

Godly Choice 1601

Chapter 1601: Competition

The Golden Light Suppressing Evil Talisman can kill all ghosts and charms. Once this golden spell is displayed, it immediately suppresses the audience. The strange aura disappears cleanly, and the toads and black butterfly monsters are suppressed and their bodies stagnate.

But the flame giant was just as if nothing had happened, his body was still burning with a trace of blue flame in the crimson, and there was no sign of weakening!

"You really are not a monster!"

Taoist White Crane hovered in the air, indifferently glanced at the people below, and saw that the flame giant raised his right hand.

"What spell will he use? First is flame, then thunder, this sneaky person doesn't seem to want me to know his identity, he... is not from Six Doors!"

Taoist Baihe quickly determined the identity of the other party, but when he was ready to deal with it, he heard a sword sound.

Whoosh!

The three evil fire **** sword flying back and forth in the air made a trembling sound, and flew down with a swish, the direction was the right hand of the flame giant!

"Want to grab my magic weapon? What a courage!"

The Taoist Baihe's eyes burst out with a crimson light, which abruptly blocked the falling trend of the three evil fire **** sword. At the same time, he also raised his right hand and used his spiritual sense to use his own fire control technique in an attempt to control the three evil fire **** sword. The flames on it made it forcibly turn its head and fly into his hands!

The magic weapon that has not yet recognized the master can only rely on instinct to act, and manipulate the flame attached to it, allowing it to follow involuntarily.

"Come here!"

Taoist Baihe screamed, strengthened his control, and confronted the flame giant below!

"Zhengzheng!"

One big and two small, three divine swords abruptly stopped in the air, being pulled by the two to make constant clank noises, and the audience was dumbfounded.

Wei Jingli was thrown down by the Baihe Taoist. At this moment, he stood in front of the palace, watching the contest between the two powerhouses with fear, hoping that the flame monster would win!

Compared with Taoist Baihe, he actually hoped that the monster could obtain the God of Fire Sword. It can be seen that when Taoist Baihe went to catch him just now, he left an extremely deep psychological shadow!

"Zheng!"

The divine sword cried, slowly fell, and flew towards the flame giant's right hand.

"what!?"

"impossible!"

"This monster...!"

The people who saw this scene were all shocked, and the strong man in the Void Return Realm was about to lose!

"Okay, great! Hit it, hit it, it's better to fight to the death, I'll take the opportunity to escape!"

Seeing the three divine swords slowly falling downwards, Wei Jingli was delighted. He knew that Taoist Baihe was in the Void Return Realm. If he fights hard, the monster is probably incomparable, otherwise he would not play some conspiracy and tricks. Let him distract Taoist Baihe's attention.

If Daoist Baihe gets the Three Evil Fire God Sword, he will be crushed by the monster, and his chances of escaping will be greatly reduced!

Because of this, Wei Jingli was naturally ecstatic when he saw that the flame monster still had the upper hand in the battle between the two of them to control fire and spirituality!

"Who is he!!"

Daoist Baihe's complexion changed again and again, his spiritual consciousness was actually inferior to the opponent, and the pulling force from below was amazing, and the three evil fire **** sword fell bit by bit, which could not stop it at all!

There are only two possibilities. First, the person underneath disguised as a monster is very powerful, at least in the middle of the Void Return Realm, and has also practiced the fire control technique. It does not need to be much weaker than the Baihe Daoist; second, it is a monster and only has the strength to refine the gods. , But as a medicine born from flames, he is born with incomparably powerful fire-controlling skills to conquer the Void Return by refining the God Realm!

Chapter 1602: A series of operations

At least in terms of controlling fire, monsters are stronger than Taoist Baihe!

"This thing is really a monster!?"

Taoist Baihe doubted his previous judgment again.

If it is a human being, why did the other party conspiracy to let Wei Jingli escape?

"No matter who you are, you will die if you dare to fight against my Nanhua Shangxian!"

Daoist Baihe flashed a sharp light in his eyes, remotely controlled the Sansha Fire God Sword in one hand, and took out a spell from his pocket in the other. When it was about to unfold, a powerful golden light suddenly burst out from below.

"Roar!!!"

The golden sword aura rose to the sky, and a majestic five-clawed golden dragon carried the sword light in the sky, scouring everything along the way.

Taoist Baihe was forced to release his control, waved his palm, and slapped the sword-qi golden dragon abruptly!

However, Li Yun below took the opportunity to take away the Sansha Fire God Sword. The next moment, he used the Lotus Immortal Mansion to put the black feather butterfly and the three-eyed toad in, pressing his palm down, on the ground invisible to everyone. Next, a black armored car appeared out of thin air and crashed into the magma lake. Li Yun turned around and rushed into the inner hall.

A series of operations made Baihe Taoist be dazzled, and countless thoughts flashed in his mind.

How can you instantly subdue the Three Evil Fire God Sword?

Why did the two toad demon and butterfly demon suddenly disappear?

What is the thing that suddenly appeared under the ground? One of the monster's abilities? The storage bag and Nasumi mustard seeds have not heard that there is such a large space!

"What the **** is this brute?!"

Weird, monster, Daoist Baihe was frightened and angry, but he was a little hairy in his heart, and was frightened by these three weird monsters.

Whether it's the red light piercing through all the butterfly monsters, or the all sorts of weird abilities of the flame monsters, this makes this powerhouse in the late Void Return Realm scared.

"Your whole family are beasts!"

Li Yun sneered in his heart and rushed to the palace. The spiritual master had already fled, leaving only a three-legged forge. The earth flames in the furnace were almost invisible, only a dark blue the size of a soy bean. , Which shows that there is still a pitiful trace of fire.

"Master Linghuo escaped? Exactly!"

A cloud of blue fire burst out from Li Yun, rushing to the stove like a real monster, burning all the messy things such as the formation and the imprisonment that fixed it, lest these imprisonment spells resist the intake of the Lotus Immortal Mansion.

"Beast, return my Fire God Sword!"

The Taoist Baihe flew into a rage, he only saw the three evil fire **** sword rushing into the monster and disappeared, and the aura disappeared completely, as if it was put in a storage bag or swallowed by the monster!

But no matter what kind, it is an ending that Baihe Taoist cannot accept!

"die!!!"

Taoist White Crane waved his palm to blast a mana, and the huge flame palm rumblingly pressed down, instantly crushing the roof of the spiritual fire master's palace and hitting a cloud of white light.

"Enchantment!?"

Taoist Baihe almost collapsed, how much ability does this monster have! ?

Fire control, thunder and lightning, golden dragon sword aura, and now there is still an enchantment that can be unfolded, is there anything in the world that this monster can't! ?

"Large enchantment talisman!"

A smile appeared at the corner of Li Yun's mouth. Fortunately, the system had rewarded three defensive spells before, and now they just used them, otherwise he would not dare to arrogantly stand in front of the Void Returning Realm for so long.

"Goodbye, brother Dao!"

Wen Yanjing learned a word among these practitioners, Li Yun grinned at the Taoist Baihe above, waved his hand, and put away the forge.

Then, disappeared.

Chapter 1603: escape

At the entrance of the upper passage, the spiritual fire master couldn't cry anymore.

The palace was destroyed, the spirit weapon was taken away, and all his wealth was robbed. What's more hateful was that this monster didn't even let go of his stove! !

"Beast, beast!!"

The spirit fire master slammed his chest, and didn't know whether this beast was calling him a monster or his beast behavior!

Daoist Baihe's eyes seemed to burn, his teeth rattled, and he was a powerful man in the late stage of the Void Return Realm, one of the world's countless immortals, who had been running around for decades for a handy magic weapon, and finally had hope. At that time, someone stole the magic weapon that had already been refined!

"impossible!!"

"You can never escape!"

"Spell that can't teleport! It's absolutely impossible!"

The Taoist White Crane gritted his teeth and stared at the lava lake below: "I want to overturn this volcano forcibly and see where your monster can hide!!!"

"Brother Dao and I are looking for the beast together!"

Master Linghuo was equally angry. The monsters robbed those high-grade artifacts and materials. It's a big deal. It will take decades to slowly hoard them. Anyway, as a master craftsman, people come to him every year for craftsmanship. There is a lot of oil and water. amazing.

But the premise of all this is that the fiendish fire is still in his hands!

Without the suffocation, why did he refine such a good magic weapon? Dreaming?

Therefore, Earth Shahuo must find it back, and do whatever it takes!

"Damn beast, don't let me see you again, otherwise I will cramp and peel my bones and burn my bones and ash!"

Master Linghuo jumped and yelled, and Taoist Baihe felt more upset as he listened. He couldn't help but shouted anxiously: "Don't make a noise, shut up!" His heart was extremely hot, if it weren't for this ***** to refine the tool, he would Was the magic weapon stolen?

There are three monsters lurking in this ***** spiritual fire cave!

"Uh."

The spirit fire master closed his mouth in a serene manner, and Taoist Baihe said with a cold face: "Now the important thing is to block this place and let the beast..."

Suddenly, with a movement of spiritual consciousness, Taoist Baihe suddenly felt a crisis.

In the next moment, his figure has turned into a flame, flying wildly towards the entrance of the passage.

"Dao...brother?"

Master Linghuo was full of suspicion, what's wrong with this? Could it be that the animal was found?

"boom!"

There was a low rumbling sound from below, and the Spirit Fire Master was taken aback. After reacting, he flees likewise, with a frightened expression on his face.

"Boom!!!"

The second vibration sounded, and the entire Halaha volcano shook with a rumbling sound. The speed of the escape of the spiritual fire master and the Baihe Taoist was accelerated a bit, and various spells that increased speed and reduced weight were madly thrown. Let yourself become fast.

"Rumble!!!"

The Haraha volcano exploded.

...

"stop!"

Shi Liangcai stood on the side of the road, and together with his girlfriend Tana stopped an off-road vehicle that wanted to drive to the volcanoes.

He and Tana now have a new identity: a reserve member of the Temporary Coordinating Team of the Cloud God Research Institute.

The so-called coordinating team is actually a security guard, because the research institute just has a shell and even the department has not been established, so it can only be called a temporary coordinating team, and it will become regular in the future.

The source of the identity was personally invited by Xia Ming. After a little thought, Shi Liangcai agreed happily.

He knew that he had seen extraordinary things, entered Li Yun's fairy mansion, and saw countless magical things.

Therefore, in order to keep secrets, he and Tana had better work under the state department and could not leave until the day of decryption.

Chapter 1604: Arrogant self-driving tour (part 1)

Assisting the soldiers to block the road is their first mission.

"Hey, what the **** is going on with you?"

The window of the off-road vehicle was rolled down, and a man's head was drilled out. He looked at Shi Liangcai displeasedly: "Do you still want to block the road and rob?"

There was a commotion in the off-road vehicle. A stylishly dressed woman sitting in the front passenger showed a dagger and scolded Shi Liangcai: "Are you a herder near here? Do you know who we are?!"

Shi Liangcai glanced silently at Tana, who had changed back to a national costume, and said coldly to her, "No matter who you are, you only need to know that the road ahead is closed and traffic is forbidden!"

He pointed his finger at the barbed anti-collision barrier placed on the side of the road. "Did you see it? This is a professional thing. This is an order from a higher-level leader. You'd better follow it!"

Because of the lack of manpower, he and Tana were the only ones on duty by the roadside, and the rest of the soldiers were scattered everywhere to prevent accidental intrusion by herdsmen.

"Haha!" The driver man yin and yang weirdly yelled, "Now that the people who block the road and robbery are so professional, they have got this stuff to get in the way!"

Shi Liangcai frowned, but still stopped the enraged Tana.

"Do you know the origin of our car?"

The woman playing with the dagger had a playful smile on her face, "I'm afraid that you herdsmen won't understand, so I will say in a simpler way, we are the second generation of the rich and powerful. Do you know what identity this is?"

Haha, we came to Mount Adu for the excitement of traveling by car. This off-road vehicle has been specially modified. Not to mention a barbed roadblock, even if you dig a deep trench on the road, we can fly over it forcibly! "

"Haha, Tao Hong, what are you doing with this stupid villager? Just hit it!"

"Yes! With Shao Zhang here, what does it mean to kill a few people? This is not the capital!"

Shi Liangcai's face changed slightly. It seems that these people are indeed the second generation of the rich and powerful. They have always acted arrogantly and aggressively. The more they obstruct, the more energetic they are!

"Don't mess around!" Shi Liangcai said solemnly: "The front is listed as a military jurisdiction. There are thousands of heavily armed soldiers who are investigating. If you want to forcibly break in, you will kill them all!"

"What about killing?" The woman giggled.

"Return to the military jurisdiction...this villager, hahaha, it's dysfunctional, it's laughing at me!"

"If he knows that Shao Zhang's house is... the jurisdiction in the jurisdiction, hehe, he shouldn't be so scared!"

Everyone in the off-road vehicle burst into laughter. A man in his early twenties sitting in the back row, with neatly combed hair, brand-name clothing, and wearing a gold Casio watch, Zhang Shao showed a playful smile, and told the man driving in front of him. : "Ma Hao, bump into it!"

"Yes! Shao Zhang!"

The driver Ma Hao roared in excitement, and slammed on the accelerator under his feet. The professionally modified off-road vehicle suddenly let out a huge roar, and rumbling against the barbed roadblock.

"Boom! Boom!"

The roadblock was as fragile as nothing in front of the thick tires of the off-road vehicle, and was easily knocked into the air. Shi Liangcai and Tana hurriedly hid to the side of the road, causing a group of young men and women in the off-road vehicle to laugh.

"Fool than a villager, go eat shit!"

"You have to be thankful that Shao Zhang didn't carry a gun, otherwise he would die with one shot..."

"Da da da!"

Just as the off-road vehicle was about to go away, a burst of bullets fired by a submachine gun sounded, everyone in the vehicle was startled, and the driver Ma Hao was shocked to see that there was an extra row of bullet holes on the road ahead!

Chapter 1605: Arrogant self-driving tour (part 2)

"Da da da!"

Another bullet came and hit the hood of the off-road vehicle with a ping-pong-ping-pong-ping-pong sound.

"what!!!"

Everyone in the car was frightened and screamed loudly. The fashionable woman holding a dagger got under the seat of the car and shivered in fear. The arrogant and arrogant Zhang Shao before, now his legs are shaking, shaking at a loss.

"Boom boom boom!"

There was a huge roar of the helicopter. Shi Liangcai looked up and saw that several soldiers on the helicopter were aiming at the off-road vehicle with a submachine gun. One of them picked up the loudspeaker and ordered:

"The people in the car listened, walked out immediately, knelt down with their heads in their hands, and if they disobey, kill them!"

Regardless of the killing, it is the same as the killing!

Shao Zhang is about to cry. The front is really a military jurisdiction, and it is still a very important military area. Otherwise, it would be impossible to issue a Dag killing order.

"Okay, okay, let's come out, don't shoot, don't shoot!"

A few people opened the car door tremblingly, holding their hands behind their heads, and knelt on the ground humiliatingly under the instructions of the black hole in the air.

The two fighters jumped down, and the more Zhang Shao thought about it, the more unwilling he was. He raised his head and said to them, "My father is Shao..."

boom!

He didn't finish a word, a **** fist hit his handsome face, and the hit made Shao Zhang fall on his back. The blood in his mouth and nose was so painful that the young master was about to cry. .

"It doesn't matter who your father is!"

Another soldier bluntly made up for another kick, and kicked Zhang Shao screaming and rolling, "Anyone who breaks into a military powerhouse will be escorted to a military court! Anyone who attempts to carry out any act of shielding will be reported to General Xia. handle!"

General Xia?

The driver Ma Haosi knelt on the ground tremblingly, and a person flashed in his mind.

Xia Ming!

Huang Xuanguo's deputy leader of the Supreme Soldier Management Committee, the rank of marshal, is in charge of the three armies!

"This place was actually blocked by General Xia himself!"

Zhang Shaohan was raining like the rain, ignoring the pain of his whole body, he quickly got up and knelt on the ground honestly, and said with a flattering smile: "Two eldest brothers, I really don't know about this, I damn, I damn, please don't tell. General Xia! I was wrong, I was really wrong!"

"Huh, now you know you regret it?"

The two fighters didn't want to make a big deal either. It wasn't troublesome, but they still had a lot of things to do, and they didn't bother to manage so much.

"Remember, something big is about to happen ahead!" a soldier warned with a gun: "I stopped you for your good, lest you die unclearly!"

Several young masters nodded quickly, but they didn't agree with them in their hearts.

What major event will kill people? They are not scared!

suddenly.

"boom!"

There was a dull thunderous sound from the volcano in the distance, like a muffled noise coming from the ground, scaring a few people's legs.

"what happened?!"

Zhang Shao looked into the distance in shock, "Could it be an earthquake?!"

"No, go!"

A soldier's expression changed, and he shouted at them: "Run, the volcano is about to erupt!"

volcanic eruptions? !

A few rich second-generations who came for excitement on a self-driving tour suddenly realized that it was no wonder that the front blockade was a volcanic eruption.

But there are still some unreasonable reasons. The volcano erupts. Why should the front be blocked as a military management area?

This doesn't make sense!

"Hi! What did I say!"

The driver Ma Hao patted his ***** disapprovingly and stood up.

Chapter 1606: Volcano explosion

He drew out a cigarette and handed it to the two soldiers, and said with a smile: "Two brothers, how many of us are offended, don't be surprised, you can have a meal together when you have time, Ma Hao treats me!

The soldier who was handed the cigarette by him suddenly pulled his face down: "Do you think I'm kidding? Professor Wen said that the explosives will explode three times. The first two are the reaction time specially left for us. You ***** don't want to die, just get out!"

Ma Hao's faces became a little unhappy, and they were about to say something when the second explosion came again.

Rumble!

The dull sound became more and more astonishing, everyone felt that the ground was trembling, and the hairs were erected one by one, as if a huge monster under the ground was about to rush out of the ground!

"escape!"

No one dares to talk nonsense anymore, this sound is obviously not the sound of a volcanic eruption, but an unknown horrible vibration!

Several people fled frantically. One soldier thought of something and hurriedly shouted: "It's too late, get down!"

Everyone was right to think about it, and now it is impossible to escape too far, if it really explodes three times!

"What the **** is going on!?"

Zhang Shao lay down on the ground, his brand-name clothes covered in dust, and the humiliation in his heart made him swear, turning his head to look at the distant volcano.

The helicopter had landed and was afraid to fly in the sky anymore. Everyone was crawling on the ground, waiting for the third explosion.

Time seemed to freeze, Shi Liangcai was in a daze and even heard the ticking sound of the hour hand moving, one second, one second, another second.

"boom!!!"

A volcano suddenly exploded, like a stop-motion animation in an ancient old movie. The volcano stood on the ground in the first second, and exploded in the next second, and was affected by a powerful force coming from the ground. destroy.

The thunder roared, the air waves rolled, and the sky full of rubble accompanied by the flaming lava went straight to a height of 1,000 meters, and then fell one after another, turning into a rain of fire, covering a radius of five kilometers!

The magma pattered down, and the entire land was turned into a hot flame zone!

"Don't be in a daze, come with us!"

Shi Liangcai's consciousness was shocked, his eardrums hummed, and several soldiers around him stood up and came under the helicopter, leaning on the huge fuselage to block the falling magma rain.

The young masters and young ladies were even more unbearable. Zhang Shao's face was pale, as if his parents were dead at home, unable to walk, a soldier grabbed his collar and dragged him away abruptly!

Everyone came to the helicopter, and when they were all stuffed inside, the scorching aftermath of the explosion roared, and everyone instantly felt as if they had fallen into the steel furnace, hot and sweaty.

"Look there!!!"

Ma Hao suddenly yelled in shock, pointing his finger to the place where the volcano exploded in shock, his face became terrified, "Well, it seems that someone is in the sky..."

"what!?"

"impossible!"

Everyone turned their heads to look around, but they fell silent one by one.

At the center of the explosion, above the volcanic sky that suddenly exploded to shreds, there were clearly two fiery red figures standing proudly, like two invincible gods, the rain of fire and magma in the sky was just a foil in front of them.

Powerful, terrifying, and mighty as hell!

It is difficult to use words to describe the feelings of everyone seeing these two red figures standing above the sky. The shock in the hearts of those who saw this scene can no longer be expressed.

"It turns out that Mr. Li Yun is fighting this kind of monster."

Shi Liangcai was in a daze, and he became more and more in awe of Li Yun.

Chapter 1607: Another magma lake

"Thirty seconds have passed, Brother Yun!"

In the Lotus Immortal Mansion, Hu Xiaomeng pinched to tell the time, and looked at him with a worried expression.

"Well, I will go out first, and you will stay here first."

Li Yun relied on the Lotus Immortal Mansion to avoid the explosion. According to Professor Wen, CL18 explosives were detonated three times, and the third time was powerful enough to overthrow the Haraha Volcano. Now if he goes out, he should have escaped the most powerful one. If the explosion was just volcanic magma, it would be a hot spring for Li Yun now.

"Be careful!"

Zhao Tianfeng looked at him, Ruifeng also glanced at Hu Xiaomeng clearly in his eyes, with a deep sense of concern.

"Master, be careful." Nie Xiaoqian also said softly.

"Don't worry!"

Li Yun smiled, "I have cannon fodder in front of me, right? Little toad?"

Since the three-eyed toad entered the Lotus Immortal Mansion, it has been in the state of Liu Harazi, three eyes can hardly come through, four legs jump and jump, one wants to eat crazy, but under the strong pressure of someone, And had to hold back the appearance.

There is no doubt that the only person who can easily suppress it and devour aura at will is the nine-winged black feather butterfly.

"Dare to eat, Xiaodie will eat you!"

——Black Feather Butterfly threatened like this, Three-eyed Toad could only humiliate lay on the ground and pretend to be a good baby, looking at the aura in this cavernous land with aggrieved eyes.

No wonder this fierce creature grows so fast, it turns out that it has found a good owner!

It, the three-eyed toad, is barely an ancient monster-although it is not ranked high, it also wants to take refuge in the boss!

"Quah, quack!"

Therefore, after hearing Li Yun's instructions, Three-eyed Toad was not surprised but rejoiced, and quickly agreed.

For its thick skin, as long as a little spirituality is not extinguished, it can be easily resurrected by absorbing aura.

"let's go!"

Glancing at the Black Feather Butterfly clutching his collar, Li Yun moved out of his mind and brought Xiaodie to the three-eyed Toad and went out in an instant.

outside world.

There is fiery red magma everywhere, Li Yun has already wrapped himself in the blue earth evil fire, and with the advanced earth evil sun fire power to isolate the heat, his figure swims quickly in the magma like a swimming fish.

He still couldn't fly, and he struggled in the water, but only in the flames, Li Yun was like a fish in water, and the magma erupting from the ground became his stepping stone instead.

"I should be still underground now. The explosion didn't spray out the beads of the Lotus Immortal Mansion. I don't know if it is a characteristic of the beads or a coincidence."

Li Yun felt the direction of gravity and manipulated the magma to push him to fly in the opposite direction. The viscous magma, which is fatal to ordinary people, was as well-behaved as a pet in the house in front of Li Yun.

"Is this a magical power?"

Li Yun couldn't help being proud, waved his hand to draw the three evil swords from the space ring. One large, two small, three swords were wrapped with dark blue flames, which complemented the earth evil on his body, making Li Yun more confident and could not help but roar. With a cry, vent the joy in my heart!

From the shock of seeing the power of the Void Returning Realm for the first time, to the precise layout, so that he can grab food from his mouth and successfully take away this magic weapon, Li Yun is now qualified to be confident!

Of course, a great man said well, despising the enemy strategically, and attaching importance to the enemy tactically. He is not going to confront the Void Returning Realm head-on like a fool, so he still has to be counseled.

Soon, Li Yun broke through the heavy magma and jumped out from the depths of the earth, suddenly widening his vision.

The Haraha volcano has been razed to the ground, and there is no big crater on the ground, but another magma lake.

Chapter 1608: Retreat

The volcanoes were shaken and burst out all around, thick smoke billowing all around, smoke and dust filled the world, as if the world had returned to the age of four billion years ago when there was no life on the earth.

At that time, there were volcanoes everywhere on the earth, and a large amount of volcanic smoke and dust shrouded the earth and remained for thousands of years. It was not until life was bred in the ocean that the world was gradually transformed into green.

—Of course, this is the result of modern research. After learning that there were probably gods in ancient times, Li Yun had reason to suspect that the species on earth were not formed naturally, but were created by gods.

"call!"

Li Yun let out a suffocating breath. Although he can move freely in the magma, he is still human after all, and the feeling of holding his breath is uncomfortable.

Standing on the magma, Li Yun looked around, becoming more and more surprised in his heart.

This magma lake is at least three kilometers long and wide, and all the surrounding mountains collapsed, as if it had been bombed by a ten million-yield nuclear bomb. A dozen mountains collapsed on the spot, and the Haraha volcano disappeared directly and turned into countless pieces of stone!

"how is this possible!"

Li Yun was very surprised. According to Professor Wen, the three-ton CL18 is at most overturning the Haraha volcano, letting the magma erupt and cooling down before slowly forming a new volcano with a fat circle.

But where is there still a volcano now?

When the magma at Li Yun's feet cooled, there was only a huge slab of five kilometers long and wide!

"Strange, how did the power of explosives become so great?"

Just when Li Yun was puzzled, he felt two glances coming over. Li Yun raised his head and immediately saw Daoist Baihe and Master Linghuo, staring at him viciously.

"Humph!"

Li Yun was not afraid, holding the Three Evil Fire God Sword in his hands high, and swiping at them!

The flaming flames soared into the sky, in a hot magma environment, coupled with his own fire control technique, plus the three evil fire **** sword in his hand, Li Yun's current strength directly soared ten times!

With the help of Three-eyed Toad and Fluttershy, Li Yun is confident that even in the face of Return to Void, he can at least hold it for a while!

"Damn monster!"

Taoist Baihe gritted his teeth with hatred, but he also knew that this already powerful monster became more and more difficult after he obtained the Fire God Sword.

Therefore, when he saw two fighter planes roaring and hovering in the distance, Taoist Baihe glared at Li Yun fiercely. The flames on his body surged and flew towards the distance, disappearing without a trace in the blink of an eye.

"My sword is temporarily stored with you, next time, I will retrieve it!"

Taoist Baihe has a hunch in his heart that he will see this monster again!

"I am waiting!!"

Li Yun's deep voice resounded across the sky. After having advanced the Shayang Fire Art, he was omnipotent in a flame environment. He only needed to manipulate the flame to display all kinds of mysterious magic effects.

For example, to disguise the sound, he only needs to burn the air with flames to invisibly expand the sound waves, resulting in a layered effect, which is exactly the same as the sound effects of the big BOSS in the movie!

"Ding, the host made a choice and won the three evil fire **** sword under the eyes of the strong in the late stage of Void Return Realm. Rewards: experience value + 10 million, all attributes +1 thousand, justice value + 5000, colorful gift bag* 1. Extra reward: Aura value *30,000."

Li Yun nodded in satisfaction. This trip received two colorful gift bags, and the total aura value is close to 100,000. This makes the lotus fairy house more aura and more confident in raising a daughter!

Chapter 1609: Super delicious

In a happy mood, Li Yun threw another small recovery pill to Black Feather Butterfly. The little girl naturally cheered and took it. She didn't care whether her stomach was full or not, she just opened her mouth!

In fact, Li Yun never saw this girl when she said she was full!

"Woo, so envious!"

The three-eyed toad was drooling again.

"Damn beast!! You must not die!"

The Spirit Fire Master also gritted his teeth and cursed, about to flee with a flying sword, but from the corner of his eyes, he saw a faint blue slowly rising from the lava lake below.

"this is.....?"

The Spirit Fire Master stopped his footsteps abruptly, staring in shock at the fist-sized group of fist-sized faint blue, no, dark blue, with a trace of scary red flame emerging from the lake!

"This, this, this is... the top floor evil!?"

The spirit fire master trembled all over, shocked by the dark blue flame with a hint of red!

He had never seen the top-quality Earth Shaohu, and it was only recorded in some books describing Earth Shaohu.

It is said that the top-notch earth evil is a hundred times stronger than the ordinary earth evil, and it has reached the strongest level that the spirit fire can reach, and above it is the legendary sacred fire, which can easily burn the earth and dry it. The power of one sea of water is unimaginable!

If he can obtain this fist-sized top-notch Earth Fiend, Master Linghuo would even dare to challenge the Void Return Realm head-on!

And if it is obtained by the Baihe Taoist in the late stage of Returning Void Realm...

I dare not imagine, I dare not imagine.

"No, I must get it!"

The spirit fire master's eyes were blood red, and he stared at the top fiendish fire suspended above the magma lake.

What a blessing in misfortune, the Spirit Fire Cave suffered a devastating blow, but it actually blasted this top-level fierce fire hidden at the bottom of the volcano. The ancients said that misfortune and blessing depend on each other, and it really makes sense!

What's even better is that Taoist Baihe has already left, and now he and the three monsters are the only ones here!

"Hahaha, if Brother Dao knows that he has missed the top spot, I am afraid that he will regret it!"

Without hesitation, Master Linghuo stepped down from the sky step by step, aiming at the deep blue and red ground!

"This is the evil of the earth? The quality...seems to be extraordinary!"

Li Yun naturally saw this flame, and could feel the terrifying power contained in this flame better than the Spirit Fire Master.

"Yeah, it's delicious, it's super delicious, papa, hurry and grab it~~"

"Crack quack!"

The two ancient fierce insects, Black Feather Butterfly and Three-eyed Toad, were also excited. The little toad screamed frantically, and the three eyes were so big that they could not wait to step forward and swallow this top-level fierce fire in one mouthful-a pity, with it With its current strength, it would be burned to death if it was a little closer, and it would directly become a shriveled toad.

"Ding, trigger the option event, please choose from the host:

Option 1: Forcibly absorb the earth evil spirit, reward experience value +500 million, all attributes +999999, earth evil sun fire art evolves into earth evil **** fire art, and obtain a peerless treasure of

the fire system*1, additional reward: all host skills are upgraded to ***** level. Note: The above rewards will be issued when the host survives.

Option 2: Run away before the terrible fierce fire breaks out. Reward: Danger induction evolves into divine foresight.

Option 3: Die, find a way to store it in the Lotus Immortal Mansion, rewards: justice value +1000000, experience value +5 million, all attributes +30,000, colorful gift bag*1, aura value +100,000. "

Chapter 1610: Terrifying

999999!

Li Yun gasped. Fortunately, he saw the word "Note" at the back.

Otherwise, he would be frightened by the full attribute 999. If this really absorbs the apex suffocation, he will be invincible on the spot-invincible.

The advanced earth evil sun fire art cannot absorb the top earth evil fire, at least it must be at the ***** level, and the ***** level exercises can be combined with the flames of the gods to make the exercises evolve!

"System, use the god-level skill pill to upgrade my earth evil sun fire art to god-level!"

Li Yun acted decisively. His god-level skill pill has left a thousand chapters till now, isn't it just for this moment!

"Ding, because the host attribute is too low to accommodate more advanced techniques, the use of the god-level skill pill fails. Note: Forcibly using the god-level skill pill, you can upgrade the earth evil sun fire art to a master level."

"...I, Cao, can there be anything more depressing than this?!"

Li Yun was about to vomit blood.

Sure enough, your own strength is the foundation of all spells and skills. Without this, everything is nonsense!

Li Yun took a deep breath, waking up from the dream of getting rich overnight, and kept thinking about the current situation in his mind.

"From the perspective of option 2, the Haraha volcano was directly blown to shreds because of this group of top-level terrestrial fires. The explosives I threw down shook it...horrible, really terrifying, the top-level terrestrial fires only vibrated slightly. Just blow up a volcano!"

Li Yun exclaimed in his heart, and at the same time, the desire for this top-ranking earth fierce fire became more and more fierce!

Obtaining this earth fierce flame is equivalent to saying that he will break through the innate realm in the future, and before entering the realm of cultivation, he does not need to look for other flames!

"How can I get it?"

Li Yun looked at option 3, the reward was very rich, the justice value was directly given to 1 million, we must know that he only has 410,000 justice value now, enough to see that this mass of fierce fire will bring this area to this area. What a devastation!

Even Aduosan City may be affected, tens of thousands of deaths and injuries, otherwise the system will not reward so much justice.

"From the system prompts, as long as it can be ingested into the fairy mansion, the level of the lotus fairy mansion can suppress the top fierce fire."

"But the key is that the system also rewarded a colorful gift bag, which shows that this matter is not easy."

Li Yun's thoughts turned sharply, and the black feather butterfly on the side couldn't bear it, and kept jumping and shouting: "Papa Ba, come on, the bad guys are coming!"

"Um?"

Li Yun waved his hand and slashed at the air, and a faint blue sword aura struck upwards, forcing the spirit fire master who was walking down to retreat abruptly!

"Just by you... not good!"

Li Yun was about to mock Linghuo Master with a cold voice, but from the corner of his eyes he saw the top-level Earth Shahuo trembling slightly in mid-air, so he rushed towards him!

Black Feather Butterfly and Three-eyed Toad were also taken aback, one clung to the collar of Baba, and the other jumped away like a fire.

Li Yun dodged and dodged, but the dark blue ground evil slowly followed behind him, until the ground evil on the three evil spirit sword subsided, and then slowly stopped, and then suspended in the air again.

"seem....."

Li Yun raised the Sansha Fire God Sword again, this time he did not attack, but with the horizontal sword on his chest and looked at it carefully.

There are three swords, one big and two small. The big main sword is not long, about two feet, which is a little more than half a meter, one inch wide and seven minutes thick, and the hilt has a flame pattern.

The two small swords are approximately palm-length, and normally they always revolve around the main sword, like satellites of the earth, they can also be integrated into the main sword and turned into a complete divine sword.
