

## Godly Choice 1311

Chapter 1311: Telephone warfare

"Li Yun."

Xia Ming spoke with him in a serious voice: "We are all assisting you in this battle. After all, although we have a strong strike capability, we are not on the scene and do not know the enemy's counterattack capability. So I plan to command this time. How about letting you come?"

Li Yun smiled bitterly, "I haven't learned anything about missile shooting... I can only say how many to send, where to hit, and how to do it, it's up to you."

"Of course." Xia Xia said with a smile: "I will connect you with a few people. They all have a lot of missiles in their hands. According to your understanding, you don't need to save them. You can't win this battle of Xianfan. defeat!"

"That is to say at no cost?"

Xia Xia Ming's tone was stagnant, and he was choked by Li Yun's words: "Do you still want to empty all the missiles?"

"Be prepared, I hope it won't reach that point."

"This... well, in short, our only goal this time is victory!"

Even if it is a last resort, use the strongest attack!

Soon, Li Yun received a special teleconference from his satellite phone. He didn't know how many people participated in the special combat teleconference. After a little thought, he said in a three-point respectful tone: "Dear leaders, my name is Li Yun. I am currently in the mountains and I am responsible for observing the enemy's base."

"I am Xia Ming, the commander-in-chief of this battle of Xianfan."

Xia Ming also reported his name, so everyone reported it one after another.

"My name is Yang Kai, a certain missile base officer, responsible for executing missile attack instructions."

"My name is Qi Kaimiao, a certain missile base officer who is responsible for executing missile attack instructions."

"My name is Song Fu..."

Officer Song of the Red Maple Base was shocked. This operation actually dispatched five missile bases, involving nearly a thousand missiles!

Although Huang Xuanguo's total number of missiles is classified as a secret, after years of staying in this system, Secretary Song still estimated that a thousand missiles are already nearly 5 points of 1 for Huang Xuanguo!

Putting such a huge missile into a battle, to put it bluntly, it is the world's largest power, facing so many missiles, it will be shaken three times!

The scary thing is that this operation was actually temporary, and it was conducted on the phone when it happened suddenly. There was no sign of it, and it started straight away!

What surprised Secretary Song most was that the man who was responsible for initiating the action and commanding the scene remotely was actually a very young man listening.

This voice sounded like he was only in his early twenties, he was a kid! !

"Leaders!" Li Yun was not polite, and said directly: "We are ready to start, I believe you all know the goal of this action?"

Fighting early and ending early, it doesn't mean he is alone in the mountains.

"Wait! Wait a minute!" A voice sounded, and it sounded like Yang Kai, who was the first to introduce himself before, said hurriedly: "I still have a lot of questions about this action!"

After a pause, he continued: "So far, I still don't know who the enemy is, why the attack was launched, why so many missile base officers are called, why the attack is so rushed, etc. There are too many questions. Hanging in my mind, can anyone explain why?!"

"I have the same doubts!"

Secretary Song agreed.

He is still in the dark, even if General Xia is in charge, he still has a strong sense of distrust of this action.

Chapter 1312: confirm

It's not that I don't believe in Xia Ming, but this action is too big, no one can bear this responsibility!

The monetary loss is conservatively estimated at tens of billions, and the international shock caused by this is even more difficult to measure, and no one knows what the consequences will be.

Li Yun had no choice but to say, "General Xia, you can explain it."

As soon as the cannon rang, the gold was ten thousand taels, not to mention that it was a missile that was thousands of times more expensive than a cannon.

"Comrade Yang Kai, it's me."

This is, an extremely majestic and familiar voice sounded, everyone was taken aback for a moment, and then they all reacted!

It is Xia Ming's superior leader and Huang Xuanguo's top priority, often appearing on TV.

Li Yun was shocked, unexpectedly shocked the boss.

In the center of the capital, a hidden conference room.

"Everyone, please report your names and positions separately, lest everyone thinks this action is ridiculous."

The people at this meeting of the abbot smiled and said to everyone that all the leaders present here are important people who can cause a major earthquake with a stomping. They are usually busy with the abbot's various tasks, but they are all because of Li Yun. A meeting was held temporarily for the report.

"Alright." An old leader smiled and reported his name. Needless to say, everyone who participated in the conference call knew him very well.

After all, this is already one of Huang Xuanguo's most important cores.

But what shocked Yang Kai, Secretary Song and others even more was that all Huang Xuanguo's cores were in place, and they were all paying attention to this special action.

Immediately afterwards, Secretary Song received a call from the capital, and the other party confirmed to him again that this battle was all true and was the joint decision of all the leaders!

Yang Kai and others all received the same phone calls, personally, and at work, all of which can prove that this action is unequivocal, and he obeyed all the orders of Commander Xia Ming!

"I, Yang Kai, have received all the information, please order from Mr. Li Yun!"

So far, all the talents agreed with Li Yun's combat command.

This is a matter of course. Those hackers who think that they can gain command by hacking into a phone are simply naive.

Major combat decisions, of course, are level-by-level certifications. They are orders issued unanimously by all leaders. There is absolutely no possibility of error!

"Comrade Li Yun."

The host of the Beijing meeting smiled gently: "Please be in charge of the on-site command of this battle. Don't worry, just let go and do it! This time we will mainly look at what the enemy is like and what you reported. Are the same."

Yang Kai, Secretary Song and the others have weird faces, and even the host, these cores don't know who the enemy is!

This action is really weird to the extreme!

"It's fine for the leader to call me Li Yun."

Li Yun can't afford the title of "Comrade Zhi", he hasn't added anything yet.

"Li Yun, it's time to start, I also want to see what the so-called immortal is!"

"Judging from the satellite map that came, the target you gave, Li Yun, is empty. It is a so-called illusion? Hahaha, I can't wait to see it."

"I am still in the dark."

The leaders spoke one after another, looking at the satellite map picture that came.

Although there are Liao Hua and Xia Ming, various channels have indicated that the so-called immortals do exist, but hearing them and seeing them with their own eyes are two different things.

Only by seeing the enemy in person can we make a comprehensive plan!

"Then I will start?" Li Yun smiled slightly.

"Please order!"

Chapter 1313: Concubine Wan Qing, run away

Everyone was quiet during the conference call.

In this special battle, no one knows how to fight, and even most people still don't know who the enemy is, and of course they can't make any comments.

Xia Ming intentionally said that Li Yun should send a missile first to test the enemy's details.

But it is also considered that if it is not a saturation attack that gives the enemy a chance to counterattack, it may cause unpredictable consequences.

So he didn't say anything at all and let Li Yun decide!

"Let's get a regular missile first."

Li Yun didn't know the model of the missile, so he could only say with his feelings: "The conventional... is a large-scale explosion. It is best to cover the entire valley and let the enemy's caves explode first!"

What is Dongfu?

Many people have such thoughts in their minds, but they can still understand them overall, so no one asks them.

"I will take on the first experimental attack!"

Secretary Song took the initiative to speak, and the others agreed, so Secretary Song immediately turned around and ordered his subordinates: "Zhang Ren, use a medium-range missile with a high-explosive warhead, aim it at the locked target, and launch it immediately!"

"Yes!"

Zhang Ren quickly conveyed the order, and the soldier who had been waiting in the silo for a long time suddenly became serious, knowing in his heart that a battle that was different from what he had seen in the past is about to start!

There is no turning back, the order has been delivered, at most 30 seconds, this metal cold missile will be launched!

"Remove the fixed tripod!"

"Remove the security restrictions!"

"Team Zhang, the missile data is good, everything is ready to launch!"

"The ten-second countdown begins! 10, 9, 8..."

The soldiers became nervous again, and Captain Zhang's instructions were completely different from the previous ones, fast, too fast!

The safety device was just unlocked, and it was launched immediately after the report. It was exactly the same as when watching a war documentary!

The soldiers are extremely fast, and the actual combat is different from the eyesight.

Fortunately, the fighters who can join the missile base are all first-class elites. Despite their hurry, they still completed all the work accurately.

"...3, 2, 1, fire and launch!"

As the final countdown was issued, a red button was darkened by Zhang Ren.

In the next second, everyone in the Red Maple base heard the roar and felt a slight earthquake.

Afterwards, a dazzling white light flew out, slowly becoming faster, dragging a long tail flame, and a sharp sword across the sky.

"Boom!"

The picture of the missile launch was transmitted to the meeting room in the capital. Several war satellites in the sky were already ready, and the remote sensing lens was aimed at the rapidly flying missile from all angles.

Missiles that fly out of the atmosphere are called ballistic missiles. The speed can exceed the first cosmic speed, reaching more than 7.9km per second. After drilling out of the atmosphere and out of space, the speed of the missile will break through the sky!

This also means that for a target 2,000 kilometers away, including the acceleration time, the missile often only takes about 5 minutes!

Besides, the target point is not two thousand kilometers!

"Wan Qing concubine."

After learning that the missile took off, Li Yun finally sent her a message, "You can't leave now."

Inside Wanfaxiandong Mansion.

Concubine Wan Qing, who was sitting in the guest room holding the avatar of the heavenly demon, almost jumped up and cursed angrily and annoyed: "This \*\*\*\* guy, really so bold, actually...!"

She didn't dare to call out the latter words, her four maids were still outside the door, besides, this place was also the land of Ten Thousand Faxians.

Chapter 1314: I'm furious

After learning that Li Yun really made this madness, conscience, and arrogance, Concubine Wan Qing no longer has the mentality to read. She hurriedly put away this extremely important incarnation of the demon, and put it in the room...

"No, wait!"

Concubine Wan Qing stopped her movements, and a thoughtful expression appeared on her beautiful face: "I prepared in advance, doesn't it mean that I know that \*\*\*\* well?"

"But I'm not prepared for anything. If the \*\*\*\* threw a nuclear bomb, wouldn't I die here?"

"Asshole asshole!"

Annoyed and cursed again, Concubine Wan Qing directly dialed his phone and asked in a cold tone:  
"Tell me, what type of attack did you use?"

"missile."

"Nonsense! I'm asking about power!!"

"Well... it can probably destroy the conventional power of a mountain."

"Humph!"

There was a beep from the private cell phone, and Li Yun touched his chin. Could it be that Concubine Wan Qing was angry?

Holding the phone tightly, Consort Wan Qing frowned and thought.

She also didn't know whether a missile of conventional power was more powerful than the formation under Ten Thousand Magical Immortal Cloth.

From a theoretical point of view, the formation of the enchantment against the next first round of attacks is not a problem at all, but modern weapons and spells are different in the end. The two are completely two-way things. Maybe the metal storm formed after the missile explodes. Does the world have an unimaginable offensive power?

"This \*\*\*\* is going to give me problems!"

Concubine Wan Qing scolded again. She had no objection to Li Yun's attack on Wan Faxian, and she just wanted to beat him.

But this \*\*\*\* can't wait any longer, wait for her to leave here before launching an attack? !

What a beating!

Thinking of last night, Concubine Wan Qing tickles her teeth with hatred. If she knew she would kick him a few more times last night, it wouldn't work to send her the incarnation of a demon!

"Huh, calm down!"

Concubine Wan Qing calmed down, checked her defensive artifacts, and solemnly took out a seemingly ordinary red cloth from her storage bag, and put it next to her body, only to breathe a sigh of relief.

Turning his head and shouting outside the door: "Xiaoqing, come in."

"Miss, you call me?"

"Well... Where is Xiao Zi?"

"She went to prepare lunch for you, Miss, and said that the food here is not good..."

"Call her back, right away!"

"Yes!"

Xiaoqing is unclear, so why is the young lady so eager?

"That's right!" When the maid Xiaoqing was about to go out, Concubine Wan Qing said in a low voice: "Don't let people know, especially the people here."

"Yes!"

Xiaoqing understands that the young lady is the master guarding here, Wan Faxian.

Blue, purple and green, the four maids had all been puppeted by Concubine Wan Qing, and it was impossible for her to rebel against her in this life, so these four Concubine Wan Qing needed to be saved.

As for the others, hum!

In the valley, many people saw Xiaoqing's hurried figure. When someone asked curiously, Xiaoqing's face showed an angry face, saying that it was the Lord Saint who was going to reprimand Xiaozi severely, and he actually did that kind of thing!

As for what kind of thing, let outsiders guess.

Located in the middle of the valley, suspended in the air, the owner here noticed the maid's actions, which was a little strange at first, but soon he felt something and looked up at the sky slightly.

"so it is."

A faint smile appeared on Wan Faxian's handsome and handsome face, "It's pretty decisive, and it's cleaner than I thought. It seems that after entering the new century, the government has become a lot stronger, and things have become a little more troublesome. ."

"It's just... that girl is still too immature."

Looking towards the sky, Wan Faxian stretched out a hand indifferently.

Chapter 1315: Giant hand

"The missile will reach the target point in thirty seconds!"

In the Red Maple base, everyone held their breath, especially Zhang Ren. He personally launched a 50 million missile, but it was aimed at an inexplicable valley. Those who didn't understand the situation thought it was an exercise, but it was also an exercise. Don't bombard the forest, isn't this nonsense!

It was another huge loss that caused the fire in the mountains and forests.

"Will there be enemies?"

Zhang Ren vaguely guessed something. He thought that the enemy must be hidden in the valley, but the satellite could not see it!

Maybe in a certain cave, the valley is full of mines and organs, all of which need missiles to bombard and force the enemy to show up!

But... it still doesn't make sense, not to mention that even several core leaders have come to participate.

and!

"Battle of Xianfan...what exactly is it?"

As Zhang Ren muttered to himself, a soldier reported and shouted: "Arrival at the target in 10 seconds! 5 seconds, 4, 3, 2, 1!"

The missile was already facing downwards, and the flames generated by rubbing the air enveloped the entire missile. The tail flames hovered across the sky, like a javelin thrown by the gods, punishing arrogant mortals, and the power of terror can be felt even across the screen!

"coming!"

Hidden on the top of the mountain, Li Yun raised his head and squinted his eyes to look at the sky. A dazzling white light flew from a distance. At first it felt very slow, but after a while, it was like a swift meteor that came quickly to his eyes, almost in the blink of an eye. , The missile locked in the valley and fell in a thunderous manner.

Everyone was staring wide-eyed, waiting for the missile to hit the valley, but just then!

A giant hand like a sky suddenly appeared from the valley. The giant white and misty hand stretched out its five fingers and grabbed the sky in a grasping shape, just like a naughty urchin grabbing a flying bird and letting it go. No matter how hard you struggle, you can't get rid of this giant hand!

boom--!

The wind was blowing, the sound of muffled thunder sounded, echoing among the mountains and dense forests, and countless birds and beasts were startled and scattered.

The missile that was powerful enough to destroy a small mountain was squeezed to pieces by this giant hand that suddenly appeared!

"!!!"

All the people who witnessed this scene were stunned. Xia Ming, Secretary Song, Yang Kai, Zhang Ren, the core leaders, and thousands of soldiers who were standing in line at various bases, ready to fight at any time, flashed in their minds. The same thought.

impossible!

Even the fifty-dollar firecrackers bought by the street shop will make a bang after they are clicked, let alone a missile worth fifty million!

"Xianfan War, Xianfan War... That's how it is!"

A cold sweat broke out on Song Si's forehead. He didn't want to understand today's action until then, no, what the battle really meant!

That terrifying white giant hand, absolutely extraordinary!

In the meeting room, the core leaders looked at each other.

They had already read the report on the practitioners in the report, but they saw a giant foggy hand stretched out and squeezed out a missile abruptly, and they were still shocked in a cold sweat.

If such a powerful person enters the capital and fights at close range, it is hard to imagine how much power is needed to snipe the opponent!

"Let's launch another missile immediately to blow up the entire valley!"

Li Yun decisively issued the order, and the talents awakened like a dream, and they ordered to continue launching missiles. In an instant, white light flew out of the ground of Huang Xuanguo, and the bright light immediately attracted the attention of many people.

Chapter 1316: OHMYGOD

Country M, the palace of the country.

"Whatthef\*ck?! Are Huang Xuanguo's people crazy?!"

When the satellite monitoring department reported that Huang Xuan had launched dozens of missiles in China, everyone who heard and knew about it couldn't help but explode a classic international foul language.

Dozens of missiles, if the target is an ordinary small country, it is enough to directly destroy more than half of its cities, killing tens of thousands of people instantly!

"Quickly, quickly mobilize all the satellites and see what they are doing!"

The people in the palace of the country are in a mess. If these missiles are aimed at country M, they must respond immediately and respond immediately!

Fortunately, after judging the target of these missiles, everyone who came to the satellite monitoring room breathed a sigh of relief.

"F\*ck! It shocked me!"

"I almost thought it was a recurrence of the Missile Incident crisis!"

"Huang Xuanguo's people are really crazy? They actually aimed their missiles at their own country! And they are not acting. The target is not the desert. The place where all the missiles converge is in the hinterland of their country, in a primeval forest!"

By depicting the trajectory of the missile, they immediately reached the meeting point, and suddenly, many satellites aimed their observation cameras there.

Of course, there is nothing there.

After realizing this, all the people of Country M have always believed that Huang Xuanguo has a big problem!

"Hahaha, I have already thought about how to write the headlines of tomorrow's international news!"

The Minister of Defense of Country M, Mattis grinned with a gloating smile. He was 100% sure that what was wrong with Huang Xuanguo!

Either someone has gone crazy, or there is a crisis, such as the plane crash a few days ago. In short, it will not be a good thing.

"Huang Xuanguo is really troubled, hehehe!"

"Oh, hope God will protect them!"

"God won't protect these monkeys, Satan will."

"Ha ha ha ha!"

A group of important leaders of Country M gloated at each other and laughed. Many even took out their wine glasses and prepared to drink while watching the beautiful scene of the missile falling.

However.

When the missile fell, everyone's smiles froze.

When the first missile fell, a circular shield of light suddenly appeared in the empty valley, covering the entire valley. Through the transparent shield made of white light, everyone saw the mystery floating inside. The pavilion, as well as the strange flowers and plants, is a beautiful fairy homeland.

boom!

Just as their expressions froze, the missile fell, smashing the transparent shield out of ripples.

Numerous metal fragments burst out, the air waves rolled, the big trees in the forest were blown up and down, and the dust was all over the sky. All this proved that the missile is real and the shield is real.

As for the suspended pavilions inside, it is even more real!

"OHMYGOD!!!!"

The people of Country M in the palace of China were stunned. What is this? Huang Xuanguo actually mastered this technology? !

Such as the energy shield in science fiction movies, there are anti-gravity buildings, and the horrible beast with two wings.

Wait, beast? !

"This this this!"

Matisse was dumbfounded, pointing at the double-winged thunder beast on the screen, shaking and speechless.

Is it the griffon in myths and legends? !

No, no, it's the Sphinx...nor, in short, this is a monster that has never appeared in the four billion years of biological evolution on the earth, and it is impossible to evolve!

For a time, all the people of M country fell into panic, and the original schadenfreude turned into worry.

Will these monsters also appear in their country?

Chapter 1317: Falling meteor

The meteor fell, and the white rainbow pierced the sun.

One missile after another fell one after another, bombarding the transparent barrier of the valley to a faltering, like a summer pond, with countless raindrops falling, ripples endlessly.

The surrounding trees were blown away forcibly, and the missile did not hit them head-on. The slight gust of wind that spread out was enough to uproot the big tree surrounded by five people!

People who have not seen it with their own eyes will never know how terrifying modern weapons are.

Of course, the transparent shield in the valley was also extremely strong, and it actually resisted the bombardment of more than twenty missiles abruptly!

"Um?"

Li Yun's expression moved, and his eyes were not far away, where more than fifty figures suddenly appeared.

They were dressed in different costumes, floating in the air, many of them carrying long swords, looking fierce, and staring angrily into the valley.

Concubine Wan Qing is also among them.

"Pity."

A man's voice full of magnetism sounded, but he didn't complain much, he just said regretfully: "There are still many classics in the valley that have not had time to come out. These are all written by predecessors. They are unique and damaged. I will never see it again."

Li Yun was hiding on the top of the big tree, looking at him as much as possible to keep his mood calm.

"This person seems to be a Ten Thousand Faxian, so young?"

Look at Concubine Wan Qing again, this enchantress is as well-behaved as a lady at the moment. She wears a saint's special dress fluttering like an immortal. She has a pure and holy beautiful face, standing in the sky, facing the rising sun, her face is ruddy, and she doesn't show her teeth. , There is actually quite the cold and holy mood of Qingsheng's body!

"Cough cough, my heart is clear, the sky is not alarmed, the Buddha said, looking back three hundred years in the previous life, bah!"

Li Yun restrained his mind, kept the turtle invisible, and overheard their conversation.

"...Master, the official thieves are too hateful!"

A bearded, immortal Daoist said angrily: "The master's talents can be said to be a good fortune of heaven and earth, taking the aura of the sun and the moon, but now these thief officers and soldiers use these vulgar objects to destroy the cave mansion built by the master himself. , It's time to kill!!!"

Li Yun's face was strange. Wan Faxian was the youngest among this group of people-except for the concubine Wan Qing, but he was the core of this group of monks or Taoism, or demons or Buddhas, the three religions and nine generations.

The appearance of this group of people also broke Li Yun's previous impression of the Six Demon Gates.

It turns out that there are not only people who play with insects and zombie ghosts, but also various types of people, such as Buddhist cultivating, cultivating demons, and cultivating Taoism. So, in the Hidden Sacred Valley, there are also practitioners playing with zombie puppets?

"Hongyi, you are wrong about this."

Wan Faxian's tone was slightly reproachful, and Li Yun's expression was strange. This Taoist named Hongyi looked like he was over fifty years old, but Wan Faxian spoke to him in a voice to a junior. The key is that Hongyi Taoist still has to be sincere and fearful. listen!

Concubine Wan Qing had a smile on her face, but her heart was shocked.

She deliberately didn't make corresponding preparations to deal with the missile attack, but Wan Faxian quickly packed everything in the valley. It seems that she started packing things last night?

How can this be!

It was not until this morning that Concubine Wan Qing received a text message from Li Yun saying that there would be a missile strike.

Even if Wan Faxian can monitor her, it is impossible to predict in advance... prophecy?

Concubine Wan Qing's heart was stunned. Perhaps there is such a spell that is only recorded in ancient books. According to legend, it can be used to divination and ask hexagrams. By pinching fingers, you can know the nine heavens and the netherworld underneath. Everything that happens between heaven and earth can be counted. !

Is there really such a spell?

Chapter 1318: Not injustice

"Look at it."

Wan Faxian pointed his finger at another missile that whizzed from the sky, and a smile of joy appeared on Jun Yi's extraordinary face, making Li Yun and others wonder if his brain was broken.

My home's Dongfu was attacked by a missile, can I still laugh out? I'm afraid it's not a fool!

"This weapon is called a cruise missile. It can attack from thousands of miles away, and it can change its orbit at will. Its powerful power can be comparable to the full blow of the Void Returning Realm monk!"

With a smile on Wanfaxian's face, he said: "I know that you all look down on the worldly things from the outside world, but in my opinion, this powerful weapon is also a wonderful thing comparable to the Xianfa!"

Li Yun's expression became more and more weird.

"A missile has the hard work of countless human genius elites condensed behind it. In the hundreds of years, from Newton to Einstein, from Copernicus to Hawking, hundreds of mortal top geniuses have constructed modern technology. The great achievement of breaking out of the earth, with the Internet, satellites, computers, missiles, nuclear bombs, hydrogen bombs, etc.!"

While talking, a missile fell again, completely exploding the shaky transparent shield in the valley!

The violent explosion caused a violent wind in the valley that was originally like a fairy homeland, and countless strange flowers and weeds that were too late to be taken away were blown away, and some strange animals fled in all directions. They are not monsters, but they are far more than ordinary animals. Much smarter.

"Woohoo!"

I almost sniffed out Li Yun's double-winged thunder beast. When he saw his home destroyed, he was shocked and angry, and issued a low threatening roar!

"Did you see it?"

Wan Faxian stretched out his hand and touched Xiaobai's body, and said with emotion: "The current technology of mankind is no less than my achievement. I think even if the ancient gods revived, seeing today's human beings would be scared. Just jump."

Everyone fell into a sluggish summary, and couldn't figure out how to talk.

They don't know much about the gods, but they also know that the myths are messy. The ancients didn't even know that the earth is round, and the myths made up are naturally full of loopholes.

For example, the Immortal King Jade Emperor claimed to have suffered 1,750 catastrophes, each of which was 129,600 years, and it took 200 million years of repairs, but the place he ruled was only the boundary of Huangxuan country, and the rest of the earth. It is also occupied by the gods of Gao Tianyuan and the gods of Olympus.

This shows that myths are all nonsense.

"Hahaha, let's go." Wan Faxian smiled freely and glanced at the valley below: "My cave is destroyed by mortals with such subtle things as missiles. It's not wrong!"

After leaving a sentence of no injustice, Wan Faxian really took the person and flew away, without any lingering feelings, and then looked back.

"It's crazy!"

Li Yun came out of his invisibility and looked at the direction Wan Faxian and Concubine Wan Qing went away, with a wonderful expression on his face.

This immortal is truly worthy of being called the unity of all laws, and he actually placed himself in the position of a peerless genius. I think that thousands of years of mortal history, the modern world created by countless geniuses with painstaking effort, can be compared with him. One or two!

This guy, his arrogance has reached a new level.

"Ding, the host makes a choice and teaches Wan Faxian some lessons. Rewards: experience value + 5 million, all attributes + 4000, random golden equipment\*1, extra reward: aura value of 100,000.)

The spiritual energy was automatically injected into Li Yun's Lotus Immortal Mansion. He divinely explored and found that all kinds of exotic flowers and plants grew more luxuriantly. Some spiritual plants that took decades to bear fruit actually grew buds!

Chapter 1319: Goodbye Nie Xiaoqian

A satisfied smile appeared at the corner of Li Yun's mouth.

"With a little more aura, maybe my spiritual grass in the fairy mansion will mature quickly, and I will eat as many fairy fruits as I want in the future, let the black feather butterfly girl open her belly to eat!"

"A little bit more, maybe the Nine-Zizixian lotus that claims to need to grow for 900 years and the buds for 900 years, a total of 4,900 years before it matures can be picked directly!"

The Nine Sons of Immortal Lotus is so magical, if it really matures and results, Li Yun will take it off and give it to the confidant around him. Not to mention directly take off the mortal fetus and turn into a fairy, at least it can become a god-refining realm or a cultivator in the Void Returning Realm. ? Hey-hey!

Li Yun smiled triumphantly and said hello to Nie Xiaoqian in the fairy mansion, so as not to panic because of her sudden increase in aura.

After thinking for a while, Xiaoqian couldn't figure it out once, so she called her out to relax.

"The son."

With a soft and gentle call, Nie Xiaoqian, a ghost in red, appeared in front of Li Yun and bowed to him, as graceful and graceful as everybody in ancient times.

Nie Xiaoqian's tender little hand held a big red oil-paper umbrella to block the sun, and looked at Li Yun with a grinless smile, with a shy expression and beautiful eyes, with an indescribable and charming manner.

Li Yun seemed to have been electrocuted. He was full of comfort and smiled: "Xiao Qian, it's rare that there is no one around today, so let you come out to relax, you won't blame me?"

"No, son~."

The son again, the gentle and soothing Jiangnan woman's tone, scratched to the depths of the person's heart, itching very uncomfortably.

"Xiaoqian was already a dead person," Nie Xiaoqian lowered her head and said in a whisper: "Fortunately, the son took pity and contained Xiaoqian's soul, and borrowed a fairy house from Xiaoqian's remnant soul temporarily. Ju, Xiaoqian is too grateful, how can she blame the son?"

Seeing her gentle and graceful expression like a Jiangnan woman, Li Yun was very emotional. Who would know that the beauty in the red dress and the red umbrella in front of her is actually a murderous female ghost who will run away and kill at any time?

"It's fine if you can think so." Li Yun was quite ashamed, "I will call you out more when I have time."

"Xie Gongzi's kindness, Xiao Qian remembers it in her heart."

Nie Xiaoqian bowed softly again, and then saw the valley below her eyes, and asked a little surprised: "Master, below are...ancient pavilions?"

Nie Xiaoqian is inexplicably familiar with the pavilions and pavilions in the valley and the antique buildings. It seems that he once lived in these places. Watching many people come and go, sitting and having fun, there is no one to tell about the sadness in his heart.

"This is the cave house of a monk named Ten Thousand Faxian. If you want to see it, let's go down... I'm Cao, wait!"

Li Yun suddenly broke out a foul language and quickly picked up the satellite phone and shouted at Xia Ming and the others: "Quickly, stop the attack, the enemy is gone, the valley is empty now, it's a trophy, don't mess it up!"

"what?!"

Everyone was shocked, and several core elders showed surprise expressions on their faces.

Immediately, the host of the meeting ordered: "Stop all attacks, let the missiles change their tracks, and hit the uninhabited mountains and forests nearby. Don't damage the valley!"

"Yes Yes!!"

Secretary Song and the others hurriedly called to his subordinates to stop. After a while, all the missiles still in the sky turned their directions.

Some of the missiles that had been almost hit fell into the nearby mountains and forests, and some of the missiles that were still outside the atmosphere turned around and hit the place where they usually practiced-in the depths of Huang Xuan State, a completely unmanned desert area.

It was so desolate that there was no bird feather, so it didn't matter if you hit it casually or threw a few hydrogen bullets over it.

Chapter 1320: World reaction

The scene of as many as twenty missiles changing lanes was monitored by the war satellites of many countries in the earth's orbit. In an instant, many foreigners who mocked and ridiculed Huang Xuanguo changed their faces.

"The Jesus! Huang Xuanguo has seized a temple!"

"OMG... those magical buildings are worth a thousand missiles!"

"My God, is Huang Xuanguo going to master the technology of mythology?"

The palace of the country of M.

The senior leaders who had laughed at Huang Xuanguo, and were ready to take out champagne to celebrate, are now all dumbfounded and at a loss.

"Chief, Chieftain!"[n/ô/vel/b//jn dot c//om](http://www.vel/b/jn dot c/om)

Minister Matisse of the Ministry of National Defense, after regaining his senses, gritted his teeth and suggested to a black man: "I suggest sending troops to Huang Xuanguo immediately to seize

this mythical temple! No, even if you can't get it. , We must destroy it too, and use a large-yield missile to destroy it directly!"

In their concept, the suspended ancient Huangxuan country pavilion is equivalent to things like the Temple of Athena and Mount Olympus. They are all magical things in the legend!

"Yes, I agree too!" This is the minister of the Ministry of Security.

"Mattis said well, that vacant house contains unimaginable technology, and it must not be given to Huang Xuanguo!" This is the Minister of Science and Technology Consultants.

"I suggest sending an aircraft carrier fleet to blockade with all strength!!"

"Yes!"

"beat!"

As the world's most powerful country, he has always acted domineering and despised countries all over the world. He beats and scolds when he wants to. If he feels unsatisfactory, he will jointly suppress him.

At this moment, everyone saw that Huang Xuanguo had seized a mysterious and incomparable suspended temple in myths and legends. How could they be able to sit down? Everyone clamored to give Huang Xuanguo some color, hand over the temple, or destroy it directly!

"Shut up!"

The chief drew a cold face and stopped drinking. The atmosphere suddenly cooled down. Matisse wanted to speak again, but the chief yelled impatiently: "I want to fight too, but please think about it for you pigs. When can you fight?"

Everyone's minds gradually returned to soberness.

"There is a myth in Huang Xuan... it may also be an alien technology. In short, this is completely different from the situation encountered before."

The chief sullen face, pointing to the valley on the satellite map: "If this place was built by the people of Huang Xuan - I mean those monastic immortals in their country. If we go to beat him, will the immortals be angry? What to do? If you come to the palace to make trouble for us personally, who will resist?"

For an instant, everyone just felt a chill rushing from the heel to the Tianling Gai.

The giant hand that can reach out to pinch out the missile, if it reaches the palace of the country, I am afraid that it will not kill most of the people here in an instant!

"Besides!" The chieftain's face darkened, "Huang Xuanguo also has thousands of nuclear bullets, have you forgotten? It's really urgent, everyone is finished...Ah no, if the other party has mastered mythology or alien technology, they We can't die, we are sure to die!"

Suddenly, everyone stopped talking.

Nuclear bullets are terrifying. In a sense, the world is maintaining peace because of nuclear bullets, otherwise the world war would have started long ago!

"So, that... Chief," Matisse swallowed, "What should we do?"

"1, wait, 2, negotiate, 3, ... make profit!"

The word "Rangli" popped out from between the chief's teeth.

When has country M been so wronged? Being the number one in the world... forget it, not to mention it, it's really hateful!

The point is, it's not enough if you don't negotiate, it's cheating!
