

Godly Choice 1591

Chapter 1591: You are the master refiner

"The so-called spirit artifacts are artifacts that carry spirituality. Compared with ordinary artifacts, the artifacts with a trace of spirituality will appear elegant and full of life, as if they are living things!

It is rumored that some ancient spirit instruments can even produce spirit instruments autonomously, and their IQ is no different from that of human beings. They can control themselves and make spirit instruments exert two hundred percent of their power! It's amazing! "

Li Yun chuckled lightly as he listened to the explanation from the spiritual fire master below.

His Lotus Immortal Mansion has no spirituality, but he can appoint a device spirit-Nie Xiaoqian.

From this perspective, the level of the Lotus Immortal Mansion is many times stronger than the so-called spirit weapon.

In addition, equipment without spirituality is not necessarily bad, such as the Golden Dragon Sword, Lingxiao Treading on Clouds, Silvin and so on.

Therefore, Li Yun has reason to doubt whether the craftsman of this era has gone the wrong way?

However, on second thought, the current world Taoism is declining, and the refiners are naturally not having a good time. Maybe they can't refine better magic weapons, so they treat the magic weapons as treasures.

Master Linghuo showed a look of yearning, "Anyone who has learned the way of refining tools will not want to refining a magical tool with real spirituality. After these years of painstaking research, I have searched through all that I can find. The ancient books, combined with my own years of experience in craftsmanship, finally figured out a possible way!"

With his identity as the master craftsman who occupied the volcano's inner fire for craftsmanship, he dared to say that it might work. This is enough to see how difficult it is to craft spiritual weapons!

But Taoist Baihe was quite satisfied, and asked with a gentle expression: "You mean using people to sacrifice swords?"

"good!"

Master Linghuo said sternly: "People are born with three souls and seven souls. Every soul, every soul, has incredible spirituality!"

"I saw from an ancient book that there was once a monk who tortured and killed three million mortals-called the human race in ancient times, and simply extracted the corpses and dogs out of their seven souls, with great mana. Refined into a supreme treasure called the corpse dog swallowing the moon, it is said that it can be used to easily kill the immortal with amazing power!"

"Why don't you use the entire human soul?" Baihe Taoist did not have the appearance of the fairy wind road bones of his own temperament at all. When he mentioned these evil methods of extracting souls, there was no strangeness on his face.

"Of course not!"

The spiritual fire master laughed: "If the human soul is complete, then he is a human, not the spirituality of the spiritual instrument. So I think that even if the human soul can be stuffed into the magical instrument, this magical instrument is only he has become the other party—that is, his body has become a magic weapon, which is a thousand miles away from the real spiritual weapon!"

Taoist Baihe nodded suddenly, unless he could completely control another person's soul, it would be equivalent to changing his body.

The corner of Li Yun's mouth twitched.

How did he feel that the two people underneath were totally two elementary school students discussing?

The Lotus Immortal Mansion has a spirit, her name is Nie Xiaoqian.

But Nie Xiaoqian is Nie Xiaoqian, and the Lotus Immortal Mansion is the Lotus Immortal Mansion. Li Yun can control the Lotus Immortal Mansion, and he can also appoint Nie Xiaoqian as the instrument spirit to take charge of everything in the Immortal Mansion on his behalf. Li Yun can withdraw her authority at any time.

The Lotus Fairy Mansion is like a house, Li Yun has a real estate certificate, and Nie Xiaoqian is a tenant who can live in, but he doesn't really own it!

"Master Linghuo, you dare to boast that you are a master craftsman. I don't understand this common sense!"

Li Yun was secretly proud, but he also knew that in today's world where aura is increasingly scarce, this common sense has long been obliterated in the long river of history, right?

Chapter 1592: escape

under.

Taoist Baihe brightened his eyes, and immediately asked, "Do you have the method to extract the three souls and seven souls of a person alone?"

It is not difficult to extract the soul, but to simply separate the three souls and seven souls of a person, Baihe Taoist can't do it, and no one can do it. This kind of magic is only recorded in ancient books.

Li Yun frowned. It seems that there are a lot of ancient books handed down from the ancient times. In this way, there were immortals in the ancient times. Human beings are not the only intelligent race, otherwise they cannot be called human races.

—Of course, it is also possible that the immortals are human races, but they pride themselves on being superior and disdain to confuse with the original race.

"It seems that I have to find some time to ask about Qing Sage's antiquity. I don't know how many records are still in the Hidden Holy Valley."

As Li Yun thought about it, he saw the spiritual fire master underneath with a wicked smile.

"Hey, although I don't know how to use this kind of spell, I have a special magic weapon in my hand that can ingest the ghost soul of one of the three souls alone!"

"Really?!" Taoist Baihe looked at him in surprise.

"In front of Brother Dao, I naturally dare not lie."

Guru Linghuo's face was slightly embarrassed: "It's just that I still don't know what effect the ghost spirit will have after adding the magic weapon, so..."

It is equivalent to saying that he is going to experiment with the magic weapon of the Baihe Taoist!

"It's okay."

Taoist Baihe waved his hand graciously, "I also know that refining spirit artifacts is difficult, and it's normal if it fails. You only need to make sure that even if you fail, you can give me a superb artifact!"

"Of course, Brother Dao, even if I fail, I will take out all of my wealth and pay you a superb magic weapon!"

The two parties quickly reached an agreement, and the spirit fire master made a few more magic decisions. The fiery red purified material in the furnace slowly changed into three sword tires, one large, two small, and the big one. It's no longer than the arm, and the small one is only the palm of the hand. All three are black and red, and there is a faint fire light in the interior, as if they are three divine swords about to show their edge!

"Om!"

In the dark blue fire, the divine sword quivered, and the sound of its chiming sounded throughout the cave, finally awakening Wei Jingli, who was meditating in the room, and his face instantly turned pale.

"No, the magical artifact is coming out!"

"escape!"

Without the slightest hesitation, Wei Jingli fled after dropping something. The speed was definitely the limit he could reach in his life!

Standing on the top of the broken palace, Li Yun looked up at the floating board passage on the magma. A figure was escaping to the exit at a rapid speed, just like a mourning dog.

"Hehe, let me help you."

Li Yun chuckled, his figure flashed, and he came to the ground, stretched his fingers towards the magma lake, his spiritual thoughts moved, and the blue firelight was ignited from his fingers, instantly burning a hole in the lava formation.

This will still be discovered as soon as possible, but at least it can delay a bit of time.

"Brother Dao."

In the front hall, the spirit fire master who had finished fighting a Fajue said with a smile: "Now is the time to get the sacrifices. By the way, my disciple is included. Maybe the soul in the Qi refining period is more resilient. , There will be a different effect!"

"Oh?" Daoist Baihe smiled, "Then thank you brother Dao Guo, you have paid too much for this magic weapon of mine, and I will compensate you later!"

"No need." Linghuo Guru narrowed his eyes, "I'm just doing research, everyone gets what they need."

Chapter 1593: Toad calls

"it is good!"

Taoist Baihe looked in the direction of the slave house, and said with a smile on his mouth: "I will bring them here, Brother Dao wait a moment."

Master Linghuo nodded, and continued to concentrate on squeezing the sword with his hands, polishing the sword fetus to a perfect state. Only when Taoist Baihe brought those servants and his disciples over, he would draw one of the three souls of these people. Come out and break into the womb of the sword!

Suddenly, there was a movement in his heart, his face changed in shock and he looked in the direction of the exit, blurted out and shouted: "No, brother Dao, wait!"

Taoist Baihe was about to leave the inner temple, and stopped when he heard the words. Before he could ask what was going on, Master Linghuo eagerly shouted again: "My ineffective ***** disciple has escaped. Go chase him! "

"Oh?"

Taoist Baihe was a little surprised, but he was not too surprised. The Master Linghuo was so obvious that Wei Jingli would be too stupid if he didn't run away.

It's a pity that it's too late to leave now, the speed difference between the Qi Refining Period and the Void Returning Realm is completely heaven and earth!

"Don't worry, if you can't escape, I will bring him back immediately!"

Daoist Baihe's eyes flashed with a light, his lips moved slightly, and he chanted a spell. In an instant, a flame emerged from his feet out of thin air and quickly enveloped his whole body.

In the next moment, Daoist Baihe turned into a red light and flashed across the entire magma lake quickly, and the lava formation laid down by the spiritual fire master could not restrict his actions at all.

"Void Return Realm is really strong!"

Standing in front of the palace gate, Li Yun said with emotion again, if there is no accident, Wei Jingli will be brought back within 30 seconds.

If it weren't for Li Yun's accident.

"Crack!!!"

Just when the red figure of the White Crane Taoist was about to disappear in the passage, a thunderous toad scream sounded in the spirit fire cave. This furious and violent voice not only shook the hands of the spirit fire master who was concentrating on refining the weapon, The Taoist Baihe also stopped at the entrance of the passage abruptly.

"what is this!?"

Looking back, Taoist Baihe shot two flames in his eyes, as if he was going to penetrate the obstacles of the numerous palaces and reveal the real situation in the servant's room!

Li Yun's expression was solemn, and the two condensed flame-like lights from Taoist Baihe's eyes gave him a sense of threat. It is conceivable that if Taoist Baihe did his best, he could be two kilometers away. A congenial master was stared to death, and a big tree was burnt to ashes in an instant!

Horror, powerful, and unstoppable, this is Li Yun's greatest feeling about the Return to Void Realm!

"I'm afraid that in my hands, only shooting arrows can bring some threats to the Void Return Realm."

Li Yun once again had an extremely strong desire to strengthen his own strength!

"Crack!!!"

Toad's call sounded again, but compared to the previous violent appearance, this toad call is now a little wary, it seems that it also knows that it is locked by a strong man.

Li Yun guessed that the three-eyed toad thought this way, because he saw the familiar figure of the toad again.

"Boom!"

The three-eyed toad's body covered with huge skeletal makeup sarcoma slammed open the slave room, jumped up to the top of the palace, and stared at the Taoist Baihe at the entrance of the cave with three fierce and fierce eyes.

As an ancient fierce creature, how can it be so easy to subdue? The stronger the Taoist Baihe, the more greedy the three-eyed toad will be-the greed for his powerful and magical powers.

"The forehead is born with three eyes, and the body has a sarcoma. You are the demon weapon in the hands of the old Taoist descendant!"

Chapter 1594: Two monsters

The Taoist Baihe immediately recognized the origin of this thing. The magic weapon that could summon the three-eyed toad was considered a very famous killer, but it was a pity that people gradually realized that this ghost was really hard to control.

Not only does it have to pay a large amount of mana every time it wakes up, but once it can't defeat the enemy, the three-eyed toad turns around and devours its owner, once again turning into a shriveled toad magic weapon, allowing the enemy to take it away.

It can be said that this magical tool has been tossed in the Six Demon Gates and the Hidden Sacred Valley for thousands of years. Almost anyone who pays a little attention to previous history knows this thing!

Recently, it appeared again, but it was exchanged for credit by the Jiangtou Taoist. It killed a few people with great prestige and aroused a lot of discussion.

"Here is the old way down?"

"No, probably not. Last time I got information, he was killed by the saint in Zhonghai City!"

"In other words, there is someone here...?"

Thinking that his trail might be discovered, Taoist Baihe's face instantly became gloomy, and it was as cold as the three-eyed toad provocatively lying on the roof of the palace.

"Om!"

When the two confronted each other, the sword tines in the forge screamed again, and the three-eyed toad was attracted almost instantly. The three fierce and vicious eyes stared down fiercely and exerted force without hesitation. Take a seat.

Boom!

The lava formation was smashed by it abruptly, and the palace broke a big hole again, and the blue fire light soared into the sky, and the sound of the sword fetus sound became more clear and sweet.

"broken!"

Master Linghuo saw this toad descending from the sky and stared at his stove with greedy eyes, knowing that this would definitely be a bad thing!

"There are actually two monsters in my spirit fire cave, I'm going to the uncle!"

Linghuo Guru shot a Fajue to check the fire of the forge, and cursed at the same time. It can be seen that he didn't know the famous artifact of Three-eyed Toad.

"Brother Dao, help me!" Linghuo Master hurriedly shouted, and at the same time, he deployed the formation near the forge to block the prying eyes of the Three-eyed Toad.

Taoist Baihe who was shrouded in the flames hesitated, but did not return immediately.

"Brother Dao!"

Linghuo master hurriedly shouted again: "Don't forget that there is another monster beast here. It seems that the spirit weapon can't be refined. If you come back and help me conquer another monster, I must thank you very much! "

"Haha, brother Dao, you still have a chat about the transaction. It seems that it is fine to block it."

Taoist Baihe laughed, and the fiery red figure didn't hesitate anymore, and disappeared directly into the passage, leaving only a word for Master Linghuo.

"Brother Dao, hold on for a minute, I will bring your disciple back, remember, block it, and wait for me to come back!"

The voice is getting farther and farther, it can be seen that the Taoist Baihe has been far away.

"This bastard!"

Master Linghuo was so angry that he did have a hole card to block the monster, but the hole card is not a last resort, who would be willing to take it out?

"Crack!!"

After the human race that had been watching it disappeared, the three-eyed Toad's cold three eyes showed a pleasant expression, staring at the Spirit Fire Master who was in the defensive formation.

This kind of small formation only needs the magic power of the third eye to penetrate it easily!

"Wow, come out~~!"

Just as the third eye of the three-eyed toad slowly turned and was about to shoot a red light to destroy the formation, it heard the cute, crisp, familiar, and terrifying sharp cry again.

Chapter 1595: Three monsters

"Crack!"

The three-eyed toad trembled with fright and almost turned into an action of lying on the ground with his belly up and pretending to be dead. The three eyes looked at a fiery giant that suddenly appeared not far away in horror.

And, flying in front of the giant, a happy babbling black elf.

If the three-eyed toad can talk, he must have been swearing by now, and I can meet you no matter how you go to such a hot ghost place!

It finally absorbed some mana and human souls, and recovered some strength. It was about to make a big fuss to loosen its muscles and bones, and finally encountered this evil star again!

"Huh~? Baba, it's a frog! Beads!"

The black feather butterfly clearly recognized the three-eyed toad, and flew in front of it with a swagger. The black wings resembled a starry sky fluttered with starlight and successfully shook the three-eyed toad.

"This... why!"

Three-eyed Toad was in grief and indignation, how did this black ghost grow so fast, it was stronger last time, and this time it was stronger, too strong! Take it away, take it away!

How could it be possible, with the concentration of aura in the world today, how could it become so fast!

This ghost thing is still double-winged, it is obviously a new-born evil creature. It stands to reason that it is impossible to grow so fast when it is crazy to absorb spiritual energy...unless...

The three-eyed toad looked at the flame giant who was walking slowly with three eyes in shock. With its magical powers, it was naturally easy to see the person hiding in the flame, the babble in the mouth of the black feather butterfly!

"Bead, give it to me!!"

The Black Feather Butterfly hovered in the air, shouting at Toad with arms akimbo, with an extremely coquettish attitude, so that Master Linghuo was stunned for a moment, almost forgetting that he was surrounded by three now.

"Three...three, three beasts, how could it be..."

After regaining his senses, the Spirit Fire Guru shed cold sweat, with the same thought in his mind as the Three-eyed Toad: Impossible!

"Don't make trouble."

Li Yun drank the black feather butterfly in a low voice. He turned around in the flames to look at the spiritual master, staring at him with a pair of burning eyes: "Human, you have no choice!"

Spirit Fire Master: "..."

There was another drop of cold sweat on his forehead.

When will the monster be able to talk? And there are still two, two monster beasts in total, can talk! !

"Wow, hit!" Seeing that he didn't answer, Black Feather Butterfly yelled, pointed her slender hand, and screamed: "Bead, go hit him!"

bead? Ahem, isn't it a three-eyed toad?

Li Yun almost laughed. It seems that in Xiaodie's mind, the three-eyed toad is equated with the bead, that is, with the food.

"Quah?"

The Three-eyed Toad was puzzled at first, but quickly reacted, and the three eyes immediately turned to the direction of the spiritual fire master, and in an instant burst into red light.

"boom!"

The so-called defensive formation was collapsed at the touch of a touch, and in front of this monster who had lived for an unknown number of years, it did not play a blocking role at all.

Moreover, the three-eyed toad opened his mouth and took a big breath, sucking into his mouth all the aura that was about to dissipate after the formation collapsed, smash it, and swallow it all.

He burped contentedly, and his eyes became more greedy when he looked at Linghuo master.

However, Three-eyed Toad quickly thought that there was a growing evil creature next to her. She needed these auras more, but it had absorbed all the auras...

"Quah?"

Chapter 1596: Hole cards

Three-eyed Toad carefully glanced at the Black Feather Butterfly with a pleased look, only to find that this murderous creature didn't care at all, and didn't seem to want to absorb these auras?

Luxury! This evil thing usually has a better source of aura, otherwise it would never be so calm!

Thinking of this possibility, the three-eyed toad's saliva flowed out.

"good."

Li Yun praised the toad's supernatural powers. It looks ugly, but it is indeed a monster that can know the black feather butterfly, and its strength is not bad.

"Woo!"

Now Black Feather Butterfly is dissatisfied, she is actually compared to an ugly guy?

No, she has to show her hand in front of Ba Ba!

After taking a look at the three-eyed toad lying on the ground, the black feather butterfly's eyes rolled, and soon he had an idea.

Before no one noticed, her wings were retracted, and her small face was flushed and brewed for a while, and then quickly grew back.

"Humph, you!"

The Nine-winged Black Feather Butterfly, who was ready, pointed at the Spirit Fire Guru who was covered with cold sweat on his forehead with his small fingers again, and shouted in a shrill voice: "Quick, fight, come!"

"You, you guys!"

The spiritual fire guru wanted to cry without tears.

He already regrets very much that he has accepted this silly refining spiritual tool commission, and he regrets not forcibly leaving Baihe Taoist!

However, who would have thought that there would be three monsters that were so rare and pitiful!

And these three beasts are obviously very powerful.

A toad, looks fierce and vicious, and the third eye is even more frightening.

A little black monster looks cute, but it can actually eat toads to death. It arrogantly stepped forward to fight, obviously not a normal thing.

Needless to say the last flame, how much did this ***** beast stole him? It must have become incomparably powerful, it is too difficult to resist the attack of the fierce fire!

"This is what you forced me!!!"

The Linghuo master roared, his voice mixed with resentment and unwillingness, it was really sad to hear those who cried.

Li Yun saw his hand pinch Fajue and threw a charm from his body. After it collapsed, it turned into a golden armor covering him, making the originally tall and burly spiritual fire master appear mighty. Full.

"What is this? Space ring? No, it doesn't seem to be, just store the armor in the spell, a spell can only seal and compress one piece of equipment!"

As Li Yun thought, Master Linghuo made several magic decisions one after another, conjured a spell of dark blue flame, suspended in the air, spreading out a fierce flame to defend the enchantment, and took out a fist-sized silver iron block. After hitting the ground fiercely, hundreds of silver brilliance burst out instantly.

Upon closer inspection, one can't help but take a breath. The silver brilliance that flies back and forth are all flying swords, exuding a deep chill!

The three of Li Yun, or one person and two evil worms, were a bit shocked by this scene, and they didn't speak for a while.

"Haha, how?"

Under the protection of the Vulcan Formation, wearing the extremely defensive Tungsten Jin Baokai, and the great murder weapon of the Years Son and Mother Sword, the Spirit Fire Master finally settled down and sneered at Li Yun:

"The old man has been in this volcanic refining device for many years, how can he not have a few good equipment? Damn beast, whether you understand it or not, you are dead this time! No, death is too cheap for you, the old man vowed to Grab it and let you beast as an old man refiner!"

Chapter 1597: Penetrate everything

The corner of Li Yun's mouth twitched, and as expected, he couldn't look down on any cultivator, especially a master refiner.

This product has lived here for so many years, relying on the refining of other people, I don't know how many good things have been accumulated, I am afraid that these few are all the best magic weapons, otherwise they will not become his life-saving items at the bottom of the box!

A Void Returning Realm needs decades of effort to collect materials for a superb artifact, but as a master craftsman, the spirit fire veteran occupies a huge amount of resources that even the Void Returning Realm is jealous, and it only saves his life. There are several top-grade artifacts, and the weapon racks in the inner hall are probably all middle-grade and top-grade artifacts!

"It's all good things, I want them all!"

There was a hot flash in Li Yun's eyes. Although those magical artifacts could not be compared with the rewards of the system, they were a great choice to give as gifts.

"Human!" Li Yun said in a low voice: "What are your weapons, what are you called? Give me, I will spare you!"

"Want? Jie Jie Jie!"

Master Linghuo let out a weird laugh, "As long as you surrender to the old man, you can use these as you please! Do you know? My age-old master sword, composed of three hundred and sixty-five flying swords, is powerful among the best magical weapons. It is also a top-notch existence. With the strength of the old man's refining the gods to Consummation, he can only use it once, but this is enough!"

In order to prove his strength, he flicked his finger and caused the 365 silver small swords surrounding him to tremble together, and the sound of flying swords were connected together, and the momentum was extremely shocking!

Li Yun raised his eyebrows, "Old things, give me things first!"

"Animal, where did you learn this!" The Spirit Fire Master was shocked and angry. He almost vomited three liters of blood when he heard the old man's curse from the mouth of a monster beast!

"Your disciple."

"...Stubborn beast, accept it!"

With an angry expression on the face of the spiritual fire master, he snorted sharply, and his right hand was compared with a sword finger, and he stabbed at Li Yun volleyed in the flames. Three hundred and sixty-five year-old master swords responded to his control. The sharp points pointed to all parts of Li Yun's body.

At this moment, Black Feather Butterfly screamed: "Bad guy, protect Ba Ba!!!"

A third eye suddenly appeared on her small and clean forehead, like a three-eyed toad, and it ignited a weird red light. It was tiny and much smaller than the three-eyed toad just now.

But this small red light made the three-eyed toad arouse its spirits, and the third eye was quietly closed, holding his breath, and the atmosphere did not dare to take a breath!

Whoosh!

Like a comet hitting the moon, the red light from the eyes on the black feather butterfly's forehead swept across, piercing through the faintly blue earth evil Vulcan formation, causing it to collapse instantly, hitting a few silver swords, and the sword was immediately overwhelmed. Make a few small holes.

"what!?"

The Spirit Fire Master was shocked. In front of this red light emitted by the little girl, his Fire God array turned into a little flame and dissipated. The Sword of the Years and Son instantly lost control, and the momentum of the weird red light unexpectedly returned. It is not stopped, it is to...

"not good!"

Linghuo Guru no longer cared about majesty, and a lazy donkey rolled on the ground, but the red light still hit his waist and abdomen, quietly piercing the tungsten Jin Baokai on his body.

The knife cut the tofu on both sides, and in front of the black feather butterfly's three-eyed magical power, everything seemed to be non-existent, being passed through silently.

"..."

The air seemed to freeze, and the three-eyed toad shivered. This vicious creature used its magical powers to be a hundred times more powerful than it. It is indeed a big evil thing that shocked the ancients. Compared to her, the three-eyed toad is also a small one. Be good.

Chapter 1598: Stronger magical powers

Li Yun took a deep breath, glanced at the red light that passed through the palace and disappeared into the distance, then looked at the shaky, pale black feather butterfly, and couldn't help catching her with a wry smile.

"Fluttershy, don't be so desperate next time!"

It can be seen that this kind of supernatural power is strong, but it consumes a lot of spiritual power, at most once it is used, and the black feather butterfly will wilt.

"Hehe, Baba, isn't it amazing?" Black Feather Butterfly asked in a proud tone, sitting on Li Yun's palm.

"Of course, great!"

"Better than beads?"

"More powerful than beads!"

Li Yun took out an intermediate recovery pill and stuffed it on her, letting Black Feather Butterfly hold the pill that was bigger than her head and eat it.

Black Feather Butterfly opened her small mouth happily, with a click, and directly bit out a big bite on the Intermediate Recovery Pill. The rich aura smell instantly emanated, making the three-eyed Toad both envious and shocked to open her mouth.

"This fierce thing... No, the big sister used to have such delicious things to eat, so it's no wonder that I don't like these unpalatable foods!"

The eyeballs of the three-eyed toad turned, and the third eye opened quietly, his hind limbs kicked back, and he flew in front of the spiritual master who had fallen to the ground, and opened his mouth to suck.

"Oh my God!"

The spiritual fire master was so scared that he was so frightened that he almost vomited. There were sharp teeth in the mouth of this dead toad, and his blood-red tongue was thick and sticky. A sour and corrosive odor came out, making him almost vomit it!

Fortunately, the Three-eyed Toad didn't want to eat him, but opened his mouth and sucked, sucking all the broken ground flames into his mouth, and swallowing it in one bite!

"..."

Li Yun held his forehead, how could these monster beasts only eat one by one? Eat beads, eat formations, eat aura, eat the ground, and so on.

As long as it contains spiritual energy, the black feather butterfly and the three-eyed toad are always willing to come, and they will receive all of them. Of course, the black feather butterfly now has his breeding, and generally only eats pill and Xianfu Lingzhi, the others are not very attractive.

"Weapon, I want it!"

Now is not the time to think about other things. At least one minute has passed since the Daoist Baihe flew out. It is conservatively estimated that there will be less than half a minute. This master in the late stage of Void Return Realm will fly back, and then it will be in trouble!

Li Yun stretched out his hand and pointed at the forge, and said again: "Make a weapon and spare you, otherwise, die! For 30 breaths, if the weapon is not released, you will die too!"

Although it was awkward to speak this way, everyone could understand it. Master Linghuo nodded quickly and pinched Fajue again to quickly form the sword tire in the furnace.

Now it doesn't matter whether the magic weapon is not the best, the best is not the best, first refine the magic weapon to save your life!

"Why isn't that ***** coming back!"

While refining the magic weapon, Master Linghuo cursed in his heart. After seeing Li Yun take away his age-old son and mother sword, he added one more, and even cursed him together!

"Toad, look at him."

Li Yun took away the son-and-mother sword that had returned to the appearance of a silver iron block, and gave the three-eyed toad a command, then turned and walked towards the inner hall.

"What do you want!?"

The spirit fire master was shocked, the son-mother sword was destroyed by the red light, and now it is at most high-grade magical artifacts, but in the inner hall, he still stores many refined magical artifacts, each of which is middle-grade. Above, countless good things are stored in the box.

Minerals, gold essences, spiritual plants, elixirs and more!

These are the rewards paid by the people who came to him for refining, and the entire family property is placed in the inner temple!

Chapter 1599: Excalibur is released

"Talk more, refine your tools!"

Li Yun kept walking and quickly entered the inner hall. Master Linghuo was so anxious that he wanted to catch up and stop him, but the Three-eyed Toad stared at him unkindly, and stretched out thick and long when there was a big disagreement. His blood-red tongue curled him up and swallowed it!

"You..." Beast! Beast!

The spirit fire master gritted his teeth with hatred, wanted to swear, and knew that he couldn't beat these three strange monsters, so he could only continue to refine the weapons-these monsters could

not be reasonable at all, and it would be overestimated in 30 seconds. To kill, he had to hold on until the **** of Taoist Baihe came back before he could be saved!

"boom!"

There was a loud noise in the inner hall, and the spirit fire guru dripped blood in his heart. This was the sound of the protective array he arranged around the magical artifact shelf being blown up forcibly, and the two beasts had already begun to take him away. Magical artifacts, or simply swallow them!

"Ping pong!"

"Ah, Ba Ba, so many delicious things!"

"No eating."

"Yeah, it's no better than what Ba Ba gives to Fluttershy~"

The spirit fire master dared to be angry but didn't dare to speak, and the blue veins on his forehead violently, he could not kill these three monsters with a single blow!

Unfortunately, the three-eyed toad's increasingly large body was crawling on his feet, his mouth was open, his saliva rushed, two eyes were staring at him, one eye was staring at the inner hall, and the aura from inside made The murderous creature was drooling.

"Damn it! I must..."

"boom!"

Just when the spirit fire master swears to cramp and peel the three monsters, the sword tines in the forging furnace are finally completed, a blue flame soars into the sky, bursting through the furnace cover, and three flying swords, one large, two small, are drilled out. , Rushing straight into the sky at a fast speed, making a very clever chirping sound, hovering in the sky back and forth.

Flames accompany them, and the magma in the spirit fire cave is surging and boiling, as if celebrating the birth of the peerless sword.

"Sansha Fire God Sword, finally finished!"

Looking up at the sky, Master Linghuo's heart was shocked, and he could hardly believe his eyes.

This is definitely a weapon of the best magic weapon level. He hasn't played the last magic weapon to complete it completely, but this sword has already taken the initiative to fly out, and he can't wait to show his edge!

"Such spirituality, can it be said that... it is a spiritual weapon!?"

The spirit weapon has spirit, and the forging furnace in front of the spirit fire master is a normal furnace, naturally it cannot be sealed. This spirit weapon does not want to be bound by mediocre people, and even if it is not completed, it jumps directly. go out!

Unless someone can surrender it with powerful mana, otherwise this three evil fire **** sword will never easily fall down again!

"Yes, it's definitely a spiritual tool, definitely a spiritual tool, my Spirit Fire Master has finally refined a spiritual tool!"

The spirit fire master standing in front of the forge was trembling with excitement. Unexpectedly, under the gaze of the three monsters, he hadn't added sacrifices for the sword, unexpectedly refined a spiritual weapon!

This seems a bit abnormal, but the Spirit Fire Master didn't think too much, staring at the spirit sword flying happily in the sky, and roared: "Hurry up, everyone is fine, take this sword down immediately, I The last process is to be done! Complete it completely!"

For this sword, Master Linghuo gave it up!

"it is good!"

"I come!"

Two voices sounded at the same time, making the faces of everyone present changed!

Chapter 1600: It's a monster

Li Yun squinted his eyes and looked up. From the cracks on the top of the broken palace, he could see that a man with a fairy style and bones was walking down the void step by step. He was holding a person in his hand. It was Wei Jingli who had fled frantically before!

And, the powerhouse in the late stage of Void Return Realm, Baihe Taoist!

"Brother Dao, your refining skills are indeed the best in the world!"

Ignoring the three monsters present, Taoist Baihe walked down in the air with a smile on his face. He looked at the three flying swords and said with a smile: "This sword fits my liking. It's not in vain that I spent fifty years collecting materials. Before the arrival of the wave of times, I got my own handy weapon, hahaha!"

As calm as him, he couldn't help laughing when he saw the spiritual appearance of the three evil spirit swords of one big and two small ones.

"Boom!!"

A thick purple thunder as big as a head appeared out of thin air, and fell fiercely against Taoist Baihe's head. The dazzling purple light instantly illuminated the entire underground cavern, forcibly suppressing the fiery red light stirred by the Sansha Fire God Sword!

"I'm dying!"

Wei Jingli, who was held by the Baihe Taoist in his hand, was so scared that his face was as earthy as he was horrified by the thunder, and his heart was terrified.

"Small bugs."

The smile on Taoist Baihe's face did not change. He stretched out his right palm and pressed it towards the sky, and the purple thunder was greeted by the fiery red hand in an instant.

"boom!"

The two collided, the thunder collapsed, turned into thousands of lightning and spread out, hitting the magma ground with a screaming sound.

"Um?"

The destructive thunder power came from the right hand, the amazing destructive power made Baihe Taoist's expression instantly dignified, the strong mana in his body burst out, the fire light appeared, and all the lightning power was forced out!

"What kind of spell is this?"

Taoist Baihe looked down with a sharp gaze. Among the three monsters, the one who was most likely to emit this thunder was the flame giant who had been making waves!

But this is impossible. How can a monster born from flames be able to use Thunder spells! ?

"Sure enough, it's not a monster!!" Daoist Baihe's face was gloomy, "Who would dare to pretend to be a ghost in front of me, and not show up quickly!"

"Bad guys, let's die!"

Accompanied by the small screams, the strange red light shot out again, and the alarm bells in Baihe Taoist's heart instantly became louder.

Spiritual sense told him that if this red light touches him, he will die, and there is absolutely no second possibility!

Moreover, nothing can stop it, unless you step back a kilometer and use countless defensive formations to forcibly consume its power!

"Flame flash!"

Taoist Baihe did not hesitate to cast his fastest spell, dodge a hundred meters away abruptly, avoiding the frontal attack of this weird red light!

"What kind of monster is this!?" Daoist Baihe got cold on his back, and he realized that the spiritual sense he used to detect the red light had swallowed a half, and he had only discovered it now!

If it weren't for spiritual sense to have a stronger early warning ability than divine mind, he might be able to realize that his spiritual sense had been swallowed the moment he was hit by the red light!

"Monster, it really is a monster!"

The eyes of the Baihe Taoist became fierce. The ancient records are correct. Monsters have all kinds of incredible magical powers. Even the weakest monsters may force them to leapfrog and kill humans!

"Golden Light Town evil talisman!"

Without hesitation, the Taoist Baihe immediately sacrificed his proud charm, and the bright golden light instantly enveloped the audience.
