Chapter 1551: Flame Behemoth

It was not Shi Liangcai and others who were yelling, because they had all entered the fairy palace. The direction of the yelling came from behind Li Yun, and he was quite familiar with this voice!

Tao He!

Li Yun turned around and saw Tao He who was stunned, looking at him with a terrified expression on his face.

It is estimated that Tao He Meng couldn't think of it, this rich second generation who brought two beauties who made him so greedy to soak in the hot spring unexpectedly appeared in the bottom of the volcano!

And standing in front of him very abruptly, as weird as a ghost!

"Tao He, how are you doing?"

Li Yun's brain was agitated, and he quickly figured out a way. A smile appeared on his face, and this smile became more and more infiltrating and scary.

Finally, the corners of Li Yun's mouth were raised high, smiling like a clown.

"You, you, you!" Tao He almost jumped out of his heart, his hands and feet numb, and his body was so frightened that he couldn't escape!

"Do you remember what you did that night..."

The ghost who made a oozing laughter said with a voice full of resentment, suddenly, a flame fell from the sky and hit him righteously.

boom!

The flame burst out suddenly, engulfing the ghost in an instant, Tao He's eyes suddenly lit up, is this what Master Wei said, the lava formation? !

"Yes, it must be!" Tao He was overjoyed. "This ghost has turned into that ***** rich second-generation to scare me, ha ha, don't look at where it is, even if you are a ghost... ..what?!"

More and more flames fell from the sky, like a waterfall of flowing fire leaning down and engulfing the entire cell of the hostages, turning it into a burning sea of fire.

Moreover, in the sea of flames, a flame giant slowly stood up.

"Roar!!!"

This sound resembled a roar, a roar, and a roar that resembled a flame explosion, and the entire Spirit Fire Hole instantly vibrated.

With a swish, Wei Jingli quickly flew out of the room, only looking at the flame giant, and his face was completely scared, thinking that some terrifying monster imprisoned in the flame underground was released!

"die!!"

Accompanied by a huge roar, the flame giant raised his hand fiercely and punched the palace in front of him.

In an instant, the sky broke and the earth burst, and turbulent flames burst out, hitting the palace wall in the middle of the magma lake, like a stormy sea, the sea continuously washed the island, trying to engulf the entire island!

A thought flashed in Tao He's mind: I'm going to die!

After such a huge amount of flames were controlled by the ghost, he had no reason to survive, who was located near the battlefield.

"who?!"

At this moment, a frightened sound came from the palace. The palace seemed to have become a living thing. With a slight shake, a light burst out, and all the flames immediately dissipated. The flame giant was forced to retreat three steps before it stopped. Stopped and stepped heavily on the ground.

It looked at the palace, roared unwillingly, and retreated into the magma lake before the owner in the palace came out.

Soon, the figure of the flame giant sank to the bottom of the lake and disappeared without a trace.

The Linghuo master who rushed over saw the giant's head sinking, and out of caution, he didn't immediately make a move. He just had a gloomy face and stared at the place where it disappeared.

"Master, Master!"

Wei Jingli asked tremblingly: "What kind of monster is this? It seems to have been living under our feet, lurking underground..."

Chapter 1552: With the monster

Wei Jingli couldn't help but feel scared when he thought that he had lived with this monster who had cultivated the gods for at least twenty years.

The blow just now definitely has the strength to refine the realm of gods. If it weren't for Master's timely deployment of the palace formation, maybe the entire island would be swallowed by magma!

What's more terrifying is that the flame monster obviously uses flames as its nourishment. In this place surrounded by a lava lake, the monster is naturally invincible!

If you can't beat the big deal, you will run away. Can you still get into the center of the earth and search for its figure inside the magma lake?

Impossible, even in the Return to Void Realm, it is impossible to get too far into the ground, and it is easy to be drained by the pressure of the earth's core and magma, and be crushed to death in the ground!

The spirit fire master's face was extremely shocking. He slowly walked over and checked the place where the flames were raging. There was nothing but magma remaining on the ground.

"Damn it!"

The Spirit Fire master stepped on the ground fiercely, all the magma as if frightened, and quickly retreated into the magma lake, and the ground quickly became clean, as if nothing had happened just now.

"Master's fire control technique is invincible in the world!" Wei Jingli slapped Master's flattery in time.

As a blacksmith, manipulating flames is just a basic skill.

"Stop talking nonsense!" Linghuo master shouted: "What happened just now? What is that monster?!"

"Even Master doesn't know?"

Wei Jingli was taken aback, but quickly explained: "Master, I don't know too well. The monster was already formed when I came out. After you started it, Master, it quickly returned. By the way, my servant! "

Wei Jingli commanded Tao He, who fell to the ground and shivered: "Did you see something? Tell it quickly, so as not to suffer from the flesh and blood!"

After a long while, Tao He came back to his senses, he must recover, otherwise the master and apprentice can strip him alive!

"I saw... I saw a ghost!" Thinking of what happened just now, Tao He was still afraid for a while.

The fighting method of the extraordinary is really amazing, and the result is even more awe-inspiring and awesome!

"Ghost?"

"Yes, it became the appearance of the rich second generation. I saw it standing in front of the cell door and looking inside. After I found it, it turned around and smiled at me, laughing... terribly! "

"Horror? Then?"

"Then... it becomes a flame giant."

Seeing that Wei Jingli couldn't ask anything, she could only give up, turning her head to look at Master Linghuo: "Master, this monster lurking underground seems to be the most feared thing in people's hearts."

Tao He smiled serenely, and didn't dare to say that he was actually not the most afraid of Li Yun, but of him, no, I should be the most afraid of Professor Ji, and also the most hated Professor Ji!

Linghuo Guru didn't say a word, and walked gloomily to the cell where the meat animal was being held. He looked inside, and as expected, no one was inside.

Being ravaged by flames, the filth in the cell was swept away, leaving a mess on the ground.

But the Spirit Fire Master could also see that before the flames raged, all the people here had been swallowed.

"It seems that it is indeed a monster, not a human."

Only then did the Spirit Fire Master confirm that the monster just now was not disguised by humans.

Otherwise, it would be impossible to kill a person without any bones in a short period of time. Even the flame monk in the Void Returning Realm would take a lot of time to burn more than a dozen people to death.

And it doesn't make sense. Mortals will be killed if they are killed. Why do they melt even their bones?

Therefore, he can conclude that what he just attacked was indeed a monster!

Chapter 1553: Sabotage, I like it (Part 1)

"The meat is dead!"

Wei Jingli also came over and took a look, her face turned a little ugly.

These hostages were originally intended to be sacrificial offerings for sword sacrifices, but unexpectedly this happened.

"Master, do you want me to grab some more." Wei Jingli turned to look at her teacher. Maybe this is an opportunity and she can take the opportunity to go out.

"no need."

Master Linghuo spoke indifferently and looked at Tao He with a casual look, "Enough. You strengthen your vigilance, I allow you to use some of the power of the formation, if the monster gets up, try to hold it and wait for me to come. !"

"Yes!" Wei Jingli also glanced at Tao He.

"Grass!"

Tao He cursed inwardly, he felt a sense of crisis inexplicably, and couldn't help but shiver.

Isn't this bearded old man wanting to use him as a sacrifice?

damn it!

Tao He's expression was as ugly as his dead parents. After Master Linghuo left, he looked at Wei Jingli with a weeping face: "My lord, my lord, I am loyal to you, I promise, I swear I will honor you in the future!"

Wei Jingli showed a very mysterious smile: "Don't think too much about it. Not everyone can sacrifice swords, and you won't be thrown into the stove for a fool like you."

—— Will only be killed, put the soul into the furnace, let the remaining magical artifacts combine to catalyze spirituality.

This is also the only method that can refine spirit weapons today, but even his master can't guarantee the true situation.

At present, most of the spirit tools in the hands of the strong are handed down from ancient times, and Wei Jingli has not heard of anyone who can refine spirit tools.

"Yes, it's an adult!"

Tao He let go of his uneasy heart, and then thought, there are still a few servants here, and the sword may not be his turn. Maybe the monster is more suitable for the sword, as long as you can catch it!

Thinking about this, Tao He went back to the servant's room, worrying about gains and losses.

...

"Tao He is indeed an idiot."

Sitting on top of the palace, Li Yun, who had a panoramic view of everyone's reaction, shook his head.

Tao He guessed that he also knew that he could not escape. Even if he suspected that he might be used as a sacrificial sword, there was no way to escape, let alone resisting. He could only hope that the spiritual fire master would show compassion, life and death. It's completely between the thoughts of others.

Relying on the villain, crises and opportunities coexist, but unfortunately, most of the time it is dangerous!

"Ding, the host made a choice to find a way to save all hostages as soon as possible, reward justice value +10000, experience value +2 million, all attributes +1000, golden gift bag*1, extra reward: the emperor's heart sutra is upgraded to a high level."

"Ding, the host's emperor's heart sutra has gained a new passive: calm the soul and calm the soul."

Li Yun smiled with satisfaction, the rewards of the system finally came, and the advanced Human Emperor Heart Sutra had new effects.

To calm the soul and calm the soul means that it can soothe the soul and make the soul return to its place.

The soul after being attacked by Divine Mind will be damaged. Generally speaking, it can only be recovered by recuperating. However, Li Yun's Human Emperor Heart Sutra can heal the soul like the body, which is very mysterious.

In addition, if Li Yun becomes a psychiatrist now, he will be famous all over the world within a few days-the cure rate is too high, and most mental patients can be cured easily.

"There is still a selection event left, it is ruined here, I like it!"

Li Yun stood up and looked around, gradually focusing his gaze on the three small islands around the island in the center of the lake in the shape of a figure-shaped magma lake.

Chapter 1554: Sabotage, I like it (Part 2)

"These three small islands should be one of the keys to the lava formation. I will go over and see what's going on!"

Li Yun gently jumped off the roof of the palace and followed one of the three trails to an island.

The island is not big, just the size of an ordinary room. There is nothing bare on it. It is covered with lava on all sides. Only a burning stove is placed on the road.

The furnace is three or four meters high. From the appearance, this furnace is somewhat similar to the forging furnace in the palace, and there seems to be a certain connection between the two.

"This is the base of the formation, right?"

Li Yun tried to pat the stove, thoughtful.

The so-called formation base is not only the foundation of the formation, in layman's terms, it is the support and source of strength for the formation.

It's like the fuel of a car. Only with fuel can we act.

The formation eye is the engine of the car, and destroying the formation is equivalent to completely destroying the formation.

This is not true for the formation base. A formation may have multiple formation bases, which is equivalent to multiple sources of strength, and will not cause the formation to collapse after a formation base is destroyed.

Generally speaking, among the formations laid down, the formation eyes are the most important and are hidden in the most critical places; while the formation bases are scattered throughout the formation, so that even if the enemy enters the formation, there is no way to destroy them all at once. The base of the formation.

"But, is this an illusion?"

The formation is of course not unprotected. Some formations will use clever techniques to hide the dangerous places in the formation into a formation base. If you step in rashly, the whole formation will be urged and forced to death. Entrants!

"Anyway, try it first."

Li Yun quickly made a decision, went to another direction away from the palace, stretched out his hands, and slowly pressed his palms to this stove that may have been burning for decades!

If you're an ordinary person, your hands may have been blistered by the hot furnace wall, but after Li Yun has the earth-shaking sun fire power, even if he is only a beginner, he can control the temperature to a certain extent. Before he controlled the magma The flame in the lake, to form a seven-eight-meter-high flame giant, is to use the fire control effect of the exercise method.

Not to mention, this shameless sun fire art is worthy of the reward of the system. Li Yun can easily control the flame inside standing in front of the forge.

"Huh~~huh!"

After Li Yun put his hands on the stove, the flames of the stove skyrocketed instantly, like a violent wind roaring, and flames spurted from the top of it, forming a faint blue flame!

"This is... the terrible fire!"

Li Yun was shocked. The next moment, an angry roar came from the direction of the palace: "Beast, looking for death!!"

Li Yun instantly let go of his hands, and once again cast the Spirit Turtle Breath Technique + Tongyou, the figure retreated violently, stepped on the magma, and quickly moved away from the island.

The moment he withdrew to ten meters away, the faint blue flames in the furnace erupted, and powerful forces raged horizontally and horizontally. The entire magma lake was shaken to the ground, and the fiery red and thick hot magma rose 100 meters high, and then smashed. Leak's fall.

This is a real rain of fire!

Li Yun retired and retired until it was impossible to retreat, and then he stopped close to the edge of the cave. He looked at the magnificent scene in front of him with admiration, and Xiao Meng would definitely be surprised to see it.

"Little Meng? By the way!"

Thinking of that curious and lively little girl, Li Yun's mouth bends, took out his mobile phone, and took more than a dozen pictures of Huoyu in front of him.

After the matter is over, open her eyes again.

Chapter 1555: Xianfu Half-Day Tour (Part 1)

Inside the Lotus Fairy House.

"here is.....?"

After Shi Liangcai stepped on the ground with his feet, the scene before him left him in confusion and confusion.

He was in a dirty cell deep in the bottom of the volcano one second before, but he came to a...wonderland in the next second?

There is an emerald green grassland at the foot, and there are countless blooming flowers next to each other. Various beautiful butterflies and bees are flying among them. In the distance is a bamboo forest with a height of more than fifty meters. On the ground, a small path shuttled past, like a fairyland in a dream.

"This, this...Is this the holy palace in the legend of Mount A Duo!"

Tana, who was also not blindfolded, had her mouth wide open. It was so beautiful here, not as beautiful as she was in the world.

Her eyes showed a blurry color, the flowers blooming all around were so beautiful, the colors were very bright, red and red, purple and purple, without a trace of variegated color, Tana had never seen such a beautiful flower!

What's more wonderful is that the fragrance of these flowers is very charming. After smelling it, I feel comfortable and feel very good. All the sorrow and boredom after being imprisoned for half a month with the bonus are all wiped out!

"Welcome to my fairy mansion in South Pengyu~~hehe~"

A crisp little girl's voice came, and the two turned their heads to look, and they were shocked again.

Not to mention the cute and soft appearance of this little girl, lively and tender like a fairy, just say that there is a strange black elf sitting on her head, all showing that everything here is unusual!

Wonderland is real!

"You, hello!"

Shi Liangcai hurriedly bowed to salute. He seemed to realize that what Li Yun said was that he didn't tell others what he meant.

Such a fairyland, if it is known to all countries in the world, it is really troublesome, there will be countless people who want to grab and occupy this place.

Of course, he also believed in Mr. Li Yun's strength, but it was just a little troublesome.

"I was allowed by Mr. Li Yun not to be blindfolded, to be able to see such a wonderful wonderland. This is absolutely impossible in geology!"

Shi Liangcai felt fortunate and respected this 'hostess' more and more.

"Hee hee, don't be so restrained." Hu Xiaomeng said with a grin: "You are rarely here once, and you have been held hostage for so long, so visit here to relax and relax. Wait until Brother Yun defeats the bad guys. Let you out!"

"Okay, okay, thank you lady!" Shi Liangcai took Tana to express his gratitude to her, both of them were very excited.

This is a matter of course. It is already very happy to see such a beautiful fairyland with my own eyes, but now I can still visit here, it is almost dreamlike and wonderful!

"Well, that's right." Hu Xiaomeng warned again: "Don't disturb the flowers and plants here. Ordinary ones can still be touched, but some immortal herbs can be deadly if you touch them."

The two were shocked, and quickly agreed.

For ordinary people, the power of the fairy grass elixir is enough to destroy their bodies.

There is a small herbal garden planted in the Lotus Immortal Mansion, but Li Yun does not know how to do alchemy, and secondly, he has a more magical system to reward pill, so the herbal garden has always been kept, usually managed by Nie Xiaoqian, occasionally Will be sneaked in by the nine-winged black feather butterfly and eat some mature spiritual grass.

"As for those people." Hu Xiaomeng glanced at ordinary people who were blindfolded with a pitiful look: "They can't look at them. There are too many people to know, so let them wait."

Chapter 1556: Xianfu Half-Day Tour (Part 2)

Shi Liangcai and Tana naturally did not dare to object, and they knew that this wonderland could not be visited by anyone, or even forbidden to see it.

"Thank you Mr. Li Yun!"

Tana folded her hands, closed her eyes and patted, expressing her greatest gratitude to her benefactor.

"All right, let's go, come and visit here!"

Hu Xiaomeng was very happy and wanted to take Tana's hand and walk together, but considering that she had some smell on her body, she didn't dare to step forward.

"I, we..." Tana was very embarrassed and said ashamed: "Miss Hu, are we dirty? Or forget it, it will stain this place."

With that said, Shi Liangcai was also embarrassed. The dirty smell on their bodies and the scent here completely became a sharp contrast, which made people feel inferior.

Hu Xiaomeng blinked, "It should be okay, the fairy mansion can clean itself, right, do you want to take a bath? There is a lake here, the water is very clear, and there are immortal lotuses in the lake, it is very strange~"

Immortal lotus?

The two looked at each other. They wanted to take a bath and felt that it would be dirty, but they also wanted to see with their own eyes what an immortal lotus looked like, and even more wanted to clean themselves with the immortal water in the immortal territory, which might have a peculiar effect.

"It's okay." A woman in red suddenly appeared around them, shocking Shi Liangcai and Tana.

But Hu Xiaomeng cheered, stepped forward and grabbed her bare hand: "Sister Xiaoqian~"

"Well, Xiao Meng."

Nie Xiaoqian was a little shy. When she talked to Li Yun, she called Hu Xiaomeng or Miss Xiaomeng, but when she talked to Xiaomeng in person, she was "forced" to call her Xiaomeng—of course, it was Hu Xiaomeng's request.

As the spirit of the Lotus Immortal Mansion, Nie Xiaoqian can appear anywhere in the Immortal Mansion, arrive in a flash, and at the same time can observe anything here.

For example, Zhao Tianfeng is now meditating next to the herbal garden. The aura here is very abundant, and it is also very effective for martial arts practice.

"Miss Zhao wants to catch up with the strength of the son."

When she saw her doing this, Nie Xiaoqian said inwardly.

"Is it really okay?" Tana asked tentatively. As a girl, of course she will feel uncomfortable after not taking a bath for ten and a half days. It would be great if she could take a bath here~!

"Um."

Nie Xiaoqian nodded slightly, "This is Xianjia Dongfu. All filth will be removed and transformed into other things through some special means, so don't care."

From the perspective of physics, all the pollution produced by the human body comes from everything in the world. No, it is better to say that the definition of pollution is very narrow. It is a filthy thing for humans, but it is nourishment for plants.

Only then did the two of them relax their minds and begin to visit here with admiration and surprise.

Everything in the fairyland is so beautiful.

The trail is winding, with pebbles on it, without a trace of dirt sticking to it, it's clean and beautiful.

The plants are full of life, the flowers are in full bloom, and the small animals walk leisurely on the grass, but they don't destroy the overall beauty of the grass, as if they are spiritual, completely different from the outside world.

After walking through the tall verdant bamboo forest, the four of them came to the lake and saw the Nine Zixian lotus growing in the clear lake water.

The refreshing and strange fragrance was more intense here, Tana took a deep breath, and her whole body relaxed.

"It's so beautiful, everything here is so beautiful... Ah, only benefactor Mr. Li Yun and his wives can live here, right?"

There is only envy in Tana's heart, no jealousy, because she has great respect for her benefactor and has no greed at all.

She also believes that her lover thinks the same way.

I am very lucky to be able to visit here, and I dare not ask for too much.

Chapter 1557: The fire of the earth is mine

outside world.

After Li Yun waited for the magma explosion to disappear, he waited patiently for a while, confirming that the Spirit Fire Master did not take any more actions, and then leisurely leaped off the rock wall and stepped on the magma lake again.

With Li Yun's current elementary earth evil sun fire art, ordinary flames would have long been unable to hurt him, and the magma was so thick that he had no problem stepping on it.

"This time I'm going to try the faculty ability to see if I can sneak into the formation!"

Before Li Yun entered the inside of the lava formation, he walked in from the correct route on the floating board.

But this time he was going to do some tricks, to try if he could sneak in without disturbing the formation.

Looking at the palace in the center of the lake, Li Yun slowly took the first step. With the ability to pass the quiet, there was no trace left on this foot, and the fiery red magma did not fluctuate.

Ride the waves and follow the waves, and walk against the wind.

Li Yun mastered half of these two fairy family methods. After entering the late innate stage and gaining the Earth Shayang Fire Art, his power became more and more mysterious, and he had initially possessed the prototype of the spell!

Step by step, Li Yun soon touched an invisible wall.

A strange premonition told him that the lava formation was covered by the lava formation in front of him. As long as he entered, he would be covered by the formation.

"Tongyou."

Li Yun thought silently in his heart, and took a step forward without hesitation.

Huh.

The body is as if entering the water, with a slight discomfort, but it did not cause a reaction to the formation. This is the terrifying aspect of Tongyou, a magical power, which can freely shuttle between the Yin and Yang realms, and walk in the barriers of others Flat ground!

Even if it is a formation against ghosts, Tongyou is not completely restricted. After all, it is a living human that displays this magical power!

"It's too strong! I really don't know how strong the true psychic powers are, and how strong they will be. Maybe they can really easily reach the underworld."

Li Yun sighed, and walked a few steps forward, and the stagnation of his body quickly disappeared.

He was back on the island where he was just doing things.

"I am playing as a monster, and as a monster, of course, I have a tendon in my head. I aim at the target and go up!"

Li Yun grinned silently, and once again stretched out his palms and pressed them to the stove.

After confirming that the fire in the furnace was the ground he had been chasing for a long time, Li Yun changed the way of manipulation, instead of letting it burst, but instead absorbed it!

The earth evil sun fire power was running, and under the guidance of divine consciousness, the faint blue earth evil fire in the furnace trembled slightly.

"Very good, did not attract the attention of the Spirit Fire Master!"

Li Yun is now basically certain that the stoves on the three islands around the palace are all filled with earth flames.

According to his understanding of this flame, the Spirit Fire Master should use the lava from the volcanic ground to warm it. After all, the earth evil fire is not endless. After using it to refine the equipment, there must be some loss.

Therefore, the source of energy to supplement the terrible fire is to rely on the magma of this entire lake!

The fire of the earth, also called the fire of the heart of the earth, magma is like wood to it, which can make it warm and strengthen itself.

"In this way, the three small islands correspond to the three craters of Haraha Volcano. It is precisely because there are three furnaces for storing ground fire under the ground that three huge volcanic craters are formed above. !"

Li Yun quickly figured out this. The energy of the Earth Shouhuo is astonishing. The firepower of the three Earth Shouhuo penetrated through the heavy crust, causing three volcanic craters to be formed on the ground!

"But now, the fire of the earth is mine!"

Chapter 1558: Absorb the fire

A strong excitement and anticipation flashed in Li Yun's eyes, his divine mind speeded up, and the force of the ground flame in the furnace increased. Soon, a dark blue flame the size of a soybean broke away from the body and flew from above the furnace. Came out.

In fact, this stove has the common purpose of containing and suppressing the fire, and it is not afraid of leaking out if it is placed on the island far away from the palace.

But in front of Li Yun's profound earth-shaking fire art, this stove is completely useless!

"receive!"

Li Yun stretched out his right hand and slapped, the soy-blue flame that was the size of a soybean flew to his palm and slowly merged into his body.

boom!

A powerful heat spread all over Li Yun's body in an instant, and the earth's fierce fire turned into a stream of heat, flowing from the meridians to Li Yun's dantian, giving him the feeling that he was swallowed abruptly when he was eating hot pot when he was an ordinary person. A hot tofu that was piping hot, the whole body was piping hot!

If he hadn't practiced the earth evil fire art, this little earth evil fire would immediately consume him, the flesh and soul would melt in an instant, and even the system would not be able to save it!

Fortunately, under Li Yun's extreme suppression, the earth fierce fire flowed obediently to the pubic area, but it was still extremely tyrannical. It swept away Li Yun's original god-level Nine Suns Tianjing Qi, and drove all to the limbs and corpses. middle.

In addition, those true qi that was too late to escape were all swallowed by the fierce fire of the earth, and turned into incomparable pure energy to be absorbed.

"I go....."

Li Yun smiled bitterly. At least one tenth of the true energy was burned out. Moreover, after the fiendish fire occupied the dantian, true energy could only go to other places wronged, which had a lot of influence on the regeneration and power of true energy.

"Hopefully the fire is really as strong as I thought!"

After the explosion in his body ceased, Li Yun slowly breathed a sigh of relief, and tried to continue to absorb the ground flames in the furnace.

One after another, the evil fire was drawn out, and then was accommodated in the dantian by Li Yun. As the evil fire in his body grew, things changed a little.

Zhen Qi didn't retreat, but instead moved forward. He took the initiative to return to his dantian, and rushed forward, and was swallowed by the fierce flames the size of his thumb.

Li Yun didn't intend to stop, allowing this change to happen, continuing to absorb the terrible flames in the furnace, and at the same time, he was alert to the movement of the spiritual master.

Not long after, all the zhenqi in Li Yun's body was melted, and only the faint blue flame suspended in the dantian remained in his body.

"Boom!"

With a tremor, like the first heartbeat of a newborn baby, and like the first sound of the opening of the heavens and the earth, earth-shaking changes occurred in Li Yun's body!

A trace of fiery red liquid flowed from the faint blue earth fire, dripped onto the dantian, moisturizing the dry meridian, and rejuvenating it.

"Cack bang bang bang!"

In a panic of pain, Li Yun's root bones made a series of crisp noises, and the fiery red liquid flowed into the bone marrow, shattering and reshaping the bones of his whole body piece by piece, removing the mortal fetus, turning it into a spiritual bone, and shining brightly. , Like the most exquisite jade, beautiful!

The skin oozes a thin layer of sweat and brings out a layer of impurities. From the outside, Li Yun's skin at this moment is as white as white jade, without a trace of blemishes.

The male muscle lines are uniform and beautiful, like the most exquisite deity portrayed by a master sculptor, suddenly opened his eyes, the red light in his eyes was shining, exuding astonishing pressure!

"Ding, congratulations to the host for making the right choice, finding the Earth Sorrow and learning it. Reward: All attributes +50,000, experience value +20 million, the Earth Sorrow's fire skill is upgraded to intermediate level, extra reward: colorful gift bag*1."

Chapter 1559: Body changes

Li Yun was too late to be surprised, waved his hand to draw a large flame from the magma lake to cover the island, and then used the ability to pass quiet, dodging and hiding aside.

"Beast, don't move my ground to the fire!!!"

There was another roar from the palace, and the Spirit Fire Master flew out like a madness, and his body was shrouded in a ball of fire, like a meteorite that fell heavily on the island.

But what awaited him were flames all over the floor, and a shadow of a suspected flame giant that slowly disappeared.

"Damn beast!"

At a glance, the spirit fire master knew that the earth evil in the furnace had been absorbed by at least half!

He suddenly became more and more furious, and his hands were squeezed again and again, and the surrounding magma burst out, like a sea wave that ignited dozens of meters high and turned upside down. The cave was roaring, but he still found the "beast". Where is it!

"The strength of Master Ling and Linghuo!"

Standing at the side door of the palace, Tao He looked at the magma and flames flying in the sky, and couldn't help swallowing.

Such a vast and powerful scene, when placed yesterday, he couldn't even think about it.

But today, Tao He has personally seen the horrible scenes of immortals who can overwhelm the mountains and the sea with his own eyes. This kind of power is enough to easily crush a regiment of elite fighters armed to the teeth!

"Master!" As soon as Wei Jingli leaped along the floating board, she was immediately scolded by Linghuo master, so that Wei Jingli could not even lift her head.

"Give me to stay here!"

The spiritual fire master threw a word in anger and flew back into the palace.

He couldn't stay outside all the time, the forge inside the palace was still smelting, and he couldn't walk away at all.

Wei Jingli's face was ugly. How could he be able to stop the monster that feeds on flame magma in the late stage of Qi refining?

In the end, he could only sullen his face, and took out a few charms and arranged them around, forming a small defensive enchantment to buy himself more reaction time.

"hehe."

Standing on the lake not far away, Li Yun smiled softly. He felt that he was a little shameless. The god-level retreat technique was simply too BUG. After playing with these people, others couldn't find him where he was!

"All attributes are 50,000, experience value is 20 million, plus a colorful gift bag, it really is not rich without windfall!"

Li Yun looked at what he had gained and smiled very satisfied.

Looking at the dantian with Shen Min, a group of three-fingered Earth Fiends was suspended in it, and a small piece of fiery red liquid underneath.

True yuan!

"Unexpectedly, I actually possessed True Yuan at the stage of Innate Consummation!"

Through Xia Feiyao's grandfather Xia Lei, and the chat with Zhao Tianfeng's father Protecting the Country Excalibur, Li Yun probably knew about the changes in the Grandmaster Realm.

The most notable thing is that the true energy is transformed into true energy, capable of calling the wind and rain, and attracting thunder. Of course, this is the manifestation of true energy, not real wind, rain and lightning.

For example, Xia Lei, he swung a sword with lightning in his sword aura, and his destructive power was more than ten times stronger than that of the Innate Realm!

But this is still very different from spells. Real spells can provoke the thunder from the sky, and the flames billowing between the waves are far from the difficulty that the Grandmaster Realm needs to be accompanied by the True Element Attack.

"I'm still in the Innate Realm now, so to speak, Zhen Yuan is not unique to the Grand Master Realm."

Li Yun thought for a moment, and felt that this was because of the terrible fire, he absorbed the terrible fire, and then purified the true energy into the true essence by the terrible fire, which was one more bend than the real master realm!

Chapter 1560: Damn beast

"The system rewards my magical tools, and can also convert true energy into mana, which can be poured into equipment for use, such as the Nine Heavens Thunder Talisman."

"This proves once again that the vital energy in the human body is actually connected to the aura of the outside world, and the two parties can actually transform each other at some point!"

After thinking about it, Li Yun nodded in satisfaction, and his true energy was transformed into true essence. After a small mass of suffocation was contained in his body, his strength could be said to have advanced by leaps and bounds. A wave of equipment and its toughness!

"Not to mention my current attribute value...230,000!"

Taking a look at his current attributes, Li Yun himself was taken aback, 230,000 points, a full four times higher than the 50,000 points in the early congenital period.

The strength is not only quadrupled, but dozens of times, hundreds of times!

"However, this is not enough!"

A smile curled up at the corner of Li Yun's mouth, and his gaze went over Wei Jingli and the stove behind him to another small island.

There, there is another land that hasn't been absorbed!

five minutes later.

"Damn beast!!!"

Along with the flames, the caves roared, as if the entire Haraha volcano was shaking.

Taoist Baihe sitting at the entrance of the cave opened his eyes, frowned slightly, and muttered to himself: "What is this surnamed Wei doing? Is it to lead me down, take the opportunity to release the letter Gu, so as to attract the devil's person? Are you coming?"

After thinking for a while, he slowly closed his eyes and meditated again.

For him, as long as he sits at the entrance of the cave, no conspiracy and tricks by the Spirit Fire Master will help.

There is no other way to escape except for refining a weapon of at least the highest grade magic weapon for him!

Naturally, in the face of the introducer, the ancestor of the thousand souls, Taoist Baihe would not kill the spiritual master, but the volcano here would be destroyed.

"boom!!"

In less than three minutes, there was another vibration from deep underground. Taoist Baihe couldn't help but open his eyes again, gritted his teeth and tried to stand up, but in the end he still held back.

"..."

Three minutes later, there was a huge roar from the ground. This time Taoist Baihe couldn't help it. He stood up and looked down at the bottom with a gloomy face. He took out a flag and threw it out. After he calmed the hole, his figure flashed quickly, and soon Just returned to the bottom of the earth.

"Spirit, fire, master, teacher!"

An angry face appeared on Taoist Baihe's face, and the scene in front of him made him startled and angry: "What are you doing? Why don't you continue refining!?"

The heat waves in the underground caves are rolling, and the magma sprays up to a height of 100 meters, hits the top of the cave and sticks to it, causing continuous magma flames to flow down.

The entire Spirit Fire Cave was in a mess, and the "water" of the magma lake was surging, almost swallowing the palace in the middle.

"Tao, brother."

The Spirit Fire Master, who was shrouded in the firelight, was suspended in mid-air. After seeing Taoist Baihe, his face was extremely ugly. The word Brother Tao almost popped out of his teeth!

"What the **** is going on!?" Taoist Baihe thought of something, and was slightly surprised:

"Could it be that you have really refined my magic weapon into a spiritual weapon, and it's making a noise now!?"

The magical implements are alive, so naturally it is impossible to easily convince them.

To be honest, although Baihe Taoist collected the materials needed for refining according to the records of ancient books, he still had doubts about the success of refining spiritual weapons. He only hoped that he could obtain a top-quality magic weapon and whether he could refine it. The spirit weapon can only be said to be resigned to fate.

Therefore, as soon as he saw Linghu Cave tumbling up and down, he immediately thought of the birth of the spirit weapon.

"No, it's not."
