

Godly Choice 1491

Chapter 1491: Spectacular volcano (part 1)

"Little Meng, here it is!"

Zhao Tianfeng squeezed the face of the little Lolita lying on her slender thigh. After the girl got into the car, she fell asleep so much that she couldn't open her eyes soon, and she had to make up a retreat, but she finally fell asleep. .

"Hmm~"

The cute little Lori rubbed her eyes, yawned and looked around, and said in a daze, "Where is this? Did you kidnap me out?"

Li Yun & Zhao Tianfeng: "..."

The place is completely far away from humans, and the surrounding area is empty and deserted. It can be said that there is no grass. The ground is full of large rocks after the magma has cooled. No vegetation can survive in this harsh environment.

In the distance, there are two or three volcanoes as high as thousands of meters, towering on the ground in a cone shape, like a pimples growing on the earth.

"Wake up!"

Zhao Tianfeng knocked on her little head irritably, and Hu Xiaomeng blinked before waking up, "Ah, here it is! Hee hee~, good, I woke up and saw the volcano!"

With sharp eyes, she had seen the raised volcano cone from the window, she immediately became excited, opened the car door and jumped down directly, facing the crater, using both hands to make a horn-like shout: "Volcano, you wait, I will soon I'm going to soak you~~!!!"

Li Yun & Zhao Tianfeng: "..."

How much do you want to run into the volcano for a dip!

Li Yun couldn't laugh or cry, shook his head, closed the car door, and looked at the first active volcano: "Let's go, today we will look for the volcano here and try to find what I am looking for soon."

"What are you looking for?" Zhao Tianfeng asked again.

"You will understand if you find it."

Li Yun couldn't explain what the terrible fire was, but Zhao Tianfeng rolled his eyes.

"Don't tell me, Xiaomeng, let's go!"

The two women left Li Yun and walked towards the crater first. Their expressions were still quite excited. It is estimated that they are also the first time to come to the volcano.

And it is an active volcano that may erupt at any time!

Before explaining an active volcano, you need to know what a volcano is.

A very popular explanation is that the earth hiccups, and the result of the hiccups is that the earth's magma erupts from the crater, just like droplets spewing out when a person hiccups.

Active volcano refers to a volcano that erupts periodically or when it can be predicted.

In other words, the volcano that Li Yun and the three are currently climbing is likely to erupt at any time, spewing out a large amount of hot magma and volcanic ash, causing destruction of the world.

Of course, in terms of probability, it is almost only slightly larger than being hit by a meteorite.

"Brother Yun, shall we go down to the volcano to have a look later?"

With acquired strength, Hu Xiaomeng is not tired at all to climb this kilometer-high volcano, and he has free time to pick up some things on the ground to play and see what is strange about the things left after the eruption of the volcano.

The conclusion is: dirty.

"Do you really want to go to the volcano?" Li Yun gave her a helpless look.

"Isn't this what you said?" Zhao Tianfeng asked back. Hu Xiaomeng laughed directly. When she was about to reach the top of the volcano, her slender toes touched the ground, and her petite body jumped up lightly.

Standing on the top of the mountain and looking down, Hu Xiaomeng saw the situation of the crater.

"Wow, it's spectacular~~!"

Hu Xiaomeng screamed with emotion, and in front of her, there was a huge black sea bowl.

Chapter 1492: Spectacular volcano (below)

In the Wankou depression, there are magmatic rocks that have been solidified by volcanic magma, with obvious mineral crystal particles or pores. Magmatic rocks are also an important part of the earth's crust, accounting for 65% of the volume and 95% of the mass.

But it is usually difficult to see the magmatic rocks, they are all distributed under the soil layer, and only near the crater can see so many pictures of magmatic rocks solidifying.

"It seems there is no one here, and there is nothing I'm looking for."

Li Yun stood at the crater and looked down. The volcano has been cooling for many years. The crater that erupted magma has cooled and solidified, and it is full of gray-black rocks without a trace of magma.

"Look for the next one?" Zhao Tianfeng asked. She has no interest in volcanoes, so she might as well go back to the hot springs.

"You guys wait here."

After speaking, Li Yun jumped down and flew into the crater with light effort to check.

"Hey wait... Oh, Brother Yun is really annoying! People want to go down too!"

Hu Xiaomeng puffed up her mouth. She also wanted to go down to the crater to see it. She always thought it would be very interesting, but it was a pity that Li Yun made a quick decision and didn't give her the chance to act like a coquettish.

"Let's go down and watch the next volcano."

Zhao Tianfeng saw her thoughts and rubbed the little girl's head amusedly.

She only discovered now that Hu Xiaomeng is indeed very cute. No wonder many girls in school like to play with her, even the seniors, who are very popular.

Hu Xiaomeng's eyes rolled and he chuckled. He hugged her backhand and asked coquettishly, "Sister Fengfeng, I seemed to hear a loud closing of the door last night. It's you and Yun..."

"No, you didn't hear anything!!"

Zhao Tianfeng forcibly interrupted the girl's thoughts of asking the bottom line, pinched her cheeks with both hands and rubbed her back and forth, solemnly "threatening" her: "Remember, Xiaomeng heard everything last night!!"

"Woo woo~, Sister Rich is like a egg~~~"

"What did you say?!"

"Wow~~"

Standing at the place of the volcanic sea bowl, Li Yun pulled out the Golden Dragon Sword and jabbed it hard in several places. After confirming that there were all rocks a few meters below, he shook his head and turned to leave.

As soon as I turned around, I saw the scene of two beauties hugging and playing together. The morning sun was shining, the Adu Mountain area was not polluted, the sky was clean, and the sun was shining directly on the two beauties. They are reflected like fairies in the world, so beautiful.

"Uh?"

Li Yun paused, watching the two fairies playing in the sun, only to feel a sense of warmth and an inexplicable sense of impulse in his heart.

Li Yun, who has a lot of knowledge about anime, immediately reacted. This seems to be the so-called light lily fan, excited by the sweet and sour feelings between the girls, as if seeing Gong Qingyu grabbing Xia Feiyao and giving She wears this COSPLAY costume, that kind of beautiful feeling.

As long as it's a man, who doesn't like to see two cute and beautiful girls in front of him, frolicking and playing unscrupulously, and occasionally give a little blessing...

Cough cough cough!

"Go, let's go to the next one."

When Li Yun returned to the two women, he only felt that the two of them got along more closely, just like Fang Xue and Li Feng's girlfriends and friends.

Well, the best friend among girls.

"I always think you are thinking about something bad!" Returning to the off-road vehicle, Zhao Tianfeng glanced at her, and at the same time, stuffed the peeled orange into Hu Xiaomeng's mouth and fed it to her.

Chapter 1493: Volcanic snow

Hu Xiaomeng ate the orange peeled by Sister Fengfeng herself, and blinked when he watched Big Brother Yun. After thinking about it, he blinked again.

After blinking a few times, she didn't see anything.

"What can I think? I didn't think about anything!"

Li Yun shrugged solemnly, started the off-road vehicle, and drove to the next place.

Who doesn't like this development.

However, Li Yun was also wondering, what kind of attitude is Zhao Tianfeng?

Her favorability is still at 95 points, and she doesn't know how much she is now before the next system selection.

However, it is definitely not full, otherwise the system will prompt.

After driving the car for more than ten minutes, we arrived at the next volcano. Hu Xiaomeng looked over from the car window, his face was full of excitement and said, "Sister Fengfeng, look at it, this volcano is smoking!"

The second volcano is bigger and taller than the first. The top of the mountain is vaguely covered with snow, but the amazing thing is that while the top of the mountain is covered with snow, a long plume of smoke emerges from the cone of the volcano. Ice and fire coexist. , It is breathtaking.

"Is there snow on the volcano too?" Zhao Tianfeng also asked in surprise, looking at Li Yun, as if he knew he would answer.

"It's not surprising that there is snow at high mountains."

"This is a volcano!!"

"What happened to the volcano?"

Li Yun smiled and said: "Volcanoes are not burning mountains. Magma erupts inside the mountains, but it does not mean that there are also outside the mountains. As long as the heat does not come out, the snow is normal. The most famous volcano in the country of cherry blossoms has a long mountain top. Does it snow every year?"

Zhao Tianfeng was speechless.

Facts have proved that it is as Li Yun said.

The three of them started to feel very cold when they reached halfway up the mountain. After Hu Xiaomeng put on the clothes, she soon came to the snow-covered area. The white snow made her happy again.

But the closer you get to the top of the mountain, the less snow will be accumulated. When you get to the crater, there is not a trace of snow, and the temperature has risen to more than 20 degrees, which is higher than the foot of the mountain!

"So hot!"

Hu Xiaomeng wiped the sweat from his forehead, stepped ***** his toes, jumped directly to the top of the mountain, and saw the inside of the crater.

"Wow, wow!"

Hu Xiaomeng opened his mouth and shouted with emotion.

In front of her, was a strange pond with black and red billowing smoke.

The black is solidified magma, the red is the high-temperature magma crisscrossing the rock. The black and red are interlaced, just like the earth cracked by drought. The hot flaming red magma is churning in the cracks, and some hot lava is emitted from time to time. Air bubbles expel the gas from the ground.

"The power of nature is indeed shocking!"

Standing beside them, Li Yun couldn't help but sigh with emotion.

Now it is enough to see the lava flowing in these criss-crossed rocks, let alone the real volcanic eruption, how terrifying the force that bursts out and destroys the world!

"Hehe, Brother Yun, take me down this time~!" Hu Xiaomeng, who had recovered his senses, quickly grabbed Li Yun's arm, and began to shake his arm to act cute and coquettishly: "Brother Yun, let's go, Xiaomeng wants to get closer Let's take a look at how magma looks like~, it's rare to come to a volcano, Brother Yun will agree to Xiaomeng~"

Then, she repeated the same tricks--or greedy, once again wrapped her arms around Li Yun's neck, stood on her toes, and kissed Brother Yun's lips in Zhao Tianfeng's surprised and shy eyes.

"Hehe~, this is Xiaomeng's reward~, does Brother Yun like it?"

Chapter 1494: Fire avoidance

Zhao Tianfeng was completely stunned. It turned out that this is normal between men and women.

She thought she was already very inexplicable last night, but compared with Hu Xiaomeng, it was nothing.

Take the initiative to attack, a stronger charm, maybe the truth is!

Hu Xiaomeng blushed, glanced at Zhao Tianfeng next to him, and then quickly lowered his head, his expression was shy with happiness, and a little green, charming, and sentiment: "Does Brother Yun like it? If you like it, take Xiaomeng down. When you go back to the hot springs, Xiaomeng can still...well~!"

"Come and go! Let's go, can't we go?"

Li Yun hurriedly covered this girl's mouth, and then the volcano in his heart was about to erupt!

"Yeah~~~!"

Hu Xiaomeng competed with a cute scissor hand and hopped towards the crater below. Li Yun and Zhao Tianfeng had to keep up quickly, lest this little girl accidentally soaked the volcanic lava.

The closer to the center of the volcano, the higher the temperature, and the surrounding air is filled with the pungent smell of sulfur. Fortunately, Li Yun has a small detoxification pill that can be taken by Xiaomeng Fox, otherwise she would not dare to let her down rashly.

"Well, these gases are sulfur, right?"

Hu Xiaomeng approached a fissure and glanced at the magma inside. She heard the hissing sound of sulfur jets from the earth's crust. The novel experience made her very happy.

Had it not been for Li Yun, she would definitely not have been allowed to come to such a dangerous place.

"Be careful!"

Li Yun looked around and saw a small flaming lava lake at the very center of the crater. He moved in his heart and said, "Tianfeng, look after her, I'll go there for a look!"

Zhao Tianfeng is in the late congenital stage, and ordinary volcanic activity is not a problem, but Hu Xiaomeng is a bit worse, she is not congenital.

"Hey? I want to go too!"

Seeing Li Yun's purpose, Hu Xiaomeng insisted on keeping up with it, pretending to be pitiful in the watery eyes.

Li Yun is quite a headache. This girl is cute and cute, and she will also take the initiative to give benefits, but occasionally she is too lively, and she can't stand it when she is acting like a baby.

"Okay, okay, one last time willful, don't behave like a baby anymore!"

"Hee hee~"

Hu Xiaomeng covered her mouth and snickered. She felt that if she acted like a baby and kissed Brother Yun again, he would definitely agree.

But there are only three things, and she won't be like this again next time.

Li Yun thought for a while, remembering that he had received a reward, which happened to be given to her.

"Take this!"

"Huh? What is this?"

Hu Xiaomeng took it, and suddenly felt cool, the high temperature brought by the volcanic magma subsided, and she squinted her eyes with comfort.

"Fire Avoidance Talisman (Small)

Special effect: Isolate high temperature, reduce the damage of fire attack to a certain extent.

Explanation: A spell commonly used in the spiritual world is as famous as the amulet for avoiding water. "

This is just a small purple piece of equipment. Li Yun shrugged to Zhao Tianfeng: "I only have this one, Tianfeng, please bear with me."

"I don't need it."

Zhao Tianfeng overjoyed, saying that he didn't need this kind of thing at all.

It's just that the envy in her eyes has betrayed her.

Li Yun smiled, did not expose her, and waited for her to give her something next time.

The three came to near the lava lake in the middle of the crater. The heat became more and more turbulent. The magma in the lake was very active, with bubbles constantly emitting and putting a lot of heat into the air. People couldn't help but feel the magic of the power of nature again.

Unfortunately, there is still nothing Li Yun is looking for here!

Chapter 1495: Who am you

"Go on looking for the next one."

Li Yun shook his head lightly, not too surprised by this.

The system gave too few hints, only Haraha volcano was written, the specific volcano was not written at all, and it could not even be ruled out that it might be in an extinct volcano!

If it is really an extinct volcano, it will not be a matter of a day or two to find it. It takes great effort to dig out the magma rock of the extinct volcano.

Unfortunately, it is possible that Master Song, who knew the specific location, was killed by Zhao Tianfeng with two swords, otherwise he might be forced to lead the way.

However, Li Yun did not complain about the incident, lest Zhao Tianfeng feel guilty, and it would not help.

Near noon, the three of them ate lunch and rested for a while. They continued to search the volcanoes without a nap.

"Continue looking in the afternoon? Will you come tomorrow if you can't find it?"

There are many volcanoes, and Hu Xiaomeng is also a little tired. If she hadn't been with Li Yun, she would have returned to Aduoshan to find a good hot spring shop to soak in the hot spring.

Hearing the greasiness of the little girl's words, Li Yun amusedly nodded her smooth forehead: "I said I didn't come to travel, you still have to follow... You will be waiting in the hotel tomorrow, I just need to find it myself. NS."

"That can't be done!"

Hu Xiaomeng hugged his arm solemnly: "As Brother Yun's real girlfriend, of course I will always follow Brother Yun~, no matter how hard or tired I am, I will not be afraid!"

Her voice was innocent and cute, as if she was acting like a daughter to her father, and her voice was tender and crisp, which moved Li Yun's heart for a while.

Zhao Tianfeng's expression was a little sad, he turned his head and looked out the window, looking at the volcanoes on both sides of the road.

In the distant sky, there were four or five pillars of smoke rising into the sky, but Zhao Tianfeng was unwilling to appreciate the bizarre picture. He only felt that his heart was messy and annoying.

"Brother Yun, am I your real girlfriend?!" Seeing Sister Tianfeng's strange expression, Hu Xiaomeng deliberately asked.

Not to hit her, but to remind her.

Li Yun smiled bitterly, embarrassed and ashamed: "Xiaomeng, did I tell you? Fang Xue from Longyang County is my real girlfriend."

"Well, what about me~?" Hu Xiaomeng asked miserably. Although he was jealous, was he sad? Anyway, I knew about it a long time ago.

Zhao Tianfeng's heart was shocked, and his expression on Li Yun became very complicated.

There are surprises, contempt, and a little bit of happiness and sadness. All kinds of tastes are intertwined in her heart, but she feels much better than before.

Since he has multiple confidantes, does that mean she also has a chance?

No, why must she be with this dead eunuch? !

There are so many good men in the world, she just hooks, there are countless men willing to surrender under her war skirt, these men still dare not resist her, let them move east, west west.

It's not like this dead **** bastard, who always bullies her and beats her, it's damned!

"Hehe~, Sister Fengfeng, do you understand?"

In Zhao Tianfeng's cranky thoughts, Hu Xiaomeng hugged her and plunged into her shame, and even winked cutely at her, the meaning of the hint couldn't be more clear.

Zhao Tianfeng's face flushed red, and he overwhelmed without speaking.

There was neither objection nor approval, and he said nothing.

"Brother Yun, please answer quickly, Xiaomeng is yours... Ah!"

"Huh? No!"

Li Yun, who had been driving, saw a black car on the gray-black lava rock hillside in front, and a thought flashed in his mind. He subconsciously braked the car and made Xiaomeng, who was not wearing a seat belt, bumped forward. The bang directly hit the back of the front seat.

Chapter 1496: No one in the car

"Woo, Brother Yun is a badass~!"

Hu Xiaomeng held her forehead with tears in her eyes. Zhao Tianfeng rubbed her amusedly. Seeing that there was no red mark on the white and tender skin on it, she nodded her forehead amusedly: "Let you not tie it. Seat belts, you can't think of resisting with the acquired body."

"Woo~"

Hu Xiaomeng made a soft sound like a small beast, and the cheeks bulged, but the sound was very small, because she could see that Li Yun was doing serious things now and could not disturb him.

"Who is in front?" Zhao Tianfeng turned his eyes to the front and saw the car parked abruptly on the hillside.

The door of the car was closed tightly, there was no one on the car, and three letters were written on the sign: BMW, the model Zhao Tianfeng couldn't see it, but it should be a low-end car with around 500,000 yuan, and it has not been modified.

On the surface, it looks like someone who drives to the volcanoes by car like Li Yun.

"Ding, trigger the option event, please choose from the host:

Option 1: Go ahead, ignore the car in front, and reward a white gift bag*2.

Option 2: Go forward and ask, reward experience value +100,000, power +500, white gift bag*2, there is a small probability that the event will be triggered.

Option 3: Sneaky investigation, reward experience value +200,000, free attribute points +500, green gift bag*3, there is a small probability of getting some information. "

The system finally gave a selection event, and Li Yun ticked the corner of his mouth, as if he saw the hope of finding a place!

"I don't know, but there is a high probability that there is a problem." As he said, he drove the car forward at an unpleasant speed, and at the same time took the opportunity to observe the situation of the BMW.

There was indeed no one in the car, there was no vegetation around it, all were bare gray-black magma rock ground, and there were no traces of people climbing on several volcanoes in the distance.

"Why do you say that?" Zhao Tianfeng asked again, for some reason, she didn't bother to think too much when she was with Li Yun, all of which was for him to make a decision.

Anyway, this guy is too domineering, and he doesn't listen to his opinions.

Zhao Tianfeng found an excuse for himself.

"It's very simple."

Hu Xiaomeng naturally said, "There are few people passing through the volcanoes, and even fewer people stop in the middle of the volcanoes. Sister Fengfeng, look around." She pointed to the surrounding volcanoes, "There is nothing good here. If I were a tourist, I would definitely not stay here."

"Huh?" Zhao Tianfeng glanced at her, this little girl seemed very smart.

"Besides."

Hu Xiaomeng pointed to the nearest smoking volcano: "That volcano is alive, and ordinary people won't get into the crater even if they climb up. Choosing other volcanoes is too tiring for ordinary people. ."

Zhao Tianfeng quickly figured out that she was not an idiot after all, but she was too lazy to think: "In other words, this car belongs to Master Song and his group?"

Zhao Tianfeng didn't know his name for the Immortal Song who killed him with two swords, so it was more convenient to call him Immortal Song.

"It can only be said that it is possible."

Li Yun gave a chuckle, drove the car out a few hundred meters at a normal speed, turned into the other side of the road, turned around, and stopped behind a mountain that was invisible on the highway.

"let's go!"

As soon as Li Yun jumped out of the car, the two women also got off almost at the same time. It can be seen that although they usually mess around a little bit (especially Hu Xiaomeng), they don't hold back at all when doing business.

Chapter 1497: Hu Xiaomeng's analysis

Moreover, the little face of this girl Hu Xiaomeng clearly showed an expression of excitement. It is estimated that for her, she is tired of watching volcanoes all the time, wishing to meet people like Master Song.

"Brother Yun, let's go to a high place, hehe, I brought a binoculars~"

Hu Xiaomeng sneaked up to a high slope, ignoring the gray-black magma rock on the ground, squatted down directly, tilted his legs back, and took out a small telescope, and looked back and forth seriously in the distance.

"How could it be that simple..."

"Ah!"

Li Yun was trying to tell her to come down and stop playing. Unexpectedly, the girl screamed, "Big Brother Yun, Sister Fengfeng, I saw someone!"

"Um?"

"real?"

Li Yun and Zhao Tianfeng looked at each other, and both felt incredible. Did she really hit a dead mouse by her blind cat?

When the two went up to Gaopo, they squatted down and looked through Hu Xiaomeng's small telescope, and they found one standing on a volcanic rock far away.

The effect of this small telescope was not very good, but Li Yun could still vaguely see that the other party was a man, did his right hand bend and put it to his mouth, and then moved it away, showing that the other party should be smoking happily.

"Huh hum~" Hu Xiaomeng was very proud, and said with certainty: "There is no one around this person, but he is still staying on the mountainside of the active volcano. It can be seen that he is not anxious to leave at all. I'm sure, that one There must be something Brother Yun you're looking for in the volcano!"

"Or maybe the other party is tired and doesn't want to climb the mountain." Li Yun shrugged to deny her statement, and Hu Xiaomeng immediately puffed up his cheeks: "Brother Yun is really annoying, he always goes against them! It's necrotic~"

Li Yun looked funny, this girl was very cute, especially when her cheeks were bulging, and when she stared at him with big clear and bright eyes, her nose bleeds even more.

"Well, how about it, let's talk about it after seeing it!"

Li Yun smiled and stretched out his hand, and squeezed the white and tender cheeks of Xiaomeng Hu's bulging, and with a puff, Xiaomeng Hu spit out a sweet girly breath, and the fragrance came to his face, reminding Li Yun of kissing this girl At that time, the opponent's random jerky movements.

Keke, "Let's go!"

Li Yun hurriedly suppressed the evil thoughts, but his little girlfriend was covering her mouth and laughing, obviously seeing the look in his eyes.

"Let's go, let's go~"

Hu Xiaomeng took the initiative to hold Li Yun's hand and said in a very vague tone: "Let's finish these things soon so that we can go back to the hot spring~, um, open a three-person hot spring room and soak together~"

Zhao Tianfeng turned red invisible, but did not object.

Isn't it normal to take a bath in a public hot spring?

Li Yun almost couldn't help but want to crooked, Hu Xiaomeng, this girl is really small and big—in another sense, small and big.

"You are walking behind me."

"Eh? Why? Ah, I get it!"

Hu Xiaomeng nodded. Brother Yun is very sensitive. He is not easy to be seen when he walks in front, and he can find a suitable route to approach the volcano.

However, Li Yun did not go directly to the target point. Instead, he returned to the black car parked on the side of the road and first issued the license plate number "HJ3451" to Director Amur.

Soon, when Li Yun confirmed that no one was watching around the car, he got a call from the director.

"Deck car? Okay, I see."

"I'm sorry, Mr. Li."

Chapter 1498: Query license plate

Director Amur looked at the National Vehicle Information System in the computer, and the "HJ3451" vehicle that was inquired in it was completely different from the one sent to him by Li Yun!

This means that the car Li Yun found was a de-licensed car, that is, the license plate of the real car was stolen and installed on another car, which is called a de-licensed car.

"Mr. Li and Mr. Li, I'm really sorry, I immediately arranged for someone to investigate the cars in the city, and be sure to find out the true origin of this licensed car!"

What happened last night left a deep impression on Director Amur.

Not only did Li Yun show his might and overthrow the entire Pegasus Ranch, but he also came directly from the provincial capital to take over and order all the leaders of Amur to cooperate with Li Yun to start the war.

In the end, there were even hundreds of soldiers armed to the teeth, blocking the entire Pegasus pasture, and no one was allowed to inquire about the leaked news!

All this shows that Li Yun's origin is amazing, and the secret mission he is performing is also extremely important, and there is no room for mistakes.

Therefore, Director Amur was so panicked after receiving Li Yun's message!

"Don't worry." Li Yun thought for a while, "In case you start to get rid of the snake, you must be careful when investigating!"

"Yes Yes!"

Director Amur's voice became quieter. How could he not understand that the enemy Li Yun was looking for must be those magical guys who could control flying swords last night. It was terrible to disturb them. This matter has to be discussed with the superiors. To act!

"Okay, so be it."

Li Yun hung up the phone. He didn't expect to find the person behind the scenes by investigating the car, just in case.

Hu Xiaomeng faintly smelled a nervous atmosphere. She carefully took out the Phantom Demon fox claws that Li Yun gave her and put it on, squatting on the ground and asking in a low voice, "Brother Yun, what shall we do next?"

Zhao Tianfeng glanced at Hu Xiaomeng's gloves with some envy. Although the crescent blades are very strong, they are obviously too large. She is still stored in Li Yun's spatial ring, and he will take it out when needed. Now The weapons on her body are still the two short daggers before.

It's a pity that after seeing the power of the Crescent Double Blades, this kind of mortal creatures are somewhat insignificant, even if they were specially created by Zhao Tianfeng who spent millions of people.

"I'll check the car first."

Li Yun let the two women stay where he was. He went to the black car alone. After performing the god-level misty footwork, he walked on the ground leaving almost no trace.

After approaching the car, Li Yun repeatedly inspected it carefully. From the appearance, there was no problem with the car. He could only find some messy footprints on the ground by relying on the intermediate stealth and tracking skills.

"The direction... it just happens to be where Xiao Meng saw through the telescope!"

A light flashed in Li Yun's eyes, and almost all the clues corresponded.

The missing disciple of geologist Shi Liangcai, Master Song Xian who came out to purchase once every half a month, a licensed car, a smoker in the middle of a volcano.

"Ding, the host makes a choice, sneaky investigation, rewards experience value +200,000, free attribute points +500, green gift bag*3, additional reward: the stealth and tracking skills are upgraded to advanced."

The corner of Li Yun's mouth twitched. He was righteous. Where could he be sneaky?

However, the additional rewards of disappearance upgrade is not bad, what is really missing, very good!

"Brother Yun~~" Hu Xiaomeng in the distance shouted to him in a low voice. Li Yun knew what she wanted to do. After thinking about it, maybe this clever girl could see something, so he beckoned to them. come over.

Chapter 1499: Track down

As a result, in order not to leave any traces, Zhao Tianfeng chose to hug Hu Xiaomeng up face to face, looking very orange.

"Big Brother Yun, have you found anything?"

The expression on Hu Xiaomeng's little face was very excited, and she felt like doing bad things sneakily. If it weren't for the fear of leaving any traces, she would still be silent about the car.

—Actually, this black car is also a normal BMW model. Judging from the luxury cars she owned in the Beijing courtyard house, the BMW car with a value of 500,000 yuan is not worth paying attention to.

"I can only see that there are footprints extending all the way." Li Yun pointed his finger in the direction, "I can clearly see the footprints of a person, how many people there are, I don't know."

After the light work reaches a certain level, there will be no traces left on the gray-black magma rock. It is difficult to judge how many people have come. There may be only one, or it may be multiple masters + an ordinary person.

"In other words, we want to find a way to know how many people there are in these two sets of license plates. It is best to know who they are, right?" Hu Xiaomeng asked seriously.

"Yes." Li Yun nodded and looked at this cute little girl. Does she have a way?

Zhao Tianfeng also looked at the fox Xiaomeng who was hugged by her with some doubts. Most of the time, she was a little girl who behaved like a cute girl. What way can she really think of in her mind?

"Hehe, look at me!"

Hu Xiaomeng motioned to Sister Fengfeng who was holding her to walk to the side of the fuel tank, and pointed her finger at the lock of the fuel tank: "You have to find a way to open it."

Zhao Tianfeng didn't know, so Li Yun asked in surprise: "Do you want to judge how many people the other party has seated by looking at the fuel consumption? This is impossible, you don't know how much fuel you started!"

Theoretically, the more loaded the person, the more fuel, but in fact the difference is very small, unless it is the difference between fully loaded and unloaded, otherwise it is basically invisible.

Moreover, Hu Xiaomeng didn't know how much fuel the car had at the beginning, let alone see the problem.

"Hehe, Brother Yun is an idiot~" Hu Xiaomeng said triumphantly: "Anyway, let's determine the amount of fuel first. Hey, how do you open the lock? Brother Yun, do you know how?"

Li Yun is ashamed. He has obtained many messy skills from the system, such as poems and songs, proficiency in tea art, knowledge of animation, proficiency in driving, feng shui, etc., but there is really no theft-like unlocking and car stealing skills!

The infiltration technique does not include unlocking or stealing the car.

This skill is a magical skill that Zhou, who has to say the classic saying "It is impossible to work part-time, it is impossible to part-time job in this life", can he master it perfectly!

"I come."

"Um?"

Li Yun and Hu Xiaomeng looked at Zhao Tianfeng together, with a deep surprise in their eyes.

This arrogant and indifferent grandmaster's daughter would actually steal a car? !

"What are you thinking about!"

Zhao Tianfeng gave Li Yun an angry look, and at the same time rubbed Hu Xiaomeng in her sorrow, with one arm around her, the other hand stretched out, and his fingers flicked on the fuel tank.

"Boom!"

The fuel tank made a dull sound, and Zhao Tianfeng was sure to measure the position, and said: "The fuel in it is almost full...Don't look at me like that. I just learned the skill easily when playing drag racing before."

Li Yun laughed, "You really are a little genius, well, sometimes it's really useful, I probably know how to do it."

After that, before Hu Xiaomeng could explain, Li Yun took out his cell phone and called Director Amur again.

Chapter 1500: Mega volcano

"Director, you send someone to the gas station on the road from Mount Ado to Haraha volcano and look for the surveillance inside."

"Well, yes, they must have added fuel there."

After listening to Li Yun's words, Zhao Tianfeng woke up to Hu Xiaomeng's method.

However, she was holding Xiao Meng with a weird expression, and couldn't help but squeeze the cute little girl's fat face, and asked: "Xiao Meng, what if you can't tell from the gas tank? For example, they are not at the gas station at all. Stay!"

"There is also a way."

Hu Xiaomeng grinned and said: "It's nothing more than trouble. It is standard practice to check all the cars that drive to Ado Mountain and come to the volcanoes. There are cameras. This is standard practice. The less standard ones are stupid. We just get in the car. It can be roughly judged by looking at how deep the traces of the car are pressed down."

Footprints can be disguised, but wheel prints cannot be faked.

Zhao Tianfeng confirmed that this girl looked cute, but she was actually very smart.

Checking the camera at the gas station quickly got results. When Li Yun went to the volcano with people, he received a MMS from Director Amur.

"Two people, one is a young man under 30, and the other is a middle-aged man in his early forties. He has a beard and seems to be holding a sword in his hand. It is wrapped in cloth. It is likely to be a sword. ."

After reading the text message, Li Yun can basically conclude that the person in this car is the target he is looking for!

"Hurry up and see what they are doing!"

Under Li Yun's leadership, the two women followed him in a quick circle, uphill from the side of the volcano where the smoking man was seen by the telescope, but soon the three of them discovered something was wrong.

"Huh? There is another mountain!"

Hu Xiaomeng sighed in a low voice, because there was a volcano on the side, and the two mountains almost merged together.

"Maybe this is a place where volcanoes are active, so the two volcanoes are close together." Li Yun looked at the sky and saw the plume of smoke that was soaring straight into the sky, which was obviously larger than other active volcanoes, and said: "Perhaps not only two, but three!"

Sure enough, after they cautiously climbed to the top of the mountain, observing the crater on the top of the mountain, they saw a magnificent scene after observing the crater of the mountain through the uplift of the rock.

The three volcanoes are arranged in a fringe shape, and the three volcanic craters are joined together to form a large volcanic crater!

The super-large volcanic crater has the size of thousands of acres, the smoke is rising, the terrain is undulating, and the solidified magma ejected and formed blocks of boulders, entering it is like entering a maze of rocks!

What's more frightening than getting lost is that in this labyrinth of magma rocks, there are cracks everywhere, either bottomless, or magma is rolling, and it will melt on the spot if you stumble and fall into it.

"It's like hell!"

Hu Xiaomeng was stunned to see, the boulder maze, volcanic ash billowing up, and the hot environment, except for the absence of ghosts, it was completely a picture of hell.

"It's very hot!" Zhao Tianfeng looked solemn, "It's hotter than the active volcano before, maybe this is the place Li Yun you are looking for!"

——She has guessed that Li Yun came here to find a special volcano.

The three of them have not yet entered the huge crater, but they have already felt the billowing heat waves. Looking at it from a distance, it seems that even the air has been ignited by the magma in the crater and has become distorted.
