

Godly Choice 1611

Chapter 1611: I call you, do you dare to agree?

Now it seems that this group of top-notch Earth Fiends will involuntarily want to get close to nearby Earth Fiends and integrate them into themselves.

"Damn beast!"

The repulsed spiritual fire master jumped and cursed, staring at the sacred fire for a long while, then gritted his teeth and pinched Fajue to draw a fire from his body.

In the flames, a three-legged stove was vaguely visible, only the size of a thumb, but when it flew into the palm of the spiritual fire master, it had become the size of a palm, and the flames became more fierce.

"what is this?"

When Li Yun raised his eyebrows, he unexpectedly evoked a furnace from his body. The blue earth flame was clearly burning in the furnace. It can be seen that this is the real trump card of the spiritual fire master-he can also directly use the earth flame!

"Hey, this is the old man's magic weapon: psychic stove, forgive you beasts who have never seen it!"

Holding this miraculous stove in one hand, Master Linghuo was quite proud: "The old man has been in charge of the evil fire for many years, how can he not study some techniques for controlling the evil fire? Beast, now I also have the attack method of the evil fire, it is not fast Surrender quickly! Free from the suffering of flesh and blood!"

Li Yun was silent, Black Feather Butterfly blinked, and did not speak.

The eldest and eldest sister didn't speak, the three-eyed toad naturally didn't dare to let go. He lay his four legs on the lava, staring back and forth at the spiritual fire master and the powerful earth fire with three eyes, seeming to hesitate. Who should eat first is better.

The spirit fire master thought that these animals were all shocked, and laughed more and more proudly: "Also, you animals only recognize the strong, and the old man will show off his exquisite fire control technique, so that you are born. The animals raised know the power of human wisdom!"

"..."

You are right.

Li Yun smiled secretly in his heart, monsters have natural supernatural powers, and the strength of human beings is wisdom.

Unfortunately, not every monster has magical powers, and of course not everyone has wisdom. For example, the spiritual master in front of him does not have wisdom.

"Monsters, take a good look at the old man's fire control!"

"Shocked" Li Yun, the spiritual fire master grabbed the bottom of the stove, raised it high, aimed at the dark blue and red top floor fire, and shouted: "Close!"

Suddenly, a cloud of blue light radiated from the psychic stove, which expanded like a funnel, covering the flames of the ground suspended in the air.

"Monkey King, I call you, do you dare to agree?"

This sentence and picture flashed in Li Yun's mind inexplicably, with the triumphant expression of Master Linghuo, it was really alike.

The top-quality Earth Shaohu trembled, and was covered by the faint blue light, without a trace of stagnation, and flew directly towards the psychic furnace.

Li Yun didn't stop, watching silently and waiting.

"Hehe, even you beast dare not touch the top floor, but in front of the old man, he is as well-behaved as a child!"

The Spirit Fire Master laughed happily. As the top Sha Huo got closer, his breathing became rapid, and he increased his strength, wanting to take it down in one fell swoop.

As long as you get it, what is the Return to Void Realm? A handful of **** burnt to death, it is not hard enough for refining!

But the speed of the top-notch flames did not change at all, and it was still approaching slowly, as if an old man with a cane was walking in the woods, and his movements were extremely leisurely, with no psychic stove in his eyes.

Ten meters, nine meters, eight meters...

The dark blue earth fire is getting closer and closer, finally.

"Oh my god!!!"

As if burnt by his own magic weapon, the spiritual fire master threw the psychic stove out with a wave of his hand, turned around and fled.

Chapter 1612: Natal magic weapon, miserable

"Peng!"

The top fierce fire rushed into the psychic furnace, and the faint blue light burst out, illuminating a whole magma lake.

but.

That's it.

In this collision, the top-level evil fire swallowed the psychic stove without any surprise, quietly extinguishing all the flames contained in it, and then trembling slightly, this magic weapon of life instantly turned into molten iron, pattering. Flow into the magma lake.

The top floor fights the fire, wins!

"puff!!!"

The magic weapon of his life was destroyed, and the spirit fire guru spewed out a stream of blood, his body's aura had at least declined by half, and his face was terribly pale, even more tired than refining for ten days and nights!

Even, the cultivation base has dropped by a large amount out of thin air, from the perfection of the refining realm directly to the early stage of refining the realm, so miserable that it can't be more miserable.

"This this this!"

Linghuo master complained constantly, and the top-level evil fire was stronger than he thought. Without the Void Returning Realm cultivation base, it would be impossible to conquer it!

No wonder this beast didn't dare to get close, no, this beast appeared from the ground, it already knew the existence of the top earth evil, and even this beast was born because of it!

"Human, is this your power?" Li Yun said with a smile.

"Hehehehe~!"

"Crack quack quack!"

Both Black Feather Butterfly and Three-eyed Toad laughed together, especially the three-eyed Toad, who croaked very cheerfully, and the meaning of ridicule was very obvious.

"You, you guys! Poof!"

Master Linghuo furiously attacked his heart, and vomited another gulp of blood, and almost died of breath because he couldn't breathe.

"Beast, you are looking for death!!"

After breathing well, the spiritual fire master roared angrily from embarrassment.

"Oh?"

Li Yun smiled faintly, "Do you still have a magic weapon? Or other cards?"

"me!"

Master Linghuo, I haven't been able to speak out for a long time. It stands to reason that now his escape is the most reasonable choice.

However, the cave mansion was destroyed, all the disciples died, the forge was robbed, the family property was looted, the ground evil was gone, and the top ground evil was gone, and now even the magic weapon of life can't be kept!

This breath can't be eliminated, how can Linghuo master tolerate it?

"I'll be watching!"

Guru Linghuo scratched his neck and said in a negative test: "I see what means you are going to use to subdue it? I can't get the top-level shame, so don't even think about it!"

The corners of Li Yun's mouth twitched, and the goods were returned.

Without paying attention to him, Li Yun once again thought about how to use the Lotus Immortal Mansion to get the fire in.

This thing is suspended on the magma lake, it is greedy no matter how you look at it.

"But how do I get it done!"

Li Yun had a headache, and he would definitely not go straight to take it. Even if he caught a snake, he had to pull out its fangs, not to mention a lot of anger.

But this thing has a chance to explode when it comes across, and it is probably not possible to hit it with bullets or other means.

"What do you think?" Li Yun talked to the two women in the fairy mansion through Nie Xiaoqian.

Of course, the point is to ask Xiaomeng Fox for his opinion.

"Um~~~"

Nie Xiaoqian learned the elongated tone of Fox Xiaomeng's voice, and simultaneously translated: "Big Brother Yun, now it's tested that the top fierce fire will swallow other fierce fires, right?"

The cute and coquettish tone of the little girl is of course nice, but Nie Xiaoqian, a big beauty who speaks Jiao Di Di in Wu Nong Jiao, makes Li Yun feel uncontrollable.

"Ahem, yes!" Li Yun said sternly.

"Hehe, Brother Yun, you said that if you catch a snake, you have to extract its teeth, then we will find a way to extract its teeth!"

"extract a tooth?"

"Fire, what are you afraid of?"

Chapter 1613: Not the way

Fire is afraid of water, this is something kindergarten children know.

"Will this be useful?"

Li Yun raised his eyebrows, and the flame in front of him was a divine fire. The size of his fist was enough to destroy a volcano. Even if ordinary fire worked, how much water would it take?

I'm afraid that I have to throw it into the sea, relying on the endless sea to forcibly extinguish it!

Of course, there is spiritual fire, and naturally there is spiritual water, a small drop is enough to fill a large lake, weighing more than a million catties.

Using this kind of spiritual water to extinguish the fire, it is estimated that only a punch is enough.

"Hee hee, Brother Yun just wants to weaken it, should it work?" Hu Xiaomeng was not sure, this was the best way she could think of, after all, she didn't know anything about what to do.

"You are right, then give it a try!"

Li Yun decided to give it a try. He waved his hand to draw a cubic meter of lake water from the Lotus Immortal Mansion and dumped it on the top-level ground fire that quietly suspended in mid-air.

This lake is not simple, with a hint of aura attached to it. Ordinary people have eaten as much as a century-old ginseng, and long-term consumption is a treasure that can definitely prolong life!

Because it is very simple, there are nine immortal lotus plants in the lake.

"what is this?!"

The resentment in the distance was unavoidable, the spiritual fire master who did not want to leave was taken aback. He suddenly saw a large group of water filled with spiritual energy appearing out of thin air, crashing and pouring down on the top ground fierce fire. , The Master Linghuo hurriedly dodged in fright, and the terrified flame suddenly erupted.

Fortunately, the fierce flames of the ground were only poured, and soon avoided, and then continued to float slowly in the sky.

"It seems feasible?"

Li Yun looked at the vaporized water mist with thoughtfulness in his heart, but unfortunately there was no one around him who could control water, otherwise he would be able to get it done after a few calls.

"This beast... really has magical powers!"

The Linghuo master was shocked and angry, but at Li Yun's various methods, he could only express shock!

Fire, water, thunder, and even conspiracy, what else can this monster do not? !

For a moment, the spiritual fire master even wanted to turn his head and ran away.

"Master Spirit Fire."

Li Yun turned his head to look at him, and asked in a flat tone: "Is it my shot to drive you away, or do you say you get out?"

The system gave him another choice event, but Li Yun decided to throw the choice to the spiritual fire guru just in case.

"Ding, trigger the option event, please choose from the host:

Option 1: Kill the Spirit Fire Master, reward justice value + 30,000, experience value + 5 million, all attributes + 30,000, golden gift bag*1.

Option 2: Threaten him, let him go, reward the purple gift bag*1, skill: the overall situation is more important.

Option 3: Deal with the terrible fire by yourself, let Zhao Tianfeng and Three-eyed Toad and others kill the spirit fire master, reward justice value +1 million, experience value + 500,000, all attributes

+ 500, extra reward: all participating in the killing All creatures of the Spirit Fire Master can get a specific gift. "

Although Option 1 is the most rewarding, if the Spirit Fire Master desperately hits the ground and makes it explode, Li Yun will not feel good.

As for option 3...

"Humph!"

The Spirit Fire Master originally wanted to leave, but with the threat of Li Yun, he was determined to stay, and he must not let this **** beast take away the top fierce flames!

Otherwise, he will never get revenge in the future!

"The son."

At this time, Nie Xiaoqian's voice sounded.

Chapter 1614: Carrying the fairy house, are you envious?

"Miss Zhao said, she will deal with the Spirit Fire Master!"

Xiao Qian's words surprised Li Yun, and almost doubted whether Zhao Tianfeng also had a system, and saw his option 3.

After thinking about it, I realized that he had actually told her and Xiaomeng all about the situation, and Zhao Tianfeng could naturally guess what he was going to do.

"My son." Nie Xiaoqian hesitated, "Miss Zhao... she has a firm attitude!"

".....Ok."

Li Yun waved his hand to let Zhao Tianfeng come out of the Lotus Immortal Mansion. She was really ready, a tights set off her proud figure, holding her twinkling crescent blades in her hands, Ruifeng's eyes were already brewing. After the monstrous fighting spirit came out, his eyes scanned the surrounding environment sharply.

"Here... It's amazing!"

Seeing the scorching magma environment around, Zhao Tianfeng couldn't help being surprised.

As soon as she came out, Li Yun held her arms. She did not resist. After being pushed by Li Yun, she leaped and stood on the terrifying three-eyed toad.

Although her light work is enough to make her leap over the thick magma, if there is a mount, of course it is better to ride the mount, especially on the magma lake.

"Xiaodie, Little Toad, you and Tianfeng will kill him!"

Li Yun stretched out his hand and pointed at the Spirit Fire Master, and said indifferently.

At the same time, he dissipated the flames that had enveloped him, allowing himself to be a human figure, completely exposed to the spiritual master!

"Master Linghuo, do you see that I am a monster?"

"what?!"

Seeing that there was actually a human in the flame, the Spirit Fire Master was shocked. It was not that he had suspected that the thing that had been pretending to be a human being was a human, but the magic displayed by this monster, plus two weird monsters around him, All show that this flame monster is indeed human!

But now, Li Yun's human figure was dazzlingly revealed in front of him, and Master Linghuo had to believe that he was indeed a human!

"You! Actually... a human being!"

A flash of lightning flashed in the head of the spiritual fire master, thinking of the various spells he showed.

More than a dozen hostages were "swallowed" in one go.

Summon a ton of spiritual water out of thin air.

Now I have summoned a tall beauty...

"I see!"

Linghuo Master's voice was low and frightening. He let out a weird laugh, his eyes staring at Li Yun incomparably: "You have an infinite treasure on your body, a treasure that has only appeared in legends and ancient books: Take it with you!"

"I said, right!?"

The spiritual fire master stared at Li Yun fiercely, what kind of top-level evil fire, what kind of spirit weapon, what kind of sacred fire, in front of the portable fairy house, all are rubbish!

With the portable fairy house, he can practice in the aura of the cave at any time, avoid the enemy's pursuit at any time, in the bottom of the volcano, in the depths of the ocean, at the poles of the earth, in all kinds of dangerous environments, at any time Enjoy the fairyland!

The most important thing is that there are inheritance left by the ancient immortals in the portable fairy house, and all kinds of treasures are at your fingertips!

"you're right."

Li Yun smiled brilliantly, "I do have a portable fairy house, which is a few kilometers in size. There are golden lotuses in it, and the light is permeated. All of them are spiritual energy. There are countless kinds of elixir plants. I opened my belly to eat. I can't finish it, how about it, envious?"

"!!!"

Not to mention that Master Linghuo made his eyes red from envy and jealousy. The three-eyed toad that was stepped on by Zhao Tianfeng on the side heard the madness of Harazi, and he wished to immediately devour the Master Linghuo and let the boss install him in the fairy house!

This shit-like **** outside, three-eyed toad, no, little toad really doesn't want to stay for a moment!

Chapter 1615: Mere mortals

"Little beast, where did you get this fairy mansion?!"

Master Linghuo's eyes were red, and he almost lost his mind and yelled like crazy.

"Old beast, want to know? Go to the underworld and ask!"

It was not Li Yun who said this, but Zhao Tianfeng.

With a cold and charming face, she stepped on the three-eyed toad under her feet. This ancient evil creature was trampled into the magma lake. She was about to put out her tongue in anger and eat the **** woman, but suddenly thought of this woman. It was the eldest woman. Three-eyed Toad quickly retracted his tongue, jumped, and followed Zhao Tianfeng to kill.

"kill!"

Zhao Tianfeng held both crescent blades in both hands, and the white crescent-like weapon drew a graceful arc in the air, and slashed it at the spiritual fire master.

If the opponent had the strength to achieve Consummation in the Divine Refining Realm, although Zhao Tianfeng would not be afraid, he would not be so reckless.

But Li Yun has already said that the other party's magic weapon was destroyed, and only a half of her strength remained. In addition to her holding the crescent double-edged blade in her hand, there was no reason to be afraid of the spiritual fire master who was pulled out of the tooth!

"A mere mortal, a mere mortal dare!"

Seeing Zhao Tianfeng, a warrior who dared to act on him, Linghuo Master was so angry that his nose was crooked, and when he raised his hand, he shot out a palm of flame, which was in contact with the crescent-shaped weapon blade collider.

"boom!"

Unsurprisingly, the palm of the flame was smashed, and the crescent-shaped blade came in front of the spiritual fire master. In his shocked eyes, he cut off an arm abruptly!

"what!!!"

The spirit fire master screamed, and the figure retreated violently, and at the same time he launched a flame attack to stop Zhao Tianfeng's pursuit.

Quickly took out a healing rune to stop the gushing blood, the spiritual fire master was shocked and angry: "How is it possible, a mere mortal, actually...you weapon!!"

He quickly discovered the source of the error, and stared at the crescent-like double blade held by Zhao Tianfeng.

The more you look at it, the more aggrieved the spiritual fire guru becomes.

This Nima is a superb magic weapon!

And it's also a very special top-grade magic weapon, specially created for those who practice martial arts in the rivers and lakes!

"Beast, this is too extravagant!"

The Spirit Fire Master is extremely aggrieved!

As a master craftsman, he holds countless magical weapons in his hands, but he does not dare to waste materials easily, so he specializes in crafting a superb magical weapon for mere mortals.

But Li Yun used it for this woman!

"By the way, it's definitely something in Xianfu!"

Linghuo Guru was even more jealous. After his arm was cut off, he calmed down and said bitterly: "Little beast, wait, as long as the news about the immortal palace is exposed, you will be dead!"

"It's rare to be so naive when you die." Li Yun shook his head, "Do you think you can live on after knowing these news?"

After finishing speaking, no matter how the Linghuo master reacted, he turned his head and said to Zhao Tianfeng and Heiyudie: "Tianfeng, Xiaodie, be careful. When I come back, I will give each of you something."

"I know, La Ba Ba ~~, Xiaodie is good at hitting bad guys!" Hei Yudie happily waved at Li Yun and stopped on Zhao Tianfeng's shoulder.

"Um."

Zhao Tianfeng nodded slightly, glanced at the Black Feather Butterfly on his shoulder, and attacked Master Linghuo again.

She has a hunch that after this battle with the practitioners, she will be able to reborn and enter a new realm of martial arts!

No, maybe it's not martial arts, but another direction of practice!

Chapter 1616: Extinguishing

Li Yun evoked a bluish earth fire from his body, away from this magma lake battlefield, and walked towards the Haraha volcanic lake marked on the map in the distance.

It's not that he doesn't want to be fast, but that the top level is too procrastinating.

I don't know if this fire is too "fat" because it walks slowly, which makes people look anxious.

"Li Yun!?"

When the phone rang, Li Yun picked it up and said in a relaxed tone: "Brother Xia, what's wrong with me?"

"..."

In the summer when I was sitting in the town of A Duo Mountain, I would choke for a while, how could there be a taste of the emperor's urgency?

"What are you doing now?" Xia Ming and a circle of leaders stared at the pictures taken from the fighters, and asked with weird faces: "You seem to have left the explosion point now, where are you leading a fire?"

Li Yun raised his head and glanced at the four-generation fighter | fighting machine hovering over his head, and shrugged helplessly: "I'm trying to put out the fire. By the way, there are no precious animals and plants in the Haraha volcanic lake?"

"Fire? Animals and plants? What do you want to do?!"

Xia Ming vaguely had a bad premonition, and his eyelids kept twitching.

The power of the explosion of Haraha volcano was far beyond Professor Wen's imagination. The huge shock even reached Mount Ado, causing the citizens to panic. The smoke and dust that covered the sky filled the sky for dozens of kilometers, and it had begun to fall one after another.

Fortunately, the people of Adoshan living around the volcano have become accustomed to volcanic eruptions.

"I plan to throw a ball of fire into the lake."

Li Yun explained the current situation as he walked.

After that, no one spoke for half a minute.

Xia Tianming, Professor Wen and others were all shocked by the vague blue flame that followed Li Yun behind him, which was almost invisible from the fighter plane!

"A small group of fire, just the size of a fist, can actually be as powerful as a nuclear bullet!"

Professor Wen looked at the flames in the photo with fiery eyes. Of course, the power of the explosives he prepared by himself was clear.

The three-ton CL18, at most, overturned the Haraha volcano and caused the volcano to erupt. It is absolutely impossible to blow up the entire mountain. This one is outrageous!

He was still wondering what went wrong before, but now he finally figured it out!

There is a special kind of flame in this world, called Earth Shahuo, born from the depths of the earth, possessing unimaginable power!

"It's so terrifying, so powerful, it can still maintain stability!"

Staring fiercely at the deep blue flame, Professor Wen seemed to see a super-energy flame generator rising from the ground, stronger than nuclear fission alteration, and more stable than nuclear aggregation alteration!

Unfortunately, this fire is not his.

"A lake is probably not enough."

Xia Ming quickly recovered from the shock, considering that the terrible fire blasted the entire mountain to pieces, a lake may indeed be insufficient, or even far from enough.

"It's not going to be extinguished." Li Yun explained: "As long as I find a way to reduce its power, I can put it away!"

"so it is."

Xia Ming thought for a moment, "I can't watch it either, so let me order people to artificially rain for you, and try to make the evaporation drop water drop into rain again. Repeat it several times, it should be effective."

"What if the earth fire suddenly explodes?" Li Yun asked. He can enter the Lotus Immortal Mansion to hide, but the fighters flying in the sky are likely to...

Xia Ming was silent for a while before replying: "This is the battlefield!"

People will die on the battlefield, but in order to protect the people of Huang Xuanguo behind them, the soldiers can only risk their sacrifices!

Li Yun nodded slightly and sighed slightly, hoping everything goes well.

Chapter 1617: Successfully conquered

The Halaha volcanic lake was formed by a volcanic eruption caused by the movement of the plate.

The volcanic lake is 1,500 meters above sea level, surrounded by mountains, two kilometers long from north to south, with an average water depth of 50 meters, and a total water storage capacity of 50 million cubic meters!

"Ding, the host made a choice. Zhao Tianfeng, the nine-winged black feather butterfly, and the three-eyed toad have successfully killed the Spirit Fire Master, rewarding justice value of +1 million, experience value of +500,000, all attributes +500, additional rewards: " Killing Taoism", fairy dress*1, pommel horse for toad demon*1."

After five hours of long journey, Li Yun finally came to the volcanic lake. In the middle, Zhao Tianfeng cooperated with the black feather butterfly and the three-eyed toad to kill the spiritual master, and he also received the system's reward prompt.

"Now, it's just me!"

Li Yun took a deep breath, not thinking about other things for now, and walked slowly to the lake.

In his hand, there was a small faint blue flame floating, and the dark blue behind him still followed him with a trace of fiery fire.

"Very well, come on!"

Li Yun didn't hesitate to walk into the icy lake water, and the terrible fire followed closely behind, seemingly stupid, but no matter how Li Yun swung his right hand to seduce the fire into the lake, it just stood still. , Did not touch the lake at all.

"I'm Cao...Should I call you stupid, or should I say you are shrewd?"

Li Yun was depressed, and at the end of Xiaomeng's prompt, he used the space ring to fill the lake with water, and then dumped it on the dark blue flame.

"boom!"

The effect finally worked. The lake water was instantly evaporated, and the violent water vapor spread out, like a smoke bomb exploded, and the lake surface was enveloped in thick fog before long.

Moreover, the dark blue earth flames showed no signs of eruption, and they still followed Li Yun behind him, slowly following him in circles on the shore of the lake.

Seeing the effect, Li Yun immediately got excited, and watered it several cubic meters and several cubic meters, and the dense fog soon enveloped the entire sky, making the fighter planes hovering in the sky invisible.

Inside Adu Mountain.

Everyone watched Li Yun's operation dumbfounded, and some people who didn't believe it now believed it.

Can you believe that half of the volcanoes are beginning to be covered in mist?

"call!"

Xia Ming was relieved, a smile appeared on his face, and ordered: "Start putting large rain bombs!"

"Yes!"

After receiving the order, the pilot who was far above the crater lake decisively dropped a large rain-enhancing bomb with its own parachute. This thing contains silver iodide, which will spread into countless tiny particles in a short period of time. , Increase the number of condensation nuclei in the air, so that water molecules turn into raindrops or snow fall.

After a short while, the dense fog of the volcanoes condensed and turned into droplets of water and fell back to the ground.

Li Yun put away his own ground and stood in the majestic rain, quietly watching the deep blue flames continuously poured by the rain.

"Fortunately, the lake in the space ring will not flow, otherwise I have to take out the contents."

"Tianfeng has returned to Mount A Duo, so let's go back to the hot spring as soon as possible. The underground spring in this ghost place is terribly cold!"

When he was thinking about it, finally, a trace of fiery red in the deep blue fire disappeared, and Li Yun tried to move forward and approached it with the beads of the Lotus Immortal Mansion.

The dark blue flame trembled a few times, and was finally taken in by the Lotus Immortal Mansion.

"Ah, son!" Nie Xiaoqian's surprised voice came, "There is more fire in the fairy mansion, it's a success!"

"Very good, hahaha!"

Chapter 1618: Ding, choose the right one

Li Yun stretched his muscles and bones with satisfaction, and after a long time of work, the lake water was lowered by more than ten meters, and finally this group of top-level fierce fire was subdued!

As for the issue of grade drop, I don't think about it for the time being.

Besides, Li Yun estimated that the follow-up use of spiritual energy to slowly warm up should be able to restore it.

"Ding, the host made a choice and successfully used the Lotus Immortal Mansion to store the perfect quality of the fire. Rewards: justice value +1000000, experience value + 5 million, all attributes + 30,000, colorful gift bag*1, aura value +10 Ten thousand."

"Okay, so cool!"

Li Yun opened his eyes and smiled. The justice value was directly increased by one million, and his full attribute reached 280,000. Li Yun felt that his strength is now infinitely close to the innate Dzogchen, maybe at the 300,000 mark. Reach this realm that no one has reached for nearly a thousand years!

"wrong."

Li Yun touched his chin, "Qingyu and Lianyi said, no one in the rivers and lakes has reached the realm of the Houtian Dzogchen for hundreds of years, but I learned from Qingsheng that five hundred years ago, someone clearly entered the Taoist way with martial arts. After only thirty years, he became a venerable of the six magic gates.

It seems that the congenital Dzogchen is not reached by no one, but they have all been included in the Hidden Sacred Valley and the Six Demon Gates.

Or simply, only these two cultivating sects can cultivate martial artists of the Dzogchen realm, so that they can enter the Dao with martial arts! "

It's no wonder that the enchantress Wan Qing concubine learned that the old guardian sword is expected to break through to the martial art realm, so she hurriedly called late at night to inquire. It turned out that the Xiuxian school was also very concerned about martial arts.

"Budo and immortal Tao, which one should I go on? Or are they going to the same destination by different paths, and the two will not be separated from each other in the subsequent realm?"

"Is there a divine way? For example, gathering all living beings to become gods."

"Everything in the ancient times is like being shrouded in mist, the truth is... Damn, why do I think so much!"

Li Yun shook his head and threw out these distracting thoughts. It's useless to think so much. The gods are all dead. He only needs to follow the steps to become an invincible powerhouse in the world!

Although the process has been slower, it will take four to five years.

"If someone knows, I intend to use four or five years to become a peerless powerhouse who is crushed to death by a finger and returns to the Void Realm, will I be beaten? Hahaha!"

Li Yun had fun, and returned to the magma lake. After confirming that everything was intact, he got on the special car that Xia Ming arranged for him and returned to Ado Mountain City.

Xia Minghe nearly a thousand fighters, as well as professor Wen and other professional scholars, they are still in the volcano group, finishing all the trivial matters, and at the same time collecting some useful information.

"Ding, the host made the right choice,"
coming!

Li Yun received the system's prompt as soon as the car drove into A Duoshan City.

After seeing the correct choice of four words, he immediately lifted his spirits, staring his eyes and waiting for the next reward.

Every time you hide or make a correct choice, or make a choice in life, it is a rare and generous time to cheat the system. Li Yun now has special expectations for this!

"Special compound rewards: 1. Use five golden gift bags to upgrade the forge to golden quality; 2. Use two colorful gift bags to integrate the Three Evil Fire God Sword and the Years' Son and Mother Sword to upgrade to colorful quality; 3. Use a colorful gift bag to upgrade the fairy skirt to a colorful fairy skirt."

"...?"

A question mark slowly appeared in Li Yun's mind, is this over?

Isn't this still cheating!

Chapter 1619: New weapon

After finally getting three colorful gift bags, Li Yun was looking for a time to enjoy the hot springs. It is best to hug Hu Xiaomeng on the left and Zhao Tianfeng on the right, enjoy drinking ice milk, and then slowly open it. These three colorful gift bags.

As a result, the system focused on the three poor and weak bags in his inventory...

"Cheating, really cheating!"

Li Yun popped a few words from his teeth. The most depressing thing was that he knew that the system was cheating, but he had to choose!

After all, whether it is upgrading the Three Evil Fire God Sword or Fluttershy's fairy skirt, it is an improvement that can be seen with the naked eye. You don't need to open the gift bag. You can draw one from the vast rewards that you may not use. thing.

"1, 2,3, I chose them all!" Li Yun closed his eyes and tried not to look at the three brilliant gift bags in the inventory, and gritted his teeth to make a choice.

This is the so-called compound reward, you can choose all three!

"Ding, the host spends five golden gift bags and three colorful gift bags to fuse the son and mother swords of the years to obtain new items: Spirit Fire Furnace (golden), Three Evil Fire Sword (color), colorful fairy skirt (color, nine Only for winged black feather butterflies)."

The two color grade equipment successfully dispelled Li Yun's a little depressed heart. As for the worn-out Sword and Son, this thing will be gone if it is gone.

"Spirit Furnace (Unnamed)

Special effects: smelting magic equipment, warming spiritual fire

Skills: Spirituality (invest various materials to produce low-quality artifacts)

Explanation: This is an ordinary forging furnace. Under the long-term influence of the terrible fire, a trace of spirituality is produced. The forging materials can be automatically refined out of the furnace. The output type is the low-quality artifacts it has refined, and there is a small probability of failure. . "

Li Yun's heart was shocked, "I actually have spirituality!"

He has obtained a lot of equipment, but this Spirit Stove is the first item whose system clearly indicates that there is spirituality.

Poor Master Linghuo has been eager to refine a spiritual tool all his life, but after he died, his forge became a spiritual tool!

This has to be said to be an irony.

With a spiritual forge, Li Yun feels that it is comparable to an ordinary piece of colorful equipment!

Not only does it have an automatic refining device, but it also warms up the fire, which is perfect!

Li Yun can now absorb the terrestrial flames, but cannot actively generate them.

If the earth evil fire in the dantian is used up, he can only use other means to absorb the earth evil fire and store it in his body.

With this spirit stove, it means there is a steady stream of terrible fire, and all Li Yun needs to do is to increase the spirit energy to it!

"The first Spirit Stove is great value, what about the second?"

Li Yun smiled with satisfaction, looking at the Sansha Fire God Sword.

"Three Evil Fire Sword (Unnamed)

Special effect: Yang

Skills: Damage Amplification (Passive), Evil Breaking (Passive), Burning (Passive), Flying Sword Flurry (Passive), Sunfire Burning Mountain (Active Skill, 1/1)

Explanation: The magical weapon tempered from the fire of the earth has an extraordinary flame ability. Each swing will summon a small flying sword to accompany it, up to twenty-nine small flying swords. "

Li Yun took a deep breath and suppressed the excitement in his heart.

Aside from mentioning the Sun-Shooting God Arrow, this Fire God Sword is obviously different from the Fairy Bow Sylvin he had obtained long ago.

Sylvin is a pistol, focusing on continuous attacks. The advantage is that even if someone who has no cultivation level gets it, it can still exert a lot of power.

Chapter 1620: stare

The Vulcan Sword is different. Although it has continuous attacks, the Vulcan Sword requires the holder to have a certain amount of strength in order to exert its power!

The new Fire God Sword no longer has two secondary swords, but because it has absorbed the Master Sword of the Spirit Fire, and has the passiveness of the Flying Sword, the new Fire God Sword can summon a small size every time it is swung. Flying sword attack, so that the enemy can't be defended!

"Strong, really strong!"

Li Yun was very satisfied. Naturally, this sword was completely different from the one made by Linghuo master, so just give it a new name.

"The Fire God Sword absorbed 365 flying swords and turned into a maximum of 29 small flying swords that can be summoned to accompany the attack. 29, the February of a leap year is 29 days, leap?"

"It just so happens that Earth Fiend is an enhanced version of flames, so I'll call you... Leap Fire God Sword!"

Runtu means adding soil on top of the soil. It is a knowledge of Feng Shui. Run fire is stronger than fire and is very appropriate.

Li Yun nodded in satisfaction, and was quite unbearable to take out the intercalary fire sword to brush a few times. This time, the trip to A Duo Mountain was successfully completed. Not only did he absorb the terrible fire, he also received a handful of colorful coldness. Weapon, plus nearly two hundred thousand auras, perfect!

"Mr. Li Yun, here we are."

The driver's respectful words brought Li Yun back to his senses, and when he looked out of the car window, he was surprised: "Halaha Hot Spring Hotel?"

It's Halaha again, and it seems that this word must be famous in Mount Aduuo.

"Yes."

The driver's tone became more respectful, "Ms. Zhao said, bringing you here to relieve fatigue, Mr. Li Yun, you have worked hard for Adu Mountain!"

The driver is actually Xia Ming's subordinate. Of course he knows that Li Yun is accompanied by two top beauties, but he is not jealous!

After learning about Li Yun's deeds, and seeing the dramatic changes in the volcanoes, the horrible scenes of mountains being flattened to the ground, and magma pouring out, the driver's admiration for Li Yun can be said to have reached its peak.

As a hero who has protected hundreds of thousands of people on Mount Aduuo, what happened to the beauties around him?

"Ahem, okay."

Li Yun explained, "I've been tired for two days, so it's quite comfortable to take a bath in the hot spring. Do you want to come with the driver brother?"

"I won't." The driver knew this was a polite remark, and quickly refused: "Mr. Li Yun, you have had a good time in Aduo Mountain for a few days. I will come back tomorrow morning. If you want to go somewhere in Aduo Mountain, just ask me! "

"Haha, thanks, goodbye."

"goodbye!"

Saying goodbye to the respectful driver with enthusiasm, Li Yun turned and glanced at the signboard of the hot spring hotel, as if a fire was rising in his heart.

A flame hotter than the fire of the earth!

Think about it, in the hot spring hotel, only him, Zhao Tianfeng and Hu Xiaomeng, two beauties, both big and small, still have a good opinion of him. The goodwill of the little beauties is even more overwhelming, and the goodwill of the big beauties is also 99. It is simply a godsend opportunity, the opportunity cannot be missed, the loss cannot be obtained, hug left and right, wine pond meat forest, feast and carnival...

"stare!"

"Cough cough cough cough cough!"

A beautiful face suddenly appeared in front of him, and his eyes were looking straight at him. Li Yun was startled and jumped three feet high, causing the people at the entrance of the hot spring hotel to look over.

"Tsk tusk, this kid is so beautiful!"

"Isn't it, my eyes are really dirty! I have been looking at the hotel!"

"Wait, that big beauty with a long leg of one meter and two meters, wouldn't it be with him?"

"Oh my god, it's not fair!"
