

Godly Choice 141

Chapter 141: Ready to start a company

Boss Li is Boss Li. If you start a company, you will start a company. If you give 200,000, you will give 200,000!

This courage, this courage, this boldness...

Qian Hu was trembling with excitement, almost as if to thank Li Yun's five bodies.

Li Yun smiled and went to the bank nearby to transfer 200,000 yuan to Qian Hu, without worrying that Qian Hu would run away with money.

One is to believe in what Qian Hu is, and second, there is a guarantee that Qian Hu is very loyal before the system.

Third, even if Qian Hu really ran away, Li Yun didn't feel at a loss. After all, Qian Hu still gave him the information Xue Ji wanted to deal with him, and this information was worth 200,000 yuan!

Therefore, Li Yun was relieved and boldly handed over 200,000 yuan to him, waved his hand, and signaled that Qian Hu could find a way to start a company.

"Boss Li is so generous!"

One of Qian Hu's subordinates looked enviously at Li Yun's back, "Brother Hu, Boss Li is really much better than Xue Ji. Xue Ji has never given us so much money!"

"Get out!" Qian Hu scolded him with a smile, "Boss Li is a talented man, is he like a **** like Xue Ji can compare? Who will compare Boss Li to Xue Ji in the future? I have to beat him up. Blooming face!"

Several people who were still distressed by the punks suddenly claimed that they were.

"Boss, will you find someone tomorrow?"

"Tomorrow? When is the **** tomorrow? I went to have supper with Lao Tzu, and worked overtime for me tonight, to understand what it's like to start a company!"

Following Li Yun, Qian Hu waved his hand domineeringly, "Following Boss Li, our life will begin tonight!"

"Oh~!"

Several people screamed loudly, feeling that their chests were burning with blood, and they wished to start the company immediately and earn a few **** small goals-one hundred million for one small goal!

After Li Yan left, Xue Ji wiped the cold sweat from his forehead, and looked at Zhou Tianyong, who seemed to be thinking.

"Deacon Zhou and Zhou!" Xue Ji smiled flatteringly, "Look, did I find a doctor for you?"

People who are on the road generally do not go to the hospital. The hospital has a lot of talk and the doctor is not easy to deal with. It is not as convenient as some quack doctors.

Zhou Tian glanced at him coldly and nodded slowly.

He was so embarrassed this time!

Moreover, after being beaten up by Li Yun, he still couldn't ask for help from the sect. Otherwise, there would be an accident on this important mission. Not only would he not get the slightest credit, he might also be punished by the elders!

Zhou Tianyong had never imagined that Li Yun came to the spirit sucking stick, because if Li Yun had this purpose, he would not swagger in, let alone defeat him, and he would not even ask about the spirit sucking stick. Great thing!

I can only blame him for being unlucky, and he has fallen into trouble in this broken county town!

"Deacon Zhou, I have called a doctor I know well."

Xue Ji continued to nod and bow his waist. Seeing Zhou Tianyin nodded in satisfaction, he cautiously said, "Deacon Zhou, look, this, I..."

"What the **** are you trying to say?" Zhou Tianyin said angrily.

Xue Ji gritted his teeth, bit his scalp, took out a card, and said, "Deacon Zhou, this is one million. Your lord has a large amount, just let me go..."

"Snapped!!"

Before he could finish his sentence, Zhou Tianyong understood what he meant, and slapped him with his unbroken left hand, which made Xue Ji feel dizzy and almost didn't get his breath. .

"I'm telling you." Zhou Tian sneered and said: "Since you know this, you have been unable to escape!"

Xue Ji only felt a chill from the soles of his feet ascending to the heavenly spirit cover, chilling all over his body.

"In the future, you have only one choice: to honestly complete the mission I have given you from Feihumen, and you will be successful. If you fail, you will die!"

Chapter 142: Well-behaved twin sister

When Li Yun came home, the sisters had already eaten dinner, and there were a few cold dishes on the table. They sat on the sofa and leaned close to play with their mobile phones.

"Brother~"

When she heard the sound of the door opening, Cai Wei turned her head in surprise, and saw the familiar figure that made them feel at ease walking into the house.

"Well, Caiwei, Caixia, have you eaten yet?"

"I have eaten it~, where's brother?"

"I have not eaten."

"what"

Caiwei immediately stood up, picked up the two dishes obediently, and motioned Caixia to pick up the rest to follow her, and said, "Brother, let's heat it up for you, sit down for a while~"

"it is good!"

Li Yun agreed with a smile. The twin sisters are extroverted and lively, and introverted and shy, but they are both very well-behaved sisters. Li Yun loves them very much and is willing to give them the best conditions for growth!

Warming up the food, Li Yun chatted with them while eating, and the two sisters sat on each side separately, allowing Li Yun to enjoy the feeling of hugging left and right in advance.

"Brother, you have made a lot of money recently." Cai Wei said suddenly.

"What's wrong? Isn't it good to make money?"

"No." Cai Wei's voice is soft and delicate, very delicate, "I just think my brother has become so powerful. In the future, Caixia and I...neither can keep up with my brother."

Li Yun was stunned, stretched out his hand and scratched her little nose, "Fool, no matter what I become, I am your brother!"

"Yeah~" Caiwei's body moved closer to her brother again, and she was very moved.

"Cai Wei, Caixia, do you want to live in a new house?"

"what?"

"Haha, brother is going to buy a new house, how about it, do you like it?"

Now the house is only two rooms and one living room, and there is no kitchen. The three sisters even sleep in one room, which is not good for personal privacy.

Therefore, Li Yun plans to buy a high-end house with four bedrooms and one living room with a kitchen!

The sisters showed surprise expressions, and Caixia quickly asked, "Brother, when we will live in the new house, will it be me, elder sister, elder sister, and elder brother?"

"Of course, aren't we a family?"

"Well, family!"

Plucking nodded heavily, as if the joy in her heart was about to overflow, she couldn't bear the excitement in her heart, and she straightened up and became intimate.

Then his face flushed with shame, very cute.

With the example of her sister, sister Caixia did not show weakness, and made the same action. The sisters laughed together, and their cute little faces were full of happy smiles.

Li Yun still enjoyed it a bit, after all, it was the reward from his younger sister, who were two identical younger sisters.

After eating, Li Yun sent them to do their homework, and he went back to his room.

Turning on the computer and clicking the button, Li Yun saw hundreds of replies in the space.

It's all fresh red pepper messages!

Li Yun was very speechless, this little girl is really his little girl, she went to see his space so enthusiastically.

With curiosity, Li Yun also opened the little girl's space and found that, as the monkey said, this bright red pepper was very beautiful.

Big watery eyes, slender and energetic legs, slender willow waist, at least a B+ curve, plus the playful double ponytails, bright red peppers give Li Yun the first impression of a cute, lively, and upbeat personality. Little pepper!

Chapter 143: Frantic bright red pepper

The latest article of Bright Red Chili said: "Wow, it's finally added to the Great God! come out, get the money, let's invest in Great God's software together! Hee hee~."

Underground comments can be described as a flurry of demons. There are boys licking wildly below, expecting the goddess to take a look at them. There are also a few girls who are slapped with red peppers and want to be girlfriends with her.

Li Yun finally saw what the social circle of an unmarried wealthy daughter was like, which was really eye-opening.

After thinking about it, Li Yun replied one below, "Great God? Who? [Smiley face]"

But he didn't expect to post it, and there was a reply in less than three seconds.

"Bright Red Pepper: Wow, God came to see my space, it's great!"

"Bright Red Pepper: I'm talking about you, the Great God, I admire the Great God super super super, the Great God is too powerful~~"

Li Yun himself was embarrassed when she was licked by her awkwardly, this bright red pepper was too enthusiastic!

Immediately afterwards, Li Yun's button snapped: "Bright Red Pepper: Great God, [Love you] [Love you]!"

She sent a long series of expressions of love, Li Yun looked very speechless, and directly replied: "Don't call me a god, you just call me Li Yun directly, I will call you little pepper. Okay, yes What do you want to say to me?"

Little, little pepper?

Bright red pepper, that is, Su Muxin's face quickly blushed, it was the first time someone called her so intimately, and Li Yun was still her most idol!

"Red Chili: [Shy], OK, you call me Little Chili, then I'll call you... Brother Li Yun, right?"

Li Yun smiled inwardly, this little pepper is one year older than him, but forget it, anyway, it is a netizen who doesn't need to worry about that much.

"What is the matter?"

"Well, I just want to find a great god, ah no, I want to find brother Li Yun you, I want to invest in the pioneering cracking software of brother Li Yun~"

"For investment, do you have any thoughts and ideas? Or do you want to use your parents' money to invest only with a passion?"

Li Yun asked unceremoniously directly, the purpose is to discourage the enthusiasm of bright red peppers, so that she does not want a little girl to fantasize and say that she would use a billion to invest!

"Of course there is!"

But Li Yun didn't expect that the bright red chili peppers were discussed in different terms.

"I've already figured it out, the potential of this software is very big-because it is the work of Li Yun brother, hehe."

With a snicker, Su Muxin said earnestly: "There are 8 million players in the dungeon. Brother Li Yun's software has been spread very widely. At least one third of the players have downloaded and used it all the time. There are 2 million players. Of users, this is great data!"

"But this is not the full potential of this software. According to my estimation, there are already more than tens of millions of players across the country who are using the pioneering attack written by Brother Li Yun. The number of online game hacking has plummeted, and many hacking gangs are very serious. Crazy, I want to find a master to crack the pioneer attack on the hacker forum!"

Because Su Muxin is a top hacker, she knows this.

Li Yun was a little surprised. It seemed that this little girl was not a pure-hearted wealthy daughter. Her business instincts were very keen, and she was not aimless.

"A billion investment, don't you think it's too much?"

"Not much, how can there be more?"

Su Muxin said seriously: "Domestic security companies have a market value of 300 billion, but none of them can completely prevent theft!"

Chapter 144: Hacker competition

Su Muxin admired it and said, "But this pioneering attack by Brother Li Yun is different. It not only completely eliminates almost all online game hacking software, but also has a strong defense against most viruses, phishing websites, and Trojan horses. Lethality."

"So, one billion investment is not much at all~" Su Muxin said with a shameful expression, "If I were not worried that my dad would disagree, I would like to invest 5 billion directly!"

Li Yun asked again and again several times, and Su Muxin said with certainty that she was going to invest one billion!

"I'm curious, who is your father?" Li Yun asked.

There are not many wealthy families in China that can have such courage. Li Yun, surnamed Su, has also seen a few in the news, but these wealthy people are extremely confidential about their families, and the outside world does not know who their daughters and sons are.

Su Muxin's eyes rolled, she secretly covered her mouth and smiled: "Brother Li Yun, or you can hack into my computer and find my personal information yourself, if you can hack into my computer before 12 o'clock tonight, I'll add one billion more investment and give you a 'special reward' to Brother Li Yun, how about it?"

Li Yun was stunned, what kind of operation is Little Pepper? Want someone to hack into your computer?

He has never seen such a wide open door!

"Ding, trigger the option event, please choose from the host:

Option 1: Agree to invade Su Muxin's computer, reward experience +5000, random gift bag*3, free attribute points +50, wisdom +50.

Option 2: Reject, reward justice value +30, a random skill, spirit +100.

Option 3: Agree, and break through Su Muxin's line of defense in the shortest possible time, reward several points of experience, random green gift bag*3, wisdom +200! "

Li Yun's eyebrows were uplifted, and he didn't expect that a chat with Xiaomei could trigger the selection event.

However, this incident seems to be a little different. If he refuses to invade Su Muxin, he can get justice, which means that this option is just.

Fortunately, other options do not add evil values. It seems that the system warns Li Yun not to use god-level computer knowledge to do bad things!

"Tonight? Little Pepper, you underestimated me." Li Yun smiled.

"Well, that's right. Well, for every half an hour spent, I will add one billion more funds." Su Muxin blushed, "I will give Brother Li Yun more welfare photos of you, for example... ..Brother Li Yun tells them to wear what clothes to take photos, and everyone agrees~"

Li Yun's heart swayed. Isn't this little chili tempting him openly? !

You can wear any clothes. Doesn't that mean that you can wear it without?

Thinking of Little Chili in the space album, her exquisite figure and white skin, Li Yun felt a flame burning in her lower abdomen.

"Ahem, don't mess around!" Li Yun restrained his evil thoughts and said with a serious face: "Girls don't just send secret photos to others."

"Yes~, I know, they only send it to Brother Li Yun~~!"

Su Muxin's lovely face was blushing, and her heart was beating.

Normally, she would never say this charming words, no, to be precise, ordinary boys, even those very good rich second-generation sons, Su Muxin shows no words to them, showing a lofty wealthy daughter. .

In her upper-class social circle, beautiful Su is notorious for not being interested in men!

Chapter 145: The name of the bright red pepper

But in front of idols, especially after chatting with Li Yun, Su Muxin's affection for him became stronger. She only felt that his personality and talents were all deeply attracted to Su Muxin, and she was extremely fascinated.

Not to mention showing the style of a wealthy daughter, Su Muxin can't wait to become a follower and stick to Li Yun's side all the time!

"Are you ready? I'm going to start invading!" Li Yun smiled.

"Already ready, come on!"

Su Muxin looked serious, she was ready to do a big job to defend against Li Yun's cyber attack!

She doesn't want to be underestimated by idols!

five minutes later.

"Huh? Why doesn't Brother Li Yun start to harass me?"

Su Muxin is very puzzled. The harassment in her mouth refers to a series of sniffing methods commonly used by hackers, such as detecting exposed ports, trying to scan for vulnerabilities, and trying to establish links.

After these steps are completed, the hackers will start the formal attack only after learning about the opponent's computer and how many firewalls have been opened.

Generally speaking, these steps are carried out silently, and ordinary people's computers will not have warnings at all.

But as a top hacker, Su Muxin's computer is naturally full of surveillance equipment. Any sniffing method will send a warning to her!

At the next moment, a line of words appeared on the screen of Su Muxin's high-end computer:

"Little Chili, your name is Su Muxin?! Is it Su Tengyun's daughter?"

Su Tengyun, the founder and chairman of Nantian Technology Group, has a market value of 5 trillion yuan. He invests in and controls hundreds of domestic listed companies, covering almost all industries!

The games Li Yun and Wang Houliang are playing and the chat software they are using are all made by Nantian Technology Group, and they are also the foundation of their fortunes!

It can be said that Su Tengyun is the country's top rich, low-key, but his legends are all over the world!

When Li Yun searched Su Muxin's computer for a photo of her and Su Tengyun, he was really shocked, and he didn't expect this little girl to be Su Muxin's daughter!

No wonder so rich!

But what surprised Li Yun even more was that Su Muxin was the reminder that the system had given, Bai Fumei, who had a 90-degree affection for her? !

Thinking that he had inadvertently captured a top Bai Fumei, relieved, Li Yun couldn't laugh or cry, not knowing how to end it.

Fang Xue's family is very rich. There are two commercial streets in Longyang County with a family property of tens of billions.

But the Fang family and the Su family are simply different from each other!

As for Li Yun, he is completely inconspicuous like a grain of sand, and can't compare with Su Muxin's family at all!

"how is this possible!?"

Li Yun was surprised, Su Muxin was even more stunned, her watery eyes widened, she was stunned for a long time looking at the handwriting that appeared on the screen.

Not because Li Yun broke her identity, but because Li Yun hacked her computer silently!

Just like her screen name, Su Muxin also has the same nickname in the hacker world: Bright Red Pepper.

It's good to be famous in the hacker world. Lonely swordsman, rice, strange dog, piggy, etc., these people with names are the top figures of the famous party, in the circle of hackers, red offenders, and white offenders. Belongs to the existence of the wind and the rain.

As for the bright red pepper, it was because of the predecessors who had been crushed for many years in the hacker attack and defense battle, and after winning the final victory, they had their own nickname.

Chapter 146: Ding, bright red pepper favorability 100

But now, Li Yun actually broke through her bright red pepper computer in only five minutes?

In Su Muxin's computer, there are dozens of firewalls, large and small, with few open ports, and almost no security loopholes.

It can be said that her high-end computer, which costs millions, has top defensive capabilities comparable to servers. In terms of the difficulty of breaking, it is comparable to the White House website of M country!

"Big, big, big god, no, brother Li Yun!!! You are amazing!!!!"

Su Muxin went from disbelief to excitement, and her mood was violently turbulent. She was deeply impressed by Li Yun's powerful hacking skills, and she wished to run to him now to express her admiration.

Li Yun smiled slightly, and leisurely spied on Su Muxin's computer, from some of her secret photos to some notes in her free time. Of course, Li Yun didn't click in to read it, maybe it was the mood of some girls.

However, Su Muxin's computer has a lot of software related to hackers. This surprised Li Yun. No wonder she was so confident, she turned out to be a hacker too.

"Huh? The secret to growing up?"

Li Yun saw a folder by accident, and he clicked into it.

Just one look, two eyes, three eyes... ahem, because he was too curious, Li Yun couldn't help but take a few more glances before closing the folder.

"Little Pepper." Li Yun showed her a screenshot, "You'd better encrypt this folder, otherwise it will be bad for people to see it."

"The secret to growing up?"

Su Muxin was taken aback for a moment, then her entire face flushed with shame, she almost passed out without shame, a large swath of water vapor appeared on her head.

"Woo, it's too shame to forget that I still have this kind of thing in my computer!"

Su Muxin shyly hugged the pillow to block her shy face, "What to do? What to do? Brother Li Yun has completely taken care of her!"

The photos in the folder were taken quietly by Su Muxin when she locked the door in her bedroom.

Although the body is not exposed, some clothes are very irritating. The belly, thighs, collarbone, back, buttocks, etc., are all exposed.

And this is a record photo of her growing up from the age of eight to eighteen, from loli to a girl.

It is full of girls' growing up. It can be said that watching this series of photos is equivalent to watching Su Muxin all!

Even more secretive.

"Woo, brother Li Yun, have you seen it? Have you definitely seen my photos?"

Su Muxin said quietly: "Brother Li Yun, you have seen the photos of the fruit|body, and they have no choice but to marry you~"

"Ding, the host made a choice and successfully hacked into Su Muxin's computer within 5 minutes. The rewards (experience +18000 points, random green gift bag*3, wisdom +200, extra bonus Su Muxin favorability +10) have been issued!"

Li Yun was stunned. Su Muxin's original favorability score was 90, plus 10 points. Wouldn't it be a full favorability score of 100 that could never change her mind? !

"Ding, congratulations to the host for successfully obtaining the full favorability of the second girl, an extra 10,000 experience points and a red envelope!"

"Red envelope: there is money 18888 inside, after opening it, you will get the skill: manly breath (the body exudes a unique fragrance that belongs to men, which can make girls feel very comfortable after smelling it, and it is easier to have a good impression on the host)!"

Chapter 147: Su Muxin

Li Yun was full of black lines.

The red envelope rewarded by the system, the first time it was given out was the expedition, that is, the endless battle at night, and it is strong.

The second reward is still this kind of stuff, is it the third time to directly reward the hand of God, just give the girl a little bit of it, let the other party fall in love with yourself?

Li Yun feels that he doesn't need these things at all. Does he still need to use these nasty things to tease his sister?

The system underestimates him too!

After Su Muxin's favorability reached 100, her attitude also changed slightly.

"Brother Li Yun, do you have a girlfriend?"

"Ah? Already there? But it doesn't matter, people are waiting for you to break up with her, hehe~"

"Brother Li Yun, when should I go to you? People are ready to dedicate myself to Brother Li Yun...Woo, okay, okay, not dedication, but to discuss investment matters with Brother Li Yun~, that's true. , Brother Li Yun doesn't understand the thoughts of girls at all~!"

"Brother Li Yun, this is my picture, hehe, I am alone in the bedroom, in pajamas, there is absolutely no second man who has seen it!"

Then Li Yun received Su Muxin's selfie.

In the photo, Su Muxin is wearing pink strapless silk pajamas, combed with double ponytails, and she compares scissor hands to the camera. She also closes her right eye cutely, with an expression that she wants to tease Li Yun.

It's a pity that Su Muxin has no experience in this area at all, and she appears very immature. Although her graceful posture makes the photo look full of charm, this blinking expression has no charm at all!

However, I believe that with Su Muxin's figure and appearance, after having relevant experience with Li Yun in the future, the charm of a woman in her body will be fully revealed!

"Brother Li Yun, hurry up and send your picture over~, you must have the current picture!"

Li Yun couldn't laugh or cry. After thinking about it, in order to live up to the enthusiasm of the other party's 100 points, he chose to give her a selfie.

"Wow, so handsome, so handsome, Brother Li Yun is the most handsome boy I have ever seen! Little Chili really likes Brother Li Yun, hehe~, I really want to see Brother Li Yun with my own eyes now, I really want to, really I really want to see you brother~"

"Little Chili will definitely hug brother Li Yun and rub his face. It will definitely be very comfortable~!"

A fluffy love message was sent over, giving Li Yun the illusion that it was not him who teased Su Muxin, but that she was teased, and she was stuck to death, and there was no chance to get rid of it!

To be honest, Li Yun must be very happy to be able to be so expressed by the daughter of a business tycoon, a real top wealthy daughter.

But Xiaojiao was too clingy, so Li Yun had to make an excuse to go offline to sleep, and after meeting with her for a few days, she got rid of her entanglement.

"Brother Li, Li Yun." Little Chili sent a voice to her, and said very shyly: "I, I will take a picture for you, you can use it at night or the next morning, and delete it when you use it. Oh, I can take another picture tomorrow and send it to you!"

Li Yun felt baffled, what photos can be used? He doesn't need to use Su Muxin's photos for commercial activities, how to use it?

"puff!"

After receiving the encrypted compressed package from Su Muxin and unzipping it, Li Yun spouted a sip of tea after seeing the tightly hidden "secret" photos inside.

Chapter 148: Collect evidence

It turns out that this is what the photos mean!

This Su Muxin deserves the nickname "Little Chili Pepper". She has a hot personality and is very bold. She actually sent Li Yun a very secret photo.

In the photo, Su Muxin was shy and timid. It was obviously the first time she did such a thing. She pointed her cheek thinly, her cheeks flushed, and she looked ashamed.

"..."

Li Yun took a deep breath, suppressed the restlessness in his heart, deleted the photo completely, only kept the encrypted compressed package, and named it: Little Pepper's Shame 1.

There are one or two, Li Yun is waiting to collect a full set of photos of Su Muxin in various costumes.

I believe that with Su Muxin's 100 points of affection for him, Li Yun will do whatever she asks of her!

"Ahem!"

Li Yun felt that he was too evil, so hurry up to work and stop thinking about it!

Although Pioneer Strike has been perfected, if you want to officially release it and use it as the cornerstone of the company, you need to make it more formal and make it easier for users to use.

By the way, Li Yun made a software to invade and collect information related to Zhou Tianyong, trying to figure out his real purpose of coming to Longyang County from the Internet!

Although the rewards of the system have already been issued, Li Yun does not need to get involved in these troubles.

However, he would not naively think that Zhou Tianyong would give it up, and monitoring him is the best choice!

Through a series of methods, Li Yun found Xue Ji's casino from the Internet, and there happened to be a surveillance camera inside, which could see the situation in the casino.

The camera is connected to a computer. The computer is on all day and connected to the Internet. There are videos of the past few days stored in it, and Li Yun immediately copied all of it without hesitation.

It takes some effort to watch the entire 36G surveillance video.

"If this is the system selection time, my justice value is estimated to be cleared immediately, and the evil value will exceed 10,000 points!"

After erasing the traces of his intrusion on the Internet, Li Yun laughed mockingly.

In order to find out the computer IP address of Xueji Casino, he obtained the Internet registration data of the entire Chengdong Village and analyzed the exact address of the casino computer. It was not easy.

But there is no time to watch the video tonight, so I can only watch it tomorrow daytime.

"Brother~"

Li Feng and Fang Xue came back from shopping and bought a bunch of clothes. Li Yun turned to look at the door and was surprised to find that she came in wearing a pajamas, with a shy blush on her beautiful face.

"Caiwei and Caixia are asleep."

After entering, Li Fengjiao glanced at him with a smile, and after many talks with Li Yun at night, although Li Feng was still a girl, she perfectly combined the youthful vitality and maturity of the girl to form a unique charm.

Seeing her slim and beautiful appearance, Li Yun couldn't help but think of the scene with Li Feng in the orphanage when she was a child.

At that time, Li Feng was already very cute. How many times someone wanted to adopt her, but Li Feng refused to be with his younger brother.

The spring flowers have not yet fallen, and the fruits hang on the branches.

It means that nothing has happened, but nothing has happened.

Li Yun is still a boy, and likewise, Li Feng is also a girl.

However, the feelings and actions between the two were a little closer than before. After all, Li Feng was recognized by Fang Xue and had an excuse to stay with Li Yun.

An hour later, Li Yun smiled at Li Feng and said, "Sister, did you go out with Fang Xue today, did you buy a lot of clothes on purpose?"

Chapter 149: Xiaoxue loves you very much

As the saying goes, people depend on clothing and Buddha depends on gold. After putting on a set of high-end pajamas, Li Feng's beauty has taken a step forward!

And more attractive, energetic high school girls, who can stop this beauty.

Li Yun almost lost control.

Li Feng rolled his eyes and groaned weakly: "Aren't you asking knowingly? I bought clothes and dressed beautifully, of course it was for your stinky brother~"

Li Yun was moved in his heart, and dragged her into his embarrassment.

"Don't mess around." Li Feng hurriedly stopped. She has no strength now. If she messes around, she won't be able to go to school tomorrow. That would be terrible.

"Sister." Li Yunan parted and asked curiously: "What did you chat with Xiaoxue while shopping?"

Theoretically, the two are rivals in love, and their being able to get along makes Li Yun feel overjoyed.

"Huh, what else can we talk about? Of course it's about the embarrassment when you were a kid!"

Li Feng smiled and said: "Xiaoxue really loves you, and has been pestering me to ask about you. Of course, she also learned a lot about me and Caiwei."

After a pause, Li Feng stretched out his hand and nodded Li Yun's forehead, "You don't let her down. Xiaoxue fell in love with you with the idea of being your true wife. She will definitely be a good wife in the future."

Li Yun nodded silently. As the first girl to have a full affection for him, Li Yun could not let her down!

"Moreover," Li Feng snickered, covering her mouth. "She asked me shyly after knowing how close I was with you, what it's like to be with a boy. I see her, if she gets the consent of her parents. , I'm afraid I'll dedicate myself to you, brother smelly right away!"

"I am ashamed, I am sorry for her!"

Li Yun was full of emotions, clenched his right fist, and said firmly: "However, I will start a company soon, and I will definitely get her parents' approval by then!"

"You want to start a company? So fast!"

Li Feng looked at him in surprise, "Fang Xue also said that when he was in college, he would start a company for you in his junior year. I didn't expect you to have this plan now. Oh right!"

Li Feng twisted Li Yun's waist and said with a sigh of relief, "You must have wanted to eat Xiaoxue quickly, right?"

As she said, she stretched out her hand and stroked it, and said with a little fear: "Brother, why are you suddenly so powerful? I am a little bit..."

Li Feng's face reddened again, thinking of the way he had to beg Li Yun for mercy just now.

"After ten years of sharpening a sword, I can fight again, one more time!"

Li Yun said arrogantly, that Li Feng couldn't refuse even if he wanted to refuse.

...

After eating breakfast the next day, Li Feng yawned a little tiredly, Caixia asked curiously: "Sister, you haven't come back to sleep at one o'clock last night? Did you fall asleep with your brother?"

Li Feng's face blushed, but he did not answer.

Caiwei glanced at Li Yun secretly, lowered her head to eat breakfast, and understood something in her heart.

"Ahem, eat breakfast quickly so that you can go to school!"

It was all his fault. Li Yun now feels more and more that the conquest skills of the system's red envelopes are so effective that they are against the sky. It is a magical skill that all men dream of!

After eating breakfast and going to school, she happened to meet Fang Xue when she arrived at the school gate. She looked at Li Yun and the two with a weird expression, then raised her chin proudly and snorted.

Naturally, Li Yun knew that the school flower was jealous.

Chapter 150: Jealousy

However, after Li Yun took the initiative to hold her little hand, the jealousy of Colonel Fang quickly dissipated and turned into holding Li Yun's hand joyfully, with a sunny smile on some cold faces!

The three of them talked as they walked, and all the boys they met along the way looked at Li Yun with envy, jealousy and hatred.

Being able to hug left and right, and Li Feng and Fang Xue are still the two most beautiful golden flowers in Zhicai High School, Li Ge's treatment is really envious of others!

"Huh? Li Yun, you want to start a company?!"

Hearing Li Feng talk about last night, Fang Xue looked at him in surprise.

Li Yun nodded, "At present, the company is only in the preparatory stage. Maybe someone will come to me for investment in a few days. Let's talk about it then."

Fang Xue bit her blushing lips, her cheeks gradually turned red, lowered her head, and whispered shyly: "You, you want to open, open, open... a room with me so much?"

Li Yun was stunned, what is this all about? How could Xiaoxue think of that?

"Humph!"

Fang Xue shook off his hand, ran forward, took a few steps, then looked back at him, and quickly said: "Call me when you start the company, and I will help you!"

After speaking, he took the lead to leave. When he left, his steps were a little messy, and he seemed to endure the great shame in his heart.

"Huh!" Li Feng pinched around his waist and said, "Isn't you starting a company to let Xiaoxue's parents recognize you? As long as you admit it, don't you just eat Xiaoxue right away?" in the stomach?

I told you last night, it seems that you were full of bad things last night and didn't listen to me at all!
"

Li Yun really didn't expect this. He just wanted to catch up with the family conditions of Shangxue quickly, and Su Muxin's favorability for him was 100%. To be recognized by her parents, Li Yun needs to become stronger!

However, if Fang Xue can get Fang Xue for the first time, it seems not bad.

Cough!

After bidding farewell to Li Feng, Li Yun came to the classroom, said hello to Wang Houliang and others, sat down and started watching the video on his mobile phone.

He hacked into the computer of Xueji Casino last night and got the surveillance video of the casino lobby. He didn't know if there would be any information about the use of Sundays.

"It should be the first time that Zhou Tianyong and Xue Ji have met."

Li Yun found the video of the first meeting of the two, and they happened to be within the range of the camera.

In the video, Xue Ji is a little cautious, while Zhou Tianyong appears very arrogant.

Two people appeared in the next video. It was late at night when all the people in the casino had dispersed, leaving only Xue Ji, Zhou Tianyong, and two capable thugs.

Zhou Tian's right hand was tied with a bandage, and his face was dark, but his left hand was holding a stick wrapped in bright yellow high-quality cloth.

Li Yun focused on this stick almost immediately.

Just ask, who has nothing to do in the middle of the night and walks around with a stick deliberately? And there are no enemies around!

"What is this? What is Zhou Tian doing?"

Li Yun saw that Zhou Tian used the two thugs behind the commander to remove a statue of Guan Gong directly in front of the hall, then untied the cloth on the stick and placed it behind the statue of Guan Gong, using an inconspicuous black cloth. After covering it, the Guan Gong portrait was put back.

This Guan Gong statue was originally a sacrifice for gamblers to improve their luck, but the picture was only a comfort.

Now that the stick is put behind it, is there any purpose?

After watching the video several times, Li Yun was thoughtful, maybe this is the real purpose Zhou Tian used for Longyang County!
