiantian Valley was temporarily named by the people. After arriving near this place, Wang Da was already pale with fear and his body kept trembling.

No need to ask, this is where he was caught by the monsters and the airstrip was built for three months!

"There... there doesn't seem to be a runway either."

Everyone was standing on a low mountain at the moment, Wei Chao was condescending, looking at the situation in the Yixiantian Valley with binoculars, but did not notice anything.

At first, when he couldn't see the runway with satellites, he thought it was because the enemy had spread green paint on the runway, mixing it with the colors of the mountains and forests.

But now that the naked eye has personally observed it, there is no abnormality in the valley, not to mention the long track, there is not even a trace of human activity!

"what?"

Feng Xuemei also took the binoculars to observe the bottom, looking at it, but she said softly, "It seems like that place...we searched it before?"

"Have you searched?" Zhang San, Li Si Shangguanming and the three of them did not participate in the previous search, and they all looked at her at this moment.

"It seems to have been searched."

The other person also nodded, "Because the ground in this valley is very flat, the captain also joked that if he were a gangster, he would fix the runway here, but unfortunately we searched carefully later, but found nothing."

Everyone felt horrified.

Wang Da has confirmed that he has been repairing the airstrip here for three months, but Feng Xuemei seems to have searched here again, but found nothing.

On both sides, who made the mistake?

"Li Yun!" Shangguan looked at him with a serious look. Before Li Yun had guessed whether it was a phantom formation. At present, it seems that the airstrip is indeed hidden by some special spell.

While this shocked Shangguan Ming, he couldn't help but feel a little grateful. Fortunately, Li Yun participated in this operation. Otherwise, even if they found here, they would have nothing to do with the other party.

Unless you use tons of explosives, you can directly blast the vicinity and break the magic array forcibly!

"Well, it seems the most likely thing is the magic array at the moment."

Knowing what Shangguan Ming wanted to say, Li Yun nodded and said, "I'll go down and search for a closer look. You guys stay here and wait."

"No, I have to go together!"

"Wait, Captain, what exactly are you talking about?"

Li Yun: "...I will explain to you."

He was very helpless to explain his divine consciousness, and specifically pointed out that divine consciousness can perceive the things that have been blocked, and that normal people's stealth skills are useless.

After learning about the magical array spirit, everyone looked at each other, this was beyond their understanding of the world, and the past experience no longer worked, they could only stare at each other.

"Is Divine Mind really that amazing?" Shang Guanming still couldn't understand, staring at Li Yun.

"Forget it, let me give you some insights."

Without saying anything, Li Yun shrouded himself with divine thoughts. In an instant, he seemed to blend with the heaven and the earth, becoming the most inconspicuous small stone, a weed, and a small tree on the side of the road. Ordinary people do not. Will notice him!

In the sight of Shang Guanming and the others, Li Yun disappeared in a sudden, shocked that they almost couldn't hold their weapons one by one.

"Teleport? Or invisible?!"

Shangguanming was dumbfounded, and subconsciously reached out and touched where Li Yun was just standing, but he didn't feel that he could touch anything.

"Don't touch it, I'm not gay."

Li Yun gave him a punch with a smile, and Shangguanming felt his presence and was taken aback.

Chapter 1239: Shan Ruqing

Li Yun's invisibility of the magical turtle completely shocked them. Wang Da, who was on the side, originally wanted to leave, but he abruptly stopped when he saw the magical operation performed by Brother Li.

He felt that maybe this big brother could really deal with the monsters, in this case, it would be much easier to follow the big brother out of the forest.

Moreover, there may be opportunities to fish in troubled waters, which will bring some benefits.

"how?"

Li Yun patted his hands, smiled and said, "I'll go check the situation first. You stay here and wait for my news, lest you be discovered by the enemy."

Everyone had nothing to say. Shangguan held back for a long time before saying: "...I still feel wrong, Li Yun, although you will be invisible, but after all, you are not experienced enough. In the face of hostages being taken, maybe..."

"That's it!"

Li Yun helplessly interrupted him: "Then you can go with me, but if the enemy searches with divine mind, you can do whatever I say, understand?"

"Hey, I know!" Shangguan Ming patted his chest to make sure.

"Mr. Li Yun..."

Feng Xuemei, the only female member of the team, hesitated, "Why don't I go with me? Maybe there will be female hostages who need help. It will be more convenient for me to be there."

".....Row!"

Li Yun was right after thinking about it. Since he joined Shangguanming, she is no different.

After the discussion was over quickly, Li Yun took the two of them down to search, and the others stayed on standby, contacting General Xia to see the next decision.

"go!"

Li Yun didn't talk too much nonsense. He took the lead and led the two towards the Yixiantian Valley. The people who were left looked at each other and sighed together.

With Li Yun there, they would have no effect at all.

...

"Single, Ru, Qing."

A low and hoarse voice sounded, and the noisy and disturbed hostages were silent for an instant, and they all looked at the middle-aged man sitting on a boulder, gale!

"Mom." Shan Xiaoxiao, who was only eight years old, looked at her mother worriedly. Her mother's mental state had always been bad. Now that she encounters this kind of thing, she has become more and more haggard under self-blame and regret.

Although it seems to outsiders, Shan Ruqing still has the demeanor of a strong woman, with well-founded advances and retreats, without any panic.

"I'm here."

Shan Ruqing squeezed her daughter's small hand tightly, as if she was absorbing some spiritual strength, and then stood up after taking a deep breath, with sharp eyes and calm eyes looking at the man who controls everything here.

"Send them a report."

If Gale had no extra words, he directly gave an order in a cold voice, indicating that Shan Ruqing could use the professional radio station here to contact the outside world.

One is to ask for supplies, and the other is to let the outside world know that the hostages here are still alive.

Gale originally took care of these things, but when the outside world needed to confirm that the hostages were still alive, Shan Ruqing stood up, so she was responsible for contacting the outside world afterwards.

Including going to the plane to act as a hostage, so that outside flying (guide) missiles and rat-throwing devices will not dare to open fire on the plane flying in the air.

"OK."

Shan Ruqing responded cautiously, not only to keep calm and calm in front of her daughter, but also not to offend these gangsters.

"Hello, this is Shan Ruqing."

"Hello, Miss Shan, I am glad to hear your voice again. What I need to confirm here is that you are all safe and sound, right?"

After getting in touch with the outside world and hearing the voice of the operator, Shan Ruqing's tight heart was finally relieved. She tried to control her emotions, suppressing her voice and began to communicate with the other party.

Chapter 1240: Shan Xiaoxiao

"Miss Shan, please encourage everyone to cheer up."

The young lady operator heard the hostages' uneasy cries, and was very upset in her heart. She couldn't help but hint at her a little bit: "I know it may be difficult, but the dawn is right in front of you, and someone will come to rescue you soon. I'm out, I promise!"

It is not against the rules to say these words, and the culprits naturally know that someone will try to rescue them, and they don't care about these words at all.

In fact, Shan Ruqing suspects that these people are all described in those movies. The cold-blooded killers cultivated since childhood have no humanity at all!

The proof is that she is a beautiful woman standing in front of them, but the gangsters ignore it, without any greedy eyes.

Including the hostages, there are no shortage of beauties of all types, but these male gangsters who covered their faces and only exposed their eyes did not take a second look.

This is obviously abnormal.

"Sure."

Gale said coldly, Shan Ruqing quickly calmed down, and then hung up the communication after saying goodbye to the operator.

The only normal person here may be this gale.

Shan Ruqing lowered his head and walked in front of the gale, remembering the flash of amazing color in his eyes when he saw her for the first time.

Shan Ruqing is very familiar with this look, and she has seen too many eyes with men's desire in China and abroad.

It's just that this gale, even though she was amazed by her beauty, still remained calm, didn't do anything wrong with her, and didn't touch her at all.

This is a blessing in misfortune.

"This bitch!"

"Hehe, it's really sweet, no wonder someone in Beijing gave away 30 million worth of sports cars in pursuit of her."

"No? This woman already has a daughter!"

"Isn't it? I heard that she gave birth to a daughter at the age of eighteen, and the man ran away, hehe, really mean!"

"Looking so monster, it's no wonder that you can please men."

"What a bitch!"

"One bitch, hum."

There was a vague voice of contemptuous curses from women around, and Shan Ruqing didn't need to look at it to know that she was now suffering from many people's jealous glares.

After taking over the task of communicating with the outside world, her treatment was higher than that of ordinary hostages, and she was not affected by worries and unevenness. In addition, Shan Ruqing's outstanding appearance was enough to become a reason for women to be jealous of her.

"Mother!"

Shan Xiaoxiao rushed into her sorrow and acted like a baby. Shan Ruqing hugged her daughter tightly. The anxiety in her heart faded a little, and she gently stroked her little head: "Little, mother is here, don't be afraid."

"Well, I'm not afraid~" Shan Xiaoxiao rubbed her mother, and then asked in a low voice: "Mom, what did the operator aunt say?"

"No, I didn't say anything." She didn't want to mention this to her daughter. The greater the hope, the greater the disappointment.

"Mom is a lie, shame~"

Shan Xiaoxiao innocently clicked on her little cheek, and whispered: "I heard it all, the operator said, someone has come to rescue me and my mother~"

"Huh? How did you hear...?"

Shan Ruqing is very strange. It is more than ten meters away from the radio station. Can her daughter still hear the voice on the other side of the phone?

"I heard it anyway~"

Shan Xiaoxiao began to play tricks, hugged her mother back and forth, and then lay on her mother's shoulder, her eyes looked outside expectantly: "Mom, do you think the hero will suddenly appear at this time and save us all? Go? Hee hee~"

"Xiao Xiao..."

Even if I came here, I couldn't see them, just like the people who came before...

Holding her daughter, Shan Ruqing was full of grief, but she suddenly heard Xiaoxiao exclaiming.

"Ah! Brother Hero!"
