Chapter 1531: Ghost

A gleam of excitement flashed in Li Yun's eyes, but it was quickly suppressed to prevent his invisibility from being broken.

He moved slightly, and soon Li Yun stepped on the slab of the magma lake with his right foot!

"..."

No change.

The slate neither glowed nor sank, glanced around, and there was no movement.

As if nothing has changed.

Li Yun was a real ghost at this moment, sneaking into the Spirit Fire Cave quietly.

"wrong!"

Li Yun was about to take the second step, but thought of a possibility.

If he is the owner of the Spirit Fire Cave and sees someone sneaking in sneakily, the first reaction may not be to shoot immediately, but when the thief enters the Spirit Fire Cave and really gets close to him, making the thief triumphant. , And then suddenly grabbed him!

"In other words, I may have been discovered by the other party now."

"No, I have to find a way to confirm whether the other party has seen me or not, or entering the palace of the Spirit Fire Cave recklessly is an act of seeking death!"

It was discovered by the master here that even if Li Yun hid in the Lotus Immortal Mansion, the other party would **** the beads left in the outside world. Unless Li Yun didn't go out, there would be nothing to do.

Moreover, the owner here might refine the Lotus Immortal Mansion, and Li Yun and the two daughters in it will become turtles in the urn!

"How can I be sure if he saw me? Just step on the wrong slate? No, it's too dangerous."

Li Yun now has master-level formations, but this does not mean that he can immediately grasp all the knowledge of the formations here. He can only see that this lava formation is maintained by the energy of the volcano, and a wave of waves is transmitted to it. Above, it controls the openings and passages above.

In addition, Li Yun still doesn't know how powerful this formation is and how it works.

Unless he really triggers the formation, he can infer the result from its performance.

"Still substituting into the law, if I were the master of this, under what circumstances would I decisively act?"

"In addition to getting closer... there is another way!"

The corner of Li Yun's mouth twitched, and he looked at the palace in the center of the lake with an extremely mocking smile.

At the same time, his right hand slowly stretched out, facing the direction of the palace, his four fingers contracted together, only the **** stretched out!

"Stupid, than, there is something to hit me!"

The **** was raised high, in line with Li Yun's silent speech and the mocking expression on his face.

To be honest, as long as it is not a gloomy and terrifying scheming, or an old monk who is empty of the four, he will not be able to help but be furious, and he will come to teach this arrogant infiltrator if he fights his life! !

Unfortunately, the palace located in the center of the flaming red lava lake remained silent.

"It seems that I am thinking too much. With the god-level spirit turtle hiding technique, it is enough to sneak in!"

Li Yun put his right hand away in satisfaction, calmed down again, walked at a normal pace, and quickly passed a thousand-meter-long stone road.

"This lake is really big, the scale is comparable to my little fiancée's bedroom."

——Little fiancée, referring to Princess Yongning, the twenty-eight star formation is even more exaggerated than here.

Li Yun touched his chin and stood in front of the palace in the Linghuodong, watching with an arrogant attitude.

After reconfirming that the people inside did not rush out, Li Yun did not rush into the palace with the open door, but walked around it.

"The lava formation... the eyes should be in this palace."

Chapter 1532: sneak into

"There is an enchantment formation in the palace. The formations are nested. It is not easy to destroy the formations. While attacking the formations, they will also be attacked by the water of the lava lake."

"As long as the formation is triggered, the entire lake will be overwhelmed, and the magma will be sprayed everywhere, and it is estimated that the return to the virtual state will be drowned alive!"

Li Yun looked at the top of his head. The gray-black magma rock was solidified on it. It is estimated that this huge space is the first place the lava formation is laid, and then relying on the strength of the formation, it expands bit by bit to let the magma solidify and support it. of.

According to Shu'e's description, the Twenty-Eight Star Formation was proposed by Fairy Nine Heavens to build by her father, and used a mausoleum built by more than 100,000 workers.

However, the spirit fire cave at the bottom of the volcano in front of Li Yun was probably completed by one person using only formations!

Li Yun would not think that the Nine Heavens Fairy, the saint of the Hidden Sacred Valley of the previous generation, and the master of the Fanqing Saint, would be weaker than the owner of the Spirit Fire Cave. The only thing that can explain the problem is that this is done by relying on the terrain.

Yongning Princess City is located in the mountain, and there is no special place around it. Even the 28 funerary cemeteries with good Fengshui have been artificially transformed.

But the Spirit Fire Cave here is located in a volcano, with a natural source of power, and even a powerful earth fire. The owner only needs to lay down the formation and borrow the power here to easily display the power that can be called the mountain and the sea. can!

"Formation, take advantage of the situation, condense the power of heaven and earth to form a formation!"

An enlightenment flashed in Li Yun's heart, and his understanding of the Fa-Science was a little deeper.

The Mist Array against the other days, that is, the formation deployed by Huangquan Guiding Flags. The source of power should be the people who died in the formation. No wonder Yuwen's people will come up in batches, which is completely dead!

"In other words, if I want to deal with the master of Linghuodong, I must find a way to break the formation here, otherwise, even the Qingsheng will have no way."

"Even adding that demon girl will not help."

Li Yun thought amused that if he could really invite the Sage Fanqing and Concubine Wanqing at the same time, he would definitely have more face, ahem.

Converging his mind, Li Yun calmly walked into the gate of the palace.

Very good, still no one found him!

Taking a glance inside, Li Yun roughly grasped the situation here.

The palace has only one floor, divided into two parts, inside and outside, with a screen covering the middle.

In the outer room, there is a huge three-legged and three-eared alchemy furnace in the middle. It is four or five meters high. The whole body is golden. The hollow part is faintly visible that there is a raging fire inside, but there is no trace of heat in the palace. It was cool, as if all the heat had been absorbed by this alchemy furnace.

The alchemy furnace was nailed to the ground by three chains, and the furnace was also divided into three layers, like a gourd, with light smoke coming out of the top lid.

"Huh? This furnace seems to be refining something."

Li Yun saw something in the stomach of the alchemy furnace. He took a closer look and looked in from the hollow part. In the blazing flames, there were three fist-sized blobs of blue light that kept rolling around. , It seems to be burnt up by the pill furnace fire.

"Is this a refining tool? Or a pill refining?!"

Li Yun hadn't touched these before, but watched it with gusto, and even wanted to do some sabotage!

"Ding."

Chapter 1533: White Crane Taoist (Part 1)

When Li Yun wanted to make some movement, or tried to control the fire of the pill furnace in this alchemy furnace, the system prompt sounded.

"Ding, trigger the option event, please choose from the host:

Option one: 'I will let you do it! ', directly overthrow the pill furnace and escape, reward experience value + 8 million, all attributes + 6000, golden gift bag*3, justice value + 30,000, a random martial arts skill upgrade, additional reward: aura value + 20,000.

Option 2: Secretly engage in destruction, play with the spirit fire cave master, reward experience value + 10 million, all attributes +1 million, golden gift bag*4, justice value +1 million, additional reward: aura value + 40,000.

Option three: Ignore, just slip away, provoke a missile attack, and razed the Haraha volcano to the ground! Reward justice value +100,000, all attributes +3000, golden gift bag*1.

Note: All three options will arouse the anger of people here. "

A lot of spiritual value!

Li Yun's eyes glowed, aiming for the most rewarding option 2!

As for anger?

"hehe."

The corner of Li Yun's mouth raised, he has sneaked in now, and he is afraid of the owner here...Huh?

wrong!

Li Yun focused on option two and the remarks at the back.

The second option is the Lord of the Spirit Fire Cave, but the remark is to arouse the anger of the people here. There are some subtle differences between the two.

"have a guest?"

Li Yun quickly thought of the black BMW parked on the side of the road before, guessing that someone should be a guest.

That's right, this place is obviously a place for refining pills and magical instruments. People from the Six Demon Sects will come to entrust the master of Linghuodong to build some magical instruments.

Looking around, Li Yun thought for a while, and soon he noticed.

...

Time goes back to before.

"Master!"

Wei Jingli took Tao He into the Linghuodong palace, and after obtaining permission, walked in, only to find that there was not only a master in the inner hall, but also another man in his forties with a majestic face in the Chinese character.

What reminded Wei Jingli was that the man with the national character face was wearing a robe embroidered with white cranes, and his whole person looked immortal.

"Junior Wei Jingli, I've seen seniors!"

Wei Jingli respectfully gave a big gift. People who can sit on an equal footing with the master are all big figures in the six magic gates, at least the seniors of the elder level, and they can't easily offend them.

Wearing a white crane robe, the man with a national character face did not answer, his eyes glanced plainly, but the coercion contained made Tao He's legs softened and he sat directly on the ground!

"I, I, Tao Tao..." Tao He stammered speechless. He suddenly felt very strange. It was obvious that the man in the white crane robes was sitting cross-legged in front of him, but he just couldn't see clearly the man in the robes. Real face!

"Jingli, throw him into the cell and bump into the guests like what!"

The old man with a beard sitting in front of the man in the white crane robes is Wei Jingli's master, the master of Linghuo, who claims to be the cave master of Linghuodong.

Linghuo Guru lives in underground volcanoes all year round, and often builds weapons for people, so he is very muscular, with a sideburn beard, and looks very rough and bold.

If it weren't for his white beard and white hair, and his face full of red light, outsiders would have thought he was less than forty years old.

Tao He was taken aback again, but under the gaze of the man in Baihe Daozao, he couldn't say a word!

Chapter 1534: White Crane Taoist (Part 2)

"Master, Master!"

Suppressed by the aura of the man in the white crane robes, Wei Jingli also had some difficulty breathing, and quickly said: "This is a servant I brought back from the outside world. He saw the two juniors were killed, so I..."

After listening to the disciple's account, Master Linghuo's face sank, but he didn't care about the safety of the two disciples. Instead, he asked, "Have you found out who the three attackers were?"

"Yes, not yet."

Wei Jingli was a little disturbed and apprehensive, and said in a low voice, "Also, Junior Brother Song, who went shopping for food and supplies yesterday, didn't come back either..."

The atmosphere in the inner sanctuary became more and more gloomy.

"It seems someone has found out."

The man in the white crane robe finally spoke, his voice hoarse and vague, and his face was a little hazy, as if he didn't want others to recognize his identity.

"The Three Evil Fire God Sword really aroused some people's prying eyes."

The eyes of the man in the white crane robes flashed sharply, his gaze turned to the spiritual fire master, "Brother Dao, I will do this this time, and see who is spying here!"

"Well, brother, trouble you!"

Master Linghuo nodded in agreement. He was rugged, but he was careful and careful, otherwise he would not become a forge who needs patience.

The man in the white crane robe smiled, "No, this is also part of our transaction, Brother Dao, how long will it take to refine it?"

"It's fast, fast, at most one day, all the materials can be melted by the fire of the earth, and it will take another two days to build, brother Dao, your peerless magic weapon will be out!"

"Oh? Then I would like to thank you brother in advance!"

"Hahaha, you are welcome, brother Dao, you deserve to be born...Well, brother Dao you gave me a very generous cost of crafting, enough for me to build a few more high-grade artifacts!"

Wei Jingli was shocked!

In recent months, Master has been busy refining a powerful artifact, but his disciples don't know what he is refining. They thought it was just the same as before, at most it was refining a top-grade artifact. That's all.

But I didn't expect that the cost of refining this time was actually a few high-grade artifacts!

Huang Xuanguo's cultivation world, namely the Hidden Sacred Valley and the Six Demon Gates, divides magic weapons into two major levels.

One is the magic weapon, and the second is the spiritual weapon.

Among them, it is roughly divided into upper, middle, lower, and best, four small grades.

The vast majority of people can only own one or two magical artifacts, but they are only low-grade magical tools. Only a small number of people can get the materials needed for middle-grade magical tools, and they are lucky to find a suitable forger. Only by refining a handy magic weapon.

It is not easy for ordinary blacksmiths to refine middle-grade artifacts, that is, their master can occupy this Haraha volcano, and with the help of the powerful earth fire here, can they frequently receive commissions to refine high-grade artifacts.

Frequent refers to once every five or six years, and most of them are commissions from the six magic gates themselves, not specific to someone.

"The cost of forging is just a few high-grade magical artifacts, then, what Master is refining now... is probably the top-grade magical artifact, or even a spiritual weapon!"

Thinking of this, Wei Jingli trembled with excitement.

Spirit artifacts are not necessarily stronger than magic artifacts, and some of the best magic artifacts can even catch up with them.

But the refining process of spirit tools is completely different, because spirit tools have tool spirits, which are far from being comparable to dead objects such as magic tools!

It can be said that it is the dream of all blacksmiths to create a powerful and mysterious weapon!

Chapter 1535: Sabotage

"It's no wonder that the master needs sacrifices for this refining, and he specially asked us to go to the volcano outside and take some people back!"

Wei Jingli suddenly realized that the previous refining tools did not require sacrifices, because the refining tools were all dead objects. This time, the master was probably trying to refining spiritual weapons, so he prepared meat animals for sacrificial swords.

"Jingli!" Master Linghuo looked at him, with an inexplicable look in his eyes, and said: "You and Senior Baihe will act together. Whether you find it or not, you will come back three days later to witness the opening of the spiritual weapon for the teacher. Ceremony."

"This has greatly improved your forging skills." Guru Linghuo added, and at the same time gave Brother Baihe Dao brother a look, as if to let him take Wei Jingli with him.

"Okay, Master!"

Wei Jingli was overjoyed. Although he was already the disciple with the highest cultivation level and the best forging skills under Master Linghuo, Master had never treated him so special. This time he specially asked him to come back to witness the opening ceremony, which has shown his spiritual fire. The identity of Master Dong!

"Go." The Spirit Fire Master said with a smile.

For some reason, the expression in his eyes made Wei Jingli feel a little hairy.

It seems...After the two disciples of Guo and Liang were killed, the master was only one of his disciples in the Spirit Fire Cave?

In the past few months, Wei Jingli's seniors have left one after another. They either went out to work for the master or were accidentally bitten back by the forge fire and turned directly into fly ashes.

Or it was simply a madness in practice, and the master directly hammered him to the ground. When Wei Jingli and others saw it, it was already a corpse.

To this day, there are more than ten disciples in Linghuo Cave, only three are left.

And now, only him, Wei Jingli, and a few servants and hostages are still in the Spirit Fire Cave!

"No, no, I am the strongest under the master, how can I..."

Depressing the anxiety in her heart, Wei Jingli took Tao He to the backyard-at the side door of the inner hall, there were several small houses dedicated to the disciples and servants. The main hall of the Linghuodong only contained the Linghuo master and the forge. .

"boom!"

Suddenly, just as Wei Jingli was about to walk out of the side door, there was a loud noise in the front hall, and a powerful heat spread out instantly, and the whole palace seemed to burn, emitting a fiery red light!

Tao He was shocked, looking back at the front hall, only to find that the screen blocking the front hall and the front hall remained motionless. The thin paper-like screen was not ignited and still stood on the spot, isolating most of the heat in the front hall!

"not good!"

The spirit fire master seemed to have been burned to the bottom by the earth's fierce fire, jumped up, and flew directly to the front hall. His hands were pinching like the wind to make a decision, and a series of scarlet runes were shot out in the sky, suppressing the spirit fire furnace, and squeezing it inside. The explosive ground flames were abruptly suppressed!

After a long time, the sweaty spiritual master Linghuo stopped and took a long breath.

Behind him, the Taoist Baihe looked solemnly: "Brother Dao, this forge..."

He knows half of forging, but he also knows that the situation in front of him is quite bad.

And in this forging furnace, there are materials that he has spent most of his life obtaining, and there is only one chance. If he fails, he will surely run away, and kill the Spirit Fire Master without hating it!

"never mind."

Master Linghuo wiped the sweat off his forehead, and he could do it with his cultivation base and just run the mana.

But because he was too nervous, he didn't dare to use any force at all, for fear of alarming the ground in the stove.

Chapter 1536: Anti-objective, threatening

The earth evil in his spirit furnace is extremely fierce, once it erupts, it is enough to engulf everyone here instantly!

Taoist Baihe may still be able to run, but his Spirit Fire Master can never run away.

"Brother Dao." Master Linghuo hesitated.

"Say something!"

Taoist Baihe's face instantly sank, and his sharp gaze was fixed on him. If the next sentence of Linghuo Master was that there was something wrong with the spirit weapon, his expression would be even darker!

"It's not a problem with the spirit weapon!"

The spirit fire master's eyelids twitched, and he said quickly: "It's just that the suffocating fire here seems a bit unstable. It is very likely that the materials will be melted in advance, and I will be forced to build the spirit weapon in advance.

"Why did it suddenly burst?"

Taoist Baihe asked the question that the eavesdropper crouched on the palace beam wanted to ask!

"Earth Fire, also called the Fire of the Heart of the Earth, comes from the heart of the Earth and is the top grade among the Spirit Fire!"

The spiritual master simply explained: "Because it is the heart of the earth, it is also most affected by the underground magma. According to my observations over the past decades, the earth's fire here is strong and sometimes weak, with different patterns, and most of them are separated. Three to five years.

This time it's a little strange, because the fierce fire here just broke out once a year ago, and now it shouldn't be restless..."

The mouth of the eavesdropper on the beam hooked.

That's because I came to control it myself!

"I understand."

Taoist Baihe nodded slowly, "I will not follow the peepers for the time being. I will only stay at the entrance of the cave. You will finish building the spirit tool as soon as possible."

"it is good!"

Master Linghuo agreed, the expression on his face was not so good, as if he was worried about something.

Taoist Baihe took a deep look at him, flicked his sleeves, turned and left.

The Linghuo master who was left stood there for a long time, not knowing what he was thinking.

"Master, Master?"

Wei Jingli came over and shouted cautiously.

Unexpectedly, these words seemed to detonate a volcano, and the spiritual master turned back and slapped it over, making Wei Jingli look dumbfounded, and stepped back several steps, covering his face.

"Master, I was wrong!"

Wei Jingli didn't know what he was wrong, but it was always right to admit his mistake first, otherwise he might be reprimanded by the sudden violent temper of Master Linghuo!

"damn it!"

Linghuo Master's anger was not directed at Wei Jingli. His face was extremely gloomy, and he said to himself: "The thousand souls ancestor is immortal, what are the people introduced! His

grandma's, relying on himself Powerful and forcibly broke into my spiritual fire hole, without putting my master in the eye!"

Thinking of his spiritual fire guru, he is considered a figure in the six demon gates, and how many elders are willing to have a good relationship with him.

In the current situation, he was vaguely threatened by the Baihe Taoist, and even sealed his cave, and he promised not to stop without refining a spiritual weapon!

How can this make Linghuo master angry!

Wei Jingli's head drooped, and the atmosphere did not dare to breathe.

He had seen the yelling of two brothers and brothers before, and thought that the master had a very good relationship with him, but he did not expect that the person wearing the white crane robe would forcibly break in!

"Humph! Since you are not the rules, then I don't have to be so polite!"

The spirit fire master looked indifferent, and seemed to have made some decision. He took out a dark red insect from his cuff and flicked his finger. The insect flew into the air, spreading its wings and flew away quickly with a swish.

"Hehe." Master Linghuo sneered a few times triumphantly, "I let you lose money and money. I dare to be arrogant in front of my Master Linghuo, and I am impatient!"

Chapter 1537: Treasury

"It's a great show."

Li Yun, who crouched on the beam of the palace, had a wonderful view of everything that happened underneath.

Sure enough, they are the people of the magic door. The intrigue between each other is wonderful. The front feet also praise each other, but the back feet cause fighting because of some trivial matters, and even want to kill people for treasure.

"Linghuodong Dong's strength does not seem to be very good, he is only good at refining tools, but he looks very bold, but it is a pity that he is also a villain behind it."

"The cultivator wearing the white crane robes doesn't know the origin, but he dared to have a black face in other people's turf. It can be seen that the strength is not bad. It should be someone with strong strength, at least returning to the virtual state."

"It's a pity that there is no signal underground, otherwise you can take it and ask Concubine Wan Qing."

Li Yun's thoughts changed sharply, and he basically guessed it.

The spirit fire cave exists by relying on the fire of the earth. It is usually used to refine alchemy and so on. The owner standing in front of the alchemy furnace below is also the master of Master Song that Li Yun met in Aduo Mountain before, and he controls it. Everything here.

Taoist Baihe doesn't seem to know him, so it can be inferred that he is not the elder of the Six Demon Gates—there are only 36 elders, and the master of the Linghuodong Cave is not unknown. Taoist Baihe should be an invisible elder. By.

The Venerable Black Eyebrow, who was similar to Li Yun's death, has been in retreat somewhere for many years, and it is normal for the clans to not know each other.

"These immortal cultivators can easily live for hundreds of years. How many Void Returning Realm monsters are in the Six Demon Gates, I am afraid that even their saints don't know!"

Li Yun glanced at the bottom, the spiritual fire master sat cross-legged in front of the pill furnace, seeming to be ready to deal with the problem of the explosion of the pill furnace at any time.

"Hehe, he certainly wouldn't know that the source of the explosion was above his head!"

Li Yun teased secretly, no longer paying attention to this side, and turned his head into the inner hall.

Leaping off the palace beam, Li Yun was like the gentleman Liang Shang in the idiom, and sneaked into the residence of the spiritual master.

The space here is quite large, the furniture is sparse, there are no beds, only futons for meditation, but it is a bit like a Japanese-style room.

However, the Japanese architectural style was originally learned from Huang Xuanguo, it is better to say that the spiritual fire guru lived long enough, and his daily habits are still ancient.

"Pills? Weapons?"

Li Yun found a box for storing items in a corner of the inner hall, and beside it was a shelf full of various magical objects, such as knives, swords, armors, gloves, shoes, bracelets and so on.

These artifacts are full of brilliance, and in terms of appearance, each piece is worth more than 100 million!

Of course, the premise is that someone wants to sell.

The box and the magic weapon rack were guarded by a formation. Although Li Yun was able to enter with the ability to communicate with the secluded, he could also see that the formation was mainly to warn whether the contents were taken away. He did not enter. Yes, as long as you take away the contents, the spiritual fire master will definitely know.

"The formation is set up, and I am quite alert. Is it because I am afraid that my disciple will take it without telling you?"

Li Yun raised his eyebrows, temporarily gave up here, turned his head and walked to the bookshelf in the inner hall.

""Science of Refining Tools", "Summary of Spiritual Fire", "Mineral Purification", "College Physics" ...Wait, college physics?"

After reacting, Li Yun almost vomited blood!

College physics, something that seemed extremely modern, was placed in an immortal cultivator's cave mansion, and it was as ridiculous as a nuclear bomb against Zhu Xianjian!

Chapter 1538: Nine Years of Compulsory Cultivation

The style of the two is completely one world, no, the sky and the earth are still the same world, but these two things are two worlds!

"It's weird...but it's very scientific!"

Li Yun picked up the physics book with a weird expression, and found that it did have traces of being turned over. When he opened it, there were even notes in it.

This reminded Li Yun of something that Liao Hua told him that the scientists who studied spells and practitioners had been assembled, and now they have begun to build a secret research institute, striving to study the scientific principles contained in spells.

Spells are not unscientific, and science does not exclude spells and spiritual power. Strictly speaking, science is a means for humans to recognize the laws of nature.

Since spells have laws, it shows that they can also be studied, used on a large scale, and become a systematic discipline!

The outside world is studying magic, and the spiritual world is also studying modern science. In a sense, the six magic gates have come to the front of the hidden sacred valley.

"Qing Sheng only started to learn modern knowledge, the Hidden Sacred Valley has fallen behind, and the Hidden Sage, Hidden Sage, sure enough, if you don't communicate with the outside world, there will always be problems."

"Will the nine-year compulsory cultivation of immortality be popularized in the future? No, cultivation of immortality is a bit more difficult, it should be 30 years of compulsory cultivation of immortality! Hahaha!"

Li Yun laughed silently and put the physics book back.

Who can predict the future? What he can grasp now is to make himself stronger and protect the people around him!

As for what the Six Demon Gates are doing, how the Hidden Sacred Valley will counterattack, and how the external countries will respond, Li Yun guessed some, but strength is the root of everything. Without strength, even guessing is of no avail.

"Shi Liang doesn't know if he is still alive?"

Li Yun left the inner hall and entered the small door on the side. At a glance, he saw four or five gray-black bungalows next to the palace. Looking at the colors of these houses, you know that they were simply constructed after the solidification of magma. The two rooms didn't even have windows, and the rooms were dark and locked with a fence door.

"Where is the prisoner?"

Li Yun moved in his heart, walked to the two windowsless houses, looked inside, and almost didn't vomit.

This ghost place has no toilets and no sewage facilities. The people who are locked in it live in it. They are fed exactly like the pigs in the countryside. It can be as disgusting as it is.

No wonder Wei Jingli called the hostage a meat animal.

"Master Linghuo, you really deserve to die!"

A cold light flashed in Li Yun's eyes, shutting up humans like beasts, and any normal person would be furious when they saw it!

If Li Yun just wanted to destroy this place and take away the magic weapon he refined by the way, but now after seeing the tragic situation of the hostage being held, Li Yun has decided to completely eradicate this demon who used people to sacrifice the sword!

"You have to think of a way to kill the spiritual fire master under the eyes of Taoist Baihe."

Li Yun knew that Taoist Baihe was now guarding the entrance of the cave. Although it was a full two kilometers away from the entrance of the cave, the formation method connected the Spirit Fire Cave with the hole above. There was a battle here, and Taoist Baihe could quickly know. .

"Let me first confirm whether there is anyone in the hostages named Shi Liangcai!"

Li Yun was about to step forward when he suddenly sensed something and turned his head to look at the sky.

A pure white paper crane flapped its wings and flew in. In its mouth made of paper, there was a fiery red insect in its mouth!

"Found it?"

Chapter 1539: Is Shi Liangcai here?

Li Yun's heart moved, and he flashed back to the front hall.

The paper crane flew into the palace, and if the spiritual fire master who was meditating felt something, he opened his eyes and his face changed drastically.

His letter Gu was thrown on the ground by the paper crane, and then, the voice of Taoist Baihe came from the paper crane: "Brother Dao, refining tools should not be distracted, so I will look after the portal for you. Nothing will disturb here. ,Do not worry!"

"you!"

Master Linghuo stared at the paper crane angrily, his face pale with anger.

The corner of Li Yun's mouth tick, the threat in this sentence is already very obvious, it is equivalent to the Taoist Baihe put the spirit fire master under house arrest, unless the spirit weapon is refined, otherwise he will not give it away!

But here comes the question. If the Spirit Fire Master refines the spirit weapon, will the Taoist Baihe keep his promise and leave?

"I don't know if the Master of the Spirit Fire Cave has any tricks?"

A thought flashed in his mind, and Li Yun left the spirit fire master who was anxious and helpless, and once again returned to the cell where the hostages were being held.

As soon as I wanted to speak, the system prompt came.

"Ding, trigger the option event, please choose from the host:

Option 1: Find a way to save all hostages as soon as possible, reward justice value +10000, experience value +2 million, all attributes +1000, golden gift bag*1, extra reward: the emperor's heart sutra is upgraded to high level.

Option 2: Wait and see for the time being, and then find a way to rescue the hostages, reward justice value +3000, experience value +1 million, all attributes +500, purple gift bag*1.

Choice 3: Ignore, too lazy to pay attention, concentrate on grabbing the good things here, reward evil value +100, golden gift bag*1. "

Li Yun was a little surprised. Option three also added evil value? It seems that this is the first time he has seen him increase the evil value without saving people.

However, these hostages are at the bottom of the volcano, so he can be rescued. If Li Yun ignores them, this is undoubtedly a cruel thing.

Adding the evil value seems to be justified.

"The Emperor's Heart Sutra has been promoted to a high level. Does this still need to be selected?"

Li Yun quickly made a decision, if he chooses the most powerful one among the exercises he has obtained, then he will choose the Emperor Heart Sutra without hesitation!

After all, this mental method was opened by him from the colorful gift bag. It is known as the human emperor among the three emperors of heaven, earth and human. The mental method cultivated when his strength was still weak is not unreasonably powerful.

It was easy to know whether Shi Liangcai was inside. Li Yun walked straight to the door, and after releasing his invisibility, he condensed the voice into a line with his true energy and directly passed it into the door.

"Is Shi Liangcai in there?"

The cell was just an ordinary house, and no magical spells were imprisoned. Li Yun's voice transmission can easily let the people inside hear the sound, but not the nearby Wei Jingli and Tao He.

Li Yun's indifferent voice spread into the cell, causing all the hostages who had suffered from feces and urine for many days to be taken aback, and they all showed panic and fear expressions.

After they were knocked unconscious due to various accidents, they were arrested and detained here. For a long time, the gangsters only threw them some food, or leftovers, or some snacks and biscuits.

But the kidnapers had never spoken to them, and they didn't care about the death of the hostages. They only dragged the body out when someone couldn't bear to commit suicide.

Therefore, Li Yun's words were the first words they heard these days, which made the hostages horrified to wonder if the kidnappers are about to start demanding ransom!

Chapter 1540: Couple in the cell

"I, I am!"

A slightly weak and exhausted man's voice came from inside the cell. Li Yun nodded. It seems that Shi Liangcai is still alive, but he can surprise Professor Ji.

—Compared with people who don't know, Li Yun naturally hopes that related people will be saved. This is why Huang Xuanguo is also called the acquaintance society.

In the case of equal conditions, leaders prefer to use people they know when they are promoted to a certain position.

"Ding, the host makes a choice, finds Shi Liangcai, rewards justice value +1000, experience value +2 million, all attributes +1000, purple gift bag*2, extra reward: geology is promoted to doctoral level."

Following Shi Liangcai's reply, Li Yun received the system's reward reminder. He didn't expect this simple task to last so long. The reward was not good. The doctoral level knowledge of geology was of little use to him. This underground volcanic cave was not naturally formed. , Geology can't manage this.

"Very well, Shi Liangcai, wait for me to take you to a place."

Li Yun did not say that he was the "policeman" who came to rescue them, lest the hostages get excited and yell.

"Where to go?"

Where to go? go out!

Of course, this sentence cannot be said. Li Yun pondered for a moment and decided to directly act as the ransom gangster, which is more convenient, so he said: "Take you out."

There was a commotion in the cell.

Li Yun added in an indifferent tone: "Let you go to meet your family, they are ready for the ransom."

The commotion in the cell increased.

The hostages became excited one by one. Since they came here inexplicably after being knocked out, the kidnappers never talked about the ransom or violated the female hostages, and they did not beat or scold them. They just raised them like pigs. .

This silent and terrifying silence lasted for a month, making them almost think that they were the laboratory where an evil scientist was kidnapped, waiting to be on the operating table, and being dissected and used as a white mouse by the mad scientist!

Therefore, the gangsters who were suddenly talking outside now raised the ransom, but they were very excited.

Shi Liangcai, a master of geology, fell silent.

"This kidnapper is lying!"

Shi Liangcai, who is not low in IQ, quickly came to a conclusion.

Generally speaking, as a kidnapper, after successfully taking a hostage, he usually makes the hostage talk to his family members to get the ransom as fast as possible.

The longer the delay, the easier it is to be exposed. After all, the kidnappers are also humans, and the hostages are also humans. A large group of people need to buy food and they can easily be found by the police.

In addition, the longer the hostages are held, the easier it will be for accidents.

Either found a chance to escape, or collapsed and died because of psychological pressure. Let the half-successful kidnapping directly fall through.

Therefore, half a month after Shi Liangcai was imprisoned in this strange place, the kidnapper suddenly said about the ransom, which made him feel strongly suspicious.

In addition, there was always a red flame outside the cell door, making Shi Liangcai feel that he was kidnapped into a secret laboratory and used by evil scientists to conduct some inhumane experiment!

"Brother Shi, I'll be with you!"

A woman said in a firm voice.

After being detained for half a month, Shi Liangcai, who is only 25 years old, now looks like a middle-aged man in his 30s and 40s. His beard is messy, his hair is stuck in pieces, and his hands, face, and neck are all very different. Dirty, and there are some crusted wounds.
