

Godly Choice 1501

Chapter 1501: Flaming mountain

"Like Flaming Mountain." Li Yun smiled very satisfied. He was 90% sure that the Earth Fiend was hidden in this huge volcano.

This giant volcano, rather than the merger of three volcanoes, is more because of something turbulent in the earth's crust, which caused three strands of magma to be ejected, and it became three mountains over time.

"Flame Mountain? What kind of mountain is that? Brother Yun said you haven't been to other volcanoes?" Hu Xiaomeng asked curiously. She wanted to know more about Li Yun.

Zhao Tianfeng took out his mobile phone to look at it, nodded and said, "This is called the Haraha volcano. This volcano group is named after this large volcano... The Flaming Mountain you mentioned, I didn't find it."

"Uh, how do you say it."

Li Yun touched his nose and explained: "Flame Mountain is a place in myths and legends. It is transformed by the true fire of Samadhi in Taishang Laojun Pill. It stretches for 800 miles and has been burned for 500 years. It can be blown out with a banana fan."

Hu Xiaomeng and Zhao Tianfeng were stunned. Needless to say, Hu Xiaomeng, even Zhao Tianfeng was surprised.

"Samadhi is so powerful? It actually spread 800 kilometers, from Zhonghai City all the way to the capital, only a little bit!"

"It hasn't been destroyed for five hundred years, really that powerful?!"

The two women looked at each other and both felt incredible. Someone really had to master this powerful spell, enough to shock the world and become a well-deserved invincibility!

"Myths and legends, I said they are myths and legends!" Li Yun spread both hands, saying that he is not clear.

Hu Xiaomeng spit out a small pink tongue: "I thought it was Brother Yun that you knew about the secrets of the spiritual world. There were such powerful immortals in ancient times, hehe~"

Zhao Tianfeng kept looking at him, and Li Yun smiled: "Perhaps there was before, but there is definitely not now!"

The spiritual energy of heaven and earth is declining, and it is not easy for practitioners to survive. He doesn't think there are people who can burn eight hundred li with one move.

"Forget it, let's not talk about it, let's go."

Li Yun stepped forward.

Although he took two girls, one of them was Hu Xiaomeng who was in the later stage of the Hou Tian realm, it was a bit reckless to enter the crater together, but he estimated that the two girls would not be able to persuade them, and they must follow him.

"Eh?"

Hu Xiaomeng followed Li Yun and asked him, "Big Brother Yun, shall we not arrest the person outside?"

When Hu Xiaomeng raised his own question, Li Yun received a prompt from the system.

"Ding, trigger the option event, please choose from the host:

Option 1: According to Hu Xiaomeng's suggestion, catch the outsiders and force them to find out where the opponent's lair is. The reward is justice value +1000, experience value +1 million, all attributes +1000, purple gift bag*1, there is a high probability of getting useful information.

Option 2: Go directly into the Haraha volcano to find the enemy's trail, reward justice value +500, experience value +1 million, all attributes +800, purple gift bag*1, there is a small probability of direct danger.

Option 3: Turn around and leave, ask Concubine Wan Qing or Saint Fan Qing to help. Reward skill: Invincible Little White Face (so that the host can be a little white face with confidence). "

Invincible... Little white face.

Li Yun is full of black lines, he doesn't always ask these two saints for help, right? Besides, he gave Qing Sheng a peerless treasure: the Hongmeng Purple Qi Fairy Bracelet, and also gave Wan Qing Concubine a copy of "The Incarnation of the Demon". In terms of value, he was the only one who had two saints!

Chapter 1502: Blame me

"Do not."

Li Yun rejected Hu Xiaomeng's suggestion and shook his head and said: "Since the other party dared to sit on the rock and watch, it means that they are not afraid of others discovering it, and there may even be a quick way to notify people inside to prepare."

"I see, he is the bait!" Hu Xiaomeng slapped his head and said annoyed: "Big Brother Yun was so domineering before, which made me think that the problem was a little reckless."

"Blam me?"

"Hee hee~"

Zhao Tianfeng nodded slightly, approved Li Yun's approach, and asked him to take out the crescent double-edged blade and hold it in his hand to prepare for battle at any time.

Preparing to enter the labyrinth of the crater below, Hu Xiaomeng closed his mouth and put on gloves with both hands. Even if she had no combat power, she could not become a burden.

"Ding, the host makes a choice, rewards justice value +500, experience value +1 million, all attributes +800, purple gift bag*1."

In this way, Li Yun took the two of them down to this super-large volcanic crater, and it took more than ten meters to reach the ground.

"Here... terrible!"

When he reached the ground of the crater, Hu Xiaomeng sighed quietly.

This huge crater formed by three volcanoes in parallel is densely packed with towering gray-black magma rocks, some of which are more than 30 meters high, pointing directly at the sky, like stalactites hanging upside down.

Inside the maze of people walking and magmatic rocks, the eyes are full of stones, and the roads winding around, wide or narrow, can easily stun people.

To make matters worse, the road is not flat. If you accidentally encounter a magma fissure, people getting stuck in it is like falling into the magma, which is very dangerous.

"Tianfeng, are you hot?"

Li Yun glanced at Zhao Tianfeng, her cheeks were a little red, and the heat of this flaming mountain was beyond imagination. Walking in the crater was like walking in a red iron pan, with heat waves constantly coming up from below.

What's even worse is that the labyrinth formed by the solidification of these magmatic rocks perfectly covers the heat emission, making the temperature even more exaggerated.

Hu Xiaomeng blinked, but he didn't feel very hot, because Big Brother Yun had given her a fire-stopping charm before, but it was only this one.

"I'm fine!"

Zhao Tianfeng's voice was cold, but his eyes fluttered to the side, as if he didn't dare to look at Li Yun.

Of course she knew that Li Yun was not reluctant to take out the fire avoidance charm, but there was only one.

"How about this."

Li Yun took out a small bottle and stuffed it into Zhao Tianfeng's hand, "You don't need to save the zhenqi, try to isolate the heat with zhenqi, and take a pill if you feel that the qi is not enough."

"Is this...?" Zhao Tianfeng's voice trembled slightly, and her eyes became more erratic. She didn't expect Li Yun to be so kind to her and caring about her so much...

"The small recovery pill can restore physical strength and true energy, and even restore mana, which means that the recovery of mental strength is a little bit worse, so your divine mind needs to be used sparingly."

Li Yun told her, Zhao Tianfeng's face became redder and red, and finally he hummed quietly and took the bottle.

"Go on, you are behind me."

Li Yun didn't think so much. He didn't go ahead for machismo, but his spiritual intent could spot the enemy in advance, so as not to directly hit the enemy and not know.

The three continued to shuttle back and forth in the crater labyrinth, but the complexity of the labyrinth far exceeded Li Yun's imagination.

Chapter 1503: someone is coming

"Brother Yun, we seem to have searched it back and forth three times, right?" Hu Xiaomeng couldn't help but ask, panting slightly, some fragrant sweat leaked from his forehead, and his soft hair was on it.

The maze is huge, with a total of thousands of acres, but Li Yun and the three are very fast. Even if they need to search carefully, three hours can be enough for the three of them to walk back and forth in the maze three times!

"really."

Li Yun nodded slightly, and said to the two women: "You guys rest where you are, I'll go up and see the direction."

If you can't find it the first time, it can be said that there may be a legacy. It can't be found in the second time. It can also be said that the search is not detailed enough, but still nothing is found in the third time.

Operating the Spirit Turtle Hidden Breathing technique, Li Yun jumped, stepped back and forth a few steps, jumped onto a ten-meter-high vertical magma rock, and scanned the rock maze back and forth.

In the eyes of Hu Xiaomeng and Zhao Tianfeng, he just disappeared after jumping up, shocking the two women.

"Big Brother Yun... will he be invisible?"

Hu Xiaomeng spit out her little pink tongue. She already knew that she was a burden, but she didn't expect Brother Yun to be so powerful, he could even be invisible!

Zhao Tianfeng was silent for a moment before sighing with emotion: "He is indeed very powerful, and the heat of the volcano can't affect him at all."

Three times through the crater labyrinth, even Hu Xiaomeng, who has a fire-stopping talisman, was tired and sweaty, but Li Yun didn't run his true energy, so he walked calmly in front of them, still handsome and handsome. There was no trace of sweat on his face.

For ordinary people, Li Yun can also come and go freely in a volcano that ordinary people don't dare to enter, just as leisurely as in his own home.

At this moment, both Hu Xiaomeng and Zhao Tianfeng deeply felt the gap with him. If Zhao Tianfeng hadn't reluctantly had divine consciousness because of having died three times, she would not even be able to raise her head in front of Li Yun.

Just like Xianhefan, Tianhedi is not a person in the world at all!

"It's so hot...Woo, I really want to drink juice."

Li Yun only left for a while, and Hu Xiaomeng began to miss him. The juice he took out of Brother Yun's space ring was frozen, and he could drink the frozen juice in the volcano, which is definitely a treat for the gods~!

"Forbearance, wait for him to come back." Zhao Tianfeng tried to calm his uneasy mood.

After Li Yun left, she realized that she was so dependent on him at this time.

Not only did Li Yun have all kinds of supplies, but they were also their backbone. After his absence, Zhao Tianfeng's mood was unconsciously upset.

I waited for a while, I don't know how long, maybe only a few minutes, but in terms of the perception of the two women, it is no less than a few hours!

"Why isn't this dead ***** coming back?!"

Zhao Tianfeng couldn't help but scolded him, causing Hu Xiaomeng to be surprised, "Dead eunuch? Brother Yun is not a dead eunuch, he...er, hehe~"

The cute little girl blushed. The last time she was dating him in the theater, she felt that Brother Yun was...well, not the place where the ***** died!

And it's amazing.

"I mean... he's yin and yang, he's a dead eunuch! Humph." Zhao Tianfeng's face also blushed, she just blurted out and told Li Yun's nickname.

At this time, a figure suddenly fell from the sky.

"someone is coming!"

Chapter 1504: Goodbye Professor Ji

"what!"

Li Yun's sudden appearance shocked the two women. After Hu Xiaomeng came back to his senses, he immediately cheered and threw himself into his boyfriend's cheeks, rubbing his chest and acting like a baby. If it wasn't for the time, she would still I want to put my arms around Brother Yun's neck and make him bend down to kiss him and stick to his face.

"Why are you surprised!"

Zhao Tianfeng hammered him on his shoulder annoyed, and Li Yun was taken aback.

The tall beauty who is usually arrogant and indifferent, but now punches him with a girl's little fan, and she is very cute, just like when Hu Xiaomeng acted like a baby.

".....Humph!"

Zhao Tianfeng's face grew redder, but he didn't turn his head this time, but stared at him more and more: "What are you looking at? Have you never seen a beautiful woman like me? Hurry up, who is here!"

"Ahem."

Li Yun was embarrassed, and quickly said: "I saw someone jump off the crater just now, and there are still a lot of people, so I quickly come back to you, hurry up, let's see what's going on!"

Finally found someone!

The two women looked at each other, and their eyes revealed a color of excitement.

After walking through the scorching crater for a few hours, they had long been expecting to find someone hiding there.

"Come on, Brother Yun, let's follow them and let them lead the way. Let's follow the vine and find their nest~!"

Hu Xiaomeng brightened up her fox demon claws with a cute expression that I want to hit ten, but then, her brother Yun said "Tianfeng, take care of her, don't let this girl mess around" Xiao Meng's expression solidified on the spot.

"Woo, Brother Yun is too bad~, always look down on me, hum~~ Ignore you, sister Fengfeng hug~"

Amid Hu Xiaomeng's low voice and laughter, Li Yun took them to the vicinity of the group. Hu Xiaomeng also quickly calmed down and watched his movements.

"There are still a lot of people, probably seven or eight."

The current position of Li Yun and the two girls is probably less than ten meters away from the group of people. There are lava rocks standing up between them. The three of them are tiptoeing and eavesdropping while the other party walks without scruples. Next, it creates a sense of voyeurism that the enemy is dark and I am bright.

It can be seen from the excited expression on Hu Xiaomeng's little girl's face.

"They are familiar with this place."

After following the other party for a while, Zhao Tianfeng also expressed his judgment.

When coming to this large-scale Haraha volcano for the first time and entering this labyrinth of magma rock, ordinary people will spin around like a headless fly, even if they do an adventure.

But this group of people has a clear goal, basically straight through the maze, walking in a certain direction!

Suddenly, Li Yun heard a voice.

"No, I can't go in any more, my teacher is about to get dizzy!"

The voice and the names of the people in it shocked the three of them, teacher?

"It's the voice wearing glasses!" Hu Xiaomeng reminded quietly.

Li Yun nodded lightly, and the person wearing glasses was Professor Ji's student, Xu Zimo.

In other words, among the seven or eight people, there are a group of Professor Ji, including students with bodyguards, a total of 6 people.

Judging from the sound of footsteps, there are only 2-3 criminals. The current situation is about Professor Ji's dizziness and lack of physical strength because of his old age and unable to withstand the heat wave of the volcanic crater.

"This....."

Hu Xiaomeng suddenly became tense, clenched his small fists, and clenched the Phantom Fox Demon's claws to death, looking very worried about the hostages.

But she didn't take the initiative to say anything to Li Yun.

Chapter 1505: Two gangsters

Because Hu Xiaomeng knew that if he could save Professor Ji, Brother Yun would definitely do it, and he couldn't urge Brother Yun to act quickly because he wanted to save people.

Compared with Professor Jiuji, Hu Xiaomeng is more worried about the safety of Brother Yun and himself.

"Ding, trigger the option event, please choose from the host:

Option 1: Before Professor Ji died, find a way to save them, reward justice value +10000, experience value +5 million, all attributes +4000, golden gift bag*2, Zhao Tianfeng favorability degree +4.

Option 2: Ignore, just follow the opponent, find the old nest, reward Zhao Tianfeng with +4, white gift bag*2.

Option 3: Silently wait for the opportunity, reward to be determined, Zhao Tianfeng favorability +4.

"

Uh, Zhao Tianfeng's favorability rating has every option, and it seems to be because of the increase in favorability rating during this period.

Add four more points, which is 99, which is only a little short of full.

The favorability of 99 means that even if Li Yun is intimacy with her hands and feet, this arrogant and tall queen, who is still extremely murderous, will not show an angry expression, let alone resist half a point.

Even Li Yun had a great possibility of getting her permission to take away one... of her blood.

"Sigh! Could it be that Zhao Tianfeng's slender legs caused him to think about it?"

"Let's go up and see."

Li Yun restrained his distracting thoughts, instead of using Ling Turtle Breath, he jumped directly onto the magma rock pillar, mainly to enable Zhao Tianfeng to hug Hu Xiaomeng to keep up with him.

As soon as the three of them got to the top of the towering stone pillar, the hostage team heard verbal abuse and humiliation, which were unusually ear-piercing.

"Old man, dizzy? I make you dizzy!"

"Snapped!"

With applause, Xu Zimo and the bodyguards became anxious and shouted Professor Ji, but they were beaten up by two gangsters instead.

"He* stand for me!"

"Should he* make trouble, believe it or not I killed all of you untouchables? Grass!"

"Hold on to me. If anyone dies, I will throw his body into the magma, so that he will not be able to leave any bones after he dies!"

Under the threats and scolding of the disciples, the hostages calmed down in fear. Li Yun lightly leaped to the top of the hostages' heads and heard Professor Ji's weak voice: "I'm fine, I, I'll drink some more water. Enough."

Holding the magma rock pillar with his hands and feet like a gecko, Li Yun turned his head and looked down and saw Professor Ji, Xu Zimo, and the three bodyguards he had brought with him.

Except for Tao and An Ran, Professor Ji and others were all injured.

The reason why Tao He was not injured is also very simple. Li Yun saw this guy's face full of flattering and hypocritical smiles. It is estimated that if the two gangsters didn't need him to surrender, he would have become an accomplice in the kidnapping a long time ago!

Unfortunately, the two gangsters were obviously not ordinary kidnappers, and they did not follow the normal kidnapping process at all.

"These three bodyguards are quite skilled, but now they are being hijacked by two gangsters who didn't hold a gun."

With a little thought in Li Yun's mind, he can guess that these two gangsters are very powerful, and they are likely to be warriors of the innate realm!

"Water? Uh, I don't have water here..." Xu Zimo shook his empty water bottle, his face full of helplessness.

When he jumped off the crater, he already poured the little remaining water on Professor Ji's head-not to humiliate his teacher, but to cool him down.

The three bodyguards also shook their heads and looked at Tao He.

Now he is the only one with water in his kettle!

Chapter 1506: Selfish indifference

"no!"

Tao He refused without hesitation, and hugged the kettle to death, "I brought this to you, no one can drink it!"

"you!"

As Tao He's fellow, Xu Zimo was so angry that he took a big step in his direction and was about to **** his kettle.

"What are you doing?!"

A gangster who was guarding behind shouted sharply: "You are looking for death? Just be honest! When we get to the place, some of them are drinking water. Before our adults can build it successfully, you can't die if you want to die. Do you understand?!"

Xu Zimo was forced to stop and follow the gangster in front of him. Tao He hurriedly hugged his water bottle and jumped away, kicking his classmate in anger.

"Xu Zimo, you are really generous to others. This is my water. Why should I give it to you?"

"Not for me, but for the teacher."

Xu Zimo's eyes were cold, "If you still have a bit of humanity, you should hand over the kettle!"

Robbing other people's belongings is a very bad behavior even in crisis situations.

but.

Professor Ji is Tao He's teacher. The so-called one day as a teacher and a lifelong father, any normal person will choose to hand over the kettle to help his teacher through the difficulties.

Unfortunately, Tao He is not a normal person.

"Me... Me too, want to keep this water!"

As Tao He walked forward, he hesitated to defend: "I don't know what will happen later. If we run out of water, then my pot of water is the last life-saving guarantee. How can I use it casually? ?"

While speaking, he was still holding the kettle tightly.

"Hehe, even then, will you take the initiative to hand it over for us to use?"

One of the bodyguards couldn't stand it anymore, and made a sarcasm.

Tao He's face flushed and embarrassed, and he didn't know if it was because of the heat around him that he looked like a cooked blind man.

Professor Ji glanced at him deeply and said softly: "No need, let's go on."

The hostage team fell silent, and they all felt a strong sense of crisis.

The two gangsters were obviously not ordinary people, and after they kidnapped them, they neither killed them immediately, nor did they ask them for their bank card numbers, nor did they ask them to call back to ask for a ransom.

Instead, they took the six of them and jumped off the crater of this active volcano that could erupt at any time!

Here... is their hiding place?

Will normal people hide in an active volcano?

Just the magma underneath can cook people up!

"teacher."

Xu Zimo stepped forward to support his teacher, his eyes full of worry: "How are you feeling now?"

"I, I'm fine." Professor Ji, who is more than 50 years old, panted, "Zimo, I am sorry for you, I shouldn't..."

"No, teacher, don't say such things, I don't blame you."

Professor Ji fell silent. He remembered the warning Li Yun had given him in the morning. At that time, he thought it was a little strange that Li Yun suddenly changed his mind. But looking back now, it seems that he knew that there was a gangster here, so he stopped himself. Go out and look for Shi Liangcai.

But now, it's too late to say anything.

Entering this volcanic labyrinth, it is really difficult to get out.

...

Li Yun watched them walking through the magma rock maze, frowned slightly, thinking about the information these gangsters said.

Build?

Is it to build weapons? It's the formation, or some special spells, or even some kind of powerful Gu worm!

Li Yun is almost certain that the other party must be using the ground in the Haraha volcano to do something!

Chapter 1507: Preparations to save

"Big Brother Yun doesn't know if he has figured out any way to save them."

Hu Xiaomeng turned his head and looked at Li Yun not far away, watching him firmly clinging to the magma rock pillar like a flexible gecko.

Although the posture is not very good-looking, Hu Xiaomeng thinks it is very handsome~!

Her current posture is not very good, being held by Zhao Tianfeng, her hands are also open to grasp Fengfeng's toned and slender willow waist, the whole figure is like a child in the belly of a kangaroo mother, with a petite body shrinking.

"Sister Fengfeng..."

In the past, Hu Xiaomeng would not do such an intimate thing with Zhao Tianfeng. Both of them were become the four biggest daughters in the capital by those elder brothers. Each had its own circle and was born in a competitive relationship.

However, because of Li Yun's arrival, Hu Xiaomeng began to seriously consider becoming friends with Zhao Tianfeng, and finally because of Li Yun, Hu Xiaomeng felt that she and Zhao Tianfeng would be more than just friends in the future.

The two are still best friends, 'sisters'.

So now Hu Xiaomeng hangs on her with peace of mind and asks Fengfeng sister to hug her and jump back and forth between the stone pillars, following Li Yun's back.

Although the acquired realm could do the same, Zhao Tianfeng hugged her to prevent it.

"Don't put pressure on him."

Zhao Tianfeng whispered to Xiaoli's little Lolita, "The two gangsters are obviously not ordinary people, and Professor Ji happens to be ordinary people. It is very difficult to save them safe and sound."

After that, Zhao Tianfeng couldn't help complaining: "Really, Li Yunming asked them to find the chief here, so why are they still kidnapped?"

"Yeah, I know." Hu Xiaomeng nodded, feeling a little itchy in his nose. The fragrance of Fengfeng sister's body and the breath of words rushed to her face, it was fragrant and intoxicating.

"Woo... I'm jealous of you, Sister Fengfeng!"

"What?" Zhao Tianfeng was stunned.

Hu Xiaomeng bulged and looked at sister Fengfeng who was holding her jealously. She was fit and slender, and she had a perfect model-like height. She was curvy and she was full of feminine power. Brother Yun will definitely be very strong in the future Enjoyment.

But what about yourself?

Hu Xiaomeng glanced at his sea level figure, his mouth bulged even higher! !

She, jealous, very jealous!

"Huh, I still have a few years to go, and I will definitely be a big and tall beauty in the future~~~"

When Hu Xiaomeng was thinking about it, Li Yun quietly returned to them. Hu Xiaomeng quickly put aside his distracting thoughts and asked: "Big Brother Yun, how is it?"

"very bad."

Li Yun's face was serious, "Professor Ji was tortured by the high temperature and was about to faint, but the two kidnappers didn't care at all. They must not be kidnapped for money, they have other purposes!"

Zhao Tianfeng frowned his eyebrows. Kidnapping not for money is the most troublesome. If it is for political | governance purposes, it is even more difficult.

"So we have to rescue Professor Ji as soon as possible?" Hu Xiaomeng saw Li Yun's thoughts, but felt that it put too much pressure on him, and quickly said: "Big Brother Yun, I mean, if you guarantee your safety, think again. How to save them..."

"I know."

Li Yun smiled, jumped, jumped onto another stone pillar, and followed Professor Ji and others through the maze.

Zhao Tianfeng hugged Hu Xiaomeng and followed him. The gesture of embracing two beautiful women, one young and one young, is pleasing to the eye.

"Shut up if you don't want to die, it's here!"

The gangster walking in front obviously heard the conversation between the two, but he didn't care at all. He just glanced at them with indifferent eyes, and walked to a huge magma with a height of two people and a diameter of five or six meters. In front of the rock.

This magmatic rock is surprisingly large, and there is no trace of flow. From the perspective of Xu Zimo's master of geology, it is almost impossible to form such magmatic rock in nature.

No, the labyrinth of magma rock forest inside the Haraha volcano can't be explained by geology at all!

Unless the volcano is upside down, it is impossible for magma to flow up into the sky and solidify to form stone pillars.

"Junior Brother Liang, open the door, it's so hot outside that my hair has fallen!"

The gangster who was watching the hostages urged him, showing that the environment here is a bit unbearable for them.

"Okay, Brother Guo, I will open the door now."

The gangster named Junior Brother Liang seemed a little in awe of him, and quickly took out a jade sign and pasted it on the huge magma rock.

"What are they doing?"

Xu Zimo was surprised, and then he saw a shocking scene.

"Boom!"

The magma rock weighing more than ten tons moved several meters back, making a heavy rumbling sound. Everyone shook their feet, frightening them to squat on the ground and grabbed the rock on the ground.

Afterwards, a dark hole was exposed!

Chapter 1509: Lolita

"This, what is this?!"

Xu Zimo and the hostages could hardly believe their eyes, a huge piece of magma solidified from magma, it moved a few meters away!

What force moved it? Who built this institution? Who can live inside an active volcano?

Countless questions bred from their minds, and the scorching breath coming from the depths of the earth made them even think that this hole is leading to hell!

"This, this is true!"

Tao He lost his eyes and muttered to himself sluggishly. Then he was slapped on the back of the head by the gangster surnamed Guo, and sneered, "What's the real thing? Let me listen to it, and walk fast when I go in." Point, don't stay on the road too much, otherwise the magma can cook you up!"

Tao and a Ji Ling came back to their senses and glanced at the cave that went straight to the inside of the volcano. Like everyone else, they showed a deep expression of fear.

As long as the hostages are not fools, they know that these two gangsters didn't want them to jump into the cave and be drowned in magma, but had another purpose!

Mastering the mysterious technology of moving the boulder is enough to prove that these bandits have a powerful force that surpasses normal cognition!

"Big, big brother."

Tao He showed a flattering stiff smile again, "I will urge these people to run in later, but what is inside? I think Brother, you definitely don't want to heat us to death, right?"

"Humph."

The corner of Senior Brother Guo's mouth raised slightly, revealing an indifferent and cruel smile: "Don't worry, as long as you run through the passageway and reach the Spirit Fire Cave, you are all safe, including you, the old man."

The old man pointed to Professor Ji who was extremely weak.

Everyone was silent, they knew that as long as they entered this cave, they would no longer want to go out alive.

Even if the outside world knew that they were missing, they would never think that they were kidnapped into the volcano!

"Yes, yes, big brother, I understand!"

Tao He trembled, but he still tried to please these people: "Brother, wait for me to help you take care of these people. I swear that I will never run away. I know their origin and whereabouts. I can definitely hook you to my eldest brother. it works....."

Tao He stammered, speaking upside-down, but everyone could understand what he meant.

"Tao He!!!" Xu Zimo was furious and rushed forward and gave him a slap. Tao He was not to be outdone, and the two quickly scrambled.

"Tao He, you really are rubbish!"

"I'm rubbish? Huh, I just know the current affairs. You are jealous of my service to the eldest brother, admit it, you want to live more than I do!"

"Fart!! Don't compare me with someone like you!"

The two of them fought hard, but the two gangsters showed the expressions of watching the show, waiting for them to get tired before going over and kicking them to separate them.

"Stand up for me!"

Junior Brother Liang gave Xu Zimo another kick and kicked him to roll on the ground, almost falling into a crack in the rock and rolling into the magma!

"Your name is Tao He?" Junior Brother Liang looked at him, who quickly nodded and bowed, shaking his head and tail like a pug.

"Very well, you have this kind of consciousness, it means that you are not stupid enough."

Junior Brother Liang smiled satisfied, "If you want to make a contribution, you can wait and let my master give you a spell. As long as you are willing to find more people outside, your safety will be guaranteed! If it's good, my master may also accept you as a registered disciple so that you can learn the Immortal Fa!"

"real?!"

Just when Tao He was overjoyed, suddenly a crisp and tender girl called for help.

"Help, anyone~~~?"

Chapter 1510: anyone there

The cry for help seemed so abrupt, that even the two gangsters were shocked.

There are also girls calling for help in the crater?

This is not a plain grassland, nor is it a city or town. Where does the girl cry for help?

Could it be that... is it the pink skull spirit that was played in the movies and turned into a beautiful girl and absorbed the yang energy? !

"who!?"

Senior Brother Guo took out two fiery red rune papers from his waist and watched the road in the distance. His junior brothers did the same, and then took out three rune papers to be vigilant.

"Is anyone~~~? Professor Ji, where are you?!"

The delicate girl's voice is soft and tender. Judging from the voice, the other party will never be more than fifteen years old. It is the age of a young girl in the age of cardamom. Just listening to her voice, everyone's mind is soft and cute. Figure of a lively girl.

"Yes, it's Hu Xiaomeng!?"

Professor Ji, whose lips were chapped and there was no sweat from his body, his eyes suddenly widened.

He heard this voice coming, and it was with Li Yun that she came to the hot springs, no, she was Li Yun's little girlfriend!

The two of them came to the hot springs together, and specifically reminded him to find the director here to find out the situation, but Professor Ji did not listen to their suggestions...

"Is it Hu Xiaomeng?!" Xu Zimo's voice became louder and shouted to the distance.

He is now in a very complicated mood. He neither hopes that Hu Xiaomeng will be caught by the gangsters, but also hopes that things will turn around.

"You, you wait, don't..."

Xu Zimo wanted to stop, but was kicked by Tao He and had to stop talking.

"what are you doing?!"

"What are you doing? Huh!" Tao He sneered. He was kidnapped and killed at any time. With such a painful predicament, why should others be safe? !

Xu Zimo clenched his fists with anger, and he was completely aware of Tao He's kind of people.

If he has a bad life, he hopes that others will also have a bad life, and his mentality is extremely gloomy!

"Ah, it's me~~, I'm looking for you~~"

The crisp and tender girl's voice gradually approached.

"Professor Ji~~~, where are you? Why is there a sudden boom here?"

Soon, two unbelievably beautiful girls appeared in front of the crowd, as if they were fascinating and fascinating female elves.

Two female fairies, one big and one small, one tall and one short, the short one is young and has a pure and lively smile. Seeing Professor Ji's eyes light up, she ran over in exclamation: "Professor Ji, I've finally caught up with you. , Really, isn't it good to go to the director to find out the situation first, and then to your students? As a result, we almost caught up with you, but I didn't expect you to jump into the crater by yourself."

Everyone was silent.

They didn't know what to say, couldn't this little girl see that they were kidnapped now?

Actually he took the initiative to get into the tiger's mouth...

"Huh, it's so hot here~!"

The cute little girl is holding a big water bottle in her sorrow, with sweat on her forehead, and her hair on her face. Her face that should be pure and ignorant is red, and there is a trace of special charm, and her tenderness reveals a woman's style. It's hard to move your eyes.

Especially the hostages on Xu Zimo's side are all gloomy and desperate, and the comparison is more obvious with the cute smiles of the cute little girl.

A few bodyguards even felt that it was worth it to be locked up with such a cute girl!
