

Godly Choice 1651

Chapter 1651: I come, I command, I conquer

"La la la! The minister is sure~~"

Hu Xiaomeng was very happy. He smiled and said to Li Yun, "Hurry up, my courtier brother, tell me the shameest thing, remember, it is the shameful thing, absolutely don't lie to us!"

"Yes~~!"

With a bitter face, Li Yun began to recall what was the most shameful thing he had since childhood.

"I don't seem to be...ashamed?"

He and Li Feng grew up in an orphanage and were adopted by Cai Wei and Caixia's grandfather when they were three or four years old. The days in the orphanage were mostly sullen, with no memory or shame.

After living with the Caiwei sisters, his life was not prosperous, so he abandoned the so-called shame very early, and as soon as he remembered, he followed his grandfather to do some work within his capacity.

After listening to Li Yun's rough account, Hu Xiaomeng was shocked, not knowing what to say for a while, as if she had learned more about Brother Yun?

"Li Yun..."

Zhao Tianfeng has inexplicable complicated feelings in his heart. It turns out that something like this has happened to him.

"It's nothing." Li Yun smiled freely, "It's all over, and then by chance, I worshipped into the fairy gate, and from then on, I was so prosperous that I was out of control, and my wealth was beyond words!"

"Hee hee~"

Hu Xiaomeng covered her mouth and smirked. She knew that Brother Yun was exaggerating, and that the real situation would definitely not be revealed by Brother Yun.

But she didn't care too much. She believed that Brother Yun would tell her everything she should know!

"Big Brother Yun~~" Hu Xiaomeng said in a charming little girl's voice: "Although Xiaomeng is very touched, the punishment still has to go on. Hurry up and think of something shameful to tell!"

Zhao Tianfeng also stared at him.

In her previous impression of Li Yun, although this guy is a bit of a **** sometimes, but most of the time he is calm and mature, he is calm and calm, he is domineering and powerful, and it is hard to believe him. When I feel ashamed.

"Ahem! I think about it..."

After hesitating for a long time, Li Yun said helplessly: "Sometimes there is a reaction that I shouldn't have, it should be the most shameful time for me."

Hu Xiaomeng was taken aback, glanced subconsciously, then let out a burst of laughter, and then hurriedly covered it with his small mouth, but how to cover it, the crisp and sweet laughter still leaked from her fingers.

"Big Brother Yun is really a big villain! A big pervert villain~~~!"

Zhao Tianfeng's face was ruddy, and he glanced at him, his voice trembled slightly, and smiled: "Including now?"

This sentence is quite bold!

It is no less than clarifying the situation of the three people now and putting the atmosphere on the table.

Li Yun suppressed the fierce fire in his dantian: "Tianfeng, you are not a king, so I refuse to answer. Okay, next round!"

A new round of the king game begins.

This time it was a bye, so it was still Hu Xiaomeng as the king.

"I order!"

Hu Xiaomeng closed his eyes and shouted: "Come, come, kiss, kiss the king!"

The trembling voice fell, and the independent hot spring courtyard suddenly became quiet.

The blushing little Lori closed her eyes tightly, her small and blushing thin lips opened slightly, breathing quickly, waiting uneasyly, waiting for the courtier's kiss.

"Uh."

After comparing the cards, Li Yun's face was weird, but unfortunately, he could only watch the tall concubine stand up and walk step by step to the king, also blushing, and slowly leaned down.

"..."

Hu Xiaomeng opened his eyes and stared blankly.

And Zhao Tianfeng, who kissed her, was equally stunned.

The scene freezes all at once.

"Why is the minister Fengfeng sister!!!"

Hu Xiaomeng wanted to cry without tears, she subconsciously thought that the minister was still Brother Yun, and in the end...!

"Wonderful!"

Li Yun applauded, and seeing this scene, he finally decided to go all out!

What kind of propriety, righteousness, integrity, shame, and morality, all get out.

Chapter 1652: Su Muxin's phone call (part one)

The next day, at nine o'clock in the morning, Li Yun was still the first to wake up.

Before I opened my eyes, I felt the warm fragrance, softness, and jade around me, and smelled two nice fragrances of girls, one light and elegant, the other fierce and wild, mixed together and formed together. A hero's grave.

Beauty Township, Hero Tomb.

"call!"

Recalling what happened last night, Li Yun sat up with a wry smile.

Although nothing happened, nothing happened.

The emperor game really couldn't be played easily, and it was easy to become out of control. Although it was also because Hu Xiaomeng and Zhao Tianfeng had a deep affection for him and didn't mind those things, they still couldn't make sense.

Fortunately, the two women didn't break the limit until they knew Fang Xue's agreement with him. They still waited until the college entrance examination was over.

"Li Yun."

Zhao Tianfeng opened his slightly tired eyes, and looked at him with slightly bloodshot eyes.

Li Yun believed that outsiders would never imagine Zhao Tianfeng in such a lazy posture.

"Fengfeng, do you want to get up?"

Li Yun smiled slightly, stretched out her hand and rubbed her messy hair: "It's better to wait for noon, I will ask you to get up again, and we will go shopping after lunch."

"Um..."

Zhao Tianfeng closed his eyes again, and subconsciously hugged Hu Xiaomeng beside him, put her in his arms as a pillow, and fell asleep again.

Even though she is congenital Consummation and is about to break through to the Grandmaster Realm, she is still very tired to deal with the things last night.

Especially the **** Li Yun is just...a sacred cow!

After getting up to wash, Li Yun deliberately did not look at the two sleeping beauties who were lying on the Japanese-style tatami, hugging and falling asleep peacefully, so as not to lose control again.

He came to the hot spring, sat on the recliner, and checked the information with his mobile phone.

"Oh, Brother Li Yun didn't reply to my message last night!"

This is from Little Chili.

Along with this message, she is also wearing a standard small suit, tie, professional skirt, black stockings on her slender and energetic legs, black-rimmed glasses, and a briefcase in her hands. Professional photos.

It's a pity that this female elite in the workplace looks at the camera with a grimace. In addition to her appearance that she is less than eighteen or nine years old, she is far from a truly mature and attractive professional woman.

"Sorry, I was a little busy last night."

Busy playing games, Li Yun was ashamed, and quickly returned a message to her: "Little Pepper, your professional attire is very beautiful!"

"Didi!"

Less than five seconds after he sent it, Su Muxin's message came back.

"What are you up to? Ah, brother Li Yun, you are in A Duoshan, soaking in the hot springs with two girls. Could it be that...?"

Li Yun hasn't responded yet, and Xiao Jiao's message came again: "Hehe, there are other very beautiful photos~, specially reserved for you, Brother Li Yun."

Then, an encrypted compressed package was sent over.

Without having to look at Li Yun, he knew that there were some photos that should not be made public and were exclusively for him to watch.

After knowing Xiaojiao for two or three months, he has received at least fifty encrypted packages and thousands of beautiful photos, all of which are photos of Xiaojiao wearing various beautiful costumes.

Including national costumes, professional uniforms, school uniforms, sailor uniforms, warrior uniforms, swimwear, COS pictures and so on.

The girl Chi Lie's love made Li Yun very ashamed, and decided to wait for her to go back to Zhonghai City and take a look at her again.

Chapter 1653: Su Muxin's phone number (part 2)

After chatting with Su Muxin for a while, Li Yun didn't conceal what happened last night, and briefly mentioned it.

"Woo, Brother Li Yun~~"

Su Muxin directly uttered her voice, her voice became daddy, and she was acting like a baby and complaining: "Little Chili also wants to go to the hot springs with you, um, not just hot springs, we can go to other places to play. How about the holiday island? I will go there in summer vacation and wait for you to finish the college entrance examination~"

"Well, let me think about it." Su Muxin whispered again: "It's okay to go with other women, okay?"

Li Yun's heart was moved, and Little Pepper was able to make such a big concession and sacrifice for him, which made Li Yun feel even more ashamed.

Speaking of it, there are really few opportunities for him and Su Muxin to meet. Most of them are just chatting online, but she quickly has a full affection for him, which makes Li Yun feel incredible.

During the summer vacation, I have to find time to accompany her.

"Brother Li Yun?" Su Muxin asked cautiously, surprised her girlfriends and friends.

When did Boss Su's daughter become so humble to a man?

It's like a female licking a dog!

"it is good!"

Li Yun happily agreed. Su Muxin on the phone almost jumped up excitedly, joking and saying that he would contact the cruise ship, and then go to the sea for a few days together, then go to Madif Road, or Xia Weiyi group pirates, it's fun~!

Li Yuntong agreed, anyway, there are two months after the college entrance examination, he can definitely spare a time to accompany her.

"Great~~! Yeah, Brother Li Yun, I love you~~" Su Muxin pointed to the mobile phone mua, and her numbing voice made some of her good friends petrify on the spot.

Li Yun couldn't laugh or cry, "Are you not in class?"

Xiaojiao is strictly the same age as Li Yun, but she is already in her freshman year and is now at Zhonghai University.

It's just that the daughter of such a top-notch, even if she doesn't go abroad to study, she usually only studies in China for one or two years, then transfers to a foreign country, and then goes to another country to study for a master's degree. This can fully increase her knowledge and make more business contacts Friends on.

"Classes are only available in the afternoon~"

Su Muxin said coquettishly, her little face full of joy: "I am studying in a coffee shop with my friends, hee hee, I want to learn business management well, and in the future I will be the president and female president of Li Yun's company, how about it?"

"Do you want to kick your Uncle Wu out of the company?" Li Yun smiled.

"Hmph, when I graduate, he is already a director and I also have shares. What's wrong with being a female president?"

Su Muxin said confidently, Li Yun was not good at arguing with her, and of course he did not reject her.

It's the same for whoever is the president. He is already satisfied with the current scale of Baiyun Technology, earning one or two billion every year, enough to spend!

—Speaking of this, you definitely have to be beaten. One or two tens of billions are enough to spend?

"Okay, let's talk about it then, am I hung up?"

"Well, goodbye, brother Li Yun~"

"goodbye."

Su Muxin hung up the phone, and Meimu glanced at several girlfriends around her, and she knew it was broken.

All of her best friends are daughters with good backgrounds, and the family's assets are not hundreds of billions or tens of billions. Since childhood, they have been rich and wealthy.

They have seen too many licking dogs swarming up, but now they see that the absolute core of their small circle, Su Muxin, a noble daughter with a father's worth of trillions, is actually so passionate about a man, even a little humble.

How can this group of young ladies not be surprised!

Chapter 1654: Invest

"What's the matter!" Su Muxin pursed her small mouth, "Looking at me like this, is it because I have become beautiful again recently?"

In fact, she has indeed become beautiful, since taking some pills that Li Yun gave her.

"Little Susu~"

A surname Song, a daughter of a few multinational trading companies, looked at her with a smile: "When did you have a boyfriend? Which family's son was so lucky to chase our Su Daqian?"

"Yes, yes, let's open our eyes to say it!"

"Speaking of which, Mu Xin, this is the first time you are in love, right?"

Several young ladies all started booing, yelling for Su Muxin to talk about the origins of this mysterious boyfriend.

"It must be a very good brother who can win Mu Xin's favor?" Another Miss Zhang surnamed Su Muxin enviously.

The gap between her family and the Su family is dozens of times. If it hadn't happened to be a classmate with Su Muxin for two years, she would not have been able to get into Su Muxin's top wealthy circle. The gap was too big.

Therefore, the richer the family, the more they value education, and even donate tens of billions to foreign universities in exchange for an admission notice to enter a top university.

In top universities, you can not only listen to lectures with world-renowned professors and scholars, but also make friends with the world's wealthy elites. Even ordinary classmates are all with excellent IQs. The future will not be experts and scholars in a certain field, or successful entrepreneurship. Became an emerging rich man.

If middle and high schools are to win over local giants and consolidate their status, then universities are to broaden their horizons, make friends with rich people around the world, and prepare for future multinational business.

"Brother son? No."

Su Muxin shook her head and smiled Yingyingly: "But he is indeed very powerful!"

Several young ladies looked at her in surprise.

Not the son of brother, but very powerful?

What is so great about ordinary people? At most, there is a bit of talent in a certain field, but if it can't be converted into a money-making advantage, no matter how powerful it is, it is no use!

"Whee."

Su Muxin secretly chuckled and said, "Within less than half a year, without investing a single cent, and relying on her knowledge beyond ordinary people to create a company with a market value of hundreds of billions, don't you say it is amazing?"

"One hundred billion!?"

The little ladies of the daughters opened their mouths into a o shape.

"Using 100 billion companies as a springboard, we will continue to raise 200 billion yuan."

Su Muxin stretched out two slender fingers and smiled Yingyingly: "You said, is such a boy so good?"

Boy?

Means still very young?

The young ladies present were already shocked.

Among them, the family with the best assets is only 100 billion, but Su Muxin's boyfriend has achieved this goal within half a year!

"Financing 200 billion..."

Miss Song's face was weird, "Mu Xin, wouldn't you... lie to us? Such a large financing is very rare in China, and most of them are just bragging. The real capital is only a few tens of billions."

"No way."

Su Muxin smiled and said: "My dad also prevented me from investing before, but after seeing that I had made 30 billion with one billion in half a year, he took the initiative to come to me not long ago and said he let me connect. He invested 30 billion into it. !"

The several daughters were completely speechless.

Even if they are from famous families, they know that tens of billions are not as simple as opening their mouths.

Let's put it this way, tens of billions of dollars have fallen into a small city with a population of one million, which is enough to shorten the development of this region by ten years out of thin air!

Chapter 1655: Su Muxin's caution

But now?

In half a year, Su Muxin used one billion to make 30 billion. Even though this is just equity that cannot be cashed out, it is quite amazing!

Equity may become worthless, or it may continue to double. It is not impossible to change from 30 billion to 100 billion!

Judging from the exaggerated financing amount of her boyfriend's company, she knows that the company's background and energy are quite complicated.

"Mu, Mu Xin." Ms. Zhang hesitated for a moment, and asked tentatively, "I wonder if your boyfriend's company lacks investment? Two hundred billion won't be gathered so quickly, right?"

Several people also looked over, Su Muxin immediately understood, and asked with a smile: "Do you want to invest too?"

Several of her sisters nodded repeatedly.

It is a fool to have money but not to make money. If you are really sure that Su Muxin's father will also invest, it is enough to prove that this project is very rich!

"This is a bit difficult."

Su Muxin took a sip of coffee in the cup elegantly, wondering: "It's not that I don't want to invest, but that the state-owned commercial bank led the investment, and the other major financial institutions, such as Xunrong, Jinbao, etc., generally It is difficult for players to enter the arena."

In the investment field, the capital carnival is often called a game, and those who follow up the investment are called players.

Just like playing a game, some people win, and of course some people lose. They all rely on their knowledge of the market and capital.

"Mu Xin, just help out~" Ms. Song began to play the emotional card, and some good girlfriends also pleaded with her.

Su Muxin suffocated their appetites, and said embarrassedly: "Alright, I'll go to my unmarried husband and ask, don't hold up too much hope."

Several people nodded repeatedly, expressing their knowledge.

Su Muxin smiled triumphantly.

In fact, as long as she is willing to invest, she will definitely be able to participate. The big deal is to set up an investment company and join it in the name of the company.

It's just that as the daughter of a trillionaire, she certainly knows one thing: when others ask you for help, don't agree to it immediately, otherwise others will think that this matter is a trivial matter to you, but he doesn't have too much. Great gratitude.

In addition, if every time someone comes to you for help, you agree without a roundabout, then he will come to you every time for help, and there will be no thanks.

Only when you are helping others, you also propose your own conditions. For example, if someone asks you to help bring meals, you will say that there is something temporary and you need to come back an hour late. If you can wait, you can help.

Su Muxin knows all the skills of getting along with people, so she dare to say that she will be the president of Baiyun Technology in the future!

"Hmph~" Su Muxin was very proud of herself, but suddenly she was a little annoyed. She held her chin and thought:

"Brother Li Yun and my Baiyun Technology Company have now reached a market value of 100 billion yuan, and now they have raised so much. What project does Brother Li Yun want to do? Mysteriously, the state-owned commercial bank of Zhonghai City and those big ones It's an exaggeration to invest money in the investment institution without investigating it!"

"No, my dad also followed up with the investment. Could it be that he heard something? Oh, brother Li Yun is really..."

Su Muxin took out her phone, looked at Li Yun's name in the address book, and put it down after thinking for a long time.

Forget it, ask him again in the evening.

...

After Hu Xiaomeng and Zhao Tianfeng got up and washed up, they went to the hot spring to take a bath. After washing away the traces left on their bodies last night, Li Yun sat at the hot spring again and picked up the phone to call someone.

"Brother Liao."

"Li Yun!"

Chapter 1656: investigation

When receiving Li Yun's call, Liao Hua was in the backyard of a small temple in a 2A-level scenic spot.

The temple, which should have been quiet and peaceful, has now been blocked by heavily armed soldiers, and even the scenic area has been closed.

There are only three monks and two disciples in the small temple. Now they are all gathered for temporary custody. No one can enter until something is confirmed to be safe!

"I'll ask one last time, is the statue of Maitreya Buddha actually carved by your abbot?"

Liao Hua confirmed and asked again. Several monks and the abbot of the temple, known as Master Yuanjue, nodded repeatedly.

"Police officer, I have said it many times." A red-faced monk in his forties showed a helpless expression: "The statues in the temple were all carved by ourselves and we chanted the scriptures. Some It can sell for one or two hundred, but there is absolutely no problem with some for one or two thousand!"

The monks met soldiers, and it was unreasonable.

Especially when the temples were heavily surrounded, these monks had six impure roots. When they were so scared, they basically showed their monthly income of tens of thousands. It just showed that these Buddha sculptures were all produced by the printing factory. Just put it in the temple to sell it.

Liao Hua was sitting in distress. Next to him, two rows of gunmen soldiers looked fiercely, watching the surroundings vigilantly. Before they set off, they had the privilege of unlimited firing.

This time the mission is extraordinary!

"No concealment?" Liao Hua confirmed for the third time, still receiving a positive answer.

He acted a little bit recklessly this time. If there are monsters or practitioners of the Six Demon Gates lurking in this temple, Liao Hua will undoubtedly bring people to death.

But it happens that the police station where the scenic spot is located is very familiar with the temple, and they can all testify that something strange happened in the temple. They have received several reports, but they have not been able to find out the anomaly.

An easy deduction is that there are no monks in the temple, otherwise the information would not be leaked out.

"In the evening, you will tell me about the Buddha carving and chanting." Liao Hua said again, "Remember, don't hide anything, this matter is not as simple as you think!"

"Really nothing to say!"

A few monks wanted to cry without tears. They were like other temples. They used some "local products" to increase the income of the temple, such as the Buddha beads that were opened, the Buddha statues carved by the masters, and the masters who were sitting hundreds of years ago left. The relics left by him, the finger bones left by Tang Xuanzang and so on.

Although these souvenirs are all deceptive, no one will pursue them. Secondly, other temples are also like this. Besides, people who buy these things are meant to be at ease. There is always no fool who thinks they are really useful. Bar?

As a result, there is something wrong with selling souvenirs now! Who does this make sense?

".....alright."

Liao Hua finally waved his hand, letting go of these unaware monks, and directly told Li Yun on the other end of the phone.

"Then what Master Yuanjue doesn't know?" Li Yun pondered for a moment. In the hot spring in front of him, two beauties, one young and one young, were laughing and playing in the water. The swimsuits they wore were very new and they were only in fairy tales.

Emperor's New Clothes.

"Brother Pervert, what do you look at! Humph!"

Hu Xiaomeng blushed, and angrily took out a handful of water from the hot spring and poured it on Li Yun, causing the bad guy to destroy her dead reservoir water last night, huh!

"Don't make trouble, we will go shopping later, and come back to soak in the hot springs."

"Just make trouble, hehe~!"

Chapter 1657: shop

As a result, Zhao Tianfeng also joined the ranks of splashing water to attack Li Yun, and was teased by two beauties in the emperor's new clothes. Li Yun was painful and happy, while dodge on the shore while calling Liao Hua.

"As far as my conclusion is concerned, what they don't know is, on the contrary, the consequences are much more serious than the traces of the six magic gates found in the temple."

"How to say?"

Liao Hua was taken aback, "It shouldn't be a good thing for people without the Six Demon Gates to engage in conspiracies here? Wait, Li Yun, why are there girls on your side...Oh, I see!"

Thinking that Li Yun is now in the hot spring of A Duo Mountain, soaking in the hot spring with the daughter of the Hu family and the daughter of the Guardian God Sword, Liao Hua suddenly envied him. Thinking of those two beauties, he couldn't help but think of Li Yun. It makes men too jealous!

"Ahem, you think."

Li Yun thought for a while, and was hit by a big holding of water again, and Xiaomeng Fox's voice came from her ears, and couldn't help but glance at the hot spring. The two beautiful "hot spring waters" with white blossoms are really beautiful and beautiful. Dazzling!

No, the volcano is about to erupt again.

"never mind!"

Li Yun interrupted the conversation and quickly said, "Brother Liao, you can resolve this matter normally, there should be no harm."

Harmful, but also a future matter, and has nothing to do with this matter.

"The Buddha statue...?"

"Let me study the Buddha sculpture first."

Li Yun did not hand in this Buddha statue with a cheeky face. He was quite interested in the enchantment of the Buddha statue, and he shied away: "That temple might have other abnormalities. You can arrange for someone to watch it. Maybe I can also pick up another Buddha sculpture. That's it, hang up, see you later!"

Li Yun hung up the phone directly and looked at the hot spring with fiery eyes, ready to jump in and punish these two naughty guys severely!

"Woo, bad brother Yun, don't come over!"

Hu Xiaomeng was suddenly frightened, and his two calves threw a series of splashes on the water and swam far away from Li Yun.

"It's done."

Compared with Hu Xiaomeng, Zhao Tianfeng seemed much calmer. Her expression of laughter just now became very serious. She stood up calmly and walked out of the hot spring pool with her slender legs of 1.2 meters, not minding Li Yun's gaze. He even glared at him with a cold and arrogant look.

"What else to watch? Go change clothes and get ready to go shopping!"

With that, the arrogant, noble, and calm Miss Zhao Tianfeng walked past Li Yun, leaving behind a string of footprints with water drops.

"Snapped!"

"what!!!"

Zhao Tianfeng screamed, his calm expression broke his skills in an instant, his beautiful face rose red, covering the place where Li Yun had beaten him behind, and staring at him in shame and angrily: "You, you, you! Bastard!"

Li Yunfeng lightly retracted his palm, and said leisurely, "What me, yours, hurry up and change clothes, let's go shopping."

"Go to hell!"

Zhao Tianfeng rushed over, and Li Yun quickly dodged. The playful movement between the two, the beautiful and indispensable sister Fengfeng, looked at Hu Xiaomeng who was still in the hot spring stunned.

"Sister Fengfeng, I was playing better than me, alas."

Hu Xiaomeng Ren Xiaogui sighed loudly, got up from the hot spring, ready to go shopping.

With Brother Yun and Sister Fengfeng.

Today and tomorrow, they will stay at Mount Aduuo, enjoy the holiday while shopping, and come back to the hot springs to play the king game at night.

"Woo, it feels good... There are no taboos? No, there is still a little taboo~"

Hu Xiaomeng blushed again thinking about what would happen in the next two days.

Chapter 1658: Yuwen's House (Part 1)

In a beautiful place with mountains and waters in the outer suburbs of the capital, there is a large undulating pavilion building, magnificent and beautiful, like an ancient royal garden, high walls and deep palaces, outsiders are afraid of looking at it, and they dare not approach half a minute!

This is the old house of Yuwen's family, one of the four major families of the rivers and lakes, for hundreds of years. After four dynasties and four generations, it has experienced ups and downs, met the Allied Forces of the Ten Nations, and took over the envoy of the cherry blossom country. The

tide of countless times has not been able to control Yuwen. The home is shaken by the slightest, letting the outside world change, within this radius, Yuwen's family always has the final say!

Even in the capital, Yuwen's family still has unimaginable energy, and ordinary high-ranking officials come to visit, and the subordinates here don't take a straight look at all.

The wealthy family that has survived four dynasties has an influence and heritage that outsiders can't imagine!

At twelve o'clock in the middle of the night, Yuwen's back mountain.

The place is still brightly lit, a circle of Yuwen's elders standing in front of a spacious palace, looking at the door with awe, waiting anxiously for something.

In the past, the elders of these Yuwen family were all pampered. People from the outside swarmed in a word at random, desperately trying to please them, trying to get some relationship with the Yuwen family.

It can be said that, as the elders of Yuwen, they have stood at the top of Huang Xuanguo. One sentence can break the lives and deaths of countless people, and the capital can be shaken by storms when they lift their feet!

Yuwen's house is too big.

But now, these elders craned their necks one by one, waiting anxiously in the middle of the night.

"The Patriarch has been in retreat for fifteen days. According to that person, if he doesn't break through, it is likely to appear..."

"Shut up!" The other person immediately scolded: "The Patriarch is the most hopeful person in my Yuwen family to break through to the Grand Master level in the past 300 years. He reached the level of Innate Consummation at the age of twenty-eight, and now it is just a small breakthrough. For the Patriarch of the Grandmaster Realm, it is nothing more than a hand-to-hand capture!"

The person who was talking just choked, and the faces of the others were not pretty.

Now the Patriarch of the Yuwen Family has reached the state of Innate Consummation at the age of twenty-eight, but the Patriarch... this year is already over fifty.

That is to say, in the past thirty years, the cultivation base of the Patriarch of the Yuwen family has been completely intact!

It wasn't until not long ago that I got the guidance of a mysterious person and hoped to break through the realm of masters!

For Yuwen's family, the Grand Master Realm is too important! This is the reason why they stand tall in the capital and are looked up to by countless outsiders who are regarded as important figures in the capital!

In the four dynasties and four generations, too many people entered Yuwen's house, offering gifts and loyalty, in order to have a good future.

It is not unreasonable that Yuwen's family is the head of the four big families in the arena.

As time passed, the surrounding atmosphere became more and more silent, and the hearts of the elders sank to the bottom little by little.

"Patriarch... Will there be anything wrong?"

A bitter voice sounded, but no one could answer.

"Damn it! That kid is really deceiving!"

The three elders of the Yuwen family looked resentful, and there was a strong killing intent in their eyes: "The patriarch's sons were killed by him. If this hatred is not reported, how can our Yuwen family gain a foothold in the capital?! How would others make fun of us behind the scenes? ?!"

On the front, no one would dare to point to Yuwen's family, but Yuwen Huayu, the owner of the family, was killed. If Yuwen's family didn't show anything and let their enemies go unpunished, thousands of people in a family would not want to raise their heads in the next twenty years!

No, as long as the enemy does not die, Yuwen's family will not want to regain their dignity, they can only live in his shadow for the rest of their lives!

"The brave kid!"

The elders' resentment was hard to calm down, and at the same time they felt a deep desolation.

Even though Yuwen's family still has a grandmaster realm in town, if even the Patriarch...

"boom!!"

At this time, a fire burst into the sky.

Chapter 1659: Yuwen's House (Part 2)

The elders were shocked and looked in the direction of the palace where the Patriarch was practicing in retreat.

A majestic and dazzling crimson light broke through the top of the palace, rushed directly into the clouds, and dyed the night sky fiery red!

"what happened?"

"Oh my God, there is a fire!!"

"No, the back mountain is on fire, go get water and put out the fire!"

"Wait, wait, the back mountain is forbidden by the family, no elders are allowed to enter the mountain, all limbs will be interrupted to expel the family, or ask the opinions of the elders!"

"But, where is the elder?"

All the people in Yuwen's house saw this domineering flame soaring to the sky. They panicked and wanted to discuss with the elders how to deal with it, but they were surprised to find that all the elders had disappeared!

The fire became stronger and stronger, and the children of Yuwen's family and the nurses who were surrounded by the back mountain because of the panic, even felt a burst of terrible heat coming out of it, as if a beast from the flame **** was awakening. The numbness of the scalp rose to the sky!

Suddenly, a harsh voice came from the back mountain:

"Li Yun, I, Yuwen Fu, vowed to cut you under the sword to avenge Yuer's tragic death!!!"

The sound was rolling, and the eardrums of the people up and down Yuwen's house buzzed. Everyone was horrified. When they looked at each other, Hou Shan rushed out of one person and shouted at them: "Patriarch breaks through the realm of masters!!!"

Everyone's breathing stopped instantly, as if they had heard an incredible and ecstatic news, everyone's heart stopped beating because of this.

"Really?" a Yuwen family subconsciously asked.

"certainly!"

The guards who served the Patriarch in Houshan were beaming, with a happy expression on his face that was even more excited than breaking through the Grandmaster Realm: "The elders told me that Patriarch has broken through the tenth level of the "Yan Di Zhen Jing" and deduced this town clan's exercises. To the supreme realm, the eleventh floor that even the founder of the Yandi Zhenjing has not reached! No, the twelfth floor, the thirteenth floor! Higher! Higher than this!"

The guard was so ecstatic that he started talking nonsense, "In short, in the future, our Yuwen family will become the world's unique existence. All schools can only look up to my Yuwen family and give orders to the world. Who dares not to accept? Hahahaha!"

Many Yuwen's children, servants, servants, and nurses opened their mouths in shock.

The thirteenth floor, the even higher Yandi Zhenjing?

Is the Patriarch reaching Grandmaster Consummation as soon as he breaks through the Grandmaster Realm? Can it be compared with the old predecessor of the Guardian Excalibur who sits in the center of the capital and has a reputation for hundreds of years? !

If this is the case, then Yuwen's family will really soar into the sky. From now on, Huang Xuanguo will let them from Yuwen's family walk sideways! No one dares to resist anymore!

"It's great, it's great!"

This group of people followed in ecstasy. They didn't even have the surname Yuwen. However, they were ascended to heaven alone. As servants of Yuwen's family, their status will surely rise in the future.

At Yuwen's house they have to walk with their heads down, but in the outside world, hum!

"Report!"

Another person rushed out from the back mountain, his face was very serious, so that these ecstatic people have reduced their expressions.

"Heirloom Master Order:

Three days later, Yuwen's family held a grand funeral for Young Master Yu who was victimized by an adulterer, to comfort Young Master Yu's spirit in the sky. "

Everyone acquiesced that they had heard about the murder of Master Yuwen a few days ago, but the owner of the family had been in retreat and did not immediately hold a funeral.

The man continued to shout: "The news came out, and people from all walks of life and families in the capital were sent to comfort Young Master Yu. If there is any disobedience, it will be regarded as against my Yuwen's family!"

Everyone's eyes widened.

The Patriarch actually issued such an order!

They have vaguely seen a stormy wave brewing. If the Yuwen family can survive safely, they will surely become the first family of Huang Xuanguo in the future, and no one can stop it from now on!

But if it's not enough...

"No, it won't! Patriarch has cultivated the 13th-level Yandi Zhenjing. It is really the supreme inner strength mental method that our Yuwen family has passed down for thousands of years. Patriarch is already invincible in the world!"

The people up and down in Yuwen's family can only persuade themselves in this way.

They also believed that if the Patriarch dared to make such a bold decision, it must be that his own strength had the ability to overwhelm the guardian **** sword that sits in the capital.

Chapter 1660: Funeral invitation

After three days of playing in A Duo Mountain, especially what happened on the last day, Li Yun finally released all the evil fires stored in his dantian these days and became satisfied.

In fact, he and Hu Xiaomeng have not been shopping at all for Zhao Tianfeng in the past three days.

The next afternoon, I went out and strolled around. After buying some snacks, Hu Xiaomeng yelled that he was bored. After eating the spinal cord in the bones, he knew the three people were delicious, so he went back to the Haraha Hot Spring Hotel. Inside.

The three of them closed their doors and beat the dogs, practising and studying hard, and verified a theorem of probability:

When there are enough samples, the probability of each event is close to the true probability.

The specific point is that within three days, Li Yun became emperor 175 times, Hu Xiaomeng became 180 times, and Zhao Tianfeng became 172 times. The probabilities of the three are nearly equal.

This is the application of mathematics in real life. Remember, students!

"Um?"

Zhao Tianfeng answered a call, his lazy expression immediately became serious, and asked: "Uncle Zhao, is Yuwen really so bold?!"

Hu Xiaomeng, who was lying on the tatami and resting lazily, raised her head and blinked curiously. Her big eyes were full of exhaustion, and she looked like she was going to sleep at any time.

It's still afternoon!

Li Yun also looked at Zhao Tianfeng, ignoring what was on her body at the moment, Li Yun felt an unusual smell.

He wanted to go back and deal with Yuwen's family again, but he didn't expect them to jump out instead!

"Yes."

Old Zhao, the bodyguard of the Zhao family who entered the Mist Killing Array with Zhao Tianfeng last time, replied: "It is rumored that Yuwen Fu, the head of the Yuwen family, has entered the realm of the master. Three days later, a funeral will be held to bury his son Yuwen and Huayu. Send someone to give condolences."

"It's arrogant," Li Yun smiled indifferently, Zhao Tianfeng also showed murderous intent, and whispered to Old Zhao: "If the Yuwen family comes, you tell them that Li Yun and I will be there by then!"

Based on her understanding of Li Yun, he would definitely make such a decision!

"And I!"

Hu Xiaomeng, who was lying on the ground, also raised his hand. Although she is not very attractive now, Brother Yun and Sister Fengfeng are both present. How could she be missing?

Besides, after seeing the magnificent sight of the underground volcano palace, she has long since paid no attention to what Yuwen's family is!

"...Yes, miss."

Old Zhao agreed in a low voice, with a lot of helplessness in his voice: "The master told me the same, saying that this matter will be left to the young lady... and the uncle."

Uncle!

In other words, the old elders of the Guardian Excalibur have agreed to Li Yun and Zhao Tianfeng. Although the two have not expressed their intentions in front of the two elders, Guangcong's daughter and Li Yun stayed in Aduo Mountain for a full week, plus The daughter has not sent a message back, knowing that things have developed to that point.

Zhao Tianfeng's face was slightly red, and he didn't say much, which was equivalent to tacit consent and hung up the phone.

"Get up, let's go back to the capital!"

Zhao Tianfeng stood up, moved quite awkwardly, frowned and gave Li Yun a roll of eyes. He picked up a pill from the low table next to him and said, "I'll take a recovery pill, are you okay?"

The first time she experienced such a thing, she didn't want to take the pill, but now she can't take care of so much in an emergency.

"Of course." Li Yun smiled slightly, and finally gave her another stare, and Li Yun quickly closed his mouth.

As for why the small recovery pill is placed on the low table, it is not enough for outsiders.
