

## Godly Choice 1561

Chapter 1561: trade

The spiritual master became more embarrassed, "It's still too early for the artifact to be released."

"Then what's the situation here?"

Taoist Baihe asked in a deep voice, while speaking, he kept guarding at the entrance of the cave, giving him no chance to release the letter Gu or other distress messages. Not to mention the spiritual weapon, it is a superb magic weapon, which can cause a lot of return. Pay attention to the Void Realm, especially for the people of the Six Demon Sects, it is extremely possible to come to kill people and win treasures!

"There is a beast here!" Spirit Fire Master gritted his teeth and cursed.

He was tricked by this \*\*\*\*\* beast several times, and the warm ground fire placed outside was absorbed by at least half, which was almost equal to ten years!

Normally, his refining tools don't use the earth evil spirits at all, so he can only use them when refining high-grade magic instruments. In today's world where aura is declining, every trace of earth evil spirits is extremely precious.

But now the animal has absorbed a fist-sized amount abruptly, and the value is equivalent to five top-grade magical artifacts, making the spirit fire master's heart hurt like a knife, and he can't wait to catch the animal and raise it in the palace. Drive it to spit out the fire to refine the weapon!

"brute?"

"It's a monster!"

"impossible!"

Daoist Baihe categorically rejected his judgment: "The current world's spiritual energy is exhausted, and there can be no wild monsters, unless it is in the valley...no, it is some masters who consume spiritual energy to tame, otherwise there will be no monsters that can survive! "

As a human being, it is extremely difficult to cultivate, let alone monsters.

Even if they happen by accident, they are just little monsters that are not climatic and stronger than ordinary beasts-they can't even be called monsters.

The Spirit Fire Guru was slightly interested, and smiled: "Brother Dao, it is impossible for monsters to appear in an ordinary environment, but my Spirit Fire Cave is not ordinary!"

"Um?"

Taoist Baihe quickly woke up, the underground of this volcano of Haraha, but there is the existence of terrible fire!

The Fire of the Earth is a kind of spiritual fire. After decades of influence, it is not surprising that a monster beast was born inside the volcano.

"It's really a monster!?" Taoist Baihe was moved.

Nowadays, except for the mountain gates of the Hidden Sacred Valley and the Six Demon Sects, it is almost impossible to have monsters in other places. If you can successfully conquer one, the bonus to your own combat power is absolutely no less than a high-grade magic weapon. !

"Yes, it should be."

Master Linghuo replied helplessly.

He didn't want to let the Baihe Taoist know about this. After all, a fire-attribute monster is too suitable for his identity as a master trainer. With a monster that can swallow fire, he will go through some training. , He doesn't need to control the flame by himself when he refines the weapon, just let the monster beast do it.

This animal is born of flames, and the manipulation of fire is equivalent to instinct.

"I am 90% sure that the thing that is causing trouble here is a monster."

The Spirit Fire Master knew that he could not tame this animal with his own power, so he had to rely on the power of the White Crane Taoist, so he directly said the matter and said his basis for judgment: "Only a monster can swallow more than a dozen in an instant. A human without leaving a trace."

"it is good!"

Daoist Baihe stroked his palms and laughed, and looked at him with scorching eyes: "I will help you catch this fierce fire monster to replace the reward for refining!"

Master Linghuo's eyes lit up, "That's it!"

His desire for a monster beast that can control fire is much stronger than a top-grade spiritual tool, not to mention that the Taoist Baihe is only rewarded with three top-grade spiritual tools.

With that beast, can high-grade spirit weapons be refined at hand?

Chapter 1562: Ding, advanced shayang fire power

"Monster? There is no drop."

Li Yun, who used the faculty ability, sat on the top of the palace grandiosely, checking his own gains with satisfaction.

The Earth Fiend in the dantian already had the size of a fist. Divine Mind scanned the past, and Li Yun was a little frightened by the mighty power contained in it. No wonder those practitioners were so arrogant, and the power of spells was indeed extremely powerful!

"But not enough, I need to be stronger!"

Li Yun moved his mind and decisively issued a command to the system: "System, use the last skill pill to raise my earth evil sun fire art to a high level!"

After the elementary earth evil sun fire skill absorbed the first ray of earth evil fire, he was already promoted to intermediate level, but Li Yun was not enough. Taking advantage of the fact that there is still earth evil in the spirit fire cave, he planned to absorb all of it into his body.

After all, he spent a little bit less on the evil of the earth, which is very precious, and now of course he can collect as much as he can!

"Ding, you succeeded in using the skill pill, and the host land Shayang Fire Power was upgraded to a high level.

Feeling the improvement of his skills, Li Yun's feeling of fullness in Dantian disappeared after he had absorbed the Earth Fierce before. He can now continue to absorb the Earth Fierce, at least five times more!

Taking a look at the situation where the Taoist Baihe, the Master of Spirit Fire, and Wei Jingli were waiting on three small islands, Li Yun smiled, jumped down, and walked in easily through the palace gate.

In the forging furnace in the front hall, there are more terrible fires!

"I don't know if the Spirit Fire Master will sense this."

Li Yun approached the forge cautiously. The stove was still burning. With the advanced earth evil power, he became much more sensitive to the earth evil inside the stove, at least more than three islands combined. Five times more spiritual fire!

They are wrapped in some spiritual materials and are being calcined. Li Yun felt these materials a little bit, and found that at least half of them were minerals, some were spiritual plants, and there was a bunch of bright red blood. I didn't know what it was. The blood of things exudes inexplicable evil.

"Draw directly?"

"It should not work!"

Li Yun rejected the idea of directly absorbing the terrestrial flames. The spirit fire master was so sensitive to the three small islands outside. Often when Li Yun just absorbed a finger-sized flame, the spirit fire master rushed into anger. come out.

It can be seen that he must have a way to sense the situation in the formation.

"Wait, formation?"

Li Yun looked around, a smile appeared at the corner of his mouth.

After repeatedly angering the Spirit Fire Master, the lava formation fully exerted its power, and therefore let him clearly understand the composition and principle of this formation.

Li Yun knows all the formation eyes and the small formations embedded in the big formation, including the line diagram drawn with spiritual power, and he can also change them so that this formation loses its internal ambition. Be vigilant, but did not attract the attention of the spiritual fire master.

"Let me take a look...Well, burn this line map, and then move the shelf here."

Li Yun manipulated the ground fire, burned the hidden base of the formation, and secretly complained. This formation is actually similar to drawing a physical circuit diagram, except that the spiritual power is different from the electric power, and the spiritual power is more concealed, and there will be no What is the argument of AC, DC, and short circuit.

The so-called base line of the formation is the line of spiritual power that transmits the power of the formation. For example, when manipulating the giant stone doorway above, the line of spiritual power extends all the way to achieve the control effect.

In a sense, the formation method is actually the science of the spiritual world, and it is very regular!

Chapter 1563: Return my spirit fire

Sitting on a small island, the Spirit Fire Master, who was waiting for the brainless beast to attack, suddenly felt a little uneasy.

He also didn't know why he felt uneasy. At first he was a little excited, thinking that the beast finally couldn't bear it and wanted to attack again.

But after waiting and waiting, there has been no movement around.

The magma stuck around the walls of the karst cave slowly dripped until it all fell. The whole Spirit Fire cave was calm again, and the magma became quiet again. Only occasionally a few bubbles appeared and some sulfur gas was spit out, but nothing happened!

Everything seemed dead silent.

"wrong!"

Master Linghuo opened his eyes, stood up, and a flash of furious fire flashed in his eyes: "There must be something wrong, why is it so quiet!? That beast had been turbulent before trying to absorb the evil fire, it should be about to break through the realm. Yes, unless it absorbs enough, it is impossible not to attack!"

"What did you ignore?"

A drop of cold sweat appeared on Master Linghuo's forehead, something he hadn't had in many years.

Although he was deep under the volcano, the scorching heat around him was basically the same as a hot spring for him with fire control skills.

"That beast...could he find another source of earth suffocation?"

Master Linghuo's eyebrows jumped, thinking of a theoretically impossible possibility!

He looked at his palace fiercely, and only there, there was still the fire of the earth!

But how is this possible!

His palace is not only shrouded in lava formations, but inside it is also equipped with several other guard, counterattack, and anti-invisibility formations. Without his permission, all demons and monsters from the outside world, and Taoist demon cultivation cannot enter it.

Unless that animal can also form a formation, and is very clever, no, maybe that animal can burn the formation by nature without inducing the master of the formation, just like before silently eating meat animals...

"Monsters, monsters, monsters... People who abandon them often lead to demon prospers, so there are demon, demon is prospered by people..."

Linghuo master muttered to himself, the next moment, he yelled furiously: "Beast, you are looking for death!!!"

In the surprised eyes of Taoist Baihe and his disciple Wei Jingli, Master Linghuo rushed into the front hall like burning buttocks.

Suddenly, there was another roar: "Damn beast!!! Give me back the fire!!!"

Rumble!

A tyrannical fire light broke through the palace and opened a large hole at the top of the gorgeous palace. A giant flame giant more than ten meters high appeared in the vision of Tao He and Wei Jingli.

"This!"

The two were stunned, and then saw that the flame giant raised his right foot, and screamed at the palace and kicked it fiercely!

As far as the size of the flame giant is concerned, if this kick is strong, the entire palace will be torn apart and completely exploded into ruins. The dozens of medium to high-grade artifacts inside will be scattered and empty, the forge furnace It will roll over to the ground, and the fire from the ground will gush out, completely detonating here!

"Do not!!!"

At the moment when the spiritual fire master was horrified, the Taoist Baihe took out a white background and wrote the rune charm with a golden charm pen. He was expressionless and threw the charm at the flame giant who was about to kick it.

"Golden Light Town evil talisman, town!"

The white-gold charms seem to be light and fluttering, but they fly quickly over the flame giant like a sharp arrow, turning into a majestic mountain, and falling with magnificent momentum, as if to calm the entire small world!

Everyone was shocked, only the one floating in the air in the field of vision, emitting a brilliant golden light, was like the vast evil charm of Mount Tai!

Chapter 1564: Jinguang Town Evil Talisman

"Roar!!!"

The flame giant's movements stopped abruptly, and he seemed to know that this charm was not easy to provoke, his figure shrank rapidly, and he escaped into the melted ground, trying to escape into the magma.

"Can you escape."

The Taoist White Crane finger was a little far away, and the evil talisman of Jinguang Town burst into golden light again in an instant, shining on the ground, condensing all the magma lakes and turning them into solid gray-black magma rocks!

Tao He, who is a master of geology, was dumbfounded. The magma turned into stone without cooling. This scene simply broke his scientific outlook for many years.

It should be said that Tao He's Three Views have been continuously destroyed since seeing the rumbling away of the several-ton boulder!

The fiery red magma quickly turned black, as if the black ice surface was spreading, and the entire lake surface was condensed in an instant!

"Beast, you can catch it before you can!"

Taoist Baihe took calm steps and walked over step by step. The golden light town evil talisman kept shining on the ground, and gradually gathered towards the flame giant who is only four or five meters high. He stayed alive!

"Okay! Brother Dao's strength is really impressive!"

The Spirit Fire Master was overjoyed, as long as he catches this fire-stealing beast, he is worth the loss no matter what!

"Quickly, brother Dao, grab him quickly, I can refine you the best method...weapon!"

"boom!!!"

The next moment, the flame giant burst out with a faint blue light, breaking through the golden beam of light, and melting the ground into fiery red magma again. After that, the giant plunged directly into the lake and drilled into the center of the lake. Disappeared without a trace.

"Earth, evil, fire!"

The Taoist Baihe looked like frost, raised his hand, and called the Jinguang Town evil talisman into his hand, pressing it on the magma without hesitation.

Rumble!

The muffled sound echoed in the spirit fire cave, Tao He and Wei Jingli and others only felt that the ground was shaking, and the entire Haraha volcano was resounding.

The surface of the magma lake continuously jumped out of magma, like heavy rain, countless raindrops hit the water surface, arousing continuous bursts of white spray.

This force seems to be much weaker than when the spirit fire master controlled the lava formation and turned the lava lake upside down, but everyone here knows that the movement created by the Taoist Baihe at this moment is far stronger than before. many!

Under the ground that they can't see, it must have been turned upside down, that monster must have been turned faint, right?

However.

"Void Return Realm is really powerful!"

At this moment, Monster Li Yun was standing in the front hall with a lot of time, standing in front of the forge that had absorbed more than half of the earth's fierce flames, his eyes staring at the magic of the Taoist Baihe in amazement.

It has to be said that the strength of the Void Returning Realm is much stronger than Li Yun expected. The Taoist Baihe is the first Void Returning Realm he has faced, and that golden light charm impressed him extremely deeply.

The previous Venerable Black Eyebrow should have weakened a lot after attacking the twenty-eight star formation, and his body was destroyed by Li Yun, so he looked a little vulnerable.

The Thousand Soul Ancestor is just a clone, not a head-on confrontation.

But the current Baihe Taoist is different. He is the main body here, and his strength is not damaged at all. He is a strong man in the Void Returning Realm!

With sufficient preparation, it is almost impossible for Li Yun to confront him head-on!

Chapter 1565: Less than half

"Can't force it!"

Li Yun soon had a clear understanding. Now even if he has absorbed the evil fire, there is still a certain gap between him and the Void Return Realm. Even if he uses various powerful equipment such as the Nine Heavens Thunder Talisman and the Golden Dragon Sword, it is estimated that he can only fight Returning to the Void Realm was caught off guard, and he was still in danger by the opponent's reaction.

"However, I have a shooting arrow of the sun, and I don't know if I can kill and return to the Void Realm in one shot."

Li Yun thought of the artifact he had just acquired. Although it has a suffix of "Mang", its power won't be much worse. Otherwise, I'm sorry to shoot the sun.

After all, this is a magical arrow used by a great witch to shoot the magic bird Golden Crow!

When Li Yun was struggling whether to kill a Void Returning Realm, Master Linghuo walked in again and saw that his face was dark and terrifying, Li Yun used his fascination ability and quietly jumped. On the upper beam.

— His behavior is actually killing him. After all, now both the Linghuo master and the Baihe Taoist are on guard, and there may be some special abilities to discover him.

But on the other hand, if Li Yun is not discovered this time, it proves that his god-level spirit turtle hiding technique has the capital to hide in front of the Void Returning Realm!

"Beast, beast!!"

Looking at the situation in the forge, Master Linghuo's dark complexion turned into a deep grief and anger, full of resentment and aggrievedness. Li Yun was a little embarrassed to hear him, did he feel that he was too much? Should leave him a little bit more to fight.

"Just a little bit more, soy bean size is good, hehe."

Li Yun grinned silently.

Not long after, Taoist Baihe, who had gained nothing, of course also walked in. Jin Guangzhen Xie Talisman was still pinched by him, his expression on his face was also very ugly, and there was no such thing as a fairy tale bone before, and he held everything indifferently.

"My spirit weapon... how is the situation?"

Seeing Master Linghuo angrily and depraved, Daoist Baihe's eyes moved slightly, his eyebrows were constantly beating, and the golden light town evil talisman in his hand was pinched tightly, so he killed Master Linghuo as well. What this looks like!

"How...? Ha ha, ha ha ha!"

Linghuo master made a ghostly sound of lotus, like sarcasm, but also like self-deprecating: "It's less than a half, what do you think?"

"Most missing?"

Taoist Baihe started to breathe quickly, his heart ached suddenly, and he almost didn't run away!

The things in this furnace, tungsten ore, red blood fine gold, frost silver iron, red flame stone... etc., are all he spent countless energy, through various channels, or purchases, or exchanges of favors, It was even simply to kill people to win treasures, only to find the refining materials for the Three Evil Fire God Sword recorded in an ancient book.

For this spiritual weapon, the Taoist Baihe even personally contacted the thousand soul ancestors...

"You mean, the materials I use for refining spirit weapons have lost more than half of them?"

Following the cold words of the Taoist Baihe, the entire palace seemed to be shrouded in dark clouds, and the flame-like aura was actually pressing the palace at the bottom of the deep volcano to tremble!

"I mean, I have lost more than half of my earth evil!" Linghuo master was shocked and quickly explained.

A little later, he might be killed on the spot by this Baihe Taoist to vent his anger!

Li Yun, who was crouching on the beam, raised his eyebrows. It seemed that Taoist Baihe was also a practitioner who majored in fire spells. The previous golden spells were only his small tricks.

Chapter 1566: Personally waiting

"Humph!"

Daoist Baihe's complexion improved, but he was still gloomy and frightening. Before Master Linghuo could speak, he indifferently ordered: "Call back the warmth and warmth from outside. I

will be here personally for the next few days. Don't rest until my three evil fire \*\*\*\* sword is released!"

Spirit Fire Guru didn't object, because of his proposal, the spiritual tool materials in the forge were almost swallowed by the beast. Naturally, Spirit Fire Guru didn't dare to have any objections at this moment.

only.....

"Why? Not happy?" Seeing him look embarrassed, Taoist Baihe looked at him coldly.

"No, Brother Dao, your suggestion is very good, but now... my ground is not enough."

The spiritual master said in a hesitant way, the implicit meaning is that you need to personally supplement the spiritual temperature and nourish the earth, otherwise it will not be enough to refine the spiritual weapon!

After being swallowed by that monster beast, the remaining spirit fire could not support the refining of the best spirit weapon at all, and could only rely on artificially providing spiritual energy to warm the earth.

In this world where spiritual energy is thin, the spiritual fire master asks the Taoist Baihe to provide spiritual advice, which is equivalent to cutting a knife on the heart and flesh of others, no, cutting a lot of knives!

Therefore, after Baihe Taoist heard this suggestion, the expression on his face was so gloomy that it could drip thousands of years of ice, as if the temperature in the entire Spirit Fire Cave had dropped below freezing!

"it is good!"

When Master Linghuo waited with fear, a good word popped out of Taoist Baihe's mouth, and he agreed.

Immediately, the spiritual fire master immediately recalled the warmth of the terrible fire on the three small islands. Now it is not the issue of loss, but how to save his life!

Li Yun's mouth twitched, and he felt amused when he saw this scene.

Soon, three thumb-sized ground fires floated in from outside and flew towards the forge.

"My land is fierce... a beast of heaven slaying!!"

Seeing that there was only so little left of the terrible fire that had been raised for many years, the spiritual fire master gritted his teeth again and screamed. It was because of the animal that a series of things happened.

In the next 50 years, he will not even think about refining tools, unless he consumes a lot of spiritual energy and actively warms up the atrophy of the earth that has shrunk to the extreme, but the spiritual energy is already low. How much energy and material resources are spent!

Just thinking of this, the Spirit Fire Master was about to vomit blood and died, wishing to castrate the beast himself!

"Is it really a monster?"

Taoist Baihe looked at the forge, a dangerous light flashed in his eyes.

"Brother Dao, what do you mean? You suspect... a human?"

Guru Linghuo was taken aback for a moment, some of them couldn't believe this hypothesis.

"If it's a monster beast, it will let go of the spiritual tool materials inside?"

Taoist Baihe asked back, letting the spiritual fire master completely silent.

Generally speaking, monsters are cruel and cruel in nature, and have an excellent appetite. As long as they contain powerful power, they will try to swallow them, but now they have let go of the materials in the forge.

This seems to indicate that the monsters hidden at the bottom of the volcano also want this spiritual tool to take shape!

It's strange how a monster wants the spirit tool to be successfully forged!

"But that beast ate all the humans in a cell!" Linghuo Guru objected.

Taoist Baihe is noncommittal, "There are many methods in the cultivation world that can do similar things, but they are too troublesome and unnecessary. Okay, don't dispute this anymore. You start refining tools and I will be here personally!"

Chapter 1567: Generous rewards

"Ding, the host makes a choice, secretly sabotages, plays with the spirit fire cave master, reward: experience value + 10 million, all attributes +1 thousand, golden gift bag\*4, justice value +1 thousand, extra reward: aura value +40,000 (has been added to the host's Lotus Immortal Mansion).

The host additionally teased a late-stage master of the Void Return Realm, and added optional rewards: each of four golden quality pill \*7, four small and medium-sized pill \*400, skill pill \*5, colorful gift bag \*1. "

Li Yun squatting on the beam overhearing: "!!!"

He was really taken aback. Not only did he have a high amount of experience and attribute rewards, he also had up to 4 golden gift bags, plus an aura value of 40,000, and he also added a trick to return to the virtual. Rewards for masters in the late stage!

"The four golden quality pills are \*7 each,  $4*7=28$ , which is equivalent to twenty-eight golden gift bags, I'm Cao!"

"Four small and medium-sized medicines, totaling 400, I Cao! Isn't this the same as 400 gift bags below purple?! Even if there are only 100 medium-sized pills, this is a big profit!"

"Skill Pill\*5...It's me Cao again! With so many skill pill, I can directly promote a few of my skills to the master level!"

Li Yun looked back and forth over these selective rewards with fiery eyes. Compared with the other three, the colorful gift bag was the most inconspicuous reward, unless luck continued to burst and he opened up an extremely useful piece of equipment.

"Which one should I choose?"

Li Yun felt once again that it was too difficult to do multiple-choice questions. He was an adult and couldn't take them all! !

"Brother Dao, please support me."

The Spirit Fire Master below meditated in front of the forging furnace, making a series of magic decisions with both hands. After the flame in the furnace boiled, he couldn't help asking for support.

If you don't speed up a little bit, his terrible fire will burn away!

".....it is good!"

Taoist Baihe's face was stinky, as if he had swallowed a hundred flies. He waved his hand and slapped the formation that the spiritual fire master had arranged around him, leaving only the lava formation covering the spiritual fire cave. Then he took out the four array flags and inserted them in the four positions of front, back, left, and right, and locked the place tightly. Anyone coming in or out would be noticed by him!

The spirit fire master did not dare to speak up, and let the opponent set up a defensive array.

After finishing the arrangement, Taoist Baihe raised his head and glanced thoughtfully, but didn't say much. He also sat down cross-legged and reached for the forging furnace. A stream of pure mana slowly flowed out and poured into the furnace.

"boom!"

The fire broke out, a faint blue light illuminates the surroundings, and the fierce fire of the earth has grown stronger than ever!

"Brother Dao's strength is really extraordinary!"

Master Linghuo expressed his heartfelt admiration. With this hand, he could determine that this cultivator who didn't know his name was at least in the late stage of the Void Return Realm, and he was a master of the same level as the Thousand Soul Ancestor.

In fact, Baihe Taoist was also introduced by the ancestor of a thousand souls.

"With such vitality, within two days, I will be able to finish the refining of Dao brother's spiritual tool!" The Linghuo master made a promise, and by the way, pleased Dao Baihe.

"very good."

Taoist Baihe moved his eyes slightly, "Now that I don't want to be able to refine a magical weapon at the spiritual level, but you at least give me a superb magical weapon!"

"must!"

Linghuo master paused, and lowered his voice: "Brother Dao, spiritual weapons are not impossible. I have a few servants who can serve as sacrifices. In addition, my ineffective disciple can sacrifice if necessary! "

The eyes of Baihe Taoist fell down, neither saying good nor bad.

Chapter 1568: Ding, pill 400

"It's so cruel."

Li Yun sighed at the gate of the palace. When Taoist Baihe launched his defensive formation just now, he was forced to stay away and was almost noticed by the opponent.

From this point of view, his current Spirit Turtle Breath Technique ability can only be effective when it is ten meters away from the Void Returning Realm, and it must be free of distractions. Once the killing intent is moved, it will inevitably be noticed by the Void Returning Realm.

"The late stage of Void Return Realm is really powerful...Wait, this Baihe Taoist is the late stage of Void Return Realm!?"

Only then did Li Yun react. The system prompted Taoist Baihe to be in the late stage of the Void Return Realm. As a result, he was too excited to see the reward just now, so he didn't notice this.

"I'm going... I'm really awesome, this is dancing on the tip of a knife!"

Li Yun shook his head and smiled bitterly, but it is still inevitable that he is a little complacent. He is only innately consummated now, but he can make trouble under the eyelids in the late stage of the Void Return Realm. No one will believe it.

"The enchanting concubine Wan Qing will at most return to the early stage of the Void Realm, right? Ha ha, next time she suddenly appears next to her, won't she be scared to death?"

Li Yun imagined the scene with amusement, and almost laughed out loud.

Of course, thinking of Concubine Wan Qing, he will inevitably think of Saint Fan Qing. After finding some time, he will go back to Zhonghai City to see her and Qingyu and the others.

"System, the reward I chose is: four small and medium-sized pills \*400!"

Li Yun made a cautious decision and chose the reward of 400 medicinal pills.

There are several reasons. First, although his attributes have increased a lot now, he is still a bit short of congenital Dzogchen, and he is not very urgent to upgrade his skills.

Second, the golden pill is not necessary for him.

Li Yun glanced at his inventory. There were at least twenty golden quality pills in it, so he didn't need this for the time being.

Needless to say, the colorful gift bag, he still has one in his inventory waiting to be opened.

"400 small and medium-sized pills are enough for me to use for a long, long period of time, at least two or three years!"

Li Yun now has a terrible fire that needs to be warmed up, and there is a fairy house that needs to be refilled at any time. In addition, he has his greedy daughter Black Feather Butterfly, plus the sleepy little princess, and some confidantes around him.

In addition, he also has to act as a pill boy from time to time to support the country in fighting evil, such as sending anti-toxin pill to some important leaders, and some to the family members of confidantes, such as Zhao Tianfeng's father and so on.

Therefore, choosing 400 medicinal pills is the choice to maximize the benefits!

"Ding, the host makes a choice and gets the pill reward: medium detoxification pill \*65, medium recovery pill \*57, medium building foundation pill \*44..."

very good!

Li Yun was secretly surprised that the original system did not set the number of medium-sized pill. The eight types of pill are completely random, which is equivalent to saying that he has earned 200 purple gift bags for nothing.

—The things that come out of the purple gift bag, if luck doesn't explode, they are all medium-sized pills.

"With so many medicinal pills, it will be no problem to support it for four to five years!"

"Even I can let my daughter open up and eat so that her belly will be rounded."

After raising Black Feather Butterfly for so long, Li Yun also regarded her as his own daughter. This little guy was very lively and obedient. She said that she could not eat the things in the fairy house, so she kept drooling and not eating.

"Young Master!"

Chapter 1569: Wu Nong Jiao

Nie Xiaoqian's anxious voice came from the Lotus Immortal Mansion. Li Yun frowned slightly and sent a thought in and asked: "What's the matter? Are the hostages restless? If someone comes in disorder, just knock them out. Don't be too polite!"

"My son, no, the hostages are very peaceful, and no one is disobedient."

Nie Xiaoqian shook her head, looking helplessly at the little black butterfly elves flying around her in excitement: "It's just that the little lady is making a fuss, saying that suddenly there is a lot of food."

Little Miss, referring to Li Yun's daughter, the Nine-winged Black Feather Butterfly.

"A lot of food? Reiki? Oh right!"

Li Yun patted his head. Before, the system also rewarded 40,000 spiritual auras, all of which were placed in the Lotus Immortal Mansion. No wonder Black Feather Butterfly said a lot of food.

"What did she say?" Li Yun asked with a smile.

"Said the little lady, and said-uh, me and me."

"What did you say?"

A blush appeared on Nie Xiaoqian's beautiful and enchanting face. After Li Yun's repeated questioning, she whispered to him in a very low voice: "Dad, Xiaodie is going to eat~"

Dad... Dad... Dad!

The voice was soft and gentle, like Wu Nong Jiao, soft and soft, causing Li Yun's body to shake, almost showing ugliness without excitement.

The babble that came out of Xiaodie's mouth is completely different from the effect that Nie Xiaoqian said from the mouth of this tall and graceful beauty!

"Calm down! Why dad isn't too loud, it's too vulgar!"

Li Yun took a deep breath and was about to say something when the system prompt came again.

"Ding, trigger the option event, please choose from the host:

Option 1: Continue to let Nie Xiaoqian call his father, reward evil value +88, Nie Xiaoqian favorability degree +7, purple gift bag\*3, medium probability to trigger an event about Nie Xiaoqian.

Option 2: Agree to her daughter's request, let her open her belly to eat, and reward her with aura value of +5000, and the black feather butterfly successfully turned into a three-winged butterfly.

Option 3: Let the Black Feather Butterfly come out and devour it in the Spirit Fire Cave! Reward justice value +1000, experience value +8 million, all attributes +5000, golden gift bag \*2, aura value \*10,000.

Option 4: Customize. "

customize? Li Yun was a little surprised, and there is this choice, which means you can have all of them?

"Choose 1, let Xiaoqian continue to call Ba Ba... the probability will trigger an event about her."

Li Yun took a deep breath, let his tone be as plain as possible, suppressed a certain "Evil Earth evil. Fire" in his heart, and passed in a thought: "Xiao Qian, continue to call me Dad!"

"...?"

"???"

"!!!"

"The son..."

Nie Xiaoqian was startled at first, then he was so ashamed that his face was flushed with shame, her body trembled slightly, and her legs were so soft that she could hardly stand.

Very strange, she is obviously a ghost now, but she also has the same feeling as she did before her death.

As a woman who could sing Peking opera, dance graceful and graceful dances, and stand on the pavilion, hiding her face and looking down, how could Nie Xiaoqian not know what Li Yun's words meant.

Although she hadn't experienced it personally, it was the first time that she called someone a father, but her ears and eyes were impressed, and Nie Xiaoqian—the former Nie Xiaoqian, she also knew these meanings.

As for the current Nie Xiaoqian, although she didn't think of it, she also knew what it meant to call her father to a young man.

"Ahem, anyway, you're right!"

Even if he was as cheeky as Li Yun in front of his confidante, he couldn't help but blush now.

"I, I...oh, son, you are so...bad!"

"Ding, the host makes the first choice."

No father anymore.

Chapter 1570: Yin ghost transforms yang

It seemed that he couldn't stand the system anymore. Before Nie Xiaoqian called Li Yun as his father, he gave the first reward.

"The host gains: evil value +88, Nie Xiaoqian's favorability degree +7, purple gift bag\*3, trigger event: The mystery of Nie Xiaoqian's life experience (1), extra reward: Yin ghost transforming yang method."

Li Yun's mouth twitched, and he was still waiting for Nie Xiaoqian's father-father...cough cough, no, I can't keep thinking about it, otherwise the evil value won't be able to break through the sky!

The favorability level reached 99 at this time. Li Yun seemed to have thought of something. It should be that Nie Xiaoqian had a deep affection for him, but because of her identity as a female ghost, she didn't dare to think too much.

Nie Xiaoqian didn't dare to be sure until she called Li Yun's father by chance, and Li Yun took the opportunity to tease her again.

"The son..."

Nie Xiaoqian's voice was shy and soft and submissive, as if a little wife who was helpless to her husband was forced to do what he wanted, and her tone of voice was so tickling.

"Ahem, Xiaoqian, okay, I just made a joke with you, it doesn't matter if you don't call it."

Suddenly, Nie Xiaoqian felt sorrow and grief in her heart.

But the next moment, she was surprised again.

"By the way, I have a copy of "The Law of Yin Ghosts Transforming Yang". After you practice it, it will be of great benefit to you. It may allow you to control your inner desire to kill!"

Li Yun passed the exercises to her through the system. Because Nie Xiaoqian became the spirit of the Lotus Immortal Mansion, it was also Li Yun's belongings in a sense, so he could pass it directly.

"real?!"

Nie Xiaoqian quickly received the content of the exercises from Li Yun, and the information recorded in it made her tears of surprise.

"Yin and Ghosts Transform Yang" to the extreme, ghosts are no different from ordinary people. Not only can they control their own killing thoughts, they can also have the same body temperature as normal people, and they can eat and sleep, talk in daily life, and even the various functions of the female body. Ordinary people are no different!

Because of this, it is called yin and yang, as if a ghost is reincarnated as a person, which can be called a miracle.

"My son, I, I will definitely cultivate hard!"

Nie Xiaoqian was very excited, but Li Yun was a little annoyed. This time he added another aura, but fortunately, Nie Xiaoqian was in the Lotus Immortal Mansion and was not very anxious.

"Come slowly, don't worry."

"Well, Xiaoqian knows... the son~" The red ghost Nie Xiaoqian's voice became shy again, and she whispered: "The little lady said, say... Dad, Dad, I want to eat... rice."

"puff!"

Li Yun's nosebleeds came out.

Such a beautiful woman calling your father in your ear is simply asking someone to kill him.

"Ahem, it's okay, I'll talk about this later!"

Li Yun hurriedly stopped this conversation to avoid being attacked by crabs and monsters.

"after..."

Nie Xiaoqian's face turned red again.

Through her communication, Li Yun successfully reached a common understanding with Black Feather Butterfly. Soon, a black butterfly elf less than the size of a palm appeared in front of Li Yun.

"Ba...Ba!"

"Shhh!"

Li Yun made a gesture of silence. The small black feather butterfly, only \*\*\*\* the size of a perfectly proportioned figure, quickly covered her mouth, slowing down even the movement of flapping its black wings like a starry sky.

As one of the ten greatest evil insects in ancient times (suspect), even if the Nine-winged Black Feather Butterfly did not learn the ability to communicate with Li Yun like Li Yun, she seemed to be born with similar magical powers, even more advanced.
